## What Next Year? Maize Growers In County Ask

Expecting word from Secretary of Agriculture Ezra Benson any day on what grain sorghum parity and support price for the coming

year will be, county maize growers Tuesday night urged President R. G. Peeler to have the Executive Board of the Grand Sorghum Producers Association, which meets Thursday night in Amarillo, to make an effort to find out what the plans will be.

Sec. Benson made his announcement last year on Dec. 8, and in past years the announcement has come sooner than that.

Between 40 and 50 growers met here at the courthouse. It was one of 10 simultaneous meetings held in Texas and New Mexico. The group elected two new officers, Harold Shearhart, vice chairman; and Roy Phillips, treasurer. Peeler is chairman of the county organization and president of the entire organization. County secretary is Maynard Buck.

Each farmer at the meeting took several membership cards with him to sign up his neighbors as members of the newly formed organization. Peeler said it is hoped that a minimum of 500 members can be realized.

J. D. Gilbert attacked as "unfair" freight differentials which favor northern shippers. He said he felt that something should be done to do away with the differentials which have plagued the South since the Civil War. "An Illinois farmer can ship hay to San Antonio as cheaply as I can ship grain sorghum there," he declared.

Also kicked around was the idea of getting milo declared a basic crop. Peeler told the group that a vote on the question would soon be offered to the entire membership.

He also told the group that the Executive Committee is considering plans for staging a region-wide barbecue. He said Senator Robert Kerr of Oklahoma, who has helped farmers gain favorable governmental action, or some other senator, probably would be sought as speaker.

Membership in the organization costs \$5 a year and is open to any person who produces or is interested in the production of grain sorghum.

## Amarillo Firm Will Do Audit Work For County

Deaf Smith County Commissioners Monday voted unanimously to turn over all audit work for the coming year to Pester and Co., of Amarillo.

H. C. Pester Sr., who represented the firm at the regular meeting of the Court, agreed to prepare regular bills each month and present a detailed report to the Court every quarter. Commissioners agreed to continue their plan for an audit every two years.

Pester estimated that he could do the work for not more than \$600 a year, a price the Court has been paying for monthly reports prepared locally. He told the commissioners that by doing so, they could cut the cost of the regular audit.

Commissioners also met with William C. Townes Jr., Amarillo architect. Townes presented final plans for the new Deaf Smith

County Hospital nurses home. The Court asked that the plans first be approved by the Hospital

Board. Townes said that he was ready to call for bids as soon as approval was given.

The architect also discussed the plans for remodeling the courthouse and building a new jail. He said that he had checked with the Texas Prison Board and a firm that deals in jail equipment, and would have reports from them at the next meeting of the Court.

Commissioners made plans to visit several county seats in this area which have done similar work to get ideas, before their next meeting.

Reports from different county officers were read and regular monthly bills studied and approved.

### Christian Church Sets 'D' Day Goal

Dedication Day preparations at the First Christian Church got underway this week following a kickoff dinner at which Wade Scott, associate minister of the First Christian Church in Amarillo, was speaker.

Rev. Don Root, pastor, said, "This marked the beginning of a campaign to underwrite a combined goal of \$40,000 for the budget and building fund, which goal had already received the approval of the congregation. Tonight at 7 p.m. the Campaign Committee and the workers will meet for a dinner and conferences."

The workers have been divided into blue and white teams to increase interest, the minister said. A. Petersen is captain of the blue team and H. M. Thomas heads the white team.

"Preparations have been made to take care of the large crowd expected on 'D' Day, Nov. 20, at which time the goal is to be underwritten," Rev. Root explained.

The church now has approximately \$54,000 and has voted to begin the construction of the first unit of the new plant when they have \$65,000 on hand.

At a "Victory Dinner," Nov. 22 the losing team will furnish a meal for the winning team.

### Adventists Have Week of Prayer

A week of prayer and sacrifice is being observed by the Hereford Seventh-day Adventist Church, pastor of Third and Lawton, Nov. 12-19. Arthur C. Carlson, pastor, announced recently.

Climax of the week will be the receiving of the sacrificial offering Saturday, Nov. 19. For this offering many members plan to set aside a week's income. The offering, the pastor said, will be used largely to support the denomination's world-wide mission program.

The special week will be observed by Adventist Churches throughout the world.

Devotional meetings were held Monday and Wednesday nights and another will be held Friday in the local church, Carlson said. He urged members to "renew this week of prayer and sacrificial living as a time in which to become better acquainted with God. Casual prayer means casual acquaintance."

It takes much prayer to become sufficiently acquainted with God to feel ready to meet Him face to face."

### Optimists Selling Christmas Trees

It isn't Christmas yet, but Hereford Optimists are selling Christmas trees anyway.

Members of the club are selling trees, which will be worth \$1 on a Christmas tree when the trees arrive, a spokesman said.

Money will go to further the club's work in being "a friend of the boy."

## Beauchamp Rites To Be Held Here This Afternoon

Funeral services will be held today at 2 p.m. for Houston Gardinell Beauchamp, 59, of Amarillo, at the First Christian Church. Rev. Don Root and Rev. S. M. Dunnam will officiate.

Mr. Beauchamp was injured in a car accident Friday at 7:30 p.m. and wasn't found until about 10:30 p.m. He was taken to Deaf Smith County Hospital where he died early Tuesday morning.

He was born Dec. 8, 1895 in Jack County, and he married Dollie Francis Aug. 27, 1955 in Amarillo. Mr. Beauchamp was a member of the Methodist Church.

Survivors are his wife, Dollie Beauchamp of Amarillo; two sons, Harold Beauchamp of Hereford; H. G. Beauchamp Jr., of Hereford; one daughter, Joyce Burks of Amarillo and four grandchildren; two brothers, M. Q. Beauchamp of Dumas; A. D. Beauchamp of Matador; two sisters, Sula Anthony of Amarillo and Olie Foster of Lubbock.

Pallbearers will be Oscar Mills, Tom Mills, J. H. Murphy and Earl Plank.

Burial will be under the direction of Gilliland Funeral home.

## Headquarters For Telethon Set Up

Deaf Smith County citizens will have an opportunity to take part in the Multiple Sclerosis Telethon to be held this weekend. Jimmy Roberts, local chairman, said Wednesday.

Roberts said the telethon would be staged over KFDD-TV beginning at 9 p.m. Saturday. It will continue until 2 a.m. Sunday.

Chill Wills will act as master of ceremonies. All money donated will go to the Panhandle Chapter. Roberts said that the Hereford Furniture store would remain open all day Sunday and that donations could be left there. Anyone wanting to donate, can also phone 223 money, the local chairman said.

Captain Alma Paetzold of El Paso and Mrs. Margaret Beal and children of Los Angeles returned to their homes Sunday. They have been visiting at the home of their parents, Mr. and Mrs. Joe Paetzold.

## Around Town

Weather was the chief topic around town this week, and as in Will Rogers' days, no one was doing anything about it.

That is, of course, unless you want to credit the First Methodist Church WSCS with their effort. The church women are to hold a chili, stew and pie supper from six until 8:30 p.m. Saturday in the basement of the church. A nursery will be furnished.

The Deaf Smith County Federation of Women's Clubs will hold its second quarterly luncheon session at the First Methodist Church at noon Friday. Hostess clubs will be the Hereford Garden Club, Lone Star, Farm and Ranch, LaMadre Mia, Sims Study and North Hereford H. D. Club. Mrs. Lee Benefield, chairman of the American Home and American Heritage department, will be in charge of the program.

The new 1956 Nash will go on display Thursday at Phillips and Lawrence Nash.

## Newboys Shooting For Grand Prize In Circulation Contest At Brand

Competition's keen these days among the Brand's young businessmen. It has been that way ever since plans for a circulation contest were announced last week.

And for good reason, too. The boys are competing for top prize money of \$25. There will also be a \$15 prize and a \$10 award for third place.

The contest lasts until midnight Dec. 15. The boy who has signed up the most new subscribers at that time will get the grand prize.

But the boys have more than just the three prizes to work for. For each new customer they get they will receive 15 cents and will get a \$1 bonus for the first 10 new customers they sign up. If they sign up a second 10 customers they will get an extra \$1 bonus and so on down the line. Just for instance. If a boy should sign up

50 customers, and that was tops on Dec. 15, he would get the \$25 top award, \$15 in bonuses and \$7.50 in regular pay, for a grand total of \$47.50 for a month's work; plus, of course, his usual pay.

The newboys must collect at least for one month in advance when they sign up a new customer and rural routes and mail subscriptions will not be counted in the contest.

If a customer subscribes to the paper at The Brand office he can select the boy he wants to receive credit if he so chooses.

So if you have any doubt about the youth of today being able to hold their own in the business world of tomorrow, just give them about two minutes of your time. They will prove their point in a hurry.

presentation of the award was made by Don Zimmerman, at a Court of Honor held in the First Baptist Church. Davis completed work on his Eagle Award in just three years as a member of Scout Troop 50. His Scout Master is Albert Maxwell.

He, along with Jacob Kohler, also of Troop 50, also received a perfect attendance pin. Davis led the pledge of allegiance at the Court of Honor and was a member of the color guard. Other members of the guard were Jacob Kohler, Jackie McNeese and Eddie May.

Rev. Howard Scott gave the invocation and Wayne Thomas the introduction of the Court of Honor. Other scouts also received promotion and merit badges at the Court. Dub Hair presented Geary Gearn and Bill Krumbain with their Second Class awards and Zimmerman made First Class presentations to Steve McWhorter, Craig Griffith, Roger McQuinn, Edwin Thomas, Gregory Combs and Clyde Whitaker.

Richard Smith was presented with merit badges in gardening, automobiling, rabbit raising and swimming by D. C. Martin; Clint Coneway was awarded wildlife management and first aid merit badges; and Eddie May received merit badges for citizenship, first aid, personal fitness and public health.

Carroll Martin was named Scout of the Month and his presentation was made by Paul Coneway.

## Potter Indictment Is Quashed By Court

Sixty-Ninth District Court Judge Harry Schultz Monday quashed the murder with malice indictment of Clifton D. Potter after sustaining objections filed by Defense attorneys challenging the qualifications of two members of the Grand Jury.

Defense Attorney James Witherspoon pointed out that two members of the Grand Jury, Mrs. H.A. Cipee and T. L. Carmichael, had

not paid their poll taxes. When District Attorney Floyd Richards argued that they were serving on their last year's poll tax, Witherspoon replied that if that were the case, Mrs. S. O. Wilson was not qualified since she had not paid her poll tax the preceding year. Mrs. Wilson was not originally objected to, since she was past 60 and held an exemption slip. The Court then quashed the indictment. A check revealed that Mrs. Wilson was 62 March 7 of this year, and was therefore exempt for the past two years, however.

## Mercury Drops 54 Degrees Fast

A 54 degree temperature drop in a matter of hours had Deaf Smith County citizens checking their heavy equipment out Wednesday.

The mercury dropped to a low of 13 early Wednesday morning and freezing temperatures clung on throughout the day. The high reading Tuesday had been 67 degrees.

The weatherman said it wasn't really very cold, however, "just normal" for a change.

By ruling that the Grand Jury was not qualified, the Court did not automatically void 11 other indictments returned by the Grand Jury. Judge Schultz said. He said that in case would have to be objected to separately, and that in cases already tried, defendants have waived their right to objections.

Potter is free on \$5000 examining court bond. District Attorney Richards said he would seek to have Potter re-indicted at the next Grand Jury session.

## Greenbugs Are Reported In Large Numbers

Deaf Smith County ranked among the worst counties in the Panhandle in greenbug infestations a recent survey by Texas A&M College and U. S. Department of Agriculture entomologists, has revealed. County Agent Hugh Clearman said Wednesday.

Clearman said greenbugs were found in Deaf Smith, Crosby, Floyd Hale, Swisher, Castro and Hansford counties, with the highest populations, up to five per linear foot of row in volunteer wheat fields, in Deaf Smith and Hansford Counties.

The report stated: "Infestations were spotted and very low in most seeded fields. This is the heaviest and most widespread occurrence of greenbugs for this time of year during the past few years. Beneficial insects are rather plentiful and it is quite likely that they will prevent heavy early populations of greenbugs from developing. Weather conditions will probably be the deciding factor in determining increases of this pest."

Survey information for the report was supplied by E. A. Cleveland, Donald Ashdown and Norris Daniels.

## Fire Victims Get Red Cross Aid

Hereford's Red Cross chapter and other organizations and individuals have contributed heavily to the support of families at the Labor Camp who lost their belongings in last week's fire that destroyed two apartment units.

A Red Cross report indicated that two families, one with eight children and another with four, received furniture, bedding, clothing and groceries. Several other families received clothing and furnishings.

The Kiwanis Club has arranged to help pay for school supplies children lost in the fire and the Lions Club will buy classes for one girl who lost her's in the blaze.

Furniture stores donated furniture and individuals clothing and temporary shelter.

**Highlights and Sidelight FROM 740 State CAPITOL**

By VERN SANFORD Texas Press Association  
**AUSTIN** — Sentiment to persuade U. S. Sen. Price Daniel to run for governor next summer is growing.

Senator Daniel has been in Austin and other cities over the state the past month holding subcommittee hearings on narcotics traffic. On the side he has talked with many local political leaders. Reports were that some spokesmen for both liberal and conservative factions hoped that by supporting Daniel they could avoid a re-election of the 1954 gubernatorial slugs.

Daniel has said he will not announce his intentions until after Jan. 1.

**More Super-Roads**  
 A four-lane highway connecting all population centers should be Texas' aim, says Gov. Allan Shivers.

Addressing a meeting of the Texas County Judges and Commissioners Association in Austin, Shivers praised the farm-to-market highways. But, he said, "our trunk line system has not fared too well."

At least 3,000 more miles of heavy traffic roads are needed, Shivers stated. He added that "such

construction would pay for itself with increased gasoline tax revenues. But people seem more willing to pay more expensive toll road fees than state taxes."

**North-South Thoroughfare**  
 A super-highway from the Red River to the Rio Grande by 1960 is the target of the Texas Highway Department.

Original completion of the 512-mile project was scheduled for 1955. However, faster acquisition of right-of-way than was expected has made the advanced date possible, reports State Highway Engineer DeWitt C. Greer.

Following the route of the present U. S. Highway 81, the new giant road will cost an estimated \$475,000,000.

**Where to Put Pupils**  
 Despite mammoth construction outlays, Texas' public schools still are fighting a losing battle with enrollment figures, says the Texas Education Agency.

If buildings and pupils continue to be added at the present pace, the state will be short 24,000 classrooms by 1960, TEA estimates. This despite the fact that during the past six years Texas spent \$432,000,000 on the school building program—or far more than any other southern state.

Population shifts, both within and to the state, as well as the rising birth-rate, cause the dilemma, says TEA.

**Building Advisors Named**  
 Five men have been appointed to help plan a new State Courts Building.

Named to the Supreme Court Building Advisory Board, by Governor Shivers, are former Supreme Court Judge A. J. Folley of Amarillo; former congressman Ed Gossett of Dallas; former Governor Dan Moody; J. Neils Thompson of Austin; and Virgil T. Sea-

berry Sr., of Eastland.

**Duval Decision Stands**  
 Hope is apparently ended for any change in the decision of the Court of Criminal Appeals nullifying 104 Duval County indictments. The court refused to reverse its ruling that the grand jury which returned the indictments was improperly constituted.

Meanwhile a new Duval grand jury completed its term after returning 198 indictments, 88 of them citing persons involved in the original group. Ten were against South Texas Political Boss George Parr.

**Parr Case Before Court**  
 The Texas State Supreme Court will review a case to decide if and when George Parr is to be tried on a civil recovery suit. State action seeks to regain \$500,000 in county funds Parr allegedly used to buy a ranch.

A conflicting suit by pro-Parr forces contends the money was a loan and seeks trial in Laredo. Trial in Cotulla or Alice is sought by the state.

**Acresage Cut Protested**  
 Disgruntled West Texas farmers took a verbal swipe at the State Agricultural Stabilization and Conservation Committee.

In making 1956 cotton acresage allotments the committee allowed a slight gain for Central and East Texas counties, but left West Texas seven percent short.

At the Texas Farm Bureau convention the losers pushed through a resolution calling for reduction in the committee's distribution powers.

Farmers were united in other resolutions refusing to endorse flexible price supports, asking for high price supports on basic commodities and urging efforts to find outlets for surpluses.

with straws and a long spoon.  
 Breakfast fruit: top grapefruit sections with a cooked prune.

Softener butter with the back of a wooden spoon worked against the sides of a bowl; add a pinch of dry mustard and finely grated Swiss cheese. Turn into an attractive small container and top with finely chopped parsley. Serve with crisp crackers and tomato juice for a first course.

Good sandwich filling: mashed

liverwurst mixed with mayonnaise.  
 If your hamburgers aren't brown enough to suit you when you broil them, try brushing the meat with vegetable bouquet sauce.

Lots of butter and honey to taste make mashed sweet potatoes taste especially delicious. Pile the mashed yams into a pie plate and heat and brown in the oven or under the broiler. Nice with chicken, or ham or turkey.

Save those turkey bones when you are serving a roasted bird.

Cover the turkey carcass with water and add a bay leaf, carrot, onion, celery tops, peppercorns and salt. Cook the stock slowly for a couple of hours; strain and mix with condensed tomato soup and canned whole-kernel corn. Add the liquid from the corn, too.

Here's how to add nutrients to the family's scrambled eggs. For each serving, put an egg in a bowl. Add two tablespoons of milk, a tablespoon of nonfat dry milk solids and a dash of salt and pepper. Beat until smooth and scramble as usual.

### Only Two Noticeable Changes Will Be Noticed By Basketball Public

By HAROLD V. RATLIFF  
Associated Press Sports Editor

There are only two changes in the basketball rules noticeable to the public this season and one of them is aimed at curbing the big men.

It would have to happen this year—the first one in which the Southwest Conference boasts of giants to compare with the other areas.

This season most of the teams have fellows soaring toward the tree tops, the biggest, of course, being Temple Tucker of Rice. Sophomore Tucker is 6 feet 10½ and still growing. There are two 6 foot 8 inch and three 6 foot, 7 boys in the league.

The rule change that seeks to hold the big boys in better check is that which widens the free throw lane from 6 to 12 feet for college basketball. The high schools continue with the 6 foot lane.

The idea is to give the little man some help, thus this is the first rule change aimed at aiding the defense in years.

A player must be out of the lane in three seconds. That was the same time given last year but with the space just half as large. The big man—the post—will have a longer shot at the goal. He can't just camp at the line as he did last season because if he does he will be virtually out of reach of the goal with his hook or pivot shot and if he goes inside the lane he will have to be trying for a shot and not just standing there waiting for a pass, which he could pivot in and then take the rebound. At least he'll have to get out within three seconds if he does. Some coaches say their men are so big and awkward they can't travel across 12 feet in three seconds. Now, this rule does not prevent anybody going inside the territory

and working for a shot, no matter how long it takes. The fellow who's in there dribbling and seeking an opening won't be worried with the 3-second rule.

This rule applies only to the team that has the ball. The defense can camp in there as long as it wants to. Thus, the theory that the new rule will make more drive-ins seems fallible. The lane is going to be clogged up about like it always has been.

However, it does seem reasonable that the little man will have a better chance at the rebounds with the tall men having to watch the second hand in getting in and out of that lane.

Basketball officials think the rule will decrease scoring and there won't be so many 40 and 50-point shooters. It will cut down on scoring from the post.

Another change indicates the futility of trying decrease fouling in the last minutes of a basketball game as the team behind takes any measures to get the ball.

The rule has been that in the last three minutes a foul called for two free shots whether it was made on a boy trying for the basket or not. The first 37 minutes of the game there was the bonus rule—if you shot a free throw you got another try.

This season there will be no 2-shot penalties for the common foul but a bonus award all the way, except that there will be two free throws when a player in the act of shooting is fouled and his shot is not successful. This always has been the rule and applied all the time.

JOHN 14:9—"Jesus said to him, 'Have I been with you so long, and yet you do not know me, Philip? He who has seen me has seen the Father; how can you say, Show us the Father?'" (RSV)

Men are known by their discouragements. So are churches. Presently, our churches despair over trivial matters. Inversely, their optimism stems from similar sources. Statistics, numerical growth, programs, and budgets are apparent determinants for one or the other attitude in the average church.

Christ was not so easily discouraged. Granted that the church is now a more complex organization. Nevertheless, the depth of Christ's ministry is evidenced by the source of His discouragements. The scripture above is the clue. Man's failure to understand His mission and nature was the disappointment of Christ. For then his disciples reacted to the same old crises with the same prejudices, hates, fears, and skepticisms. Therein men can cast no triumphant glare at death. The barriers of race, clan, and creed are kept in good repair. The Christian witness is an uncertain sound. "Have I been with you so long, Philip? How can you say, 'Show us the Father?'" Such was the Master's discouragement! The Rev. Warren Carr

## Bible Words for Today

ISAIAH 44:16-17—"Half of it he burns in the fire... he roasts meat and is satisfied; also he warms himself... And the rest of it he makes into a god." (RSV)

These verses, and those which precede them, give a devastating picture of a man who has many followers today. Our he goes and cuts down the finest tree he can find in the forest. Half of it he chops into proper lengths, kindles a fire, prepares his supper, eats his fill, and warms himself before the glowing embers. Out of the piece of wood that is left he then fashions an idol, falls down, and worships it.

Many of us are just like him. First we look after our own creature comforts and those of our family. Only then do we give thought to our obligations to God and to our brothers.

Is my religion a residual affair, an after-thought? Or is it the primary concern of my life? Do I give God the left-overs of my time, talent, and possessions? Or do I dedicate to Him the first-fruits of all that I am and have?

The Rev. Harold L. Lunger  
First Christian Church  
Tucson, Ariz.

## How Can I?

By Anne Ashley

By JIMMIE GILLETTE

You probably read about the four Negroes indicted last Thursday, following a theft of \$50 at Pitman Service Wednesday night. It was a case of rapid fire arrest, plus the fact that the Grand Jury was in session, which expedited the in-

dictment. Things happened so fast, in fact, that the five \$10 bills got lost in the shuffle—and their whereabouts is still a \$64 question with the police.

Officers searched every inch of the automobile and looked in ev-

ery possible place, including a thorough search of the suspects. Finally, Sheriff Lowell Sharp decided one of the men must have swallowed the bills, so they took him out for an X-ray picture. They didn't find the bills but, to everyone's surprise, the fellow showed up with three slugs in his body. Two of them appeared to be of .22 calibre and the third they estimated to be of .32 calibre. The officers would still like to know just what happened to the bills—and they don't have a thing on Ed and Odice Bulls, the station operators.

Death of another Hereford citizen on the Santa Fe Crossing emphasizes a bad situation which presents a giant-size question. The railroad has, in the past, sought to increase the train speed through Hereford. The speed is 30-miles-

per-hour, which is slower than most towns on the route, and makes it hard to maintain schedules. Approximately one year ago there was considerable discussion regarding the installation of "gates" on the crossings, but city officials report that they were swamped with protests from people on both sides of the tracks. Reports from other areas, in addition, indicate that people often wind and twist through the gates to create a still further problem. This would especially be hazardous in case the Santa Fe installed the gates—and, at the same time, increased the train speed to 50 or 60-miles-per-hour through town.

All in all, it is a pretty good sized problem. Oddly enough, plenty of people complain about whistling of the trains, while a bare

minimum ever mention the safety aspects to city officials or to the Santa Fe.

Highway Commissioner Marshall Formby was in town the other day for a few hours. He says that the widening of U. S. 60 west came as the result of traffic count and district engineer recommendations. We asked him about the same road east toward Canyon, but he says nothing is in the mill right now. Maybe, when the E-Way from Canyon to Amarillo is completed, they will get into the strip between Canyon and Hereford. Marshall didn't say, but our own opinion might even indicate a four-lane connection. He did say, however, that the road through Hereford is creating a traffic problem and that it will probably be out-

ed around the outskirts some day.

Adlai Stevenson announced his candidacy for Democratic nomination this week, and it came as no surprise to me, though, was endorsement of Ben Ramsey as Texas Demo party head by the liberal wing in Texas. I had figured that he would be opposed from this front.

Another thing that made most people happy in this area was the filing of murder charges on John Gilbert Graham, the baby-faced youth who blew up the United Airlines plane killing his mother and 43 other persons. For a long while it appeared that Graham could only be charged with sabotage, which carries a maximum penalty of 30 years and \$10,000, due to tech-

nicalities of existing laws.

Meanwhile things are high these days, but you can still find a bargain once in a while. For instance, a \$50 suit will definitely outlast \$50.

**JANOWICZ MAKING GRADE**

WASHINGTON (AP)—Vic Janowicz, who failed in his attempts to make the big leagues as a catcher with Pittsburgh, has found his mark in big league football. In his first four games with Washington's Redskins he scored 40 points to lead the National Football League scorers. He scored four touchdowns, kicked two field goals and made 40 extra points in 11 attempts.

**\$20,000 A WINK**

CAMDEN, N. J. (AP)—Trainer George P. Odum of Nali, winner of

the Belmont Futurity, says the horse winked at Mrs. Anson Bigelow of Palm Beach, Fla., at the 1954 Saratoga yearling sales. It was then that Mrs. Bigelow bid in the grey colt for \$20,000. Mrs. Bigelow is the former Josephine Widener.

**DRIVING RANGE HELPED**

NEW YORK (AP)—Doug Ford, who has earned more than \$2,000 in golf prize money this year, says in his book "Start Golf Young," that he got his chance because of his father's driving range near Van Cortlandt Park. Ford says: "When he moved to an indoor range I went over whenever I had the chance. It was there that I found out what a pleasure golf is—even on a big city driving range."

**2 CORINTHIANS 2:14**—"Thanks be to God, who in Christ always leads us in triumph, and through us spreads the fragrance of the knowledge of him everywhere." (RSV)

It is relatively easy to join the Christian Church. It is quite another matter to commit oneself completely to the head of the Church, and to work diligently at the task of translating into action God's purposes as they are revealed in Christ. For Albert Schweitzer this meant leaving a comfortable university post for the pioneering life of a missionary doctor in the heart of Africa. For countless others it has meant carrying on the daily routine in shop, in home, in office and on the farm with a new spirit of consecration, conscious that all worthy work and all human relationships present opportunities to testify to the glory of God and to the furtherance of His purposes. Such persons find life triumphant no matter what misfortunes befall them. They do more to spread the knowledge of God among men than all the learned treatises on the Christian faith that have been written.

Board of Christian Education and Publication,  
Evangelical and Reformed Church,  
Philadelphia, Pa.

Cut the molded gelatin into squares and serve on crisp greens with cottage cheese and salad dressing. Serve for lunch after hearty bowls of split pea soup and croissants. The croissants will taste especially good if you make them by browning and crisping small squares of bread in plenty of butter or margarine.

Chicken giblets need from 1 to 1 1/2 hours when they are being simmered in water. Turkey giblets take from two to three hours. Put the giblets through a food chopper, then mix them with crispily-cooked crumbled bacon, mayonnaise and salt and pepper for a fine sandwich spread.

Dress canned green beans (drained) with mayonnaise mixed with cream; add bits of anchovy fillets and serve surrounded with greens for a supper salad. Nice with sliced roast veal.

## 4-H Girls Study 'Gift Wrapping'

By ROBERTA CAMPBELL

One of the most interesting elements in any gift is the wrapping and with Christmas time just around the corner from Thanksgiving next week the 4-H girls' Clubs are enthusiastic over "Gift Wrapping" demonstrations.

Along with the spirit of anticipation, one of the greatest pleasures of the holiday season is enclosing a remembrance for a friend or a loved one in a package wrapped to suit the personality of the receiver. Actually it is the one who does the wrapping who takes the time to really enjoy the things that go into the packaging, because in all the excitement of opening gifts at the tree some of the clever decorations are sometimes overlooked.

A good idea is to wrap gifts to be arranged around the Christmas tree as early as possible where the family and visitors may have a good look at the outside before the rush when old Santa finally hands out the presents.

Clubs reporting demonstrations recently are:

**Walcott**  
The Walcott 4-H Club met Nov. 4 in the Walcott School. Mary Dufur, president, called the meeting to order. Janell Weaver led the group in singing and the ritual was led by Kathryn Burrus. Merry Kay Pruitt, secretary, called the roll and read the minutes of the last meeting.

After the business meeting a demonstration on "Gift Wrapping" was given by Mrs. Roy Pruitt, adult leader.

Refreshments were served to the group by Cecelia Burrus. Those attending were: Mary Dufur, Janell Weaver, Royce Lee Pruitt, Merry Kay Pruitt, Betty Lockhart, Kathryn Burrus, Mrs. Hershel Burrus and Mary Alice, Mrs. Pruitt and Cecelia Burrus.

**Merry Maidens**  
The Merry Maidens 4-H Club met in the home of Nancy Parsons Nov. 11 for a demonstration on "Gift Wrapping" given by Mrs. T. J. Parsons, adult leader for the group.

The meeting was called to order by the hostess and Donna Lovel led the club ritual. Mildred Wester led the song. Plans were made for a Christmas party and Ann Rose Dziuk and Polly Monroe were appointed to serve on a committee to carry out the plans.

After the demonstration, Mildred Wester showed the group how to make sock dolls. Donna Lovel brought a pair of dolls made from socks by her mother to show the girls.

Refreshments were served to: Sandra Townsend, a new member; Ann Rose Dziuk, Mildred Wester, Donna Lovel, Polly Ann Monroe, Mrs. Parsons and the hostess.

The next meeting date was changed from Nov. 25 to Nov. 30 and will be in the home of Polly Monroe.

Mrs. Draper showed slides and listed some of the trees and the shrubs which not only make a good screen planting but add beauty to the farm home. Each member scored her home for landscape improvements.

The children are pleased over the Santa Claus and snow men used to decorate the outside, while Mrs. Ira Ott, adult leader for the Hap-

py Homes 4-H group shows a clever way to wrap a shirt for a man on the list. On the table is also pictured a package of Christmas cookies in a revealing mouth-watering arrangement and a snow man with a big bow tie. The poinsettias on the big package are made from ribbon. (Staff Photo)

# HOMES FOR AMERICANS

AP Newsfeatures  
MAXIMUM PRIVACY is envisioned in this plan with bedrooms secluded in the quiet garden side of the house. A covered dining terrace adjoins the kitchen and dining room on one side of the house. On the opposite side a covered porch, screened from the street adjoins the living room. Garage is brought forward to keep the driveway short. This is plan L44AP by Llewellyn Peice, architect, Fort Washington, Pa. A roof of black asphalt shingles, upper walls of stucco above a base of dark colored shingles or siding, horizontal sliding aluminum windows and a porch roof of translucent corrugated plastic are among the architect's suggestions. A modern free standing metal fireplace is shown in the living room. The house covers 1,450 square feet and the garage adds 220 square feet.

## Letter To The Editor

To The Editor:

My neighbor showed me a write-up about a fellow named Boston who wants to give away a section of land because he can't make a living on it. If he is as good a farmer as he claims, he must be either a poor money manager or a malicious agitator.

There are two ways to bring the truth to the surface. (1) Let Boston publish a detailed account of his expenses and income for the past several years. There will be a lot of good farmers tell him what is wrong with his management. (2) Let Boston publish a list of the organizations to which he belongs. Let him deny that he belongs to any organization that advocates federal prepaid medical and hospitalization, federal insurance on all crops and livestock paid by all citizens, federal financing of training of all doctors, dentists and nurses, government ownership of a year's supply of all farming equipment, fertilizer, etc., and 100 percent parity support on all farm crops and livestock. If he can deny (2) he may be sincere

and not an agitator and we can help him with his money management.  
Very truly yours,

**NEW ATOM SMASHER** — ANN ARBOR, Mich. (AP) — They are trying something new in atom smashing at the University of Michigan. Eight midwest universities — Michigan, Illinois, Iowa, Indiana, Purdue, Minnesota, Wisconsin and Iowa State, are sending scientists to work on a model atom smasher combining two old principles which never have been used together.

The model will use a fixed magnetic field through which the atomic particles will move. Then oddly-shaped magnets will be stationed along the way to keep them on the track. They hope to produce more particles and move them faster than in present machines.

If the small 300-kilovolt machine works, they plan to build a machine of 20 billion electron volts. They hope to increase the amount of atomic work done in Midwest universities. Most such work is now done on the East or West Coasts.

## County Veterans To Get Share Of Annual Dividends On GI Insurance

Deaf Smith County veterans will share in regular annual dividends to be paid during 1956 on GI insurance held by World War I and World War II veterans, the Veterans Administration has announced.

The dividend on National Service Life Insurance (World War II) will amount to approximately \$195,000,000 and will be payable to holders of approximately 5,000,000 participating term and permanent plan policies.

The dividend on United States Government Life Insurance (World War I) will amount to approximately \$24,000,000 and will be payable to approximately 370,000 holders of permanent plan policies only.

In both the NSLI and USGLI payments, eligible policyholders will receive a dividend for each month the insurance is on a premium-paying basis during the policy year ending in 1956, with a single

check covering the total amount due on each policy. Payments will be made shortly after the anniversary date of each policy beginning in January and ending in December 1956.

VA said the basic factors in the 1956 dividend scale for both NSLI and USGLI remain unchanged from the 1955 schedules although individual payments may vary slightly because of the age of policyholders and the duration of their policies.

Excluded from the 1956 dividend will be the nonparticipating post-Korea policies issued under the indemnity and insurance acts of 1951. Also excluded will be the 735,000 NSLI and USGLI participating policies for which premiums have been waived under the same acts.

Eligible policyholders who already have designated a dividend payment option, and who do not wish to change it, will not have to give VA any additional authori-

## A STEP IN THE RIGHT DIRECTION

**RESERVE FORCES ACT OF 1955**

**CONGRESS** has passed an act directly affecting two groups of Americans! Young men—17 to 18½ years of age—who are facing a future military obligation; and men who already have served 1, 2, 3 or more years of active duty and have been separated since August 9, 1955.

**YOUNG MEN**, according to provisions of the Reserve Forces Act of 1955, may become draft deferred by enlisting in the Army Reserve for eight years. Only six months of that enlistment must be spent on active duty training—after completion of high school.

**MEN WHO HAVE SERVED** on active duty can complete their Ready Reserve obligation by serving satisfactorily one year with an active Army Reserve unit. Any remaining military obligation will be completed in the Standby Reserve in which participation in reserve training is not required.

# Great-Grandmother Knows Paperhanging

AP Newsfeatures  
 COOPERSVILLE, Mich. — Like many women, busy Mrs. Winnie Salliers, a 73-year-old great-grandmother, crochets as a hobby. But she works as a paperhanger.  
 The Coopersville area knows her as "that paperhanging lady."  
 Mrs. Salliers has worked at her unusual trade for the past 35 years. She has papered homes in at least nine communities of Kuskogon, Kent and Ottawa Counties. On vacation, once, she papered the home of a grandson she visited in Omaha, Neb. She is still active in her work.  
 Mrs. Salliers was born Feb. 25, 1882, near Coopersville. She was married at 15 to Oscar Salliers and together they farmed and worked at paperhanging.  
 Salliers died 17 years ago and his widow has carried on their work.  
 "When I'm not busy paperhanging," she says, "I'm crocheting. That's my hobby."  
 Mrs. Salliers has two sons, Floyd who lives nearby in Coopersville, and Fred, of Grand Rapids, Mich. She also has a granddaughter, three grandsons—one minister in Nebraska—and three great-granddaughters.

# Your Congressman Reports

Last week's newsletter ended when we reached Leningrad. Then shortly after we had been passed through customs we were taken to the Astoria Hotel in downtown Leningrad. It is located on St. Michael's Square just across the street from the Church of Peter and Paul.  
 Incidentally, this Church is under repair, as are a great number of churches in Russia. Most of these that we asked about are to become museums. It was approximately seven o'clock when we reached the hotel. There was very little traffic on the streets other than pedestrian traffic. The hotel lobby was not unlike the lobby of an American hotel. There was much activity. We later found out that there were two conventions in session. This really added an American touch. We were assigned to our rooms and told that we could obtain food in the restaurant located in the hotel. We all gathered in the lobby later and went into the restaurant together. No doubt the waitresses had been alerted that there were some Americans in town. They were obviously waiting for us and were exceedingly nice and solicitous of our welfare. The meal was typically American and consisted of steak, french fried potatoes, green peas and diced carrots. It was very good and we were all glad to see it. For the dessert there were a number of different kinds of Russian pastry and one of the waitresses undoubtedly felt that we would never live until morning unless we ate at least two of these apiece. She could not understand us, and we could not understand her, but the result was she kept putting the pastry on our plates until we finally ate it in self-defense, all of which pleased her very much.

### The Best Experience—Coming Home

There is one experience that I want to tell about that took place outside Russia. It was when we left the Greater London Airport to come back to the United States of America, the greatest country in the world. Never forget it. It was a complete reverse feeling from that which I experienced as I got on the Aeroflot plane in Helsinki to go into Russia. The London Airport is a tremendous installation. There seemed to be planes in every direction. We were on a Boeing double-deck Stratoclipper of Pan American Airways. During the take-off I was assigned a temporary seat in the pilot's compartment immediately behind the captain. He was Captain P. Willie Smith. His first officer was G. Hawkins, the navigator, L. Sundquist; the third officer, W. Ramonovitch, and stewardesses J. Glover and E. Feigel. In addition to the nine crew members, there were 43 passengers aboard. The craft empty weighed 45 tons. Loaded it tipped the scales at just short of 75 tons. It would be difficult to explain in words the great confidence that I had in the ability of these fine Americans to safely convey all 52 humans to the good earth of the United States. As we moved out on to the runway nothing was left to chance. All instruments were checked and double checked which was in effect checking every moving part of the plane. It is a thrilling experience when you hear the tower clear you for take-off and the captain gives the orders that will soon result in your being many thousands of feet in the air. The throttles are handled by the man directly behind the pilot, and as the speed of the propellers is stepped up and the plane begins to hurtle down the runway, you never lose confidence that you are completely safe. I am frank to say that I did not have that confidence while flying some of

the foreign planes, although we always arrived at our destination without mishap. We were soon high in the air and the sprawling City of London was spread out before us. One hour and 56 minutes later we began to go back to earth. It was cloudy and nothing was discernible. I was back in the jump seat behind the Captain. You could feel this giant aircraft coming closer and closer to earth and you could see nothing. All of a sudden we broke out of the clouds and directly in front of us were the lights of the runway at the Shannon, Ireland, Airport. Captain P. Willie

Smith and his able crew hadn't missed an inch. Within seconds our wheels were rolling on the old sod. Soon thereafter we left Ireland behind, sailed out over the Atlantic and 12 hours later landed at Idlewild Airport, N. Y. There is no feeling like the feeling when your foot touches the good old U. S. again.

# Long Time Ago

45 Years Ago  
 At a regular meeting of the Institute last Saturday, the question of finding a market for the feed stuffs was thoroughly discussed. The dairy and creamery business was also discussed and a meeting for next Saturday was called for the purpose of talking over the creamery business, either to take steps to put in a creamery at Hereford or to make shipments to Roswell. The agent of the Roswell creamery is expected to be present.

A wire to E. F. Connell yesterday announcing that the Drilling Co., near Glen Rio, a new town on the Rock Island, had struck oil in a new well, created some little excitement in Hereford. Mr. Connell left at once for the scene of action. It has been known for some years that the oil indications were strong in that section but not until recently has anything been done. The two wells already drilled are

located in the extreme northwest corner of Deaf Smith County.

25 Years Ago  
 Deaf Smith County will have more acres in wheat next year, a normal increase of about 20 percent over the last crop, running the total to around 85,000 acres, according to estimates from expansion of individual operations in each community. The wheat acreage for 1930 was estimated at 72,000 and the amount seeded or to be seeded for the 1931 harvest is predicted at 85,000 acres. Wheat drilling over the county is practically finished, according to correspondents of The Brand.

Opening of the hot lunch cafeteria at Central School yesterday noon is an achievement of note for the Parent-Teacher Association, financially assisted by the Mother's Club which selected the cafeteria as an outstanding project to sponsor during the year. Hot lunch is being served to all children for 10 and 15 cents and the cafeteria will now be open every school day noon hour.

The first two Russian words that we learned were "spasiba" which means "thank you," and "pashalsta" which means "you are welcome." "I am pleased" and several other things of similar import. One of our first experiences with these words occurred when one of our group got out of the car in which he had been riding. Wanting to thank the Russian driver, he said, "spasiba," to which the Russian driver replied, "Don't mention it," in English. This caused quite a laugh, but it developed that the Russian driver had studied English and could speak it pretty well.

# SHE KEPT A DIARY OF TELEPHONE CALLS

Mrs. Martha Chance — homemaker, church worker, bowler, and keeper of a telephone diary that revealed an important fact.

# Mrs. Chance finds the telephone a young homemaker's best friend

What one service helps the homemaker through busy days more different ways than any other?

Mrs. Martha Chance is sure she knows the answer. Her telephone. Mrs. Chance recently kept a week-long diary of telephone calls made and received in her home. The results surprised her.

Mrs. Chance listed 95 calls during the week. Not only did her calls save time and energy in managing her home, but many were actually the start of a pleasant afternoon or evening out.

In Mrs. Chance's own words, "It's so easy to take your telephone for granted. You just don't realize how much it means to you until you stop and think about it as I have."

Mrs. Chance is right. Telephone service is a busy homemaker's best friend.

SOUTHWESTERN BELL TELEPHONE COMPANY

### Typical calls from Mrs. Chance's diary

- "Called the Millers about going to the civic play tonight."
- "Called Lee (my husband) about plans for family reunion."
- "My bowling partner called about a change in league schedule."
- "Our minister called to remind me of Sunday School meeting."
- "Called a friend in the country. Asked her to put aside four dozen eggs for me."

# How to be sure you are making the best buy in a new truck

➤ A new truck is an important investment. If you want to be sure you're getting the best buy, you've got to consider a lot of things: price, power, operating economy, good appearance—to mention only a few.

➤ Take price, for instance. Wouldn't it help you to know that you can buy a Dodge for surprisingly little money? Could be you didn't know Dodge trucks cost less than most other makes.

➤ Wouldn't it help you, too, to get the whole picture on truck power? The fact that Dodge Power-Dome V-8's outpower every other leading truck in the low- and medium-tonnage fields surely is important to your decision.

➤ And there are other Dodge advantages you'll want to think about—like the business-building beauty

of Forward Look styling, and the long life that spreads low initial cost over years of dependable service.

➤ It all adds up to this: To be sure of your best truck buy, take a few minutes to talk to your Dodge dealer. Just a phone call will put the wheels in motion.

## Official List Announced

Well, the official playoff list for AA schools was announced this week by the Interscholastic League. And not for the first time do we stand corrected.

We had earlier built up the fact that Phillips or Breckenridge must go before one gets to the finals. Then we thought that we were wrong and changed it.

Now we have to change it again.

The AA classification is divided into 32 districts this year. It is divided into two brackets, the top 16 teams in one and the bottom 16 teams in the other. The winners of each bracket play in the state finals.

Phillips is in District One and Breckenridge is in District Eight. They're both in the upper bracket, along with Stamford, who is in District Four. Three of the four best teams in the state are in the upper bracket.

If Phillips and Breckenridge play it will be the third game of the playoffs for each team. There's five games all together. Phillips gets the unlucky task of having to play Stamford, too.

## Stamford Over Everybody

We've been playing up Stamford as a terrific team with the best chance of knocking off Phillips or Breckenridge. They have a chance to beat both.

We're afraid neither Phillips or Breckenridge will get to the finals. We'll take the Hawks over Breckenridge, however, if they play.

Killeen is almost a cinch to get to the finals. They're in the bottom bracket and probably won't encounter much competition. They are right now rated the No. 1 AA team in the state, which is probably correct.

Who'll be in the state finals? Killeen and Stamford. Who'll win? Stamford!

Maybe we opened our mouth too far, but that's it.

## Cage Prospects Not Good

To put it bluntly and straight to the point, Hereford basketball prospects for this year are lousy. The Whitefaces may find it hard to stay out of the district cellar.

Cubby Kitchens hasn't got much to work with—one returning starter. Some early prospects apparently didn't pan out. A couple of good boys probably won't be on the team because of scholarly reasons and experience. A couple won't be eligible until next year.

But right now we're going to forget about this year and start talking about next year. We predict that next year's team will be terrific.

## Future Years Look Bright

Almost everybody will be back, and those that aren't eligible now will be then. One of the brightest prospects is tall Jim Curt-singer, who recently checked in from Palo Duro of Amarillo. Curt-singer is a sophomore this year and will have two more years of

Dalhart's ever-improving Wolves may give the Hereford Whitefaces all the competition they can handle Friday night at Dalhart.

After an impressive 13-9 upset over the Canyon Eagles, the Wolves won't be as big underdogs as previously expected by most experts. However, Hereford will still enter the fracas as 14-point favorites.

It will be the last game of the season for both teams, and the Whitefaces will be seeking their eighth win, while Dalhart is going after only its fourth. The Herd, who had an open date last Friday, has lost only two and tied none. Dalhart has lost five and tied one.

With the exception of Shamrock Hereford is the only team in District 1AA not to tie at least one game in conference play. Their two losses have been to Phillips and Perryton. Other than the Canyon stunner, Dalhart's peak performance has been a thrilling 0-0 tie with the Perryton Rangers.

Coach L. B. Russell stated this week that he isn't taking the Wolves any too lightly. His team should be in almost top physical condition.

Dalhart features a big line, which will probably out-weigh the Whiteface forward wall about 10 to 15 pounds per man. Two 200-pound tackle bolster their line considerably.

The Wolves effectively bottled up Canyon's running attack at times by throwing an 8-3 and 7-3 defense at the Eagles. Dalhart's victory over Canyon elevated them from the cellar, one-half game

## District Teams Wind Up Season In Friday Games

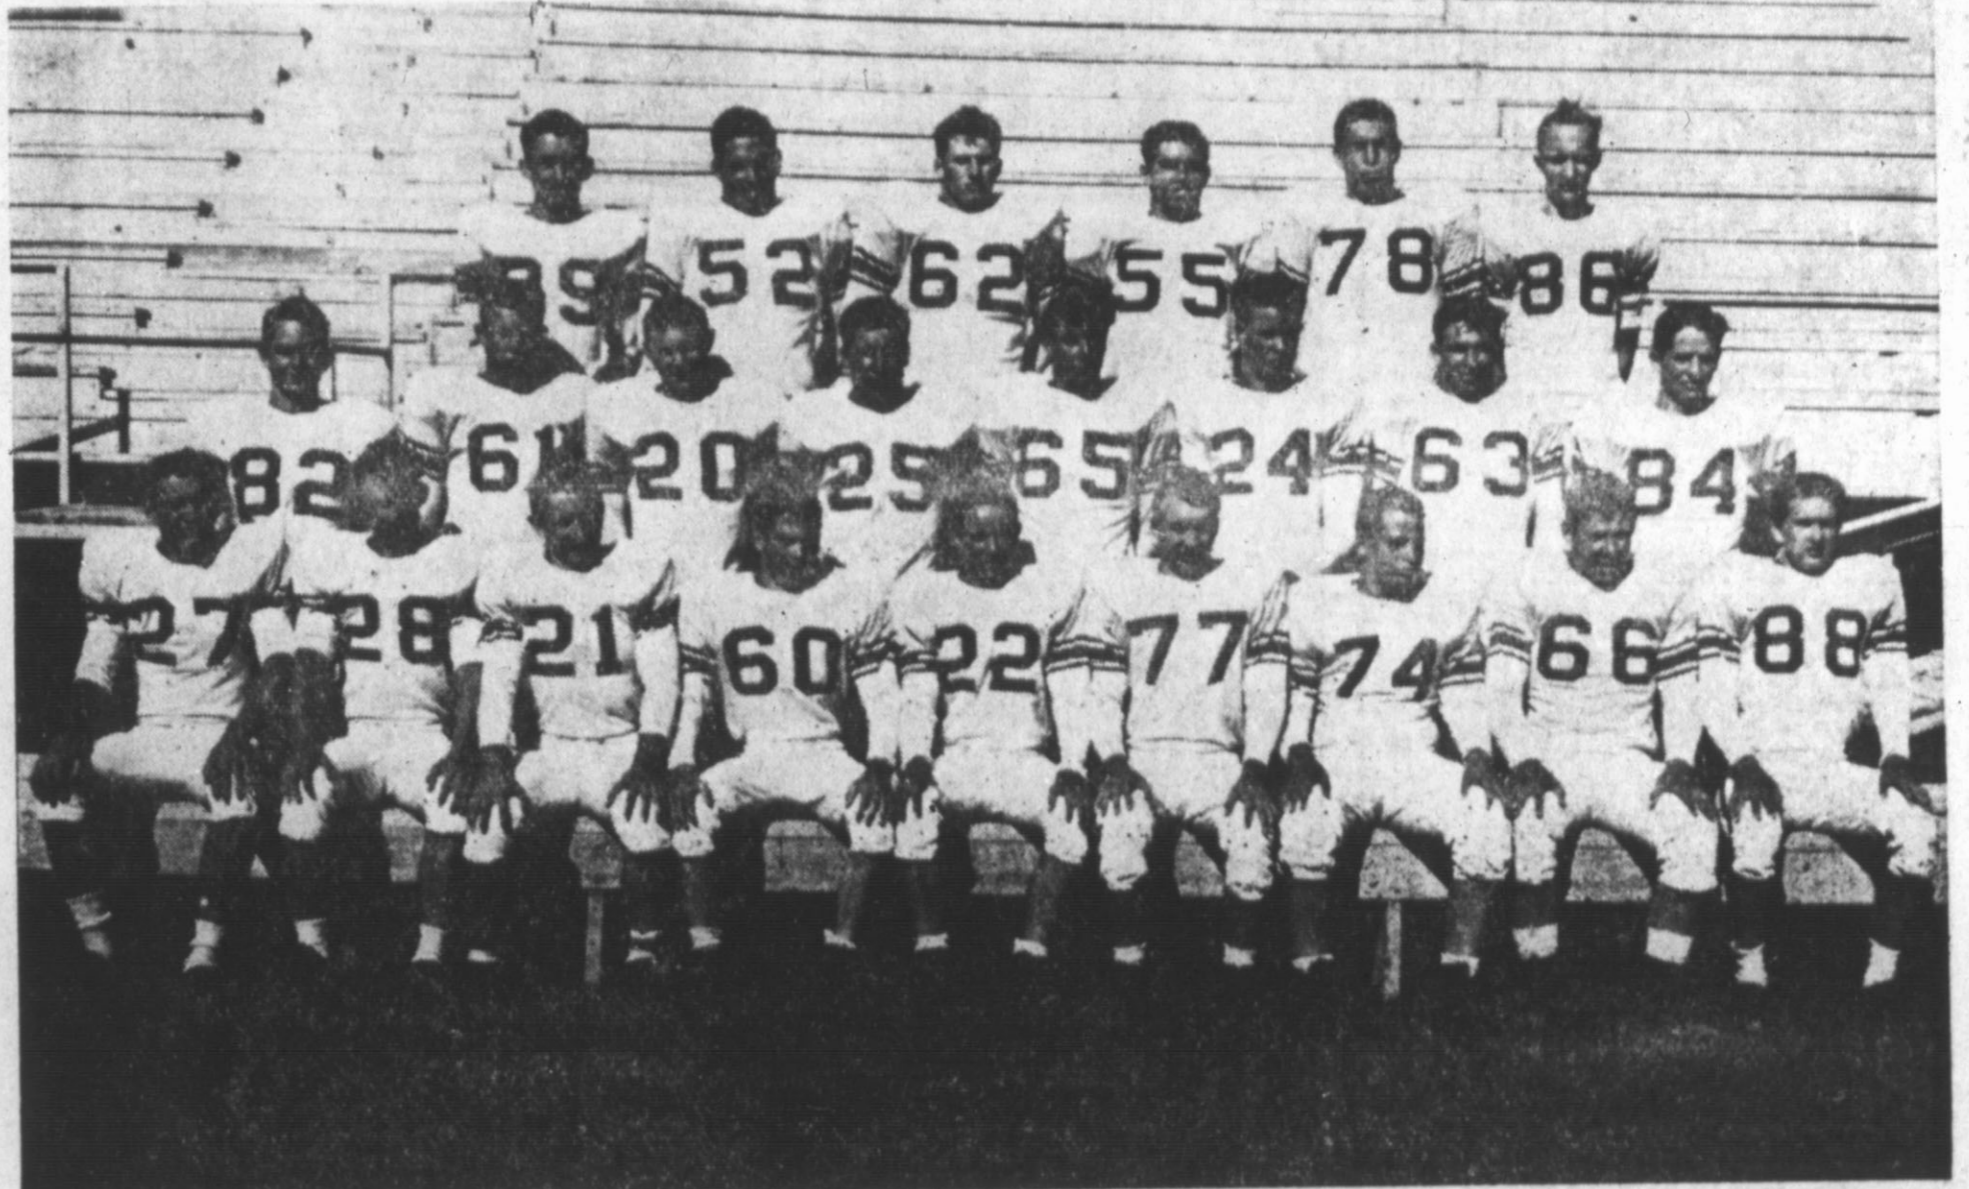

District 1AA closes its conference schedule Friday night with Phillips, Hereford and Perryton favored to walk away with victories in their grasp.

The Phillips Blackhawks clinched the district championship last Friday by murdering Shamrock, 60-0. Dumas clinched a tie for second by trouncing Perryton, 26-18, and Dalhart knocked off favored Canyon while elevating themselves from the district cellar.

The tremendous Phillips Blackhawks will be heavy favorites to topple Canyon's disappointing Eagles when the two teams clash in Buffalo Stadium at Canyon. Canyon has suffered two straight setbacks at the hands of Hereford and Dalhart, while Phillips' winning streak was halted by the Dumas Demons recently. However, the Hawks apparently returned to normal when they trounced Shamrock, 60-0. The Blackhawks are 22-point favorites.

Hereford will also be favored over Dalhart at Dalhart, but not by such a definite margin as expected.

# The GLAD Way

Too long have we thought of The Way of the Cross as the "sad way." There may be sad moments along every noble path, but not all great ways are sad ways. The path of motherhood may have sad turns but it is a satisfying path. The path of education climbs some difficult and steep places but it is a thrilling way. Isaiah talked about the highway of God, where faithful servants passed on good errands. *The way of the Cross is the way one takes when he serves God.* It is not the "Sad Way" but rather the "Glad Way." Jesus came by way of the Cross, and the Book of Books on which the cross is planted, tells us to "take up our cross and follow." Whether atop the church steeple or on the highest mountain, it is *The Glad Way.* Heaven and God are at the end of that way. It is today aglow with the light of forgiving grace. *It challenges the weak to walk by faith and offers pardon to those who fall at its foot.* It is where Jesus prayed, "Father, forgive them; for they know not what they do." *It is The Glad Way.*

varsity eligibility. Jack Higgins is a sophomore, Danny Elliston is a junior, Bill Callaway is a junior. Sure sounds good for the future.

Those that aren't eligible for this year will play on the "B" team. The Whiteface "B" team may be better than the "A" team. If it is, that will make the "A" team considerably better from scrimmaging the "B" team.

Hereford ought to enter its "B" team instead of the varsity in the tournaments.

ahead of the Shamrock Irishmen.

Hereford is presently riding in third place, one-half game behind Dumas, but the Whitefaces may gain a chunk of second in the final district standings by defeating Dalhart.

Phillips has already clinched the

district crown after clobbering Shamrock, 60-0, last week. Canyon saw their hopes for a tie for second go with the wind when they lost to Dalhart, while Dumas' Demons seemed fully recovered from their early season slump by tying Phillips and defeating Perryton.

Hereford could also see their hopes for a tie for second go with the wind if Dalhart's Wolves pull another upset out of their bag of tricks.

ed previously. Dalhart surprised everybody last week by upsetting Canyon, 13-9, and they had earlier deadlocked the Perryton Rangers, 0-0. Hereford has lost only a pair of games, while the Wolves have lost five. Hereford will be a 14-point favorite in this contest.

The Perryton Rangers clash with the hapless Shamrock Irishmen at Perryton. Perryton last week suffered only their second loss of the season but they have three ties to mar their record. Shamrock had won but two games all year, over McLean and Dalhart and will be 20 point underdogs.

Phillips will be seeking its ninth win of the season when they take on Canyon. They have only a tie with Dumas to mar a perfect record. Hereford will be going after its eighth win and Perryton its fifth.

#### "Shotgun"

Yvonne De Carlo put aside satins and jewels for her latest starring role in Allied Artists' "Shotgun" in which she heads the cast with Sterling Hayden and Zachary Scott. As a fiery, untamed half-breed girl of the western sierras she wore rough boots, tight-fitting jeans and open-necked blouses, suitable for the Arizona mesa land, where the Technicolor production was filmed. It is showing Friday and Saturday at the Star.

In "Shotgun," Hayden is a deputy United States marshal, out to get a shotgun killer who had blasted to death, from ambush, Hayden's superior officer. On the trail he picks up the half-breed girl, fleeing alone after her escape from roving Apache Indians. Although circumstances force them together, she is wild and defiant, until a chance meeting with a renegade, Scott, forces her to turn to Hayden for personal safety.

"The Long Gray Line"

"The Long Gray Line," Columbia Pictures' heartwarming story of an Army sergeant who trained generations of cadets at West Point is based upon Sergeant Marty Maher's autobiography. "Bringing Up The Brass," the story of his experiences as athletic trainer to generations of cadets. Tyrone Power stars in the Maher role and Maureen O'Hara appears as his bride in the Cinemascope, color by Technicolor drama showing on Sunday and Monday at the Star.

### Students Are Star Puppeteers

DETROIT — In a puppet show, the most important people are behind the scenes.

Take Mumford High's marionette show, "The Thirteen Clocks." If the evil duke, the handsome prince, the beautiful princess, the girl who weeps real jewels and nine other characters seem real to the audience, that's because the youngsters backstage make them that way.

Mumford's Art and Broadcasting Clubs made a complete package of the show. They adapted the script from a James Thurber short story, designed the sets, made the puppets, taped the sound and manipulated the characters under the lights.

Idea for the show originated with Mel Birnkranz, a student who read "The Thirteen Clocks" and got the idea for making the Duke. The Duke, the most ambitious of the puppets, is the only one who can open his mouth and raise his eyebrows. Mel made him "off and on for over a year in between home-work sessions."

Thurber gave his permission for the story's adaption and the show got underway.

Art students made the puppets, or strictly speaking, marionettes (string puppets.) Ordinary materials were used, like steel wool for gray hair; a black-dyed sponge for a beard. An indestructible, flexible material was molded into faces.

Bodies were muslin and wood joined with leather thongs. The girls in the Art Club made the costumes and manipulated the puppets. Wires attached to the hands, feet and head are manipulated by central controls.

Finding the right voices to match the puppets was another problem. Broadcasting Club students aud-

tioned. The chosen actors ran through the play a couple of times and then got acquainted with the puppets to have a better idea of the characters. Finally the sound was put on tape.

Puppet manipulators rehearsed often to get the puppets and voices to move together. There are other things to watch too.

"You have to be careful to keep your marionette's feet on the floor," pointed out one girl.

"You have to know your character, realize what he is like and try to make your puppet look and act like a human," says another.

The finished product received a supreme compliment: request for a repeat performance.
