## SECOND PRIMARY ELECTION TOMORROW--VOTE HER STRAIGHT

### SOLONS AT STATE CAPITAL

Much Doing in Austin—The Constitution Uearthed—The Governor Continues to Submit Messages

Austin, Texas.—The dogs of war turned loose and the factions are tearing at each other with naked ferocity, Texas makes a magnificent battle ground for politicians. We have over a million acres of idle farm land which can be used for maneuvering purposes; our manufacturing plants are not sufficiently numerous to interfere with the march of combatants; very few mines obstruct the progress of war parties and armies can march for 150 miles in some parts of the state without having to cross a railroad but those who are engaged in pursuit of office must have war and and as the tax payer foots the bill, he is entitled to applaud or condemn, according to the dictates of his own conscience.

This week will find most of the solons attending the State Democratic Convention at Galveston. It is rumored that an effort will be made, through the medium of a platform demand, to hitch the Democratic Donkey to a plow, but the animal is so accustomed to being ridden by politicians that those who are skeptical express a doubt as to the beast being able to adapt itself to a useful occupation. But every one knows the donkey as a sure-footed beast and when once it gets in the right path it will make two blades of grass grow where one grew before.

The Senate showed a disposition to eat out of the Governor's hand by declining to confirm the appointment of W. E. Hawkins as Commissioner of Insurance and Banking, but that august body suddenly turned their heels on the Governor in refusing to confirm the appointment of C. H. Jenkins as Associate Justice of the Court of Civil Appeals and also the appointment of Jao. A. Mobley as Assistant Attorney General, calling the attention of the Governor to a provision of the Constitution which prohibits members of the Legislature from accepting other positions of emolument from the state and these gentlemen being members of the 31st Legislature were therefore, ineligible to the appointments. We have been so busy passing laws that we had not had time to read the Constitution and the unearthing of this document in the Senate has caused some uneasiness among the lawyers and professional office men.

The Governor has so far submitted messages which contain subjects for legislation and it is growing like Jonah's gourd. The messages cover a wide range of subjects from regulating a railroad to a Negro Insane Asylum and there is said to be more to follow. The Legislature, called in special session to repeal the Fire Rating Insurance Law, has been in session three weeks and the bill repealing this law has not yet come out of the committee room.

A hard fought battle is being waged over the liquor regulation bills and the prohibitionists have been running the steam roller the antis at will in the house but the giants have been wielding the big

### COLLEGE OPENS SEPTEMBER 14

President D. A. Shirley Makes Announcement as to Faculty New Board Meets.

At a meeting of the Board of Trustees of Hereford College Wednesday afternoon Prof. D. A. Shirley for the past two years professor of history in the college, was elected as president of the school and a tentative agreement was made with him. This was occasioned by the resignation of Prof. E. M. Haile, and while the Board and patrons regret to lose Mr. Haile, they feel fortunate in securing Mr. Shirley as a head for the institution.

This change has been in contemplation for two weeks, but no final decision was reached until the board was organized with several new members.

When seen Mr. Shirley stated that a part of the old faculty would return: Miss Rhone for the piano department, Miss Carter for the primary, Mrs. D. A. Shirley for advanced English, Mr. Bridges for the business school. Mr. Shirley is now in Fort Worth making final arrangements for the faculty, and competent teachers will be secured.

The board as it now stands with the several new members is as follows: R. H. Norton, Pres., T. E. Shirley, E. B. Black, L. Gough, J. D. Jarrott, G. M. Suggs, Eli Dunlap, R. J. Kabe, A. W. Gregg and A. H. Elliston.

Already a number have made inquiry about attending the College. Many of the students of last year have signified their wishes to enroll. A more general interest has been manifested and the people of the town are getting in line to assist the school in a substantial way.

The school will open Monday, September 14, if sufficient encouragement be given the board. The finance committee is at work and they intend to be able to report their results by Saturday, when it is hoped sufficient backing will be secured to insure the school for the year.

instrument in the Senate and no prohibition legislation has been passed and none will likely be unless the anti break ranks. There has been considerable campaigning in the press which appears to serve present purposes of those responsible for the present purposes of those responsible for the war law.

The Commercial Secretaries came in for a vote of thanks from the Senate for the valuable literature they have been furnishing the members of the Legislature.

The State Democratic convention will make a gap of a few days in the work of the Legislators as most of the members will attend the Convention, but it is yet possible to clear the docket, as it now stands by August 19th, although it is freely predicted that there will be another call session.

Tucker Wyche, son of Mr. and Mrs. J. S. Wyche, of Hereford arrived Monday to spend the rest of the summer and his vacation with home folks. Tucker graduated at A. and M. College the past year, and is now preparing for actual business life.

### REVIVAL MEETING GROWS IN INTEREST

Large Crowds Each Service—Evangelist Preaching with Earnestness and Zeal.

Sunday night was the banner attendance at the big tabernacle meeting. Every available seat was in use and a large crowd stood around near enough to hear the speaker. The crowd was estimated at 1,300. Rev. Andrews was at his best and after the song service began a most interesting discourse.

Each night the revival grows in interest. All the pastors of the town are taking an active part in the services and church members regardless of church affiliation are aiding in the success of the meeting.

The morning services are well attended, in fact, better than at any meeting ever held in Hereford. The business men turn out in goodly numbers. The men's prayer meeting at 4 o'clock each afternoon at some business house is a new feature started this week. The first one held was at the I. O. O. F. Hall. The ladies are also holding afternoon sessions in their homes. Each division of the town has a separate session. The young ladies hold a session at one of the churches.

Up to this writing a large number of persons have gone forward to manifest their desires, and some 40 persons have made a confession of their faith.

#### Go To Del Rio

Mrs. J. L. Barnes and daughter, Jewel, and Miss Lulu Wood, left for St. Louis on Tuesday, where the ladies will purchase a complete stock of ladies' furnishings including millinery, and have it shipped to Del Rio in the extreme southwestern part of the state. Here the ladies expect to conduct a ladies' furnishing store.

Hereford can ill afford to lose these good people from her borders, but since they have decided to go to new fields of labor, the very best wishes for their success follow them.

Mr. Barnes will leave for Del Rio in a few days.

#### Who Will Plant Cotton?

A number of farmers have expressed a willingness to plant cotton next spring provided a gin is erected. The Brand has announced that a gin of sufficient capacity will be built. For the purpose of obtaining an estimate on the number of acres that will likely be planted. The Brand wants the name of every farmer who will agree to plant. The following names head the list—J. F. Dollar, 50 acres; J. R. Hastings, 10 acres; J. A. Fox, 10 acres.

An early maturing variety will be secured. Let others send in their names and the number of acres they will plant.

#### 100 Bushels of Plums.

L. R. Bradley in East Hereford has a bounteous crop of plums. His orchard contains about a dozen varieties and all the trees except a few are loaded with the tempting red ripe fruit. It is estimated that he will have over 100 bushels for the crop.

Mrs. E. W. Roberts and children left for Beloit, Kansas, on Tuesday for a visit with Mr. Roy Dalhart on a few days visit, then

### PORTALES' BIG WATER DISPLAY

Will Celebrate The Installation of Her 10,000 Acre Irrigation Pumping Plant

August 18, 19 and 20, is the date set for the celebration of the 10,000 acre pumping irrigation project, located at Portales, New Mexico. The celebration will include the following interesting features:

Hearing the invited speakers which list includes Gov. Mills, Chief Justice Pope, Hon. F. G. Tracy, Hon. G. A. Richardson, and Territorial Engineer Vernon L. Sullivan. These gentlemen will address the visitors and citizens at the court house on each evening of the celebration days.

A demonstration of the capacity of the electric power plant and the pumping of some forty or more of wells which are delivering from 1200 to 1,500 gallons of water per minute on the farms.

A full quota of western sports including roping contests, racing, broncho busting, baseball and other exciting features.

A big basket picnic dinner to be spread on the court house yard in Portales, Friday 19th, in which the visitors will be joined by all the people of Portales Valley who will come with well-filled baskets.

The Portales Land & Development Co., will sell at auction to the highest bidder 1,810 acres of land which they purchased in order to complete the 10,000 acres of the project. The sale will take place Saturday morning at 9:30 o'clock on the court house lawn at Portales; Mr. T. J. Molinari auctioneer.

In addition to reduced rates on all railway lines, there will be free automobile transportation to the power plant and the wells and all other arrangements for the convenience and comfort of the visitors.

#### Swiped the Melons.

Imagine how you would feel after spending a lot of hard work in raising a fine patch of melons to find that, just as the melons were getting ripe, some miscreants had swiped the best ones. This is what happened Saturday night.

A certain industrious man who lives in East Hereford had a few fine melons which were ripening. He went out Sunday morning to pull two or three and was contemplating a sweet juicy treat when he found that four of his biggest and best had been stolen. One had been slaughtered on the sidewalk, another carried further down the street and still another near the lake. The owner thinks that the melons were taken by nearly grown boys as the size of their foot prints showed good sized shoes.

Now, young men, if this shows your full appreciation of what you ought to be, continue steadfastly in this course. No doubt, you would feel highly insulted to be called a thief but be careful as to the name you attach to water melon swiping. If it is wrong to steal a horse it is wrong to swipe a melon.

Be careful young men as some folks are easily scared and might appear on the scene with a shot gun might unthoughtedly poison a few

### YET DANGER FOR GAYNOR

Mayor's Condition Such as to Occasion Anxiety, Although He is Now Resting Quietly

New York, Aug. 10.—The condition of Mayor Gaynor, who was shot and seriously wounded yesterday by J. J. Gallagher, a discharged city employe, continues a source of great anxiety, though the first bulletins of today were hopeful in tone.

The mayor is reported resting comfortably but the physicians have not yet announced the patient out of danger.

Consultation today will determine whether it is necessary to perform an operation to remove two fragments of bullet which remain lodged in the neck.

The wound itself is not giving serious trouble, but the doctors are watching it closely for signs of infection.

An X-ray examination last night showed that the bullet had split after entering the head. One section is apparently lying in the floor of the mouth near the left wing of the jawbone, while the other remains near the entrance of the wound behind the ear.

Gallagher, the would-be assassin, was guarded carefully in his cell in Hoboken jail all night to prevent any possible attempt at suicide. Gallagher shows no remorse for his attempt on the life of the mayor and seems to regard himself as a hero.

Prosecutor Garven of Hudson county, N. J., this morning began preparation of the case against Gallagher. The grand jury is still in session and according to Garven's plans, Gallagher will be on trial not later than the first of next week.

"The trial will be short and a verdict will be reached by the jury in record time," said Garven this morning. "Gallagher will probably be tried on a charge of assault with attempt to kill. The maximum penalty for this is twenty years. Under the commutation rule this means twelve years."

#### Dry Farming Congress.

All arrangements have been made and an excellent program now completed for the Texas Dry Farming Congress to be held at Eagle Pass on August 17, 18 and 19.

Almost all the southern and southwestern counties have appointed delegates and signified their intention to make exhibits of the dry farm products of their respective counties at the Exposition to be held in connection with the Congress. Special rates have been made on all roads and a great gathering is assured of farmers, truckers and all who are interested in the agricultural development of south-west Texas. In addition many delightful entertainments have been provided by the citizens of Eagle Pass, including an old fashioned Sexos roping contest, and bull fights in C. P. Diaz, baseball games, receptions, and smokers the whole to wind up with a very low-rate excursion to the interesting Mexican city of Monterey.

Mrs. J. O. Minter and children of Madill, Okla., arrived Tuesday for a visit with Mrs. S. E. Ramey, mother of Mrs. Minter, and who lives near Dimmitt.

# GREATNESS OF THE LONE STAR STATE

Texas an Empire in Area, Population, and Commonwealth of Opportunities

(Continued from week before last)

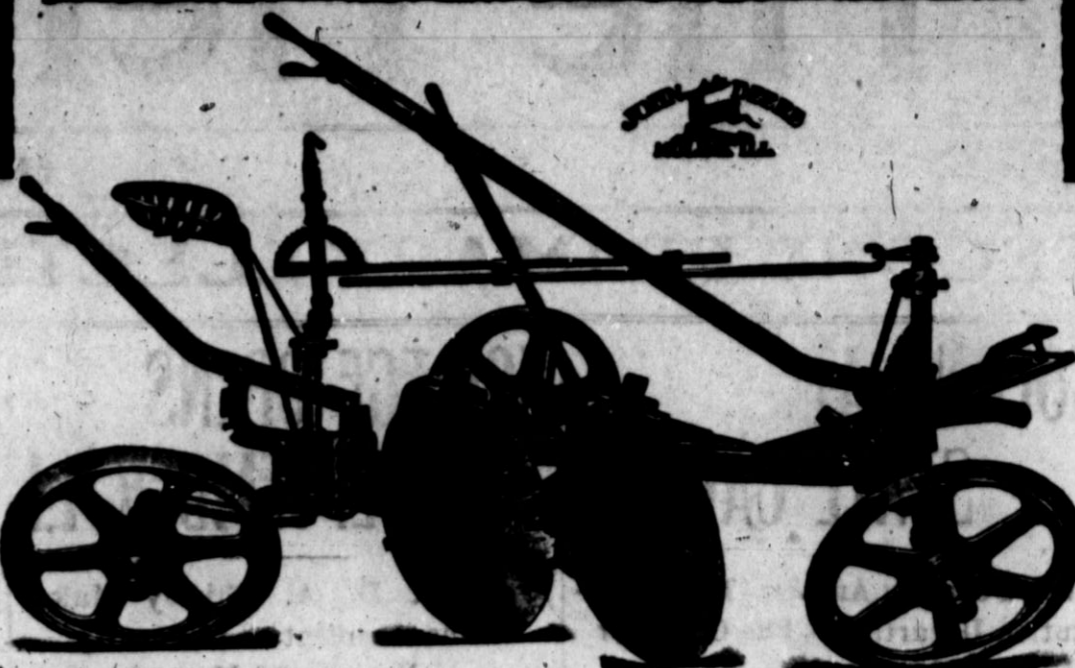

Our production is as follows: Texas produced 3,819,000 bales of cotton in 1908. Texas produced 201,848,000 bushels of corn in 1908. Texas produced 21,675,000 bushels of oats in 1908. Texas produced 10,161,000 bushels of wheat in 1908. Texas produced 9,142,000 bushels of rice in 1908. Texas produced 5,750,000 bushels of sweet potatoes in 1908. Texas produced 3,550,000 bushels of Irish potatoes in 1908. Texas produced 2,400,000 pounds of tobacco in 1908. Texas produced 1,522,000 tons of hay in 1908. Texas produced 5,000,000 tons of forage crops in 1908. Texas produced \$78,428,000 in fruit and truck, etc., in 1908. We have less than one-sixth of our land under cultivation and lead all States in the Union in agriculture. Texas farmers produce \$1,540,000 per day. Our leading products are live stock and cotton. We have 15,891,000 head of live stock valued at \$312,857,000 by the Government Agricultural Department on January 1st, 1909. We have four head of live stock per capita. We produce approximately 4,000,000 bales of cotton per annum which is 20 per cent of the cotton of the world. We produce one bale of cotton per capita. We lead all States in the Union in cotton, cattle and mules, and stand third in horses, third in hogs and fourth in wheat. The transportation facilities of a country are important factors in development. We lead all States in the Union in mileage of public highways; stand second in railroads and have a larger river and ocean mileage than any State in the Union. We lead all States in mileage of pipe lines. We have 121,500 miles of public highways, which is sufficient to encircle the globe five times. We have 13,000 miles of railroad, 2,000 miles of navigable rivers, 400 miles of gulf coast and 1,500 miles of pipe lines. We are spending more money in the maintenance and improvement of public highways than any State in the Union. Since January 1st, 1910, we have voted and now have in process of voting \$25,000,000 of road bonds. The spirit of progress has taken a firm hold on the people and they are united, progressive and prosperous. There are no more progressive citizens on the globe than the native Texan, and he is by nature a builder, but the task of developing the State is far too great for the present generation to see completed. To acquire the population that Massachusetts now has per square mile, we would need 110,000,000 people instead of 4,000,000. We must look to the stork and the immigration agent to increase our population. Texas has the largest families of any State in the Union. The size of the average Texas family is 5.25, and the size of the average family in the United States is 4.75. We have in Texas 122,000 births annually, which is a birth every four minutes. We have 43,734 deaths, which is one death every twelve minutes. We have a net gain in population of nine per hour, or 78,266 per annum. Our birth rate is 33 per 1,000 population per annum, and the death rate 11 per 1,000 population per annum, making a net natural gain of 22 per

1,000 population per year. Deducting the people who migrate we have a net gain in population of 16 per 1,000 per annum, or a total of 56,000 per year. It would take the stork sixty-five years to double the population. The stork is a splendid bird but too slow for empire building. We want people from other States and countries. Ninety-eight per cent of the population of Texas speak English. We have 107,110 more males than females. Seventy-one per cent of our population is native born white; 19 per cent is negro, and 10 per cent foreign born. There are 325,000 unmarried women in Texas of marriageable age, and any one desiring a wife should not fail to investigate our opportunities and advantages along matrimonial lines. We have 869,864 children of scholastic age. In 1900 Texas ranked sixth in population in States of the Union. We had twelve counties that showed a population of less than 100 people in 1900. The annual increase in white population is relatively 2 per cent greater than the colored population. The stork gives us an increase of 56,000 per annum and the immigration agent 69,000 per annum. The natural born citizen brings no property into the State. In fact, a portion of our native born citizens leave the state and actually take property away with them. It is fifteen years before the child becomes a revenue producer, and during that period he is an expense to the community, but the immigrant brings wealth into the State, and immediately upon arrival immigrants become revenue producers. We cannot develop our State with home capital. A farmer may sell his farm in one section of the State and buy in another section; he has merely changed his location and added nothing to the wealth of the State. A man may sell his farm and buy a factory; he has simply changed his occupation, but has added nothing to the wealth of the State. If this generation proposes to develop Texas, we must get men and money from the outside, and the invitation to homeseekers and capitalists is cordially extended. The luxuriant banner of virgin soil wakes over an empire of idle acres beckoning the farmer, the laborer, the manufacturer, the railroad builder and all useful citizens to Nature's heritage. Commercial Clubs are formed in most every community for the purpose of furnishing accurate information free of charge to prospective settlers and investors. The framers of our constitution looked well after the interests of the farmer. All farm products in the hands of the producer are exempt from taxation for one year; live stock under one year of age is exempt from taxation. The constitution guarantees the farmer the right to buy and sell, wherever he pleases, and no municipality or political division can levy a license against him for that privilege. The State Tax rate general revenue is 5c on the \$100 assessed value add the State school tax is 16 2-3 cents on the \$100 assessed valuation. The county tax rate averages 42 cents, varying from 10 cents to \$1.10 on the \$100 valuation. The per cent of true value of property rendered for assessment varies in Texas as it does in most States, but the average per cent of true value is probably 46 per cent. **Auto Trip.** Allen Bell, Artis Daniel, Landy Cardwell and Jerry Longbrake have gone to San Angelo and other south plains points prospecting. They took two autos and were equipped with a complete camping outfit. They will be out two weeks.

**Notice of Special Stockholders' Meeting.**  
 NOTICE IS HEREBY GIVEN, that a special meeting of the stockholders of the Texas Central Railroad Company has been called by the Board of Directors of said Company to be held at the general office of the Company in the City of Waco, Texas, on Thursday, the 22nd day of September, 1910, at 12 o'clock, noon, for the following purposes:  
 (a) To consent to, approve and authorize the creation and issue of mortgage gold bonds of the Company to be limited to a principal amount, at any one time outstanding, of not exceeding \$20,000,000 such bonds to bear interest from September 1, 1910, at such rate or rates not exceeding 6 per cent, per annum as said Board may, from time to time, determine, to mature and at such date, to be issuable for such lawful purposes and in such denominations as said Board may determine, such bonds to be payable, both principal and interest, at the office or agency of said Company in the City of New York in gold coin of the United States of America, of or equal to the present standard of weight and fineness without deduction for any tax, assessment or governmental charge which said Company may be required to pay thereon or to deduct or retain there from under any present or future law of the United States, or of any state, county, municipality or other taxing authority therein;  
 (b) To consent, to approve and authorize the execution and delivery, to secure such bonds, of a mortgage and deed of trust on and of the railroads, equipment, franchise and property owned by said Company at the date of the execution and delivery of such mortgage and deed of trust or any time thereafter used as a basis of issue of any of such bonds or their proceeds;  
 (c) To approve the form and terms of such mortgage and deed of trust or to authorize said Board in its discretion to determine the form and terms thereof;  
 (d) To ratify and confirm and to authorize and consent to any action theretofore taken or authorized by said Board and which may be submitted to the meeting whether for the purposes of or in connection with or in contemplation of any of the matters aforesaid or otherwise; and  
 (e) To transact such other business as may be brought before the meeting.  
 The stock transfer books of the Company will be closed for such meeting on Wednesday, the 20th day of July, 1910, at 12 o'clock, noon, and will be reopened on Friday, the 23rd day of September, 1910, at 10 o'clock A. M.  
 Dated, Waco, Texas, July 8, 1910.

**Death of Sister**  
 On Tuesday, D. C. Laird received the sad message that his sister, Rosa Mae Laird, who lived in Ft. Worth, had left her earthly home on Monday. The news came as a shock, for, although, Miss Laird had been in declining health for some time, the end was not thought to be so near.  
 Mr. and Mrs. Laird, and Mrs. Lairds mother, who has been visiting in his home, left immediately for Ft. Worth to attend the funeral services which were held on Wednesday.  
 Here we are reminded again of the uncertainty of life.  
 The Brand desires to offer sympathy to the relatives and friends in this sad hour.  
 Melvin and Newton Manning who have been visiting in the home of their uncle, J. A. Fox, returned to change in Bellevue a few days ago. They will be out two weeks.

**CONSTITUTIONAL AMENDMENT**

Proposed Amendment to the State Constitution Authorizing the Establishment of a Home for Wives and Widows of Confederate Soldiers and Sailors.

HOUSE JOINT RESOLUTION NO. 7.

Joint Resolution to amend Section 51 of Article 3 of the Constitution of the State of Texas, as amended in 1903, so as to authorize the grant of aid in the establishment and maintenance of a home for the disabled and dependent wives and widows of Confederate soldiers sailors and such women as aided the Confederacy, and making an appropriation.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION I. That Section 51 Article 3 of the Constitution of the State of Texas, as amended in 1903, be so amended as to hereafter read as follows:

Article 3. Section 51. The Legislature shall have no power to make any grant or authorize the making of any grant of public money to any individual, associations of individuals, municipal or other corporations whatsoever; provided, however, the Legislature may grant aid to indigent and disabled Confederate soldiers and sailors who came to Texas prior to January 1, 1880, and who are either over sixty years of age or whose disability is the proximate result of actual service in the Confederate army for a period of at least three months, their widows in indigent circumstances who have never remarried and who have been bona fide residents of the State of Texas since March 1, 1880, and who were married to such soldiers or sailors anterior to march 1, 1880; provided said aid shall not exceed eight dollars per month, and provided further, that no appropriations shall ever be made for the purpose hereinbefore specified in excess of five hundred thousand dollars for any one year. And also grant aid to the establishment and maintenance of a home for said soldiers and sailors, their wives and widows and women who aided in the Confederacy, under such regulations and limitations as may be provided by law; provided, the grant to aid said home shall not exceed one hundred and fifty thousand dollars for any one year, and no inmate of said homes shall be entitled to any other aid from the State; the Legislature may provide for husband and wife to remain together in the home; and provided further, that the provisions of this Section shall not be construed to prevent the grant of aid in case of public calamity.

SECTION II. The Governor of the State is hereby directed to issue the necessary proclamation for the submission of this amendment to the qualified voters of the State of Texas at the regular election of the State officers, in November, 1910.

The sum of \$5,000.00, or so much thereof as may be necessary, is hereby appropriated to pay the expenses of carrying out the provisions of this Resolution.

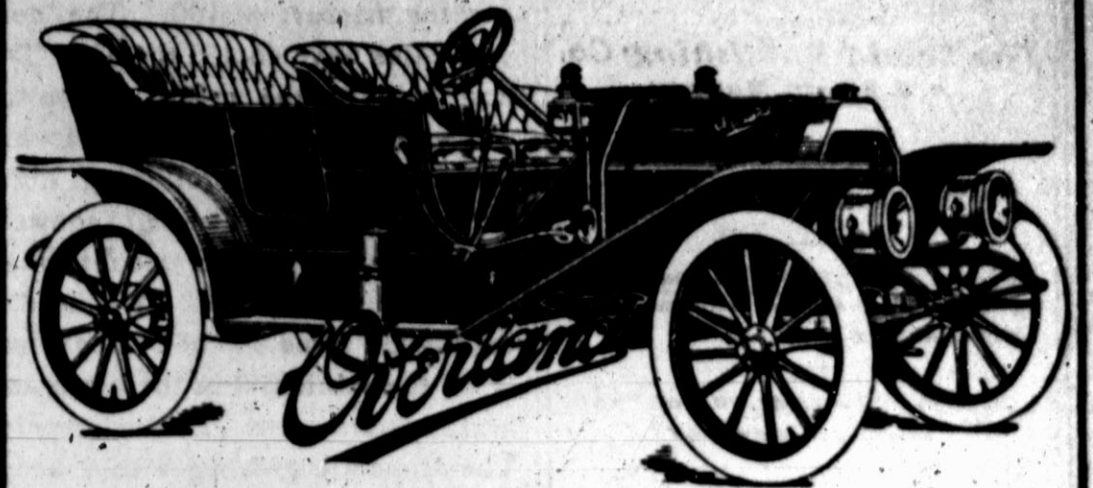

W. B. TOWNSEND, Secretary of State.

Ten Dollars.

That one farmer in this neighborhood is blessed with a cash account that is growing rapidly is quite evident. Mr. and Mrs. J. F. Dollar, Castro county friends, have a happy family of ten children, the latest coinage being a ten pound boy born Tuesday of this week. They are never without dollars in the house.

Mrs. Jennie Williams of Hartsville, Ind., who has been visiting her brother, Ira Braden and family for some weeks left for Dalhart on Friday for a few days visit, then will return home.

THE Star-Telegram presents a  
front page cartoon this week which  
has some significant marks. O. B.  
Colquit, governor-elect, is seated in  
a chair but has a painful expression  
on his face: A. B. Davidson, Lieu-  
tenant-governor-elect, is standing in  
the background with his hands thrust  
deep into his pockets and he too is  
wearing an expression of "some-  
thing is about to happen." Just  
what the artist had in mind when he  
drew this cartoon may be difficult to  
fathom but evidently he made it  
with an unsteady hand. The timid  
expression on Davidson's physiog-  
nomy must be the result of the still  
uncertainty of his election. Any-  
how they are both worried about  
something.

**Weekly Weather Report.**

The average temperature for the  
week has been much lower than for  
the previous time, though two days  
saw the mercury at 100. The gen-  
eral rains have cooled the air. The  
first rain of the month fell on the  
3rd when a record of 1.05 inches  
was made. The following night  
0.95 inches fell. Two light showers  
measuring each 0.08 inches have  
been recorded since. Wednesday  
night good rains fell in Castro Coun-  
ty on the south and in the north and  
northwestern part of this county.  
The crops are growing with a hoop.  
Wheat land is being prepared for  
sowing.

**A Minority Governor**

O. B. Colquit will be a minority  
governor. That is to say, he has  
received far less than half the votes  
of all the votes of the state. There  
are 615,000 qualified voters in Tex-  
as. Mr. Colquit received in round  
numbers 146,000 or about 24 per  
cent of the total voting population.  
All the candidates for governor com-  
bined received 34 per cent of the  
voting population.

Is it conducive to good results  
when less than one-fourth of the  
voting population of a state selects  
the chief executive? The answer  
may be found in the coming adminis-  
tration.

### Mrs. F. B. Fuller—Gone.

The friends of Mrs. F. B. Fuller are grieved to learn of her death which occurred at Glen Rose, Texas on the July 23rd. She came to Hereford to teach in our public school. She was Miss Salome Moore then, a beautiful and accomplished young lady. Soon she met and loved and married Frank Fuller, and in a neat little cottage they began their new life.

Old friends will remember how they worked to make that home artistic and beautiful. The grassy lawn, the growing trees, the fragrant flowers, suggested the happy loving hearts within, to whom the world looked bright, and told of hopes and aspirations for better things.

Alas! nine years, lacking one day from her wedding day, she was called to leave this earth for her eternal

## Echoes from Parrott.

We are rejoicing over our glorious rains. We had three good rains last week and every thing in nature is giving thanks.

A little daughter was born to Mr. and Mrs. Bascom Hughes.

Messrs J. D. and A. C. Grant and L. Dukes have gone fishing for a week or ten days. Mrs. and Miss Grant are running the ranch in their absence.

B. F. Neely and wife, and Misses Bell and Brooks, and Ned and Charlton ate fried chicken with R.S. Neely and sister Sunday.

A. P. Helphrey and family took Sunday dinner at the Shepherd home.

Alva Metcalf went home from Sunday School with Rhoda Bess Flincher.

Mr. Henly and family and Mr. Guthrie and wife called on Mrs. Flincher Sunday afternoon.

Mrs. Jennings and Miss Neely called on Mr. Edwards and family last week.

R. S. Neely and Mr. Guthrie went to Nazrath for seed Rye last week.

Mr. Shepherd who has returned from Nebraska reports that they are suffering from the drought there more than we have been.

home.

Mr. Fuller was one of the early settlers of this county. He was twice county clerk, then cashier of the First National Bank and later cashier of the Western National Bank. It was in the hope of restoring Mrs. Fuller's health that the move was made to El Centro, California. Here Mr. Fuller engaged again in the banking business, and here a new home was established. Two children blessed the marriage, a little boy that came to the Texas home eight years ago, and a little girl to the California home four years ago.

A short time since, Mrs. Fuller went back to her husband's old home in Glen Rose, Texas. It is a beautiful place with hundreds of artesian wells, with running streams and flowers and trees, and here it was fondly hoped the frail body might be strengthened and the useful life preserved to bless her husband and children, but it was not to be.

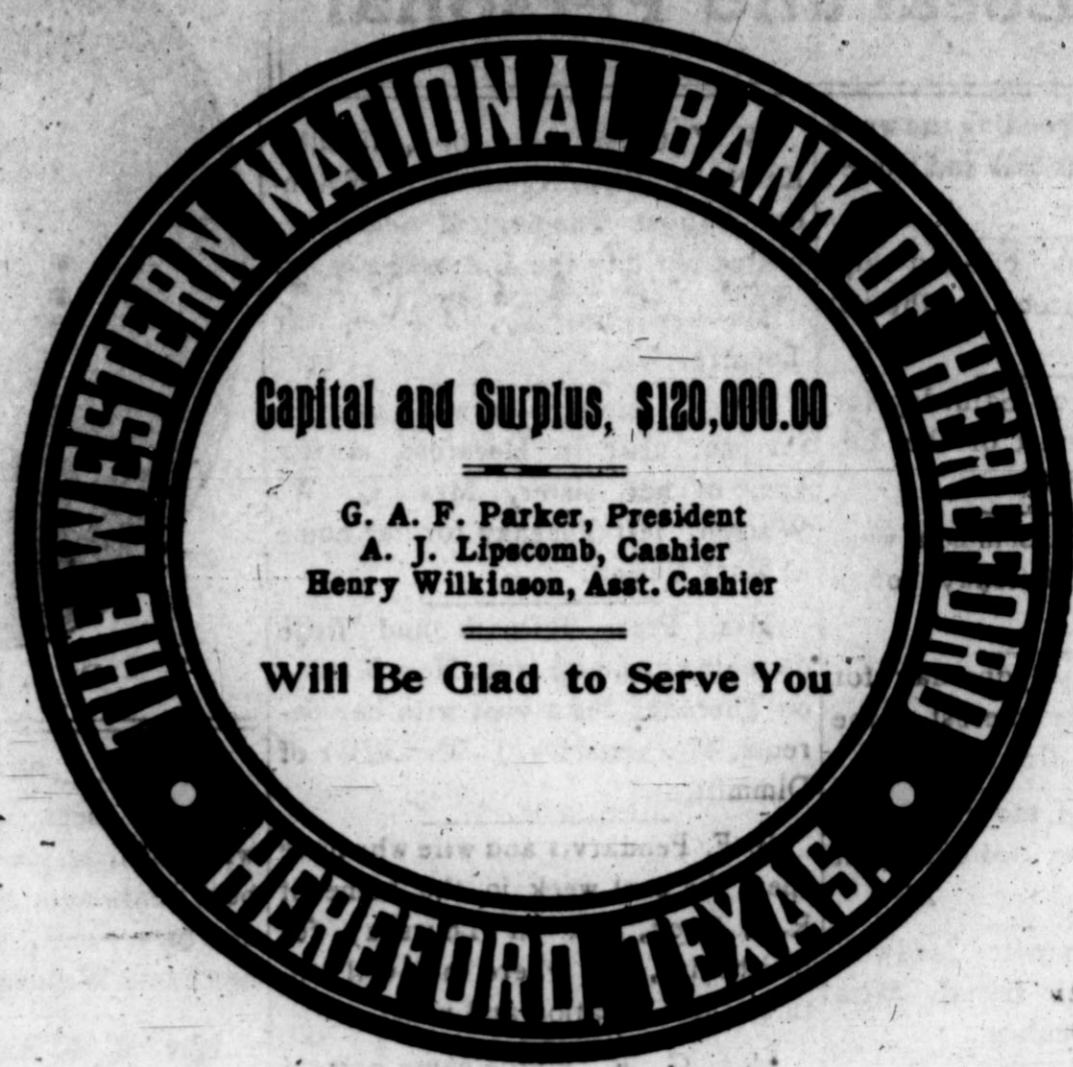

Mrs. Fuller was hopeful up to the last, but at the end realizing her condition she said simply "Goodbye I'm dying" and was gone.

Mrs. Fuller will be remembered in Hereford by her former pupils, by the Methodist Church of which she was a member and by loving friends in all walks of life.

The little home in El Centro seems lonely and forsaken. May our kind heavenly father comfort those who mourn and guide them into paths of peace.

A FRIEND.

Mr. and Mrs. W. E. Hallsell of Kansas City were in the city yesterday making purchases for their Ranch Home in Lamb County where they will spend a part of the summer. The Spring Lake Ranch consisting of 132,000 acres is located in the best part of Lamb County. Mr. Hallsell has owned this ranch for a number of years. It is stocked with cattle. During the last two years a large tract of the north ranch has been settled up by industrious farmers from the northern states and a more prosperous community cannot be found in the Panhandle. Mr. and Mrs. Hallsell have an auto on the ranch which they use.

## Good Roads

Ft. Worth, Texas, Aug. 10.—The Texas Commercial Secretaries' Association will furnish the Public Highway Department of the A. & M. College with models of public highways for exhibition at the Dallas and San Antonio Fairs and for use at College Station in teaching the students the science of road-making.

The State of Texas has set aside only \$500 to be spent in two years in the promotion of good roads but this amount is of course not sufficient to carry on an extensive campaign and the state was not able to build a full set of models which are the first essential in good road work.

The Secretaries had previously arranged to purchase a full set of Road Models from the Good Roads Department of the Federal Government at an expense of \$1200 and they had planned to exhibit these models at state and local Fairs throughout Texas but concluded it would be best to work through the A. & M. College and the models will be built under the supervision of Prof. R. J. Potts, Director Public Highways Department and will be turned over to the state for demonstration purposes. The commercial clubs throughout the state will cooperate with the college officials in a statewide campaign for road building which will be inaugurated this fall.

The Dallas Fair has set aside a day to be known as Good Roads Day and the San Antonio Fair will give the movement prominent recognition. A program of statewide importance

These Shoes are as far superior to the old fashioned boiler-plate work shoes as the electric light is to the tallow-dip.

The uppers are extra-plump weight Chrome Calf; thoroughly tanned with oak bark which makes them as soft and easy as kid. The soles are solid leather, Goodyear welt and will "wear like wire."

For all working purposes this shoe is a leader and is in line with modern ideas of 20th Century comfort.

**Telegraph and Telephone Lines**

To save time is to lengthen life, and the greatest time saver of the age is the telegraph and telephone. According to the report of the Tax Assessors there are 27,593 miles of poles over which telegraph and telephone wires run in Texas. This mileage, single wire, is equal to 450,000 miles, and is sufficient to encircle the globe eighteen times.  
The scientist in giving the farmer improved varieties of products, and the inventor in giving us machinery that reduces the cost of production, has performed a great service to the farmer, but the telephone, born from the creative mind of the inventive genius, is destined to companion in utility and convenience all human accomplishments for the intelligent promotion of agriculture. The telephone is the improved public highway of information and is as valuable to the farmer in selling his products as good roads are useful in hauling his products to the market. The cut below illustrates the farmer phoning the markets of the world for prices on his products:

Farmer Phoning Market.

The telephone eliminates time and space and enables the farmer to personally visit the markets and talk with buyers without the inconvenience of travel or loss of time.  
To talk with the weather man as he listens to the clouds whisper their plans for the future is one of the startling and valuable uses of the telephone. Advance intelligence enables the farmer to successfully combat the Frost King and to shelter his products from the storm and rain, and the telephone is a powerful ally of the farmer in dealing with the elements of Nature. The following cut illustrates the use of the rural telephone in battling with Jack Frost.

Getting Information About Jack Frost.

Experience has proven that human intelligence and ingenuity can ward off the evil effects of weather and minimize the loss which annually occurs to the farmer through the eccentricities of Nature.

**Goes to California.**

Rev. Thos. S. Barcus brother of Geo. W. Barcus of our city, and former pastor of the Methodist church of Hereford, will leave for California in a few days to take charge of a pastorate at Hollywood, a suburb of Los Angeles.

Rev. Barcus goes to his field of Labor under an urgent solicitation of the Bishop who presides over this part of the country, and not because he is anxious to leave his native state, and present charge at Anson.

It seems that the demand for ministers in the western part of the United States, is far greater than supply.

Rev. Barcus and family leave for their new home August 22nd.

**How often do you eat this food?**

A short time ago there appeared in the columns of one of the prominent magazines an article on building brain and muscle by the proper selection of the foods you eat.

A good many people were surprised to find oatmeal placed at the top of the list of foods recommended; but if the article had appeared in an English or Scotch paper every reader would have expected to see first place given to good oatmeal.

As a matter of fact Great Britain and Europe come to us for tremendous quantities of Quaker Scotch Oats because it represents to them perfect food, being the richest in flavor and best in cleanliness and purity, of all oatmeals.

It is packed in regular size packages, and in hermetically sealed tins for hot climates.

#### Engines of Immense Size

Within the past few days two engines of large proportions have passed through Hereford on their way west.

These engines are manufactured by the Baltimore Locomotive Works at Stanton, Pennsylvania, and are known as the Consolidated Prairie Type.

In appearance the engine looks like two engines made into one. It has twelve drive wheels and is capable of drawing six million pounds. The water tank holds 9000 gallons of water, and the tender twenty-five tons of coal.

It requires three engineers and three fireman to manipulate this powerful "iron-horse," and it makes the very earth tremble in its movements.

The engine that passed through Hereford on Saturday drew eighty-five freight cars and the one Wednesday drew sixty-two.

This type of engine is to be used west of Clovis as it is especially adapted to mountain-climbing and curved tracks.

#### For Sale.

Three brood mares, four good young mules. Good milch cow. Brood sow, 100 lb. shoat. Buggy, wagon, barge, double disk plow, weeder, gang mouldboard plow, two row planter, broad cast binder. 6ft., 10-disk drill, disk harrow. Campbell packer, rod plow, double row cultivator, slide, steel harrow, grind stone, stack of Millet hay.

See C. F. RIEDEL or D. L. McDONALD.

Scrimsher Place 2 1/2 miles N. E. of Hereford, along S. F. track. 27-2

#### Entertained Friends

On Sunday afternoon, Miss Mary Stell, who has spent the past summer months in the home of her sister, Mrs. C. N. Hill, invited a few of her friends to come and spend a few hours with her, and partake of the dinner prepared by herself and Mrs. Hill.

The entertainment and conversation of the afternoon were in keeping with the holy day, and at the evening hour the young people attended church in a body.

The following were present: Mrs. Estelle Tucker, Misses Mary Hill and Minnie Barnard; Messrs. C. L. Carter, Odell Elliott, Albert Herbst and Douglas Fox.

Miss Stell is soon to leave for Ft. Worth to visit a sister for a time, then go on to her home in Oklahoma City.

The kindest wishes of a host of new made friends follow, and abide with Miss Mary in her home.

#### Indiana Farm for Exchange.

Containing 100 acres of choice land, all smooth nearly level, 4-room house, fine barn, good orchard, two good wells, one wind-mill, will exchange for farm not more than 6 miles out from Hereford, for particulars see C. O. Lee. 26-tf

#### His Father Sick.

Eagle Henderson, the efficient pressman in the Brand office, was called to home in Portales, N. M. Wednesday by the illness of his father, J. P. Henderson.

The Brand hopes that ere this, the father's condition is greatly improved, and he is well on the way to recovery.

#### More Rain.

Tuesday night a heavy rain fell in Castro county, measuring 2 inches at Dimmitt. The same night a big rain fell in the northern part of this county. A light shower fell at Hereford. Tuesday evening a good rain fell in the Frio neighborhood. Early Thursday morning a heavy rain fell south east of town and west with about a quarter inch at the home of the local observer. It was cloudy all day yesterday.

#### For Sale at a Bargain.

One good reliable family horse and one good jersey milch cow. For particulars see John W. DeAtley, Hereford, Texas.

#### Telephone Equipose.

The Brand is under lasting obligations to Manager Lovelace for a most convenient telephone attachment known as the Equipose. It holds the desk phone in any position can be moved in any direction or placed in any position. Fine thing and most convenient at so much per month.

#### For Sale or Exchange.

Four acre improved place adjoining town section in Ricketts Addition to Hereford. Will exchange for cattle or good young horses.

#### Bethel News

Mrs. B. F. Hodges visited at E. E. Brubakers one day last week.

T. B. Ridgeway and family visited his father and mother, who live near Wildorado, several days last week.

Several from this vicinity have attended the tabernacle services in your city the past week and report that the meetings are fine.

J. L. Park and family were callers at J. W. Millers Sunday afternoon.

There has been a number of nice showers in this community since our last writing.

J. W. Miller, and D. H. and E. E. Brubaker tried their luck hunting plums on the Canadian brakes one day last week, but try was all they got. They called on G. F. Ballew while gone and report crops looking good.

E. J. Early and family who have spent the summer at Dexter, N. M., arrived in this vicinity this week for a few days visit.

Remember the Sunday school and regular preaching services next Sunday.

Miss Lucy Wood, daughter of Mr. and Mrs. J. P. Wood of Hereford Heights, and one of the most praise-worthy young ladies of our city left Tuesday for Saint Louis where she will take training for the next few weeks in the trimming department of a large wholesale Millinery house, then take a position as trimmer in a millinery store somewhere in this section of the country. This is Miss Lucy's second season.

Mrs. W. B. Stanford who has been visiting her son, Jessie Stanford of near Summerfield, and brother, Geo. W. Barcus and family of Hereford for the past two weeks, returned to her home in Lorena on Monday accompanied by Mrs. M. F. Barcus who has spent a number of months in our city.

LOST—A lady's gold watch between the homes of R. L. Johnston and Claude Nortcn.

R. A. Daniel and the others returned last night from a 750 mile trip without an accident or delay. They made a much quicker trip than at first contemplated.

Mr. and Mrs. Otho Vardeman returned from Midland to make their home in Hereford. They say that the Hereford country is good enough for them, and they are going to stay now.

Mrs. Eva Arnold and children are expected to arrive from Oklahoma tomorrow, (Saturday) for a visit with Mrs. Arnold's parents, L. Shepard and wife of Dimmitt.

Rev. Bailey, of Texico, pastor of the Baptist church at Dimmitt, assisted by Rev. Smith, will begin a protracted meeting this evening—Friday. The gentlemen passed through Hereford today.

W. M. Smith of Castro County a long-time ranchman and successful farmer was in Hereford Saturday and paid this office a visit. He says his orchard, which is one of the largest and best in this section, has a good crop of plums, grapes and apples.

Mrs. Eva Bruce and daughter, Price, returned to Hereford on Thursday, after spending most of the summer out of the city. Mrs. Bruce has been visiting her children in different parts of the country, while Miss Price has spent the past two months in the Denton Normal.

#### Election Tomorrow

The second primary election will be held tomorrow. The candidates have been busy during the last two weeks "lining up" their friends.

The outcome of the election will be watched with interest as this is the first double primary that has been held in this county.

#### State Convention

The Democratic State Convention which convened at Galveston this week, nominated, resolved, platformed and adjourned. The Colquit-Bailey faction carried the field by overwhelming majorities. The daily papers speak of the steam rollers, etc. A platform omitting the policies of Colquit and endorsing Bailey was adopted. The Campbell administration was indorsed.
