Must Be Cooked
 Well, Warns Official
 At the winter season is pork and pork products freely used, warning of trichinosis, a disease caused by a parasite in the muscles of pigs. This parasite may occur in large numbers in infected meat.
 The disease is rather extensively distributed among hogs, and all pork should be regarded with suspicion unless treated to kill the parasite. Freshly killed pork is more dangerous than meat that has been kept in cold storage for some time because parasites tend to die out during prolonged storage at low temperatures. Other processes of preserving meat also tend to kill the trichinella larvae. A method of meat inspection will invariably discover the presence of this parasite. Thus safeguarding the disease must necessarily be taken by consumers of the cooked pork. Thorough cooking is counted upon to kill the parasite.
 Trichinosis results from eating cooked pork, usually in the form of sausage, that contains the larvae. There is often danger of not maintaining sufficient temperature, to roughly cook the meat. Portions of the meat may appear cooked while the inner part is quite rare and will retain the living parasites. Especially is this true if the piece of pork is quite large. Cases of trichinosis have occurred from eating just such portions of undercooked pork. Meat with the slightest red tinge should be cooked until all redness disappears through the piece. This is the only safeguard against trichinosis.

AT THE STAR THEATRE
 Friday's picture, both matinee and night, will feature a brand new actress, Mady Christians, in "A Wicked Woman," with Charles Bickford and Jean Parker. This picture was originally scheduled for last Friday night.
 On Saturday at both afternoon and night performance will be shown "Big Hearted Herbert," with Guy Kibbe and Aline McMahon. Kibbe is said to be at his best in this comedy of domestic life.
 Widely acclaimed is the Ernst Lubitsch production of "The Merry Widow," coming Sunday, Monday and Tuesday. It is the first talkie version of the old classic made in silent by Mae Murray, Jeanette McDonald and Maurice Chevalier do the singing and furnish the love interest. At the same time the news reel will feature the "Amarillo-Corpus" Christi grid game.
 The king of all comedians, in the opinion of this writer, W. C. Fields, will appear Wednesday in "It's a Gift."

A surprise shower was given Monday afternoon from 3 to 5 in the home of Mrs. Ed Reynolds for Miss Jewel Harris, bride-to-be. The entertainment started as if it were to be a play party, when suddenly in the second game which was a Wedding Tour, the honoree was surprised to find a suit case full of gifts instead of the usual properties of the game. After she had opened the gifts a small package was brought in which was said to have arrived late. This little parcel was found to contain a spray of white buds. It produced considerable bewilderment until a note was found which read "Each little bud will bloom and bear a useful gift if opened with care." She opened them and found that each bud concealed a note in rhyme, telling where to find a gift. The last bud directed her to a large package in the stairway containing the remaining gifts. Sandwiches, hot chocolate and cake were served. Misses Jewel Ruby, Lois and Bernice Harris, Inez Miller, Hazel Crouch, Alvera Frye, Mary Chambers and Pauline Griffiths; Meses. Lizzie Harris, A. T. R. A. and A. Frye, H. H. and H. E. Miller, Baker and Johnnie Womble, Alford and Ernest May, W. J. Stewart, Chas. Friemel, C. J. Geiger, Grady Coe, Carl Luke and the hostess.

Attention Wheat Contract Signers

The Wheat Reduction Program for 1935 will probably get under way some time during the month of January. All of the tenants who will operate farms this year are not known; therefore, those who will operate farms must get in touch with their community chairmen.

The chairmen have all the information on each farm, relative to acreage limitations and the marking and staking off of wheat lands and of contracted acreage.

Measuring of tracts upon which wheat is planted is scheduled to start around February 1 and those not having lands marked will work a hardship upon themselves.

Washington has instructed measuring supervisors to ignore tracts that are not marked and staked, and the farmer will be forced to arrange for later measuring at his own expense.

Now, REDISTRIBUTION OF WEIGHT. This is a new principle. The engine and passenger weight are moved forward, equalizing weight. This principle was conceived by Chrysler Motors Engineers, and it was introduced for the first time in the 1934 Chrysler and De Soto Air Flow models. Now it is applied to both Dodge and Plymouth.

What you get on the Air-Glide Dodge at no extra cost: **FLOATING POWER**

Four main bearings, precision type. Steel exhaust valve seats. Engine oil filter. Cylinder water jacketed full length of stroke, which means longer life, greater economy. 100 per cent automatic spark control. Automatic choke. Manifold heat control.

Aluminum Alloy Pistons, with four rings. (Only four American-made cars now use cast-iron pistons.)

Rust-proof fenders, bodies and sheet metal parts.

Double drop, X-type frame. (Dodge pioneered in the use of this type of frame.)

15 to 20 per cent saving in gas, up to 40 per cent saving in oil. Speed 85 miles per hour and up, and it stays put.

Must Be Cooked Well, Warns Official

At the winter season in pork and pork products freely used, warning of trichinosis is given. Dr. John W. Brown, health officer, trichinosis is a parasite in the muscles of pigs. This parasite may occur in large numbers in infected meat.
 The disease is rather extensively distributed among hogs, and all pork should be regarded with suspicion unless treated to kill the parasite. Freshly killed pork is more dangerous than meat that has been kept in cold storage for some time because parasites tend to die out during prolonged storage at low temperatures. Other processes of preserving meat also tend to kill the trichinella larvae. The method of meat inspection will vary to discover the presence of this parasite. Thus safeguarding the disease must necessarily be taken by consumers of the infected pork. Thorough cooking is required to kill the parasite.
 Trichinosis results from eating infected pork, usually in the form of sausage, that contains the larvae. There is often danger of not maintaining sufficient temperature to thoroughly cook the meat. Outer portions of the meat may appear quite rare and will retain the living parasites. Especially is this true if the piece of pork is quite thin. Cases of trichinosis have occurred from eating just such portions of undercooked pork. It is with the slightest red tinge that the living parasites disappear through the piece of meat, this is the only safeguard against trichinosis.

AT THE STAR THEATRE

Friday's picture, both matinee and night, will feature a brand new actress, Mady Christians, in "A Wicked Woman," with Charles Bickford and Jean Parker. This picture was originally scheduled for last Friday night.
 On Saturday at both afternoon and night performance will be shown "Big Hearted Herbert," with Guy Kibbe and Almie McMath. Kibbe is said to be at his best in this comedy of domestic life.

Widely acclaimed is the Ernst Lubitsch production of "The Merry Widow," coming Sunday, Monday and Tuesday. It is the first talkie version of the old classic made in silents by Mae Murray, Jeanette McDonald and Maurice Chevalier do the singing and funniness the love interest. At the same time the news reel will feature "the Amarillo-Corpus" Christi grid game.
 The king of all comedians, in the opinion of this writer, W. C. Fields, will appear Wednesday in "It's a Gift."

Card of Thanks

To the many neighbors and friends who so kindly and sympathetically ministered to our needs and comfort at the time of our great sorrow and bereavement, and to the ministers of the various denominations who, through their services and words of consolation, have lightened the burden of sorrow, we extend our heartfelt thanks and sincere appreciation and pray that the blessings of God may ever be upon you.

Aluminum Abundant

Aluminum is the most abundant metal yielded by the earth's crust. Although not discovered as a separate metal until 1824, science has since determined that there is more aluminum than any other metal.

State Has 14 Business Failures For December

A total of 21 business failures occurred in Texas in December, against 12 the preceding month and 25 in December, 1933. It is shown by a report of the Bureau of Business Research of the University of Texas. Total liabilities were \$529,000, an increase of 258 per cent over the month previous and 32 per cent above December a year ago. Average liability per failure, \$25,000, was 92 per cent above that in November and 56 per cent greater than in December, 1933.
 "For the entire year 1934 the statistics on failures were highly favorable in comparison with the year previous," the Bureau says. "The total number of failures was only 225, against 500 in 1933, a decline of 55 per cent; liabilities totaled \$3,153,000, compared with \$11,377,000, a drop of 74 per cent; and average liability per failure, \$14,000, against \$24,000, a decline of 42 per cent."

A surprise shower was given Monday afternoon from 3 to 5 in the home of Mrs. Ed Reynolds for Miss Jewel Harris, bride-to-be. The entertainment started as if it were to be a play party, when suddenly in the second game which was a Wedding Tour, the honoree was surprised to find a suit case full of gifts instead of the usual properties of the game. After she had opened the gifts a small package was brought in which was said to have arrived late. This little parcel was found to contain a spray of white buds. It produced considerable bewilderment until a note was found which read "Each little bud will bloom and bear a useful gift if opened with care." She opened them and found that each had concealed a note in rhyme, telling where to find a gift. The last bud directed her to a large package in the stairway containing the remaining gifts. Sandwiches, hot chocolate and cake were served. Misses Jewel, Ruby, Lois and Bernice Harris, Inez Miller, Hazel Crouch, Alvera Frye, Mary Chambers and Pauline Griffiths; Meses. Lizzie Harris, A. T. but the doctor has not dismissed
him.

view and Memphis, returning to
their homes here Sunday.
Friday evening a most enjoyable
time was spent in the M. L. Simp-
son home when Mr. and Mrs. Simp-
son entertained with progressive
42. Clever favors were given win-
ners and losers of each set of
games. At the close of the eve-
ning it was found that Mrs. Mild-
red Bailey had won high score, it
being 1935, a rather odd coincident,
it being the same as the current
year; and J. J. Wilder had to be
satisfied with low, although he
sat at the head table most of the
evening. Delicious refreshments

Vega Drive Nets 13,000 Rabbits

Great inroads into the jackrabbit population of Deaf Smith and Oldham counties were made in Vega's great drive last Saturday. Dr. O. H. Loyd, generalissimo of the event, estimated almost 13,000 bunnies bit the dirt.

More than 5,000 persons took part in the drive which, in spite of the severe sandstorm that blew all day, covered an area 12 1/2 miles square. Thousands of rabbits escaped through the lines because of the poor visibility brought about by the dust.

And now Dr. Loyd is planning another drive at an early date. He is firmly convinced that 10,000 will be on hand with favorable weather conditions.

A great number of Hereford and Deaf Smith county people took part in the drive and are enthusiastic about staging another. Farmers say untold damage is being done new wheat by the huge rabbit population because there is little else for them to eat and there are so many more rabbits than usual.

December Car Licenses Show Gains for Texas

Registrations of new passenger cars for December in 15 representative counties totaled 2,011 cars, a decline of 29 per cent from the previous month but an increase of 11 per cent over December a year ago, according to the University of Texas Bureau of Business Research. For the entire year registrations in these counties totaled 47,044, an increase of nearly 28 per cent over 1933.

"Comparisons with December, 1933, by price groups, is worthy of special note," the Bureau says. "For the lowest price group there was a decline of 15 per cent; for the next group, an increase of 66 per cent; for the one above this an increase of 128 per cent; and for the highest price bracket an increase of 188 per cent. Moreover, this latter group showed the substantial gain of 32 per cent over November. A similar favorable comparison in the higher price brackets was noted in the November report."

Mrs. M. C. King, Panhandle; Mrs. L. E. McBride, Dallas; Mrs. Ethel Williams, Montoya, N. M., and Mr. and Mrs. Ross Wilmuth, Fort Sumner, N. M., were here last week visiting Jim Williams, who is in the hospital.

The Junior and Senior Band Mothers will sponsor a bridge and 42 tournament Friday afternoon and night at the American Legion hall. Everyone is invited to attend. Price, 25 cents per player.

Mrs. Reed Williams left Sunday night for Los Angeles where here mother, Mrs. W. J. Gilliland, is ill. Mrs. Gilliland was hurt in a fall a few days before Christmas.
