SEVEN HUNDRED HOMESEEEKERS VISITED HEREFORD THIS WEEK

RIGHT NOW

In The Good Old Summer Time

We are preparing for fall and winter. We are offering just such goods as you need now at less than wholesale cost. We need their room and are determined to close them out. Everything in summer season goods goes at a sacrifice. We will make it much to your interest to trade at our store. We have a big lot of women's and children's white canvas slippers that will go at a sacrifice. We will also sell you Men's, Boys' and Children's Clothing at less than wholesale price. You will save money by buying these goods now. We have many things to offer you at a sacrifice. It will pay you to investigate.

YOURS RESPECTFULLY

Items From Hart.

Preparing ground for wheat this fall is the order of the day.

Another good shower down this way which keeps crops growing.

Mrs. J. W. Brook who has been sick for some time is able to be out again among her neighbors, but is very feeble yet.

J. Gist and family of Indian Territory are visiting their parents, Mr. and Mrs. Ray, and are well pleased with the favorable prospects.

Earl Gough, son of Judge L. Gough of Hereford, in company with Mr. Price, were down this way working in the interest of the Panhandle Christian College at Hereford and incidentally inquiring about the "pretty girls."

W. M. Robinson, two daughters and son, are prospecting in New Mexico. Mr. Robinson is from Comanche county and owns a good piece of real estate on Runningwater draw, but desires to see the New Mexico country before improving here.

Hancock & Riley are expecting to go to Hereford soon to receive a threshing they are having shipped from Sherman. This puts us in shape to raise all the wheat and oats we can. We can thrash when we are ready and will not have to wait for anything.

W. W. Parker who has been spending some time in Tennessee with his father-in-law and wife is again with us, and to say how well he likes this country is expressed when he prices his land at \$10 per acre. This shows his faith in the country and he is doing well when he holds his land for a home.

E. P. Bell is superintending the purchase of fuel in Hereford this week, preparatory to starting the sorghum mill at E. F. Grissom's ranch at once. This is another industry we are proud of and one that is profitable too. We can have as fine a grade of syrup as any country, at very little cost and we know just what it is.

J. C. McLain in company with some old friends from Loco, Indian Territory, have been south and west looking for something better in the way of cheap land, but find it not. The man that looks before he leaps is the one that never leaps. We fail to see the beauties of this country until we have made a trip to other parts. This country will grow anything you plant. Listen! L. N. Hancock, an old Grayson county farmer, talks of 40 bushels of corn per acre. Besides, look at his crop of milo maize and kaffir corn.

J. A. Hooper and family visited T. F. Brown and wife Sunday.

T. F. Brown and daughter, Lizzie, made a flying trip to Plainview Wednesday. Messrs. J. P. and W. V. Ogden and families visited J. H. Cowart and wife Sunday.

Luther Ault of Lockney passed through our town Tuesday on his way to Portales, New Mexico.

The candidates from Dimmitt came down and gave us some nice music which was very enjoyable.

Mrs. Sarah Kellar and children came home from the "brakes" Monday with all the plums they wanted.

Loyd Nichols and family of Lockney visited his sister, Mrs. J. H. Cowart, the past week, returning home Friday.

E. L. Williams was thrown from his horse Monday. His foot hung in the stirrup and the horse kicked him injuring him some, but we hope he will soon recover.

The people of Olton had an ice cream supper Friday night at the school house for the benefit of the school house. It was a bad looking night, but there was a large crowd. Proceeds \$20.

Grain Shipment.

Our local grain dealers have been kept pretty busy this week buying grain from our farmers.

Up to Thursday of this week about eight car loads of wheat have been shipped from this place and several car loads have been bought that have not been delivered.

Rockhold-Mauk.

Harry G. Rockhold and Miss Anna Mauk were married in this city Wednesday evening at the home of Mr. and Mrs. Sam Worley. Rev. O. W. Dean performed the ceremony.

NEW DEPOT FOR HEREFORD.

Plans and Specifications are now Being Made.

E. G. Kemper of Burlington, Iowa, was in the city Thursday to look over the ground and test our building material with a view to erecting a new depot for the Pecos Valley & Northeastern railroad at this place, he having been sent here by Col. Avery Turner, Vice-President and General Manager of said road.

Mr. Kemper informs us that the new building will be 24x75 feet in size and built of stone or gravel. Mr. Kemper also states that the white limestone gravel that is found on the Tierra Blanco river near Hereford is the finest building material that can be found anywhere in the world.

He exhibited a number of photographs of buildings erected by the monolithic process. By this process the entire building is made of one stone. He also states that the cost is so low that it competes successfully with frame construction, and is far lower in cost than brick.

Work will be commenced on the new building within thirty days.

Fine Rains.

The greater portion of the Panhandle country has been visited by fine rains since our last issue.

About two and one half inches of rain is the record for Deaf Smith and surrounding counties this week.

Many Prospectors.

About six hundred prospectors came in on Wednesday's and Thursday's excursions from the north, all of whom are being shown over the country by our real estate dealers.

For Sale.

A 75-acre tract of maize and kaffir corn, a horse to go with sale of crop. Come quick if you want it.

Public School Fund.

We are requested to state that so far not enough money has been subscribed to complete the new public school building.

The building when completed will cost in the neighborhood of \$2,000, and is said to be the best built building in the city. Only about \$1,400 of the \$2,000 has been subscribed.

This is not as it should be, every patron of the school should be more than willing to contribute his part for better public school facilities and the advancement of education.

For Trade.

To trade a good buggy and harness for good wagon. Will give difference.

UNCLE SAM SETTLES.

Pays all of Appropriation Made by Congress for Frontier Protection.

All of the \$375,418.94 appropriation made by congress to reimburse Texas for money paid in frontier protection is now in the state treasury.

The money came principally from the United States subtreasury at New Orleans, and it was collected through the American National bank of Dallas without cost to the state.

The saving in exchange amounts to about \$400.

Wheat in Castro.

Judge C. F. Kerr of Dimmitt was in town Thursday and in conversation with a BRAND representative stated that the wheat "turnout" in Castro county is for better than was at first expected.

The Judge states that the average for the entire county will be something like 20 bushels per acre.

Good Average.

We have been reliably informed that the wheat crop in this section will average between 20 and 23 bushels per acre. Some farmers have made as high as 29 bushels per acre while a few have made as low as 16 bushels per acre.

Sold His Home.

W. G. Driggers, this week, sold his residence and twenty acres of land situated in West Hereford to J. H. Kelley. Consideration \$1600. Mr. Driggers will leave soon for California.

BAPTIST YOUNG PEOPLE.

First Annual Union Encampment of Panhandle to Be Held Aug. 13 to 22.

The first annual Baptist Young Peoples Union encampment of the Panhandle of Texas is to be held from Aug. 13 to 22, inclusive, at Probst, a small station six miles north of Amarillo, on the Ft. Worth and Denver railroad.

The encampment grounds are admirably situated. There are 160 acres of land in the tract, with groves of cottonwood trees skirting one side and a swift stream of clear water rushing through it. The scenery is typical of that country. There are deep canyons and high mountains, and stretching off to the south and west are the broad and breezy prairies. The altitude of that section is about 3,600 feet, and the air is pure and invigorating. The pestiferous mosquito is unknown and cover is needed at night.

A large tabernacle is being erected and hundreds of tents will dot the valley and hillside. Those who do not wish to camp on the grounds can spend the night at Amarillo, going and returning on trains, or by private conveyance. Restaurants and stands furnishing cold drinks will afford ample accommodations to all comers. So those who attend from a distance will have the choice of camping on the grounds are making headquarters at Amarillo.

All railroads in that section have put on special rates for the occasion and during the encampment the Fort Worth and Denver Road will run a train daily from Amarillo to the grounds.

The program committee has selected some of the leading speakers of the Baptist denomination of the entire South, who are as follows: Dr. George W. McDaniel former-

ly of Texas, but now pastor of the First Baptist Church at Richmond, Va.; Dr. B. D. Gray, secretary of Foreign Mission Board (or his co-secretary), of Richmond, Va.; Dr. J. B. Gambrell and Dr. J. H. Gambrell of Dallas; Dr. B. H. Carroll of Waco; Rev. W. E. Brittain of Waco; Rev. W. B. Kendall of Waco. Besides these there will be special lectures by Rev. Bennett Hatcher and Rev. W. A. Edwards both of Amarillo. Devotional exercises will be conducted by local pastors.

Besides the religious features there will be recreation in the way of tennis, croquet, swimming, baseball, etc.

Those who may wish to attend the encampment can get further information by addressing Rev. E. R. Aldredge, Amarillo, Texas, who can supply illustrated literature.

Plant in Operation.

Messrs Hill & Robinson this week completed the necessary arrangements for the making of concrete blocks and now have their plant running on full time. Something like 100 blocks being made last Saturday.

We are informed that the capacity of the plant is about 150 blocks per day with the present machinery.

Several parties are contemplating using these blocks for the erection of new homes and business houses and we predict for Messrs Hill & Robinson success.

A Man Got Pressed.

For nice fitting clothes to wear and took his old suit to Walter Orr at Dale's Barber Shop where they were cleaned and pressed to look as well as a new suit. Take your suit to him and let him fix it for you.

THE HEREFORD PRESSING CLUB, 43-44 Walter Orr, Proprietor.

CLEO COMMUNITY.

Mr. and Mrs. W. S. Hasting visited J. R. Hasting's of Cleo Sunday.

Mr. and Mrs. O. M. Burch of Arney visited their parents Mr. and Mrs. J. D. Burch of this community last week.

W. H. Gilbreath and family moved to Tulia last week. W. J. Gilliland has charge of his sheep ranch here.

We are having some rain the past few days which will only make our forage crops better, though we are not suffering for rain.

J. A. Johnson, who recently bought F. A. Henderson's ranch and cattle sold a number of fat cows and all of his calves to Mr. Hunt of Deaf Smith County and is delivering them now. Mr. Johnson tells me that he will again engage in the sheep business as soon as he can dispose of his cattle.

Press Burnam and wife, Misses Jennie Carter and Odelle Bourell and Messrs I. O. Jackson, Harvey Cash and E. S. Ireland of Dimmitt and S. J. Lee, W. S. Dixon and son, Emmett, of Cleo, attended the ice cream supper at Olton last Friday night and had a delightful time. Owing to the inclemency of the weather there was not as many present as would have been had it been a pretty evening, however, those present seemed to enjoy themselves and ate quite a lot of cream. The net proceeds being about \$15.00 which goes to repair the school house.

Our people are very busy now, as this is quite a farming country down here in the Cleo community. We just finished threshing our wheat Wednesday. Mr. Adam Backus did our threshing with his steam thrasher. Mr. Backus tells us that he has had seventeen years experience with a thrasher and we think he thoroughly understands his business. There is not a granary in this neighborhood that held all the grain that was made on the place except one and the owner of that one only had in a small crop. The ones that had threshing done in this community are namely S. I. Lee, J. M. Gollehon, W. R. Boyd, T. J. Sawyer, J. D. Burch, A. J. Owen, W. S. Dixon, J. R. Hastings, M. D. Barnard, G. T. Abbott and J. F. Sweazea. M. D. Barnard's making the best turnout of any. J. M. Gollehon and S. I. Lee's next best. It is all of fine quality. I have no doubt but the acreage sown to wheat this fall will double that sown last fall.

Awards of School Land.

Austin, July 24.—It is learned at the land office that the award of school land to be made this week will place the total at about 4,000,000 acres since September 1, just 11 months. At this rate, Mr. Terrell will soon wind up the state land business if given a little while longer. This is by far the greatest activity ever in the land office and is due known largely to the system of advertising the land than anything else. This made it more possible than ever before for homeseekers to know when the land would be subject to sale and where it was. As more homes have been secured during the past 11 months, the fund has augmented over former prices a little more than 4,000,000. This amount schools annually about 25,000 children.

The school land is now being sold at the rate of 100,000 acres per week.

GARRISON BROS.

HEREFORD COUNTRY

A Visitors Opinion of the Garden Spot of the Lone Star State.

The following "write-up" was clipped from the Waterville Advance, published at Waterville, Minnesota, by S. H. Farrington:

We went to press too early last week to make mention of our trip to the Panhandle country, Texas. Left home on Tuesday July 17 over the Great Western, joining the Geo. G. Wright party headed by Vice-Pres. L.H. Henschel, of the St. Paul office. At Dodge Center the company was reinforced by a party from Waseca. Among the number being Hugh McGonagle, formerly of this city, and Hon. James E. Child and John McLaughlin of this city. Before reaching Olewine the car was comfortably filled and the trip to Kansas City was a very enjoyable one. The service of the Great Western is superb in every detail and good time was made. The party had about 4 hours in Kansas City when a special train was made up over Atchison, Topeka & Sante Fe system which is the popular highway through Kansas, Oklahoma and Western, Texas a road unsurpassed in service and equipment.

We reached our destination, Hereford, Texas, on Thursday noon. It is a lively, well built town, the county seat of Deaf Smith county, and has a population of 3000 people and under county government, never having been incorporated. All lines of business are well represented--except the saloon business--there being no saloons. In fact 80 per cent of the towns of Texas have no saloons and the laws governing the sale of liquors are apparently, strictly enforced. The town was named in honor of Hereford cattle and it has proven

itself worthy of the name. The town is but six years old but certainly gives promises of future greatness. The people are from all parts of the country. Cosmopolitan; public spirited, industrious and most excellent public morals. The county buildings are substantial and appropriate. A fine public school building, taking pupils to and including the 12th grade, fitting them for teachers. The school fund of Texas is exceptionally large and the schools are organized and supported without special tax. An imposing college building, built and supported by the Christian Church of Texas graces the suburbs of this city. A large campmeeting of this denomination was in progress, as was also a district summer school of teachers, which added to the 217 land seekers made things lively.

Contrary to general expectation the weather was fine, as it usually is in this part of Texas. Three thousand feet above the sea level, the thermometer at 76, never going above 84 nor below 50 with a delightful cooling breeze, the grass green and the ground moist from a recent 4 inch rainfall. No one can take possible exception to the climate conditions of the Panhandle country. The nights were delightful cool.

Upon the arrival of the special train from Kansas City at Hereford, a large number of teams were in readiness to convey the land seekers to the half million acre ranch of Geo. G. Wright Land Company about 15 miles north-west of Hereford to a new town which will be known as Kelso, which now boasts several buildings and a fine, new hotel. Three fine new autos made several trips daily between the two places but were, temporarily, out of commission for a day or two on account of the heavy rains, the Panhandle country having seven inches of rain during the month of July. This is not uncommon, however as the rain-fall for the Panhandle country for the past 12 years, as taken by the weather bureau at Amarillo--38 miles north of Hereford--shows an annual average of from 15 inches to 27 and being very evenly divided, January, February and March being the lightest months.

The land seekers were not a gang of suckers but were experienced land men who were posted on soil and climate and who recognized a good proposition and bought liberally, not less than 40,000 acres being sold in three days. A portion of it, of course, went into the hands of speculators, but much of it was bought in section lots by practical farmers who intend to locate and open up farms within the next 12 months the Wright land will be dotted with farm houses and become one of the greatest agricultural districts in the great southwest. Some portions of this tract of land is now under cultivation and the crops compare favorably with Kansas and Oklahoma, and health, peace and plenty will be the natural heritage of any man who invests his money in these lands and goes to work with a will to husband the resources of that country.

This being true the question may be asked why it has not been settled before. As we understand it the answer is this: It is a part of the three million land grant and has been but recently opened for smaller settlements. The lands are a part of the state to Farwell and to the Wright Land Co., which makes the titles clear and good. The terms of sale

are easy. One quarter down, balance on 10 years time at 6 per cent. The taxes on these lands are very light--the auditor's books of Deaf Smith County showing that the average unimproved quarter section was only \$1.75.

We have but briefly touched on some of the points of the country, our stay there being so short that we do not feel like making any authorized statements and can only advise those looking for good, cheap lands in a good country to make a personal investigation and by so doing will come to the same conclusion that the thousands who visited this country have reached.

Dowie Loses Out.

Judge Landis, of the United States district court, gave his decision Friday in the controversy between the adherents of John Alexander Dowie and Wilbur Voliva over the property at Zion City.

The court holds that Zion City and its industries do not belong to Dowie; that while the contributions of the funds did not express a formal declaration of trust, a trust was created, and Dowie had no right to treat the property as his own.

SECRETARY LEOB says that President Roosevelt will not be a candidate again.

If this automobile slaughter goes much further there won't be much left of the "400."

WITH a fine citizenship, healthful climate, and good schools, we invite you to come and live in Deaf Smith county.

STILL Hereford continues to grow. New residences are being built in all parts of the town and they are all of the substantial, modern style.

Now that the battle is fought and the smoke has cleared away let us all get to business, shake hands, and cheerfully submit to results.

WITH the completion of the stone and brick buildings for which the contract has been let, and those in contemplation Hereford will put on city airs.

SAMUEL BYERLY, who a few days ago bid in \$5,800,000 worth of Panama canal bonds on a capital of two cents, has sold out at a profit of some \$20,000.

WILLIAM R. HEARST has established another publication in Chicago, a weekly periodical of national circulation, known as Hearst's American Home and Farm.

THE latest reports from the senatorial district show that Decker has a majority over Veale, and the latest reports from Amarillo is that Browning has a majority over Webster.

So John D. Rockefeller is not to go to jail, or even to be prosecuted criminally by the Federal authorities, but if the administration can screw up its courage, he may be fined and the farce of prosecuting the Standard Oil Trust will be another nine days wonder.

Panhandle News

Childress is soon to have a new Methodist church building.

W. E. Bates says that from his threshing experience the wheat crop of Randall county will make on a general average 25 bushels per acre.—Canyon City News.

C. D. Patterson left this evening for Texico, where he has the contract for the erection of eight brick buildings, work on which has already commenced.—Dalhart Texan.

The Canyon City News has a cylinder press on the road from the factory. It wants to be ready for the increase of business which is sure to follow the completion of their brick business blocks.

Sam Donnell, of Silverton, died last Friday from lock-jaw caused by sticking a nail in his foot. He was a brother to Dr. C. E. Donnell of this place. The doctor was wired but his brother died before he reached there.—McLean News.

Last Saturday we noticed a railroad velocipede with a leg-of-mutton sail hoisted, come tearing down the track in front of a stiff norther, it was dead easy for the traveler, as he had no work to do but simply hold to his seat, and the wind did the rest.—Channing Courier.

A bold robbery was effected in this city Tuesday night. The store of Mr. Alex Kahn was entered and two complete suits of clothes, shoes, hats caps, etc. and eight dollars in money were appropriated. The thieves have since been arrested and jailed.—Wichita Herald.

The following county officers were elected in Potter county: Judge, Merrill; sheriff, Huges; clerk Wolf; attorney, Umphries; treasurer, Tudor; assessor Floyd. Potter county voted on the district officers as follows: Veal 464, Decker 211; Browning 519, Webster 175; Bowman 618, Watkins 35, Gibson 22.

The hardest rain of the year fell at Childress last Friday night. About three feet of water was put in the railway lake, while the city lake is full and running out at the wasteway. There was considerable lightning with the storm and some wind, but no particular damage was done in town.—Childress Index.

The Panhandle country around Hereford, Texas is becoming a great wool producing territory. The largest wool shipment ever sent out of the country was shipped a few days ago, and consisted of 75,000 pounds. The wool was of good quality, and realized for the sheepmen there about 22 cents a pound, or \$16,500 cash, which is not bad.—Amarillo Herald.

Electric headlights have been placed on the new passenger engines. Fred Dewey who run the first engine with the electric headlight says the light blinds the rabbits and that on his trip from Texline Sunday night the engine killed quite a number of jack rabbits. The lights are focused on the track a distance of nine telegraph poles and makes the track as clear as day.—Childress Index.

The hardest electrical storm of the season visited this section late Friday night, though no damage was done in this neighborhood. At McLean several houses and buildings were damaged, but no one was hurt. The railroad station was moved several feet from its foundation. One building on the square at Memphis was severely damaged by the wind, but the other buildings in the town escaped injury.—Wheeler County Texan.

Mr. J. G. Hardin, whose farm is on Red River, had 26 acres in wheat that averaged him 24 bushels to the acre. His neighbors say he would have averaged him 30 bushels if he could have gotten into the field to cut it at the proper time. The excessive rains kept him out when he should have been in the field. Mr. Hardin did very well though and has no cause to complain. He raised over 21,000 bushels of wheat on his place this year.—Wichita Herald.

THERE is no question but that Hereford is as clean a town as there is on the Plains, but the BRAND is in favor of Hereford having the reputation of being the cleanest town in the Panhandle.

THE state board of education has made an appointment of \$5.00 per capita for Texas schools. Last year the appointment was \$5.25 but the school age was 8 to 17 years, this year it is 7 to 17 years.

THE deposits in the National Banks, upon which they pay no interest, amounted on July 23 to \$33,790,681 and Secretary Shaw has promised the banks to let them have most of the \$30,000,000 which will be forthcoming from the sale of Panama bonds on the same terms. This is a soft snap for the banks, they subscribe for the bonds and still keep the money, but draw the interest which the bonds call for. It's great financing for the banks but rather expensive for the taxpayers.

A State of Health That Needs Prompt Treatment to Ward Off Serious Disease.

Do you notice a large reduction in your vital energy? Are you losing hold on your place in the social world? Is your strength gone, constitution weak, appetite poor, digestion deranged, bowels costive, with uneasiness and symptoms of derangement in the region of the kidneys? Such a condition is the preliminary to Bright's Disease or some other serious kidney trouble. If this describes the state of your body, we urge upon you prompt action before your health is entirely beyond recovery. Prickly Ash Bitters is the remedy you need; it has a four-fold restorative effect. It stimulates the torpid liver, restores health in the stomach, strengthens and cures the kidneys, and through its peculiar yet agreeable laxative character it clinches the good work by thoroughly cleansing the bowels. It is a certain remedy for kidney and liver diseases.

Accept no substitute. Insist on having the genuine Prickly Ash Bitters with the large figure 8 in red on the front label.

On August the second a wedding that was quite a surprise, occurred at the home of J. T. Coleman. The contracting parties were Mr. Peter Swoffer of Oklahoma and Miss Della, the beautiful and accomplished daughter of Mr. and Mrs. J. T. Coleman. The guests had been invited to an ice-cream supper and knew nothing of the wedding until they entered the room. The Rev. Fox of Hereford officiated. The consummation of marriage is the Kadesh-bornea of human existence and obedience to its intuitions quickens the perceptions, intensifies the sensibilities, augments muscular activity and imports grace to every movement, while neglect or perversion enkindles God's rath, even as did the disobedience of the wandering Isralites.

Select Delegates.

The Democratic Executive Committee composed of delegates from various precincts met in convention at the Court House Saturday afternoon, August 4th, 1906 to elect delegates to the various State and District Conventions.

On motion the chair appointed a committee composed of A. J. Thompson, E. F. Connell and C. V. Walker to suggest delegates to the various conventions.

The committee reported as follows:

For State Convention—W. H. Russell.

2nd Sup. Judicial Dist.—Carl Gilliland.

47th Judicial Dist.—A. J. Thompson.

Representative—Geo. Muse.

Senatorial—E. F. Connell.

Congressional—G. W. Barcus.

The report was adopted and the above delegates unanimously elected to conventions as above named.

It passed that the various delegates, if unable to attend the convention to which they were elected, they should appoint a proxy to cast the county vote.

Following is the permanent Executive Committee of Deaf Smith County:

- Pre. No. 1—Cal Walker.
- Pre. No. 2—E. F. Connell.

Wheat a Sure Crop.

That the Panhandle is a good wheat country the most skeptical no longer doubt. Yields from 15 to 40 bushel per acre can be relied on. An annual average of 25 bushels per acre is as sure as a dime for a ginger cake. When the Missourian comes along and demands that he be shown we are in a position to accommodate him. He can be shown that under most favorable conditions the yield runs to the enormous amount 50 bushels per acre. There are hundreds of eye witnesses to the measure and amount of the wheat and of the land upon which it was grown.

In addition we invite the prospectors to an inspection of the weather bureau reports issued at Amarillo for the last fifteen years.

In studying the monthly rainfall for each year it will be found that the Panhandle is as safe for 25 bushels of wheat as Illinois is for 50 bushels of corn. That this soil and climate is adapted to wheat no one doubts, and the only question that arises is, is there sufficient rainfall at the proper time of the year? Wheat raising experts are able to furnish figures for the necessary moisture to insure a profitable wheat yield. The weather bureau station at Amarillo answers the question as to how near these moisture requirements have been met for the last fifteen years. A study of these figures will repay anyone who is interested in the agricultural possibilities of the Panhandle.—Amarillo Herald.

Meets With Encouragement.

Pres. A. C. Elliott returned last Saturday from a week's trip into New Mexico in the interest of the College. He is putting into execution a well laid plan in canvassing for students. While at Portales he addressed the Teachers' Normal Institute in session at that place. He reports that he has met with encouragement at every place visited, and says that he not only talks in the interest of the school but for Hereford as well. In this line, he has secured one man who will locate here, and has several more interested.

In Europe.

Gibson Willets, writing of France and Paris in Holland's for July, says:
In the window of a restaurant I saw displayed a sign saying that within there could be bought macaroni made from Texas wheat. I found out that northern Texas produces a wheat exactly suited to the demands of macaroni manufacturers in France, and Italy, too; that they give preference to such Texas wheat over that produced elsewhere in the world.
So it would seem that Panhandle wheat is already famous in Europe.

House Wanted.

I would like to buy from 5 to 8 room house in Hereford. Must be situated on large lot, but would prefer from 3 to 5 acres. Address 25tf

THE STATE CONVENTION.

No man Can Foresee Result of the Dallas Convention.

The county conventions held Saturday added little to the knowledge of the public on the gubernatorial situation. Few conventions made any attempt to opportion the vote under the provisions of the election law, but certified the official returns to the state convention. An interesting feature of the county conventions Saturday was the instructions given for second choice. This was almost universal despite the recent ruling that such instructions would be void. A great many alternates were elected by various counties. This is also in violation of the law as construed by the attorney general and the alternates will probably not be allowed to act even in the absence of their principals.

A number of counties elected delegates for one or another candidate for governor out of all proportion to the showing made in the recent primaries. There are instances where the first vote of the county will go for a certain candidate, and no other vote follow in the same course.

In Southwest Texas there seemed to be little interest in the primaries save in exceptional instances. Some showed but few delegates in attendance.

Interest in the state convention is

intensified by the county conventions rather than allayed, for the instructions as to vote of dropped candidates are many, and the ruling of the attorney general is that the instructions are void. Every development of Saturday goes to indicate that the state convention will be more interesting and difficult, if possible, than was at first expected.

Weight of Wheat Increased.

There is something remarkable about the increased weight of wheat per bushel. Winter wheat in the west weighs four pounds more per bushel than former crops. The usual weight of wheat is about 57 pounds, but this season about 61 pounds. The crop this season will weigh about 30,000,000 bushels heavier than last year. Here is an idea for thought.—Southern Agriculturist.

Citation by Publication.

THE STATE OF TEXAS, To the Sheriff or any Constable of Deaf Smith Co., Greeting:

Oath having been made as required by law

YOU ARE HEREBY COMMANDED to summon Wilson W. Gowan, J. H. Henry, agent of A. P. Co. and A. P. Co. by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 47th Judicial district; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 47th, Judicial District, to appear at the next regular term of the District Court of Deaf Smith County, to be holden at the Court House thereof, in Hereford, on the second Monday in August, A. D. 1906 the same being the thirteenth day of August A. D. 1906, then and there to answer a petition filed in said Court on the fourteenth day of July A. D. 1906 in a suit, numbered on the docket of said Court No. 151, wherein W. G. Bryant, is Plaintiff, and Wilson W. Gowan, J. H. Henry agent of A. P. Co. and A. P. Co. are Defendants, and said petition alleging that plaintiff is the owner in fee simple of the following described land situated in Deaf Smith county to wit:—160 acres of land known as the Mathew Wilson pre-emption and described by metes and bounds as follows: Beginning at a stone set in the ground for the N. W. corner of the J. H. Willis pre-emption survey. Thence north 1561 vrs. to a mound and semicircular trench whence a mound and four pits, the North east corner of survey No. 3 in Block No. k3, Adam, Beaty and Moulton bears north 15 vrs. Thence east 569 vrs. to a mound and semicircular trench in the west line of surveys No. 10, Block No. K14. Thence south 33 east at 1181 varas, pass a mound and two pits, the south west corner of said survey No. 10, at 1561 varas, a mound and semicircular trench thence west 585 vrs. to the place of beginning. Containing 160 acres of land. That defendants are claiming some interest and lien on the above described land, by reason of a certain deed of trust on file in the deed of trust records of Deaf Smith county in Vol. 1, Page 1, reference to which is here made, in which instrument it is stated that this conveyance however is intended as a trust for the better securing of J. H. Henry agent of A. P. Co. of the county of Potter and state aforesaid in the payment of a certain promissory note of which the following is a substantial copy. \$105.00. Amarillo Texas, Sept. 30th, 1889: On January 1st 1890 after date, I promise to pay to the order of J. H. Henry agent of A. P. Co. in Amarillo Texas one hundred and five dollars values received with interest at the rate of 12 per cent per annum from maturity until paid. Plaintiff avers that said note if it ever existed is long since barred by statute of limitation; that same has long since been paid and that the defendants and neither of them have any interest in said note or the above described land, but that said deed of trust cast a cloud upon plaintiff's title.

Wherefore plaintiff prays that the defendants be cited by publication to appear and answer herein and that on final hearing the note described in said deed of trust above set out be declared paid and satisfied, and that the lien held on said land by reason thereof being canceled and that his title be quieted and for cost etc.

HEREIN FAIL NOT, but have before said court, at its next regular term, this writ, with your return thereon, showing how you have executed the same.

WITNESS, W. B. BEACH, Clerk of the District Court of Deaf Smith county.

GIVEN UNDER MY HAND and the Seal of said Court, at office in Hereford, Texas, this the 14th day of July A. D. 1906.

[SEAL] W. B. BEACH, Clerk, District Court, Deaf Smith County.

The Summer Normal.

Hereford, Texas, July 30.—Procrastipation is a castigating thief that never relaxes his hold upon the mental activities of mankind: It is so pleasant to do our tasks tomorrow or next week, but so annoying to do them now.

June 19 found Hereford swarming with teachers and would-be teachers, enrolling their names in the books of the State Normal, managed by Prof. Quigley, assisted by Profs. Silvey and Johnson. There were five times as many lady teachers as men teachers, but all seemed to have only one great purpose in view—that of hard, earnest study.

During the month the teachers were entertained by the following distinguished men: Dr. Elliott of the Christian college, Hereford; ex-Governor Browning of Amarillo; Dr. Jewett of Austin State university, and Dr. Lusk of Dallas.

The Normal was a big success, and will be in the hearts of many teachers during the years to come.

The examination began July 25, lasting through the 26th and 27th, and was taken by thirty or forty teachers.

Hereford is a thriving town of 3,000 enterprising people. Though many miles from the lumber mills, their dwelling houses are mostly large, cozy and attractive.

It seems a town of windmills—none other like it, on the plains.

Every excursion week brings into the town from 100 to 300 prospectors, who crowd one another in purchasing lands. Some wheat around Hereford is said to be making thirty-three bushels to the acre. Other crops are fine. In less than three weeks about five or six inches of rain has fallen.—P. H. in Amarillo Herald.

THE STATE OF TEXAS,
County of Deaf Smith.

The above and foregoing is a tabulation of the complete vote polled in Deaf Smith County, Texas for the respective candidates named therein, according to the official returns of the Democratic Primary Election held in this county on July 28th, 1906 and as canvassed by the Democratic Executive Committee of said county on the 4th day of August, 1906, the said tabulated list having been made by said committee on said 4th day of August.

Witness my hand this August 6th, 1906.

CARL GILLILAND, Chairman

Democratic Executive Committee of Deaf Smith Co., Texas.

County Commissioner of Precinct No. 4:

GEORGE L. MUSE.

I further certify that the said Democratic primary election was held in said county in accordance with law, and that the foregoing named candidates and county chairman received the plurality vote polled at said election over all other candidates for the respective offices, thereby becoming the Democratic nominee for the respective offices for which they were candidates.

Witness my hand this the 6th day of August, 1906.

CARL GILLILAND, Chairman

of the Democratic Executive Committee of Deaf Smith County, Texas.

HERBINE

The Popular Liver Medicine
Will Keep You Well

A GUARANTEED CURE for all diseases produced by TORPID LIVER and IMPURE BLOOD. Do not fill your system with Arsenic, Calomel and Quinine. They act as rank poisons which vitiate the blood, debilitate the system, and leave a trail of bad symptoms which require years to obliterate. HERBINE is purely vegetable and contains no mineral or narcotic poisons, is absolutely harmless and is the simple remedy of nature. It carries off all poison in the system and leaves no injurious effects.

CURED BY HERBINE AFTER OTHER REMEDIES FAILED

Mr. L. A. Hicks, Iredell, Texas, says: "I was sick in bed for eight months with liver trouble, the doctor seemed to do me no good. I was told to try Herbine, and it cured me in a short time. I cannot recommend this wonderful medicine too highly."
