DEAD CALM IN A HURRICANE? YES NO

In the very midst of a hurricane you'd be safe! Its center is sort of "hollow" ... calm. All weather packs surprises, you bet—especially Winter weather. Yet you can bet on having your aging car face it safely, with the engine's insides under guard of OIL-PLATING!

Changing to Conoco Nth motor oil is all it takes for an OIL-PLATED engine—fortified throughout with lubricant bonded to metal direct, by the magnet-like action of Conoco Nth oil's added ingredient! OIL-PLATED metal defies corrosion and other wear. Surfaces kept OIL-PLATED during long cold waits have protective lubricant ready in advance to minimize starting wear. And always—the less wear, the less reason for carbon, sludge, and breakdown. You bet you want Conoco Nth oil for Winter. Change today.

An Emergency Appeal

From Our Millions Still in Service

YES, the war is over... but not the work of several million G.I.'s!

Ask any soldier what "Occupation Duty" means—and he'll tell you it may be the most important job in the army right now, but one of the dreariest ones.

He'll tell you the novelty wears off soon, being in a strange country among strange people. That the Main Drag in Tokyo or Berlin can't compare with Main Street in Topeka or Boston.

There are millions of boys thousands of miles from home who'd give anything to listen to an American song, hear American jokes, or talk to an American girl again.

That's why the U.S.O. cannot and must not quit. Your dollars must keep it going. For if ever those boys needed a lift and a laugh, they need it now!

The need is so urgent that General Eisenhower asked U.S.O. Camp Shows to quadruple its activities after

V-E Day to take care of the boys in Europe. And similar entertainment plans have been made for our forces in Japan and throughout the lonely Pacific outposts.

But that's not all...

U.S.O. Camp Shows also entertain the troops in transit... at debarkation and separation centers. U.S.O. Clubs and lounges in the States, Alaska, Hawaii, the Philippines, and many other bases, give the boys "a home away from home." Some 500 U.S.O. Clubs are located near military hospitals... and special Camp Shows tour the wards... to keep the wounded on the sunny side.

Yes, millions still in service are depending on YOU for a bit of cheer. For a large part of every dollar you give to your local Community Campaign goes to support the U.S.O.

The need is greater than ever. So try to give more than ever, won't you? Show the boys you haven't forgotten them!

THIS WEEK... AT THE USO

One of the highlights at the USO center this week, was the luncheon, on Tuesday given by the wives honoring Mrs. Olson. The luncheon was served buffet style. The center piece was a lovely pink-iced Angel Food cake, which was made and given by Mrs. Oldham. It was not only beautiful to look upon but was extra super-delicious. Crisp, brown, southern-fried chicken was another special feature. During the luncheon hour, Mrs. Olson was presented with a War Bond and a box of personalized stationery, from the wives. Following the luncheon, kodak pictures were made by Mrs. Meacham, and Pfc. Polonsky.

Can you beg at a kitchen door for your supper?

The chuck-wagon Supper was a success and our sincere thanks to all who had any share in making it so. Especially do we thank Pink H. Gilliland for the delicious Chuck-wagon beans he prepared.

Not only have we said goodbye to Mrs. Olson, but a number of our Servicemen have left. Some for new locations, others for separation centers. The Whitvers have gone to Amarillo, (Mrs. Whitver was the one who did the instructing in shell-craft) and the Kendalls are going to their home, near Wynoka, Okla.

Tradition has always had it that women folk are the ones who collect and store up, numerous and sundry things, and have the most bundles and packages but—we are about to become convinced that such is not true, as some of the fellows who left this week, had as many bundles and packages as ever Aunt Minerva ever had after a shopping trip.

Did you ever go Hoboeing?

Mrs. Jed Miller of Canadian, who has been visiting her husband's people at Dawn, (Jed's in the Pacific) came in for a visit and to see the shell-craft items. Before she left she had purchased shells, pins, and combs.

The GSO Sponsors met for a committee meeting Saturday afternoon. Upon the resignation of Mrs. W. S. Fluit, as chairman, Mrs. T. D. Stambaugh,

was elected to serve as Chairman of all GSO activities. Mrs. Fluit has served most faithfully and efficiently and to her we say, "Sincerest Thanks." In Mrs. Stambaugh we know we will find a splendid chairman. The other sponsors are Mrs. W. E. Dunlap and Mrs. Paetzold. Plans and reorganization were discussed. These ladies have done and are doing a good work, and they with the GSO girls are greatly depended upon.

Can you beg for your supper? Thanks to Ercel Young, our radio is now in good working condition (it has been broken for several days). The servicemen gather 'round to listen in on the Baseball series. The excitement was very high Monday when the game was so tightly tied up, even the Hostess became interested and excited. Some of the fellows are from Detroit, others come from Chicago, so you can know they listen with real interest.

This week Mrs. Lyle Blanton and Mrs. J. J. Buckner sent down fresh cookies right out of the oven, they were really delicious and disappeared as fast as fresh fallen snowflakes on a hot roof.

NOTE—We now have some shortening and brown and white sugar that you can buy at a nominal cost, if you would like to bake cookies for the USO cookie jars. Some of the fellows go as regularly to the cookie jars, as they did at home, (they say it makes them think of home)

Real loyalty was shown by one of the volunteer hostesses recently. She was out of town, and when she realized she was not going to get back in time to report for her hours at the USO, a telegram was sent to her husband asking him to call the Hostess and say that she would not be there. That is the type of people who serve our servicemen at Hereford's "Home Away from Home."

A hearty welcome to the new men coming to the POW camp. It's nice having you, and we do want to know your names and to render any service we can.

YES! There's to be a Hobo Party Monday night. Fun and frolic for all, ou'll miss a good time if you do not join the group at the USO—7:00 P. M. The GSO girls will get to see and listen to the fellows—beg or bargain for their supper.

Only a question of time...

Telephone factories are already turning out some of the equipment needed to serve the 246,000 persons waiting for telephones in the Southwest at war's end.

That stream will grow mightily in the months ahead. It will move slowly for a while of course. It takes time to manufacture and install new apparatus.

A telephone alone contains 248 precision parts. Switchboards and dial central office equipment for only 10,000 telephones must be designed to handle nearly 50,000,000 possible interconnections.

But we've made a start. We've turned the corner. We're on our way. Every month ahead brings us closer to serving all who want telephones without delay.

"Death by Miscellany" Revealed as Principal Cause of Demise Among Deaf Smith Countians

If you live out your life in Deaf Smith County you will have approximately one chance in three of meeting death by a "miscellaneous" cause.

For the miscellaneous classification, which includes such diverse death causes as premature births, suicides, homicides and all types of accidental deaths, is the leading cause of death in Deaf Smith County as recorded in a report based on official records from the county clerk's office.

However, if you will just beware of "miscellaneous" dangers, the records point to the fact that you will have a better than average chance of living to maturity in this county. And your chances of falling victim to such diseases as heart disease, cancer and tuberculosis will be comparatively low—at least lower than the average figures reported for the state of Texas in 1944.

Records Back to 1903
Records in Deaf Smith County, dating back to 1903, show a total of 1160 deaths, of which 376 were due to "miscellaneous" causes, 200 listed as caused by heart disease, 108 by pneumonia, 82 by kidney diseases, 63 by cancer, 51 by old age, 45 by appendicitis or peritonitis and 41 by tuberculosis, listing the nine main causes as revealed in the report.

A percentage comparison with figures published by the Texas State Department of Health for 1944 shows 21.7 of the deaths in the state caused by heart disease as compared with 17.2 per cent in Deaf Smith County. The State shows an average of 9.1 per cent of deaths caused by cancer, while in Deaf Smith County the average was 5.4 per cent. Tuberculosis accounted for five per cent of the deaths in Texas last year, while the average in Deaf Smith County over the 42 year period covered is 3.5.

Comparisons are Difficult

Admittedly no strictly accurate comparison can be made, due to the difference in period covered by the two reports; but the report in Deaf Smith County was made in response to many requests for information received here and seeks to answer the questions most frequently asked, which relate principally to the incidence of certain diseases in this community and also to the incidence of such diseases among native-born inhabitants as compared to persons who have come here from other sections of the country.

Concerning this latter question, the report shows that of the 1160 deaths recorded since 1903, only 117 were native-born inhabitants. This comparison, however, will be of greater significance in later years; for Deaf Smith County is still a "new" country and the average age of native-born residents is still low.

Maximum Age—96

Odd bits of information included in the report include a maximum age of 96 years at time of death; and the fact that in Deaf Smith County, as elsewhere in the world, the ladies bear the title of "the weaker sex." Of adult deaths, 518 were men, 384 women.

And though Deaf Smith County shows a slightly higher average of deaths due to kidney disease than does the State as a whole (the comparison is 8.2 per cent in Deaf Smith County—6.2 for the State) residents of Deaf Smith County have a much better chance than average of having their demise ticked off to that all-enveloping

cause—"old age"; for 44 per cent of Deaf Smith Countians have died from such a cause, while the percentage in Texas last year was 18.

But a warning word should be inserted about the joker in that comparison. Evidently pioneer doctors were far from agreeing that "life begins at 40," for they classified one death at the age of 60 as being caused by "old age."

All of which may prove much or nothing but at least indicates that Deaf Smith Countians have a fair chance of reaching the proverbial three score and ten—provided they observe all the superlatives about accidents—and maybe make a more thorough study on the subject of exactly what constitutes a "miscellaneous" cause of death.

Plans to Create

(Continued from page 1)

gymnasium. Cost of the proposed construction was set at approximately \$280,000, based upon estimates by Macon Carter, Amarillo architect.

"These improvements would place Hereford in a position to take care of the present enrollment," Mr. Strickland said, "but any substantial increase would put the schools back in the same situation they face today."

Regarding increased costs (see table), Mr. Strickland pointed to an increase of approximately \$36,000. This amount including the present \$9,820 deficit would result in the need of \$36,000 in additional funds each year, he said. It was also pointed out that such an amount would almost double present tax valuations in the Hereford Independent School District.

Questions from the floor were frequent, and a general expression cited present troubles as being due to the fact that the Hereford Independent School District, composed of 72 square miles, was furnishing education for a large portion of the 1,500 square miles in Deaf Smith County. The possibility of consolidating into a large district was introduced and discussions varied from a district composed of 500 square miles to the entire 1,500 square miles in the county.

Valuations in the Hereford District were cited in three variations: \$30.25 and \$20 an acre. Several surrounding districts were said to have valuations varying from \$20 down to \$5 per acre and rural patrons of the Hereford District rose to the floor to add that surrounding districts also had transportation while the Hereford District did not offer this service.

General opinion of those present was for Hereford trustees to discuss the possibility of consolidation with surrounding districts, leaving valuations in the Hereford District as they now stand and imposing a \$10 to \$12 average valuation on the new areas, working on a graduated scale.

Discussion regarding voluntary consolidation by other districts followed and County Judge Fred W. Baird gave statistics on the cost of educating students in districts which are now transferring into the Hereford District. Basing his figures on the 1944-45 enrollment, Mr. Baird showed that the cost of educat-

ing one student one year in the Hereford Schools was \$59.15 instructional costs in the grade school and \$117.05 in the high school. He said the transfer districts paid the Hereford Schools \$48.73 for each grade school student and \$73.03 on each high school student, resulting in a loss of \$10.42 each year on each grade school student and \$44.02 each year on each high school student. He also emphasized the fact that these figures did not cover debt service on buildings, alterations, general expenses, etc., which were estimated at an additional \$15.17 on each grade student and at \$35.61 on each high school student.

Despite these differences, however, Mr. Strickland pointed out that Hereford would be faced with a building program even if these transfer students were not included.

Opinions which followed were varied. Some persons felt that neighboring districts would oppose consolidation; others declared that unless consolidation followed, the neighboring districts would no longer want to send their children to the Hereford Schools because their work would not be recognized by colleges; still others indicated that neighboring schools would want to consolidate, enlarge on the present building program, add new and needed courses in shop work, vocational agriculture and specialized trades.

General expressions throughout the meeting indicated that patrons felt the school board was being too conservative in their building program; that a second grade school should be constructed now and an effort be made to place the Hereford

Schools in a position to serve the territory efficiently for several years to come.

Mr. Strickland expressed appreciation on behalf of the board for the friendly and intelligent manner in which the patrons discussed the needs of the schools and stated that the board would carefully weigh the suggestions.

FAMILY GET-TOGETHER

For the first time since the war began Mr. and Mrs. Roy Wagner's seven sons were reunited in a family get-together at their home Sunday.

They included S-Sgt. Lawrence Wagner who received his discharge from the U. S. Army last week and returned home from the Hawaiian Islands, S-Sgt. Lester Wagner, who wears the Purple Heart medal for wounds received in the African campaign and who is also discharged from the army; the five sons at home, Clyde, Keith, Glenn, Gerald and Donald. Also present was Donald's twin sister, Doris.

There are two sets of twins in the family. The twin-sisters Louise and Lucile, now Mrs. Wm. Mazzucco of Los Angeles, Calif., and Mrs. Wm. Black of Amarillo, respectively, were unable to be present.

Mr. and Mrs. Harry Seed returned Saturday from Hutchinson, Kans., after a visit there with her sister, Mrs. J. E. Beyer, Jr., and family. Mrs. Seed spent the past three weeks with her sister and Mr. Seed went to Hutchinson a week ago to make the return trip overland.

A short business session was held when the time of meeting was changed from 3:30 to 3:00 o'clock and the meeting was turned over to the program committee. Mrs. Henry Benson in-

troduced the guest speaker who gave a splendid background for the programs to follow as she told of the manner in which poetry and prose come out of war to reflect the trend of the times and changing public opinions. She mentioned Stephen Vincent Benet, Carl Sandburg and discussed the poetry of Christopher LaFarge. In conclusion the speaker gave a brief review of Russell Davenport's, "My Country," outlining the author's pattern of Americanism and advocating the use of the book in every home.

Up from the Meadows Rich with Corn

BUY VICTORY BONDS

ONCE again the folks who feed the nation are harvesting one of the great crops of our history, and the record-breaking harvest of these war years has been produced by fewer people maintaining top production on more and more acres.

The progress that has been made in agriculture in recent years is almost unbelievable—corn yields of well over 100 bushels an acre, a rarity a few years ago, are now common; the production of ton-litters of hogs in less than 6 months after farrowing is no great problem now; hens that lay more than 200 eggs a year are not hard to find; and there are dairy cows with records of well over 30,000 pounds of milk and 1,000 pounds of butterfat annually.

All of these advances in the production of food have played an important part in the building of America to its present greatness and to victory in the war.

Back in the days of George Washington, one farm family was able to produce enough food for itself and one other family. Today each farm family in America can produce its own food and enough for 19 other families. This tells the story of the American harvest. And it is a story unique in world history.

We at Swift & Company salute our farmer and rancher friends for their great achievements and we are proud to have had a part in the preparation and distribution of the fruits of the harvest to Americans everywhere.

MEET THE WINNERS! Hundreds of letters were received in our contest for the best letter on this series of Swift advertisements. The judges have awarded first prize of \$50 to 2nd Lt. Carroll M. SOFT CORN INTO HARD CASH

Corn that gets "cooked" by frost before it matures is still valuable feed, especially for cattle. Here are several ways to turn soft corn into hard cash, listed in the order of their value to the feeder: (a) Make ear-corn silage. (b) Feed ears with stalks, chopped or shredded. (c) Turn cattle and hogs into vanding corn. (d) Leave in field and pick ears as needed rather than risk spoilage in storage.

Three main precautions in feeding soft corn are: (a) Change to soft corn ration gradually. (b) Feed a protein supplement. (c) Feed before freezing weather, if possible.

We'll be glad to tell you where to get detailed information on soft corn feeding. Write Swift & Company, Department 128, Chicago 9, Illinois.

THE EDITOR'S COLUMN

When the war began, Swift & Company adopted the following wartime policy:

"We will co-operate to the fullest extent with the U. S. Government to help win the war. We will do everything possible to safeguard the high quality of our products. Despite wartime difficulties, we will make every effort to distribute available civilian supplies to insure a fair share for all customers everywhere."

Under the present conditions, meat packers

know that there is no profit advantage in shipping meat long distances as compared with selling it nearby. OPA regulations set prices, by zones and areas, that meat packers may charge for beef, lamb, veal and pork. The United States is divided into ten zones for beef, lamb and veal and five for pork. Each has its own base price for each kind of meat. Additions to the base price are allowed for transportation and local delivery. These allowances are the very minimum and in many instances do not cover the actual cost of transportation, icing, and shrinkage.

Consequently, meat packers are better off when they sell close to their producing plants. In general, the net money they receive is greater the closer to the plant the sale is made. But despite this, Swift & Company has voluntarily adhered to its wartime policy of fair distribution. Starting in July 1945, all meat packers were required by OPA regulations to distribute their meats to the same areas they did the first three months of 1944.

DO STEER CALVES GAIN FASTER?

Do male domestic animals grow faster and reach a greater weaning weight than females? This question is the basis of an interesting experiment conducted with beef cattle by Marvin Koger and J. H. Knox, New Mexico, A. & M.

They kept records of weaning weights of Hereford calves from the Experiment Station range herd from 1936 through 1943. Most of the calves were dropped in April of each year and all lots were weaned at approximately the same time each year, in October and November, depending on the feed supply and other factors. The sexes were not separated until weaning time and the bull calves were castrated about June 1.

The records reveal that of 419 steer and 444 heifer calves the steers averaged 443 pounds and the heifers 411 pounds at weaning age. The calves of 12 sires were kept track of and in all cases the steers averaged heavier than the heifers.

It was also determined that, except for the first two years when the number of calves was small, the bull calves were dropped an average of five days later than the heifers.

Bake in a moderately slow oven (325° F.) for 20 minutes.

Streu's Diary DEAR DIARY: I don't feel much like writing today - things look - not so good - from several standpoints. To begin, it looks like more rain - good for the country - but depressing on the spirit. Then the strike situation - if the coal strike is not cleared up soon, many companies dependent on coal for fuel will close for periods of three months to a year - or until things level off. Went to Amarillo Saturday to look for merchandise - there is less in the wholesale houses there than at any time the last four years. Looks rough from here. In spite of the above sour notes, we are not entirely out of merchandise - we still have gas heaters and ranges and water heaters to sell. We have the most complete gift goods displays we have had this year - and we have invoices on several dozen more pieces of good enamel ware. For the first time in a long time, we have plenty of wood sucker rod in stock. Will have a new pipe threading machine in service soon - means better jobs and faster work. Plans are going ahead for a long range remodeling of the store which will display much more merchandise and better serve the community. Folks do not have to leave Hereford for gift goods and hardware - if it's available, Streu's will have it. Have you given to the County War Fund? ... Do it today! STREU

Herd Hits Conference Stride With Win Over Chieftains

Making their first touchdown after just four plays in the first quarter, the Hereford Whitefaces galloped roughshod over the Friona Chiefs Friday night for a 45 to 0 victory in which the entire squad got a workout.

With Close recovering a Friona fumble, the Whitefaces followed up their opening score by a second touchdown by Worrell and made their third score of the game via the aerial route when Right End J. B. Sowell snagged a long pass and took it to pay dirt.

In the second quarter the Chiefs made their initial first down, later lost the ball when Davis recovered a Friona pass. A pass to Left End Raymond Lueb netted 30 yards to take the Herd deep into Friona territory; and with the Whiteface line doing a precision job on the Chiefs, Davis went over for the touchdown with Worrell's kick good for the extra point.

With the score standing a 26 to 0 the Hereford subs began to come in in quantity even before the half, with Whitaker and Higgins getting backfield assignments, Williams and Simmons, tackles, and Rogers, guard, also got experience in the first half.

In the third quarter Friona again lost the ball to the Whitefaces without making a scoring threat; and a touchdown by Lueb putting the score at 32 to 0 was the signal for the Hereford second string to take to the field in force.

Mrs. Burk talked on desirable personality traits and Mrs. Melton talked on undesirable personality traits. Miss Bonnie Miller was a guest. The floating prize went to Mrs. Chas. Hoover. Members present were Mesdames Claude Bogle, Phillip Miller, Henry Melton, Chas. Burk, Edd Thomas, Chas. Hoover, Frank Rickels, Roy Pruitt, N. D. Bartlett and the hostess.

LUNCHEON CLUB MEETS

Wednesday Luncheon Club was entertained at the home of Mrs. Jimmie Gilentine last week. Button zinnias and other fall flowers were used on the table from which the luncheon was served. Mrs. H. K. Fox made high score and Mrs. W. L. Davis second high in contract games after the luncheon. Special guests of the club were Mrs. H. A. Close and Mrs. A. R. Bate-man.

Members attending were Mesdames C. C. Acker, W. L. Davis, Oscar Easley, J. A. Pitman, W. C. Pitman, H. K. Fox, and the hostess.

An end run by Bishop covered lots of territory but resulted in no yardage gain and the Whitefaces lost the ball on downs, but regained it in two plays from threat by the Herd ended in a touchdown run by James Ellis Higgins, but the ball was called back.

Back into the game in the last-quarter, the Hereford first string bagged two more scores late in the game. Bob Davis sprinted 70 yards to cross the Friona goal, and the kick was good. Back in scoring position in a few plays, Worrell ran the final touchdown over with Lueb's kick wide, to leave the score at the final gun 45 to 0 and the Whitefaces with a perfect start toward district honors.

The Hereford first team put on a first rate exhibition, with Cakes, Orr, Dyer, Easley and Hagar taking on blocking and tackling tasks like veterans. Raymond Lueb, a fast runner

and an accurate man on the business end of a pass, also held a high average on every line assignment, with J. B. Sowell, right end, also turning in a top performance. In general the backfield functioned like clockwork under the smart generalship of Joe Bishop. Left Half Fred Close, in addition to "setting 'em up" for two scores was doing his best tackling of the season.

Williams, Simmons and Rogers, sub linemen, are beginning to look like first string material; and Higgins and Whitaker

in the backfield functioned smoothly. Other squadmen, Gilbert Carlyle, Buddy Corbett, Roger Corbett, Bobby Millard, Bobby Carnahan, Joe Lyons, Neely Kimbrough and Bill Bradley were in the game.

Do it with Diesels on the Santa Fe

Hauling heavy freights over the steep mountain grades calls for plenty of head-end power. Santa Fe is providing a lot of that power with the greatest fleet of 3400 horse-power Diesel locomotives in American railroading. 80 of these blue and yellow giant "head-ends"—the most powerful freight Diesels in the world—are now in operation on the Santa Fe. This dieselization program is one of many important steps by Santa Fe in providing the most modern freight equipment for the peacetime transportation needs of America's West and Southwest.

NOW 4 POINTS FOR USED FATS

Help Increase Supplies of Soap and Other Peacetime Products By Saving More Used Fats

Industrial fats far short of last year! We are almost down to the bottom of the barrel. The nation's industrial fat supply is millions of pounds less than it was in 1944. We need fully as much as last year to help make the soaps and other civilian goods you want and need so badly. So . . .

If you want more soap and soap flakes . . . if you're dreaming of nylons, sheets, cotton fabrics and want them to hurry back to the store counters . . . you can help by saving those used kitchen fats as you never saved before! Save every drop, every day!

These fats are vitally necessary to help speed greater supplies of soaps and hundreds of other things—like new cars, electric washers, irons, refrigerators and tires. Industry must have these fats . . . to help get to you more quickly the peacetime products you've been longing to have for years!

So skim and scrape and scoop just as you did so faithfully before V-J Day. To prove how important it is, your government has increased the point bonus. So help meet this nation's need by continuing to save used fats. If you can't find a store that accepts used fats, call Home Demonstration or County Agent.

have shown that much of this land is again being plowed and the result will be unfortunate, both for the farmer who is trying to cultivate the land, and for his neighbors whose fields stand in danger of being buried, Bateman emphasizes.

In other sections of the country, the county agent points out, a "clean" field is evidence of a good farmer, but in this territory vegetation must be left in the field to prevent blowing and clean following is a practice to be avoided.

Bateman urges newcomers to consult with their neighbors and find out the history of the land before breaking up grassland. Some pasture should be left on each farm to support the livestock which every farmer should have, he states.

one game with Spearman, 6 to 6. The Wolves lost to Phillips by a top heavy score and were also defeated by Clayton, though they put up a good fight in the first half of the Clayton game which promises them to be no pushovers for the Hereford gridsters.

Only casualty on the Whiteface squad is Joe Lyons, substitute end, who is suffering from a badly sprained ankle. Otherwise, Coach Stanton states that the Whitefaces will be "ready to go" and hopes that the game will provide another opportunity for practice for some of the second-stringers who are rapidly developing into starting line-up material.

Game time is eight o'clock; and Hereford fans, who are getting enthusiastic about their team's chances in conference play, are expected to turn out in force.
