Result In Better Yams

Have you seen the sweet potato experiment at Haile Drugs?

Four jars, each containing a sweet potato, are included in the experiment. Potatoes in two of the pars are treated with Kemgro, those in the other two contain only water.

What Meade Haile likes most about the demonstration is that Kemgro treated yams are putting out approximately five times as much foliage as the ordinary ones-and if you happen to mention the demonstration, he goes into a song and dance about Kemgro.

"This preparation contains 14 which any plant needs"-and there is a lot more, which a glance at the potatoes will definitely prove.

Cub Scouts Will Get Charter—Give Program

Cub Scouts of Pack One will have a meeting at the Scout Hut at 8 o'clock Friday night, at which time the pack charter will be presented by Chester L. Dunlap, field executive; and 13 cubs will receive advancement awards.

On the program also will be presentation of den stunts portraying the numerous superstitions connected with Friday the

This view is based on the nesday were Speck Lunsford, fact that last year's draft list vice-president; John McLean, included many men who are secretary; Billy Ross Phillips, heads of families or employed in treasurer; Frank Cogdell, tailvital defense work. Also, army twister; James Aiken, Jr., Lion June in regretord to 2.79 inches experience has shown that the Tamer; and Leo Forrest and W. with similar figures for most of experience has shown that the Tamer; and Leo Forrest and W.

The registration will work in Limits Must Be 75

A city ordinance passed this week forbids the keeping of cows or other livestock within seventy-five feet of a neighbor's home in the city of Hereford.

The ordinance also fixes a penalty of \$25 for infraction of the ordinance and states that each day of failing to comply sidered a separate offense.

The crdinance was passed to improve health conditions with- Elevotor Men Asked To in the city and in response to cemands for stricter regulations by many citizens.

Forrests Attend Meetings Go Fishing At Galveston

Mr. and Mrs. Leo Forrest returned Monday afternoon from chemicals, plus Vitamin B-1," he a week spent in Galveston, Port of elevator and warehousemen says. "It has every food element Arthur and Beaumont, where Mr. under the quota set-up it was Forrest attended the state convention of life underwriters. At Galveston, the Forrests, were guests of the Southwestern Life Insurance Company at its annual convention; and they report an interesting and entertaining program.

Mr. Forrest also got in some deep-sea fishing while at the gulf ports and made catches of cat and shark. He fished for tarpon, the greatest game fish of the southern waters, but rains and wind squalls made the waters rough and no tarpon were caught by Forrest's party.

Bible Coupons Included In Packard's Best Flour

In connection with "The Little Country Church" program, a broadcast originating in Hollywood, Packard Milling Company of this city announces that Bible coupons are now being included in every sack of Packard's Best flour. The program is broadcast in this area over station KIAC, Clovis, at 11:45 Sunday, 9:45 Tuesday, and 2:45 Thurs-

The Bibles have flexible covers, are 4 1-2x5 1-2 inches and contain 729 pages, Mr. Danforth sald. Coupons are included in 24 and 48 pound sacks of flour.

Funeral Rites Held Wednesday For G. C. Harrington, Suicide Victim, Who Died Monday Night

Jr. Red Cross To Meet Friday, Map rington, 34 years old, rural mail Work For Summer

Hereford's part in war relief work was this week ready to start with a meeting of the Junior Red Cross scheduled for Friday afternoon, June 13, at 3 rington, whose body was found o'clock at the old W. P. A. sew- in the barn at his home on Kibing room on the third floor of the courthouse.

High school home economics students, who started the work as one of their summer projects, bors and found anote from her invite all women of the community who are interested in Red Cross work to be present at the meeting, Friday. It is hoped that the Junior Red Cross will be active here as Hereford does not as yet have a regular Red Newell, Cross unit engaged in war relief work.

The first project to be undertaken will be that of knitting (Continued on Page 10)

Nearly 3 Inches Of Rains Have Fallen In June

Rafas of .51 inches last night brought the total rainfall for the county, though it was not known whether the rain yesterday was general.

Farmers were eager to start work replanting row crops and in many sections the sab is going forward according to information received from rural correspondents.

ripening of wheat and so far very little black rust is reported. The unusual moisture here has not as yet damaged the wheat as it has in parts of the south plains.

Greatest benefit of the moisture is to potato farmers who are saving on irrigation costs and at the same time are looking with the new law will be con- forward to a good price for their product this year.

Send Representative To Amarillo Meeting

Representatives of the AAA from Washington will be in Amarillo at the Herring Hotel at 1 o'clock Monday afternoon, June 16, and will discuss marketing Canyon; three daughters, Mrs. quota laws and responsibilities. announced here this week.

Elevators and warehouse operators are requested to send a representative to the meeting as the information to be given will be necessary to the conduct of C. A. Pierle. grain storage businesses under the marketing quota laws.

Funeral services were conducted Wednesday morning at the Church of Christ for G. C. Harcarrier, who died Monday night. Rev. H. P. Cooper was in charge

Justice of the Peace A. L. Thomas turned in a verdict of death by self-inflicted gunshot wounds in the death of Harble Street at about 11 o'clock, Monday night, when his wife returned from a visit to neighhusband, expressing his love for his family and saying that he had gone to the barn. Mrs. Harrington called a neighbor, Jack Grady, who notified Sheriff J. O.

Officers and Mr. Grady found Harrington's body in the barn and near him a .38 caliber pistol with which the wound had been inflicted. Harrington had been shot through the heart, evidently at very close range as there were powder burns on his undershirt.

Authorities expressed as possible motive Harrington's despondency over his inability to carry on his work because bad weather.

He had been carrying the mail over the route from Spring Lake to Hereford for about two years. Besides his wife Harrington is

survived by a daughter, Jean. Burial was at Earth, Texas.

Rites Held For Cool weather has delayed the Canyon Saturday

The funeral of E. V. Holman, 73 years old, prominent farmer and stockman of the Panhandle was conducted at the Christian Church in Canyon, Saturday afternoon at 2:30 o'clock by Rev. G. L. Messenger.

Mr. Holman was born in Missouri and came to the Plains in 1905. After spending several years in Groom, he moved to Canyon, where he lived for many years and was outstanding in all civic activities. For the past 10 years he has lived in the Dawn community. He died early Toursday morning. Mr. Holman is survived by ha

wife, Mrs. E. V. Holman of Dawn two sons, L. H. and Larry of R. L. Daugherty of Cane Hill, Mo., Mrs. Floyd Hays of Hereford, and Mrs. Hosea Foster of Canyon, and one brother, Dillard Holman of Springfield, Mo. Pallbearers were Lee Salder,

I. C. Unsell, J. W. Knorrp, W. C. Black, Dr. D. A. Shirley and Dr. Burial was in the Canyo Cemetery.

PROCLAMATION

WHEREAS, the Government of the United States, through the Secretary of the Treasury, has caused to be issued Defense Bonds for public subscription, and these bonds are now being sold throughout the Nation; and WHEREAS, the people of this City have always been patri-

otic and supported in every way the Government of the United States, and

WHEREAS, Saturday, June 14, 1941, is National Flag Day wen we as a free people pause to consider and to pre-pare against the menace to our national security; and WHEREAS, the President of the United States has declared an Unlimited National Emergency, and it behooves the people of this city to investigate and consider the pu chase of Defense Bonds in order that the security of our Nation may be maintained; and

WHEREAS, the bonds so issued give a fair return on th WHEREAS, at this time attention of the people is directed to the needs of our Government for financial supp and our citizens are urged to buy a share in America

Mrs. Lucy Miller Is Champion War Cry Salesman

Mrs. Lucy Miller has been sell ing the War Cry, official Salvation Army publication, in Hereford every Saturday for more than six years. Mrs. Miller, 64 years old, may miss a few days but it is only because of other alvation Army business; and sandstorms, rain or snow have never yet kept her off her regular route-which is perhaps why she was recently honored as the champion War Cry seller of Texas, with a record of about 37,000 papers sold last year.

Besides Amarillo, which is her headquarters, Mrs. Miller sells on one day in the week at Canyon, Happy, Hereford and other towns in the vicinity. She has her regular customers, and in this connection wishes to tell her friends that she is the only authorized representative of the Salvation Army who calls in Hereford—and that she always makes the town on Saturday.

Mrs. Miller is active in other chases of Salvation Army work. She teaches a Sunday School class about which she likes to give an enthusiastic occount, and she distributes War Crys, surchased by her regular customers and contributed for the purpose to the jails and hos-

The Simms 4-H Club met at the home of their sponsor, Mrs. G. A. Syms, Tuesday afternoon. Miss Sadie Lee Oliver, discussed the contents of the sewing box, seams, hems, and sewing helps. Pamphlets were given the girls on mattress covers, poultry feeding and Texas Food Standards, which were discussed as to meal planning. The afternoon's program was cut short because of threatening weather. Members present were Vera Carlson, Norma Lea Hetzler, Frances Lemke, Venita Barnett, Geneva Youngblood, Dorothy Wagner and Vergie Fincher. The next meeting of the club will be at the home of Patsy Jean and Mary Evelyn Hammock.

Progressive News BY MRS. HOWARD HIGGINS

Mr. and Mrs. Bob Higgins and Mr. and Mrs. Wesley Higgins of Ward, called on Mr. and Mrs. A. S. Higgins and family Sunday afternoon

Mr. and Mrs. Clyde W. Russell and children, Robert, Doris and Linda, visited her sister, Mrs. Luke McBrayer and family of

Wyche, Sunday. daughters, Pauline and Peggy Jo, of Vernon have recently moved back to this community. They live west of the school house on the avenue.

Mr. and Mrs. M. Wilson made a business trip to Amarillo, Friday and also visited her sister, Mrs. Harold Burk, and family.

Mr. and Mrs. Howard Higgins took dinner, Friday, with Mr. and Mrs. Edgar Russell in Hereford.

This community received about one and one-half inches of rain last week. A light shower also fell here Sunday night with more reported in the southern part of the community than in the northern part. The farmers are all getting very eager to finish their planting of row crops and also to kill weeds that by now have gotten a good start. Most of the tractors were kept busy by Tuesday.

Mr. and Mrs. N. J. Lennox of Corvallis, Ore., arrived Thursday to visit her mother, Mrs. W. Vick, and her sister, Mrs. Owen Neel, and family of this community. Mrs. Lennox planed also to receive medical at-

tention while here. Mr. and Mrs. Weldon Gregor

18 Men Needed in Factories for Each 1 On Firing Line

CLEVELAND Insisting tot today's wars will be won in te factory, the National Machine Tool Builders Association calculates the present complex; mechanized warfare requires 18 men to maintain just one soldier on the firing line. In 1918 only five men backed every man at the front. The modern soldier fires a

rifle three times as fast as in the first World War. He can travel, completely equipped, ten times as far in a day. The tank, introduced by the British in the first World War but a limited factor until the closing stages. now is vital. And the airplane's long-distant bomb-carrying capacity is 32 times that of the last great conflict.

Therefore, the association calculates, "the real contest today is not on the firing line but on the factory production line where defense equipment is

"The great army of men behind the army at the front today includes steelmakers, shipbuilders, metal -workers, farmers, parts assemblers, inspectors, and a long list of others. But none is of greater importance than the country's operators of machine tools-an army of over

a million men." There are hundreds of types of machine tools, some of them small bench-size units, others weighing 50 or more tons and standing as high as a three-story house. The industry says the the demand is so tremendous that United States production this year will amount to \$750,-000,000-or \$300,000,000 greater than last year, which was doube booming 1929.

We had three showers the past week, but the ground was dry enough for the tractors to start again, Monday. Every one is certainly busy trying to get the weeds killed and to get their row crops planted.

Much Yet To Do "It is quite clear that the fullyet been achieved," it continued, for there are in the United States wide disparities in the health records of individual communities. There are large areas where conditions of morbidity and mortality leave much to be desired. Evidently large numbers of children are not receiving the advantages to be gained from the present wealth of knowledge in the medical and sanitary sciences. To take measures to prevent illness and avoid accidents is not only the more humane procedure but also the most economical. A vital step in the integration of the present endeavours to promote the health and welfare of children will be made when parents are educated in the use of the facilities avail-

Child Total Down The report pointed out that for the first time in history the number of children is decreassult of the precipitous decline in the birth rate. The 1940 total under age 15 is 32.9 millions or 3.2 millions less than the 1930 total. In spite of general population increases, it is expected that the 1960 total of children in America will be 31 millions or 5.1 millions under the 1930 total.

able to them."

"With the numbers of children in our population decreasing, the future of the nation calls more than ever for immediate attention and action on the problems centering around their health and welfare,"

The survey made for the Insand public health statistics. ed that practically all of the improvement in infant .mortality has been after the first day, primarily the result of premature birth and injury at birth which jointly account for 80% ment of 45% in deaths of infants under one year of age is accounted for by the reduction humble heads." in the balance of the first year that, among infants, females about one-fifth less than that for males.

Age ten is found to have the lowest death rate of life. There is a continous improvement from birth to age ten, when the death rate is only 1.07 per 1,000 and after that the death rate starts to increase again.

All Causes Declined One outstanding fact emerges from this survey," the report said, fnamely, every cause of death under examination shar-

Experience Gives Conn Chance to Beat Joe Louis

BY ART BRONSON

RILLY CONN, the Pittsburgh Adonis with a lot of moxie and not much of a punch, meets heavyweight champion Joe Louis in New York, June 18.

The two have completed their warmup tussles. Louis turned back Buddy Baer in the celebrated "For Whom the Bell Tolls" scrap in Washington. Conn cooled Buddy Knox in seven heats in Pittsburgh.

So Uncle Mike Jacobs and his capable coterie will start dishing. out the hokum, the boys will open training camps, the publicity will mount and by June 18 everyone will be pretty ex-The Louis-Baer and Conn-

Knox fights present some interesting contrasts. After the eventful first round when a good left hook and a right hand shove sent Joe shufflin' through the ropes, the Baer scrap wasn't much. Louis all but tore Buddy's head off . . . would have finished him in another round.

CONN, trying to win a Jacobs' smile after his Gunnar Barlund flasco in Chicago, hit sharply but not potently against Knox. Billy is not a hard hitter . . . will never be one. Nevertheless, Knox, a better than average trial horse, was knocked down three times in the seventh . . . failed to come out for the eighth

The thing people forget about Billy Conn is that he is a seasoned fighter, not a green punk. He has been in more than 100 fights and in every division from featherweight up. He is smart, fearless, cocky.

Conn's biggest drawback is his inability to start fast enough. He never gets going until the sixth or seventh round. Against Louis, that may prove fatal. Billy can box, has a good left hook and jab. He will not lead

Will Conn Be Champ?

mistakes that some of the lumbering, top-heavy "bums-of-themonth" have made. He will fight with plenty of savvy.

OF course, brother Louis can box a little himself and he can hit with devastating power. How Conn will react to a Louis right cross to his pretty face will be interesting to watch.

Louis is the favorite. He should be. A good, big hitter who can box should get the nod over a smaller, less powerful boxer of the "clever" variety. But the champion is not the hungry, vicious Louis who slapped down Braddock and Schmeling. Too many bums

have given him trouble of late. If Conn starts lethargically, it may be all over before the customers get comfortable. If Billy's hanging around by the 10th round, throwing those snappy left hooks and doing his dance. there is a good chance we will have a new heavyweight cham-

Miscellaneous Shower Is Given or Miss Marthanelle Ewton

Miss Marthanelle Ewton, who Knit for Britain became the bride of Mr. Wayne warris the morning of June 8, was complimented wih a misellaneous shower Friday afterin at the home of Mrs. T. W. Hostesses included sdames T. E. Seigler, Altus iggins, Frank Terrell, Edna et, Ross Fuller, J. O. Newell, Ed ast, O. G. Hill, Hall Beavers, C. Baird, T. W. Alderson, Mis-Marjorie Alderson, Mary Ann aird, Orvella Hill, and Vir-

The Alderson home was decorated throughout with midsummer blossoms in varied colors. All the younger members of the party wore formal frocks in pastel colors which matched their corsages made of varicolored weet peas. Other members of he houseparty besides the hostsses included Misses Helen Snyler, Elizabeth Ireland, Viola Phillips, Mrs. H. D. Reed, Mrs. B. Allen of Clovis, N. M., and Miss Bernadine Phillips. Miss Marjorie Alderson greeted the ruests and the honoree, Mrs. Noah Ewton, the bride's mother, Mrs. Sina Scott of Oklahoma City, the bride's grandmother, and Mrs. Jack Grady made the receiving line.

Informal entertainment included readings by Miss Bernadine Phillips and Miss Mary nn Baird, and a toast to a ide given by Mrs. H. D. Reed. Refreshments were served rom a decorated table. Placed in the center of he table was a blue bowl filled with mock oringe blossoms with white tapers n blue holders to complete the Entertains Club color harmony. Miss Orvella Hill presided at the punch bowl and. fisses Mary Ann Baird and Eli-Clovis, presided at the register. Gifts were arranged in atractive groupings about the

Those attending were Meslames Ted Young, Mildred Renro, Arlie Dean, Wirt Phillips, T. Roloson, Darrell Staggers, E. Fridley, J. C. Cummins, H. Williamson, C. C. Cox, George Ause, J. J. Clark, D. H. Stamford Reunion To Feature Quarter Horse Show

STAMFORD,- Entry blanks and prize lists for the official American Quarter Horse Show to be held in connection with the Texas Cowboy Reunion July 3 4 and 5 are being mailed to 190 members of the American Quarter Horse Association and breed-

D. W. Williams of Texas A & M College has been selected as judge for the show. The horses will be judged on the morning of July 4, but rules require that the animals be kept on exhibit all three days of the show.

Cash prizes amounting to \$650 are offered in six classes, besides cups to be awarded for the champion stallion and champion mare. Entry fee is \$5 per horse and stall fee \$4.

The quarter horse, which gets its name from being very fast for a quarter of a mile, has long been popular with ranchmen but has gained new prominence since the American Quarter Horse Association and the first quarter horse show held at the Reunion last year. The quarter champion War Cry salesman for the south. horse is a type rather than a strain of horses.

W. B. Warren, president, Hockand J. Goodwin Hall, treasurer,

The show is not limited to as sociation members but is open to all exhibitors. The prizes are offered jointly by the association and the Texas Cowboy Re-

The course will begin on or about June 16, 1941, and continue for thirteen weeks. Materials Inspection and Testing (Mechanical Engineering)

The purpose of this course is to provide mechanical engineering training for inspectors so they may qualify for service in the Ordnance Department, the Quartermasters Corps, the Air Corps, and in industry.

This course of study consists essentially of a study of ferrous and non-ferrous materials, their uses, manufacture, heat treatment, properties and methods of testing. Considerable stress will be placed on the Metallography and metallurgy of these materials. The processing of these materials will also be studied, and in this connection methods of inspection, use of gages and other measluring devices will be given consideration. Specifications, their function and method of preparation will be studied. Laboratory work in heat treatment, physical testing and metallography will be featured. z

At least two years of an en-gineering school course of study or its equivalent in training or experience are necessary for admission to this course which will begin June 9, 1941 and continue

Workers Past 65 Have Chance For Social Security Benefits

Who said the man past 65 doesn't have a chance?

Well, here's one chance he's Social Security Board.

There are many men in this country of all ages, heretofore unemployed, who are now working in emergency jobs under the national defense program. These include men over the age of 65 who have not qualified for oldage insurance benefits because they lacked sufficient wage credits under covered employment. They are now having an opportunity to add to such wage credits, which may enable them to become fully insured under the old-age and survivors insurance program at some future date.

It was further pointed out that "a worker, in order to qualify for old-age insurance payfrom January 1, 1937, to the date acre island in the lake. Mr. Gab- Destruction of the nesting a- of the worker's retirement af-

The Social Security Act, as earners to participate in the old-age and survivors insurance program, regardless of the age, and the longer they work, the over class already have some to allow a very short season the law became operative, have none. Gala Opening of Buffalo Lake Will Feature Boat Races and Fishing

Formal opening of Buffalo Lake for the summer season will be held Sunday, June 15, and a varied program of boat racing, fishing, and other features will be offered to the crowds, which are expected to run around 30,000 persons for the weekend.

Contests Featured

The festivities start with a dance Saturday night, and Sunday morning, the water carnival will get into full speed with a Sail Boat Classic, in which the winner will receive the Amarillo Times Trophy. Other boat races will be the "Old Tack" fishing fleet regatta, in which nothing but fishing motors and row boats will be allowed to complete, and the hydroplane races, in three different classes. A "fishing rodeo" will offer prizes to the angler catching the largest bass, crappie, bream and catfish for the day; and there will be another "first" offered for the winner in an All Girl Diving Contest, open to any girl 16 years of age or older.

For children there will be a merry-go-round, kiddies auto ride, merry-mix-up and a plane- water. He says he was plenty o-loop; and contests for the scared after he had time to realchildren will offer prizes of tick- ize what had happened. Speck ets to the various rides.

Covers 1600 Acres

Buffalo Lake, which is now was too much for him. Anyway, 110 miles long and more than Jack Gililland and Elmo Hicks two miles wide at some points, is are ready to admit it was too the largest body of water in the much for them. Panhandle and covers about 1600 acres. Rains in May sent the water over the spillway for the first time since the construction of the dam in 1938.

The all-weather road between Umbarger and Buffalo Lake has recently been completed by the Randall County Commissioners and the state highway department will co-operate Sunday in keeping traffic moving.

Prices Competitive Concessionaires announce that all prices at the lake, according to strict federal regulation, must be competitive with downtown prices; and this year, as before, no admission charge is made for entry to Buffalo Lake.

One novel feature of Sunday's show will be use of the lake as a landing place for seaplanes. At least that is the plan announced by some Panhandle flyers, whose only difficulty is in finding pontoons to use to convert their planes into sea-

Vacation School Will Start Monday At Baptist Church

The First Baptist Church will begin its annual Vacation Bible School next Monday morning at 8 o'clock. This will be preceded by a Preparation Day Exercise and parade, Saturday afternoon at 3 o'clock, following which the children will register for the

school. The faculty has been busy preparing for the school for several weeks and are expecting a good attendance. Subjects of the course will be Bible Stories, Bible Study, mission activities. character stories and handwork for both boys and girls.

Superintendents for the various departments are Mrs. Jack Roberson, beginners; Miss Vida Hicks, primary; Mrs. H. G. Conk-wright, Junior; Mrs. J. R. Stroble, intermediate; Mrs. A. L. Manject, associate principal; J. R. Stroble, principal and Mrs. Lon Kelly, nursery class.

Vocal Music School To Be At Church of Christ

A school of vocal music to be held at the Church of Christ, under the direction of the minister, H. P. Cooper, will start A little lady, wearing a red next Monday to continue for two blouse, just came out empty weeks it was announced today. handed and with a sad look on Morning sessions of the school will begin at 9 o'clock and the

night sessions will be at 8:30.

In announcing the school, Mr.

Cooper stated that no charge would be made and that all inpersons were urged to

Best of the Papillons breed in the toy dog class, Jean M. Mc-Grath's Champion Suzette Cherie won honors at the Merris-Essex Dog Show, at Madison, N. J.

Jackie Wright is very unhappy. She lost her "persuader," which is a brown leather riding quirt. It was made by I. V. Flowers and was given to her when she was a very small girl. If you have seen or heard of this quirt, please help Jackie out. She sure would like to have it back, and she will really appreciate your assistance .

Of course we are all very happy that the Wheat Quota business passed and that wheat prices will reach a respectable level this year. However, I believe it was even better news to my ears when I heard that the army Funeral Rites Of was marching into the strikebound plants, and that the srikers will be drafted. This is more like America. There is no question but that the strikes are being promoted by Nazi agents, in hopes of undermining this country just as they did France. I am still strongly in favor of replacing of Frances Perkins as Secretary of Labor, and elimination of all out-andwho have little or no cause, was worth the money

Work On Summer Projects To **Include Trips**

Work on summer projects by high school home economics students went forward Wednesday afternoon, with reports on projects under way and plans sack on potatoes this year. If being made for two trips to be the price holds up near that fig- taken by the group.

Under the sponsorship of Miss Rhita Jean Sullivan, the summer work offers credit to girls who successfully complete the cate 7,500 acres of spuds here required course of study. Meetthis season-and if present ings are being held in the high yields and prices pan out, the school home economics room acreage will be around 20,000 on Wednesday afternoons each acres next season. This is the week.

The group plan to take two trips this summer—one a field trip to Amarillo and the other small, and yields will probably a camping trip to Centa Glen. Present at Wednesday's meeting of the summer class were Vera Rea, Barbara Robertson, Marie Moreman, Marie Compton, Betty Joe Boeskin, Edna Mae Wilhelm, Marjorie Morrison, LaNelle Parmer, Corene Hamilton, Seletta Robinson, El-

Boys Win Prize Pigs By Writing Winning Essays

Seven Dear Smith County Boys last week received registered Berkshire pigs as a prize for writing a winning essay on the subject of "Advantages of the Cow, Hog, Hen Plan of Farming." The other eight boys who entered the contest, which was sponsored by the Sears Roebuck Company of Amarillo and which was carried out in conjunction with 4-H Club Work, received baby chicks as a reward for their efforts.

Local boys to win were Morris Earl Ferguson, Jack Redder, Clyde Neel, Kenneth Rudd, Wilbur Chapman, Earl Hussey and Glenn Ricketts. Judges in the contest were W. M. Emmons, H. G. Conkwright and G. W. Brumley.

The winners and their fathers were guests of Sears Roebuck at a luncheon given Tuesday, June 3, at the Amarillo Hotel.

Some time in September, the boys will bring their pigs to Hereford, where they will be judged on the basis of fitness for breeding purposes; and the boy with the prize-winning pigwill receive a registered jersey expense-paid trip to the Tri-State Fair.

All boys who receive the pigs agreed to give one of the choice gilts as a prize for the contest to be given by Sears Roebuck next spring.

The contest is sponsored every year in the interests of beter agriculture in the Panhandle.

F. G. Wagnon Held

Funeral services were conducted on Memorial Day at the Church of Christ by Rev. H. P. Cooper, for Frederick Green Wagnon, 86, who died May 28

Mr. Wagnon was born at Fayettville, Ark., in 1855, and was out communists. Anyway, this married to Miss Mary Richardstep against strikes and strikers, son in Commanche in 1886. He had lived in New Mexico for more than 20 years before moving to Hereford in 1936; and for 25 years had been a minister of the Church of Christ, living a devoted Christian life.

Survivors are his wife, Mrs F. G. Wagnon of Hereford; one son, J. H. Wagnon of Hereford; and five daughters, Mrs. W. A. Johnson, Miss Lexie Wagnon, Mrs. Ann Dougherty, and Mrs. Myrtle Ford, all of Hereford, and Mrs. Lettie Brown of Hammon,

Pallbearers were Mr. Wagnon's grandsons, Howard Brown, Harvey Lindsey, Emmett Johnson, Leonard Johnson, Perry Johnson, and Henry Ford.

Out of town relatives here for the funeral were five nephews and a niece of Muleshoe, Mr. and Mrs. Howard Brown of Marquette, Kan., and Mrs. Lettle Brown of Hammon, Okla. Burial was in West Park Ceme

Services In Oklahoma For Victim of Drowning

Last rites were to be held in Duke, Okla., for Melba Joyce Burnett, year-old daughter of Mr. and Mrs. J. H. Burnett, who live in Castro County, ten miles south east of Hereford on the old Dimmitt road.

The baby was drowned about 10:30 o'clock Tuesday morning when she fell into a horse trough on her father's farm. Survivors are her parents, Mr. and Mrs. J. H. Burnett.

The first break in the year long rise of industrial output in this country appeared in April as a result of managementlabor disputes. Expansion of industries failed to offset reduced output in coal, automobiles and

"If I were 21 again, I'd get myself a job as a mechanic." So said William Knudsen, the man who came to this country as an immigrant and worked up to become the head of General Motors, and national defense adviser to the President of the

Canyon Museum To Get Addition

CANYON - Presient Roosevelt has given his approval to a WPA allocation for erection of an addition to the Panhandle Plains museum. The sum, and the sponsor's portion, are to reach a total of \$56,952. News of the grant came from

or gressman Eugene Worley. L. Worley immediately notfird Senator Grady Hazelwood at Austin, urging him to push he bill under which the State would match funds with WPA. As a result of the Panhandlewide "gold brick" campaign, a fund of about \$7,000 is pledged to expedite beginning of construction. The local fund or state appropriation must be increased to \$20,000 or more.

The basement for the addition was completed several years ago ander a \$25,000 grant from the Texas Centennial Commission. The present campaign is intended to rear the upper structure on this basement.

The museum is so popular and widely recognized that it cannot contain all the gifts which are offered. One of these will come from Judge James D. Hamlin of Farwell, president of the Panhandle-Plains Historical Society. Judge Hamlin's collection of valuable art objects cannot be received until the addition is completed

Already ranked as one of the outstanding institutions of the kind in the southwest, the Panhandle-Plains museum ultimately will have a commanding place had rain Wednesday night of among the museums of the na-

CLASHING down the straightaways at speeds as high as 160 miles an hour, Mauri Rose streaked to victory in the 1941 Indianapolis Sweepstakes without a tire change. 500 miles of grinding, pounding, torturing speed - and not one tire failed! Here's proof of safety - proof of blowout protection - proof of endurance - proof of tire superiority backed not merely by claims, but by PERFORMANCE! For 22 consecutive

years all the winning drivers in this great classic of speed and endurance have driven to victory on Firestone Tires. Why? Because race drivers know that their very lives depend upon the safety of their tires. They have made it their business to know how tires are built. And they know that the patented construction features found only in Firestone Tires provide the extra strength and durability necessary to safety and victory!

(Editor's Note: The recipe for casserole of beef, which was printed last week, did not list have requested to have it printall of the ingredients. We are ed. Here it is:

therefore reprinting the complete recipe together with the recipe scheduled for June 12.)

Savory dishes at small expense can be prepared with a casserole. The true casserole dish is of meat cooked in a well seasoned sauce for a long time at a moderate temperature. It originated in warm countries where one-dish meals are prepared over small charcoal burners instead of on kitchen ranges. One reason for the popularity of the casserole dish is that the combined seasonings achieve such delicious flovor with no one ingredient seeming too prominent.

Here is an interesting combination of common everyday foods that comes from down Mexico way. No one seems to know just who first used this recipe in Hereford but several

CASSEROLE OF BEEF

1 1-2 lbs. ground round steak 1 tablespoon parsley

6 tablespoons dry bread crumbs 4 tablespoons grated cheese

Beat the egg well and thoroughly mix with the above ingredients, salt and pepper to taste and form into balls about the size of a large walnut. Melt two tablespoons of fat in a heavy skillett and fry the meat balls quickly to a golden brown on-all sides. Pour off most of the fat and add 1 cupful of boiling water and 1 1-2 cupfulls of tomato juice, Add a very small onion which has been chopped and browned in a little butter. Place all in a casserole, cover tightly and cook in oven slowly 2 hours. Remove from oven and add 1-2 cup (measured before cooking) broken spaghetti which has been boiled in salted water and drained. Sprinkle lightly with chili powder, return to oven and bake in

moderate oven for 30 minutes. A green salad or hearts of lettuce with French dresing, a simple desert, and coffee or iced tea, and dinner is ready.

Petersen Home

Mrs. A. Petersen and Mrs. C. D. Kelton were co-hostesses at a gift party complimenting Mrs. Rupert Sparks at the home of the former Monday afternoon.

For entertainment John Samuel Coombes gave reading and Rosemary Phillips sang. Mrs. Ellis Coombes presented the gifts to the honoree.

Bouquets of varied garden flowers decorated the house and lovely refreshments were served to Mesdames W. N. Lemmon, J. B. Stoker, C. R. Smith, George-Muse, Carl Oldham, Ellis Coombes, Jim Williams, J. J. Clark, J. C. Ricketts, E. B. Black, F. M. Kester, R. L. Barge, Earl Phillips, John Hickman, Robert Veigel, Miss Adda Ramsey, Dorothy and John Samuel Coombes and the hostesses.

Out-of-town guests included Mesdames Golden Green, Bayne Young, Lee Sparks and J. L. Sparks, all of Amarillo.

Gifts were sent by several who were unable to come.

Back-Yard Party Is Enjoyed At Witherspoon Home

One of the most popular forms of entertaining during the hot, summer months is the back-yard picnic when a part of the meal is cooked over an open fire-place, or outdoor grill. One such occasion was enjoyed at the J W. Witherspoon home on Wednesday night, last week, when close friends of the couple gathered for the informal type par-

ty and picnic spread.
Guests were Messrs and Mesdames C. C. Acker, G. R. Lunsord, S. P. Rosson, Jimmie Gil-

The bride was attired in a tailored dressmaker suit of beige with saddle tan accessories and she wore a corsage of sweet-

ring service.

heart roses. There were no attendants and the couple stood before an improvised altar banked with while gladloli and mock orange blossoms.

After the ceremony coffee and wedding cake were served from a table laid with a white Venetian lace cloth and centered with white peonies and Cathederal tapers.

Army Depends on Tough, Well-Trained Youth, Too Young To Drive Auto, Flies Plane Infantry to Play Major Part in Battles MEDINA, N. Y. Not enough to own an automobile

BY DAVID A. STEIN

TOUGH, well-trained, efficient infantry divisions still win wars, United States Army experts are convinced. Upon the hard-fighting, hard-bitten infantry rests the winning or losing of battles.

The infantry is the largest arm of the service, both in peace and in wartime. The present training program will develop 45 infantry-artillery divisions, providing four infantrymen for every soldier motorized or in the cavatry.

Most of the nation's selectees are being trained in infantry tactics and techniques. During the first 13 weeks of training, the selectee is taught to march, to use his weapons, and to take care of himself in action. At the same time be is toughened up physically to endure the exertion of battle.

THE new triangular (streamlined) infantry divisions contain three infantry regiments, two regiments of supporting field artillery, one battalion each of engineer, medical, and quartermaster troops, and a company of signal corps troops. Total wartime strength is about 12,500, of which about 7200 are infantrymen.

The shoulder rifle with its bayonet, the tank, and the machine gun are the chief weapons of infantry. Constant experiment is carried out with new and improved weapons and the infantry changes its methods and make-up to keep at highest efficiency. Powerful but light anti-tank guns have recently been introduced.

THE infantry is equipped with fast, modern tanks, which carry substantial armor and machine guns. Tanks are organized into separate infantry units. New training methods

enberry, and family

emphasize the need for co-ordination of infantry efforts with the supporting fire of aviation and armored units.

Taking its cue from developments in World War II, the infantry is changing its tactics to

provide decentralization of command, so that squad and platoon leaders work independently to exploit "soft spots" in the enemy's position.

NEXT WEEK: The Signal Corps.

Drive Auto, Flies Plane

MEDINA, N. Y.-Not old enough to own an automobile, but he owns his own airplanethat's John Barber, Jr., a 17year-old Medina high school

Young Barber, an aviation enthusiast ever since he began constructing airplane models as a containing vitamin C, which sixth-grade student, always had dreamed of the day when he could have an airplane of his own. His seventeenth birthday ing. marked the realization of that dream, when he landed his own Piper Cub training plane plane at the Albion airport near here after a flight from Buffalo.

The young pilot purchased the plane, as a birthday gift for himself, from money left in trust for him by an uncle. Although the estate was not turned over to him until he was 21. Orleans County Judge William H. Munson made it possible for the youth to buy the plane.

John learned to fly last year during his sumer vacation. Working seven days a week as a mechanic's helper at the Syracuse airport, he earned enough money to pay for flying lesons.

After only eight hours of dual instructions he was allowed to solo and came through with flying colors. He received his junior's license last sum-

Asked what was the most important thing for a young pilot to keep in mind, Barber said, 'No stunting!-The pilot who tries to show off by stunting is taking too great a risk. This

brings trouble, not only to the pilot, but to his family and to the cause of aviation.'

The 17-year-old high school sophomore is marking time until graduation when he will enroll in the two-year course at Parks Air College.

POTATO GROWING

By Joe Ballinger

Preparing the Soil (Editor's note: The following article and the one on "Potato Varieties," which will be run next week, were actually the irst in the series prepared by Mr. Ballinger. However, since most preliminary activities in the petate arming in this territory, were already past when the Brand started the series, these articles are run

The soil should never be plowed less than six inches deep; and, if plowed in the fall, eight inches is better. This will give tehhe soil more chance to freeze and to air. It also counteracts insect action and destroys the breeding place of insects.

One must always bear in mind that potato land at all times should be kept loose and have plenty of aeration. If plowed in the fall it should be worked two times during the winter to air the soil and destroy insects. A chisel plow is an excellent tool for this job.

Plenty of air in the soil is essential for potato growing. Before planting the land should be harrowed a time or two to level the soil and seal the surface to hold moisture. This should be done either with a team or light tractor to keep from packing the soil. A mould board plow is the best for plowing as it is better for turning the top soil under. The writer experimented with many plows and use of the mould board plow has always proved to result in a better yield than has a disc plow

Fertilizers and Crop Rotation Well rotted barn yard manure is one of the best fertilizers for potatoes. The writer has experimented with alfalfa land and has had poorer results than on land that had been farmed to wheat for years; but on sweet clover land, the yield was increased considerably.

Sweet clover may be sowed in the fall, pastured the following spring and summer until about September 1, then should three weeks or a month after which it should be plowed under. er could also be sowed in the spring with oats or barley but should be sowed after any danger of a freeze is past. Plowing under after two or three years would increase the potato yield substantially and planting pot- in southwest Texas, the other atoes after beans has also in- evening and saw two does and creased the yield. Potatoes should never be planted on land which has been in sorghum crops the year before. Wheat land is not so bad; two years of potatoes and then rotation of wheat and sweet clover will usually bring pretty good results.

Rotation of some sort is the only way to keep out disease, and a definite rotation should be adopted on every farm. Rotaation reduces the tendency of

Hello, Big Boy

Private Carl "Shorty" Shotwell, of Westfield, N. J., had to eat 77 bananas to make the 110-pound minimum weight requirement of the Army Air Corps. Now his best pal is Private Pete Bearden, of Madison, Ga., who scales 230 pounds. Both are at Fort Ben-

acreage planted to any one crop to fluctuate greatly and it tends also to stabilize the income as it is seldom that all crops and livestock will be unprofitable in any one year. Soil fertility will not only be maintained, but in many cases may be increased. Rhyzoctonia, scab, fusarium and other soil borne diseases can be kept at a minimum only if potatoes are not grown on the same land year after year.

Need for Livestock Every farm should have enough livestock to consume the feed crops necessary in the rotation process. This livestock will supply the manure necessary for maximum crops of potatoes. given a chance to grow for Most Panhandle soils are lack ing in organic matter or humus-

a lack which can be made up This growth puts much-needed only by use of proper rotation humes into the soil Sweet clov- in sweet clover, manure or other organic matter is added.

home in Amarillo soon.

Certified: 13,398 MILES ON ONE 5-QUART FILL OF THIS NEW OIL

5 OTHER GOOD OILS OUTDISTANCED 74% TO 161%

Impartial test in Death Valley Desert. 279 ft. Below sea level.

6 cars Destroyed to give you Economy data beyond any Quibbles.

U.S. Patent No. 2,218,132 tells exactly what is new about the new Conoco motor oil named

CONOCO NI MOTOR OIL

5 quarts of this same new Conoco Nth oil that you can buy today, lasted 13,398.8 miles in a stock coupe—under lock and under scrutiny every minute.

13,398 miles up and down Death Valley. Sand and sagebrush. Lowest land and highest extremes of heat in

5 other well known oils got the same chance as new Conoco Nth oil. 6 identical new cars were used. Tune-ups, tire pressures, speeds, and all other factors were the same for all-impartially. Engines were under lock. Qualified authorities eyed everything.

The test was simple and stern... Each car got its 5-quart fill of some one competing oil and was run at a 57-mile speed, without added oil, till the engine smashed up. New Conoco Nth motor oil went 13,398 miles. Certified. Not another oil came within 5,683 miles of that and one was outlasted 8,268 miles by new Conoco Nth oil. Certified.

The reasons are straight and simple... New patented Conoco Nth motor oil contains Thialkene inhibitor, a new synthetic ... man-made by Conoco.

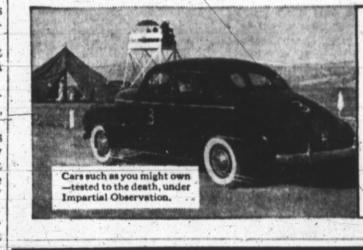

Now an inhibition is something that restrains you - checks you. Thialkene inhibitor checks the effect of poisons formed in normal engine operation. Instead of "festering," weakening, and passing out, this oil is scientifically prepared to keep its health, so that the engine can do the same-a good way to keep up the oil-level.

OIL-PLATING, too! Long the keystone of Conoco success, OIL-PLATING comes from another Conoco synthetic ... (U.S. Patent 1,944,941). Magnet-like action bonds OIL-PLATING to engine parts, so it can't all drain down-not even overnight. While you use Conoco Nth oil, this OIL-PLATING stays on guard against wear in advance! By OIL-PLATING the engine and inhibiting the worst effect of oil pollution, one fill of new Conoco Nth lasted 13,398 miles. Certified.

You'll not put your car through such a third-degree - any more than you keep starting in high gear just because you could. You'll certainly never want to

exceed the recommended Latance between crankcase drains. But knowing that new Conoco Nth oil lasted 74% to 161% longer than other oils tested, see how seldom you add a quart. At Your Mileage Merchant's Conoco station today change to your correct Summer grade of popular-priced new Conoco Nth oil. Continental Oil Co. - Pioneers in Bettering America's oil with Synthetics

CERTIFIED 1 hereby cer-Death Valley Test and related work were thoroughly and fairly conducted. Engine Destruction occurred in each case at the mileage stated.
