Sights and Faces Seen

Rev. and Mrs. J. C. Thorns and children are spending two weeks in Silverton with Mr. Thorns parents before moving to New Mexico. Mr. and Mrs. D. B. Holder are occupying the Presbyterian Manse.

Rat Jowell is the last name on the growing list of those injured by yearling calves. Rat was riding on the running board of a car last week trying to catch a stubborn runaway calf. He was just about to capture the animal when misfortune intervened, and Rat wound up on the ground with one hand in bad shape as a result of trying to drive it into the dirt.

C. F. Moore, Penney Manager, has a triple interest in politics which, even though it may be a bit vicious, is very important to him. Mr. Moore has three brothers, Louis F., Hollis, and Frank, all of whom are in the second primary as candidates for office in three cities. Louis is campaigning for jobs as district clerk of Lubbock county, Hollis, of Bellvue, is in a run-off campaign with an opponent for assessor and collector of taxes in Clay county, and Frank is soliciting support for tax assessor and collector of Floyd county.

With the new Traffic Ordinance now in effect to be dutifully enforced, it can be expected to see Sheriff J. O. Newell and Deputy Wallace Cox running around with a tape measure to see that no cars are parked more than eighteen inches from the curb and a stop watch to see that no one parks overtime. What they really ought to do is to have the parking lanes repainted and new center lines painted.

A lesson in economics is to be found in the recent operations of (Continued on Page 10)

## Absentee Votes Accepted Aug. 8

Announcement was made this week by the Office of the County Clerk that absentee voting for the second Democratic primary will begin on August 8. Application for the absentee privilege will be accepted in the Office of the County Clerk at any time after August 8. No applications will be accepted after August 23. All applicants must present their poll-tax receipt before the absentee papers will be granted him.

Special attention is called to the fact that absentee voting will be allowed only in cases of absolute necessity and that a very accurate check is kept on the number of absentees turned in and the corresponding number of poll-tax receipts. All absentees are urged to establish their vote before August 23, which is the last day for absentee voting.

## Old Rate Kept On School Tax

The Texas State Board of Education last week fixed the per capita state aid to public schools at \$22. This is the same apportionment that has been effective during the current year. All hopes of a possible advance in state aid were dispelled when the Automatic Tax Board decided it was without the power to boost the property tax rate for school purposes.

## "Bells, Bells, Bells . . ."

### Housewives' Alarm Clock

"Goodness, there's the Catholic bell, and I haven't even started dinner."

How many Hereford housewives daily give voice to such a lament? That is a hard question to answer, but it is doubtless a fact that not a few husbands would have to wait much longer than they do on their meals if it weren't for the faithful and timely reminders afforded their wives by the tolling of the bell in the Catholic Church. Maybe they would find no dinner at all.

Repeated occurrence of the same phenomenon doesn't happen with innocent regularity without a reason.

## Hearing Opened On Post Office Bids, Accept 8

### Drivers Advised To Read Traffic Rules Ordinance

Strong suggestion to read the Traffic Ordinance printed on page two this week is made to all automobile drivers in Hereford. Provision for the immediate arrest without warrant of anyone who violates any part of the Ordinance is included in the text, and Hereford motorists are advised to acquaint themselves with the provisions of the document.

Special attention is called to Section 21, which forbids making a left turn from a right traffic lane or vice versa, and to Section 22, which defines right and left traffic lanes. Emphasis is also placed on Section 83, which forbids parallel parking at a distance of more than eighteen inches from the curb and angle parking when the front wheel is more than eighteen inches from the curb. Double parking on Main Street from First Street to Fifth is absolutely forbidden by Section 28.

### Riddle; Spell Otto Ott With Two Letters!

Otto Ott of Glen-Haven, Wisconsin, is in Hereford this week visiting his mother, Mrs. Mary Ott, and other relatives, in his old home fifteen miles southeast of town.

Otto is the only man in the world who can spell his full name with only two letters. Authority for this statement came from Robert Ripley, famed author of "Believe-It-Or-Not!"

Not long ago Ripley announced to the world that Otto is the only living man who can spell his name with two letters, and he gave him his choice of ten dollars cash or the "Ripley Book of Believe It Or Not" as compensation for the privilege of so using his name. Otto took the book.

Ever since that time Otto has been justly proud of his name. Maybe he'll pass it on to his son.

By noon they had taken 46 of the easy creatures, and were thus forced to spend the rest of the day at some activity other than fishing for trout.

### Oil Truck, Car Wrecked, Both Drivers Unhurt

A big Ford V-8 Phillips 66 tank truck lay badly smashed late Tuesday afternoon on East Tenth Street at a point about 200 yards west of its junction with U. S. Highway 80 as a result of an effort on the part of its driver to avoid hitting a Model A Ford as it crossed the tracks from the south and ran onto the highway in front of him. Jake Connor, Clovis, N. M., driver of the truck, and George Parker, Hereford, who was driving the car, both suffered only minor injuries. Witnesses said that the truck turned over three times. Parker's car knocked around, but it did not overturn.

Both Connor and Parker declined to make a statement, but several witnesses were in the Moore filling station. Connor was going west on the highway when the car driven by Parker started north onto the highway in front of him. The truck swerved sharply to the north and entered East Tenth Street in an attempt to avoid a smash-up. Parker, said to have defective vision, evidently had not seen the truck up to this time, for he also entered Tenth just as Connor turned into it.

The vehicles struck at an angle (Continued on Page 10)

## New Tractor Is Latest Feature At M-M Dealers

A new model Minneapolis-Moline Tractor is being displayed this week by the Davis-McCracken Implement Co. It is the big Standard "U" tractor which has recently been developed by the M-M Farm Machine Company.

### LIGHT DOCKET DRAWS SLIGHT INTEREST; TEN DIVORCES

The grand jury convened Monday morning to open the District Court in the 60th Judicial District at Hereford. A light docket faced the court, and appearances were slow. No indictment had been made Monday afternoon, and Judge Reese Tatum recessed the jury until August 15, the petit jury for the second week will begin service on August 8.

The court docket for this term listed only 48 cases in all. One of these was dropped, leaving 47 which demanded a hearing. Of these, thirty are appearance cases, eleven are non-jury, and six are jury cases. An unusual number of divorces appear on the docket, ten of the thirty appearance cases being divorce suits. No widespread interest has been manifest in any of the listings, and reports favor an exceptionally quiet session.

Since the case listings were insufficient to require a petit jury for the first week, no list of petit jurors was issued until this week. The following is a list of the persons drawn by the Jury Commissioners of the District Court of Deaf Smith County, Texas, at the February term, 1938, to serve as the petit jurors during the second week of the August term, 1938:

Glen Boardman, C. L. Bogle, Wirt Phillips, Ben McBrayer, Henry Griggs, L. J. Strassus, T. E. Rohrbach, T. F. Bohanan, J. T. Guinn, Carl B. Spratt, Jeff Robertson, Ted Young, G. W. ## No Alarm Rung, Fire Whistle Blows Anyway

Peaceful sleep was suddenly interrupted in Hereford late Friday night by the shrill blast of the fire whistle. Excitement reigned for several minutes while firemen and a few curious on-lookers rushed to the City Hall. But the whistle stopped, and the doors were never opened to let the fire trucks out on to the street.

Investigation showed that the alarm had been accidentally set off by a city worker who had intended to turn on the lights to look for some fire hose with which he could wash the streets. He mistook the whistle button for a light switch and unsuspectingly pushed it. The unexpected man from the whistle startled him so that he lost his wits and ran off, leaving the whistle to be turned off by someone who knew something about it. Ed Curdsinger, city marshal, attended to that, and a score of disgruntled firemen went back home at one o'clock in the morning.

## First Baby Incubator Used Here Is Found Satisfactory

The maternity ward of the Deaf Smith County Hospital has recently had its first occasion to use the baby incubator which was purchased some months ago. Hospital attendants report very satisfactory results from its use.

The incubator in an aluminum shield fitted with an electric light bulb and thoroughly insulated. The shield is in the shape of a half-cylinder about two feet long with a radius of about a foot closed at one end. A thermometer is attached to a thermostat so that the temperature is automatically kept at the point desired. The open front is fitted with a flannel curtain so that the baby can be covered completely with only its mouth left free to allow breathing.

When the instrument is in use, it is set down over the baby, which has previously been wrapped in a blanket, and the temperature control is set at the particular point required by the condition of the baby. The usual temperature of the incubator is around 95-100 degrees, but in certain cases it can be raised to as high as 110 degrees F. if necessary.

"We have a good incubator," say hospital authorities; "all we need now is some babies."

### TWO CLUBS ARE UNITED TO FORM CHILD STUDY GROUP

The Child Study Club and the Child Psychology Club met in joint session Thursday afternoon at the Methodist Church. Members of the two clubs will hold joint meetings until about September 1, when plans, now in the making, will be completed for a new organization. In a committee meeting held just previous to the regular meeting Thursday, a decision to retain the officers of the Child Study Club for the new club was made and it was also decided that the constitution and by-laws of both clubs be combined and revised by September 1.

An interesting program followed the business meeting. Mrs. R. P. Conaway talked on "Mental Hygiene For Mothers". She stressed the importance of mothers training themselves mentally to deal with their children. She pointed out the need for mothers to try to understand the motive behind the actions of their children for better understanding of the child.

In discussing an article found in "The Parents Magazine", on "Lighthearted Parenthood" Mrs. Cone Johnston quoted an author as saying "The job of being a parent is so serious that it is sometimes taken too seriously." She urged parents to not let busy days crowd out good times and fun with their children.

Those attending the meeting were Mesdames: Cliff Hicks, Cecil Lady, C. P. Grimes, R. P. Conaway, S. G. Witherspoon, N. W. Cayton, Dorothy Noland, Maude Story, Cone Johnston, and Elmer Patterson.

The Merchants scored all of their runs in the sixth frame. J. Knox and Gentry led off with a couple of singles, Knox taking second on Cogdell's error and going home on Gentry's single. Reports Need  
For Building**

AUSTIN, Texas—The State Department of Health while approving alum clearance projects to prevent over-crowding, and its attendant hazards, is at the same time housing over 135 employees on two-thirds of one floor in the Land Office Building.

When questioned about this condition, Dr. Geo. W. Cox, State Health Officer, stated that he knew that working conditions were far from ideal but until the Legislature provided more space nothing will be done about it.

Dr. Cox said, further, that the ideal solution would be the erection of a building, in connection with the one already existing for the State Hygienic Laboratory. The State owns a quarter block of land at this location and also a PWA grant could be secured so that the actual cost for such a building would be very small.

At present the records of millions of vital statistics, birth and death records, are housed in the State Health Department offices and contribute a serious fire hazard. A new fireproof building would provide protection for over 5,000,000 records that may be needed by Texans to establish proof of birth or death. These records if destroyed could not be replaced for any amount of money.

Such an arrangement would give adequate space for the health department and provide badly needed housing space for some other State department.

## Anniversary Celebrates 54 Years Of Married Happiness

### AGED COUPLE GAY AND SPRIGHTLY AT BIG CELEBRATION

Mr. and Mrs. J. H. Boydston, who were married at Cedar Hill, Texas July 29, 1884, and who have lived in Hereford 38 years, looked back over 54 years together Friday, as relatives gathered to celebrate the wedding anniversary at their home on Harrison Highway.

They moved to the Panhandle in 1900 and settled on three sections of land in Castro County. This land was sold later and they purchased their present home one half mile west of Hereford. Mr. Boydston holds the distinction of having had only one shave and hair-cut in a barber shop during his lifetime and he is now 75 years old. That one time was the day before he was married. He has always shaved himself and before his marriage the neighbor boys would cut each others hair. After their marriage Mrs. Boydston managed to get it cut pretty well and still holds the job.

Mrs. Boydston also 73 years old still carries on her household duties and often walks into town. She says she expects to live in Hereford the rest of her life for she loves the plains now, but when she first came she thought it was the jumping off place sure enough. Twice they made unsuccessful attempts to leave, coming back each time. She said she guessed it was because the people were so nice, but that they had to be nice, there were so few of them.

The anniversary was celebrated with a covered dish luncheon at noon. Gifts were presented and a watermelon feast was enjoyed in the afternoon.

Mr. and Mrs. Boydston have four living children, twelve grandchildren and nine great-grandchildren.

Children present included Mrs. Lulu Atkinson and her family of Grady, New Mexico, Mrs. Homer Gwynn and her family of Bushland, Mr. Jake Boydston and his family of Hereford. A daughter Mrs. B. R. Jennings of Roswell, New Mexico was unable to attend but B. R. Jennings was present.

Two granddaughters, whom Mr. and Mrs. Boydston raised from infancy and their families were also present they were: Mrs. Lloyd Cornett of Delphus, New Mexico and Mrs. Odell Ward of Plainview. Other guests were Mrs. Everett Hanna of Plainview and Mrs. James Wolfington of Hereford.

### TWO HEREFORD GIRLS ARE MARRIED IN DOUBLE WEDDING CEREMONY

Mr. and Mrs. Newman plan to make their home in Hereford. Mr. and Mrs. Weathered will live in Amarillo where he is employed with the Pitt Electric Com-

## SO THE PEOPLE MAY KNOW

To the voters of precinct 1. I have heard so many times since I have entered the commissioner race that I did not need the office financially. I want to explain, I am not asking for the office on that grounds.

If you will look up my record for the past twelve years in Deaf Smith County you will find my time has been worth far more than the salary of a commissioner.

Will state why I am a candidate for the office.

(1) I am a tax payer on several hundred acres of land in the county also city property therefore I am interested.

(2) I was asked to make this race by several of my friends, business men and farmers. They felt I knew valuation of property, labor, etc. I feel that this is necessary to be qualified to set in commissioner's court and deal justly for the people. I am not going to make a house call as I did before to insist you vote for me, if you see fit to elect me to this office I am ready to co-operate with county and city officials, business men and farmers to work out the problems that is the most beneficial to us all.

### Most Courteous Clerk Award To Be Given Aug. 8

"I don't know any more than you do," said John Roberts when asked who was the most courteous clerk in Hereford. "But everybody who attends the Star Theatre August 8 to see Danielle Darrieux in 'The Rage of Paris' will know," he added.

Mr. Roberts has made repeated announcements that the "rage of Hereford" is its most courteous clerk will be presented on the stage of the Star Theatre on the night of August 8, and that the lucky person chosen will be the happy recipient of a \$5.00 prize. An unknown person has been picked to visit the various business houses pass judgment on the clerk who treats him with the most courtesy.

No more information than that can be gotten out of Mr. Roberts. "Just come and see," he says.

### Crews Begins

(Continued from Page 1)

The project, stated that a steel tape and chain will be used exclusively on the job, and that, although the work will be done with all possible speed, accuracy will be the first consideration.

The County has been divided into districts, and a crew of two men has been placed in each district. This arrangement insures that the entire county will be covered. Land to be measured is all that which comes under the Work Sheet; i. e., all crop land, which includes wheat land that was har-

vested, grain and feed plots, summer fallow land, and borders, and also all grass lands that come under the Range Program.

"This measurement is not for the sole purpose of checking a man's farming operations," said Mr. Bateman, "but, in addition, to determine the actual number of cultivated acres in the county."

The project is part of a national program, and similar operations are being conducted in every county in the state. Farmers are urged to co-operate with the engineers in every possible way in order that the final figures will be accurate and satisfactory to all concerned.

"The first purpose of the engineers is to contact the operator," Mr. Bateman added, "and it is hoped that they can then work together."

The following men have been assigned to the seven districts into which the county has been divided: Bill Patton, James Bell, Roy Jackson, Coy Phillips, Jack Gilliland, W. C. Pitman, and R. A. Muller. They will prepare work sheets of the lands measured and check them with the applications for 1938.

The aerial maps of the county which were taken some time ago will be used as far as possible in making checks. The value of by the fact that the topography of the county is not the same as it was when the pictures were taken because of the changes in plowing and planting operations that have occurred since that time. The aerial maps will be of considerable value, nevertheless, in checking the outside boundaries.

### Rural Mail Box

(Continued from Page 1)

all over the nation have expressed great willingness to be of all assistance possible in helping every rural box owner to see to it that his box comes up to the required standard. As a matter of community pride it is urged that every resident on rural route examine his box carefully and make all changes and improvements necessary as soon as possible.

A movement of consideration will reveal the importance of the condition of the rural boxes. These boxes are the receptacles for thousands of dollars in cash and money orders, priceless letters, and documents that could never be replaced. It is for the benefit of the entire nation individually and collectively that a national "Clean Up Rural Mail Box Week" has been adopted.

"It seems our plain duty to resolve to aid our postal friends in eradicating any undesirable rural mail boxes in our town," says the Second Assistant Postmaster at Washington.

### Total Rains

(Continued from Page 1)

around Hereford than just ordinary records. As luck would have it, the largest and most beneficial rains came precisely at the right time to suit almost everybody. Wheat harvest was at the stage where a rain would hurt it least, and the row crops were at that crucial period where a continued lack of rain would most seriously damage them. Thus, the rains came, the row crop was saved and the minimum damage to the wheat was caused.

Now harvest is essentially over and most of the wheat land has already been plowed the first time in preparation for the next planting. Most of the row crop is at the present time in splendid condition. Most of it is too big now to cultivate, but the last rain came when it was small enough to allow the weeds brought up by the rain to be killed. Prospects for a record feed crop, both as to yield and food value, are the best in years.

But the crop is not made yet, and now everybody is ready for more rain. Those who have irrigation facilities have already begun to turn water onto their feed, and row-crop irrigation, barring rains, will be in full swing by the first of next week. Most of the farmers feel that one more good rain would cinch their crop. If that rain comes in time, a great many problems in and around Hereford will find a solution; if not—the answer is only too well known.

two Hereford firms. Gaston Baer traded a hat for a dozen roasting ears the other day, and not long ago H. A. Burk traded a living room suit for fifty one-hundred-pound sacks of potatoes. Buying and selling always was trading, whether it was done by direct barter or camouflaged by use of the money medium.

### Oil Truck

so the car was turned completely around, and the truck was sent careening crazily down the road. Jostling gasoline made the truck extremely hard to handle, but Connor had it fairly well under control. Then his left rear wheel struck a culvert and blew out a tire. Another Phillips driver who was driving a second truck behind Connor said Connor's truck turned over three times. Connor was able to walk out of the wreck.

"I think I got out pretty lucky," he said.

Phillips employees from Clovis righted the overturned truck, removed its tank to another frame, and hauled the wrecked chassis into Clovis for repairs.

### Dimmitt Plans

(Continued from Page 1)

there will be plenty on the program to keep everybody busy all day with speeches, ball games, rodeo, music and carnivals to attend.

The rodeos feature plenty of good stock, and everybody who attends is guaranteed a good time. Chief among the contests will be the featured items of Steer Ridding, Calf Roping, Bronc Ridding, Bull Dogging, and Wild Cow Milking.

"We have some mighty good prizes," stated C. E. Woods, rodeo manager, "and with the entrance fees so low we expect to have some of the most exciting exhibitions in the State."

All rodeo events feature two-day monies with a reduction in the entrance fee if both days are paid for at once.

man, County Agent. The camp will be held at the Sneed Ranch in Moore County, and will be well attended by members from all over the State. Only five members are allowed to go from this county.

"I will take five boys with me in my car," said Mr. Bateman, "and we will spend three days eating, swimming, and discussing 4-H problems."

Present at the camp will be H. H. Williamson, director of the Extension Service at A and M College, L. L. Johnson, State Agent for the 4-H Club, and many other officials. Twenty-two counties will be represented with a limit of five members from any one county.

"Choice of the site for the camp was made only after long conference," Mr. Bateman stated, "and we feel that the best spot in Texas has been picked."

Boys interested in attending the camp should see Mr. Bateman at once.

### Election Held For Delegates To State Meet

A meeting of the delegates appointed to the Deaf Smith County Democratic Convention at the Precinct Meeting two weeks ago was held in the County Court Room at Hereford, Texas, July 30, 1938.

The meeting was called to order by A. O. Thompson, who presided while the following officers were elected: Mrs. Ann Holman, chairman, and Fred W. Baird, secretary. The chief business with which the meeting concerned itself was the election and instruction of delegates and alternates to represent Deaf Smith County at the District and State Democratic Conventions.

The following delegates and alternates were chosen:

DELEGATE	ALTERNATE
E. S. Ireland	Alton T. Fraser
A. O. Thompson	A. H. Streu
Vern Witherspoon	A. T. Frye
V. T. Glenn	J. A. Roe
W. E. Dunlap	S. L. Walser

The District and State Democratic Conventions will be held after the second primary in August. The State Convention is scheduled at the present time to convene in Beaumont on September 6, a week earlier than is customary.

### Drivers Advised

(Continued from Page 1)

A minimum age limit of fourteen years is dictated to parents who allow children to drive. Section 4 of the Traffic Ordinance states that the parent permitting a child under fourteen years of age to drive "shall be deemed guilty."

The advice to read the Ordinance can stand repeating. Strict enforcement of the rules laid down therein is anticipated, and the document is full of definitions of the law that have not been very closely observed by Hereford motorists for some time.

Anyone arrested on the first offense of violating any of the rules in the Ordinance is subject to a fine of not more than \$100 on conviction, and arrest for a second violation within any thirty-day period makes the offender liable to a monetary fine plus prohibition from driving for a period not to exceed ninety days.
