

The Hereford Brand

TUESDAYS—TWICE-A-WEEK—FRIDAYS

HEREFORD, DEAF SMITH COUNTY, TEXAS, FRIDAY, MARCH 10, 1922.

HEAVY SNOW FALL DRIVEN BEFORE WIND

ESTIMATED TOTAL WAS ABOUT FOUR OR FIVE INCHES

The first real snow of the fall and winter fell over the Panhandle country on Thursday. Previous falls have been very light and dry and really hurt more than they helped. First opinions of Thursday's snow, however, are that it will help materially on grass and plowed ground, although it drifted badly before a terrific wind and many spots all over the country were swept bare as a consequence.

Estimates on the total precipitation varied widely Friday, owing to the drifting character of the fall. The guesses ranged all the way from three to seven inches. Drivers who came in Friday from trips in the country agreed that a conservative estimate of the fall on the level would be between four and five inches.

The snow started lightly Thursday morning, but soon freshened and thickened. Long before noon a heavy, wet thick snow was coming down in sheets before a strong north wind and business folk had a time getting home for lunch. The wind drifted the snow in great piles in places and left the ground almost bare in others. About dark the fall slackened and died out entirely before midnight. Late Thursday afternoon and early Friday morning Hereford presented a beautiful picture, with the damp flakes coating even the sides of the houses and the trees and shrubbery burdened and draped with their fleecy mantle.

Snows are usually overestimated in depth and usefulness, especially in towns where real estimates cannot be figured, but it seems to be generally agreed this time that this particular snow will do a lot of good, especially as it was unusually wet. Friday dawned clear as a bell, warm and blimy and the snow was rapidly disappearing during the day. The west-bound train was over five hours late, owing to snow troubles with connections coming into Amarillo. The Amarillo News of Friday had the following weather story: "With 5.5 inches of snow reported in Amarillo at 7 o'clock last night, the entire Panhandle is in the midst of the worst snowstorm of the winter. Snow has been reported in all the North Plains and as far south as Lubbock and east to Clarendon.

"Train service has been hampered to some extent by the severe blizzard. The Santa Fe said that all its trains were being operated according to schedule. This afternoon passenger train from the south encountered its first snow about five miles south of Lubbock. The evening train from Denver, bound for Fort Worth, was reported about two hours late, and officials said that the train would be held here until the storm cleared up.

"Temperature throughout the day in Amarillo was even, ranging from 23 to 25 degrees during the day. At 7 p. m. the temperature was 27.

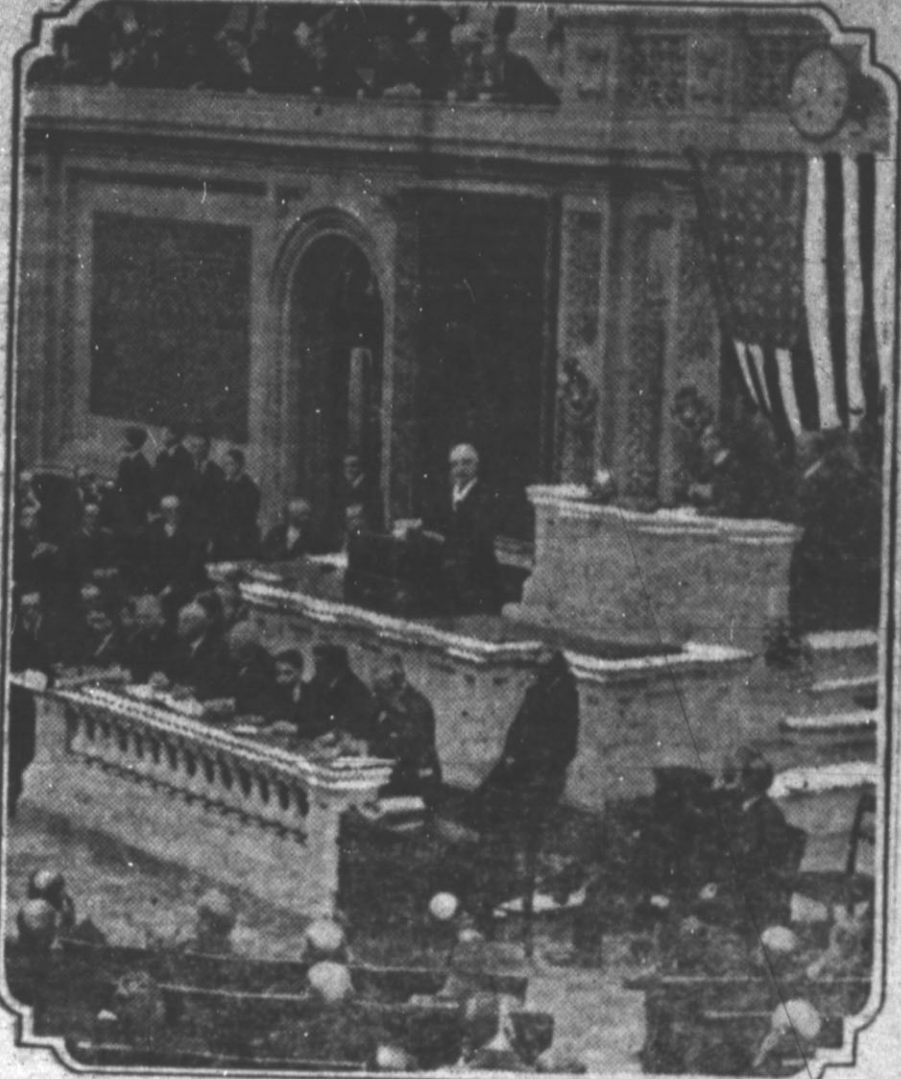

"Santa Fe points reported snow generally throughout its territory, and also in New Mexico. The Fort Worth and Denver reported rain at points in the Children's section."

WEATHER MAY INTERFERE WITH A POULTRY MEETING

The outlook for the first semi-monthly meeting of the Hereford Poultry Association, Friday night, March 10, is rather blue, owing to weather conditions. It was determined by the officers Friday to hold the meeting provided a sufficient number of members could reach the courthouse. Otherwise to postpone the discussion until a later date when the members from out of town would have a better chance to get in.

SOME THINK
Some people think, and some people think they think. Some people read, and some people think they read when they just mander through the garden arm in arm with great men and never pluck a flower. We'd listen with ears wide open if we could have a talk with Napoleon, but we don't listen when we meet him in a book and have all the time in the world to think about what he said and did. We are trying to find out what brings success and what results in failure, and the lesson is right under our noses. If we really read we can soon learn what characteristics brought greatness to men and what turned others into lubbies that floated up to popularity and then blew up. Seems as if there's something in meeting dead ones as well as live ones.

President Urges Subsidy for Merchant Marine

President Harding is here seen recommending to Congress that the "costly experiment" in the shipping business be brought to an end and advising that ship subsidy legislation is necessary to put the American flag foremost on the seas. The administration has pointed out that an American merchant marine is as vital to farmer and the inland manufacturer as to the business men on the seaboard. Ships are the railroads of international commerce carrying American products and American manufactures to all corners of the earth. Ships spell increased trade and steady employment.

Voting Strength of County Has Grown Through Extension of the Ballot to Women; Total Now 1,281

Through the courtesy of Deputy Leonard Foster, of the County Collector's office, official figures on the voting strength of Deaf Smith county this year have been obtained. A surprising feature is a small gain over last year and

Precinct No.	Male	Female	Total	Expts.
1	232	184	416	8
2	349	338	687	24
3	7	5	12	1
4	14	6	20	1
5	18	19	37	3
6	28	19	47	
8	8	4	12	
9	9	4	13	
10	24	13	37	1
	680	502	1281	39

another interesting item is that the ladies almost equal the men in voting strength in 1922. Perhaps the increase in the total is caused from the increased poll taxes paid by the new lady voters. The detailed figures by precincts follow:

Tribute Paid Mrs. Ashbrook in Last Church Ceremony

A great outpouring of sorrowing friends and acquaintances was in evidence Wednesday morning at the Ashbrook home and the Methodist church, when services were held in memory of Mrs. D. F. Ashbrook, who died Tuesday. The body was shipped on the 11:00 o'clock train to Spickard, Mo., for burial, accompanied by Mr. Ashbrook and the Rev. M. M. Beavers. The entire Methodist Missionary Society of the Dimmitt church, which had been actively aided by Mrs. Ashbrook, came up for services. When the body was taken to the train the members of the Hereford and Dimmitt societies followed the hearse to the depot, walking two and two.

MR. AND MRS. McDONALD BOTH CONFINED BY ILLNESS

Both Mr. and Mrs. D. L. McDonald have been ill with the gripe the past few days and confined to the bed. Mr. McDonald is reported Friday to be improving and sitting up at intervals, while his wife is still unable to be up, though improved.

HOMER WILKINSON COMBINES PLEASURE AND BUSINESS

Homer Wilkinson went to Amarillo and Memphis Wednesday morning and returned home on Friday's delayed train. Although on a purely business mission Mr. Wilkinson took in the Amarillo Auto and Style Show while away.

I. H. SLATON WITH-DRAWS FROM RACE

The Brand is authorized to announce to the voters of Deaf Smith county that I. H. Slaton has decided to withdraw from the race for Tax Assessor.

Snow Prevented Burns Trial; Two Get Pen Terms

J. M. Gilliland, W. R. Farmer and Sheriff Purcell went to Canyon Thursday as witnesses in the trial of Henry Burns, charged with the murder of W. J. Rich in this county last May. They were the only witnesses to appear, however, as the storm prevented others from attending, even the defendant himself being unable to appear. As a consequence the case was continued until next term of district court. Charles Hall and J. D. Catharp, the men arrested by Mr. Purcell last October and charged with violation of the liquor laws, were each given three years in the penitentiary at Canyon Thursday. However, it is understood that they have asked for a new trial which may be granted.

EVERYBODY WELCOME AT LUNCHEON ON EACH MONDAY

The weekly luncheon of the business men will be held next Monday at noon at the Stockmen's Cafe. Current matters affecting the interest of all citizens of this community will be on the program. No special invitations are extended, but any man or woman interested in the public welfare is always welcome to these luncheons.

You do not have to be a member of the Chamber of Commerce to participate in these weekly meetings—it is an open forum, for the public good, open to the world. YOU are cordially invited to be present next Monday.

MRS. MARY JANE WOOD IS CALLED BY DEATH ANGEL

Mrs. Mary Jane Wood passed away early Friday morning, about 2:00 o'clock at the home of Mr. and Mrs. Pat Wederbrook. Mrs. Wood was 85 years and 10 days old and had been making her home with the Wederbrooks for the past seven weeks. The only living relative known in this county is Mrs. R. H. Parker, a granddaughter. Prior to coming to Hereford Mrs. Wood had made her home in Comanche, Texas. No funeral arrangements have been announced.

NEW CITIZEN ANNOUNCES ARRIVAL OF 13-POUND BOY

A rather unusual Stork report this week was turned in by J. L. Hoffman, who resides nine miles southeast of Hereford. Mr. Hoffman is the proud parent of a husky, thriving thirteen pound baby boy. Mr. Hoffman formerly lived at Happy, but purchased the Tom Bandy place on February 14 and is now a member of the Hereford family.

LEONARD ONLY CHAMP WHO IS MAMMY BOY

Benny Leonard, lightweight champion of the world, is the only title holder who has not risked wedlock. He is very much of a home boy and lives with his mother and sister in New York. This is the most recent picture of the champion and his mother.

C. R. Moreman is Dead; Veteran of Confederate Army

Another Civil War veteran, and one of Hereford's oldest and most highly respected citizens, C. R. Moreman, aged 79, passed to his reward early Wednesday morning, between two and three o'clock.

Mr. Moreman had been in his usual health until about ten o'clock Tuesday night when he was stricken with a chill, followed by severe pains in the head. A physician was called who rendered temporary relief, but Mr. Moreman steadily grew worse and finally gave up the struggle.

Mr. Moreman is survived by his wife, two sons, Leslie, of Casper, Wyoming, and J. W. Moreman of Dalhart, and four daughters, Mrs. A. S. Kindrick of Sweetwater, Texas, Mrs. W. Y. Barnett of Crum, Texas, Mrs. J. F. Raley of Denton, Texas, and Mrs. R. H. Gough of Ft. Worth, Texas. All of these children, with the exception of Leslie, had arrived in Hereford Friday. Messrs. Raley and Barnett also accompanied their wives.

Funeral arrangements had not been definitely decided Friday, final decision depending upon the date of arrival of Leslie Moreman, who was looked for on Friday's delayed train, or Saturday morning. In all probability, however, burial services will be held Saturday afternoon.

Mr. Moreman moved his family to Hereford from Denton, Texas, twenty-four years ago and engaged in the cattle business here. He has been actively identified with the business, social and religious life of the community since that time and his passing will be greatly regretted by a wide circle of devoted friends and acquaintances. Mr. Moreman was a veteran of the war between the states, having enlisted in the Confederate army at the beginning of hostilities.

AMARILLO'S TEST WATER WELLS START

NEAREST TEST FIFTEEN MILES FROM THE CITY LIMITS

City Engineer Banks Jones is authority for the statement that actual work has begun on the test wells, in the water bearing areas south of Amarillo, as a preliminary to securing adequate water supply for this city.

It is announced that there will be a minimum of eight of these wells, and the work has been contracted to D. L. McDonald of Hereford. Four of these wells have already been located, the closest to Amarillo being 15 miles away. It is the purpose of the city commission through its representatives to seek a sufficient number of wells to determine how closely to Amarillo the thick water-bearing sands may be located.

In the opinion of Mr. Jones, the engineer, a minimum requirement of time for the sinking and testing of these wells will be two months. Even with this estimate, the engineer states that Mr. McDonald is thoroughly cognizant of the fact that the commission is anxious to have this development completed at the earliest possible time. Mr. McDonald is considered the ablest irrigation well man in this portion of the country, and Mr. Jones is fully assured that he will co-operate to the fullest of his ability in getting the facts, through test, upon which the community must rely in making its final estimates of the possibilities for an underground source of its future water supply.

Reports will be filed with the city commission through the engineer at regular intervals as to results obtained by Mr. McDonald, and likewise as to the progress being made in connection with the various locations.—Amarillo News.

HEREFORD ANNEXES FIRST BALL GAME OF NEW SEASON

A picked-up Hereford ball team went to Summerfield Tuesday afternoon to play the Summerfield boys the season's first game. Captain Red Alban relates the story of a slugging contest from beginning to end, the score being 30 to 12 in favor of Hereford. Jim Robinson did the hurling for Hereford and Harry Cannon and Cecil Lookingbill for the Summerfieldites. Carl Lewis acted as ump. The line-up:

Summerfield—Roberson, 1b; L. Lookingbill, c; Cecil Lookingbill, p; Pat Lawton, 2b; J. Logan, 3b; H. Cannon, ss; L. Lookingbill, lf; A. Lookingbill, cf; C. Moore, rf; R. Johnson, sub.
Hereford—Frank Burleson, c; Jim Robinson, p; Puck London, 1b; Joe Curtisinger, 2b; Ewell Morris, 3b; Red Alban, ss; Tom Foster, lf; Frank Carl, cf; Albert Harrison, rf; Sam Angelo, sub.

DEATH CALLS MRS. SALLIE E. AGE, MOTHER MRS. SEARS

Mrs. Sallie E. Agee, aged 81, mother of Mrs. B. O. Sears of Hereford, passed away at the Sears home Wednesday afternoon, March 8, after an illness of several months.

The body, accompanied by Mr. Sears, was shipped to Huntsville, Mo., Thursday for interment. Huntsville is the old family home.

Mrs. Agee is survived by four children. She has been a resident of Hereford for about ten months.

BRITAIN OVERSEES WATERING TREES CENTRAL SCHOOL

Work of watering the trees about the Central school building was begun this week under the volunteer direction of F. H. Britain. The Park Board has furnished Mr. Britain with a man, ditches for irrigating the tree are being run, and the fire boys are preparing to water the trees as soon as the ditches are ready.

GUN CLUB MEETING POSTPONED WHEN WEATHER CHANGES

The advertised meeting of the Hereford Gun Club, called for Wednesday night, did not materialize owing to the unsettled weather conditions. A few of the gunners braved the weather, but a sufficient representation was not obtained. Another meeting will be called in the near future when the Weather Man is in a more propitious mood.

Now, They're Coming

GOVERNMENT 1022 PUE AUTOCASTER SERV. CO.

That Mischievous Boy

That mischievous boy is a problem,
He torps, torments and teases,
Blasts the house with a high hand
And does just as he pleases.
He breaks the window, slams the door,
Enters the house with shoes full of dirt,
Messes the room with sticks and nails
And his rights he will loudly assert.
He covers the chairs with gum,
And he slides down the banister rail,
You hold your breath and tremble
While he swings the cat by the tail.
He breaks the face of the clock
When that heavy ball he throws,
And just as you turn your back
He mocks sister by powdering his nose.
You think he is sick, looks pale,
So you work with a heavy heart,
But you suddenly spy him on the tower,
Up on the very highest part.
Now you think he is well, work with a
vim,
While he climbs our barns up a willow,
That night he bounces out of bed
And sleeps with his feet on a pillow.
He worries you over that cold,
Will always go out in the storm;
You call him and beg him
To come by the stove and warm.
He tears through the yard like a calf,
Sits on the icy pavement in the rain,
His face begrimed, his hand a sight,
You urge him to wash but in vain.
In spite of all, when he's quiet and good
He's such a comfort, a blessing, a joy,
Nothing can fill the spot in your heart
Occupied by that mischievous boy.
—Mrs. C. C. Bowman.

CALIFORNIA FLEA IS HOME PRODUCT

The following letter was received from a Denver Post subscriber now residing in California:

"MY CALIFORNIA"

When I say "My California" I do not mean that I own California. That is, not all of it. I own some of it, but I did not think when I bought it that I was going to own it forever. The fellow that sold it to me said that I could sell it some-time at a profit. But he was a poor prophet.

But I love California as only a "Native Son" of New Hampshire can love it. I love its lakes and rills, its mountains and hills. But best of all I love its soil. These lots I own in Los Angeles—I have an attachment for these lots that I shall never lose. That is, it looks now as if I never should. I just noticed yesterday that the deeds read, "To have and to hold."

But the dream of my life is to some-time settle down in my own little bungalow, on my own little ranch, and there with my own little home brewery, in the golden sunlight and the silvery moonlight, to dream the happy hours away, seeing visions of other days and other places. And where can you find more to recall such visions than on a California ranch?

You arise in the morning to the music of a Connecticut alarm clock. You put on your Munsing underwear made in Minneapolis; hitch your Boston garters to your Paris socks; button your Baltimore suspenders onto your Detroit overalls, put on your Lynn, Mass., shoes and your Danbury, Conn., hat and you are up for the day.

You sit down to your Grand Rapids table and eat your Hawaiian pineapple, your Quaker oats and Aunt Jemima flapjacks, swimming in New Orleans molasses.

Then you go out and put your Cop-cord, N. J., harness onto your Missouri mule, hitch on to your Moline, Ill., plow and plow up a couple acres of land covered with Ohio mortgages.

At noon you dine on Cincinnati ham, cooked in Chicago lard, on a Detroit stove burning Colorado coal.

And then at night you fill up your "Pride of Detroit" with Mexican gasoline and dash out to the beach and in a Greek restaurant, while smoking a Boston-made cigar, you watch a New York girl dance the Memphis shimmy to the music of a New Orleans jazz band.

And then upon returning home you read a chapter out of a Bible printed in London, England, say a prayer originating in Jerusalem, put on your China silk pajamas, crawl in between your Fall River sheets, to fight all night with the flea—the only home-grown product on the whole darn ranch.—Denver Post.

WANTED—Good, clean rags at The Brand Office.

WHEN YOU GO FISHING NEVER COUNT YOUR CHICKENS BEFORE YOU PULL EM OUT OF THE WATER.

Princess Mary, Her New Husband and Replica of Wedding Gown

The wedding of Princess Mary to Lord Lascelles in London proved to be the biggest social event since the coronation of her father, King George, in 1921. These pictures, specially posed, are the most recent of Princess Mary and her husband. The wedding gown and veil are replicas of those worn by Princess Mary in the Westminster Abbey ceremony.

They were made by Reville of London, Dressmaker to Her Majesty the Queen, imported by the Franklin Simon Company of New York, and are here exhibited by Marlon Davies.

Either Coat or Cape-Garment in This

Back of every radical fashion is a fundamental idea which when traced to its source has some particular appeal to woman. Arrival of spring fashions shows the major idea this year to be "two-in-one" garments. The cape-dress and cape-suits are among the newest showings. The idea offers woman a bargain of two garments for the price of one. The newest offering is the coat shown here, which is convertible either to a cape-coat or a smart raglan sleeve sport coat. When sleeves are unbuttoned they form a cape. When buttoned, as shown on the left, a raglan sport model is obtained.

BLEDSE WELLS IS NEAR 4,000 FT. MARK

Drilling continues on the Bledse well near Abernathy, and the 4,000 foot mark is close at hand. Tuesday afternoon the well was 3,800 feet deep, but on account of the blizzard and snow drilling was stopped until yesterday when it was resumed.

The drill is pounding in a very hard formation, which oil men declare looks good to them, and is the same strata found in the Ranger field before the big oil is struck.

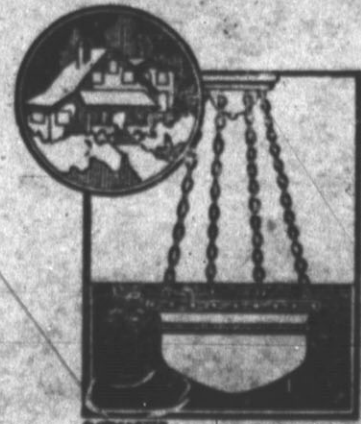

The promoters of the well want to go to 4,500 feet if necessary, and stock is being sold to raise the funds necessary to do so. The well is creating interest so far away as Illinois, as \$200 in cash was received this week from a citizen of that state to buy stock in the company.

There is some changing of leases near the well as the drilling continues.

There is no question but what striking pay oil or gas in the Bledse well would put Hale county "on the map," and make things on the Plains boom. Real estate values would increase rapidly, lease money would flow in, and

The 1921 building permits in Amarillo called for an expenditure of \$1,304,630. Permits for residences numbered 350; 46 for business buildings, and 46 for additions and repairs. The cost of the 350 residences was \$1,007,910.

An egg large enough for an omelet was laid by a Rhode Island hen owned by Mrs. Lizzie Ellenberger, of Emporia, Kansas. The egg weighed seven ounces. It measured 7 by 9 inches in circumference.

Wiring Your Home

Wiring a new house, or an old one for that matter, is a science—and installing electric fixtures an art.

Our work in this line is right up to the minute, and guaranteed. The PRICE is right, too.

SERVICE FIRST is our motto. We earnestly strive to satisfy in furnishing current, in wiring, in courtesy, in ALL our business dealings.

Hereford Light & Power Company
"Your Electrical Servants"

population and new businesses would come in great numbers.

The drillers are very optimistic and say they expect to find oil at any time.
—Plainview News.

BATTERY OF ARTILLERY SIGNED

The battery of artillery being organized in Plainview has signed up fifty-nine members, and Col. Culberson of Wichita Falls of the U. S. army will be here March 12th for the purpose of inspecting the members and federalizing the battery.

The officers of the local unit, which will be Battery A of the Texas National Guard, are Thos. Bay, captain and battery commander; Ethelbert Dowden and Casey Hughes, first lieutenants; Will P. Dowden, second lieutenant; E. Q. Perry, operation officer; Carl Brown, battalion adjutant; Hank Blakemore, first sergeant.

Several sites for armory, stables and corrals have been tentatively selected, and are awaiting the inspection of Col. Culberson.

Following the inspection Col. Culberson will order that requisition be made for guns and other supplies for the new battery, which will be sent here, and the battery begin functioning.

Major Claude Adams of Crowell was here this week and inspected the enlistment papers of the men, and also looked over the buildings selected tentatively for the armory and stables.
—Plainview News.

DESCRIBING THE SALES TAX

H. C. McKenzie, taxation expert for the American Farm Bureau Federation, makes some interesting comparisons in swinging his axe at the roots of the proposed sale tax. Referring to President Harding's recent urging of the necessity of an equitable division among the people of the national income, Mr. McKenzie feels this is not more vital than the use to which the money is put after it is equitably divided. He calls attention to the fact that the income tax group of the American people is really a small proportion of the population, indeed that when it is eliminated there remain about 90,000,000 people with an average income of \$390 a year. Considering the other side of the ledger, the Federal budget for 1922 will amount to about \$4,000,000,000 or about \$10 per capita. Adding state and other taxes,

Mr. McKenzie figures an aggregate per capita tax of \$70 or \$350 for the average American family—a little more as a fact than the average income. These figures offer a striking lesson to the advocates of a sales tax according to the expert. If the revenues were raised by consumption taxes he says the small income tax group would get off with an insignificant payment of taxes in proportion to their income, which is their share of the national wealth. The savings would escape taxation entirely. Men of great wealth spend only an insignificant part of their income on living expenses. The result would be that the poor would pay the piper while the rich danced to the music. The danger in such a system, if this analysis is accurate, lies deeper than that of the financial mulcting of the poor. Behind system of exploiting lurks the danger of revolt. They are the seeds of discontent, the rocks on which nations have been wrecked.

Forty per cent of the developed water power in the world is in the United States where the water wheels have a capacity of 9,243,000 horsepower.

There are 781 miles of main canals in the Salt River Valley served by water from the Roosevelt dam, and there are approximately 5,500 farmers of the lands within the project.

Lamb County has let the contract for the building of thirty-three miles of highway. A good road already has been built along the Santa Fe Railway. The road to be built now connects with this road at two points and opens up new territory.

The Amarillo Cheese Company in business only a few months has met great success. The business has grown so rapidly that the capital stock has been increased from \$12,000 to \$25,000. The cheese is of high quality and is meeting with ready sale, more than 600 pounds being distributed daily.

Not Too Big to Know You!—Big Enough to Protect You

Banking in a community the size of Hereford has its satisfactions. It permits closer business friendships than are ever possible in big industrial and banking centers.

First and foremost, this institution is not too big to know personally every one of its customers. Still it is big enough to give them the same protection offered by the biggest bank in the land.

The same personal friendship and financial protection is here for you, if you will avail yourself of it. We would like to have you a satisfied customer.

An efficient commercial banking service such as we offer means much more than a mere place to deposit money. We are always ready to advise and assist our customers in the many special ways this business has to offer.

Come in. Let's get acquainted.

We are in the market for some well secured cattle loans on the basis of bank balances.

FARM AND RANCH LOANS

Real Estate

We are making a great volume of farm and ranch loans all over the Panhandle. Our expert service is based on the following advantages:

1. Cheaper interest rates.
2. Better terms.
3. More liberal valuations.

Write or phone us, if you want to borrow money on your land.

HEREFORD, TEXAS

In the Great West Mills is made a flour which justifies honest pride in having done a thing the best we know how. This pride carries to the retailer, clear to the housewife, with honest pride in the fine texture, beautifully brown crusted bread.

The Groceries

all sell Great West and Amariyllis Flour.

DODGE BROTHERS COUPE

Ask about the Coupe in almost any American home and you will be told that the members of the family feel they simply could not get along without it.

The simple secret of its great popularity is faithful and unfaltering service at a trivial cost.

The gasoline consumption is unusually low
The tire mileage is unusually high

A. L. (Lee) Biggs

For County Treasurer:

J. J. (or Uncle Joe) Ward

THE BUSINESS WORLD IS AWAKENING

And now we find the retail clothiers
 awakening to the fact that country
 America is the real America and must be
 recognized. What changes have taken
 place in the business world mentality
 when the National Clothiers Association,
 gravely expresses itself as follows to
 the Interstate Commerce Commission:

"We believe that this is not the time
 for a horizontal reduction in all freight
 rates. We believe instead that all
 reductions possible at this time should be
 centered on farm products, farm
 machinery, steel and iron, coal and such
 basic commodities. We believe with
 substantial reductions in basic commod-
 ity rates return to normal conditions
 will be hastened."

"This is a flat recognition of the fact
 that all industries are dependent on ag-
 riculture. Tariff tinkers, industrial
 political economists, scientific theorists
 whose fallacies have swayed the world
 so long, coupled with the selfish butch-
 ers, bakers and candlestick makers of
 American industry have now come to
 realize that they have been mistaken in
 the animal they have been prodding so
 long, and that it is their own ox that
 has been goled."

NOTHING SLOW ABOUT THE FARMER

Interests that for years exploited the
 farmer, taking advantage of the fact
 that he was slow to move—the fact
 being he had no way of bring action
 to a focus—are stunned at the rapidity
 with which he is grasping the first op-
 portunity he has had for business-like
 organization. Already the Board of
 Directors of the National Live Stock
 Producers Association have met and
 have planned their course in establish-
 ing co-operative commission houses at
 the stockyards in Chicago, Indianapolis,
 Cleveland, Buffalo, and Pittsburgh.
 This will not sit well on the stomachs
 of the packers, of course, but it is a sit-
 uation that must be faced and quickly.

The day of selling a calf hide for a
 few paltry cents and buying it back
 again in the form of a pair of shoes for
 \$14 has passed, and the sooner the fact
 is recognized the better.

Representatives of the producers in
 territory tributary to the newly planned
 markets have presented requests for
 co-operate commission house affiliation
 with the national organization and have
 brought forth a mass of startling in-

formation relative to the numbers of
 cattle, sheep and swine produced, fed
 and sold as finished product and some-
 thing definite has been learned regard-
 ing cost finding for the farmer. It will
 not be long before the business world
 will learn that the farmer's middle
 name is efficiency and that he is a busi-
 ness man who has reached the turn in
 the road. He has been pleading for fair
 play for generations. Now he is going
 to get it, and he will move to his des-
 tined prosperity in seven league boots.

SPEARMAN HAD OLD FASHIONED SNOW

The Spearman country was visited
 by a "regular" snowstorm, which ar-
 rived on Sunday night, February 26,
 and continued all day Monday and
 Tuesday. It was the worst blizzard
 and snowstorm since the winter of
 1918. The snowfall is estimated at
 from 6 to 10 inches, and in places it
 drifted to a depth of several feet.
 Spearman had no mail from the out-
 side world from Monday afternoon un-
 til Thursday afternoon—72 hours—as
 all trains on the Spearman branch were
 snowbound. The Spearman-Guyton
 and Spearman-Plemons mail carriers
 have made the round trip once this
 week, going one way Monday and re-
 turning Thursday, and are getting back
 to regular schedule today. The train
 arrived on time from Shattuck Monday
 afternoon but did not get back to the
 main line until Wednesday night. A
 snow plow was sent out to clean up
 the track and it arrived in Spearman
 Thursday at noon, followed by the reg-
 ular train a few hours later. The snow
 plow was over thirty hours making the
 run from Shattuck to Spearman, 81
 miles. Traffic is back to normal now

and no trouble is reported on the main
 line. It would be difficult indeed to
 estimate the value of this great snow to
 the Spearman country, which was be-
 ginning to need moisture very badly.
 Old wheat raisers claim we now have a
 good wheat crop, and a record breaking
 row crop. Farmers will begin the
 spring plowing as soon as the snow
 melts away and an unusually large
 acreage will be sown to spring wheat.
 Cattlemen report light losses. So many
 cattle were shipped out of this country,
 it is not such a task to care for those
 now on hand.—Spearman Reporter.

CHILLICOTHE CON- SIDERING PAVING

The town council is considering pav-
 ing four blocks of Main street, begin-
 ning at the Denver depot and running
 south two blocks to the City Rooms,
 and beginning on the east at the Den-
 ver Hotel and running west to the lum-
 ber yard of Wm. Cameron Company.
 This is a wise step if taken by the
 council and it is estimated that it will
 require only \$250.00 from each property
 owner of a twenty-five foot lot and the

payments are extended over a period of
 three years—which will require less
 than one hundred dollars per year.—

 uously and regularly published for a
 period of not less than one year in said
 Deaf Smith County, a copy of the fol-
 lowing notice:

THE STATE OF TEXAS

To all persons interested in the Es-
 tate of William Henry Bates, deceased;
 Rowland Sydney Goward and Charles
 Henry Spencer have filed in the County
 Court of Deaf Smith County, an appli-
 cation for the Probate of the last Will
 and Testament of said William Henry
 Bates, Deceased, filed with said appli-
 cation, and for Letters Testamentary,
 which will be heard at the next term
 of said Court, commencing on the first
 Monday in April, A. D. 1922, the same
 being the 3rd day of April, 1922, at the

Court House thereof in Hereford, at
 which time all persons interested in
 said Estate may appear and contest
 said application, should they desire to
 do so.

HEREIN FAIL NOT, but have you
 before said Court on the said first day
 of the next term thereof this Writ, with
 your return thereon, showing how you
 have executed the same.

Given under my hand and the seal of
 said Court, at office in Hereford this
 1st day of March, 1922.

Oklahoma produces and sells approximately \$25,000,000 worth of chickens and eggs annually.

Man-O'-War a Proud Daddy

Here is shown a bit of horseflesh which will be watched with a great deal of interest for the next two or three years. It is the first colt from the fastest horse ever bred, Man-o'-War, now retired. The newcomer was born last week in Lexington, Ky. The colt should show just what may be expected of it at two or three years of age. Man-o'-War first showed his wonderful speed as a two-year-old. The colt's mother is Masquerade, herself of very fast blood.

WE BUY CREAM
 See us before Selling.

Mrs. Billy Graham and Mrs. Perry Graham, of the Ham community, have been attending the meeting this week.
 Mr. and Mrs. Robt. Gollehon and Mrs. John Turner spent the day with Mrs. Mayes Miller Tuesday and attended the church services.
 Mr. Cleve Tate is drying the Tulla mail car now.

DAWN

Dawn Literary Society is a success and we do have a good program. Only called three meetings and every one was better than the one previous.

The program committee put one over last Friday, March 3, everyone being especially well pleased with the mock trial. The verdict was agreed upon by the jury and a very unique sentence was pronounced by the Judge. Come and learn more; identify of the defendant, nature of sentence, etc. The jury also was out of the ordinary. A motion for a new trial was made by the defendant on very serious grounds.

There was a good attendance at our Sunday School Sunday.
 Mr. and Mrs. Ed Botts and family were visitors at Sunday School.

Mr. and Mrs. Jess Perkins returned home last week from McKinney, Tex., where they have been visiting.

The Perkins brothers have leased the Leslie Neal irrigated farm and are truck farming. They are about the only ones around here busy. They received their cabbage plants this week, numbering 10,000, also are putting about 20 acres to onions.

The Dawn Chamber of Commerce meets regularly every morning just before train time.

Go To Church—Sunday!

Announcement to the Public
 (By Dr. M. Shaddid, Carter, Okla., Chronic Diseases a Specialty.)
 Many people from Deaf Smith county have written me about their ailments and since it is very difficult for many of them to make the long trip to Carter, have asked for my advice and treatment without personal consultation. But a personal interview with careful examination where necessary, is much more satisfactory. For this reason, and upon the invitation of many of my patients, including E. Renfro, W. T. Smith, J. C. Womble, Tom Wood, L. M. Forrester, R. C. Johnson, Guy N. Smith and others, I have arranged to be in Hereford at Hotel Cordova on March 14, 15, 16 and 17, inclusive. If you have been thinking of consulting me this will be a good opportunity, saving you the time and expense of a special trip. 13-2

LEE SATTERWHITE
EDITS PANHANDLE
CITY NEWSPAPER

Lee Satterwhite, father-in-law of Jim Sanders of Hereford and well known here, has again become interested in the Panhandle Herald and will edit that publication, beginning with the present week. In discussing the change the Amarillo News says: "The 'press gang' of the Panhandle Press Association will be glad to know that Lee is again identified with the 'craft'. Since disposing of the Herald."

Phone 324-F3 P. O. Box 87

The problem of saving lambs deserted by mothers has been solved by a Petaluma, Calif. ranchman. It is in the "mechanical mother" method as pictured above. Feeding lambs by hand is a great task but by arranging nursing bottles filled with hot milk on a rack, the lambs are soon taught to feed themselves. Ewe mothers of twins almost always refuse to feed more than one. The other must be hand fed or starve.

less than a year ago, Mr. Satterwhite has lived in Amarillo and for a part of the time, issued a livestock and farm journal. Later he was identified with the American Farm Bureau Federation as lecturer and organizer.

"Mr. Satterwhite represents this district in the State Legislature, and will be a candidate for speaker of the house at the next session. Up to this time, no candidate has announced against this popular Panhandle representative for the law-making body from this district. Mr. Satterwhite is generally esteemed in Amarillo, in Panhandle and throughout the state, as an able legislator, a valuable citizen and a stable supporter of all movements for the advancement of the interests of this portion of Texas.

"It is understood that within a short time Mr. Satterwhite will change his residence from Amarillo to Panhandle. Miss Mary Bess, who has been here with her father, attending the Amarillo High School, will return to Panhandle when facilities shall have been provided for a family residence.

"The people of Panhandle, it is reported, extended to Mr. Satterwhite ample evidences of the fact that they are happy by reason of the recasting of his plans so that he will be with them again as a local citizen."

COWS AND CONGRESSMEN

If the Department of Agriculture would only find a more effective way of spreading its information to the farmer its research work would more than warrant the national expenditure. Unfortunately, the department depends on archaic methods of contact and so much of the information gathered never reaches the spot it is meant for. For example how many farmers know the results of recent experiments in connection with cows? They have learned after many years what could have been told in a few months, that pure breeds are more profitable than scrub stock. Now it appears to be clearly demonstrated that within the breeds are grades the farmer will do well to take into consideration, when he learns the fact.

Evidence shows that on the average the large cow is of more value than the small one, though this does not always

HARDWARE

When springtime comes the man of the house will be kept busy doing odd jobs. A shelf here, a pair of brackets there, some shingles that have to be replaced—you need good tools to make a good job of it.

WE HAVE THOSE GOOD TOOLS!

of the experiment seems to run true to form. Whether it be cows or Congressmen, the pure breed the good, well rounded specimen invariably spell the best results. The scrubs and wee wee minds should be weeded out of legislative as well as agricultural life.

Go To Church Sunday!

Among the candidates for Superintendent of Public Instruction in Harrison County is Mr. Cyphers. He expects to figure in the race, too.—Dallas News.

Pecans planted near Rowell, N. M., fifteen years ago produced in 1931 a fine crop that sold at fifty cents a pound.

Are You One of Them?

The prosperity of the country is judged largely by the small farmer. WHY? Because the stranger or the prospective buyer observes keenly the condition of the small farmer—if he has fat stock, well kept buildings, fences and land he is at once considered a progressive farmer in a progressive land.
