Question Ban Parochial Students From Public School Busses

Students not enrolled in public schools cannot be transported on Hereford school busses during the 1950-51 term, according to A. J. Schroeter, president of the Hereford Board of Education.

The ruling comes as a sequel to a similar policy adopted by the Hereford board in 1949, regarding transportation of Parochial School students.

Dr. L. B. Barnett: The Bible, some of Hippocrates' writings, some of Sir Isaac Newton's writings, Gray's "Anatomy," early European history, Webster's Dictionary, "Dormant's Facts," "Paul's Ancient Philosophy," Einstein's "Theory of Relativity," and Al Capp's entire works.

Reorganize Hospital Under New Manager

A reorganization plan which called for approximately \$1,500 per month cut in expenses was instituted this week by the Deaf Smith County Hospital and submitted to the Commissioners Court for approval Monday.

The board also accepted the resignation of Elmer Mathies as manager Monday morning, when Mathies sought release from the position of general manager.

Miss West, personnel supervisor, has been in charge of nurses on the hospital floors. She said that the reorganization plan calls for 27 employees in the hospital to serve the present patient load, which has averaged 22 1/2 persons per day for the past two months.

Present plans of the new supervisor call for Mrs. Glenn Anderson in charge of surgery, Mrs. Mayme Kendall, first floor supervisor and Miss Katherine Acker, O. B. floor supervisor.

Miss West served as supervisor of the O. B. section of Northwest Texas Hospital, Amarillo, from 1941 to 1944. She came to Hereford in January, 1948, and has since been associated with the local hospital.

"We believe that we now have an organizational set-up which will offer maximum efficiency at as reasonable cost as possible," said T. E. Seigler, Jr., president of the Hospital Board.

"Check carefully the condition of the house you propose to buy. If you are not familiar with housing construction, ask a reliable person who can give you good advice.

"Be sure you understand the sales contract and other documents you are asked to sign. Protect yourself by seeking good advice before you sign the papers and before you part with a deposit.

"Remember that the purchase of a home will probably be the biggest investment in your family's lifetime. DO NOT TREAT IT LIGHTLY.

"If you need further information, it is available."

Dr. R. R. Wills warns Hereford Lions Club members of Communism and trends toward Communism in this country at the regular Wednesday noon luncheon in Hotel Jini Hill.

Dr. R. R. Wills appeals to Lions club members to fight Communist aims.

Soundly denouncing communism and its growing influence in the United States, Dr. R. R. Wills appealed to members of the Hereford Lions Club to "make sure we do not lose World War III at the peace tables."

Declaring that he did not have a solution, Dr. Wills appealed to the group to "have guts enough to tell these communists off."

Switching to the scene of warfare over the world, Wills branded the fact that American soldiers were going into battle without proper equipment as a crime.

Now we have a conflict between two forms of government," Wills concluded after pointedly criticizing the present administration for conciliatory methods.

## Second Guessing

By Jerry Stoltz

Well Hereford did it, 5-4 over Vega, but it was plenty close. As a matter of fact it could have been 0-0 at the end of the ninth just about as easily. The pitchers were really throwing everything into it. "Ham-bone" Hammond had VFW batters fairly well under control throughout, although they were hitting the ball solidly to the fielders.

Spent most of the afternoon on the visitor's bench and they had plenty of praise for Andy Anderson's pitching while he was in there. They rate Andy and Stan Barrett as about tops in the league. And, although Stan didn't fare as well as the plate or in fielding as usual, he still put in a flashy exhibition of baserunning.

Andy's five strikeouts and most of them when he needed them, proves the point also.

A couple of calls might have left a little to be desired, but otherwise it was a well umpired game. If the VFW would drag over another section of two of the bleachers it would probably help attendance, particularly if the same brand of ball as was

seen Sunday could be seen once or twice a week.

Talk of an actual "fued" between Hereford and Vega is just so much talk. They play awful hard to win, but the rivalry is clean and each holds the other in highest esteem. Jim Halburton's boys were really in there to win, and deserved it just as much as VFW, except it was finally Hereford's time to come out on the long end.

Notice where the Perryton golf club would appreciate the return of their foot bridges if anyone finds them. They practically had a flood up there last week and everything washed away.

Hereford golfers apparently enjoyed the trip to Tucumcari Sunday. Art Manjeet went along just for the trip. Complaints were mostly concerned with the width of fairways. Sounded like it was almost inhuman. The local linksters also found they carry considerably lower handicaps than do their opponents, which made the match somewhat unsatisfactory from the viewpoint of winning. Seems like the Hereford opinion is why play with the handicaps? Just play points.

Portales is planning to renovate their golf course. But it won't be soon enough to save Hereford divot diggers from having to play a full 38 par course. Every foot is there.

They plan to shorten the course by several hundred yards and make it a 36 par so the average golfer can enjoy playing it.

### Comments On Sports

By Ed Sims

**Baseball**— A question being raised more and more often in Washington and other metropolitan centers, is— how long can the Major Leagues remain unchanged? With Houston, Dallas, and Pacific Coast League cities outdrawing some of the Major League clubs, speculation is brewing over additions, or switches, in Major League composition.

Washington seems to have no fear in this respect, since the city has jumped to ninth in population, by tentative census estimates, and baseball enthusiasm remains high, even though the Nats are habitually weak. In Philadelphia, however, the Athletics, once the terror of the League (Americans) are washed out again, Connie Mack seems a long distance from his "one more flag."

The Athletics are for sale, presumably for operations in Philadelphia only. The St. Louis

Browns, long the talk of a switch, are not drawing many customers, but owners deny talk about giving up the franchise. Rich men in Dallas and Houston want a Major League baseball club in their towns, and can buy one. The only hitch is the Baseball Commissioner's office, and other club owners.

The objections other club owners have is, that far-away clubs will necessitate extra travel, and that in turn will wear out players and everyone else. Of course, flying could be the answer to that, but flying isn't as dependable as rail transportation.

If a West Coast city broke into the Major Leagues, the distances involved would be tremendous. Thus, talk about a third Major League doesn't appeal to fans. There is also talk about adding

two clubs to each League, making them ten-club leagues. Some cities in the East want to break into the Majors. Baltimore is one, and has the backing of Clark Griffith. When the Browns were about to be sold a couple of years ago, Griffith came out publicly with his support of Baltimore as the logical new entry, if the franchise was moved from St. Louis. Of course, a Baltimore - Washington rivalry would add dollars to the Washington club's gate receipts. The latest census will show, however, an unmistakable population trend to the West and Southwest. Sooner or later, the Browns will have to give, lest the Pacific Coast League becomes a Major League in its own right. That is the general opinion of many baseball men.

### Ben Guill Reports

In my report to you folks recently I mentioned that on August 2, 1946 the Tidelands Bill, which would have prohibited the Truman administration from stealing our submerged lands away from the Texas school children, lacked only 17 votes of being passed in the House over the veto of the President.

A Jeffersonian Democrat friend of mine wrote a piece suggesting the Republicans cooperate with the Solid South in over-riding the veto. This caused me to look up the facts as to what happened in the past in the Congressional Record. The facts are astounding. They show that members of Congress from the Solid South, by and large, voted WITH THE ADMINISTRATION AND AGAINST THE TIDELANDS BILL. They also show that, with the honor and future of our State at stake, HALF THE MEMBERS OF THE TEXAS DELEGATION DIDN'T BOTHER TO CAST A VOTE EITHER WAY.

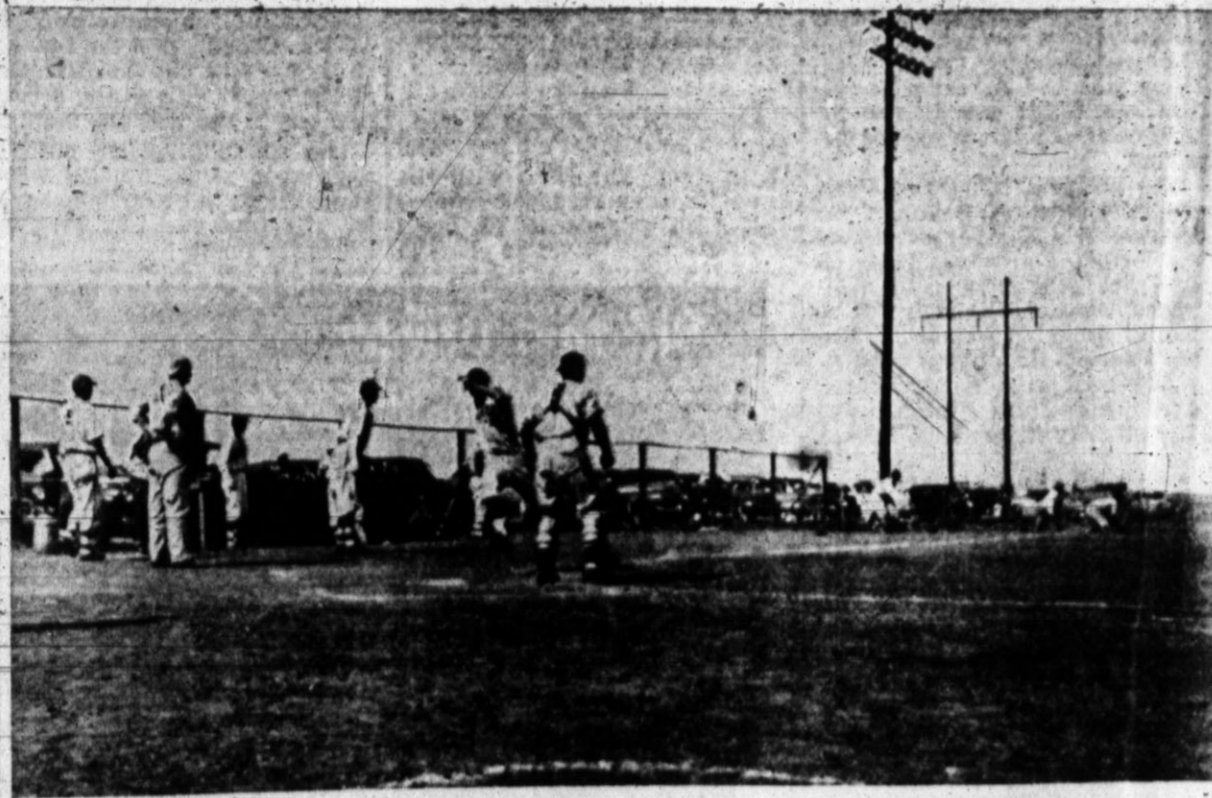

The total vote to over-ride the veto was:

Yea 139  
Nay 95

The "Yeas" included 35 Democrats and 104 Republicans. The "Nays" included 86 Democrats, one Progressive, one American Laborite and only seven Republicans.

Only 33 Congressmen from the Solid South voted to over-ride the veto in this vital States Right's measure, while 35 Congressmen from the Solid South voted to support the President against the claims of the tideland States. The fight against the Tidelands Bill was led on the floor by Representative Sam Hobbs, a Jeffersonian Democrat from Alabama.

Hobbs, a constitutional lawyer

**RENNER SCORES AND ALL EYES ARE ON THIRD**—Johnny Renner crosses the plate with the third Hereford run against Vega Sunday as everyone watches the play at third where Wendell Burdine is starting his slide. Burdine was out trying to stretch his double an extra base. However he batted in three runs with his sharp hit to left center.

of some ability and considerable vehemence, is the Congressman Texans can blame most for losing her oil-rich tidelands. If he had not prevailed, and if the President's veto had been overridden, the Supreme Court would have been powerless to rob the school-children of Texas of their rightful heritage.

#### Surprised at Texans

It is a somewhat difficult thing for a Party man to vote to override the veto of the President when the President is the nominal head of his Party. But, it seems to me that in an issue like the Tidelands Bill, justice and the principle involved should be much more important than mere Party regularity.

Nonetheless, of the 1946 Texas delegation in Congress, only 10 representatives voted to over-ride the President's veto. Ten other Texas Congressmen simply failed to vote. Since the issue was settled by a mere 17 votes, the failure of the non-voting ten was a serious and even tragic matter. (I am proud to say that Judge Gene Worley was one of the ten Texans with the courage to vote his convictions. Gene voted to over-ride the President's veto along with Congressmen Fisher, Gossett, Kilday, Lanham, Patman, Pickett, Poage, Summers and Thomas.)

Political parties (and I do mean both political parties) are necessary in the operation of a democracy but, in my humble opinion, the importance of the Party must always be kept in proper perspective. Parties are the servants, not the masters, of the people. A man belongs to a Party because he believes in most of the principles of that Party, but that doesn't mean he should vote as the Party leaders dictate when such a vote is at variance with his own conscience. If he does that he ceases to be a statesman. He becomes a rubber stamp.

The Texas delegation, being solidly Democratic, were faced with a dilemma on August 2, 1946. They knew that a vote to over-ride the President's veto would anger the Administration leaders and perhaps interfere with their personal advancement in Washington. A vote against over-riding the President's veto would have meant political suicide in Texas. Ten Texas Congressmen had the courage to stand up and be counted. The other ten ducked the dilemma completely. They simply failed to vote. That's what too much party regularity can do to you.

## How Hudson's exclusive recessed floor brings you America's Roomiest Car!

HUDSON

OTHER CARS

Recessed floor ("step-down" design) brings the space between frame members, which is wasted in other cars, into Hudson's passenger compartment. This results in America's lowest center of gravity (and full road clearance), while providing more head room and seating room than any other car.

Floor is on top of the frame, so the vital space between frame members is not available for passenger use. The result is a higher center of gravity and either a high roof line or insufficient head room. Seats are narrower; passenger space is reduced.

WHAT a wonderful difference Hudson's exclusive recessed floor makes! Among other advantages, it provides more room than in any other car!

Hudson seat cushions are up to 12 inches wider than those in cars of greater outside dimensions. You'll find the most head room in any automobile. Even door and window controls are recessed for more elbow room!

Won't you accept our invitation to see Hudson—to discover how this new way to build automobiles makes a greater share of over-all size available for passenger room and comfort than is possible in any other car.

**TAKE ME OUT TO THE BALL GAME**—The biggest crowd of the season starts home after Vega's third out in the ninth inning. The stands were packed as the VFW nine were lucky enough to come out on the long end of a hard fought 5-4 ball game. On the left Andy Anderson slaps out the first Hereford hit of the afternoon. Anderson singled over short. Vega catcher Harris and umpire Tup Loerwald are shown. Wendell Burdine and Conrad Clark wait their turns at bat in the back ground.

# Vets Clip Vega Sunday 5-4 Climb Into Tie For First

By Homer Fox

It was a perfect day for baseball, sun burning down, clear skies and just a gentle breeze blowing in from the northwest. Eighteen kids out there screwed up lighter than a 1927 fruit salad, with the two pitchers hot as a tumbleweed fire when it is 10' in the shade. That was the set-up when Vega and Hereford tied into each other at Veteran's Park last Sunday. Vega would either be in top place or would be tied for first place with Hereford in the Plains League when the battle was over. League or no league, it was a ball game between Hereford and Vega, and that is always a battle, and brother this one was no exception: it was a battle down to the last out.

Andy Anderson started in the box for Hereford and it was his kind of day. But he got off to a bad start in the first frame. Ross was out to center field. Brown beat out a scratch infield hit stole second and scored on McNabb's single which proved to be the only earned run of the game. McNabb was out trying to steal second. Boles singled and Richardson struck out for the third out.

Hammond was elbowing for Vega, and he was as hot as a two bit pistol. With this Richardson kid digging them out of the dirt at third and throwing them perfect to first, we couldn't get a man started around the bases.

Anderson came back in the second frame and whammed them through and past the batters, three up and three down in the second, and in the third with one out he walked Rose. Brown singled for his second hit in that many times at bat. Andy gritted his teeth and struck out McNabb and Boles, and that was the last hit off Anderson.

Hammond, with airtight support, just wouldn't help us at all,

while we threatened in the second when Stan Barrett walked stole second and went to third on a fielder's choice, showing some nice heads-up base running. That's as far as he got. Ross tapped Hammond for a double and the first hit off the Vega fast baller in the third frame, but was thrown out going into third.

The tension was high; you felt every minute something was going to happen, but these two pitchers out there kept mowing them down.

Vega made another score in the fifth on a walk, a sacrifice and an error at short, and Vega had us down 2 to 0.

In the bottom half of the fifth he threatened again; after one was out, Ross walked. Andy Anderson singled for the second hit off Hammond and Burdine hit into the only double play of the game.

Anderson was relieved by Renner in the seventh, giving up four hits and striking out five batters. Renner just kept it up. In the seventh Harris walked, Hammond singled into right field. Bob Patterson had already thrown Harris out at third, but when he went down for the ball,

he stuck a toe in it for a perfect bait, and the ball sailed back to the right field fence as both runners scored. Renner set the next three batters down in order, but we were behind 4 to 1 and in a game with Vega this was plenty.

In the stand up half of the seventh, it looked hopeless and still you could feel that something would happen. The straits were terrific and that bunch of kids on both sides were as nervous as a Father giving away the bride at a church wedding. Patterson, first man up, struck out the right fielder dropped Burdine's fly ball. Ross walked the left fielder, muffed Renner's fly ball, and the bases were loaded. With one man out on the bases loaded, Burdine came to bat. This kid would give the shirt off his brother's back to hit that ball over the fence, and would a bunch of fans. The count got to the last thing there is—three balls and two strikes—Burdine crashed the next pitch over short's head into left field for a double, scoring the three runners ahead of him, but Burdine was out trying to make a third. Conrad Clark singled but that was all for that frame.

however, the score looked a lot better—Vega 4, Hereford 3.

Renner set 'em down in the eighth, three and three down. Then he sexed up the ball game in the bottom half of the eighth, with two more runs on nary a hit. Richardson was now pitching for Hammond, Barrett was safe on an error by center, and on a perfect double play ball by Juddy Anderson to third base, Bowles made a perfect peg to second and the ball got away from Brown and Barrett scored with the tying run. Buddy Anderson on third scored easily on Patterson's long fly to left field.

With two out in the ninth we had 'em down 5 to 4. We were still uneasy that something would happen; and sure enough Hammond came up with a double, but Rose was out, short to first, as nice a play as you ever saw by Conrad Clark at first.

We won and we are glad. Vega just did a better job of fumbling than we did, at the right time. Those kids on both sides were missing fly balls that they ordinarily catch in their hip pockets. It is hard on the pitcher, and the fans cry their heads off, but those old kids that miss the balls are the ones that really hurt.

Kinda took the joy out of the win when, after the ball game, I earned that my good friend Dick Morris, was in the hospital. Hope Dick is soon out and around again. He has done lots for baseball and the kids, and we need more like him in every town.

## Central Plains League Race Boils Down To Three Teams

While Hereford and Vega were playing for league leadership Sunday, other Central Plains league teams were battling tooth and nail for first division spots or to stay out of the cellar. Umbarger slugged out a 15-9

victory over Vigo Park to move out of the cellar. Canyon slapped Nazareth around 14-5 to tighten their hold on third place and Tullia won from Hart by virtue of a forfeit.

**New School Laws Provide Better Education For More**

AUSTIN, Texas — Texas' new school laws, in force one year, have had the desired effect of providing better education and of bringing more children into the classroom.

Average enrollment skyrocketed more than 100,000, L. P. Sturgeon, state associate commissioner of education, said here today.

"A renewed interest among educators in getting children into the schools, plus more attractive programs offered the pupils have had the desired effect," Sturgeon said.

"The spotlight of publicity thrown upon the schools while new education laws were being studied by the public and enacted by the last legislature has caused Texans to take more interest in their schools than ever before.

"An illustration of this is the fact that in some districts members of civic clubs have designated themselves as attendance officers. They have been extremely helpful to the school administrators in urging attendance so that Texas children can have a better education."

Every district in the state has waged intensive campaigns to get children in school and keep them there, Sturgeon said.

Schools have expanded or instituted classes in shop work to interest older children.

Classes for handicapped children have increased 50 per cent. They, like many other special school services, were made possible by allocation of state funds

The after dinner program will start about 1:15. Mrs. O. M. Dickey will be the leader of the program which will be about the Southern Baptist work in foreign missions, its accomplishments and opportunities. The guest speaker will be Rev. All ladies of the different circles are urged to attend the luncheon and program. All outsiders who are interested are invited.

### False Wireworm Control Tests

COLLEGE STATION—Lindane, one of the new insecticides, has shown promise for false wireworm control in tests conducted at the Lubbock Substation of the Texas Agricultural Experiment Station. H. G. Johnston, head of the department of entomology, Texas A&M College, states that up to now there have been no practical insecticides for the control of this insect.

False wireworm infestation is restricted to the Rolling Plains and South Plains areas of North-west Texas. The insect is likely to attack any crops grown, but is a major pest on small grains and sorghums. It works altogether underground, feeding on stems, roots and germinating seeds. Johnston says that estimating the damage caused yearly is difficult because the infestation is variable, occurring in spots throughout the area from year to year.

Best control results were obtained from the application of eight ounces of 25 per cent wettable lindane dust per 100 pounds of seed. Higher applications of the insecticide injured the germinating seed and the small roots of the young seedlings.

### Law And You

By Bob Kirk  
**DO YOU KNOW** why you need a contract more when dealing with an honest man than with a dishonest man?

Two men who are honest need a contract to help them remember exactly what they agreed to do. In making an agreement both intend to do exactly as they agreed. Some months after the agreement, without a contract to refer to, one might remember an item one way, and the other might remember it differently. Each believing he is right will stand steadfastly by his position, and will not change his views without a lawsuit. Whereas, if they had a contract, they could refer to it, and one seeing that he remembered the item incorrectly would admit it and would do as he agreed to do.

A dishonest man, will do only what he is forced to do. Thus, he will take his contract and study it, and see if he can find any loophole to keep from doing what he agreed to do, or some way to try to bind the other par-

ty to something not agreed upon. For further information, on this subject, see your local attorney.

### Swine Raisers Watch For Serious Disease

AUSTIN, Texas (Special)—If pigs sneeze frequently and their snouts later become "pushed in" or twisted, swine raisers should be on their guard. They may have a serious disease problem in their herds.

That warning today from the

American Foundation for Animal Health pointed out that excessive sneezing, coughing and a peculiar look to pigs' faces may mean an outbreak of infectious rhinitis. The malady appears to be spreading, authorities say.

"Infectious rhinitis does not kill many animals outright," a Foundation bulletin reports, "but it may stop gains to the point where stop raising is no longer profitable. Even well-fed pigs fail to put on weight."

"In many instances, farmers have mistaken infectious rhinitis for 'bull nose.' The two conditions appear similar, but bull nose starts from an injury, and infection with barnyard germs. It is not contagious. Infectious rhinitis, however, is caused by a disease organism, possibly a vir-

### Rain Curtails Game With Dimmitt Nine

Rain curtailed the Dimmitt-Hereford Junior American Legion baseball game Tuesday night, to the relief of Dimmitt who was trailing by 12 runs. Hereford opened with two runs in the first, without a hit. They scored ten times in the second with Culpepper, Kerr, Corbett, Brock, Nunnally and Alston getting hits. The game was called with two down in the Dimmitt half of the third inning.

Hereford coach Joe Smith said no definite dates have been set for the bi-regional playoff with the winner from the Lubbock Region, but they will be as soon as the winner is determined there. He also said Dimmitt is just starting baseball for the Juniors and trying to create some interest down there in the program which has gone over so good in the two years it has been under way here.

Dimmitt players included: Deyer, Wright, A. Wright, Sigler,

### Summarize Latest Recruiting Release

Recruiting Sgt. H. M. Riddle released the following as a summary of the information given to the Army and Air Force Recruiting stations:

A breakdown by military occupational specialty (MOS) and by specialty number (SSN) of shortages in military personnel which are needed to augment the Air Force is attached.

To fill these shortages the Air Force initially is seeking volunteers from its active reserve components and former Air Force servicemen.

Officers now possessing critical occupational specialties may request recall through the nearest reserve unit or by application to the headquarters of the nearest numbered Air Force. Recall will be for one year. Reserve officers will be asked to perform their active duty in the grade held prior to separation. This is necessary to avoid disruption to the officer grade structure since the majority of officers now on active duty are reservists. Voluntary recall of inactive reserve officers in their reserve grades, which in many cases are one grade higher than that held at time of separation, would require in fairness a sweeping re-adjustment of the grade structure of the active establishment.

Brock, Wilkins, Boyce, McRight, Nunnally, Pickens and Alston played for Hereford.

Such readjustment is not desirable at this time.

Qualified airmen now in the active reserve may voluntarily request recall for a minimum period of one year by making application through their reserve units. Recall will be in the grade presently held in the active reserve.

Former airmen who have no reserve status may volunteer for enlistment in the temporary grade held at the time of last honorable discharge from the Air Force, by applying at the nearest U. S. Army and U. S. Air Force Recruiting Station.

Accepted airmen will be sent directly to the nearest Air Force processing station, after which duty assignments will be made. Normally, enlistees age sent first to Lackland Air Force Base, San Antonio, Texas, for a 13-week indoctrination period. The present voluntary recall of reservists is limited to male personnel and is in addition to the normal program for enlistment of men and women in the Regular Air Force.

## Renfro Yields Are High; Rickmans Have Anniversary

By Mrs. R. C. Childers  
Brand Correspondent

Potato harvest in this area is in full swing. Jack Renfro reports 364 sacks to the acre. Mr. Renfro sold a car load of potatoes for Mr. J. R. West of Lubbock in Chicago for \$4.30 per hundred. This is the highest price paid this year. Mr. Renfro had an extra good turn-out on his onions, too. The sacks per acre were 695.2. Onions are dug by hand, piled in rows and then sacked.

Mr. J. R. West of Lubbock was a visitor in the home of Mr. and Mrs. Jack Renfro Friday afternoon. Mr. West farms a section of land just east of Lubbock. He raises potatoes, onions, peppers, tomatoes and cotton. He has five irrigation wells and is very successful in high production of crops listed above. He also raises registered Holstein cows.

Mr. and Mrs. Lyle Rickman and family celebrated their wedding

anniversary in Amarillo July 5. Mr. and Mrs. A. H. Inman of Plainview were visitors in the home of Mr. and Mrs. Wayne Johnson over the week end.

Mr. and Mrs. W. W. Palmer were Sunday guests in the home of Mr. and Mrs. Raymon Palmer. They are the parents of Mr. Palmer. Other guests were Mrs. Palmer's brother, Ray Palmer and his girl friend, Miss Lillie Johnson, both of Amarillo.

Mr. and Mrs. Wayne Johnson returned Saturday evening from a fishing trip at Conchas Dam.

Mr. and Mrs. Liston Wilson returned last week from a vacation trip to Creed, Colo. and to Red River.

Mr. and Mrs. Raymon Childers attended the wedding reception of Mr. and Mrs. Leo Hemmington Monday evening in the home of the bride's parents, Mr. and Mrs. Gordon Witherspoon. Betsy Simpson, infant daughter

# State Health Officer Says Poli o Hysteria Should Be Kent Down

AUSTIN — State Health Officer Geo. W. Cox has turned the bright light of optimism on the heretofore dark pictures of polio in Texas.

He doesn't want to encourage complacency either, the state health officer said, adding: "Every clear-thinking effort must be made to keep every home, every community, every vacation camp consistently clean and sanitary. Briefly, elimination of fly and insect breeding places, personal cleanliness, and getting milk, water and food from safe, approved sources will aid in preventing a number of communicable diseases."

National statistics, Dr. Cox asserted, show good reason for optimism in most cases of polio. According to the figures, from 40 to 60 per cent of all victims recover completely and can do anything they choose.

From 25 to 40 per cent recover with only minor disability, and can, within very wide limits, lead perfectly normal lives.

Talk football to a University of Texas fan and he'll generally allow as how the 1941 team was the greatest ever produced at Forty Acres, one tie and one loss not withstanding.

Cherry thinks he's going to have a good football team next year. But he certainly isn't talking about a team that will make folks forget Dana Bible's crew of Pete Laydon, Jack Crain, Pappy Martin, Mal Kutner, etc.

As a matter of fact, Cherry can't see why his Longhorns should be put on the spot as the top team of the conference for next season. Southern Methodist, Texas Christian, and—yep—Rice are going to be hard to beat.

But the Texas coach isn't selling his crew short. He's got a good solid club, but it isn't a "senior club" that comes later.

If you want to guess right now about a starting backfield, Ben Tompkins at quarter, Byron Townsend and Bubba Shands at halves and Lew Levine at full-back wouldn't be a bad one.

The big boy has looked great since switched to end from back. One thing that is going to help Cherry is his capable replacements. He's not going to have too much depth, but what substitutes he has are top fliers' boys. And that may mean the difference when they figure on the standings at the end of the season.

From 15 to 20 per cent are more severely handicapped, and 5 to 10 per cent terminate fatally.

"It all goes to show that polio is actually a minor cause of illness, and an even less significant cause of death, when compared to certain other communicable diseases," the health officer concluded.

# Fourth Hour Of Series Will Be Given Sunday

General and Jurisdictional Conferences of his church since then. He is a graduate of Garrett Biblical Institute with post graduate work in Chicago Divinity School and received his doctorate in divinity from Oklahoma City University.

The male chorus of the famous Methodist Hour Choir will feature the old favorite of college campus groups, "I Have Heard of a Land," on this radio worship service.

This Question:

I just read in a back issue of the Saturday Evening Post that there are - in one year - 33,500 fatal home accidents compared with 28,600 fatal auto accidents and 16,000 fatal industrial accidents. There are also five times as many non-fatal accidents in the home as in the car. Can I get insurance to protect me from statistics like these.
