Cafeteria Needs Paid Lunches To Open September 9th

"Do the people of Hereford want the Central School cafeteria to open on Sept. 9?"

Mrs. Dyalthis Brady of the County Welfare Office states that numerous appeals have been made this year to open the cafeteria in September, rather than later in the term.

"If there are enough paid lunches to open the cafeteria when school starts, we will be glad to do so," she said. "Numerous persons have asked that it be opened now. All persons interested in securing paid cafeteria lunches should either visit or telephone this office. If we secure enough of these lunches, the cafeteria will be opened now. Large Vote Is Polled Saturday

Polling the surprise number of 1,549 votes, Deaf Smith County last Saturday fell only 249 votes behind the ballot cast in the first primary on July 27.

The large vote came as a surprise due to the fact that only one-county race, Commissioner of Precinct 2, was decided in the run-off election.

Wins by 13 Votes. The precinct race, between Jim Clark and Colby Conkright, went to Clark by a margin of 13 votes; Clark polled 494 to 471 for Conkright.

Honts Is Elected. Substantially complete returns in the race for District Attorney gave John Honts 4254 votes compared to 3809 for Milton Tatum, incumbent; both men are from Dalhart.

The large vote in the second primary was due mainly to the commissioner race and to that for Congress, however, being indicated by the fact that more votes were cast in Precinct 2 in the first--and to the fact that the largest total in the entire county was cast in the race for congress.

Total votes for Deaf Smith County in the district and state races were:

| | |
|------------------|-------|
| Congress | 1,549 |
| R-R Commissioner | 1,516 |
| Chief Justice | 1,450 |
| State Senator | 1,538 |
| Dist. Attorney | 1,533 |

A complete tabulation of Deaf Smith County returns will be found on page 8 of this issue.

Lions Club Votes To Discontinue Annual Carnival

Members of the Lions Club voted at their regular meeting Wednesday to discontinue the annual Lions Carnival, held here each fall for several years.

That a minstrel or burlesque show may replace the carnival was discussed by the club and further announcements will be made later. Proceeds from the carnival each year have been used for charitable purposes in this community.

Election To Be Contested In Oldham County

A heavy docket is reported in Oldham County, including a contested election in which Claude Morris is contesting the election of Roddy Harwell. Harwell was elected county commissioner by a few votes and the case is expected to hold wide interest over the entire county.

The recent court term, although not featuring an exceptionally heavy docket, held much interest here since it included one case for cattle theft, one case for assault and intent to murder, and several charges of drunken driving.

Your Old Clothes Will Keep Some Kiddie In School

Pointing out an urgent need for shoes and used clothing, Mrs. Dyalthis Brady of the County Welfare office today said that all contributions should be reported to her office.

"With the opening of school near at hand we are faced with calls each day for clothing which can be remade for boys and girls of school age," Mrs. Brady stated. "Many mothers have already remade clothing secured through this office and many others are anxious to get their children properly clothed by the time school opens."

Mrs. Brady said that any clean garments, which might be remade will be greatly appreciated. She also said that shoes, hats, caps and other apparel are always in demand.

"The garments may be brought directly to the Welfare Office on the ground floor of the courthouse," she declared, "or if donors will telephone No. 235 I will be glad to personally call and get the apparel."

Swisher Area Warns Against Chiefkan Wheat

Joining the Texas Wheat Improvement Association in a drive to maintain better prices through production of first quality milling wheat, A. R. Bateman, county agent, and the flour mills of this area have been pointing out advantages of different wheat varieties. The movement, aimed chiefly to discourage growth of Chiefkan and Blackhull, is spreading over the entire Panhandle as it has already done in Kansas and Oklahoma. The following editorial is reprinted from the Happy Herald:

Since wheat planting time is drawing near, farmers should begin to think about the kind of wheat they are going to plant. This past year wheat on the plains has declined in quality according to millers of flour, and Swisher County farmers are among those forgetting that the miller, the housewife and the baker are the ones to be satisfied.

We are not talking for any particular wheat except that it be a wheat of good baking quali-

ties and high protein content so as to meet the need of the millers of the east, but we are talking against the wheats that are low in protein and poor in baking qualities.

At present there is much talk of penalizing some varieties such as Chiefkan and Early Blackhull, and paying a premium for Turkey Red, Kanred and Tenmarq.

According to information received by John Palmore, County Agent, through surveys, Turkey Red and Tenmarq rank high in baking quality and as a good producer, with Blackhull ranking second to Tenmarq and Turkey Red.

Chiefkan and Early Blackhull make flour of poor baking qualities and are low in protein content compared to other varieties.

Farmers in Swisher County should begin to study the types of wheat that are best suited for making bread as the maker and eater of bread are the ones to consume our wheat and the ones to please.

Messenger News

MRS. J. N. MESSENGER

This community received a light rain Sunday night, just enough to wet the ground. However, rains August 7-8 measured two and one-fourth inches, and another quarter-inch fell August 19. Several occasional light showers have also fallen over this area.

Row crops in most places are looking fairly good, but most of the crops are needing rain.

A few farmers drilled wheat while they had moisture, but most of them are waiting for more rain.

Ralph Smith of this community is starting on his new house in Friona. He will go back and forth to farm, having bought the old Moffitt place across the road from Geo. Messenger; he has improved the place with sheds and a grainery.

Messenger school will go to Friona during the ensuing year. Friona will furnish the buses, which will be driven by Melvil Allen (east) and Mr. Brown (west), who is a nephew of the late Charley Brown of this community.

Huglin Lee has practically completed his new, modern home here. Stucco work was underway last week.

Geo. Messenger was in Hereford Monday for Grand Jury service.

Boyer Expresses His Appreciation

Perryton, Texas, August 26—Representative Max Boyer of Perryton, issued a statement today in which he expressed appreciation to the friends and supporters throughout the Panhandle who worked for him during the recent campaign in connection with his race for State Senator.

"The many fine friends I became associated with in the campaign which just closed afforded me an opportunity to more clearly know the type of people who live in the Panhandle. There are no alibies or excuses which I have to make as to our defeat. I ran the kind of a race that I have always conducted and if I were running again, I would act the same way as I did in this campaign. As a citizen, I shall continue to observe closely all legislative activities in Austin. I wish I had the time and money to personally thank each friend who did his bit for me."

DALLASITE MAKES STRANGE CATCH

Charley Jenkins of Dallas, an ardent fisherman, now boasts a story of his own, about one of the strangest catches in the history of Texas. He made his strange catch in his own garage and wasn't even there at the time.

BANK AS

'Ambassadors'

OF BUSINESS

Without banks the average business man would be tied to a stake with a very short "tether." He could trade with his neighbors on a credit basis, but the great outside world would demand cash.

But today banks act as the "ambassadors" of business, substituting their own widely-known credit for the little-known credit of Smith and Jones and Brown. Standing between local buyers and distant sellers, or vice versa, the bank establishes the bond of confidence which makes possible the smooth flow of nation-wide and world-wide confidence.

Swisher Area Warns Against Chiefkan Wheat

Joining the Texas Wheat Improvement Association in a drive to maintain better prices through production of first quality milling wheat, A. R. Bateman, county agent, and the flour mills of this area have been pointing out advantages of different wheat varieties. The movement, aimed chiefly to discourage growth of Chiefkan and Blackhull, is spreading over the entire Panhandle as it has already done in Kansas and Oklahoma. The following editorial is reprinted from the Happy Herald:

Since wheat planting time is drawing near, farmers should begin to think about the kind of wheat they are going to plant.

This past year wheat on the plains has declined in quality according to millers of flour, and Swisher County farmers are among those forgetting that the miller, the housewife and the baker are the ones to be satisfied.

We are not talking for any particular wheat except that it be a wheat of good baking qualities and high protein content so as to meet the need of the millers of the east, but we are talking against the wheats that are low in protein and poor in baking qualities.

At present there is much talk of penalizing some varieties such as Chiefkan and Early Blackhull, and paying a premium for Turkey Red, Kanred and Tenmarq.

According to information received by John Palmore, County Agent, through surveys, Turkey Red and Tenmarq rank high in baking quality and as a good producer, with Blackhull ranking second to Tenmarq and Turkey Red.

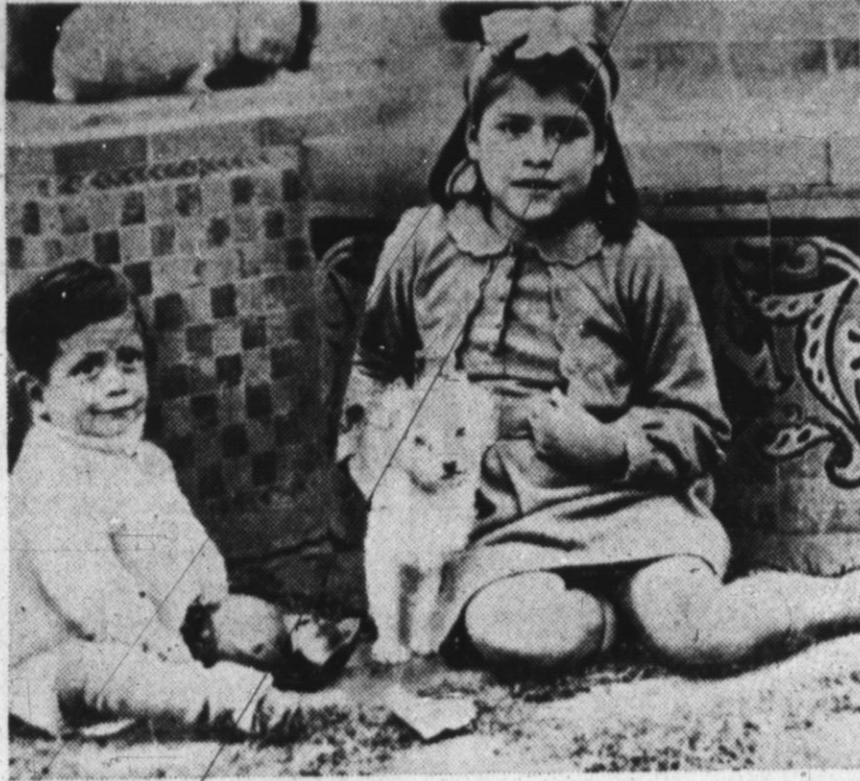

Chiefkan and Early Blackhull make flour of poor baking qualities and are low in protein content compared to other varieties.

Farmers in Swisher County should begin to study the types of wheat that are best suited for making bread as the maker and eater of bread are the ones to consume our wheat and the ones to please.

Messenger News

MRS. J. N. MESSENGER

This community received a light rain Sunday night, just enough to wet the ground. However, rains August 7-8 measured two and one-fourth inches, and another quarter-inch fell August 19. Several occasional light showers have also fallen over this area.

Row crops in most places are looking fairly good, but most of the crops are peeding rain.

A few farmers drilled wheat while they had moisture, but most of them are waiting for more rain.

Ralph Smith of this community is starting on his new house in Friona. He will go back and forth to farm, having bought the old Moffitt place across the road from Geo. Messenger; he has improved the place with sheds and a grainery.

Messenger school will go to Friona during the ensuing year. Friona will furnish the buses, which will be driven by Melvil Allen (east) and Mr. Brown (west), who is a nephew of the late Charley Brown of this community.

Huglin Lee has practically completed his new, modern home here. Stucco work was underway last week.

Geo. Messenger was in Hereford Monday for Grand Jury service.

Boyer Expresses His Appreciation

Perryton, Texas, August 26—Representative Max Boyer of Perryton, issued a statement today in which he expressed appreciation to the friends and supporters throughout the Panhandle who worked for him during the recent campaign in connection with his race for State Senator. "The many fine friends I became associated with in the campaign which just closed afforded me an opportunity to more clearly know the type of people who live in the Panhandle. There are no alibies or excuses which I have to make as to our defeat. I ran the kind of a race that I have always conducted and if I were running again, I would act the same way as I did in this campaign. As a citizen, I shall continue to observe closely all legislative activities in Austin. I wish I had the time and money to personally thank each friend who did his bit for me."

DALLASITE MAKES STRANGE CATCH

Charley Jenkins of Dallas, an ardent fisherman, now boasts a story of his own, about one of the strangest catches in the history of Texas. He made his strange catch in his own garage and wasn't even there at the time.

Jenkins was recently attracted by the howling of the family pup in the garage, where the fisherman had left some tackle. Upon investigation, Jenkins found a baby opossum had hooked himself squarely through the jaw.

BANK AS

'Ambassadors'

OF BUSINESS

Without banks the average business man would be tied to a stake with a very short "tether." He could trade with his neighbors on a credit basis, but the great outside world would demand cash.

But today banks act as the "ambassadors" of business, substituting their own widely-known credit for the little-known credit of Smith and Jones and Brown. Standing between local buyers and distant sellers, or vice versa, the bank establishes the bond of confidence which makes possible the smooth flow of nation-wide and world-wide confidence.

Summerfield, Lions and High School are all sure to be in the play-off. Phillips 66 has clinched a tie for fourth place. The Firemen must win both of their remaining games to tie Phillips.

August 21—The Firemen dropped the K C from a chance for a first division berth and strengthened their own when they defeated them Wednesday night, 14 to 8. The Firemen got six runs from only four hits in the first inning to start ahead in the ball game. By the end of the third inning, however, the K C were within one score of them.

In the fourth frame the Firemen put the game on ice, though, when they tallied five times, this time from only one hit. Two base on balls and three errors helped the Firemen to score their five runs.

Robinson was the only Fireman to get more than one hit and he collected three singles. Clayton homered for the Firemen in the fifth with no one on base.

BULL

By Jimmie Gillentine

Everyone is asking me if I am ready to quit politics. Somehow, this seems like one of those silly questions like asking people what they are doing when they can see very plainly that you are shaving. All of the time, since Saturday night, it looks to me like I have already been pushed out—and rather roughly at that.

Anyway, I got lots of experience and as the old saying goes, "We sure did run a clean race." I think it was just a case of too much Worley, and I am willing to admit that he is a mighty good man—or else how could he have ever won over my man? When I lived in Collingsworth County I helped elect Gene to the State Legislature, while he was still in the University, and I probably know him better than most of you know him. I think that he can make the 18th district an excellent Congressman and I sure hope he will do his very best to serve the interests of the district, for his task is a difficult one.

Anyway, when he gets to Congress I hope that he will remember the hard work a lot of his friends in Deaf Smith County did for him. If he had argued with Wallace Cox, Doc Willis and Frank Cogdell like I have, he sure wouldn't forget soon.

Here is a news item submitted by Mrs. Merlin Kaul in her Westway News.

"Jack Earp and his mother, Mrs. J. S. Earp, are busy outfitting a trailer house into which Mrs. Earp will move in the near future to make her home. The Earp place was recently sold to Mr. Kalka and he and his family will move there about the first of the year.

"Mrs. Earp will live in her trailer house, which she will have located wherever she wishes to visit among her children. "Like all trailer houses, it is very compact with built in cupboard, sink, clothes closet, breakfast nook, space for two beds, stove and ice box. The woodwork is all varnished. One of the few chores remaining is a screen door.

Mrs. Earp has a novel idea indeed. I don't know how she came to hit upon this trailer house arrangement, but it is the first time I ever heard of one being used in this manner.

Charley Whitehead has been pretty "chesty" ever since he got that postcard from Hedy Lamarr, but it looks like that very attractive young woman must have heard more about Charley—because this week Mont Baker got the following card from Long Beach:

"Dear Mont, So happy to hear about your new Dog House. I hope you spend many pleasant evenings in it. Yours truly, Hedy Lamarr."

Sometimes when you think of the many advantages afforded the younger generation you may well wonder how folks used to get along without the picture shows, the modern schools and the automobile.

Helen Ann Eisman is taking a trip to Dallas Sunday, she will make the trip by airplane and will return on the train. Of course she is thrilled over both trips, but the return trip by train is maybe even more important than the plane trip. You see, Helen Ann never rode on a transport plane—and she likewise never rode on a train. In fact, many, many boys and girls in this community and all over Texas have never had the pleasure of a train trip. Of course train trips today aren't what they used to be, but it will be a wonderful experience for Helen Ann.

Remember those train trips when your mother used to fry chicken and carefully pack it away in a box? It always seemed like they waited until hours after lunch before we ate the chicken. In all probability the food had a peculiar odor—depending upon how long it had been since someone in the family had gotten a new pair of shoes—but it

The American's Creed

I believe in the United States of America, as a government of the people, by the people, and for the people; whose just powers are derived from the consent of the governed; a democracy in a republic; a sovereign nation of many sovereign states, a perfect union, one and inseparable; established upon those principles of freedom, equality, justice and humanity for which American patriots sacrificed their lives and fortunes.

I therefore believe it is my duty to my country to love it, to support its Constitution, to obey its laws, to respect its flag, and to defend it against all enemies.—(The American's Creed, by William Tyler Page, was adopted by an Act of Congress, April 6, 1918).

Bottle Tops Make Guns for Tommies

Miss Lillian Hall, a London clothes model, appointed herself a committee of one to collect all the metal bottle tops she could find. Her quest was in response to the government's appeal for old metal to be transformed into guns and munitions with which to meet the onslaught of the Nazis. Among other articles being collected are pots, pans, old cannon and tin cans. The movement which was started in London spread to other cities in the British Isles.

tasted swell. And folks it was swell.

Remember the first time you ever rode on a train? Remember how, as a kid, you drank gallons of water just because it was fun to go back to the water cooler and get a drink on the train. The greatest thrill of all, probably, was washing your hands. Remember those liquid soap containers that tilted back and forth? Times may work many changes in this old world; the way we do things and the means by which we live may alter completely—but folks will always have fun.

That's human nature, and human nature is slow to change. That's why, some bright morning, Herr Hitler is going to realize with a pang that he "got too big for his britches."

Little School Tot

Somebody's tot was crossing the street,
Innocent, young and fair.
It hadn't the judgement of older folks
for school had just started there.

Somebody's tot had a song on its lips,
But it died in an instant away,
For a motorist ran the little tot down,
And it died at the close of the day.

Somebody kneels by an empty bed,
And fondles a little shoe,
Somebody looks through the empty years,
Suppose this somebody were you?

Please watch for the little tots,
Drivers in the city or town,
For it's one of the greatest crimes
To run a little tot down.

Shortly schools will start throughout our nation. Millions of CHILDREN will be crossing our streets and from their studies. Some play in the streets during recess and after-school hours. Let's watch our driving, especially between street intersections, and by all means observe the SIGNS placed at SCHOOL ZONES!

Be Prepared to Meet the Unexpected... It May be YOUR LITTLE TOT!

Let's Cook Something

Here's a perfect answer to what to do with late-summer vegetables. Even for those who don't like eggplant this french way of preparing it might be a surprise. After you have eaten it you'll be quite sure it was part meat, but of course it doesn't have any meat in it and it won't take the place of meat on a menu but its a dandy pal for fried steak or ham. Miss Emma Gunter, former County Home Demonstration Agent here, spent a year in Europe and brought home numerous recipes, especially those prepared by the French people. She demonstrated them to the Home Demonstration clubs and gave the recipes to the club members. She gave this one to Mrs. P. H. Gilliland who passes it on to you.

EGGPLANT CASSEROLE

- 1 small eggplant
- 1 medium size onion, chopped
- 1 small green pepper, chopped
- 1 No. 2 can tomatoes
- Salt and pepper

Pare eggplant and slice 1/2 inch thick. Cut slices in half. Dip into egg batter which has been seasoned with salt and pepper and brown in hot fat. Alternate layers of eggplant, onion, which has been browned in melted butter, green pepper and tomatoes in baking dish. Salt and pepper to taste. Cover and bake in hot oven (375) for one hour. Grated cheese may be sprinkled over the top if desired. When the cheese is added, return the casserole to the oven just long enough to melt the cheese.

Timely Program Presented For Garden Club

With the fall season at hand and the transplanting time approaching Garden Club members presented a timely program, of interest, to many outside the club as well as club members at the home of Mrs. F. H. Oberthier Friday afternoon.

A short business session preceded the program when a definite place for the Annual Fall Flower Show was announced. The show which is scheduled for September 20, will be held at the

Brumley-Woodford Motor Company building. According to Mrs. L. H. Shore, chairman of the arrangement committee, special care will be given all entries, both as to handling and arrangement. Rules and Regulations for the show were published in a previous issue of the Hereford Brand and members of the Garden Club urge all gardeners who are planning to make entries in the show to study the rules given in order that they may understand the judging rules and in that manner help the committee arrange a bigger and better show. Roll call for the program dealt with the scientific and common names for evergreens. Mrs. C. Ferguson was leader intro-

CHDA NOTES

By Sadie Lee Oliver.

MEASLES, WHOOPING COUGH—AND QUILTS

This summer in the home of Mrs. Bessie Mitchell, at Wyche, there have been six cases of measles, followed by seven cases of whooping cough. While caring for the six brothers and sisters who had measles and while recovering from whooping cough, Lucy Ann Mitchell, 4-H Club member reports that she made the following: Three quilt tops and linings, about 21 cup towels, 2 table covers, 5 pot holders, 3 work dresses, 1 housecoat, 2 pairs pillow cases, and 2 dresser scarfs.

CLUB WOMEN STUDY PASTRIES

A study of cakes, breads, and pastries with illustrative material furnished by those who attended was made on Thursday, August 22 in the County Courthouse. Ingredients, methods of mixing and temperatures for baking were all considered. Miss Nora Ellen Elliott, Food Preparation Specialist of the A. & M. College Extension Service was in charge. She asked Mesdames Albert Springer and Earl Springer to try out a recipe for Angel Food Cake, the proportions for which have been especially planned for this altitude. Eggs four days old are best for meringue. They should be beaten only to the peak stage.

Milk for yeast bread should be scalded and cooled. This will present off-flavors in the bread. Milk adds to the food value and to the health value of bread and for those reasons is the best liquid to use. Use bread flour and a thermometer for best re-

sults. Yeast plants grow at certain temperatures and these can be maintained if a thermometer is used.

Among those present were: Mesdames H. M. Koelzer, Frank Wilde, Fred Saltzman, John Kropff, Otto Olson and G. A. Frye of North Hereford; Albert Springer and Earl Springer of Frio; Lee Cocanougher of Wyche; J. W. Dale of Westway.

KEEP VITAMINS WITH VEGETABLES

Do you know all about canning? Do you can as you did years ago? Or do you keep up-to-date on conserving the nutritional values of the foods canned?

Kraut made by the method given in C-149, Starring Kraut, conserves the vitamin C content.

First class snap beans and peas should be canned when about 1/4 inch in diameter, of a deep green color, crisp, tender and fleshy, with seeds not larger than pin heads. These are a green vegetable rich in iron, calcium and vitamin A if processed at 10 pounds pressure.

"Pickling is one of the oldest methods of food preservation. Persons making pickles should not attempt to use short cuts in this process. Those who try to make pickles overnight have a mistaken idea as to what

really constitutes a pickle," states Miss Grace Neely, Food preservation Specialist.

Mrs. J. T. Guinn of Messenger is making cured dill pickles and kraut by B-118 methods. She had 21 quarts of first class string beans canned last week.

TEST PRESSURE COOKERS, WARNED BY MISS OLIVER

Two pressure cookers each more than ten years old were tested by Mr. and Mrs. F. W. Lookingbill of Summerfield. Each cooker had a gear gauge which is still accurate.

"The safety valve is no longer a safety device if it won't 'pop off' steam. Clean the ball and the socket with a coarse cloth in oil or fat. Do not scrub with any cleaner as the smooth surface may be scratched," Miss Sadye Dee Oliver, CHDA, warned.

Eugene Worley Thanks Friends

Eugene Worley, who piled up a surprising lead of approximately 7,500 votes over Deskins Wells of Wellington to win the Democratic nomination for Congress of the 18th district, left Monday for an undisclosed destination to recuperate from an inflected foot and get a few days rest before making a swing over the 28-county district to thank voters for their support in Saturday's run-off primary.

"The credit is due my friends, not myself," he declared. "It took the united efforts of hundreds of loyal supporters all over the district to put me over and I want them to know I shall always remember their kindness. I wish to compliment my op-

ponent and his supporters on the clean, high-type campaign they conducted and say to them that I hold nothing but the kindest feeling for them all."

Advice Given On Picking And Canning Peaches

There is a "peach" of a peach crop!

Now you can have peaches! The 1940 peach crop in Texas is the largest in recent years. It is estimated at two million bushels. The fruit is of best quality. In the northeastern part of the state, the Elberta crop is being harvested. In the cross-timber section of Central West Texas, the Elberta harvest season will be followed by the Frank variety, which is yellow clingstone, and the Hart Cling, a cream fleshed clingstone variety, will then be ready for harvest. During the next 30 days, the picking of this crop of lovely fruit will give an opportunity for all of us to eat our fill of fresh peaches; also, to fill our pantries with canned peaches and preserves.

In selecting peaches, don't let "a skin you love to touch" mislead you. This is not always a dependable guide in determining sweetness and good quality. The best tasting peaches ripen from the seed out to the skin. Many varieties of poor quality ripen from the top side toward the seed.

Tree ripened peaches have a better flavor because the fruit enzymes have an opportunity to function normally in bringing about maximum sweetness. When the fruit is harvested too green, the fruit may continue to ripen but the "peachy" flavor is lost. Fruit is harvested before it is well matured never becomes soft when canned.

Peaches of finest quality have a fresh appearance, yet when they are broken open they are thoroughly ripe around the seed as well as under the skin. Care must be exercised with ripe peaches, as they deteriorate very quickly and should be consumed or canned as soon as possible after picking. If they must be kept for several days, cold storage at 36 to 40 degrees F. is the best method for holding them.

Over-ripe peaches are better made into butters than canned.

If canning is attempted, a longer processing period is needed. A standard bushel of peaches weighs about 48 pounds and should yield about 30 No. 2 cans or pint jars or 20 No. 3 cans, or quart jars. This bushel of peaches, if a light syrup be used, will need about 3 pounds of sugar. For a light syrup—to each 3 cups of water use one cup of sugar.

"Ye Old Time" Party Is Given At Summerfield

An old-fashioned good time was provided at the old-fashioned party given by Circle Number One of the Baptist W. M. U. at the home of Mrs. B. E. Roberson in Summerfield Tuesday afternoon. In response to invitations which read "Don't Ye Forget to Appear As in Olden Times" guests wore old fashioned costumes and old-fashioned hats, shawls and ornaments were displayed.

Old-fashioned games were played with souvenirs going to Mesdames Jim Clark, L. B. Lookingbill, Guy Walsler, O. B. Roberson, Lloyd Lookingbill and Charles Noland.

Baby pictures were shown and Mrs. Ray Johnson won the naming contest.

Following an old custom buttermilk, poured from an antique pitcher, was served when the guests arrived.

After the games refreshments were served to Mesdames W. C. Neill, O. B. Roberson, Ben Wilhelm, A. L. Behrends, Lee Curry, Guy Walsler, Hollis Walsler, Ray Johnson, Jim Clark, Chas. Noland, D. C. CATCHING BIG GAR

Reports of anglers fishing for gar with the wire noose recommended by the Game Department continue to reach the executive secretary of the commission. Some extremely large gar are being caught in various parts of the state. The largest one hauled in and reported to Austin was by Earl Hennesdorf of San Angelo. His catch weighed 14 pounds, 5 ounces and was 50 1/4 inches long. Nine, ten and eleven pounders are not unusual. It requires considerable skill to haul in the heavier gar on light tackle with the loops made of small wire.

Poultrymen of Burbank, Cal., have protested against airplanes flying in their vicinity, saying their hens are frightened and refuse to lay.

begin on Monday, Sept. 9, and Mr. Kinard again pointed that Seventh Grade students will this year attend Central School, rather than high school as has been the procedure in recent years.

In a brief address before the Lions Club Wednesday Mr. Kinard reviewed the increasing school attendance in high school, reporting enrollment to have jumped from 268 to 360 students in the past two years. He also reported a substantial increase in Central School enrollment during the period, but said it was not so great as that of the high school. He estimated a total enrollment of around 1,000 students in the Hereford Schools during the ensuing year.

ed the courtroom during this trial. E. T. (Dusty) Miller and Cleo Clayton, Jr., represented the defense, while prosecution was made by District Attorney Milton Tatum. Tatum was assisted in this trial by Joe C. Montague, who represents the cattle association, which organization always furnishes an assistant prosecutor in cases where members of the association have had cattle stolen.

District Attorney Tatum also reported that three cases have been tried on charges of driving while intoxicated. Fines of \$50 and 30 days in jail were imposed in each of the cases, the jail sentence being suspended by the court.

Remaining on the docket are three additional cases for drunken driving and the case for assault with intent to murder in which Guy Edwards is defendant.

During the July term two civil cases were tried before jury and there seemed little doubt but that the docket would be cleared by Saturday.

Judge Russell of Plainview sat on the bench here Thursday. He presided over the Oklahoma Banking Co. vs. J. E. Young et al; Judge Witherspoon was disqualified in this case because of his recent services as district attorney.

Kimbrough and Curcive gave lectures and directed conferences at the school which is being sponsored for the benefit of football coaches and fans of this section. The program is devoted to practical coaching problems. The instructors lecture on various phases of the games and then devote a period of each daily session to questions and answers whereby individual problems may be ironed out.
