### Learning Diversification.

The Texas farmer has learned well the lessons of diversification. Our corn crop is making rapid gains on King Cotton; we are raising our own wheat, oats and hay, and our vegetables supply the Northern and Eastern market. We are not only diversifying our products but we are feeding it on the farm, fattening our stock and using it in raising another crop.

The March Federal Crop Reporter shows 61,435,000 bushels of corn in the granaries of the Texas farmer on March 1st which is 34 per cent of the total output; we have 4,865,000 bushels of our oats on hand which is 20 per cent of the total output and we have 2,629,000 bushels of wheat which is 14 per cent of the total yield.

Our supply of cereals is sufficient to carry us through until the next crop, which adds to the independence of the Texas farmer. The proper disposition of a crop is as important as raising it and the above figures show that the Texas farmer is a close student of practical farming and is financially able to manage his affairs.

### Hereford Leads in Wells.

Not making as much noise as others, Hereford leads right along in bringing in sure enough wells. The third well to be brought in by McDonald & Company is the best yet, and will easily irrigate 200 acres. If the other towns will quit knocking on Hereford and bring in something real interesting, we will place them on the map.

The McDonald wells are equipped with the most modern machinery and to see a stream of pure water flowing from a pipe 8 inches in diameter makes a believer out of the most skeptic.

### Tell of the Tall Timber.

The harvesting of the forest crop is a most interesting sight. The lumbermen's crop is one that has taken from one hundred and fifty to five hundred years to grow. Under foot is a century-old carpet of fragrant pine needles and moss. Through the interwoven branches the sunlight makes its way, weaving fantastic and ever-changing Oriental designs on the forest carpet. It is as though you were in some vast cathedral. The light is dim and mysterious. Two hundred feet above is a roof of almost solid green, supported by a multitude of massive rough-barked columns. By your side rises a Douglas fir, six feet through at the base and straight as an arrow to the first limb, one hundred feet or more above you. The storms of three centuries have but given it added strength, beauty and symmetry. Undisturbed, it will be young when you and your children are old, but its time has come. Compared with its massive strength, the rough-garbed woodsman, who is examining it critically, seems insignificant. He has come to give its death sentence. He is the "chopper" or "undercutter" and his woodcraft and judgement must be of the best. He examines the tree carefully and decides in which direction it shall fall. Where the trees are standing thickly this is sometimes a nice question, because if in its fall it deviates but a few feet from the chosen course, it may lodge against another tree and be hung up, or it may fall across a down tree or a stump and break, thus ruining one or more cuts. When the "chopper" has made his decision, he undercuts the tree and thus determines the direction of its fall. — Fred Lockley, in April Pacific Monthly.

### Champ Clark Speaker.

Washington, D. C., April 4. — The United States senate and the House of Representatives convened at twelve o'clock today. Speaker Champ Clark in his opening address to the house, said in part:

"My election to the high position of Speaker, is an exceptional honor for which you have my profoundest gratitude. Coming into the speakership, under very fortunate circumstances, I hereby earnestly invoke the hearty co-operation of all the members of this body, regardless of their political persuasion, to assist me in maintaining order, decorum and peace." Chief among Clark's promises before election, were the following: An honest and intelligent revision of the tariff downward; the passage of resolutions, submitting to the states for ratification a constitutional amendment providing for the election of United States senators; necessary changes in the house rules providing for economy in public expenses, the publication of campaign contributions before election; the admission of Arizona and New Mexico to statehood. The House formally elected Clark, speaker today, by a vote of 217 to 148. Representative Mann of Illinois received 131 votes, Cooper of Wisconsin, 16, and Norris of Nebraska one.

### Motor Installed.

The Brand has installed a 3 H.P. electric motor to furnish power. The gasoline engine is no longer needed, and hereafter electric "juice" will be used in printing the paper and odd jobs.

A big shipment of Listers, Disc Harrows, and Disc Plows just received at Hereford Hardware. 7tf

## CREAMERY FOR HEREFORD

Farmer Makes Suggestion About Organization of Local Company to Handle Cream and Produce.

H. G. Hays, who lives 6 miles southeast of town and takes an interest in the progress of the town and country, offers the suggestion that Hereford could turn a good proposition by organizing a creamery company. The stock would be bought by the merchants and farmers and the plant run to their benefit. He would have a small refrigerating plant connected with the creamery so that ice could be made for local consumption and for use in shipping produce. Besides the shipment of butter, with the use of a small refrigerating plant, eggs and dressed poultry could be easily handled. What do you say, Mr. Merchant? The farmers will take half the stock. Will you meet them half way?

### To The Meadowlark.

Thou tiny, feathered chorister, so brave,  
Exultant on the very edge of Spring;  
Though clouds are pouring and the winds still rave,  
Hark! In a lull, I hear thee blithely sing.  
Perched on a topmost bough or rustic fence,  
What though around thee dripping skies be drear,  
Thou spendest joy with prodigal expense,  
And fillest all the air with song and cheer.  
Undaunted heart. I would that I might warm  
The world as thou, and top with song the storm.

Bright first forerunner of the coming green,  
Sprung like a spirit from an empty sky,  
While earth is winter-dumb and no life seen,  
Then sudden sounds thy joyous minstrelsy.

Thy careless music fills the enraptured ear:  
Like Pan's pure pipe it flutes unto the skies,  
Telling all things, "Soft-footed Spring is here";  
And bidding ferns and violets arise.  
Where thou hast learned thy rapturous bubbling glee?  
Thou chosen bard of Spring's great victory.

I would that I could live as thou art, free,  
Bird of the open fields and morning-calm;  
Without the clog and cramp of tyranny  
By law or custom. Give me that rare balm,  
More heavenly than dew, which frees the soul  
And bids it soar on wings where'er it dare;  
Let men live godlike free from men's control;  
Then shall such heart-songs fret the morning air  
As ne'er were heard; rare melodies divine,  
With joy as deep, as reckless too, as thine.

—By Charles Erskine Scott Wood.

Mrs. Reiland of Nebraska came in yesterday to attend the bedside of her sick daughter.

### Gas Sand Struck at Adrian.

A stratum of gas sand has been encountered by the drillers of the deep well near Adrian at a depth of nearly 1400 feet. This development still further strengthens the belief of the officials of the American-Canadian Land Company, who are drilling the well, that they will strike gas or oil within a short time. Those familiar with the work state that conditions are much the same as at other points where oil or gas has been found, also that the Adrian well is in direct line of the oil "lake" whose northern head is near Aiva, Okla., where a flowing well was recently discovered, and which extends in a southwesterly direction beyond the Southwest Texas boundaries.

### Easter—Week of Prayer.

### Civil Appeal Court at Amarillo.

One of the last things done by Gov. O. B. Colquitt before the expiration of the constitutional 20-day limit was to approve the double header court bill which establishes two new appellate courts, one at Amarillo, the other at El Paso. Six judges are to be appointed but the governor thinks to wait until the special session of the legislature before naming them.

I'll meet you at the Corner Drug Store. 38tf

### Hereford Banks Cut off Overdrafts.

The making of overdrafts is forbidden by our Banking laws, both State and National, and the Officer of the Bank permitting such practice is held personally responsible for the overdraft he allows.

Besides, the practice itself is unfair to the Bank, tends to misunderstandings between Bank and Customer and is oftentimes productive of much annoyance when a favored and otherwise appreciated customer imposes on the Bank by putting a check in circulation which will overdraw his account.

For these and other good reasons, we have decided that from this date forward we will cut out overdrafts entirely.

We believe that this action on our part will be beneficial to our customers as well as ourselves, and cause them to keep a closer check on their business and expenditures.

If you are overdrawn now, please cover it as we have orders to close out the item of overdrafts at once. Please remember, hereafter, to make your credit before you draw your check, and you will be saved the humiliation of having your check turned down. 5-tf

**National Fight Against the Fly.**  
Co-operating with the United States Department of Agriculture and prominent newspapers over the United States the American Civic Association has planned a National campaign against the fly. The features of this campaign will be as follows:

The dissemination of daily instruction on the fly evil in the daily and weekly newspapers of every city and hamlet in the country.

The introduction into the 5c theaters of illustrations of the manner in which flies carry disease and the establishment of free illustrated neighborhood lectures on the subject.

The organization of campaigns of education by women's clubs with a view to reaching directly the housewives upon whom the eradication of the pest devolves.

The demand that City Councils and other governing bodies enact and enforce laws requiring the protection of garbage from flies and the screening of all building windows and doors and similar protection of foods.

Richard B. Watrous, secretary of the American Civic Association, has

authorized the following interview: "The crusade against the fly must be one of education, and the newspaper and magazine press is the most valuable agency we have for the dissemination of the expert information gleaned from the Bureau of Entomology of the United States Department of Agriculture and from the leaders in science and medicine.

"Every one admits that the fly is a nuisance—a peaky nuisance—but only a small part of the population knows just what possibilities for the spread of contagious disease lie in the feet, wings and head of the fly. When the people are fully awake to the dangers of the fly, they will demand the most stringent regulation of the care and removal of manure, of the screening of fruits, meats and foodstuffs in and about markets and stores, and for the proper screening of homes, offices, hospitals and all public structures.

"One year's effort along these educational lines has produced splendid results, as evidenced by the intelligent interest now manifested in many parts of the country for getting rid of the fly. The movement has assumed practical lines with definite ends in view.

"Many cities have already passed ordinances governing the care of stables, the care of market booths and the proper sealing up and disposition of garbage. And with the constant prodding of the association's efforts, reinforced by the newspaper and magazine press, thousands of communities will take similar preventive measures."

The American Civic Association has issued the following bulletin presenting its indictment against the fly:

"He is a frequenter of offal; the fly lays her eggs in the manure pile or other filth. All the germs—all the imaginable, abominable microbes—fasten themselves on the spongy feet of the fly. He brings them into the house and wipes them off his feet. The fly you see walking over the food you are about to eat is covered with filth and germs.

"If there is any dirt in your house or about your premises, or those of your neighbor's, he has just come from it. It is his home. Watch him as he stands on the lump of sugar, industriously wiping his feet. He is wiping off the disease germs; rubbing them on the sugar that you are going to eat, leaving the poison for you to swallow.

"He wipes his feet on the food that you eat, on the faces and on the lips of your sleeping children. This does more to spread typhoid fever and cholera infantum and other internal diseases than any other cause.

"Disease attacks human beings only when they are brought in contact with it. For instance, you can not get typhoid fever unless you swallow the germ of typhoid, and you do not swallow these germs unless they get on the food you eat or in the liquids you drink, or on the glasses or cups from which you drink.

"Not only does the fly scatter the seeds of disease from his body over your food, but before your fruit and vegetables are placed on the table, they have been subjected to his filthy habits, either in the kitchen or in the stores.

"Intestinal diseases are more frequent whenever and wherever flies are most abundant, and they, and not the summer heat, are the active agents in its spread."

**Castro County Clippings.**

From The Dimmitt Plainman of Friday, March, 31.

J. W. Hendrix and Charlie Cox of the Arney neighborhood were in Dimmitt Monday. Mr. Hendrix has made a success of stock farming in Castro county. He came to the country eleven years ago when his assets were \$150.00 and a large family. He has improved and paid for a section of land, has a comfortable home, a bunch of fat stock and a still larger family. Mr. Hendrix has made farming pay by planting and cultivating crops to which the land, seasons and climate of Castro county are best adapted. Redtop sumac cane is his hobby and he rides it to some purpose as it is a sure crop and very useful for feed and sale. Milo maize, he declares, is a better feed, a surer crop and keeps better than kaffir corn. Sorghum is an unfailing feed crop and easily turned into cash via the fat steer. He has been offered real money for all these crops and says he finds that he can always get as much as \$12.50 per ton for millet some time during the year. Being a careful man with a large and growing family, Mr. Hendrix always raises plenty of millet. About once per annum Mr. Hendrix goes to Kansas City with fat steers and generally meets Arch Johnson of this county, who is marketing Castro county stock also. They make it a rule to remain in the city a day or so in order to more fully investigate the cause for the high price of beef and mutton, and all that they fail to learn about the high price of said commodities they balance against what the commission men can never know about stock farming and the invigorating climate of Castro county.

J. H. Townsend of the Flag ranch, south of Dimmitt, was in town Tuesday. He said that fifteen or twenty teams were busy on the ranch breaking sod and that five or six hundred acres had already been turned. It is planned to break 1,500 or 2,000 acres in all and plant it together with the 700 acres of old land in kaffir corn. This kaffir corn is intended to be used as feed for the cattle next winter.

The lumber yard office building

belonging to J. W. Alexander, located on the east side of the public square, caught fire Wednesday morning at 12:30 o'clock and burned. The building belonging to I. O. Jackson, just north, also burned. A stiff wind from the southeast fanned the fire and carried the sparks where they would do the least harm. The lumber yard building contained millinery goods, some grain, safe, fixtures and paint. The estimated loss is \$2,600. Insurance, \$1,300. The Jackson building, being vacant, was uninsured. Estimated value, \$400. Cause of fire, unknown.

W. B. Beach and wife of Hereford were the guests of T. H. Beach and family and of Mr. and Mrs. E. S. Ireland Friday, Saturday and Sunday.

**DON'T BE BALD.**

Nearly Anyone May Secure a Splendid Growth of Hair.

We have a remedy that has a record of growing hair and curing baldness in 98 out of every 100 cases where used according to directions for a reasonable length of time. That may seem like a strong statement—it is, and we mean it to be, and no one should doubt it until they have put our claims to an actual test.

We are so certain Rexall "93" Hair Tonic will cure dandruff, prevent baldness, stimulate the scalp and hair roots, stop falling hair and grow new hair, that we personally give our positive guarantee to refund every penny paid us for it in every instance where it does not give entire satisfaction to the user.

Rexall "93" Hair Tonic is as pleasant to use as clear spring water. It is delightfully perfumed, and does not grease or gum the hair. Two sizes, 50c. and \$1.00. With our guarantee back of it, you certainly take no risk. Sold only at our store—The Rexall Store. For Sale by Corner Drug Store.

**City Council.**

With the addition of two new men, the city council will not lose any of its former strength and prestige. The retiring members, Messrs. Murchison and Keliehor, have served the city well. Geo. W. Irwin, Jr. does not come to the council without experience as he was on the first board at the incorporation of the city. Adj. E. T. Woodburn will have his first lesson in city government, though he is rather young to learn old tricks. The whole council and officers as they now stand are: J. H. Head, mayor; J. H. Cardwell, R. N. Mounts, D. C. Laird, E. T. Woodburn and Geo. W. Irwin, Jr., aldermen; A. M. Jones, Secretary, C. L. Sullivan, Marshal, Wm. M. Knight, City Attorney.

**That Likable New Bi-Fold Envelope**

Many times in your inmost soul you have wondered WHY the so-called standard sizes of envelopes (6 3-4 size) and writing paper (8 1-2x11 inches) were so designed as to make so laborious and incongruous a fit, and no doubt also many times it has annoyed you and offended your sense of the artistic and proper. In fact the MISFIT has been somewhat of a every half-hour nuisance.

The New BI-FOLD ENVELOPE solves the problem pleasantly and effectively. Three and seven-eighths inches wide by seven and one-half inches long; a handsomer, better all-purpose envelope could not have been designed. The paper that you use is seven and three-eighths inches wide by eleven inches long, and when folded over twice, FITS the envelope EXACTLY. The envelopes and paper make a combination that carries a distinction with it. It is the new standard—a likeable and convenient standard for business purposes. A correct standard for polite correspondence.

And better still, we have secured the new BI-FOLD ENVELOPE in Consular White NATIONAL BANK BOND Paper. That fact alone doubles its value. NATIONAL BANK BOND is "the paper that holds the recipient's attention." A paper good to the eye, good to the touch, good to the use. It is a high-quality paper at a medium price. We have the BI-FOLD ENVELOPE in white only. Call and see it—place your order now.

NATIONAL BANK BOND paper and envelopes to match in five colors: WHITE, BLUE, RUSSETT, GOLDEN ROD, and BUFF. Telephone No. 30 and ask for the NATIONAL BANK BOND MAN. He's a busier mortal each day, but he'll give you prompt attention just the same.

**Annual Round-Up.**

Not unlike the cowboys of the early days on the Plains, when in the spring the annual round-up was held, Hereford should celebrate the event. The spring round-up was an occasion of bustle, work and new life at the headquarters of the ranch. The older cowboys initiated the tenderfoot and otherwise made life miserable for him.

To commemorate this great yearly event, which was of much importance in those days of long horns, Hereford citizens should inaugurate some sort of move. The celebration could take the form of an annual banquet, to which all old-timers were especially invited. As a feature the younger men and women could come

out dressed as cowboys with their big hats, quirts and spurs. Speeches would be in order. In fact, many things could be done which would give entertainment, but the "Annual Round-Up" should become a permanent feature in the social life of Hereford and Deaf Smith county.

The Brand suggests that all who were here before 1890 or some other date constitute themselves into an organization which would have charge of the celebration. What say ye?

**Slap Shots.**

The woman who jumped on a bobcat and killed it did not wear hobblettes.

Some men had rather see the women do all the work except voting and that requires no effort and little sense.

Why should a woman want to vote when she controls the voting machine?

As a mark of distinction—one person in Hereford boasts that they (singular number) have not been to church in two years.

What do you think? A banker complains that he does not own an auto because he has loaned out all his money to his customers to buy chug machines.

The April weather is foolin' even the old-timers as well as the weather man.

WATER, soil and sunshine make a combination hard to beat. Hereford has all three in just right proportions.

MANY Panhandle towns are complaining at the census returns. Uncle Sam usually removes all the padding when making physical and census examinations.

Indications point to the election of reform and retrenchment candidates in nearly all the cities where elections were held Tuesday.

President Diaz will make one more effort to put a large army into the field and then if he don't—Uncle Sam may use his pontoon bridges.

**City Election.**

Woodburn and Irwin lead the ticket. Hughes a close third. The city election passed off unusually quiet. There were only 3 names on the ticket with two places to fill. Only 182 votes were cast.

E. T. Woodburn	73
Geo. W. Irwin	60
Jas. A. Hughes	42

Five others received a scattering vote.

**Farmers Busy.**

A ride through the country will explain the absence of people on the streets—the farmers are busy. They have no time to come to town except for actual necessities. The oats and wheat are looking fine, and in the communities where rain fell Sunday night, they are simply on a hump.

Many are preparing ground for cotton. They are betting their best Dollar (J. F.) on a good cotton crop, and they will have it in for him if he don't make good.

A Day in the Country.

Some twelve or thirteen of Hereford's people were guests at Mr. and Mrs. Leonard Rickett's Sunday. They went out in the big carry-all belonging to the McDonald Irrigated Farms.

Those who were present report an exceptionally good time and that the dinner was the best in all the land. The ladies for one time were placed in the back-ground and the gentlemen ate at the first table, all but Marvin Cross, who consented to act as waiter and be a lady for once. A long cook apron is said to become him.

The day was a rare outing to the guests and there was not a moment that went begging for its share of the enjoyment. Those present were: Mrs. N. M. Patton, Mr. and Mrs. W. T. Stanberry, Mrs. Estelle Tucker, Miss Louisa Ewing of Farmington, N. M., and Miss Lelia Patton; Messrs. Albert Herbst, Jack Cardwell, Marvin Cross, Hugh Gill and Eagle Henderson and Master Fred Patton.

### In Bad Fix

"I had a mishap at the age of 41, which left me in bad fix," writes Mrs. Georgia Usher, of Conyers, Ga. "I was unconscious for three days, and after that I would have fainting spells, dizziness, nervousness, sick headache, heart palpitation and many strange feelings. "I suffered greatly with ailments due to the change of life and had 3 doctors, but they did no good, so I concluded to try Cardui. "Since taking Cardui, I am so much better and can do all my housework."

# Take CARDUI

**The Woman's Tonic**  
Do not allow yourself to get into a bad fix. You might get in so bad you would find it hard to get out. Better take Cardui while there is time, while you are still in moderately good health, just to conserve your strength and keep you in tip-top condition. In this way your troubles, whatever they are, will gradually grow smaller instead of larger—you will be on the up-grade instead of the down—and by and bye you will arrive at the north pole of perfect health. ### THE BAY VIEW CLUB.

The meeting of the Bay View Club on Thursday afternoon with Mrs. B. S. Arnold was a very enjoyable one. Decorations suggestive of Easter, and a vase of assorted carnations added to the pleasure of the occasion. Some ideas and a short reading were given on Easter customs and traditions. A word contest made a pleasant diversion. Mrs. Dalton Johnson and her sister, Mrs. Miller, were special guests at this meeting. Quaintly painted "Humty Dumties" wearing pointed caps, sat guard over the dainty refreshments of cream and real angel food. Tiny Easter chick were given as favors.

### Two Buildings Burn at Tullia.

Tullia, Tex., April 5.—About 4 o'clock this morning fire broke out in a restaurant on the west side of the court house square in a small frame building owned by C. C. Poff, and before the fire boys could reach the scene this building was almost destroyed, and the drug store of Crawford & Pace in an adjoining building was also destroyed before the flames were brought under control.

The drug stock of Crawford &

Pace was valued at about \$5,500, and was insured to the amount of \$3,750. The building occupied by the drug store was owned by N. Edgar McCune, its estimated value being \$1,000, with no insurance.

The Poff building, in which the fire originated was valued at about \$400 and was not covered by insurance. The restaurant fixtures etc., were worth something like \$100 with no insurance.

### Kansas Town Has Woman For Mayor.

Hunnell, Kan., April 4.—Mrs. Ella Wilson is now Mayor of this town.

At the city election yesterday she and O. M. Akers were tied for the office. At first it was suggested that the two candidates draw lots for the office. But that did not appeal to the male voters. They said if Mrs. Wilson could race a man to a tie she ought to have the office. Therefore, the judges of the election declared her elected. It was she who proposes to clean up Hunnell.

In one of her campaign speeches she declared the town was harboring boot-leggers and that pool halls were being run contrary to law. She proposes to correct these alleged infractions of the statute.

There were women candidates for the City Council and a woman ran for Police Judge too, but all of them were defeated. The women centered their efforts on the election of Mrs. Wilson.

of the people, he or they, and also the individual or parties offering such reward shall be punished as in the last preceding section, and if the offense be committed by the president of any corporation, or by any officer thereof with the knowledge or consent of its president, in addition to punishment of the individual its charter shall be forfeited. Either party to a violation of this and the preceding section may be compelled to testify regarding thereto, but shall not be punished for any act regarding which he may have been required to testify."

### Belleve Diaz Means Business.

El Paso, Texas, April 5.—It is believed here that a war of extermination which will turn northern Mexico into a burial ground, is imminent, following the declaration of Francisco Madero, Jr., the provisional president of Mexico, that the insurgents will never quit until every demand is granted. President Porfirio Diaz has ordered twenty million rounds of Mauser cartridges and ten mortar batteries for immediate delivery. Americans who are arriving here from Mexico City, say that President Diaz, having granted unusual concessions to the insurgents, is now ready to crush the rebellion.

### Good Man Dies.

The death in Amarillo of H. H. Stanley caused unspeakable sadness to his many friends in the Hereford community. He has been in bad health for some time, and the end came Sunday morning at the home of his son, A. G. Stanley.

The funeral services were conducted by Rev. Jenkins, pastor of the First Baptist church of Amarillo, at the home of his son. The floral offerings from friends, who have known him for twenty years past, were indeed many and beautiful, and he was laid to rest 'neath a mound of flowers in the cemetery at Amarillo.

Mr. Stanley was born in Northern Mississippi in 1842 and moved with his parents to Texas when seven years of age, settling in Travis county near Austin, where he grew to manhood. He has been a resident of the Plains for nearly a quarter of a century, having lived for the last twelve years at his home five miles south of Hereford. He was a member of the Methodist Episcopal church for thirty-five years.

The many friends of Mr. Stanley know the pure, beautiful life he led. His name was a synonym of all that is good wherever he was known. No one ever associated with him but somehow felt that he had been near the Master. Up till a few years before his death he was engaged in the cattle business and many a homeless cowboy, tired and weary, has turned his jaded cow pony in the direction of his ranch and ridden in at the close of day for he knew that there he would find shelter, food and drink and a hospitality that he had perhaps not known since the home of his childhood, but best of all he knew that there he would find a man, yes a man in all that the word implies. He was a faithful husband, a kind and loving parent, a good neighbor and a true friend. His going has made a vacancy that never can be filled. He was a father to the fatherless, always so self-forgetful in his efforts to do much for others and we rejoice to know that he has his reward in that beautiful city not made with hands for "he did it unto many of the least of these."

A FRIEND.
