Teacher-Bus Driver Combination Works Entirely Too Well

Progressive school trustees are going to hire female bus drivers next year--or they might compromise on getting a man teacher. At any rate, with the marriage last week of Miss Juretta Bird, teacher, and Roy Baker, bus driver, the trustees have decided that the teacher-bus driver combination works entirely too well.

For, within the past five years, the three Progressive school teachers have married bus drivers and ended their teaching careers, and school patrons are beginning to have suspicions that the practice is habit forming.

In fact, it seems that the bus driver is getting to be as great a menace to single blessedness in "school marm's" as were the old time cowboys, who considered it an insult to their clan if a teacher failed to marry after one school term.

Knights of Col. Vote to Aid Democracies

The Hereford Council of Knights of Columbus, at their regular meeting on Wednesday, May 7, adopted a resolution endorsing the proposal of the National Committee on Food for Small Democracies and urging an experimental program be tried in Belgium.

"We fully endorse the proposal of the National Committee on Food for Small Democracies and urge that an experiment be tried in Belgium to feed two million children and one million destitute and unemployed adults; the food to be transported, warehoused and distributed through soup kitchens under the complete control of a neutral or American commission."

The resolution was signed by Frank Bezner, Grand Knight, and Sylvester Loerwald, financial secretary of the local council, Knights of Columbus.

Tournament Will Open 1941 Golf Season Sunday

The Hereford Golf Club will open the 1941 golf season with a flag tournament next Sunday afternoon, May 19. Clyde Posey, who is organizing the tournament, explains that the flag tournament as one in which a player turtas in his average score for 18 holes, and this score and his name are placed on a small flag. After the player has hit the last shot of his average score, his flag is placed where his last shot stopped. The golfer going the farthest around the course, wins the tournament.

"Everyone has an equal chance--'dubs or champions,'" says Mr. Posey, and goes on to say that if a "dub's" score were 110 and a champion's 72, and the "dub's" final shot were in the 18th hole and the champion's shot were on the 18th green, the "dub" would win the flag tournament. Marketing Quota Situation Is High In Interest

When the new wheat marketing year begins on July 1, the United States will have the largest carry-over of wheat on record, according to J. A. Pitman, chairman of the Deaf Smith County AAA Committee. This carry-over, he pointed out, when added to the new crop coming up, makes a prospective supply of nearly one and a quarter million bushels for the coming year. This is nearly twice the amount needed to feed America for a year, and makes a marketing quota referendum mandatory. The referendum has been set for May 31.

"Because of the abrupt drop in exports caused by war conditions, only the protection of the wheat program has prevented (Continued on Page 12)

Citizenship Day Celebrated Here

John Willoughby, chairman of the committee for Citizenship Day celebrations in Hereford, this week announced plans for the recognition of all persons, who, because of coming of age or naturalization, have attained the citizenship status this year. Texas Health Dept. Finds Hereford "Best Place In The World To Live" As Far As Teeth Are Concerned

Pointing to Hereford as "the best place in the world to live," as regards formation and care of the teeth, Dr. Ed Taylor, head of the dental division of the Texas Health Department, said on a visit here last Friday that surveys in this area are attracting world-wide interest.

Dr. Taylor reported that results of the survey here have been submitted to the National Association of Dental Research and that leading doctors are astounded at the results shown.

For instance, he pointed out, all of the school age children in this immediate area were included in the check-up and an average of 1.85 cavities per child was found. In contrast with the national average of from 5 to 10 cavities, this startling information has led to interest in this community.

Dexter Schofield, the last volunteer on the waiting list of the Deaf-Smith County Selective Service Board, will leave for Ft. Bliss on May 21; and unless other volunteers come forward, the next call for soldiers will have to be answered by drafted men.

This announcement was made Wednesday by Frank Givan, who pointed out that this county has so far furnished 26 men for the armed services. This figure does not include a number of others who have enlisted at other recruiting centers and whose registration has not gone through the Deaf Smith County board.

This week Mr. Givan listed the following young men, who have volunteered at the local office: Douglas Wilson Beene, No. 362, grandson of Mrs. J. W. H. D. Reed Finds Civil War Newspaper

A keepsake of Civil War days, one that makes the history of the times come alive, is an old newspaper, the Chattanooga Daily Rebel, for the date June 1, 1863, which belongs to H. D. Reed of Hereford.

The paper was given Mr. Reed by his father, who lived in Alabama and Tennessee during the time of the Civil War; and the Reeds had kept the paper for many years together with other old documents, in a trunk which had belonged to Mr. Reed's father. In fact, according to Mrs. Reed, they might have forgotten they had it except for the general upheaval that goes with a moving day.

The paper is a single sheet, five columns wide, printed on both sides in the hand-set type

of the day; and the single sheet size is probably a testimonial, along with other things in the paper, to the effectiveness of the Yankee blockade.

In 1863, according to the Rebel, Vicksburg was "closely besieged" but there was nothing in the news or editorials to indicate that the editor knew that the fall of Vicksburg to the briefly mentioned Yankee general, Grant, would be a blow that would cut the Confederacy in two and start its sure disintegration.

But the Rebel gives an eloquent testimonial to the chaotic conditions then prevailing in Tennessee, part of which was already in Northern hands as evidenced by the printing of the text of the Yankee oath being

administered to the citizens of conquered Memphis.

Also, the editor was getting quite indignant about the recurrent "daring robberies by men apparently soldiers" and was demanding that the military authorities "ferret out the guilty men and punish them properly."

The paper reported the hanging of two confederate officers as spies by the Yankee troops at Franklin; and, in another column, reported southern seizure of northern spies.

Rewards were being offered in the first page advertisements for the capture and return of various negro "boys"--ages varying from 15 to 50; and an ironic note was struck in the advertisement of \$1000 reward for the

capture of two escaped counterfeaters of the Confederate "shin plasters," which were already depreciating in value and soon to be as worthless as the name implies.

Provisions were still to be had, with the seller's notice that "they were imported by steamer, via Nassau"--probably by some Rhett Butler of the Confederate blockade running fleet.

The old paper is yellowed and torn at the folds--in fact, it has to be handled rather like some elderly and very fragile China doll. And that is exactly the kind of care it is going to get, says Mr. Reed, who hopes to be able to hand the family heirloom down to his own grandchildren.

What's In A Name?

People have to be called by their right names and so do flowers; and a cake is always a cake, no matter if it is called pie in some sections. However it doesn't take long to learn that a bird is not a bird when it is a veal bird and that it isn't at all necessary to buy a turtle in order to have mock turtle soup. Veal birds cannot fly but they make the best possible meat course for hungry folks. Mrs. W. M. Cogdell knows just how to prepare them for requested re-appearances. Here's her recipe.

VEAL BIRDS

Select lean veal or round steak and cut in uniform slices, trim and pound lightly until flat. Chop the trimmings of the meat fine and add 1 cup biscuit or toasted bread crumbs, 1 cup cornbread crumbs, a few slices of onion chopped fine and browned in a little butter, salt and pepper and a few sprinkles of sage. Moisten with 1 well-beaten egg and a little cold water. (The dressing should be stiff for best results.) Sprinkle the veal slices with salt and pepper and spread with dressing, roll up and fasten securely with tooth-picks. Roll in flour and brown in hot fat. Place the birds in a dutch oven or heavy iron skillet and pour 2 cups of hot water over them. Cover tightly and allow to cook slowly in moderate oven 2 to 3 hours. Thicken the gravy with browned flour, adding enough milk for proper consistency.

Introduce these "birds" on a hot platter with some sort of tomato sauce nearby, to your family some day.

County Federation Luncheon Closes Activities For 1940-41 Club Year

A fine arts program entertained members of Deaf Smith County Federation of Women's Clubs when they assembled last Friday for the fourth and last luncheon of the season at the Methodist Church. Mrs. W. E. Dameron was in charge of the program.

Hostess clubs for the luncheon included the Bay View Club, Garden Club, Ford Study Club and the Summerfield Study Club.

Luncheon tables, which formed a large square, were decorated with bridal wreath, yellow tulips and yellow candles. In charge of decorations and arrangements were Mesdames Knox Kinard, C. F. Moore, Bob Wilson, John McLean, Art Manjeot, Homer Brumley, Jim Lipscomb and John Olson.

Mrs. Urlin Streu, president, presided at the luncheon and introduced Mrs. Dameron who announced the two numbers on the luncheon program. They were a talk by Miss June Dameron, state president of Future Homemakers of America, and a reading by Miss Katherine Kirby.

The program for the afternoon was opened with reports from the Seventh District Convention held recently in Amarillo, with Mrs. Wirt Phillips directing. Mrs. Elmer Patterson gave a board member's report. Mrs. Knox Kinard, a judging-division chairman's report. Mrs. Bob Wilson, senior club report, and Mrs. Phillips concluded with the county federation delegate's report.

Mrs. H. L. Broadwell, president of the Music Study Club, gave a brief introduction to the musical part of the program, and introduced Mrs. Ellis Coombes who reported on the High School Glee Club trip to Waco last week.

Explaining the meaning of "Fine Arts" and paying tribute to the club women of Hereford, Mrs. W. E. Dameron directed the following musical features:

"Joshua" negro spiritual, sung by the Music Study Club chorus with Mrs. Coombes at the piano and Mrs. J. C. McCracken directing; two vocal numbers sung by Miss Mattie Mae Swisher, accompanied by Mrs. Ellis Coombes; an original piano-ologue presented by Mrs. Harry Seed; a vocal solo presented by Mrs. George Wilson, with Mrs. Dyer accompanying; a piano selection by Mrs. J. C. McCracken; a voice number, given by Mrs. H. K. Fox with accompaniment by Mrs. McCracken, and the concluding numbers, which accented a Pan-American theme

as the club chorus sang a Mexican folk song, followed by "God, Bless America", in which the audience participated.

Garden Club Program Is Of Timely Interest

Mrs. C. C. Cox was leader of the program for the Garden Club meeting held at the home of Mrs. Art Manjeot, Friday afternoon.

Three topics of interest were discussed. "Filling Gaps in the Flower Border and Beds," was Mrs. Ralph McCullough's subject and the leader listed varieties of flowers suitable for the late gardener who is in a hurry for flowers. Mrs. Liston Wilson read a paper on "Planning for the Fall Garden," beginning her talk by saying, "If you expect to have a variety of flowers for the fall months, work must be started now." Mrs. D. H. Alexander gave an instructive talk on "How to Use, When to Use and How to Protect the American Flag."

The remainder of the month was "Watch for Slugs and Night Chewing Insects."

An added feature of interest was a talk on "Cancer Control" given by Mrs. J. E. Springer.

Attending the meeting were Mesdames Dennis Barnard, D. H. Alexander, Homer Brumley, C. C. Cox, W. A. Dobbins, C. H. Dyer, C. C. Ferguson, N. E. Gass, Jim Lipscomb, F. M. Kester, Ralph McCullough, E. 29 MILLION!

A record never before approached!

★When the 29,000,000th Ford rolled recently from the assembly line, an all-time record for the industry was set. 29,000,000 units built by the same management and all bearing one name—a name that has become one of the best-known trade-marks in the world!

It is significant that this achievement comes at a time when our country is making a mighty effort to re-arm swiftly. For to further that effort, to help speed it along in any possible way, we have offered the vast facilities of the Rouge Plant and every ounce of our experience.

As you read this, a new \$21,000,000 Ford airplane engine plant, started only last fall, is nearly completed. A new magnesium alloy plant, one of the few in the

country, is already in production on lightweight airplane engine castings. Work is right now under way on a new \$18,000,000 plant for mass production of big bomber assemblies. Orders have been filled for military vehicles of several types, including army reconnaissance cars, staff cars and bomb service trucks.

In the midst of this activity for National Defense, building the 29 millionth Ford car is simply one part of the day's work.

The public has acclaimed the 1941 Ford car as the finest in Ford history. Ford Dealers are enjoying their greatest sales and expecting their best year since 1937.

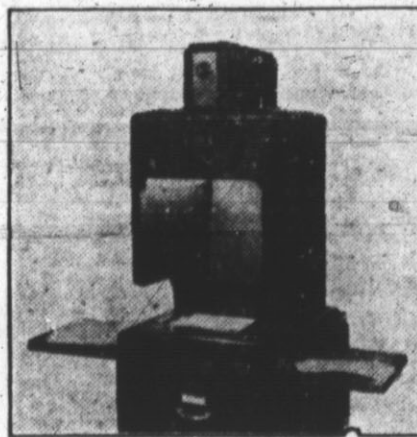

It is good to be producing the things America needs, and to be setting records on the way!

HEREFORD

BULL

By Jimmie Gillentine

You often hear hard-luck stories, but Rev. Jas. Alken tells a story with a happy ending.

Recently Jim had some church business in White Deer and on the trip between there and Panhandle, his car stopped. Investigation showed that the little glass cap which feeds into the carburetor had dropped completely out of the line and been lost. In despair he started to thumb a ride into town. The first car whizzed by, but the next one slowed down and stopped. The driver proved to be none other than Tom Ivy. Tom said he would be glad to give Jim a lift and happened to ask what the trouble might be. Jim told him, and Tom nonchalantly reached into his glove compartment, took out a sack and handed over two of the glass filters. Jim attached the filter in place and went calmly on his way.

Jim contends that could have stopped a million automobiles and not found one with the required filter. He also points out that Tom had two filters instead of one--and he says he thinks he was plenty lucky. Which no doubt, he was.

She's Peeved

Mr. Gillentine:
I vouch for every word Homer Fox said about that freeze May

6th, 1917. I lost a great variety of potted plants I had nursed carefully all winter by planting them outside in the yard to be the Early Bird that got the worm in the flower-line. Well, Dame Nature killed my vanity with her pranks. Ice, snow and sleet covered all things, including pot plants. I made up my mind I did not care what bird got the worm from that day on. Homer Fox is reliable on any topic, so why should a "snipe" like you dispute his word?

Mrs. E. J. Williams.

I'm not agreeing with Mrs. Williams entirely, but I don't want to get into an argument with anyone, especially with a woman. If she don't want any worms, it's OK with me. However, why did she call me a "snipe"? Isn't that one of the birds that gets the worms? Maybe she meant the kind you hunt for with a big sack. Even Homer Fox can have some worms for all I care.

Dropped out Tuesday afternoon to look over the 90 head of yearlings which O. E. Sherman is feeding out on his place just north of town. The cattle are beginning to get in real good shape and they will really be fat around the middle of June. One of them is so gentle that he expects you to scratch him every time you pass. Louis says he will lower his head and butt you a sharp lick if you forget. They are petting the calves so much that it is going to break their hearts when they see them. Anyway, they look mighty good. Prospects for a tremendous crop of cherries and peaches are also in the offing at the Sherman place. If it doesn't hail, they will have enough cherries to start a canning factory.

Jack France has gone into the bird business in a big way. He has hatched out a flock of "chukker" quail and quite a bunch of other game

POTATO GROWING

POTATO GROWING IRRIGATION

By Joe Ballinger
Growing potatoes under irrigation is about the same process all over the United States—that is, the sub or corrugation system of irrigation.

In the San Luis Valley of Colorado, where the sub soil is sand and gravel, ditches are occasionally dug through the field and filled with water. This water runs out through the sub soil and up through the top soil. However, this practice can only be carried out in a country having a coarse sub soil.

Corrugation System
Corrugation irrigating is the only system that can be carried out here in the Texas Panhandle. The corrugation system is also employed in Idaho and California. There should be sufficient moisture in the soil before planting the potato crop, and irrigation will seldom be necessary if proper precautions are taken before planting. There are occasional cases, despite all recommendations and precautions, where growers are confronted with the problem of whether to irrigate or not. Seed will sprout in dry soil, but roots will not develop without moisture, and plants will not emerge from the ground. Therefore, despite some warnings to the contrary, the growers should not hesitate to irrigate.

Moisture to Seed Piece.
The furrows should be a little deeper than the seed is planted,

and extreme care must be taken to confine the streams of water to these furrows. The moisture should go only to the seed piece, leaving the soil on top of the seed dry as possible, and alternate rows should be used if the soil "subs" fast. One-half the volume of the soil is taken up by the soil particles themselves. The remainder is taken up by air space and moisture, whose proportions vary to some extent with the soil type. Sandy and sandy loam soils hold less moisture than clay loams and clay such as we have here in the Panhandle. The potato gets its moisture from the three feet of top soil so it is useless to irrigate deeper. The absorption of water by the soil depends upon a number of factors. Less water is absorbed by a soil on a steep slope than by soil on level ground. Water should not be run over 150 yards. Of course, the greater the slope, the longer the rows, but they should never be over 300 yards.

Over-irrigating.
Deep furrows prevent puddling of soil around the tubers. Water should enter below the seed piece to prevent puddling the soil around the tubers. Water should never be deeper than three inches in the furrows, and one inch is better if it can be possibly held there. At whichever height the water is held, the land will bake and become cloddy at harvest time.

Over-irrigating is too common a practice with many potato

growers in the Panhandle. Air in the soil is necessary for maximum yields, and when too much air is replaced by water, yields are reduced. Too much water also injures the quality of the potato as is caused the lentils to enlarge and make what is commonly known as "water blisters."

Irrigation should cease in time for the tubers to mature before digging. If the soil is very wet, the skin of the tubers remain thin and tender and is damaged. Also, too much soil sticks to the tuber when they are dug. An excess of water in a corrugation or furrow would cause the water to come too high on the bed.

Irrigation is 3-4 of the battle in potato growing in the Panhandle, the trouble here being usually that the growers have a tendency to over-irrigate. The potato beds should never be wet clear across the top. There should always be a few inches of dry streaks along the vines. When the water is changed there should be a deep enough waste ditch at the end of the rows to carry the water away so that it will not back up and flood the beds. This water can be taken to another field and used.

Sub-ditch Used
For watering potatoes, there should be a small ditch commonly known as a sub-ditch running along the end of the rows and main ditch. This ditch should be dammed off every eight or ten rows and cut out from the main ditch every eight or ten rows. If the ditches are loose, pipes or latches nailed into a small box about two feet long and put through the bank of the sub-ditch, will save labor. And through the main ditch, large boards nailed together will save time and labor.

Potatoes should never want for water. They should be watered when needed any time after they are in the ground till time for harvest. After the vine is up about 12 inches high, they should be irrigated every four or five days, depending, of course, on the atmosphere.

GADGET GUESSES WEATHER

If an ultra-modern device, now in use by the United States weather bureau, comes up to expectations, the word, "probably" in weather forecasts, will be almost extinct and weather conditions for a week-ahead will be forecast with accuracy. The new gadget is called "radio-sonde." It was developed by the bureau of standards, weighs two pounds and is attached to a balloon from five to six feet in diameter. The device can reach an elevation of 70,000 feet. In the air, the machine transmits radio signals picked up at

weather bureau stations on the ground and from these signals,

men who listen, can tell by their sound and frequency just what the air pressure, temperature and humidity is at the altitude from which the automatic de-

vice is broadcasting.

About 50 percent of all United States farm people live in 13 Southern States, but they receive only 30 percent of the national farm income.

If Two Jaws Get Too Friendly It Means More Mumps For Mr. Hudson

You know it must be fun to have the mumps. At least, Mr. G. M. Hudson, principal, thinks so. This reporter called Mrs. Hudson and asked her to ask Mr. Hudson how he liked the mumps. He replied, "It's a good excuse to get out of all your work and get your breakfast in bed, but there is just one disadvantage to them and that is they push too hard against the pillow."

When Mrs. Hudson was asked what kind of a patient he was, she replied, "He is a very good patient even if he doesn't like to stay in bed."

You know to have breakfast in bed and get out of work is just fine, but I wonder what Mr. Hudson thinks about losing five pounds? This is what has happened to poor Mr. Hudson.

If he is a nice little boy and stays in bed as Mom says, he can come back to school next Monday, provided one jaw doesn't get too friendly with the other and he has the mumps on both sides.

Sophomore Mothers Hats Off To You!

What other class in school in their Sophomore year had almost enough money to finance their Junior-Senior Banquet? And at the same time could afford to have several superb parties. What other class in school could put on a program and had so much help from their mothers that their total expenses ran only slightly over a dollar. Why, none, of course, but the class of 1940 and 1941.

We Sophomores are mighty proud of our mothers organization. Mrs. Hall Beavers is our capable president; Mrs. Doyle Rose is our vice-president; Mrs. John Olson is our secretary-treasurer. Sophomore mothers, hats off to you!

Confidentially Yours

Dear Folks,
The high school students seem to have done a lot the past week.

Have you noticed several girls are receiving letters from the Marines? For instance Nona Dean Rose has been receiving quite interesting letters from Carl Mayer.

Do you collect anything? Marie Moreman has a nice collection of paper napkins.

How would Raylan Evans look dressed as a girl? You should have been at the Junior-Senior party to find out.

My! How Marjorie Morrison brags about Richard Petersen. Some sophomore girls get along with sophomore boys and visa versa. Texie Ruth Reynolds and Donald Roberson are an example.

I hear it makes Charlie Hill very angry when he gets his name in the paper. Oh Yeh! Billie Louise Crawford has

Youth Council Is Organized; Dameron Elected President

The Youth Council is one of the newest organizations in high school. It was organized two weeks ago and took as its aim, to back or promote recreational facilities. The most recent meeting was held in Mrs. Bradley's office in the courthouse. In this meeting, activities that could be carried on at present and also activities for the future were discussed by officers and adult advisory committee.

People who are interested in having a certain kind of recreation should tell a Youth Council member. The Youth Council officers are, president, Bill Dameron; vice-president, Richard Petersen; secretary, Mary Ellen Henslee; reporter, Robina Culppepper.

Tri-Hi-Y Entertains Friona Guests

The Tri-Hi-Y entertained the Tri-Hi-Y girls from Friona Thursday, May 8, on the high school lawn. A sack lunch was served to all the girls. After eating and singing songs the girls went into the high school to discuss problems with Dr. Paul Popenoe. The girls had planned this discussion for some time and were ready with many questions.

National Defense Discussed At Hi-Y

The program consisted of three talks given on national defense. The talks were given by Jack Allmon, Raylan Evans, and F. L. Lucas. Roger Hartman led the round table discussion questions on national defense.

The mother and son banquet will be held May 15. The meal will be prepared by the F. H. T. girls. Mr. Nickols will be the guest speaker at the banquet. The absent members were Richard Ireland, John Estes, Donald Henslee, Larry Trimble, Glenn Smith, Wayne Phillips, and Billy Davis. There being no business the club adjourned with the Tri-Hi-Y benediction.

been pretty busy lately with letters from San Antonio, visits from Plainview, dates from Hereford (Poster Hill.)

Just ask Elvin Wilson or Alvin Ward what time they got in Saturday night (Sunday morning).

I hear Hicks Roberson looked very attractive in his new formal dress.

Betty Dunlap seems to like the red heads. (I'm warning all boys with red hair to watch your step).

Billie Sexton is very graceful trying to catch grasshoppers.

Norma Harman and Juanita Wiseman were almost left in Hillsboro. I guess it will teach them not to oversleep next time the Glee Club goes on a trip.

Confidentially yours,
SNOOPER.

Higgins, Dameron Chosen Senior Honor Students

The Senior honor pupils of Hereford High School were announced this week. The valedictorian is Wilma Higgins, daughter of Mr. and Mrs. A. S. Higgins of the Progressive Community. Salutatorian is June Dameron, daughter of Mr. and Mrs. W. E. Dameron of Hereford.

Junior Red Cross Is Organized In H. H. S.

This week the Home Ec II Girls of Hereford High School have taken the first important step in forming a Junior Red Cross chapter in Hereford. The enrollment fee has been sent in and soon the organization will be recognized in Hereford. Miss Rhita Jean Sullivan is the leader of this group. The Home Ec II Class will be the charter members of the organization. There will be an office centrally located in town.

As soon as the enrollment card is returned the girls are going to start a drive for members. The work is strictly voluntary, and this year only the high school age young people are eligible for membership. At the beginning of the next school term the Central School pupils will be admitted into the Junior Red Cross.

The work will consist primarily of the making of garments. Knitting will also be a part of the garment making.

The Junior Red Cross work may be counted as a part of a summer project for the girls if it is desired. The club asks that the men and women of Hereford aid the young citizens of the town in doing their part for the needy world.

Meth. Church Has High Record At Dist. Conference

Rev. M. B. Norwood of Hereford attended the Amarillo District Conference of the Methodist Church at Canadian last Thursday and returned with a hopeful report of the church activities in the district as a whole and with especially good reports of the rating of the Hereford church.

Reports from the Amarillo district as a whole were 35 percent above last year's record, both as to additions and church finances. The local Methodist church was the only one in the district to send in a 100 percent rating on benevolence apportionment, and was one of five to have 100 percent quarterly conference record. Also the Hereford church listed the largest number of subscriptions to church publications.

Rev. Uel D. Crosby of Canadian was host to the conference, and District Supt. Will C. House presided at the meetings.

Mr. Norwood was elected secretary of the conference, and chairman on the committee for Christian literature. The next district conference will be held in Hereford at about this time next year.

CHDA NOTES

By Sadie Lee Oliver

Last year, Mrs. C. Aubrey Wimberley bought a package of Honey June Corn and planted it for roasting ears. This year, through the office of the CHDA, she has given 16 packages of seed to be planted in this area.

Honey June Corn was bred at the Texas Agricultural Experiment Station in response to the demand for a sweet corn having a shuck long and tough enough to keep out ear worms.

Mrs. Wimberley reports no insect damage in 1940, probably because of the fact that potatoes were sprayed on three sides of the garden.

Early double-flowering cosmos, annual larkspur and four o'clock plants can be secured from Mrs. Homer Brumley.

To every 71 of the earth's inhabitants there is a motor car.

Adrian News

By MRS. GEORGE A. SYMS

Rev. D. W. Binkley, the Methodist pastor, filled his regular appointment at the morning service on Sunday, with good attendance.

The Adrian territory still continues to receive rain, several showers falling within the past week, and helping the bountiful crop of "lamb's quarter" that everyone seems to be enjoying at present. Many of the housewives are canning it for future use.

The Adrian Wheat Growers, Inc., entertained the stockholders and guests, following their meeting Monday night, with a social hour. Refreshments of ice cream, cake and coffee were served to the group, including several guests from Amarillo. Among whom were N. P. Nelson, Frank Triplett and G. A. Sahl. It has become an annual custom of this Adrian organization to entertain their stockholders and guests each spring. Previous years' entertainments have included banquets and barbecues. At the business meeting J. E. Speed was retained as a director.

The marriage of Robert E. Caldwell and Miss Eula Watson, two of this community's popular young persons, took place at Groom, Thursday night at the Baptist parsonage, the ceremony being performed by Rev. L. E. Godwin, former pastor of the Adrian and Vega churches. The couple was attended by Mr. and Mrs. Frank Watson, brother and sister-in-law of the bride. The bride is the daughter of Mrs. William Watson of Hodgen, Oklahoma, and is a graduate of the Keota, Okla. High School.

The bridegroom is the son of Mr. and Mrs. J. R. Caldwell of near Bovina, and is a graduate of the Farwell High School and Amarillo Business College.

Mr. Caldwell is manager of the Adrian Wheat Growers, Inc., a position that he has held for several years.

After a brief visit with relatives at Depew, Wagoner, Hodgen and Oklahoma City, the couple will be at home in Adrian to their many friends.

Rex Creitz, a student at Texas Tech, at Lubbock, spent the week-end with his parents, Mr. and Mrs. Henry Creitz and his brother, Lorin Creitz and wife, Ben Hollandsworth who was

formerly stationed in Hawaii, with the U. S. Navy, spent last week visiting relatives.

Mr. and Mrs. Hurley Maynard and family spent Mother's Day with Mrs. Maynard's parents, Mr. and Mrs. Moreland McManigal, Sr., at Happy.

Grady Skaggs visited Robert Jacobson on Sunday.

Mr. and Mrs. J. C. Baker, Jr., spent Mother's Day with Mrs. Baker's parents, Mr. and Mrs. N. M. Lindsey at Memphis.

Mr. and Mrs. G. A. Syms and family attended the Philharmonic concert in Amarillo, last Tuesday night.

Mrs. L. A. Worsham underwent a tonsillectomy in Amarillo, last week.

Mr. and Mrs. G. A. Syms and family spent Sunday with Mrs. Zettie Syms in Amarillo.

Lowen Edward Reynolds has been named to fill the fourthteenth selective service draft quota for Oldham County, making the ninth man to go from this county. Last Sunday night Truman Fincher left for El Paso. Mr. Reynolds, brother of Jack Reynolds, now located at Fort Warren, Cheyenne, Wyo., will leave for Fort Bliss, May 20.

Mrs. J. R. Caldwell and son Tom, of Bovina, visited with Mr. and Mrs. John Skaggs on Monday, taking Mrs. Charles Caldwell and baby of Oklahoma City, home with them. Mrs. Charles Caldwell and baby had accompanied Mr. and Mrs. R. E. Caldwell to Adrian from her home.

M. H. Zaring, Sr., has returned from several months' visit with his mother in California.

The Adrian faculty was re-elected at the meeting of the trustees last week. J. B. Monahan was elected president of the board and O. G. Calhoun was re-elected secretary.

The attendance on Thursday and Saturday skat nights was a little below normal because of rainy weather, and muddy roads.

The Adrian girls 4-H Club held their second meeting on Tuesday. The attendance was good, and Miss Sadie Lee Oliver met with the girls, instructing them further in the purposes of club work.

Lower Entrance Requirements Army Air Corps

The War Department has lowered the requirements for enlistment in the Regular Army Air Corp from High School graduation to an 8th grade education, providing applicants for this branch can pass the War Department Classification Test.

This new Regulation opens to intelligent young men without a High School education, an excellent future and a wonderful opportunity to learn Aviation trade, through the Air Corps Technical Schools which are open to any enlisted man of the Air Corps.

The following courses are just a few of the many taught at the Air Corps Technical Schools. Aircraft Mechanic, Airplane Mechanic, Welders, Electricians, Instrument Specialists, Aircraft Sheet Metal Workers, Aircraft Riggers, Radio Repair and Operators, and many others too numerous to mention, for the Air Corps Soldier must be a specialist in some department.

Applications are being accepted now at this office or the nearest Recruiting Station, of young men with at least an 8th Grade education who can pass the test. Young men applying

now have three choices of assignment: March Field, California, Air Base, Fort Sill, Oklahoma and Lowry Field, Colorado.

Recruiting Stations are located at the Post Office Building, Amarillo; Post Office Building, Plainview; Court House, Childress and the Post Office Building, Pampa, with the Main Office in the Post Office Building, Lubbock.

"Now, with the nation's 'ever-normal granary' filled with wheat, farmers have to protect the value of our reserves and also to protect their wheat income, and the marketing quotas offer them a chance to divide the limited market among themselves on a co-operative basis." Deaf Smith County wheat farmers will join with wheat grow-
