Funeral services for Henry Lee Goats, one of the Panhandle's earliest pioneers and a former resident of Amarillo, were held Tuesday at Clayton, N. M. He died Sunday at his ranch home in Hayden, N. M.

A native of Brown County, he came to the Panhandle in the 1880's to operate a freighting business between Amarillo and LaPlata then the county seat of Deaf Smith county. He has many old friends still residing here.

A few years later he took up land about 25 miles northwest of Hereford and entered the cattle-raising business. Previously he had settled near Rock Lake in the Adrian community. He often told of Amarillo before it was in its present location.

He moved his family to Amarillo in 1907 and made his home there for many years during which time he operated ranching interests near Hereford, Vega and Friona. In 1917 he moved to New Mexico where he engaged in ranching on a large scale.

His family remained in Amarillo until 1921. Besides his wife he is survived by five daughters, Susie Josephine Wallace, Mosquero, N. M.; Gladys Murphy, Logan, N. M.; Elizabeth Tompkins, Hayden; Louise Axe, Hereford, and Helen Shollenberger, Mosquero; three sons, Henry (Continued on Page 12)

120 Mattresses To Be Made In This County

Deaf Smith County has applied for 6000 pounds of cotton, 1 bale ticking, (1200 yards), and 1000 yards percale. Miss Sadie Lee Oliver, CHDA, announces. The cotton and ticking will be used to make one mattress each for the first 120 families who applied. Applications for 58 additional mattresses and for 121 comforters are on file. When the total amounts to 6000 pounds a second order for cotton will be sent. Out of this order the second and third mattress per family and the cotton comforters will be made.

"Mattresses completed on February 1 under the 1940 and 1941 cotton mattress demonstration program in Texas totaled 186,817. Applications for 1940 totaled 191,990; 1941 applications are still being filed and no report on the aggregate number is available from county home demonstration agents."

Baptist Youth Meet In Austin

Mr. and Mrs. J. R. Stroble, Misses Eunice Caldwell and Kitty Kloe Harlin and Harold Harlin left Monday morning for Austin where they are to take part in a Texas Baptist Youth Cavalcade there this week.

Chief purpose of this Youth movement is in interest of prohibition and amendments to the Liquor Prescription Law. A parade and several meetings were scheduled.

Schroeter Returns From Austin Trip

County Judge A. J. Schroeter, Judge W. Coffee of Silvertown, and several other members of the Texas State Highway Improvement Association were in Austin last week working in the interest of House Bill 688 which would step up eligibility of counties to benefit from the Road Bond Assumption Act to January 1, 1941. If the bill passes and is signed by the Governor, then Deaf Smith county would be in a position to get Highway 51 paved.

Prior to going to Austin, Mr. Schroeter attended a meeting of the association in Lubbock on Wednesday.

Sales Engineer

BYRON E. LOPP, Sales Engineer, who will speak at an open meeting Monday night at the courthouse. Mr. Lopp has had many successful years of experience in sales courses designed to aid persons selling any commodity or service to the public.

Sales Engineer To Give Talk Monday Night

Byron E. Lopp, sales engineer, will speak in the District Court room at the courthouse Monday night at 7:45. The meeting is open to the public and all business and professional men and women are urged to be present.

The meeting is the first of a series of four in which Mr. Lopp will discuss various phases of Modernized Selling. Business men are urged to bring their sales force to the meeting Monday night. There will be no charge for the opening lecture. If a sufficient number of people wish to take a course to be conducted by Mr. Lopp, a second meeting will be held Tuesday night and other lectures will be given a week later on Monday and Tuesday nights, March 3 and 4. Subjects to be discussed are "Modernized Selling," "Personal Development," and "Customer Analysis."

Mr. Lopp spoke at the Lions Club luncheon yesterday and was enthusiastically received. He has spoken at the last two meetings of the Panhandle Implement and Hardware Dealers Association in Amarillo and drew a larger crowd the second year than he did the first. He held the convention spellbound for over two hours this year.

Among those from Hereford who have heard him are S. P. Rosson and Homer Hensley. Mr. Lopp is working through the Chamber of Commerce and carries full approval of that body.

George Conkin Gets Job In Helium Plant

George Conkin, son of Mr. and Mrs. Lee Conkin, left Saturday for Amarillo where he assumed emergency duties as assistant clerk in the United States Helium Plant. He received the appointment last week after Federal officials had made an exhaustive investigation of his qualifications. The emergency job is to last until November.

Conkin had been employed by Fraser Milling Co. for several months. He graduated from Texas Technological College in June, 1940.

Revival At Methodist Church Closes After Successful Meeting

Marked by good attendance, much interest and 37 additions to the church, the Methodist Revival closed Sunday after one week. The meeting was reported to be one of the best ever held here by the Church.

"There were many, many hearty requests for Rev. and Mrs. R. L. Flowers to return," Rev. Marvin B. Norwood reported.

Legionnaires To Register Saturday

Post Commander, Hershel Miller, at a meeting of the American Legion last night, in response to a number of questions asked concerning the registration to be held at the Legion quarters in the City Hall on Saturday, February 22, made the following statement:

"Legionnaires and all World War veterans filling in the form and providing the information in the questionnaires as to the individual's availability and qualifications for voluntary emergency service in no way increases his obligations beyond that of any citizen of the United States. Attention is called to Article II, Sec. 1, of the American Legion National Constitution which provides: 'The American Legion is a civilian organization; membership therein does not affect nor increase liability for military or police service.' The emergency duty which may be requested as an outgrowth of this questionnaire will otherwise be PURELY VOLUNTARY IN CHARACTER and, without remuneration unless otherwise provided for by agencies of government responsible for requesting such service or undertaking."

Commander Miller is very anxious that all Legionnaires and veterans of the World War register on the 22nd, and show willingness to cooperate in this undertaking. Those who desire to register before that date, and who cannot be here on the 22nd, may register at the office of the White Fake Printing Company, where blanks may be obtained. MAYOR PADDOCK ENDORSES Full endorsement of the American Legion nationwide plan to register all Legionnaires and World War veterans generally on a volunteer basis, for any (Continued on Page 6)

Protestants To Observe World Day Of Prayer

A World Day of Prayer, to be celebrated simultaneously on February 28 by thousands of Protestant Church members throughout the world, will be observed in Hereford when women of all the Protestant churches gather on that day at the First Christian Church. Mrs. John Olson will be leader. The meeting will start at 3 p. m., Mrs. H. M. Redford, publicity chairman, has announced.

The idea of a Day of Prayer originated in the latter part of the 19th century and created so much interest that in 1920 women of all denominations in the United States and Canada united in a day of prayer, selecting the first Friday in Lent as the date. At the request of many persons from far away the World Day of Prayer was first observed in 1927. In 1936, Christians of 50 countries kept the day together.

Church Census Next Sunday

That a church census of Hereford will be taken Sunday by the First Baptist Church was announced this week by Rev. W. E. Barnes.

Teams from the church will take the census. "Any kindness and cooperation shown the visiting teams will be greatly appreciated," Rev. Barnes said.

Recordings To Be Made Of High School Band And Orchestra

The high school band and orchestra will have an opportunity to learn how they sound to others after recordings which are to be made Thursday night, February 27, are completed.

The public is invited to hear the band and orchestra during the recordings at the high school auditorium at 7:30.

Get Out The Old Shoes! Troop 2 To Collect For Needy

Have you some old shoes in your closet? If so, here's your chance to get them out of the way and do a good deed, too.

Troop 2, Boy Scouts, will gather all the old shoes in Hereford Sunday afternoon and turn them over to the County Welfare office for use by needy persons. A. J. Schroeter, scoutmaster, announced today. Scouts will start collecting at 1 o'clock so have the old shoes on your porch by that time.

Mrs. Dyalitha Brady, county welfare supervisor said today that many children and adults in this community were in pitiful need of shoes to wear. Many have been without adequate protection in the winter weather.

Any old shoe, no matter how dilapidated, may give a less fortunate person some comfort. Shoes received in the drive will be repaired when necessary, Mrs. Bradley said.

Just one more thing: Please tie each pair together with the laces.

Do Your Banking Business Before Saturday This Week

If you are planning to do any banking business Saturday, change your plans and do it some other day.

First State Bank and First National Bank will be closed Saturday in observance of George Washington's birthday. The postoffice will be closed, but mail will be put in boxes as usual, J. R. Lipscomb, postmaster, announced.

Also to be closed Saturday is the Selective Service Office in the courthouse.

Dr. R. Thomsen To Be Speaker At C-C Banquet

Dr. R. Thomsen of Amarillo, one of the best known speakers and authorities in this section, has accepted the invitation of the Hereford Chamber of Commerce and will be guest speaker at the annual banquet here March 11, James Aiken, Toastmaster, has announced.

General Meeting Of All Potato Growers Called

A general meeting of all potato growers in the Hereford district has been announced for Monday night in the county court room at 7:30 where several problems affecting the entire district are scheduled for discussion. The meeting was announced by Glenn Boardman.

A proposed amendment to the State Inspection Law is one of the questions to be discussed. All potato growers and those who expect to grow potatoes this year are urged to attend, as the problems to be discussed will affect all growers.

Miss Alma Hall Is New High School Teacher

Miss Alma Hall, who has taught at Dalhart several years, and whose home is at Hedley, assumed duties at Hereford high school Tuesday morning. Supt. Knox Kinard announced. She takes over work which was formerly done by Miss Ethel Rice.

Miss Hall did her undergraduate work at West Texas State College, Canyon, and her graduate work at the University of Texas. She is a member of the Executive Committee of the Texas State Teachers' Association.

Glee Club And Band Clinics To Be Held Here

Singers and bandmen will gather in Hereford for two big days Friday and Saturday, March 21 and 22, for Glee Club and Band Clinics to be held at the high school auditorium on those dates, it has been announced.

Dr. Wallace R. Clark, head of the Music Department, West Texas State College, Canyon, will direct the Glee Club clinic on Friday and Oscar Wise, director of Amarillo high school band, will conduct the Band clinic on Saturday.

A massed vocal concert Friday night at close of Glee club clinic will feature the best voices among those attending. A massed band concert Saturday night will climax the band clinic. Both concerts will be held in the high school auditorium and will be open to the public.

Many schools from this territory are expected to participate.

Public Invited To Discuss Taxes Tonight

People of Hereford and territory are invited to hear and participate in a discussion on Taxes tonight at 7:30 in the High School Auditorium. Miss Irene Crawford, debate director, has announced. Debaters will give the general background of taxes, such as natural resources taxes, and the public is invited to join in the discussion to follow.

John I. Willoughby will preside. Debaters are Wilma Higgins, Dora Lee Burgess, Margaret Olson, Mondelen Miles, Calvin Brumley, F. L. Lucas, Donald Ray McCullough and Richard Petersen.

The discussion is to be informal, Miss Crawford said.

County Folks Attend Amarillo Credit Meeting

Two hundred sixty-seven members, their wives and guests attended the seventh Annual Meeting of the Stockholders of the Amarillo Production Credit Association held Wednesday, February 12, in the American Legion Hall in Amarillo, Texas. Byron Gist, resident of the Association presided.

Members from Deaf Smith county present included Joe Beckman, E. R. Biggs, C. F. Burk, Edward N. Czerner, Travis M. Dameron, Herbert Friesman, Frances Hess, Joe L. Hoffman, T. C. Ivey, Mrs. Sadie H. Kirby, Q. N. Lewis, Carl Luke, John J. Paetzold, Clyde W. Russell, Sylvester Slagle, Robert E. Wagoner, S. S. Williams, and S. O. Wilson. Wives of members present included Mesdames Beckman, Hoffman, Ivey, Lewis, Luke, and Slagle.

Guests from this county included Miss Sadie Lee Oliver, J. E. Kirby, Mr and Mrs. E. K. Pinnell, Elvin Czerner, J. S. Stocks, Mr and Mrs. J. M. White, H. A. Hoffman, Charlie Williams and Miss Elizabeth Ann Oliver.

Jno. L. Hammond from Happy reported on the activities of the Board of Directors for the past year and stated that in seven years the Amarillo Association has grown from 9 members with \$45 invested to 162 members with approximately \$85,000 in B stock and reserves built up from earnings to protect members' investments. He further stated that at the end of 1934 the Association had 41 members who had used \$104,000 (Continued on page 12)

Due to desire of the show committee to secure best judge possible for the event, Hereford's Fat Stock Show has been moved up one day and will be held February 28 instead of March 1. A. R. Bateman, county agent announced this week.

K. J. Edwards, who holds a national reputation as a live-stock judge, will make the decisions on the animals in the show here. G. W. Barnes, who was to have been the judge, had already contracted to judge at another show on March 1.

The show committee composed of H. G. Conkright, Lee Hopson, Mal Stewart, Cecil Guseman, W. E. Dameron, John Pittman and Wiley Roberson will meet Saturday at 2:30 in the county courtroom to perfect plans for the show.

From 30 to 40 calves will compete for prizes totaling \$17.50 and in addition each boy entering an animal will receive \$1 whether the calf wins or not.

Judging will probably begin at 10 o'clock Friday morning, February 28, and the auction sale of calves will probably start at 1 o'clock.

Services For Mother Of Mrs. Clutter Held

Funeral services for Mrs. W. F. Brittain 51, mother of Mrs. Bill Clutter of Hereford, were held Saturday from the First Baptist Church at Silvertown. Mrs. Brittain died Friday in the hospital here. Rev. Ponder of Plainview officiated, assisted by Rev. J. B. Leveest of Silvertown.

Survivors include the husband and three children: Mrs. Clutter, Mrs. Glen Down of Surray and W. F. Brittain Jr. of Turkey. Interment was in Quitaque Cemetery.

Mr. and Mrs. Clutter attended the services.

Powerful New Service Equipment Added By Milburn's Station

Addition of powerful new vacuum cleaning and greasing equipment, designed especially to thoroughly clean embedded sandstorm dust and all other dirt from car upholstery and floor mats and to force frozen grease fittings on all cars and trucks is announced this week by Emmett Milburn of Milburn's Service Station.

"The most powerful vacuum cleaner in the Panhandle" is the way the new cleaner is described. "I've looked a long time for a cleaner like this and it is the only one I've found that will really get the job done," Mr. Milburn said. "We'll gladly demonstrate it to anyone."

The new grease gun exerts 6,000 pounds pressure, enough to force frozen fittings and flood hard-to-get-at bearings with plenty of the proper grease. The gun is designed to handle any greasing job, no matter how difficult.

"We'll demonstrate this, too," Mr. Milburn said.

Employees at Milburn's Service Station located at the corner of Third Street and Sampson are Marvin Thomas, manager of the service department who has had three years experience as a mechanic; J. T. Carroll and Billy Davis Jr.

BULL

By HOMER FOX

Really and truly it is not fair to call on me to follow Jimmy in this column because he is a pretty fair writer and pretty often he says some half-smart things, but he can't impress me about his freight trains, 'cause I got kicked off one when I was a kid; was riding in a coal car about half full of coal and the wind was blowing 90-miles-an-hour. I never got over it. I still think that R. R. should pay me for what time I did ride. But I think most of us are pretty proud that we have Jimmy in the Brand organization. His hair is getting a little thin in front but I don't hold that against him since I found out what caused it; Ox Emmons can tell you. 'Course he wasn't very smart when he registered as 31 'cause he didn't have a chance to get away with that; there's a lot of us old devils that would like to be 31--but writing it on paper just wont pull these old arches back up. We were talking the other day about Bridge; don't believe there is another town this size that has as many Bridge players as Hereford. Guess at that I really mean Lady Bridge players 'cause these old boys just go along and make an evening

of it. Harold Close told me the other day that he had a cinch on high score next time he played 'cause he had some cards that were marked. I told him that wouldn't make any difference; he couldn't play them right if he had them. That bird had a perfect hand one night and bid 8 and went set 2. Course he couldn't make 8, but how could he go set one with a perfect hand? We soon found one of his aces in Jack Waylands pocket.

Men can't play bridge. They talk too much, they don't pay partners tell them and they any attention to what their ways want to double a cinch bid. They like to play and always want the bid themselves and most of the time when they get it and their dummy is a cinch they will manage some way to lose their King and a couple more to go set--and any time you double one of these monkeys he will redouble every time. Saw an old boy the other night give his partner a double hike for game and when he spread his cards he didn't have enough cards to take one trick, if they had all been trumps. When I do that--and I do it pretty often--I lay my cards down and go to the bath room. Your partner can say what she thinks that way and you don't have to sit there and sweat so much. I don't mean that I can show these birds how to play Bridge, 'cause I am the World's worst. I know how many aces are in a deck, but if I get all of them I don't know what to do with them. I know a couple of old boys that framed up with a bunch of foot-work signals to beat their wives one night, they kicked all the hide off each others shins and wound up with a fair golf score. I am not saying anything about them women except they

are all good. They don't play signals, but they know what their partners are holding and they don't talk and if you double one of them you had better have what it takes and boy they can get plenty serious. They just play Bridge. Played in a bunch one night that had all the fines on and it was hard boiled and cold blooded proposition. I had to quit. Wasn't long until I had lost twice as much in fines as I could make in one night. Four very simple rules--or rather indicators--to go by when playing with men are-- Let me see your ring--Diamonds. You go out and dig--Spades. Will you be my Valentine--Hearts.

My Puppy has feet--Clubs. Course if you can't get them to concentrate, these are no good; honest, though, I don't know anything about Bridge and play just about like Dr. Willis pitches soft ball.

Charlie Hoover and J. T. Guinn were in Thursday and some smart alec said boys I looked out west yesterday and it looked like the dust might be blowing out your way, they said they did have a couple of whirl winds that stirred up considerable dust. Guess though a subject like that is just as well left alone, too much dirt in it.

Will always remember an old fellow in Southwest Oklahoma and every time we have a sand storm, I think of him. He lived out West of town in the edge of the Gyp hills and he stood "Ace high" with most of the kids. In the first place, his name was King; he owned a Bear, he had the best set of whiskers and Moustache you ever saw and, best of all, he raised Shetland Ponies and would always let us ride them. We were out there one Saturday and the wind was blowing pretty hard and wasn't much fun riding--so the old man fired up his pipe and proceeded to tell us stories and this one stuck--Quote: "Some years before that it was dry as a powder house, the grass was about gone and the Country as a whole was absolutely parched. The wind changed to the East and got harder and harder, what few barns and corals they had were laid flat. His house was okey because it was a half dug out. In the morning of the third day as the sun came up they could see a streak of a cloud just above the horizon; just enough to hide the sun momentarily and then it started raining--and such a rain no man ever saw. Almost washed the Earth away, and the sun was shining and it rained all of that day and the clouds never did get overhead. I still wish I had asked him how far away those clouds were. Anyway, I believed that story all my life until a few years ago. I have actually looked a lot of times to the Southwest to see that ribbon of a cloud at sunset that would bring us that same rain. Maybe cow chips, but no moisture. That lie didn't hurt me, but it does sorter hurt my heart to have to lose Faith in old man King's story and I still cling to a faint hope that it

was actually true. In this old War torn World with times changing so fast that we can't see half of it, all of us too busy to see some unfortunate that has fallen by the way side and apparently our hearts are chilled against any softness what so ever and we almost lose Faith in any kindness of mankind. Then a simple little thing like an old Airdale dog wakes us up to the fact that there is lots of kindness and many soft good hearts in this world. Laddie died and men and women alike listened with moist eyes when it came over the air. What Laddie meant while on Earth. I don't know, but I do know that he left a lot when he left here. Faith, boy I may see Old Man King's rain yet.

DID YOU EVER SEE-- Lama Beavers refuse to talk about fishing? Ed Hedrick needing a shave? Boyd Knox wearing suspenders? Slat Gilliland paying for his own drink? Onias Carroll missing a water meter? Noah Ewton when he wouldn't talk? George Beams without a story to tell? Leonard Foster in a bad humor? Pete Murchinson remembering where he lives? Jim Lipscomb parting his hair in the middle? Phil Radovich not speaking? Bill Knox wearing George Muse pants?

WIND (With apologies to Joyce, of course.)

I hope that I shall never know Another wind that blows sand so.

A wind whose fierce wrath is bound To take all dust from off the ground,

Hang it in the trees, suspend it in the air, Drive it in my face until it makes me swear,

Drive it through the windows, drive it through the door,

Blow it in the house and pile it on the floor. A cool soft rain the gods may send, But only hell could raise this wind!

Vega News

MRS. D. E. MCKENDREE Vega, and the entire trade territory have been in the midst of terrific dust storms this week, reminding us of the spring of 1935. Damage to the wheat crop can not be estimated at this time.

At the height of the dust storm on Wednesday, the most severe of all days a four car highway crash happened east of Vega. On account of lack of visibility none of the drivers were driving fast enough to cause serious injuries to the occupants of the cars, and slight damage to the cars.

Members of the Vega Kiwanis club, their wives and invited guests met in the high school gymnasium for a get-acquainted party. There were about 75 gathered for the occasion. Games and refreshments were enjoyed by all, the program being arranged by E. L. Krahn and Raymond Thompson.

The Home Demonstration class of girls entertained with a tea Thursday from 3 to 5 P. M. which was enjoyed by all girls in the class with the mothers of the girls as special guests. The color scheme of the room and table decorations carried out the idea of St. Valentine.

Mr. and Mrs. Austin Hall of Fritch visited in the homes of their parents, Mr. and Mrs. J. L. Watkins and Mr. and Mrs. R. C. Godwin, Sunday.

Mr. and Mrs. M. H. Walker, who has been employed by Everett Wiseman, left Saturday for Phoenix, Ariz., where Mr. Watkins will work in the lettuce sheds.

Word was received from Bishop D. McKendree and Jimmie Boles who left Vega Tuesday for Lubbock to enter the army, that they enlisted in the coast artillery and were being sent to San Francisco, Calif.

C. N. Bell of Claude visited his mother, Mrs. Mora Bell, Friday. Miss Lorene Valentine, who is a nurse in Carlsbad, N. M., is

visiting her parents, Mr. and Mrs. R. C. Valentine also relatives and friends in Hereford.

Mrs. L. L. Ledbetter, with Mrs. D. M. Voyles and Mrs. W. M. Cotton, co-hostesses, entertained the Worth While Demonstration club in Mrs. Ledbetter's home Friday afternoon. About 16 members were present and one guest, Mrs. Warren of Chicago, Ill.

Mrs. J. S. Holder of Borger, spent Friday night in the home of her aunt, Mrs. Cora Jinks.

A. M. Miller went to Plainview Saturday to meet Mrs. Miller, who has been visiting in Breckenridge and Plainview for the past 10 days.

Mrs. C. R. McDaniel returned to her home in Los Angeles, Calif., after spending the past two weeks with her mother, Mrs. George McGowan.

D. S. Jinks of Mangum, Okla., is visiting Mrs. Cora Jinks and family.

Mr. and Mrs. Glen Boydston recently purchased the house formerly owned by Mrs. Ruby Strabu and are moving into it. Our deepest sympathy goes out to the parents and other relatives of Marshall Long of

Adrian, who passed away in the North West Hospital Saturday morning from injuries sustained in the boxing bout of the Golden Gloves Tournament held in Amarillo a week ago.

The Vega P. T. A. had a very entertaining program, Tuesday afternoon in the High School auditorium. After the program and business meeting they adjourned, inviting everyone to the home economics room where all enjoyed a social hour. Refreshments of Angel food cake and coffee were served to about 33

members and guests. Gene Hendricks who is in army training in Fort Lewis, Washington, visited his uncle, W. D. Hendricks and Mrs. Hendricks Tuesday and Wednesday, enroute to Dallas to visit his mother.

Cowboys Sang In Rhythm With Horse's Gait

"Rhythm on the Range" is not a quickie, devised as a movie title; it is a concise statement of the historical background of the cowboy song.

So says, Dr. Newton Gaines of Texas Christian University, an authority on the matter.

"The rhythms of the songs have been devised—probably quite unconsciously—to fit the gait of the horse," Dr. Gaines points out.

"A trot will fit the jerky time of 'Chisholm Trail.' 'A-Walkin' the Streets of Laredo' is sung to the easy swing of the lope. The slow mournful songs of the night herd, such as 'Bury Me Not on the Lone Prairie' and 'Barbara Allen,' are adapted to the walk of a horse.

"If the cowboy didn't sing to the movement of his horse, he'd get the breath knocked out of him," Gaines comments.

"The cowboy songs were developed on the great cattle trails of the '70s and '80s, that stretched from Texas to Montana. The cowboy sang to his cattle to keep them moving in the daytime and crooned to them to keep them quiet at night.

"The 'ki-yi-yupe' refrains of the songs were developed to give the cowboy more opportunity to shout at the cattle."

Growing of Alfalfa has paid New York farmers the most for the time spent on it for the past 25 years. The return averaged 68 cents an hour for labor.

Be Prepared

By A. R. BATEMAN

Just as long as we have West Texas we will have wind and some years we will have moisture when needed and others we won't. There are 549,000 cultivated acres within the County, these acres are farmed by 800 different producers, some of which live in different States and many different counties of Texas and the remainder reside within the county.

Those who desire to only produce small grains are the ones who usually suffer the most from soil erosion and it isn't the farmers who do the poorest job of farming in many instances but all who do not take into consideration the lack of moisture. It is true that possibly the wheat producer takes more risk than any other type of farmer, in fact he is very close to being a gambler. Due to past experience and observations I am of the opinion that the safest way to insure small grains is through a strip system of farming. It is true that some producers are not interested in row crops due to lack of livestock but possibly his farm would be a better farm if he would plant row crop and put some livestock on it. As crops grown on the farm each year they are depleting the food value and the only means of restoring fertility to the soil on non-irrigated farms is through livestock. Many farms are so situated that well water is very difficult to find, however, there are only a very few farms that can not support either cattle or sheep.

If all small grain producers will use the strip method which may be either row crop or listed strips throughout his farm he will not have to worry with his soil eroding. He may have a strip of wheat, a strip of listed land that he will fallow after blowing season and a strip of row crop.

Many farms within the County have eroded to such a degree that they cease to be a wheat farm. These should be planted to row crop until stabilized, which will take, in many cases, from 3 to 5 years before sufficient humus has been added to the soil.

The question is often asked, "Why do people stay here?" the solution is very simple: It is so beautiful after a storm.

Let's Cook Something

- 1 green pepper
- 1 small can tomatoes
- 1 carrot (diced)
- 1 onion (chopped fine)
- salt and pepper

Pour this mixture over tongue and bake in moderate oven for 1 hour or more. Mrs. Broadwell says that lately she has been boiling a slice of ham or a ham hock with the tongue and that it really does something for it.

If you want to have something really worth writing home about, remove the tongue from the casserole very carefully and place it on a large platter or chop dish, still in its original shape, and pour the sauce in which it baked over it. Surround it with peaks of fluffy mashed potatoes sprinkled lightly with cheese. Serve hot.

The next time you feel the urge to serve something that is just a little different try Mrs. Broadwell's recipe for baked tongue. She has used it for years and has changed it many times, each time for the better, until its almost perfect and fool proof, too.

After the tongue has been cleaned thoroughly, cover with water and season, then boil until tender. Skin the tongue carefully and place in casserole, slice and leave in its original shape. Combine the tongue broth with:

Garden Club To Meet February At Start Of Another Season

The Hereford Garden Club will open its year's work with a meeting at the home of Mrs. F. H. Oberthier on Friday afternoon, February 28. Once again it will endeavor to enlist the cooperation of Hereford's civic minded residents in the beautification of both private and public properties.

The Garden Club was organized October 29, 1937, with Mrs. Homer Brumley as its first president. It started with nine members and last year the limited number of twenty members was completed. Its purpose is to stimulate the love of gardening, to increase the knowledge of horticulture and to aid and encourage civic plantings. Real civic service and civic education is not something isolated; it must be a part of the community life. So civic beautification for which the Garden Club stands becomes real as it is shared through activities planned for community betterment.

Three annual flower shows have been sponsored by the group and other activities include garden parties, entertainment of out-of-town garden clubs, annual entertainment for husbands and timely advice given through the press concerning the cultivation of flowers and shrubs suitable to this locality. This year the club has adopted

ed the aster as the club flower. It is not a lazy-man's flower but with a little care grows well and abundantly in this section. At the first meeting Mrs. C. H. Dyar will discuss the different varieties of asters and Mrs. Jim Lipscomb will tell how to cultivate for best results.

One project that the club is considering for adoption this year is the beautification of the small plot of land between the Sante Fe Railroad and Highway 60. Tentative plans are being made and if enough interest and cooperation can be obtained, a well arranged park may be developed.

Officers of the club this year are Mrs. N. E. Gass, president; Mrs. C. H. Dyar, first vice-president; Mrs. F. M. Kester, second vice-president; Mrs. W. A. Dobbins, recording secretary; Mrs. L. H. Shore, corresponding secretary; Mrs. E. Ramey, treasurer; Mrs. D. H. Alexander, parliamentarian; Mrs. Ralph McCullough, federation counselor; Mrs. J. P. Slaton, historian and Mrs. F. H. Oberthier, reporter. Members of the year book committee were Mrs. E. T. Brooks, Mrs. Ralph White, and Mrs. N. E. Gass.

Mrs. Russell Ashbill of Yukon, Okla., was a house guest in the home of Mr. and Mrs. C. F. Moore last week.

Mrs. Haile Entertains With Bridge Party

Among the many Valentine entertainments in Hereford last week was the afternoon bridge party given at the home of Mrs. Meade Halle Thursday afternoon.

Red roses predominated in the decorations with white pottery flower containers and red and white sweet peas repeating the valentine colors. Bridge tallies and prize wrappings also carried out the motif.

Prizes were awarded to Mrs. Kellar Muse high and Mrs. Knox Kinard second high. Cut prizes went to Mrs. Sherman Morgan, Mrs. Glenn Weir, Mrs. J. M. Posey and Mrs. J. T. Gilbreath Jr.

Others playing were Mesdames Ralph Roden, J. W. Witherspoon, Paul Mathers, N. E. Milburn, Grant Fuller, R. L. Craner, Frank Gyles, Alton Fraser, Henry Sears and E. B. Hicks.

CLUB MEMBERS ARE ENTERTAINED

Members of the Coterie Club were entertained Friday afternoon when Mrs. C. F. Moore was hostess at her home with an afternoon bridge party.

Mrs. Grant Fuller played high in the games for score award and a salad course was served after the games to Mesdames F. L. Lucas, A. R. Bateman, E. B. Hedrick, Colby Conkwright, Knox Kinard, E. B. Hicks, Grant Fuller, J. W. Witherspoon and the hostess.

KNITTING BEE ENTERTAINS CLUB

Mrs. Knox Kinard held a knitting bee at her home Wednesday for members of the Knitting Club. It was the regular luncheon meeting and the tables were laid with a cutwork cloth and the centerpiece was fashioned of red blossoms to form a mirrored valentine. Lighter tapers observed the valentine colors and place cards were heart shaped boxes of candy in red satin.

Mrs. Colby Conkwright was a special guest of the club and members included Mesdames Travis Dameron, J. T. Gilbreath Jr., Woodrow Ireland, Ralph Hastings, W. J. Stanford, Ernest Medkief and the hostess.

Child Study Club Meets At Home Of Mrs. James Aiken

A meeting of the Child Study Club was held Thursday afternoon at the home of Mrs. James Aiken Jr., with Mrs. John Sims as co-hostess.

Mrs. G. W. Newsom was appointed chairman of a committee to plan for work of the club and arrange new year books for the 1941-42 club year. Others on the committee are Mrs. Leo Forrest and Mrs. Cawthon Bryant. Appointed to serve on the nominating committee were Mrs. Jim Williams, chairman, Mrs. Merlin Kaul and Mrs. Cecil Lady.

Members of the club voted to cooperate with the American Red Cross and the National Needlecraft Bureau in sewing for children of war-torn countries.

Mrs. Leo Forrest read a paper based on discussions found in "Newer Ways With Children," by M. V. O'Shea, "Know Your Child" by Louis Monash, and "We, the Parents" by Sidonie Matsner Gruenberg. More recently we began to put new meanings into the word health, including health of mind and spirit as well as health of body. "We can score ourselves as parents by the number of times we have to resort to the use of punishments and rewards," Mrs. Forrest said. She concluded her talk by leading a round table discussion on "Problems arising in the home because of modern innovations."

Members attending were Mesdames C. R. Lady, George McConnell, Jim Williams, Leo Forrest, G. W. Newsom, R. P. Cone-way, Merlin Kaul, C. P. Grimes, G. M. Hudson, Elmer Patterson and the hostesses.

A recent guest of Mr. and Mrs. Glenn Snyder was their niece, little Miss Georgianna Pugh of Tulsa, Okla. Georgianna spent last year in Hereford in the Snyder home.

LITTLE TEA-PARTY

A little girls tea party entertained six little girls last week when Joan Moore was hostess at a Valentine party at the home of her parents, Mr. and Mrs. C. F. Moore, on East Third Street.

Guests brought their dolls and the afternoon was spent chatting and playing. Valentine cookies and tea, was served with the little hostess pouring.

Attending were Sharon Dee Moore, Marion Jo Wilson, Irene Witherspoon, Betty Culpepper, Patsy Wiltshire and the hostess.

Catholic Women Attend District Diocesan Council

Delegates from Hereford, Dalhart, St. Francis, Amarillo, Panhandle, Bovina, Umberger, Canyon, Happy and Pampa were present for the district meeting of the Diocesan Council of Catholic Women held in Umberger Thursday.

Mrs. E. Loerwald acted as secretary in the absence of the regular secretary, Archbishop Lucey, who is well known in Hereford, was the principal speaker.

St. Theresa's parish in Panhandle extended an invitation for the next meeting.

Those attending from Hereford were Mesdames Ed Loerwald, Gene Loerwald, Felix Urbanczyk, Joe Gaetz, Frank Wilhelm, John Paetzold, Miss Agnes Albracht and Father Nathaniel, pastor of the Hereford Church.

Mrs. Ed Loerwald is Diocesan chairman of libraries and literature and Mrs. Gene Loerwald is district chairman of Shrines in the Home. The remainder of the group represented the Hereford Parish Council of Women of which Mrs. Felix Urbanczyk is president.

LUNCHEON CLUB IS ENTERTAINED

After an enjoyable luncheon down town, members of the Wednesday Luncheon Club were entertained with bridge at the home of Mrs. J. C. McCracken last week.

A special guest of the club was Mrs. H. K. Fox and prizes for high scores were awarded to Mrs. Jack Wayland and Mrs. S. P. Rosson.

Those present were Mesdames W. M. Emmons, Oscar Easley, S. P. Rosson, Jack Wayland, W. L. Davis, C. C. Rockwell, Alton Fraser, the hostess and Mrs. Fox.

GIRLS ENJOY PARTY

The eight year old girls class of the First Baptist Church enjoyed a Valentine party in the home of their teacher, Miss Eunice Caldwell, Thursday afternoon from 3 to 5 o'clock.

Games were played and a Valentine box enjoyed. Refreshments were served to Gayle Marie Foster, Georgiana

Don't Do This to Start Your Car

USE HIGH TEST PHILLIPS 66

Crossing your fingers won't help start your cold motor. What you need is not superstition . . . but **super high test.**

The extra high test of Phillips 66 Poly Gas does the trick every time, even if your car has been out in freezing temperature for hours.

You never have to hope and wonder, you never have to wish and worry, no matter how low the thermometer drops. As it goes down, we keep raising the test of this wonderful winter motor fuel.

Month by month its volatility goes up, yet the price stays the same. You pay not a penny more for Phillips 66 Poly Gas than for ordinary low test gasolines . . . because Phillips is the **WORLD'S LARGEST PRODUCER** of natural high test gasoline.

For amazing, fast starting . . . for snappier performance and more mileage . . . we sincerely believe Phillips 66 Poly Gas is your best buy in cold-weather gasoline.

Try a tankful, and see if you don't quickly feel that difference in starting speed, faster warm-up, and smoother power . . . all at no extra cost!

Mr. and Mrs. J. J. Clark were in Ruidoso, N. M., the past week end. They accompanied their little granddaughter, five year old Sharie Wilson to the home of her parents, Mr. and Mrs. O. L. Wilson. Sharie had spent four weeks here in the Clark home.

We've put one over on the yardsticks

Here are FOUR NEW ADDITIONS to the BUICK SPECIAL Line that Compact Motorcar Bigness into Handy Size

TIME was when you measured a car's ability and standing by the yardstick distance from bumper to bumper.

But not any more — not since Buick made ready the four new additions to its 1941 SPECIAL series that are built for big-car travel tastes — and small-car garages!

They are cars to take the measure of almost anything on the road in the lift and life of their 115-hp. Buick FIREBALL engines.*

They are cars with room for all the family, with all the little Buick luxury touches, with the unrivaled comfort of Buick's all-coil springing and steady-going roadability.

But bumper to bumper they are shorter — so they fit your garage.

Their wheelbase is 118 inches, so they park like a bicycle and fit through traffic with ridiculous ease.

They go farther on every gallon — farther, even, than other Buicks.

Buick SPECIAL 4-door Sedan, model 47, \$1021.*

So you can't take their measure with a yardstick.

You've got to measure them by what they do for you — in the easier handling, the bigger thrill, the extra convenience they add — and by prices made lower by their new compactness.

How about seeing them — now?

BUICK PRICES BEGIN AT \$915 *delivered at Flint, Mich. State tax, optional equipment and accessories — extra. Prices subject to change without notice.

Individual Health Urged As Part Of Preparedness Program

"The practice of medicine is frequently referred to as 'the healing art.' While this conception of the duties of the family physician is and always will be vitally important, it is by no means necessary for one to be ill in order to benefit from the services of which he is capable. To limit one's interest in the family physician to the care of sickness is to disregard entirely his capabilities in connection with the attainment and maintenance of the highest possible individual vitality," states Dr. Geo. W. Cox, State Health Officer.

"The present emergency is emphasizing the need of physical fitness. All-out preparedness, with the stresses and strains associated with high speed production of war materials and the yet unknown factor of personal cooperation in the defense program which may be required at every one sooner or later, no longer makes half-way individual health measures exclusively a personal concern. While neglecting to achieve maximum personal health has always been an unwise policy, this attitude, in light of the present emergency, represents also a lack of patriotism.

"It may be stated that today's armed forces have improved their preventive health measures so that the man now meeting the physical requirements and joining the service will belong to a highly protected segment of the nation's population from the standpoint of both disease prevention and health promotion. Never-the-less, the majority of Americans, however closely related their work now may be or may become to national defense, are not favored by this unusual protection. Thus, individual initiative will have to be relied upon instead. It is at this point that a full appreciation of the services that can be rendered by the family doctor can be applied to individual and national advancement. As a discoverer of latent physi-

cal defects, he has at his command information and modern methods of detection. To give the family physician an opportunity to look one over physically for the purpose of detecting any insidious trouble is merely to play safe. If no defects are found, one still will have the advantage of knowing that basic physical fitness exists. If perchance something comes to light, having taken time by the forelock, the opportunity of stopping serious difficulty exists. Then, too, this contact with the family doctor affords an opportunity to discuss with him the living habits which make up one's daily life. It is not too much to say that many adults, to attain the greatest vigor of which they are capable, will need some amendments to their habits. These the physician will be in a position to indicate.

Considered from these angles, individual health becomes part and parcel of the national preparedness program. Patriotism, as well as plain common sense, thus indicates the necessity of using the family physician not only to make one well, if ill, but to help develop a maximum amount of individual health and vigor.

TEXAS OUT-O-DOORS

Texas anglers will have a chance to catch the survivors of 7,454,962 fish in lakes and streams of the state. That is the total number raised in the fish hatcheries of the Texas Game, Fish and Oyster Commission, the executive secretary announced today after receiving a final report from the hatcheries by the chief aquatic biologist of the Department. Improved methods of fish production along scientific lines enabled the Game Department to show an increase of 2,139,201 fish distributed in 1940, a gain of 36 1-2 per cent over 1939, when 5,115,761 fish were distributed.

The gain of more than 2,000,000 fish produced by the hatcheries was made despite the fact the Huntsville fishery was being re-modeled and produced only 80,864 bream compared with 869,633 fish in 1939. The hatchery will be back in full operation this year. The Olmito Hatchery has been improved considerably and will also be at full peak. The Jasper Hatchery is being improved by the addition of thirty ponds, but will be in production and the executive secretary announced that the game department may be able to distribute 10,000,000 fish this year.

For the first time in the history of the Department, three hatcheries went over the million mark. The Ingram Hatchery, in the Hill County, led all the fisheries with a total production of 1,237,578 fish distributed. The Cisco hatchery was second with 1,100,835. The third hatchery to go over the million mark was Lake Dallas, where 1,026,310 fish were grown. The Dundee setup produced 919,388. Other hatchery production figures: Medina, 723,440; San Angelo, 702,663; Jasper, 680,250; Tyler, 613,361; Olmito, 352,275 and Huntsville, 80,864. Bass led the hatchery production list with 3,245,656 being raised and distributed. Bream were second on the list with 2,589,897, while catfish were third with 845,242 and crappie were fourth with 565,171.

The Texas hatcheries liberate few fry fish (fish approximately one-half inch long) because, while large production figures could be reported, the percentage of survival of fish that size liberated in lakes and streams probably would be less than 20 per cent, according to the chief aquatic biologist, while it is believed the survival of the 3, 4, 5 and 6 inch long fish liberated by the Texas Department is 60 to 70 per cent. Some fry are planted by the Texas fisheries, but these go almost entirely into rearing ponds, where they have a better chance to survive than in ordinary lakes and streams, or go into lakes which have closed seasons on them for a definite time in which controlled planting is practiced, i. e., where no large fish are placed.

The Texas Game Department produced fourteen species of fish in its hatcheries in 1940, one more than during the previous year. The new addition is the rock bass. Most fishermen in the Lone Star State know the Warmouth bass as rock bass. They are both members of the goggle eye family, but the rock bass will reach a size of a pound or more and the Warmouth bass generally is about three-fourths pound in weight. The Department is experimenting with rock bass. These fish will not thrive unless all factors such as correct temperature of water, food and correct water conditions are present. Rock bass have been planted in various sections of the state and are being checked by biologists to determine their response to the habitats selected for them. This year a serious attempt to propagate yellow catfish is being made in several hatcheries. They are extremely difficult to raise in hatcheries. The thirteen other species produced are largemouth black bass, smallmouth black bass, spotted or Kentucky bass, 2 species of crappie, black or calico and white; red-ear, bluegill, green perch and yellow breasted sunfish, all commonly called bream; goggle eye, speckled channel catfish and blue channel catfish.

In addition to the raising and distributing of millions of fish from the hatcheries, the Game Department annually rescues millions of fish from lakes and streams which go dry during the summer. Too, ten lakes were stocked with white bass, a species which cannot be raised in hatcheries due to the fact they must have a stream up which they can migrate in the spring to spawn. White bass are apparently doing well in all the lakes in which they were placed. They will not grow in small lakes or tanks.

Not only did the Game Depart-

ment produce more than 2,000,000 additional fish in 1940, but all the fish were delivered in better condition and the loss of fish while being transported was held to a minimum by the use of new cans through which air is pumped. Less than 8,000 fish were lost as compared to tens of thousands in previous years, when it was necessary to ship them in milk cans.

GAME TRAPPING CONTINUES

Trapping of game on areas which have a surplus and planting it in sections from which the various species have been shot or trapped out continues and reports to the executive secretary of the Texas Game, Fish and Oyster Commission indicate this will be by far the most successful year in the Department's history.

More than 500 deer have already been trapped, a considerably larger number than were captured all of last year. New methods of trapping deer, turkey and antelope have made it a comparatively simple matter to gather in the game birds and animals. The only bottleneck encountered by the Department is the lack of trucks upon which to transport the trapped game to new areas. They are sometimes taken as far as 600 miles. More than 500 antelope, twice as many as had been previously trapped in a year have been captured in West Texas on areas where they were over-crowded or where too many sheep were being grazed and thus cutting down the supply of food.

Turkey trapping continues with considerable success. Raccoons are being trapped successfully and a new project, that of trapping beaver, appears to be highly successful although definite figures on the numbers of animals taken are not available.

QUAIL BATHES IN FLOWER POT

Leave it to denizens of the wild to find a way to do things. The area surrounding Houston has had much rain over a period of several weeks and there were few dry places left in the country side. However, that didn't deter a quail on the ranch of Bill Freeman. The bird discovered a large flower pot on the porch of the Freeman home and was observed by Mr. Freeman, Bill Wilker, outdoor editor of the Houston Post, and a state game warden, taking a dust bath on the front porch. The bird, according to Mr. Freeman, uses the flower pot regularly.

A BOY, 3 SHOTS EQUAL 2 BUCKS

Stories of the recent deer hunting season continue to trickle in. One of the best of them has 11-year-old Judson Hargrove as its hero. The lad killed two large bucks within a 2-minute period and needed only three shots to get his limit of deer. Young Judson was hunting with his Dad. Suddenly he saw a big buck, asked his father where to shoot it and upon being told to hit the deer right behind the shoulder, he fired. The deer fell. Then another buck jumped up, headed toward the Hargrove's nearby motor car and the lad downed him with his third shot in two minutes. The bucks were six and eight pointers, according to the Pharr Press.

CAPTURES ALBINO BUZZARD

A snow-white buzzard has been added to the Hermann Park Zoo in Houston. It was captured by C. W. Farrell of Augusto, Houston County. It is the first white buzzard reported to the Texas Game Department.

BAGS WHITE QUAIL

North Texas appears to produce more than its share of albino quail. During the last several years four or five have been reported from that section of the state. The latest is one killed by Hugh Dow of Ft. Worth while hunting on his farm near Lake Worth. "When I first saw the white quail my thought was that it was a small chicken which had taken up its abode in a covey of Bobwhites," Dow said. "However, I realized just as I shot the bird that it was a white quail."

The bird was white with the exception of a brown spot on each wing about the size of a half dollar.

JAVELINA CRIPPLES FOREMAN

A South Texas ranch foreman who has for years warned all hunters on his place to be careful of javelinas and be sure they are stone dead before approaching them after shooting, was injured seriously shortly before the close of the hunting season by a wounded javelina.

The foreman was accompanying a man who shot a boar. The foreman warned him to be sure

the animal was dead. The hunter hit it over the head with a club. Then the foreman started to cut the boar's throat. The javelina reared up clamped down on his hand and they had to cut the muscles away before they could loosen the hog's hold on the foreman's hand. He spent several days in the hospital and has three broken bones in his hand.

TEXAS DEPARTMENT AIDS ILLINOIS

Illinois anglers may soon be catching the very desirable red-ear sunfish due to co-operation of the Texas Game, Fish and Oyster Commission and North Texas State Teachers College of Denton with the Illinois Game Commission, it is announced by the executive secre-

tary of the Texas Game Department.

A total of 125 red-ear bream were taken, with permission of the Game Department, at Lake Dallas and transported 1,000 miles to Urbana, Ill. They are doing well there after having been released in the Illinois Natural History Survey Aquarium.

The red-ear sunfish was formerly found in Illinois waters, but has vanished. It is one of the larger members of the sunfish family found in most waters in Texas. The Texas Game Department popularized the fishing for red ears by instructing anglers in the proper method of fishing for them. To get best results, an angler uses worms on light tackle and fishes deep, often on the bottom of the lake or stream. Unlike many

other members of the sunfish family, commonly called bream in Texas, the red ears are rarely found near the surface of streams or lakes.

Illinois ichthyologists are confident red-ears can be brought back in that state. They do well in Indiana and Ohio, often growing to a foot in length, and they sometimes do in Texas.

DOVES ELECTROCUTED THEMSELVES

Doves were so abundant at one time last fall in the blackland region of Bell county near Bartlett that they weighed the to wire of a high tension line down until it touched the low wire. All the doves on the wire were electrocuted, a report to the Game Department offices from a game manager reveals.

"Proper Grooming" Theme Of Lesson For Study Group

"Proper Grooming" was studied at the meeting of the Junior Pioneer Club Tuesday evening at the home of Mrs. Troys Carmichael.

"Color Harmony" was the subject of a talk given by Mrs. Ralph Roden who discussed an article written by Mary Brooks Dickens in the book "Modern Dressmaking made easy." Color is only a sensation produced in the eyes but we should love to enjoy it and wear it appropriately, Mrs. Roden said.

Continuing she discussed primary and neutral colors and how to determine a key color in their combinations; the blending of different tints and shades and selecting a wardrobe. She listed hue, value and chroma as the three qualities to look for in color.

A review of the book "Skin Deep" by Mary Katherine Phillips was given by Mrs. R. S. Scott. She spoke from material gathered from "Consumers Research" an organization which serves as a clearing house where information of importance to consumers may be assembled and published. The article was frankly addressed to women who, following the dictates of fashion, are pouring their money in the coffers of the cosmetic manufacturer companies for inferior and often harmful preparations. Mrs. Scott brought out the thought, in conclusion, that no cosmetic can take the place of health and that there is no substitute for a clear complexion that comes with proper diet and exercise.

Those present were Mesdames Lynn Kester, Ralph Hastings, Fred Harrell, Meade Halle, Homer Brunley, O. H. Cuipepper, Willis Edelman, Alton Miller, Troy Moore, Eimer Patterson, Libburn Ray, Elvin Ridding, Ralph Roden, A. J. Schroeter, R. S. Scott, Urlin Streu, J. B. Whitlow, R. R. Willis, Louis Woodford, Miss Edna Daughette and the hostess.

Dress Forms Made By North Hereford Club

Ladies of the North Hereford Club met at the home of Miss Sadie Lee Oliver, CHDA, Tuesday afternoon and made two dress forms, one for Mrs. C. G. Robbins and one for Mrs. John Kropff. It was a very interesting study and was enjoyed by all.

Those attending included Mesdames Oscar Vaughn, L. M. Rhodes, Ernest Runyon, Bob Fullwood, Grady Parsons, Robbins, Kropff, Earl Springer of Frio Club; Miss Oliver and Miss Elizabeth Ann Oliver.

Circles Study Bible Lessons

Two circles of the Woman's Missionary Society of the Baptist Church held meetings at the Church yesterday afternoon. The Kate Baldwin Circle with Mrs. Jim Lipscomb as leader and the Lunsford Circle with Mrs. Carl Mountz as leader. Both groups studied Second Chronicles 8-11 and Ezra 7-18 with questions covering the systematic study.

Next week the groups will meet at the church for a Stewardship program.

Miss Edah Park Honored On Birthday

Miss Edah Park was guest of honor at a birthday dinner Monday night at the home of Mr. and Mrs. John Jacobsen Jr. Miss Park received lovely gifts.

Enjoying the celebration with her were Mr. and Mrs. E. E. Fridley, Misses Lucille Park and Lucille Hughes of Vega, Mrs. Edna Bowe and the hosts.

Ford H. D. Club Has Discussion On Dress Forms

Ford Home Demonstration club met in the school house Wednesday afternoon, Feb. 19, due to the illness of Mrs. Ernest Stocker the February hostess, who has had a severe case of influenza.

In the absence of the club president the meeting was conducted by the vice president, Mrs. E. E. West. Opening with the club prayer, roll call was answered with "My Favorite Dress—and Why?" This feature caused much merriment and was enjoyed by all. Dress forms were discussed. Miss Sadie Lee Oliver gave a demonstration in fabrics, colors and different patterns and weaves suitable to individual personalities. Mrs. E. E. Frost, Mrs. F. C. Benson and Mrs. Earl Dyer modeled.

The club welcomed Mrs. Floyd Benson and Mrs. Troy Newman as new members. Miss Elizabeth Ann Oliver was a visitor. Mrs. Hardy Benson gave a brief account of the January meeting in the home of Mrs. Livesay. The next meeting will be in the home of Mrs. Kinsey. Subject will be Landscaping applied to local needs.

BAPTIST CHURCH NEWS
Attendance was good at both services last Sunday. There were 328 in Sunday school and a fair attendance at B. T. U. There were three additions for baptism at the evening service.

The pastor plans to preach on "The Charge of Religiousness" I Kings 2:2 at the morning service next Sunday. The evening subject will be announced later.

We are looking forward to our School of Missions March 2-5. We are fortunate to be able to have Rev. Luther Moye to be with us these days. He is a returned missionary from Chili and at present Field Secretary for the Home Mission Board and works west of the Mississippi River. Bro. Moye is a splendid speaker and will come to us from Home Mission Fields with interesting mission information that you will enjoy hearing.

Our spring revival is scheduled for March 30 to April 13. We are to have Rev. J. T. Barbee, pastor of the First Baptist Church, Clovis, N. M., to preach for us.

We invite all who will to worship with us next Sunday. If you are a Baptist and have a letter why not unite and work with us. There will be a baptismal service next Sunday night.

Methodists Here To Help Raise Million Dollars

First Methodist Church of Hereford will participate in the Methodist Emergency Million Crusade in a nationwide attempt to raise one million dollars to meet three war-caused appeals. The offering plates of the 43-Methodist congregations in the United States will be simultaneously passed on what has been named "Methodism's Day of Compassion," Sunday, March 10.

Rev. Marvin B. Norwood explains the three types of appeal that are consolidated in the Good Samaritan movement: (1) \$250,000 is to be allotted to religious and social well-being of army camps and navy camps. (2) \$250,000 will be devoted to assist the mother church in and in temporarily easing the plight of the frightful situations involved in 150 bombed churches. (3) \$500,000 will continue and supplement the Methodist overseas relief now in progress; clothing, clothing and shelter for non-combatant war victims. Since war conditions have made demands on all regular religious and philanthropic funds both the national and local leaders of this campaign emphasized that this is an emergency offering and must not be allowed to block the flow of funds to the regular world service activities of the church or result in the creation of new equally serious problems.

The national movement is headed by Bishop Edwin H. Jones, retired, of Washington, D. C., who is supported by Methodist Emergency Commission, composed of all the bishops and a representative number of prominent Methodist ministers from all six jurisdictions of the church. Dr. Orien W. Fifer, is executive secretary and Dr. Elmer Clark, formerly of Nashville, Tenn., is handling the program.

Rev. Norwood has announced a following committee to observe the observance of Methodism's Day of Compassion in Hereford: E. W. Harrison, Mrs. J. F. T. W. Alderson and J. E.

latter part of the week cleaning. Many southwest windows have been covered with cloth or canvas to aid in keeping out the dust.

H. D. Blythe, who picks up milk on a route got to the Merlin Kaul home about 9:30 Wednesday morning—said he had a hard time finding the place—thought every few minutes the storm would let up enough that he could go on. He didn't get started on until almost one o'clock.

The Home Demonstration Club was to have met Wednesday afternoon at the home of Mrs. Buren Sowell. No one from here braved the dust to go, but Miss Olive was present from Hereford. The next meeting will be held Wednesday, February 26, at the home of Mrs. M. C. Roe at Hereford with Mrs. Hughes Millard as co-hostess.

MRS. CARL FRYE
Topic of general discussion this week is "That dust storm last Wednesday," which was one of the worst this community has ever experienced. Although wheat was first thought very badly damaged, it has surprised everyone how it is showing up since having a few warm days. This community had about .08 inches of rain Monday night. There was no Sunday School Sunday because of condition of the school house after the dust storm. Everyone is invited to come Sunday. Miss Veronica Beckman visited last week end with Eugenia James of Bethel. Mr. and Mrs. Dan Allen and Mrs. Allen's brother, Allen Parker, left Monday for Arkansas where they will begin a tour with a traveling picture show. Farmers have all been busy the latter part of the week trying to keep wheat from blowing out. Chiseling seems to be preferable as to the best method of plowing. No estimate of the damage can be ascertained yet because much of the wheat which has blown would be saved by a rain. Seventeen were at Sunday school this week. Rev. Clarence Wylie of Canyon will be present next Sunday to preach, although his regular appointment is the first Sunday of the month. Everyone is invited to be present. Mrs. Iverson Leake, was brought home Sunday evening from the hospital in Amarillo. She is reported to be improving rapidly. Miss Beznor of Hereford is working for her. The children, Virginia and Eddie, stayed with their grandparents. Mr. and Mrs. W. P. Caraway, while their mother was in the hospital. Visiting Mr. and Mrs. Dalby Fleming last Sunday were Mrs. R. E. Dr. Paul Popenoe To Be In Hereford

Arrangements are being made to bring to Hereford on Thursday, May 8, Dr. Paul Popenoe of the Department of Biology of the University of Southern California in Los Angeles. Dr. Popenoe is a famous authority on marriage. For ten years, he has been head of the Institute of Family Relations, an organization to consider primarily the problems of young married-people.

Various clubs are to sponsor Dr. Popenoe's appearance in Hereford. Mrs. Elmer Patterson is to make definite arrangements with him about the nature of the day's program here. It is probable that he will be in the high school all morning; meet with the men for luncheon; talk to the ladies in the afternoon and speak in the high school at a general meeting that evening.

Lend-Lease Bill Debated In American History

The seventh period American History class took the Lend-Lease Bill from the House of Representatives to the Senate for debate last Monday, February 17. Nadyne Newell was elected chairman of the Senate; and after appointing Jane Wilson chairman of the Senate foreign relations committee, the chairman called for the report from the standing committee. The report was accepted, and the debate began on the amendments of the bill. Briefly, the three amendments adopted were:

- (1) The President is required to obtain authorization from Congress before he can contract for future delivery of war materials to be turned over to other nations.
- (2) Money received in payment of transferred materials should go into the treasury's general fund after June 30, 1946.
- (3) A technical revision of a House proviso that the powers granted to the President may be revoked at any time by the adoption of a resolution by both houses of Congress.

The chief debaters in opposition to the bill were F. L. Lucas, Jeff Washam, and Harry Finck; the debaters in favor of the bill were Bill Ashlock, Rachel Ireland, Mary Anna Thompson, Billie Self, and Ruth Temple Hastings.

Because of the bill, the Senate was recessed, and the bill will be voted on in the near future.

Seventeen Seniors Have Parts In Annual Play, "Don't Take My Penny"

"Don't Take My Penny" is the name of the Senior play which is now underway. The play is the story of the Pringle family and their friends. Penny Pringle (Janie Jordan) has the idea that she is to be a star in Hollywood and with the help of her loyal girl friend Joanna (Billie Louise Davis) is practicing so that she can make a good impression upon Harrison Day (Jack Allmon) who is a famous author. Mr. and Mrs. Pringle (Roger Hartman and Margaret Higgins) are so busily engaged with other things that they do not see the problems of their children, Penny, Mark (Raylan Evans), and Mavis (Vesta Mae Landers). Two admirers of the family are Kerry (Calvin Brumley) who is much concerned over Penny's desire to go to Hollywood and Greg (F. L. Lucas) who is Kerry's boyfriend. Gram (Gertrude London) is a big help to the family as well as Kerry and Greg. Coming from Hollywood is Norman Porter (Donald Henslee) to discover the childhood star (June Dameron) who is now a maid in the Pringle home. The French designer (Reynold Herr) and his three models, Claire (Troyce Stambaugh), Lucile (Evelyn Benson), and Elsie (Margaret Ann Miller) and Red, the porter (Delbert Kassahn) are all affected by Penny's notion to go to Hollywood.

Fourteen Herefordites Attend P. H. S. P. A. Meeting In Canyon

Eleven members of the "Round-Up" staff attended the meeting of the Panhandle High School Press Association in Canyon Saturday.

The convention arrangements were in the hands of Olin E. Hinkle, general sponsor, and Mrs. Tommie Montfort, head of the journalism department of the Canyon Training School.

At the morning session, Lewis Nordyke of the Amarillo News Globe discussed newspaper writing. Dr. Paul Popenoe of Los Angeles, Calif., spoke to the group on "Growing Up Emotionally." Dr. Popenoe has made an extensive study of family relations and marriages.

The women of the Methodist and Baptist Churches served dinner at noon. The menu consisted of baked ham, buttered peas, baked potatoes, beet pickles, gelatine salad, rolls, butter, and pie. Dixie Dice and her dancers gave several numbers, one of which was the Mexican national dance, Jarabe Tapatio.

Mickey Rafferty of Pampa led a discussion of the "Page in the Local Paper" type of school paper. Prof. J. Willard Ridings, head of the journalism department of T. C. U., discussed "If I Should Want to Write."

New officers elected were Mickey Rafferty, Pampa, President; Jacqueline Simmons of White Deer, vice-president; and Sam Johnson of Canyon, secretary.

Mr. Hinkle presented the awards given for news story, editorials, columns, and sports story.

The Canyon Chamber of Commerce served a light supper at 5:00. It consisted of hot dogs, doughnuts, apples, and coffee.

Type-HI, college journalism society, entertained with a dance and game party in the ball room at Cousins Hall to conclude

Those attending the P. H. S. P. A. were Mary Nicks, Rena Rae Renfro, Gertrude London, Lillye London, Mondeleen Miles, Agnes Albracht, Mary Lookingbill, Margaret Olson, Phyllis Radovich, Bettye Roloson, Madonna Morrison, Nell Spradley, Mrs. John Renfro, and Miss Rigler.

Whitefaces Lose To Canyon 22-15 In Valiant Fight

Last Friday night the Whitefaces fought valiantly in their last regular scheduled game to turn back the Canyon Eagles, but they failed and went down fighting to the tune of 22-15. The Eagles never lost their lead gained early in the first half of the game. They had to fight for every point that they made.

Coach Best started the second squad and kept them in until the last half. At half-time he sent in the first string, but they were unable to overcome the lead the Canyon lads had built in the first half. The majority of the squad is young, only four squadmen from last year.

Hereford lost the opening game between the younger lads also, the score being 39-19. Some very promising material was exhibited by the B Squad.

These were the last regularly scheduled games of the season. The lads of the courts will journey to the district meet this week. Their first game will be with Amarillo Golden Sandies.

This year the Whitefaces have won five games and lost five games. This is a fairly good record. The only teams that have beaten us consistently are the Canyon Eagles and the Dimmitt Bobcats.

Don't Be An "Office Pest"

Some students are abusing the privilege of having access to telephones. They fail to consider that the phones are for business purposes and not for pleasure calls. They, therefore, become "office pests" by their persistent use of the phones.

Then, too, people not in school frequently call students telephone when it is very inconvenient for them to leave. If it is a matter of business (a life and death proposition) outsiders should feel free to call. But if the matter can be delayed or the number can be taken and the student call that will greatly facilitate routine school work. We trust that the students and the public will not think the request too stringent; but if it is at all possible, use the phone only when it is absolutely necessary.

'Nosey Nettie' Solves A Baffling Mystery

Hello, Ladies and Gentlemen: This is your favorite scandal-grabber, Nosey-Nettie. Have you been hearing funny noises around school lately? Noises that sound as if someone were trying to tear down the school building? And is it not strange that you hear the noises only the first and seventh periods? First, you hear a piano, then sound as of a thousand drums beating out the rhythm. Then silence, then the noise again. Could it be that we have African natives hidden within the four walls of our high school? Frankly, folks, I was really scared the first two times I heard it. I was so scared that I tried to shut myself in my locker; but after I got my feet in, there was no room for the rest of me; so I abandoned the idea. But the third time I heard it, I decided to investigate.

The sound seemed to be coming from below deck; so I started down the stairs. I went down, down, and down. I stopped on the bottom step bewildered. The music and thumping had stopped. Soon it started up again, and it seemed to be coming from the gym. I tried to peep in, but could see nothing. So I quietly opened the door. And lo! I had found the source of those strange noises. There before my eyes was the strangest sight I had ever seen. This sight composed of a series of jumps, twirls and slaps. I was deeply puzzled until an interested by-stander enlightened me. It was only the gym girls learning to tap.

Where is my smelling salts? Ranging from technical publications to a book of one-act plays, University of Texas faculty members broke into print 500 times during 1939, publication lists reveal.

Senior Personalities

Our drum major is Nell Spradley. Nell was born in Hereford in 1923. She has had all of her schooling here. Nell is five feet four and one-half inches tall, and has blue eyes and brown hair. Nell's hobbies are tennis and horses. She has been president of the class during her junior and senior years, secretary of the class during her sophomore year, editor of the "Round-Up," in 1940, and a previous member of the Student Council. Nell is one of Mr. Hudson's office girls. She plans to attend Mary-Hardin-Baylor at Belton next fall.

One of the neatest persons in the class is Virgie Lee Sparks. Virgie Lee has had all of her schooling in Hereford Public Schools. She was born here in 1923. She is five feet and six inches tall, has hazel eyes and blond hair. Virgie's favorite hobby is skating. She is a member of the Tri-Hi-Y and is proof reader for the "Round-Up." Virgie plans to attend a beauty school in Amarillo after finishing high school.

A very quiet member of the Senior Class is Nannette Little. Nannette was born in Montague, Texas, in 1924. Nannette previously attended school at Westway, coming to Hereford during her junior year. She has hazel eyes, brown hair, and is five feet five and one-half inches tall. Her hobbies are reading and horseback riding. After finishing school, Nannette plans to be an airline hostess.

A keen-minded member of the Senior Class is Georgia Mae Reeves. Georgia Mae was born in

Attend The Debate Forum

Who pays taxes? In what forms do we pay taxes? If you want the answers to these questions, then be sure to attend the open forum which is to be held by the Debate Club of Hereford high school, in our high school auditorium tonight at 7:30 o'clock. The State Question for this year, Resolved That Texas Should Adopt a Natural Resource Tax, serves as a basis for the forum. The pros and cons of taxation will be discussed by local lawyers and business men. Everybody pays taxes; therefore, this forum should be of interest to everyone. Everybody is urged to come and ask questions about things he doesn't understand.

Mr. Hudson—"Now, Ana Beth, I'm sure you'd like Home Economics this semester. What's your reasons for not taking it?" Ana-Beth—"Well, I'll tell you. All they learn to do up there is to make cinnamon toast and baby clothes and I haven't any use for either one."

Mary Ruth Russell—"Did you know John David Dowell has a new \$10.00 watch?" Christine Smith—"Yeah, it's made out of tin and cost a dollar."

Mr. Best—"James Barnard, which travels faster; heat or cold?" James Barnard—"Heat, because you can catch cold."

La Nelle—"Why is love like a canal boat?" Elvin—"Because it's an internal transport."

Miss Pratt—"Why do white sheep eat more grass than black sheep?" Gertrude Worley—"Because there's more of them."

G. P.—"What is the best way to get rid of ants?" Marie Moreman—"Hit your uncle's wife with an axe!"

Miss Sullivan—"How can you make an expensive coat last?" Ellen Posey—"Make the trousers first!"

Tulla, Texas, in 1924. She previously attended school in Tulla. She is five feet and seven inches tall, has brown eyes and brown hair. Her hobbies are collecting pictures and reading. Georgia Mae is a student librarian. She plans to attend college somewhere next fall.

One of the versatile persons of the class is Troyce Stambaugh. Troyce was born in Abernathy in 1923. She is a blonde, has hazel eyes, and is five feet and one inch tall. Her previous schooling has been in Abernathy, Texas, and Bellview, New Mexico; she came here in the seventh grade. Her hobbies are keeping a diary, embroidering, and collecting stamps. Troyce is a member of the F. H. T., Tri-Hi-Y, Glee Club, and Band, and was secretary of the class during her sophomore year. Troyce plans to go to the John Brown Girls School in Glendora, California.

Training School Held Saturday

The first training school in the series planned for the Clothing Demonstration which was selected by home demonstration clubs members for 1941 was held on February 15 in the office of the County Home Demonstration Agent. Twelve women attended from 7 clubs.

A study was made of seams adapted for use with types of fabrics. Modern seams do not require the technique used a generation ago, much less work is done per seam. Style can be forfeited when too much sewing is done. Methods used in securing smooth flat hemlines were illustrated by use of charts and good quality coats and dresses.

Those who registered for all or part of the meeting were: Mrs. Richard Evans, Bippus; Grady Parsons, Oscar Vaughn, North Hereford; J. T. Guinn, Messenger; A. C. Pierce, W. S. Rice, Westway; M. W. Blankenship, Sims; Haskell Benson, Aldon Hawks; F. H. Ira Ott and G. H. Reeves, Wyche.

TEXAS OUT-O'-DOORS

RAISING QUAIL IN CITY

You don't always have to go to the country to find quail. Texas Game Department biologists are working with the State School For Deaf Children in Austin. School authorities found two coveys of quail on the 57-acre tract upon which the school buildings are located on South Congress street. It was found the birds had sufficient cover for protection, but needed food. Now the children of the school are planting proper food for quail, such as red-top cane and German millet, and will observe the progress of the birds.

CATCHES DUCK ON FISH BAIT

C. E. Cade, Jr., of Caldwell, Texas, has mounted a green-head mallard drake on his mantle. That's nothing unusual for sportsmen, but the method by which Cade got possession of the duck is something else.

Cade was fishing near Caldwell in water which has much brush and heavy logs in it. The bass were not striking, although he could see several large ones in the water. Finally Cade eased up back of a large log, tossed his plug into the water and

then heard a splash. Thinking he had caught a large fish, he started reeling in his line. About that time, much to the angler's surprise, a mallard drake flew into the air with the fish bait in his mouth. Cade jerked his line and down came the duck.

WHY COTTONSEED CAKE?

Texas' Game Department has trapped more than 500 deer this season for stocking of areas suitable for game, but from which deer have been shot out. It has been found that cottonseed cake is one of the best lures for getting deer into the traps and state and federal biologists are pondering the question of why cottonseed cake will lure Texas deer. It does not work in other states.

Mistletoe is the favorite deer bait in South Carolina. Texas deer are particular and will not respond to it. Apples, peanuts, corn, milo maize and oak and sweetbark browse have also been used as bait, but with little success in Texas, while other states report excellent results.

The most logical reason for Texas deer liking cotton seed cake is that ranchers feed it to their cattle in the winter, when there is a shortage of food. The deer thus learn to eat the cake and are attracted to it when it is placed in the traps.

possible future national defense service, was given today by Mayor C. J. Paddock of Hereford.

The local registration will be conducted by Hereford Post No. 192, of the American Legion. National Commander Milo J. Warner has issued a proclamation designating Saturday, February 22, the 209th anniversary of the birth of George Washington, as the official American Legion national defense day.

Commander Miller of the local post already has started the machinery for the local registration into motion. He has announced the appointment of a special national defense registration committee of the local post.

Following a conference with Commander Miller, Mayor C. J. Paddock issued the following statement:

"Our Nation, State and Community always have looked upon the American Legion as their first line of defense. For more than 20 years the American Legion has been almost single-handed the foremost champion of all patriotic endeavors, and has been rendering a high type of community service.

"It is inspiring to find the American Legion in this hour of national emergency, mobilizing all its assets for the good of the country. The American Legion constitutes a huge backlog of manpower, experience, training and devotion in our national defense.

"To catalog these qualities so that they may be readily available to our government authorities in preparing our nation for total defense, is not only a wise and practical measure, but it is also another great demonstration of the American Legion's devotion to 'God and Country.'

"It is my hope that all World War veterans in our community will register."

County Folks

and that during 1940 1 1-2 million dollars had been loaned. According to Mr. Hammond's report, a lot of the success of the Association is due to the continuous efforts and work of the Board of Directors who are charged with the responsibility of hiring the officers and setting the policies for the Association and seeing that the farmers and stockmen in the Association's territory are given the proper loan service.

The report of the financial condition of the Association was made by the manager, Syd F. Powers, who stated that only \$275 had been lost out of over \$5,000,000 loaned since organization. According to Mr. Power's report, the Association had assets of about \$700,000 against liabilities of \$465,000, leaving a net worth of \$235,000 outstanding December 31, 1940. He emphasized the point that the Association is proud of the progress made and that the members had a very great part in showing this progress in keeping their own business in good shape and encouraging other sound operators to become part of the organization.

Mr. Gist led a membership discussion asking various questions concerning Production Credit, and considerable time was given for expression from members.

Emil Knutson from Hansford county who has been on the Board of Directors since 1938 was re-elected by the members for another three-year term. Other members of the Board are Byron Gist from Oldham County, Hall Medford from Potter County, Jno. L. Hammond from Randall County, and F. M. Love from Moore county.

J. L. McDade from Dumas, J. D. Billington from Stratford, and Fowler E. McDaniel from Happy were elected to serve on the Nominating Committee of the Association to select candidates to be placed in nomination for the position of Directors in 1943.

Mr. O. G. Tumlinson, Secretary of the Production Credit Corporation of Houston, Texas, made a short talk on the background and development of the Production Credit system, particularly pointing out the fact that farmers and ranchers are more capable of making loans to themselves than anyone else.

He stated that this was contrary to the idea of many people in the early life of the Association and that farmers and ranchers now had dependable credit suitable to their needs available at a low cost, something which agriculture had

been needing a long time.

There were many stockmen and farmers and county officials present. A John Snider barbecue dinner was served to all persons attending the meeting.

At the organization meeting of the Board of Directors held February 13, in Amarillo, the following men were elected officers for the ensuing year: Byron Gist, President; Hall Medford, Vice President; and Syd F. Powers, Manager. Mr. Gist and Mr. Medford were also re-elected by the Board to serve on the Executive Committee for 1941 with Mr. Powers.

Other members of the office personnel are Mrs. Jensine Irby, Acting Assistant Manager, Ira E. Meyers, Lucian O. Burnett, Fieldman, Etta Mae Kelley, and Virginia King.

IT'S OUR MOVE . . . and YOUR PROFIT!

Effective March 1st, Weir's Store will move into the new building on Highway 60, where we believe that we will be able to offer the people of this community one of the most modern and most complete stores in West Texas. We don't want to move any more merchandise than absolutely necessary—and we are offering you some Real Bargains, many below replacement cost.
