

## Govt. To Take Title To Much Loan Cotton

**Over Five Million Bales Involved In British Trade**  
WASHINGTON, Aug. 17 (AP)—Secretary Wallace announced today the government would take title to more than half the 11,420,000 bales of cotton held under loans to growers in order to carry out the cotton-rubber exchange agreement with Great Britain.

**Loans Extended**  
At the same time, the secretary said the Commodity Credit corporation would extend government loans on the 1938 crop cotton for one year until July 31, 1940.

All government loans on cotton are on an annual basis and mature July 31.  
Wallace said the government loan corporation already had taken title to 1,670,000 bales of 1934 crop cotton.  
On September 1 of this year he said the government would take title to 5,270,000 bales of 1937 crop cotton.

Although the exchange of surplus American cotton for British rubber tentatively calls for only between 500,000 and 600,000 bales, the secretary said it was necessary to take title to the 1937 crop also in order to provide the quality needed.

In addition to the British deal, officials recently have announced tentative sale of 250,000 bales of government loan cotton to Spain and possible sale of another 135,000 bales to France and Switzerland.

Cotton going to Britain, France and Switzerland, must be held as a war reserve for five years, or until an emergency prevents usual purchases of American cotton.

## Ranger Force Is Re-Distributed

AUSTIN, Aug. 17 (AP)—State police headquarters today announced a redistribution of the Texas rangers, effective Sept. 1, creating a headquarters division at Austin and district offices at Houston, Dallas, Lubbock and Del Rio.  
Ranger companies are now stationed at Lufkin, Dallas, San Angelo, Houston and Lubbock.  
Col. Homer Grayson, Jr., safety department director, said rangers also would take over duties of the narcotics bureau whose personnel of six inspectors and a secretary were abolished in the appropriation bill for the new biennium.

Garrison added rangers would be notified of transfers to new station on Sept. 1.  
Sergeant Ernest Best will be in charge of headquarters company in Austin. Named to district headquarters posts were: Houston, Capt. H. B. Purvis; Dallas, Capt. R. G. Phillips; Lubbock, Capt. E. M. Gault; Del Rio, Capt. Bill McMurrey.

## SQUALUS IS AGAIN GIVEN A BOOST

PORTSMOUTH, N. H., Aug. 17 (AP)—A U. S. navy salvage crew today hoisted the sunken submarine Squalus from the ocean floor for the second time in six days and thereby placed the bodies of her 26 dead nearer to release from the sea.  
The three top-most lifting pontoons above the Squalus stern broke the surface at 1:05 p. m. (EST) (12:05 CST) in a chaotic cascade of foam, indicating that end of the craft had been elevated between 60 and 80 feet from an uncharted mudbank.

## Got Budget Dates Mixed

Confusion of the tax rate setting date with that of the budget hearing resulted in some erroneous dates on the latter being reported in the press, a talk with members of the commissioners court disclosed today.  
At least three members of the court were under the impression the budget hearing was slated for Thursday. Previously, one commissioner, J. E. Brown, mistakenly had the date down as Aug. 14, and could not confirm it since Judge Charles Sullivan was out of town on business.  
When this hearing did not materialize on Monday, Brown, J. S. Winslow and A. W. Thompson said they thought the date was Thursday. At the time, Judge Sullivan was swamped with a series of conferences and could not be reached.

Whether J. L. Nix, the fourth commissioner, believed the date to be Thursday was not known, but he did not show up for the scheduled hearing Wednesday. However, Mr. Nix has not felt well lately.

Three commissioners said that the week's calendar was so full that they had confused dates. Among items docketed were regular meeting, checking the treasurer's report, road matters, budget hearing, tax rate meeting, and sundry calls. Judge Sullivan said he noticed erroneous dates too late to secure a correction.

## Atty.-General Murphy Once Addressed Bund, Kuhn Says

WASHINGTON, Aug. 17 (AP)—Fritz Kuhn, leader of the German-American Bund, told the Dies committee today that Attorney General Frank Murphy addressed a Bund meeting in Detroit in 1938.  
Kuhn made the remark voluntarily at the conclusion of the committee hearing session on un-American activities.  
"I tell you something," he said. "The attorney general, Mr. Murphy, he once talked at our meeting."  
"Do you mean the attorney general?" asked Representative

Thomas (R-NJ), who had been questioning the Bund leader.  
"Yes," Kuhn replied, nodding his head forward.  
"Who did he speak?" Thomas inquired.  
"In the German house in Detroit."  
"When?"  
"In 1938."  
"Did he speak?"  
"He was invited and came and spoke about ten minutes."  
"What did he talk about?"  
"About German citizens."  
"Did he praise the Bund?"  
"Oh, no."

Chairman Dies (D-Tex) rapped the gavel for a recess.  
Kuhn, at one point during the morning questioning, grabbed up his brief case as if to walk out on the hearing, after the committee refused to let him have a lawyer.  
"You sit right there," Chairman Dies (D-Tex) ordered Kuhn, who had sit' forward to the edge of the witness chair, protesting in his German accent what he called "unfair" questions.  
Dies apparently soothed him.

## Conservation Trunk Yields Woman's Body

Landowners and other interested parties in Howard and Martin counties were expected to gather in the district courtroom at 8 p. m. Thursday for an important hearing by the state soil and water conservation board on an application for establishment of a conservation district composed mainly of the two counties.  
The proposed district contains approximately 1,180,000 acres, of which around 340,000 is in cultivation.

In a brief he was compiling for submission to the board in support of the application, O. P. Griffin, Howard county agent, pointed to the need for conservation of soil and moisture and said the overwhelming percentage of pasture land argued for the need of the district. Most serious erosion, he declared, was occurring on range lands, especially since drought years had contributed to the practice of over-grazing.

George Bond, Martin county agent, also was expected to submit facts to the board since Martin county land owners have been active in petitioning for establishment of a district, which may be known as the Siphur Draw district.  
In Howard county, four meetings, attracting a combined attendance of between 150 and 200 land owners, have been held in preparation for the Thursday evening hearing by the board.

Griffin said that he looked for V. C. Marshall, Temple, chairman of the new state board, to be here for the session. Other board members were also expected.

## CHILD RUN OVER TWICE BY TRUCK

LOS ANGELES, Aug. 17 (AP)—Only slightly hurt, three-year-old Hazel Paul Rittman is recuperating at a hospital from injuries received when run over twice by a truck in the driveway of his home.  
His grandfather, E. J. Redfern, was backing the truck out yesterday. After running over the boy once, Redfern became confused by a neighbor's shouted warning and sent the truck forward over the child again.

## CENSUS WOULD DEVELOP INTO QUIZ GAME, IF IDEAS ADOPTED

WASHINGTON, Aug. 17 (AP)—The current enthusiasm for quiz games may have something to do with it, but America is clamoring to question itself on everything from waffle irons to serbials.  
The census bureau disclosed today it has received hundreds of suggestions as to subjects that should be included in the 1940 census.  
One man wrote he thought it would be beneficial to the country if it could be determined how many persons are over six feet tall.  
A woman wanted to find out how many rooms in the United

## 17 LEAP INTO SEA AND ARE RESCUED AS BOAT BURNS

FREEMONT, Aug. 17 (AP)—Seventeen persons, including 14 American Federation of Labor business agents and others, were forced to jump into the water when an explosion and fire destroyed the motor cruiser "And How" about 15 miles out from Freemont this morning.  
Most of those aboard the 48-foot boat were from Houston and were on a fishing trip.  
The cruiser Kingfish, which was about 30 miles away when the explosion was heard, rushed to the scene and rescued all passengers.

## Fatal Mishap At Launching

BELFAST, Northern Ireland, Aug. 17 (AP)—One woman was killed and 20 persons injured today when Britain's newest aircraft carrier, the \$3,000-ton Formidable, burst her supporting cradle and made a runaway launching into Belfast Lough.  
The \$15,000,000 vessel slid into the water prematurely, hurling blocks of wood supporting her keel among thousands of persons who had gathered for her formal launching.  
Lady Wood, wife of British Air Minister Sir Kingsley Wood, managed to break the traditional bottle of wine on the receding bows as the vessel started sliding away in some unexplained manner.  
Pieces of wood, iron nuts and

## SPINSTER CHARGED IN MERCY SLAYING

ALLENTOWN, Pa., Aug. 17 (AP)—Margaret L. Cowan, gray-haired 77-year-old spinster, was charged with murder today in the "mercy slaying" of her sister in a hospital room.  
District Attorney John L. Cuthbert announced he would request a sanity examination for Miss Cowan, who told police she killed her sister "to put her out of her misery."

## Weather

WEST TEXAS—Fairly cloudy tonight and Friday, scattered thunderstorms in south portion.  
EAST TEXAS—Fairly cloudy tonight and Friday, probably scattered showers in southwest portion.

## Strike Closes Fort Worth's Stock Yards

FORT WORTH, Aug. 17 (AP)—The largest livestock market in the southwest was idle today with no indication when the deadlock between the Fort Worth Stock Yards company and representatives of the United Live Stock Handlers local No. 59 might be settled.  
Union leaders indicated shippers would be permitted to unload cattle, but at their own risk, since the stock could not be weighed and consigned through regular stockyards channels as long as scales were locked.

No conference between the contending parties had been announced for today. Stockyards officials said in a statement last night they would not deal with representatives of the handlers union on a closed shop basis, but were ready to negotiate "in the hope a satisfactory agreement may yet be reached."  
Two hundred handlers struck just before noon yesterday, but skeleton crews later operated two scales to clear cattle already present.

## Nazis Press For Danzig Settlement

Report Berlin Has Left Door Open For Polish Deal  
By The Associated Press  
Europe watched anxiously today as Poland faced increasingly insistent Nazi demands for settlement of the Danzig question.  
Guarded hints were dropped in Berlin that Germany had left the door open for direct negotiations with Poland—that another "Munich" settlement involving other powers.

## Employment Group Meets

Representatives from three Texas State Employment Service districts and several associated with the Texas Unemployment Compensation Commission convened here Thursday for the opening of a three-day training school.  
Employment service officials here for the meeting were Vernon A. McGee, Austin, assistant state director; A. G. Irwin, Abilene, district supervisor; Fred C. Wenot, El Paso, district manager; and C. E. Penke, Amarillo, district manager.  
Dr. J. Alton Burdine, Austin, professor of government at the University of Texas, was in charge of instruction on organization and management of employment service offices.

## BUS APPLICATION TO BE DISCUSSED

E. F. Freeman, Dallas, and others representing the Greyhound Bus Co. were due here Thursday for a 4 p. m. appearance before a special chamber of commerce committee to hear an appeal for support of the Greyhound unit in contesting an All-American Bus Co. application to carry intra-state passengers.  
On the committee are Ted Groehl, A. S. Darby and R. L. Cook, All-American representatives are to appear before the same committee at a later date to present their side of the case.  
Meanwhile, the railroad commission hearing, set for Aug. 21 in Dallas, has been indefinitely postponed.

## AS OKLAHOMA JOINED CLOSING

The "shut down strike" in Oklahoma, Kansas, Arkansas, Texas, Louisiana and New Mexico had its genesis in a series of price cuts by purchasing companies.  
State regulatory bodies had no reports of violations of shutdown orders. Each state has statutes which permit closing wells to conserve natural resources. The "ace in the hole" is the Connally "hot oil" law prohibiting interstate shipment of oil produced in violation of state orders.  
Fears of widespread unemployment faded as surveys and company announcements indicated less than 10 per cent of the 200,000-odd workers in the mid-continent field would be temporarily discharged. The others will be given vacation, half-pay or will repair machinery.  
Some leading producers were reported ready to start a campaign for an even higher price for crude, basing their contention on a belief refinery prices would increase within a week and there would be a scarcity of crude and refined products.  
One report of strength in the refinery market came from Tulsa brokers, who said spot gasoline prices advanced a quarter to a half.

## Firm Hikes Price As 70 Pct. Of Oil Flow Is Shut Off

OKLAHOMA CITY, Aug. 17 (AP)—The shutdown of oil wells in six states, one of the most widespread curtailments of raw materials ever attempted, took approximately 70 per cent of the nation's crude off the world market today.

## Bell Posts A 20-Cent Boost

TULSA, Okla., Aug. 17 (AP)—The Bell Oil and Gas company announced today an increase of 20 cents a barrel in its crude oil purchase price in the Red river area of North Texas and Oklahoma and in the Burk Burnett pool in North Texas.  
The company which normally purchases 3,500 barrels daily, was the first in the mid-continent to restore last week's price slash of 20 cents.  
The action places the company's purchase price back to 79 cents of 28.9 gravity and below and up to \$1.03 for 40 gravity and above.  
The Bell company had followed Sinclair-Prairie Oil Marketing company in cutting crude prices.  
In a statement defining the reversal of position, the company said:  
"As producers, refiners and marketers, the Bell Oil and Gas company recognizes the necessity for higher prices of crude oil and fair prices for gasoline and other refined products. It heartily endorses, therefore, the efforts both by private individuals and public bodies looking toward the general stability of the industry."

## Signed Oil Order To Protect Job, Witness Says

DALLAS, Aug. 17 (AP)—Dr. J. A. Shaw, former director of the mineral division of the Louisiana conservation department, electrified federal court here today with testimony that he signed special oil allowance orders that eventually led to indictment of former Gov. Richard Leche, hotel man Seymour Weiss and oil man Freeman Burford, in order to retain his job.  
Dr. Shaw, testifying at a removal hearing for Burford, Dallas oil man indicted with Leche and Weiss on charges of conspiracy to violate the Connally "hot oil" act, said he signed special orders because of the Reddessa field "because I had to sign them or I would have lost my job."

## STAR OF SILENT MOVIES BANKRUPT

LOS ANGELES, Aug. 17 (AP)—Two decades ago Mae Marsh, now 43, was a glamorous star of the silent movies, with an expensive home, furs, clothes.  
Today she has only a \$25 touring car, 1931 model, and liabilities of \$5,250. Her petition for voluntary bankruptcy told of inability to meet physicians' and other bills.

## MAESTRI ALL BUT MISSED HIS THIRD ANNIVERSARY PARTY

NEW ORLEANS, Aug. 17 (AP)—It was "open house" today at the city hall in honor of Robert S. Maestri's third anniversary as mayor—but his honor almost missed the celebration.  
The federal government, investigating involved state affairs, wanted him to go to Dallas, Texas, for a hearing.  
But the mayor pleaded the celebration. Assistant U. S. Attorney General O. John Kergo took a long affidavit from him yesterday and withdrew a subpoena.  
Then attorneys for Freeman W. Burford, wealthy independent Texas oil operator, decided they wanted Maestri to appear at the Dallas hearing. The government seeks to bring Burford here on an indictment in connection with

## School Dist., County Tax Rates Fixed

Gov. Leon C. Phillips (left) of Oklahoma is shown after the state's oil wells were ordered closed in an effort to bolster the price of crude. With him is Earl O. Thompson, interstate oil compact commission chairman, at a meeting of the compact in Oklahoma City.

**Only Four Areas Below Constitutional Maximum Of \$1**  
Tax rates for Howard county and 19 common and consolidated school districts were set Thursday by the commissioners court in a session called for that purpose.  
County Rate 50 Cts.  
The Howard county rate, proposed by approval of the proposed budget on Wednesday, was fixed formally by the court at 50 cents. Of the amount, 25 cents goes for general fund purposes, five for the jury fund, 10 cents for road and bridge requirements and 10 cents for retirement of indebtedness. The latter division includes two levies of three and six cents for good road bond issues and one cent for courthouse and jail warrants.

Of the 19 school district rates set, only four were below the constitutional levy of \$1. They were Morris, Midway consolidated, Chalk and Green Valley. Two districts, Richland and Vealmoor, appropriated half the levy for debt service.  
Meanwhile, County Superintendent Anne Martin and her assistant, Mrs. Helen Acuff, continued to work with school boards in formulating budgets for the school districts.

## New Formula For E-Tex Proration Is Submitted

AUSTIN, Aug. 17 (AP)—The Humble Oil company presented a new formula for prorating production of the East Texas oil field at the hearing today on the company's application for increased allowance in that area.  
The formula would consider the thickness of the oil sand of a lease, the acreage of lease and field, the field allowable and probable pressure of individual wells.  
It was technically described by Ken Baker of Houston, attorney for the Humble, as acre-foot of the oil sand in a lease divided by acre-foot of oil sand in the field, multiplied by the field allowable.  
"We are proposing a plan of proration which we believe would apply fairly to all and would do away with inequalities," Baker said.  
Allowables of the East Texas field are based now on the potential producing ability of wells.

## 20 Convicted In City Fraud

WATERBURY, Conn., Aug. 17 (AP)—A jury's verdict placed in jeopardy today the library of Mayor Frank Hayes and other members of what a grand jury called a "ruthless and corrupt band" responsible for looting the treasury of a conspiracy hatched nearly a decade ago.  
The verdict convicted the 25-year-old bachelor mayor and 15 others of conspiring to cheat and defraud the city of over a million dollars through fraudulent payments to city officials, once powerful politicians, lawyers, accountants and contractors.  
No comment was forthcoming from any of the defense lawyers after the verdict, but Special Prosecutor Hugh M. Alcorn gave newspapermen this one-sentence statement:  
"In my opinion, no Connecticut jury ever rendered a greater public service."  
Judge Ernest A. Inglis, who presided for nearly nine months over Connecticut's longest criminal trial, returned a like verdict in the case of a 50th defendant who had elected to place his fate in the hands of the court.

The 20 convicted men, together with two who pleaded guilty when the trial began November 25, and another who threw himself on the mercy of the court with a solo confessional plea, were ordered to appear before the judge tomorrow when, he indicated, they might hear their sentences.

Salads Will 'Perk Up' Late Summer Parties

A new treat to brighten a late-summer table is this cinnamon apple salad.

By MRS. ALEXANDER GEORGE, AP Feature Service Writer

New ideas in salads will wake up mealtime enthusiasm, so often found napping at the tag-end of summer.

Salads, full of minerals and vitamins, rank high as health-builders. They are relatively economical and shorten meal preparation time.

You can make them extra attractive and decorative by introducing gay, bright combinations, varied textures and sundry new flavor blends.

EMERALD SALAD—a nourishing and cool-looking main-dish. Put 1-2 cup of cottage cheese (or yellow) and 1-4 cup chopped green

olives in 2 cups of lime (or green-colored lemon) gelatin. Chill, unmold on an icy salad green. Surround with cooked cauliflower, lima beans and carrots (all very cold, of course).

CINNAMON APPLE SALAD 6 apples, 1 package red cinnamon candies, 2 cups grape juice, 2 tablespoons nut meats, 10 dates, chopped, 1-2 cup diced pineapple, 4 tablespoons salad dressing.

Pare and core apples, leaving them whole. Make syrup of candies and grape juice and cook apples slowly in syrup until transparent, but not soft. Chill and stuff centers with remaining ingredients which have been combined. Serve well chilled.

Outline these with sliced tomatoes and cucumbers and sprinkle the top with chopped parsley and chives. Pass French dressing or mayonnaise.

Another substantial salad goes like this: Stuff hard-cooked eggs with fish, fowl or meat. Lay these on a generous bed of crisp salad green, dressed with French dressing. Outline with chilled peas, asparagus and sliced radishes. Garnish with small radishes and green pepper strips. Add pass more dressing.

Brighten up staid salads with pungent foods—pickles, spiced beef balls, pickled watermelon, cantaloupe, pears or peaches. Small tomatoes, stuffed with ham sandwich spread combined with minced celery and cucumbers are summery-like. Have them outline a platter of cold meat. Use cream for the garnish. It blends well in flavor with both the tomatoes and meat.

Try this new idea. Rub the insides of small cantaloupe with bruised fresh mint. Fill the melon to overflowing with cubes of peaches, pears and apricots mixed with French dressing—all thoroughly chilled. Pass French dressing with a little Roquefort cheese crumbled in it. For a real chilly effect half-freeze the fruits before filling the cantaloupe.

Old-fashioned cabbage salad goes modern when mixed with coarsely chopped peanuts, a few raisins and some cubed pineapple.

Here are some ideas for utilizing leftover cubed ham, veal, beef or lamb. Mix the meat with half as much diced celery, flavor it up with minced onions, chopped ripe olives, cucumbers and parsley, moisten it with salad dressing and serve on lettuce, garnished with balls of watermelon pickles.

Change Thanksgiving?

Most Local People Interviewed Favor Standing By Tradition

"So we'll change the date of Thanksgiving," said the president of the El Paso chapter of the National Thanksgiving League, "is a wild outcry went up. A tempest in a tea pot or maybe a real controversy, it all remains to be seen."

Senators, football coaches, political big-wigs were all interviewed for their opinion. So we asked the local folks what they thought.

The question was "What do you think of changing the date of Thanksgiving?" Mrs. J. F. Hair, housewife: "I'm not for it. I think we ought to stick to old tradition. Maybe I'm old-fashioned but I think we ought to keep the other date."

Orene Hughes, church secretary: "I think it is a lot of nonsense. It's been traditional for so long. There's no advantage in changing it that I can see."

Mrs. Elmo Knightstep, housewife: "I think it would be all right to change it. November 30 is so late that it is almost in December and everybody is getting ready for Christmas by that time."

Carl Strom, store owner: "I haven't given it a thought, what with the oil business mix-up. I'll be grateful if we even get a Thanksgiving at all I guess."

Shine Phillips, druggist: "Well, in that case Sunday and Monday should be changed, they come too close together. We ought to change 5 o'clock to 4 o'clock and turn off the lights when the sun goes down."

Dr. Lee Rogers, dentist: "Up until now the date was a historical one and the change will affect traditions, especially in football where certain games have been played on Thanksgiving. All this will be changed."

BACKACHE, LEG PAINS MAY BE DANGER SIGN Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention.

The kidneys are Nature's chief way of taking excess acids and poisons waste out of the blood. Most people pass about 3 pints a day of about 3 pints of waste.

Friction or stony passage with smarting and burning shows there may be something wrong with your kidneys or bladder.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. This poisons may start nagging, stiffness under the eyes, headache and dizziness.

**THREE PLANS ARE OFFERED ON MEXICO OIL SETTLEMENT**

WASHINGTON, Aug. 17 (AP)—The Mexican government has offered three plans for settlement of claims growing out of the expropriation of American oil properties.

Francisco Castellano Najera, Mexican ambassador, said last night the proposals were:

Collaboration between the Mexican government and the company in the exploitation of the properties; payment in oil taken from the seized wells, or "fair cash compensation" after an appraisal in which the companies' representatives would participate.

Najera said the joint operation would be under a long-term contract which would specify the proportion of earnings for each party. The companies have expressed a willingness for such a settlement but have insisted control rest in their hands.

Najera, in a formal statement, said his country was willing to make "just and effective payment of compensation" for the properties.

**NO RETALIATION AGAINST RAYBURN?**

WASHINGTON, Aug. 17 (AP)—Rep. Cochran, Missouri democrat and administration supporter, says there is no likelihood of Roosevelt forces attempting to depose Rep. Sam Rayburn of Texas as democratic house leader.

Cochran, in a statement, said some writers had mentioned a possible split in the democratic house organization due to "Rayburn's endorsement of Garner." He said such reports were prompted by "more or less imagination."

Rayburn recently pledged his support of Vice-President Garner for the 1940 democratic presidential nomination.

The Missourian said it was "natural" for Rayburn to support Garner, that the two had been closely associated for many years, and both were residents of the same state.

**IT'S EASY TO GAIN DER FUHRER'S EAR**

WASHINGTON, Aug. 17 (AP)—It's no trick at all to gain an audience with Adolf Hitler, as described by Fritz Kuhn, German-American Bund leader.

Kuhn told the Dies committee yesterday that when he went to Germany in 1936, he didn't ask anyone to arrange a conference with der fuhrer.

Kuhn said he went to Hitler's office and told a secretary a group of Americans wanted to see Hitler.

"I didn't even give the secretary my name," Kuhn testified.

He said he and several other bund officials were shown into Hitler's office and had a 10-minute audience.

**TROOPERS KNOW LITTLE ABOUT THEIR 'BATTLE'**

THIRD CORPS HEADQUARTERS, Manassas, Va., Aug. 17 (AP)—Many of the 23,000 troops taking part in the army war games in northern Virginia will have to consult maps and read the papers when they get home tomorrow in order to form a definite picture of what it was all about.

Major General James K. Parsons, Third Corps area commander, explained today the maneuvers have been primarily a staff training operation.

"It is invaluable for the officers, but it is bound to be pretty chaotic for the men," he said as the opposing forces began the final engagement of their four-day mock battle.

Trudging along back roads, bouncing in trucks or just standing under a blazing sun awaiting orders, national guard and regular army men have been able to see little of what was going on.

**SENTEICE COMMUTED, HE'LL GO TO REUNION**

DES MOINES, Ia., Aug. 17 (AP)—Marvin T. Grattan, 91-year-old Civil war veteran, plans to go east this weekend for a reunion of his buddies—thanks to Gov. George A. Wilson who commuted the last three months of an eight-year sentence he was serving for manslaughter.

Yesterday Grattan and his wife, 86, slipped away from the Iowa Soldiers home at Marshalltown, where he has been held in technical custody for several years, and went to the governor's office.

They pleaded for a commutation that would enable them to attend the Grand Army of the Republican National encampment in Pittsburgh, Pa., next week.

Governor Wilson announced an immediate commutation.

Grattan was sentenced for shooting Claude Meade, a horse trader, during a quarrel.

**RAINFALL BLAMED FOR TRAIN MISHAP**

PRATTVILLE, Ala., Aug. 17 (AP)—Death of a trainman, killed as his locomotive plunged down a water-logged fill, was charged today to torrential rainstorms which flooded this mid-state textile town to depths of five feet.

Fireman M. S. Chism was killed and Engineman E. D. Maharry injured as tracks gave way beneath their work train locomotive, dropping it within a few yards of an underpass on the Montgomery-Prattville highway late last night.

Two stores collapsed in downtown Prattville and were carried away by boiling floodwaters from Autauga Creek, which started on a rampage at dawn yesterday.

State Patrol Chief T. Weitzer Smith estimated 100 families had been evacuated here.

## FIRE INSURANCE RATE CUTS MEAN SAVING OF \$150,000 TO WEST TEXAS CITIES

Herald Austin Bureau  
AUSTIN, Aug. 17—Property owners in 68 West Texas towns will save more than \$150,000 on their fire insurance during the next 12 months as the result of rate reductions which will go into effect September 1.

The board of insurance commissioners has cut rates more than 10 per cent on nearly all types of property, including residences, industrial buildings, and public edifices.

On the basis of premiums totaling \$22,006,551 last year, Fire Insurance Commissioner Marvin Hall estimated the 10 per cent slash in rates will save property holders all over the state approximately \$2,500,000.

The premiums paid by property owners in the 68 West Texas towns last year amounted to approximately

by \$1,500,000. Figuring a 10 per cent reduction on this basis, the saving to West Texas fire insurance buyers will be at least \$150,000.

**\$10,000 In Big Spring**

Largest savings, of course, will apply in cities where the volume of fire insurance and premium payments are highest. In San Angelo, where premiums last year aggregated \$158,310, the savings will be in the neighborhood of \$15,800.

Ablene fire insurance buyers will be able to buy the same amount of protection on their property during the ensuing year as was in effect in 1933 for about \$13,700 less premiums. Total premium payments in Abilene last year were \$137,052.

Third in line, Big Spring will be able to save about \$10,000 on all of its insurance policies next year.

The reduction in rates was made

possible by a decreased ratio of fire losses during the last five years. While premiums throughout the state totaled \$110,165,335 during the five year period, fire losses ran only \$38,247,384, or approximately 35 per cent. Premiums in 1933 amounted to \$22,006,551; losses totaled \$8,630,516.

Besides reducing the rates, the board of insurance commission also ordered elimination of a discrimination against small towns which will mean an additional saving of thousands of dollars to fire insurance buyers in West Texas.

After March 1, 1940, all cities and towns will be eligible to a maximum 25 per cent good fire record rating. The rule now in effect limits a 25 per cent good fire record to cities with annual premium volume in excess of \$20,000. Towns with premium volume less than \$20,000 may obtain a maximum good fire record rating of only 15 per cent.

The maximum penalty for excessive losses was retained at 15 per cent by the commission.

As the result of extension of the 25 per cent good fire credit rating

to small towns, the cost of fire insurance will be decreased as much as 20 per cent in places such as Big Spring. The maximum good fire credit will be given, of course, only to towns which show a low fire loss ratio. The ratio of fire loss against premium volume over a five-year period must be less than 24 per cent in order for a town to receive the maximum good fire credit.

The rating is decreased five points with a proportionate increase in the fire loss so that a loss ratio of 75 per cent or more will obtain a maximum penalty for the town of 15 per cent on the cost of insurance.

The general fire records of West Texas cities is high above the average. Only five out of 68 have a penalty. These are Eden, Haskell, Lamessa, Presidio, and Snyder.

Ten cities where the premium volume is over \$20,000 annually enjoy the maximum good fire credit rating of 25 per cent.

Thirty-four, or one-half of the 68 cities, having a premium volume of less than \$20,000 annually, now enjoy the maximum good fire credit rating for their class of 15 per cent. After March 1, 1940, these 34 towns

**INVESTIGATE DEATH**

SAN ANTONIO, Aug. 17. (AP)—Military police assisted today in investigating the death of a man found dead in a railroad refrigerator car here Tuesday.

Cola, J. J. Murray and E. R. Phillips of Fort Sam Houston yesterday identified the man as Pvt. Jack T. Foster, 35, of the seventh signal service company at Fort Sam Houston. The man already had been buried and identification was made through clothing and laundry marks.

The officials said Foster had been missing from the army post since last Thursday night. His home was understood to be in Amarillo.

Dr. T. N. Goodson, county health officer, said he believed death was caused by suffocation.

# AMARILLO SOX THUMPED, 6-3; BARONS ON ROAD FOR SIX DAYS

## The Sports Parade

By HANK HART

L. E. Morris, the Big Spring baseball club's business manager, who made a recent survey for franchise possibilities in the WT-NM league, said he believed the family would have to get along without two cities now boasting clubs, that another city would have to be found to come in with Abilene, which will be ready.

Morris has lately paid several visits to San Angelo to scout on interest there. There seemed to be a strong desire on the fans' part for the professional game, he disclosed, but there was no indication a concerted drive could be effected to get the city as a whole interested.

Odesa, as long rumored, wants back in but league officials are not sold on possibilities of the Ector county capital. Wichita Falls is still being talked but if that city is admitted then what would happen to Clovis? Carrying both cities is unthinkable.

Morris said he was certain Midland would call it quits after the current season. The men now paying the freight for the Cowhounds guaranteed to league officials they would only see the club through this year, Berger, so says Morris, is certainly not assured of a place again although they have been drawing well. It seems the franchise hasn't yet met all its obligations.

The Big Spring baseball club will have used more than 500 baseballs by the time the season is over here. At \$15.60 a dozen that expense is another headache for the business office.

The club has also paid out better than \$200 in bats.

Jodie Marek, who'll be seeking his 21st mound victory on the Barons' current road trip, used but 133 pitches in a recent game with Amarillo, believed to be a circuit record.

James Woodrow Wilson, the coast youth called "Red" by fans here, has been handicapped for the past several days by a charley-horse. The ailment may force Manager Tony Rego to replace him in left field with one of the flingers.

Certainly the classiest infield combination in the entire WT-NM circuit is the Big Spring quartet—Billy Capps at third, Don Wolin at second, Bobby Decker at second and Curdele Loyd at first.

During the last home stay of six games, that combination pulled no less than 12 double plays. During

## LEONARD TRIES YANKEES ONCE TOO OFTEN

By JUDSON BAILEY Associated Press Sports Writer

The newest nominee for the pitcher that was too often the well-kept secret of the Washington Senators.

Because he had a phenomenal knack for tying the world champions in knots, Leonard very properly was the first thought of his manager, Bucky Harris, every time the Nats faced the New York Yankees this season.

Dutch stopped the Yanks the first four times he was called while no other pitcher in the league could beat them more than twice, but yesterday they ended his jinx with a 4-0 conquest.

Leonard gave only six hits and pitched five hitless, useless innings in a row. However, his offerings included a pair of doubles in the first inning, one of them by Joe DiMaggio, a home run by Mag with one on in the seventh, and another homer by Red Rolfe in the eighth.

The Cleveland Indians swept a doubleheader from the St. Louis Browns, 3-0 and 7-1, with Mel Harder earning the shutout on seven hits and Lefty Al Milnar taking the nightcap on four.

Bill McGee of the St. Louis Cardinals pitched a three-hit 3-0 shutout in the second game of a doubleheader with the Pittsburgh Pirates after the Redbirds had won the opener, 4-5, to narrow the gap between them and Cincinnati's National League leaders to six games.

Joe Medwick remained out of the lineup because of a sore back. Waiters' season

Bucky Waiters of the Reds, only 20-game winner in the majors, held the Chicago Cubs to five hits but suffered his eighth defeat, 2-1.

Sailor Bill Posedel pitched the Boston Bees to a 9-2 victory over the Philadelphia Phillies on six hits in the first half of a double hit. But in the nightcap Hugh Mulcahy stripped the juggers out of the Bees for a 2-1 triumph.

The New York Giants pounded on Al Hollingsworth in his Brooklyn Dodger debut with three runs in the first and scored four more off Tot Plesnell in the fourth for a 7-3 conquest which went to the credit of Cliff Melton.

During the game the Giants announced the indefinite suspension of second baseman Burgess Whitehead for breaking club rules. One of his infractions was showing up late for games.

Another second baseman, a chap named Charley Gehringer, got back into the Detroit Tigers' lineup after a long illness to deliver a pinch home run with one on in the ninth inning. This tied the score against the Chicago White Sox, but the latter won out in the 12th inning, 7-6, on two singles and an infield out.

The Boston Red Sox and Philadelphia Athletics were idle.

## DATES SET FOR JUNIOR TOURNEY

Sectional play starting today will determine the place.

## Rachunok Hangs Up 22nd Win

By The Associated Press  
Big Steve Rachunok allowed ten hits last night and still hung up his 22nd victory of the season. Henderson's ace fireballer kept Texarkana from scoring until the 7th inning and the East Texas League's leading Oilers won, 4-2, on only 8 safeties.

Tyler scored an unearned run in the ninth inning to win, 7-6, and snap Palestine's winning streak at ten games.

Marshall scored seven runs in the first two innings and coasted to a 10-4 victory over Jacksonville. A two-run Longview error in the tenth let Kilgore win 8-6.

## Walton's Home Run In 6th Is Payoff Blow

Janicek Tames Invaders With 7 Base Hits

By HANK HART  
A sixth inning three run circuit clout by Tex Walton gave the Big Spring Barons a lead they never lost as Louis Janicek pitched the Regomen to a 6-3 victory over the Amarillo Gold Sox here Wednesday evening.

Walton's blow that cleared the right field barrier by inches came with Bobby Decker and Curdele Loyd up front. The punch was a heart breaker for Ben Parrish, Amarillo right hander who seemed on his way toward doing what few right handers have been able to do this semester—beat the Barons in their own park.

Amarillo had taken a 3-1 lead in their part of the sixth, scoring twice when Joes Sanders doubled home Jim Neek and Stanley Bolton.

Parrish had pitched two hit ball up until the sixth when Decker greeted him with a single.

Count In Second  
Both teams counted in the second round. An error by Louis Janicek, who went the route for the Barons, led to Amarillo's first score. In fielding Hudson's sacrifice the left hander tossed wildly to Loyd at first base and Weiland, who had earlier walked, gained second. Janicek fielded Parrish's ground ball to force Weiland at third but Russarie punched out a single to end home Holt.

The Barons stormed back with a run, Billy Capps counting on Don Wolin's blow.

Janicek strengthened after the bad sixth, allowing but one man to get on base and coasted in when Walton and Billy Capps put together base blows for a pair of runs.

Walton beat out an infield lick and advanced when Pat Stacey was hit by a pitched ball. The runners effected a double steal to set the stage for Capps' blow. Walton went home and Stacey to third on the play. Capps pilfered second a moment later and Stacey danced in when Weiland, Amarillo backstop, attempting to make a play at second, threw wildly.

The win enabled the Barons to close in on the fight with Pampa for second place in league standings. The Oilers, losing again to Midland, now lead the Regomen by but half a game.

Manager Rego takes his charges to Amarillo tonight for the first game of a seven game road trip. They return home Wednesday with Pampa.

## TIGERS PLAY HERE SUNDAY

Pap Payne Slated To Go To Hill For Gamboamen  
Manager Elias Gamboa will lead his Mexican Tigers, local independent baseball nine, back into action Sunday here against the Midland Panthers. The game will be played in Baron park.

The Tigers decided the Midland crew, 12-11, in 13 innings earlier in the season and will depend on Pap Payne, who hurled the entire game, to work on the rubber for them again.

The Tigers played their last game three weeks ago, losing a 7-4 encounter to the Sweetwater Swatters.

Burying 'Em  
The west seems to have plumb given up the Giants. The other day a Detroit paper printed a story of a New York defeat on the obituary page, directly under the death notices.

It will cost the Athletics \$800 per head to transport the players by boat through the Panama canal to the new training camp at Anaheim, Calif. There is a rumor here Michigan will weak and name an outsider to referee Pastor vs. Louis... An official denial would quell the gossip.

Cotton Bagging

A picture of the first bale of cotton ginned in Wichita county this year shows it to be wrapped in cotton bagging. The Wichita Times adds the information that for the first time in history the three Wichita Falls gins will use nothing but cotton bagging this year.

Which reminds us that agitation in favor of wrapping cotton in cotton rather than in imported jute bagging is more than half a century old. Look through the back files of the newspapers in the late 1880's and you'll find many a reference to the subject.

Present-day interpretation of the law probably wouldn't be quite so strict. Farmers and ginners in many localities have agreed to use nothing but cotton bagging. If the practice spreads, a new use for the country's surplus bales will be found—and a blow dealt to the pauper-produced jute of far India.

Freight Rate Study

If a manufacturer had to consult a price book every time he made a sale, he would get a fair idea of what is a commonplace occurrence in railroad operation. Long criticized because of their complexity, rail freight rates go to the extreme of setting the haul-cost on any product between any two points.

The action is of great significance to West Texas, which area suffers from the rate inequalities, and whose spokesman-organization, the West Texas chamber of commerce, was a leading factor in bringing about the ICC decision.

Hollywood Sights And Sounds

HOLLYWOOD—Artie Shaw, the swingman, left "Dancing Co-ed" in too much of a hurry, pretty fed up with pictures. They parceled his remaining dialogue to Lee Bowman, already in the picture.

Once upon a time there was a charming young fellow who dropped in on Hollywood with a suitcase, a few suits of clothes, and fewer dollars. He had met Sally Blane in London, so he went calling, was invited to remain to dinner with the family.

The old times are with us again... Mack Sennett back at a desk... D. W. Griffith active in an advisory capacity at Hal Roach's Lasker Joy, from a somewhat later era than theirs, playing her first role in 10 years.

WASHINGTON—Frank McHale, presidential campaign manager for Paul V. McNutt, is not even missing small bets for support in 1940. Somebody tipped him off that Senator Bone of Washington was born in Franklin, Ind., which is McNutt's home town.

One of the troubles with the administration's spending-lending bill was that it had too many aliases, none of which quite explained what it was. "Self-liquidating projects bill" was one; "Works financing bill" another.

Note to tourists: If you happen upon a garden in the front yard of the White House he will clip you a piece of ivy right off the presidential mansion. You can keep it alive in a bottle of water or a wet towel until you get home.

with an assertion that the committee wished to be fair and Representative Starnes (D-Ala) resumed the questioning.

Kuhn previously had demanded unsuccessfully that he be given a chance to obtain a lawyer, after committee counsel had attempted to trace Kuhn's relief money into a \$3,000 fund Kuhn collected for winter relief in Germany in 1936.

"So these unemployed members contributed money that the United States government gave them for relief for you to take over and turn over to Mr. Hitler for winter relief?" Whitley demanded.

"Yes," the witness replied and then, apparently realizing the implications of the statement, he demanded "How do you know that?"

Under questioning by Rhea Whitley, committee attorney, Kuhn agreed there were many unemployed members of his organization who as American citizens, were entitled to relief.

He said the fund made no attempt to provide aid to these members here, although he collected funds for German relief needs.

Earlier, K. A. had denied tensely that the influence of his brother, Justice E. A. Kuhn of the German supreme court, had anything to do with his gaining the leadership of the German-American fund.

## ICKES SEES NECESSITY OF FEDERAL OIL CONTROL AS RESULT OF PRESENT CRISIS

**HOPEFUL—A prosperous forthcoming year for U. S. business is forecast by Robert H. Cabell (above), Armco and Company president, on his recent return from trip to Europe.**

WASHINGTON, Aug. 17 (AP)—Secretary Ickes said today the present upset condition of the petroleum industry would make more necessary than ever enactment of legislation giving the federal government partial control of oil production.

Commenting on the oil production situation climaxed by the shutdown of wells in several states, the interior department chief said "we need state and federal cooperation," adding "the oil situation will make the Cole legislation more necessary."

Rep. Cole (D-Md) proposed late last session a bill providing for cooperation of oil producing states with the federal government in fixing production quotas, and in actuality would give the government a strong hand in controlling production.

Ickes said "the state of Texas particularly," had objected to such legislation.

cent a gallon in many cases yesterday.

Belief the consumer would not feel the price hike for some time was expressed by a leading broker.

Many Oklahoma bankers announced they would not hold "the strict terms" of commercial paper based on production of oil during the shutdown period.

One survey showed Oklahoma refineries had 10 to 12 days' supply of gasoline, Kansas and North Texas less than 10.

Actually, the six states produce 68.88 per cent of the nation's oil. Closing orders reach approximately 170,833 wells in the area, and production amounts to approximately 2,356,800 barrels daily.

Last to join the "shutdown strike" were Louisiana and Arkansas. In the former, Gov. Earl K. Long made his order effective at 6 p. m. today.

The Arkansas Oil and Gas commission late yesterday ordered the valves closed on wells producing some 36,000 barrels of crude daily.

Arkansas fields discovered prior to Jan. 1, 1937, producing 29,000 barrels daily, are exempt from commission control.

An indication attempts might be made to prolong the shutdown if it did not have the proper effect on the topping price structure came from Gov. Leon C. Phillips of Oklahoma.

He said that should the current action fail to halt the crisis he "would not hesitate" to call a meeting of the governors of the oil states "or the state regulatory bodies."

### Rains Spotted Over County

Spotted showers, whipped by stiff winds, wet scattered areas over this section Wednesday evening as unsettled weather conditions continued.

Heaviest fall was reported in Big Spring and the north of the city. The U. S. Experiment Farm gauge showed .45 of an inch, most of the amount falling in the space of about five minutes. Drainage channels from the northern slopes ran large quantities of water for half an hour.

Some damage occurred to trees and flowers within the city limits when heavy showers were driven by a shifting gale. A lead line near 806 E. 3rd fouled at a point where insulation had been worn away by contact with trees. Firemen were called out when other insulation smoked and a pole caught fire.

Light showers were reported as far north as 10 miles but the maximum fall in this region was estimated at an eighth of an inch. Four miles north of Coahoma rain covered a three mile belt and was heavy enough in spots to be of benefit to ranges and crops. There was no fall east of Big Spring.

Light showers were reported as far north as 10 miles but the maximum fall in this region was estimated at an eighth of an inch. Four miles north of Coahoma rain covered a three mile belt and was heavy enough in spots to be of benefit to ranges and crops. There was no fall east of Big Spring.

### REA Project Is Launched

Howard and Martin county rural residents are combining efforts in an attempt to establish and operate a Rural Electrification Administration project.

Tentative plans call for surveys on proposed lines to serve territory through the heart of the northern half of Howard and Martin counties. Lines would come in the vicinity of around 600 farm and ranch homes.

H. W. Davenport, Lenora, has been chosen president of the proposed authority and Riggs Shepherd, Courtney school superintendent, has been named secretary and coordinator.

Directors include Glen Cantrell, Center Point; W. E. Parker, Martin county; Davenport; H. Rayford, Martin county; C. B. Lawrence, Luther; R. L. Stallings, Knott; Jim Jones, Taran; Mrs. Lee Castle, Brown; Dale Hart, Fairview, and Arsh Phillips, Moore.

Three meetings, two of them in Martin county, have been held in interest of furthering the project. Under REA terms, a nominal deposit fee is required of patrons, plus a basis minimum rate of \$2.45 per month for 25 kilowatt hours. Additional hours are based on an REA scale.

### ARMAMENTS BRING INDUSTRY REVIVAL OVER EUROPE

WASHINGTON, Aug. 17 (AP)—Huge outlays for armaments in Europe have caused a sharp industrial revival on that continent, government economists reported today as they predicted business conditions in the United States would improve gradually in the next few months.

The European upturn was summarized by the bureau of agricultural economics.

As to the domestic outlook, the economists said "some additional betterment during the next few months is indicated by conditions in the more important industries but no business boom of large proportions is in sight."

### ASKS PUBLIC HELP ON TAX REVISION

WASHINGTON, Aug. 17 (AP)—Ranking leaders in all divisions of the nation's commerce and industry were invited today by John W. Hanes, acting secretary, to join with the treasury in compiling a record of "public tax opinion" to help congress in revising tax laws next session.

Hanes wrote numerous officials of labor, financial, business, industrial and agricultural firms and organizations that the treasury would like to get their views on tax problems preliminary to the formal study which a house ways and means subcommittee will begin November 1.

### ASK REINSTATEMENT OF PREVAILING WAGE

ATLANTIC CITY, N. J., Aug. 17 (AP)—President Roosevelt has been requested by the American Federation of Labor to reestablish the "prevailing wage" scale for skilled WPA workers.

The president's executive council informed the president yesterday he had power, under section 15-B of the Woodrum "130-hour" law to order payment of prevailing union wages on projects started before July 1. Many WPA projects have been tied up by striking AFL craftsmen.

### CADET FLIER KILLED IN PLANE CRASH

SAN ANTONIO, Aug. 17 (AP)—Death caused Second Lieut. John R. Hopson of Washington, D. C., to miss graduation from Kelly Field by nine days.

His plane crashed late yesterday while he was returning with 22 other fliers from a training flight to Abilene. The ship was found on its back in a road 17 miles northwest of here.

### BORDER FIGHT

BUCHAREST, Aug. 17 (AP)—Two Rumanian frontier guards were killed and one was wounded by Hungarian troops, an official Rumanian announcement said tonight. The shooting occurred near the Rumanian village of Salonta Mare this afternoon, it said.

### FRENCH PLANES 'RAID' ENGLAND

PARIS, Aug. 17 (AP)—More than 200 French bombers and fast sky fighters "raided" population centers of England, last night in reciprocal British-French warplane tests and returned to their bases today reporting all objectives had been reached.

An air ministry communique said the planes "struck" at London, Liverpool, Bristol, Birmingham, Manchester and Oxford.

British anti-aircraft batteries were trained on the French raiders outside London.

### FORMER PRESIDENT OF A. & M. DIES

KILGORE, Aug. 17 (AP)—Dr. H. H. Harrington, former Texas A. and M. college president and for four years chief chemist of the Texas railroad commission, died here last night.

The 79-year-old educator had been ill three weeks. Pneumonia set in several days ago.

Funeral services will be held at Bay City tomorrow.

Nearly 100 anti-aircraft guns landed in Bombay, India, since the middle of April will be used to arm merchant vessels in emergency. British ships here have had their decks rebuilt for gun-mounting.

### Garden City Road Program Is Delayed

Temporarily shelved Thursday due to right-of-way difficulties was the important Garden City road project.

Commissioners court members professed interest in the road, but pointed out that at present the right-of-way situation presented an insurmountable obstacle in view of other roadway demands upon the road and bridge fund for the year.

The matter was not closed finally, should enough sentiment be manifested in the new and direct road to connect the Howard and Glasscock county seat, commissioners might be disposed to seek some solution to the problem.

Official sources said that if the right-of-way difficulty could be overcome, the county might be in a position to open up a portion of the road and surface a short stretch so as to serve areas in the direction of Elbow community.

Previously, the Glasscock county commissioners court expressed an interest in the road and intimated that their action in securing new roadway was dependent upon the

opening of the road in Howard county. State highway engineers have completed a survey on the conditionally designated road. The route leaves the relocated highway No. 9 about four miles from town and angles in a straight line across the north end of the current route for highway No. 9 to a point near Elbow and sweeps into a direct path to Garden City.

bolts flew into the air. Some fell in the crowd of spectators.

Scores of shipwrights, who were below the vessel to act in freeing her at a given signal, raced to safety as the cradle crashed about them.

Rugs maneuvered frantically to get out of the way of the "runaway" vessel, their screams screaming.

The bandmaster of the Royal Ulster constabulary shared Lady Wood's presence of mind and struck up "Rule Britannia" just as the launching had been on schedule.

The formal christening service by assembled clergymen was carried out after the injured had been taken away.

### IS DISMISSED AFTER 28 YEARS' SERVICE

DENVER, Aug. 17 (AP)—Engineer W. W. Medae, 66, whose record of 28 years' service without an accident was broken Saturday when his locomotive struck another passenger train, killing two men, is no longer an employe of the Denver & Rio Grande Western railroad.

Officials of the line announced yesterday they had dismissed Medae after finding no substantiation for his contention faulty air brakes caused his "Scenic Limited" to crash into the Santa Fe's "Navajo" at a south Denver crossover.

**Paper Plant  
Is Going Up**

LUFKIN, Aug. 17 (AP)—A three-way dream is coming true in the steel, wood and masonry that soon will form the first plant to make newsprint from southern pine.

It was the dream, first of Charles Homes Herty; next, of Francis Patrick Garvan and, then, of the piney woods people throughout the south.

Dr. Herty was the scientist and research worker who gave many years of his life proving at his laboratory in Savannah, Ga., that newsprint could be made from southern pine wood.

Garvan, president of the Chemical Foundation of New York, early caught Dr. Herty's zeal and contributed freely in money to keep the paper-making experiments going.

Both died before their dream actually was realized. Garvan in 1927 and Herty in 1938, but not before the doctrine they preached took root.

With cotton waning as a producer of wealth, southerners began to look to their pine lands as a new source of riches. Visions sprang up of a new industry providing work for thousands in supplying the vast tonnage of paper used in printing newspapers.

And now three miles east of Lufkin, at Herty, embryo town named for Dr. Herty, a \$6,000,000 plant for making newsprint is going up. As large as this enterprise is, many see it merely as a beginning.

E. L. Kurth, president of the mill, put it this way:

"We hope to turn out about 50,000 tons of newsprint annually. I feel this is just a start, and that soon over the south other Herty's (newsprint towns) will spring up. Texas alone consumes more than 110,000 tons of newsprint annually or more than twice as much as the capacity of our mill."

The pioneer plant, expected to employ between 800 and 1,000 men directly and many others indirectly in supplying its raw materials should be completed and begin production by the end of the year.

Keenly interested in the new venture are southern newspaper publishers who look to the new industry as a home source of their paper supply, which comes now largely from foreign countries, Canada in particular.

**29TH IN UTAH TO  
FACE FIRING SQUAD**

SALT LAKE CITY, Aug. 17 (AP)—When Trapper George Hayes, Tooele county "demon slayer," is executed he will be the twenty-ninth Utah murderer to face a firing squad.

Hayes was to be strapped into a chair and shot to death in the Utah state prison tomorrow at dawn, but a last-minute reprieve by Gov. Henry H. Blood gave him at least a month more of life.

In 23 previous executions all but five condemned men chose the bullet in preference to hanging.

Utah law, unique in the United States, permits selection of either execution method.

Hayes, 54, a strapping half-breed Indian, was convicted of blinding Sherman Cadwell, 71-year-old desert prospector, into a chair in his mountain cabin, then firing a bullet into his head.

Cadwell's radio, Hayes averred sent out strange noises and "demons" that kept him awake at night.

**Over 173 Mill'ion  
Paid In 1938 On  
Endowment Policies**

The life insurance companies of America in 1938 paid out a total of \$173,832,530 to living policyholders on endowment policies which matured in that year, according to a compilation by the Annual Message of Life Insurance Committee, released today.

These payments marked, for the holders of the 480,806 endowment policies who received them, the successful completion of savings-insurance programs started ten, twenty or more years ago.

Joseph C. Eshlin, chairman of the committee, said, in announcing the figures: "During the entire period it took these policyholders to reach their objective, their families were protected by insurance in the full amount that they had set as their savings goal."

Of the payments on matured endowment policies in 1938, \$120,936,876 went to holders of 116,658 ordinary life insurance policies, \$42,800,000 to holders of 354,122 industrial policies and \$10,095,654 to holders of 28 group insurance certificates.

Large payments over Halifax, N. S., in June totaled 175,652, an increase of 46,736 as compared with the previous June. For the full year, the total was 1,584,476, an increase of 27,572 tons.

SELL ESTATE TO  
FATHER DIVINE**

NEWPORT, R. I., Aug. 17 (AP)—Despite the fact President and Mrs. Roosevelt agreed Father Divine, Harlem religious leader had a right to buy a 700-acre estate at Hyde Park, N. Y., for a "heaven," Mrs. James L. Van Alen owner of the property, denied today she was negotiating for its sale.

Father Divine wrote Mrs. Roosevelt 10 days ago he had not agreed to purchase the property "until I had opportunity to consult your wishes in the matter."

Mrs. Van Alen inherited the property from an uncle, Frederick Vanderbilt.
