County Agent Warns Against Chiefkan Wheat

Urging wheat growers of this area to join in a nation-wide movement for growing wheat better suited to milling purposes, A. R. Bateman, county agent, this week cited a recent meeting at College Station and predicted that continued growth of Chiefkan wheat will result in a penalty on producers of this area.

"Not only are bakers protesting the presence of Chiefkan wheat, but several large grocery organizations are making rigid tests and indicate that they do not prefer flour milled from this variety. It is possible that producers may lose thousands of dollars if this wheat continues to be seeded here."

Vote Saturday—For Democracy's Sake

(An Editorial)

With the United States congress passing a peace-time compulsory military service bill for the first time in the nation's history, with the grim possibility of a savage economic warfare against America if Germany smashes Britain, with Japan deliberately provoking U. S. Marines in China, the United States of America is facing crises which, however met, will effect every man, woman and child in Hereford and Deaf Smith county as well as the rest of the nation.

Ordinarily, a lot of voters in this county feel that it makes no difference to them who wins in the election. One candidate is as good as another. They're all alike. Who cares? But now if ever, is a time when indifference could kill a democracy.

Saturday is a time when every voter in every precinct in this county should go to the polls and vote with extreme deliberation. The men we put in office this year may be our leaders in a death struggle between the democracy we love and the totalitarianism which would destroy it.

When you cast your vote Saturday, let it be a vote backed up by sincere concern for the welfare of your country—not a vote of indifference.

Win With Wells Caravan Visits Here Tuesday

Joining Deck Wells in his dawn to midnight campaign, more than 250 Collingsworth and Childress county men and women observed the official "Deck Wells for Congress" day, Tuesday, July 23, in a 500 mile trip, covering more than 40 towns of the southern and central Panhandle, and forming a part of the vast number of the 18th district citizens who during the closing week of the campaign are working to send Deck Wells to Congress.

A part of this "Win with Wells" caravan, which split in two sections shortly after leaving Wellington, passed through Hereford stopping briefly to distribute literature and speak in the interest of Deck Wells. In its entirety, this formed the largest single caravan to go out in the history of one individual in the history of Wellington.

Farmers, ranchers, merchants, housewives, and office girls, formed the adult portion of the "Win with Wells Caravan," but with them were approximately 100 lively boys and girls, representing the Future Farmers, Future Homemakers, 4-H Club members and the Wellington High School Band.

"No one could doubt now that the strength of my campaign lies in my friends," Deck Wells said when told of the large number who dropped their day's work to go out in his interest.

With four new divorce suits added to the docket in the last two weeks, total number of civil cases filed since the last term of court has been raised to 20 for the July term of District Court which convenes Monday, July 29. Six divorce cases had been previously filed. Thirteen cases on the docket have been continued from previous terms of court, District Clerk Robert L. Thompson said.

District Judge James W. Witherspoon will preside. District Attorney Milton Tatum will represent the State in prosecuting the light-docket of criminal cases.

The Grand Jury will convene the first of the week and jury lists have been called for the second and third weeks of court. Names of men on the Grand Jury list and for the other two weeks have been published previously.

"Just to show our appreciation we are giving free a sack of popcorn to each person attending the show tonight."

A new men's lounge and smoking room has been built in space once occupied by the Star Barber Shop. Walls have been newly painted, a lavatory and a toilet installed. Benches have been provided.

The ladies lounge has also been completely redecorated with walls and mouldings repainted. Ceilings are in apricot and mouldings in blue.

Walls of the interior lobby have been painted light cream with mouldings in deep blue. Frames have also been repainted. The lobby has been brightened by installation of three fluorescent lighting fixtures. New doors of modernistic design have been installed.

Covered in cheery red-blocked Tyec Board in the ticket office, also the ticket box, while the entire lobby and marquee have had a thorough remodeling and repainting job done.

Politics Quiet But Large Vote Expected To Be Cast

With an average absentee ballot pointing the way the wind is blowing, indications are that interest in politics here will remain comparatively quiet this week.

However, candidates themselves are most of them in a hard last week drive to place their candidacies before all the voters.

In Hereford the greatest interest is probably in the commissioner's races in precincts

Newspaper Polls Give Wells Lead Over Panhandle

Newspaper polls held in widely separated sections of the Panhandle indicated Deskins Wells would lead the ticket in the eighteenth district congressional race as he placed first in three polls and second in a fourth.

Wells tabulated the most votes in polls conducted by the Shamrock Texan, the Hereford Brand, and the Dalhart Texan. He was second in the poll held by the Amarillo Times.

In the poll of the Shamrock Texan, Albert Cooper, editor of the paper, received votes from 16 Panhandle mayors, 18 newspaper men and 8 others. The Wellington candidate was given undisputed claim of six counties by 8 persons; 9 persons placed him first in 7 counties; 9 persons placed him second in 7 counties; 5 persons placed him third in three counties. Gene Worley of Shamrock was second in the Shamrock Texan tabulation.

In the northern part of the Panhandle the Dalhart poll gave a vast lead of 39 per cent of 90 votes cast. E. T. Miller of Amarillo was second with 23 per cent.

Although only preliminary returns from the Hereford Brand polls are available, Editor Jimmie Gillentine indicated Wells was leading his section of the district with Miller second.

Wells placed 2nd in the Amarillo Times poll with more than 15 per cent of the total votes being cast in his favor. In the first announcement the Times votes gave him 26 per cent of the ballots cast outside of the Amarillo district, a much larger percentage than that given to any other candidate. Miller led the entire poll, but he was second outside of Amarillo with 16 per cent of the votes.

Wells supporters here were enthusiastic over the results of the polls because they cover such a wide area. The Dalhart Texan circulated widely over DeWitt and Hartley counties in the northwest section of the Panhandle. The Hereford Brand covers a considerable portion of the southern and south western area of the district.

The other two polls were taken over the entire district, although the largest circulation of the Times is in the central part of the Congressional district. The Shamrock Texan covers sections in the eastern side of the district.

"The results of these polls indicate the unceasing work my friends have been doing in my behalf," Wells commented. "The loyalty of my home county has spread over the Panhandle and this now constitutes one of the most significant aspects of my campaign here in its closing days."

Lewis Goodrich Making Final Trip Over Area

In a final trip over most of the district this week, Lewis M. Goodrich, Wheeler county candidate for Congress, is seeing more people personally and this busy campaign has caused him to be called "the fastest gaining man in the race."

"There is nothing sensational about Lewis Goodrich's campaign, but folks know a hard-working, sincere man when they

see him and they will put him in the run-off Saturday," commented a friend this week.

In his talks in towns over the district and over the radio, Goodrich has stressed soil conservation, planned farming, adjustment of problems of landlord and tenant by making it possible for tenants to buy farms, payment of pledges made to old folks, a fair deal for both labor and business, adjustment of freight rates, and a powerful national defense to command the respect of aggressor nations and preserve our great Democracy.

PACKARD MILLING CO. ELEVATORS

HEREFORD

BULL

By Jimmie Gillentine

It's an old, old gag about the postman who takes a walk on his day off from the office, but it does actually happen, Mr. and Mrs. E. W. Young of Tyler arrived last Friday to visit with Mrs. Young's brother, E. W. Young of this city. It so happens that Mr. W. E. Young is a city delivery carrier in Tyler and of course E. W. is a city carrier in Hereford. You guessed it, the W. E. Young of Tyler walked around with E. W. Young to deliver the Hereford mail. Furthermore, E. W.

says he visited Tyler awhile back and made the city route with W. E. in Tyler. E. W. Young also says that he regularly takes a walk on Sundays. Says it makes him feel good.

While we are on the subject of postmen let's get this first carrier business straightened out once and for all.

Last week I printed a correction in this column which I thought would straighten things out. However, I only did the job halfway. Not knowing the initials of the Mr. Rayzor, who was Hereford's first R. F. D. carrier, I merely listed him as Mr. Rayzor. Several persons, including Mrs. W. H. Rayzor, have been kind enough to supply additional information. The honor of being first carrier goes to George Rayzor, who is now assistant engineer at North Texas State Teacher's College, Denton, Texas. He was a brother of the late W. H. Rayzor, who many persons will

recall as a Hereford Real Estate dealer. George is also the uncle of Mrs. Chas. Newell of this city. If any of his old friends would like to get in touch with him they merely have to write him in care of N. T. S. T. C., Denton, Texas.

Thanks, Folks. This is an historical point which certainly needed correcting. I am going to personally write Mr. George Rayzor, asking that he write an account of some of his experiences as a rural carrier. I am sure that they will be interesting and a lot of us will be looking forward to this story.

The Rev. W. E. Barnes, pastor of the First Baptist Church, is suffering undue embarrassment. He reported to his congregation last Sunday that he was stopped twice Saturday as a case of mistaken identity. The first fellow wanted to pay a little bill he owed at the Brand office, and the second one was interested in a subscription, or something. It sure looks like one of us is going to have to go on a diet or else grow some hair. I suspect the same thing is happening to me. Last week a fellow (who asked that his name be withheld) stopped me on the street, took me down to the cold storage locker house and gave me a chicken.

Knowing from personal experience how well preachers like chicken, I am now wondering if the fellow didn't think that I was Rev. Barnes. Anyway, I took the chicken and—honest to goodness—I had already eaten it before the thought even occurred that it might have been intended for Rev. Barnes.

Besides, this was an unusual chicken. It was a fryer, and it was more than 16 months old. It was killed at the frying age and placed in a locker vault in Oklahoma, later being transported to Hereford and again stored in a cold storage locker. Somehow or other, I was smart enough to mention to my wife that it had been in cold storage more than a year—and she refused to eat a bite. Well, I ate every bite of it and I never tasted better chicken. In fact it

was the first time since I got married that I have been able to eat the breast and pulley-bone, due to the fact that my wife prefers these pieces and will eat no other. Speaking from experience, I should say that every married man might well secure a large bunch of fryers and rent a cold storage locker—and above all, never take them out in less than 12 months time. Having consumed the chicken en toto, I feel that I am a living testimony of the fact that they can be preserved for a period of 12 months or longer.

For a few days I held a feeling of warm companionship and sympathy for those white mice upon which scientists experiment from time to time, but having eaten the chicken last Thursday I hold nothing but gratitude for the donor.

Lots and lots of people last Tuesday were here when the "Wells for Congress" caravan came to town. Those people down in Collingsworth County are leaving their businesses and are personally paying for these trips to help put Deck into Congress. I once said if everyone knew Deck and recognized his ability like his home folks, Deck would sweep into office on the first ballot. It sure looks like he is going to lead the ticket, anyway. It's like W. A. Hunter says, "Show me a man who has lived in Collingsworth County or who has known Deck for a long while, and I'll show you a man who is working hard for Deck Wells." Anyway, it looks mighty good for him. If anyone wants a Wells sticker they can get it at the office here.

In fairness to other people who have favorite candidates in this race, a few items follow. As far as the paper is concerned, we have tried to be fair with all of the candidates because most of them have announced and have run ads with us.

Since this is a strictly local column, I should like to recognize the efforts of local men who are boosting congressional candidates: Judge W. H. Russell is for Henry Bishop in this race for Congress. The Russells and Bishops have been friends for a long time.

Wallace Cox, deputy sheriff, seems more or less to be sponsoring Gene Worley in this community. Wallace says he just likes Worley's looks and his record. Bury Elliston has his car plastered with E. T. Miller stickers, and Bury is pretty strong for Dusty.

W. A. Knox is boosting R. V. Converse of Spearman, and has been passing out literature for Mr. Converse, who apparently favors the Townsend plan.

Carl Hill accompanied Lewis Fields to Friona last week, and apparently is boosting Fields in the race.

Tom Ellzey also has some scattered workers around, including J. W. Robinson and Charles Skelton who are now attending Ellzey's camp for boys near Perryton.

If you want literature or first hand information on any of these candidates, I am sure the above mentioned will be glad to oblige you. I don't know of any other local enthusiasts or I would be glad to give them a boost. If I missed anyone, let me know. We'll give them a plug in the run-off.

Apologies to H. D. Culpeper. Unopposed in his race for re-election as commissioner of Precinct 3, he published an ad last week thanking friends for their consideration. In the ad we listed him as of Precinct 2. We are running the ad this week, without charge to Mr. Culpeper. Incidentally, he has not even been in to fuss about the mistake.

Mrs. Harry Fritz, of St. Louis has been visiting in Hereford for the past week or so and saw many friends and former neighbors. Mrs. Fritz says she is a regular and rabid reader of the Bull Column. She is also collecting stamps for her daughter, who many of you will remember as Nina Lee. The way Mrs. Fritz bragged on the Bull Column she could have had my very last Stamp. I wish she would move back to Hereford. I'd like to have one booster in this community besides my wife.

Three runs in the sixth won for the Plowboys after holding Summerfield scoreless for the remainder of the game.

V. J. Fuller started the sixth inning rally with a single to left field. Barnett then stepped up to bring in two runs with a homer. Bumpy Daniel put the game on ice with a long homer after there were two outs.

The Fireboys held Dawn scoreless until the fifth inning when Dawn scored twice from one hit and two errors. Dawn could not score in the remaining innings.

Russell led the Firemen with a single, triple and a home run in three trips to the plate. Robinson had three singles, also for the Firemen.

The Lions had scored in the first and fourth up to their big sixth inning.

Schroeter led off in the sixth with a single, went to third on Emmons' hit with Emmons pulling up at second. A moment later Best slammed out a homer for three runs giving the Lions the lead at 6 to 4. Two singles and a stolen base gave the Lions their extra run in the seventh.

The other five runs for the Plowboys came in the first inning. Lewis P. Fields Began Career In Grocery Store

When Lewis P. Fields, candidate for congress, came to Amarillo twenty years ago, a job of any kind was his immediate quest. The son of Dr. and Mrs. C. L. Fields, long time residents of Groom, he had been reared on farms and ranches in Comhill, Donley and Carson counties, attended the public schools and old Goodnight College. He was fresh from active fighting service with the A. E. F. in France.

Fields found a job in the warehouse of Nobles Bros. Wholesale Grocery Co. He graduated from groceries into General Insurance with the Orday-Saunders Co., with which he has been associated for 16 years.

Years ago, his abilities and enthusiasm won him an intimate contact with the Hon. Marvin Jones, Grover Hill and other agricultural leaders. He has worked with both the planning and carrying out of the agricultural and range programs and is thoroughly familiar with them as well as with business problems.

It is the opinion of those who know him well, that Fields' personal life, his wide knowledge of business and agricultural problems, his intense interest in social betterment, plus his proven practicability, make him a candidate who will truly represent the interests of the citizenry of this district.

Eugene Worley Dubbed Happiest Vote-Getter

On an initial investment of \$25, Eugene Worley of Shamrock, who has been dubbed the "happiest" vote-getter in the present congressional scramble, launched a public career six years ago last week brought him press mention as a probable runoff candidate for Marvin Jones' seat in Congress.

This young Irishman, now a seasoned law-maker with six years of state legislative experience behind him, had to shoot the works of his youthful enthusiasm to convince a dubious legislative district that he was qualified to represent them in the State Legislature. But the young man's grin made a spontaneous hit with voters and three months hence he was victor at the polls over John Puryear, a Collingsworth county farmer, seeking re-election to a second term.

It was a wisecracker in one of his first street-corner audiences who caused Worley to retort, "Why some day I'll take the governor of Texas riding in this car!" And three months later, Governor Jimmie Allred, United States Senator Tom Connally and the senator's son, Ben, took a ride in Gene's flivver and liked it. The Shamrock man had made good on his first political promise.

Now 31 years old, Worley has had the distinction of being the most experienced law-maker of the 12 candidates in the present race for Congress. Elected state representative in 1938 without opposition, Worley had the backing of a large number of colleagues for the speakership should he decide to seek a fourth term which he was contemplating when Congressman Jones accepted a federal judgeship, throwing his Washington job wide open. Worley served under Governors Allred and O'Daniel and was signally honored by each when named to represent the chief executives at important Chicago, Washington and other out-of-state conferences.

A strong advocate of "any reasonable tax measure" to finance old age pensions, Worley suffered one of the keenest disappointments of his career when he was unable to bring about agreement between warring factions at the last session of the Texas Legislature. The present governor of Texas warmly lauded his efforts at appeasement in the bitter fight for social security legislation.

Worley says the greatest compliment that has been paid his legislative career is that an aged farmer said of him, "One thing I can say about Gene is that he went to the late Legislature six years ago with the seat of his pants out and they're still out."

The Shamrock man has waged his present aggressive congressional campaign almost on his own hook. He is one of few who have ever sought such high office without the use of paid advertising, radio talks, printed literature or paid workers.

Max Boyer's Friends Join In Aiding Him

W. J. Miller, campaign manager for Max Boyer, candidate for State Senator, stated Monday that the entire efforts of Max Boyer's friends would be directed towards an intensive campaign to elect Max Boyer in the first primary, July 27. Miller met with county representatives from some 15 counties during the day, and stated that reports coming in were real encouraging. "Twenty-five friends of Max Boyer have dedicated the entire week to his election campaign," Miller stated. "These friends will give their time and expenses in the closing up campaign, working to promote Max Boyer to the State Senate."

Boyer has only two speaking dates scheduled for this week. He will speak at Panhandle on Wednesday evening, July 24th, and at Borger Thursday evening July 25th. Both speaking dates are for 8 p. m. Boyer attended the All-Panhandle Political Rally in Amarillo Tuesday.

"It is noticeable that Max Boyer has not varied in his appeal for votes from the time he announced to the last days of the campaign. Today and tomorrow you will hear that Max Boyer is asking the vote of his people on merit. He has not made a single utopian promise, but has said in substance, the record is written in black and white and I invite you to study my action in the past, and judge for yourself from proven action what you can expect from me in the future."

Lockers Studied By Frio Club

The Frio Home Demonstration Club met Thursday afternoon, July 18, at the home of Mrs. T. L. Sparkman Sr.

A new phase of recreation was voted upon. Copies of some favorite songs are being made to use at club meetings and we will have a sing-song at the beginning of each meeting to put a little more pep into our meetings.

Mrs. Hawks and Mrs. Springer both gave some very interesting reports on frozen foods kept in cold storage lockers. We learned that vegetables can be scalded and packed in an air tight container and kept an indefinite time and they are still like fresh vegetables just out of the garden when cooked. There are three ways of thawing any kind of frozen foods, (1) leave it in the room to thaw at room temperature, (2) put in an ice box or refrigerator and leave until it thaws or (3) it may be cooked before it thaws. This takes a little longer than to cook it after thawing as you must give it time to thaw before it starts cooking.

Another very interesting point that was discussed by Mrs. Springer was the exhibit of beautiful cotton prints and cotton hose at College Station. The most fashionable women should not mind wearing the beautiful full-fashioned, mesh lace, cotton hose that are now being manufactured.

The roll call was answered with a good first-aid that could be used in the home or elsewhere.

Lovely refreshments were served to Mesdames Elsie Jones and Patsy Jo, Esther Springer and Paula Sue, Kate Dixon, Henry Dobbs, Aldon Hawks, Cecil Gunter, Annie Springer, Ruby Sparkman, Jewell Cassels and Jimmie Ray, Georgia Andrews and children, T. L. Sparkman Sr., Hascal Robbins, Betty and Glenda, Mrs. Tom Sullivan and son, Charles, and Misses Alma Andrews, Mary Lois Springer, Marcia and Lyla Robbins and Gwyn-dolyn Springer.

Farmers Not At Home Slow Down Land Measuring

Farmers who are not at home when the crop measuring reports call not only delay measuring of their own land, but cause a delay in payments on their land, A. R. Bateman, county agent, has announced.

Many farmers are not meeting reporters at the time given, he said, and added that the land would not be measured unless the farmer or his authorized representative was present.

Farmers are urged to be at home at the time designated in cards sent by the county agent's office, so that measuring may be completed as soon as possible and money for Deaf Smith county's payments received as early as possible.

Farmers who know that they will not be home when reporters call should notify the county agent.

year protested against Chiefkan varieties and the protest is rapidly spreading into all channels of consumers, Mr. Bateman pointed out.

"It is also held that all varieties of beardless wheat, no matter what they are called, fall into the Chiefkan class," he said. "Recommended varieties are Turkey Red, Kan Red, and Tenmarque—although the latter variety this year shattered badly, due to weather and growing conditions."

"Wheat specialists feel that it is highly important to change to these better varieties," he continued. "It is also believed that yields will be equally good as those of beardless wheat if the same land is used and the same care is given the preferred varieties."

First Carload

association in any capacity are absolutely false and unfounded.

"We are more confident every day," Mr. Miller continued, "that this association represents one of the best assets ever given Hereford and without doubt our local Chamber of Commerce and Civic Clubs are missing an opportunity of promoting worthwhile civic welfare by not obtaining all the authentic facts which are available for the asking from the sources which are qualified to furnish same, and using these facts for further promoting Hereford, which can be so efficient when so applied without the influence of petty or selfish jealousy," Mr. Miller concluded.

While this was the first car to be shipped by rail, the equivalent of approximately 22 carloads have been moved from Hereford by trucks.

"Through the association selling it has been possible to control and maintain a market which will return our growers a price considerably in excess of existing prices being received in other potato producing sections, shipping potatoes at this time," Mr. Miller said.

In the week of July 18-24, 4,323 sacks of potatoes were received at the association's warehouse, as compared with 2929 sacks received from time harvest

started until July 18. A total of 7,252 sacks or 725,200 pounds of the 1940 harvest have already been processed.

According to Deb Turner, warehouseman, the crop hasn't been scratched yet. Few potato farmers are digging. Either most of the crop is not mature enough to dig, or early potatoes are being left in the ground to add tonnage.

While its capacity has yet to be taxed, the potato association warehouse is still one of the busiest places in town. Numerous workmen have been employed there and many more are working in the fields. Before the harvest is over, the potato industry in this section will have provided jobs for several hundred persons.

Those seeking work in the potato harvest are urged to register at the State Employment Service in the Cattlemen's Headquarters office next to Ike's Cafe. Farmers who expect to hire workers should list their requirements early at the employment office.

ren being of vital concern to her all her life long. She was a very quiet, retiring personality.

Mrs. Nance was born December 2, 1898 in Indiana, coming to Texas in 1891 and to Deaf Smith county in 1908.

Pallbearers were A. Petersen, Harry Seed, Ellis Coombes, F. H. Oberthier, F. M. Kester, and Bob Wilson.

Applications For Crop Insurance Are Urged Now

Federal Crop Insurance applications for insuring the 1941 crop are being taken now at the County ACA office, T. P. McCollister has announced. The wheat allotment acreage, guaranteed yield and premium rates for each wheat farm are immediately available.

The closing date for obtaining wheat insurance is August 31, Mr. McCollister stated. Applications must be made before that date and also before seeding of the crop.

Further information concerning the program can be obtained at the county agent's office.

Political Fates

(Continued from Page 1)

and E. A. Stocker are running for commissioner of Precinct 4 against the incumbent, Ernest T. Allred.

In only two more county offices are there more than one person running. Mrs. Bessie L. Smith, running for re-election as county treasurer, is opposed by Mrs. Velma Hodges; G. M. Suggs, Justice of the Peace is opposed by A. L. Thomas.

Another race which is creating considerable interest here is that for United States Congress, where 12 candidates are campaigning. Most of these are favorite sons, who are not expected to poll many votes outside their home territories. In this county some political observers feel that Deskins Wells of Wellington and Dusty Miller of Amarillo will lead the ticket. Wells is conceded the best chance to lead the primary ticket in the entire Panhandle, due partly to his popularity over the Panhandle, and partly to the fact that Amarillo's vote will be split between four candidates.

Candidates for State Senator come from three sections of the Panhandle and they are equal enough in strength that predictions would probably be guesswork. Max Boyer of Ochiltree county, Grady Hazelwood of Potter county and Curtis Douglass of Carson county are running.

The representative race finds Jick Little of Potter county, the incumbent, opposed by another Potter county man, W. H. (Bill) Brian.

Milton Tatum, appointed to fill out the term of James W. Witherspoon as district attorney, is asking the voters to continue him in that position. John B. Honts, who, like Tatum, is from Dallam county, and J. D. Thomas of Farmer county are also campaigning for this post.

Regardless of the quietness of the election, some 1700 persons paid poll taxes this year and the vote may be larger than usual.

Let's Cook Something

A Man's Salad—It's a little of this added to a little of that, you know the kind—and it's tart enough to be good as a starter, or thanks to the cheese it can serve as a main dish for a meal. It's goodness tastes just right with fried chicken.

While the old idea of loading the table with everything delectable has passed, still every house wife likes to feel that the right amount of vitamins are included in her meal planning. For jaded appetites that come with hot days try this vegetable salad, if only for it's difference. Mrs. Arlie Dean can take most any combination of ingredients and concoct "something special." She is responsible for this recipe.

A MAN'S SALAD

1 cup cooked macaroni
2 large tomatoes
1 cup diced cheese
2 hardboiled eggs
6 or 8 narrow strips of green pepper
½ cup chopped pecans
Break up the macaroni into small bits and boil until done in salted water. (There should be one cup after it is cooked). Drain the macaroni, cut the tomatoes in small cubes, chop the eggs in small pieces and combine all the ingredients. Salt and pepper to taste. Mix with mayonnaise dressing and chill. Serve in lettuce cups or on a bed of shredded lettuce. Paprika sprinkled over the top adds to its looks—and your health.

Home Makers' Class Meets

The Home Makers class met with Mrs. Joe Kendall on Thursday, July 11, for its monthly business meeting. Mrs. Joe Kendall, president, presided over the meeting and the group sang "Wonderful Words of Life" followed by a prayer given by Mrs. Ralph McCullough. Mrs. L. Culpepper read a portion of the sixth chapter of Solomon.

Roll call was answered by scriptures on wisdom. The president named Mesdames Massie, Green, and Vaughn as the nominating committee for the officers of another year.

Ways of creating interest and increasing the class attendance were discussed and it was decided to have an exchange of gifts at each meeting and the first Friday of every month designated as visiting day.

Dainty refreshments were served to the following: Mesdames L. Culpepper, Earl Lance, T. E. Majors, Ted Young, Jim Lipscomb, Ralph McCullough, Jeff Roberson, Wood Vaughn, Chas. Hussey and the hostess.

The next meeting will be held at the home of Mrs. Jeff Roberson on August 8.

Mr. and Mrs. H. T. Hornbuckle and Mrs. Dick Thompson and daughter of Clovis are visiting Mrs. W. R. Gillis. Mrs. Hornbuckle is a sister of Mrs. Gillis. They arrived Friday night.

XIT Quilt Contains Names of 116 XIT Men

Hand-Made Quilt To Be On Display At Penney's Saturday

An XIT Satin Soogan into which several hundred dollars worth of time, expense, money and labor have gone, will be on display at the J. C. Penney Store Saturday, July 27, election day. The quilt contains the names of 116 former employees of the famed XIT ranch, 105 in their own handwriting. Carrying with it all the romance, excitement and greatness that marked the XIT ranch, this hand-painted quilt is the product of Mrs. J. L. Ramsey.

The idea for the quilt originated two years ago as Mr. and Mrs. Ramsey were preparing to go to the Reunion of the XIT cowboys at Dalhart. Mrs. Ramsey thought of getting the names of the cowboys on paper blocks to make a quilt for her husband as a surprise but she found she couldn't do it secretly. So she went to work in earnest the second day of the reunion to secure all the names she could. During that time and since she has collected 105 blocks in their own handwriting.

The quilt is made in three colors which represent the colors of the ranch buildings, the range and the cattle. The eight divisions of the XIT are represented by eight red triangles arranged around a twelve-inch

white square. This white square contains the name of Ab Blocker who delivered the first load of cattle to the ranch and originated the XIT brand by marking it off with his boot heel in the dirt of the corral at Buffalo Springs 31 miles north of Dalhart in July 1885.

The names of the cowboys are painted on the green blocks, which represent the range. Among these names are those of Mac Huffman and Dick Pincham who helped brand this first herd of 22,000 head of cattle, leaving the pens only to eat and sleep until they were done. This was the first cow work on the XIT ranch.

The first row of green blocks around the white and red center blocks contains the names of the foremen or their wives. The quilt contains 116 names; one foreman's name, Ira Aten, who was once Castro County's sheriff and who lived at Hereford for a number of years, appears 12 times. There are eight states and three races of people represented.

When the quilt is completed it will contain 170 green blocks with the autographs painted in gold. Each one is different and many have some history of the XIT ranch written by the cowboys who worked there.

The XIT ranch was the land Texas gave in exchange for our capital building and was the biggest ranch in the world under fence.

Names which appear on the quilt include:

Aten, Ira, Abbott, G. T., Abbott, B. P., Akeson, G. L., Akeson, Nils M., Askew, W. A., Armstrong, J. W., Alford, C. B., Armstrong, John, Baughn, Harry, Bell, John F., Belcher, T. MODERNIZE YOUR MECHANIZED EQUIPMENT WITH CHEVROLET TRUCKS
 at today's low prices!
YOU KNOW THE LEADER IN TRUCK SALES MUST BE THE LEADER IN TRUCK VALUE.
 Truck buyers are careful buyers—they thoroughly analyze and compare all types of trucking equipment—they want to make certain that they'll get the make and type of truck best suited to their business requirements.
 It is a significant fact that more truck users choose Chevrolet than any other make of truck... because Chevrolet trucks could not have established their record of leadership in 1940 and maintained it for six out of the last eight years had it not been that Chevrolet trucks deliver more dollar-for-dollar value than any other make.
 All models and types of Chevrolet trucks may still be purchased at today's low price levels, so it would be wise to consider replacing some of your trucking equipment with new Chevrolets now.
TRUCK OWNERS WANT FACTS...CHEVROLET GIVES Certified Proof!
 On the longest test run ever conducted under the supervision of the American Automobile Association, a stock Chevrolet 1 1/2-ton truck turned in a marvelous performance and economy record. The facts of this test run are clearly outlined in an interesting booklet entitled "Says Who?" Kraut Making Demonstrated At Park Club House

Both lettuce and cabbage kraut were made at a demonstration in kraut making at the club house in the Hereford State Park on the afternoon of July 20 given by Miss Sadie Lee Oliver County Home Demonstration Agent assisted by Mrs. Ozora Clark Matthews, Farm Security Home Supervisor.

For generations people have enjoyed crisp, tart sauerkraut. More recently sauruben made from turnips and sauer lettuce have come into their own.

The tart flavor makes these foods palatable and appetizing. The lactic acid and fiber content aids digestion and regulates the removal of waste materials from the body. The normal action of the intestines is stimulated and growth of auto-intoxicating bacteria is prevented.

Kraut, because it is rich in vitamin C, is a preventative of scurvy.

The best temperature for curing is between 75 and 85 degrees F. and this will require from ten days to three weeks. Too low temperature retards fermentation, and too high temperature during the curing period may cause rosy brine and spoilage of the product.

Brining of cabbage and turnips is marked by an increased crispness, a greater degree of translucency, and a characteristic acid flavor. It should be fairly firm in texture, without being tough, and it must never be mushy. The flavor indicative of a properly fermented product is never bitter, sweet or rancid. Brine should show a salometer reading of not more than 20.

The perfectly cured product

A car wreck involving a truck driven by "Wig" Price with Odell Price and W. T. Price of Wildorado riding in the truck happened last Saturday east of Vega injuring the three occupants of the truck and breaking one of "Wig" Prices legs—cutting Odell's head and severely injuring Mr. Price. He has improved enough to be moved home from the hospital.

Mrs. Emma McNabb Mrs. Bain Wiseman and daughter,

is uniform in color without the appearance of any whitish or opaque portions. In color, the kraut should be light straw or golden, neither white nor dark yellow, and free from black and brown spots.

When fermentation is complete bubbles cease to rise to the top and the liquid settles. The kraut is then ready to store. It must be sealed.

WITH THE FREE MILE-DIAL

CAREFUL SHOPPER type tells you:

"I'm driving the car all day while my husband's at work, so I really buy most of the family gasoline out of my own budget. If I can get even 2 or 3 miles more to a gallon I want to know it. That's why I went to a Conoco station for my Mile-Dial—not just because it's free, but because it really lets you know your true mileage, exactly as a woman wants to really know about anything she pays for. I like buying tested things—the same as any up-to-date consumer—and this certified Mile-Dial is like giving us consumers our own easy way of testing Conoco Bronz-z-z for mileage.

"Anyway, it's almost like a game, dialing your correct mileage on the Mile-Dial—awfully clever. My husband says so, too. By the way, my driving is just as economical as his, the way it proves out on our Mile-Dial. Isn't that interesting? And we're keeping on dialing to make sure of our average in all different driving. Right now, after 61 gallons of Bronz-z-z in all, we're a good 200 miles ahead of what we used to expect from that much gasoline."

"DIDN'T CARE" type of driver says:

"I didn't much care what gasoline I bought as I went along. But this Mile-Dial being free, and really daring you to keep your own close tabs on Conoco Bronz-z-z gasoline, I went for it. And now I know why they've got the gimp to let the Mile-Dial tell all. For you can see by my Mile-Dial right on the dash that I've gone 633 miles on 37 gallons of Conoco Bronz-z-z.

"Now if you'll watch this smart Mile-Dial work—next to automatic—you'll see it giving the answer: . . . above 17 miles to the gallon of Bronz-z-z in this big eight, around town here. But I'm leaving for about a 700-mile trip—mostly open country. So don't be surprised if I even get better mileage. And don't say that's a brag, because you can't help believing the Mile-Dial. Besides settling the economy of Conoco Bronz-z-z it's sort of swell fun dialing your honest mileage. The Conoco boys must know what their gasoline's got, to give you a Mile-Dial free. I'll bet you would like one yourself and they're free as air, around a Conoco station. You ought to go quick and get yours."

SEEDS of ADVICE

from
The Garden Club

The material for the following garden information was prepared by Miss Sadie Lee Oliver, member of the Hereford Garden Club.

July and August, months when most of Texas receives scant rainfall, confront thousands of gardeners with the problem of supplying sufficient moisture for plants. Annuals and perennials in order to produce flowers must have an ample supply of water during this period, and shrubs and trees set out during the year which have not yet established good root systems often need assistance in order to survive the driest part of the year.

To gardeners beset with these problems, we offer these suggestions:

Moisture for summer growth of plants should be retained by frequent cultivation or by supplying a mulch of rotted straw

or leaves. If irrigation is used it should be supplied liberally and slowly about once in 10 days. Then it should be conserved by cultivation.

Removal of competing plants will leave moisture for desirable plants.

Supplying semi-shade for protection of cuttings or other young plants will prove valuable.

A practice common among many flower growers of sprinkling the top of the ground every morning is particularly bad. Light sprinkling causes roots to seek moisture near the surface where they are easily killed and are likely to be injured by winter cold.

The world's largest dinosaur track, a four and one-half foot imprint near Glen Rose, is being recovered.

County Schools Buy Busses To Use Next Year

Six school busses have been purchased recently by schools in the county. A. J. Schroeter, ex-officio county superintendent, has announced. The Ford district has bought four busses: One for Daniel, one for Sims and two for Ford.

Fairview school has consolidated with Daniel and there will be no school at Fairview next year. High School students at Sims will be taken to Adrian next year.

Walcott and Bippus are buying two busses. One will be used to take all Bippus pupils to Bellview, N. M., and one will be used by Walcott in her own district for transporting pupils to school.

Talk About A Skunk Blitzkrieg... Here's One That Really Blitzed

Nick Koelzer is the authority for this story of a rampaging skunk which evidently pulled its own version of lightning war at the home of Nick's uncle, Carl Luke of Dawn.

On Sunday night of July 7 this skunk killed 18 pullets leaving them laying around the chicken house. But what really climaxed the affair was discovery of 10 more pullets which the skunk had killed and buried.

But Mr. Luke pulled a blitzkrieg of his own the following night and set a trap for the striped marauder. The skunk was caught and promptly "liquidated."
