Oklahoma Oil Shut Down Order Delayed

As this is written we're receiving many calls from those interested in whether Bill Murray carried out his threat to order Oklahoma off wells shut down.

From what we've read of Bill we consider the question useless; if he said he would, he will. Whether he can effect an actual shut down all over the state is another matter. Most of the Oklahoma City field has been shut in temporarily. The major companies are reported re-

That's funny. We thought from all this over-production talk the majors have put out that they'd be anxious to see production shut

If all the independents in East Texas could have shut down three to six months ago, before the majors, who were caught napping when the field opened and owned but about five per cent of the acre-age, got to drilling so many wells themselves, the result might have been very good.

But the majors now have a lot of wells of their own and are not buy-ing any oil unless they want to.

However, the state has a pipe line law which provides that oil be tak-en rateably without unfair differ-ences between fields. It ought to

Harry Sinclair's stalement was pretty wise. Of course he spoke of storekeeper at Point Barrow. Alast over-pundiction. But we just can't committee that will greet Colonel see this ever-production stuff—except that the major purchasers feel and Mrs. Lindbergh when they are that so long as they can get high. er grade oil in East Texas at lower

You have to have his companies and littles ones. Every industry has 'em. The big ones gobble up the little ones and always will. But they dare not step.

The plea made to the attorney general that his department deter mine whether the state anti-frust laws are being violated and if so here Saturday as city manager.

side and of old

BY HEROERT PLUMMER

A CTIVITIES at the summer miles, we had no real remedy for stary training camps in various parts of the country serve to emphasize the clever way in which army leaders have been able to combine business with pleasure, so to speak, in the matter of preparedness.

By the use of eryslpelas anti-toxin the average duration of the disease has been cut in half and the deaths diminished by about 30 per cent.

Being in the army is not always per cent.

Being in the army is not always looked upon as fun. Infantry drill under a hot summer sun is no emet; and the other concemitants of a buck privates life range all the way from ardnous early-morning setting-up exercises to the hated "K. P." detail.

But the earlier in the stage of discase it is used.

The antitoxin is injected in the muscles of the buttock, or the thigh. It is given in varying quantities until the rash stops spreading and

But thousands of young Ameri- the temperature has dropped. cans are spending their vacations at military camps this summer, and Monday—Choosing a Sanatorium they are having a perfectly swell

Somehow the war department has been able to fix things so that a fortnight of military training takes on all the aspects of a good-time. It was a highly ingenious move. The nation gets something in the way of preparedness, thousands of young men get some wholesome training and recreation, and every body is happy.

Heavy Duty Tires.

July 10th as follows:

WHEN we advertised the fact that Firestone was furnishing us complete lines of Firestone Gum-Dipped Tires that not only met the price but beat the quality and construction of every grade of special brand tires sold by mail order houses and others, the mail order houses made vigorous protests to Better Business Bureaus and made demands upon newspapers not to accept Firestone or our advertising.

We cannot blame them for they did not want car owners to know that they could get, at no more cost, a better tire made by a leading manufacturer, bearing his name and guarantee plus our guarantee and our service.

When car owners awakened to this fact, they came to us, compared the sections we had cut from Firestone Tires and special brand mail order tires, and were astounded at the Extra Values we were giving.

As a result, our business and that of other Firestone Dealers throughout the country, increased so fast that it has been necessary for Firestone to run their factories twentyfour hours a day and Firestone sold more tires in April, May and June than in any like period in the history of the company.

In our advertising we do not make com-parisons involving laboratory tests which you cannot verify except in a laboratory — neither do we make comparisons of con-struction or price based on misleading classi-fications such as first line tire, second line tire or third line tire. parisons to confuse and mislead you as to actual values and service - we only make statements and comparisons that you can verify for yourself in our store before you purchase the tire.

Come in today and get the greater safety, extra quality and extra values found only in Firestone Tires,

Introducing Mr. E. V. Spence Your New City Manager!

A Message
to Big
Spring
Citizens
From
Friends
of Mr.
Spence
In
San Angelo

Big Spring, we congratulate you on having secured one of the most capable city managers in all of Texas. Come to San Angelo—look at our many miles of paved streets, our city hall and auditorium, our sewer system, our disposal plant, our perfected five-year plan, and you will find not one monument, but many monuments to the ability, courage and foresight of E. V. Spence.

Mr. Spence is not only a good business man, a good engineer, but a good citizen as well. No city ever received more for its money than San Angelo did under the contracts and bargains made by Mr. Spence, yet we know of no firm who did not say he was always fair and just in all his dealings.

We regret to lose Mr. Spence as a citizen, but we know that he will contribute to the upbuilding of Big Spring, and anything that helps build West Texas helps every community in West Texas, so we feel we will gain in your advancement under his leadership.

Sterling City News-Record Unique Weekly

W. F. Kellis' Subscribers Number Half of Residents of Sterling County And the Rest Wear It Out By Borrowing

Sterling county is noted for many unique possessions but-if any-Mrs. Etter, Honoree, Suranything else—its most unique possession would be W. K. Kellis, editor of the pepular News-Record. W. F. Kellis belongs to Sterling County just as much as Sterling County belongs to him; you could not separate the two. Everyone knows him and calls him "Uncle

The house was attracticely decotated with vases of pink and white
eut flowers.

A telegram was delivered to Mrz.

At the story of The News-Record
begins in Big Spring. The printing
pross was formerly that which
printed the Big Spring Pantograph
in the 90's.

How it chanced to go to Sterling
City, said Mr. Kellis, was because
the happened to have the money to
buy it and another fellow happened
to have the experience to run it so
they joined forces. That was in
1899. At the end of four weeks,
however, the money was gone and
so was the experience. The other
fellow akipped out and left Mr.
Kellis with the printing press on
the house was gone and
so was the experience. The other
fellow akipped out and left Mr.
Kellis with the printing press on the color scheme of pink and his hands. In order to get anynor guest, were: Mrs. J. B.

ginal court house left in this section of the county.

The quality of Mr. Kellis' editorials is the outstanding feature of his weekly. He writes in a vigorous, enthusiastic fashion which stings like a whip lash, if he' feels that way. He has the ber stories and articles have apfaculty, now almost lost, of putting the full strength of his emotions into words. One of his favorite sports is putting a preacher in his sports is putting a preacher in his place when he gets onto politics. Beloved, on this day long years ago Sterling City preachers are his friends and respect him and they also know he has no fear of them. To chance, not knowing then the

Niece of Mrs. Goodnight Decries Movement To Slaughter Herd Of Buffalo On Palo Duro Ranch

AMARILLO, Aug. 2. CP)—Are the days of the bide-hunters to be revived in the slaughter of the fam-ous Goodnight buffalo herd in No

This question is being asked by Mrs. Annie Dyer Nunn, niece of Mrs. Charles Goodnight, who back in 1878 saved from buffalo hunters the few animals from which the

resent herd sprang.
"It was Mrs. Goodnight, my Aunt Mary, who revolted at the merciless slaughtering of the buffaloes and urged Colonel Goodnight to protect the small number from which the herd has grown," Mrs. Nunn said. "Instead of creatures fit only to be slaughtered, to Mrs. Goodnight the buffsloes were a part of the his-tory of West Texas and the state's most valuable game. It was she who visioned the untamed buffalo under fence.

one. On a June night in 1876 Mrs. Goodnight camped for the first time on the rim of the Palo Duro canyon where her husband a few months earlier had established what later became one of the world's largest and most famous ranches. A heavy mist caused the prairies to be engulfed in a pitchy darkness.

"Soon after darkness fell an amaz-FILED IN SPECIAL DISTRICT depths that terrified Mrs. Good-FILED IN SPECIAL DISTRICT

From Ban Angelo Walter Beal, Jax Cowden and W. J. Boehne will visit. Midland will send C. C. Duffy and Arch. Thomas while J. C. Dudley will be here. here from Floydada.

Fourteen Children Sent Through Clinic

R. A. Elder has returned from Topeka, Kansus, where he has been with his wife, who recently underwent an operation. He reports her condition as favorable and says that she is improving slowly. His children, Ara and Robbie, who also made the trip, returned some time before Elder. He states that his wife would be able to leave the S.B.A. hospital there within two or

DETROLEUM JELLY-an honored remedy in every family

medicine chest—but what a trouble-maker in your motor oil! For when you step on the starter in winter-it is petroleum jelly that makes your oil stiff and unresponsive. And when your engine warms up it is petroleum jelly that makes your oil water-thin.

Petroleum jelly has virtually been stripped from Sinclair Opaline Motor Oil-a new process requiring specially designed refrigerating equipment, operating at as low as 60° below zero-a much fower temperature than is required for just removing wax. All grades of Opaline are refined for year-around use-(See Sinclair Law of Lubrication booklet which we will gladly give you). We sell Sinclair Opaline according to the Sinclair Law of Lubrication. This law is based on the fact that the space between piston and cylinder wall is widened by wear. The grade of oil which filled this space at 3,000 miles cannot safely bridge the gap and

prevent gasoline dilution at 15,000 miles. Sinclair Opaline is refined from selected paraffin base crudes in various grades - one of them is designed to fit your engine according to its present state of wear. Your speedometer will tell us the grade you require.
