

Gunfire Adds To Tension In Harlan County

Shootings Occur As Troops Guard Strike-Torn Area

HARLAN, Ky., May 18 (AP)—Two outbreaks of gunfire, one between state troops and an ambushed group with no casualties marked increasing tenseness today in the Harlan county soft coal field labor strife.

"Snipers" Fire At Men

C. V. Bennett, operator of the Harlan Central Coal company at Totz, reported "snipers" in the mountains fired about ten shots at men returning to work. Bennett said the troops on duty did not answer the fusillade. The mine suspended operations temporarily.

Brigadier General Elberle Carter, commanding the national guard troops in the county, said 43 miners from Totz appealed to him for protection against union pickets.

The general told the group they would be given "full protection." General Carter said he would make a "thorough investigation" of the shooting, after receiving a report to this effect:

A group of six miners ascending by cable car to the pit head of Highsplit mine No. 2, approximately 20 miles northwest of here, were fired upon about 6:30 a. m. from a wooded hillside.

Four guardsmen stationed at the mine fired into the woods. Their shots were returned and several rounds were exchanged before the militiamen rushed the hillside.

The troopers reported they found only a quantity of empty buckshot shells in the woods.

Previously, the general had declared the troops "are under orders to shoot and to shoot to kill if necessary."

Tension increased along picket lines at the mines and where militiamen placed blockades along the highways.

BRITISH RULERS BEGIN THEIR LONG SERIES OF CEREMONIALS

Soon after landing from the Steamship Empress of Australia at Old Quebec Wednesday morning, King George VI and Queen Elizabeth of Great Britain and of the Dominions Beyond the Seas began the formal ceremonies that will attend the journey across Canada and the United States. Depicted here a woman bows to the king and an unidentified man bows before the queen. Prime Minister W. L. 'Kiss Of Death' Woman, Chief Figure In Mass Murder Plot, Taken In N. Y.

NEW YORK, May 18 (AP)—The elusive "Kiss of Death" woman, Mrs. Rose Carina, known to have had at least five husbands, three of whom died under mysterious circumstances, was arrested today by federal agents in connection with the Philadelphia investigation into a mass murder syndicate.

Philadelphia authorities have named her one of the principal actors in the bizarre crime drama. Police Captain James Kelly of Philadelphia described her as the "professional widow" used by the ring to trap prospective victims. She is wanted, he said, on a warrant charging conspiracy.

Dwight Brantley, agent in charge, said the woman was taken into custody early today and would be removed to Philadelphia later. He declined to disclose details of the arrest or where she was found.

Rose Carina was five times a wife and three times a widow. Various persons questioned by Philadelphia authorities in connection with the case have described her as "Rose of Death" and the "Kiss of Death Woman."

Twelve widows linked with the ring already are in custody. Some 80 deaths have been attributed to the "murder-for-insurance" conspirators and authorities conceded there might be many more, as almost unbelievable new ramifications are uncovered practically every day.

Besides scores of new leads developed through confessions of ring members in terror of the electric chair, the police have been greatly aided by anonymous letter writers who have flooded them with tips. Police said checks have proved about 75 per cent of these tips to be accurate.

Topped by the arrest of Mrs. Carina, other developments spurred a drive for quick prosecution of 25 men and women charged in the plots to kill for insurance. The developments were:

Royal Couple Starts Tour Of Canada

MONTREAL, May 18 (AP)—King George VI and Queen Elizabeth both arrived here today, destination of their first day's travel on an historic 4,000-mile tour of Canada and the United States aboard their private train, at 12:15 p. m., CST.

ABOARD THE ROYAL PILOT TRAIN at Three Rivers, Que., May 17 (AP)—King George VI and Queen Elizabeth saw Canadian country for the first time through the valley of the St. Lawrence today as the royal train bore them west beyond the hills of Quebec.

At every village station school children and townspeople frantically waved British, Canadian and French flags as the train rolled through. Along the roads from early morning French-Canadian habitants plodded with old-fashioned horse and buggy transport to reach the railway.

Between towns, country folk, some dressed brightly in their Sunday best, trudged across fields to wave to the gleaming royal entourage, the like of which they had never seen.

To the south, the king and queen saw the wide St. Lawrence glistening in the sunshine and from either side of their observation car the strip fields peculiar to French-Canadian agriculture. Even between Quebec and Montreal, a thickly settled district in Canada, forests of birch and pine and rushing, clear streams gave the visitors an idea of the character of Canada.

At 9:45 a. m., CST, the train reached Three Rivers, historic town in the building of Canada and the exploration of North America. Here the king and queen could have seen the largest number of well-preserved 17th and 18th century buildings to be found north of the Rio Grande, but what they saw mainly during their 17-minute stop was a larger massed crowd than in Quebec. The whole city and country turned out, packing the town.

Student Bill Is Vetoed By O'Daniel

Opposes Education For Foreigners Until State Has Money

AUSTIN, May 18 (AP)—Governor W. Lee O'Daniel cut the throat of another bill today, second in two days. He vetoed a measure allowing a number of students from other American countries to attend state educational institutions without paying tuition.

Favored By Hall

A bill creating a commission composed chiefly of standing committees in the legislature to cooperate with other states in working out interstate problems was vetoed yesterday.

The governor said the student education bill, which was favored by Secretary of State Cordell Hull, was laudable from the standpoint of fostering friendly relations with neighboring nations, but "noble donating impulses" should be postponed until the state has "some money."

In today's and the previous veto messages he spoke of a \$17,000,000 deficit in the general revenue fund.

Sanatorium Cottage Construction Defted

AUSTIN, May 18 (AP)—A strong effort to authorize a possible \$2,500,000 cottage construction project at the state tuberculosis sanatorium near San Angelo failed in the house today by four votes.

The proposal, offered by Rep. Abe Mays of Atlanta, would have provided a \$500,000 state appropriation for cottages for tuberculosis sufferers. Mays voiced the opinion the federal W.P.A. would furnish an additional \$2,000,000.

The proposition was sent up as an amendment to the departmental appropriations bill, on which the house had been working most of the time since last Friday. Opponents said the state should not embark on any such venture without giving it thorough study.

Mays said the cottage would accommodate tuberculosis patients who cannot get into the sanatorium because there is no room for them and cannot afford a private hospital. He contended they would rent for about \$7.50 a month, the patient would furnish his own attendant and would be given free medical service by sanatorium doctors.

Rep. E. H. Thornton of Galveston, urging defeat of the amendment, said he sympathized with Mays' aim but any such appropriation should be considered by committee and be inserted in the elementary bill instead of the departmental bill.

Jews Demonstrate Against Britain's Palestine Plan

Protest Independent State Under Arab Control; Fighting Breaks Out, Heavy Guard Maintained

JERUSALEM, May 18 (AP)—Jews of all ages, estimated by their leaders at 17,000 strong, marched and shouted in demonstrations throughout Palestine today, protesting against the British government's decision to establish an independent Palestine under Arab control.

Up to noon the demonstrations were free of disorder such as a clash last night at Tel Aviv in which 25 persons were injured. Jews said 50,000 persons took part in the Jerusalem demonstration and additional thousands in agricultural settlements.

In Jerusalem, the demonstrators formed a procession, eight abreast, behind the chief rabbi and marched to an open space in the Jewish quarter. The parade was one mile long.

Rabbis carried sacred scrolls. Other marchers sang and shouted slogans of protest or carried placards.

Earlier in this Holy City, younger Jews gathered in the main streets, booing British and Arab passersby.

Few Arabs appeared and all non-Jewish traffic was diverted by police from the main streets. A police guard, one of the heaviest in recent times was on the alert at all government buildings.

Frequent Arab comment on the British plan was, "this is full evidence that Britain has realized the need of Moslem aid—for defense of the empire."

Reflecting the Jewish viewpoint, the Palestine Post, the only English language daily published here, said, "it is not for long that Britain will be headed by a government wedded to appeasement and a government whose belief it is that moral values must yield to expediency."

Fighting broke out at Tel Aviv last night when several thousand Jewish youths, according to British reports, set fire to government district offices, then kept a fire brigade from going to the blaze.

Police said order was restored early today. The injuries resulted, it was reported, when police fired into the air, then charged with batons. (Reuters, British news agency, said a Jewish constable was wounded when someone in the crowd fired on police.)

Mayor Israel Rokach pleaded with the demonstrators not to embarrass Tel Aviv's name after flying stone injured him slightly as he stepped from an automobile. The municipality in a statement condemned the demonstration, and the government ordered a curfew.

Authorities "evict" that Jewish opinion generally was against violence and that sponsored Jewish protests would take the form of a passive resistance campaign after the pattern set by Mohandas K. Gandhi in India.

"The new policy," said one Arab, "paves the way for friendlier relations between Arabs and Jews (who will be limited to one-third of the population) and opens a new era of peace and prosperity in Palestine."

The Arab higher committee, however, was reported to be drafting a statement contending that the plan had not gone far enough.

Sadler Would Throw Fields Wide Open

AUSTIN, May 18 (AP)—Wide-open production for all Texas oil fields after 60 days was recommended today by G. A. Jerry Sadler, member of the railroad commission, if better cooperation in proration was not forthcoming from other oil producing states.

Regulator of the industry in Texas, the commission has ordered shutdowns of all fields in the state, with a few exceptions, on all Sundays and two Saturdays in May and June.

In a statement, Sadler said the commission had information an oversupply of oil was piled up on the Texas seaboard, most having come from Louisiana, and in addition oil from Illinois was entering Texas, largest oil producer among the states.

Major oil companies should ask Louisiana to reduce its allowable appreciably, he declared, and if at the end of 60 days, during which Texas would continue to fit production to market demand, Louisiana or any other state did not trim its allowable then Texas fields should be opened.

While some oil producing states prorate, none carry out proration laws to the extent Texas does, Sadler asserted, averring Texas should not continue to "hold the bag much longer."

HEARING SLATED ON ROBBERY CHARGES

SAN ANGELO, May 18 (AP)—A hearing will be held here this afternoon for J. A. McClain on federal charges of robbing the Santa Anna National bank of approximately \$1,772.

The 54-year-old Bangs, Tex. farmer was arrested yesterday and state charges of bank robbery were filed at Coleman. Officers dug up approximately \$1,533 near McClain's home.

WTCC's New President A Typical Pioneer Of The Western Country

ABILENE, May 18—E. K. Fawcett of Del Rio, new president of the West Texas chamber of commerce, is a typical pioneer West Texan.

For many years he has been one of the largest sheep ranch operators in Texas.

Mr. Fawcett has represented Del Rio and Val Verde county on the board of directors of the West Texas chamber of commerce for more than a decade. He was elected second vice-president of the regional organization in 1937 and was named first vice-president in 1938. He was elevated to the presidency at this year's WTCC convention, which closed in Abilene Wednesday.

Girl Is Stabbed, Assailant Sought

M'ALLEN, May 18 (AP)—A score of officers followed the slimmer leads today, thus far in vain, to determine identity of the person who stabbed 15-year-old Margaret Lucille Bush, McAllen high school girl.

She was found nearly dead from three knife wounds, in a brush-covered block on the edge of the city yesterday by two small boys. Her condition today remained critical.

Sheriff R. T. Daniel said only "slight suspicion" caused the arrest of a negro youth at McAllen in connection with the case. A score of suspects arrested here during the night were released.

The girl was found less than two hours after she left the school campus for home. Officers were unable to offer a possible motive for the attack.

Youth Charged In Monahans Shooting

MONAHANS, May 18 (AP)—C. W. Ely, 18, of Jal, N. M., was held at Peecos today on a murder charge in connection with the fatal shooting here of Night Police Chief Earl Burkett.

Burkett was shot through the left lung while assertedly attempting to search a youth at the Monahans jail early yesterday. Ely was caught at Wink shortly after the shooting.

ABANDON HOPE FOR MISSING AVIATOR

CHICAGO, May 18 (AP)—Relatives on both sides of the Atlantic virtually abandoned hope today for safety of Charles Beckman, Chicago aviator long overdue in an attempted solo flight from Newfoundland to Stockholm.

The 34-year-old flier has been unreported since his takeoff early Tuesday. Beckman's small, 90 horsepower monoplane carried sufficient fuel for a 45-hour flight. He had figured making the crossing in 29 hours.

Beckman's brothers, Andrew and Gust of Chicago, said they had lost hope for his safe arrival. In Sweden another brother expressed fear he had been forced down at sea. Beckman's craft carried no radio.

DOCTORS SEE 'HUMAN HIBERNATION'

By HOWARD W. BLAKESLEE
AP Science Editor

ST. LOUIS, May 18—Like wild-fire a new medical idea, human hibernation, is spreading among the thousands of doctors here for the annual meeting of the American Medical Association.

They want to try it on heart disease, insanity, tuberculosis and like representing the whole gamut from degenerative to infectious diseases.

All week they have been standing three deep, on tiptoe, in little rings around a motion picture in a small scientific exhibition booth seeing something that never before was done to human beings.

The pictures show women, naked except for a loin cloth, being put to "sleep" like hibernating bears, by refrigeration. The hibernation exhibit is by Doctors Temple S. Fay and Lawrence W. Smith of Philadelphia.

The women are stripped and covered with cracked ice like frozen fish. An electric fan is turned on. In three hours their internal temperatures are forced down below 90, usually to a special temperature of 89.

They literally go to sleep. The sleep is like the drowsiness that overcomes a freezing person, except these patients report none of the agonizing pains preceding freezing.

The pulse beat disappears. Their kidneys stop. Bowels and apparently all digestive works stop. But this, ordinarily a signal of approaching death, seems of no danger, because at the same time analysis of the blood shows it has ceased to fill up with waste products. There is nothing to eliminate.

Metabolism itself slows down to 20 per cent.

They should die of pneumonia but not one has ever shown a sign of pneumonia. They haven't caught cold or anything else whatever as yet. The germs in their bodies apparently slow down along with the entire organism.

E. K. FAWCETT

When many men retire, Mr. Fawcett is still active and healthy. Through all the years he has maintained an active interest in the welfare, not only of his home city and county, but of all West Texas as well.

He first arrived in Val Verde county on July 24, 1882, coming from Nokerton, Tex. In company with a group of other young men he drove a flock of 3,000 sheep into Val Verde county and settled on Dolan creek, about 30 miles northwest of Del Rio. The party

THREE KILLED IN COLLISION

WEATHERFORD, May 18 (AP)—Three youths were killed and a fourth critically injured today when two automobiles traveling in the same direction collided at a railroad underpass between here and Mineral Wells.

The dead, all of Weatherford: Cleo Walter Medford, 18, neck broken; J. P. Hill, Jr., 16, head crushed; Charles Eudler, 20, body crushed. Most seriously injured was Eugene Richards, Weatherford high school student, who was injured internally. David Mercer, Jr., was slightly injured.

Investigators were told the two automobiles hit when the leading car skidded on wet pavement and turned broadside to the other.

COTTON WEEK TO BE OBSERVED

Cotton Belt states and communities are uniting this month in a challenging campaign unprecedented in the annals of American cotton-growing history to promote greater consumption of cotton products through National Cotton Week, May 22 to 27.

Backed solidly by other national organizations, the National Cotton Council and the Cotton Textile Institute are leading the drive as official sponsors of the 1939 observance.

Throughout the Cotton Belt, cotton carnivals will abound during National Cotton Week, with many kings and queens of the cotton realm receiving homage in beautifully-decorated courts. The story of cotton from its infancy to reigning supremacy will be unfolded in pageants through which particular stress will be placed upon new cotton styles and fabrics dictated by fashion leaders for the coming summer.

More than 75,000 retail merchants throughout the nation will feature and display cotton products, a new high for cooperation in the annual celebration.

Cooperating with the Cotton Council and the Cotton Textile Institute in the expanded Cotton Week are the National Retail Dry Goods association, the Wholesale Dry Goods Institute and chains of affiliated with the Institute of Distribution, the National Association of Food Chains and the National

Continue Search For Bank Loot

DECATUR, May 18 (AP)—Officers searched brushlands near here today for the bulk of the loot brothers Pete and Lewis Pinion are charged with taking from the First Bank of Chico.

Assistant County Attorney Jennings Brown said Lewis, about 25, led officers to a spot where \$500, some clothing and a pistol were hidden, but that early quest for a truck under which some \$2,000 remained tied in a handkerchief and towel had failed.

The Chico bank was robbed just before noon Tuesday and Pete Pinion, 28, was wounded several hours later by officers who cornered him in woods near Chico.

Lewis was arrested yesterday when he came to a hospital here to see his brother, whose condition was not serious.

Seventh Grade Programs Held

Nineteen seventh grade students in the Midway and Chalk schools were promoted into high school Wednesday evening in special exercises held at the schools.

At Chalk six students received recognition for having been either absent or tardy during the year while at Midway this honor went to 11.

Anne Martin, county superintendent, brought the principal address of the evening at Chalk where she talked on "Finding the Better Things of Life." W. C. Blankenship, city school superintendent, was the promotion speaker at Midway.

At Chalk the Rev. C. L. Garrison pronounced the invocation and Mary Bell Brennan, a teacher, played the precessional and recessional. Walter Fry, See EXERCISES, Page 11, Col. 3

Lindy Tells Of Germany's Air Strength

WASHINGTON, May 18 (AP)—A congressional drive to alter the army air corps expansion program gained headway today on the strength of testimony by Col. Charles A. Lindbergh that Germany exceeds the United States in military aviation.

Several members of a house appropriations subcommittee have criticized the army's plan to hold 2,153 of its projected 3,500 fighting planes in reserve. They have suggested, instead, that some of the money be diverted for aviation research and experimentation.

Although Lindbergh was quoted as endorsing the reserve, these members contended their position was strengthened when he recommended to the subcommittee yesterday that the government step up research activities.

Lindbergh spoke at a closed session of the group during its consideration of additional army appropriations totaling more than \$300,000,000.

Members summarized as follows the testimony of Lindbergh, who has just finished inspecting American aviation facilities for the war department:

He said Germany has outstripped the United States in the speed of its attack planes and efficiency of its light bombers. He explained he did not know how many warplanes the rich has, but estimated its productive capacity is 20,000 planes a year.

The famous flyer assured the committee the United States is in no danger of aerial attack from abroad, because European military planes are not long-range types.

Rep. Engle (R-Mich) said afterward that Lindbergh, speaking dispassionately, emphasized quality in aircraft rather than quantity.

FIVE KILLED, SIX INJURED IN BLAST

LONDON, May 18 (AP)—The war office announced five British army gunners were killed and six injured today in an explosion at Woolwich arsenal, the second there in two days.

The explosion occurred during the loading of a 3.7-inch anti-aircraft gun.

Today's was the most serious accident at Woolwich since five men were killed in 1936 during secret experiments with artillery ammunition.

The gunners caught in today's blast had been sent to the arsenal from the military college of science at Woolwich.

Before 1900 there were 40 medical schools in the South.

ENTERTAINMENT TIPS FOR JUNE BRIDES

Here's a lesson in coffee: In front is a breakfast cup (left) and a cafe au lait; in the rear is Viennese coffee (left) and a demi-tasse.

By MRS. ALEXANDER GEORGE, AP Feature Service Writer

June brides soon will be thinking, perhaps worrying, too, about their first entertaining in their new home.

Perhaps the best inaugural for the new housewife's social program would be a tea for some of her best friends. A tea doesn't require elaborate preparations and doesn't tax the bride's culinary skill. Yet it does call into play her skill as a hostess.

It has another nice feature: It affords her an opportunity to show off some of those cherished wedding presents—silver, linen, china-ware.

Guests should be invited at a specific hour, plans should be worked out carefully in advance. Don't attempt to serve any new foods; choose from your repertoire of tested recipes.

The tea itself should not be prepared until the last minute. Black tea is a general favorite. Here's a way to make enough to serve four or five cups: Put three teaspoons

of tea into a pot that has been rinsed with boiling water. Then pour five cups of boiling water on the tea, cover the pot and let it steep three minutes in a warm place. Then strain it into a hot serving pot. Be sure to have a pitcher of plain, boiling water on the serving table, too, so that your guests can regulate the strength of the tea to their own tastes.

On the table near the teapot you should have a bowl of half-leaves of sugar; a dish of thin slices of lemon and orange, each slice with a couple of cloves speared into it;

and a pitcher of cream. Sprigs of fresh mint are a refreshing addition, too, if you can get them.

For refreshments? Sandwiches, no doubt. Dainty sandwiches, shorn of crusts. Make them up ahead of time, wrap them in damp cloths and keep them in the refrigerator.

Here are some things to remember when making sandwiches: Always use a silver knife for spreading butter and fillings; spread the butter on first—that will keep damp fillings from soaking into the bread; soften the butter with a fork—never melt it; to keep your sandwiches neatly uniform in shape and size, pile them three high, then remove all the crusts and cut them into shapes at the same time. Chilled sandwich fillings spread easiest.

Plain buttered bread always is good with tea. You can have dishes of marmalade or jams handy for your guests to pick from for spreads. It's also nice to have stacks of hot buttered toast on the table; damson plum butter is delicious on toast.

A mold of white cream cheese in a circle of ruby red currant jam looks pretty on the table and will make an excellent spread for your toast or for biscuits, if you serve them.

Now you're all set, except for some dainty to top off with. A dish of salted nuts, of candied fruit strings, preserved ginger or chocolate peppermints fits in here. For a more ambitious finale, you could serve little drop cakes or fingers of angel food or sponge cake. And date squares or some tempting refrigerator cookies will always be welcome.

HIPLINE HINTS, as issued by the state department, explain that men meeting Britain's king and queen formally should bow low, heels together and from the hips. So far, the bowing practice by Rep. John Costello (Cal.) draws only laughter from Rep. Jessie Sumner (Ill.). Peeking at the rulers, as above, is taboo.

MAN CHARGED IN STEPSON'S DEATH

TYLER, May 18 (AP)—Will A. Hergeshelmer, Jr., today was charged with the slaying of his 14-year-old stepson, Leroy Higgins, who died in convulsions soon after eating a jam sandwich at his home Sunday last.

County Attorney Warren McDonald said the 46-year-old Tyler man signed a statement.

The boy's viscera, examined by a Department of Public Safety chemist, contained a large quantity of poison, McDonald said the report revealed.

The boy's life had been insured for \$1,000, McDonald said.

A survey of gifts and bequests to 49 colleges shows that gift receipts declined only 2.5 per cent for the years 1936-38.

CORRIGAN VISITOR AT PLANE FACTORY

BUFFALO, N. Y., May 18 (AP)—Transatlantic Flier Douglas (Wrong Way) Corrigan made a brief visit today to the Curtiss-Wright airplane factory, which is engaged in mass production of war-planes for the United States army and navy.

He planned to leave this evening for Detroit, on his flight to Alameda, Calif.

BOMBER TAKES OFF

SAN ANTONIO, May 18 (AP)—Completing a two-day visit at Kelly Field, the army's giant four-motored B-15 bomber took off for Barksdale Field, La., at 8:30 o'clock this morning.

Low clouds were reported in the vicinity of Barksdale Field, and if the huge craft is unable to land there it will proceed to Scott Field, Ill.

Injunction Suit Is Before Court

The injunction suit brought by A. J. Crawford against Frank Rutherford to enjoin the latter from using the name of Crawford Cleaners in his business was called to trial before a jury Thursday morning in 70th district court.

The plaintiff alleged that the use of the name by the defendant tended to confusion and was capitalizing on the use of a name acquired while associated with the plaintiff. The defense denied these allegations and sought to show that any confusion was negligible.

The divorce application of Pauline Echols versus Jerome Echols was granted by the court and custody of the oldest minor child given to the defendant and three younger ones to the plaintiff.

Possibility of Big Spring's first college football game in several years next fall was seen here by local parties following a recent conference with A. C. "Bugs" Morris, Abilene Christian college coach.

Morris, who took a team to San Angelo last year to meet the North Texas Teachers, is reported to have said he would bring his team here next fall for an exhibition game with some non-Texas conference foe if a local civic organization will back the move. Permission of the high school to use the gridiron, of course, would have to be granted.

Morris disclosed that arrangements could be made with Sul Ross college officials for a game here Sept. 30.

Bugs is coming up with one of the greatest teams in ACC's history next fall. Finishing in second place in Texas as conference standings last fall, the Abilenans expect to do better this year. One of the greatest ends in conference history who will be playing for Morris is Red Stromquist, who as a sophomore last year made the second Little All-America team, is a front rank candidate for the regular eleven this fall.

An ACC ex-students club has recently been organized here and is behind the move. Melvin J. Wise, local minister, among others has been sounding out the proposition with local leaders.

Sul Ross also was represented in the Sept. 1928 exhibition here with Simmons university, Abilene, the game being played in the old baseball park east of town.

The attraction of Stromquist plus the fact that both clubs will be capable of playing top football should draw well here.

According to Johnny Lane, who is associated with the Lamesa baseball club, the Lobos have played to better than 10,000 paid admissions since the season opened. Including last night's game with Big Spring, where more than 1,500 sat in on the duel, 13 home games had been played. No other town in the league, with the possible exception of Lubbock, is doing better than that.

The total mark here doesn't approach that but the Barons will outdraw Lamesa throughout the season if they figure to any degree in the league chase.

The Lobo park's outfield slopes like a gridiron, is so sandy a fielder cannot gain firm footing but the infield ranks with the best. The plant is equipped with a capable lighting system but the infield area cause a glare in the outfielders' eyes.

Dr. Horace J. Harper, soils expert at Oklahoma A. and M. college, estimates Oklahoma soil has lost 40 per cent of the organic matter it contained before being farmed.

Stalcup, Phillips Favorites In CC Fem's Tourney

16 Players Are To Be Assigned To Title Flight

Mrs. Harry Stalcup and Gordon Phillips ruled as decided favorites in the country club women's golf tournament as players prepared to line up for first round play Friday morning.

Mrs. Stalcup has been "off" her game for the past several weeks but has been practicing for long hours lately.

The women spent Thursday shooting qualifying rounds. The championship flight will consist of 16 players, necessitating an extra day of playing. The finals, originally scheduled to be played Sunday, will probably take place Monday.

Dist. Baseball Playoffs End This Week

DALLAS, May 18 (AP)—Seven teams that will compete in second annual state high school baseball tournament here next week have been determined and the other two will be known tomorrow.

Whitharral won the West Texas championship last night by defeating Cooper 11-9 after Cooper had taken out Southland 10-4. Cooper was in last year's tournament here.

Maypearl, Austin, San Augustine, Pharr-San Juan-Alamo, Hondo and Adamson (Dallas) are other district champions.

Tomorrow McKinney plays Fullbright for the Northeast Texas title and Highland Park clashes with Wilmer-Hutchins for the Dallas county crown.

Hondo and San Augustine were 1938 semi-finalists. Pharr-San Juan-Alamo lost to Dallas Tech, which won the championship, in the first round.

The schedule for the tournament as worked out yesterday by the Dallas Municipal Athletic association, which sponsors the affair, follows:

Wednesday: 4 p. m., Maypearl vs. Austin; Thursday: 9 a. m., Pharr-San Juan-Alamo vs. winner McKinney-Fullbright; 11 a. m., Maypearl-Austin winner vs. San Augustine; 2:30 p. m., Hondo vs. winner Highland Park-Wilmer-Hutchins; 4:30 p. m., Whitharral vs. Adamson.

Consolation games will be played Friday morning with finals Friday afternoon at 1:30 o'clock. Championship finals will be at 4 p. m. Friday.

P. C. Cobb, athletic director of Dallas schools, is in charge of the tournament.

Whiffs 12 Men In Earning 5th Win

Decker, Berndt And Hobson Pace 14-Hit Batting Attack

By HANK HART
LAMESA, May 18—Staked to a seven run lead through the first five rounds, popular Jodie Marek steadied his over-anxious teammates through a shaky home stretch to gain his fifth pitching triumph of the season as the Big Spring Barons slammed Lamesa's Lobos, 8-5, before 2,000 fans here Wednesday evening.

With hundreds of Big Spring fans looking on from the stands, Jodie, exhibiting marvelous control, struck out 12 men, should have escaped with a shutout. Included among his whiff victims were Happy Spangler, leadoff man, and Emmett Fullenwider, cleanup man, each of whom went down three times.

The Lobos coupled hits by Happy Spangler and Eddie Guyne with free passes to Ossie Bates and Johnny Stone and an error by Dick Hobson to score three runs in the ninth but Jodie left two runners stranded when he whiffed Goldman for the final out in a thrilling combination of curves and speed.

Good Support
The Barons gave Marek excellent base support, manufacturing 14 scored base blows off their old jinx, Lefty Lucas, and Gus Needham, who took over in the eighth stanza.

Al Berndt stepped into the limelight with a nice hitting exhibition, getting three singles and driving in a run in four official trips. Bobby Decker was almost as "right," collecting a single and a mighty triple in four attempts. His three bagger in the fourth drove in two runs. The mite contributed his finest performance of the season both at bat and in the field.

Dick Hobson collected a single lick but that was a home run with Curt Schmidt up ahead in the fifth frame.

Score Early
The Barons went out in front in the initial stanza when Tex Walton walked home on Guyne's misplay of Capps' ground ball. Lucas reentered them, one, two, three in the second but Decker stroked up with Hobson and Berndt on the paths in the third to slap out his triple.

He later counted on Curdell Loyd's three-base blow.

After Hobson's four base fly in the fifth the Barons closed books in the seventh with a single run when Schmidt doubled and came home on Berndt's fine single into right center.

Art Gigg, who beat Lubbock in Big Spring earlier in the week, was due to go to the mound for the Barons tonight. Friday Manager Tony Rego takes his charges to Pampa for a two game series before returning home Sunday to oppose Lamesa.

Season's Debut
It also was the second tie game of this 1939 season and the other (of course) involved the Dodgers and Tamulis. That was a 1-1 affair, also ended by darkness, at Philadelphia April 21, as Tamulis made his season's bow with a five-hit, five strikeout job.

The chunky southpaw always has been a winning pitcher, but has had a hard time proving it. He joined the Yankees after a good season with Newark in the International in 1934 and pitched an impressive seven-hit victory which earned him a berth with New York for 1935, when he appeared in 30 games, winning 19 and losing five.

But he became ill, was sent back to Newark, and by the time he was able to go again the Yankees weren't needing southpaws.

He was obtained by the Browns last year and, after dropping his first three starts, was waived to Brooklyn, where he produced a dozen victories.

This spring he has had to buck Manager Leo Durocher's desire to experiment and, since his flashy but unproductive debut, has been called upon only twice to start. Once he was knocked out, along with a lot of others, in a game which the Dodgers finally won. On the other occasion he shut out the Cardinals, 2-0.

11 Scoreless Innings
He was the third hurler called upon yesterday and reeled off 11 scoreless innings on four hits. With the temperature at about 48 degrees, cold fingers contributed nine errors to the early inning scoring, but the batter never had a chance against Tamulis and rookie Walter Higbe, who worked the last seven innings for the Cubs on one hit.

Pitching had an important place in most of yesterday's games. Monte Pearson, although wild, held the St. Louis Browns to four as the Yankees won their seventh straight, 4-3. Bill Dietrich and C. N. Brown gave up only five in the Chicago White Sox 6-3, 10-inning triumph over the Red Sox, and rookie Walter Masterson scattered six bingles in Washington's 4-1 victory over the Detroit Tigers. Phil-

DEATH FLAGS DOWN RACING DRIVER

Here's Ovidio F. Medina, Argentine driver, at the end of his last race in Buenos Aires May 7. His car turned over during a road race, crushed him; this turned upright with the dying man dangling over the side. A spectator hurries to give aid, but Medina died just after this picture was made.

Landis Seeking Additional Info

CHICAGO, May 18 (AP)—Baseball Commissioner K. M. Landis has requested additional information from officials of the Detroit Tigers before resuming conferences concerning the club's minor league connections.

The officials returned to Detroit after an all-day conference with Landis yesterday. The commissioner's secretary, Leslie O'Connor, said there would be no more hearings until the requested information is produced.

Detroit's connections with Beaumont of the Texas league and Toledo of the American Association were discussed by Landis and General Manager Zack Zeller, Walter O. Briggs, Jr., vice president and treasurer, and Charles Navin, former secretary of the Tigers. Landis has not disclosed the nature of his investigation.

TAMULIS, NO. ONE HARD LUCK MAN, IS REBUFFED AGAIN

Figures Largely In Brook's 19-Inning Tie

By JUDSON BAILEY
Associated Press Staff
Everything happens to left-handed pitchers and the Brooklyn Dodgers, so now they have the uncredited hard luck champion of the major leagues—Vintana C. Tamulis.

Except that Vito is well-fed in these perilous times it might not be amiss to label him the champion of the world. He lost a chance with the world champion Yankees in the seventh with a single run when Schmidt doubled and came home on Berndt's fine single into right center.

Doctors say your kidneys contain 15 million tiny filters or filters which help to purify the blood and keep you healthy. Most people don't know about it or about it people's waste. Frequent urination, passing with difficulty and burning shows there may be something wrong with your kidneys or bladder.

An excess of acids or poisons in your blood may be the cause of spurring backache, rheumatoid pain, hot palms, loss of eye and energy, tingling up limbs, swelling, puffiness and the over-urinating and discharges.

Don't wait! Act now! Get the Great Kidney Pills, sold separately by millions for over 20 years. They clean blood and will help 15 million of kidney trouble sufferers get relief from your kidneys. Get Doctor's Pills.

Of every 100,000 residents of New York City, 102.5 males and 91.1 females enter hospitals for mental disease for the first time.

About 11 million people live in the five boroughs of New York City, and the adjacent counties of New York, Connecticut, and New Jersey.

In the National Hugh Mulcahy limited the Pirates to five hits for the Phillies 7-3 conquest; Bucky Walters spread seven for Cincinnati, and the Boston Bees to two hits, 6-1, and the Boston best the Cardinals 9-5 on a nice rescue performance by Dick Coffman after Johnny Miss hit his seventh homer of the season with one on in the seventh.

Greer Tames Sports, 6-2

By the Associated Press
A rookie and a veteran showed the fans some good old Texas league pitching last night.

Murray Dickson, rookie right-hander for the Houston Buffs, held the Dallas Rebels hitless until his mace had piled up an 8 to 0 lead, starting up in the last three frames with seven safeties.

Buff batsmen pounded three Rebel hurlers for 16 hits and a 13 to 2 victory which cut Dallas' league leading margin over them to one and a half games.

Veteran Ed Greer of the Fort Worth Cats pitched a shutout, four-hit game with two out in the ninth inning, but George Washington singled and Merv Connors homered to spoil it. The Cats' early margin, however, gave them an 8 to 2 win over the Shreveport Sports.

Rain caused postponement of the San Antonio game at Oklahoma City and the Beaumont clash at Tulsa.

P. C. Cobb, athletic director of Dallas schools, is in charge of the tournament.

The death rate in the Metropolitan area of New York is falling for pneumonia, tuberculosis, accidents and childbirth, and rising for heart disease, cancer and diabetes.

Women's colleges suffered more than men's colleges from lack of bequests and gifts during depression years.

MEMPHIS, Tenn., May 18 (AP)—Two Texans were paired for the principal battle for semi-final positions in the Memphis country club's invitational golf tournament today.

Mrs. Dan Chandler of Dallas, defender of the Marguerite Caut trophy, met Mrs. R. E. Winger of Fort Worth in what promised to be one of the outstanding matches of the day.

DANIELS IN LATE RALLY TO DEFEAT WARDMEN, 10 TO 9

Lead Changes Hands On 5 Occasions

Daniel's Wholesale Candies came from behind to defeat Montgomery Ward in a Muni softball league game at the city park Wednesday evening, 10-9.

Strictly out of the running until the seventh frame the Ward aggregation suddenly rebelled with a six-run attack that gave them a 9-3 advantage but Presley and Anderson tallied for the Sugar Colts in the final part of the seventh to shape the outcome.

CATS FACE BUSY WEEK

Robert Moore's Black Cats, who play Lamesa's Black Panthers in Heron park here Friday afternoon, face a busy weekend. Saturday, the locals meet Stanton here, then move to Lamesa for two games Sunday. Sammy Downey, field pilot, will probably depend on the strong arm of Lefty Williams for mound duty in the Friday game with Lamesa. Jack Adkinson is also available for mound duty.

New York To Vote On Pari-Mutuel Race Betting

ALBANY, N. Y., May 18 (AP)—It's up to the voter now whether New York state race goers will wager with machines or stick to human bookmakers in vogue in the nation's greatest racing state.

Ending a long battle over the worth of pari-mutuel wagering as compared with the bookmaking system, New York's assembly approved late yesterday a measure calling for a popular vote on a constitutional amendment legalizing pari-mutuel betting.

It will appear on the ballot in the fall election.

If approved, the measure will erase the last outpost in racing without machine betting. All other states with legalized racing have some form of mutual wagering—a system whereby the odds are figured by the amount of money bet on the race and each horse in it rather than being arbitrarily set by the bookmaker.

KILGORE TRIMS TIGERS, 14-6

By the Associated Press

In a wild East Texas league game in which 14 men were passed and three players and an umpire hit by pitched balls, Kilgore last night defeated Marshall, 14 to 6.

Bud Allen allowed Longview only eight hits as Jacksonville collected 12 off Terry for a 5 to 3 win.

The Henderson Oilers snapped their four-game losing streak by whipping Tyler, 4 to 3, in a game out short in the last of the fifth by rain.

Seven Palestine errors, four by first baseman John Scollins, helped Texasiana to a 7 to 4 victory.

FRICK FORESEES THIRD MAJOR LEAGUE IN NEXT 50 YEARS

NEW YORK, May 18 (AP)—Ford Frick, youthful president of the National League, foresees a lot of things, including a third major league on the Pacific coast within 50 years, but he doesn't think any of us will live to see a change in the present lineup of big league cities.

He had been asked if there was anything to a red-hot rumor going the rounds that the baseball magnates were toying with the idea of reducing St. Louis and Philadelphia to one-team towns. The rumor crops up, no doubt, from the common knowledge that the four club owners in the two cities are starving gradually to death and everybody concerned would welcome such a change.

"It's a great idea," Frick admitted, "but nothing is being done about it because nothing can be done—absolutely nothing."

"Take, for instance, St. Louis. There's no doubt it doesn't need both a National and an American league club. President Sam Breadon of the Cardinals makes no secret that he would like to move his team to Detroit, which is a great city and a swell baseball town. It surely would support another club.

"But what does Breadon run into there? Only the fact that Walter Briggs of the Tigers owns the Detroit franchise and has exclusive territorial rights. No other team can move in without his permission."

Cumberston

"All right, suppose Briggs says he'll make a deal and let the Cardinals move into Detroit or Brooklyn will move over and make room for an American League team. It's doubtful Briggs would make such a proposition and even more doubtful the Brooklyn owners would agree to it. But if they did, then you would have four of the 16 big league teams concentrated right here in New York. Maybe the Giants and the Yankees wouldn't like that."

"So, you see, the whole proposition is so involved it doesn't seem worth the effort. The one thing we really have in baseball is ironclad territorial rights."

"There's been a lot of talk about moving a big league team into Jersey City. It couldn't be done unless every club in the International League gave its consent, and you can guess how much chance there is of that happening. Newark would be the first to block such a move, which would put the Bears in direct competition with big league ball."

"The same goes for any other city you might select. There's only one chance I can see for there to be a new big league city. One of these days we might have eight of them out west."

"The way that whole country is growing there might 50 years from now be a third major league composed of the biggest coast cities, and taking in cities as far east as Houston and Kansas City. Their long hops, of course, would be made by airplane. For the reasons I've already given, Los Angeles and San Francisco can never hope to be taken into the present big leagues."

KLEIN VICTOR AT SAN ANTONIO

SAN ANTONIO, May 18 (AP)—Charles Klein, Willow Springs professional who has had some tough breaks, felt somewhat appeased today with top money in his pocket from the \$500 sweepstakes golf tournament.

Klein blazed in yesterday with a 66 for a 72-hole total of 278, seven strokes better than second place George Shine of San Marcos.

The Willow Springs pro left last January for South Carolina to join the touring players but an appendicitis attack kept him out of the matches. He was on top of his game then but had tough going since, regaining his peak only recently.

He hoped yesterday's \$150 top money would stake him to join the tourists again.

Soil Conservation Practices Spread

LAMESA, May 18—Soil conservation practices are increasing at a rapid rate in the Lamesa camp area. There are over 300,000 acres under agreement with the Soil Conservation Service at Lamesa and new agreements are being written as fast as possible with the limited staff.

This camp area includes all of the land within a radius of 25 miles of Lamesa which covers all of Dawson county and parts of Lynn, Borden, Howard, Martin, Andrews, Gaines and Terry counties.

Over 22,000 acres has already been terraced and 40,000 acres has been contour tilled in cooperation with the Lamesa camp. Hundreds of other farmers and ranchers who are not under agreement with the Soil Conservation Service in this area are using some or all of the practices recommended by the services.

This work will be greatly increased through the establishment of conservation districts which was made possible by the recent passage of the soil conservation bill.

"The way that whole country is growing there might 50 years from now be a third major league composed of the biggest coast cities, and taking in cities as far east as Houston and Kansas City. Their long hops, of course, would be made by airplane. For the reasons I've already given, Los Angeles and San Francisco can never hope to be taken into the present big leagues."

Norris Before Baptist Convention With An Attack On 'Communism'

OKLAHOMA CITY, May 18 (AP)—The Rev. J. Frank Norris of Fort Worth and Detroit planned a new offensive today against his foes in the Southern Baptist convention with a demand they purge themselves of what he called "communist" elements.

The militant pastor bolted several years ago because he maintained the convention had become "a modernistic machine that tries to tell Baptist pastors what they can preach."

Today he proposed to go to the floor with a resolution asking the Baptist Foreign Mission board to sever connections with the Federal Council of Churches and with the Shanghai Baptist college which he criticized as "modernistic and communist."

He pledged himself to "open war" against convention leaders if the resolutions were killed.

Norris' resolution mentioned "sinister propaganda" which would "hurt this country into war" and declared President Roosevelt was "meddling" in European affairs. It asked congress to remain in session throughout the year to pre-

Variety Of Sugars Meets Every Need Of The Household

Modern science and the demand of particular cooks and hostesses has in the past century brought sugar to its highest point of refinement.

In medieval times sugar was used as medicine, later it became a luxury available to the aristocratic and wealthy only. But in this age one selects sugars to serve every baking and cooking need for he finds a complete assortment of grades and packages more economical and pleasing.

For sweetening hot coffee, hot tea, demi-tasse and afternoon teas, etc., there are crystal tablets, squares or cubes, dainty lumps and dots. For making the cake-icing in less time and without cooking the box of Domino Confectioners is always on the front shelf. The delicate flavor of breakfast cereals, fruits and iced drinks is greatly improved with the Domino Super-

fine Powdered which dissolves instantly and almost without stirring.

Then for the gingerbread, baked sweets, baked hams, or candied sweet potatoes there is Domino Old Fashioned Brown with its dark rich cane or molasses flavor. And for the sugar cookies, candies, coffee cake and bread puddings there is Domino Yellow with its light color and delicious, nourishing butterscotch flavor. There is also the delicately blended cinnamon and sugar for cinnamon toast, apple sauce, etc.

In fact, today, no matter what sweetening is sought the manufacturers of Domino Pure Cane Sugars have the exact grade and convenient full weight sanitary bags and packages.

ACKERLY

The Rev. H. H. Hollowell, Methodist pastor, delivered the commencement address to the Ackerly high school graduating class last Sunday evening at the high school auditorium and spoke on "Our Personal Accountability Unto God." He applied this theme to every phase of life. Mrs. Harry Phillips played a special piano arrangement and a quartet composed of Ted Bolan, Delbert Berkhart, Mrs. Harry Phillips, and Clinton Berkhart sang. Graduates are Quinton Grayham, Doris Criswell, Juanita Gill, Ava Adams, Beryl Guinn, Hazel Ward, Christine Wilcox, Jane Erwin, Christine Henkel, Jodie Taylor, Verne Coleman, Charles Simpson, John Fore, Billy Hardin, and Leonard Higgins.

Church services were well attended Sunday morning, but were dismissed Sunday evening in order that members might attend the baccalaureate address at the high school auditorium.

The Rev. Raymond Duffie occupied the pulpit at the Flower Grove Baptist church Sunday.

Audrey Whitmore of Big Spring visited her sister, Mrs. D. L. Hambrick, Saturday afternoon.

Mr. and Mrs. A. L. Faxin of Flower Grove were Sunday guests of Mr. and Mrs. M. E. Dyer.

Dwaine Reece was a visitor in the home of D. L. Langham of Flower Grove.

George Bryson spent Saturday in the Oaks home of Flower Grove.

Mr. Hulet was host to the eighth grade pupils at a picnic in Big Spring last Tuesday evening at the city park.

The Rev. R. R. Cumbie delivered the promotion address for seventh grade graduates Thursday evening. Graduating exercises will be Friday evening with a special program and speaker.

Mr. and Mrs. L. C. Hambrick were in Lamesa Tuesday for a business trip and to visit their daughter, Mrs. Roscoe Moore, and Mr. Moore.

Mr. and Mrs. F. M. Whitmore and family were visitors in this community Saturday.

Several persons from this community are planning to attend the annual Old Timers meeting to be held in Lamesa at the city park Saturday, May 20.

Clarice Hambrick, who is a student at Hardin Simmons, will return home for a visit with her parents, Mr. and Mrs. L. C. Hambrick.

Cardenas Visitor At The Border

EL PASO, May 18 (AP)—President Lázaro Cardenas of Mexico, in Juarez on a three-day visit, planned today to meet Mayor Ed Anderson of El Paso and Fort Bliss authorities, attend a noon banquet and witness an athletic meet in the afternoon at the Juarez race track.

The president arrived at Juarez yesterday for the dedication of the school of the Revolution and was greeted with shouts of "Viva Cardenas!" "Long live Cardenas" from an estimated crowd of between 15,000 and 20,000 persons.

Cardenas announced he would remain in Juarez until late Friday and that he expected to visit Sonora.

In an interview the president

said he had ordered immediate completion of the Juarez-Chihuahua City highway. He said intentions of the state and federal governments were to have the road completed before his term expires.

The president said his recent conferences with Donald Richberg, attorney for American oil companies whose properties in Mexico were expropriated, had been favorable and that he hoped "an agreement will be reached in our next meeting."

Cardenas stressed he was "very proud" of the Revolution school, adding "one of the principal aims of my government is the education of our children. I hope more schools like the one I have seen today will be built throughout the country."

900 SIGNED UP FOR SPECIAL WATER RATE

All previous records for summer residential irrigation rates were shattered as the city water office started making first bills under the special, optional schedule.

At noon Thursday there were 900 signatures down for the six months rate which gives 10,000 gallons for

a minimum of \$3.75, a saving of \$1.30 over the same amount on regular rates. The schedule scales down to 30 and 35 cents per M on the next two 10,444 gallon units of consumption. Previous record of signatures was 600.

Happenings In Rural Communities

MOORE

Students in the eighth and ninth grades will complete their school work this week. State examinations began Wednesday and will continue through Friday. The grade school completed its work two weeks ago, but officials thought best to continue high school until state tests had been administered.

Mr. and Mrs. Hollis Burchett and daughter spent Sunday with his parents, Mr. and Mrs. J. H. Burchett.

Children and friends of Mr. and Mrs. J. W. Phillips met in their home Sunday for a dinner honoring Mrs. Phillips on Mother's Day. Those present were Mr. and Mrs. G. T. Thomas and son, Lewis McCoy of Big Spring; Mr. and Mrs. Roy Phillips and children, Joy Beth and Patry of Knott; Mr. and Mrs. Ted Phillips and son, Everett Doyle, of Big Spring; J. W. Phillips, Jr., of Knott; Mrs. J. W. Walker of Knott; Misses Arab Phillips and Anna Smith, Dorothy Jean and Mary Frances Phillips of Fairview, and Joyce Roman of Knott.

Miss Twila Lomax spent the weekend with her parents, Mr. and Mrs. L. E. Lomax of the Lomax community.

Mrs. D. C. Turney spent last week in Andrews visiting her sister, Mrs. D. C. Stroop.

Mr. and Mrs. Howard Newton and children, Lendyll, Bonnie Jean, Doris, May and Clifton Lee of Midland visited her mother, Mrs. G. J. Hammack on Mother's Day.

Miss Twila Lomax entertained her Sunday school class with a theatre party and wicker roast last Wednesday afternoon. After the show the group went to the city park to enjoy games and a wicker roast. Members enjoying the occasion were Billy Barber, Billy Hayworth, Freddie Phillips, Johnnie Ray Broughton, Lee Donald Hayworth, Josephine Brown, Vera Dean Payne, Dorothy Jean Phillips and Wanda Joy Payne. Visitors present were Mrs. J. W. Phillips, Mrs. Bill Barber and son, Donald Ray, and Anna Smith.

Lester Bender of Big Spring was a weekend guest of Bob Adkins. Miss Margaret Wheeler visited in

the home of Miss Ella Ruth Thomas last Thursday.

Jacqueline King was a visitor at school Wednesday. Joe Lusk, son of Mr. and Mrs. J. Lusk of this community, who enlisted in the United States Marines last week, left Friday morning for San Diego, Calif., where he will be stationed for the next two months.

Two from this community received their diplomas from Garner high school last week. John Couch and Viola Petroy both finished, and Irene Brown advanced to the senior class of 1940.

Jacqueline King, Pauline Petroy, Paul Fields, and Bob Adkins of the Moore school received their seventh grade diplomas last Friday night when they took part in the county-wide seventh grade graduation exercises in the municipal auditorium in Big Spring. Jacqueline King was the honor student of the group.

Miss Bobby Boaz of the Midway community visited Miss Eva Mae Turney last Thursday.

Charlie Adams of Forsan was a business visitor in this community Friday.

Pauline Wilemon and Helen Snider were Saturday dinner guests of Mr. and Mrs. Joe Lewis Queen of Big Spring.

Mr. and Mrs. Lee Castle and son, Floyd, of Martin county visited her mother, Mrs. J. W. Phillips, Sunday evening.

Much interest is being taken in 4-H club work at Moore this year. For the past three years Billy Ward was the only boy in this community that participated. This year six additional boys have entered and are now carrying on their projects. Several are interested in poultry raising. Brooders have been made by the individuals entering the contest. Each boy will be allowed to start on 80 chicks. Scoring in this enterprise will be on a percentage basis of number of chicks raised, net profit and club spirit. Boys who have entered in the poultry enterprise are G. C. Broughton, Jr., Norman Newton, Delbert Shultz, Edd Burchett and Asa D. Couch. Billy Ward and Freddie Phillips will feed out dry lot calves.

John Couch left Monday with the junior and senior classes of the Garner high school on a trip that will carry the students to Alpine, McDonald Observatory and the Carlsbad Cavern. They plan to return Saturday.

Mr. and Mrs. H. F. Railback were business visitors at school Monday.

Curias Hale and Paul Camp were visitors in this community Sunday.

FAIRVIEW

Fairview folk remembered Mother on her special day last Sunday, and family gatherings were numerous. Mrs. T. M. Falley had as her guests her son, Gaylon Bailey and wife and baby, and Mrs. Bird and daughter, Mattie Blanche, of Westbrook. Sunday, the group went to Lubbock to be met by a sister, Mrs. Fuqua of Plainview; Murphy Bird and Miss Ardith Bird. Mr. and Mrs. Bill Bailey and baby of Winters; Mr. and Mrs. Muri Bailey, and Mr. and Mrs. Walker Bailey and baby, all of Center Point, were others joining in the affair.

Mr. and Mrs. Wilburn Forrest, Mr. and Mrs. W. J. Rogers and Mr. and Mrs. Walker Bailey were guests of their parents, Mr. and Mrs. Tom Rogers, Sunday.

Mr. and Mrs. W. A. Langley had as Sunday guests their children, J. T. Vernon and Billie Geneva, Mr. and Mrs. Ray Smith, and Mr. and Mrs. Cletus Langley.

Mr. and Mrs. Key had their son, Raymond, and his wife and baby as guests Sunday.

Mr. and Mrs. Jesse Henderson spent Mother's Day in Big Spring. Mr. and Mrs. J. N. Grant had their children as guests Sunday. Other guests were Mr. and Mrs. Boss Hill and daughter.

Visitors in the J. W. Wooten home Sunday were Mr. and Mrs.

Harvie Wooten and son, Ronald, and Mr. and Mrs. Morris Wooten.

The W. H. Fuller baby, who has been quite ill for the past week, is reported improved.

Twenty-three seniors and six teachers of the Garner school are on a bus trip to points in New Mexico and West Texas. Those making the trip from this community are John Bailey, Parks Lawley, John Couch and Bonnie Lyle Smith.

Prayer service was scheduled for Thursday night this week instead of Wednesday because the school play was given Wednesday. The service was to be held in the home of Mrs. J. G. Hammack, Sr.

Moisture still is needed for planting in the area. Some farmers have planted, but many are waiting in the hope of rain.

A large number from this community attended funeral services in Big Spring Sunday for Alton Yater, 15-year-old son of Mr. and Mrs. W. H. Yater.

RICHLAND

Farmers are busy planting in this vicinity following the recent rain. The infant son of Mr. and Mrs. W. J. Ringener continues to improve at a Big Spring hospital and is expected to be brought home this week. He underwent an appendectomy.

A group of men assisted M. F. Bryant Monday with his crop.

The Dramatic club will meet Monday evening to practice on the play, "Civil Service," which will be given May 23.

Closing exercises for the school will be given Friday evening, May 26, when all patrons and friends

are especially urged to attend.

A large crowd from here attended seventh grade graduation exercises at the city auditorium Friday evening when J. M. Ringener, Marcela Adams, and Alta Mae Bryant were graduated from the school.

Parent-Teacher association will meet May 19 for the last session before the close of school when important business items will be considered.

Mrs. A. M. Bryant received word Monday that her father, the Rev. J. T. Anderson of Mountville, La., who has been seriously ill for some time, is improving.

NO LOSERS IN THIS CONTEST

Announced as the winner of the West Texas chamber of commerce Soil and Water Utilization contest, as the WTCC convention closed at Abilene Wednesday, was Wheeler county.

The top three received cash prizes, the others a measure of satisfaction in being ranked near the top. But here is a contest, in which there were no losers.

Big figures are accepted complacently this day and time, but here are some that ought to be presented. They represent the aggregate of accomplishment in the 104 counties:

140,900,000 linear feet of terraces built on crop land. 128,000,000 linear feet of old terraces repaired, rebuilt or enlarged. 3,000,000 acres range land terraced.

9,300 miles of ridges built on pasture or range land. 431,000 acres of permanent pasture or range land contour furrowed. 16,000 acres permanent pasture sub-soiled.

1,700,000 acres contour farmed. 1,120,000 acres strip-cropped. 600,000 square yards of waterways vegetated. 770,000 cubic yards of spreader dams built.

3,000,000 cubic yards of earth excavated in construction of watering places and water reservoirs. 17,000 cubic yards of concrete or rock masonry dams built. 320,000 acres range land listed dammed.

320,000 depth feet of wells dug. 58,000 acres of crop land put under irrigation from wells, lakes or streams. 3,800,000 acres eliminated of prickly pear, cactus, mesquite, cedar or lechuguilla.

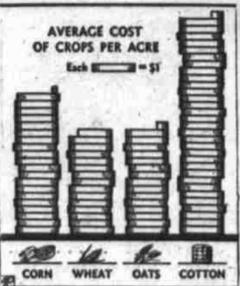

3,990,000 acres of range land deferred grazed. 320,000 acres of range land eradicated of gophers, kangaroo rats, prairie dogs.

Modern Farmer Is Learning To Count The Costs As A Guide To Future Greater Profits

This is the sixth and last story in a series telling of developments along the modern farm front. By JACK THOMPSON, AP Feature Service Writer. WASHINGTON - Two-word memo to the modern farmer: Count costs!

This chart, based on national wide figures for 1937 compiled by the U. S. Department of Agriculture, shows the gross cost per acre of the crops listed. Credit for value of by-products from the various crops lowers these costs slightly.

It demands a cash outlay, a milking machine will save him more than the equivalent in time. Although the farmer can't figure on definite output, and his prices often fluctuate more than the business man's, costs still can be counted.

Power and Depreciation: Planting expenses—seed and fertilizer—are easier to figure since they often are paid out in cash. Another item that should be counted is your cost of power whether you use a tractor or horses.

New farm developments may some day add up to even this—farming by radio as presented in a "farm of the future" drama at the New York World's Fair.

PHELPS ON READING

NEW YORK, May 18 (AP)—William Lyon Phelps thinks "trash" reading—if it's half-raising—doesn't harm children. "Let them read a lot of trash if it is exciting," the Yale scholar and critic told the American Booksellers association.

ALEX'S NAME CHANGED

EMINGTON, Ill., May 18 (AP)—When Gilbert Kamm went to his hen house to gather eggs, he put his hand under a hen which had been wanting to set and felt something soft and furry.

SEAFOOD, MAMA

ALBUQUERQUE, N. M., May 18 (AP)—Mrs. E. R. Hostetter opened the irrigation ditch gate to water her cabbage patch. Out jumped a 15-inch mountain trout. A glout with a spade provided the Hostetter dinner.

Storms Hit Waco Area

WACO, May 18 (AP)—One woman was killed and at least five persons were injured by windstorms which struck in Central Texas, damaging homes and communication lines. Hall damaged crops.

STORMS HIT WACO AREA

Mrs. E. J. Behnke was killed and her husband and sons, Connie and Willie, were injured when a twister demolished their home near Cego last night. Behnke received a broken arm and Connie head injuries.

STORMS HIT WACO AREA

Hall which piled two feet deep in places destroyed crops in scattered areas north and west of here. Light hail and heavy rain fell here. Morgan and Kopper, north of here, reported trees stripped of foliage, roofs splintered and crops destroyed over a three-by-ten-mile area.

On The Record

THE COAL STRIKE

The soft-coal strike, which involved 350,000 miners, brought about a curtailment of transit services in many cities, paralyzed activity over a large area, cost the rank and file of workers \$12 weeks' pay and is in a dangerous phase in Harlan county, Kentucky, where—in contrast to most of the area—it is not settled.

It is not settled, is not a strike of the workers against the operators but is a strike of the United Mine Workers, a C.I.O. union having the majority, against the Progressive Miners of America, an affiliate of the American Federation of Labor.

Now, what was the issue? It was whether the government was to exert its pressure to compel industry to prevent labor from changing its mind. It was, therefore, a violation of the essential spirit of the labor relations act, which affirms that labor has the right, under law, to organize itself in unions of its own choosing.

Mr. Lewis does not want another union in the coal mines. To prevent another union he suggested two alternatives—a closed shop, or a "union shop," which is approximately the same thing, or the elimination of the penalty clause in the contract with the operators, which, as it stands, prevents the miners, under a cash penalty, from striking during the life of the contract.

For the operators such a prospect was dimming. Coal is a sick industry, in any case. It has to compete with oil, gas, electricity and water power. The continuation of the strike—which lasted 80 days—was already leading industrialists to consider changing equipment to burn oil instead of coal.

Under such pressure, Mr. Lewis won, and with the assistance of the government, Miss Perkins, who took a hand in the conference, eventually displayed impatience with ideological disputes. She declared herself "personally fed up with the idea that a certain agreement or understanding or method that is practical and wholesome and which binds men together and makes men work cooperatively may have met metaphysical or ideological implications."

Now, the tendency not to care about the "theory" but just to get things done as quickly as possible is a very serious menace to democratic government and democratic control wherever it raises its head. Having one union in the coal industry and compelling every one to join it, and having the owners collect the dues, certainly saves a lot of headaches—for everybody, including the owners—but it happens to deprive the workers of any opportunity ever to change their minds and ever to change their union.

The employers and the United Mine Workers will now combine to do what, if the employers and a company union did it, would promptly get them called before the National Labor Relations Board for gross violations of the labor relations act. They will keep the organizers of an independent union out of the mines!

The instruments of democratic control of most trade unions are very weak indeed. They are run by the "machines." The members get a chance to vote on general policy, but the most important day-to-day decisions are not submitted to them.

The assumption that all workers desire, moreover, to belong to the particular union that they once join has no more justification than the assumption that all voters once enrolled in republican or democratic ranks want to stay there forever.

And in the United Mine Workers union there is a great deal of discontent. Mr. Lewis has been using the U.M.W. as shock troops and a war chest to promote the organization of other industries. This has involved periodic assessments on the miners and the diversion of their funds to the workers of other industries.

It has greatly assisted Mr. Lewis to expand his power, but it has not been enthusiastically watched by all the miners who have been paying to organize the automobile industry, for instance.

So, a great many of them listened, probably to the suggestion that they should get out of the C.I.O. and into the A. F. of L. If the A. F. of L. union had not been taking

TWO AGAINST LOVE

by Frances Hanna

Chapter 18

NOLA AND TALLY

Betsy with native dignity, her chubby fingers clutching Tex, went straight toward Bob. "Oh, Mister Bob," she tripped into the sudden silence. "Can I please have some ice-cream?"

Stopping, he unfastened her fingers from the cat's fur, then picked her up. "No ice-cream," he pronounced. "Back to bed for you, young lady!"

Her cherub face puckered with dismay. "Please, Mister Bob?" "Isn't she the cutest thing!" Mr. Adams exclaimed. "Who is she, Bob?"

"Oh, let her have something to eat," Mary urged. "Want a sandwich, honey?" "Want a sandwich," Bob laughed and carried her into the dining room.

So once more that evening one of the Mack family became the center of attraction at Jocelyn's party. "I think I shall have to choose between hysterics or isolation," Jocelyn informed Geoff, dropping into a chair.

At that precise moment Tex observed his benefactress. Memories of delicious salmon ceased his annoyance at being temporarily introduced into a room full of strange people. Jocelyn was not strange and, although Tex did not care particularly for women, she deserved consideration because she allowed him bed and unusual board.

And another Mack was gently but firmly removed from the party and taken to bed. Geoff said: "Lyn, I've had enough of this, haven't you? Let's collect the crowd and take them in to my place for an hour or so."

With renewed enthusiasm everyone piled into cars and started for town. Geoff and Jocelyn arrived far enough ahead of the others to open the house, turn on the lights and the radio.

The Kenning house was Colonial style, tastefully furnished. Geoffrey lived here with his mother who, right now, was summering at Arrowhead Springs; relieved, she had confided to Jocelyn, to be able to use the summer heat as an excuse to open her mountain place and get away from polo and polo ponies.

The concentrated blasts of many horns announced the arrival of the members away from the C.I.O. Mr. Lewis would not have been worried and would not have called a strike. That seems obvious.

Well, a poor sap of a coal miner doesn't know what's good for him. Hasn't the C.I.O. gotten him better wages and hours than he ever had? Doesn't he know that real wages in the coal industry have risen between 1929 and 1938 a full 50 per cent?

Maybe, maybe. But the miners also know that members of their craft are leaving mining for WPA. The high wage scale is fine for those who work, but it doesn't help those who don't. And for some workers it is gripping to see one's dues, collected in a sick industry, go to help workers in other industries with much higher wage scales and better working and living conditions.

The way this strike was settled means that the workers will never have a chance again to choose regarding their union. The theory, apparently, is that trade unions are always and invariably highly democratic institutions whose sole and only concern is human welfare, led by men who wouldn't dream of autocratic measures or care at all about personal power.

Except, of course, the Progressive Miners, the American Federation of Labor, who are second-rate and in cahoots with the industrialists! This is pure nonsense. Some of the worst tyrannies in the democratic world are exercised by trade union bureaucrats. And some of the most stupid and reactionary economic policies are supported by them. They are often pure autocrats, run by inside cliques, and the check-off is the power to tax and a first lien on wages.

In many countries where they have had legally recognized control they have entered into deals with the industrial management at the expense of the rank and file of the men, and at the expense of the unemployed. Like every other social institution, they should not have too much power, for power corrupts, and absolute power corrupts absolutely—in trade unions as everywhere else.

guests. Jocelyn declared, "I must powder my nose!" and left Geoff to welcome the crowd. Descending about ten minutes later she stopped at a turn in the stairway to look over the heads below and see if everyone had come. Bob, Mary, Ruth, Jim, Eleanor... where was Nola?

Discreetly questioning here and there, she discovered no one had seen Nola and no one had brought her. Thorn had been around a few minutes before, she ascertained. An intuitive twinge warned her. Abruptly, she was positive of Nola's whereabouts. The rush had taken advantage of the noise and stayed behind at Sealcliff with Tally!

"I must be blind," Lyn thought dully. "Nola is in love with Tally. Thorn... Thorn must be hurt... he mustn't know, I won't let her hurt him this way. I'm going to Sealcliff and drag her here if I have to! For Thorn's sake..." Slipping unobserved through the conservatory and thence through a side entrance, she found Geoffrey's car, slid under the wheel and eased it as quietly as possible down the driveway and into the treat.

Once on the highway she stepped on the accelerator and covered the three miles to Sealcliff in almost as many minutes. But when she pulled in before the four-car garage she saw Thorn's sedan and realized that he, too, had missed Nola and returned.

Thorn, driving to Sealcliff, knew stark, unreasoning jealousy. It possessed him to the extent where he scarcely could coordinate his thoughts enough to handle the car. When Nola had insisted on his taking two other couples in his car and letting her follow with Bob, he should have known something was in the wind. He supposed he should have known weeks ago.

His laugh, caught up by the night breeze, was harsh and mirthless. Nola, running over on the other side of the fence day and night. Nola, wearing simple clothes; Nola, making a fuss over a disgusting old man and a smudgy-faced child. It all added up to one conclusion!

Nola fancied herself in love with young Talbot Mack, too much money, she had had no respect for it. This was, without doubt, the first time in her life she had come into contact with poverty. Sympathy had blinded her to all sense of proportion. This Mack fellow was a handsome brute—oh, he would admit that—but still a boorish fellow with no background and no money, no finer instincts. Certainly not the type who could ever make a girl like Nola happy.

It was up to him to save Nola from herself. Save her from making a mess of her life. He could forgive her this foolishness because he comprehended how her sympathies had been worked upon. Yet he would not forgive her too easily. He would be firm. So deciding, calming himself a little, he averted into the driveway and halted before the garage. He stepped out of the car and looked around. Then he heard voices from the direction of the swimming pool. Approaching across the thick carpet of grass, he surprised Nola and Tally coming out

of the pool, laughing as if they thoroughly enjoyed this mad capering under the summer moon. "Nola!" he called. "What are you doing here?" "Swimming," she returned. "The water is marvelous, darling, and I was so tired of being nice to people." Her countenance incensed him. "Nola," he ordered, "be kind enough to dress at once and come with me. People are no doubt talking already!" "Don't be absurd," she chided, an edge to her voice. "I am not at all concerned. I don't care whether people whisper, talk, sing, or shout about me! I wanted to swim. I wanted to talk to Tally. I'm having a good time and I have no intention of leaving. If you want to join them... if you don't..." She shrugged. "Aren't you forgetting we're engaged?" he demanded. "So what?" Nola drawled, hands resting lightly on her hips. "If you imagine for one moment that you are ever going to order me around, Thorn Russell, just get it out of your head!" "Tally approached the verbal combatants. "I'm sorry I've caused any trouble, Nola," he said, then turned to Thorn. "Your guests made so much noise I was unable to sleep. Miss Cranston very kindly invited me to swim with her. I certainly have no wish to cause a misunderstanding between you two." "You've never caused me anything but trouble!" Thorn snapped. "You don't belong here. You have no right here. Get away from this pool and stay away from it... and stay on your own side of the grounds!" Tally's mouth set in a grim line. "I have never trespassed without invitation, Mr. Russell. I was invited here and I have no intention of leaving. I never could stand that sour face of yours, anyhow!" "How dare you talk that way to me!" Thorn raged, his neat mustache quivering, his pale eyes distended. Nola, wearing simple walking gingham on the wet tiled edge of the pool. "You upstart! You—you poor white trash! I won't stand for your insolence! I—I—" Tally flipped out his arm, caught Thorn's shoulder and shoved him backward into the pool. "This should cool him off," he observed to Nola. "Jocelyn ran up just in time to see her brother, choking and spluttering and fuming, floundering toward the ladder. She reached for his hand and helped him out of the water." Tally had not moved. His bold eyes challenged Thorn to further insult. Nola was doubled over, shrieking with helpless laughter. "I—I never saw anything so funny in all my life," she finally gasped. "You—you're so dignified, Thorn, darling." Thorn, his teeth chattering, said, "I see nothing humorous in being pushed into my own swimming pool by a savage moron!" "Shut up!" he finally howled, abandoning all effort at control. "Shut up and get out of my sight—both of you!" (Copyright, 1939) Continued tomorrow.

CLERKS IN SESSION

TEMPLE, May 18 (AP)—An address this afternoon by Associate Justice Richard Critz of the Texas supreme court will feature the 47th session of the County and District Clerks' Association of Texas.

Bascom Giles, state land commissioner, will be heard Saturday. Other speakers include Judge Few Brewster of the 27th district court, Bell county; H. W. Hughes of Temple, and P. C. Lowry, El Paso county clerk.

and surface the street to the center of town.

County Judge C. E. Storey said that work was to start not later than June 1 and would likely get under way by Saturday or Monday. He estimated that the project would call for about 75 working days.

Tabulation of the bids follow: Ernest Lloyd, \$20,578; R. W. McKinney, \$21,358; Bell and Braden, \$23,287; Brown and Root, \$26,283; H. B. Zachary, \$26,949; Lee Moore Construction Co., \$33,675.

Oil Industry Faces A New Govt. Probe

TULSA, Okla., May 18 (AP)—A new federal investigation of trade practices—an outgrowth of the Madison oil trials—confronted today oil companies operating in 10 midwestern states.

Officials here of companies operating in the area declined comment. The investigation was announced in Washington by Attorney General Frank Murphy, who said witnesses had been subpoenaed to appear before a federal grand jury at Danville, Ill.

Murphy declared "there was reason to believe" gasoline prices in the midwestern area "have continued to a large extent to be artificially maintained x x x." He said there were indications practices on which the Madison oil cases were based in 1938 "have not been wholly abandoned in the oil industry."

At the same time Axtell J. Byles of New York, president of the American Petroleum Institute, at the API meeting in New Orleans said the petroleum industry "has accepted Senator O'Mahoney's invitation to cooperate with the government in presenting to the country its factually based views as to what should be done to improve the industry's functioning in the national economy."

Byles termed business "generally good, with reservations." His reservations were taxes.

The Mid-Continent generally markets reported a continued brisk demand for gasoline at firm prices with a consumption increase of about five per cent. Freely predicted in some quarters was a rise in tank car prices.

While runs of crude to stills in the week ended May 13 increased

While runs of crude to stills in the week ended May 13 increased somewhat, gasoline stocks declined.

The bureau of mines reported a drop of 178,400 barrels daily in crude production during the same period, with most of the decline in Oklahoma and in Texas.

Producers also watched Illinois, where the flow of crude continued to rise, for possible legislative moves looking to proration. From Louisiana came reports some quarters were hopeful Louisiana may join in the inter-state oil compact.

In the field, 469 completions recorded for the week ended May 13, compared with 448 the previous week, and 521 for the week ending May 14, 1938, the Oil and Gas Journal said.

Economy Move Gains A Step

WASHINGTON, May 18 (AP)—Congressional economy advocates were riding high today after the senate defeated the \$200,000,000 Florida canal project and the house tentatively cut nearly a third from a \$120,000,000 bill for river and harbor improvements.

There were cloakroom reports Vice President Garner had a hand in the fight against the Florida waterway, a project which bore approval of President Roosevelt and the war and navy departments.

If lost late yesterday by a vote of 36 to 45.

Despite this setback, the outlook for eventual authorization of the 196-mile canal across northern Florida from the Atlantic to the Gulf of Mexico was declared good by its sponsors. Representative Green (D-Fla.) said he would try to get house action at this session.

Economy was a major argument of senate opponents of the project. Senator Adams (D-Colo.) called it an unsound and extravagant expenditure, and Senator Tydings (D-Md.) declared the time had come to stop heavy federal spending.

Supporters argued that since \$5,400,000 of relief money had been allocated for preliminary work on the canal in 1935, authority should be given to complete it.

Just as senate republicans were active against the canal bill, the minority party in the house led the fight yesterday to reduce the river and harbor appropriations.

With few democrats present, the house struck out a \$23,700,000 item for the proposed Umatilla dam on the Columbia river in Oregon and Washington and a \$12,500,000 authorization for a waterway connecting the Tombigbee and Tennessee rivers. An attempt to add \$12,344,000 for a navigation and power development project on the Connecticut river lost 36 to 36.

A final vote on the bill was held over until today, giving sponsors a chance to seek reversal of these decisions.

Scholastic Census At 3,396, Shows Slight Increase

Completion of the scholastic census of the Big Spring Independent school district for the year starting Sept. 1, 1938, was announced Thursday.

A slight increase over last year was noted in the final total of 3,396. However, some of this advantage may be lost by the time County Superintendent Anne Martin weeds out duplications. The last year total of 3,355 was after duplications had been eliminated.

An examination of the enumeration showed 2,297 whites and 99 negroes. Based on the 41 increases and the current \$22 per scholastic apportionment, the gain would mean approximately \$900 more to Big Spring in state revenues.

POPE PARTICIPATES IN CEREMONIES AS BISHOP OF ROME

ROME, May 18 (AP)—Pope Pius XII as bishop of Rome took formal possession of his Diocesan Church of St. John Lateran today with an invocation to the Virgin to preserve peace on earth.

As the Pontiff was borne to the balcony to bless the multitude in the bright sunshine outside the basilica at the end of a magnificent, four-hour ceremony, the choir intoned a hymn to the Blessed Virgin in accordance with his wish that prayers be offered to her during this month to spare the world from war.

The ceremonies, the first of their kind since 1846, included an evidence of friendly relations existing between the Italian government and the Vatican.

Italian troops massed outside the basilica exchanged military honors with the Pope's Palatine guardsmen and military bands played a hymn, the Royal March and Giovanna, the Fascist air.

Since the population of New York City is expected to reach a total of 10,800,000 by 1960, the hospital system must replace 24,900 beds and provide 20,500 new beds within the next 25 years.

ECCLIES, BUTLER IN ADDRESSES BEFORE BANKERS GROUP

DALLAS, May 18 (AP)—Marriner S. Eccles, chairman of the board of governors of the Federal Reserve, and Maj. Gen. Smedley D. Butler today addressed the Texas Bankers association which previously had heard American tariff policies blamed for much of the world's war dangers.

John E. Owens of Dallas told the bankers yesterday "free trade means peace...high tariff means trouble. The United States cannot escape a large responsibility for the troubles of Europe. We started this tariff wall business."

Owens urged the United States prepare for a possible outbreak overseas because "we are mighty, far-flung nation that could not escape involvement."
