#### Need 150 Cotton Pullers Here, **TEC Reveals**

A labor shortage among cotton pullers in this area has develop-ed, according to Tom Bourland,

ed, according to from Bourland, local Texas Employment Commission representative.

Bourland Tuesday issued an emergency call for 150 cotton pullers. The county's need was listed for the first time in the

TEC bulletin on Tuesday.

Persons interesting in pulling cotton are asked to call at the TEC office, located in the county agent's office, ground floor,

The labor is needed to help harvest what the TEC estimates is a conservative 6,500 acres of cotton in Deaf Smith county.

Bourland also said there was

a shortage of tractor drivers in the county and he has some openings for anyone qualified.

HEREFORD'S SMALL FRY was given a treat this week (National Fire Prevention Week) when they were all given rides on the city's La France pumper truck. The above picture shows some Central students boarding the fire wagon.

### Concert Kick-Off Meeting Monday

of the Hereford Mutual Concert ssociation got underway Tuesday night at a kick-off dinner for all workers, chairmen, and members of the board of directors. Jim Kirby, president of the as-

sociation, introduced the 10 division chairman for the campaign. Robert Thomson, Pryor-Menz concert representative, explained the duties of the workers and what concerts could be obtained for Hereford during the year.

He emphasized that no individual admission tickets would be sold at the concerts but that admission would be by membership only. He added that membership cards were transferable in case the member was unable to attend some of the concerts. Memberships are \$4.80 for

adults and \$2.40 for students and may be used as admission to any mutual concert in any of the neighboring towns.

People who buy memberships will have an opportunity to seect five concerts that they would te to have. The Hereford conts will be obtained from this

At least three concerts will be presented during the season and more will be obtained if enough memberships are sold during the campaign which closes Saturday, Oct. 13, at noon.

### Fire Prevention and Civil Defense Go Hand in Hand

Fire prevention is an important part of civil defense. If an enemy attacks this country, his bombs, whether they beatomic, high explosive, or incendiary, will cause more damage by fire than they will by blast. Hence, anything done to make it hard for fires to start is a step towards preparing your community to protect itself if war comes.

The majority of all fires start in trashpiles, rubbish, or stored odds and ends that accumulate around the house. Closets, attics, and cellars are the main source of home fires; and plain ordinary good housekeeping is a strong line of defense against them.

# Attend the Church of Your Choice This Week

Many of us smiled at the farmer in Pearl Buck's story of the Good Earth. It seemed to us most strange that a man should buy his coffin ahead of time and take grim satisfaction in looking at the fine box in which he was to be buried. Perhaps many of us are as strange in our American refusal to think about death at all. The old adage "as sure as death and taxes" should have put us in the frame of mind to look forward to our own death and to make some preparation for it. Too many of us, however, are like the proverbial ostrich; we dig our heads down into the sand and assume that while death will overtake everybody else, by some strange shift of good fortune, it will never knock at our door. We are "foolish virgins" as Jesus called the people who made no provision for the coming of The Great Day, because the hour was uncertain.

ONE of the SIMPLEST STORIES ever told is the one told by Jesus to the Disciples on how to be saved. how to be ready for death. He made it so simple that even a "little child" can understand. Let us not take lightly the responsibility of telling this simple story! May we be conformed to right; subject to, and influenced by the moral laws of the Supreme.

FACE TO FACE let's face the fact of death and its certainty for ourselves. Then make plans that take death into account. See to it that we have arranged our minds and our souls for the promotion that we expect, from earth to Heaven. See to it that our families have been adequately provided for; let us face the fact fearlessly. May we be resolute and more determined to keep telling the Simple Story of how to live and what to live for so that we may know how to die. Come with me to Church.

Then, to complete their chagrin the Bucknell lad fell back to the midfield stripe and neatly dropkicked the pigskin through the uprights for the three points that won the game.

The manager of the pros lost no time in seeking out that sensational college player, to sign him for pro football. But strangely, the dropkicker refused. Arguments were of no avail, big salary was no bait, for.Bucknell's football ace calmly declared he was going to play baseball. He did and succeeded very well. His name-Christy Mathewson.

Along the lines of dropkicking, now a lost art, did you ever hear the one on George Gipp, often rated in South Bend as the noblest Notre Dame footballer of them all. Gipp was a freshman and Notre Dame had no punter worth the name that fall. In a game with Western Normal, a punter was needed and none was available. It was Gipp who saved the situation. "I can't punt", he said simply, "but I can dropkick pretty well. It'll be as good as a punt." The Irish lined up and Gipp dropkicked as he put it "as
