Antelope System Explanation in **Game Magazine**

AUSTIN, - The forthcoming December issue of Texas Game and Fish magazine carries an article designed to inform both critics and supporters of the present antelope harvest system.

The author is W. C. Glazener, Director of Wildlife Restoration for the Game and Fish Commission.

Explaining why conducted antelope hunts on a limited scale have been authorized in recent years, he writes that "a fair evaluation of the pronghorn in the game picture requires at léast a general knowledge of certain specific details."

"Some of these are historical in nature while some have current economic, relations other than to the price of gasonne, ammunition or T-bone steaks. "A hurried, half-glimpse at the background too often breeds wrong opinions and misunderstandings."

Glazener concludes: "As a management program, the conducted hunts in Texas are not as effective as they might be. The removal of 300 to Q. How can I make a mahog-

"A preponderance of females is becoming evident and a continuation of the present harvest plan will make the situation progressively worse. Currently exis-

ting laws do not give the Commission latitude for allowing the harvest of female antelope, an arrangement found desirable elsewhere.

"Colorado, for instance, issues approximately 1,600 permits for one antelope of either sex against-a population of about 7,-000 animals. Wyoming has sought a 30 per cent animal harvest, believing that this would stabilize its antelope population under average conditions and maintain good hunting."

Hereford's tentative 1952 football schedule was released Tuesday by Coach Dalton Criswell. The card calls for 10 games here is 6-4. again this season, six at home

and four away. The season opens September 12 and ends November 14.

Brownfield will provide Here ford's Whitefaces with grid competition next season for the first time in the history of modern football here.

Hereford will host the Brownfield gridders at Whiteface Memorial stadium on October 17.

The list of home football games for the coming season provides a lot of grid interest. The Herd will host Muleshoe, Phillips, Brownfield, Friona, Canyon, and Tulia.

McLean will be dropped from the Herd schedule in 1952

Coach Criswell said the "tentative" tag on the card means just that. The school prefers a 5-5 split on the schedule, but this

season, with Freeman Flowers of Amarillo. The Hereford team won, 35-8.

There has been some talk also of changing the membership of District 1-AA, either adding or subtracting, but Criswell said he

believes that will wait until the 1953 season. The complete grid schedule

for 1953 is: 1952 SCHEDULE

YOU IN THE CHURCH THE CHURCH IN YOU of the church. It is here that

"What shall I render unto the Lord for all His benefits?" (Psalms 116:12). Every man of earnest and serious mind must ask himself this question as he meditates on the goodness and the Grace of God toward him. We want to do what is right in our every association with God and man. The Government takes as its proper share at least twenty per cent of every man's income. WHAT IF GOD SHOULD REACH DOWN INTO YOUR LIFE AND MINE AND TAKE WHAT REALLY BELONGS' TO HIM? How much would be left for us? Have you raised corn? Or did you and God work together in making the corn crop? And just which of you put more time and energy into the process? Have you "struck" oil? Who spent centuries creating the oil and holding it in the underground lake until you came along? Is the oil really all yours? What is God's share? YOU AND GOD ARE PARTNERS IN THE OIL BUSINESS; WHAT IS HIS PORTION?

esus Christ is our revelation of the generosity of God who has been the eternal Giver, enriching us with every sort of good thing. From the day of the first creation God has been at work with and for man. Each of us represents in his body and in his soul the everlasting toil of God, who truly wants to make us His children and who desires us to join Him in making an ever better world for His sons and daughters to live in. JESUS IS OUR PATTERN OF WHAT A MAN CAN GIVE TO HELP IN THE PURPOSE OF GOD. HOW MUCH DID JESUS GIVE BACK TO GOD?

ewish and Christian people have agreed that we ought to give at least a tenth of our income to God and His Church for the carrying on of His redemptive program. A tenth will not necessarily discharge all our debt, but it will show a sense of deep gratitude. Everything is His, even the cattle of a thousand hills and the abundant harvest from the fields. He gives us everything which makes life abundant. Our ideal is to join in the prayer, "Take my life and let it be consecrated, Lord to Thee." Let's be good partners with God. Let us be His co-workers. MAY WE GLADLY GIVE BACK TO HIM AT LEAST A TENTH OF WHAT HE SO FREELY GIVES US."
