### Ginger Rogers Given Divorce in Dallas

DALLAS, July 15. (UP)—Virginia Katherine Culpepper, "Ginger" Rogers of the screen, was granted a divorce here late Saturday from E. J. Culpepper, Dallas vaudeville star. Judge Towne Young revealed today. The red-haired girl from Fort

Worth said that she was only 17 years old when she married Culpepper in New Orleans on March 20, 1929, and that the marriage was performed without the consent of her mother, Mrs. Lela Rogers. La Deanne Cantrell is visiting at the home of her sister, Mrs. Pauline Cantrell Brigham. She will be in the city for several days.

## Caustic Volume Chronicles Gossip of Washington Life

WASHINGTON, July 15 (UP)—The capital was regaled today with a second anonymous and biting portrayal of its leading personages.

Only a day after publication of the "Mirrors of 1932," which dissected potential presidential candidates, the firm of Horace Liveright brought out "The Washington Merry-Go-Round." It is a caustic volume that takes its readers through Washington political and social life, recounting much gossip on the way.

Herbert Hoover might have remained a hero if he had not been elected president, the writer says. "Before the ruthless realities and the merciless tests of that office his fundamental inadequacy of character unrolled him and he stands today stripped of all his carefully conjured glories," it is asserted.

The author declares the war-dictated holiday plan was "put over on Herbert Hoover through the combined efforts of Charles G. Dawes, Dwight W. Morrow, and Andrew

W. Mellon, plus a dozen New York bankers who clamored at him in person and by long-distance telephone for nearly a month. Finally, his confidence restored by a trip to the hospitable middle west, Mr. Hoover adopted the plan and was never more surprised in his life than when it was heralded as his master stroke.

Many stories are related about other characters. The reader is told for instance—

That Mrs. Stinson complained to a friend that Mr. Hoover was a "slave driver."

That Mrs. Dolly Gann's husband telephoned newspapers to deny that he was "nack" or "mild."

That the wife of an administration official smokes a pipe.

That state department letters critical of Mexico were somehow intercepted—and returned to the department by the Mexican ambassador.

### First Crate of Pecos Cantaloupes Sold On Auction Block for \$175

PECOS, Texas, July 15. (UP)—The cantaloupe market soared to a new high point for all time when the first crate of Pecos Valley melons for the 1931 season brought \$175 at auction.

The crate will be sent to President and Mrs. Hoover with compliments of the Pecos Chamber of Commerce.

### VAN LOON BACK TO WORK, COULDN'T WRITE ABROAD

NEW YORK (INS)—Hendrik William Van Loon, Dutch-American historian and biographer, has returned to New York, content that Europe is no place for an author to produce either prolifically or well.

He is home to complete his biography, "The World We Live In," and was disappointed because of his inability to progress with his production of his biography of Rembrandt while across the Atlantic. He reported that most writers become victims of lassitude in Europe and, instead of working, "just sit."

problems in his own home also troubled the eminent biographer and he expressed disappointment that his son, Willem, Jr., had decided to take up interpretative dancing as a career.

### COUNTRESS, NOW SINGER, ONCE A POLISH SOLDIER

DENVER, Colo. (INE)—Upon seeing Countess Biniaki, graceful, blue-eyed opera singer, one would never suspect that she has heard the roar of cannon, seen men die by hundreds, lived in dirt and filth, and strode hand in hand with courage and heroism.

In 1922, wearing the uniform of a Polish soldier, she marched with the Battalion of Death. Then she was Halina Brucosowa, a patriot, willing to die for her country. Today, still a patriot, she thrills audiences with the beauty of her voice.

"Patriotism, like the love of children, is a driving force with women," she said during a short visit here before continuing her cross country tour with her husband, Count Biniaki.

"But the war is over—at least that war is over. We are facing the fiddler. Everywhere in Europe conditions are bad and there is something ominous, something

### CLINTON, Mass. (INS)—The month of June was a wet one—in a rainy way—according to the rain gauge at Wachusett Dam which recorded precipitation in June of 5.53 inches. The rainfall measured for that month in 1931 is far in excess for the past averages of the same month and compares with 2.18 for that of June 1930 and 5.51 inches in June 1929. For the first six months of this year the total rainfall measures 27.39 inches as against 29.75 inches for the same period in 1930.

### FLOWERS, FROCKS, BIRDS, FAST AIRPLANES FREIGHT

PARIS (INS)—Flowers and frocks, fragile freight, make up the greater part of the merchandise carried in the airplanes flying to and from France's finest air-port, Le Bourget, on the edge of Paris. Flowers from the Riviera reach London in eight hours and thirty-five minutes. A french frock, ordered one day, can be worn on the following evening, if the little mid-Atlantic fliers fly as fast as the airplane itself.

Other fragile freight carried by

air include lobsters and oysters, fine china and glass-ware, fish, small chickens, rabbits, birds and dogs, not to mention a young jaguar and tiger, pets of two Parisiennes which are often seen in the air! Then there are samples of all sorts, needed in a great rush, parts for autos and films.

During the month of January of this year, the French line alone carried 45,000 kilos of freight to London. On the Marseille line, which has been inaugurated only recently, 12,000 kilos were carried and from Marseille to Tunis, nearly 6,000. These figures are increasing daily.

Washington potato growers are packing the tubers in tissue paper for shipment east.

### Sore Bleeding Gums

Only one bottle Lido's Fyrrhen Remedy is needed to convince any one. No matter how bad your case, get a bottle, use as directed, and if you are not satisfied druggists will return your money. Cunningham and Phillips.—adv.

# GOOD .. they've got to be good!

## UNCLE SAM'S 373,230 POST OFFICE EMPLOYEES handle 76,580,000 pieces of mail every day!

"NEITHER SNOW NOR RAIN  
NOR HEAT NOR GLOOM OF  
NIGHT STAYS THESE COURIERS  
FROM THE SWIFT COMPLETION  
OF THEIR APPOINTED ROUNDS."  
A tribute that is deserved!

## Registered "first class"!

"No comebacks"—when you smoke Chesterfields.

The tobaccos are right! Chesterfield uses only mild, ripe, sweet-tasting tobaccos—the best and purest money can buy.

The blend is right! It's an art to put tobaccos together the Chesterfield way—in the exact proportions which bring out the finer qualities of each tobacco type. A science too! For each type of tobacco used must pass rigid laboratory

tests for mildness, for aroma, for taste. No raw inferior tobaccos ever find their way into Chesterfield cigarettes!

The manufacture is right. Every Chesterfield is well-filled, well-formed and burns evenly.

The paper is right—in texture, weight and purity. Money can't buy better.

The taste is right. It is not by accident that Chesterfield holds its smokers. They're milder—and yet They Satisfy.

# Crude Output Up For Week

## Gross Production United States 2,544,650 Barrels

NEW YORK, July 15.—Daily average gross crude oil production in the United States increased 62,150 barrels in the week ended July 11, totaling 2,544,650 barrels, the American Petroleum Institute weekly summary indicates. Daily average production east of California increased 48,750 barrels to 2,021,650 barrels.

Refineries representing 94.7 per cent of estimated total capacity, operated at 89.9 per cent of their capacity, reported daily average runs of crude oil to stills as 2,404,000 barrels. Daily average of the previous week for refineries represented at 83.3 per cent of capacity, was 2,324,700 barrels. Gasoline stocks at these refineries were 28,342,000 barrels against 29,698,000 barrels.

**Cracked Gasoline**  
Production of cracked gasoline by refineries representing 94.9 per cent of total charging capacity was 2,220,000 barrels. Production in the previous week by refineries representing 94.9 per cent of total was 2,089,000 barrels.

Imports of crude and refined oils at principal United States ports totaled 1,502,000 barrels against 1,984,000 barrels.

### Weak, Tired... Couldn't Work

**"I feel much better Now"**

"I WAS weak and run down and couldn't work much. Some days I was in bed all day... on account of female weakness.

"My cousin recommended your Vegetable Compound to me and I began taking it right away.

"I now feel like a new woman. Work all day and am stronger and feel fine now.

"I have only taken 3 bottles but I found relief in the first one I took. I recommend it to any woman who suffers as I did."—Mrs. C. E. Hawk, R. R. No. 2, Promise City, Iowa.

Lydia E. Pughham's  
VEGETABLE COMPOUND

sider all oil conservation bills submitted.

Representative C. J. Satterwhite of Bellevue termed the Graves resolution the answer of the administration to the Satterwhite proposal, claiming Satterwhite's resolution "threw a bomb shell that scared the administration."

Satterwhite and others said they believed the substitute would be turned down and the original resolution adopted. Speaker Fred Minor, Mrs. Louise Snow Phinney, chief clerk, and Reed Granberry, house parliamentarian, were to investigate thoroughly to determine where the bills should be sent.

A point of order was raised against the Graves resolution by Representative T. H. McGregor of Austin who contended there was no provision in the rules whereby the house and senate could become a committee of the whole. Speaker Minor indicated he would sustain the point of order.

### Five Meet Chief Requirements For City Managership

But five applicants for the position of city manager to succeed V. R. Smitham, who has resigned to accept a similar post at Wichita Falls, meet the two cardinal requirements fixed in a recent resolution of the city commission, it has been learned. Names of the applicants have not been announced.

The stipulations are that the man selected must have had successful experience as a city manager and that he must be a competent engineer.

More than thirty applications have been received. They are being received daily.

### HOSPITAL NOTES

Mrs. W. W. Statham, 106 North West Fourth street, underwent a major operation yesterday.

Mrs. J. A. Smith, 1110 Main street, underwent an operation for removal of tonsils yesterday.

Cocaree Walker, small daughter of Mr. and Mrs. A. E. Walker, Westbrook, underwent an operation this morning for removal of tonsils and adenoids.

Bivings and Barcus  
Mr. and Mrs. Melvin Choate announce the birth of a seven and one-half pound baby boy. Mrs. Choate is at the Bivings and Barcus Hospital. The youngster has been christened, Tarot Putman Choate.

Under Satterwhite's resolution, the joint committee would be given authority to require the attendance of witnesses and would be permitted to subpoena records of oil production, transportation, and refining companies. Another of its duties would be to make "a thorough and detailed investigation of the development production, transportation, refining, marketing, both as to wholesale and retail markets, and any other matters in connection with the oil and gas business which

# BEAUTIFUL NEW FORD

# De Luxe Bodies

- TOWN SEDAN DE LUXE SEDAN
- CONVERTIBLE SEDAN
- DE LUXE TUDOR VICTORIA
- CABRIOLET

THE most striking fine car types ever offered at such low prices are now being presented by Ford dealers. These are the six newest de luxe creations of the Ford Motor Company. They are designed and built to meet every need of the automobile buyer whose desire for motoring luxury and outstanding performance is tempered with sound economy.

Get the facts about these fine cars. Compare their lithe, clean-cut style with any you have ever created in your own imagination. Learn about the de luxe materials with which each car is trimmed and upholstered, and how carefully these are tailored. Sit and ride in the wide, restful seats and you will realize that just as no restrictions have been put on mechanical performance, so no limits have been placed on comfort and beauty.

There is much to interest the careful buyer—a choice of sparkling colors, a variety of rich upholstery materials, Rustless Steel, safety glass, Houdaille double-acting shock absorbers, one-piece welded steel wheels, slanting windshields, and many other features which make the Ford a happy investment.

**Man Works Day and Half, Forges Checks On Employer; Hunted Officers Wednesday**

Officers Wednesday had instituted a search for a man who, after working for a tailor here a day and a half, left town and also left three allegedly forged checks, for a total of \$57.

The man gave the name of J. W. Clark. He cashed each check at a store, obtaining a lot of clothing at one place. He left Monday afternoon after receiving a telephone call he declared was from his wife.

### Chamber of Commerce Offices Re-Arranged

After undergoing alterations and refinishing, the chamber of commerce offices are again open for general business. The two partitions separating the three offices have been cut down to four feet in height. The operation was made to facilitate the passage of air and to improve lighting conditions.

## Conservation of Natural Resources Urged By Sterling

To the Members of the Forty-Second Legislature:

A grave crisis confronts the State in the conservation of its natural resources. The earth's reservoir of oil and gas are being drained and virtually thrown away, and enormous underground waste is resulting from the orgy of disorderly production.

Section 59 of the State Constitution declares: "The conservation and development of all the natural resources of this state, and the preservation and conservation of all such natural resources of the state are each and all declared public rights and duties."

Aside from these legal "public rights and duties," Texas of today owes a solemn moral obligation to Texas of tomorrow, not to exhaust and dissipate its resources needlessly so as to deprive succeeding generations of their benefits.

**Soil, Water**  
This applies to soil, water and other mineral resources, with equal force as to oil and gas. The impoverishment and deterioration of the State's agricultural lands, already in advanced stages in some sections, is creating a conservation problem which bids fair in the not distant future, unless checked, to attain distressing proportions, directly affecting the welfare of every farmer in the state whose soil is being sapped of its fertility through erosion and lack of proper rotation of crops.

State assistance and counsel, properly directed along proven scientific lines, could do much toward preserving the quality of the soil and spare the tillers thereof incalculable losses from diminished productivity.

Existing laws are inadequate to carry out the conservation clause of the State Constitution, and in consequence the State is suffering grievously. The oil industry, one of the State's principal sources of wealth, is demoralized and tottering on its foundations, thousands of people, directly dependent upon the industry, are going bankrupt; hundreds of thousands, perhaps millions, of others are feeling the effects indirectly; and the State itself is losing millions of dollars annually in reduced gross production tax receipts—all due to the wanton release and waste of oil and gas which nature has been storing up for thousands of years in the subterranean sands.

**Many Seek Term**  
So acute and disturbing has the emergency become, that citizens from all over Texas have besieged the Executive Office with telegrams, letters, petitions, long distance calls and personal visits, urging the convening of a special session of the Legislature to cope with the problem. Numerous chambers of commerce, local governing bodies, land, lease and royalty owners, business men and the vast majority of small independent oil men, have lined in the demand, pleading that immediate legislation was the only course that offered substantial relief.

Not wishing to put the State to the expense and the members to the inconvenience of an extraordinary session, immediately, I withheld action for several weeks, hoping that the conservation problem might be worked out through voluntary public effort. However, such effort apparently has proved futile, and finally, after many members of the Legislature had added their advocacy of a session and the enactment of a conservancy law, I concluded that the course should be taken.

Accordingly, I submit to your Honorable Body the matter of enacting legislation to make the conservation clause of the Constitution effective. And, since this clause covers all the natural resources of this State, I believe that your legislative program should properly include the conservation of all mineral resources, of the soil and of the waters of Texas.

The soil is the basic natural resource of the State, and it is being depleted so rapidly that unless remedial steps are taken, the heirs to our agricultural lands a few generations hence will find them a worn-out, unproductive legacy. Such already has proved the case in other states where the lands have been cultivated longer, without adequate attention to conservation.

The public waters, too, are becoming more and more important as a natural resource, as the state grows. More and more they are coming into demand for power, irrigation and municipal use. While

We have a Water Board for their conservation, we should look well to keeping our facilities abreast of the changing requirements of the times, lest we fail to realize the full public benefits of our waters.

Much study and consultation has strengthened my belief that conservation of our natural resources could best be achieved through a unified program of effort for conserving all natural resources. And so I commend this idea to your earnest consideration, confident of your wisdom to work out a constructive plan that will meet the emergency, give effect to the Constitution, and safeguard the State's interest in its natural properties, now and in the future.

Respectfully submitted,  
(Signed) R. S. STERLING,  
Governor.

## Burlington Given Trackage Permit

WASHINGTON, July 15. (UP)—The interstate commerce commission today authorized the Burlington-Rock Island railroad to operate under trackage rights over railroad and terminal facilities in Galveston county, Texas.

The Burlington-Rock Island operated a line from Cleburne to Houston, Texas, and has been granted authority to operate under trackage rights between Houston and Galveston over the line of the Texas & New Orleans railroad.

Having no terminal and yard facilities in Galveston the Burlington-Rock Island applied for authorization to use the facilities of the Galveston Terminal Company and the commission's decision stated that such an arrangement would be required by future public convenience and necessity.

## Doherty Counsel Grills Kansas State Official

TOPEKA, Kan., July 15. (UP)—Counsel for Henry L. Doherty sought to prove that Carl Newcomer, Kansas securities commissioner, was actuated by ignorance and malice when he barred sale of Cities Service stocks in the state.

The attorney for Doherty subjected Newcomer to a merciless examination at the hearing in Shawnee county district court on their petition for an injunction to prevent enforcement of the ruling.

Mrs. A. L. Kent and son Billy arrived Tuesday evening for a visit with Mr. and Mrs. J. O. Tansitt and other relatives.

## Glasscock County's Stretch of Highway Topic of Conference

C. T. Walcott returned from Sterling City where he and other citizens of Big Spring met with a road committee to discuss the purchasing of a right-of-way through Glasscock county on Highway No. 9.

The road passes across the north west corner of Glasscock. Plans call for straightening of the route to shorten the distance of five miles. If the right-of-way is provided the state has agreed to pave the stretch. Sterling county already is paving its section of the road.

According to Mr. Walcott nothing definite has yet been agreed on by the two cities, but he said that the Big Spring chamber of commerce had made an offer to aid financially in the obtaining of the road way.

Mr. and Mrs. J. W. Hargraves left today for Monahans where they will live.

## Walcott Invited Public To Inspect Cemetery

"I wish to invite everyone to inspect their cemetery now," said J. F. Walcott. "For once it is clean and well kept." But he added that the campaign to beautify the burial grounds had made a heavy pull on funds and the association was again in dire need of financial aid. He urged anyone wishing to make a donation to the fund to get in touch with him.

### Abilene Woman And Two Small Daughters Buried

ABILENE, July 15.—Slanting rays of the same summer sun prompting a Monday afternoon swim which proved fatal to the young Abilene mother and her only children, were more softly on the greenward of Cedar Hill cemetery late yesterday, as the bodies of Mrs. Rude B. Leggett and her baby daughters, Ruth, 5, and Lora, 3, were lowered into their graves.

Simple rites accompanying the burial of the three members of a family of four came as the hushed finale to a 24-hour period of stark tragedy. Monday afternoon, Mrs. Leggett and her daughters entered Herford lake, a pool on the Leggett country place, eight miles east of Abilene, apparently for a cooling plunge.

**Bodies Found Early Tuesday**  
A deep hole in the lake claimed its victims, and it was after 4 o'clock yesterday morning that the last of the three bodies was recovered from the water.

A city stunned by one of the most terrible tragedies in its history paused to pay tribute yesterday to the family, whose connections, on both sides, are old and prominent in "West Texas" life. Most of the great crowd gathered at the home of Dr. and Mrs. L. J. Pickard, 602 Meander street, could not be accommodated in the house, and stood about the spacious lawn, silent, while Dr. Millard A. Jenkins of the First Baptist church conducted simple funeral rites in the home.

**Comforting Words**  
Those who paid such tribute did not catch the poignant scene of three white and silver caskets, lined side by side in the dim room, and banked high with summer flowers; they did not hear the vibrant voices of a quartet which sang hymns of solace, nor did they hear the words of Dr. Jenkins, comforting with words from the Scriptures: "Suffer the little children to come unto me, and forbid them not, for of such is the Kingdom of Heaven." "In My Father's house are many mansions; if it were not so I would have told you."

The Rev. J. F. Brown, of the Baptist church of Midland, pastor of Mrs. Leggett's parents, Mr. and Mrs. R. N. Aycock, presided in the rites, offering a prayer. Music was furnished by Fannie Hollingshead, Mrs. Ina Wooten, James Mr. Her-

### Modernistic Bridge Club Meets At Home Of Miss Mamie Hair

Miss Mamie Hair was hostess to the members and friends of the Modernistic Bridge Club Tuesday evening at her home.

This was a delightful party with the black and white motif cleverly carried out in all the accessories.

Mr. and Mrs. Larson Lloyd made high score for club couple and were given a beautiful silhouette plaque. Miss Mabel Eddy and Paul Miller made visitors' high and received a silhouette picture and an ash tray respectively.

Those present were Mr. and Mrs. Lloyd, Mr. and Mrs. Jack Kilway, Mr. and Mrs. Warner Neece, Misses Eddy, Elizabeth Northington, Mrs. Clarence Wear and Messrs. Miller, Orvie Badwick and Bill Dillings.

Mr. and Mrs. Kilway will be the next host and hostess.

**DEPRESSION HITS CUPID**  
ST. LOUIS, (INS).—Dan Cupid is being hit by the depression. Marriages in St. Louis for June for this year have fallen off 43 most fifty per cent, as compared with the same month. "The Month of Marriages," last year, George W. Hartman, of the marriage license bureau in the city hall here, announces that there were but 729 licenses issued this June, 1928 in 1930.

**DEPRESSION HITS CUPID**

"The Month of Marriages," last year, George W. Hartman, of the marriage license bureau in the city hall here, announces that there were but 729 licenses issued this June, 1928 in 1930.

**END FISHING TRIP**  
Jim Brigham, Herbert Keaton, and others returned Tuesday from the Concho river where they had been fishing. They reported a large catch and an excellent time.

### A SIGHT FOR SORE EYES

Atop the Empire State building Alfred E. Smith describes the city of New York to King Prajadhipok of Siam. The king is wearing dark glasses to protect his eyes after a recent operation for cataract.

### SCRATCHED BY BEAR, L LOSES \$15,000 SUIT

BILLINGS, Mont. (INS).—A damage suit for \$15,000 arising out of the bites and scratches of a grizzly bear sustained by Marjorie Merrifield, assistant keeper at a hotel in Yellowstone Park, recently resulted in the keeper's being forced to content himself with rubbing his scars.

Judge Charles N. Pray, in instructing the jury, held that the rule of assumed risk applied.

In October, 1928, Merrifield started from the hotel for some supplies. In passing a granary, he noticed some bears breaking in. Walking nearer, he was confronted by a mother bear and two cubs. He had heard of someone's escaping from a bear by throwing himself on his face and pretending to be dead. The bear pawed and clawed him severely so that he was in the hospital for 23 days.

**OLD R. R. CAR A LIBRARY**  
POINT REYES, Calif. (INS).—A new use for discarded railroad cars is being made at Point Reyes. The Point Reyes branch of the Marin county library is now located in an old railroad car, removed from tracks and placed on a block from the business district. The Sir Francis Drake Lions club, a local service unit, sponsored the "train library," and the Point Reyes 4-H Club is planting a garden to beautify its surroundings.

foundings. Madeline Brandt has been named as librarian by Marjorie Wright, head of the county library system.

**NEGRO CHILD DIES**  
Mozell Meredith, nine months negro child, died at 10 p. m. Tuesday night and will be buried this afternoon in the Mt. Olive cemetery. Services will be held at the graveside. Ira Meredith and wife were the parents of the child.

# HOW'S your HEALTH?

Marked by **Dr. Inge Goldstein** Academy of Medicine

**FRECKLES**  
One may say about freckles what  
Mark Twain said about the weather—  
it is a theme upon which there  
has been a lot of talk and very lit-  
tle action.

Freckles are things we are born  
with, but like flowers, their ap-  
pearance is stimulated when the  
sunlight is bright.

Freckles grow faint and may  
even disappear during the winter,  
but are liable to crop out again in  
June. As one grows older, freckles  
tend to become less noticeable.

Freckles are a cosmetic prob-  
lem, never a serious health prob-  
lem. Their development may be con-  
trolled by shielding the skin  
against sunlight, by wearing a veil  
or by using a face cream which  
contains zinc or bismuth.

Their temporary lightening or re-  
moval is occasionally possible,  
though always difficult. Hydrogen  
peroxide, which has a bleaching  
power, may sometimes help.

A more thorough temporary re-  
moval of freckles requires the  
desquamation or removal of the up-  
per layers of the skin.

Necessary to say, this is a dan-  
gerous procedure and should never  
be attempted by any one but an ex-  
pert dermatologist, for the process  
requires the application to the skin  
of a destructive irritant, which,  
should it be allowed to work its  
way to the deeper layers of the  
skin, is liable to effect permanent  
injury.

Care must also be exercised in  
the use of freckle-removing creams  
and lotions. For practically all of  
them contain substances which are  
liable permanently to injure the  
skin. Bichloride of mercury, an ex-  
tremely dangerous poison, is some-  
times the active ingredient.

When one has but a few freckles  
and certain of these are a very dis-  
tinct blemish to one's appearance,  
they may be removed by elec-  
trolysis.

make so much difference. Are you certain, Bruce, that this gold mining investment is all you get it is and that you won't need my money longer than a year?"

"If I wasn't sure do you think for a minute I would propose letting me invest your money in it?"

"But I haven't very much money, Bruce. I figure that there's barely enough for me to scrape through school and live until I can land some sort of a part in some play."

"I know what you have, Pierre. I looked up your account in our bank. You drew it all out this afternoon too."

As if in a dream Pierre slowly drew a package of bills from his pocket and gave it to Bruce. "I never realized about Ann," he said. Bruce, as he put the money in his pocket, said: "She would give me the devil if she knew I'd told you. You'll never regret this, Pierre; it will make us all rich."

"Yeah," returned Pierre, "I'm awfully glad I can do something for Ann."

Before they could say anything more Martin Bevis entered with hat and cane. "That Camden train

goes at 7:30, doesn't it, Bruce?"

"Seven-forty," answered Bruce. "Oh! Well, we can walk as far as the bank together. I've got to find that blasted 39 cents yet to-night."

Ann, coming in with the bag she had packed for Bruce, asked, "What time is it now, Pa?"

As Martin drew his watch from his pocket a massive old-fashioned Masonic charm came loose from the guard and fell to the floor. Martin cried: "I've dropped my Masonic charm," and began hunting for it. Ann and Pierre went to the desk at the farther end of the room and began hurriedly to write a letter.

"Here it is!" cried Ann, recovering the charm and giving it to her father.

The old bookkeeper handled the emblem fondly. "I wouldn't take a fortune for that," he said proudly. He handed it to Pierre.

Pierre, examining the charm, "Presented to Martin Bevis by his brother Masons in token of his services as Worshipful Master of Orchard Hill Lodge, number 36, No-

ember 20, 1892." "Final" said Pierre. "I don't wonder you think a lot of it."

Martin received the charm from Pierre's hand and regarded it with fond admiration. Then he remarked: "The spring in this blamed snap is weak. That's how it came loose."

"Haven't you better leave it at home, Pa, until you have it fixed?" asked Ann.

"No," Martin returned impatiently as he fixed the snap. "I have never been without this sacred emblem a minute. I'll just bend this spring a bit and it will hold all right until I get a new one. I never would find that 39 cents to balance my books tonight if I was to leave my lucky charm at home." He called to Bruce, "Come on, Bruce; it's time we were going if you expect to catch that train to Camden."

Bruce finished the letter he was writing, placed it in an envelope, which he sealed and put in his pocket.

"Goodby, Ann," he kissed her hurriedly.

"Goodby, dear; you'll be sure to

come home on the morning train, won't you?"

He laughed nervously and, turning hastily, offered his hand to Pierre. "Well, goodby, old man!" Pierre, shocked at Bruce's manner and the indifference of his father, shook hands silently.

Bruce, with a laugh, caught up his bag and rushed after Martin.

Suddenly Pierre grasped the full import of the situation—Bruce was going away with his school money—his own plans to leave for New York in the morning were wrecked. Starting as if to run after Bruce, he called with quick excitement: "Bruce, oh, Bruce—wait a minute."

Copyright, 1930, by D. Appleton and Co.

The tape measure that Pierre uses tomorrow cannot gauge the significance of the discovery to which it leads.

Government grading of tobacco grown in North Carolina brought an increase of \$2.46 per hundred pounds over the ungraded method of selling.

### Don't Forget The Water

GOVERNOR STERLING'S message to the first called session of the 42nd legislature, delivered Tuesday, came upon the members not only to adopt measures that will aid the oil industry by enforcing conservation.

Conservation of the state's oil and water resources must be attended to, he points out.

West Texas people, like those of most all other regions, often times are not as conscious of their legislative needs as they ought to be.

If there is any part of this country that always should be doing its best to make certain its water is properly conserved, it is West Texas.

Senator Walter Woodward's water priority bill, passed in the regular session, placed domestic needs for water at the top of the list. Man and his beasts of burden must have water. Nowadays it is often wise that public waters be appropriated for generation of electric energy, there are other ways of obtaining it.

The special session, let us hope, will adopt measures that will strengthen the legal basis upon which the people may, whenever occasion arises, protect themselves by protecting the public interest.

Big Spring, as well as many other communities out here, someday will have to impound a large volume of water if she is really to be equipped for the future. An adequate water supply is the foundation of the cornerstone of West Texas cities.

### OPINIONS OF OTHERS

#### Are Selling Travel Service

Houston-Post-Dispatch.

It is interesting to note how the railroads are employing salesmanship in their efforts to secure more patronage for their lines. The only thing the railroads have to offer is service, and some of the best selling brains in the country are being enlisted in the campaign to sell railroad service to the people.

Back in the days when the railroads had a monopoly on long distance transportation facilities, the station agent might, if he chose, get away with being grouchy and unaccommodating, and railway managements could ignore with more or less impunity the wishes of local communities, and of their customers. They are not doing so today, and everybody is glad that the relations between the railroads and the public are much happier.

Railway representatives today are not above soliciting individuals, business even for passenger service. Are you likely to attend a convention somewhere? The chances are that several weeks before the date of the meeting you will be solicited by a courteous railway agent to travel over his line. He will have all information available for you, and see that your trip is a pleasant one. You are made to feel your business will be appreciated, and if you don't watch out, you will be feeling important.

The travel bargains being offered in the form of reduced rates are an application of the selling policies that aggressive and successful merchandisers follow as a matter of course. After all is this a rough difference in selling merchandise and in selling travel service?

#### 1928 SUMMER FIGURES SAY

NEW HAVEN, Conn. (AP)—You can get an idea of what a summer's temperature is likely to be if you study the temperature figures for the five months from January to May, inclusive. So, Henry H. Hathaway meteorologist in the federal weather bureau office, here calculates that Connecticut at least is to have an abnormally hot summer. Hathaway took records dating back to 1778 to make his forecast, and found that the idea held good in all but one year out of 153. If the average temperature from January to May is above normal, the summer will run above normal also.

### Tomorrow—Measles is Dangerous

**WASHINGTON DAYBOOK**

By HERBERT PLUMMER  
WASHINGTON—The young and respected senator from Michigan—Arthur Vandenberg of Grand Rapids—for a long time has warred against what he chooses to call "synthetic antiques."

Resident of a city famed for its furniture manufacture, he is concerned that spurious "antiques" are slipping by customs agents into this country in vast quantities.

So it must have been good news to him when he learned the other day that the postoffice department had designated 10 ports only through which foreign main containing antiques could be cleared.

There are only a few experts capable of swift appraisals, and because they are concentrated at these 10 ports, the postoffice department was moved to such action.

Authentic antiques in general—that is articles of artistic merit made prior to 1830—enter the United States duty free.

### REFINED FAGERY

But take it from Senator Vandenberg, "synthetic antiques," especially furniture, get by the customs officials in great quantities.

As nearly as he can figure it, the amount runs to some \$15,000,000 annually.

"The production of this synthetic furniture in Europe," he says, "has come to be a mass operation."

"The highest priced wood in France today is wood out of old bridges and old barns, which is sold to antique furniture manufacturers—old nails are at a premium."

And the senator claims that he has discovered some interesting details of the business of "faking antiques."

"One is a little machine which in some respects suggests a dentist's drill, but which is flexible. The machine makes the worm-holes which subtly testify to antiquity."

"It is one of the refinements," he says, "of these deliberate frauds."

### PENALTY PROVIDED

Vandenberg does not contend that faked antiques are confined entirely to importations. He admits readily that he is "faking" in this country, but his point is:

"None of it cheats American labor, none of it cheats American capital, and none of it undertakes to defraud the treasury of the United States."

He made a valiant fight in the last congress to attach a 50 per cent penalty duty to furniture seeking free entry as "antiques" but prevailing in the judgment of customs experts spurious. He wanted only those articles imported for resale included.

After some two hours of debate, the senate voted him a 25 per cent penalty.

Planes carrying more than two passengers for hire at night are required by federal regulation to have flares with a light duration of three minutes and a candlepower of 500,000.

## EXIT

by Harold Bell Wright

SYNOPSIS: Although Harriet Noel Pierre Denovan's mother, had left money for his stage education, Pierre's estranged father's stepson, Bruce, wants the boy to invest it in a mine. About this situation Tony Latour, Harriet's old sweetheart, writes a play. In it, Pierre is preparing to leave Bruce's home, where he has been living, for dramatic school. Because Bruce must take a business trip he rushes a final effort to secure the money. But Ann Bevis, Bruce's wife, urges Pierre to reject his proposition. Bruce overhears their talk, puts the worst construction on it, and later tells Ann he'll desert her if she doesn't persuade Pierre. He tells Ann that, unknown to the boy, Pierre's father is the promoter. Ann is in tears when Pierre enters.

### Chapter 15 WRECKED PLANS

POINTEDLY ignoring the embarrassing situation into which he had entered, Pierre approached Bruce. "Here's a little good-bye present for you, old man," he said, extending his hand with a box.

Bruce silently took the box and, opening it, found a scarf pin. "Thanks, Pierre," he said.

"Thought you'd like it," returned Pierre joyously. "Had to give it to you now, 'cause I'll be leaving in the morning before you get back from Camden."

Ann said hurriedly, with an effort to control her voice, "That reminds me, I must go and pack Bruce's bag." Still crying she left the room.

Pierre and Bruce stood looking after her. Slowly Pierre turned to Bruce. "What's the trouble, Bruce—what's Ann crying about?"

Bruce did not answer, but moved about uneasily. Pierre grew more and more disturbed. "What's the matter with you and Ann, Bruce?" Bruce passed before Pierre and regarded him doubtfully. "I'm not so sure that I ought to tell you."

"Why not?" Is Ann crying because of anything I've said or done?"

Bruce answered reluctantly: "In a way—yes. If you must know, Ann is feeling badly over my proposition to invest your money for you."

"But, Bruce, I told Ann not a half hour ago that I wouldn't let you nor any one else have to do money to invest in anything. That's all settled."

"I know it is, Pierre, but Ann's been mighty good to you since you have been making your home with us hasn't she?"

"She's been wonderful, Bruce. I have often wished I could make you both understand how grateful I am."

"Yeah! Well, it would mean a lot to Ann if I could get a start toward making some real money."

"Yes, of course."

"Pierre, if I have been too keen urging you to help me get in right on a really big thing and at the same time more than double your money for you, it's been on Ann's account. I don't mind for myself, pinching along like we have to on my measly bank-clerk salary, but it hurts to see Ann slaving without even a woman to wash and iron for her. I don't want Ann to work herself to death like so many of these Orchard Hill women do. If she didn't love beautiful things like she does or if she wasn't the kind who

## Handkerchief Shower Given Mrs. Wilke

### Christian Homemakers Enjoy Original July Social

The Christian Homemakers Sunday School Class was beautifully entertained with an original and attractive party in the church parlors Tuesday afternoon. The hostesses were Misses Ira Rockhold, C. A. Brewer and J. D. Wallace.

The occasion was a handkerchief shower for Mrs. Geo. Wilke who is leaving for Ft. Worth in the early fall.

The games consisted of an original guessing game worked out by Mrs. Rockhold to which the answers formed the syllables of the class members' names and of another unique game called "Walking A Chalk Line."

The members were served refreshments in a portion of the basement that was made to represent a dining room. The tables were laid with lovely embroidered Madras table cloths and napkins to match.

The class colors of pink and green were carried out in the lighted green tapers, tied with pink and also in the two-course refreshments. Green jello salad was served and an ice cream course consisting of green ice cream and white cake with pink icing.

Little Misses Bette Bell Brewer and Mary Margaret Hinds, dressed in cunning aprons and caps, assisted with the serving.

After the refreshments Mrs. Wilke was presented with a shower of handkerchiefs. These had been cleverly arranged in a large flower pot covered with colored crepe paper. The handkerchiefs in various shades were arranged to make the flowers of the plant. The honoree was toasted by Misses Rockhold, Brewer and Inksman.

The following members were present: Misses Walter Clark, Harry Leese, Earl Glasco, J. W. Galahar, of Ft. Worth, C. A. Murdock, George Wilke, Geo. Dabney, Ruth Barnes, Geo. W. Hall, H. G. Hill, J. E. Morrison, W. C. Farris, G. Glenn, Wm. Van Crunk, L. A. Eubanks, J. W. Marchbanks, Shelby Hall, J. C. McCallum, of Trinidad, J. H. Stiff, Ira Rockhold, J. C. Hinds, C. A. Brewer, J. D. Wallace and W. W. Inksman and Misses Cenora Page, Denison, Imogene McCallum, Trinidad, Bette Belle Brewer and Mary Margaret Hinds.

## Daily Bible School Plans Announced

### Christian and Presbyterian Churches To Conduct One Together

The Presbyterian and the First Christian Churches of this city will conduct jointly a Daily Vacation Bible School which will commence next Monday, July 23, at the Presbyterian Church.

The sessions will be held in the mornings, from 8:30 to 11 and will be open to children from the ages of 4 to 14. There will be no admission charge.

The course of study will cover Bible lessons adapted to the child's age, various forms of handwork and supervised play.

The following directors have already been appointed: Miss Elzie Jeanette Barnett, director; Miss Mary Louise Miller, secretary; Mrs. W. C. Barnett, director of handwork and the Rev. D. R. Lindley, director of play.

The adults who will compose the faculty have not all been selected as yet but the following will serve. Other names will be announced later. Beginners department, Mrs. R. L. Owen, leader, assisted by Miss Jennie Lucille Kennedy; primary department, Mrs. Mary Duggan, leader, assisted by Miss Georgia Owen and Miss Mary Gem Dubberly; Junior department, Miss Lillian Schubert, leader, assisted by Mrs. T. S. Currie; intermediate department, Miss Helen Creath, leader, assisted by Mrs. B. F. Willis.

Mothers of children who are interested in giving their boys and girls this opportunity of supervised study and play are asked to keep the date in mind and be prepared to start the children in promptly on the first day.

The school will last two weeks and will be closed with commencement exercises.

## Cactus Club Entertained

### By Mrs. Short

The Cactus Club met with Mrs. Lester Short Tuesday morning for a bridge luncheon. Contract bridge was adopted at this meeting.

Miss Ethel Evans made high score and was given a set of glasses. Mrs. P. W. Malone was given a novelty cream pitcher for consolation.

Those attending Mrs. Short's party were: Misses Homer Wright, W. V. Pendleton, Harold Parks, Joe Ben Whittenburg, Bill Tate, P. W. Malone, W. R. Yarbo and Miss Ethel Evans.

## French Flower Arrangements Now Popular

By MARGERY TAYLOR  
Interior Decoration Editor,  
McCall's Magazine.  
Written for the  
Daily Herald

The French style of flower arrangement will probably be more popular this season than the Japanese.

But, regardless of the style followed, the flowers must be in the spirit of the room, their colors harmonizing with the color scheme and the container in keeping with the furniture.

That is why the restraint of the Japanese flower arrangement seems right for the more formal and severe room settings. Somehow it seems at home in the modernistic room.

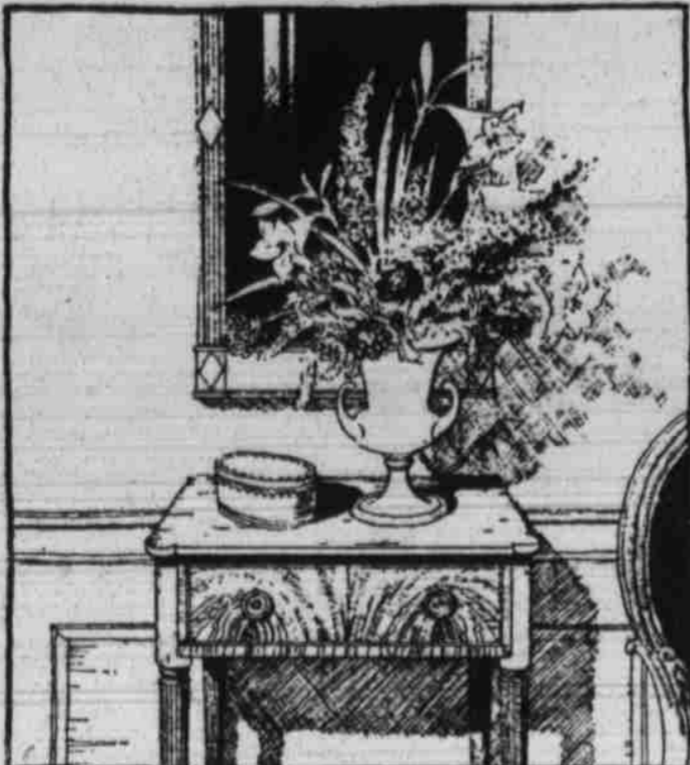

Strange how one of the charming arts of an ancient people should be so appropriate in manner and spirit in a setting of the day after tomorrow!

One of the very strict rules governing the Japanese arrangement is that only one variety of bloom should be used—and it must be in season.

Now should the flowers be in clusters. Only two to five stalks are considered correct and three are preferable. The stems are graded in length, and, as is so frequent with ancient arts, the three-stalk arrangement is symbolical of various trinities, such as father, mother and child or heaven, earth and man.

The French flower scheme is suited to the more ornate of the period rooms or to the freer atmosphere of the room which has been artfully "unplanned."

Following it, the decorator may be lavish and gay in arranging the flowers—and even daring. Large masses of blooms, perhaps as many as ten different varieties, may be grouped.

Appropriate containers for such an arrangement are urn-shaped vases in white alabaster, porcelain or glass—in fact, any type of eighteenth-century French style.

The perfect touch is achieved when the size of the flower mass is in exact proportion to that of the container.

For a vase or urn, the highest flower or stem should be one and a half times the height of the vase. In a low bowl, the flower mass should be one and a half times the diameter of the bowl.

Contrast in combining colors is very effective—a little blue in a yellow bouquet, one yellow rose in a bowl of pink ones, a stalk of yellow snapdragon with blue delphiniums.

The following: Misses Jess Phillips, P. Franklin, O. Eickford, Howard Lester, J. W. Hargraves, W. A. Shaw, Opal Green and Kim McDonald.

Mrs. Phillips made high score and Mrs. Franklin second high. Mrs. Ruckford received a novelty stand for wearing the most popular kid costume.

Mrs. Howard Lester was received as a new member.

Refreshments of pink lemonade and canteloupes filled with pink ice cream and cherries were served to

## Kid Party Is Given To '31 Club Members

Mrs. R. S. McDonald entertained the '31 Bridge Club with a kid party at her home in Edwards Heights Tuesday afternoon.

Each member was required to give a nursery rhyme that was popular in her childhood. The tallest

were tied to all-day suckers and were passed to the guests. Members found their partners by correspond- ing verses on the tallies. Police whistles, horns and flutes were favors.

Mrs. Phillips made high score and Mrs. Franklin second high. Mrs. Ruckford received a novelty stand for wearing the most popular kid costume.

Mrs. Howard Lester was received as a new member.

Refreshments of pink lemonade and canteloupes filled with pink ice cream and cherries were served to

## Class Elects Three Vice Presidents

### Faithful Workers Hold July Social and Election

The Faithful Workers' Sunday School Class of the East Fourth Street Baptist Church held its monthly social and business meeting Tuesday afternoon at 3:30 at the home of Mrs. George O'Brien.

Mrs. Roy Reynolds, class president, was the leader. The class voted to order Bible tracts to be handed out at the church and named Mrs. Ben Carpenter to see about them.

Three new vice-presidents were elected. Mrs. Ervin Daniels, first vice-president; Mrs. R. L. Martin, second and Mrs. Vera Eggleston, third.

The class will meet for a social and business meeting the second Tuesday of every month. The next meeting will be held August 11 at the home of Mrs. Daniel, at 705 E. 15th St. The hostess will be assigned by the following: Misses O. C. Curtis, O. V. Bray, and W. F. Anderson.

The following were served with delicious refreshments at the close of the meeting: Misses Reynolds, Carpenter, Daniels, Martin, Eggleston, Curtis, Dray, Anderson, T. E. Stringfellow, Lee Nuckles, Jewel Hendricks, R. G. Davidson, R. H. McAlpine, W. D. Rowland, R. A. Browning, Lester Murphy, O. R. Phillips, Elton Taylor, R. O. Porch, J. W. Crowley and J. L. Mourland.

## Homemakers Of First Baptist Church In Social

The Homemakers Class of First Baptist church met at the home of Mrs. W. D. Cornelison yesterday afternoon at 4 o'clock for monthly social and business meeting.

The meeting was opened by a prayer. Mrs. Harry Billington led the devotionals. Mrs. G. H. Hayward gave reports of group capitals. The class voted to have a picnic at City Park next month on

## August 16 Entertaining the Families of the Members

Group Three entertained with household games, then served punch, salad and crackers.

Those present were Misses J. I. Duckworth, Clyde Tingle, F. W. Harding, G. H. Hayward, R. E. Blount, G. C. Potts, Chas. K. Bivings, B. Reagan, L. A. Griffith, L. I. Stewart, Harry Billington, Lynn Hatcher, J. S. King, Norma Shuck, Carl McDonald, Sidney Woods, W. D. Cornelison, Roy Pearce.

## Mrs. J. Y. Robb Entertains The Tuesday Club

Mrs. J. Y. Robb entertained the members of the Tuesday Luncheon

## Club with a lovely bridge party at the Settles hotel Tuesday morning.

An extra table of guests were present. These were Mrs. James McLaughlin of Austin, Miss Vera Hall of Abilene, Mrs. Robert Parks and Mrs. G. T. Hall.

The members attending were Misses W. W. Inksman, Shione Phillips, J. R. Hodges, Harry Hurt, Fred Kenting, M. H. Bennett, M. K. House.

Mrs. Bennett made high score for the members and Miss Hall for guests. Miss Hall's prize was a lovely little manicure set.

A delicious luncheon was served at 12:30, after which the club adjourned.

Mrs. House will be the next hostess.

Mr. and Mrs. L. L. Miltstead and family are leaving tomorrow for Cleburne on a visit to relatives for the remainder of the summer.

## Nine O'Clock Dinner Served To Nine Guests

Mrs. R. Wertberger of the Crawford Hotel and her son Melvin Stanley entertained a party of nine guests at a 9 o'clock dinner Tuesday evening in the Crawford Coffee Shop.

A delightful dinner was served to the following: Mr. and Mrs. Calvin Boykin, Mr. and Mrs. Lee Levering, Mrs. Mary O'Neal, Mrs. Mickey Bruce and Miss Christine O'Neal, in addition to the host and hostess.

Mr. and Mrs. R. Milton are leaving for their vacation. They will spend it in Waco, Dallas and Hot Springs.

### F.W.&D. Granted Permit To Build In Gray County

WASHINGTON, July 15 (UP)—The Fort Worth & Denver Northern Railway company was authorized by the Interstate Commerce Commission to construct two branch lines in Gray county, Texas.

One of the two lines will begin at a point near Letors and extend southwesterly seven miles. The other line is a three and one-half mile branch extending south in the same vicinity.

The proposed lines will be branches of a 110 mile line in the Texas panhandle extending from Childress to Pampa through Wellington, Shamrock and Letors. The Colorado & Southern Railway company, of which the Fort Worth & Denver Northern is a subsidiary, is constructing the new panhandle line and the branches are desired to serve a region devoted principally to the production of gas and oil.

### INVENTION OPENS DOOR BY A BEAM OF LIGHT

AURORA, Ill. (INS)—An invention, designed first as a stunt, has turned into a practicality for Harry Ainsworth of Aurora. This invention, which causes a

door to open automatically when a beam of light which is focused on a photo-electric cell in it is interrupted, has been adopted by one of the largest hotels in Chicago for use on doors between kitchen and dining room.

When a waiter passes through the beam of light, the door opens. The door will continue to remain open as long as waiters pass through the beam. It is claimed to be fool proof and will not suddenly close upon a waiter with a tray of food. At the moment it starts to close, if the light waves are interrupted, the door will open again.

Several weeks ago Ainsworth designed a robot to amuse fellow Kiwanis and from this idea he developed the door-opening apparatus. The robot was so constructed that when the beams of light focused on it were interrupted, a bell would ring and an electric sign would appear reading, "You're Late, Ten Cents Please." Upon deposit of the coin, another bell would ring and a sign would appear, reading, "Thank You."

### NEGRO CHARGED

Elbert Gray, negro, was charged Tuesday with burglary by the sheriff's department. It was indicated the charge would be reduced to a misdemeanor before an examining

### Rail Shipments Indicate Better Business Ahead

DALLAS, July 15. (UP)—Fair business weather will prevail in the southwest in the third quarter of the current year, traffic experts predicted today after looking at the barometer of railroad shipments.

An increase of 23 per cent in carloads was predicted by traffic men in Texas, Oklahoma and parts of Louisiana and Arkansas, New Mexico. The increase was attributed to a greater movement of flour, grain, hay, alfalfa, vegetables, gravel, sand and stone, forest products and iron and steel.

### REGLAR FELLERS

### Gold Motor Declared Cause of Fatal Crash

CHICAGO, July 15 (UP)—A gold motor was responsible for the crash in which pilot Chester Bailes, Kansas City, Mo., and a companion, William Warren, San Antonio, Tex., were killed, a coroner's jury has decided.

Witnesses said that Bailes did not sufficiently warm up the motor before taking off at a field near Chicago Sunday. The plane crashed from an altitude of about 500 feet.

### Almost A Magician

### The Radio Mail Bag

GROUNDING THE RADIO  
In this little city of ours, grounding the radio seems to be a matter of personal preference, rather than one of necessity. A large number of the radios use the ground wire as an aerial and no aerial what-so-ever. Others use an aerial but no ground. It seems that a community such as ours, where interference is so pronounced and reception so difficult to get that the radio owners would take advantage of any and every way to improve their receivers. Using a good ground in conjunction with an aerial is essential to good programs with the minimum of noise.

Some makes of receivers seem to require no ground. This is because of an internal ground to the light wiring, and if the plug is in the convenience outlet correctly, a

ground seems to make very little difference. Never the less you will notice that a ground connection is provided for, and nine times out of ten it will raise the signal to police ratio if used.

Radios operating with the ground tied to the aerial post will provide a great deal more noise than one properly installed. Thirty per cent of the radios in Big Spring are operating under this handicap. Here is something that should be corrected, if you desire the best your receiver has to offer.

Beyond question, a water line makes the best ground connection, and whenever possible should be used. If this is not convenient, a rod driven to a depth of three or four feet will serve if the ground is kept moist. Secure the ground tightly to whatever is used or the same noise will result that a loose aerial wire would produce.

This completes the series of instructions of your radio. Look your receiver over and see if it has been installed properly. If not, attend to it without delay. It will repay you with better reception and less noise. Tomorrow's article will tell you how to know when the radio is out of balance.

## R-BAR

July 15—Mr. and Mrs. Cowings left for their home in Ellis Wednesday. Mrs. Allen Rogers went home with them to spend a few days. Mrs. Rogers is Mrs. Cowings' sister.

Mr. and Mrs. Ed Martin entertained their friends Tuesday night, honoring Mrs. Cowings. Those who enjoyed the affair were Mr. and Mrs. Clyde Bishop, Mr. and Mrs. John Davis, Mr. and Mrs. Bruce Bishop, Mr. and Mrs. Cecil Long, Mr. and Mrs. Paul Bishop, Mr. and Mrs. Holiday Wise, Mr. and Mrs. Allen Rogers, Mr. and Mrs. Muegrove, and Misses Essie Frank and Della Long, Della Ward, Christine Farrer of Acoperly and Gravel Martin of Coshona.

Mr. and Mrs. Eugene Long and family, Mr. and Mrs. Cecil Long, and Mrs. Holiday Wise, Mr. and Mrs. Allen Rogers, Mr. and Mrs. Muegrove, and Misses Essie Frank and Della Long, Della Ward, Christine Farrer of Acoperly and Gravel Martin of Coshona.

## DALLAS 4, BUFFALOES 5

HOUSTON, July 15.—South paw Jimmie Mingoque of Dallas, who all season has been tough on the Buffs, came through here last night with a 4-3 verdict over Houston, leading George Payne. All of Houston's rallies came in the first round. Successive base knocks by Houston's Langford, Jones, Catty, and Leary tied the score in the fourth.

The Buffs reached the player limit of 18:00 when Joe Smith, right hand rookie pitcher, joined the club. For the past several weeks Smith was with the Cardinals, though he saw no service. His experience has been confined to semi-pro ball.

Dallas 400 300 000—4 0 0  
 Houston 300 000 000—3 0 0  
 Mingoque and Todd Payne and Sprinz.

## PANTHERS 3, INDIANS 6

SAN ANTONIO, July 15.—Flinn held a slight edge over McCabe in a brilliant pitchers' battle here last night, but two fast double plays in early innings throttled the triple an demoralized Fort Worth to a 6-3 victory in the series opener. Grizzle walked and advanced on Meyers' single in the second, scoring on a fielder's choice. The Cats added two more in the fourth when Fry singled past short with the bases full. Flinn allowed six hits, McCabe eight.

Fort Worth 610 200 000—6 0 0  
 San Antonio 300 000 000—3 0 0  
 McCabe and Meyers; Flinn and Heath.

## OLD DINNER BORN

CANYON, July 15.—An old dinner born, more than 200 years old, has been presented to the Panhandle-Peasants Historical Society by the Rev. C. E. Jamison, pastor of the Canyon Methodist church. The born is a gift of Mrs. Jamison's father, D. A. Goodwin of Springfield, Colo., and has been in the Goodwin family since 1800, according to definite information. Jamison said the born was used on a southern plantation.

Good health, high spirits, animation! How they do attract! What a pleasant personality to cultivate! Many a girl who loves life and living finds the bubbling well-spring of everlasting youth and energy in this sparkling drink of nourishment... at 10, 2 and 4.

AT 10-2 & 4 O'CLOCK

## Helen Wills Moody Is Not Bothered By What Public Thinks

CHICAGO, July 15 (UP)—Helen Wills Moody, on her way east to play in the women's national tennis championships at Forest Hills in August, said she wasn't annoyed by what the public thought about her.

"I don't care much about what people say about me," she said. "Champions are public property and the public is always right."

Her young San Francisco husband did not accompany her. "He doesn't like to watch tennis," she said. "He had rather stay home and sail a boat."

## Building Boom Ends Depression In Valley

BROWNSVILLE, Texas, July 15 (UP)—Depression has been definitely dispelled in the Lower Rio Grande Valley with the beginning of another building boom throughout the section.

All kinds of building projects, ranging in cost from small homes to half million dollar federal buildings, are being launched in the valley.

Some of the projects are the half million dollar postoffice and federal building at Brownsville, a Jewish synagogue and four school buildings in Brownsville, the latter costing \$50,000, a Jewish synagogue building at Harlingen costing \$15,000, two school buildings at Rio Grande City at a cost of \$90,000, a school costing \$30,000 at Los Fresnos, two citrus fruit packing plants of the Texas Citrus Fruit Growers Exchange at Harlingen and Edinburg, costing \$60,000 each, a fruit shed at San Juan costing \$15,000, a \$15,000 Odd Fellows building at Raymondville.

Six other federal buildings in addition to the one at Brownsville are to be built in the valley soon.

## Houston Improves State Cemetery

HOUSTON, July 15.—The historic state cemetery here is being restored.

City workmen have been assigned to the task, in response to many requests that the cemetery, where he buried many of the state's early heroes, be cleaned up and beautified.

The preliminary work will be filling in low places, improving drainage and the like. Flowers and shrubbery will be planted, too.

## Texas Woman Owns 333-Year Old Bible

WHEELER, Texas, July 15 (AP)—A Bible that is 33 years old and believed to be an unrecorded version is owned by Mrs. E. A. Holt of this city.

Unusual features of the old volume are its body type of black, Old English, the Apocrypha or writings of doubtful origin not accepted by Protestants, the Psalms set to music, marginal notes and a commentary. It is 9 by 6 by 3 1/2 inches and contains more than 800 pages.

History of the book is not known, but Mrs. Holt's father bought it in 1830. It has been in Mrs. Holt's possession 20 years. It was "imported at London by the deputies of Christopher Barker" in 1596, 26 years after the Bishop's Bible was printed, and 13 years before the King James version appeared in 1611. The version is not mentioned in histories of the Bible.

Mrs. Holt, who has investigated its origin, has found that it is similar to the Geneva version in omission of the name of Paul as author of the Epistle to the Romans, and the use of "breches" instead of "aprons" in Genesis 37. It differs, however, in lettering and content, and the sources of translation were not the same.

The Psalms appear three times before Genesis, to be used as morning and evening prayer, in the accustomed place after Job, and in

## Doctor Says Take It Easy In Hot Weather

HOUSTON, Texas, July 15 (AP)—The kind of news everybody likes—"Don't work too hard during this hot summer. Take it easy. If you don't, you're likely to get a stroke, or otherwise be overcome by the heat."

Dr. Allen C. Hutchison, the city health officer, came in that fashion to the aid of the tired man and woman.

Dr. Hutchison believes in working, as do all successful men, but he revealed as believed also that "pep" talks should not be taken too seriously while the thermometer hangs around 100 degrees.

"While the heat is not so bad here as in the north and middle-west," he said, "men and women should not over-exert themselves while the gun is peppering down, and little children should not romp and play too much."

"How to keep cool?"

"There is no way," he laughed, "unless one lounges in a tub of cold water or camps under an electric fan."

NEW WEATHER INDICATOR  
 COLEMAN, July 14 (UP)—Former Representative A. L. Pearce of this city predicts a cool winter. "I have always heard, he said, "that when corn has a heavy shock it is a sure sign of a cold winter." Even this year, Pearce says, has an unusually thick coating of shuck.

## Crosby County, With No Prisoners, Loans Prisoner To Lubbock

CROSBYTON, Texas, July 15 (UP)—Crosby county is without prisoners of its own, and the county jail would be empty had not 14 Lubbock county prisoners been brought here for safe keeping while a new jail is being constructed at Lubbock.

"The behavior of Crosby county people can not be criticized," said Sheriff Elmer Reed.

## Reduce Indebtedness

COLEMAN, Texas, July 15 (UP)—Coleman county has reduced its bonded indebtedness, saving five per cent for taxpayers.

Twenty-five \$1,000 bonds have been taken up, Mrs. E. K. Thomson, county treasurer, said, saving \$5 months' and 5 days' interest at 5 per cent.

## Houston Piano Prodigy

HOUSTON, July 15 (AP)—Jack Gregory Abram, 15 year old Houston prodigy of the piano, has been awarded a scholarship in the Julliard Foundation of New York and will be enabled to study under Ernest Hutcheson, the dean of the Julliard school.

The boy began playing when he was three years old.

## Labels Mean Little

GALVESTON, Texas, July 15 (UP)—The foreign label on the bot-

## 60,000 To Leave City For Cotton Patches

SAN ANTONIO, Texas, July 15 (UP)—With the cotton picking season scheduled to start within the next two weeks, an exodus of 60,000 persons from San Antonio to the various fields of South Texas during the next four months is expected by C. W. Woodman of Fort Worth, state director of the United States Farm Employment service.

Woodman, in San Antonio to form a central head quarters for South Texas field employment would be a "able for numerous families during the cotton picking season.

Prices paid for cotton picking will be low, Woodman said.

## Doctor Says Take It Easy In Hot Weather

HOUSTON, Texas, July 15 (AP)—The kind of news everybody likes—"Don't work too hard during this hot summer. Take it easy. If you don't, you're likely to get a stroke, or otherwise be overcome by the heat."

Dr. Allen C. Hutchison, the city health officer, came in that fashion to the aid of the tired man and woman.

Dr. Hutchison believes in working, as do all successful men, but he revealed as believed also that "pep" talks should not be taken too seriously while the thermometer hangs around 100 degrees.

"While the heat is not so bad here as in the north and middle-west," he said, "men and women should not over-exert themselves while the gun is peppering down, and little children should not romp and play too much."

"How to keep cool?"

"There is no way," he laughed, "unless one lounges in a tub of cold water or camps under an electric fan."

NEW WEATHER INDICATOR  
 COLEMAN, July 14 (UP)—Former Representative A. L. Pearce of this city predicts a cool winter. "I have always heard, he said, "that when corn has a heavy shock it is a sure sign of a cold winter." Even this year, Pearce says, has an unusually thick coating of shuck.

## THE ALL YEAR GASOLINE

Quick starting at all temperatures is one outstanding characteristic of Cosden Liquid Gas. As it is quick to start, it is efficient with a full, even flow of tireless horsepower, more than equal to every demand made on a modern motor fuel.

Cosden Liquid Gas is in truth a premium performance gasoline at no extra cost. Its dependable performance under all weather conditions makes it in reality the ALL YEAR GASOLINE.

BIG SPRING MADE GASOLINE FOR BIG SPRING PEOPLE.

Courteous and efficient operatives, dispensing Cosden Liquid Gas, will be found at:

### Number of Charters Granted By State Equal to 1930 Total

AUSTIN, July 25 (AP)—The number of charters granted by the state for the first six months of 1934 was only two less than the total granted in the first six months of 1930, according to records of the office of Jane Y. McCallum, secretary of state. The number issued in July 1, 1934, was 1,229 compared to 1,231 in the corresponding period the previous year.

According to the Bureau of Business Research of the University of Texas, capital represented by the charters this year totaled \$58,669,000 compared to \$72,148,000 in 1930, an increase of 81 per cent in the money involved.

Oil companies led the list of charters with 258 in 1934 compared to 127 in 1930. Other classifications were: public service corporations, 23 this year and 26 last year; manufacturing enterprises, 125 in 1934 and 132 in 1930; banking and finance corporations, 73 in 1934 and 60 in 1930.

### INGENIOUS PROCESS STOPS VARIATION IN FLAVOR OF COFFEE

Wonderful Flavor of Hills Bros. Coffee Is the Same in Every Pound

Many people have wished for a coffee that didn't vary in flavor. Hills Bros. Coffee is such a coffee. It is roasted by the patented, Controlled Roasting process that absolutely prevents variation!

As the accuracy of the hour-glass depends upon an even, continuous flow... a little at a time... so the exquisite, unvarying flavor of Hills Bros. Coffee is produced by the patented process that roasts evenly, continuously... a little at a time.

Controlled Roasting is different from the ordinary method of roasting several hundred pounds at once. The result—as a cup of Hills Bros. Coffee shows—is very different! There is a refreshing smoothness that no other coffee has, because no other is roasted the same way. And remember, this marvelous flavor never varies!

Hills Bros. Coffee is packed in vacuum cans. Air, which makes coffee go stale, is removed and kept out of these cans. Even ordinary, "air-tight" cans won't keep coffee fresh. But Hills Bros. Coffee can't go stale! Order some today. Ask for it by name, and look for the Arab trade-mark on the can.

Hills Bros. Coffee, Inc., Kansas City, Missouri.

50 in 1930 real estate and building corporations, 31 this year and 94 last year; miscellaneous companies, 697 this year and 811 last year. A total of 244 foreign corporations were chartered in the first half of 1934, compared to 207 in the same period of 1930. The number of charters issued and the capitalization in June was well below the totals for May. Charters issued in June totaled 175 with a capitalization of \$9,867,000. In May 226 charters were issued with a capitalization of \$14,417,000.

**ELECTION CALLED**  
CANYON, July 25 (AP)—The Canyon city commission has called a bond election August 3. If the issue is carried, \$18,000 will be used to extend the city water mains. Harvey Cash, city manager, said the extension would bring a reduction in fire insurance rates.

Ann Holkins, who recently made his debut as a heavyweight with a victory over King Levinsky at Chicago, started his ring career in 1929 as a lightweight.

### Mussolini Issues Further Criticism Of Pope's Position

ROME, July 25 (AP)—Premier Mussolini and leaders of the Fascist party issued further statements denouncing the Pope's recent encyclical as a collection of lies. They announced that several hundred thousand Fascists would gather soon on Pavia battle fields in demonstration of strength. The Pope was particularly attacked for criticizing the Fascist organization for boys. They charged that the Vatican and its members were guilty of conspiracy with an alliance against Fascism.

### Oil Booms Mean Hard Work in Land Office

AUSTIN, Texas, July 25 (AP)—An oil boom in Texas means a lot of hard work for employees of the state land office. Whenever an oil boom develops persons leasing land in the field always write the land office for a certified copy of the field notes of the survey to make certain they are getting the right tract and that no vacancy exists that later may make the tract a prey for claim jumpers. J. H. Walker, land commissioner, who has worked with Texas land titles said there was less claim jumping in East Texas than in any other large field developed in Texas. Several cases of claim jumping, however, have been reported from the East Texas field and are under investigation by the land commissioner. The state owns several small tracts of land in the heart of the big field but will not lease them until the oil market becomes more stabilized, Walker said.

### East Texans Form Dairy Finance Corp.

TYLER, Texas (AP)—Organization of the East Texas Dairy Finance Corporation has been completed here. J. J. Peasley, has announced. The organization is expected to make available approximately \$200,000 for financing and refinancing dairy cattle of farmers now engaged in the dairy business or wishing to engage in that business. It is affiliated with the Federal Intermediate Credit Bank, branch of the Federal Farm Loan Bank of Houston, to the extent of re-deposit privileges. Activities of the organization will be centered at Smith, Upland, Texas, Case and Harrison counties. The company's \$25,000 capital stock was subscribed by interested business men in these counties. Peasley explained that cows now owned by farmers will be used as collateral for loans which will be repaid monthly over a period of 30 months (two and one-half years) at the rate of 8 1/2 per cent interest. Bryan Baylock of Marshall, secretary-treasurer of the company, will spend one day each week in each county receiving applications from farmers for loans. Directors of the corporation are: R. J. Peasley, Tyler; W. C. Pierce, Marshall; L. F. Allday, Atlanta, Texas; John Brogotti, Gilmer; and Eugene Lillibart, Mount Pleasant.

**TO CLOSE POST OFFICE**  
HOUSTON, Texas (AP)—The Houston post bureau will close its Dallas office. General Manager T. L. Evans has announced. The office will be discontinued August 1 and the territory will be covered by the Houston and Kansas City offices.

Collector... Susie Wiesen  
Meets each first and third Wednesday

### M.D.'s Prescription Not Accompanied By Meals Tramp Learns

ARIZONA, Texas, July 25 (AP)—Since doctors' medical prescriptions make no provision for meals, welfare workers were presented with a new problem here recently. The subject for the prescription was old, rheumatic, and Irish. He shuffled into the office of the welfare secretary, and took a chair.

"Well," the secretary inquired. "I'm sick," announced the visitor. "I'm just a tramp. I've been tramping for years. I have no family. Yesterday a policeman found me on the railroad lawn and sent me to the city health officer. The doctor gave me some medicine."

"Didn't the medicine help?" the secretary inquired solicitously. "I haven't taken any yet," was the answer.

"You haven't taken the medicine the doctor gave you?" the surprised secretary asked.

"Well, no," said the aging tramping, taking two bottles from his pocket, and pointing to the directions on the labels. "One says 'to be taken before meals' and the other says 'to be taken after meals.'"

"Well," the puzzled secretary pursued.

"Well, I haven't had any meals yet," the tramping explained.

### Rainfall Heavy This Year in Uvalde Area

UVALDE, July 25 (AP)—Rainfall at Uvalde for the first six months of 1934 lacked less than one inch of equalling the total amount received during the entire year of 1930, according to J. S. McBride, government weather observer. The total precipitation for the first half of 1934 was 25.89 inches, compared with a total of 26.84 for 1930, which incidentally, was almost 3 inches more than the average for any 12-month period during the last 40 years. McBride's records show that May, 1931, was the heaviest month of the past 18 months when 9.05 inches of rain fell.

### BARBERS TO MEET

HOUSTON, July 25 (AP)—The Associated Master Barbers of Texas will meet here in fifth annual convention July 29 and 31.

Legislation to be the trade of plans for a wide-spread educational program will be the main subjects under discussion.

### First 1931 Bale in Hidalgo Is Ginned

EDINBURG, Texas, July 25 (AP)—The first bale of 1931 cotton from Hidalgo county was ginned last week at Hargill in the M. R. Sharp gin. It was produced by a Mexican tenant on the farm of Mrs. Sinclair Thompson of Hargill. The cotton was graded middling. Later two bales were ginned at Edinburg, two at Lyford, two at Raymondville and one at LaSara.

The first bale of 1931 cotton was ginned this year at LaSara, Wilcox county, late in June, and was sold in Corpus Christi for \$260. One of the bales turned out at Lyford was baled in cotton bagging. So far as could be learned, this was the first move in the Grande valley on the part of gins to replace jute with cotton for bagging to assist farmers in getting higher prices for their cotton. Farmers said the lateness of the crop this year was due to recent rains and boll weevil activities.
