GENERAL AND STATE NEWS.

Important Events Briefly Stated for Rapid Reading.

Capt. J. M. Kindred, Amarillo's postmaster, is the republican nominee for Congress from this district.

Paris, Texas, is to have a cotton mill to cost \$750,000. It is said the plant will be in operation within 12 months from date.

On April 1st the Choctaw, Oklahoma & Gulf Railway will cease to exist and will become the immediate property of the Rock Island system.

Floydada, county seat of Floyd county, will vote on the question of levying a 50c tax for the purpose of building and maintaining a school at that place.

On the 27th inst. the Japanese succeeded in blockading the harbor to Port Arthur by sinking four merchantmen. The volunteer crew are reported to have been rescued.

A destructive fire occurred at Channing last week which consumed a part of the Channing Lumber Co's yard. The loss is estimated at \$5000 which was well covered with insurance.

The latest railroad news is to the effect that a company of capitalists have been formed in Boston, Mass., for the purpose of building a road from Amarillo through Lubbock to connect with the T. & P. at some point south of Lubbock.

Monday afternoon Mr. Bundy, a son-in-law of Mr. Preston of this city while trying to reach some ducks that he had shot, on a body of water near Canyon City, and losing his footing, fell and not being able to swim was drowned. The body was recovered Tuesday and the funeral was held Wednesday. Mrs. Bundy was prostrated with grief and is under the care of a physician. Her condition is reported as quite serious.—Champion.

STOVES! STOVES!!

We carry a complete line of stoves and can save you money on same. See our line before purchasing. Come around and let us tell you how you can get along this winter with twenty-five per cent less coal than you used last winter

SHELF HARDWARE

In shelf hardware our stock is complete and we can supply your wants at a saving to you. Call for what you want in this line—we have it. We can't enumerate the whole list, but in queensware, glassware, cutlery, etc., we are setting the pace for the great Hereford country, especially in price and quality. In our store "How Good" comes first with "How Cheap" a close second. What you need to do is to come into our place and let us convince you. You ought to "put your home in order" for cold weather. Also let us sell you a good heater. Ours are the much-heat-little-fuel kind.

WINDMILLS

We do not have to make any claims for the Eclipse Windmills. Manufacturers of other makes of windmills, in advertising their wares, make the claim that theirs is "as good as the Eclipse," but none claim to make any better mill than the Eclipse. This claim is the Eclipse's best advertisement, unless it be the testimony of those now using the Eclipse and have given it a thorough test. Among the owners of Eclipse mills we refer you to Ira Aten, Judge L. Gough and T. A. Cox. Remember we are sole agents for these windmills and would be pleased to show to you their good points.

We have just received a car load of farm implements, consisting of plows of all kinds, cultivators, listers, drills, etc. When in town call at our store and get prices

Another Land Sale.

This week a deal was consummated whereby Bell Bros. became owners of the Burns & Smith drug store building and other considerations, in exchange for one section of land in Castro county.

Messrs. Bell will remodel their new possession and fit it up for their future quarters as soon as possible. This is a most desirable location and no doubt they will profit by the move.

We understand that Burns & Smith are now on a deal to purchase or rent one of Hereford's many brick buildings for the accommodation of their drug store, their present quarters being inadequate to their needs.

Our Stock is Complete.

When we take your money we give you the goods.

J. C. NEWMAN,
Manager Hereford Lumber Co.

Removal Notice.

We wish to call the attention of our friends and patrons that we will move from our present quarters to our new place of business—the Burns & Smith drug store stand—as soon as our new building is completed and request all those needing our services to call at the new place. Our new phone-number will be 13—Burns & Smith's. As soon as Burns & Smith vacate we will occupy their stand, but for the present we will be located in our warehouse in the rear of their place.

BELL BROS.

Branching Out.

News reached Hereford Wednesday afternoon that the contract had been awarded to the firm of Snyder & Lacey for the construction of a \$20,000 brick building at Carlsbad, New Mexico, for Joyce, Pruitt & Co. of that place.

Abstracts.

We have complete printed abstracts of all "Capitol Syndicate" lands in Deaf Smith, Parmer and Castro counties, and can furnish you an abstract on any part of these lands on short notice. This is the most complete abstract ever gotten up in the Panhandle.

SPECIAL CLUBBING OFFER

A man who is fully alive to his own interests will take his local paper because he gets a class of news and useful information from it that he can get nowhere else.

STRONG-MINDED

Up-to-date men also want a good general newspaper in order to keep in touch with the outside world. Such a paper is The Dallas Semi-Weekly News. A combination of THE BRAND and The Dallas Semi-Weekly News is just what the farmers of this section need in order to keep thoroughly posted upon local news, home enterprises, personal items, state news, national affairs, foreign matters. In short, this combination keeps the farmer and his family up to the times on information.

For \$1.75 we will send the two papers one year—156 copies. The Farmers Forum in The News is alone worth the money to any intelligent farmer or stockman of this locality, to say nothing of other special features.

Dimmitt Progressing.

A BRAND representative went down to Dimmitt this week to witness the opening of district court at that place and take a review of the progress that is being made by the hustling little village which is designated as the county seat of Castro county.

Though it was the junior member's first visit to Dimmitt we felt perfectly at home since all the people there and in the surrounding country take the BRAND, many of whom we had met before and all of whom encouraged us by speaking a good word for the paper.

At an early hour Monday morning the farmers and ranchmen began to roll into town and by noon, when the court arrived from Hereford, a large crowd had assembled to watch the Solons as they meted out justice in the various cases in question. The day was soon spent, the grand jury grinding out bills for the criminal docket while the court was clearing the civil docket.

We could not remain for another day, so will proceed to give our readers an idea of the magnitude of Dimmitt. The town has a beautiful location, being surrounded by as fertile lands as can be found this side of the Nile, and is noted for the morality and hospitality of her citizens. There are larger towns in the Panhandle but none more open to the stranger.

The first object that would attract the eye of the stranger is the court house, which, by the way, is the finest in the Panhandle. Near by this is situated the Dimmitt Hotel, which is second to none in the point of table fare. The satisfactory manner in which the proprietor, W. A. Tate, handled the forty guests on Monday at noon is conclusive evidence that he is an adept in his line and all went away praising mine host and hostess.

The mercantile business is represented by the following: Beach & Kerr, who do a general business and handle everything from a horseshoe nail up to a tony suit of clothes; Jno. Droke, dealer in staple and fancy

groceries, who has spared neither pains nor money in making an exceedingly neat and up-to-date country grocery store; and last but not least is J. W. Alexander, who has a complete stock of drugs and is prepared to give prescription work special attention and all are doing a business which indicates the peoples' confidence in them and substantiates the fact that their straight-forward way of doing business is the main element of success. In this drug store is the office of Dr. Chas. E. Donnell, who, while young, has already established an enviable reputation in his profession. Miss Helen Turner, daughter of J. E. Turner, is postmaster, and Prof. W. H. Baker is principal of the public school.

All in all Dimmitt is a public-spirited little town and only needs a railroad in order to become a city.

To indicate the interest manifested in the BRAND the following new subscribers were added to our list: Jno. Droke, D. E. Wise, J. H. Henderson, J. J. McFadden, W. M. Ireland, J. M. Hart, M. A. Kiser, J. A. Johnson, Pellie Paddock, A. P. Eaton, W. T. Stichel and M. Renfro.

We, the undersigned, having sold our grain and feed business to C. C. Ferguson, hereby earnestly request all those owing the late firm of Herron & Coston anything to come forward and settle the same at once, as the senior member of the firm contemplates making a trip east and wishes to settle the business of the firm before he leaves. We are truly thankful to those who patronized us so liberally while in business. Our books will be at T. M. Coulson & Co.'s drug store where we shall be glad to have our debtors call.

HERRON & COSTON.

THE SPELLING BEE.

Interesting Program Rendered—Lots of Fun Had.

The spelling bee that was held at the court house on Monday night was patronized by a good crowd, and that the program given was appreciated was evinced by the good attention that was given and the hearty laughs, which proved that

"A little nonsense now and then is relished by the wisest men."

That the audience was not composed of the good spellers, that the district school of our fathers' day was wont to boast of was shown by reluctance of many and the refusal of more to respond to the invitation of the champions to enter the spelling contest; however, there was a sufficient number of brave ones to make up a nice match and great enthusiasm was aroused by the stirring race for the "booby" prize—a modern speller—which was finally won by a miss on the word "donor" by Paul Barnett; then, the majority of the young ladies went down on "irivolous," an adjective that describes "most any girl"; "corroborate" proved a hard one for several, and the final test was brought on "derivative," that word being missed by all save Judge Witherspoon whose championship must have been won by his following the instruction of Mr. Parker, the efficient "pedagogue" of the evening—i. e., "to spell a syllable, pronounce it, back up, and come again" and so continue until the syllables were all spelled and the word complete. W. H. Russell acted as judge.

Among the good spellers were Mrs. J. H. Stinson, G. W. Eagle, Mrs. C. G. Witherspoon, J. K. P. Gilliland, J. W. and J. E. Rhea and the evening's champion, who, when a large white cake was presented to him as first prize, very gallantly requested that it be sold to the highest bidder and its proceeds be given to the Home Mission Society. The cake went to Esca Harrison for \$1.05, which amount, added to the entrance collections, made \$19.40 that is to be used in the improvement of the home parsonage.

A Sad Case.

Ed C. Hyde, one of Dalhart's lawyers, arrived in Hereford Tuesday and called at this office and informed the BRAND representative that Al Lucas, who is charged with the murder of Lee Cannon at Dalhart a few months ago, was admitted to bail in the district court at Canyon City week before last. The bond was fixed at \$10,000 which Mr. Hyde says is readily being made. This case is one of unusual interest to those who are fighting manfully for the suppression of the liquor traffic within the borders of our beloved state, and a little history of the same might be interesting to our readers.

About two years ago Al Lucas, with his two little motherless children, was living at Fort Worth, where he was employed as a chef at good wages, but strong drink was his curse. Hearing that Hereford was a strict prohibition town he decided to come here, which he did. Placing his two children in the care of Mrs. Davidson he sought employment and was referred to Ira Aten, manager of the Escarbada division of the XIT ranch, to whom he told his story. Mr. Aten believed his story and gave him a position as camp cook, where he remained until the season's work was finished, after which he was employed as chef in Charley Orr's restaurant, until that gentleman retired from the restaurant business. During all this time he has not been known to drink, any intoxicants and deported himself a gentleman in every respect. So much for his success in Hereford where WHISKEY IS NOT SOLD! He then went to Dalhart, where there is a saloon at every turn and where the smell of intoxicating liquors permeate the very air, and engaged in the restaurant business and placed his two children in the care of a highly respected and christian family. For some time he was successful in his business and in his efforts to abstain from the use of intoxicants, but with the accursed stuff on every side, the temptation was strong and in a moment of weakness he fell. While in an intoxicated condition he entered the saloon of Lee Cannon, who was also intoxicated, and who, it is said, was more or less abusive, especially when he had partaken too freely of his own wares. since the state campaign of 1886, when the pros went down to defeat. That defeat, he said, was the best thing that ever happened to the Prohibitionists of Texas, for it taught them that their only hope for victory lay in the education of the people as to the merits of their cause. And, in support of his statement that the people were being educated, he cited many counties that have, since that time, come into the prohibition fold, and expressed his confidence in the people's being able to carry the state for prohibition in the near future, provided the educational movement did not cease—and he regarded the Local Option Club meetings as potent factors in this movement.

The remarks of Rev. Bounds were timely and showed that he had given the subject of prohibition much serious thought.

The program being ended President Gough appointed the following as a committee to arrange a program for the next meeting: A. J. Lipscomb, W. G. Ross, Lula Garvin, Pearle Turrentine and Mrs. C. G. Witherspoon.

The meeting was dismissed to meet at the Baptist church on Tuesday evening, April 26.

Local Option Meeting.

On Tuesday evening at the Methodist church occurred the regular meeting of the Local Option Club of Hereford, with Judge Gough in the chair.

The program, as published in last week's BRAND, was carried out with the exception of Willie Galiga, Judge Witherspoon and Rev. Cartwright, who were unavoidably absent, but whose numbers were acceptably filled respectively by Miss Bertha Witherspoon, A. J. Lipscomb and Rev. Bounds. Mr. Lipscomb stated that he was much interested in the prohibition movement and had been

AN ADVISORY BOARD FOR THE PUBLIC SCHOOL.

EDITORS OF THE BRAND

Under the above caption I noticed your article in last week's BRAND. I believe that you, or whoever the originator of the plan for an advisory board is, have made a good suggestion for our public school, which, however, is doing well; but, as you suggest, there is no one who desires to assume all the responsibilities of employing teachers and directing the affairs of the school, for we are all direct beneficiaries of a first class public school and it seems that it is asking too much of one man to force him to shoulder the burdens.

So far as the writer is concerned, I am well satisfied with and heartily endorse the management, but I find that the present incumbent is unwilling to continue without assistance; and I believe he is justifiable in his conclusion.

I heartily endorse your suggestion to let the people select four men, at the election next Saturday, who have the interest of the school at heart and clothe each one of these with equal power with the trustee.

G. A. HUGHES.

In connection with the above it might be in order to state that since

the time of trustee election is upon us, some who have not given the matter careful consideration might not know exactly how the election is to be conducted. The plan is to have separate tickets for the trustee and advisory board, since returns have to be made only on the election of the trustees. As to who shall constitute the advisory board the following names have been suggested: G. A. Hughes, C. G. Witherspoon, W. B. Beach and William Cogdell, with T. J. Graves for trustee. This would give a representation from all the churches in the town and the board would be free to look to the qualification of teachers regardless of church affiliation. We do not wish it to appear that the BRAND is in any way attempting to dictate, but that we are merely making public the wishes of those patrons who have spoken to us.

As to the trustee for the northeastern portion of the county, J. C. Womble, the present incumbent, recommends J. L. Allred. T. J. Bassett, trustee for the north central part of the county, holds over for another year.

EASTER.

The fragrance and softened caress of the breezes, the stirring of the awakening instincts and the twittering of the returning birds in the still bare branches, the glimmering of the warm sunshine on the budding boughs and greening earth, the musical ripple of the thawed and running streams, all make it known that about us and in our midst there is being re-wrought the old, yet ever new, miracle of returning Spring. Where else, save in the reviving earth that speaks so eloquently of a Power so omnipotent and so incomprehensible, could be found as true an emblem of "The Resurrection and the Life"?

The season that brings Easter is a holy one to the Christian, for in every newly opened flower and in each tiny blade of green, fresh sprung from winter's sleep, he sees the risen Christ; and the insect's chirp, the bird's trill and water's ripple, he hears His voice of Love.

The word Easter comes from the ancient Saxon "Ostera", meaning rising, and when in Judea the Festival of Christ's death and resurrection took the place of the Passover, so in Teutonic lands Easter with its present significance was substituted for the heathen festival in honor of Ostera, the Teutonic goddess of spring.

The Passover was celebrated immediately before or after the vernal equinox, and after contentions extending over several centuries, the time for Easter's celebration by all churches was permanently settled by Constantine in 325 A. D., which is the reckoning we use at the present time—i. e., Easter-day always falling on the first Sunday after the first full moon after March 21st. So Easter may be as early as March 22nd or as late as April 25th.

In the many countries Easter is celebrated with various ceremonies,

popular sports and quaint rites, some retaining traces of pagan superstitions. In the United States, the most noticeable import attached to the day is the custom of coming out attired in new spring clothing in imitation of the fresh garments of green with which Nature beneficently bedecked Mother Earth. If, in following the example of Nature, we should learn the lesson of perseverance and come forth with yearly renewals of the "inner man", then would Easter be celebrated aright, for what is the use of the outer symbol of new, bright clothes, if the soul be not refreshed and the heart enters on the new period, carrying "the sin-stained rags of a weary journey through the mire of life's devious paths"?

In our announcement column this week under the Castro county list will be found the name of M. F. Barber, who authorizes the BRAND to say that he is a candidate for the office of county judge of Castro county. Mr. Barber is well known to the people to whom he desires to represent, having lived in the county for several years and having served as commissioner for the past two years. That Mr. Barber is well qualified for the office is evident to all and his friends are enthusiastic over his candidacy.

ELSEWHERE in this issue of the BRAND will be found a letter from Prof. Carson of the A. & M. College, addressed to the president of our Farmers' Institute, in which a high compliment is paid to the Panhandle and its possibilities. It will be seen from this letter that we very likely will have someone from the College with us Saturday and it is earnestly hoped that there will be a large attendance.

For a Two-Fold Purpose

This circular is issued for a two-fold purpose: First, to inform the stock-holders of the Bald Mountain Mining Company of our progress and present prospects in the development of the Company's property, also of our recent disaster. Second, to extend an invitation to friends and all who may feel interested to investigate our proposition and to join us.

Does it Pay to Investigate?

Believing our introduction entitles us to your confidence, we feel at liberty to ask your valuable time to investigate our proposition. Have you not lost nice incomes and probably fortunes by not having investigated opportunities presented? You will find us out in the open, our statements interesting and void of hot air (pardon the expression), for we are accomplishing something that enterprising men believe will produce good results within a short time. Read what they say.

We Invite Your Investigation

We invite the fullest investigation as to the merits of our property, the method by which we are developing it and our management, etc. For this purpose we are pleased to refer you to the Missoula Mercantile Company, of Missoula, Montana, doing business in the capital of our county, also W. H. Hart, manager of the Coeur De Alene Hardware Company, Wallace, Idaho, (Mr. Hart has visited our property). We also refer you to enterprising and successful men, prominent as farmers, office and business men who have examined our property and invested in our stock.

Description of Our Property

The property of the Bald Mountain Mining & Milling Company consists of seven claims, four of which are of the highest class, and are located on the state line of Idaho and Montana, on Bald Mountain in the east Coeur De Alene and St. Regis Mining District near Wallace, Idaho, and Saltsee, Montana, in 2 1-2 miles of Northern Pacific Railroad, on which there has been two ore chutes discovered nearly in the center of our property by shaft work which gives the following results from two assays, showing from 22.50 to 25.95 per cent. in copper and \$3.47 in gold, which is a superbly rich showing, many properties are profitably worked for this amount of gold. To reach our ore at good depth we are driving a cross cut tunnel which is now in 800 feet; with a vertical depth of over 500 feet. We expect our first ledge any time after the next 75 feet is driven. The very best of evidence of an ore body near by is found in driving the tunnel—sulphides of copper 500 feet deep—which is one of the attractive features not to be overlooked by the most conservative observer of a business proposition, which alone recommends itself as one of the rare opportunities of wealth to be gained from the products of a copper-gold producing mine.

What Others Say

F. Cushing Moore, of Wallace, Idaho, deputy U. S. mining surveyor, who was employed to do our surveying in 1901, says: "The ledge matter and ore taken from your shafts indicates that there may be a large body of copper ore in Bald Mountain. I think you are developing your property in the most economical way."

Mr. Lively, a representative of the J. Geo. Leyner Engineering and Mining Works Co., of Denver, Colo., who visited our property in 1901, says: "You are the first company that I have visited in the district that has no dead work. You are putting your tunnel at the right place, but in doing so you have exhibited lots of nerve, which will require considerable capital to back it, but the showing of ore and ledge matter at the shafts justify the effort."

Our Stock is Non-Assessable

You may subscribe for stock and take 30 days to investigate and if not satisfied cancel your order. No money required until stock is delivered. Some terms may be given if desired. If you believe we have driven our tunnel 800 feet and believe we can and will drive it 75 or 150 feet further, if need be, then don't fail to get a block of this stock at 10c per share, which we have every reason to believe will increase in value to \$1 per share after the next six months and within 12 months.

\$25 buys 250 shares at \$1 per share would bring you 8 250
 \$50 buys 500 shares at \$1 per share would bring you 500
 \$75 buys 750 shares at \$1 per share would bring you 750
 \$100 buys 1000 shares at \$1 per share would bring you 1000
 \$200 buys 2000 shares at \$1 per share would bring you 2000

The above estimate of the probable values within a short time, is supported by the following facts, coming under my personal observation within the last few years:—The results of seven mining prospects, located on the mineral zone in our district; lying to the east, north and west of our property, the stock of which was selling from 3c to 10c then is now selling from 35c to \$1.75 per share, each property having reached their ledge at a depth ranging from 300 to 500 feet, the price of each being governed by the depth obtained and method of development, the tunnel propositions all being the higher priced, as they have obtained greater depth, yet all these properties are in their infant state of development. You will note that if Bald Mountain fails to reach this grade in value it will be one failure out of eight. None of the big producing mines of the district are included in the seven claims. Have you lost money on cattle, land, town property or trying to make a crop—the business that you know all about? Would it be harder on you to lose money invested in mining, a business that you know nothing about, when the chances are 1000 per cent more favorable for big money on the side of mining, and no loss for clear loss if you will investigate in each case alike?

What Others Have Done

Mr. W. M. Clutter, of Farmington, Wash., looked over our property in 1902 and 1903 and has bought 50,000 shares of our stock.

Hugo Spannagel, of 5 1-2 Howard St., Spokane, Wash., a former resident of South Dakota, a business and stockman, examined our property in 1903 and has invested in our stock to the amount of \$950.

W. F. York, of Spokane, Wash., for twelve years with the Gilbert-Hunt Manufacturing Co., has inspected the property and bought 20,000 shares.

What the Promoters Have Done

After careful investigation they bought the property and have since bought 70,000 shares of the company's stock and in many ways have contributed to incidental expenses, including over 3 years service, in the management, etc. We will put up until we succeed. \$25000 has been invested by promoters and treasury stockholders partly in prospecting, improving and developing the Company's property. Neither salary nor commission has been paid to any officer. Your money is used for developing what you buy.

Last fall our camp was supplied for the winter and contract let by which we should have reached our ore chute before this time. \$50000 loss by fire recently in the destruction of the Company's buildings, furnishings, etc. Fire starting in the sleeping department. The magazine and two shops now mark the camp. Transportation being closed on account of the deep snow, work was abandoned. However, in a few weeks we will start again, running day and night shifts. We will say unhesitatingly that the above loss opens the door of a most favorable opportunity for earning big, clean money within the next few months. \$8000, we estimate, will be required to re-build, furnish the camp and drive the tunnel to our ore chute. \$30000 of this amount we wish to raise from the sale of 30,000 shares of stock at 10 cents per share.

One of the Big Things

The Hercules mine, north of our property, a sixteenth interest of which was bought for \$3000 by two of my friends in Wallace, Idaho, at a time when the tunnel was within about 100 feet of their ore deposits, which was reached in due time thereafter, and at the first bound their interest increased to \$100,000.00, which they now estimate at more than \$200,000.00. This is one of the possibilities in mining, but rather an exception. Remember that none of the above statements are hearsay, as I have been on the ground for the last five years.

*If you are interested, call at my present office in the Hay building in Herford or drop me a card and I will call on or correspond with you.
 E. W. CONRAD, Secy. and Manager.*

Mining As A Business Is Second In Success (Banking First) As Shown By United States Statistics

Merits of Most Attractive Features:

Two ore chutes have been discovered in the center of our property, ore rising to the surface. When reached at good depth by tunnel, values may double or reach from \$1.00 to \$2.00 per share. 800 feet of cross cut tunnel is now driven; 550 feet of vertical depth has been attained, copper ore appearing in the tunnel for the last 200 feet; 150 feet at the most extravagant estimate yet to drive to reach ledge; 75 feet should reach first ledge and give values from 50c to \$1.00 per share. There are valuable ore properties east, west and north of ours. We have all the evidence and nearly all the work done that is necessary to make a valuable producing mine. If you need to earn a few \$100.00 we believe this is a most favorable opportunity for a small investment. If you have money to loan \$100 invested with us may earn you more money in 12 months than \$8000 placed on commercial security. This is often the results when you put your money with a reliable mining company that is located in a mineral producing district. 60 per cent of the lead product of the United States is produced in our district to say nothing of the other metals.

CLEO COMMUNITY.

Doings in Castro County, as Reported by Our Correspondent.

District Court convenes at Dimmitt today (Monday).

R. M. Mathers made a business trip to New Mexico last week.

Geo. T. Abbott of this community is on the grand jury this week.

It is still very dry down here. I suppose when it does rain people can do a great deal of work as they will be well rested.

Mrs. W. H. Gilbreath and Mrs. J. L. Shows of Cleo have been visiting friends and relatives in Swisher county the past week.

J. A. Owen went to Hereford last week and brought out a nice new cultivator. Wonder what friend Owen is going to do with it?

J. H. Henderson and family of Stegall neighborhood were seen among the congregation at preaching last Sunday. Mr. and Mrs. G. D. Sikes were also present.

Rev. A. W. Crawford of Hereford filled his regular appointment at the Shive school house last Sunday and preached a very interesting sermon to an attentive congregation.

An Appreciated Letter.

HEREFORD BRAND,
Hereford, Texas.

Gentlemen: We have received a copy of your paper with the two-page advertisement of the Galbreath & Fox Trading Co., who handle Diamond Brand Shoes in Hereford, and we cannot refrain from complimenting you on the snappy appearance of the paper, which shows that you are not only good newspaper men, but that you have the materials for making a good paper and know how to use them. Most weekly papers are lacking in type and knowledge of printing, and it is a relief to get hold of a paper that shows up like yours. Your advertisers and readers are to be congratulated, and incidentally Hereford itself is fortunate, as newspapers are the best indexes of the enterprise and energy of any community. When it comes to quality, you are right in the Diamond Brand class.

Yours truly,

PETERS SHOE CO.

We take our hats off to the Peters Shoe Co., not only for their compliments, but for their ability to recognize a "good thing" when they see it.

Will Grant Transportation.

Mr. Orion Procter;

Dear Sir:—I beg to acknowledge yours of the 15th and in reply beg to advise that we shall be very glad to issue transportation for your membership on a basis of not exceeding two persons or representatives on account of each publication to be represented at the meeting referred to, all requests for such transportation to be made by your Association Secretary (yourself) and placed with us in time to receive attention in regular course of business.

This latter suggestion is necessary owing to the fact that at times, under more or less crowding circumstances (some of which will no doubt be upon us during the month of May); we are sometimes not able to attend to such matters as current business upon the same day that requests or correspondence reach us.

Yours truly,

Another Lecturer Coming.

The following communication from Prof. Carson to Mr. Howard, president of the Farmers' Institute, indicates the great interest which the state department is taking in the Panhandle:

Mr. S. T. Howard,
Hereford, Texas.

Dear Sir—Your letter of March 8th reached me a few days ago. We are very busy now organizing farmers' institutes all over the state. I have two squads engaged in this work. If I can possibly send you a man to address your next meeting, Saturday, April 2nd, I will do so. Up to this writing I am unable to say who I can send. Rest assured, however, I will assist you and your people in this work. Allow me to thank you again for your interest in the work and for the pleasant time you gave us while in your city. I appreciate the interest the people in your section are taking in this work; and I believe most fully that the Panhandle country of Texas is to be the coming agricultural section of the state.

With kind regards to all acquaintances, and with best wishes for your success, I remain,

Yours very truly,
J. W. CARSON.

Road Notice to Non-Resident Land Owners.

THE STATE OF TEXAS,
COUNTY OF DEAF SMITH.
We, the undersigned Jury of Freeholders, citizens of said Deaf Smith county, Texas, duly appointed by the Commissioners Court of Deaf Smith county, Texas, at its February term, 1904, to view and establish a first-class road from the southeast corner of survey 60, block K3, to the Randall county line between surveys 317 and 316, block M6. And having been duly sworn as the law directs hereby give notice that we will on the 11th day of April, 1904, assemble at the southeast corner of survey 60, block K3, in Deaf Smith county, Texas, and thence proceed to survey, locate, view, layout, mark and establish said road beginning at the southeast corner of survey 60, block K3, running east on section lines between surveys 41, block K3, and 88, block M7, between surveys 40, block K3, and 67, block M7, surveys 21, block K3, and 66, block M7, between surveys 20, block K3, and 45, block M7; thence south between surveys 44, block M7, and 45, block M7, between surveys 43, block M7, and 46; block M7, between surveys 42, block M7, and 47, block M7; thence east between surveys 41 and 42, block M7, between surveys 25 and 26, block M7, between surveys 20 and 19, block M7; thence south between surveys 19 and 4, block M7; thence east between surveys 4 and 5, block M7, between surveys 357 and 356, block M6, between surveys 324 and 325, block M6, between surveys 317 and 316, block M6, to Randall county line.

And we do hereby notify all agents, owners or attorneys of any, and all persons owning lands through which said road may run that we will at the same time proceed to assess the damages incidental to the opening and establishment of said road, when they may either in person or by agent or attorney present to us a written statement of amount of damages, if any, claimed by them.

A BOOM
does not, ultimately, bring about the best results to a community.

THE PANHANDLE
is NOT on a boom, but is enjoying the most rapid growth of any section of Texas.

WHY?

Because only recently have the public at large realized the opportunities which this northwest section of Texas offers. The large ranches are being divided into

SMALL STOCK FARMS.
Wheat, corn, cotton, melons, and all kinds of feed stuffs are being raised in abundance, surpassing the expectations of the most sanguine. A country abounding in such resources (tried and proven), together with the

LOW PRICE
of lands, cannot help enjoying a most rapid growth, and that is what is happening in the Panhandle.

"THE DENVER ROAD"
has on sale daily a low rate home-seekers ticket, which allows you stop-overs at nearly all points; thus giving you chance to investigate the various sections of the Panhandle.
