

# May 7 Is Primary Election

By VERN SANFORD  
AUSTIN — A great number of persons are not aware of the fact that the Legislature, at its 1959 session, moved the primary and run-off elections forward several months.

Candidates are not in sufficient abundance this year to impress this fact upon the voters. Now with only a short period remaining, many of them are surprised to learn that not one out of a hundred voters knows when the elections are to be held.

Those who are campaigning have not failed to stress the earlier voting dates. First primary will be held on Saturday, May 7. The run-off, if any should be necessary, is scheduled for June 4.

If you are going to be out of town during the first primary election, May 7, you have from now until May 3 to vote absentee for that election.

After May 3 you must go to the polls if you want to vote.

For those living in a county seat town, the simplest procedure is to go by the county clerk's office. If you do not live in the county seat, you can write the county clerk for the necessary forms.

Voting in the Democratic primaries is essential to participation in other Democratic party activities this year. No one will be allowed to take part in a Democratic precinct convention unless he has a poll tax that has been stamped "Democratic." Poll tax holders must vote in the primary, absentee or at the polls, to get their poll taxes stamped.

This new section of the election law was designed to keep out the so-called "one-day Democrats" who participate in Democratic primaries and conventions and Republican conventions, too. People who go to the GOP precinct conventions will have their poll taxes stamped "Republican." This shuts the door on their having any part in Democratic Party affairs until they get a new poll tax.

An intensive campaign has been under way for several weeks to educate voters to the new procedures and dates and the importance of their voting and coming to precinct conventions.

Amid a statewide hullabaloo over the cost of hardware came a quiet explanation that the door knobs in the State Office Building really cost only \$3.65, not \$36.00 apiece.

H. R. Nieman, executive director of the State Building Commission, said the cost of all the hardware for the building — including automatic closers, locks, keys, hinges and doorstops for 1,000 doors — came to \$36,000. Nieman, who was not with the building commission at the

time of the State Office Building was constructed, called the hardware cost "well within reason."

Nieman's statement punctured a story that had been the subject of almost as many jokes as Pappy O'Daniel's flour barrel. It got started when a House committee on tax saving investi-

## Hold Meeting Of North Hereford HD

The North Hereford Home Demonstration Club met in the home of Mrs. Wilma Bryan on Thursday. Roll call was answered with "Trouble I Have in Keeping Books." "When I've Thought the Bank's Bookkeeping was Wrong", and a "Hint in Good Bookkeeping."

Mrs. Aubyn Hodges gave the program on "Manage Your Bank Account." She explained the advantages of checking accounts, or a joint checking account, deposits for checking accounts and how to write a check correctly. She also stressed the point of never signing a blank check.

Mrs. Lena Olson read the council report. Recommendations also were made on the yearbook and the finance committee. They were approved by the members.

Mrs. Hodges reported on the association meeting at Claude held recently.

Members present were Messrs. Marcella Hoffman, Marie Ward, Zella Kendricks, Belle Williams, Lena Olson, O.C. Williams, Martin Waggoner, Aubyn Hodges, Mary Boklin, C. L. Whitehead, R. A. Fullwood, Orville Massey, June Roberts, and Dorothy Klein.

The next meeting will be in the home of Mrs. Kendricks May 5.

tigated the building which had cracks in the lobby's terrazzo floor.

Sightseers had come, almost as to a museum, to look at the highly-publized stainless steel knobs.

If sunny weather and disappearance of the flu has you feeling secure and content, the State Department of Health has bad news.

Health officials warn of three separate menaces:

1. Rabies is on the increase — an 33 per cent from this time last year. During the first three months of the year 24 positive cases were diagnosed.

2. It's the measles seen on with Travis County (Austin) leading the state with 250 cases reported. Nueces County (Corpus Christi) reported 205 and Galveston 172.

3. Stinging caterpillars are a-ho! and will be around feeding on trees and shrubs until fall. Health Department officials particularly urge parents to warn their children not to pick up the fuzzy, fascinating moth larvae.

Stings should be treated as bee or wasp stings — by clearing with alcohol and covering with calamine or other soothing lotion.

Texas oil allowable has been further reduced to a permissible flow of 2,574,894 barrels a day for May.

An eight-day producing pattern, as low as at any recent time, was set by the Railroad Commission.

A number of independent producers ask for an even steeper cut to seven days. They said the industry was going into a fever-demand season with too much oil on hand.

Recent crude oil price cuts have intensified the general gloom of the Texas oil industry. It raises, too, the probability that state tax revenue from oil will fall substantially below expectations.

Directors of the State Bar of Texas approved recommendations for extensive changes in the Texas Criminal Code.

But they took a "make haste slowly" view about taking the proposals to the Legislature. If enacted, the revisions would bring about considerable change in the way criminal court trials are conducted.

Bar members suggested the proposals might be voted upon by lawyers and studied in seminars over the state before presentation to the Legislature in 1963.

Recommended changes would allow 11 jurors to return a verdict if one juror had to drop out

### Door Repair

When a door bolt won't align with the opening in the striker plate, simply taper the top and bottom edges of the bolt with a file. This is better than enlarging the hole in the plate, and will alleviate any future misalignment trouble caused by the settling of either the door or the doorframe.

### Fishing Rod

An easy way to remove corrosion from inside the ferrule of a fishing rod is to wrap a small wad of medium-fine steel wool around a dowel chucked in an electric drill and carefully run it into the opening.

### Clean Typewriter

The type on your typewriter can be very nicely cleaned with

some of your fingernail polish remover. This will not harm the metal, dries instantly, does not splatter, and cleans perfectly.

### New Item

The telltale marks left when a hem has been let out can be completely erased by placing a cloth dipped in vinegar under the old hem seam and pressing with a hot iron. This hint works with wool and cotton — but don't use a hot iron on synthetic fabrics!

## Langley, Hunter To Speak Sunday

Two members of the American Bar Association, Earnest Langley of Hereford and William Hunter of Dalhart, will be guest speakers Sunday in the First Methodist Church. The men will speak in absence of the Rev. Herschel Thurston.  
Langley, chairman of the official board, will preside at the morning service and Hunter will be speaker and, at the evening hour, Langley will give the address.  
Hunter is the son of the late Sam Hunter. He is a recent graduate of Tulane University Law School and is presently a candidate for the office of District Attorney.  
He has taught in Sunday School in the Central Methodist Church of Dalhart. His mother, Mrs. Lillie Mae Hunter, is a regular teacher there and is author of a book on the history of Castro County.  
The Rev. Thurston with Jesse Stanford will attend the first

sessions of the Methodist General Conference at Denver. Bishop William C. Martin, bishop of this area, will deliver the "Message of the Bishops" on the first day of the quadrennial conference.

Methodists from 55 nations over the world will be delegates to the legislative body of the Methodist Church.  
The Conference opens April 27 and is expected to adjourn May 7.

## "THIS WORLD"

...what is it dad? To me it seems to be a multitude of jealous people, who have forgotten God, and are experimenting with scientific formulas that could tear us apart. What does it mean—"Am I my brother's keeper?"

What a thought for this age...for men who literally carry our lives in their hands. At best we are *confused*. The time-table is tipped in favor of total destruction. Why, oh why, will wise men "deaf-ear" God? He said, "I am the way and the truth." He gave us His church where we could learn to love each other more, but many a man refuses to be called to worship. *God, have mercy on all those who stray, and help us explain the world through love.*

 lions of people to the "average." Our people always get either more than they want or need, or they are not allowed to get as much as they could if left to themselves. Not many folks fit the "median" which the government seems to so habitually establish.

There are, of course, many reasons for the agitation favoring more of this government manhandling. These reasons are all derived from commonplace developments and features of our life, but are quite deceptive in the ways they are then applied to support this or that legislation.

First, since more and more families are moving from one state to another, the advocates of centralism argue that the federal government should establish laws, educational systems or whatnot, thus placing conditions in one state on a level with all the others. This ignores the fact that many families aren't moving across a state boundary every six months.

A second impulse behind the call for more government is the notion that an individual state can't or won't do something on its own. In most cases this is pure nonsense. The people of Texas can be proud of the advances which have been made in their own ways and without coaching by Uncle Sam's hopeful salesmen of more "this is good for you" legislation.

Third, many parts of the country are forced under the federal wing simply because people in another region genuinely need help. Powerful interests in one section of the country may be so strong that the Congress is

drawn into the better part of a certain program would be good for everyone. But I have always felt that the people who really need help could get it faster and better from a government closer to the problem than Washington ever could be.

Finally, we have the familiar "special" or "emergency" measures which are urged on us to help solve some short range difficulty. They somehow always seem to be around for years later. The "wartime" transportation and communication taxes are an example of this situation. The government often seems to be so captivated with "temporary" interference that it can't bear to part with even an outdated particle. This sort of thing is not only unnecessary, but grossly unfair as well.

Resisting the almost incessant efforts to enlarge the federal government's share in local affairs is more than a matter of sheer determination on the part of a few people. It rests primarily on the ability of all of us to be willing to depend on ourselves once again.

You may recall that one of my recent newsletters dealt with the subject of legislation I introduced which, if enacted into law, would make it possible for private industry to develop facilities for the extraction and conservation of helium. This bill passed the first major hurdle last week when it was reported favorably from the full House Committee on Interior and Insular Affairs.

### REP. WALTER ROGERS WRITES:

## People Concerned Of Bigger Bureaucracies

To the people of the 18th District: As many of you know, the Congress again faces a series of measures which would put another nail in the coffin of individualistic government. I've received a good many letters from folks who are understandably concerned about the craving that many of our leaders have

for bigger and better bureaucracies. Many of you protest legislation which would put the federal government more and more directly into the affairs of the towns, cities, and counties of the 18th District.

But efforts to centralize and enlarge the government in Washington seem to have become so commonplace that many forget just what a big - and getting - bigger central government can really mean. Many people all over the country seem to have grown so accustomed to seeing new bureaucracies in Washington that they no longer grasp even the fundamentals and causes of the basic problem.

Now I've never said that local governments should only do the things they want to do with no regard for all the people. I think that the idea which brands

everything in the federal government corrupt, insincere, or foolhardy is highly undesirable. I've seen our country's political system, working properly as it usually does, carry out some of the finest measures that history has ever seen a government produce.

But whatever else might be said about the size to which government has grown, two things are painfully clear. The first is that no agency or bureau can successfully work in the best interests of all the people. When a job is turned over to the federal government you may be sure that a great many people somewhere will be short changed.

Second, and perhaps most important, federal bureaucratic control almost inevitably becomes an end in itself and means a disheartening reduction of mil-

## OFF THE Shelf

By H. A. TUCK

How does The Self - Made Man look at himself in retrospect? In Sylvia Cooper's novel, Ward Hallock is 60 years old and a successful trucking company operator.

Through a driving ambition and hard work, he establishes his own business. But it was the chance meeting with a wealthy old man that furnished the capital.

He was recognized as a good husband, yet he fell in love with another man's wife. He was recognized as a good father, yet he was barely able to keep the love and respect of his two children.

Ward Hallock maintained his own standards and fought hard against the short-cuts and temptations which presented themselves at various times. He had struggle while learning the intricacies of labor relations, law and taxes.

The Self - Made Man is an interesting book, although it has some shortcomings. One of few fully boring moments has to do with the almost endless struggle his daughter enters in the sex show circuit for a summer, trying to master her jump and herself.

Ward Hallock, in The Self - Made Man, is the universal man trying to carve his own niche in history, battling the forces that oppose him. But, most of all, Ward Hallock is fighting the battle within himself.

# These French Buns Hold Big Surprise

By CECILY BROWNSTONE  
WHAT ARE little French boys and girls made of? Slabs of bread and sticks of dark chocolate — if their standard after-school fare counts!

This bread-and-chocolate snack has been welcomed in

France for years and years. So much so that long ago the custom inspired Gallic chefs to bake the chocolate right in to a kind of bun. That's how petits pains au chocolat were born.

An American friend who grew

up in France told us recently that when he thinks nostalgically of these buns he can still savor the remembered taste of the croissant-like pastry. Then he recalled how as a little boy he would carefully and gravely look over a plate of petits pains to choose one that had chocolate oozing out of its sides!

The first American recipe for petits pains that we ever came across was introduced half a dozen years ago and was made

from a rich baking powder biscuit dough in which water was substituted for the usual milk. The following recipe is made with a yeast dough that is nearer the French original.

All tasters in our kitchen agreed that this American version must be offered fresh and hot from the oven, with the chocolate lusciously soft. Because the French use dark sweet chocolate to enclose in their rolls, we follow suit; the sweet cooking chocolate called for in this recipe has the needed robust flavor.

### CHOCOLATE SURPRISE ROLLS

Ingredients: 1/2 cup milk, 1/3 cup sugar, 1/2 teaspoon salt, 1/4 cup butter or margarine; 1/4 cup warm (105 to 115 degrees) water, 1 package active dry yeast,

2 eggs (slightly beaten), 3 1/2 cups (about) sifted flour, 2 packages (1/2 pound each) sweet cooking chocolate, 1 egg (slightly beaten) for brushing roll tops, 1/2 cup slivered slightly toasted blanched almonds, confectioners' sugar.

Method: Scald milk; stir in sugar, salt and butter; cool to lukewarm. Measure warm water into a large mixing bowl; sprinkle in yeast; stir until dissolved. Stir in lukewarm milk mixture and the 2 eggs. Add 2 cups of the flour; beat until smooth; stir in enough of the remaining flour to make a soft dough; mix thoroughly.

Turn dough out on prepared pastry cloth or lightly floured board, cover and let rest 5 minutes; knead dough 5 minutes until smooth and elastic. Place in

greased bowl, cover with a damp cloth and allow to rise in a warm place, free from draft, until doubled in bulk — about 1 1/2 hours. Punch dough down and turn out on prepared pastry cloth; roll out into a 18 by 8-inch rectangle. Brush lightly with extra melted butter and cut into 36 2-inch squares (4 cuts lengthwise and 9 across).

Place 1 square of chocolate coter-corned in the center of each square of dough. Bring the opposite corners of dough over the top of the chocolate and pinch together tightly. Place on lightly greased cookie sheet; let rise until doubled in bulk — about 30 minutes. Brush with slightly beaten egg and sprinkle with almonds. Bake in a hot (425 degrees) oven 12 to 15 minutes. Remove from cookie sheet

To restore the appearance of a felt hat that has been soaked in the rain, first let it dry par-

tially, and then press out the creases in the crown. Next, turn down the band and place the hat in some cool place away from any heat and let it dry thoroughly. Then reshape the crown and brush the hat gently. If the work has been done carefully, the hat will look almost as good as new.

### Note Holder

Notes to your milkman can be kept safe from rain and wind if they are slipped into a glass jar with a screw-type lid. The lid is fastened to your back door, and then the jar with its note is screwed into this lid.

### Refrigerator Test

Shut your refrigerator door on a piece of newspaper. If the paper then pulls out easily, the rubber stripping around your door needs replacing and you are wasting too much cold air.

### Mirror Care

Mirrors exposed to dampness caused by moisture condensation should be protected by coating their backs with white shellac. Preferably, the shellac should be applied in a full-bodied coating by spraying, but two thin coats applied with a brush are usually effective, too.

### Save Those Eyes!

Sharp contrasts of light and dark cause eyes to work overtime. When you are reading at night, have the entire room well lighted for less contrast between the pages of your book and the surrounding areas.

### Daub Scratches

Put scratch-remover furniture polish into a clean shoe polish bottle. The dauber in the bottle is handy for applying the polish to scratches or crevices of carved furniture.

back throughout. Alternating, resist the pull in the opposite direction with the left hand. This is a splendid exercise, if practiced regularly and faithfully.  
 Q. I have an extremely dry skin, and my face is sometimes quite sensitive to soap. At times like these, how can I cleanse it?  
 A. You can substitute some warm milk for cleansing your skin at these times.  
 Q. How can I mix a toilet water, effective against blackheads and greasy skin?  
 A. Mix one ounce of powdered glycerin, two drams of powdered borax, and 19 fluid ounces of orange flower water. Shake well before each using.  
 Q. My nose is quite small, but my chin protrudes rather sharply. How should I make up to counteract these two features?  
 A. You can try shadowing the chin with a darker shade of foundation cream, and highlighting your nose with a lighter shade. Thus, the chin will be subdued visually, while the nose will be "brought out."  
 Q. How can I extract some mustard stains from one of my washable dresses?  
 A. Sponge with cool water, rub with warm glycerin, and then wash in hot suds.

## Southern Girls Know How To Get A Man

By VIVIAN BROWN  
SOUTHERN GIRLS, pretty or not, have no trouble snaring husbands. It's easy to see why. A Southern girl may try to impress a boy with her clothes (and she's just as proud of what her mother whips up on the sewing machine, as the store-bought kind.)

She plots to trap him with her cooking (and she'll never bore him talking about her corn-bread recipe.)

She makes no secret of the fact that she is looking for a husband (and takes a "that's perfectly natural" attitude.)

But she has no desire to compete with a man, working or playing, as a rule. And she majors in making a man feel important.

Three typical Southern girls on a visit North honey-toned men and women with delightful but unimportant conversation, the kind of girl - talk that is so strictly feminine, it is a joy to hear.

There were Miss Azalea Trail, dark-eyed dark-haired Suzanne Gisclard, 18, and her ladies-in-waiting, Jacque Warren, 18, and Ann Blackwell, 17, of Mobile, Ala. — delightful, merry girls who revel in the sheer joy of being young girls.

They walked around blustery New York looking like bridesmaids in azalea - pink hooped costumes and enormous picture hats. They were on a bonus tour, and were ecstatic about everything. Suzanne won in addition to the tour a \$2,000 college scholarship and luggage. And they will all be in the Junior Miss Pageant this spring.

"It is truly, simply, heavenly, divine and wonderful!" the girls chorused to any slight gesture of kindness.

"Suzie has such poise. You should have seen her on television this morning," volunteered Jacque. "We were going to make one li'l ol' personal appearance and the announcer found out she could sing. He asked her, and she did."

"She has a beautiful voice," says Anne proudly.

"Everyone was so startled that Suzie acted like a professional and without any rehearsal," their chaperone, Mrs. Naomi Webb said.

"Oh, that's because I sing at home parties and at church," says the Valentine-lipped Suzanne.

Would she do it as a career? "Heavens, no — I want to get married," she says.

The girls were surprised at all the makeup Northern girls wear, but they were glad to get a few makeup tips they might use for some important parties. "My hair is straight as a picket fence usually," Suzie says, "so I'm having fun with my

"Isn't this dress beautiful, though?" she asks. "It has 5,000 yards of thread in it and 67 yards of fabric. Imagines!"

The men around agreed it was the most beautiful dress they'd ever seen, and how often does

VARIETY IS VOGUE Cincinnati — The LaSalle Spring Quartet is home again after battling travel problems — and food customs — of Europe on a three month concert tour.

"Each country must be met differently in terms of restaurants," said Walter Levin, first violinist. "In England you must begin the concert early because the restaurants all close at nine.

"In Scandinavia, you are invited to a post-concert supper. "In Italy, there is no problem; you can eat before, during and after the concert."

## Cherry Treat With A History

By CECILY BROWNSTONE  
INTERESTED IN a relative of the fruit cobbler, pandowdy, dumpling, slump and grunt? Then this recipe for country-style cherry pudding may intrigue you.

All these desserts are combinations of fruit and biscuit or batter, quick to make.

One guess as to why these old-time desserts were made so much in American kitchens, is that when Great-grandma put up fruit there was always a little leftover. Tired out from canning and preserving, and in need of a supper ending, she mixed up these in a hurry puddings with the fruit remainders. The desserts were always served fresh from the oven with plenty of pour-over cream.

In her invaluable "West Coast Cook Book," Helen Evans Brown tells how fruit grunt got its name: "It was said to be so irresistible that you'd eat it till you grunt."

Nowadays commercially can-

ned fruit is often used in these desserts. Here we call for dark sweet cherries and make a sauce for the pudding from the cherry syrup.

If you cherish real old-fashioned batter pudding, a little on the heavy side, this recipe is for you. Don't expect anything light and flaky! At the bottom of the baking dish the batter that clings to the cherries has a gelatinous quality that reminds us of certain Chinese sweets; next there's a layer golden with melted butter, and finally a plain-jane top. Almond extract adds a haunting flavor all the way through.

COUNTRY CHERRY PUDDING

Ingredients: 1 can (1 pound and 1 ounce) dark sweet pitted cherries (packed in heavy syrup), 1/3 cup butter or margarine, 1 cup sifted flour, 2 teaspoons double-acting baking powder, 1/4 teaspoon salt, 1/4 teaspoon nutmeg, 1 cup sugar, 1 cup milk, 1/2 teaspoon almond ex-

Method: Drain cherries and reserve syrup for sauce. Heat oven to moderate (375 degrees). Melt butter in a 1-quart baking dish in oven; remove. Sift together the flour, baking powder, salt, nutmeg and sugar into a mixing bowl; gradually stir in milk and almond extract; but do not beat. Turn into hot baking dish with butter in it; butter will come to top. Spoon drained cherries into center. Bake in preheated oven 40 to 50 minutes or until cake tester comes out clean; make sure batter is set. Allow to stand a-

For Pudding Sauce gradually stir 1 cup reserved cherry syrup into 1 tablespoon cornstarch and a dash of salt, until smooth. Cook and stir constantly over moderate heat until thickened. Stir in 1 tablespoon butter until combined and if desired, 1 tablespoon dark rum or 1 to 2 tablespoons cognac.

### Say 'Goodby' When Leaving

By DOROTHY V. WHIPPLE, M. D.

SUPPOSE you were a little fellow about 18 months old. Your Mommy is pretty important to you. She is the smile that makes you shine, hers are the arms that make you feel cozy and comfortable. When she is there you know you are safe and all

right. You need to know that she is around. If she should disappear your world would fall apart and you would be scared.

You are busy in your playpen, putting one block onto another one. Mommy is walking around doing things and all is well. Suddenly you turn around and there is no Mommy. Its scary — where is Mommy? Will she come back? You worry.

Chances are you'd be scared enough to cry. If your cries

bring Mommy then everything is all right again, but if they don't you're apt to be worried and scared. Nobody else, you think, can really take the place of Mommy.

You probably stop crying after a while, but you're pretty uneasy — until Mommy finally does come back. Maybe she vanished because you didn't keep your eyes on her. Next time you'd better be more careful — Watch her, don't let her get out of sight.

If she gets away, even for a minute, you will cry and she will come back. It's just too scary to be left alone, because you're not sure she will ever come back. It would be all right if you knew she'd come back but you can't be sure. It is the uncertainty that is so very scary. You feel that you must keep her in sight to be sure of her.

But let's suppose you are still the same little year - and a half - and you Mommy is working around your playpen. She calls

to you, you turn around toward her and she says "Eye, bye," and waves to you. She says she is going upstairs to make the beds but will be back soon. You may not quite understand what she says but you feel all right, she is going away but will come back soon. She does come back and you didn't mind her being away because you knew she would be back.

As you get a little older you understand more of the words she says. If she says she is

going to answer the telephone but will come back when she is through, you know she will come back, even if you are still busy with your truck and haven't called for her. You are easy about her comings and goings because you know she will do what she said.

Sometimes Mommy is gone quite a long time but she told you she'd be back at juice time, or when you wake up from your nap. Maybe you don't quite like to have her go, but its not scary

# Only Child Finds Teen Road Hard

By VIVIAN BROWN  
 "PARENTS SEEM to expect more of an only child than they should," writes a 16-year-old Midwestern girl who says that up until now she has been "performing like a trained seal for them."  
 She doesn't object to their affection and interest; but she thinks that when there is just one child at home, the parent has nothing else to do but worry about her.  
 "Why can't my mother let me enjoy friendships, without trying to control my every move?" she asks. "She hovers over me when the boys are around and acts like I'm not appreciated if the boy doesn't fall all over me."  
 "My father sometimes sits in his car, watching from a distance to make sure that the boy

leaves a dance with me. Then he hurries home and tries to get the car in the garage before we drive up to the house. This really puts a crimp in an evening because the boys always know what he is up to.  
 "My parents take offense if I am not invited to every party that goes on in town. They can't imagine anyone not loving me as they do, I guess.  
 "What bothers me is the prospect of this sort of thing continuing. They don't want me to date steady, so I don't, just to please them. I must go on every vacation with them. I must go to visit friends on Sunday when they go visiting. I must go to my grandmother's, if they decide it is a good idea. My mother will not let me buy a hat, dress or shoes unless she is a-

long to help me select them. Lately I have gotten the feeling that my family keeps me in a cage, and that even when they let me out briefly, they are hovering over it awaiting my return.  
 "I don't want to hurt their feelings, but they are making me very nervous by their attitude. Should I tell them?"  
 Your problem is a double one at the moment, of course, and it may very well ease up later. Parents are likely to be overly protective toward a girl in her early teens, especially when she begins to date. They worry about her, and they should, until she displays signs of maturity, and being able to cope with situations that are new to her because of her age.  
 They love you, and want other people to love you, and in that feeling they are not different from parents who have more children. The difference is that the mother of a large family cannot worry about small details such as whether her offspring are popular enough to go to every party in town.  
 Boys will never resent your father's indulgence toward you, and a good type will respect your father for his protective instinct. It is the way a boy who likes you should feel about you. The fact that it crimps his style as far as necking goes, does not enter into it. If you want to be cozy with him, invite him to your own living room. Chances are your parents will let you sit up with him there, so that he may get all the sweet nothings off his chest. Your parents will be delighted to have you at home with your friend.

## YOUNG MODERNS Teen Query: To Kiss Or Not To Kiss

By VIVIAN BROWN  
**SHOULD A GIRL KISS on a first date? That's always a big problem when it becomes an issue, as this letter indicates:**  
 "I dated a boy that I had known casually for a long time. He seemed disappointed that I did not kiss him when he brought me home. Was this a mistake? Do you think he will call me for another date?" a 17-year-old asks.

It was not a mistake to refuse to kiss him, if that is the way you felt. If the kiss were meant in an affectionate fashion only, there would have been nothing wrong with it, since you have known the boy for some time. Many boys are likely to have pent-up emotions about a date such as this, however, particularly if they have been waiting a long time for it, and they may reflect this desire in a fashion that fairly devours the girl. In that case, it is wise to stave off a kiss. There are boys who have been catered to by their families for so long that they are likely to be miffed at any refusal of their whims, so it is hard to tell, without knowing the boy, whether he will call you again.

"Is there any special age when a girl is right for marriage?" asks another girl. "I am 18, and my parents say I am much too young to become engaged. I am dating a lovely boy, but I am afraid he will not wait if my parents do not say that we can be married within the year."

People are ready for marriage when they are emotionally mature and can support themselves. Your parents may be taking either of those factors into consideration.

They should give you a fair reason for asking you to wait. The boy should certainly wait for you, if he loves you, and if he is anxious to settle down with good intentions about supporting you. He should be able to convince your parents that he can do that.

"Do you think sisters should be made to dress alike?" writes a clothes-conscious miss. "My mother likes to pretend that we are twins, and she has been do-

ing this since we were babies. I am 15 and my sister is 16. It is very embarrassing when we go out on a date as it makes us look old-fashioned. We seem hopelessly out of step."

It does seem odd that your mother has this peculiar yen to dress you alike, and especially now that it would seem you are old enough to break away from this act. Maybe you can do it gradually by planning different recreations that require differ-

ent apparel. In that way you could exhaust the monotony of this situation, perhaps once and for all.

"I am dating two boys who are very jealous of each other. They talk about each other to me, but I like them both and continue to see them when I feel like it. Each one has asked me to go steady, but I don't want to do that as my family says I am too young. Is this wrong?"

You are a very smart girl, who defeats the argument of the steady dater who claims she likes to be sure of a boy, so she'll always have him available for special occasions. In your case, you seem to have two on tap, and there is no harm at all in this relationship, even though the boys seem to be trying to convince you that each should be tops in your affections, which is a perfectly natural reaction to the situation.

### Say 'Goodby' When Leaving

By DOROTHY V. WHIPPLE, M. D.

SUPPOSE you were a little fellow about 18 months old. Your Mommy is pretty important to you. She is the smile that makes you shine, hers are the arms that make you feel cozy and comfortable. When she is there you know you are safe and all

right. You need to know that she is around. If she should disappear your world would fall apart and you would be scared.

You are busy in your playpen, putting one block onto another one. Mommy is walking around doing things and all is well. Suddenly you turn around and there is no Mommy. Its scary — where is Mommy? Will she come back? You worry.

Chances are you'd be scared enough to cry. If your cries

bring Mommy then everything is all right again, but if they don't you're apt to be worried and scared. Nobody else, you think, can really take the place of Mommy.

You probably stop crying after a while, but you're pretty uneasy — until Mommy finally does come back. Maybe she vanished because you didn't keep your eyes on her. Next time you'd better be more careful — Watch her, don't let her get out of sight.

If she gets away, even for a minute, you will cry and she will come back. It's just too scary to be left alone, because you're not sure she will ever come back. It would be all right if you knew she'd come back but you can't be sure. It is the uncertainty that is so very scary. You feel that you must keep her in sight to be sure of her.

But let's suppose you are still the same little year - and a half - and you Mommy is working around your playpen. She calls

to you, you turn around toward her and she says "Bye, bye," and waves to you. She says she is going upstairs to make the beds but will be back soon. You may not quite understand what she says but you feel all right, she is going away but will come back soon. She does come back and you didn't mind her being away because you knew she would be back.

As you get a little older you understand more of the words she says. If she says she is

going to answer the telephone but will come back when she is through, you know she will come back, even if you are still busy with your truck and haven't called for her. You are easy about her comings and goings because you know she will do what she said.

Sometimes Mommy is gone quite a long time but she told you she'd be back at juice time, or when you wake up from your nap. Maybe you don't quite like to have her go, but its not scary

A WIDE AGE SPAN was represented Sunday when art students of Mrs. Earl Plank presented a show in the Hereford Community Center. From left are: Mrs. Clemmie Randle, 78; Mrs. H. M. Benefield, 82; and Tommy Stoy, 8-year-old son of Mr. and Mrs. Arthur Stoy. Mrs. Randle and Mrs. Benefield are sisters-in-law. There were 140 pictures shown by 33 artists during the one-day exhibit. THIRTY-FIVE Latin-American men attended the first Cursillo de Cristiandad (Little Course in Christianity) ever held in the Catholic Diocese of Amarillo at St. Joseph's Mission in Hereford Labor Camp last week. The four-day course ended Sunday. The extensive course, which explained Christian principles of life to those who have had little or no opportunity to learn before, was held for men planning to become lay professors. (Staff Photo)

DISTRICT CLERK Lucy Posey swore in Mrs. Lurline Smith Monday afternoon to serve as County Clerk until after the General Election in November. Mrs. Smith was appointed to fill the vacancy created when her husband died April 17 after serving in the post for more than 10 years. (Staff Photo)

SCALE MODEL lay-out of the Hereford Country Club went on display in the First National Bank lobby this week, while actual construction is underway at the club site. The model shows Austin Road at upper left with clubhouse, parking area at left, swimming and wading pool in center, putting greens at lower right and tennis courts at lower center. Some of the facilities will be added later. (Staff Photo)

OUTSTANDING HOME DEMONSTRATION D. dinner at the Bull Barn Monday at noon. Club Woman of the year, Mrs. H. L. Hershey was presented with a check and a certificate of honor during the annual H. Brand publisher Jimmie Gillentine presented the annual award. (Staff Photo)

**By JIMMIE GILBERTINE**  
The annual Home Demonstration lunch at the Bull Barn Monday was an affair that I will long remember, including the largest variety of the finest flavored food I have seen in a long time. There must have been 25 different desserts, including a big chocolate cake that didn't come out of a pre-mix box. It was a tough choice, but I finally spotted some fried pies and latched onto one.

None of the people around me could understand why I would prefer fried pie over the display of custards, fruit pies and cakes. I guess it is just a matter of preference; besides, I seldom get "fried pie" at home and when I do they are generally baked in the oven, which was the case at the HD lunch, but it was still my top choice.

Kids of the present generation have many advantages over days when their parents were children, including things like TV and bubble gum. At the same time our modern youngsters have lost out on several things we enjoyed as kids. Two of the best were eating fried pies and going barefoot. Any youngster who reaches the age of seven and has never walked barefoot across a vacant lot infested with goateads really doesn't know what he has missed.

"Shinny" was a grand old game in the days when Cliff Acker, John Patton and Mike Baird attended the little white school in West Hereford, but it has long since been replaced by newfangled tether ball, rolex and hula hoops. The big difference between childhood games of yesterday and those of today can be attributed chiefly to the fact that games of the 1920's did not cost anything to play -- or kids would not have been playing them. Shinny, for instance, required a long stick, an old tin can, and tough shins. And, as C. C. Rockwell once said, if you didn't have tough shins when you started, you would have before you played very long.

Dandelions are among the few things that have survived, and they seem to be going strong.

Bert Boomer says the best treatment he has found is an oil can filled with gasoline or naphtha. Bert says this will get the grass, too, but it will really kill the dandelions. Rev. Howard Scott says there is no use to have the dandelion contest.

"Just take a look at the lawn in front of our Baptist educational building, and bring the prize on down," he advises.

Political interest has really caught on during the past few days. I never saw so many book matches. I guess they are a good all around gimmick, fairly cheap and always welcome. They are also a good reminder that the first Democratic primary will be a week from Saturday.

Otto Massie was telling me that the courthouse gang will be back in the remodeled building by June 1. I tried to wager him a cup of coffee, but Otto wouldn't bet. You can draw your own conclusions.

Clint Formby thinks he has a good joke on his wife, Margaret, who ordered some special green tulip bulbs. She finally talked Clint into planting them and, just as he was getting through, he found a slip which said: "We are sorry that our supply of green tulip bulbs is exhausted, but we feel sure that you will love the red ones we substituted instead." "All of which is funny enough, but when you stop to consider that Clint did all of the digging and filling, I cannot exactly figure out why he is laughing so much.

There is no question about it, Jack Bradley is a genius. Somehow, he talked Dub Reeves into playing cowboy and riding a real live horse. One thing led to another, and Dub rode for three or four hours. Next day he could barely hobble around, and he still isn't doing too well when it comes to standing erect and walking with a normal stride. Dub still insists, however, that he is without question the best horseman this side of Channel 7.

Mrs. Allen Bell is an old timer in these parts, and one of my favorite people. She says

she guessed the census over 10,000, but wouldn't say how much over. Like a lot of other pioneers, Mrs. Bell laments the fact that she knows so few people in Hereford these days.

"Time was when I knew just about everybody in town," said Mrs. Bell, "but it is different now. Sometimes I come to town and don't run across anybody but strangers."

John McLean got hospitalized a while back and missed the Lions Convention at Borger last week end. Naturally, this upset John a bit, along with a lot of other fellows over the district, including Jack Griffith of Panhandle, Earl Stokes of Phillips, Boyd Meador of McLean and others.

"It just doesn't seem like a Lions convention without John," allowed Griffith.

W. O. Shelton also missed for the first time in several years, much to the chagrin of the Hedley delegation.

Meanwhile, 1920 seems to be one of those rare years when this country will harvest a bumper fruit crop. Mostly it will be peaches, cherries and a few pears. I. O. Crosthwait has one of the few pear trees in these parts. Wallace Cox and Clay Ridgeway are a couple of other fellows who usually have a fruit crop when all others fail. Mostly, though, I am counting on Charley Holt, who is the cherry and grape king of these parts.

J. F. Martin is the only fellow I know who is still holding out for a late freeze -- and even he is beginning to weaken. I gave up two weeks ago. Go ahead and give the Little Woman your overcoat to pack in mothballs. Put those red flannels in the bottom drawer, and throw away the asafetida! Spring is here to stay until hot weather, which is just around the corner. This is an unofficial prediction and any resemblance to what will really happen is purely coincidental. If you don't believe it, just ask my wife.

**DEBATABLE OPINION**  
TALLAHASSEE, Fla. (AP) — A University of Wisconsin psychologist has confirmed what most men suspected all along: That fathers do make better mothers than the mothers.

Dr. Harry F. Harlow told a Florida State University audience that it's entirely possible the woman may be replaced at home by the man.

Said Harlow: "The American male is physically endowed with all the really essential equipment to compete with the American female on equal terms with the rearing of infants."

Rev. Bill Robinson

**Rev. Bill Robinson Will Speak Sunday**

The Rev. William (Bill) E. Robinson, minister of the First Christian Church of Crockett, will be guest speaker at the morning worship service of the Hereford First Christian Church, Sunday, May 1.

Reverend Robinson is the son of Mr. and Mrs. John P. Robinson, 703 E. Fourth Street in Hereford. He is a graduate of Hereford High School, Phillips University, where he received his A. B. Degree, and the Seminary of Texas Christian University, where he received his Bachelor of Divinity in August of 1919.

Services will begin at 10:50 a. m. The public is invited to attend.

**Federation Will Hold Final Meet**

The Deaf Smith County Federation of Women's Clubs will hold its final meeting of the year in the form of a tea Friday, April 29, at 3 p. m., in the First Baptist Church basement.

Burney McClurkin will have charge of the program, presented by the Speech and Music Departments of Hereford High School.

Hostess clubs for the meeting are Summerfield Study Club, Farm and Ranch Study Club, Garden Beautiful Club, Business and Professional Women's Club, and West Hereford Home Demonstration club.

New officers of the Federation will be installed at the meeting.

Mrs. M. T. Rutter presided at a board meeting held Saturday afternoon in the flame room of the Pioneer Natural Gas Company, where plans were made for the forthcoming tea.

Mrs. W. T. Carmichael, chairman of the Fine Arts department, gave a report on the program. Mrs. Ray Johnson met with representatives of the hostess clubs to plan the hospitality.

A report of two recent district meetings were given by several who attended. The final meeting of Seventh District, Texas Federation of Women's Clubs, was held at Lubbock, and the initial meeting of the new "Top of Texas" District was held in Amarillo.

At the latter meeting, Mrs. Ray Johnson of Summerfield was elected second vice-president. The County Federation board expressed its appreciation for the honor of having one of its officers elected to district office. Mrs. Elmer Patterson, incoming president of the County Federation was present for the board meeting.

**Hold Rites For Former Resident**

Funeral services for William Marion O'Neal, of Amarillo, former Hereford resident, were held at 4 p. m. Tuesday in Griggs Pioneer Chapel, Amarillo. The Rev. Arthur Brewer of Canyon officiated.

Mr. O'Neal was a resident of Hereford from 1945 to 1951, when he moved to Amarillo. While in Hereford, he was employed at Ray Suit's Auto Supply, and his wife Jewel, was an employee of Dr. Milton Adam's office.

Mr. O'Neal died at his Amarillo home, 1524 Bellaire, at 9:45 p. m. Sunday following a heart attack. He was 51 years old.

Included in the pallbearers for the funeral was Paul Harvey of Hereford.

Survivors are his wife Jewel; a son, Bill, senior at the University of Texas; brother, Jack O'Neal of Milwaukee, Wisc.; a

stepmother, Mrs. Oia E. O'Neal of Amarillo; a half-sister, Mrs. Ray Haynes of Birmingham, Ala., and one grandchild.

Burial was in Llano Cemetery.

WITH A GRIMACE, Donnie Marcontell slides home too late in the third inning at Levelland Tuesday. With the bases loaded, Marcontell was forced at home by Lobo catcher Doug Cannon, who moved away in an effort to make a double play. Wood screws turn more easily in tight-fitting holes when the threads are rubbed with a slightly wet bar of laundry soap. The soap lubricates the threads as they turn into the wood.

Sparkling Hardware: Want to keep doorknobs and other indoor household hardware looking clean and sparkling longer? After cleaning and drying these items thoroughly, spray a protective coating of shellac on the metal. Spray shellac now comes in aerosol cans.

Clean Chimneys: Dried potato peelings will keep your flues and chimney clean if they are burned in the fireplace. Dried orange and grapefruit peel and rinds are a source of fuel when burned in the fireplace, and also give off a lovely aroma.

Sandpaper: You'll get a lot more "mileage" out of sandpaper if you brush it with a stiff, dry scrubbing brush when the surface becomes clogged with powdered wood or paint. After a brushing, you will find the sandpaper will "cut" again.

## Soaking...

(Continued from page 1)  
"With a few more good rains, and of course little or no hail, I see no reason why we shouldn't have the best wheat crop we have had in the past several years," Patterson said.

The rain should also provide good subsoil moisture for the planting of cotton. Some cotton farmers have already started planting.

The rain should also help potatoes, carrots and onions. In the starting stages of growth. No hail was reported to have come with the rain. In most parts of the county, the night rain fell for about three hours.

the first with one run, Jim Miller led off with a walk, stole second and came home on William Fortner's single.

The second inning was a heart-breaker for Hereford as they failed to score after loading the bases with none out. Pitcher Donnie Marcontell singled, Jim Collier was hit by a pitched ball and Charlie Burrus beat out an infield grounder for a single as Marcontell was tagged out at home. With two away, Charlie Thomas was safe on a fielder's choice, but none of the runners could score.

In the last of the third, Fortner walked for the Lobos, stole second, went to third on a wild pitch and came in as Doug Cannon was safe on a hard smash down the left field line that third sacker Edwin Thomas was unable to control. With Cannon on by error, Guy Davis parked one over the center field fence and Guy Davis made it home s back - to - back with a drive over the left field wall.

Levelland scored its sixth run in the fourth inning as little Jim Miller pounded a homer. It should have been good for two runs. Just previously, Sage had been hit by the pitcher. He stole second during a juggling contest, then got up and almost stole third during a mental lapse by the Whitefaxes.

In the sixth stanza, Levelland scored one more run. Robert Chadwick singled, went to second on an error, stole third and came in on Jim Miller's perfect bunt.

Hereford managed to spoil Sage's shut - out effort in the seventh with a single run. Marcontell was safe on an error, but was erased at second as Collier was safe on a fielder's choice. Moving to second on a wild pitch, Collier came in on Ronnie Potkin's single.

Sage was extremely effective for the Lobos as he allowed just three hits, all singles. He walked none, struck out 12, hit one batter and made one wild pitch.

Marcontell went the route for Hereford, absorbing his second loss against four wins. He gave up seven hits, walked three, struck out ten and made two wild pitches.

Soaking Rain Revives Hopes For Bumper Wheat Harvest

A slow, steady rain Tuesday night revived a thirsty dryland wheat crop in Deaf Smith County and aided farmers growing wheat or vegetables in fields under irrigation.

Farmers in and around Hereford reported that from more than a half-inch to 1 1/2 inches of moisture soaked into the soil. Little or no run-off was reported by farmers Wednesday morning.

A brief shower at about 6 p. m. Tuesday preceded a heavier rain which started at about 9 p. m. Moisture fell until midnight throughout much of the county.

Moisture reports included: Hereford City Hall, 1.02; Bill Cocanougher, 15 miles southeast of Hereford, .70; Earl Lance, Summerfield, more than one inch.

Judging Teams Qualify For State; Conkwright Nominee

Around Town

If you think the rain was had here Tuesday night, you should have been around Littlefield. Coming back from Levelland, I ran into the hardest rain, some of the largest hail and brightest lightning I have ever seen. And what an eerie feeling to drive through Sunnyside community during all this, while ominous clouds hung low and threatening.

But the rain here was one of those "million dollar" things that should almost insure that bumper wheat crop.

Henry Benson really came up with a live one Monday morning when he opened the city's drive-up bill receptacle and found one possum, very much alive and quite angry about being holed up so (Continued on page 7)

Proceeds of the annual city-wide sale will go toward the Kiwanis Club's participation in youth projects. The mops and brooms are made by the Light House Of The Blind of Texas.

Kiwanian Charley Stone said members making house-to-house sales would wear white coveralls, to distinguish them from regular peddlers. Stone said about \$400 in advance sales had been reported Wednesday.
