Gaston Baer is solleiting some kind-hearted person with too many cats for one of the surplus number. His only stipulations are that it must be a kitten and that it must be white. Reason for Gaston's desire to have a cat is that Victor, his last cast who had been with him for fifteen years and to whom he and the whole family were very much attached, died a short while ago as the result of an unfortunate encounter with a dog. Now Gaston wants an animal to replace the lost Victor.

Orchids to Miss Sadie Lee Oliver, County Home Demonstration Agent. She is doing splendid work, and the whole County is better off for her being here. Farm women and Home Demonstration Clubs all over the county attest to the value of her work and the interest taken in it by those with whom she works to carry out her program.

W. N. Lemmon To Establish Here As Practitioner

Announcement that W. N. Lemmon, M. D., will take residence in Hereford was made this week. Dr. Lemmon moved to Hereford from Liberal, Kansas, and will live at 701 East 4th.

Dr. Lemmon states that he will do general practice work and surgery. His offices will be at his home at 701 East 4th.

The new Hereford resident is the father of Dr. J. R. Lemmon of Amarillo, well-known pediatrician. He comes to Hereford with his wife, his daughter, Mrs. D. P. Grosshans, and her two sons, Dickie and Charles, are with him this week, but they will soon leave for Tulsa, Okla., where they will make their new home. They are moving from Pittsburgh, Pa.

Rev. Beavers To Return To Pulpit

Rev. M. M. Beavers, pastor of the First Methodist Church, returned to his home late Tuesday from Amarillo, where he had undergone an eye operation in the Northwest Texas Hospital. His condition is good.

The pastor will fill his pulpit next Sunday. It was announced this week. He will preach a sermon on "The Healing of Christ," and he has declared Sunday to be Hospital Day in his church.

Attendants report that the operation on Rev. Beavers' eye was entirely successful. Bandages were removed from his eyes for the first time last Sunday. He is now wearing temporary shades which will be replaced with permanent glasses in about two weeks. His vision is expected to be restored to normal at that time.

West Texas C of C Asks Freight Rate Re-adjustment of State Commission

The West Texas Chamber of Commerce last Monday asked the State Railroad Commission to make drastic rate re-adjustments on freight moving within the state. Acting as principal petitioner and first witness in an important commission hearing, the chamber, acting through its general manager, D. A. Bansen, alleged discriminations against Texas shippers and consumers in favor of shippers in states east and north, ranging from 60 to 85 per cent on first-stage rates.

RAINFALL MEASURES 1.44 INCHES IN HEREFORD; GRASS BENEFITTED

Rains driven by a strong south wind that gradually let up as the day drew to a close deposited 1.44 inches of moisture in Hereford and vicinity Tuesday. Reports from various points throughout the county indicate that the entire county received an average of an inch of moisture.

Wheat harvest, which was just getting into full swing, was temporarily halted and will be crippled for the remainder of the week. The consensus of opinion among farmers and wheat men is that little damage has been done to the grain as yet, but that there is eminent danger of considerable loss if the rains continue.

While wheat growers and elevator men bemoaned the fact of the rain, cattlemen and farmers having row crops hailed it as being of untold value to grass and crops. The hot sun and dry winds of the long drought had all but finished most of the row crops in the county, and the rain came just in time to prevent their complete destruction. SURPRISE COMES TO LOCAL LADY; NEW YORK CALL

"Hello, Mrs. J. W. Alexander? New York calling. One moment please."

That happened last Monday, and in less time than it takes to tell it, Mrs. J. W. Alexander was talking to her grandson, Bill Montgomery, who is at the New York World's Fair. Bill was lucky enough to win one of the free telephone calls from New York to any place in the United States, given each hour by the Bell Telephone Company from their exhibit at the Fair.

Young Montgomery graduated from Amarillo High School last May, and the trip to the Fair was a graduation gift from his mother. He is one of a large party of young people who are attending the Fair, making the trip from Amarillo in two motor busses.

Bill spent his allotted time in an attempt to describe the gigantic proportions of the Fair.

Miller Auto To Feature Line Of Air Conditioners

Announcing the agency for Air-A-Way air conditioning machines in Hereford, Miller Auto Store today displayed conditioners of all sizes. R. B. Miller, owner, said that more than 100 of the conditioners have been stocked in the Hereford store.

"In addition to proved and successful operation, these conditioners have taken the high cost out of cooling homes, offices and business houses," he said. "We will be glad for all interested persons to visit our store and see these conditioners in operation—or to give them a free demonstration in their own home or place of business."

Wheat Checks Continue To Arrive Here

Conservation wheat checks continue to arrive in small shipments at the County Agent's office. Figures from that office show that checks to the total amount of \$18,820.54 have arrived and been distributed during the past week.

At the time of the last report published in The Brand, a total of \$183,437.87 had been received in wheat checks in Deaf Smith County. The checks received this week, when added to those already received, make the grand total for all checks received in this county equal to \$202,258.41. This leaves, in round numbers \$296,742 yet to be received in wheat checks by Deaf Smith County farmers. A total of 1,225 checks have been applied for in this county.

All applications in Hereford have been submitted for some time, and for this reason it is expected that the wheat checks will continue to come in regular small shipments until all the applications have been filled. Those who have not received their checks can expect them at almost any time. Notification will be sent to the recipient from the County Agent's office as soon as his check arrives.

Damages High From Hail In Perryton Area

Deaf Smith County wheat growers can be thankful for hot, dry weather when they consider how easily a change in weather might bring on destructive hail and rain. Damaging hail storms Sunday and Tuesday, June 11 and 13, left its mark on at least 25,000 acres of some of the best wheat in Ochiltree county. Estimated losses range from thirty to one hundred per cent.

The Sunday storm came in from north of Perryton about sundown. It was preceded by a large black duster and ended in hail and rain. The hail belt started some miles north of Perryton and extended across the state line, then traveled in a southeasterly direction to about two miles east of Perryton, and (Continued on Page 10)

Mary Turrentine Makes Honor Roll

A notice from Mary-Hardin Baylor College at Belton, Texas, states that Miss Mary Turrentine was one of the 84 students at the college to make the Dean's Honor Roll for the spring semester. She was one of twelve students in the entire college to make an average of "A."

Miss Turrentine is the daughter of Mrs. Al Werner of Hereford and is now at home with her mother for the summer. She is a junior at Mary-Hardin Baylor.

Kiddie Revue To Be On Star Stage

Johnnie West, Amarillo dance instructor, will present his Kiddie Revue on the stage of the Star Theatre tonight (June 22), it was announced today by John Roberts, local theatre manager.

The revue will present a host of Amarillo boys and girls ranging in age from five to fifteen, in novelty songs and dances. Costumes have been newly designed for the show. Features of the show will be two original songs composed by Mr. West, "Try Tapping," and "That's The Way to Sing a Swing Song." A tap dance performed while jumping rope and called "Roping the Tap," will also be featured. (Continued on Page 10)

O. T. Williams To Be Head Of New Lubbock Office

LOCAL CONSERVATION WILL CONTINUE OPERATION UNDER NEW HEAD

O. T. Williams, manager of the Hereford project of the Soil Conservation Service, will leave Hereford to take over the management of a new area office to be established at Lubbock, it was announced today. Mr. Williams will take office in Lubbock about July 1. H. H. Fennell, director of the Southern Great Plains region of the Soil Conservation Service, said.

The above statement will not affect the work of the Hereford project. The project, instead of being under direct supervision of the Regional office, will now be under the Area office. The next project manager will be announced in the near future.

The establishment of the new area office at Lubbock is part of a general move to decentralize the management and supervision of field operations of the Service in the interest of economy and efficiency. Fennell stated. Co-incident with the establishment of the Lubbock office will (Continued on Page 10)

Bud Brady Will Give Instruction In Life Saving

Bud Brady, former graduate of Hereford High School, returned Thursday morning from Camp Mystic, near Kerrville, where he represented the Hereford Chapter of the National Red Cross Aquatic School. While at Camp Mystic, Bud took life-saving courses under Commodore W. E. Longfellow, head of the Red Cross Life Saving Service, who was in charge of all the instruction at the camp.

Bud was enrolled in courses in First Aid, Water Safety, Swimming and Diving, and Small Craft Sailing. On completing the course, he received the Certificate of Water Safety Instructor. This certificate indicates that the bearer is competent to give instructions in life saving and swimming under Red Cross (Continued on Page 10)

Furr Food Opens At New Location

Furr Food Store began operation in its new location at 213 Main Street last Monday. The store is now in the same location it occupied when it was first established in Hereford. It was moved across the street in 1934, where it again moved to its old location Monday.

The new store has almost double the market space of the old market. Much new equipment has also been added to the market, and it is now one of the best equipped in the Panhandle. K. W. Dunlap, manager of the market, stated.

Complete new shelving has been placed in the store, and new vegetable containers and racks have been installed. Almost all the exterior furniture in the store is new. Harry Garrison, manager, stated.

"The management cordially invites you to look at our new store; it will be a pleasure to fill your order," Mr. Garrison said.

Firemen Return From Convention

Fred Brown, Onias Carroll, L. B. Bussell and W. C. Pitman returned Saturday from Harlingen, where they attended the 63rd Annual Texas State Firemen's Convention. They left on Monday, June 12. Expenses were paid by the Texas State Firemen's Association.

There were around 800 firemen in attendance at the convention. The next meeting will be in Houston, where \$2500 will be given away in prizes to the winning and competing race (Continued on Page 10)

Expect Harvest To Continue Tomorrow After Brief Delay

Announce Plan For 1939 AAA Wheat Loans

The base loan rate on stored wheat announced for Deaf Smith County under the AAA rules is 61 cents, on a No. 1 basis. This means that farmers can get 61 cents per bushel on wheat stored either in an elevator or on the farm plus an additional premium according to the protein content.

Farmers who borrow on wheat store on the farm will receive 7 cents a bushel for storage if the wheat is delivered to Commodity Corporation in settlement for the loan. If the price of wheat advances and is sold by the borrower there is no storage paid.

Good wheat, properly stored is the only security the farmer will be required to put up for a loan. In the case of elevator stored wheat, the grade and quality is based on the warehouse receipts; which are also good for security. On farm stored wheat, how- (Continued on Page 6)

Burk Delivery Pickup Is In Wreck Sunday

The delivery truck of the Burk Furniture Co., Hereford, and a 1931 Chevrolet crashed head-on on Highway 33 between Dawn and Hereford late last Sunday afternoon. Both cars were damaged considerably, but none of the occupants sustained any injuries. The vehicles did not overturn.

The Burk pick-up was driven by Jeff Burk, Jr. It collided with an Amarillo car driven by Bill Johnson. Burk stated that his truck, a new 1939 Dodge was considerably damaged. There were several witnesses to the accident.

The cause of the collision had not been ascertained.

Biggest Summer Short Course In Years Planned

Indications are that the Annual Texas A. and M. Farmers' Short Course will be the most successful in recent years this year. This report comes from H. H. Former Hereford Resident Buried Last Wednesday

Funeral services were held Wednesday at Electra for J. H. Brownlee, 54, Electra oil man and former resident of Hereford.

Mr. Brownlee died in a Temple Hospital. He is survived by his widow; two children, Bob Brownlee of Electra, and Wilma Brownlee of Batavia, Dutch East India; two half-brothers, Geo. O'Brien, Wicket, Texas, and Will O'Brien, Amarillo; a brother, Fred Brownlee, Endee, N. M.; three sisters, Mrs. Onnie Hines, Wichita, Kan., Mrs. Betty Horton, Ft. Worth, and Mrs. S. B. Edwards, Ft. Worth.

Both the O'Briens and the Brownlees are former Hereford residents.

Funeral Services Held For Former Hereford Woman

The death of Mrs. Macy Arner, who was the former Jewel Porter of Hereford, was announced here this week. Mrs. Arner was in a Houston hospital at the time of her death. She was removed to Waller, Texas, her home, for burial.

Jewel Porter was the niece of O. G. Hill of Hereford, and the sister of Earl Porter. She was born in Frisco, Texas, and later came to Hereford where she lived during her youth. She was a graduate of the Hereford High School. She was married to Mr. Maxey Arner in Hereford on June 20, 1920, in the home of her uncle, T. A. Hill.

Mrs. Arner is survived by her husband and two boys, Porter, age 11, and Earl Leon, age 5. Relatives in the Hill and Porter families and many friends mourn her passing.

RECOVERS TIRE THROUGH BRAND AD IN A HURRY

Two people in Hereford were made very happy this week through a service rendered by the Brand. Last week P. L. Carmichael ran a Classified Ad in The Brand stating that he had lost a new heavy-duty Diamond Chevrolet tire "somewhere behind the West Texas Feed & Seed Store," and offered a reward for its return to the Brand office.

Early Monday morning Tommy Conklin, who is employed at the Pitman Elevator, juggled a tire into The Brand office that fit the description of the lost article exactly. Now both parties are so much ahead of where they were last week, and the Brand can chalk up another quick-action result from its Classified Section. Use of Brand Classified Ads is a paying proposition any way you look at it.

Fraser Milling Co. Announces Sales Manager

Mr. J. W. McVay of Fort Worth has been selected for the position of General Sales Manager for the Fraser Milling Co., it was announced by officials of that firm this week. Mr. McVay assumed his duties with the company early this week.

Prior to his coming to Hereford, Mr. McVay had served as General Sales Manager for the Kimbell Milling Company of Ft. Worth. He went to the Kimbell Mills with thirteen years' experience with the sales department of the General Mills. His duties in Hereford will be similar to the line of work he has followed for the past fifteen years. Mrs. McVay and their daughter, Norma Dean, plan to join Mr. McVay in Hereford at an early date. Mr. McVay is now located at the Texas Hotel.

Both Farmers And Gardeners Report Good Results From Grasshopper Bait

Figures obtained from C. O. Phillips, agent at the Hereford mixing station, show that a total of 245,120 pounds of poison bait have been loaded from the Bull Barn here and spread on fields and gardens in an effort to control grasshopper infestation. Thirty thousand pounds of the arsenide were distributed during the last week.

The mixing station has been in operation here since May 1, but the greater part of the poison has been distributed in the last fifteen days. Mr. Phillips

YIELD RUNNING HIGH WITH AROUND 150,000 BUSHELS ALREADY CUT

Following a two-day delay as the result of general rains, farmers over this entire area looked forward to resuming harvest activities by Friday or Saturday.

Provided no additional moisture falls in this territory, some producers expressed a hope of continuing the harvest of their '39 crop Friday—and the harvest rush was expected to hit full stride by Saturday. More rain, however, will throw an entirely different light on the picture and continued rains could do extensive damage to the bright wheat prospects of this territory.

Slight Damage Now

The result of the recent 1.44 inches of rains here were today still problematic—and will not be definitely known until cutting is resumed and tests can be made on wheat harvested following the rains. The damage, if any, will come in the form of lower tests, according to grain dealers and farmers, and it is likely that only ripe wheat, ready for harvest, will suffer. Wheat with hard, mature grains may have been bleached by the recent rains. The "berry" in the grains of ripe wheat may have swollen as a result of the rain—and in this case, it will remain swollen—with a definite possibility of lowering the wheat grade.

However, the rains can only damage the ripe, mature wheat and hundreds of acres of wheat which was not ready to cut will escape without injury, since the rain fell in a gentle, slow manner and was not accompanied by hail. Even damage to the ripe wheat was only problematical; equally as many persons predicted "no damage" at all as were those who believed slight (Continued on Page 10)

Three Are Named Eligible To Get Post Office Job

A special dispatch from Washington states that the United States Civil Service Commission Tuesday certified three eligible candidates for the permanent appointment as postmaster here. The three men named as eligible on the basis of a competitive examination are James R. Lipscomb, Earl Wallace Wilson, and Dr. B. W. Wiltshire.

Final selection of the postmaster from these three men rests in the hands of Representative Marvin Jones, whose recommendation will decide which of the three will be appointed. Mr. Jones is expected to make his recommendation within the next week or ten days.

said. The bait is kept ready to mix at all times, but an attempt is made not to mix too much ahead of the demand in order that the user may get it as fresh as possible.

Application of the bait is not limited to large fields. Many garden owners have reported very satisfactory results from its use on flower and truck gardens. The Hereford Garden Club has found its use to be desirable on home flower gardens in regions where an infestation seems probable. (Continued on Page 10)

DEAF SMITH COUNTY, TEXAS AND PUBLIC HEALTH

"In a recent report in the Bulletin of the Texas State Department of Health, Dr. Geo. W. Cox, State Health Officer, makes the following statement: "The child entering school reflects the extent to which the parents of that child have been educated to the need for protection against communicable disease. To a certain extent, it reflects the actual knowledge of the community relative to disease."

Looked at from the point of view expressed in that statement, these facts become most significant. Of the 23,158 children who entered the first grade last year, only 47.9 percent of them had been immunized against diphtheria, and only 44.6 percent against smallpox. Yet, medical authorities have consistently stated that children of pre-school age are more susceptible to these diseases than are those old enough to attend school, and that the disease is up to fifty percent more fatal in very young cases. Of especial interest is this fact: in those counties where full-time public health services exist, 74.4 percent of the children had been vaccinated against smallpox before entering school; but in those counties without full-time service only 14.9 percent of the children were immunized against smallpox before entering the first grade.

This means that of the total number of children entering the first grade already vaccinated against smallpox—which was less than half of all children entering the first grade—over 85 percent were vaccinated in counties where full-time public health services existed. This is impressive testimony as to the value of permanent public health services in a community. It stands to reason that any county where such a service does not exist would benefit from the establishment of a permanent public health service which would provide for public health education through nurses who would make personal visits into homes, public lectures and picture shows, personal letters, newspapers, open forum discussions and the radio. The amount spent in the support of such an institution would be only a small fraction of the amount saved by both the individual and the county as the result of the non-occurrence of epidemics and near-epidemics, and of the recognition of early cases of disease and their treatment at a time when such measures are most effective.

Under present conditions, the schools serve as the chief center of health education and immunization practices in counties that do not employ a full-time health service. In fact, it is probable that most parents in these counties wait for the school to assume the responsibility of protecting the child against disease. As has been stated, the big objection in such a system, is that the child has passed the age of greatest danger for many of the communicable diseases at the time it enters school, and, quoting Dr. Cox, we continue in "closing the gate after the horse has been stolen."

When the number of counties in the State of Texas without full-time health services is considered, one does not wonder that Texas is one of the leading states in the union in smallpox incidence. Also, Texas, with only 4.5 percent of the population in the United States, supplies approximately 11.2 percent of the total deaths from diphtheria within the country. This is indicative of the position of Texas in relation to other states with respect to incidence rates of most of the communicable diseases.

Public health workers are to be commended for the excellent results they have accomplished in spite of the difficulties under which they are forced to labor. No one could say that the fault is entirely with them. But if the incidence rates and mortality rates from communicable diseases are to be reduced and the general health conditions in Texas are to be improved, the public health activities within the State must be expanded and enlarged. If the excellent records obtained in counties where full-time services are employed are taken as indicative, this means the establishment of more active, permanent, full-time health units and nursing services.

Deaf Smith County has no such organization. It does have an excellent hospital and a personnel capable of directing a full-time health service. It also has officials who recognize the value in human life and happiness to be derived from such a unit. In fact, it is just a few steps before establishing a full-time service. Will it take those steps?

Letters From THE PEOPLE

OPPORTUNITY KNOCKING AT OUR DOOR. "WILL WE HEED ITS CALL?" LET'S SEE!

The past few days I have had occasion to visit a great part of the High Plains area between the Canadian River and Lubbock, and I have found a deplorable condition existed in so far as feed crops are concerned, and I might state here that it is a matter of common knowledge that all of West Texas as well as Western Oklahoma, Western Kansas and New Mexico are suffering from the long drought and that the feed crop acreage that is up is the least that I have seen since this country was plowed up.

I would suggest for the consideration of the farmers who have irrigation plants that in my opinion there is a wonderful opportunity awaiting every one of them to concentrate every effort toward planting feed crops at once. This past feeding season has proven beyond a doubt that this is an ideal locality for feeding out any kind of meat animals.

We now have over 225 irriga-

tion wells in this territory that if they were kept running all through the growing season, would irrigate not less than 35,000 acres of grain sorghum crops. I would say that from present indications good feed is going to be scarce and will undoubtedly command a fair price. Why should we not take advantage of this opportunity and put this territory on the map. I firmly believe that the value of these feed crops would be much greater—possibly twice as much—as the wheat harvested by these 225 irrigation farmers.

Another thought, please: These farmers would not have to buy any irrigation machinery. Their outlay would consist only in operating expense. I have said many times to prospective purchasers of irrigation equipment that "No one should spend money for an irrigation plant unless they are going to operate it." This is true as all will readily admit.

I have discussed this matter with quite a number of our irrigation farmers and business men. Not one of those contacted has disagreed, and several of them are now busily engaged in putting this plan into action.

I do not believe, but know to a certainty, that opportunity is now here and waiting for us to

do something about this feed crop proposition. We have the fertile soil, the abundance of pure water, the pumping equipment ready to push the button or crank the old engine. All we need is squarely up to US and no one else. What will we do about it?

Wm. McGEHEE.

K-C's Down The Plowboys 10 - 8 In Close Game

June 19—The Knights of Columbus handed the Plowboys their first defeat of the season 10 to 8. The K-C slammed fourteen hits off of G. Fuller, their ten runs. Two walks and six Plowboys' errors were helpful.

The score was nip and tuck all of the way. Both teams tallied four times in the first. The Plowboys then took the lead with two more runs in the second. The K-C caught up again in the fourth after they had scored one run in each of the third and fourth frames. The score was again tied at the beginning of the seventh after each team had scored one run.

The last inning, however saw the K-C put the game on ice when they scored three times. The Plowboys could tally only in their last chance.

What Goes On Here??
A Column of Fun and Amusements
BY MARY JANE MORGAN

Out of the muddle of streets and affairs (isn't that dumb?) it is difficult to thread the routine of what the natives are doing, but one would gather that they are. Just for the experience, this time, we'll visit vicariously the better gutters and gossip gatherings in town in the name of: "What our neighbors are talking about." And who!

Splash! Tragedy stalked after the rain in North Hereford Tuesday night and although it never did catch up with the stuff, it left 23 dead chicks in its wake. Casualties of the moisture were: one older chicken affectionately known as "Small Fry"; seven less old chick of Rhode Island Roost; and fourteen babies of Duke's Mixture vintage. Twenty-two brother and sister chicks went about their bug hunting the next day, with drooping feathers and saddened hearts over the catastrophe.

Mrs. Alton Miller grieved unnoticeably over the crop of corpses at the burial. Mrs. Cooper Morgan shook her head commiseratingly and said these last words over them: "Twenty-three dinners gone to smash," and other witnesses allowed it was all "too bad." Another silent mourner there recalled how they had hatched on her birthday, and realized that the neighborhood would never be the same without the carefree little creatures scratching around in the flower beds and gardens. Sad. Here's a suggestion, though, to some enterprises. Why don't you approach Mrs. Morgan and ask: "Wanna buy a duck?"

All this reminds us that "EAST SIDE OF HEAVEN" is showing tonight and tomorrow at the Star Theatre, and in memoriam of the deceased, we do hereby dedicate it to "em' Bing Crosby will have charge of the song service, and Joan Blondell will assist.

Splash! Wink Valentine eats the earliest breakfasts? He razed other early-birds about the hour as they drowsed over their menus and ordered toasted coffee and strong, black doughnuts to keep 'em awake. He was wide-awake and it was 4 o'clock A.M.! Dorothy Nelle Trimble, alias "The Brat," and Louise Reinauer reckoned as how they just couldn't stand it. Judging from what Buford Crosthwait said, the rest of the slumber party which they were hunting had breakfasted at 12 o'clock that same night. Some fun! Amos the nightwatchman, blew his whistle at the thugs as they tripped down to the cafe, but when he saw they were not law-breakers, nothing happened.

Rain drove Helen Ann Snyder, Faye Crosthwait and Hertha Baer in the house from the "non-slumber" party! The sissies! With the flood-waters still around, it seems fitting to mention that "BLACKWELL'S ISLAND" will be here Tuesday. Just as if we didn't have enough islands as it is! John Garfield in the picture

is one reporter who gets stuck in jail for a stretch. But he fools 'em, snoops around, exposes everything, but that's different, no doubt. Don't you wish sometimes that these bothersome local excuses for reporters were jailed? Nating in the near past were Jack Russell, Billie Stoker, L. B. Russell, Inavey Burdine, George Jones, Binnie Lee Smith, J. C. Bellah and his girl friend from Groom. "Not bad, either."

Sons of the West had a week-old encore here at the Fireman's hall Tuesday night. After a lull in dance-giving, it seems the fire boys are trying to start things going once more for the summer.

Georgiana Bennington Pugh is this column's candidate for the cutest and most affectionate little gal in town for the week. She even likes the snoop, and that's something! What, we wouldn't know. Georgiana has two long, taffey colored pig-tails to distinguish her, in case you'd like to get a squint at her. She five years old, and proud of it. Incidentally, Georgiana talks just as wisely as a twenty-year old. Ha, whatta woman.

We feel another legion coming on, and this time it is the "ARIZONA LEGION" with George O'Brien doing most of the shooting. Nevertheless, if you value your standing in the eyes of several of us juveniles, you'd better not say anything complimentary about our hero. George O'Brien never fails to do all a cowboy should in his pictures, at least a 'screen' cowboy. Walk Brady, Bob Higgins or 'Banker' Muse (and we don't mean Kellar), who have seen and been real cowboys might have some different ideas on the subject, however.

Hertha Baer, Genevieve Eberle and Mary Virginia Eberle finally dragged in from California, and those kindergartens out there that they dub colleges. Ahem, of course, these Texas dumps are different. It's true, though, that after chatting with Hertha a few minutes, and your head stops whirling sufficiently, you begin to wonder if it really were a college, or some other type of institution.

Did you know that earthworms named Annabell Esmerelda, and Mae West always catch the biggest fish out here in the creek? Greta Garbo, as an earthworm, isn't very successful, because the fish don't bite much. Star fishermen Cliff Estes and sons haven't been consulted yet for affirmation, but this is virtually true.

"TARZAN FINDS A SON," is rated pretty high as a picture, and it ought to give your rusty imagination a good stretching. Johnny Weismuller and Maureen O'Sullivan are still lively people, and the young 'un too. Masterly review, eh wot?

"CURIOSITY HOUSE" shows itself Wednesday with Ann Shirley and James Ellison emoting. It's a college picture with a greek letter society complex. After a conversation with some of these "college kids" it seems a trifle tame, and all that, but it's going for a bargain... cheep! It's those chickens again!

Mr. and Mrs. Henry Hastings and son, Ralph Hastings and Mrs. Ralph Hastings of Panhandle, made a trip to Roswell, N. M., Saturday.

GROVER C. GOOD, YMCA EXECUTIVE VISITS HEREFORD

Grover C. Good, District YMCA executive from Dallas, and Tolby Galbraith, Amarillo, assistant to Mr. Good, stopped in Hereford long enough to speak to old friends on their way to Tucumcari and other points north last Tuesday. Mr. Good has been associated with the YMCA for over thirty years, and it is through his efforts that the Texas YMCA carries out such a magnificent program today. He is just back from the International YMCA Conference at Toronto, Canada, and the World's Fair at New York, where the International Peace Conference was held, representing forty nations.

PERSONALS

Mr. and Mrs. C. E. Miller and son, Charles Edward, of Marshall, Mo., spent Monday and Tuesday here visiting in the home of his aunt, Mrs. J. T. Pitman. They were enroute to California to attend the Golden Gate Exposition and stopped here for a short visit.

Ladies can bowl free from 9 a. m. to 10 a. m. at the Hereford Bowling Alley, Air cooled. Clean exercise and healthy recreation.

Mrs. Belle Hodges left Saturday for her home in Los Angeles, Calif., after visiting a few days in the home of her sister, Mrs. Mary Palmer. Mrs. Hodges spent the past winter and spring with her son and family at Wichita Falls and was returning to her home. She was accompanied by Mrs. Don Hardy of Wichita Falls, who planned to visit the Golden Gate Exposition.

Mr. and Mrs. Ralph Hastings of Panhandle spent the week-end here with his parents, Mr. and Mrs. Henry Hastings.

Mr. and Mrs. Gaston Baer returned Thursday from California, where they had gone for their daughter, Hertha, who has been attending school at the University of Southern California, at Los Angeles.

Mrs. Sam Reid of Lubbock, visited her parents, Mr. and Mrs. C. C. Ferguson over the week-end.

Donald Hicks, son of Mr. and Mrs. C. M. Hicks, arrived in Hereford Saturday for a few days' visit with his parents and friends before leaving for Satanta, Kan., where he will be employed by the W. W. Hill Construction Co.

Miss Erma Ray Robinson was an Amarillo visitor last Friday.

Mr. and Mrs. E. L. Brady spent last week-end with Mrs. Brady's parents, Mr. and Mrs. W. M. Storer.

Miss Lillie Mae Smith of Amarillo, spent Monday night and Tuesday with her sister, Miss Ona Fay Smith. Miss Smith is now working in the Amarillo Hotel Coffee Shop, and is a former employee of the Foster Cafe, in Hereford.

Miss Irene Knox, daughter of Mr. and Mrs. Boyd Knox, left today for Amarillo, where she will resume her studies as a student nurse at the St. Anthony Hospital there. She has been at home the past three weeks on vacation.

SOCIETY.

POLLYANNA CIRCLE MEETS
Pollyanna Circle met at the Methodist Church, June 15; with Mrs. M. L. Steele as leader. The meeting opened with a song, "The Touch of His Hand on Mine," followed by a prayer lead by Mrs. Steele.

Mrs. Cliff Estes gave the devotional taken from the Twelfth Chapter of Mark.

Those present were Mesdames M. E. White, L. J. Bennett, Troy Womble, M. L. Steele, W. T. Batchelor, Cliff Hicks, J. D. Stortey, Alice Swigart, Ida May Rog-

ers, Emil Bowsher, E. B. Black, L. A. Petree, F. I. Greer and J. B. Hammer.

CHRISTIAN ENDEAVOR MEETING
"How do we know right from wrong?" was the theme discussed at the meeting of the Christian Endeavor of the Christian Church at the church Sunday evening. Erma Faye Robinson was leader.

Basil McKinley gave the opening prayer and Vivian Olson read the poem, "Personality for Reform." Rev. Redford presented the scripture comment. A story, "The Hermit and the Angel" was told by Ann Cockrell. After a short business session when plans were discussed for the encampment at Ceta Canyon to be held June 26, through July 2, the meeting was concluded with the fellowship circle.

WE SALUTE KING WHEAT

MR. FARMER:

During this MAD HARVEST RUSH call on us for repairs for your granaries, truck bodies and combines. Our stock is in extra good shape. We unloaded sixty thousand feet of lumber within the past month, just for your convenience. We are open as early as six-thirty in the morning, and you can find me at 601 East Fourth Street after closing. Will be glad to wait on you, when you get to town.

NOTICE TO CREDITORS OF ESTATE

Notice to Creditors of the Estate of Frank Henderson, deceased. Notice is hereby given that original letters of administration upon the estate of Frank Henderson, deceased, were granted to me, the undersigned, on the first day of May, 1939, by the County Court of Deaf Smith County, Texas. All persons having claims against said estate are hereby required to present the same to me within the time prescribed by law. My residence and post office address is Hereford, County of Deaf Smith, State of Texas.

GEO. L. MUSE
 Administrator of the estate of Frank Henderson, deceased.

THE STATE OF TEXAS

To the Sheriff or any Constable of Deaf Smith County—Greeting:

YOU ARE HEREBY COMMANDED TO SUMMON James C. Runton, Haskell Runton, being the same and identical person as H. H. Runton, Pearl Runton Holman and S. Q. Holman, the residence of each being unknown, by making publication of this Citation once in each week for four successive weeks pre-

vious to the return day hereof, in some newspaper published in your County. If there be a newspaper published therein, but if not, then in the nearest County, where a newspaper is published, to appear at the next regular term of the District Court of Deaf Smith County, to be holden at the Court House thereof, in Hereford, Texas, on the Fifth Monday in July A. D., 1939, the same being the 31st day of July, 1939, then and there to answer a petition filed in said Court on the 10th day of January, A. D. 1939, in a suit, numbered on the docket of said Court No. 2450, wherein Minnie Alderson and W. H. Alderson are Plaintiffs, and Carnole Runton, Flora E. Robinson, James Ervin Robinson, Wilson E. Runton, Bertha E. Coplen, Bessie M. Womack, James C. Runton, Haskell Runton, Pearl Holman and S. Q. Holman are Defendants, and said petition alleging that plaintiff Minnie Alderson is the owner of an indebtedness of \$113.18 evidenced by paving certificates and mechanic's lien contract covering and creating a lien on lots 1 and 2 and the North 46 feet of lot 3, in Block 43, of Additions to Hereford, Deaf Smith County, Texas, and at the request of Defendants, purchased said indebtedness from the United Fidelity Life Insurance Company, owner of the indebtedness and liens on February 17, 1938, for the sum of \$209.29; plaintiff was required to and did pay tax-

es levied and assessed against said land to protect said indebtedness secured by a lien thereon, to the City of Hereford \$74.25; the Hereford Independent School District \$57.49 and Deaf Smith County \$15.25; and by reason of such payments on behalf of the defendants, alleged to be joint owners of said land, plaintiff has a lien on said land securing the amount of such payments, and is entitled to judgment for all of such payments made, liens established upon said property and foreclosure thereof, interest from the date of payments, attorneys fees and costs of suit, for all of which plaintiff prays; further that the contract creating the mechanic's lien dated March 29, 1928, provides for the contractor and his assigns to hold said property in trust, including the occupancy thereof; that defendants are insolvent and permitting the property to waste to the irreparable injury of plaintiffs, and receiver should be appointed to preserve and rent such property until sold under foreclosure, for which plaintiffs pray.

Herein Fall Not but have before said Court, at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Hereford, Texas, on this the 14th day of June A. D., 1939.

R. L. THOMPSON, Clerk, District Court, Deaf Smith County, Texas.

(24 miles west, 4 south) MRS. J. N. MESSENGER Lewis Smith and sons started cutting wheat last Friday; it is making 20 to 30 bushels per acre. Several men around Friona are cutting wheat that is making from five to ten bushels more per acre than they had estimated.

George C. Messenger and his mother, Mrs. J. N. Messenger, transacted business in Hereford, Monday.

Mr. Brookfield and George C. Messenger have been spreading grasshopper poison around their fields for the past ten days.

All row crop in this area seems to be lost from lack of moisture.

Herb Hultman is cutting some fifteen-bushel wheat in the dry northwest region of the county.

Mrs. Linnie B. Johnston and Miss Edith Franklin of Lubbock, were in Hereford Sunday, to visit Mr. and Mrs. Frank Terrell.

Federal Wheat Allotments In '40 Are Larger

Deaf Smith County wheat growers who have not applied at the County Agent's office for their 1940 acreage allotments must do so before August 31, it was announced this week.

Those who fail to make application before the deadline face a possibility of having to pay a sales tax on their entire yield, and certainly will have to pay penalties deducted from their conservation payment, regardless of whether or not there is a control program.

The National Wheat Allotment has been raised from 55,000,000 acres in 1939 to 62,000,000 acres in 1940. The 1940 allotment for Texas is 4,221,706 acres. This larger allotment will be reflected in larger county apportionments.

Any farm on which wheat has been grown in any one of the last three years is eligible for a quota, and allotments will be made to those who plant wheat for the first time in 1940.

The wedding took place at the Polk Street Methodist Church with Rev. C. C. Grimes officiating. Mr. and Mrs. Beyer also attended the reception held at the home of the bride's parents, after the wedding.

Mrs. Bates is the only daughter of Mr. and Mrs. P. L. Beyer of Amarillo. She has visited her grandparents here on numerous occasions.

Mr. Bates is a nephew of the late Mrs. C. C. Chenoweth of Abilene, who lived in Hereford for several years. He was reared in the Chenoweth home in Abilene, but has lived in Amarillo recently.

The couple will live in Dumas, where he is connected with an oil company.

Chas. Ferguson on Church Program

Special music at the Presbyterian morning worship Sunday was given by Mr. Charles Ferguson, son of Mr. and Mrs. C. C. Ferguson of Hereford. The selection rendered by Mr. Ferguson was "The Earth is The Lord's," by Frank Lynes. He was accompanied at the piano by Mrs. A. J. Schroeter.

Mr. Ferguson has been studying voice for the past several years in Houston, where he has given several concerts and has participated in operatic productions given by the Little Theatre Guild.

Round-Up Will Be Postponed

Notice was received here this week that the Tenth Ranchmen's Round-up of the Sonora Ranch Station has been postponed due to the recurrence of infantile paralysis in the general vicinity of the Sonora Ranch Station. The announcement was made by Superintendent W. H. Dameron of the Sonora Station. The Round-up was originally scheduled to be on June 27 and 28, 1939. When a definite date has been set for the occasion, it will be announced in this paper.

ever, the farmer must make certain that his bins are in condition to pass inspection and be pronounced "fit" before the wheat is stored. To meet these specifications the farmer will need bins to store the wheat without loss of quality, provide protection against thieves, rodents, and insects, and permit effective fumigation. Bins must also be located so as to require forceable breaking before entering after they are sealed.

In case of farm stored wheat the borrower agrees to deliver the identical wheat of the same

GROW
grade and quality as when the loan was made. Farm stored wheat is eligible for a loan after it has been in the bin for 30 days.

Interest rates on all loans—both farm and elevator stored wheat—is 4 per cent per annum from the date payable at maturity. Maturity date on all farm loans is April 30, 1940 with privilege of earlier payment. If wheat is delivered to the government before maturity date, then one-half cent per bushel per month storage is paid. Maturity date on elevator stored wheat is seven months from date of warehouse receipt, or April 30, whichever is earlier.

A service charge of 1 cent per bushel is made on farm stored wheat, \$3.00 at the time of application and the remainder on completion of papers. If a protein test is wanted an additional charge of 75 cents is made. A service charge of one-fourth cent per bushel, minimum—\$1.50 is made on elevator stored wheat.

Applications for loans can be made with T. P. McCollister in the County Agents Office, and also at the elevators.

In order to secure an AAA

loan on his wheat it is necessary that the farmer be participating in the Federal Farm Program under which wheat allotments are made.

Vacation Season Gives Promise Of Many "Just For Fun" Parties Here

Now that the time for study clubs is in the background and all thought of club work is far away, informal "just-for-fun" parties mark society's calendar, along with pre-nuptial affairs for brides-to-be.

BRIDGE TEA

Informal and enjoyable was the bridge-tea given by Mrs. Colby Conkright at her home at 404 McKinley Street Thursday afternoon.

Arriving early in the afternoon for games of bridge were Mesdames C. H. Dyar, Meade Halle, J. W. Witherspoon, T. J. Carter, C. F. Moore, E. B. Hedrick, Glenn Weir, S. P. Rosson, C. C. Acker, O. E. Easley and John Olson.

Those who came for tea were Mesdames W. J. Stanford, W. M. Emmons, J. W. Walker Jr. of Gorman, John McLean, W. E. Dameron, J. B. Stoker, Frank Daniel, Paul Mathers and Miss Jerry Walker of Gorman.

Decorations were carried out in pastel shades. Refreshments were served from a lace-covered table which was centered with mixed garden flowers featuring a variety of pale colors and flanked by pink tapers. Pastel shaded vases and other tea dainties were used. Pink petunias and baby's breath in small pottery vases, which repeated the colors suggested by the flowers, centered quartet refreshment tables and served as cut prizes. Those receiving the cut prizes were Mesdames J. B. Stoker, W. J. Stanford, O. E. Easley and Meade Halle.

High Score award in the games went to Mrs. E. B. Hedrick.

MRS. BRUMLEY LEADS BIBLE LESSON

Mrs. Homer Brumley was in charge of the lesson taken from the Bible Study "Songs of the Night" at the meeting of the Little Fox Circle of the Women's Missionary Society of the Methodist Church, Friday afternoon. The meeting was held at the home of Mrs. Bob Wilson.

She discussed passages of scripture found in the books of Jeremiah and Isaiah.

Mrs. B. M. Wiltshire, president, presided over the business meeting. The next meeting will be held July 7, at the home of Mrs. C. F. Moore.

The Little Fox Circle is an organization for young married women of the Methodist Church. And young women of the church are invited to meet with the group and enjoy the course of study.

MISSION PROGRAM ENTERTAINS Y. W. A.

Y. W. A. of the Baptist Church was entertained with a program on "Missions" at the home of Miss Glennis Cockrell, Monday evening.

Miss Avis Matthews was in charge of the lesson which dealt with "Missions in the Next Generation." Mrs. Billie Roberson conducted the Bible Study, and the following talks were made: Missions, Dorothy Funderburg; Prayer, Glennis Cockrell; Personal Service, Thornton Shirley; Stewardship, Inez Funderburg. Special music was furnished by Bobby Raye Posey and Abbie Longbottom.

After the closing prayer, given by Avis Matthews, a social hour was enjoyed.

Attending were Mesdames Jack Roberson, Billie Roberson, Travis Caraway, J. W. Cockrell, Edgar Russell, Misses Dorothy Nell Adams, Audrey Cockrell, Inez Funderburg, Dorothy Funderburg, Glennis Cockrell, Avis-Matthews, Thornton Shirley, Anna Jo Owen, Bobby Turner, Odie Matthews and Bobby Raye Posey and Abbie Longbottom.

The next meeting will be held at the home of Mrs. Travis Caraway Monday evening.

MISS ELSIE WILKINS IS CHOSEN CAMP FIRE GIRLS GUARDIAN

Miss Elsie Wilkins has been chosen as the new Camp Fire Girls Guardian, to succeed Miss Mary Elizabeth Stanford, who has directed the activities of the local group since its organization in 1937. During the past few months while Miss Stanford was attending school at Texas Tech, Mrs. Earl W. Wilson and Mrs. J. T. Gilbreath Jr. have sponsored the group.

The first regular meeting to be held in the Camp Fire Hut, which has just recently been completed on the inside, was held Monday morning. Plans were discussed for future summer work and a vote of thanks was extended to the Boy Scouts whose daily good turn resulted in the weeds being chopped on the hut grounds. Landscaping premises around the hut has been adopted by the Hereford Garden Club as a civic project and plans are well under way for the improvement and beautification of the property.

A program was furnished for the Monday morning meeting by Ruth Temple Hastings, Rachel Ireland and Nadine Newell.

A treasure hunt has been planned for tonight, which will begin at the hut and lead eventually to Hereford State Park, where a picnic supper will be prepared and enjoyed.

Camp Fire Girls do their best work during the summer months, said Miss Stanford, due to the added responsibilities of school work in the winter, and members of the group are working hard for honors and awards now that vacation time is here.

AUXILIARY HOLDS GROUP SESSION

All groups of the Women's Auxiliary of the Presbyterian Church met Tuesday afternoon at the church, with group 3, with Mrs. Paul Mathers chairman in charge of the program. Mrs. Clay Ridgway gave the devotional on "The Church Marches On," followed by musical numbers given by Charles McDonald of Ozona; with his violin, and Bobby Jennings who sang, "The Sweetest Story Ever Told."

Mary Broadwell told of the Presbyterian hospital at Porto Rico, the training of student nurses and their work in the Christian mission field.

Mrs. Paul Mathers gave a talk on "The Message of Christ," and its relation to missions.

Group chairmen reported on meetings held the previous week.

The next meetings will be held in groups. Group 1 will meet at the home of Mrs. Vern Witherspoon, July 3. Groups 2 and 3 will meet on July 6, the places to be announced later.

MISS SPRADLEY IS HONORED AT SHOWER

Miss Gwendolyn Spradley, bride-elect of Mr. Ralph Sellmeyer of Carlsbad, N. M., was honored with a lovely tea and shower given by Mesdames O. E. Easley, W. C. Pitman, C. A. Skelton, J. A. Pitman, C. C. Rockwell and Miss Elvose Pitman, Monday afternoon at State Park clubhouse.

Expressive of summertime hospitality the clubhouse was filled with flowers and fresh greenery. Lavish bowls of delphinium and orange daylilies were used and baskets of pyramiding yellow-throated garden lilies were arranged in front of the unused fireplace.

For the refreshment table mirror reflected peonies shading from pink to orchid were used with crystal candelabra and lighted pink tapers. Miss Pitman and Mrs. W. C. Pitman presided.

Guests were greeted by Mrs. J. A. Pitman and Mrs. Skelton, and the receiving line was made up of Mrs. J. W. Spradley, mother of the bride-to-be, Miss Spradley, Miss Lillian Chambers of Canyon, Mrs. Elizabeth Womble, and Mrs. J. D. Nell. Mrs. Easley presided at the guest book and introduced members of the receiving line.

Others in the house party were

Mrs. W. E. Dameron and Mrs. Jack Wayland.

Mrs. J. C. McCracken, Mrs. A. C. Thompson and Mrs. B. M. Wiltshire furnished musical selections at intervals throughout the afternoon.

Gifts were attractively displayed on tables arranged about the room.

Miss Spradley, daughter of Mr. and Mrs. J. W. Spradley, and Mr. Sellmeyer are scheduled to be married at the home of the bride's parents next Saturday, June 24.

CHURCH GROUP ATTENDS ANNUAL DISTRICT CAMP

Among the 345 boys and sponsors from district 9 to register at the annual district camp sponsored by the Woman's Auxiliary Union of the Baptist Church which was held at Ceta Canyon this week, were 24 boys, Rev. J. Lance, Junior McBrayer, E. W. Womble, Ellis B. Posey, G. P. Owen Jr., Gene Matthews, Riley Vernon Carlton, Walter Ayres, Geo. Ellison Stambaugh, George Pace, Leroy Boyer and Billy Gene Marrie.

BAPTIST GROUPS SPONSOR MISSION STUDY SCHOOL

Five groups, all different organizations of the Baptist church met at the church Wednesday for an all-day study program.

The morning sessions opened at 10 o'clock and lasted until the noon hour, when lunch was served in the basement of the church.

The afternoon sessions began at 1:30 and were concluded at 3 p. m.

Each group studied books dealing with the experiences of missionaries and their work both in the foreign and home fields.

Those directing the study were Mrs. O. G. Hill, adults; Mrs. Jack Roberson and Mrs. Art Manjeot, Y. W. A.; Mrs. Russell Roach, Intermediate G. A.; Mrs. O. T. Williams, Junior G. A.; and Mrs. Phil Radovich, Sunbeams.

Enrolling were 27 adult women, 7 YWA girls, 7 Intermediate G. A., 10 Junior G. A., and 12 Sunbeams.

For the summer months regular meetings of the Woman's Missionary Society will be held at 9 o'clock on Wednesday mornings, instead of in the afternoon as has been the scheduled time of meeting.

PARTY IS GIVEN FOR BRIDE-TO-BE BY DAMERONS

Miss June Dameron, assisted by her mother, Mrs. W. E. Dameron, entertained yesterday afternoon at her home with a party for Miss Gwendolyn Spradley, bride-elect of Mr. Ralph Sellmeyer of Carlsbad, N. M., whose marriage will take place Saturday, June 24.

Baby's breath, sweet peas and rosebuds were combined to carry out a pink and green color effect. In the dining room the table was laid with an antique lace cloth, an heirloom which belonged to Mrs. Dameron's great grandmother. Centering the table was an ivory gift especially suited to the pink rosebuds, and sprays of baby's breath that filled it. Green candles, burning in ivory holders, added to the pleasing effect.

Appointments for bridge games emphasized the bridal theme with table covers, tallies and prize wrappings repeating the colors chosen. Partners were found by names of famous lovers. Game award went to Mrs. Holman, cut prize to Mrs. Gilentine, and honor guest prize to Miss Spradley. All prizes were later presented to Miss Spradley.

Bisque cream, bride's cake with green icing and tall glasses of green punch were served to Mesdames George V. Stambaugh, J. A. Pitman, O. E. Easley, J. D. Nell, Seth B. Holman, H. A. Close, C. C. Acker, R. P. Coneway, Colby Conkright, Homer Fox, S. P. Rosson, F. H. Oberthier, Alton Fraser, J. H. Pitman, Miss Elvose Pitman, the honoree and Mesdames Jimmie Gilentine, Jack Wayland, J. B. Stoker, J. W. Spradley and J. P. Slaton, who came for tea.

CIRCLES HAVE JOINT PROGRAM

Circles 1 and 2 of the Woman's Missionary Society of the Methodist Church met at the church yesterday afternoon for a World Outlook program, with Mrs. Wm. McGehee as leader.

Mrs. I. H. Spratt gave the devotional from Matthew 25. Prayers were given by Mrs. J. F. Ward and Mrs. Wm. McGehee. Mrs. R. W. McCall presented the principal talk on "Widening The National Outlook."

Mrs. J. F. Ward, president, conducted the business session, when plans were furthered for the missionary box to be packed soon.

Do you know

how little it costs?

*Most people who deny themselves the luxury of a CONSTANT HOT WATER SUPPLY... do so because they don't realize how cheap it is... with a GAS STORAGE HEATER, tightly insulated, this type heater makes every B.T.U. count double... and keeps your water always piping hot... for only a few pennies per day... Come in and see for yourself.

Club Reporters Get Instructions From H-D Agent

"Club reports must be accurate," Miss Sadie Lee Oliver, CHDA, told a group of home demonstration and 4-H Club reporters at a meeting Saturday afternoon at the court house in Hereford.

"A good report gives important information which may be useful to someone who was not present. Occasional visits to the editor will serve to check up on ones reports. Coming to club meetings well equipped with extra pencils and paper is a necessary part of being a good reporter."

Club photography was discussed and a number of pictures were examined, with Miss Oliver explaining the important things about them. A meeting about photography will be held the last of September.

Reporters present were Miss Ira Jeanne Ricketts, Progressive; Miss Bettye Lea Valentine, of Wyche 4-H Club; Mrs. Merlin Kauf, Westway; Mrs. Grady Persons, North Hereford, and Mrs. Carl Wimberley of Dawn.

"I thought I knew
all about automobiles!"

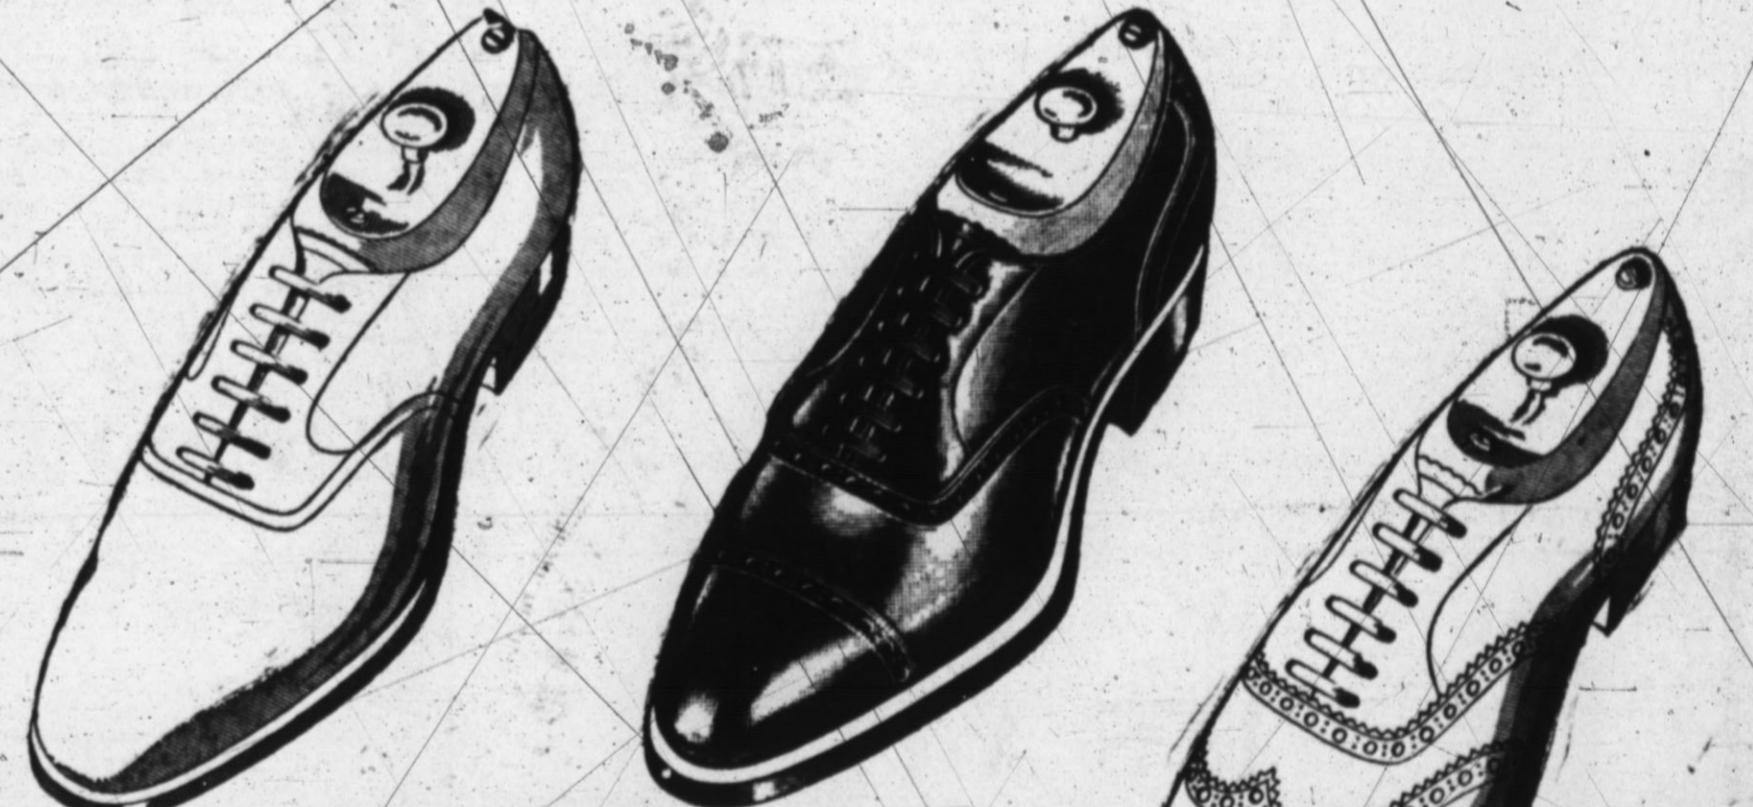

A LOT of folks have had their eyes opened wide by a ride in a 1939 Ford V-8. They just didn't realize how much more value and how many improvements we've put in this car the last few years.

Today's advanced Ford is a product of progressive engineering, fine materials and honest construction. It is backed by an experience of building far more cars than anybody else in the world.

One ride in today's Ford — with its smooth 8-cylinder engine, stabilized chassis, hydraulic brakes — will prove it's the modern car in the low-price field.

Rotenone, New Insect Poison Is Discussed

"Rotenone is the new effective stomach poison for insects that is recommended for vegetables because it is harmless to man," stated Miss Sadie Lee Oliver, CHDA, who discussed insects and their control at the meeting of the Dawn Home Demonstration Club Wednesday afternoon in the home of Mrs. Walker Galley.

"Lots of our insects may be controlled by dust, and it is much easier applied than liquid. Calcium arsenate mixed with lots of sulphur will control nearly all insects. Insects with mouth biting parts such as grasshoppers, flea beetles and caterpillars must be fed a stomach poison. When liquid poison is used it should be mixed with soapsuds to hold it on. Insects with sucking mouth parts and soft bodies such as plant lice and caterpillars may be controlled by Black Leaf Forty, Blister beetles, which are very destructive to peas, beans, tomatoes and beets, may be killed by use of Barium fluorosulfate, diluted with flour. There is now on the market a spray gun for pyrethrum and rotenone tablets, and it may be attached to a hose, thus making an easy task of spraying."

The next meeting has been postponed until the second Wednesday in July, because of the early harvest, thus making two meetings in July.

Mrs. Carl Luke was welcomed as a new member. Mrs. A. H. Frye and Miss Wilma Ruth Baber were guests. Others present were Mrs. R. A. Frye, Mrs. C. Aubrey Wimberley, Mrs. Carl Wimberley, Mrs. H. E. Miller, Miss Oliver and Mrs. Galley.

Tire costs go down, when you buy Lee Tires at Phillips 66 stations. You get guaranteed first-line quality at lower first cost. And thereafter you get lower cost per mile... because Lee builds longer wear into these tough-treaded tires with the extra-strength carcass. Ask your Phillips 66 Dealer about prices... trade-in allowance... easy-pay plan... and the 12-months' road hazard guarantee.

LEE TIRES SAVE YOU MONEY

The PERFECT COMBINATION when the "GOING GETS TOUGH"

MOLINE WHEATLAND PLOWS ... and the New M-M "GT" POWER TRACTOR

Cut your plowing costs in half with the original M-M big disc Wheatland plow—because of its wide cut and light draft in comparison with any moldboard plow. The Moline does a better job of plowing, from 3 to 9 inches deep. It scours well and is remarkably free from clogging with its big 26-inch discs, spaced 10 inches apart. The plowing job compares favorably with a moldboard plowed field that has been nicely harrowed.

Prepares an ideal seed bed for small grain—BECAUSE it mixes trash and stubble with the soil in such a way that there are no air pockets, and there is good capillary action between subsoil and seed bed.

The Moline Wheatland disc plow is strong, sturdy and rigid, built entirely of strong steel bar angles and castings. Farmers say it "can't wear out or give." Other important points also make it the outstanding plow of its kind on the market today.

Come in and get free literature and complete facts. Let us show you how it cuts your plowing bill. The Moline Wheatland is also ideal for summer fallowing... gets the weeds and moves all the ground.

The ground is hard this season, and you need a sturdy plow more than ever before. We have already delivered 3 cars of these plows in Hereford this year — and have more on the way! See these Money-Saving Plows today!

You will also need plenty of POWER for your plowing jobs — and M-M has just come out with their new "GT" Tractor... A Giant in Size... and a Giant in Power!

HERE IS THE PERFECT COMBINATION FOR PLOWING UNDER PRESENT CONDITIONS. See This Big Tractor and check over the famous Moline Plow.

While Power is the outstanding feature of the new M-M "GT" Tractor, it also boasts LOW OPERATION Costs... with a High Compression Cylinder Head, enabling it to burn regular 70 Octane leaded Gasoline with maximum efficiency. Forced-feed lubrication to connecting rod bearings and other important parts is another important feature. If you need a tractor in which POWER, ECONOMY of OPERATION, and LONG LIFE are the by-words, don't fail to see the New M-M "GT" on display at our store.

Homer Henslee To Be With Sinclair

Homer Henslee, Jr., left Hereford last week for Tulsa, Okla., where he has accepted a position with the Sinclair Prairie Oil Co. He started to work on Wednesday of last week.

Homer graduated from the Engineering School of Texas Technological College at Lubbock in 1937, with honors. He is a graduate of Hereford High School.

His wife will join him in Tulsa in about a month.

Expect Harvest

(Continued from Page 1)

damage might prevail. **150,000 Bushels Here** Prior to the rains an estimated 150,000 bushels of wheat had been handled through Hereford elevators, while Dawn, Black and Summerfield reported the best run of elevator business in recent years. Nearly all of the wheat brought into the elevators was testing No. 1; the tests ranging from 60 to 61.

High Protein Tests Producers in this area were also getting a high protein test on their wheat. The protein was reported just under 16, running from 16 to a little over 16 in a few instances. Protein this year will be graded from 13 up, producers getting a cent a bushel for each additional point. Since most of the grain was running just under 16, present indications are that a two-cent premium will likely prevail in this territory. However, this situation is subject to change at any time—and the rains may tend to cut the protein tests on wheat, a factor that can only be determined when harvest is resumed.

Goes Into Loans Due to the low prevailing price on wheat at the present time, most farmers over this territory are putting their wheat into the Government Loans, operated through the Commodity Credit Corporation. Wheat in Hereford Thursday was listed at 60 cents, a good price in view of market conditions. No definite figures were available, but the government loan was expected to run from 62 to 63 cents on wheat in this territory at the present time. With this situation, farmers were making application for the loans with the idea of later selling their wheat at a higher figure—or defaulting it to the government at the loan price, which is above the present market figure. More complete details on the loans will be found on this page, or may be secured from T. P. McCollister who has offices in the court house.

Yields Are Good Up to the present time yields have been running unusually high as harvest started; most of the wheat has been cutting around 25 bushels, but an occasional yield dropped to 10 bushels—and others jumped to the 40-bushel class.

However, yields generally run higher as the harvest season opens and the general yield was expected to show a decided drop as harvest extends into another week of combining.

Big Acreage Here It was estimated that around 300,000 to 325,000 acres of wheat was seeded in this immediate territory this year. However, some of this acreage will not produce wheat; the actual acreage from which wheat is being cut will run from 200,000 to 250,000 acres, according to estimates.

Hereford is over-flowed with harvest hands, itinerant truck operators and outside men interested in harvest work. It is not at all out of the ordinary to see men asleep on the sidewalks and in protected corners—where they have fallen exhausted from work or long hours of fruitless job seeking.

Provided no additional rains fall in this area, harvest is expected to reach a peak by July 1, and by July 15, will be well on a decline as most of the present wheat will have been harvested for the Hereford area.

Sales of wheat and flour for export totaled approximately 91,000,000 bushels from July 1, 1938, to March 18, 1939, of which about 77,000,000 bushels have been exported.

General Rains

(Continued from Page 1)

growers are now smiling at the thought that their crops will now get well on the way to a substantial yield.

The precipitation was not sudden and violent and consequently little of the wheat was beat down. There may be a slight loss due to a small reduction in the test as the result of the rain,

but most wheat men are of the opinion that the loss from this source will not be material if more rain does not fall.

Hereford had little rain after dark Tuesday night, but an additional downpour early Wednesday morning brought the total precipitation at Amarillo up to 4.03 inches. Rain was reported general from Amarillo to Clovis. Moisture fell as far west as Tucumcari, and eastward to Canadian and Oklahoma from Amarillo.

Relief from the heat was also a welcome result of the showers. The temperature in Hereford dropped from a high of 107 last Tuesday a week ago, to a high of around 90 last Tuesday. Most of the early part of the week was marked by a temperature of around 80.

Merchants welcomed the rain from a strictly business point of view. When the combines were stopped in the fields, many farmers and hands were left free to come to town, and Hereford streets were full late Tuesday night.

Weather forecasts indicate an increase in temperature with probable light showers in scattered areas for the remainder of the week. Harvest is expected to resume peak proportions by the first of next week.

Both Farmers

able. Excellent results have been obtained in all cases where the poison has been used, whether it be on the field or garden.

Experience during the last fall and winter season with the pests has shown that considerable damage is done to new wheat just after it comes up in December. At this time all else that the insects might use as food is dead, and the young wheat suffers from the full attack of the hungry swarm. For this reason it is expected that many planters will spread the poison this fall as a precaution against losing part of their first seeding to the grasshoppers. They are urged to co-operate with agents in this matter.

prophet. Tuesday just before noon he was heard to make the remark that it would not rain anymore. It rained at least half an inch after he expressed that opinion.

Orville Freeman and Mrs. A. R. Morgan are helping along with the work at the Hereford Appliance Co. Orville is from Roaring Springs, Texas. Mrs. Morgan, who is keeping books, has been in Hereford for some time.

George McLean is now peddling shoestrings from the counters of the J. C. Penney Co. George went to work at the Penney store last Tuesday. He had previously been employed by the Popular Store.

Karl Shirey started to work for the Rockwell Lumber Company this week. Karl attended Texas Christian University at Fort Worth last year, where he is majoring in music. He will go back there in the fall.

Construction of a new feeding barn at the Elmer Dameron home has caused quite a bit of comment. The structure is to be used as a feeding barn and stable for some prize calves Elmer intends to fatten. It is expected to be finished some time next week, and more can be said about it then. Right now it looks as though it might turn out to be almost anything.

Bert Sley has opened an appliance company in the Star Theatre Building where the Hereford Insurance Company was previously located.

The Star Theatre has a new face this week as the result of the effects of painters. The new front carries out a white and green color scheme.

Miss Mary Virginia Eberle adds a touch of color and a bit of sparkle to the office of the Fraser Oil and Grain Co. Mary Virginia began work there this week as bookkeeper. She is just home from California, where she attended school at the University of California at Los Angeles.

Bellah Grocery has painted their store front. Inside, a new vegetable rack has been installed that is equipped with a clever arrangement of mirrors. Looking in the mirrors really shows up the vegetables to an advantage.

Mrs. T. F. Medlin reports that she has a four-month-old Fox Terrier which she would like to give away. Her reason is that she has no place to keep the animal. Interested persons can find Mrs. Medlin at 210 G Street.

Under the qualifications obtained at the school, Bud will teach courses in Life Saving, Swimming and Small Craft. His post of instruction has not been assigned as yet, but it is probable that it will be at Buffalo Lake. Any person interested in taking any of these courses should see Bud Bradly or John Olson as soon as possible. Classes will start as soon as enough applicants for instruction have indicated their intention to participate in the school.

Bud has been receiving instruction in swimming and life saving for some time, and has had teaching and life guard experience. The completion of his course at Camp Mystic makes him thoroughly qualified to give instruction in these lines.

history be applied. Such an order, if granted, will greatly reduce the rates paid by Texas shippers and will also abolish the differential territory entirely. It will be strongly contested by the carriers, both motor and rail.

Bandeen referred to the West Texas territory as the "raw materials capital of the World," but added that its growth had been inhibited by freight rate charges on a higher level than anywhere else in the United States. The central freight association (CFA) territory has the lowest rate level within the so-called official freight zone of the United States, which, generally, is that region east of the Mississippi River and north of the Ohio.

Chairman Ernest O. Thompson of the Railroad Commission was quoted as saying that the commission was "aware of an injustice in the matter of rates in West Texas."

Several days will probably be required to get the shippers' case on the record.

As in 1938, the program will be divided into two sections:—one on July 5, 6, and 7 for 4-H Club boys and girls, and a second one on July 12, 13, and 14 for adults. The 4-H Club program will be climaxed by the spectacular presentation of the gold star awards to the 100 boys and girls selected for this honor. The theme of the adult program will be land use and planning, with farm people taking the major part.

Guest speakers will be headed by A. F. Leaver of South Carolina, former congressman who was joint author of Smith Lever bill on which extension work is based. Walter Jenkins will again lead the group in singing.

Wheat Surplus Is Explained By Texas Man

How come such a huge carry-over of American wheat? Jess Watson, wheat farmer and member of the Texas Agricultural Conservation Committee which meets at A. & M. College, gives the following answer to the question:

Stimulated by growing markets, good prices, and an abnormal demand for wheat during the World War years, United States wheat acreage and production reached new high levels in the 10 years following 1914. American farmers seeded an average of about 69 million acres in the five years after the war.

This acreage level, however, was supported in part by an export business which took an average of 226 million bushels of the harvests. But through the 20's these markets became smaller and smaller, until in the 1928-32 period, American farmers were able to sell only half as much wheat abroad.

In spite of this loss of markets, the middle 30's found farmers seeding just about as much wheat as they seeded right after the war.

In the 30's however, production was held down by drouth and the AAA program.

The result was an upward trend in prices following 1932, and, since there was no effective control program for wheat from 1936 to 1938, seedings in 1937 and 1938 shot up to an 80-million acre level, more than 10 million acres above the level of the high post-war acreages.

Good weather and good yield resulted in crops of 876 million bushels in 1937, and 931 million bushels in 1938, the fourth largest crop on record. United States wheat supplies for the 1938-39 period exceeded a billion bushels, also the fourth largest on record.

The carryover, which had averaged about 115 million bushels in the five years 1924-28 which had hit a peak of 378 million bushels in 1933, is expected to be about 270 million bushels next July.

Dawn Items

(13 miles east)

MRS. JESS CALDWELL

Wheat harvest opened Tuesday when H. E. Miller hauled the first load of wheat to the Dawn elevator. A few other farmers started combines the latter part of the week. By Tuesday it is expected that harvest will be in full swing. Tractors, combines, trucks and harvest hands are seen at every turn, and a busy time is ahead. The early harvest and the rapid ripening of the grain have made it necessary to increase the number of combines. No definite statement has been received as to the average acreage, however it seems to be satisfactory. As farmers are saying that the wheat is better than they expected it to be.

Herman Langley of Slaton, a nephew of Mrs. W. F. Seymour, came last week to work during the harvest season.

Miss Edna Richardson of Elida, N. M., who is attending summer school at WTSC, Canyon, spent the week-end visiting relatives here.

Mrs. A. A. O'Neil, also a student at WTSC, spent Saturday night with a student friend, Mrs. Mildred Beatty at Canyon, returning home Sunday for a brief visit.

Virgil Thomas arrived last week from Canadian to take up his work as bookkeeper at the Farmers' Elevator, during harvest season. Mr. Thomas, who has held this same position as bookkeeper for several consecutive summers, is now located at Canadian, where he teaches mathematics in the public schools.

Miss Rita Bezner of Hereford, is working for Mrs. A. T. Frye.

Miss Alma Miller and her aunt, Miss Vera Crawford of Canyon, spent Friday in the H. H. Miller home.

Mrs. Lyle Blanton, Derrell and Lila Beth of Hereford, called on Mrs. Jess Caldwell and daughters, Thursday evening. They were on their return from a brief visit in the Otto Samuelson home at Canyon. Mr. Blanton is a brother of Mrs. Samuelson.

J. D. O'Neil came Tuesday from Amherst to spend the summer in Dawn.

Mrs. David Boyer of Hereford, and Mrs. Jess Caldwell and daughters, Sammie Jean and Gussie Ann, spent Wednesday in the home of Mrs. Caldwell's brother, Otto Samuelson and family, at Canyon. Mrs. Boyer is a student at WTSC, and a teacher at Progressive.

Bill Miller and his mother, Mrs. J. R. Miller, and a nephew, Buck Anderson, arrived Wednesday from Pauls Valley, Okla. Mrs. Miller is here for a month's

visit in the home of her daughter, Mrs. Lloyd Bentley, and her sons, H. H., H. E., N. R. and Raymond Miller.

Bill Miller and Buck Anderson, who is a brother of Mrs. Martin Campbell will work in the wheat harvest.

Misses Rita and Elizabeth Bezner visited relatives in Hereford Saturday evening.

Mrs. J. Fields Matthews of Daniel, visited Mrs. Walter Galley, Monday.

Mrs. Ruby Baker and son, Johnnie, spent Sunday with Mrs. Baker's parents, Mr. and Mrs. W. W. Wimberley, it being Father's Day.

The members of the Dawn Home Demonstration Club met Wednesday, with Mrs. Walter Galley. Mrs. Carl Luke is a new member. Miss Sadie Lee Oliver, CHDA, was present and discussed insects and their control. Two visitors, Mrs. A. H. Frye and Miss Wilma Ruth Baker were present.

Because of the early harvest and rushed season the Home Demonstration Club will not hold its next meeting June 28, but will meet the 12th of July, thus making two meetings rather than one, in July.

Miss Oliver visited in the home of Mrs. Baker Womble Wednesday

to view her fine native grass lawn.

Pete Corley and Clint Shelton of Henrietta, Texas, are working for Carl Wimberley.

Mrs. Carl Wimberley attended a reporters meeting at Hereford Saturday.

Gayle Neal of Amarillo is spending the summer in Dawn working during harvest. Gayle, who attended Texas Tech at Lubbock the past year, also was in Dawn last summer.

Alma Miller, who spent the week-end at her home here, returned to her school work in Canyon Monday.

Wayne Caraway of Knox City, arrived last week for a brief stay in the home of his uncle, W. P. Caraway, and to work in the harvest fields. He is a brother of Glenn Caraway.

Mrs. Julia Samuelson, who has been staying in the home of her son, Otto Samuelson and family at Canyon the past 10 days and taking care of her new grandson, returned to Dawn Sunday.

Frank Scales and family of Panhandle, new manager for the Great West Elevator at Dawn, moved here last week.

L. A. Murphy and family visited relatives in Canyon Wednesday evening.

Bernice Harris is receiving medical attention from an Amarillo doctor. Her condition is practically the same.

MRS. R. H. JOHNSON

Owing to hot, dry weather the wheat has ripened so fast harvest has begun in this community much earlier than anticipated.

B. F. Block brought his cook shack down from Pampa Sunday and is preparing to start harvesting about the middle of the week.

Oscar Hackley and son, Leonard, R. H. Johnston and Vachel Ridley were business visitors in Hereford, Monday.

L. M. Chandler and son, Melvin, of Endee, were in Bellview Monday.

Visitors in the R. H. Johnston home Sunday, were their son, R. H. Jr., and family of Norton, and Mrs. Lula Cross.

John Classon, Methodist pastor here, and wife, are the parents of a new son, born last Thursday night at Clovis.

The 4-H Club members enjoyed the picnic at Clovis, Saturday.

Miss Rachel Harman of Clovis, is visiting in the W. E. Brown home.

Mr. and Mrs. G. W. Messenger had as their guests Sunday their daughters and families, Mr. and Mrs. Milton Clemmons of Kirkland, Texas, Mr. and Mrs. Paul Collins of Clovis, their niece, Mrs. Nina Jo Collins of Grady, and children, Mr. Messenger's brother, Claude and wife, of Farwell. Claude and his wife are here to work through harvest for Mr. and Mrs. Sam Mitchell.

Sam Mitchell made a trip to Muleshoe the last of the week.

Fred Kelleps of Muleshoe, was in Bellview Sunday.

Betty Jean and Glena Dee Reese have returned to their home at Hereford, after staying some time with their grandparents, J. T. Reese and wife.

Mrs. Maud Cross, her son, Dee, Mr. and Mrs. A. L. Cross, went to Clovis Saturday. Mrs. Cross visited with her son, Jimmie and wife, A. L. brought a load of lumber back for R. H. Johnston, to build a new chicken house.

BULL

By Jimmie Gilentine

The wheat estimating business seems to be on the up and up. However, there is a big variation in the estimates, as the following will show:

Mrs. John Kropff	1,982,763 bu.
Worth Covington	2,225,000 bu.
W. L. Alexander	2,655,000 bu.
Mrs. C. B. Miles	2,997,500 bu.
F. L. Lucas	1,920,250 bu.

And that's all of the guesses for the present season. If you don't agree with the estimates, you'll have to write it on the calendar, or just above where Junior tore some paper off the wall—because it's too late to accept any more estimates in the contest.

Wm. McGehee was in Monday with an idea that sounds pretty good. He says that he has been over most all of the Panhandle and that row crop prospects are mighty poor. However, that was before the rains this week. His idea is that the grain sorghum crop is going to be mighty short in the Panhandle this year, and he believes that with the 225 irrigation wells in this territory that the irrigation farmer should go into the grain sorghum business in a big way. Provided the grain sorghum crop is short the price will naturally be some better than average. With this factor in consideration, he believes that a good row crop for the irrigated area would make the irrigation farmers more than they will realize from the present wheat crop.

Naturally the rains throw a little different light on this matter—but it's still well worth consideration because grain sorghum and cattle go hand in hand and the men who ran cattle here this fall are mighty well satisfied.

If you don't think it has been plenty hot in Hereford you need to talk with Mrs. Phil Radovich. She had a setting hen at her place which hatched off 12 chickens on Tuesday, June 13, and left two eggs in the nest. On Thursday afternoon, June 15, Mrs. Radovich happened to be passing the nest and heard the faint "peep" of a baby chick. To her amazement she found only one egg left in the nest along with a new baby chick. After inquiring among her neighbors, she decided for sure that the chicken must have hatched out by some freak. Later during the afternoon the second egg hatched into a healthy baby chick. As a result Mrs. Radovich says she is going to believe everything she reads in the Ripley column.

Backstage in the Star Theatre is an old dressing room upon the door and walls of which are inscribed the dates of many vaudeville acts, many actors—and the cast of the Senior Play of May 10, 1923.

The play, according to the scribbling, was entitled, "The Threat of Destiny," produced by Seniors '23 and the following cast was listed: Fanny, a slave, Leona Bishop; George Washington, dinky, Justin Read; Col. Montgomery, Wilbur Slaton; Mrs. Montgomery, Glenola Powelson; Virginia Montgomery, Eva Skelton; Beverly Montgomery, Roger Corbett; Betty Montgomery, Dolly Ward; Edith Shannon was listed as a Northern Cousin; Peyton Bailey, Charles Gilbreath; Lauralee Fairfax, Agnes Elliston; Sally Ann, Thelma Tynes; Toni, a Southern Flirt, Reinhold Frye; three southern girls, Mary McDonald, Dolly Wood—and the third name was lost due to a knothole in the door.

It must have been a pretty good play, and probably lots of folks here today remember the performance well. What has happened to the interest in home talent plays? They don't seem to click anymore—but some of the finest and most enjoyable entertainment ever produced was in the form of home talent plays.

Here's another Believe It or Not which Mrs. Asa Atchley, Brand correspondent at Summerfield, sends in with her news items. L. L. Cannon decided that his wheat wasn't going to make anything this year so he grazed it up until April. The wheat came out fine, however, and he is now cutting 20 bushels to the acre.

Adrian-Sims Notes

Wheat harvest has started here and good yields are reported. T. F. Bohannon took the first load to Adrian and received a \$10 premium on it. Most of last week was hot and windy. We need rain for row crops. Mr. and Mrs. Andy Godwin visited Sunday in the J. M. Chapman home. Mr. and Mrs. Tom Cook and the Frank Inman children visited a few days here last week. Mr. Dick Callahan and Miss Louise Hopper spent Sunday in the J. M. Chapman home. Mr. and Mrs. Williams and daughter, Mr. and Mrs. John Niggins and Mr. Mark Agee and grandson visited Wednesday with Mr. and Mrs. Jim Chapman. Mr. and Mrs. Paul Obrecht and little son visited over the week-end with relatives at Adrian and Hereford and Sunday with Mr. and Mrs. Jim Chapman.

MRS ASA ATCHLEY

Thirty-seven were present for Sunday School Sunday. Mr. and Mrs. H. D. Hill and sons of Ford were guests in the B. A. Atchley home Monday. Wheat harvest started here Friday and three cars of wheat were shipped from this elevator. Mac Noland brought the first load of wheat to the elevator. Tuesday we received a regular downpour for several hours. L. L. Cannon decided to graze his wheat until April because he did not expect to make much out of it. Now he is cutting about 20 bushels from it. Mr. and Mrs. George Story of Lorena spent Sunday in the Leland McMinn home in Amarillo. Misses Eva Black of Clovis, N. M., and Imogene Dry, of Ardmore, Okla., visited Mrs. J. B. Noland and Chydene Kendall Thursday.

Nona, Nelda, and Norma Cross visited their grandparents, Mr. and Mrs. H. A. Melton, last week. There was quite a bit of excitement and long hours of labor for several when three refrigerator cars were derailed and one overturned west of here Monday. The accident was caused by a broken axle on one of the cars. Ted Staats and John Hicks are working at the elevator this year. Mrs. Mac Noland is the bookkeeper there.

Bonner and Miss Marie McMinn of Amarillo are visiting in the George Story home this week. Mr. and Mrs. E. B. Crow of Tulia were visitors in the J. L. Lookingbill home Sunday. Buster Suttle, Leroy, James and Louise Suttle were picnicing with friends near Canyon Sunday. Pat Nell of Fort Worth is here visiting his sister, Mrs. B. E. Roberson.

Mrs. Cal Brown and children of Hereford visited in the Brit Clark home last week.

George Nell of Merkel spent last week in the B. E. Roberson home.

Mrs. Walker and Mrs. J. A. Noland were ill last week.

CHURCHES

FIRST BAPTIST CHURCH
W. E. Barnes, Pastor

The Daily Vacation Bible School closed Friday evening, with a commencement program, the parents being the honor guests. The school proved to be one of the best our church has ever had, having a total enrollment of 183, with an average attendance of 122. The children did good work in all of the departments and it was a joy to have been with and worked with them.

Last Lord's day was a good day for us, there was one conversion and one re-dedication at the morning worship hour, and at the evening hour four were baptized, making the total number of additions to our church the last two Sundays, six, two of

these coming by letter. Sunday school attendance was 259, with one new member; BTU attendance was 64. These are both under our average attendance, and we trust on the coming Sunday our attendance will be much better.

This week the pastor and 25 of our junior and intermediate boys are attending the Baptist Boy's Camp at Ceta Glen. This is an annual District camp, and the spirit and inspiration of the very highest type. Fortunate are those boys who could attend. Mrs. A. O. Thompson and Miss Imogene Roberson are also attending the camp. They are connected with the personnel Mr. A. O. Thompson accompanied the group to camp. To those who are not attend-

ing church services or Sunday School, a cordial invitation is extended. Come and worship with us.

The pastor is just out of the hospital and has declared Sunday to be Hospital Day at the Methodist Church. Doctors and nurses are especially invited.

Lottie Tyson and Betty Jo Cockrell returned to Hereford last week, from Kerrville, where they had been visiting for the past two weeks. Miss Tyson attended high school at Kerrville last year, and Miss Cockrell had been visiting her since school was out.

J. W. and Jim Robinson were in Amarillo Sunday to see the "Death Dodgers" exhibition.

Shown above is a fleet of 30 GMC Trucks headed for the Wheat Harvest in Hereford, Texas. The picture of the fleet was made in front of the GMC offices in Pontiac, Mich., just before the trucks started for Hereford. Since that time the number of trucks has been increased to 46, delivered to the Hereford Territory for the present harvest season.

We Say "THANKS"

Due to the popular acceptance given GMC Trucks by farmers of the Hereford Area this year, we want to say "THANKS". This word of appreciation is due more ways than one—for almost every man who bought a GMC has been the best salesman on our staff. If it hadn't been for the farmers of this community telling their neighbors just what the New 1939 GMC Would Do, we doubt if so many of them would be in service here today. A truck has to be far above the average to receive such wide acceptance, and such general popularity—and like ourselves, the men who drive GMC's are the men who know Best what GMC can and will do. Naturally, we want you to read the ad below in which we make bold and daring statements—but don't take our word. Visit one of your neighbors who is now operating a GMC... Ask him about the Low Price, about the Big Gas Savings, and about the many other features... Then visit our offices and find out just how easy it is to buy and to pay for a new 1939 GMC Truck. You'll be surprised now... and you'll be satisfied for years to come.

FRIDAY NIGHT PROGRAM CLOSURES BIBLE SCHOOL

A special program presenting types of work and training received in a Vacation Bible School sponsored by the Presbyterian Church, closed the two week school Friday night.

At the Vacation Bible School the children received religious and moral instruction as well as being able to take part in the wholesome play activities. Group games, craft work and the dramatic arts were emphasized.

Hymns, Bible Drills, Memory Verses learned during the 15-minute daily drill, and choral speaking were included on the program. The Beginners Department presented a short playlet and told several Bible stories, the Junior Boys gave a pantomime, "The Good Samaritan," the Intermediate girls gave the memory work and hand work done during the handcraft hour, was displayed.

Certificates for satisfactory work were presented to the following in the primary group, Caren Conklin, Earl Smith, Eloise Walker, Doris Jean Hastings, Delbert Conklin, Joe Edgar Kerr, Christine Smith, Nora Faye Mitchell, Nadine Mitchell, Mary Katherine Carroll, Bobby Millard, Bradford Cobb and Dorothy Nell Quinn.

Perfect Attendance Certificates were presented to Margaret Olson, Betty Frances Miller,

Wanda Smith, Arline Millard, Harold Conklin, Fred Close, Billy Walker, Tommy Wilson, Caren Conklin, Earl Smith, Eloise Walker, Doris Jean Hastings, Delbert Conklin, Joe Edgar Kerr, Christine Smith, Nora Faye Mitchell, Nadine Mitchell, Mary Katherine Carroll, Bobby Millard, Bradford Cobb and Dorothy Nell Quinn.

HEREFORD GROUP SPONSORS AMARILLO PROGRAM

Members of the Christian Endeavor of the First Christian Church furnished a program for the zone meeting held at Pleasant Valley Christian Church in Amarillo Thursday night.

Erma Faye Robinson was in charge of the program which featured two dramatizations dealing with the general theme, "Acquiring a Personality for Marriage."

Bob Gilliland and Ann Cockrell took parts in "An Unsuccessful Marriage," and Glenn Ricketts and Margaret Jones took parts in "A Successful Marriage." Both skits were written by Frances Borden.

A poem on Meditation, with musical accompaniment was given by Margaret Jones and scriptural readings were given by Billy Wederbrook and Robert Petersen. Special music was furnished by Leaton Branson. A talk on the program theme was presented by Frances Borden. Mrs. Ellis Coombes was pianist.

Those attending from Here-

ford, were: Bob Gilliland, Ann Cockrell, Glenn Ricketts, Margaret Jones, Billy Wederbrook, Erma Faye Robinson, Robert Petersen, Vivian Olson, Frances Borden, Jaek Knox, Carl Oldham, Glennis Cockrell, Betty Cockrell, Rev. and Mrs. H. M. Redford, Mr. and Mrs. Leaton Branson, F. M. Kester, Mrs. P. H. Gilliland and Mrs. Ellis Coombes.

Claude, Hereford, Pleasant Valley and First Christian and West Christian of Amarillo church groups were represented.

FORMER CLASSMATES COMPLEMENT BRIDE-TO-BE

To compliment Miss Gwendolyn Spradley who is scheduled to become the bride of Mr. Ralph Sellmeyer of Carlsbad, N. M., on Saturday, June 24, Mrs. J. D. Neill and Mrs. C. J. Crump of Borger, entertained Thursday afternoon with a dessert-bridge party, at the home of Mrs. Neill's parents, Mr. and Mrs. O. G. Hill.

Mesdames Crump and Neill and Miss Spradley were classmates in Hereford High School and at WTSC, Canyon, and the delightful affair was in the form of a farewell courtesy to the bride-elect, who will make her home in Carlsbad, N. M.

Purple larkspur, pastel shaded sweet peas and baby's breath were used as house decorations. Pink ice molds in meringue wedding rings were served at four some tables, where centerpieces were fashioned of dainty nosegays made of pink rosebuds and baby's breath.

Later games of bridge were enjoyed with prizes going to Mrs. Seth B. Holman and Miss Eloyse Pitman, who presented them to Miss Spradley.

A lovely gift was given to the honor guest.

Attending were Mesdames J. A. Pitman, Jack Wayland, Alton Fraser, H. A. Close, B. M. Wiltshire, J. C. McCracken, W. L. Davis, Jimmie Gilentine, Seth B. Holman, Robert Foster of Canyon, Miss Eloyse Pitman and the honoree.

GARDEN CLUB COMMENTS

(This is one of a series of articles written from information obtained by Garden Club members. Their suggestions may be of help to those interested in the cultivation of flowers and who are unable to attend the Garden Club meetings.)

Quoting from J. S. Rosbrough, horticulturist of the Texas A. & M. College Extension Service, members of the Garden Club find that "Watering flowers a little every day may be fun but the flowers will do better if they are watered once a week and allowed to dry out somewhat in between times. A summer mulch of peat moss or a similar mulch will prove more than worthwhile in holding back weeds, keeping the soil cooler and in reducing surface evaporation. A more robust plant and larger, brighter flowers will be the result."

Some plants will do better if pinched back when about 6 or 8 inches high. Zinnias and other long-stalked plants are of this type.

Blooms Should be Removed
Another pointer listed by Mr. Rosbrough is the removal of blooms. As blooms reach their prime they should be removed before they have a chance to go to seed. This not only results in more blooms but insures a longer blooming period.

PLEASURE HOUR BRIDGE CLUB IS ENTERTAINED

Members of the Pleasure Hour Bridge Club were entertained at the home of Mrs. B. R. Dixon Thursday afternoon.

Summer garden flowers in bouquet arrangement decorated the entertaining rooms.

High score table awards were received by Mrs. Roy Jewell and Mrs. Earl Phillips. Cup prize went to Mrs. Harry Lomas.

A salad-course was served after the games to Mesdames Roy Jewell, Chris Renfro, Earl Phillips, Elmo Lawhon, W. J. Smith, Boyd London, Harry Lomas and the hostess.

(Delivered in Hereford for Less than \$1,000)

Combining is a reality . . . and we have had a few last minute calls for Combines, so we made arrangements to secure a few of the Popular A-6 (One Man) Combines for this territory!

In wheat harvest we fear to "FIRE" a "CUSTOM" rig—no matter how much grain he may be wasting—because we might lose the entire crop before we can hire another rig (and it might not be any better). Why take such risks? Own an efficient modern combine and save the crop!

HAY-BALER

PICK-UP BALING

SAVES LABOR — SPEEDS UP HARVEST!

Only three or four men, depending upon the yield of hay, are required to operate the Case Pick-up Baler. Many Case owners are baling at the rate of four tons and more per hour with this size crew, as compared with seven men and two teams usually employed with other methods of baling.

FIELD BALING PROVES PROFITABLE

Growers in every hay-growing section have successfully baled hay from the windrows for a number of years. The first methods of field baling were:

(a) Bringing hay to baler by sweep rake or wagon.

(b) Pitching hay into baler as baler is pulled through the field.

The most profitable method of putting up hay is to follow windrows with a Case Pick-Up Baler. It is a complete outfit built especially for that work.

FURR FOOD

Serve Bread At Every Meal Say Nutritionists

By Miss Sadie Lee Oliver
Some kind of bread, nutritionists point out, should be served at every meal to those who need plenty of energy food. If the family gets barely as many fruits and vegetables as it needs, at least half of this bread may well be made from wholegrain flour or meal. Wholegrain cereals, in addition to supplying material for energy, help to re-inforce the diet in some of the vitamins and minerals — notably vitamin B, and iron.

Made-to-order for summer baking at home are the quick breads, which can be stirred up in a hurry, and baked quickly. This summer home bakers are finding that wheat flour and corn meal are unusually abundant and low in price.

Of all the dishes made from corn meal—one of the favorites since the Indians started it has been the corn pone. This simple, all-American dish recently was served to the King and Queen of England—at the state dinner given for them at the White House. The corn pones accompanied Maryland terrapin—another American food delicacy, following is one good recipe for corn pone.

Corn Pone
2 cups corn meal, 1 teaspoon salt, 2 tablespoons melted fat, 1 1/2 cups milk and 2 teaspoons baking powder.

Mix the meal, baking powder, and salt. Add the fat and warm liquid and mix well. Shape into small cakes or pones. Place on well-greased pans and bake in a hot oven for about 30 minutes.
