Two men — one an escaped dope addict — have been jailed here on charges of beating and robbing 79-year-old Ernest (Fatty) Brown at his isolated trailer house on Tierra Blanca Creek Tuesday night.

Worth on March 29. He was serving a five-year term for dope addiction after a conviction in Los Angeles, Calif.

THE AGED BROWN was left tied up, with bailing wire by his assailants. He wriggled out of the bonds and walked to Pitman's Service Station at First and Main. The attendant called the city police department. Capt. Morris Brown and Patrolman Rex Cowart took Brown to Deaf Smith County Hospital after notifying the sheriff's office.

While Brown was being treated for several gashes on his head and a slashed hand, the alert to all cities and towns in the Panhandle area was broadcast. Brown told officers two men had taken a 410 gauge shotgun, three watches, two hats, two coats and two razors after they failed to get any money. He gave officers what Skelton termed "a very accurate" description of the two men.

In the meantime Skelton, McCarver, Deputy L. R. Cherryhomes, Brown, Cowart and Highway Patrolman Kenneth Maxwell searched the town for suspects, interrogating and releasing several men.

Brown, who lives by himself in the trailer house east of the Main St. bridge, told his story to Skelton and County Attorney Ed Line Wednesday morning. He identified Garcia and Galindo as his assailants. He said:

"I was home in bed about 8:30 or 9 o'clock Tuesday night when someone called my name from outside. I went to the door and stepped outside. A Mexican man was there and told me he had a message for me. He told me to hand over my purse. Another Mexican man drove up the road in a car and the man talking to me hollered 'Joe' at him several times and then struck a match. The one in the car drove to the east side of the house and walked to where we were standing. The one talking to me stripped off my clothes and tied my hands with bailing wire. He threatened to kill me if I tried to untie myself. He went into the house and got my axe and threatened to chop my head off if I tried to get away. The one from the car watched me and threatened to cut me with a knife if I moved.

THE OTHER ONE went into the house to look for my purse. Both of them threatened me and told me to tell them where my purse was. They hit me over the head and the one that talked to me first cut my stomach — it was just a scratch — because I wouldn't tell them where my purse was. After they searched the place, they took my shotgun and fired it. They took my hat, three watches.

Street Department Flooded With Work

CITY COMMISSIONERS Monday night were told the Street Department did not have enough manpower to carry out all the work built up by the heavy rainfall through the past few months, and were requested to purchase additional equipment for more efficient work.

Meeting with the commission was superintendent of streets Bill Byers. No official action was taken on any of Byers' requests because of the absence of commissioner Dr. R. R. Willis and city manager Dudley Bayne.

Also making a request before the commission was Dr. John H. Channer, chairman of Little League. Channer requested something be done about playing conditions of the practice field located in the north part of town.

After informing the City Dads that more than 300 youngsters reported for workout the first day, Monday, he said the field seen in rye was "dangerous for the kids because it was too rough."

Commissioners instructed Byers to go to work on the field the following morning and do whatever he found necessary to make the ground into playable condition.

The park is the only location in town large enough for Little League teams to practice. It contains eight diamonds.

Byers listed numerous projects his department was scheduled to work on immediately, and said he had neither enough men, hours nor proper equipment.

ment to complete them.
"No one seems to want a temporary job," he stated. "It's hard to find anyone who will take a job for only a few months."

Byers said where there were several jobs needed taken care of at the airport, on streets and alleys, at the sewer, patching of pavement, and weed control in parks.

Three projects face the city at the airport, Byers told commissioners. The main job was to remove six inches of dirt around the hangers and fill in with caliche, which would take "three weeks of constant work."
Others were putting up a fence to keep livestock off runways and rye planted over the section of land, and mowing the growing vegetation planted last winter to stop blowing dust.

He said the mowing would be a full summer's job for one man, and possibly two. "A man would have to work from sunup to sundown through the summer to keep the rye mowed, and I don't know even then if he could do it."

One local man offered to mow the section for \$5 an acre, which would cost approximately \$2,000 each time the land was cut, and that would be at least once a month, according to Byers.

Commissioners said they would probably let the rye grow to maturity and plant grass to take over next year, saving mowing expense.

They also said they would contract someone to do the dirt work and putting up of the fence, relieving the street department of that part of the work. No one had been employed by noon Wednesday for the work.

Byers told commissioners repairing alleys and dirt streets after all the rain the city had received this year would take him "a good three months to get them back in shape."

He said the city sewer needed cleaning badly and cackle burs removed immediately.
"We haven't been able to do any patching on the streets, or any painting either, in about a year, and that's got to be done right away, too," Byers continued.

Commissioners told Byers to start killing out the dandelion "crop" in Dameron Park as soon as possible, as they had received numerous complaints from city residents.

OUR CORNER

A psychiatrist recently received a call from a prominent horse-racing enthusiast.

"Doctor," said the worried man, "I'm afraid my wife's snapped her cap. She thinks she's a thoroughbred! She snorts and whinnies, she sleeps in a standing position, she ate up half the front lawn!"

"There, now," soothed the psychiatrist, "It is probably just a reaction to your way of life. Suppose you bring her to see me this afternoon!"

"Sure thing, doctor," said the man, apparently vastly relieved. "I'll trot her over about four."

A psychiatrist's job is no bed of roses—it's a couch of neuroses.

Little Leaguers Live It Up in Tryouts

Pitching prospects line up, waiting their turn to have a fling.

Players Seek Berth on One Of Four Teams

TRYOUTS for Little League teams began Monday at City Park at 14th and Ave. 1. More than 100 youngsters between 8 and 12 years of age turned out in an attempt to make the roster on either a major or minor league team. As these pictures indicate, it was quite a busy afternoon for players, managers and coaches. The tryouts will last through this week and player auction, wherein managers select team members, will be held May 2.

OPENING night for the season is May 12. The season includes 36 games with each team playing 18 in the split season. The four teams — Cardinals, Yankees, Dodgers and Giants — are in their third year of Little League competition. The Yanks and Cards open the season on Monday, May 12 and the Giants and Dodgers meet the following night.

Poling out a long double, at least if this were a game.

Pulling in an easy one.

Farmers Protest Bracero Ruling

By VERN SANFORD
Texas Press Association

Unemployment or no employment, most people this side of the Rio Grande aren't pulling their backs to pull on 50 cents an hour.

men for organized labor demanded a ban on importation because of climbing unemployment. But farmers say that aircraft mechanics, no matter how numerous, are no help in the crops in. According to farmers, abundant rainfall promise of the best harvests — if they can get field

YOUNG MODERNS

Old Hawaiian Style Adopted By Teen Agers

By VIVIAN BROWN
AP Newsfeatures Writer

A fashion that's been going strong for 100 years in Hawaii is going to the wardrobes of today's teen-agers. It's the muumuu, a comfortable loosely built gown, free of zippers, buttons and snaps. Just pull it over your head and swimsuit, wear it lounging around the house, wear it at your next

record party. For summer you'll be right in style if you make your muumuu of some of the delightful floral prints in sun-kissed or rose arbor hues. Make it of any lightweight fabric, suitable to the conditions in which it will live. Make it of silk for summer evening parties, giving the chemise a run for its success. Make it of cotton for the beach or lounging. How to make it? It's the one easy sewing project you could embark on, say the sewing center strategists. Use a commercial pattern, if you like. Or, if you are an old hand with the needle, try your hand at it without a pattern. Start by measuring from shoulder to bottom of hem, adding eight inches for a double hem. Multiply this measurement by three (one

length for the front of the garment and two lengths for the back.) Add 1/4 yards for sleeves. One-half yard of contrasting fabric will be needed for yoke and cuffs. Tall girls might like the classic, puff sleeve, with an elastic strip inside the cuff-top to permit sleeve to be worn three-quarters or above elbow length, admitting a maximum of air circulation. Short girls may prefer to omit the sleeve entirely. Cut down the center of the front fabric length on the straight of the goods. Front side seams are tapered outward from armhole to hem. The two lengths for the back are likewise tapered. The major segments of the muumuu double resemble four pie-shaped pieces, with an off-size bite taken out at the yoke line, and with one edge of each you with "Aloha", in recognition

on the straight of the material. The gathering of the body of the muumuu at the yoke line is easily done by setting the sewing machine for a long stitch which is easily gathered up. Arrange front fullness to fall freely over bust. Back gathers are distributed across center back. Let your imagination run riot if you like when it comes to decorative stitches on the yoke. Try a bold domino pattern or satin stitch a graceful vine and leaves. Cut a fabric motif and applique to the yoke. If you do the decorative stitching at the yoke, line your muumuu yoke with pella. It's an easy project whether you are neophyte with pattern or girl wonder at the machine. And don't be surprised if your friends greet you with "Aloha", in recognition

Twin Main Event Slated Saturday

A double main event is scheduled in the Bull Barn Saturday night with Cyclone Anaya meeting Bob Geigel and Dory Funk and Don Evans pairing up for the finale. First match begins at 8:30 p.m. Admission is \$1.50 for ringside, \$1 for general admission and 50 cents for kids. About one-tenth of the land area of Boston is reclaimed swampland.

4-H Demonstrations Are Tasty and Educational

By ARGENT DRAPER

Mrs. Cecil Hart says she was startled when Linda came home after attending one 4-H meeting and made a butterscotch pie. Linda has joined the Willing Workers 4-H. Mrs. Earl Plank is the leader.

Never saw so many cute girls and pretty aprons as well as good demonstrations Saturday.

Catherine Smith and Linda Stephan of the Doris Mahaffey Club gave a demonstration on making waffles. They gave us this recipe:

Waffles

2 cups flour
1/2 t. salt
1 t. soda
2 t. baking powder
2 eggs
1 1/2 c. buttermilk
1/3 c. salad oil or bacon fat or sausage fat.

Sift dry ingredients.
Mix lightly — Pour 1/4 c. onto hot Waffle iron.

They recommended the use of the bacon or sausage fat which is an economy measure. You know fat is one of the highest items in a family's diet. Also, wear hair net and apron for cleanliness. Catherine said, "Don't leave the waffle iron open longer than necessary as the iron will cool and that's one reason waffles stick." They made gingerbread waffles, chocolate waffles and cornbread waffles, along with the plain waffles.

As representatives from Caprock 4-H, Vicki Burns and Doris June Horton gave an electric demonstration. They gave six safety rules, two were: Never run cords under rugs and never leave electric appliances connected when there's an electric storm, unless the appliances have safety devices on them.

Linda Tooley and Sharon Hoffman gave quite a Demonstration on Light Bulbs — Sizes and Uses. They told us there are 200 types of incandescent bulbs. Linda is reigning 4-H Queen, you know. Sharon told us that the pastel bulbs give "Mood Lighting." These girls brothers Randy Tooley and Tim Hoffman also gave an electric demonstration on replacing a wall switch. In conclusion they flipped the switch and the light came on

showing us that their methods worked. I missed Marlene Tooley. She's one of our biggest 4-H supporters and she's always so proud of Linda and Randy and their 4-H work. Marlene, your big sister and brother both did such good jobs.

Another electric demonstration was rewriting a lamp by Myrna Zaring. She knew the proper names of all parts of the lamp and didn't call a single part — out fit, do-dad, or thing-a-ma-jig. Quite encouraging.

Terry Townsend is following in the footsteps of her sisters, Patsy and Sandra. Terry and Diana Remling from the Doris Mahaffey Club gave a demonstration on making chocolate milk.

Mrs. Harold Head, former 4-H'er, helped her daughter, Janice, plan a demonstration on carrots and apple salad.

Have heard from some of the judges and they say they are having quite a time in judging the nominees for Home Demonstration Woman of the Year. There are eight nominees. They are Mesdames W. H. Goetsch, H. L. Hershey, J. E. Dyer, Grady Parsons, George Turrentine, R. T. Stewart, J. F. Fortenberry, and E. C. Hewitt Jr. I always feel bad that only one can be awarded the contest and certificate but they have already been awarded the highest honor there is and that's being chosen by their club members.

If you are planning to be in the dress revue on the 29th get the description of your dress to the office soon.

I'm planning on going to the RE A meeting but will leave early and attend Westway Club.

May 5-10 Said Best Time for Cotton Planting

LUBBOCK — Optimum cotton planting dates on the Texas High Plains are May 5 — 20, Don L. Jones, former Superintendent of the Lubbock Experiment Station, has reminded Plains Cotton Growers, Inc. members.

"Later planting usually results in lower quality cotton and if planting must be done after June 1, select an early maturing variety," Jones advises.

As to prior planting, Jones explained that years of research work at the Experiment Station has shown that the best results for planting comes when the soil temperature averages 60 degrees for 10 days at an 8-inch depth from the top of the bed.

Daily radio and newspaper reports are now being broadcast and published which gives the average daily temperatures. This information is part of the Plains Cotton Growers, Inc. Educational Program to try and help High Plains Cotton farmers produce a higher quality cotton in 1951.

In other planting tips Jones urged farmers to use delinted, treated seed if possible, and warned them to check the seed germination percent and to alter planting rates accordingly.

A uniform stand of approximately four stalks per foot in 40-inch rows is recommended. Plant 20 to 30 pounds of seed per acre, adjusting the rate according to germination tests and the use of a seed press wheel and shallow furrows will help plant emergence to be rapid, he added.

The method of harvest to be used should help determine the variety to plant when practical since storm-resistant cottons maintain quality longer in the field and strip better than open-boll types, Jones concluded.

Miss Heart-throb

By OMA LEE RANSFOT
Dear Miss Heart-throb,
My girl friend and I have been fighting over this real cute senior boy ever since the first of school.

Dear Worried,
Well, in the first place you must know that two girls can't share one boy. One of you should try liking someone else for a change.

Dear Money-Hunter,
I think that this is a very silly idea because somebody you'll meet someone that will make you forget this silly notion. People usually don't marry for money.

Dear Miss Heart-throb,
I am eighteen years old and a senior in high school. I have always intended to marry for money. I would like to know where to go to meet someone that has a lot of money.

Dear Miss Heart-throb,
Not very long ago I was very late getting in from a date and my father said that I couldn't go out again for a month. I have been going with this boy for over a year and I am afraid that he will start going with someone else.

Dear Miss Heart-throb,
Both you and your boyfriend know the time that you were supposed to be in. If you didn't have a very good excuse then it looks like you will have to suffer the consequences.

Dear Miss Heart-throb,
I am a Sophomore and I have recently broken off with the boy that I have been going with for about a year and a half. He is extremely jealous and sometimes mean to me.

Dear Lu-Lu,
I think your mother was right in making you stop going with this boy. I will only lead to trouble for you, if you start corresponding with him.

about every senior that signed your annual would write, "Enjoy it while you can because it's gone before you know it."

We never really appreciated what they had told us until this year and now we realize all the things we didn't do which we should have done.

But all in all graduation day is the time we all have been working for, for 12 years and it's a happy and wonderful day when you finally reach the top. But it's unhappy, as I've said, because we are leaving our childhood classmates and friends.

Seniors, when we leave these wonderful days of high school we can look back on a lot of wonderful and very happy memories which we shall never be able to forget.

CHILD'S DARK HOUR—Blaze, a 4-year-old Springer Spaniel is comforted by Jackie Dunson, 12, in Dallas, after being hit by a car. Blaze's young master, Daniel Steven Dunson, 8, the girl's brother, was hit by another car when he went to aid his pet. Daniel was treated for bruises at a Dallas hospital. Blaze died at a veterinarian's office. Jackie and Daniel are the children of Mr. and Mrs. Jack Dunson of Dallas. (AP Photo)

also without understanding?"

Another eye-catching display, the hall display case, was one entitled "Books for the Golden Spenit." The featured colors were blue (sky) and gold (base). A yellow sun was partly hidden by a fluffy, white cloud while two bronze horses were shown, one standing on a hill in the background and one standing at a hitching rack in the foreground.

Still another attractive bulletin board was prepared during the "sputnik" period with the caption, "Whatmic You Goin' to Read?" This featured a silver space ship against a blue background with little green men here and there. Book jackets about space travel, rockets, and missiles were used with the display.

We shall describe other displays later. Now on the library shelves are some new books which we received last week. Among these are: "Tibbles" Buckskin and Blanket Days, Marshall's To Live Again, O'Neill's Nine Plays, Colby's Leatherneck (Marines), La. Croix's Mysteries of the Pacific (shipwrecks), Hodges' Shakespeare and the Players, Villiers' Posted Missing, Mills' Middle Ages, Wellman's The Iron Mistress, Wright's Gentle House, Stone's Men to Match My Mountains, Coombs' Rockets, Missiles, and Moons, and Gassner's Modern American Plays.

Former Senator Karl L. Lovelady Announces for State Senate

TO THE VOTERS OF THE 30th SENATORIAL DISTRICT:
I take this means of announcing my candidacy for the office of State Senator of the 30th Senatorial District in the forthcoming Democratic Primary. I make this announcement after careful and considered appraisal of the voiced opinions of the many persons who have come to me and that I have gone to see, who have insisted that I make this race based on my past record in the State Senate of Texas to keep the state out of debt and to vote a vote for all the people and not a vote for the chosen few.

I base my candidacy on the following platform:

HONESTY AND INTEGRITY — The past few years have brought dark clouds of dishonesty and corruption in our state department, and I for one, if elected your State Senator, propose to do my part to see that the people of Texas shall once again have confidence in our government.

FARMING — I believe in a broader "Farm-to-Market" road program, by trying to get an additional \$50,000,000 per year to the amount now spent, for more farm roads.

I believe in a much broader rural electrification and rural telephone program so that every farmer will benefit.

I would like to see a state supported experimental farm, to be located in the heart of the vegetable growing district, for experimentation in the growing of vegetables.

I would support a program to conserve our surface water supply by the state expending money for the construction of dams on all rivers and draws where needed. (In doing this we would also have places for recreation right here in West Texas.)

I would amend the present employment law so that the TEXAS EMPLOYMENT COMMISSION would bring into any given area suitable labor to be used on the farm where said labor is not locally available at the time when this labor is most needed by the farmer.

I would vote for and support a stronger seed regulation law in order to put this state on a par with other states in seed regulation. I will always oppose any legislation to unionize farm labor.

SCHOOLS — A stronger emphasis on the teaching of the basic subjects of reading, writing and arithmetic in the lower grades, and on mathematics and science in high school, so that we can better equip our students to preserve our leadership as a nation in the world.

Better pay for all school teachers, and more money for better school plants from the state. (I think teachers should receive salaries equal to other professions of similar education and training.)

I think we should have a state supported Junior College near the center of the district so that buses can run from the various towns carrying students to said college.

BUSINESS — I would abolish the State Store Tax, State tax levied on stores that sell cigarettes and charge the collection of all taxes and cosmetics, etc., now collected by the merchant to that of the manufacturer who makes them. (In fact I think the merchant, farmer and all retail businesses should be taken out of the business of collecting taxes for either the state or the federal government.) It is about time the small business man got a break in this government of ours.

The present "Hot Check" law should be amended so that when any person gives or passes a check whether for cash, to pay a bill or to receive merchandise, he or she may be handled by the proper court if said check is not honored at the bank for payment.

Any person who makes a bill for groceries, clothing or drugs, same being necessities, the merchant should have stronger laws than we now have for the collection of said debts.

LOAN SHARKS — I would vote and support a law to place all loan companies under the same regulations as the Banks are now under.

CITIES AND TOWNS — I believe that all cities and towns in the state should be given aid from the state, based on population for use in building streets, alleys and for the purchase of highway rights-of-way through their cities and towns. (As you know all this expense is now carried by the property tax payer who already has all the burden he can carry.)

PROFESSIONS — I believe that the present laws regulating the illegal and unethical practice of law, medicine and healing arts should be strengthened so that the public may be better protected, and any professional person or so called professional person who, either in private, in public, or in print, willfully misleads the public to obtain a client or a patient should be prosecuted by law for so doing.

WELFARE — I would give additional aid to all persons under the welfare program where need can be shown to exist. (Any increase in pension checks, etc., would help our economy because they spend their money the necessities.)

OFFICIAL NOTICES AND CONDITIONS — I would vote for an amendment to the present law on official notices and publications to provide all official notices and court notices posted at the court house be published in a newspaper of County so that the public will properly informed, and that individual citizens affected will not be deprived of their just rights under our laws.

FREE PRESS — Our laws should be amended that all government records and all government meetings should be open to the press so that the people may be informed on all penings and acts of the government of state, county and subdivisions.

TAXES — The State Comptroller has stated that by January 1, 1959, State shall be about \$100,000,000 in debt. The next session of Legislature will be faced with duty of getting the state out of "red." I think that this can be done by the abolishing of less jobs and the elimination of duplicate functions of various agencies, none of which render service to the tax payer. Times getting harder should start at Austin.

I would abolish the State Property taxes, as the property tax or now has too great a burden carry in supporting our schools and county governments.

I am not supported by any clique or clan, nor am I fighting any group or individual in this campaign, but if elected your State Senator, I will be your State Senator in fact and in truth, and the fighting that I will do will be on the floor of the State Senate of Texas, and as a public spirited citizen in the community in which I reside.

I am outspoken in my beliefs and never ride the fence on any issue. Trusting that you will take this announcement to your heart for the good and future prosperity of this district, and that we all forward together with progress consistent with our times for the good of all of us.

SINCERELY,
KARL L. LOVELADY

Science Works Wonders In Keeping Baby Clean

YOUNG SALT—Everything's shipshape about this modern baby, whose mother enlists modern aids to keep him clean.

AP Newsteatures

It's a problem to keep baby clean. Ask any mother who has the experience of cleaning baby's nails before she takes him visiting, only to find little black borders at his fingertips when she introduces him to her hostess. How does a child pick up so much dirt in so short a time? The grime goes to legs, arms and face too, and the most fastidious mother may be embarrassed that her child looks neglected. The daily bath helps, but for how long? One silver lining is clothing that makes life easier for Mom.

There are the disposable diapers, now available in pastels, so that the baby who crawls around in diapers may always be clean and fresh in these chuck-easy pants. These are handy too, for travel, so that the toddler doesn't need to wear soiled diapers for any length of time.

New improvements in washing techniques should keep the little rascal clean, in spite of dirty hands. One new laundry product contains durtex, a hexachlorophene concoction that cleanses and deodorizes as it launders.

The new detergent eliminates the need for soaking or boiling regular diapers, and helps to cut down ammonia formation.

If you plan to block tiny wool garments, cut a frame out of cardboard before you wash the garment.

The frame will help speed the drying by absorbing moisture, but be sure the cardboard does not contain dye which may come off on the garment.

It's always a good idea to pre-treat extra soiled areas with extra suds rubbed in with the fingers. Small-fry socks really pick up the dirt as toddlers enjoy running around without shoes. Other spots to look for dirt are at the wrists of long-sleeved garments, and at the necks of sweaters and dresses.

When washing woollens be sure the water is not too hot. Pour detergent into hot water, swish it around until it gets sudsy, then add cold water. It should feel neither cold nor hot, more on the tepid side. Newer detergents containing special ingredients may do a good washing job in lukewarm water.

Squeeze suds gently from woolen garments, roll in a turkish towel and lay away flat from direct heat or sunlight to dry. Knit wools with a shrink-resistant finish have a tendency to stretch, laundry experts say, so these, too, should be handled and blocked with care.

Garments of acrilan and orlon or of these fibers blended with wool may be washed in an automatic machine using short cycles. It helps, too, to put them into a mesh laundry bag or pillow slip. Remove them from the machine when wet, blot between towels, and lay them out flat to dry.

STAR THEATER

Summer Love: This picture, a sequel to Universal's highly successful "Rock Pretty Baby" of last year, again offers teen-age idol John Saxon as Jimmy Daley, leader of a high school jive combo, and composer-singer Rod McKuen as an irrepressible member of the group. Three new actresses, TV and recording star Molly Bee, Jill St. John and Judy Meredith provide the new love interests, with the locale a summer camp on the shores of Lake Arrowhead. Seven songs featured in "Summer Love" are: the title song, "Summer Love," "To Know You Is To Love You," "Beatin' on the Bongos," "Ding-A-Ling," "Calypso Rock," "Magic Penny" and "So Good Night." Fragile baby clothes such as christening garments and lace bibs may be put in a jar that is filled with lukewarm suds, rocked to and fro for several minutes and then rinsed the same way. Blot the garments on a towel.

Baby's and children's dresses may be washed easily. Cotton and rayon dresses are better dried on the line. Rayon, nylon or dacron should not be washed in too-hot water, or touched up with a too-hot iron. Don't squeeze or wring little dresses or you'll produce wrinkles. Bleaches should not be used on fine fabric, and sometimes are unnecessary with new detergent's cleansing power. Soaking, too, is unnecessary.

Wash and wear pleated dresses should be put on a hanger, buttoned and hung up to drip-dry. Press pleats with the fingers two or three times while drying.

VISION

How far can you see? When you look, what do you see? Vision means more than just to see something with the eye. Actually, the deeper meaning of vision would be to perceive what is not seeable to the eye... a mental view or image. True, the eyes deliver 87% of all impressions to the brain. *But vision means seeing further than one can see with the eye.*

We know 20-20 vision of soul has deeper meaning than 20-20 vision of the eye.

Do you have vision? Have you seen God lately? Have you visioned His church on the corner and all it stands for? When you read His Word can you anticipate all the glories of His second coming? *May we develop 20-20 vision of sight, of mind, and of soul.*

May we have true vision.

**YOU IN THE CHURCH
THE CHURCH IN YOU**

Character is a by-product of the church. It is here that young and old alike are showered with benedictions that bring forth a better citizenship and a stronger democracy. In the church the ministerial are molding religious character. Statesmen today declare that the church alone can furnish leadership to guide the affairs of state in their perilous times. Then let us on Sunday, "See in the Church and the Church in you" form a combination for good. Be a regular CHURCH-GOER and a daily BIBLE READER.

HIGH PLEAS
 NEW YORK (AP) — A couple of ladies have helped persuade Ethel Merman to change her mind. The star of "Happy Hunting" has made it a practice not to tour with shows following their Broadway run. Hereafter, however, she promises Merman shows will visit Washington.

Miss Merman made the vow to 600 guests after listening to pleas while attending the annual Congressional Club breakfast in the capital.

The pleas were by Mrs. Dwight Eisenhower and Mrs. Earl Warren.

ChampsElysees Goes Broadway

PARIS (AP) — The once noble Champs Elysees is being rapidly converted into a blaring, blaring Broadway, and the French are beginning to mourn. Touring young American loves it.

This great street, one of the widest in the world, and years ago one of the most distinguished, now is jammed by day with clerks and automobiles and by night is ablaze with neon lights.

One concession has been made to French taste. The lights may not flicker or dance around, like the cigarette ads on Broadway. The only colors allowed are pink, light blue, and white.

Jean Fayard, feature writer for the newspaper Figaro, reports the sadness of some of the changes, but doesn't seem at all displeased that instead of an ancient haven of dukes and foreign princes, it has become a surging "hive of commerce."

The latest change began about five years ago, Fayard says. The Americans had a lot to do with it.

"NOW ON the avenue and on its neighboring sidestreets," he says, there is nothing but new words, new impressions: "Snack," "Chicken-Sheif," "Cafeteria," "La Boutique a Sandwiches," "Hot-Dogs," "Quick Elysees," "Hamburger a Toute Heure," and "Striptease-Quick Lunch."

"A beefsteak pharmacy and the word 'drugstore' are all it would take to make you believe you were in the middle of the Bronx."

In a great sweep the big street connects two of the greatest landmarks in Paris, the Arc de Triomphe on one of the highest points of the city, and the low-lying Place de la Concorde on the Seine, doubtless the broadest open city square in the world.

A few of the great residences that once distinguished the street are still there. They have been converted into office buildings. Most have made way for banks, automobile display floors and jewelry stores.

"IN THE MIDST of this," says Fayard, "little islands of an outmoded time survive — fine restaurants, clubs, shops for fine luggage and rich perfumes — leaving behind only dreams and ghosts of the grand dukes."

Champs Elysees is three streets and lives two lives. Down the center roars an almost unbroken stream of traffic. On either side is a line of trees. Between the trees and the buildings on either side is space which in most places would be sidewalks. Here it is a combination of sidewalk and parking lot. Cars can leave the street, come up on the sidewalk and shoulder pedestrians around while they back into parking places.

The two lives? At noon the big business houses belch thousands of employees into the street looking for a quick bite and return to their desks and counters. They form in queues at the lunch counters and have learned, like Americans in New York, to sit on stools placed so closely together there is no place for the arms.

There — and this still shocks the French — they gulp a sandwich or a blue-plate lunch in 20 minutes.

BY NIGHT, all is changed. The clerks have gone and the business houses and banks have closed. Into the striptease joints, flock A-

CONTINENTAL COWGIRL — Here's a waitress at the Crazy Horse Saloon, just off Champs Elysees.

HIVE OF COMMERCE—Frenchmen are mourning the passing of the air of nobility and spaciousness no longer found on Paris' famed Champs Elysees. Here's how it looks on a typical weekday.

American GI's, North and South American tourists — and a lot of French as well. This country has developed a liking for a kind of saloon atmosphere carried across the Atlantic and seasoned to French taste.

The Champs Elysees is, of course, on the right bank. There is a glaring difference between the Champs Elysees and the left

bank. There is no "existentialism" around the Champs Elysees joints. The customers come to be amused. Even the young seem to have a heap more money than the duffel-coated students, and left bankers around St. Germain des Pres and Montparnasse on the left bank.

Champs Elysees has become a chunk of exported America.

THE HARD WAY

CAMP PENDLETON, Calif. (AP) — The 2,400 marines of the 5th regiment marched 100 miles with field pack to prove that they weren't getting soft in this age of mechanized and airborne armies. It took four days for the hike to San Diego and back. The regiment's mascot Mongolian pony, Sgt. Reckless, rode in a truck.

AIR FORCE GOLF SET
 CHEYENNE, Wyo. (AP) — The U. S. Air Force will stage a worldwide tournament at Warren Air Base here next Aug. 18.

WINS TRYING TO LOSE
 MUSKOGEE, Okla. (AP) — Just to be different, T. F. Whitaker tried to pick the losers in 15 games in

a football picking contest. He got 12 right and won the contest.

NOT THAT OLD
 GAFFNEY, S. C. (AP) — The machine itself is not really that old, Mrs. I. B. Kendrick says of a used sewing machine she recently bought. She found an 1821 dime in the bottom of the case.

Hereford, Tex., Man Reports— More Maize On Fewer Acres Using Phillips 66 Ammonia

Carl Holt, Hereford, Tex., says: "I harvested more grain from 250 acres of irrigated maize fertilized with Phillips 66 Ammonia than I got from my previous larger acreage which received no ammonia. And I got this increase using only one irrigation well for the entire 250 acres."

Other Southwestern farmers have discovered that 82% nitrogen from top quality Phillips 66 Agricultural Ammonia helps them get more profit per acre through higher yields. They get more cotton that classes higher at the gin. Yields of sorghum grain and ensilage are increased. . . more marketable vegetables are harvested. . . and profits on wheat are increased through higher yields of grain and extended grazing periods.

Phillips 66 Agricultural Ammonia contains 82% nitrogen and gives you more nitrogen per dollar than any other form of commercial fertilizer available.

Rainbow Leathers Kick Off Shoe Season

By DOROTHY ROE
Associated Press Women's Editor

FEET AND LEGS take the spotlight this spring, as knee-length dress focus attention on smart foot-work.

And shoe designers are all set to keep the situation well in hand with a blaze of brilliant leathers for heel-and-toe drama. Colors that will be seen in new shoes of the season include: emerald green, lipstick red, royal blue, turquoise, sun gold and dove blue, in addition to the always important but less sensational range of beiges and browns, navy and black.

Many of the new shoes are highlighted with touches of white leather, appearing much earlier in the season than usual.

The smartest shoes have simple lines and few ornaments this season, with pointed toes and needle heels still important. Two new style trends are the return of the D'Orsay pump and the emergence of slender instep straps and T-straps in shoes for round-the-clock wear.

Smooth polished calfskins are most important for street and dressy wear, with many silky-napped reversed calf shoes in high colors shown for casual and sports wear.

WHITE TIE—New for spring is this tailored pump in emerald green matte finish leather with new pointed toe, stiletto heel and buckled bow of highly polished white calf, for dressy day wear.

T-STRAP—Many women will welcome the return of the strap pump with curved medium Louis heel. This one is pale beige and buckled bow of highly polished white calf, designed by Margaret Jerrold.

D'ORSAY PUMP—This is an old favorite, back on the fashion scene in bright red patent leather with black-and-red calf bow, needle heel, designed by Herbert Levine.

OPEN-BACK SANDAL—For late day wear, the sling-back sandal returns, in gay combination of oyal blue, emerald green and white buffed leather with closed pointed toe, designed by Deliso.

Long Time Ago

45 Years Ago
A number of Hereford farmers will try a new forage plant this year. They call it Fetereta. It looks very much like maize, but the heads are larger and the yield is from 10 to 20 bushels more to the acre than kafir, and it is said to mature 30 days earlier than kafir. If this be true, the new plant will be better adapted to this climate than kafir. Those who will plant Fetereta this year are E. W. Morgan, Renfro, Hester, Gregg, Boardman, Shane, Green, Elliot, Mrs. Briggs. All will plant 4 acres except Morgan, who will plant 8 acres. It was he who brought the seed and distributed it.

A retrospective exhibit of school drawings by now famous alumni of the Chicago Academy of Fine Arts, 18 South Michigan Avenue, Chicago, which opened April 20, in the school's studios and will continue until May 20, includes several pieces of work by Glenn Boardman, formerly of Hereford. Boardman is now recognized as one of the outstanding commercial artists in Hollywood, where he is also known for his fine lettering.

NEW WORD GAME

CHICAGO — Hostesses hunting a new way to liven up a party may find a solution in a new word game devised by Herb Daniels.

He calls it "herd." It results from picturesque words used to designate groups — like herd of cattle, pack of wolves, a sulk of foxes, a muster of peacocks, a gaggle of geese or a crowd of people.

Guests think of new twists such as a fix of politicians, a petty of bureaucrats, a giggle of girls, a wrangle of wives or a stumble of drunks. The rush hour suggests a frustrate of drivers or a helter of pedestrians.

For girl watchers on warm windy days, there's a wow of girls.

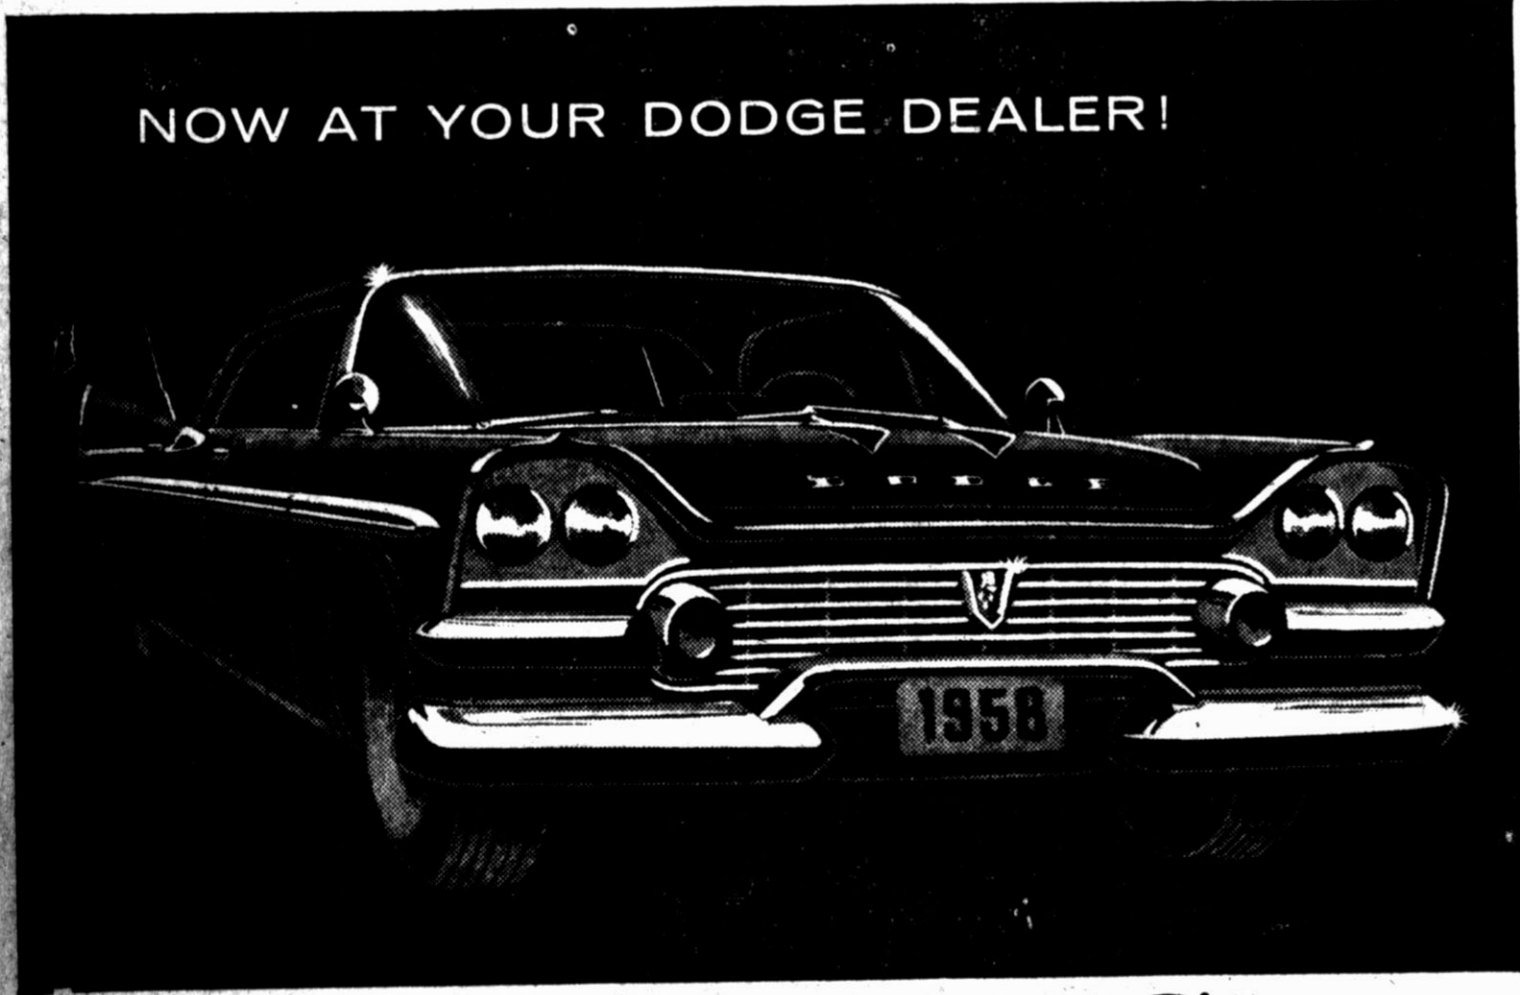

The average housewife will, in her lifetime, wash enough cooking and eating utensils to make about 70 stacks as high as the Empire State Building (102 stories high) in New York.
