SIGHTS, FACES SEEN

No disposition was made of the West Texas Gas company's request for a rate increase at the Saturday meeting of the City Commission.

The District Home Demonstration agent, Doris Leggett, from Amarillo was in Hereford Monday for a conference with Mrs. Draper and Miss Mahafey.

Power was shut off to several REA consumers north of Hereford for a period in the morning and in the evening Tuesday while lines were being changed to allow the county commission to open a new road north of Hereford.

The Phillips and Lawrence girls' softball team will play Spring Lake there Friday, July 13, starting at 8 p.m.

Sam Nunnally spoke Monday evening at the regular monthly meeting of the Amarillo Young Republican club in Amarillo.

There was a meeting of the directors of the Jaycees Wednesday night at 7:30 at the Chamber of Commerce office.

Ray Conner and Guy Lawrence reported on their trip to the Lions International convention in Atlantic City, N. J., at the regular weekly luncheon of the Hereford Lions club at Hotel Jim Hill Wednesday.

A notice was issued to Home Demonstration club women this week informing them that the cherries their marketing chairman said would be available.

MRS. DICK ELLIS is shown beside the Century Plant growing in the yard of the Ellis farm home 16 miles north of Hereford.

'Walking Blood Bank' Needs 350 Typings Before July 15

Participation in the typing program currently being carried on for the Deaf Smith county 'walking blood bank' has fallen below expectations.

Shortage Growing In Harvest Labor

Deaf Smith county's labor situation—described as critical at the beginning of the week by Tom Bourland, local representative of the Texas Employment Commission—has taken a turn for the worse during the week.

Tax Election on Tuesday, July 17

Deaf Smith county voters are reminded by County Judge L. H. Foster of the tax re-allocation election to be held Tuesday, July 17.

Under the proposed rates submitted by the commissioner's court, for the voters to accept or reject, the county fund (general fund) would be raised from 40c per \$100 to 42c per \$100.

The supplement to the county jury fund would be lowered from 5c per \$100 to 3c per \$100 to compensate for the raise in the levy for the general fund.

Kuykendall Rites Held Tuesday at Baptist Church

Funeral services for Billy Kuykendall were held Tuesday afternoon at 4 o'clock at the First Baptist church with Rev. R. H. Cagle officiating.

Onion Crop Yield Fair, Market Good

Onion harvesting and processing operations—the first of the year in Deaf Smith county—were begun Tuesday by Finlan and Digby of Hereford.

Karl Lovelady Acquitted by Jury on Monday

Karl Lee Lovelady, Muleshoe attorney, was acquitted Monday night by a county jury of a driving while intoxicated charge which was filed against him on January 20, 1951.

Subsequent hearings on the motion for new trial were held on May 21 and May 26.

Mrs. J. J. Durham Called to Alpine By Mother's Death

Mrs. J. J. Durham and family left Tuesday morning for Alpine, Tex., upon learning of the death of Mrs. Durham's mother, Mrs. Elliott.

The market will probably go up, from all indications at the present time, Finlan said.

This was the second trial on the DWI charge for Lovelady, who was convicted by a Deaf Smith county jury on April 18, 1951.

Deaton Funeral Monday, July 9 In Decatur, Tex.

Funeral services for Mrs. Rosa Deaton were held Monday afternoon at 2 o'clock in the First Methodist church at Decatur, Texas.

Born July 7, 1872 in Wise county Mrs. Deaton had celebrated her 79th birthday the day before her death.

Operations will be in full swing next week, with about 100 in field crews and about 30 in the shed.

The estimated 300 acres planted in Deaf Smith county this year is a decrease over 1950 plantings.

County Awards Bridge Contracts

The Austin Bridge company of Amarillo was awarded bridge contracts totaling \$4345 at the semi-monthly meeting of the commissioner's court Monday.

One contract—for \$1995—was awarded on the repair of a bridge in Commissioner's Precinct Four.

Makes Bond

Allie V. Granger, charged in county court for permitting a person under the influence of intoxicants to drive an automobile, made \$500 bond Monday.

Bringing the bid under the \$2000 mark—excluded it from competitive bidding.

The second contract awarded the Amarillo firm was for replacement of the 50x16-foot steel span across the Tierra Blanca creek on existing concrete abutments.

Henson Charged

Doug Henson was charged in examiner's court on Monday with theft over \$50.

Low bid for the work as submitted by the Austin Bridge company was \$2750 for all labor and materials.

A stipulation in the contract at the time of acceptance was that if steel were unavailable within 30 days after acceptance the bid was null and void.

Public Meeting July 18 To Discuss Game Laws

A public meeting to permit landowners, sportsmen, and other interested persons to present their opinions on open seasons, bag limits, shooting hours, and other points in Texas hunting law will be held in the Deaf Smith county courtroom on July 18 at 8 p.m.

Continuing the policy inaugurated last year, the commission is once more holding this series of meetings in the 28 counties of the Panhandle over which it exercises jurisdiction.

The commission says, "To the extent compatible with the supplies of game on hand, as determined by Texas Game and Fish Commission biologists and wardens, the commission will be guided by the requests of landowners and sportsmen in making the actual regulations.

More Delay Reported in Telephone Co-Op's Loan

A delay of "three weeks at least" has developed in the loan application of the West Texas Telephone Cooperative, Leo Forrest, manager of the Deaf Smith County Electric Cooperative, told The Brand Wednesday.

Commenting on the bottleneck, Forrest said, "There is no excuse for that. Someone else has just been pushing them harder than we have."

The local application was reported to have entered the legal department of the REA prior to June 30.

Winfreys Growing Soy Beans as Experiment

The Winfrey Brothers, who farm 25 miles northwest of Hereford, have added still another cash crop to the list of those being experimented with in this area—soy beans.

The plant is dark green and grows from 12 to 18 inches tall. They have long pods of beans and in the fall turn a brownish color.

not knowing what the new plant is, have stopped and given the new crop quite a bit of attention.

51st FIGHTER INTERCEPTOR WING, JAPAN—In a recent informal ceremony at this Fifth Air Force Base in southern Japan, Captain Frank W. Durkee, Hereford, Texas, was awarded the Distinguished Flying Cross with one Oak Leaf Cluster and the Air Medal with four Oak Leaf Clusters for his combat missions over Korea with the 51st Fighter Interceptor Wing.

THE NEED FOR BLOOD

Questions Answered on "Walking Blood Bank"

By Mrs. Dyalithia Brady

The "Walking Blood Bank" being developed for this community by the Deaf Smith county chapter of the American Red Cross has but one purpose—that of saving lives.

The great values of blood transfusions in saving of lives have long been known. Transfusions were given to a limited extent in World War I for combatting hemorrhage and shock. Between the world wars, a number of notable contributions were made by medical research. Methods of collection, preservation, and administration were improved, new properties of blood were discovered, their usefulness in wide variety of diseases became revealed.

Discovery that plasma could be dried to a powder and dissolved in water when needed was in itself a great advance because of the ease with which it could be stored, transported, and used in emergencies wherever they might occur.

In World War II, our government called upon the American Red Cross as the logical agency to procure the blood that proved to be one of the foremost life savers of the war. Records show that 97.3 per cent of World War II wounded survived and military medical authorities believe the availability in quantity in time of whole blood and plasma was the major factor in this low mortality figure.

No greater opportunity was ever afforded Red Cross than that of supplying the needed—badly needed—blood. This wartime program was a spectacular success and largely due to the spirit engendered by the Red Cross in the hearts and minds of the people of this country: A spirit that moved them to give freely of themselves so that the sick and wounded of their armed forces might survive.

Thousands live today because of the people everywhere who responded to Red Cross appeal for blood.

Because of the opportunity to continue in life-saving, the A-

merican Red Cross, on June 12, 1947, approved and authorized the national blood program as an activity of Red Cross. This action insured to peacetime, the gains to humanity of the records in life-saving that had never been equalled before in times of war.

It recognizes the estimate made by medical authorities that 25% of the 80,000 persons killed in the bombing of Hiroshima could have been saved if adequate amounts of whole blood had been available. The presently-estimated requirement for a single atom bomb detonated in the manner employed at Hiroshima is 150,000 to 200,000 units of whole blood. This is based on from 1 to 5 transfusions for each of the 80,000 casualties. There are approximately 6,000 hospitals in the United States and only 1 out of 5 has a private blood storage bank.

In the absence of blood storage in our community, the local chapter is setting up a file for use through the Deaf Smith County hospital in order that persons of required blood type can be secured quickly for blood transfusions. It is carefully estimated that 600 types on file would be required if we had an emergency causing as many as 50 wounded.

The fireman and Knights of Columbus, with the help of a few individuals, have given remarkable blood service, but those few have been called upon repeatedly and with the increase in our population, and with the additional use of blood, it is imperative that the lives in the community be protected by a "walking blood bank."

The program is approved by the medical society. It is to be completed before July 15. Men and women 21-59 years of age inclusive are urged to take five minutes to be typed at the county hospital laboratory.

Hours are from 8 to 9 each evening except Sunday. For those who do not find that time convenient, the typing will be done anytime during the af-

ternoon of week days. The hospital technician, O. Z. Golden, takes a drop of blood from a finger and with the aid of volunteer registered nurses the blood group and RH factor is determined.

A card for the hospital file and another for the donor's billfold is typed in very short time, minors between ages 18-21 are accepted only with written permission from parents. However, married minors or minor in military service are accepted without written permission.

All who have been typed elsewhere and have a card to show blood group and RH factor are asked to bring the card for transferring information to the hospital file, and to obtain a charter blood certificate card. Correct telephone numbers are important for saving time and many cards in the old file are obsolete.

Most people will be interested in these facts about blood: The average healthy person weighing 120 pounds has about 12 pints of blood. The system begins to replace blood immediately after donation, and within from 48 to 72 hours, the volume is replaced. A donor may give blood at 8 to 10 weeks intervals without harm, provided five donations a year are not exceeded. Donors with any type of malaria or fever are not used, but those same persons may need to be given blood quickly and need to carry with them at all times, their blood certificate card. No donor can charge for blood through the red cross program.

It has been learned that few Americans will sell blood, but many will give it freely for saving of lives. The loss of a pint of blood will not reduce your vitality any more than a strenuous evening of exercise. There is no charge for the blood typing or the blood certificate card. There are many uses of blood, and in severe cases, as many as 30 pints may be needed for one individual. Blood is known to reduce shock after burns and to have saved many lives. Blood is used to aid accident victims, to fight disease and shock, in surgery, and to replace the loss of blood in childbirth.

The different types of blood are O, A, B, and AB, in order of their percentage occurrence. In the United States, the blood groups are distributed as follows: group O—46%; group A—40%; group B—10%; and AB—4%.

When a person requires a blood transfusion he must be given blood which matches his blood group. The RH factor is the name for another inherited factor in red cells. This was discovered through research involving the use of blood from Rhesus Monkeys. Since some persons were found to have a factor in their blood similar to one in the cells of the Rhesus blood, they were said to have Rhesus factor, a term which has been shortened to RH factor. The RH factor is an important consideration in the giving of blood transfusions and may also be responsible for the damaged blood in infants known as "RH babies". The blood of persons who have this factor is called "RH positive"; blood without is called "RH negative." About 85% of the American people are RH positive.

Please give 5 minutes of your time for blood typing—yours or someone else's. Life may be saved sooner than you think!

Club Changes Meeting Date

Members of the Sunshine club voted to change the day of meeting from the second and fourth Mondays of each month to the second and fourth Thursdays and scheduled the next meeting for Thursday, July 26 in the home of Mrs. Rhoda Mays.

The regular meeting of the club was held Monday afternoon with Mrs. D. F. Mathis. Members answered roll call by naming favorite radio programs Mrs. Oscar Vaughn won the penny gift.

Members present were Mesdames: Oscar Vaughn, Rhoda Mays, Leola Stewart, Clint Lundry, George Miner, and the hostess.

Pat Sullivan was in Hereford over the week-end. He is attending summer school at Texas Tech this summer.

State-Wide Farm Safety Program Planned for Rural, Urban Areas

Members of the Texas Farm and Ranch Safety Committee believe Texans can do something about the terrific losses, not only in lives and time lost from the job, but the economic waste that go with every farm and home accident.

In a meeting held at Waco on June 23, the committee outlined plans for conducting a statewide farm and home safety program that has as its chief objective, the elimination of accident hazards from the farmstead and making every rural citizen, young and old, safety conscious. This will be done through an educational program to be coordinated by

the committee and made a part of the program of each agency and group that is now working with rural people.

J. Walter Hammond, president, Texas Farm Bureau Federation, is chairman of the committee and E. C. Martin, state agricultural leader, Texas Agricultural Extension Service, is secretary. At the Waco meeting chairman Hammond announced the following committees and committee chairmen: Publicity, C. G. Scruggs, associate editor, Progressive Farmer, Dallas; Youth Training, Dr. F. C. Bolton, former president of Texas A. & M. College (retired), College Station; Statis-

tics, John C. White, Commissioner of Agriculture, Austin; Women's Activities, Mrs. R. M. Alpinrod, president, Texas Home Demonstration Association, Munday; Awards, C. T. Johnson, Sears-Roebuck Foundation, Dallas; and Finance, Marvin Carter, organization director, Texas Farm Bureau Federation, Waco. The committee chairmen were directed by Hammond to select the personnel for the respective committees.

The 35 members of the state committee represent farm organizations, agricultural agencies and business and service organizations and concerns related to agriculture. The number present for the Waco meeting, 22, may be taken as an indication of the great amount of interest that the committee has in getting their activities

underway.

Harold Heldreh, farm division National Safety Council, Chicago, spoke briefly on the work done by his organization and challenged the Texas group to do something about reducing the number of farm and home accidents in the state. "Some 17,000 rural people," he said, "will be killed in the United States this year as a result of accidents." Twenty-four per cent of the fatalities will result from falls—most of them in the home. "There will be at least one funeral every day this year in Texas," he continued, "for some farmer or rancher or family member. It's up to every individual and every organization and agency to practice and teach farm safety. Programs in other states have shown that the number of farm and home accidents can

be greatly reduced and educational programs for youth and adults alike have been the answer."

The Texas committee does plan to do something about the situation and will start their campaign to make rural Texans conscious of their own safety by joining with the nation in observing National Farm Safety Week, July 22-28. The committee's recommendation to every Texan is, "Practice safety and live safely so that you can continue to make your contribution to a greater Texas and America."

Mrs. Claudell Martin of Bowie, Texas and Mrs. Nelson Brewton and children of Mineral Wells are visiting in the home of their sister, Mrs. John Robinson, and family for about two weeks.

Hardwick Cow Produces Grand Champion Calf

A calf out of a Hereford cow purchased by a Tennessee cattleman from Francis Hardwick of Hereford, recently won the grand championship at the East Tennessee Fat Cattle Show, Hardwick learned this week.

The 1100-pound Hereford, shown by a 17-year-old 4-H club member, sold to a chain grocer for \$743.43. That was 70 cents per pound. The calf weight 1062 pounds, sale weight.

According to information Hardwick received from a friend in Tennessee, the show judges said the grand champion was the best calf they had seen east of the Mississippi.

Hereford has no cause for complaint along the line of entertainment this week as there has been "something doing" at the Stone opera house every night.

Officers were elected at the meeting of the Hereford Masonic lodge.

L. R. Bradley requests the public to leave their dogs and guns at home when they fish on his land.

The crop that is bringing the largest dividend to the property owner of this portion of the Panhandle is the much-talked-about alfalfa. Clarence Wheeler, who has 65 acres on his ranch planted in alfalfa, is engaged in marketing the first cutting from 30 acres.

What came near being a serious run-away occurred in Hereford, Monday afternoon. J. S. Jones was driving in the west part of town when his team became frightened and ran away. A collision with a telephone post gave the driver the advantage even if it did cripple one of the horses, demolish the carriage, and bruise the driver.

The work of grading streets in Hereford seems to have become a contagion since the successful work on Dewey Avenue. Grading streets with the new steam outfit which we now

have at our command is well worth the money which it costs

Because of ill-health Ross W. Davis has resigned from duties as cashier of the Western National Bank. The successor will be Francis B. Fuller.

The wheat situation continues to be a center of interest in Hereford. Up to Thursday noon, July 15, 1926, 175 carloads of wheat had been shipped from the Hereford elevators and the elevators are filled to capacity.

Henry Wilkinson, president of the First State Bank and Trust company of Hereford was the principal speaker at the Chamber of Commerce luncheon. He talked about the car shortage and its costly effects to the farmer of this section.

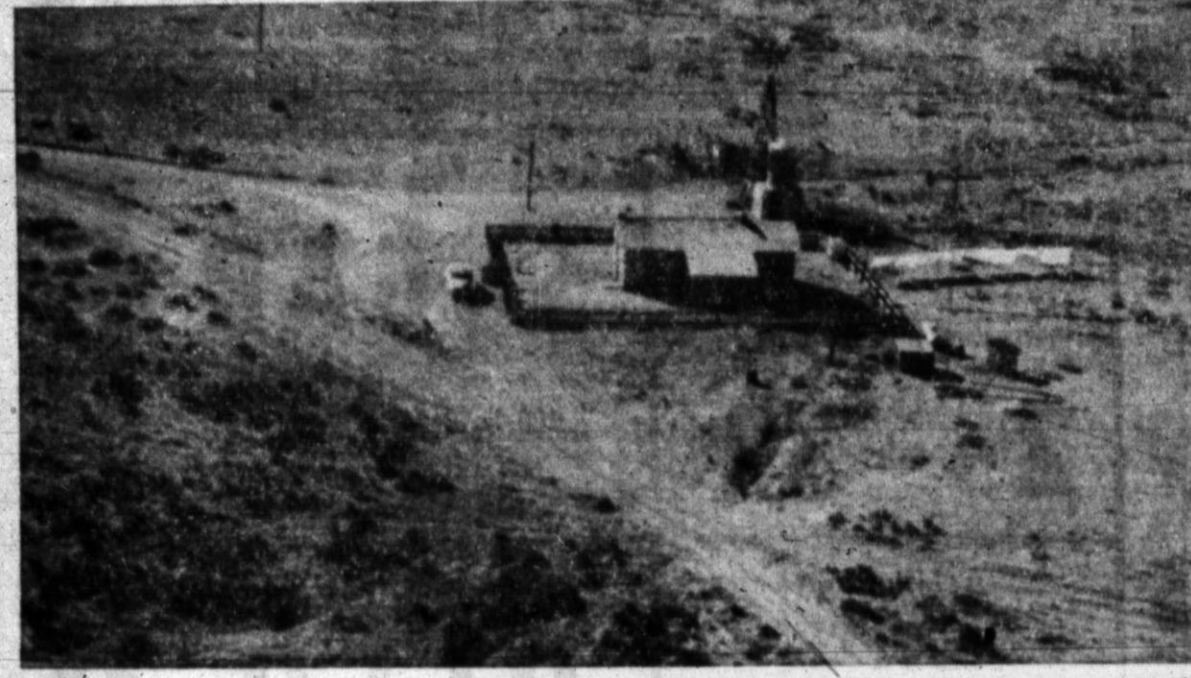

The week ending July 11 marked the most successful half year in the history of the Hereford Golf club and was celebrated with the semi-annual meeting.

Harvest Of Penneys Work Clothes Values

By JIMMIE GILLENINE

Potato harvest is really rolling. Yields are running pretty fair and quality is very good. All of these things, of course, indicate a low price—but contrary to custom the price this year is probably the highest the area has consistently drawn.

This is wonderful. Really wonderful. Everything has been going from bad to worse so long around here that an optimistic report comes like a beautiful clear day following a dust storm. Maybe this is the turning point. It might be. If the lettuce deal pans out in a big way and the cotton crop nets big returns and sugar beets run above-average, things will be looking up. All of these "ifs", plus the probably huge grain sorghum crop could put Deaf Smith County back in the lead. Things could turn out more profitable than if we had produced a five or six million bushel wheat crop. All we can do is hope. We deserve a break. Maybe the worm has turned.

Most merchants are pretty busy this week, due to the large number of migratory workers required to handle the spud crop. After the first pay day last Saturday things began to hum. Most of this money stays in the community, too; whereas, lots and lots of wheat money goes into the larger cities. Small crop money is divided up into many hands, including labor, but when a fellow "hits" on a big wheat crop he is likely to go "big time." He probably buys his clothes in Dallas or New York and really gets around. This is not always true, of course, but it will hold the majority of times. More money will be spent locally from a million dollar spud crop than from a four million dollar wheat crop.

You seldom hear people fuss about the parking meters any more. Down at Gilmer, Texas, they put in meters and later took them out. The following is from a letter appearing in the Gilmer newspaper: "I was informed that they drove over to Loneview, after driving over the Gilmer business district twice and not finding a single parking space. You took out the parking meters and now out-of-city shoppers can't even find a place

around July 15 will not be here. Mr. Cox said that he was unable to get good cherries and thought it inadvisable to get any. He reported, however, that the apricots will be available around July 15 and members will receive cards to that effect.

N. B. Hood stopped in at The Brand office to give us further information on the earthquake 26 years ago as requested in the last Around Town column. He said it occurred on May 14, 1925, which was Mother's Day that year.

Luke Fields says he believes his old Luke's Cafe, formerly located in the Miller building, displayed the first neon sign in Hereford. He lists one exception—the small neon star displayed at the Star theater. Any other recollections to substantiate or conflict with Field's claim?

The Toastmasters club met Monday evening with Elmer Paterson as toastmaster for the evening. Topic master was M. C. Adams and prepared speeches were made by Robert Thompson, Urlln Streu, Dr. R. E. Lingenfelter, and Dick Lucas. The group welcomed a guest, Bob Boyl. On July 20 the club will present a program on "The United Nations" to the Rotary club.

Incorporators of Castor Bear Farmers' Co-Operative society a new agricultural business in Hereford are V. E. Dodson, Walter Galley, Jack Dean, according to a news release from Secretary of State John Ben Shepperd. A charter for the business, which has a capital stock of \$1,100, was approved by Shepperd this week. Its corporate existence is 50 years.

Deaf Smith county was listed as one of the 61 in the state which has exceeded its quota in the Cancer Crusade which brought a state total of \$465,000.

Ing with 11 children, and driven by a woman. Since the red light was against the woman driver, he shouted as she came to a halt, "Lady, don't you know when to stop?" Glancing hurriedly at the horde of children, she answered telly, "They aren't all mine."

OPS Price Specialist Will Make Call at Offices if Desired

The OPS price specialist from the district office who comes to Hereford next Tuesday afternoon, July 17, will take the information and assistance needed right into the office of the business men asking for it. While here, Sam R. Blake, price specialist in the Industrial Materials & Mfg. Products branch, will maintain offices in the Chamber of Commerce; but will also be available for appointments.

Businessmen of this area who need help in complying with OPS pricing regulations are asked to call the OPS representative by telephone to arrange for an appointment at the place of business, if they desire. The price specialist will also conduct interviews in his temporary office.

"The Lubbock district OPS office," said Price Executive C. J. Taylor, "is using this method in an effort to bring about as nearly complete voluntary compliance with the government's

price stabilization program as possible, as the agency cooperates with the business and general public in the overall national defense program. Merchants are urged to take advantage of this offer to bring their firms into conformance with the law."

R. A. Coleman Pleads Guilty On Check Charge

R. A. Coleman pled guilty in county court to swindling with a worthless check.

He was fined \$1 plus costs by County Judge L. H. Foster.

Costs included mileage for a trip to Amarillo where he was apprehended for local law enforcement officers plus regular court costs and the amount of worthless checks issued by him.

Junior Legion 9 District Champs

Hereford's American Legion junior baseball team won top spot in its district last Saturday at Borger by downing Perryton and Stratford.

The local nine beat Perryton in the curtain-raiser by a score of 18-8. In the second game,

starting at about 10:30 p.m., the Hereford boys beat Stratford 14-12.

Next step in Texas State American Legion tournament will be the bi-district playoffs, with a playing date and site to be named in the near future.

George Loerwald is manager of the Junior nine.

Hereford took a 16-6 licking from Olton here on July 6 at Veterans Memorial park in the first contest of the year for the locals.

Allen handled the mound chores for Hereford while Roberts was behind the bat.

Mr. and Mrs. J. W. Dickerson of Amarillo and Mr. and Mrs. W. M. Caraway of Santa Ana, Calif. spent Saturday with Mr. and Mrs. Jap Dickerson.

John Muirheid Pleads Guilty To DWI

John Muirheid pled guilty Monday in county court to a charge of driving while intoxicated. He was fined \$100 plus \$28.30 costs, by County Judge Leonard H. Foster.

Muirheid was charged in an information signed by Hereford Police Chief Floyd Reeves and filed in the office of the county clerk on July 9. The offense with which Muirheid was charged occurred on July 8.

Silver Star Awarded Ellis Posthumously

WITH X CORPS, US ARMY IN KOREA — Pfc. Charles R. Ellis, of Hereford, killed during the Battle of the Soyang in May while manning a machine gun in an exposed position to protect an ambushed UN convoy, has been posthumously awarded the Silver Star.

Ellis joined the Army from the Hereford recruiting station about a year ago.

The Texan, a member of an armored field artillery battalion fighting with X Corps troops on the mountainous central front, through his action enabled other vehicles in the convoy to escape to safety, undoubtedly saving the lives of many men by his action.

The action took place near Inje, North Korea, May 28, when Red troops attacked the task force spearhead from entrenchments high above the road. Although the numerical-ly greater enemy was raking the convoy with small arms,

machinegun and mortar fire, Ellis manned the 50-caliber machinegun mounted on the vehicle in which he was riding and directed a withering fire on the Red positions.

"As the truck was stopped, his heavy fire neutralized enemy action, thereby permitting his comrades to take cover," the citation accompanying the decoration stated. "This action also enabled the other vehicles of the column to pass on to more secure positions."

"He was mortally wounded at his machinegun, but continued firing until he dropped exhausted."

"The dauntless courage, tenacity of purpose, and selfless devotion to duty of Pfc. Ellis undoubtedly saved many lives," the citation further stated.

His father, Jack Felden Ellis, is believed to reside in the Hereford area. His mother lives at Tolleson, Ariz.

Pasture, Range Specialist Working in Brush Control

Improvement and maintenance of established pastures and recovery of the state's range land from nonforage growths are more closely associated in Texas than in other states because both are basic to problems in animal grazing. In order to identify and delimit the duties in these related fields at the A & M College Extension service is served both by a pasture and a range specialist.

Working mainly within areas of permanent or converted grazing lands, the pasture specialist through demonstrational teaching, tours and other proved methods during 1950 sought to place pastures among farm cash crops. Among effective means to this end he encouraged the use of quality fertilizers, especially when seeding, and field trials of adapted varieties of grass. In connection with the latter, the specialist acted on behalf of the Texas Agricultural Experiment Station in distributing sprigs of coastal bermuda grass to more than 300 farmers in 71 counties. During the year more than 70 pasture tours, instigated largely by county agricultural agents and other organizations identified with agriculture, were made with average attendance of about 50 persons. Fully one third of the formal tours were followed by night meetings for discussion of pasture problems and showing of appropriate colored slides.

An irrigation pasture management school was taught at Lubbock from June 26 through July 11 with 19 county or assistant county agricultural agents completing the course. A pasture management school also was conducted within the year at Lufkin with 25 agents or assistants attending. During the course students were taken on tours of seven Experimental sub-stations. Meanwhile the specialist attended or participated in programs of several meetings within or beyond the state devoted to phases of agriculture.

Texas ranges are native pastures and the grass which finds foothold there has to strive for survival against the uncertainties of moisture and the creeping invasion of brush. According to the Extension Service range specialist about 65,000,000 acres of Texas range land is infested with mesquite and other varieties of noxious shrub. The primary problems of management include brush invasion, overgrazing, lack of appreciation by ranchmen for a coordinated range management program and other situations demanding reform. Despite the formidable array county agricultural agents under the leadership of the range specialist are attacking these problems principally through demonstrations.

In the field of brush control 1,321 demonstrations involving 402,512 acres were conducted in 126 counties, including mesquite work alone in 63 counties. Of this number, 16 county agricultural agents tested a new type hormone, 2, 4, 5-T ester, by hand methods using cut surface, trunk and foliage treatment. A total of 604 demonstrations in proper stocking involving 2,000,000 acres were conducted in 111 counties, while 1,314,000 acres in 126 counties furnished the operating field for demonstrations in deferred or rotating grazing for range recovery on behalf of 550 operators. More uniform distribution of livestock on ranges has followed construction of numerous wells and earthen tanks. At the same time fences have been built so that ranges can be utilized more uniformly and, accordingly, better managed. Meanwhile,

agents supervised 1,610 range seeding demonstrations on 181,247 acres.

During the year county agricultural agents trained 4,200 4-H Club boys in 127 counties in plant and grass identification. Teams from 104 counties took part in 259 contests, while 36 range demonstrations teams gave 86 performances on range management demonstrations.

Four years ago a range school for county agents was set up with the aid of the Range and Forestry department of the A. & M. college. The 1950 class brought to about 100 the number of agents who have attended. Agents studied range plants, ecology, plant succession and range management in the field, information important to the ranchmen and farmers they serve.

Barrett Winner of Championship Flight in Handicap Golf Tourney

Stan Barrett took top honors in the second annual Hereford Golf Club Handicap Tournament by defeating J. M. Posey 5 and 4 Sunday in the final round of championship play.

Barrett, a sophomore on the links, steamed through to take over top slot in the championship flight over Posey, veteran golfer.

Owen Jacks was winner first flight, John Patton did the same in the third flight, and Bill Miller won play in the fourth flight.

A total of 38 golfers played for about \$100 in prizes, Pro Jim Terry said.

Here are the way the matches ended up on the final round:

FIRST FLIGHT — Owen Jacks, 1 up over Punk Gilbreath; **SECOND FLIGHT** — Wendell Burdine, 1 up on 20 holes over Tom Howard; **THIRD FLIGHT** — John Patton, 1 up on 20 holes over Ray Hardy; and **FOURTH FLIGHT** — Bill Miller, 1 up over O. C. Amrey.

In the consolation flights, the final rounds went like this: **CHAMPIONSHIP FLIGHT** — Frank Cogdell, 1 up over Earl Stagner; **FIRST FLIGHT** — match yet to be played between J. A. Pitman and Frank Lattimer; **SECOND FLIGHT** — Joe Kerr, 1 up over Earl Hendricks; **THIRD FLIGHT** — Truitt Johnson, 1 up over Jim Kriby; and

FOURTH FLIGHT — Clyde Cave, 6 and 5 over Pat Corbett, J. M. Posey, 1 up over Bill Howard.

SECOND ROUND PLAY Scores of the second round of play have not yet been reported in The Brand, so they are printed in this issue along with the final round scores.

Low Putt Event For Ladies at Golf Club Today

The Ladies Golf Association is offering first and second prize for the lowest number of putts on nine holes of play today, (Thursday, July 12), according to Mrs. Jim Terry, president of the association.

Mrs. Terry also reminded golfers of the Scotch Foursome play on Sunday beginning at 4 p.m. From one to three prizes will be given, depending on the number of entrants.

An entry fee of 50 cents plus regular green fees will be charged for the foursome, sponsored by the Ladies Golf group.

All ladies interested are urged to attend the event. Usually there is a shortage of lady golfers to fill enough foursomes.

Dawn, Hereford Hardware Win Contests on Monday

Hereford Hardware and Dawn both took their ball games in Hereford Softball league play Monday.

Hereford Hardware tromped Magnolia 12-2 to keep their first place standing in the league and Dawn overpowered the Knights of Columbus for their fifth league victory.

Magnolia paid dearly for its loose fielding as the Oilers committed 14 bobbles afield. The winners gathered their 12 runs on nine hits.

In the nightcap, high-riding Dawn took their game on pine

his, pushing 20 marks across the plate. They took advantage of six KC errors. The KC's are still looking for their first league win.

THE STATE OF TEXAS
TO: Thomas W. Milner, and
The Unknown Heirs of Thom-
as Milner, and
The Unknown legal represen-
tatives of Thomas W. Milner

GREETING:
You are commanded to ap-
pear and answer the plaintiff's
petition at or before 10 o'clock
A.M. of the first Monday after
the expiration of 42 days from
the date of issuance of this Ci-
tation, the same being Monday,
the 6th day of August, A.D.,
1951, at or before 10 o'clock
A.M. before the Honorable Dis-
trict Court of Deaf Smith
County, at the Court House in
Hereford, Texas.

Said plaintiff's petition was
filed on the 23rd day of June,
1951.

The file number of said suit
being No. 3383.

The names of the parties in
said suit are:
D. E. Magee as Plaintiff and
Thomas W. Milner, and the
Unknown heirs of Thomas W.
Milner, and unknown legal
representatives of Thomas W.
Milner as Defendants.

The nature of said suit being
substantially as follows, to wit:
Plaintiff alleges that he is
the owner of the following land
and tenements situated in Deaf
Smith County, Texas, and that
he has the fee simple title
thereto, to wit:

All of the Northeast one-
fourth of Section Nine (9) in
Block K-10, containing 160
acres of land, more or less, and
being a part of a Section of

land patented to F. C. Gale, as-
signee of G. C. & S. F. R. R.
Co., on October 19, 1878, by
patent No. 258, Volume 89;
which land is further described
by field notes as follows: Be-
ginning at a stone 6x4x4, mark-
ed X and 2 pits, the SW
corner of survey 100, Block K-
7; Thence to S.O. degrees 32'

this Section, being a point in
the South line of Section 10 in
Block K-10; Thence S. 89 de-
grees 27' 10" E. 950.25 varas
to the place of beginning.

Such action is an ordinary
suit in trespass to try title on
the part of plaintiff against de-
fendants for title and possession
to and of the above de-
scribed land and tenements,
plaintiff alleging title in plain-
tiff through peaceable, contin-
uous and adverse possession
under the 3, 5, 10 and 25 year
statutes of limitation. The ac-
tion brought as well to try title
as for damages in sum of
twelve thousand dollars, and
annual rental value alleged to
be Three Thousand Dollars.

Plaintiff prays that he recover
title and possession of above
described land and tenements,
and his damages, rents and
costs of suit, and general
special relief in law and equity
to which he may show himself
entitled.

Nazareth Girls Smother Locals Sunday, 22-15

The Phillips and Lawrence girls softball team gave way to Nazareth in a wild 22-15 slugfest Sunday at Shirley school diamond.

Nazareth banged out 12 hits while the locals picked up 11. Nazareth took advantage of loose fielding by the Phillips and Lawrence nine to take the game. The winners jumped off to an early lead, picking up four in the first. They were never headed. Hereford gave them a mild scare when they pushed across four in the sixth and added seven in the last stanza. The rally came too late to be of any help to the home team.

Engman Wiolds Whitewash Brush Against Dumas

Bill Engman landed Dumas a five-hit whitewash job as the Hereford nine downed the visitors here in a 3-0 contest at Veterans Memorial park on June 29.

The young hurler turned in the most creditable mound job seen at the local park in many a season as he whiffed 14 Dumas batters.

While Engman was handcuffing the visitors, his mates used four hits to push their three markers across the plate.

Local baseball players regard Engman as one of the most outstanding mound prospects to come from this area in a long, long time.

Hereford took another good ball game when they downed Springlake there on June 14 behind the six-hit pitching of Andy Anderson.

West Texas C of C Meeting Is Scheduled for Monday

Members of the West Texas Chamber of Commerce from 28 cities will meet Monday, July 16, in Plainview for a barbecue dinner and discussion of the organization's expanded activities and general program of work. B. P. Bludworth, WTCC president, announced today.

The meeting has been arranged on invitation of WTCC officials and civic leaders in the Plainview area.

This will be the eighth of a series of conferences with small groups of key men held in larger cities of the region in recent weeks. These meetings have stimulated much interest in work of the organization. The other meetings were held in Wichita Falls, Abilene, Monahans, Denton, Vernon, El Paso and Pampa.

Fred H. Husbands, executive vice president and general manager, will report on the enlarged program of work outlined for the coming year, and on additional staff, personnel engaged to work on activities and projects. Community-level services are being emphasized in the objectives to be accomplished in 1951. Other WTCC members will be present.

Members in the following cities have been invited: Tulla, Lubbock, Canyon, Dimmitt, Littlefield, Levelland, Hale Center, Abernathy, Floydada, Crosbyton, Matador, Lockney, Muleshoe, Hereford, Silverton, Rails, Lorenzo, Slaton, Brownfield, Farwell, Friona, Morton, Tahoka, Seminole, Seagraves, Post, Spur, and Petersburg.

CONG. WALTER ROGERS SAYS

North, East Coalition Defeats All-Negro Veterans' Hospital

Many people are wondering when the Congress will recess. From the present outlook it is difficult to see how we could recess prior to September and the chances are that it will not be before sometime in October. There was some talk on the house floor about a short recess the first week of July, since the Fourth came on Wednesday. However the house stayed in continuous session all week, including the Fourth of July.

length about the statement. In doing so, he made especial mention about the "equality of man" and criticized Mr. Rankin, insinuating that Mr. Rankin is a "white supremacy" advocate. The columnist's remarks brought to my mind a transaction that took place on the floor the other day concerning an all-negro veterans hospital.

reasons, and don't let yourself think otherwise. If that type of legislation is to be stopped, it will be stopped by Southern and Southwestern Jeffersonian Democrats. STATE DEPARTMENT: The fight for a complete cleansing of the State Department is continuing and is getting results, but it is not proceeding fast enough to suit me. Over a year ago I told the people that I thought Mr. Acheson should resign. I have not changed that position nor my opinion. We hope that within the next several weeks Congress will have an opportunity to speed up this cleansing process when the bills on appropriations and other matters concerning the State Department are brought to the floor.

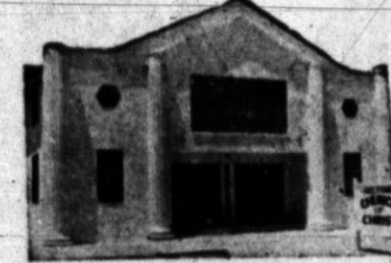

BILL PATTON, inter-club relations chairman of the Hereford Kiwanis club, presents "The Pig" to Otis Maner, his counter part on the Lubbock club, as the Hereford membership brought it on Thursday the club which started the bank on its tour of 17 clubs in this district. Hereford stands a good chance of getting the estimated \$1000- to \$2000 in the pig because 98% of the local clubs membership made the 110-mile trip to Lubbock to deliver the bank. Awards of the bank will be made in the fall on the basis of membership-participation and miles traveled in passing the bank on to the next club. Brand Staff Photo.

done so far would have been lost. I openly opposed such a move. At the time the procedural matter was being voted upon I was called to the long-distance telephone and when I returned to the floor, it was my understanding that the move had been successful and that General Eisenhower had been tied hand and foot. Therefore when my name was called, I voted against the motion to consider the resolution. Immediately thereafter, I was approached by several of the Texas congressmen, as well as several other Southern Democrats, and advised that such was not the case. I obtained a copy of the resolution and satisfied myself that such move had not been successful. I then changed my vote from "nay" to "yea." This is the only vote that I have changed since I have been in Congress and had it not been for the long-distance telephone call, I would not have had the misunderstanding. TAXES: The increase in Federal taxes was for defense purposes. Had this not been the case, the tax bill could not have passed. If this country is going to sustain a standing army and provide proper equipment, supplies and materials, it is going to cost money. I have a large number of letters in my office from men who are in the service. They are complaining about the pay situation with which they are faced. Their allotments are not sufficient to take care of their wives and children and many of these boys are sending home the small amount that they are able to retain out of their pay. These boys do not get paid on an hourly basis and they don't get paid time and a half for overtime. They are rendering a great service to mankind and humanity and it would be unfair and dishonest to require their dependents to live in poverty and squalor while these boys are serving their country. It would be criminal for the civilian population of this country to fail to provide these boys with the necessary guns, ammunition, food, material, supplies, clothing, etc., while they are a part of the force that will be the deciding factor in our ultimate protection.

THE HOUSE FLOOR: I had my first experience at changing a vote last week. The vote was being taken on whether or not the House should consider a resolution concerning the continued payment of government expenses between July 1 and July 31. While the various appropriations bills are being debated and voted upon. A move was started on the house floor to cut out the funds necessary for General Dwight Eisenhower to continue to operate. Had such a move been successful, General Eisenhower's hands would have been tied and all of the work he has

State Game Commission Sets 1951 Hunting Dates

AUSTIN. — Possibility that Texas hunters may be restricted to afternoon shooting during the coming mourning dove season was indicated Friday at a meeting of the Game, Fish & Oyster commission.

Word received by the commission from the Federal Fish & Wildlife Service, which sets the seasons on all migratory fowl, was that afternoon hunting was being considered by the federal authorities.

This news came after the commission had recommended the same dates, shooting hour and bag limits for the north and mourning doves and had recommended a later season, beginning on November 15, for the south zone.

The commission acted in accordance with a poll taken of Texas sportsmen on their preferences for the mourning dove season. Preponderance of north zone opinion was to retain the present September 1 opening late, while the bulk of south zone hunters responding to the poll wanted a later date than the present October 20 opener. Many from the south zone asked that the mourning doves parallel the quail season opening on December 1. The commission recommended the south zone opener be November 15 and run through January 1.

Bag limits under the commission proposal would be 10 birds and shooting hours would be from one half hour before sunrise to sunset.

The commission recommended the whitewing season in the Rio Grande Valley be on two successive weekends instead of on September 15, 17 and 19 as at present. The hunting dates would be Friday, Sep. 7, and Sunday, Sept. 9, and Friday, Sept. 14, and Sunday, Sept. 16, with no shooting on either Saturday in between the Friday and Sunday dates. The shooting hours would be from 4 p.m. to sunset.

The commission got pessimistic word about prospects for zoning Texas for the 1951 water fowl season. The executive secretary said the Fish and Wildlife Service has not yet indicated possible dates for the fall duck and goose shoot but did indicate disfavoring the zone plan because of the pressure from other states, with New York and California requesting three zones and even little Delaware seeking two zones.

The commission then voted to recommend that the Texas waterfowl season begin not earlier than November 10. The dates last year were November 3 to December 17. No indication was received as to bag limits and length of the season on waterfowl.

The commission changed the deer season in the nine counties west of the Pecos, from November 6 to 11 inclusive, to November 20 to 25 inclusive, after receiving requests from both sportsmen and landowners. The commission also reduced the bag limit from one male white-tailed and one male mule deer to one male deer.

The deer season for the state at large is set by law and runs from November 16 to December 31, with two buck deer the limit.

The commission authorized regulations for the new six-county area brought under regulatory control by a recent state law. A 15-day deer season was ordered beginning November 16, with one buck deer allowed. The wild turkey season would run concurrently, with a limit of one gobbler. The state law on wild turkey permits three gobblers. The quail season in the six county area would be the same as the state at large but the possession limit would be cut from 36 to 24. The new regulatory area comprises Jack, Young, Palo Pinto, Stephens, Hood and Erath counties.

Growing Safflower Stirs Interest Of Passersby in NW Hereford Area

By Mrs. R. C. Childers
The safflower in this vicinity has been attracting the attention of passersby. Hardly a day goes by that your correspondent doesn't see men, and women too, stop their cars, get out and examine the plants on the Robert Kershen farm, which is just across the road from your correspondent.

try contain more water than they have ever had in the history of the Panhandle. Houses and barns in low places are still standing in water in two places along the road.

The Childers visited the ruins left by the recent tornado at White Deer. The rebuilding is going very slow. It takes such a long time to clean up the debris after a storm. Repairs on the schools hasn't been started as yet, in fact they are still in the same condition as the storm left them.

The wheat on the T. E. Selger farm where the Grady Parsons live averaged about 15 bushels to the acre after several halls, reports Mrs. Parsons.

Mrs. Earl Dehart reports that their wheat made about 15 bushels also. Kenneth Dehart had about 30 acres of wheat which turned out, about, 16 bushels. Kenneth is participating in the 4-H wheat-raising contest.

Mr. and Mrs. R. C. Childers visited in the home of her parents, Mr. and Mrs. Earl Johnson Friday and Saturday. Crops in the Panna and White Deer vicinity all look very good. The lakes over the coun-
