

## ENMU President Speaks To Methodist Brotherhood

Emphasizing the importance of religion in higher institutions of learning, Floyd D. Golden, president of Eastern New Mexico University, spoke before the Brotherhood of the First Methodist Church last Wednesday evening.

"Christian principles will come nearer bringing peace to the world than A-bombs or H-bombs. Most people think of America as a Christian Nation but this is not true. We are far from a Christian Nation. We have lost sight of many of the actual teachings of Christ."

FLOYD GOLDEN

"The hope of the world depends on instruction of Christian ideals to the youth."

Golden said ENMU is the only college in New Mexico that has religious instruction. It is off-campus instruction, however, for college students and is never taught on school property, he said.

Golden was the speaker for the Rogers junior-senior banquet Friday evening. Tuesday, he spoke before the Parent-Teachers Association at Forrest on the "Advantages of Higher Education."

He was accompanied to Hereford by the ENMU News Bureau director, Zuger Mann.

## Mrs. Edwards Presides At Young Mothers Study Club

Mrs. G. W. Edwards, vice-president, presided at the meeting held by the Young Mothers Study Club in the home of Mrs. Paul Harvey Monday night.

A Mother's Day Tea was planned for May 14 in the home of Mrs. Leroy Aven and Mesdames Richard Barnard, Chas. Hill and

and evening performances Friday and Saturday. A downtown parade Thursday will get things rolling.

John Winkler were appointed to serve on the nominating committee.

Plans were announced for the next meeting which will be held with Mrs. Norma Gray with Carl Johnson, public school music instructor, as guest speaker.

The program was in the hands of Mrs. Pat Robinson who reviewed the book "Children Are People" by Emily Post. She commented on the theme of the

book, "The building of an enduring comradeship between parents and children," and quoted the author who advocates that the comradeship between children and parents shall combine the cultivating advantages of yesterday with the worthwhile advances of today. Continuing she said: "This book is something like a book on gardening that describes similar processes of cultivation without which all young seedlings naturally die. Just as flowers bloom for those who wisely understand and patiently provide their needs, so too, does wide understanding known by the name of comradeship, bring to fill flower the heart, mind and soul of a child."

## 1950 Census Will Reveal Many Important Changes

The 1950 Census, now in process, will record the facts about the Nation's population, housing, and agriculture and their relationship to each other in such detail and in so many combinations that any user of Census statistics will find the Census re-

ports a treasure house of information. These data will comprise the largest collection ever made for social and economic research in the Nation's history. Private enterprise in fields of production and distribution, labor organizations and concerned with

employment and workers' incomes, government in the fields of public service and apportionment of public benefits, and the three together in planning and adjusting their relationship will have new statistics which will be basic to their operations for the next ten years. Therefore, they must be accurate and complete. This can be assured by the fullest cooperation between the Census takers and the individuals reporting to them in April, 1950.

To confirm the facts about the Nation's population and the social and economic characteristics of its people, questions which will bring out this information must be asked. It is impossible to take a Census without asking questions. It is impossible to compile statistics showing the purchasing power of various communities, and the groups of individuals and families within the counties, cities, and towns of the Nation without asking questions about the income. It is impossible to determine the number of children in schools and of preschool age facts which our school authorities must have to plan for the future, without asking questions about age. Information on ages is also important to determine the number of oldsters for whom provisions must be made for old-age security in future years. In fact, there are important reasons for every question in the Census questionnaire.

Yet, only eight specific questions in the 1950 Census of Population will be asked of all individuals when enumerators make their calls at households during April. The eight inquiries to be made concerning every person will be name, relationship to head of household, race, sex, age, marital status, state or county of birth, and citizenship status.

Two additional inquiries concern all persons 14 years old and over. These relate to employment status and kind of job.

The remainder of the questions will be asked only of a sample of persons, selected by chance according to the order in which their names fall on the Census schedule.

For every fifth person, there will be four questions as to place of residence one year ago, country of birth of father and mother, whether attending school, and highest grade attended. For every fifth person 14 years old and over there are four questions on number of weeks worked in 1949, income in 1949, veteran status (males only) and duration of unemployment (if unemployed).

Three other inquiries apply only to every thirtieth person 14 years and over in certain categories. One in 30 persons, neither working nor seeking work during the week before the Census, will be asked to report on kind of job last held if employed at any time in 1949.

One in 30 persons reporting themselves as ever having been married will be asked if they have been married more than once, and the number of years in present marital status. One in 30 married women will be asked how many children they have borne.

**Census Assures Secrecy**  
The public is assured that any information obtained from them by the Census takers will be held in strictest confidence. The law which authorizes taking the 17th Decennial Census of the United States expressly forbids Census takers and other employees from communicating to any person not a sworn Census employee any information obtained in the discharge of their official duties. Severe penalties are provided for violation of the Census law on the part of employees of the Census Bureau. To reveal any such information would render the Census taker liable, upon

conviction, to a fine of as much as \$1,000 and imprisonment for two years. On the other hand, the Census Act of June 18, 1929, provides: "That it shall be the duty of all persons over 18 years of age when requested by the Director of the Census, or by any supervisor, enumerator or special agent, or other employee of the Census Office, acting under the instructions of the said Director, to answer correctly, to the best of their knowledge, all questions on the census schedules applying to themselves and to the families to which they belong or are related, and to the farm or farms of which they or their families are the occupant, and any person over 18 years of age who, under the conditions hereinabove stated, shall refuse or willfully neglect to answer any of these questions, shall be guilty of a misdemeanor, and upon conviction thereof shall be fined not exceeding \$100 or be imprisoned not exceeding sixty days, or both, and any such person who shall willfully give answers that are false shall be fined not exceeding \$500 or be imprisoned not exceeding one year, or both."

The Census taker has a job to do. He has taken a sworn oath to perform that job to the best of his ability. You, as a citizen of the United States, have a duty to perform—to answer the Census taker's questions to the best of your knowledge. Let us cooperate.

The Census Bureau urgently requests all farmers who have not yet been enumerated to fill out immediately and have ready for the Census taker the 1950 Census of Agriculture questionnaire which they received in the mail recently. Such cooperation will insure that the Census will be completed on time. The farmer is reminded that he is not required to answer all of the questions but only those which apply to his own farm.

## Local Woman's Sister Is On Radio Program

A sister of Mrs. John Gaetz has recently been at the "Ladies Be Seated" program in New York City and was given a carton of Phillip Morris cigarettes. The sister is Mrs. Lauretta Chappell of Billings, Montana, who has been visiting her doctor son doing special study in Albany Medical College, in Albany, N. Y.

Concerning the broadcast, Mrs. Chappell wrote, "I went to three radio broadcasts while Raid (the doctor son) visited hospitals, morgues, etc. Saw Aunt Jamima Pancake program. She is a beautiful, buxom, colored woman; very likeable and a good actress. Saw "Ladies Be Seated" and was given a carton of Phillip Morris cigarettes—just because I was from Montana, I guess. The only other one in the audience proper who got one was a young miss who said she was from Bah Hab, Maine. The interviewer had all out of town visitors raise their hands and was quite tickled with the girl's accent. When I mentioned Billings, Montana, they repeated it after me and poked the carton at me. I also saw Arthur Godfrey for 45 minutes. He is sooting and pleasant. Gets \$500 per minute—so TIME says. There were about 500 visitors at these programs."

## Chiropractic Clinic

Corner 3rd & Main

Phone 128

While the wide scope of Chiropractic is amazing to the uninitiated, we do NOT recommend Chiropractic as a CURE-ALL. Chiropractic is effective in those cases only where the cause is found to be defective in organic energization due to spinal misalignment (subluxation.) Most all of our cases are those that have previously resisted ordinary methods of healing. Our examination is designed to eliminate those we cannot help.

### NOTICE

Case histories published here are from the files of Dr. Le Mond Clinic in Austin. They are displayed here to show the extent and scope of Chiropractic.

### SCIATIC RHEUMATISM

CASE NO. 2392: A man, age 55, came to the clinic complaining of pain in left leg, gas in stomach, a drowsy, dizzy-headed feeling, dull headaches, backaches, nervous shaking in left side, and low blood pressure. A spinal analysis and spinal X-rays revealed a nerve interference. Adjustments were begun and in time he reported all symptoms gone and that he was feeling fine.

### LOWER BACK PAINS

CASE NO. 136—Man, 32, complaining of back hurting for several months, could not do his work as a mechanic. Was advised to go to hospital for an operation. The Spinograph Analysis showed the cause. The Chiropractic Health Service removed the cause. Patient has been well since November 10, 1946, doing hard mechanic work.

### SINUS TROUBLE

CASE NO. 1188: This case is a lady, age 49, who had a history of 6 years of sinus trouble and hay fever, pains in right side of neck and shoulders, rheumatic pains in knees, tired back, pressure feeling in stomach, dizziness and nervousness. After going the rounds of doctors, and remedies, she finally came to the Chiropractic clinic for spinal examination. After the spinal analysis and spinal X-rays located the cause of her trouble, spinal corrective adjustments were begun to re-align and remove interference in nerve wave frequencies which restored normal function to the entire ill-functioned body. Upon discharge, this patient reported no symptoms of any kind remained. The body contains everything necessary for health if its forces are free to work efficiently.

### NEURITIS

CASE NO. 1216: A lady of 39 years complained of irregular periods, right side pains, bad cramps for two days a month, severe headaches before and after, dizzy spells, low back pains, bladder pains, neuritis in shoulders, and sinus inflammation. She came to the Chiropractic Clinic for her headaches because a patient had recommended it for that complaint. Spinal analysis and spinal X-rays indicated defective energizations of the pelvic area and subluxations (misaligned) vertebra in the neck causing spinal cord interference. After a few months she was amazed to discover her female trouble and other complaints had vanished with the headaches. An operation had been recommended. It is not necessary now, for she feels perfect in all respects.

### LOW BLOOD PRESSURE

CASE NO. 2013: A young mother, age 32, after being treated three times a week for a year without results, came to the Chiropractic clinic complaining of a pressure feeling inside her head. "Feels like the top will blow out," she said, "then it will itch and tingle, and then my entire back tingles painfully. Nose stops up all the time. Eyes burn and feel sore above them, and the back of my head and my neck feels sore. I feel tired all the time and have weak spells. Have frequent colds, dizzy spells, indigestion, gas bloating, constipation, and low blood pressure. Generally speaking," she said, "I've been sick most of my life." The spinal examination and spinal X-ray located a spinal subluxation. It was corrected by adjustments. When the patient was discharged she said she felt perfectly well, full of life and vigor, and not a single complaint remained.

### ASTHMA

CASE NO. 481: A lady, aged 31, weight 87 lbs., suffered with Asthma for six months following a severe attack of influenza also complaining of chills, aching in body, hay fever, nervousness, female trouble, pressure feeling in lower abdomen, and pains in right ovary extending up to ribs, in bed several days a month, frequent colds, dizzy spells, rapid heart, low pressure, under continuous care of family physician and getting gradually worse all the time. Although advised against chiropractic she feared she would die unless she did something different, so she came to the Chiropractic Clinic for a spinal analysis and spinal X-rays.

She began her fight back to health under our care. She now keeps her home, cares for her children, holds a job in business, weighs 120 lbs. and is free of symptoms. She continues periodic check-ups to remain well for she never wants to lose again that glorious feeling of being healthy and full of life.

### IRREGULAR PERIODS

CASE NO. 879: A lady of 28 years had not felt well for three years suffered with back pains, catarrhal dripping in throat, irregular periods and bad cramps, and would grind teeth at night. She came to the Chiropractic clinic where a spinal nerve analysis and spinal X-rays disclosed an old neck injury causing nerve interference and defective energization of several areas of body. Corrective adjustments began to restore alignment, removing nerve flow interference and patient was prompt to report a feeling of general good health.

Miss Betty Sue Walker, bride-elect of Ervin Robinson, Jr., was named honoree at an informal party and lingerie shower given by Mesdames R. R. Willis and Onias Carroll at the Willis home Wednesday evening.

Mixed spring flowers were arranged in bouquets and the refreshment table featured a bridal couple flanked by lighted white tapers.

The bride-elect's sister, Jacqueline, introduced the shower when she entered, dressed as a bride, to present the gifts.

Intimate friends and relatives attending were Mesdames Verdon Watts, Maryanna Whitaker, Betty Goodin, Ed Scheid, D. R. Vandiver, Bill Hutson, Joyce Barclay, Jack Walker, Misses Nancy Miller, Frances Walker, Thornton Shirley, Lil Hoover, Helen Acker, Jacqueline Walker, the honoree and the hostesses. Others sent gifts who were unable to attend the party.

Appropos these allegations of communism, we wonder how we could prove our one hundred per cent Americanism.

# ARE YOU GOING TO TAKE THE VETO OF THE KERR BILL LYING DOWN?

EVERY Democratic Congressman from Texas and both our Democratic Senators pleaded with the President not to veto the Kerr Bill. The Kerr Bill represented economic security for every single citizen of the Panhandle. The Kerr Bill would have prevented the Socialists in Washington from plundering our natural gas reserves and setting prices however they wanted them.

## WHAT ARE YOU GOING TO DO ABOUT IT?

IF YOU were to elect another Democrat to Congress on May 6—no matter how able he or she might be—you would be telling the Socialists that the people of the Panhandle would continue to come back for more no matter how much they were kicked in the teeth.

BUT IF YOU ELECT BEN GUILL, THE REPUBLICAN CANDIDATE, TO CONGRESS YOU WILL BE SERVING NOTICE ON THE SOCIALISTS WHO HAVE STOLEN THE DEMOCRATIC PARTY AWAY FROM YOU THAT THE PEOPLE OF THE PANHANDLE CAN NEVER AGAIN BE INSULTED AND BETRAYED WITH SAFETY.

BUT the big bosses of the crooked northern political machines ordered the President to veto the Kerr Bill—or else. The Socialists said the folks in the Panhandle would continue to be suckers and vote Democratic no matter what was done to them. So the President obeyed the order of the gangster-ridden political machines and stabbed the decent citizens in the back. He vetoed the Kerr Bill.

BEN GUILL has promised to bring the treacherous veto of the Kerr Bill to the floor of the House. He will be given the complete and unanimous support of every Republican leader in Washington to redress the wrongs of the Panhandle. No such assistance would be given to a Democratic Congressman from the Panhandle. He wouldn't get to first base. THE ONLY WAY THE DEGRADED CITIZENS OF THE PANHANDLE CAN GET ANY CONSIDERATION IS TO SHOW THEIR INDEPENDENCE AND PROVE THAT HERE, AT LEAST, THE PEOPLE ARE STILL BOSS. THE ONLY WAY THEY CAN DO THIS IS TO ELECT

### Revival Dates Are Set At Church Conference

By MRS. OWEN ANDREWS  
Brand Correspondent

The Missionary Meetings, WMSA Brotherhood and G. A. were held Wednesday night. Church conference was also held. Time for the revival was set for June 9th through the 17th. More information will be available later. The Vacation Bible school will begin May 29th and continue that week. At the men's business meeting it was decided to meet Monday at the building to work on the windmill and pour tar on the roof. The G. A.'s elected new officers as follows: President, Velma Irwin; Vice - President, Oma Ruth Thompson; Secretary, Frances Andrews. The vice-president is also program chairman. Their program was on "Showers of Blessings" with the discussion centering around the Bible.

The men met at the community building Monday and did the work they had planned at the Brotherhood meeting. The windmill was found to need a well man, after pipes were pulled out, so nothing further could be done then, but the men plan to get something done soon.

### HHS Volleyball Team Wins 2nd In District Meet

Hereford High School girls' volleyball team was just three points away from a district championship Saturday at Canyon when the final whistle blew.

Hereford bowed to Phillips, 12-15, to place second behind them in District 1-A competition.

Hereford coach, Mrs. Charlotte Calvert, said her team played without the services of one first-stringer and two second-stringers. Linda Betzen missed the bus and Helen Hamagan and Lois Ann Thomas were absent because of illness in their families.

Hereford got off to a fast start, swamping Dalhart twice and splitting a pair with Perryton before losing, decisively, to Phillips. The last game was a real thriller.

Starting lineup for Hereford was Anna Jewell Cox, Charlene Lee, Oma Ruth Thompson, Chloe Fortenberry, Lela Faye Smith and Willie Mae Smith. Before the competition was too far along the services of Peggy Tisdale, Novalyn Wiggins, Billie Jo Hudspeth, Florene Sims and Alberta Higgins were needed.

Scores of games:  
Hereford 15, Dalhart 4. Hereford 15, Dalhart 7. Hereford 5, Perryton 15. Hereford 15, Perryton 6. Hereford 15, Perryton 2. Hereford 3, Phillips 15. Hereford 12, Phillips 15.

There was plenty of activity on the golfing front Sunday but there's not much report because of no sweepstakers, etc.

The greens are shaping up fast, as is the rest of the course, and enthusiasm is jumping with every springlike spring day. Comment from most of the divot diggers points towards some kind of competition they can put their teeth into before long.

Along the same lines, rumor has it that the Jaycees have issued a blanket challenge to play any other organization in town. The new ball washer has been put up on the fifth tee. The new number one tee is about ready for play, too. When it is ready the tee now used as one and ten will be used for the tenth hole only.

Did you know according to the rules you can remove loose impediments anywhere on the green by hand or with your club, but nothing can be pressed down.

### Esquivel Pitches Central To 4-1 Victor Over Vega

Tony Esquivel made his pitching debut Friday for Central School against Vega and came out with all the marbles as he let the Vega batters down lightly with one run off three hits.

The young pitcher whiffed four while winning a 4-1 ball game. Vega opened the scoring with their lone run in the second inning. Esquivel issued a walk to McNabb after Price had opened the Vega inning with a blazing single over short. Willhite and Youngblood both grounded out for Vega before Jimmy Hill drove in a run with a single through second base. Newbitt fanned to retire the side and end the scoring for Vega.

Central made two runs in the third inning. Bryant gained first on a passed ball and both Parsons and Acton were walked, filling the bases. Billy Paul Knox promptly singled in two runs to put Central permanently in command.

In the fifth inning, Junior Holmes was hit with a pitched ball and got on after Knox had walked. Don Parsons lined out to first, advancing both runners. Acton drove them both across with a single down the third base line. Hoffis grounded out to end the scoring for both sides.

Central will play St. Anthony again Thursday trying to become the first team to win over the Catholics. Coach J. E. Mode Friday said negotiations were underway to play the Eighth Graders from Vega next Wednesday.

He said Esquivel is permanently "in" as the mainstay of the Central pitching staff. He may turn out to be the winning factor when the next St. Anthony game rolls around.

### Eight Whiteface Trackmen Enter Regional Saturday

Eight Hereford High School trackmen steamed through the District 1-A track and field meet in Canyon Saturday to win places qualifying them for the

Regional Meet in the Texas Tech track at Lubbock this Saturday. Ted Houston and Bill Kelly boosted Whiteface stock pretty high although the team as a

whole placed fourth in the meet. Houston was second in points scored with 31 1/2 behind Eldridge of Phillips who had 13 1/2 and Kelly of Cashion of Dalhart with 8 points each.

Hereford scored 27 points to place behind Canyon and ahead of Dumas with 14 1/2 and Perryton with 1. Phillips won with 47 1/2. Dalhart was second with 36 and Canyon was close behind with 34.

Placing either first or second in the Regional will qualify a man for the State Meet in Austin. Only first-place relay teams go, however.

**Houston Wins High Jump**  
 Houston won the High Jump at 5 feet 8 inches and took another blue ribbon in the 120 yard High Hurdles, running them in 17.5 seconds. He picked up another point with a fourth in the Low Hurdles and a half point as a Relay team member.

Kelly took seconds in both the 440 yard dash and 200 yard low hurdles and a third in the 220 yard dash.

Other Whiteface points were earned by Bill Engman who placed second in the Discus throw and Dick Axé who came in third in the Mile.

The 440 Relay team ran a 48.8 quarter that placed third and the Mile Relay team was fourth. The Mile Relay team was composed of Leonard Walterscheid, Houston, Dale Doak and Charles Gresham.

Coach Dalton Criswell will take the following to Lubbock Saturday: Houston for the High and Low Hurdles and High Jump, Kelly for the Low Hurdles and 220 yard Dash (Criswell is holding Kelly out of the 440); Engman, Discus and 440 Relay, Axé for the Mile; and Fields, Shirley and Walterscheid for the 440 Relay.

Preliminaries start at 9:30 and finals will be held in the afternoon. All three classes, AA, A and B will be running to go to the state meet in their respective classes at the meet.

 By JERRY STOLTZ

Both Hereford 880 men got sick during the race Saturday at Canyon and had to drop out. Just one of those unexplainable things. Some runners get sick before the race and others after, and still run good races, but it's a cinch you can't do much when you get sick during the race.

Charles Gresham is going on the Senior Class trip instead of running in the Regional Meet with the 440-Relay team Saturday at Lubbock.

Coach Criswell held Bill Kelly off the hurdles all season because of his bad knee. Then he let him loose on them three days last week and Kelly ran a close

second in the District Lows. As a matter of fact if the race had gone on, Kelly also ran, he might have won. That's the reason Criswell hadn't come right behind the 440. (Continued on Page 5)

## This Last Year Has Passed Too Fast For Most Seniors

It's the end of your senior year. You are in the study hall thinking about May, the world waiting for you, and all those things you've got to do. Then you remember how you felt in the beginning of the year. You wanted it to pass so you could get started! Now—thinking about it—you realize it has passed and you can't help thinking—almost too fast. For as much as you want to graduate you want time to think everything over—

to remember. You look at the faces around you and they've changed. You stare out of the window, while your mind takes you to all the places important to you, around the school. Suddenly you don't feel too much like a big, important senior. Now you turn back to the present and look at the clock. For some reason it seems to be a symbol, but what is it? Suddenly it comes clearly, guidance.

## Check All The Angles And Then Judge Men's Actions

Ferris had it all planned. It had to be done. For nights now, he had lain awake and mulled over the problem. He had given it careful thought. There was no question about it. It was the only way out.

On this night he wore his blue plaid sport shirt with light brown trousers. His hat sat jauntily on the back of his head. His shoes clattered loudly as they struck the concrete street. His clothes had been carefully chosen.

As he walked, he kept a careful eye on the street. He scrutinized everybody who passed with a baleful eye. He observed both sides of the street. He was waiting for somebody.

He slowed down in front of a large department store and parked himself in the shadows. After twenty minutes, a young policeman passed. Without hesitating a minute, Ferris sauntered out and asked for a light. The glare of the match illum-

nated his lined face. Muttering things, he stepped back into the shadows.

In a flash, a rock came out of his pocket, and he hurled it at the window. A loud crash came to Ferris' ears and a smile lit up his haggard face. He started to walk away but was backed by a cop.

The department store owner was indignant. The judge listened to the plea of guilty. He only had one decision—Guilty! In 10 minutes the prisoner was given a call to himself. The case was closed. But the judge was a good man and wanted to find out the real reason for the broken window. Then he went to see the prisoner and found out.

Why do you think he broke the window? A grudge against the owner? A desire for breaking windows? An attempted robbery? Naw, Ferris had been evicted and the only place he could find a room was in jail!

## Highway 60 Delegates Meet At Ponca City

U. S. Highway 60 will be completed across the continent from coast to coast in the year 1950, according to a statement by Harry Glasser, Enid, Oklahoma, five-term President of U. S. Highway 60 National Association.

"Highway 60 is now the best, safest and most scenic route from the Atlantic Coast to the Pacific," said Glasser, "and by the end of 1950, it will be even better."

"The 1950 Convention of the Association, which will be held in Ponca City on Monday, May 8, will attract representatives along the whole route. Because of the millions of dollars of work being done this year on the highway to close up the two or three remaining gaps, we expect the Convention to be the most enthusiastic we have ever held."

The special committee of the Ponca City Chamber of Commerce, headed by L. S. Barnes, one of the earliest boosters for good roads in Oklahoma, is plan-

ning to entertain guests from each of the eight states on the route. "There will be plenty of hard work for the Convention to do," said Barnes, "but we are going to give them some typical Oklahoma entertainment, which we are sure will brighten up the Convention."

Farm income declined last year; if the same thing had happened to business incomes the air would be filled with lamentations of those who now tell us about the glories of private enterprise.

## If You've Never Felt Bad, Just Be Without A Friend

By EARLENA PHILLIPS

Do we value our friends and the friendship like we should? Friends are wonderful things! They can be more valuable than money, or knowledge in some ways. Friends can bring happiness. They can bring comfort when it is most needed.

Did you ever have a friend? It is a horrible feeling just to have only yourself that you can tell your most secret secrets to.

It doesn't cost any more to be friendly than it would if you didn't speak or even make an attempt to be friendly. In fact, it costs less sometimes.

Don't say "I'll not speak first"

when you pass someone. Maybe that person is thinking the same thing, as a result you will lose a friend.

If you do lose a friend in the shuffle, don't by any means go around and tell the secrets she or he has entrusted to you because regardless how you feel about you now they still don't want everyone to know their secrets.

In the future when someone asks why we're so happy, let's be able to say "I have a friend" because friends can make you the happiest and wealthiest person in the world.

## March Acco Press Issue Has Story About Deaf Smith County Rancher And Feeder

Al Smith, Deaf Smith County rancher and feeder, was written up in the March issue of Acco Press, a monthly magazine for cotton farmers, as the one country boy who went to the city to make good and still returned to the stock farm to become a buyer, feeder and shipper of cattle.

The story, by-lined Bill Tipton, tells Smith's complete story starting when Smith went to school in Daddo and Durant, Oklahoma, his native state.

"A native of Oklahoma, Al was brought up in Caddo, in Bryan County. Later, he opened the branch of the Kraft Cheese Company in Amarillo. He and his wife enjoyed fishing and exploring the country around. They got acquainted with the good fishing spots and the people who owned them, their favorite spot was a place on Tierra Blanca creek out of Hereford.

"Al Smith and his wife used to spend week ends fishing there, and they talked about how much fun it would be to have such a place stocked with livestock. Then 10 years ago, they found that the place was going to be put up for sale. After talking it over, they decided to turn from the security of a good job in the city to the uncertainty of ranch or stock farm life, and they loved the little place they bought so

much there in Deaf Smith County, and started to work.

They've never been sorry they made that decision.

Al Smith has averaged shipping \$1,000,000 of cattle a year for the past three years. He started, 1950 off by shipping \$200,000 in cattle the first two months, cattle that he'd bought all over West Texas, New Mexico and Oklahoma. Many of these cattle had been fed for weeks or months on his stock farm, either grazed on his fine grass, in the feed lot, or on rented wheat pasture. That's good management, if you can get a steady gain on beef cattle, about 20 cents a pound for every pound gained by each head of stock.

Smith has always managed to look ahead and keep plenty of feedstuffs on hand. He remembers a dry year soon after he came to the Hereford place, when the parched land was short on feed. He remembers how ranchers came to the alfalfa fields of Deaf Smith and stayed right behind the balers, buying baled alfalfa hay right there in the field to take home to their stock to pull through the drought. Smith decided then that he'd never be caught in that position, and although he buys all his feed—protein supplement and bundle feed—he always keep a good supply ahead.

Smith's method of operation is this: He buys cattle as he finds them within a 500-mile radius of Hereford, having in mind the likes of his regular customers in the Mid-West and East. He has never had any trouble finding cattle and says that they're still plentiful this year, although too high in price. He brings them into his place just five miles east of Hereford, holds them there, and shapes them up.

The story goes on to tell the summer schedule followed by Smith. It tells what he feeds his stock and how much it costs.

The stock weight and what a man can lose in case the market breaks at the wrong time is also shown.

There are several pictures showing the Smith Ranch house, his stock and complete layout. On the first page of the story, Smith is pictured leaning up against a fence.

The last picture shows Smith's children.

By LUCILLE POSEY, Deputy.

Back in 1919 the current grapes related to: (1) the power of organized labor; (2) the too-much that the farmers were getting; (3) high taxation; and (4) the red threat to our institutions and safety.

What with all the benefits the farmers are supposed to get from the government one is surprised that more Americans are not going into agriculture.

The opening of the baseball season reminds us that the nation would have less crime if it had more baseball for the youngsters.

But that doesn't mean the spring games aren't important as previews of the regular season. Lots can be learned from watching young new writers for instance, or old one with bad arms, from watching the spirit and determination of teams.

One other thing short. Ted mentioned is worth repeating. He recalled the rule allowing managers to call up rookies for the last few weeks of the season and the fact that they could use them for a few weeks at the beginning of the grind. Reserve strength in farm club pitching staffs, can make a big difference he reminded. He was afraid of the Yankees in this respect.

They could always reach in the grab bag and come up with polished rookies, Ted said.

This is a factor generally overlooked, and yet it shouldn't be. Remember in 1940, when the Tigers were battling Cleveland and New York for the flag? Ted Baker brought up a youngster named Floyd Gieble. No one had ever heard of Floyd Gieble. It was a crucial series Detroit was

in with Cleveland. The Tigers needed one win of the three games to clinch the pennant. Bob Feller was scheduled to hurl that first day for the Indians. Baker pitched Gieble. He whipped Bob, and the Indians 2 to 0. The flag was Detroit's. One good rookie in reserve can make a lot of difference.

well decided not to really run the 440 in the Regional, they come right together again.

The track team looked better than ever Saturday. If they improve as much this week end some of them will be going to Austin.

Apparently fishing at Buffalo Sunday depended on which part of the lake you were on.

Mrs. J. J. Boydston said the crappie were biting good where she was, and Snooks Bailey said he didn't even see a fish, let alone catch one.

However, they were biting good the latter part of the week. Understand Tom McFarland even caught a string of them, which proves the point.

They were biting Monday, too.

## COMMENT

(Continued from Page 1)

Joe McCarty never took a young pitcher out when another team jumped him heavily during an exhibition game until after the inning.

Ted said certain other teams in the circuit were going all out to win the grapefruit games, and that they were fighting just as hard in March as they would be in September. The lanky slugger has something there. What he says is the tip-off on why some teams look so formidable in the spring, but never make it in the regular grind.

### Hereford Bull

By JIMMIE GILLENTE

Boy, Oh Boy! Did we have the population estimates? They totaled 142 when we closed Saturday night. Here are some more late ones which came in after the printing deadline Saturday: Mrs. Glenn Witherspoon, Hereford 7,448, County 11,150; Mrs. S. A. Brooks, City 7,721, County 11,521; Glenn Witherspoon, City 7,155, County 10,955; Duwayne Wallace, City 7,090, County 9,000; Lonny Wilkins, City 6,000, County 10,000; Tommy Woodford, City 8,200, County 17,000; Carl Perrin, Hereford 6,900, County 11,000; Jim Wilde, City 8,882, County 13,592; Dale Russell, City 12,280, County 18,000; L. C. Boardman, City 8,075, County 15,010; Edwin Schroeter, Hereford 8,411, County 15,006; Mrs. A. J. Schroeter, Hereford 7,279, County 13,029; Mrs. J. E. Dyer, Hereford 6,873, Deaf Smith County 5,157, County 7,969; John E. Dyer, Jr., City 7,942, County 15,783; Ann Dyer, Hereford 6,998, County 11,006; Mrs. Doyle Rose, Hereford 6,308, County 8,484.

Well, that's all the guesses for 1950. Somebody will win, but no one knows who—until the official census release. I had intended to make an estimate, but everyone is trying to kid me out of it. However, off the record and not to be included in the prize awards, I would have guessed 7,397 for Hereford and 12,268 for the county. Homer Fox raised so much Cain about my being

and that it was easy. He says that everyone who had water had a windmill—and that he just counted the windmills and figured from there. Wouldn't it be something if he won again in 1950?

The JayCees had a meeting the other night to find out what was causing people to trade out of town and from what I hear they decided that it was The Brand. Sam Nunnally says its because the Amarillo papers have 21 shots where the Hereford papers have two. This is flatterng in a way, but I could name him quite a few merchants who do not have an ad in each of the two papers which appear each week. Anyway, I think they were passing the buck, which is a very good idea and which leads me to ask about the tennis courts for which the JayCees collected money several years ago—and were to have finished in 1947 or 1948? Really and truly, JayCees, we need those tennis courts in Hereford. I understand that the city would designate the lots just south of the water works (across north from the swimming pool). If this site is not still available, some other location can certainly be found. Lots and lots of kids would like to play tennis, but there is not one single court in Hereford. I am not criticizing the JayCees too much, either. They asked for this job and then the project got pigeon-holed. Meanwhile, our boys and girls are missing a lot of fun and a lot of exercise and a lot of training in fundamental sportsmanship—just because the JayCees didn't get the job done.

Between Homer and the Bootleg Philosopher, I am actually afraid to say anything in my own newspaper. The fellow who coined this "freedom of the press" stuff didn't know these two guys. I sure am sorry for their wives. Think of having to live with either of them for even one day—much less a lifetime.

Another thing, Homer is so anxious for someone to wrestle that I am trying to arrange a special bout for him. Abe Martin says that Slat Gilliland came by to talk with him about the proposed wrestling match and Slat got so excited that he got weak. They finally had to give Slat another blood transfusion before he could ride home in the car. Who wants to wrestle Homer Fox if we can get things lined up with the wrestling commission?

Claude Witherspoon made his estimate on the census and says that he won a prize on estimating the population for the 1910 census. He says this is an old stunt with The Brand. However, he can't remember what the figures were at that time. The Texas Almanac shows Deaf Smith County had a population of 38 souls in 1856, 179 in 1880, 843 in 1900 and 1,179 in 1910. Claude says he has a subscription to The Brand and the 1910 estimate

Harry Caylor says he is willing to bet that there will be a bank robbery here within the year. He says we have been bragging too much in the paper and he absolutely knows that it will lead to a bank robbery.

Which is the most intelligent, a dog or a horse? I know there are a lot of old cowpokes out in this country who will defend the horse, but I still believe that dogs

are smarter. For instance, I once had a pup which simply could not resist chasing cars. Finally, we broke him from chasing everything except old rattle-trap cars. One day he took off after an old car and John Robert's old black dog "Coolie" saw him. The older dog, realizing that the pup was doing wrong, ran out, grabbed the pup by the nape of the neck and threw him out of the street, following which he chased him. This really did stop the pup from chasing even rattle-traps. Can anyone tell a parallel story about a horse training another horse? I am putting Bob Higgins and Kelly Gray and Cecil Guseman and O. G. Hill and all of these old horsemen to test. Even C. R. Smith. There should be some good horse stories floating around, or do these old wranglers just like to talk?

My wife has been bragging for

years about how she could win a lot of prizes on these radio quiz shows. I thought she was just talking, but last week at the press meeting in Amarillo they had a "Dr. I. Q." show and she came out as a winner. She jumped up and answered her question—and got a big white rabbit for a prize. The only trouble was that we already had some rabbits one time, and she didn't care for an more. Another fellow got a 25-pound cake of ice, but he wouldn't trace it for the rabbit. She finally gave it a fellow from Littlefield. Now she is hoping the kids won't find out about the deal. They saw a picture of Clara holding the rabbit, but I told them that it was only a new style Easter hat and they are satisfied—so far.

Due to the Sunday paper it was impossible for all of The Brand gang to make the meeting this year. However, most of them

did come up Friday night for the dinner, which is a big affair, courtesy of Col. Ernest Thompson. Saturday morning I was worried about whether they all got back, so about 8 o'clock I called down to find out.

"Yes, Sir. We are all on the job and everyone is working away," said Atha McIver, cook-keeper and employee longest with The Brand. She hesitated, then added: "Bue we sure are glad you called. We were a little bit worried about you."

Properly squelched, I went down to a committee meeting and helped draw up some resolutions.

We have yet to meet a man who cannot explain how to make a fortune. Americanism: Irish - Americans staging a demonstration when the Prime Minister of Ulster arrived in this country.

The man who squanders much of his money seldom stops to wonder why his wife tries to save spare pennies.

Young people, in schools and churches, should be encouraged to think about the meaning of the word success.

### The Law-You

By BOB KIRK  
DO YOU KNOW what a Grand Jury is and what a Petit Jury is, and the function of each?  
The Grand Jury is the body of twelve men impaneled, sworn and charged with the duty of investigating and examining witnesses and evidence to determine whether or not a person charged by complaint with a crime of the grade of felony shall stand trial for the offense alleged against him. In case the Grand Jury decides that there is sufficient evidence to justify the same, charges are prepared, and signed by the foreman of the Grand Jury charging the person with the offense. This charge is called an indictment. No person in Texas may be required to stand trial for a felony until a Grand Jury has investigated the matter and returned an indictment. This jury deals only with criminal cases, and all of its hearings are secret.

The Petit Jury is the trial jury before whom both civil and criminal cases are tried. It hears all of the facts in a case in open court, and after deliberating on the facts retires to deliberate on the same and determine what the facts are in the case. In criminal cases, the Petit Jury makes a finding of not guilty, and if guilty, assesses the penalty. In civil cases, the jury decides the fact issues, and by answering questions submitted to them in the Court's charge, show their findings on the facts. In damage suits the Petit Jury assesses the damages, if any.

# Long Time Ago

**25 Years Ago**  
 Hereford was making elaborate plans to observe its first public health day in a manner that would prove both entertaining and instructive. The program for the day was under the general supervision of Esther Erickson, official nutrition worker of the Red Cross. Mattie Swisher and Mrs. Garrison assisted her in the preparations. A long parade led by Parade Marshal Ralph H. Barnett was to contain preachers and school teachers. After the parade, athletic events were to take place near Mother's Park. G. A. F. Parker, Ralph Barnett, E. S. Ireland, Rev. W. R. Hill, A. O. Thompson, Rev. J. O. Haymes, C. H. Dillehay, M. G. Prewitt, Travis Dameron and S. P. Rossion were elected to head the Boy Scout work in Hereford. Scoutmasters and assistants of various

troops were E. W. Harrison assisted by Marlin Gilliland and Russell Daniel; A. G. Bell assisted by A. M. Jones and A. Lowther; Mont Baker assisted by J. E. Black.  
 Patients of Deaf Smith County Hospital were doing nicely. Mrs. Slaton said that Mrs. Bobo McLean, D. F. Ashbrook and Mrs. Robert Barrett were in from Hereford. Charles Wedmore returned to his Friona home after recovering. Commissioners had been very busy laying drive ways in the back of the hospital and several more improvements about the grounds were expected to be realized soon.  
 Five Hereford Scouts pulled a good trick when they rode their bicycles to Canyon. Taking two hours and 40 minutes, the boys rode 32 miles. No strain and no pain was suffered by Keith Gu-

Thrie, Paul Wright Barnett, liver Ray, Bill Parker and Alton Miller.  
 Ada Ica Walton, 8-year-old daughter of Mr. and Mrs. Bert Walton Jr., died at her parent's home, 15 miles northwest of Hereford April 24.  
 Wichita sent 100 trade evangelists to the Panhandle and Hereford. Wearing white hats and sunflowers, the Kansans invaded the stores of Hereford and were welcomed by Jno. Overton. They visited the other three principal towns of the Panhandle—Lubbock, Clovis and Canyon.  
 The first Deaf Smith County Singing Convention was slated for Westway May 10. Over 3,000 were expected.  
 Roy Nunn was to be ordained at Presbyterian services in Hereford. Rev. J. B. Sharp and Rev. R. Thomsen were to have charge of the services.  
 Stork specials were to Mr. and Mrs. Tom Baker, April 30, a daughter, Georgia Sue; Mr. and Mrs. T. E. Major, April 24, a daughter.  
 People in 1925 talked of "flappers" as if they were something unheard of before. "Girls of 1925 differed very little from girls of 100 years previous," said The Brand. "Women paid just as much attention to dress in 1825 as they did in 1925. They were as coquettish as they were then. They flirted recklessly, they occasionally smoked, they embelidged liquors, they went for 'moonlight rides,' in 1825 they did just about what they were doing in 1925. The boys were the same, too. They were just as foppish.

achievement of common aims, making possible the development of the individual and the family group as it assumes its role in society."  
 Roll call was answered by members citing experiences in teaching responsibilities. The next meeting will be on April 25 in the home of Mrs. Jack Grady.  
 Those attending the meeting were Mesdames E. L. Adams, E. G. Blue, Roger Corbett, V. E. Dodson, Jack Grady, H. E. Henslee, Berry Jacobson, John Jacobson, Jr., C. D. Kelton, Louie LeGrand, Vivian Major, G. W. Newsum, Coy Phillips, Earl Phillips, Robert Thompson, Ed Warren, C. O. Wilkins, Lawrence Womble, Jim Higgins, and the hostess.  
 We have a strange and sinking feeling; this week was some-kind-of-week but we forgot to observe it.  
 Hard work makes almost any job easy; backing off, and delaying the start, makes success almost impossible.  
 Then there's the man who thinks he is a philanthropist because he once gave five dollars to the Red Cross.  
 We have no way to tell whether the nation will have a depression or not but, if it does, debts made in an era of easy money will be hard to pay.

Mrs. Earl Phillips spoke on "Teaching the Family to Share Responsibilities". She said in part: "Effective management within a family group is based on democratic principles. Every member should participate in planning, working and playing. Through shared experiences the family becomes a unified group working together for the a-
