Sights and Faces Seen

A new invention (Patent not applied for) has been made by Jack Wright. The invention embodies a wagon tongue, attached to which is two sharp discs; above the discs is constructed a wooden platform about the size of a chair bottom. The idea is that when someone sits on the platform and some other person pulls the machine, your lawn is cut in strips to take up moisture. It's a nice invention—but it won't work. Jack says he can't get the Mrs. to pull the infernal thing while he sits.

Cattle Dipping Demonstration To Be Tomorrow

Stockmen of this territory are invited to attend a free cattle dipping demonstration at Chas. Williams' East Camp, known as the Barber place, in the west end of the county to be held all day tomorrow, an announcement from County Agent, A. R. Bateman, states.

The demonstration will show use of Wettable Sulphur and Cube on the bull-nosed ox-louse, a gray louse which is very difficult to kill.

The demonstration will be supervised by O. G. Babcock, Sonora Experiment Sta., S. W. Clark, Texas Gulf Sulphur Co., Parker D. Hanna, district agent, and George Barnes, beef cattle specialist from the Extension Service. Mr. Babcock has been doing some research work on a formula that will kill or destroy this louse. Wettable Sulphur will do the job, Mr. Bateman said. Persons not knowing how to reach the place may call the County Agent's office and receive instructions.

Coffee and sandwiches will be served.

Hereford Students Won Many Honors At State Band Contest

Hereford high school band placed in Division Two and Hereford high school orchestra in Division Three at the State Band Festival held in Amarillo last week end, and the Girl's Sextette placed in Division One, the highest, as did the high school chorus.

The marching contest was not held due to the large number of schools involved.

Individual winners were:
Vocal, Second Division: Helen Oglesby, soprano; June Dameron, alto. Third Division: Troyce Stambaugh, soprano; Bernadine Phillips, alto; Nadyne Newell, soprano. Fourth Division: Mildred Bowsher, alto; Jean Lavanda Reed, alto; Helen Francis Streu, alto; Dorothy Nells

New Judge

Representative Marvin Jones has been appointed judge of the U. S. Court of Claims and expects to take over his new duties at the end of this session of Congress.

Jones Named To Court Of Claims Bench

Twenty-four years as Representative to Congress from this district came to a close Tuesday when Marvin Jones of Amarillo was appointed to the U. S. Court of Claims by President Franklin D. Roosevelt.

Announcement of the appointment will serve as a go signal to many potential candidates who have been waiting the past two years for the place now open. Included among candidates who are almost sure to run are Deskins Wells, publisher of the Wellington Leader, James O. Cade, Amarillo attorney, and Louis Goodrich, former district attorney at Shamrock. Mayor Ross Rogers and E. T. (Dusty) Miller, Amarillo, are also rumored as possible candidates, as is State Senator, Cliff Small.

Congressman Jones is 54 years old. He was born in Cooke county, the son of a farmer, Joe Bailey's oratory, which he heard as a lad, fired in him the ambition to go to Congress. Before getting his degree from Southwestern University he was a school teacher, and a tenant (Continued on Page 10)

Plains Insurance Agency Now Moved Into New Location

The Plains Insurance Agency Monday of this week moved into its new location across the street in the remodeled Western National Bank building, purchased recently by John H. Patton.

Remodeling of the building included rebuilding the front with a thoroughly modern appearance, putting in a new concrete floor, refinishing and repainting the walls and ceiling in white, and other repairs and modernizations.

The built-in bank vault was left in the building and will be used by the agency for storage of valuable papers.

PROSPECTS BRIGHTENED AS MOISTURE FALLS

Rain, snow and sleet brought Hereford and this territory moisture amounting to 1.01 inches last Friday and Saturday and boosted prospects for a normal wheat harvest that much nearer reality.

The moisture was general and practically all of it soaked into the ground, there being little or no run-off.

In the irrigation area wheat is now reported in exceptionally good shape. Coming of the moisture stopped irrigation on many farms where farmers were watering at full blast.

To wheat in the dry farming part of this county the moisture came in the form of a life saver from wind and dust which had been causing serious damage. Condition of wheat in this area is spotty due to dry weather last fall when wheat was drilled. Much wheat was dusted in and moisture came too late in December and January to germinate the grain.

The moisture last week brings to 1.92 inches the amount received since January 1.

Condition of Dear Smith county wheat is much above the average for the Wheat Belt in general.

The reports which follow are from a bulletin of the Santa Fe Railway and covers territories served by the company's lines. The reports cover conditions up to March 27.

NORTH, NORTHWEST TEXAS AND THE PANHANDLE

Wheat in what is known as north and northwest Texas, including the Panhandle, is in fairly good condition. It has shown some improvement during the last two weeks, and with favorable weather from now on, has a chance of producing a normal crop.

Fields planted early have good top growth, splendid root development, and abandonment may not exceed 10 to 15 per cent. Conditions are spotty, however, and in areas where the wheat was planted in dry soil making germination difficult, abandonment will be higher.

While some wind damage has occurred and more may be expected unless stopped by rain, since the soil is in a loose condition, many farmers are using control methods effectively, a lesson learned from recent drought years.

Probably 10 per cent of the abandoned wheat land is being sowed to barley; a small part to oats. An increase in the acreage to be planted to grain sorghums and other feed crops is expected. Cotton land has been gone over once and is in good condition.

COLORADO

As most of Colorado's winter wheat crop was seeded late, largely in dry soil, germination has been slow and unless there is an improvement soon, it is

expected that from 40 to 50 per cent of the acreage will be abandoned. Wheat in the irrigated sections is in good condition.

This situation will contribute heavily to an increase of 40 per cent in the acreage of spring wheat. As compared with last year, increases are also indicated in the acreages to be planted to oats, barley, grain sorghums, dry beans, potatoes and tame hay. Corn is the only crop that will show a loss.

Spring wheat, barley and oats are being planted in the Arkansas Valley where the soil is in excellent condition.

NEW MEXICO

Wheat in eastern New Mexico has made some improvement during the past two or three weeks, but with the ground in a fluffy condition, rain is needed to aid further development and also to prevent soil blowing.

With land well prepared, indications are that farmers will plant slightly larger acreages of spring wheat, tame hay, grain sorghums and beans this year, with some decrease in corn, as compared with 1938. Little change is indicated in oats and barley.

KANSAS

While it will take a few weeks of growing weather to reveal the exact picture, Kansas wheat has failed to improve as much as was expected following receipt of heavy snow which broke the drought in mid-winter, and prospects (Continued on Page 10)

Dallas Business Tour Will Bring Famous Radio Stars Here for Good Will Program

Minister

Above is Bro. A. L. Harbin of Mangum, Okla., who will deliver a series of addresses at the Church of Christ, April 16-26.

Plans for the reception of the 39th annual Dallas Business Tour, which will bring 75 Dallas business executives to Hereford, April 24, were completed today at a conference between E. B. Posey, secretary of Hereford Chamber of Commerce and Bob Bourdene, manager of the Dallas Manufacturers and Wholesalers Association.

Included in the entertainers will be the Early Bird Orchestra, heard every morning over WFAA with Eddie Dunn and Wilbur Ard, the Cass County Kids, Peg Moreland, Plainsman Quartet, and Matty Bell, nationally known coach of Southern Methodist University.

"The Dallas Business Tour asks nothing of this city except that the people of Hereford come out to meet us and be our guests at the entertainment which we will provide," Mr. Bourdene said.

In the conference between Mr. Posey and Mr. Bourdene, it was decided that the Dallas business men would detract from their "presidential special" at Hereford at 1:05 p. m. Led by their (Continued on Page 10)

Evangelist A. L. Harbin of Mangum, Okla., will deliver a series of gospel sermons at the Church of Christ in Hereford beginning Tuesday evening, April 16 and extending through the following week to Friday night the 26th of April.

This series of gospel discourses was somewhat unexpectedly arranged for by a group from the Hereford Congregation that visited the Church of Christ in Shamrock, Sunday, where Mr. Harbin is conducting a gospel meeting. The mission of the local group was to confer with him relative to local work, but upon learning his services were (Continued on Page 6)

After August 1, Mr. Burk plans to move to Amarillo to take charge of Amarillo Furniture Co., which has been run by his father for several years.

Mr. Burk stated yesterday that he did not desire to move any of his present stock to Amarillo, but instead was offering it at reduced prices to show his appreciation of the patronage Hereford had extended him.

Idaho Growers Continue Moving To Hereford

About a dozen growers from Idaho are already in this section and as many more are expected soon. Most of the men are locating farms and making other arrangements almost as soon as they get here.

Among arrivals are C. M. Carpenter of Twin Falls; and Wendell, Idaho; Fred Severance of Wendall, and Frank Brinkman of Idaho Falls. W. J. Thiel and three brothers of Shoshone, Idaho, were due to have arrived last night with full equipment. Harold Whittle of Idaho Falls, arrived this week and went on to Hale Center for a few days to visit relatives he had not seen in 20 years.

Several others are in this neighborhood, but names were not available this morning.

Large Crowd Attracted To Rosson-Hays

A crowd which is expected to number over 400 persons by this afternoon began gathering this morning at Rosson-Hays Implement Co., to enjoy movies this morning and a free lunch at 1 o'clock this afternoon. Demonstrations of new Farmall tractors and McCormick-Deering implements took place this afternoon.

Bold Bandit Holds Up Tom Sanders At Medkief Station And Gets Away

A bold bandit early yesterday morning held up Tom Sanders at the Medkief Service Station at 1:50 o'clock and escaped with \$28.17 in cash and 12 gallons of unpaid-for gasoline, which had just been put in his car.

The thief waited inside the station while his car was being filled and the oil checked. When Tom entered the bandit asked how much it was. Sanders replied, "\$2.95," and reached for the keys to the cash register. The bandit then pulled a gun and ordered him to "open that thing." After rifling the register of \$28.17, the robber took Sander's billfold containing \$2, his driver's license and social security number.

Immediately after the thief drove off in the direction of Summerfield, Tom ran into Ike's Cafe where Amos O'Rear, night-

watchman, was and told him the story. O'Rear took up the pursuit but lost the fleeing bandit when he left the highway and turned south at Black.

The car driven by the robber was a 1940 Oldsmobile coupe and had been stolen that same night in Clovis, N. M. It bore New Mexico license plates.

Texas Near Top In Finn Relief Contributions

Hereford contributed liberally to cause of the Finnish government in its 105 day stand against the invader of Russians. A total of \$237 was turned in to the Brand which in turn mailed the money to headquarters. In addition \$10 was sent to the Red Cross for use in Finland.

Dallas, Texas, contributed \$33,302.87 to Finnish relief aside from corporation contributions made direct to Herbert Hoover's committee by the home offices of many concerns having branches in this state. These figures were released by Capt. J. F. Lucey, Texas Director for the Finnish Relief Fund, this week from his office in Dallas. At the same time Capt. Lucey said the state headquarters and the state organization are being discontinued.

The Texas director was profuse in his compliments of the subscription campaign conducted by Texas newspapers. "If we had not had the marvelous co-operation of Texas newspapers," (Continued on Page 10)

Work Begins On New Grain Elevators

New elevator construction calculated to more than double the present storage capacity of Pitman Grain Co. was begun this week just south of the present elevators. Construction is in charge of A. F. Roberts Construction Co., of Sabetha, Kan., the same company which last year built new concrete elevators for Pitman Grain.

The new elevators will include six tank units and six interstices. At present the company has four tank units and three interstices. Present storage capacity is 235,000 bushels. The new tanks and interstices will hold 260,000 bushels, making total storage capacity of the combined units only 5,000 short of half a million bushels.

Construction is expected to be completed in 60 days, although 75 days has been allowed. The new elevators are expected to be ready by harvest time.

Nominating Committee Named By Lions Club

A nominating committee composed of Harold Close, Ralph Smith and John Patton was named at the Lions Club luncheon yesterday. Officers of the organization will be elected May 1.

Wolf Patrol of Troop One, Boy Scouts, gave two skits at the luncheon. Boys appearing were David Beavers, Donald Conklin, Jimmy Jones, and Gene Hall.

Ad Requests Return Of Song Books

Dispairing of other means, the Baptist Church is trying a new way to get song books returned to the church this week.

"Wanted: Baptist Song Books returned," is a classified ad appearing in this issue.

Members naturally like to take the books home with them to sing and practice the hymns. Being also human, they forget to bring them back.

No doubt other churches will watch with interest the success of the above ad.

Revival Starts Sunday At First Baptist Church

Led by Evangelist J. H. Haldeman of Ida, La., and Singer Frank Charton of Ft. Worth, the First Baptist Church Youth Revival opens Sunday morning to continue eight days.

"In this revival we are expecting the young people to take over greater responsibilities than heretofore," Rev. W. E. Barnes, pastor, stated yesterday. "Both Reverend Haldeman and Mr. Charton are young men and thus have an insight into the problems, both spiritual and moral, which young people face today."

Reverend Haldeman began preaching at the age of 16. He is now 24 and pastor of his own church. Mr. Charton has been well recommended as a gospel singer.

Both men will arrive in Hereford Saturday and will be ready to start Sunday morning. Services during the eight-day period will be held twice daily at 10 o'clock mornings and at 8 o'clock evenings.

Short prayer services will precede the evangelistic services.

Cooking School To Be Held Here Monday-Tuesday

A two-day cooking school directed by Miss Anna Bell Hickman, home economist for Texas-New Mexico Utilities Co., will be conducted in the company offices here, Alton Miller, local manager, announced today. An invitation is extended to all ladies of the community to attend the school, which will be free of admission charges. The school will be held at 2:30 o'clock Monday and Tuesday afternoon, April 15-16.

Miss Hickman will also stress freezing of desserts and ices in addition to instruction in general cookery. Attendance prizes will be awarded.

Three Trustees Are Re-Elected Unanimously

BULL

By Alvin G. Gillette

Everywhere people are kidding us about the statement in The Brand last week which said that there will be 1,000 potato growers in this area within three years. Actually, we didn't make the statement; it was made by Fred S. Barrett, recently of Idaho. Mr. Barrett is now in the process of moving his equipment to this area—and he expects to grow spuds here this season. He is one of five Idaho men who will plant potatoes here this season. Much depends upon their success. These men are moving away from their homes and friends to give the potato business a whirl here; they have faith in this section and every single one of them are men of good standing in their own home communities. Furthermore, they know potatoes and they know how to grow them.

It is entirely possible that Mr. Barrett may be correct in his prediction of 1,000 new families. Anyhow, Hereford is one of the few small towns which is growing and which seems to have a promising future.

On May 24 the Dallas Wholesale and Manufacturers will bring a \$16,000 Show to Hereford, including the Early Bird radio entertainers, Coach Matty Bell of S. M. U., and a number of other featured numbers. They will also have a siren which can be heard 10 miles away—and said that they will turn it on five minutes before they get here. Homer Fox said he sure and put this in the paper, because he doesn't want Roger Corbett dashing off to answer a fire alarm in the middle of the day. These visitors expect to put on a one-hour program, which will be a wow. They will also pass out a lot of free souvenirs. Among other things, school will turn out in Hereford for the program.

Recent arrival in the United States is Rabbi Joseph Isaac Schneersohn, leader of the movement for the preservation of orthodoxy of the Jewish faith. He was forced to spend six weeks in a cellar in Warsaw during the German invasion of Poland.

Some people sure have garbled ideas of what is funny. Not long ago I had my wire haired terrier pup down here in the office and he followed someone out. I had N. L. Cress and some other boys scouring the town for him—and was personally running up and down the street in a dither. Finally my wife came along and found him curled up asleep in a waste basket.

My wife said that I hunt for dogs about like I look for something around the house, which didn't help my temper any. Then Jack Wayland came along and intimated that the pup chose the waste basket because it was probably the cleanest place in the whole office. Later I fixed a board across the front porch to keep the pooch from getting into the street and J. C. McCracken wanted to know if we had a batch of baby chickens. The whole thing has been very unsatisfactory. When I was a little kid I always wanted a wire haired terrier, a parrot, and a gold fish. Finally some drug store gave away gold fish with 6 tubes of tooth paste and I managed to maneuver for the fish. A few days later it flopped out of the bowl and died. After following the pup around for the past week with a mop I have just about decided to for-

get about the parrot—and hope to goodness that the pup never learns to fly.

No matter how I start out it looks like I am going to end up on the subject of swimming pools. I admit that the boys and girls seem to be the chief ones who are showing interest in a swimming pool in this community—and for this reason none of the officials are getting very interested.

Hereford needs a swimming pool. No single individual or small group can build one. This deserves the thought and consideration of every person in the territory. We can get a pool for three or four thousand dollars, and it should pay itself out in three years. This is a county or city proposition, folks, and if necessary we should call an election to put the thing over. An election would cost money, but if the people want a pool and if that's the only way to get the job done—then let's have an election. Something should be done within the next two weeks. I think about all of the possible reasons for having a pool have already been pointed out. Let's do something one way or the other. Who is interested?

Measles Showed Increase in '39

Austin.—"During 1939 over eight thousand cases of measles were reported to the State Department of Health. This large number is not unusual, since the disease characteristically assumes a cyclic nature with alternate periods of high and low incidence. 1937 represented a year of expected large numbers of cases, with a total of 14,768, while 1938 dropped to 5,710 cases. Lowest incidence of the past half decade was in 1935 with 4,073 cases of measles reported," states Dr. George W. Cox, State Health Officer.

"Of considerable importance, however, is the fact that parents of small children frequently are entirely indifferent to this disease. Assuming a more or less fatalistic attitude, many of them believe that the sooner the disease is contracted by their young children the quicker the trouble will be over. This viewpoint undoubtedly is the result of a false sense of security regarding measles.

"That many cases of measles are mild in comparison with those of the other communicable diseases is true. It is a fact, also, that many victims recover without grave consequences. Nevertheless, there is another side to the story that deserves consideration.

"In children under five years of age measles is a serious disease. The illness is more severe, the complications more numerous, and death occurs much more frequently than in those who are attacked at an older age. Though only a fraction of the total measles cases occur in the age group under five years, the greatest majority of deaths result from these comparatively few cases. Moreover, undernourished children and those already suffering from other diseases, regardless of age, are more severely affected than are normal children.

"It should be apparent, therefore, that every care should be taken to protect young children from exposure until they have passed the period of life in which the disease takes its greatest toll.

"If efforts to protect fail, it follows naturally that nursing care and medical advice should be applied promptly, especially whenever a child under five years of age contracts the disease.

"It is important that a sufficient period of isolation, particularly among school children, should be had to prevent needless transmission of the disease. An isolation period of two weeks is usually sufficient."

Soviet Oil for Hitler's War Machine

At Przemysl, town which was once well in the interior of Poland, but which is now on the dividing line between Russia and Germany, oil from Soviet railway tank cars is transhipped to German cars to be rushed for military use. The photograph was passed by the German censor—possibly to refute British claims of having effectively strangled the Reich oil supply. Russian tank cars are pictured on the left.

BAPTIST CHURCH NEWS
We are thinking and planning for one thing these days, our Young People's Revival. There were about 175 young people and sponsors at the Banquet Monday night. We hope that we will have double that number in the services every night next week. Rev. Haldeman and Mr. Charton will arrive Saturday and will be ready to start Sunday morning for eight days of intensive work. Let's back them with our prayers, our attendance at the services and visitation in the interest of the meeting.

The morning services will be at 10:00 and the evening services at 8:00, preceded by 30 minutes for prayer.

We do not want to conflict in any way with the services of the other churches in our town but we invite all who will to attend when they can. We are expecting young people to assume more responsibility than heretofore, but we want every adult possible to be in the services also. The morning services during the week will be sponsored by adults. Be with us every time you can.
W. E. Barnes, Pastor.

Texas Will Celebrate Highway Week

AUSTIN—The Texas Highway Commission has designated the last week in May (May 26 to 31) as "Texas Highway Week" during which those interested in furthering the progress of Texas through completion of the highway system might call attention to the essential services rendered in the past by highways and review present and prospective highway needs of Texas.

The Commission has requested Governor O'Daniel officially to proclaim May 26 to May 31 "Texas Highway Week."

Matters affecting highway finance, new procedures developed in construction and maintain-

ance of roads, highway safety and highway economics will be stressed during the week.

In designating the week, the Highway Commission stated "highway transportation has contributed immeasurably to the progress of Texas and has been a prime factor in development of commerce, agriculture and industry within this state. Texans, in general, firmly believe in a sound public policy whereby the construction and maintenance of an adequate system of connected highways is assured. The construction and maintenance of an adequate system of connected highways is assured—the construction and maintenance of highways daily touches the lives of more of our people than any other governmental activity. It is the belief of this commission that a people enlightened on the subject of highway transportation and aware of its important place in

Texas' social, economic and recreational life will best safeguard the continuation of a highway program on a firm and progressive basis."

Few Texans realize that with four-cents per gallon state gasoline tax, less than two cents goes to the construction and maintenance of the primary rural highways carrying the bulk of the traffic. One cent of the gasoline tax goes to the schools and one cent goes to the retirement of county road debts and other county expenses. Few persons also realize that only about one-third of the motor vehicle registration fees are available for primary state highway construction, the remaining two-thirds going to the county road and bridge funds.

Mrs. Cawthon Bryant and son, John David, are spending two weeks with her parents, Mr. and Mrs. J. D. Smith, at Ralls.

CHDA NOTES

By Sadie Lee Oliver

In answer to several requests concerning the control of blue weed, Miss Sadie Hatfield, Extension Specialist in Landscape Gardening states that in Kansas they advise the use of calcium chlorate spray. Several applications are necessary to entirely eradicate the weed. Any other plants near by will be damaged by the spray, but after a few months the soil will produce normally.

Aviation, latest thing in ranching, is being employed by W. G. (Bill) Bivins, former agricultural student at Texas Tech to promote speedier scouting and cattle buying operations. He and his father, J. L. Bivins, own a large ranch near Amarillo.

Frio H. D. Club Hears Talk On Buffalo Grass

"Buffalo grass, otherwise called the Curly Mesquite Grass, is the best grass to have for a farm lawn. It requires less water and less care than other grasses and makes a velvety lawn," stated Miss Sadie Lee Oliver, CHDA, to the women of the Frio H. D. C. last Wednesday afternoon at the home of Mrs. J. M. Dixon.

When hunting for Buffalo grass to put out in your yard you will find in any old road through pastures where the rats are so deep that you have to quit using it, that on top of the road bed is the very best of Fustilate Buffalo grass. Take a spade and take it up in bunches and reset in ground that has been worked, the deeper the better, and well fertilized. Now is the time to put out your grass before all of the spring rains so it will get a better start.

If your grass is planted in a shady place, be sure to get a shady grass mixture. Another advantage in Buffalo grass is that it is a very nutritious plant for stock.

Refreshments of cookies and pecan ice cream was served to Mesdames, Hawks, W. A. Springer, T. L. Sparkman Jr., and Sr., Robbins, Johnson, Barclay, Cassels, Benson and Misses Oliver, Clydene Kendall, Marcia Robbins, Lurline Dixon, the hostess and several children.

Annual Bosses' Dinner Highlights B & PW Club's Activities For Year

Appointments and decorations struck a musical note Monday night at the annual Bosses' dinner given by the Business and Professional Women's Club at the Methodist Church, creating a harmonious atmosphere for the occasion which is the highlight of the year for club members.

The banquet tables laid in white, represented a musical score with musical notes in red establishing the color keynote. Bright red sweet peas gave the floral accept while programs done in red and white repeated the colors. Place cards bore the treble clef characterized on a musical staff for the women and the bass clef characterized for the men. Favors were cleverly designed song books.

Names of songs were used as titles for numbers on the program. "Chatterbox" was the name given Mrs. Egbert Bradley, president of the club and toastmaster for the evening. "Shower of Stars" was a piano solo by Mrs. John Jacobsen; "Count Your Blessings" suggested the invocation given by Rev. Marvin B. Norwood; "Linger Awhile" was Miss Sadie Lee Oliver's welcome, and "Thanks a Million" was expressed in a response given by A. O. Thompson; a toast to the Bosses, given by Mrs. Arnold Stelzer, was entitled "Merrily, Merrily"; A. R. Bateman gave a toast to the employees called, "Its Swell of You," and "My Fine Feathered Friend" was the subject of a talk given by Mrs. F. W. Dodson; two vocal selections, presented by Mrs. R. P. Conaway, were "Sweet of the Year," and "Jeanie" with Mrs. W. J. Stanford accompanying.

The principal speaker of the evening was Rev. Marvin Norwood whose program subject was "Well All Right." His talk which dealt with Women of the World, brought out the importance of women in every field of endeavor. He spoke briefly on women's place in the business world and commended the local organization upon the work done here.

Mrs. Jewell Dodson, second vice-president, introduced the guests and group singing was led by Mrs. Troys Carmichael, using "Good-Night Ladies" as the concluding number.

The menu for the banquet which was one of the largest of the annual affairs given by the club, consisted of "Until the Real Thing Comes Along," "Do You Know My Garden," "Stealing B-Hog," "My Father and Mother Were Irish," "I'll String Along with You," "An Apple For The Teacher," "Shortnin' Bread,"

Saturday, April 20, will be devoted to instruction in scout activities, and on Sunday to passing of various requirements.

"Parade of the Milk Bottle Caps," "Scatterbrain," "Happy Birthday to You," "Goody, Goody," and "Faithful Forever."

Miss Bell Harris was in charge of arrangements, assisted by Mrs. Arnold Stelzer and Mrs. F. W. Dodson.

Frio News

MRS. MALCOM CASSELS

There were thirty-nine at Sunday School Sunday morning and also a nice crowd at Bible Study, Sunday night. In Sunday School next Sunday we are studying about Hosea and God's Proclaiming Love. For Bible Study everyone is urged to read the twelfth chapter of St. Mark with Miss Virginia Benson as leader.

I am sure everyone in the community is anxious to know who were elected school trustees. Mr. Owen Andrews and Mr. John Johnson were elected to take the places of Mr. Hascal Robbins and Mr. Charles Boyd.

Mrs. D. O. Benson left Thursday for Pampa where she will spend the next few weeks taking care of her daughter, Mrs. Sims and little son, Jimmy Lee, who was born, March 31. Mrs. Sims will be remembered by many in this community as Miss Margaret Benson.

Those calling in the John Johnson home Sunday afternoon were Mr. and Mrs. L. F. Tension, Kona Faye, and Calvin, of Amarillo, Mr. and Mrs. Arnold Long and Arnelle of Hereford and Mr. and Mrs. Hascal Robbins, Betty Doris, Glenda and Frank and Wesley Brown.

Olivia and Virginia Benson, Jaunice Brooks and Dortha Hodges were guest of Miss Louise Lowery Sunday afternoon.

Mr. and Mrs. L. F. Tension, Kona Faye and Calvin of Amarillo spent Saturday and Sunday with Mr. and Mrs. W. C. Lowery and family. Mrs. Lowery is a sister of Mrs. Tension.

Marcia and Lyla Robbins spent Sunday with the Lee sisters who are visiting their sister, Mrs. Henry Andrews and Mr. Andrews.

Mr. and Mrs. Aldon Hawks spent last week end in the home of Mrs. Hawks parents, Mr. and Mrs. E. P. Ridgeway of Mobeetie. Mrs. Ridgeway returned with Mr. and Mrs. Hawks for a visit.

Mr. and Mrs. W. A. Springer, George Albert and Charles Ralph spent Monday in Amarillo.

Mr. J. E. Springer was able to be moved home from the Deaf Smith County Hospital last Tuesday. He is now up and around again.

Miss Kathryn Henderson of Hereford spent Friday night and Saturday in the home of Mr. and Mrs. S. J. Barclay and family.

Mr. and Mrs. Malcom Casfels and children, Mary Nell and

Jimmy Ray, J. B. Harlin and Jack Owen took Sunday dinner in the G. P. Owen home in Hereford and visited with Mr. and Mrs. Gerald Wilson of Amarillo who have been in Hereford the past few days in the home of Mrs. Wilsons parents. Mrs. Wilson was the former Miss Anna Jo Owen.

Mr. John Johnson and Hascal Benson went to Plainview last Tuesday after a load of seed potatoes for Mr. Benson.

Jack Owen and J. B. Harlin attended a banquet for the young people at the First Baptist Church in Hereford Monday night.

Mr. and Mrs. S. J. Barclay were in Amarillo on business Friday.

The snow and rain that fell Friday over this community was certainly a great help to the wheat, it amounted to a little more than an inch.

The Frio H. D. Club met last Wednesday in the J. M. Dixon home. It was Miss Oliver's regular meeting day. There were ten members present, one visitor and the H. D. Agent present.

The next meeting will be with Mrs. John Johnson instead of with Mrs. Aldon Hawks as stated

ed in our yearbooks due to other arrangements. Miss Oliver gives her meat cookery demonstration at Mrs. Hawks the first day of May and we will meet at Mrs. Johnsons the 17 of April.

Mr. and Mrs. S. J. Barclay and children spent Saturday night and Sunday with Mr. and Mrs. E. H. Barclay and family at Ford.

Mrs. Caraway went to Dimmitt last Tuesday to see about the exhibits that were entered by her school pupils and brought them back home. She stated that the exhibit committee asked each school to take care of their exhibits until next fall and then the teachers would pick out the best ones to send to Amarillo Tri-State Fair as the committee had no place to keep them. There were no prizes awarded, however the children had made some very nice things among which were two very nice cook books, a guest log, rabbits for the yard, a meat or bread board in shape of a pig, a hot pot holder with two holders and several other smaller things also a cover for the teachers desk and a napkin for each pupil to be used when the teach-

er entertains her room.

Mr. J. C. Bowers has been spending a good bit of time in Lubbock the past two or three weeks with his mother who is in a very critical condition in the hospital there. We extend our deepest sympathies to him and his family and hope for the best.

Wanda Dixon and Jimmy Ray Cassels have been on the sick list this week.

QUIT'S BUSINESS

ANNOUNCEMENT --- PLEASE READ

This announcement is one of the hardest things that it ever fell my lot to make, for I have grown to like Hereford and all of the people in this territory. But as many of you know, my father has operated the AMARILLO FURNITURE CO. for a good many years and now I have the opportunity to take it over. It is a dream I have long hoped for, so I am going to take it. On or about August 1, I will close my store here in Hereford and move to Amarillo. It is not far to Amarillo and I want each and everyone of you to know that any promise or guarantee will be fulfilled just as if I were still doing business in Hereford.

This Close-Out Sale is to your advantage for I could just move my furniture to Amarillo and get regular prices for it --- but to show my appreciation I intend to sell every stick of it to people of this community AT MY COST PRICE OR BELOW, and I sincerely hope that you believe me and take advantage of this opportunity. Because I am closing out here is no reason why you cannot open an installment account --- and you can buy it just as cheap as if I were going to stay in Hereford. Anyone interested in buying my place as a going business is invited to get in touch with me.

Young People Are Elaborately Banqueted And Entertained

YOUNG PEOPLE—SOC—
Young people of Hereford were elaborately banqueted and entertained at the Baptist Church Monday night with Baptist young people and the senior class of Hereford High School as honor guests.

Preceding the banquet a musical prelude was furnished in the auditorium of the church by Guy Woods, organ instructor at Wayland College, and the Wayland Girls Quartet.

The banquet carried out a "Fairyland" theme with six long tables, each decorated to represent a universally loved fairy tale. Each table had an individual color scheme with matching floral note, lighted tapers and candied mints. Most elaborately decorated was the senior's table which represented "Cinderella and the Golden Slipper." At one end of the table was the big pumpkin and the six white rats while at the other end was the gold coach drawn by the six white horses. Cinderella, tiny glass slippers and gold slippers at each place added interest and color to the scene.

The "Ugly Duckling" table done in orange and white had orange ducklings for favors with beautiful white swans which the ducklings became sailing on mirrored lakes, placed at intervals the table's length.

"The Three Bears" table was in blue with the mama, papa and little bear all dressed up in colorful costumes, complaining over their bowls of soup. Little Goldilocks carried out the story. Little blue bears were colors chosen and completed favors.

The table of "The Three Little Pigs" featured the three little houses, one of straw, one of wood and one of brick with very fat little white pigs guarding their doorways. Little white pigs at each place suggested the thought that no one was afraid of the big bad wolf who stared menacingly about.

"Jack and the Bean Stalk," without which no fairy tale collection would be complete, was represented with Jack climbing the bean stalk besides his little house, the cow he sold, the handful of beans, the hen that laid the golden eggs and the money bags, all in evidence of Jack's folly. Green and white was used at this table with "Jack" in green as a favor at each place.

"Little Red Riding Hood" was dressed just as she should have been for the sixth table with the old wolf taking the part of granny in bed, and as he met her in the woods. Little Red Riding Hood favors stood at each place.

The program was in the hands of Mrs. W. E. Barnes who directed a "Trip to Fairyland." A. O. Thompson gave the invocation followed by a welcome given by Mrs. Barnes with a response from Superintendent of schools, Knox Kinard. A clever introduction to each number was given by Mrs. Barnes as she recalled the fairy stories represented. The following talks were made, "The Ugly Duckling," Dorothy Funderburg; "Buildings" (The Three Little Pigs), Billy Ross Phillips; "Climbing the Heights," (Jack and the Bean Stalk), Leo Rudd; "Making Dreams Come True" (Cinderella), Pollyanna Crawford; "Bears Repeating" (The Three Bears), Rev. W. E. Barnes and musical pictures by Mr. Guy Wood.

Mrs. A. L. Manjoet gave the benediction.

Two hundred places were laid for the guests who were neither too old nor too sophisticated to enjoy a trip to -fairyland so cleverly planned.

Birthday Party Given Norma Dean McVay

A birthday party was given Norma Dean McVay by her mother, Saturday, April 6. Pink blue and white color scheme was carried out in table decorations and gift wrappings.

Games and favors were enjoyed by Gayle Marie Foster, Georgia Clark, Rosene Lance, Alex J. Schroeter, Gene Moore, and R. A. Sullins.

Past Officials Are Complimented

Past matrons and Past Patrons of the Hereford chapter of the Order of Eastern Star were honored Friday night by the local chapter at the Masonic Hall.

A reminiscence was conducted by the past officials including a narration of past incidents and events occurring during their terms of office.

A contest on the secret work and on the constitution was enjoyed.

Refreshments were served from an arrangement of flowers in the lace laid tables centered with shape of a star in the five star-point colors, flanked by smaller stars formed with mints repeating the five colors and lighted tapers in groups of five.

Mrs. A. O. Thompson and Mrs. C. C. Ferguson presided and Mrs. Bruce Rose was in charge of the coffee service.

Original Program Entertains Club

Three new members were welcomed into the club. They were Mrs. Frank Huckert, Mrs. Frank Lookingbill, and Mrs. Chas. Noland.

O. E. S. Ceremonies Are Impressive

The three were escorted to the secretary's desk where they signed the by-laws, then were escorted to the west by the marshal, Mrs. Alice Bradley, where they were welcomed by the Five Star Points, Mesdames Iva Oceanougher, Luella Ferguson, Pearl Gass, Frank Terrell and Irene Sheets. The conductress and the associate conductress for the ceremony were Mrs. Florence Guinn and Mrs. Nora Lawhon.

After the affiliation service a short memorial service was conducted for the late Mrs. Nannie Jowell, former member, and for other members deceased in 1939-40.

Tributes were given by the worthy matron and patron and the associate matron and patron. An appropriate reading was presented by Mrs. Myrtle Reed and resolutions from the chapter were read.

Funeral rites for Mrs. Anna Catherine Behrends, mother of Henry G. Behrends and Andrew Behrends of Hereford, were held April 5 at the First Methodist Church at Kress with Rev. C. A. Gaertner, pastor of Plainview and Kress Lutheran churches, officiating. She was 72 years old.

School Votes "No" To New Football Rule

Hereford school voted an emphatic "No" to the proposed change in eligibility rules for high school interscholastic league football, Knox Kinard superintendent, has announced.

The proposed ruling eliminates the eight semester limit but restricts playing to students who have not passed their eighteenth birthday by September 1 of the year in which they play. If this ruling goes into effect Hereford will lose seven of the best football players on the 1939 squad. These men would be eligible to play this fall if the old rule is not changed.

Ballots have been sent out over the state by Tom Sherrill of Lufkin so that schools may vote for or against the new rule. If a majority of the schools favor the new rule, then Coach Tom McCollum will have to start almost from scratch to build a 1940 Whiteface squad.

ment insurance on the basis of complete loss. West to the state line, and reaching north into Harper County, only 25 to 30 per cent of a crop is promised at present; however, most of this wheat is late and rain would bring an improvement. A similar situation prevails in the Panhandle.

colorful band and color bearers, they will parade from the train to the intersection of Main and Third streets. There they will be welcomed to Hereford. One of the Dallas business leaders will respond. Following the two brief talks, the Business-Tour band and radio entertainers will stage a 40 minute show to which Mr. Bourdene and the Chamber of Commerce have invited the general public, including the people of Hereford trade area.

Mr. Bourdene said that a special 16-page book is being prepared in which Dallas will salute Hereford. This book will be delivered by messenger to the business establishments during the Dallasites' visit here. The 39th annual Dallas Business Tour, visiting 31 cities in Texas, New Mexico and Oklahoma, will be made on an eleven car deluxe special train. The train will be equipped with a public address system, baths, valet service, two baggage cars and two observation cars. The business men will occupy all compartment and drawing room Pullmans, and their band and entertainers will occupy a standard Pullman.

Mr. Bourdene said the delegation which will visit Hereford will be the largest in the history of the Dallas Business Tour, which was started in 1900 and has been repeated each year since then with the exception of 1918. Several national magazines have published articles on the Dallas Business Tour, describing it as the finest goodwill trip conducted by any city in America.

Heavy abandonment has taken place in Oklahoma wheat fields during the past month, and the loss is mounting daily as dry weather and high winds continue. The entire state needs rain, not only for wheat but other crops, planting of which is being delayed. After a bad start last fall, much of the wheat in the northwestern quarter of the state failed to sprout until after the first of the year, and it is doubtful if it can produce more than 25 to 40 per cent of a crop. In the central and northeastern portions, conditions are more favorable.

Prospects are particularly discouraging in the Enid territory where a large part of the wheat was "dusted in" last fall. Fifty per cent of the acreage in Garfield County has already been abandoned, and farmers are reported filing claims for govern-

ment insurance on the basis of complete loss. West to the state line, and reaching north into Harper County, only 25 to 30 per cent of a crop is promised at present; however, most of this wheat is late and rain would bring an improvement. A similar situation prevails in the Panhandle.

Texas Near

While Texas donations were not the largest, nor did Texas lead the states in number of donations, Capt. Lucey said, yet it was one of the ranking states. Only New York, Illinois, California and one or two other states are credited with a greater total in contributions.

Glenn Watts is really a heart-throb to a certain little freshman girl. Thurman Williamson led the assembly program last week, and he had to have Billie Louise Crawford sit on the stage with him. Well, Clifford Vaughn and Danny Hales went to sleep in study hall, the teacher had to wake the kids up to get them out of the room. So they say. Ruth Taylor is a cute little girl who delights in bending her body into horrible curves and such. Wesley Guthrie likes the way Mary Anna Thompson fixes her hair. Did you know that Louise Suttle and George Springer had up a good case? Poor Winston Medlin had to move to the country and leave his girls behind Katherine Twinner and Katie Cress, namely. Mary Lois Springer is the red-headed girl who thinks marriage is a silly proposition. Nadyne Shirley has a method

Confidentially Yours

Helen Rutherford is a cute trick that never fails to smile when a certain boy throws a smile her way. Alvin Haeker likes to look at "Look" magazines. Corene Hamilton, another red-head, prefers brunettes instead of blonds. We wonder why. It seems like Donald Henslee and Rachel Ireland have at last got back to a decent situation again. Get it? Did you know that ever since a certain band trip Reynold Herr has had a crush on Ann Cockrell? C. A. Asbery has a special liking for Spanish. He says the melodious sound of Spanish words lulls him to sleep. Gee. Hardy Benson likes gym; he wants to be a "big man like daddy." Just keep right on working, and someday you will be a regular he-man. Have you noticed Ralph Bigg's new hair-cut? Cute huh, Johnnie. H. V. Compton doesn't like to be thought of as a hobo because his father constructs highways. Well, anyway. What has happened to Polly Dixon and Jeff Burk? Have you noticed how positively charming Raylan Evans is getting? At least that is the opinion of Mary Jane Jordan. How about giving a little more to the "Hi-Ho Snooper?" Confidentially yours, THE SNOOPER Mrs. Clara Driscoll of Corpus Christie, Texas, inscribed her name forever in the hearts and when she paid off their indebtedness of \$92,000 on the Texas Federation Headquarters in Austin.

PARTNERS IN A GREAT TEXAS ENTERPRISE

Oil

TEXAS farmers and ranchers received last year from oil men the huge sum of \$132,478,000 for leases and royalties as their share in this partnership.

All but seven of Texas' 254 counties now share in this cash return from leases and production on more than 50,000,000 acres of Texas land.

Then, too, the Texas farmers and ranchers sell to oil workers and their families more than \$60,000,000 worth of farm and livestock products each year.

Thus the farmers and ranchers of our state receive nearly 200 million dollars a year as their share of oil's total expenditure of 750 million dollars annually in Texas. These 200 million dollars in turn flow into every channel of Texas trade.

The Texas farmer and rancher and the oil man are partners in the development of Texas.

Want "in" on next year's "Big News" Now?

Buick prices begin at \$895*
for Business Coupe (illustrated)

WHEN BETTER AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM

YOU can figure it out for yourself from what you see in daily traffic. Buick's pacing the pack. Has been for years.

It called this year's style turn a year ago. It set current performance standards in '38 with its Dynaflex engine. It still leads the crowd for riding qualities with Buick Coil Springing, now in its third year.

So where's a more logical place to look for next year's "big news" than in this year's big and roomy Buick?

It may be smoother engines. Buick is the only car that now balances power plants after assembly.

Coil springs all around may come. Buick's never need lubrication, are practically indestructible, even cut down skid-risks.

Maybe it'll be heavier frames—Buick has the heaviest of any car of its price. Or maybe many of Buick's "extra touches" like the safety-latches on rear doors, Sealed Beam Headlights out of the way of bumps, Two-Way Direction Signals with automatic cut-off.

You get all of these things now in Buick. Get them at a price that suggests a six instead of a husky, man-size eight.

Just go try a Buick. Look it over, inside and out. And get the prices.

List figures begin at \$895 *delivered at Flint, Mich.; transportation based on rail rates, state and local taxes (if any), optional equipment and accessories—extra. Prices subject to change without notice.

You get a "Good Deal" Two Ways from Your Buick Dealer

A good "deal" when it comes to old-car allowances—and a whole of a lot of automobile in your new-Buick.

CHDA NOTES

By Sadie Lee Oliver

A new variety of asparagus called Paradise is reported to be about four times as large as plants of the Mary Washington variety of the same age. These were purchased by Mrs. J. Fields Matthews of Dawn. They were planted in specially prepared soil. A ditch three feet deep was dug. Three truck loads of well rotted manure filled this ditch 18 inches deep. This was well packed in. A pipe for subirrigation was placed on supports to keep it from settling. Six to eight inches of top soil was added. Each asparagus crown was placed on a mound of earth with the storage roots spread in a circle. The crowns were covered with three to four inches more of top soil.

The 25 plants of Mary Washington and twelve plants of Paradise cost about \$2.00 and should never need replacement. Five plants per person will usually supply enough asparagus tips to use both fresh and canned.

Actual construction of a furnace for outdoor cookery has been begun by Robert Owen and Racky Elliston of Wyche. They combined ideas secured from several sources. Their father taught them how to mix cement and helps iron out construction problems. Plans include convenient seats and shelves for use when cooking. Several more Saturdays will be needed for completion of this project. They have announced that a party will be given to their friends when the furnace is ready for use.

At the time of the Easter freeze only one of the plums planted at the Lee Cocanougher home last year had blooms developed enough to freeze. Mrs. Cocanougher reports that it was a substituted variety, and not one recommended for this area.

Like the widow's curse of oil there seems to be no end to the supply of strawberry plants at the N. G. Elliston home. 48 families have secured plants. The plants will not be destroyed just yet on the chance that others may come for them. Anyone may come for them. Anyone may have them for the digging.

The names of thirty families who have secured strawberry plants from the plot set in the spring of 1938 at the N. B. Elliston home have been listed this spring by Mrs. Elliston. These plants were dug by those who secured them before April first, the day set for the public to come. Three Wyche 4-H club girls, five Walcott 4-H club girls and their sponsors have planted strawberries from this garden where 250 plants were first put out in the spring of 1938.

Playwright Is Discussed For Club

Discussing the life and achievements of Clifford Goldsmith, playwright, at the meeting held by the Junior Bay View Club Thursday night at the home of Mrs. Elizabeth Wombles, Miss Robbie Foster said of the author, "He became a health lecturer after pinch-hitting in a chautauqua for a humorous health lecturer. He pieced "What a Life" together out of youngsters and incidents encountered all over the U. S."

Reviewing the play "What a Life" Miss Foster said, "The chief amusement-centers in Henry Aldrich, a cross between Penrod and Willie Baxter, who attends classes mainly in the principal's office. With a talent for head-on collisions, always there with an answer, never with the right one, rattled and rueful, Henry grows into that rare thing on the stage—a person. The play is long on character and short on plot and affords an entertaining and amusing evening."

Members of the club attending the meeting were Edna Daughtee, Katherine Kirby, Lois McCaslin, Eloyse Pitman, Rhita Jean Sullivan, Robbie Foster, Mesdames Jimmie Gillentine, J. D. Neill, J. W. Witherspoon, J. W. McVay and the hostess.

Augustine Smith, national music authority, who says that sacred music should be sung with expression to convey the meaning intended.

Musical numbers included a violin solo "Gloria-Adoration" (Donald Heins) played by Mrs. A. C. Thompson with piano accompaniment by Mrs. G. A. F. Parker; A vocal duet, "What Can I Bring" (Pearis) sung by Mrs. Wiley Roberson and Miss Swisher with Mrs. Glenn Snyder accompanying; and "At Eventide-Londonderry Air" (McKinney); a vocal solo presented by Mrs. A. If Looking For Job Carry Your Social Security Number

"Workers looking for employment should carry their social Security number cards with them," Dewey Reed, manager of the Amarillo Social Security Board office said today. Furthermore, the worker should be sure to show the card to the employer immediately upon being hired.

"This procedure is very important," Reed continued, "as the Social Security number is the means of identifying the worker's wage account with the Federal Government." If the employee does not show his card to the employer, the latter might report the wages without an account number. In this case, the wages cannot be posted to the worker's account by the Social Security Board.

Since the benefits payable under the Old-Age and Survivors Insurance provisions by the Social Security Act are related to the worker's wages, the importance of having all wages posted to worker's account is obvious. "The new benefits under the Social Security act amendments are of vital importance to workers and their families. Therefore, we urge each wage earner to assure for himself full credit for his wages by showing his card to each employer," Reed said. If any worker does not have a number, he should go to the Social Security Board office, 324 New Post Office Building, Amarillo, where he will receive a number in a very few minutes.

Loans On Wheat May Be Extended Another Year

College Station—Loans on 449,000 bushels of farm-stored wheat in 27 Texas counties may be extended until April 30, 1941.

Deaf Smith county is included in this group.

The extension enables farmers having wheat under the loan in sections where 1940 winter wheat prospects are unfavorable to hold more of their 1939 crops, E. N. Holmgren, state AAA administrator, pointed out. Extension of the loan is available on farm-stored wheat only.

Under Commodity Credit Corporation rulings, the administrator said, farm-stored wheat in Texas, other than in the 27 counties in which the loan may be extended, and all warehouse-stored loan wheat will be taken over by the corporation April 30.

30 of this year. The wheat will be pooled and sold, with the net proceeds, if any, over the loan rate, carrying charges and other costs to be distributed among producers on a flat per bushel basis.

No extension of loans will be made unless re-inspection of the wheat and storage facilities show the condition to be satisfactory, Holmgren said. Farmers wishing to extend their loans must notify their county ACA committees of their intentions before April 30.

Texas counties in which the loans may be extended are: Armstrong, Bailey, Briscoe, Carson, Castro, Dallam, Deaf Smith, Donley, Floyd, Gray, Hale, Hansford, Hartley, Hemphill, Hutchinson, Lipscomb, Lamb, Moore, Ochiltree, Oldham, Parmer, Potter, Randall, Roberts, Sherman, Swisher and Wheeler.
