**ABOUT READY** — Although steel shortages slowed down construction on the new \$250,000 commercial ice plant by about 30 days, the new \$40,000 produce packing shed is complete on the outside and nearing completion on the inside. Part of the shed is shown on the right with the ice plant in the background. In the picture above the new Santa Fe track is shown and the picture on the left shows the storage part of the ice plant while the one on the right shows the machine shop side of the plant.

## Around Town

SIGHTS, FACES SEEN

If you've had enough rain for a few days, here's a rumor worth investigating. D. C. Kinsey reports from reliable sources that Bill Hembree and Wayne Edwards have been slipping out at night and putting on those "Rain Dances." Kinsey says the two Hereford men brought the custom here from the Indian territory in Oklahoma. Furthermore, he believes it is about time to put a stop to the procedure.

Francis Hardwick is taking care of the problem of leaving your car to go to the concession stand and then getting lost on your way back, out at the Tower. He says it is the first time it has been done as far as he knows of. They are taking out one speaker on each row and putting in a path from the concession stand back. Each row will have a lighted number and if you know which row you started from you will be able to find your way back to your car without any trouble.

Aubrey Smith will give a program on "Kiwans Education" to local Kiwanis club members at today's luncheon meeting.

Hereford Jaycees will hold a called meeting in the County Courthouse tonight at 7:30 o'clock.

All Hereford firemen and three fire trucks answered the fire alarm Saturday night about 7:30 o'clock. The fire was on Park Avenue and was caused by someone knocking a smudge pot over. The fire went out by itself. No damage was reported.

Rain and wet grounds at Lubbock caused cancellation of the second game between the American Legion Juniors of Hereford and Lubbock in the bi-regional playoff. Coach Joe Smith said since they couldn't play the game now before the deadline that under the circumstances the Lubbock team will represent the bi-region.

Mr. and Mrs. Irving Alexander returned from New York and the East coast this week. They were on a combined buying trip and vacation. Mr. Alexander visited his mother while in New York.

Members of Hereford's four square dance clubs which are members of the Panhandle Square Dance Association are planning to attend the Jamboree sponsored by the association in Ellwood Park, Amarillo Saturday night, July 29. These clubs are "The Texas Star," "Sal n Joe," "Foot n Fiddle" and "The Last Chance."

## Steel Delays Construction On Ice Plant Thirty Days

Delay in delivery of steel set back the completion date on the new \$250,000 Underwood and Williams commercial ice plant east of town by about 30 days, according to Travis Jackson, building superintendent.

They still plan to be open by the 15th of August in time to catch the cantaloupe harvest.

Contracts have been made for the Santa Fe to ship ice to Hereford until the plant is completed. The ice will be unloaded at the plant and trucked to the individual potato sheds.

They'll bunker ice on everything originating in Hereford and the customer will take care of top icing, Jackson said. They planned to start this service either Wednesday or Thursday.

Opening this service will solve icing problems for local vegetable packers. Previously, those who haven't used the pre-cooling system, have had to back-track to Clovis or take cars on to Oklahoma for icing.

A mobile lift with a lifting capacity of seven and a half tons for 24 blocks of ice at one time came in this week and will be used until the plant is ready with icing island and other facilities.

## Annual Lions Club Carnival Gets Going Monday Evening

A galaxy of rides, concessions, and general amusement stands will this year highlight the annual Lions Club Carnival which opens Monday evening, July 31, at 7:30 o'clock.

The carnival will be located on the vacant lots at Third and Sampson Streets, diagonally across southeast from Hotel Jim Hill, and is scheduled to continue through Saturday, August 5.

Rides to be conducted by Rhodes Amusements of Amarillo and will feature a Merry-Go-Round, Ferris Wheel, Tilt-A-Whirl, and two kiddie rides. This is the same series of rides featured during the past two years, Thompson said, pointing out that it has always been good clean entertainment.

Carnival booths will, as in the past, be manned by individual Lions Club members, who donate their services during carnival week. The following concessions and committees were listed by Mr. Thompson:

Dart Game—Paul Harvey, chairman; Jim Roberts, Dr. R. R. Wills, Reed Williams, Robert

Wagoner, Cecil Rockwell, Bob Wilson, Weight guessing—O. W. and Homer Brumley, chairmen; Jack Brown, Jim Robinson, Bob Lawrence, Glenn Snyder, Bottle Throwing—Dr. Will F. Graham, chairman; Dudley Green, Irvin Alexander, H. C. Owen, E. C. Eubanks, E. M. McCann, Prize Committee—Bill Warren, chairman; J. W. Robinson, Jr. and Wayne Edwards, Cork Gun—Ray Cowser, chairman; Sylvester Slagle, Debbs Knox, Roger Corbett, W. L. Davis, Clyde Cave, C. H. Gleaton, and W. O. Hopson, L. H. Foster, Bingo personnel will be announced later.

Thompson said. Hamburgers, hot dogs, cold drinks, pop corn and candy will also be featured at the carnival along with several new booths and concessions according to present plans.

## Friday And Saturday Is Circus Time In Hereford

The great Barker circus of 23 acrobatic, clown and trained animal acts, will come to Hereford under the sponsorship of the Rotary club Friday and Saturday.

The show will be held in the Hereford Riders Arena east of town, according to James Witherspoon, Rotary Club president. Among the acts enthusiastically received in other cities is that of Buddy, the talking seal, presented by his trainer, Walter Jennier. Another is "The Sensational Kays," world-acclaimed high wire artists.

Others, each unique and unchallenged in its field, are the Williams Alley Dogs, Ponies and Monkeys; the five acrobatic Rinaldos; the Vivian Reeth high aerial ballet beauties; Big Bill Blomberg's smallest performing ponies in the world; Reuben and Anita Olvera in their high perch pole equilibrium thriller; Ann

## City Calls For Telephone Rate Increase Hearing

Hereford City Commissioners had a busy time Tuesday afternoon as they took action on half a dozen various matters and considered other business.

They decided to deal with the Telephone company request for an increase in rates after an opening meeting Tuesday morning, August 8, in the City Hall. Mayor W. E. Dameron said the application will be presented just as though it had never been made before, for the benefit of the two new commissioners who were not on the commission at the time the first request was made.

The hearing will be held at 9 o'clock and any person or group with community responsibilities that wishes to attend is urged to do so by Mayor Dameron. The public can air their differences if they have any and the Commission will take the matter under advisement after the hearing, Mayor Dameron said.

The City of Hereford will also start selling water at \$100 a car, loaded and ready to take out. They also propose to have a uniform label used by all distributors of the water.

### Need Health Inspector

After a lengthy discussion concerning the new City Health Ordinance the commission decided they will hire a full time health inspector to enforce the ordinance for the benefit of Hereford citizens. Mayor Dameron said they are now on the lookout for a man qualified to handle that type of work.

### Former Resident Dies In Clovis

Funeral services will be held this afternoon at 1 o'clock in the First Christian Church at Clovis with the pastor officiating. He will be assisted by Dr. Ross Calvin.

Following the service the body will be brought overland to Hereford for graveside rites and burial in West Park Cemetery. Mr. and Mrs. Casebolt moved from Hereford to Clovis in 1926. He was a lifelong member of the Christian Church and took active part in church activities. He was serving as a deacon at the time of his death.

Besides his wife he is survived by four children: Mrs. J. J. Boydston of Hereford, Mrs. John Benson of Albuquerque, N. M., Herbert Casebolt, Denison, and Ray Casebolt, Amarillo. Six grandchildren and two great grandchildren also survive.

### Question OF THE Week

In or around the home, what work do you most enjoy doing?

Volney Watson: I enjoy working with flowers or in a garden.

Mrs. E. W. Young: Cooking or sewing. I enjoy working at home and being at home.

Dr. Milton C. Adams: I like to build things. I am working now on a combination barn and kennel. I also enjoy building model railroads. I build small locomotives and cars to actual scale of the large ones.

Mrs. H. E. Wester: I enjoy just keeping my house clean, waxing my floors, and cooking for my family—just general house work. When I have leisure time, I like to crochet, embroider, do ceramics, oil painting. I spend most of my time, however, cooking for my family.

J. K. Baker: Outside the home, I enjoy yard work and taking care of the lawn. I spend most of my leisure time, though, in reading.

Mrs. Minnie Medina: I enjoy doing any work in the home—cooking, keeping house, etc. I embroider and enjoy work like that.

W. E. Landrum: I prefer yardwork and working with the flowers.

Mrs. R. T. Adams: I enjoy working in the flowers and taking care of my yard. I also like to keep house and in my spare time, I enjoy crocheting and embroidering.

Ray McCullough: I like to train my bird dog. I also like to get out in the evening and barbecue steaks.

### Approve Safety Council

The City Commission also favorably considered passing an ordinance setting up a Hereford Safety Council. The ordinance will probably be passed at the August 8 meeting, Mayor Dameron explained.

He said the Safety Council will be modeled on the plan used in Amarillo and will be established in the interest of greater community safety through accident and fire prevention, control of communicable diseases, and in particular, the enforcement of traffic laws.

All the City will actually do is foster the Council through the Ordinance and then promote it, without actually dictating in any way.

Board of Directors, composed of one member from every local civic and service organization, that wishes to place a member on the board, will direct and organize public safety through various means.

Officers will be elected from the Board of Directors and each member will have a voice in matters pertaining to it.

All Clubs Wanted It Bob Wear, president of Hereford Kiwanis Club, presented the matter to the Commission meeting Tuesday, Maynard Drake, former president of the Amarillo Council who recently presented a program to the local Kiwanis club, was instrumental in bringing the need for such a program in Hereford to the attention of the group.

Representatives from the four men's civic clubs met with Drake and Wear a few weeks ago and expressed the desire to take the matter before the Commission and request a Council be formed.

Mrs. Liston Wilson and Mrs. Homer Brumley received the Commission's approval for their plan to put iris in City Parks where possible so they will be in bloom for the Iris Flower Show.

Mayor Dameron said the commission wants to cooperate in it as a community enterprise. The

First Street also came under the scrutiny of the Commissioners again. This matter was discussed a little over a year ago when the street was under water from heavy rains, and at that time Mayor Dameron made a personal trip to Amarillo to talk with Santa Fe officials on the matter. He said he thought they would make provisions for adequate drainage at that time, but since it has not been attended to they are going after it in a strong fashion.

women represented the Hereford Garden Club.

Garden Club Plan The Hereford Garden Club has announced that its course of study for 1950-51 will be the study of the Iris family culminating with an Iris Flower Show in the early part of May.

With this in mind the club is recommending the planting of new iris all over the city, and is offering at cost to them, bulbs recommended for this area. The committee, consisting of Mrs. A. D. Thompson, horticultural advisor for the club; Mrs. G. G. Hill, project chairman for 1949-50; and Mrs. W. S. Fluit, president of the club, have made a careful study of the iris which is likely more beloved in the southwest than any other flower. It gives much and asks for little.

This is not a money-making project, but a plan for the beautification of Hereford. Mrs. Fluit stated. Besides those listed below, there will be many free bulbs available. Mrs. Liston Wilson, project chairman for 1950-51, will announce her plans soon for the planting of iris as a city-wide flower project.

Civic minded persons are urged to give their support to this project as a beautification measure for 1951. Plans must be laid well in advance and orders for the listed bulbs must be in by July 31. Place all orders with Mrs. O. G. Hill or Mrs. F. S. Slaton before August 1, when orders must be mailed if the best flowering for next year is obtained.

**Final Returns In Election Reveal Very Little Change**

Final returns on Saturday's Democratic primary showed very little difference than the late returns in the Sunday Brand. However, Walter Rogers is officially Mrs. Altavene Clark's run-off opponent for the Democratic spot on the November ballot for Congress from this district.

Kenneth Wheatley also beat O. H. Dixon in the final count to get in the run-off with Morris G. Cobb who had a fair lead in the State Representative race from the 123rd district.

Herbert C. Martin of Lamb County defeated W. N. Stokes for Associate Justice Court of Civil Appeals, 7th Supreme Judicial District.

club met Tuesday afternoon in the Methodist Church basement for a demonstration of the Pfaff and Sew Gem machines. The demonstration was given by Mr. Van Sichel of Clovis.

Also to be discussed was what to plan for the opening of Harrison Highway, but due to the rain clouds most of the ladies left the meeting.

Refreshments of Cokes and cake were served to the few remaining ladies and Mr. Van Sichel.

There were four guests: Mrs. Paul Harrison, Mrs. Wallas Leach, Mary Lou Benson of the Hereford Brand and Mr. Van Sichel.

Mr. and Mrs. Boone Laceywell of Pagosa Springs, Colo., have been here visiting his parents Mr. and Mrs. W. W. Laceywell. Boone is superintendent of schools for the recently organized district 50 which includes 26 schools.

Mr. Potts and Mr. and Mrs. Roy Potts and family visited in the N. A. Brown home last Sunday.

Wanda Block left Friday by bus to spend several days with her grandmother, Mrs. Ida Witt of Amarillo. Miss Block is the daughter of Mr. and Mrs. B. F. Block of this city. She has traveled extensively with her grandmother most of the summer pending a great deal of their time in Arizona for Mrs. Witt's health. One place in particular that they visited that Miss Block enjoyed was the Yellowstone National Park.

Mr. and Mrs. S. J. Barclay were called home from their vacation trip to Colorado Friday due to serious illness in the family. They were visiting relatives near Denver when word was received.

Mrs. Leo Hennington had a call from her husband who is now stationed in San Francisco, where he has been sent for 20 weeks of training. When Mr. Hennington returned last week he thought he might be sent into the war zone, but he is going into training instead. Mrs. Hennington is to join him as soon as he finds living quarters.

Mr. and Mrs. Floyd West are planning a trip to California as soon as Mr. West can get in the field and work his feed. They plan to be away for two or three weeks.

Mr. and Mrs. Raymond Palmer visited in the home of his parents, Mr. and Mrs. W. W. Palmer Sunday afternoon in Bovina.

Maudina Bushland from Oakland, California, is visiting in the home of Mr. and Mrs. W. H. Blevins this week. Maudina is a niece of the Blevins.

Mr. and Mrs. Joe Yeager were

visitors in the home of Mr. and Mrs. Raymond Palmer last week. The Yeagers were returning to their home in Cheyenne, Wyoming. Mrs. Yeager is Mrs. Palmer's sister.

Joe Lyons, Bill Kendall and Curtis Barclay went fishing Saturday. Between the three of them they caught about a dozen large fish.

The funeral for Barbara Joe Price, four-year-old daughter of Mr. and Mrs. Mack Price was held at 4:00 in Vega, Friday. Barbara had been in ill health all of her life. Those attending the funeral from Hereford were: Mr. and Mrs. J. H. Barclay, Ralph Ridgway, Curtis Barclay, Pauline Boon, of Dimmitt, and Mr. and Mrs. S. J. Barclay.

A car accident Friday morning left C. S. Barclay minus one of his big trees along the front of his place. The car driven by Roy Dodson from Elk City, Okla. got out of control and broke the tree completely off and would have landed in their duck pond had the impact been enough to stop it before it landed in the pond.

Mr. and Mrs. Bob Wear left last Monday for Oklahoma where Mr. Wear visited his mother who has been ill for several weeks.

### Weeping Lovegrass Will Furnish Feed And Forage

Cultivated pasture grasses are proving their worth, according to W. M. Stewart, chairman of the Board of Supervisors of the Deaf Smith County Wind Erosion District.

Lynn Axe, who lives south of Hereford harvested 400 pounds of seed from five acres of Weeping Lovegrass in 1949. He sold this seed at prices ranging from fifty to sixty-five cents per pound, netting him close to \$40. per acre. He had two acres of the new improved Blackwell Switch grass which netted him close to \$60.00 per acre from seed production.

Because he needed forage for his cows he has been grazing his Weeping Lovegrass this year. Although he irrigated the grass only one time, he reports that he has had plenty of grazing. Mr. Axe had a herd of 15 dairy cattle. In addition to the Lovegrass pasture these cows have had access to 15 acres of native grass and are fed ground alfalfa and he-gira bundles. Mr. Axe reports that his cows spend more time on the Lovegrass than on the native pasture and that the consumption of the ground feed is 50 per cent less than it was last winter, when his cows were grazing on good wheat pasture.

He says that, due to the small expense of growing it, his grass has proved as profitable as grain sorghums or other crops. He intends to harvest seed from his Switch grass again this year. Mr.

Axe advises: "Weeping Lovegrass should be close-grazed for best results. The grass should not be allowed to get over five inches high." Tom Draper, west of Hereford, and W. P. Axe in the Wyche community have recently planted extensive acreages to Weeping Lovegrass due to the good grazing results of this trial plot.

THE ORIGIN OF "BANK"

The practice of banking started in Venice toward the end of the Middle Ages. The Italian bankers sat at benches, out in the open market-place, to conduct their business. These benches, or "Bancos," as they are called in Italian, gave us our present-day word "Bank".

## Oh Bury Me Not, On The Lone Praire.

The haunting melody of "Oh, bury me not on the lone prairie where the coyotes howl and the wind blows free" might have been written somewhere in the vicinity of these two pictures taken near Hereford. And then again perhaps the even more popular "Oh give me a home, where the buffalo roam and the deer and the antelope play" could have been inspired in surroundings such as these by a man who could see the beauty in the stark realism. But even so - - -

"Wind and Water" might have been an apt title for these two pictures — wind, as shown by the fence laying down and the fact that water is pumping from the well, represented a tremendous factor in the early development of this great country. While water has and always will be the basic factor in the development of any area in this part of the country from an agriculture viewpoint. With water the country knows no limits. Without water in the quantities we know from irrigation standpoints, Deaf Smith county would change overnight. Photos by Jap Dickerson, Jr.

From left to right they are: Alex Thompson, county surveyor; O. L. Bybee, county attorney; Bruce Wooddell, county hide and animal inspector; J. T. Guinn, commissioner precinct three; G. T. CASE 325 (Friona, Texas): On January 31, 1950 a mother brought her nine year old son to the clinic. She said, "I was carried into the clinic by two of his neighbors. Five years

before he had a 1800 lb. pipe fall on him that put him in the hospital. After he was released from the hospital he said his back did not feel right and it bothered him all the time and steadily got worse. As the back got worse he began having headaches in intensity. He couldn't get up when he stooped down, and he couldn't stoop when he was standing. It was torture for him to walk. He had lost his job because of this condition. He said he had used other methods to effect a cure, and was wearing a belt for support, nothing seemed to help.

A spinal examination and spinal x-rays located a spinal subluxation in the upper neck area. It was corrected by adjustments. Headaches, neck ache and lower back pains are a thing of the past. The man now has a new and better job than before.

CASE 326 (Friona, Texas): On January 24, 1950 a farm hand brought her nine year old son to the clinic. She said, "I understand Chiropractic is good

for asthma." She said that the family had spent untold sums of money for doctors and medication. They were in hopes Chiropractic could do something for her son. He had suffered from asthma since that age of two weeks. Nightly they had to rub his chest with medication when he woke choking for breath.

Throughout the years they had taken him to several clinics and had tried all kinds of treatments and medication. They were eventually told he would outgrow it. But he was steadily becoming worse.

Chiropractic analysis made. Patient adjusted and nerve pressure removed. Within a week attacks had stopped. Boy gained weight and was sleeping the night through. Family overjoyed.

Case dismissed April 30, 1950. Family occasionally brings boy in for checkup.

Case histories published here are from the files of Dr. Stapp. They are displayed here to show the extent and scope of Chiropractic.

Boy, oh boy. The barbers are really after me. Some of them are simply burning up. It looks as if I will have to go out of town to get a haircut. This is on time I am really proud that am nearing the stage of total baldness.

All because I didn't agree with their idea of closing up at 7:30 Saturday nights. Two called us and wouldn't give their names—but they did have a few names for me. I went back and read last week's column and for one in my life, I don't believe I owe them an apology. I still think they are making a mistake. Like I said last week, Saturday is always a "killer" on barbers and I do sympathize with them. However, they knew the circumstances when they started out to become barbers. Furthermore, I didn't criticize them last week. I merely said if the move resulted in scab shops they had only themselves to blame. These boys work on a commission and if their present prices are high enough that they can drive customers away to other towns, it's their decision—certainly not mine.

Furthermore, this business of calling people names over the telephone and refusing to reveal their own names is certainly not typical of most of the barbers in town. Sometimes, I doubt if it was even a barber who made the calls. I have some good friends who are barbers (at least, before last week) and I know that most of them are fine fellows. Take for instance the following letter from A. A. Patterson. He admits the right of other people to have an opinion, although it may differ from his own. He is a nice fellow. He is willing to sign his name to what he writes (or says) and furthermore, we are glad to print his letter, which follows:

"The Hereford barber spends the small number of 6 1/2 hours on the job, from 8:00 a. m. Monday morning until 7:30 p. m. Saturday night. A few minutes off for lunch—not the regular working man's lunch hour.

"He takes great pleasure in your personal appearance by giving you expert and sanitary work. Will miss his regular lunch time to take care of you and then have the usual argument with his wife about being late, and the meal being cold.

"Our State Barber Law demands the type of work and sanitary conditions that the scab barber that you threaten us with is about as scarce as a toothache in Hereford. With his long hours, cheap prices, inferior workmanship and unsanitary conditions, I doubt if there are enough newspaper editors in our clean little city to support him.

"For your information, the barber is a professional man, and not a slave to the whims and ideas of a newspaper man.

"A Hereford barber who is able to live in a land of free speech and free press."

A. A. Patterson

Personally, I have always tried to be considerate of barbers. During the 11 years I have lived in Hereford I have had my hair cut only twice on Saturday, and both of these occasions were emergencies. I think that people who live in town should get haircuts during the week and leave Saturdays open for the rural trade. Besides, it is a much more convenient arrangement for the town people. This is more especially true of children.

However, many people are not so considerate. I know the barbers do have a hard time. Back east, some of the towns have whipped this problem completely. They do it with special rates. For instance, instead of charging 75c straight across the board they would charge 65c on Monday and Tuesday; 75c on Wednesday and Thursday, and 85c Friday and Saturday. They say this balanced the load—especially with kids, who come in now or the lighter days. It is, of course, a little rough on country people but the barbers in many sections like the set-up mighty well.

Did you ever hear of a DeP Smith County watermelon, ripe and ready to cut on July 27? Well, S. B. Waters has one and it is a dandy. It is a Black Diamond and weighs about 20 pounds and looks perfect. It has quite a patch of melons which will be ripe later in the season, but he wants to know if anyone else ever heard of one this early. All of which proves that melons can be grown here in abundance. Lots of people say, "No," but Mr. Waters' crop pretty well shoots this theory to pieces. It's all in the "know how."

The Lions Carnival is coming again and, for once, I do welcome a place on the public committee. Last year they were on the ducking board—and almost drowned. With the barbers in their present frame of mind, I sure didn't want on the ducking board again this year—never knew so many people could throw so straight. It is phenomenal. Even scrawny Elmer Mathies rarely ever misses. Anyway, they already have the committee named. It includes: Russ Woodrill, Sam Nunnally, C. Reese, W. J. Reeves, R. H.agle and George Graham. This is going to be worth the money sure am going to be there.

Worth Covington and Walter Reed are back from a trout fishing spree in Colorado. Worth says they had the best duck ever. He says he got his limit every day but one. He says fishing was the best he ever saw.

Wheeler Sears captured a half-grown mouse the other day and was having the time of his life "showing" it to girls and women. You can almost always depend on Wheeler to have some sort of pet stashed away somewhere.

This Rotary Circus is supposed to be good. At least, that's what the Rotarians say and believe. They say it has shown all over the country as a "Shrine Circus" and they think it is clean and good entertainment. Hope it is better than the last circus which showed here.

Notice where Quitaque, Texas officially set on record as having had enough rain—and I know what they mean. We need some dry weather for a spell. We need to get those spuds dug and then it can go ahead and rain a little bit more.

A joke making the rounds is about a new preacher who moved into a small community and started breathing brimstone and fire. One morning he started out on a hard playing and an old lady down front said, "Amen, Brother." As the sermon progressed, the preacher moved on to dancing, jazz music and smoking—and each new topic drew the loud "Amen" from the little old lady. Almost exhausted, the preacher finally said, "But the worst of all is dipping snuff." Whereupon, the little old lady turned to another woman sitting beside her and whispered:

"Sister, he's done quit preachin' and started meddlin'."

# TEXANS In Washington

By Tex Easley  
AP Special Washington Service

WASHINGTON (AP) — Historians and political candidates alike turn to the pages of the Congressional Record to see how members of the Senate and House have voted on various pieces of legislation.

The Congressional Record, the daily journal of proceedings in both the House and Senate can be referred to as proof. It lists how the legislators stood on all "roll call" votes.

That's standard and acceptable campaign procedure in congressional races not only in Texas, but all over the country. The record may be cited by either the incumbent lawmaker or the foe who is trying to unseat him.

But, what can't be so well brought out in political campaigns, or in the history books, is how the historian falls back on the recorded vote, is how the representative or senator may have voted where no roll call was taken.

It happens not infrequently that the lawmakers pass on an issue but don't want a record vote, which may be held up against them later by an opponent.

Of course, too, simply in order to save time, there are numerous unrecorded roll call votes.

Usually, if there is a sharp division of opinion, there is a roll call. It takes one-fifth of those present to force the "yeas" and "nays" be put down in black and white. And, at any time a member can demand a quorum be present before a vote is taken. A quorum is a bare majority 218 members in the House and 49 in the Senate.

Complicating the situation still more is the legislative procedure in the House, whereby that body resolves itself into what is called "the committee of the whole house," in order to debate bills and tentatively vote upon them.

The Senate has no such procedure. When a measure comes on the senate floor, it is actually being considered and acted upon by the Senate.

Only in the "committee of the whole" in the house is there general debate on the pending bill and on amendments which may be offered to it. Three kinds of votes may be taken while the House is in the "committee of the whole," but none is a recorded vote.

The first category is the voice vote. If any of the legislators is unsatisfied with the ruling of the chair as to which side gave the loudest chorus, he can demand a "division" or "standing vote."

Sometimes this will bring out the fact that the minority group yelled out the loudest. Too, in the intervening period, the backers or opponents of a bill, or both, may have hurried out into the adjoining cloak rooms to scare up members sympathetic with their respective sides.

The presiding officer in the chair—the chairman of the "committee of the whole,"—finishes counting and announces his findings. If one-fifth of those present don't like the standing count, they can demand what is known as a "teller" vote. All those in favor of the bill then pass single file between two congressmen appointed by the chair and are counted. Then all opposed pass through to be counted.

The Congressional Record on all three of these votes will only show the total count, for and against a measure. It will not

show how any individual voted. Throughout these proceedings of the "committee of the whole," debate is limited according to the amount of general debate time permitted by the House Rules Committee. In addition, five minutes is permitted each member to debate an amendment.

Then the "committee of the whole" is dissolved and the bill gets before the formal House of Representatives—but it's the same members in both.

It is only in the House that a "roll call" vote may be taken, and then only if one-fifth of those present demand it.

There is no debate what ever in the House only voting on amendments which may have been adopted in the "committee of the whole;" on a motion to recommit (send the bill back to the committee which originally considered it before it came to the floor, a procedure which effectively kills it); or on final passage.

From the standpoint of spectators in the galleries, there is no apparent distinction between the "committee of the whole" and the House.

They could tell, however, by noticing where the "mace," that silver staff which symbolizes the House, is standing.

When the House is formally in session, the mace stands on a pedestal on the top step of the speaker's rostrum and the speaker is in the chair.

When the lawmakers go into a "committee of the whole," the speaker steps down and appoints a majority party member to come sit in the chair and preside. The "mace" simultaneously is moved to the bottom of the steps.

Sometimes House members debate a measure for days in the "committee of the whole" and vote on numerous vital amendments. Then when the measure, after this careful consideration, comes formally before them a moment later in their capacity as the House of Representatives, they may completely reverse themselves.

This reversal may come because a roll call vote was been forced on an issue; it may come because pressure has been put on them and they don't want their specific position recorded.

A specific instance of this occurred in the voting on an amendment by West Texas Congressman Omar Burleson of Anson.

Under consideration was the big foreign-aid bill (ECA). While the legislators were in the "committee of the whole" Burleson offered an amendment requiring that \$1,000,000,000 (b) of the amount should be spent on surplus American farm commodities.

The amendment was adopted by 119 to 107 "teller" vote.

Later when the proposal came up for final action in the House, it was defeated by a 198 to 70 standing vote.

Burleson asked for a "roll call" vote on his proposition, but one-fifth of those present wouldn't agree to have their position set down in black and white.

Where were some of those who had originally supported the Burleson amendment, when it received 198 votes? No one can answer that definitely because there was no record vote to check back on.

Between the two votes, word got around that the President didn't like the Burleson amendment because it would give freedom in the administration of the ECA program.

It just so happened that on the president's desk at that moment was the all-important cotton acreage allotment bill, giving cotton farmers 1,200,000 (m) additional acres for planting this year.

The bill also contained a big provision to help out peanut growers.

It was one of those nebulous things, but word got around that the president would sign the cotton-peanut bill if the Burleson bill was rejected. There had been speculation that he was going to veto the bill.

The Burleson amendment was defeated and the President signed the cotton-peanut bill almost at the same moment.

The House turned the proposal down at about 4:40 p. m., and it was about 5 p. m. that word was received in the House the President signed the farm bill.

On most legislation Texas congressmen split. They seldom vote unanimously on a controversial issue. Usually there are three to six taking one position out of the delegation of 21 House members. The speaker, Bonham's Congressman Sam Rayburn, votes only in case of a tie.

A legislator listed as "not voting" may have been absent from the House the day vote was taken because of illness or for other reasons.

Here are the most important roll call votes this session of Texans through April 20:

Senate  
Jan. 17—Proposal of Senator Wiley (R-Wis) to prohibit movement of yellow oleomargarine in interstate commerce, defeated. Senator Lyndon B. Johnson voted against; Senator Tom Connally is listed as having not answered the quorum roll call that day and is listed as "not voting" on the Wiley amendment.

Jan. 18—The oleo tax repeal bill was passed; Johnson voted for the measure. Connally is listed as "not voting."

Jan. 19—A motion by Senator Cain (R-Wash) to take up a bill to reduce excise taxes was defeated 45 to 35. Johnson voted against motion; Connally is listed as "not voting."

Jan. 25—Resolution proposing a constitutional amendment to give women "equal rights under the law" adopted 63 to 19. Johnson voted for; Connally, against.

Feb. 1—Resolution proposing a constitutional amendment abolishing the electoral college (Lodge-Gossett bill) adopted 64 to 27. Connally, for; Johnson, "not voting."

Feb. 20—Wherry (R-Neb) amendment creating a Senate committee to investigate problems of small business, adopted 55 to 27. Johnson, for; Connally, against.

Feb. 21—Bill authorizing \$708,000,000 (m) central Arizona reclamation project, passed 55 to 28. Connally and Johnson, both for.

Feb. 27—Bill giving farmers and peanut growers additional acreage for 1950, passed 53 to 24. Connally and Johnson, both for.

March 8—Final passage of bill repealing the federal oleo taxes (after ironing out differences in measure as originally passed by House and Senate). Connally and Johnson, both for.

March 15—Amendment by Senator Bricker (R-Ohio) knocking administration's middle-income housing program out of a catch-all housing bill, agreed to, 43 to 38. Connally and Johnson, both against.

March 29—Kerr natural gas bill, exempting independent companies from jurisdiction of Federal Power Commission, approved. Connally and Johnson, both for.

April 17—Flood control-navigational bill, authorizing \$1,840,000,000 (b) worth of projects, passed 53 to 19. Connally and Johnson, both for.

House of Representatives

Jan. 19—Korean aid bill (#80). (Continued on Page 6)

**LIONS STRATEGY**—These four Hereford Lions club members were cooking up bright ideas for the Annual Lions Carnival that starts Monday night when this shot was taken. Although it was a laughing matter at the time, it has been reported by reliable sources that the last laugh will be on the pair on the left. Both Dub Reeves and Bruce Wooddell are on the Dunking Board committee. Jim Robinson will help the weight guessing crew and Robert Thompson is the ramrod for the whole affair this year.

Stan Barrett and Joan Renner tied for first in the Ball Sweepstakes Sunday, each netting 68. Barrett had an 80 minus 12 and Renner fired an 81 minus 13 strokes handicap.

They were just a stroke ahead of Owen Jacks and Lawrence Owen at 69. Jacks had 84-15 and Owen 95-26. Preach Edelmor and Bill Howard tied in third place at 71. Edelmor had 80-8 and Howard 82-11.

J. M. Percy was in fourth place with 76-4, 72 and Joe Kerr finished out the list of ball winners with an 84-11, 73.

Other contestants Sunday included Dub Hair 90-13, 77; Wendell Burdine 91-13, 78; Dale Tinnin 97-16, 81; Bruce Woodell 100-16, 84; Ed Young 93-19, 74; Tom Howard 90-14, 76; John Channer 86-6, 80; Joe Butler 90-16, 74; W. W. Gilbreath 92-10, 82; Frank Latimer 92-11, 81.

Clovis, Portales and Tucumcari golfers will be on hand for a match here Sunday. All golfers, regardless of handicap are urged to enter. The more that play, the better Hereford's chance of winning. A couple of Portales golfers were over Sunday to familiarize themselves with the course.

The creek rise didn't hurt anything, but dirt washing out on the greens sure made it rough on number two and five. They had to shovel it off and then wash one whole day to get the second green in halfway decent shape.

Jim Terry says a little washed in on seven and eight, 100. He is hoping for a dry week so he can spray with 2-4-D and mow the fairways before the visitors get here Sunday.

The Scotch foursome date has now been set for August 6th.

About 60 played Sunday after laying off for a solid week.

**ADRIAN FISHERMEN HAVE PROOF**—Here's proof that at least four of the Adrian fishermen have luck, and in pretty fair sized quantities. This catch was taken at Conchas Dam Lake. The fishermen are George Gruhlkey, Luther Wagner, M. H. Zaring, Jr. and Jimmy Zaring.

# VFW Wins And Takes Lead As Canyon Dumps Vega

## Legion Juniors Lose First Play-Off Game To Lubbock, 31-3

Hereford American Legion Junior batters swung fruitlessly at the slants of Lubbock's pitcher Jones Monday night in the first game of the bi-regional play-off. In the meantime Lubbock pounded out 17 hits off Kenneth Brock to give the home team a bad night.

The final score, 31-3, doesn't reflect the actual difference between the two teams, but anything that's how it ended. Jones really had local batters tied up at the plate. He didn't allow a hit, gave up four walks, hit one batter, and got 13 strikeouts in the process. Kenneth Brock hit the only ball to get out of the infield to the right fielder in the third.

Hereford got their three runs in the fourth. Joe Kerr was safe on an error and went around on errors and scored on a wild pitch. James Alston walked, moved to second on a fielder's choice when he got Corbett at third and scored when Jones walked the next two batters Joe Hershey scored the other run in the same manner after getting on with the fielder's choice.

The second game of the series was scheduled to be played in Lubbock Wednesday afternoon.

lead and then coasted in with the victory. John Renner pitched 8 hit ball for the locals, allowing three walks and hitting one batter. He struck out 11.

Hereford batters only nicked Tulsa pitcher Lowe for three hits, but they got on 12 times because of his wildness. Before he got through the first inning Hereford scored three runs without a hit.

They scored the six in the third after Tulsa bounced back to score four in the second. Patterson opened the inning by walking to first. Lueb singled and Patterson scored. Barrett was

safe on an error by the right fielder. And so it went with Stengel and Burdine getting hit while six runs crossed the plate.

Canyon won their game from Vega with a ninth-inning single hit by Bill Cross that scored Chester Reynolds with the winning run. Monk Ford pitched for the winners. He gave up six scored hits and struck out three and didn't give a walk. Jay Hammond pitched for the losers, allowing 13 hits.

Canyon scored a run in the first and Vega tied it in the 3rd. Vega went ahead with two runs in the fourth but Canyon came

back in the bottom half of the inning to score four times. Vega made it 4-5 with a run in the fifth. Canyon stretched the lead to 4-6 with another run in the seventh and then Vega tied it up with two in the eighth. Cross drove in the winning run in the ninth with it tied up at six all.

### Second Guessing

By Jerry Stoltz

They say the lake went up about four feet from all the recent rains. Fishing has also been reported pretty good.

Apparently some of the golfers would have been better off if they had gone fishing instead of golfing Sunday. That is by the scores they shot.

The more golfers that play Sunday the better Hereford's chances of winning the match from the three New Mexico clubs.

Tech execs or anyone else wanting tickets this fall for Tech football games had better act now. The opener with Texas, Sept. 23 and the homecoming tilt with Tulsa, Nov. 11 are approaching a standing-room-only status. They say pre-season demand has

**BASEBALL** — The television of Major League baseball is

even been good for the Texas Western and New Mexico games. The West Texas State is always close to being a sell-out.

Hereford's American Legion Juniors got a rough deal in not being able to take after Lubbock right after they won the Regional championship and while they were still "hot." They were very definitely not the ball club they could have been or were a few weeks ago. Monday night. Of course this doesn't mean they should have beat the Lubbock nine.

Vega fell off the perch this week and now all VFW has to do is beat the seventh- and eighth place teams in the league to end up with the Central Plains league championship.

once again in the limelight, what with indecision in the national capital over televising next season's Nat. games. The industry is also faced with the loss of the more lucrative sports events, as the Theater Owners of America attempt to move in and corner the lush attractions.

In mid-July Tele-Views magazine reported that the very foundation of the free wave length television industry was being shaken by TOA, which wanted closed wave lengths, over which it alone could televise big sports events. These events would include championship boxing matches, baseball classics such as the All-Star game and the World Series, choice football games, etc.

Tele-Views said all that would be left to the home set viewer (Continued on Page 5)

## A WORD OF THANKS

I want to take this means of expressing my appreciation for the confidence you have placed in me in electing me as your County Commissioner in Precinct 2.

Especially those who supported my campaign and voted for me will always have my gratitude and appreciation. Those who did not, I know acted in good faith and for what they believed the best interests of the county.

I realize that my opponent, G. T. Higgins, was a good man—and that it was difficult to decide how to vote. I have absolutely no ill feeling toward anyone and again pledge you that I will fulfill the duties of the office to the best of my ability.

Again, let me say "THANKS" to one and all.

mer at the Baptist Plains Assembly near Floydada was 3,485. 1,036 Junior boys were enrolled, 478 Intermediate boys, 1,097 Junior girls and 876 Intermediate girls.

The morning devotional program every day this week is being brought by this church over radio station KPAN at 8:45-9:00 a. m. A small choir, composed of members of the church choir, is furnishing the music for the program and Rev. Cagle is bringing the devotional.

Sixteen Intermediate boys and girls of the FIRST METHODIST CHURCH left Monday morning for Ceta Canyon where they will enjoy a week of camp life. Mrs. Claudia Ola Brown accompanied them as counselor. They will return Friday.

Next Sunday morning in the absence of the pastor, Dr. Earl G. Hamlett, District Superintendent for the Amarillo District, will fill the pulpit. All members are urged to be present for this service. Next Sunday evening the pastor will be back in the pulpit, following a two-week revival in Elton, with Rev. O. B. Herling, a former pastor of this church. From reports, Rev. Davidson is having a good revival, with crowds overflowing the church for the evening services. Mrs. J. F. Ward led the Wednesday evening prayer service in the absence of the pastor.

Each Sunday morning at 11 o'clock, CHRISTIAN SCIENCE services are held in the Star Theatre. All who are interested are invited to attend.

"Love" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, July 30.

The Golden Text is: "Beloved, let us love one another: for love is of God; and every one that loveth is born of God, and knoweth God" (I John 4:7).

Among the citations which comprise the Lesson - Sermon is the following from the Bible: "And we have known and believed the love that God hath to us. God is love; and he that dwelleth in love dwelleth in God, and God in him" (I John 4:16).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Divine Love is infinite. Therefore all that really exists is in and of God, and manifests His love" (page 340).

The message last Sunday morning at the FIRST PRESBYTERIAN CHURCH was brought by Herbert Boardman. Good attendance was reported at the Sunday morning services.

Dr. Will F. Graham will bring the message next Sunday. The following Sunday the pastor,

Rev. Russell Wingert, will be back from vacation and will fill the pulpit.

The Ladies Church Council will be in charge of a Prayer Retreat each Wednesday morning in August at 9:30 a. m. A special speaker will bring the message each morning. Mrs. Peter Stewart is program chairman.

The revival which is being held at the Assembly of GOD CHURCH will close Sunday, Rev. and Mrs. Harold Maley from Ft. Collins, Colorado are the evangelists of the revival. Services each night except Saturday begin at 8:15.

The Women's Missionary Council meets every Thursday morning at 9:30 a. m. in the church. They invite all women who are interested to attend.

The Women's Missionary Council is sending used sewing machines to mission fields in Africa. Anyone who wishes to donate or sell a machine cheap for this cause may call 1136-W, Mrs. A. A. McMillan or 1033-W, Mrs. Bill Morton.

The IMMANUEL LUTHERAN CHURCH services will be held at the regular time again next Sunday. Sunday School will be at 10:30 a. m. and church services at 11:30 a. m. The service will be conducted by the Rev. E. W. Lichtsin.

The radio devotional program is heard every Wednesday afternoon at 1:30 p. m. over station KPAN.

A revival began yesterday at the AVENUE BAPTIST CHURCH and will continue through Sunday, August 6. Rev. W. C. Bryant, pastor of the Temple Baptist Church of Amarillo, is the evangelist for the revival.

An attendance goal of 250 in Sunday School has been set for Sunday, July 30.

A meeting was held Monday night of all men who would work on the new educational building to get it ready for the revival.

The Brotherhood met Tuesday night. The message brought was in connection to preparation of the revival meeting.

The W. M. U. meets every Friday at 2:30 in the church. Meeting the same time each Friday are the G.A.'s and the Sunbeams.

## Four Texas Commanders Have Quite A Trip Coming

DALLAS (AP)—The four newest commanders in the Texas navy are better looking than anything Davy Crockett ever saw.

They are two gorgeous brunettes and two scrumptious blondes.

They've got 'em, all right—Honorary commanders in the Texas navy, assigned to special duty in Australia—signed, Gov. Allen Shivers of Texas.

It's plumb unfortunate that they are one of 'em was born in Texas.

There they all sat in a row on a divan in Dallas—as pretty a navy as you'll ever see—dangling little high high gold (14K) maps of Texas to go on a dangle bracelet.

"Well, Texas is known as the gold star state, isn't it?" asked platinum blonde Carmen dell'Orefice of New York.

"Lone Star State" corrected creamy-skinned, dark brown hair, brown-black eyes, five feet seven inches, slim Ruth Hancock, who has lived in Texas for 10 years.

Andrea Johnson—statuesque blonde, five foot six inches (\$50 an hour modeling) smiled. And Mareo Price—pert brunette—smiled, too.

Texas having no navy to command at the present time, they're flying over to Australia to model some clothes.

"Well, we got invited," said Edward Marcus, Dallas merchant.

"We got together the four most photographed models in America, collected a wardrobe of clothes and are sending them over to Melbourne, Sydney and Adelaide for a series of July-August showings."

The clothes are valued at \$50,000. They were packed in 41 cartons weighing 640 pounds and were flown to Australia.

The four beautiful commanders will go over to Melbourne and practice a while with eight Australian models before the show really goes on the road.

"They tell me that Australian models smile more, maybe put on a better show than American models," said Andrea. "They tell me that American models are

considered deadpan and maybe emaciated. They say they're going to fatten us up on mutton and yorkshire pudding."

And all four of them stared into space speculatively.

The Australian tour and style show project was organized by the Nieman-Marcus store at Dallas.

Three hot check cases were handled in County Court during the past week and Sheriff J. C. Reese repeated a former

warning to local merchants that "hot checks" passing is picking up.

Sheriff Reese said the number of cases have more than doubled during the past year. This is not only true in just Deaf Smith County, but in most other places, according to information he has received from sheriffs in other counties.

He cautioned merchants to be careful in cashing checks for strangers, and to demand identification. In some cases merchants have not been able to say whether a man or woman wrote the check, which makes it

even more difficult to find the "hot check" passer.

Obie Malone plead guilty and paid a \$1 fine and costs plus the check, totaling \$35.32 in County Court. J. M. Holbert paid the same totaling \$35.30, and H. E. Pettyjohn paid \$36.30.

Dr. C. E. Rush and Dr. W. J. Graham went on a fishing trip last week end to Taos, N. M.

Mary Estelle LeGrand and Mary Lou Benson visited Mr. and Mrs. R. W. Scales and Sue last week end in Hedley. Mary Estelle, Mary Lou and Sue were classmates at Hardin-Simmons University the past year.

would be "second class vaudeville, chit-chat interviews, and a succession of cooking, sewing and needlepoint classes." Meanwhile, minor league owners reported a couple of weeks

ago that the broadcasting of Major League games was hurting their business at the local parks. The minor owners shudder to think what television of Major League games might mean. The argument remains unsettled in the Major League cities. Those who argue that televising the home games costs customers are refuted by others who say that the poor team is responsible for lower attendance figures. In nearly every case of smaller attendance figures, they can point to a weaker ball club. And so it goes. The answer will have to be found soon, since 1951 contracts aren't too far off, and sponsors of television shows want to know now what they can do about next year.

Mrs. Ann Poling, 609 Delaware St., Indianapolis, Indiana, who was suffering from deficiencies of Vitamins B, B<sub>12</sub>, Iron, and Niacin, smiles as she pours herself another cup of coffee. Mrs. Poling says life lately is like it used to be years ago . . . "that is, of course, since I've been taking HADACOL." She can't get over what a difference HADACOL has made in her outlook on life.

Mrs. Poling says: "Three months ago a good friend of mine told me about HADACOL—she knew how much stomach distress I have had. Any type of food that was fried or that had acid in it I just couldn't eat. It affected my sleep, too. In fact I couldn't have been in a worse condition. When I ate what I wanted to I felt miserable and when I didn't eat these things—I didn't have a proper diet and still felt bad. Then, when I started taking HADACOL, I felt better immediately. I've got a bottle in the house now—and will continue to keep HADACOL from now on. I have told many folks about HADACOL—and they all thank me for telling them about HADACOL. They all have wonderful results from HADACOL like I have. Now I eat anything I want and get a good night's sleep. I can't praise HADACOL enough."

**HADACOL Can Help You, Too!** . . . as it has helped thousands of others whose systems lacked Vitamins B, B<sub>12</sub>, Iron and Niacin. Yes, even hundreds of doctors have recommended HADACOL to their patients. The HADACOL formula is so effective for stomachache, distress, nervousness, insomnia, constipation, aches and pains of neuritis, and a general run-down condition caused by such deficiencies.

**Make Up Your Mind** . . . to give HADACOL a chance to help you, so it has helped countless thousands of others. Remember, there are no substitutes for HADACOL. Always insist on the genuine HADACOL. No risk involved. Buy a bottle of HADACOL, either the trial size, \$1.25, or the large family or hospital size, \$3.50, and if HADACOL does not help you your money will be refunded. © 1950, The LeBlanc Corporation

## Long Time Ago

### 25 Years Ago

The regular weekly luncheon of the Chamber of Commerce was to be held at the City Cafe. Uncle John Estes was arranging to furnish plenty of his famous fresh honey for the occasion. Hot rolls and good butter were to be supplied by the management to match the honey.

Troy Womble informed the Board that permission had been secured for a picnic at Sulphur Park, August 14, and arrangements were being made for the biggest crowd Deaf Smith County had ever had at a picnic. Mr. Womble said: "Begin planning right now to take the Fourteenth off and go to the picnic and get acquainted with your neighbors. Eat the cooking of the other fellow's wife, hear some good short speeches, get the latest gossip, election dope, etc."

A lot of excitement was caused here Thursday morning, July 23, 1925 when early risers declared they distinctly felt an earth tremor, somewhere around six o'clock. Reports on the streets were that window panes rattled, dishes slipped on the tables, and a distinct heave was felt to the surroundings.

The drought-breaking rain of the week before which turned an uncertainty into an almost certain record crop, was but the forerunner of real moisture for the Panhandle country, and that week the heavens opened and removed any lingering doubt about the future of the Hereford country, for 1925 at least.

Dr. G. W. Heard, local dentist, discovered a new method of planting the red potato onion. It was thought that this might greatly stimulate the onion in-

dustry in Deaf Smith county and the entire Panhandle. This onion grew in bunches and had always been planted in the spring of the year. Dr. Heard planted it in the fall and sold green onions in the winter, leaving one plant in a hill and he found that large onions could be produced by that method. He estimated the yield at more than \$1,000 per acre and contemplated a good sized crop the next fall.

Combined deposits of the three Hereford banks when the last statement was made, June 30, 1925, exceeded one million dollars. Hereford was definitely getting ahead financially.

The Prewitt News Stand, in the Beene & Shaw Barber Shop, changed hands. The new owners were Frank Givan and Art Manjeot, with the latter as manager. The former owners, Mr. and Mrs. M. G. Prewitt, moved to Wichita Falls, where Mr. Prewitt had several propositions to enter into business under advisement. Mrs. Prewitt had been employed in the local post office for several years and Mr. Prewitt was formerly a teacher in the high school here.

The Borden ranch, containing some 6,000 acres of rich grazing land just one mile from Dawn, and in the famous Hereford shal-

low water belt, had just been broken up into 80 and 160 acre tracts and was to be colonized by Borden & McDonald. At that time this land was the largest body of close-in undeveloped land in this section, being only one mile from the State highway and a mile from the Santa Fe railroad.

William Jennings Bryan, for more than 20 years the foremost Democrat of the nation, was found dead in his bed Sunday afternoon, July 26, 1925, at Day-

Williams died in Phoenix about 18 months ago. They had many friends in Hereford in the early days and will be remembered by most of the early settlers of Hereford.
