SURGE IRRIGATION EXPLAINED...Bailey County's Annual Ag Irrigation Conference was held in the Coliseum on Monday, January 9, with many specialists and experts in the field of irrigation presented on the program. The upcoming thing in irrigation now is the concept of 'surge irrigation." Farms in Bailey County are being used at this time for test sites on the new-old type of furrow watering which helps to eliminate over irrigation as well as underwatering. This test is being done on the James Wedel farm west of West Camp.

# **Mules Go Into District Play** With Good Pre-season

With conference play just around the corner, the Muleshoe Mules under the guidance of Coach Scott Murray are looking good and piling up some good stats. In 15 non-conference games, they have outplayed their opponents in several areas, and have improved their field goals and free throws to a great extent since play began in late November. Their first home game is set January 17 against Friona.

The Mules are scheduled to begin conference play on Friday, January 13 against the Littlefield Wildcats in their home gym. Conference play will continue for them through February 14.

#### 1983 Cotton Classing Data Compared With '82

In comparing the 1982 and 1983 High Plains cotton crops, both were about equal on balance, according to Mack Bennett, Area Director for USDA's Marketing Services Office at Lubbock.

Grades and Micronaire were lower in 1983 but staples were longer, breaking strength was higher and volume was greater in 1983.

The 1983 predominant grade was 52 at about 29 percent while 1982's pre-dominant grade was 42 at about 40 percent, Bennett continued.

Average staples were 32.1 thirty-seconds of an inch during 1983, up a full one thirty-second from 1982's

Micronaire averaged 36 during 1983, down from 1982's average of 38.

High Volume Instrument strength averaged 25.6 grams per tex for the 1983 crop against 24.5 for 1982.

The hail damaged 1982 crop totaled about 700,000 cunning bales while the 1983 crop reduced by the Pay-Program, ment-In-Kind a proached final total of 950,000 running bales classed at Lubbock, Bennett concluded.

A pre hearing conference has been scheduled at 9 a.m. on January 25 by the Texas Railroad Commission on the proposed Energy Transportation Systems, Inc. (ETSI) coal slurry pipeline to be built through 36 Texas counties, including

In a previous news article, the Journal reported the pipeline would be built to the Southwestern Public Service Company Tolk Station, located northeast of Muleshoe. The porposal itself, would run from Wyo-

ming to Houston, Texas. The pre-hearing conference is planned and will be

held in the RRC headquarters building in Austin. In late December, a certificate of public convenience to obtain right of way through eminent domain had been applied for. At the conference scheduled January 25, parties to the application will be designated and issues involved will be discussed. The joint venture project is owned and operated by subsidiaries of Texas Eastern Corp., Bechtel Petroleum, Inc., KN Energy. Inc. and InterNorth, Inc.

The proposed 1800 mile long underground pipeline is said to be designed to transport 20 to 25 million

tons of low sulfer coal per year as a water-based slurry. State law requires that the RRC issue a certificate of public convenience and nec-

#### **New Laws Extend** IRS Info Reporting day in Odessa with their daughter, Mr. and Mrs.

Information reports, similar to those required of financial institutions on interest and dividend income, are now required for certain transactions involving direct sellers, barter exchange members, and brokers. The new information reporting requirements, cnacted under the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA), cover transactions taking place after December 31, 1982.

Nonemployee compensation payments totalling \$600 or more during a calendar year must be reported on Form 1099 MISC, "Statement for Recipients of Miscellar cons Income," by trades or business that do business with nonemployees such as freelancers or independent contractors. These reports must contain the iacome recipient's rame, address, identification number, and the total amount of payments mad, to the in-

dividual during the year. Reporting is now also required on Form 1099-MISC from any business that sells \$5,000 or more worth of consumer products to a direct

seller on a "Buy-sell basis," a "deposit-commission basis," or any similar arrangement. A sale is on a "buy-sell basis" if the buyer's compensation includes part or all of the difference between the cost to him or her and the sales price. A sale is on the "deposit-commission basis" if the buyer retains all or part of the consumer's purchase deposit as compensation.

Finally, brokers - including barter exchanges, dealers, stock brokers and other intermediaries - are required to furnish Form 1099-B, "Statement for Recipient of Proceeds from Broker and Barter Exchange Transactions," on all gross proceeds on transactions occurring after June 30, 1983. However, brokers may report on all 1983 transactions.

In all cases, the information reports must be furnished to the IRS by February 28, and to the person receiving the payments by January 31. IRS will use the reports to ascertain whether taxpavers have been accurately reporting all taxable

More information these new reporting requirements may be found in the instructions for Form 1096, "Annual Summary and Transmittal of U.S. Information Returns," and in Publication 553, "Highlights of 1982 Tax Changes." A new publication, Publication 911, 'Tax Information for Direct Sellers," is also available by writing or calling the IRS.

Free Trees Given By **Arbor Day Foundation** The National Arbor Day

Foundation is giving ten free threes to people who become Foundation Members during January, 1984.

The free trees are part of the Foundation's effort to promote tree throughout America. A Red Maple, Black Wal-

nut, American Redbud, Norway Spruce, Red Oak, White Flowering Dogwood, European Mountain Ash, Flowering Crab, Shagbark Hickory, and Colorado Blue Spruce tree will be given to members joining during January.

These trees were selected to provide a wide range of benefits: flowers, shade, berries, nuts, and beautiful fall foliage, according to the right time for planting this spring. The Foundation makes its spring shipments between February 1 and May 31, depending on the local climate and this year's weather.

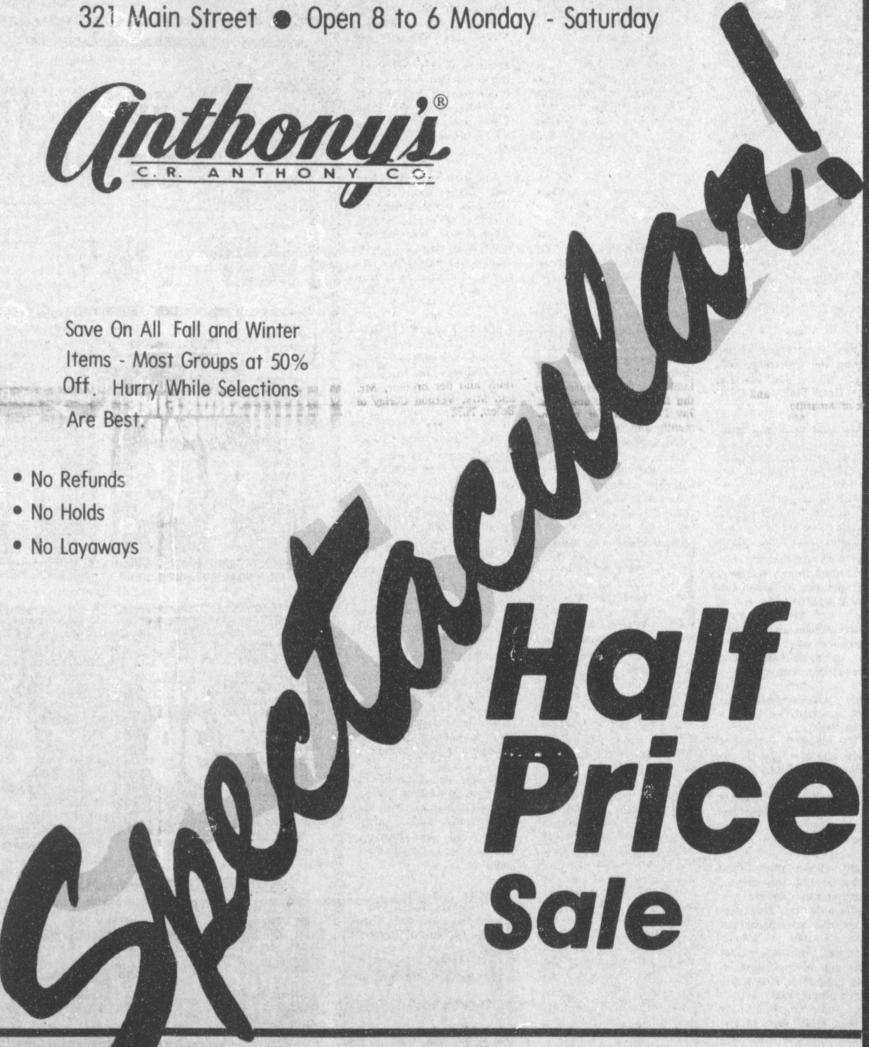

The National Arbor Day Foundation, a nonprofit organization, is working to improve the quality of life throughout the country by encouraging tree planting. The Foundation will give the

> BURSH CONTROL FOLLOW-UP

Follow-up brush control is important to keep brush from regaining a foothold, says a range brush and weed control specialist with the Texas Agricultural Extension Service, Texas A&M University System. The winter months are a good time for follow-up control measures. Among these are basal treatment with kerosene or diesel, alone or in a mixture with 2, 4, 5-T; 10 percent picloram pellets (Tordon 10K or Grazon 10K) scattered on the soil aroung the plant; liquid hexazinone (Velpar L) applied with an exact delivery spot gun; tebuthiuron bullets (Graslan Brush Bullet 250) placed around the plant; and hand or power grubbing.

wedding. Something new was her wedding attire, something old was a lavaliere that had belonged to her great grandmother, Mrs. Clara Kent, that was also worn by her great grandmother, grandmother and her mother at their weddings. Something blue was the traditional blue garter and something borrowed was her white Bible. In her shoes, she wore pennies that were minted in the year of their

births. Mrs. Marilyn Carter served as matron of honor. Bridesmaids were Miss Melissa McFadden, Miss Gaylene Rogers, Miss Cheri Ford and Miss Hyla Ford, cousins of the bride. Flower girl was Miss Brooke Baker and train bearer was Miss Breanne Baker, cousins of the groom.

The bridesmaids and flower girls wore identical burgundy chiffon gowns designed by Alfred Angelo, fashioned with a high neckline outlined in narrow Chantilly lace and sheer illusion yoke. The moulded bodice was accented by a flounce of gathered Chantilly lace. The victorian sleeves featured a ruffled Chantilly lace flounce at the elbow and band of Chantilly lace at the wrist. The natural waist featured a satin ribbon tie belt.

The bouffant skirt fell to floor length and swept to back fullness. Narrow Chantilly lace accented the hem at the front. Tiers of ruffled Canntilly lace formed the back sweep train.

Phil Kent served as bestman. Groomsmen were John Pearson, Clint Jones, Michael Jones, cousins of the groom, and Scott Ballew, brother of the bride. Candlelighters were Bryan Baker, cousin of the groom, and Monty Edwards, cousin of the bride. Ring bearer was Kyle Edwards, cousin of the bride. # Girl Scout Cookie Sales Begins Jan. 27

Coconut Cremes and Golden Yangles Crackers are the newest varieties to be added to the Girl Scout line of familiar favorites, announced Mrs. Nolen Swain, president of the Caprock Girl Scout Council. The Girl Scout cookie sale begins January 27 and will conclude February 12.

"Golden Yangles light-tasting snack crackers made with real cheddar cheese and containing no sugar. The Coconut Cremes have a generous helping of coconut creme sandwiched between two cookies and made with real coconut," said Mrs. Swain. Included in the cookie assortment are Kookaburras Cookie Bars, Hoedowns, Scot-Teas, Thin Mints, and Savannahs, all for \$2.00 per box.

All money collected from the cookie sale remains in the Council to help support seminars, workshops, and other troop and coun-cil-sponsored activities. The funds will enable local girls to participate in national Girl Scout events such as the Wider Opportunities program. The funds will aslo help maintain and develop Camp Rio Blanco near Crosbyton, a resident camp for the 18-county Caprock Girl

Scout Council The cookie sale provides Girl Scouts, ages 6-18, with a valuable learning experience. In troop meetings before the sale, girls practice skills such as record-keeping, taking sales orders, and

making change. Girls participating in the two-week project will be eligilbe for such awards as T-shirts, posters, and patches whick will feature Pegasus. Top sales awards will include \$85 camp scholarships toward resident

stitute that is 180-200 times sweeter than ordinary table sugar with only one-eighth the calories. For the same amount of sweetness produced by one teaspoon of sugar, aspartame contains only one-tenth of a calorie. A teaspoon of sugar has 18 calories.

Unlike saccharine, another sugar substitute, aspartame does not have the bitter after-taste, which is a major drawback of previous artificial sweetners. But aspartame is about three times more expensive than saccharine.

If you have avoided low calorie "diet" drinks and foods because you disliked the bitter after-taste, try those now using aspartame. Current brand names for the sweetner include Equal and Nutrasweet.

Statewide Essay Contest

The Governor's Commission for Women and the State Board of Education are co-sponsoring a statewide essay contest in grades 9-12 as part of "Women in Texas Today Week" scheduled for September 2-8.

Essays of 500 words or less must address the topic, "A Living Texas Woman I Admire." Gay Erwin, executive director of the Commission for Women, said the contest is designed to help young people discover and spotlight outstanding women leaders in education, public and community service, business, and other

# Receive Funds

Last June the Sudan Senior Citizens applied to the South Plains Association of Governments for a Title III grant. They did not own a building at that time and could not apply for Titles I and II which help operate a center serving food and

other benefits. A spokesman for the group said "only recently did the agency come up with the final papers and it appears that within the next three weeks they will receive a grant of \$2,034.00 for an additional ten tables and 72 chairs. They will match this grant with \$216.00."

It was pointed out by the reviewing board during the presentation by Hoyt Robertson that they could not receive any other benefits other than Title III since they did not own or operate a center. At that time they were meeting monthly at the Community Center. One week later the Gamble building was purchased and is now being used as a

meeting place. Attendance has been as high as 184 and approximately 100 on the average for monthly meetings. The Senior Citizens stated that they appreciate all the community as as whole for helping them secure the Senior Citizens Center and hope to be serving meals within the

next few months. Much of the kitchen equipment was secured from the local school system and work is being done by members.

Students must submit their essays no later than March 1, to a panel of teachers and administrators for school-wide judging. Regional winning essays, for grades 9-12, are selected by teacher representatives, curriculum specialists, and the director of one of 20 Texas Education Agency regional service centers.

Use of low sulphur coal and filter systems helps prevent air pollution problems.

Now, our coal-fueled plants produce more than half the electricity you use. Because coal is plentiful and less expensive than natural gas, which we've used for years.

In other agricultural discussions, Dr. Dale Pennington, a soil chemist with the TAES encouraged producers present to consider soil testing this year. With the cover crops and PIK production land, different soil will require different fertilizer needs. "This time of year is a good time to take soil samples for Nitrogen, Phosphorus and Potassium (N-P-K) tests. Plus, there is the fact that the costs of these tests, which are now about \$3 will be increased in March to approximately \$6 or \$7." Soil sample cartons and information are available at the extension office so that area farmers may pick them up and send them to the Texas Agricultural Experimental Station at Lubbock for testing.

New research on perinneal weeds and their New research on perinneal weeds and their control was discussed with the group by Dr. Kirby Huffman. Huffman distributed information on the latest prices on herbicides which are approved for several different weeds in this area. Some of those weeds are: white weed, blue weed, lake weed, Johnson grass, morning glory and nut sage. Huffman stated that there was a new cotton weed bulletin available which dealt with all weeds

Local ASCS Executive Director, Danny spoke to the group regarding the 1984 Farm Program and it's rules and regulations. Noble also stressed the importance of keeping up with the dates set for sign-ups of various programs and being kept informed on requirements of producers who enter the program.

Rates and load management for irrigation was previewed by Connie Gupton, Manager of Bailey County Electric Cooperative. Gupton told the farmers present that they would see some increases in costs this year. In 1983 Gupton stated that the rate was 61/2 cents per kilowatt hour - he expects 1984 rates to be approximately 8 cents per kilowatt hour. The load managment program which was initiated last year was a successful one, Gupton pointed out, and saved irrigator money.

Dr. Leon New, who is the irrigation, specialist for this area talked to producers and farmers present about the new Low Energy Precise irrigation Application (LEPA). This procedure has to do with dropped nozzles on center pivot irrigation systems. Results of tests in the county on various crops have shown that LEPA offers higher efficiency and lower pressure in watering, along with less costs in irrigation. Water application losses are almost eliminated by applying water six inches from the ground, New stated. Information on this procedure may be obtained from the County Agent's office, or the Soil Conservation Service in Muleshoe.

#### Moritorium

The Public Utility Commission of Texas is asking electric utilities to place a moratorium on service disconnections for customers unable to pay unusually high December bills.

In a letter to chief executive officers of Texas electric utilities, Chairman Al Erwin outlined the program which utilities may participate in voluntarily. The voluntary moratorium applies only to electric utilities. Guidelines are:

\* customers must request that the utility not disconnect their service

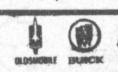

\* utilities may offer extensions or payment following PUC rules

\* the moratorium is voluntary and statewide

The plan is intended to address only the December usage and billing period. Almost \$300 million in statewide damages resulted from the unusually cold weather which was experienced throughout Texas in Decem-

"We hope that the electric utilities will want to participate in the moratorium in order to prevent service disconnections to customers unable to afford a single payment for December's usage," said Chairman Erwin.

Utilities participating in the program are asked to inform the PUC's Consumer Affairs Office (512 458-0252). Utility customers may contact the Consumer Affairs Office for this information.

# Workshop To Suggest Ways To Cut Bruising Vegetables

A special workshop to help area potato and onion growers and shippers reduce the major cause of consumer complaint -- bruise damage -- will be held Jan. 26 at the Texas A&M University Agricultural Research and Extension Center

Dr. Robert Thornton, Extension horticulturist and an internationally recognized potato scientist from Washington State University, will lead the workshop.

It is sponsored by the Plains Vegetable Growers and Shippers Council, Texas Tech University and the Texas Agricultural Extension Service of Texas A&M University. The program begins at 9:30 a.m., said Dr. Roland E. Roberts, Extension vegetable specia-

#### **Texas Confederate Hero** Day Set January 19

Texas Confederate Heroes Day, the first Texas Heritage Day in 1984, will be observed Thursday, January

**Texas Confederate Heroes** Day is one of the Texas Heritage Days recognized by the Legislature honoring the 90,000 men and women who served the State during the War Between the States. As Texans we are justifiably proud of these men and women who fought to preserve our unique heritage.

Ceremonies will be held in Austin at the Texas Confederate Museum located at 112 E. 11th Street at 12 noon. A reception prior to the program will be held at 11:30 a.m. hosted by the United Daughters of the Confederacy Districts 1 and 10. As part of the observance an address on General Robert E. Lee will be delivered and a wreath laid on the Confederate Monument

on the Capitol grounds. You are all urged to come to Austin on Thursday, January 19th and join in this event to show our pride in our Texas heritage. However, if you are unable to
