Sights and Faces Seen

Summerfield persons witnessed a car-chasing pig the other day. The pig had been brought home in a box on a car and when he broke out of the pen he immediately started down the highway chasing cars. It was a dangerous business for the pig so his owner got out his car and let the pig chase it back to the pen.

#### Elster Haile Backs Culberson At Dallas

Elster M. Haile, who was called to Dallas recently to confer with persons backing Olin Culberson for Railroad Commissioner, was quoted in the Dallas Morning News of August 15, as giving unqualified support to Culberson. The item follows: "Elster M. Haile of Hereford, an original O'Daniel supporter who has known the Governor for 25 years and was appointed tax commissioner by him, announced during a visit to Dallas his unqualified support of Olin Culberson for Railroad Commissioner. "I believe it will be a service to Governor O'Daniel if his friends will support a man whose honesty and ability as a public servant are established," Mr. Haile said."

Beginning with registration of Seniors today, and Friday, school events of the 1940-41 term are officially underway. Seniors began registering this morning at 9 o'clock and will register from 9-12 a. m. and from 2-4 p. m. both days.

Beginning Monday, August 26 all other students may begin registering, Knox Kinard, superintendent, said. All students who have not attended Hereford schools before are asked to bring their records from the school last attended.

Enrollment in Central School will not begin until September 9, the opening day for all schools here. This year the seventh grade will be taught at Central School instead of at the high school, as it was last year.

Books for high school will be issued September 6 and first meeting of the faculties will be held the next afternoon, September 7, at 2:30 in the high school.

**TWO NEW TEACHERS**  
The high school faculty is composed of 15 teachers and officers, two of whom are teaching here for the first time. These are Mac Best, head coach, and H. V. Stanton, assistant coach. Mr. Best's home is Sand Springs, Okla. Mr. and Mrs. Stanton and two daughters are coming here from Denton where he was head coach and instructor in mathematics.

Other high school faculty members and officials are Knox Kinard, superintendent; G. M. Hudson, principal; Miss Stacia Irene Crawford, W. M. Emmons, Miss Robbie Foster, Miss Lois (Continued on Page 7)

### Cliff Estes To Play In All Star Game

Clifford Estes, first team center on last year's White Face football squad will play with the West against the East in a game Friday night, August 30, at Plainview. The All-Star game climaxes a five-day coaching school here. Head Coach Mac Best and Assistant Coach H. V. Stanton of Hereford will attend the coaching school. Hereford boys who expect to play on the 1940 squad may attend this game by getting in touch with Mr. Best or Mr. Stanton. Boys must buy their own tickets, however. Boys who wish to go should meet at the high school at 6:30 p. m., August 30.

### Football Players To Get First Call To Practice On September 2

All boys who expect to play football for Hereford high school this fall are requested, without fail, to be at the high school building about 7:30 a. m., September 2 to get their suits. Practice will then start at 9 o'clock that same morning. Coach Mac Best has announced.

"It is most important for every boy to be there," Mr. Best said. Practices will be held twice daily to get the team in shape to play the first game of the season on September 13 when Friona comes to Hereford. About seven lettermen will form the nucleus of the team this fall.

Besides the opening game with Friona the White Face schedule calls for the following games: Sept. 20, Littlefield, there; Sept. 27, Dimmitt, here; Oct. 4, Dumas, here; Oct. 11, White Deer, here; Oct. 18, Canyon, here; Oct. 25, Dalhart, there; Nov. 1, open; Nov. 8, Tulla, there. Hereford is also seeking a game for November 15.

A squad of 30 to 35 boys is expected. (Continued on Page 12)

### Quiet Election Expected Here

One local candidate, three district candidates and two candidates for state offices will be relieved of further political worries this year when final election returns are tabulated Saturday night.

All county officers will then have been named, leaving only the formality of the November election to make the Democratic choices final.

The only county race with a run-off to be decided Saturday is that of County Commissioner, Precinct 2 where Colby Conkwright and Jim Clark are battling it out. Clark led the voting in the primary with a count of 367, Conkwright was second with 314 and Glenn Weir third with 251.

There's been plenty of hard campaigning by both candidates for United States Congress. Deskins Wells, who led Gene Worley by some 6,000 votes in the primary, has been working from "dawn to midnight" and many of his friends and supporters in all counties in the district have been giving freely of their time and working for him at their own expense. On the other hand, Worley's home county of Wheeler, and especially his home town of Shamrock, have swung his support.

Max Boyer of Perryton led Grady Hazelwood by a little more than 2,000 votes in the primary voting for state senator. Boyer was especially strong in the 10 counties he had represented in the State Legislature, while Hazelwood's strength came mostly from the Amarillo area. How- (Continued on Page 12)

Places of historic and scenic significance are on the itinerary of the Boy Scouts who left Hereford at 5 o'clock this morning for Arroyo-Hondo, northwest of Taos, N. M. ### Chiefkan Wheat Refused By Mills; Farmers Are Urged Not To Plant It

#### Cuts, Bullet Wounds And Scalds Suffered

The experience of falling off a tractor, getting run over by a oneway plow and then having the tractor make a circle and come back for another whack was suffered Monday morning by V. Skypala of Westway. Mr. Skypala, one-waying across lister ridges, lost his balance when he turned to pull a rope attached to the one-way. He fell in front of the plow and the lead wheel and two or three of the disks ran over his body from the waist down. A deep gash was cut in his ankle. He was alone in the field. The tractor made a circle and Mr. Skypala was forced to crawl out of the tractor's way. Finally, he managed to climb on the tractor and stop it. Then he got into a truck and drove to the house. #### Insure Wheat Crop Before Seeding Or Before August 31 --- J. A. Pitman

Less than two weeks remain for farmers of this county to take out crop insurance on their 1941 wheat crop, J. A. Pitman, county chairman, has announced. Applications for crop insurance must be made before August 31, or before the farmer seeds his wheat, whichever is earlier.

At present 30 producers in Deaf Smith county have insured their 1941 crops against all unavoidable hazards.

The 1941 sign-up probably will exceed the 1940 coverage, J. A. Pitman, chairman of the county AAA committee, said. The 28 policies already applied for insure the production of 38,060 bushels of wheat on 5,300 acres in the

county next year. Last year 98 policies were issued, guaranteeing production of 121,602 bushels on 20,847 acres.

Indemnity payments on the 1940 crop have been practically completed in the county, the chairman said. Loss claims have been made on 48 policies for indemnities totaling 32,220 bushels. Most losses resulted from wind, erosion and drought.

"The increased interest in crop insurance this year indicates that the county's farmers are realizing more and more that insurance on their crops is a routine farming practice," the chairman pointed out.

### Registration Of Aliens To Begin Tuesday

Registration of aliens in Hereford territory will begin Tuesday, August 27, and continue to December 26 of this year. Postmaster James R. Lipscomb has announced. Generally speaking, foreign-born persons who have not become citizens of the United States are aliens.

Forms for the registration have been received at the post office and will be available when registration starts. Fingerprinting is included in the compulsory action.

A fine of \$1,000 and imprisonment for six months is prescribed by the Alien Registration Act for failure to register, or refusal to be fingerprinted, or for making registration statements known to be false.

The registration is free, Mr. Lipscomb said, and it is not necessary for the alien to pay any person or group to assist him in registering.

Purpose of the act is to determine exactly how many aliens there are, who they are, and where they are. Registration, including fingerprinting, will not be harmful to law-abiding aliens. All records will be kept secret and confidential and will be made available only to such persons as may be designated with the approval of the Attorney General of the United States.

All aliens 14 years old or over are required to register. Alien children under 14 must be registered by their parents or guardians. Persons with first citizenship papers must register.

### Chiefkan Wheat Refused By Mills; Farmers Are Urged Not To Plant It

Pointing again to the alarming situation created by the planting of Chiefkan wheat in this territory, County Agent A. R. Bateman today said that some early planting has already started here and that every man in this area should join the movement to discourage any planting of Chiefkan or other beardless wheat varieties.

"It is possible that all growers may suffer if even a small portion here should be planted in Chiefkan," he pointed out. "Practically all mills in this state are refusing to buy Chiefkan for flour purposes and percentages even as low as five percent are reported to ruin flour for milling purposes."

Texas' drive to improve milling wheat follows one started in Kansas two years ago. The following reprint comes from the Kansas City Grain Market Review:

"Flour ground from Chiefkan is so definitely inferior that bakers find it impossible to make satisfactory bread from it even though the percentage of Chiefkan in the miller's blend (Continued on Page 12)

### Chamber of Commerce To Meet Tonight And Consider Proposal

Alex R. Bateman and Byrle Elliston, who returned early this week from Dallas after securing promise of space in the Agricultural building at the State Fair of Texas, will make their reports tonight at a meeting of the Chamber of Commerce in the City Hall. All members are urged to attend the meeting. The county has been offered larger space than a county exhibit and the opportunity for a more significant exhibit, instead.

All county space had been taken when Bateman and Elliston arrived at Dallas, but the space in the Agricultural building "18 feet wide and right in front of the door," according to Elliston, was available and fair officials are urging this county to bring an exhibit specializing on Hereford potatoes.

Such an exhibit, wrote Victor Schoffelmeyer, agricultural editor of the Dallas Morning News, would be worth many times more than "a hatfull of beans, tomatoes, etc., in a county exhibit."

Pointing out that Hereford potatoes represented a major industry in Texas, Schoffelmeyer, Bob Bourdene of the Dallas Chamber of Commerce and others, are anxious that this county be sole representatives of (Continued on Page 12)

### Transfers In This County Number 210

A large number of these are high school students, but at least three schools in the county have transferred their entire memberships to other schools.

### Problems Facing Potato Industry Here Are Discussed At Luncheon

Sixteen persons were present Tuesday at an informal luncheon tendered by the Hereford Potato Growers Association in honor of four Federal-State representatives of the Department of Agriculture who came to learn first hand about the potato industry developing here.

After the luncheon, problems of the industry were discussed. Need for some sort of inspection applicable to trucks in order to insure standard pack and quality of spuds shipped from this area was pointed out; means to secure certification of seed, and some sort of state law requiring each sack of spuds to be branded as to quality, weight, and by whom grown or packed, were other topics.

Present state law makes inspection compulsory only on carload lots and it is doubtful if the law could be made to apply to truckers. Growers in this area, in co-operation with growers in other potato sections, are planning to push a revision of this law whereby it would apply to trucks as well as railroads. Application of the law would be optional, according to counties and would require inspection of all potatoes shipped from the county.

The justifiable complaint was made by Glenn Boardman that penalizing Texas truckers by the 7,000 load limit law and letting Colorado truckers come into the state with loads far exceeding that, was unjust. If anything, the state ought to be harder on outside truckers than on those who reside and pay taxes in the state, he said.

Those present at the luncheon included Hart T. Longino, supervisor of Fruit and Vegetable inspection work under Federal-State joint sponsorship; M. S. Frazee, Chief Marketing and Warehouse Division; Bill Ford of Abilene, State Bonded Ware- (Continued on Page 7)

# So The People Will Not Be Misled About The Facts of the District Attorney's Race

## I. What is a Conviction? What is an Acquittal?

Before the first primary, the present District Attorney scattered "good record" propaganda over the District in the form of cards bearing the words "16 Convictions—No Acquittals". BUT DO YOU AS A VOTER KNOW THE ACTUAL FACTS OF THE CASE? HAVE YOU AS A VOTER LOOKED AT THE COURT RECORDS TO ANALYZE THIS STATEMENT? We believe that many people have been misled. Were the facts as well known here as in Dallam County where both candidates live and where Judge Honts was given a plurality? It was the vote in Deaf Smith County that gave the present District Attorney his small lead.

## Here is what the Court Records show as to what the present District Attorney has done and what he has not done:

### I. What do the Court Records show about the 16 Convictions?

(1) There have been only THREE trials and convictions and NOT SIXTEEN, over the entire District. All three of these trials were in Dallam County, being cases numbered 1324, 1325 and 1335 on the Criminal Docket. In one of these trials the present District Attorney was most ably assisted by an Amarillo law firm, namely, Underwood, Johnson, Dooley & Wilson. In other words, he has tried only TWO cases in the entire district in which he was unassisted.

(2) There have been ten "Pleas of Guilty", or confessions of guilt. The main connection which a District Attorney usually has in cases of this kind is to recommend minimum punishment in consideration of the guilty plea.

### BUT NOW, GET READY FOR A SHOCK!

(3) The other cases which were counted as convictions, and which were necessary to bring the total to the boasted sixteen, were three fines imposed for contempt of court by the District Judge on his own initiative, not even cases on the Criminal Docket, having neither formal names nor numbers. HAVE YOU BEEN MISLED ABOUT THESE SIXTEEN "CONVICTIONS"?

## II. What do the Records show about "No Acquittals"?

(1) Has the present District Attorney neglected to tell you that he has DISMISSED TWENTY-NINE GRAND JURY FELONY INDICTMENTS during his brief eight months in office?

(2) Did you know that the court records show TWENTY-ONE INDICTMENTS returned by the grand juries in the various counties during his term in office which have NEVER COME TO TRIAL?

## III. What has the Present District Attorney done in Deaf Smith County?

(1) Did you know that there are a large number of cases on the Criminal Docket, but that the present District Attorney has not tried a SINGLE CONTESTED CASE in Deaf Smith County?

(2) Did you know that in DEAF SMITH COUNTY ALONE, THE PRESENT DISTRICT ATTORNEY HAS DISMISSED 18 FELONY INDICTMENTS DURING EIGHT MONTHS IN OFFICE? You are urged to verify this by checking the following numbered cases on the Criminal Docket: 695, 696, 702, 703, 723, 727, 739, 746, 747, 755, 756, 758, 759, 760, 763, 776, 777 and 778!

(3) The first reason given for these dismissals was "insufficient evidence." But the indictments dismissed were returned by Deaf Smith County Grand Juries after a careful consideration of the evidence available and upon the advice of our former District Attorney. It is the job of the Grand Jury to weed out all cases where there is not enough evidence and to return indictments only where there is sufficient evidence. Is this a reflection upon Deaf Smith County Grand Jurors and our former District Attorney, James W. Witherspoon, under whose administration the indictments were returned?

## Summary for Deaf Smith County: No Trials, Two pleas of Guilty, 18 Cases Dismissed!

Do we have any assurance that this is not a continuing policy? Bear in mind that it was the present District Attorney who brought his record in issue. Is this the type of law enforcement we want? Is it the policy of the present Dis-

trict Attorney to dismiss or continue indefinitely all cases where the Defendant does not walk in and plead guilty? Why should our efficient officers work day and night to protect our citizens and their property, have the evidence presented to the Grand Juries, have the Grand Juries return indictments, and then have the work of both nullified by wholesale dismissals?

### A Fact to Tell Your Friends:

We see placards telling us to "Keep Tatum as District Attorney". WHAT FOR? Is it just because of his name? Don't be misled by the Tatum name. The present District Attorney is in no way related, by blood or marriage, to the late and honored District Judge Reece Tatum. There is nothing to this "Uncle Reece" talk. This is a fact about which you may have heretofore been mistaken.

### Some Facts to Remember when you Cast Your Vote for District Attorney:

Please bear in mind that it was the present District Attorney who has made an issue of his record. He has asked you to elect him on that record, and we do not wish to have the voters of our County misled by the statements which have been made by him. We believe that the voters of Deaf Smith County are entitled to know the facts and all of the facts.

We have been fortunate in having as our District Attorneys men of character and ability. They have been sober and industrious men who have had a high conception of their duty to the public. We again have the opportunity to elect such a man as District Attorney, for Judge John B. Honts will not only uphold that high standard but we think he will add much to it.

Judge Honts has had to make his own way in life and it has been the hard way. He is not lazy and indifferent. He knows how to work and enjoys it.

Twice elected County Attorney of Dallam County and then County Judge, Judge Honts is asking for advancement to the office of District Attorney, a promotion he well deserves. Unlike his younger opponent, Judge Honts did not ask you to start him at the top, but he showed a willingness to work his way up. He asks for the office of District Attorney only after he has shown that he is worthy and well qualified for the job.

This statement has been written and paid for by Deaf Smith County voters who believe in keeping the record straight and who are more interested in the common welfare than that of either of the candidates for District Attorney. Some paying for this space voted in the first primary for Mr. Thomas and believe that misleading statements prevented that fine man from receiving votes he should have had.

## Let's Cook Something

If you love berries at your house, here's a recipe you ought to frame. Just enough different to be interesting is the new-old practice of making "little pies" for dessert. They are so attractive and so easy to serve. Make them with any kind of berries—strawberries, red raspberries, blackberries, loganberries, blueberries or even cherries. They are particularly luscious made with cherries, especially when you make them like Mrs. Hatlie Rutherford does. People who eat her "little pies" insist they hold the lead for flavor. Try them and see. And let the family be judges.

Nearly everyone has an individual way of making pie crust, so make the crust your own special way, but it needs to be crisp and Mrs. Rutherford uses ice-water to insure crispness. Here's how she prepares the filling. They only have one crust.

### LITTLE PIES

- 2 eggs
- 1 cup sugar
- 1 tablespoon flour
- 2 cups cherries or berries
- 1 tablespoon butter

Beat eggs well and combine with sugar. Add flour and mix thoroughly. Add the cherries, or berries and butter and mix all together. This recipe makes eight little pies. Line greased muffin tins (rather large in size) with crust for that number of little pies and fill with the fruit mixture. Bake in moderate oven until crust is brown. Serve with whipped cream or mounds of vanilla ice-cream. These won't bubble up or run all over the oven because the eggs take care of the juice.

Try this tempting dessert and watch the family beam with mealtime enthusiasm.

### CORRECTION

Through a mistake one portion of the recipe for watermelon rind sweet pickles was left out last week. We reprint the recipe for you—and this time it's correct.

### Water Melon Rind Sweet Pickles

Peel and cut into strips, 1 by 3 inches, cutting out all the red meat and cutting off all the green rind, enough melon-rind to make seven pounds after it has been prepared. Line a large preserving kettle with green grape leaves and place melon rind in kettle, add a piece of alum the size of a walnut and cover with grape leaves. Cover with cold water and cook with lid on kettle until tender enough to pierce with broom straw, (about 90 minutes).

Make a strong ginger tea of crushed ginger root, tied in thin cloth bags and boiled for several minutes. Remove rind from grape-leaf water and place in the ginger tea, let remain over night.

The next morning remove rind from the ginger tea and place on racks to drain.

### Make a Syrup of:

- 5 pounds sugar
- 1 quart apple cider vinegar
- 1 quart of water
- peel of half an orange (boiled a few minutes)
- small piece of crushed ginger-root
- 1 dozen whole allspice
- 1 dozen spice cloves
- a few pieces whole mace (if unable to get whole mace use the ground).

Bring all these ingredients to a boil and drop in the rinds. Cook all together, uncovered, over medium flame until clear and about thick (about 90 minutes).

Place in jars while hot and seal.

## WHY MAX BOYER Should Be Elected State Senator

BECAUSE — Max Boyer has served for the past four years as a member of the Texas House of Representatives and has gained much experience which qualifies him for promotion to the State Senate.

BECAUSE—Max Boyer received 79% of all votes in the ten counties which he served.

BECAUSE—Max Boyer has co-operated with two governors of this state and has voted at all times for measures to pay old age pensions, aid for the blind, the dependent children and for teachers retirement.

BECAUSE—Max Boyer received a letter from the Governor commending him and thanking him for his co-operation and help in assisting the old people and others included in the Social Security program, which letter was written on May 30, 1939.

BECAUSE—Max Boyer, when he saw that no program would be passed by the Legislature, after the Senate had killed all measures passed by the House, and he had voted for S. J. R. 12, he then voted to adjourn the Legislature which was costing the taxpayers of this State over \$5,000 per day.

BECAUSE—Max Boyer has always fought for the rights of the average citizens.

## Worley Against Beef Importing

Gene Worley, of Shamrock, continued his campaign this week in speeches and house to house canvasses over the district. In one of his latest speeches, at Tulla, he opposed importing of beef from Argentina.

"We have a cattle country," the congressional candidate said, "and we can't afford to risk importation of beef from a country in which there is the dread foot and mouth disease. The spread of such a disease in this country could wreck and ruin our livestock industry."

"I believe we should be good neighbors and cooperate with the Latin American countries, but I oppose any importation which could spread a deadly disease among our livestock. Cattlemen of this country have fought this proposed importation and I am fighting with them."

Worley spoke yesterday at Quitaque, Matador and Paducah.

Come In and See the New Type F McCORMICK-DEERING Enclosed-Gear Binder

FARMERS tell us we've really got something in this new all-modern binder. What most of them like is the idea of getting gears under cover and putting fittings every place you need them for pressure gun lubrication. It looks like this binder ought to last forever if you'll take a minute now and then to give it a shot of grease.

There's more to it than that. Every day you use the binder you'll thank your stars for its light draft and its quiet, smooth operation. Enclosing all the gears keeps them clear of straw, chaff, dirt, and dust. Add to that the fact that the main bevel drive gears run in a bath of oil and all other gears are pressure-lubricated, and you have a great combination.

We'd like to show you over this new McCormick-Deering Binder, and tell you how you can take advantage of its great value by making use of the Income-Purchase Plan. Stop in next time you're in town, or give us a call on the phone.

Above: The main bevel drive gears are enclosed in this gear case. Lubrication is by oil bath, with pressure gun fittings to take care of shaft bearings.

### Boyer Confident; Stands On Record

Max Boyer, the leading candidate for State Senator, who received 42% of the total votes cast in the first Primary, enters the final days of the runoff campaign with the assurance of his friends from the rural section that he will have the opportunity to serve the average citizens for four years, when the final count is made August 24.

In accounting to the public for the service he has rendered the average citizen during the past four years, Max Boyer stated, "I believe the statement made by Governor O'Daniel in the daily newspapers following his election July 28, is the best recommendation I can give the people at this time."

Governor O'Daniel said, "The record of the 46th Legislature reflects the fact that you had 94 House members who did everything they could to aid in solving the Social Security problem. I urge that you take the record and from the record decide which candidate will most likely make the most efficient public servant."

"A second recommendation to the voters who are not familiar with my type of service can be found in the votes of the ten counties I have served during the past four years. This record shows that 81% of the average citizens have been well satisfied with the work I have done, because they returned me to office with the majority vote.

"I believe a third recommendation to the average voters has been earned by your leading candidate for Senator, because he has received the persecution of the Amarillo Political Machine, that has dominated the Panhandle for the last 12 years.

# High School And Phillips Collect Wins

August 19—The High School won their fourth-straight game Monday when they unloosed a barrage of base hits and runs to massacre Dawn 34 to 3. The High School collected twenty eight hits in all, nine of them going for extra bases. The White-faces had two big innings as they scored eleven runs in the second and nine in the fifth. Fourteen men took their turn at bat in the second inning while thirteen men batted in the fifth frame. The High School never failed to score an inning, but they had only one run in each of two innings.

While scoring frequently themselves, the High School held Dawn to three runs. Dawn did not score until the fifth inning and then scored once in each the sixth and seventh frames. Dawn did not get a score until the fifth inning when a scratch single went over second base. This was the only hit of the game, but three High School pitchers gave up thirteen walks between them.

With one out, Singletary was safe on an error and then came successive hits by Roe, Climer, Bell, Alfred, B. Boyer, D. Boyer, and Farmer before Bowman made the second out of the inning. Three more hits by Clearman, Singletary and Roe accounted for the remaining tallies. After this inning the Phillips 66 went on to score eight more runs in their last three frames. Feeding the hundreds of white leghorn chickens is one of the evening chores of Mrs. Deskins Wells, wife of the leading candidate in the congressional race, and her eight year old daughter, Dianne, when they are at the ranch home of Mrs. Wells parents, Mr. and Mrs. Temple Atkins, pioneers of Wheeler County. Like thousands of other mothers and their little daughters, they take time out to pet the friendly white chickens. # Vigorous Man Power Essential To Our Defense

"This country has embarked upon an unprecedented defense program. Billions have been appropriated for battleships, tanks, dive-bombers, and many other war implements. The public graciously has accepted the situation realizing that "billions for defense are cheaper than even one small war." However, despite the inventions that have made modern war mechanism so devastating, man power of the most vigorous type must be relied upon to produce and operate them," states Dr. Geo. W. Cox, State Health Officer.

"That this fact needs emphasis is indicated by the intensified interest in the physical condition of the nation's men, women and children on the part of health officials and the medical profession generally. "This attitude is logical since present-day war preparedness is not limited to combat forces. Never in history have wars been waged so far in advance of the actual fighting. Preparedness calls for vigorous efforts of millions of men and women who, in addition to those in uniform, are a vital part of a nation's defense system. The physical condition of everyone not only is a matter of individual but national concern.

"In the production of defense material, certain standards can be demanded and achieved. On the other hand, vigor of body and mind is entirely too personal to be affected directly by governmental decree or public health regulation. Nevertheless, it is reasonable to suggest that the health of all citizens should be developed to as high a plane as possible and be maintained at that level. Moreover, it is definitely one's patriotic duty to see that this is done.

"For example, a physical check up by the family physician for those of mature age is likely to bring to light any existing latent condition and thus make remediable measures promptly possible. On the assumption, however, that many of those submitting to the test will be free of any incipient disease or physical defect, this professional contact will afford an opportunity to obtain advice on habits of living.

Homer Fox went and done it again. Folks. Homer is a mighty good little writer, but he sure can't take it. Not much. Last week he wrote this column and intimated that I was pretty lazy. I was sure burned up about this stuff, so I rushed right down Monday morning to eat Homer out. What do you think had happened? Homer Fox was in Colorado. After writing the column only ONE WEEK Old Homer had to take a vacation. Furthermore, the same thing happened when he wrote the column last year. Before I got back,

he had to take a vacation. I thought it was a coincident last year, but when it happened again it sure looks like Homer is a little soft when it comes to honest-to-goodness hard work.

Anyway, I still contend that Homer Fox has the ability to become an outstanding writer. He has a rare ability for getting things over and making them interesting. If you will remember it was in 1939 that Homer suggested the swimming pool in this column, and this year he came through with a timely plug for "Herefordpotatoes." If they do adopt the name it sure will be tough on the headline writers.

Meanwhile, Miss Ela Aikmen has one thing less to wonder about. Being alone on the farm Miss Ela thought it advisable to secure a pistol, and for a long time she has wondered if she would be too frightened to pull the trigger in case of necessity. Last Sunday night she found out. During the night she was awakened when an automobile glided into the grape arbor near the house. A few seconds later she saw two men alight from the car and then she heard loud thumps as bunches of ripe grapes were dropped into a sack. Without the slightest trace of fear Miss Ela reached for her gun, then fired. She may not have been scared—but the two men sure were. In panic they dropped the sack, jumped into the car and started the motor. Just for good measure, Miss Ela fired again. Everything turned out swell, except Miss Ela had to spend Monday making jelly out of the grapes which the two men left in their hurried flight.

Dick Miller is mad enough to also do some shooting if he can locate the person who shot the pet Swift Fox which belonged to his daughter, Betty Francis. Dick says they caught the Swift when it was a puppy and that it played around like a dog with the children.

Some people think that newspaper men are responsible for everything. Tuesday at least 25 people were littering the town. They not only fussed because the husks were blowing onto clean floors and counters, but some of them even claimed that the husks were giving them hay fever. Anyway, it is a lot better to have a few wheat husks dropping around than to have bombs blowing up around the town. War is a dreadful thing to think about—and it looks like we are getting closer and closer all of the time. It sure does.

The auction sales were resumed Tuesday afternoon with a good run of stock and plenty of buyers. Hereford has a good auction which is growing all of the time. This is a movement the entire community should get behind and push. Livestock during the past 12 months did more for this community than many of us realize.

In conclusion I want to say a final word in behalf of Deck Wells. I've told you before that Deck is honest, capable and courageous. I say this because I feel that most of the people in Deaf Smith County are really

and deeply interested in getting a good, clean, capable man in Congress. Deck never has been associated with any big companies or big interests—and I feel certain that he never will be. He is not a lawyer, but if he was he isn't the sort of fellow who would take those retainers fees from the large companies or big interests. Deck's heart lies with the farmer, the rancher and the people in small towns. I'm not saying he is the smartest man in the world, but he is capable and he is honest and I feel like he is smart enough to hold his own when he gets up there in Washington. I am personally proud to be a friend of Deskins Wells and I am really proud of the good, clean race he has made for Congress. Deck hasn't slung mud, he hasn't stooped to last minute lies and he hasn't tried to undermine anybody or anything. Deck Wells has just tried to meet people and to get votes on his own merits.

He has run this race just like he always ran his life: with hard work, good common sense and clean beyond reproach. And Friends, if he gets to be congressman I may some day be privileged to write some wonderful things about him—but I know that I can never pay Deck Wells a higher or more sincere tribute than I paid him in the preceding paragraph. When I ask you to consider him I do so with knowledge gained from six years work and close association with him. I have known both men in this race longer and probably better than 99 percent of the people in this territory. I think Deck Wells is the man. However I think that you should consider them both carefully—and regardless of all else—vote for the man you think will make the best congressman.

When you cast your ballot Saturday you will be exercising a right and performing a duty. Your mind may even drift across the seas to conditions of a battle torn world, over-run by dictators, and it may occur to you that you live in one of the few countries in the world where people still vote—a country where you can still kneel down without fear and thank God that you are an American.

the entire spud industry of Texas. In addition, the Dallas Morning News is planning to give this area a half-page advertisement in the News and is clamoring for pictures and stories of individual growers to use in a feature article. Mr. Schoffelmeyer has announced plans to visit this section within the next two weeks, if possible. "We received a royal welcome," Bateman and Elliston reported. We were astonished at the great interest they showed in this section. They treated us like we were big-shots. At the Chamber of Commerce meeting tonight discussions about attending both the Dallas and Amarillo Fairs will take place, and a definite decision will be reached on whether or not a local fair will be held.

Jake Gregory of Westway accidentally shot himself Sunday afternoon with a small caliber rifle. He was hunting and dropped the gun and it went off. For several moments Mr. Gregory said he didn't know he was injured and was amazed when he discovered blood on his hand. He then found that the bullet had entered the fleshy part of his forearm and pierced his arm at the shoulder. None of the wounds are considered serious.

### JAKE FORTENBERRY INJURED

Jake Fortenberry, son of Jack Fortenberry of near Adrian, is in a hospital at Amarillo suffering from head cuts and severe bodily bruises received when he jumped from a tractor, fell beneath the plow and was run over.

### GARRISON BABY SUFFERS SEVERE SCALD

Joyce Jenelle Garrison, two-year-old daughter of Mr. and Mrs. Harry Garrison, rested some easier last night after intense suffering from second degree burns caused by scalding. The child backed against a tub of hot water about 8:30 Sunday evening at the Garrison home and fell in. She was saved from death by Mr. Garrison who saw her fall and grabbed her in time to prevent her from falling completely into the tub. All the skin was scalded from her left arm and her left side. Her condition is serious, but if no complications set in, she is expected to recover.

may be relatively small." Research material of the Texas Wheat Improvement Association further indicated that Tenmarq, Kan Red, Turkey Red and several other varieties produced equally good yields as did the Chieftan and other beardless varieties.

"If persons interested in improving wheat quality and maintaining a top price for wheat in this area will call at this office we will be glad to go over the literature and statistics offered by the association," Mr. Bateman said. "We feel that this is a question of vital importance to every producer in this county—because it is the producer who will lose in the long run if inferior grades of wheat continue to be seeded in this locality."

### Last Primary

(Continued from Page 1)

ever, Hazelwood carried Deaf Smith county by a vote of 882 to 592 for Boyer.

The District Attorney's race finds two Dalhart men in the run-off. Milton Tatum carried the district 3,443 votes to 3,257 votes for John B. Honts, a scant 200 vote margin. J. D. Thomas of Farwell was third with 2,354 votes. Honts carried the counties north of the Canadian River, but Tatum was strong in this area. Tatum led this county with 771 votes, to Honts, 387 votes,

and Thomas, 569 votes. Just how the Thomas supporters will go in the election Saturday is hard to tell, but they hold the balance of power here, provided that the original Tatum and Honts supporters still feel the same way they did on July 27.

Two state races reached the run-off stage. Olin Culberson and Pierce Brooks are the two candidates left in the Railroad Commissioner's race.

Culberson, who has been endorsed by the Hereford Fire Department and by practically every fire department in the state, is expected to carry this county handily.

In the contest for Chief Jus-

tice of the Supreme Court, H. S. Lattimore led James P. Alexander, second man in the race, by nearly 300 votes here.

Whatever the results of the election Saturday, most of the people are going to be relieved that their duty is done for another two years. After August 24, interest will turn to the presidential campaign. Wendell L. Willkie, republican candidate, is exciting more comment here than would ordinarily be expected of a GOP nominee. Quite a few voters in November, especially those of the independent type are expected to exercise that independence and vote "Willkie democratic."
