

Little temperature change this afternoon; cooler tonight; scattered thundershowers.

Cologne Feels Bomb Fury Of RAF For 116th Time

Other Rhine Targets Are Blasted

Enemy Convoy Is Wrecked Off The Dutch Coast

LONDON, June 17 (AP) Heavily-battered Cologne and other objectives in the Rhineland were the RAF's targets last night as the current aerial offensive against Germany continued.

At the same time, the air ministry announced, RAF fighters attacked transport and other targets in Holland and Belgium.

Fourteen bombers and one fighter were declared to be missing from the night's operations.

The air ministry also announced that RAF Hurricanes and Typhoons tore into a three-ship enemy convoy early today off the Netherlands and damaged all of them, one so severely it was stated she probably sank.

The planes suffered no loss and left all the ships smoking from bomb hits and bullets.

The last previous heavy raid on Germany was Monday night when the coal center of Oberhausen, three miles west of Essen, and other Ruhr targets were hit.

Rhineland targets were bombed Sunday night, but the objectives were not specified. The heavy bombers stayed home Tuesday night while operations were carried out against targets from northern France to Denmark.

Last night's was the 116th on Cologne and the first heavy night attack on the city since February 26.

The offensive continued today as RAF fighters shuttled back and forth across the channel to attack German-occupied territory, and it was authoritatively stated that they had destroyed six enemy fighters in these operations at the cost of one RAF fighter plane.

Two RAF Typhoons, striking at Germany's precious stock of locomotives, damaged at least nine in the Douai and Bethune areas of northern France yesterday, beating off four Focke-Wulf 190's and flying through intensive anti-aircraft barrages to make their getaway.

Ever since the offensive against Hitler's transportation has been stepped-up, trains have been outfitted with stronger flak protection.

In the February attack it was said that 600 acres of the city had been laid waste.

The RAF's attack last night undoubtedly was to nullify rebuilding efforts in rail and road communications and to smash factories intended to put chemical works, ammunition factories, engineering and truck plants, power stations, blast furnaces and oil refineries back into commission.

Cologne was the target for the first 1,000-bomber attack by the RAF on the night of May 30, 1942. In that one assault 300 acres in the city were reported flattened and more than 250 industrial buildings destroyed or damaged.

New Top Price For Cows With Calves

Another record was established Wednesday in the weekly sale of the Big Spring Livestock Commission Co. when cows and calves sold up to \$75, about \$10 over the previous top.

In a peculiar turn of events that brought 700 head of stock for a \$33,000 volume, stocker heifers of great demand as were cows and calves—sold by the head instead of the pound. Top was \$70. No stocker steers were offered.

Fat cows moved at a top of 10.10 while fat butcher yearlings went up to 14.00. Common butcher yearlings leveled off at 12.00-13.00 and common butcher cows were worth up to 9.00.

The hog volume continued better with 50 head going through the ring. Butchers went at around 12.00 and stocker hogs from 11.00 to 12.00.

Internment Camp Located At Brady

SAN ANTONIO, June 17 (AP)—Col. McDonald D. Welner, district army engineer said today the contract for construction of an internment camp at Brady, Tex., had been awarded to Charles H. Oehler of Galveston.

In Washington, the war department said work on the camp, to cost approximately \$2,000,000, was to begin immediately and be completed in six months. The department said the camp would be of temporary frame construction and have a capacity for 2,000 prisoners of war and 400 guards and a station hospital. All other details of construction were withheld.

Emerging From Coma—A 64-day coma, caused by sleeping sickness, was broken ending for eight-year-old Dorieen Dawn Feasby, shown with her mother, Mrs. Wilfred Feasby, at San Diego, Calif. She said last Friday Robert Kranz, Dorieen's teacher, played his violin beside the child's bed, when suddenly she began to hum the tune. Then she opened her eyes and began to speak, and since then her periods of consciousness have been lengthening.

Navy Oil Reserve Agreement Termed 'Illegal, Invalid'

WASHINGTON, June 17 (AP)—The navy's agreement with Standard Oil Company of California for developing the Elk Hills oil reserve was termed "illegal and invalid" today by a justice department official who said it violates a 1935 petroleum conservation act.

This description came from Norman Littell, assistant attorney general, at a house public lands committee hearing in which Rep. Elliott (D-Calif.) said the deal had "something of the inkling of the Tea Pot Dome scandal of some years ago."

The contract provided for navy purchase of company land and equipment in the rich California reserve field, and authority for the company to withdraw a specific amount of oil from the field's shallow area.

The act of 1935 to which Littell referred empowers the secretary of navy to provide for conservation of naval oil reserves and for the exchange of naval lands in the reserve with property owned by private parties.

Although naval officials declared the contract was designed to protect and conserve naval petroleum lands in the reserve, the justice department position was to the contrary.

Elliott suggested to the committee that it go to Elk Hills, in California, to study the situation, "on the ground," and Chairman Peterson (D-Fla.), said he thought at least a subcommittee should go.

Littell told the committee he had made an exhaustive examination of the contract and submitted a report to James F. Byrnes, war mobilization director.

He said that his reports would be relayed by Byrnes to President Roosevelt, and the executive would make the decision as to whether the contract should be cancelled.

The contract called for payment of \$1,748,408 by the navy to the Standard Oil company in return for title and equipment on 2,297 acres of land the company owns on the Elk Hills reserve for the duration of the war, but for a period of not less than five years.

The contract provided for a daily production of 15,000 barrels of oil from the shallow zone by the company, but not to exceed 27,375,000 barrels over the five-year period unless specifically authorized by the navy department.

Mediterranean Air Margin Is 3 To 1

NEW YORK, June 17 (AP)—Allied aircraft has scored a 3-to-1 victory in the Mediterranean, says Maj. Gen. George E. Stratemeyer, who discloses that since April 15 the Allies in North Africa and Middle East destroyed 685 enemy planes in the air and 232 on the ground while losing only 237. General Stratemeyer is chief of the air staff, army air forces.

At a previous session of the public lands committee, Rep. Voorhees (D-Calif.) declared the contract called for payment of 64 per cent of the cost of developing the reserve by the navy in return for which the navy would receive 64 per cent of the oil. However, contending the contract required the navy to sell its share to the company and then repurchase, and that the entire deal looked dangerous, Voorhees requested the committee to initiate a thorough investigation.

Balkans Causing Germany And Italy Grave Concern

By STEPHEN BARBER
CAIRO, June 17 (AP)—Increasing resistance by opposition groups within axis satellite countries of southeastern Europe, a situation which Nazi authorities apparently are handling with unusual liberality, was reported today in information reaching Cairo.

Underground leaders in collaborationist Rumania and Bulgaria are becoming more and more outspoken, it was said, and in Bulgaria, where many elements have strong ties with the Soviet, there has been a resurgence of the old "Mother Russia" sentiment.

The extent to which disaffected groups in Rumania are permitting themselves to give voice to their dissatisfaction was indicated in a recent speech by Baron Manfred Von Killinger, German minister to Bucharest.

"We laugh at all these dwarfs," he declared, "these anti-Germans, politicians who are nothing but talkative loafers, Jews, pro-Jews and those who are servants of Jews."

Some quarters here expressed the view that the various underground movement may be moving too fast for their own good, for German technique frequently has been to allow the opposition suf-

Beaumont Now Quiet, Under Martial Law

Negro Section A Shambles In Wake Of Race Rioting

BEAUMONT, June 17 (AP)—Martial law authorities called a military court of inquiry this afternoon into race riots which had resulted in the deaths of two persons, injury to scores, and extensive property destruction in the negro section.

BEAUMONT, June 17 (AP)—Col. Sidney C. Mason, in command of state troops and of enforcement of martial law here, said today the negro section of Beaumont "has been literally stomped into the ground" during race disturbances precipitated by two recent rape cases in which negroes were suspects.

"From a destructive standpoint, it equals the Meuse-Argonne sector of the first World War," added Col. Mason, a veteran of martial law enforcement in Texas.

Col. Mason's comment on the damage done was made as this southeast Texas city of more than 100,000 persons awoke today under the watchful eye of some 2,405 peace enforcement personnel under his command.

The city and its first undisturbed sleep in two days after rioting which started late Tuesday night had taken the lives of one white man and one negro.

Bus transportation resumed today and most retail establishments were again open for business.

Col. Mason said he planned to go on the air later today to request that all businesses be reopened. Some establishments had closed because of lack of help after negroes were ordered off the streets. Others closed to keep crowds from congregating.

Defense guardsmen, Texas rangers, and local law officers had the city under an iron guard during the night. Numerous arrests were made for violation of the curfew order which took effect at 8:30 p. m. (CWT) which barred all persons not having essential business from the streets.

While the defense guard was largely from sections within 100 miles of the city, state police were sent here from as far away as Dallas, Fort Worth and Wichita Falls.

The destruction in the negro section, Colonel Mason explained, included the burning of up to 20 negro houses and establishments, and the wrecking of a beer parlor, in which windows were shattered and furniture broken.

Last night road blocks were put in place on highway entrances into the city, the military evidently planning to meet any influx of would-be demonstrators from nearby cities. No such instances occurred, police reported.

Today the city resumed normal life, street cars and buses operating on schedule. Negro maids wheeling white babies reappeared on the streets and other negroes went about their businesses.

This reversion to normality followed the overnight quiet. Last night the streets were virtually deserted. Most stores and cafes were closed and services of many kinds were not available to the public. The police station was under close guard, and barbed-wire was strung in the street facing the main entrance.

The disturbances were generated by two alleged rapings attributed to negroes. About a week ago a

New Price Scale On Women's Hosiery

WASHINGTON, June 17 (AP)—The Office of Price Administration today substituted a sliding scale of \$0.79-1.25 for the flat \$1 maximum retail price on women's combination silk hosiery.

Combination silk hose are made of silk twisted with rayon or cotton. The new price, effective at retail July 17, is 79 cents for 39 gauge and lower, 89 cents for 42 gauge, \$1 for 45 gauge, \$1.15 for 48 gauge and \$1.25 for 51 gauge and higher.

Bureau Fund Fight Looms

WASHINGTON, June 17 (AP)—A battle over the 1944 financial allowances for the Office of War Information and the office of Price Administration shaped up in the house today as debate opened on the \$2,291,441,504 appropriations bill carrying funds for 18 governmental war agencies.

Republican lawmakers privately served notice they would attempt to slash the allocations of both war-born bureaus, and possibly others.

Republican and democratic legislative spokesmen conceded that the argument over the omnibus fiscal measure might stretch to the point where it could interfere with a summer recess scheduled to start July 10.

The house awaited arrival late this week of a \$72,000,000 appropriation measure for the 1944 war department expenses, a record-smashing bill calling for twice this country's entire outlay for World War one.

The house yesterday passed and sent to the senate a \$1,068,009,499 supply bill for the labor department, the federal security agency and the war manpower commission, after refusing a \$3,000 salary increase for Manpower Commissioner Paul V. McNutt.

Great Air Victory Scored; 77 Japanese Planes Downed

Defense Strip?—The Netherlands Government Information Bureau says the light strip at bottom of this picture shows where the Germans used demolition methods one and a half miles inland at the Hague to create a so-called second strong defense line of the "westwall."

A 55-foot anti-tank ditch has been dug in the 700-foot wide demolished strip, say the Dutch, after some 100,000 persons were evacuated. It is three and a half miles long.

85 Nazi Fighter Planes Destroyed in Air Raids

WASHINGTON, June 17 (AP)—Secretary of War Stimson disclosed today that 85, possibly 105, German fighter planes were destroyed by American and British fliers raiding Wilhelmshaven and Cuxhaven last Friday.

In those raids, in which he asserted heavy damage was caused to enemy industrial areas, the secretary added that eight Flying Fortress were lost. Preliminary reports had placed the Nazi air losses at 54 craft.

Stimson also reported that the capture of Pantelleria, Lampedusa and two other small Mediterranean islands cost "only about 40 airmen and a few planes." He said "substantial numbers of axis prisoners were taken—Pantelleria they totaled 11,135 and at Lampedusa "between 4,000 and 5,000."

Discussing allied raids on Kiel and Bremen in which he said "damage believed very heavy" was inflicted on the enemy, Stimson reported that 24 Flying Fortresses were lost instead of the originally announced 26. He explained that two of the big bombers originally reported lost returned to their bases safely. Those raids, he added, accounted for 65 enemy fighters.

Bureau Fund Fight Looms

WASHINGTON, June 17 (AP)—A battle over the 1944 financial allowances for the Office of War Information and the office of Price Administration shaped up in the house today as debate opened on the \$2,291,441,504 appropriations bill carrying funds for 18 governmental war agencies.

Republican lawmakers privately served notice they would attempt to slash the allocations of both war-born bureaus, and possibly others.

Republican and democratic legislative spokesmen conceded that the argument over the omnibus fiscal measure might stretch to the point where it could interfere with a summer recess scheduled to start July 10.

The house awaited arrival late this week of a \$72,000,000 appropriation measure for the 1944 war department expenses, a record-smashing bill calling for twice this country's entire outlay for World War one.

The house yesterday passed and sent to the senate a \$1,068,009,499 supply bill for the labor department, the federal security agency and the war manpower commission, after refusing a \$3,000 salary increase for Manpower Commissioner Paul V. McNutt.

French Group In Agreement

ALGIERS, June 17 (AP)—Thirteen members of the French National Liberation committee, with Gen. Henri Giraud presiding, reached an agreement at an 80-minute meeting today on procedure and collective responsibility, it was announced.

Rene Massigli, commissioner of foreign affairs, informed the first plenary session of communications received from other governments concerning recognition of the committee as the provisional government of the French empire.

The committee began the first steps toward the creation of a "consultative assembly."

It was also announced that an exchange of views had taken place on the problems concerning the organization of French military forces, one of the principal causes of friction between Giraud and Gen. Charles De Gaulle.

One committee member told the press "everything went admirably—an absolutely democratic institution has now been born."

He said the six commissioners attending the committee meeting for the first time accepted, like the original seven committee members, the principle of collective responsibility and the pledge to relinquish the committee's powers when France is freed.

CARS IN RUSSIA

MOSCOW, June 17 (AP)—American armored scout cars, tough first cousins of the jeep, have just reached the Russian front and are being used effectively against the axis.

It's Biggest Haul Yet For US Fliers In Pacific Zone

WASHINGTON, June 17 (AP)—In one of the great air battles of the Pacific, American planes shot down 77 Japanese aircraft over Guadalcanal Island Wednesday while losing six of their own number, the navy announced today.

Never before had the enemy's air losses in the Guadalcanal area been so heavy. The 77 total was almost exactly twice that of the Japanese losses last April 7 when 39 enemy craft were destroyed during a single raid.

A navy communique said that a brief report received from the South Pacific revealed that in an air battle over Guadalcanal Island on June 16 United States planes shot down 32 Japanese bombers and 45 Zero fighters. Six United States planes were missing.

No further details have been received, the communique concluded.

The description of the American planes as "missing" suggested that some of them, or at least some of their pilots, might turn up later.

The 15 to 1 score turned in by American combat fliers in the Solomons, who have in the past included Army, Navy, and Marine pilots, was one of the best, possibly the best, ever recorded in a single action.

In the action of April 7 the Japanese attacked shipping at Guadalcanal with 98 planes, including 50 bombers, and while they lost 30, American losses were three ships and seven planes. Only two American pilots failed to return from their crashed craft, however.

The latest raid in the Guadalcanal area prior to Wednesday's action was on last Saturday when the Japanese sent a force of 40 to 50 fighter planes into the vicinity of the Russell Islands, American air base territory lying immediately north of Guadalcanal. Their move then appeared to be aimed at winning aerial supremacy by overwhelming American fighter plane forces and driving them from the skies, thereby laying American ground installations open to a smothering assault. As it turned out the Japanese had 25 planes definitely shot down and eight probably American losses were six planes and two pilots.

The make-up of the enemy force in the Wednesday battle suggested that the Japanese had returned to their earlier tactics of fighters escorting bombers, after their Saturday thrust with fighters alone failed so completely.

It was not clear, however, on the basis of available information why the Japanese should be directing air forces of such considerable size and suffering losses at so great a rate into the Guadalcanal area.

One explanation widely mentioned in speculation here is that the Japanese believe Guadalcanal will play an important role in the next big American push and are trying to disrupt operations there as much as possible, primarily as a defensive measure.

It was also announced that an exchange of views had taken place on the problems concerning the organization of French military forces, one of the principal causes of friction between Giraud and Gen. Charles De Gaulle.

One committee member told the press "everything went admirably—an absolutely democratic institution has now been born."

He said the six commissioners attending the committee meeting for the first time accepted, like the original seven committee members, the principle of collective responsibility and the pledge to relinquish the committee's powers when France is freed.

Velvin Awarded War Contracts

WASHINGTON, June 17 (AP)—The war department has awarded the following construction contracts (engineers office in charge in parenthesis):

Between \$50,000 and \$100,000: Uvalde Construction Co., Dallas, temporary frame building, Reeves county, Tex. (Albuquerque, N. M.)

W. D. Peck and Co., Houston, gold storage facilities, Galveston county (Galveston).

Less than \$50,000: J. C. Velvin, Big Spring, Tex., temporary frame building, Reeves county (Albuquerque).

W. T. Davis Construction Co., Albuquerque, temporary frame building and accessories, Pecos county, Tex. (Albuquerque).

J. C. Velvin, Big Spring, frame building, Lubbock county (Albuquerque).

WASHINGTON, June 17 (AP)—San Antonio officials plan to discuss with federal authorities the possibility of getting permission for planes on the New York-Mexico City flight to stop in San Antonio.

WASHINGTON, June 17 (AP)—Gasoline stocks were reported by the bureau of mines today to be "rapidly approaching critical levels" everywhere in the country, except the west coast.

April and May, it said, recorded heavy dips into stored supplies.

The bureau indicated that tighter restrictions on civilian motoring may be in prospect for the mid-continent area before summer is out.

JUDD RITES FRIDAY
DENTON, June 17 (AP)—Funeral services will be held here tomorrow for Dr. Cornelius D. Judd, 53, educator, author and lecturer, who died in a Fort Worth hospital Tuesday night.

Bad Weather Halts Raids On Sicily

By NOLAN NORGAARD
ALLIED HEADQUARTERS IN NORTH AFRICA, June 17 (AP)—Malta-based Mosquitoes carried the burden of the Allied air offensive against Sicily and southern Italy yesterday as bad weather completely halted forays by the Northwest African bombardment squadrons for the first time in more than two months. It was disclosed today.

Using both cannon-fire and explosives, the swift plywood craft attacked railway lines, bridges and military hut camps last night, a Valletta communique announced.

The great fleet of American heavy and medium bombers was grounded and official reports said only routine patrol and reconnaissance flights were possible during the day. The hail followed heavy assaults Tuesday on five enemy air fields in Sicily.

Railway sidings and the dock area of Termini-Imerese, a seaport on Sicily's north shore, were blasted with bombs and cannon fire by the Mosquitoes. Among a half dozen other targets were railway bridges and stations in southern Italy.

A destroyer escorting an axis convoy was shot up, causing a brilliant flash aster, and a minesweeper was raked by fire, the Valletta bulletin reported.

A headquarters announcement today added five enemy aircraft to the 16 previously reported shot down during the extensive forays to Sicily on Monday night and Tuesday by swarms of flying ferocious, Wellington bombers and other smaller bombers and fighters.

Yesterday's patrol and reconnaissance flights were carried out without loss, the announcement said.

Turks Recall Vichy Envoy

BERN, Switzerland, June 17 (AP)—Ambassador Behij of Turkey has been recalled to Ankara from Vichy in protest against recent severe gestapo restrictions upon his embassy, a Turkish diplomatic source said today.

While this withdrawal was not considered a rupture in relations between Turkey and Vichy France, this source said it could be a step in that direction.

In addition to a protest against Nazi surveillance of the embassy, another reason for the recall of the ambassador was said to be pressure on the part of the Allies, who thereby hope that Vichy will take a similar action and recall Gaston Bergery from Ankara.

This source, who cannot be identified by name, said Allied quarters held that Bergery "is too friendly with the axis; sees too much of (German ambassador) Von Papen."

Gasoline Stocks At 'Critical' Levels

WASHINGTON, June 17 (AP)—Gasoline stocks were reported by the bureau of mines today to be "rapidly approaching critical levels" everywhere in the country, except the west coast.

April and May, it said, recorded heavy dips into stored supplies.

The bureau indicated that tighter restrictions on civilian motoring may be in prospect for the mid-continent area before summer is out.

JUDD RITES FRIDAY
DENTON, June 17 (AP)—Funeral services will be held here tomorrow for Dr. Cornelius D. Judd, 53, educator, author and lecturer, who died in a Fort Worth hospital Tuesday night.

Bombardier Back From War Front To Teach Cadets Here

LT. LOUIS E. LONG of Gall is greeted at the Big Spring Bombardier school by Col. Robert W. Warren, commandant.

A combat bombardier, fresh from the African theatre of war, has just checked in at the Big Spring Bombardier school. He's 1st. Lieut. Louis E. Long, Jr., son of Mr. Louis E. Long, Sr., of Gall and he's here to teach the fledgling bombardiers a few tricks to play on the axis. And when this new bombardier instructor tells 'em, you can bet your bottom dollar that the cadets will be all ears, because Lieut. Long got his knowledge the hard way.

He won his silver wings as a bombardier at Albuquerque, N. M., on June 13, 1942 and in October of the same year he landed at Lydda, Palestine, to blast the axis. He was on duty in Africa when Rommel was in El Alamein and as bombardier on a B-24 he took part in bombing raids on Tobruk, Tripoli, Bengasi, the Greek isle of Crete and axis convoys in the Mediterranean. He also left his mark in the Sicilian ports of Catania, Augusta and Syracuse, and Reggio, Naples and Bari on the Italian mainland.

Already decorated with the Distinguished Flying Cross and the Air Medal, and with more medals on the way, Lieut. Long returned to the states on May 21 to instruct bombardier cadets at the Big Spring school in some of the finer points of "axis blasting." Before assuming his duties as bombardier instructor, however, he will spend a short time in Carlsbad, N. M., at a specialist's school.

Lieut. Long, a graduate of the Abilene, Tex., high school, later spent several years at Washington & Lee university in Lexington, Va. He became an aviation cadet in Ryan Field, Calif., in August of '41, and had received training at Ellington Field, Tex., and Hendricks Field, Fla., before graduating as a bombardier.

Transferred—
Announcement of the transfer of Major J. W. King (above), post adjutant at the Big Spring Bombardier school, was made Thursday. Major King is being assigned to the Aviation Cadet Center at San Antonio. An army man for 23 years, Major King was one of the early officer arrivals at the air school here, arriving at the station last July. Promotion from captain to his present rank came during his assignment here. Major and Mrs. King were to leave today for San Antonio.

Congress May Not Get That July Recess

WASHINGTON, June 17. (AP)—Congress, striving for a summer recess by July 10 was embroiled today in a series of arguments that held possibilities of holding up the law-making body's first real vacation since the Pearl Harbor attack.

The senate appeared set for a knock-down floor fight on the plan of the Office of Price Administration to roll back food prices by subsidizing producers with federal money.

House Republicans served notice privately they would shoot at the administration's requests for funds for the Office of War Information (OWI) and the Office of Price Administration (OPA).

The senate foreign relations committee chairman, Senator Connally (D-Tex.) implied that he thought peace plans to date were inadequate. So, he said, the committee probably will have a plan of its own.

A joint committee handling the \$875,000,000 farm appropriations bill said conferees had struggled with 124 specific differences of opinion. They called solution of 61 points progress.

With a \$72,000,000,000 war department bill coming up in the house soon—greatest money-raising bill in the history of the world—the prospects for a congressional holiday were dimmed, slightly, to say the least.

State Orders Challenged In Cosden Trial

DALLAS, June 17 (AP)—Validity of Texas railroad commission oil allowance orders between April 1, 1940, and Nov. 1, 1941, was challenged today by defense counsel as the Cosden Petroleum company of Big Spring and three individual defendants went to trial in federal court on indictments charging violation of the Connally "hot oil" act.

This act forbids transportation in interstate commerce of oil produced in excess of allowances set by state regulatory agencies.

The Cosden company; its president, Raymond L. Tollett; and two other employees, M. M. Hines and R. Weldon Thompson, are charged in the indictment with conspiring to bring about the transportation in interstate commerce from Cosden's Big Spring refinery more than 100,000 barrels of oil the government contends was produced in excess of allowances.

Tollett, the company, and Hines pleaded innocent at opening of the trial. Thompson pleaded nolo contendere, which means he neither pleaded guilty nor not guilty, leaving it to the judgment of the court.

Defense attorneys James V. Allred and Maury Hughes for Tollett; and Hughes for the company, attacked validity of the orders, contending they had not been adopted by the railroad commission in full session. Hughes told the court they had been issued by "clerks and examiners."

T&P Schedule To Change

Changes in schedule for Texas & Pacific passenger trains are to become effective Sunday, the T&P offices announced today.

The schedule change coincides with removal of the morning eastbound "Sunshine Special" and the substitution of the "Texan." This is brought about, it was explained, because of change in connections of T&P trains operating eastward from Fort Worth.

The morning eastbound becomes No. 16 instead of No. 2 and will depart from here at 7:50 a. m., an hour later than now scheduled. T&P men pointed out that passengers interested in Fort Worth connections should consult the ticket office because of changes resulting.

The night eastbound train, No. 5, will leave at 10:35 p. m. effective Sunday, instead of 10:30.

The westbound schedules are being altered slightly, also. No. 11 will leave at 11:10 p. m. instead of 10:55, and No. 7 will leave at 9 a. m. instead of 8:55.

Here 'n There

County Clerk Lee Porter gets some interesting mail now and then. For instance, a white back he had a letter from a gentleman back east wanting to know if he and a certain woman, both due to go to California to work for the duration, could meet in Big Spring and secure a marriage license, "much marriage," he added with a legal flourish, "to be convenient only." Perhaps it wasn't as convenient as he thought it was, for he never appeared although Porter answered his letter.

Group Tackles Meat Problem

Against the brick wall of not-so-bright reports from other points, the local meat committee of the Howard county USDA war board was about ready to launch its real campaign for a reallocation of Howard county meat quotas.

Although reports from Midland, Lubbock, San Angelo, Sweetwater and Abilene all showed only temporary increases—and some of these cut back already—to show for efforts to combat threatened beef shortages, there was one ray of hope in the Howard county news.

The local committee, headed by J. H. Greene, is seeking to have existing quotas reallocated, but increased. Greene felt that if the way could be opened for use of all quotas granted to the county, there would be no serious beef shortage.

The committee has about completed its survey of the amount of beef butchered locally in February, March, April and May, together with the probable amount for June on the basis of killings thus far this month. Added to this is the total amount of beef shipped in during those months. Against these totals, the amount of decline in beef receipts from packers and the amount lost through retirement of quota holders from the butcher and slaughter field is being compiled.

It is too early for accurate estimates, but it is indicated that packer receipts here have dropped by nearly 50 beef carcasses monthly. The local loss through failure of some to use quotas would probably equal if not surpass this.

Thus, a redistribution of local and packer quotas (which formerly were delivered here) would add upwards of 35,000 pounds of beef monthly to that now finding its way to the market. This would not provide as much as could be used, but it would mitigate greatly the pinch in the Big Spring market.

RAIN IN AREA

Thundershowers poured out moisture in a spotted pattern in this area Wednesday evening. While Big Spring went dry the U.S. weather bureau west of town had .23 of an inch. A quarter of an inch fell at Gay Hill and more fell to the north and east.

Action Flares Up On Smolensk Front

LONDON, June 17 (AP)—Clashes between scouting parties on the Smolensk front, indicating new stirrings in that long dormant sector, furnished the principal action last night on the German-Russian battlefield, the Soviet noon communique said today.

The war bulletin, recorded by the London Soviet radio monitor, was silent on fighting above and below Orel, where sizeable opposing armies were reported to be massing in activity which communique of both sides have hinted portended a major offensive.

The Paris radio, in a broadcast recorded by the Associated Press, quoted a Berlin military spokesman as saying:

"The Soviet summer offensive will begin in a few weeks' time. Berlin quarters expect the offensive will start on the central front where the Soviets are massing strong forces."

"Continued Soviet local attacks in the Orel sector also point to the fact that the Soviets are intending to use the central front as the starting point of their offensive."

NEGRO FINED

Roosevelt Miller, negro, entered a plea of guilty in city court Thursday to a charge of dangerous driving and was fined \$50 by City Judge Tracy Smith, who also suspended his drivers license for six months.

Movement Of L'stock May Slow Down

CHICAGO, June 17. (AP)—Packers and commission dealers today watched with interest the effect on business at the nation's major livestock markets following disclosure by the government of details of subsidy payments accompanying the scheduled rollback in retail meat prices.

Spokesman for packers and dealers asserted that the recent slowdown in activity at the stockyards here and in other major centers was due to the uncertainties of the terms of the subsidy payments to packers to compensate them for the rollback, which seeks to cut consumer prices 10 per cent. The new retail prices become effective next week.

The payments, to be made monthly and to apply to livestock slaughtered beginning June 7, will be 11 cents per pound for cattle for hogs and pigs, and 9.95 cents per pound for sheep and lambs. Some packing company spokesmen said preliminary calculations indicated the payments would not compensate fully for the reduction in resale prices.

Beard Granted Death Stay

AUSTIN, June 17 (AP)—Acting Governor A. M. Alken, Jr. today granted a 30-day stay of execution for Rex Beard, the West Texas paper sack bandit, who had been sentenced to die in the electric chair Aug. 30.

The new execution date is Sept. 2.

Alken, acting governor in the absence of Governor Coke R. Stevenson and Lieut. Gov. John Lee Smith, authorized the stay because it has been Governor Stevenson's policy to permit one 30-day reprieve in every capital case.

Beard was convicted in the slaying Feb. 12, 1942, of Deputy Sheriff Charles W. Willis in an attempted break from the Taylor county jail.

Information On Child Labor Is Given Employers

Investigating child labor conditions in Howard County, Maureen Moore, child labor deputy, who is in Big Spring as a representative of John D. Reed, Commissioner of the Texas State Department of Labor, is informing employers on how to use minors during the labor shortage existing at the present time.

After conferring with city and county officials about conditions in this vicinity, Miss Moore investigated and found several potential offenders who promised to comply with the child labor law in the future, which law prohibits the employment of any child between the ages of 12 and 15 to work in hazardous occupations.

Boys and girls in this age group may work from June 1st to September 1st without a permit. One must be secured, however, during school months, except under certain conditions. They may not be employed in factories, mills, workshops or laundries where dangerous machinery is used and no child in this group may be allowed to work before five o'clock a. m. or later than ten o'clock p. m. His work day may not exceed eight hours or his week forty-eight hours.

Miss Moore made the observation that the county judge is complying with the supervision of this work in Howard County 100% and agrees with him that minors can help during the labor shortage but employers should not exploit these children beyond their physical strength.

SAILOR PICKED UP

G. W. Bird and S. E. Anderson, with the welfare division of the US Navy shore patrol, were here Thursday to gain custody of L. J. Ballew, brought here from Lamesa as an AWOL sailor. They also expected to pick up another similar case which was due to be brought here during the day from San Angelo.

The court of criminal appeals affirmed the conviction last April 7. The governor is without power to grant further stays unless recommended by the board of pardons and paroles.

Lease Deals Point Up New Oil Interest

Further evidence of a revival of oil interest in this area of the Permian Basin was shown in two instruments filed with the county clerk's office Thursday.

Phillips Petroleum company of Bartlesville, Okla., paid \$10,440 for options to lease 12,440 acres on the McDowell ranch in Howard and Glasscock counties, and M. & M. Production Co. of Midland paid \$4,000 for a lease near the important northern outpost to the East Howard pool.

The McDowell option was signed by Mrs. Fredonia C. McDowell as executrix for the estate of the late L. S. McDowell, pioneer rancher and leading citizen, and L. S. McDowell, Jr. Under its terms the corporation may lease 12,640 acres at \$5 an acre between Jan. 1-15, 1944.

Involved were these tracts: West half of section 32 and all of sections 29, 32, 41, block 33, 12a, T&P, Glasscock county; northwest quarter and southwest quarter section 19, all of sections 30, 31, 42, block 33, 12a, T&P, Glasscock; west three-quarters section 7, block 33, 12a, partly in Howard county, and all of sections 32 and 33, block 34, 12a, T&P, Glasscock; sections 22, 31, 34, block 34, 12a, T&P, Glasscock; sections 15, 23, 30, 35, block 34, 12a, T&P, Glasscock; sections 24, 29, 38, block 34, 12a, T&P, Glasscock.

D. A. Thomason, et al leased the northwest quarter of section 44, block 30, 11n, T&P, directly north of the Sinclair No. 1 M. F. Davis, which recently was completed in the southwest quarter of the sec-

Wall Street

NEW YORK, June 17. (AP)—Stocks generally continued on the recovery route in today's market without working up real buying steam.

Transfers were around 700,000 shares.

Hudson & Manhattan preferred and Standard Brands edged into the "new high" class. In front most of the time were Santa Fe, Southern Pacific, Southern Railway, U. S. Steel, Chrysler, U. S. Rubber, American Telephone, Western Union, Texas Co., Sinclair Oil, Westinghouse and Allied Chemical. Occasional stumbles included Atlantic Refining, Douglas Aircraft, United Aircraft, Anconda, Eastman Kodak, Oliver Farm and Montgomery Ward.

tion for 495.82 barrels natural. This not only was an important extension for the East Howard pool, but it was one of the best producers.

BACKACHE, LEG PAINS MAY BE DANGER SIGN Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention.

The kidneys are Nature's chief way of taking excess acids and poisons waste out of the blood. They help most people pass about 3 pints a day.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with stinging and burning sometimes shows there's something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 60 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

Farm Labor Placement To Clear Through County Agent's Office

By O. F. Griffin, County Agent

The county agent's office will take over the work of recruiting and placement of farm labor July 1. From now till the end of this month we shall work as closely as possible with the Employment Service. It will be necessary that we set up files for this work before July 1. Farmers who will need hoe hands should list their requirements at the county agent's office, opposite the post office building, as soon as they know when they will be needed. We already have the information as to crops and livestock on each farm. In making requests for

laborers, farmers should state: how many are needed, whether any can be boarded, and the kind of work to be done. There is already registered at the S. E. S. better than 100 Mexican and negro workers. These want to work in crews of 15 or 20 workers each. I understand that they will go to the farms and return to their homes at night and have transportation.

It is to be regretted that the cotton was not ready when these crews were first made up, but that could not be helped. However, farmers should provide work for these people as early as possible. There are many good reasons why it will pay the farmers to do this. But the fact that farm workers are scarce is enough.

We are expecting better cooperation on the part of the farmers in handling farm labor. And the amount, and value of the service we can render the farmers will depend upon their cooperation. Difficulty of getting this crop started. No one can tell even now just what extra help will be needed. We know too that the farmer would like to see the people who are going to work for him before hiring them. But it must be borne in mind that the situation is different to any ever faced before. Farm workers are not going to be looking for work very long. The farmer who is wise will make arrangements for his help as soon as possible.

Big Propaganda Program Outlined

WASHINGTON, June 17. (AP)—Details of a gigantic propaganda campaign, ranging from distribution of American drinking cups in Africa to leaflet barrages behind enemy lines were unfolded Wednesday by the house appropriations committee as it recommended a fund of \$24,472,504 for operations of the Office of War Information for the next fiscal year.

How OWI hopes to beat down resistance in enemy lands was explained in detail by Elmer Davis, OWI head, during hearings on the bill. While indicating it was impressed by OWI's contribution to the war of nerves, the committee halved Davis' request for a special \$10,000,000 fund to be used in a new propaganda campaign.

County's Key Funds Are Larger Than A Year Ago

Howard county's financial position is vastly stronger than it was a year ago.

Although the apparent balance of all funds shows only \$118,055 as compared with \$114,085 as of June 10 (when all May receipts are reported in), actually the key funds are in much healthier condition. Moreover, a total of \$16,500 in war bonds have been purchased out of interest and sinking funds this year and this amount, added to the current balance, would in truth show an advantage of something like \$15,000 over last year.

The jury fund, still strong enough, had \$9,149 against \$10,703 for the same time a year ago, according to the complete May report submitted by County Auditor Claud Wolf.

The general fund had mumped to \$28,096, far ahead of the \$17,204 for the same time in 1942, a remarkable gain since the general fund shows considerable catch-all punishment.

Equally impressive was the \$57,617 balance in the road and bridge fund, which is nearly \$14,000 above the \$43,688 at the end of May last year. This another of the most active and expensive funds in county operation, hence the increased balance takes on

OIL PRICE HIRED

Houston, June 17 (AP)—Following the lifting of the ceiling price of Panhandle crude the Texas Company and the Humble Oil & Refining company yesterday increased the price of Panhandle crude seven cents a barrel.

Every time one of those effective three-inch anti-aircraft guns roars into the sky and hurls its shell skyward into the belly of a Jap Zero or Nazi Messerschmidt it costs \$2.88. These powerful guns are synchronized and are pointed mechanically toward the enemy plane.

If you will join a payroll Savings Plan for regular purchases of War Bonds, you can help buy the millions of rounds of shells needed by our Marines, and our Soldiers in the Solomons and elsewhere. . . . Top that ten percent by New Year's is the slogan designed to bring everybody on the firing line on the home front. U. S. Treasury Department

How To Control Insects Infesting Poultry Flocks

By O. F. Griffin, County Agent

Summer is here, and likewise several kinds of parasites that infest the chickens and help to bring about the summer slump in egg production. The worst of these chicken insects are fleas, bluebugs and lice.

To control fleas, we have to stop their increase. The stick-tite fleas seen on the chickens' heads drop their eggs wherever the chicken happens to be. If chickens stand under sheds or under the house, the eggs soon hatch into a tiny worm that will live in the dust and filth until it is grown and then gets on a chicken and starts the process over again.

Now these tiny grubs (the young fleas) live on the filth in the dust in places that are shaded most of the time. They cannot develop where the sun shines. The most satisfactory way to get rid of fleas is to make all such shaded dust and filth salty. This can be done by sprinkling salt rather liberally and then wetting it down with water. One treatment is sufficient for several years in most cases. If the places where the young fleas are raising is salted down good, the old fleas on the chickens soon die and you are rid of them. The important thing is to stop the fleas as soon as they are noticed to prevent injury to your chickens.

Bluebugs spend part of their life on chickens as ticks. When they get grown they take refuge in the material of which the roost is made. Here they lay eggs which hatch out seed ticks to get on the chickens.

To get rid of the blue bugs, treat the material of which the roost is made with Carbolineum. The roost should be taken apart. The carbolineum can be applied with a paint brush or a mop. (Be careful not to get it on your skin.) Then put the roost back together and scrub the top of the roost poles with dirt to keep from making the chickens feet sore. Chickens that roost on a roost treated with carbolineum will not suffer from bluebugs very long although there may be plenty of them in the walls of the house. If part of the hens roost on the nest boxes or are close enough to the wall, they will still be pestered by the bugs.

I recently treated my own chickens for lice with very good results. I used a new remedy and got entirely rid of them with one application. I used a mixture of dusting sulphur and derris powder, 5 to 1—by the pinch method and rather liberally. It took about 4 ounces of the mixture for 14 hens and 30 young chickens. This mixture can be bought at Big Spring drug stores.

Another method is to apply sodium fluoride in the same way, but it irritates the skin and cannot be put all over the chicken. Wood ashes kept where they will stay dry and where the hens can wallow in them will keep them free from lice. If no wood ashes, a wallow place can be made of loose dry dirt, and the dusting places sprinkled liberally with sodium fluoride. In this way we save the trouble of catching the chickens. Of course the mixture of sulphur and derris powder would be better, but derris is very scarce, and should not be used in a way that any of it would be wasted.

Keep Em Laying

Eggs are a good price and badly needed to help win the war. Let's take extra precautions to keep the hens laying as long as possible this summer. To do this you must look carefully to four things. They are:

1. Plenty of tender green feed on their range.
2. Plenty of clean cool water.
3. Plenty of lay mash with about an equal amount of several kinds of grain.
4. Protect them from fleas, bluebugs and lice.

CRAWFORD HOTEL, Big Spring

Patriotic Motif Used in Party Decorations

The Homemakers' class of the First Christian church was entertained with a party in Mrs. C. M. Shaw's home Tuesday afternoon at 2 o'clock, and Mrs. Shelby Hall was co-hostess.

Mrs. George Dabney opened the meeting with prayer, and Mrs. Shaw, president of the class, presided over a short business session.

Games were played, and refreshments carried out a flag day motif. Miniature flags were given as plate favors.

Refreshments were served and those attending were Mrs. J. H. Buff, Mrs. H. R. Vorheis, Mrs. C. A. Murdock, Mrs. T. E. Baker, Mrs. R. J. Michiel, Mrs. F. C. Robinson, Mrs. Earl Read, Mrs. M. C. Lawrence, Mrs. W. M. Gage, Fannie Sue Hall, Mrs. Ada Boone of McKinney and Mrs. Harry Lees and the hostesses, Mrs. Shaw and Mrs. Shelby Hall.

Fireman Ladies Have Meeting

The Firemen Ladies met at the WOW hall Wednesday afternoon at 8 o'clock, for a semi-monthly business session and program.

Mrs. Florence Rose, president of the lodge presided over the meeting, and those attending were Mrs. Ada Arnold, Mrs. Bessie Power, Mrs. Helen Gill, Mrs. Dora Sholtz, Mrs. Rebekah McGinnis, Mrs. Minnie Barber, Mrs. Mattie Slusser.

Mrs. Ruth Burnam, Mrs. Patty Mason, Mrs. Bertie Adams, Mrs. Susie Wilson, Mrs. Allie Mims, Mrs. Mattie Muneke, Mrs. Leah Brooks, Mrs. Irene Stegner, Mrs. Billie Anderson and Mrs. Opal Crawford.

Program Planned For Opening Of Rubber Plant

WASHINGTON, June 17. (AP)—The formal opening of the Baytown synthetic rubber plant on June 26 will be observed by Texans in the nation's capital, with Secretary of Commerce Jesse H. Jones and others speaking by radio and telephone to audiences in their home state.

Unable to be in Texas for the celebration because of duties here, Secretary Jones will make an address by radio to a luncheon meeting at 2 p. m. (CWT) in Houston. Senator Tom Connally, and Representative Albert Thomas of Houston, will make addresses by telephone to officials meeting at Baytown for medication ceremonies at about 10 a. m.

Using the buna S system for producing synthetic rubber from crude oil, the plant will employ about 350 men as it starts production. The General Tire and Rubber Co. of Ohio will operate the plant; the Humble Oil and Refining Co., of Houston, and the General Latex and Chemical Co. of Massachusetts are cooperating.

Where'd Charlie Get The Gas For Wedding Trip?

LOS ANGELES, June 17. (AP)—The Office of Price Administration is taking an interest in Charlie Chaplin's marriage, it disclosed today, but not in its romantic aspects.

Samuel L. Leask, Jr., Southern California O. P. A. administrator, announced his operatives are trying to determine where Charlie got the gasoline for his trip to Estia Barbara yesterday to marry Miss Oona O'Neill, daughter of playwright Eugene O'Neill.

Leask said also he is interested in unverified reports that at one time Chaplin's car sped 80 miles an hour as the actor eluded newsmen.

"The whole trip may have been entirely legal," Leask commented. "It probably was; but we want to know."

Return of the Gibson Girl

Shirtwaist, 1900: Authentic outfit from the Museum of Costume Art.

Shirtwaist, 1943: Gay printed crepe, tucked into a brown shantung skirt. This is the costume picked by the New York Dress Institute for a modern Gibson Girl.

By DOROTHY ROE AP Fashion Editor

Remember the Gibson Girl? She's the one who was always being invited (in song) for a ride on a bicycle built for two, in a merry Oldsmobile or in that new flying machine. And she always wore a trim, starched and heruffed shirtwaist with her Merry Widow hat and her modest ankle-length skirt.

Well, the Gibson Girl is back with a bang, right in the middle of World War II. She's complete with pompadour, demure smile and, most significant, that immortal shirtwaist.

Not since the Nonchalant Nineties have well-

bred young women strolled down Fifth Avenue in waist and skirt, without benefit of jacket. But this spring it's considered not only correct, but downright fashionable.

You'll be seeing the Gibson Girl shirtwaist in many versions this year—in sheer lace-trimmed batiste, in printed crepe, in linen and lawn. You'll see it worn for everything from business to badminton, croquet to cocktails.

And, as often as not, you'll find it teamed with that other essential item of the Nineties, the decorative parasol.

Mrs. Compton Is Hostess To The Kongenial Klub

Mrs. Escal Compton entertained with a bridge party in her home Wednesday afternoon and guests were members of the Kongenial Klub.

A patriotic motif was carried out in tallies and score pads, and refreshments were served. Mrs. C. S. Edmonds won high score at bridge and Mrs. Randall Pickle won second high. Mrs. Bill Edwards binged.

Mrs. Clyde McMahon was included as a tea guest, and others attending were Mrs. D. A. Watkins, Mrs. Harshel Petty, Mrs. R. W. Mailbrook, Mrs. Ollie Anderson, Mrs. Jack Smith, Mrs. C. S. Edmonds, Mrs. Randall Pickle, and Mrs. Bill Edwards.

Mrs. C. S. Edmonds, 104 Jefferson, will entertain the club at the next meeting.

Celebration Held In Thompson Home

Mrs. L. D. Thompson celebrated her birthday anniversary and Dr. and Mrs. C. W. Deas celebrated their wedding anniversary in the Thompson home Wednesday evening.

Gifts were presented to the honored guests and refreshments were served to Richard and Wesley Deas, Mrs. W. S. Ross, Mrs. J. R. Marriott, Londa Marriott, Mrs. L. D. Thompson, Dr. and Mrs. C. W. Deas.

Baptist Group Attends All Day Meet At Chalk

A group of people from the First Baptist church attended an all-day worker's meet at Chalk today at the Baptist church.

Those attending were Mrs. Lina Lovell, Mrs. Chester O'Brien, Mrs. J. L. Hynes, Mrs. M. E. Harlan, the Rev. Dick O'Brien, Mr. and Mrs. W. R. Crighton and Mrs. M. E. Harlan.

Floor Show To Be Presented At Dance Here

Cpl. Phil Tucker will act as master of ceremonies for a floor show which will be presented during dance intermission in the post recreational building at the Bombardier School Saturday evening.

The informal dance, which is sponsored by the school as planned entertainment for enlisted men is scheduled for 9 o'clock. Music will be furnished by the post orchestra, and transportation will be furnished from the Settles Hotel. Personal cars will be admitted.

Included on the floor show will be Cadet Kirby Brooks featured in a vocal selection, and imitations will be presented by Pvt. Allen Mobeu. Billie Frances Shaffer will present a baton twirling act, and Cpl. Tucker will conclude the program with a novelty song and dance number.

All enlisted men, their wives and dates are cordially invited to attend.

Concordia Ladies Have Picnic And Meeting At Park

The Concordia Ladies met at the city park this week for a business meeting and social hour.

The meeting was opened with prayer by Mrs. W. F. Pachall. A picnic lunch was served and those present were Alma Reuckart, Mrs. W. C. Heckler, Mrs. C. Thompson, Mrs. Henry Fehler, Gertel Fehler, Genevieve Fehler, Charles Pachall, Tommy Fehler and Mrs. W. E. Pachall.

Country Club To Hold Open House Saturday

Members of the country club and out of town guests are invited to an open house and informal dance which will be held at the club house Saturday evening at 9:30 o'clock.

Music for the entertainment will be furnished by nickelodeon.

Club to Sponsor Swimming Party And Picnic

All enlisted men of the Big Spring Bombardier School and their wives are invited to attend a swimming party which will be held at the city park this evening under the sponsorship of the Service Men's Wives Club of the USO.

The group will meet at the soldier center at 7:30 o'clock and then go to the city park. Those who plan to attend are asked to bring swimming suits and a basket lunch.

A group of hostesses from the local USO club visited the hospital at the Big Spring Bombardier School Wednesday evening at 8:15 o'clock. Mrs. F. V. Kinney, chairman announced today. The group includes Mrs. Winston Harper, Mrs. J. Leslie Roberts, Mrs. J. W. Freeman and Mrs. Kinney.

Wayne Dearing Is Honored At Dinner

Regular activities are scheduled as entertainment at the soldier center tonight and members of the Girls' Service Organization will be hostesses for games and dancing.

Mr. and Mrs. H. W. Dearing honored their son, Wayne Dearing, who will leave this evening for the navy, with a dinner in the Dearing home Wednesday evening.

Those attending were John Urey, Glenn Dale Brown, Stewart Smith, Dewey Stephenson, Mary Dearing, Billie Dearing, and the hosts, Mr. and Mrs. H. W. Dearing.

LEARN THE TRUTH ABOUT BOWEL WORMS

Nobody is sure to escape. And roundworms can cause real trouble inside you or your child. Watch for the warning signs: uneasy stomach, nervousness, itchy nose or seat. Get Jayne's Vermifuge right away! JAYNE'S is America's leading proprietary worm medicine, used by millions for over a century. Acts gently, yet drives out roundworms. Demand JAYNE'S VERMIFUGE.

More Volunteers Work At Local Red Cross Rooms

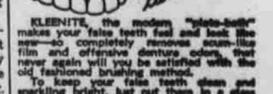

Best news yet to be received from the Red Cross surgical dressing rooms is that at last Big Springers are answering the call for workers to help in getting out a quota of dressings by July 1. Mrs. Bernard Fisher, chairman of the service room, announced today that 2,000 dressings have been completed in one week and that Tuesday morning 15 workers attended with 49 working in the afternoon.

All women are urged to contribute part time work at the Red Cross rooms which are open Monday evenings, and Tuesday through Friday from 9 to 12 o'clock and 1 to 5 p. m.

Mrs. Victor Mollinger left Tuesday for Dallas where she will visit with her daughter and husband, Mr. and Mrs. Richard Englander.

TRY THIS EASY, MODERN KLEENITE

PLATE-BATH METHOD TO KEEP YOUR FALSE TEETH

KLEENITE, the modern "plate-bath" makes your false teeth feel and look like the real thing—completely removes scale-like film and offensive denture odors, that never again will you be bothered with the old-fashioned brushing method. To keep your false teeth clean and sparkling bright, just put them in a glass of water with a little KLEENITE and take the amazing difference. Don't risk wearing down those delicate ridges that hold your plates in place! Brushing and scrubbing with tooth-paste cleaners may wear down these ridges and ruin the fit. You can't have peace and comfort with plates that wobble and slip. Why not see your druggist today and begin to enjoy the comfort and dependability of the delightfully different "plate-bath" method? Money back if not delighted.

Local Church Women Attend Food Classes At West Ward School

Miss Atkinson To Continue Course During The Month

Women of eight local churches attended food conservation classes which were held at West Ward School Wednesday under the direction of Miss Mildred Atkinson, assistant home demonstration agent of Howard county and home economics teacher at Sterling City. The free course which will be held all during the month of June, is offered in connection with a national program which has been set up to help American women in solving the food problem during war.

Today's meeting opened with a general statement on the food situation followed with a drying demonstration which was held from 9:20 to 11 a. m.

Highlight of the afternoon class was demonstration of the proper use of the pressure cooker, talks concerning canning of vegetables with cooker, and canning by water bath.

"I am well pleased with the interest which Big Spring women are taking in learning methods of better conserving foods," Miss Atkinson stated. The assistant home demonstration agent will remain in Big Spring until July 1 giving instruction and food demonstrations at the school.

If you are not a member of any organization, you are invited to attend any class and demonstration you choose. Each day is complete within itself, so if local housewives cannot attend both days, the day they choose to attend is a complete unit in conservation.

Organizations represented today were the First Christian Church, Catholic Church, Church of God, Episcopal, Assembly of God, Salvation Army, Seventh Day Adventist and women of the Nazarene church.

Classes on June 19 will be with Mexican women and June 21-22 has been set aside for all clubs, social, study and literary. June 23-24, women of the Baptist, Methodist, Presbyterian and Church of Christ are asked to attend. Women of Garden City and vicinity are invited to take the course on June 25-26th.

Make It Last YOUR FUEL

Gas and electricity are vital to war production. That's why it is imperative that we use both wisely and efficiently. Here are some suggestions to follow:

1. Instead of using several small bulbs in a lamp, use one large bulb. A 100 watt bulb will give more light and use less electricity than two 60 watt bulbs.
2. Remember you do not need as much light when listening to the radio as when reading.
3. Remember to turn out lights when you leave an empty room.
4. Keep your lamps clean to get the most benefit from the light.
5. Disconnect all electrical appliances when you have finished using them.
6. Defrost your refrigerator regularly, whether gas or electric.
7. Conserve gas or electricity in cooking. When you're using the oven, plan to bake more than one dish. Once a pot has boiled, you can reduce the heat and still maintain the boiling point. Use a small unit or burner, when possible, instead of a large one. Don't turn on the heat until you are ready to put the pan on. Be sure your gas always burns a blue flame.

—VISITS AND VISITORS—

Emily Stalcup is home on a three day leave visiting with her parents, Mr. and Mrs. Harry Stalcup. She will return to Fort Worth this weekend.

Mrs. Ada Boone of McKinney is visiting her daughter and family, Mr. and Mrs. J. H. Stiff.

Mrs. J. H. Harper has as guests, her grandchildren, Larue, Ann and Don Hall, children of Mr. and Mrs. J. L. Hall who live in Odessa.

Mr. and Mrs. E. F. Fleener of Dumas are visiting Mrs. B. E. Harris.

Mrs. E. H. Hurlbert of Los Angeles, Calif. is visiting in Big Spring with Jane Grimes and Mrs. Pearl Hall.

Mrs. George Hall left recently for New Orleans, La. to visit with her son, Sgt. Harold Hall.

Mrs. Willie E. Cloyes is spending her summer vacation in Snyder visiting with Mrs. Willie Newton.

Zaida Brown has returned to Blackwell after visiting here with Martha Ann Harding.

Mrs. Addie F. Hazgrove of Colorado is visiting with her daughter, Mrs. Paul Holden.

US Planes Cause Damage To Enemy On China Front

CHUNGKING, June 17. (AP)—United States planes supporting Chinese forces trying to take the Hupeh province town of Owchikow caused many fires and extensive damage Tuesday, a communique from Lieut. Gen. Joseph W. Stilwell's headquarters announced today.

The Americans attacked the warehouse area of the city at Lotus Pond inlet. Greatly outnumbered American planes the day before destroyed six Japanese planes and probably destroyed three others in a battle southwest of Nanchang. The Americans suffered no loss.

The Chinese high command said that the Chinese had intercepted Japanese troops which had advanced eastward with artillery from Yanglowso, on the Canton-Hankow railway.

The Japanese presumably have been trying to mop up Chinese who have been harassing the Yochow-Hankow stretch of the railway, down the Yangtze from Owchikow, with constant attacks. Press dispatches said the harassing attacks had totally disrupted traffic on that railway stretch.

"PICK ONE DAY IN THE WEEK FOR DEFROSTING"

Defrost Your Electric Refrigerator Regularly

When the layer of frost that collects on the freezing unit of your electric refrigerator gets about as thick as a pencil, it is time to defrost. This frost actually acts like a blanket, for it keeps the cold from reaching the food that you want to keep fresh and wholesome. It also lowers the operating efficiency of your refrigerator and adds to the operating cost. To save money and to get more satisfactory service from your electric refrigerator, defrost it regularly. Consult your refrigerator instruction book for a recommended method of defrosting, and for other tips that will prolong the life of your electric refrigerator.

Why We're Fighting The Axis Is Made Plain In Govt. Film At Ritz

One of the most powerful films ever produced, "Prelude To War" is a current feature at the Ritz theatre. Released through the Office of War Information, the full length feature is a searing indictment of the Axis partners and shows throughout its trenchant scenes and commentary just what we are fighting for.

"Prelude To War" was produced by the Special Service Division, Army Service Forces, War Department, in cooperation with the U.S. Army Signal Corps. It has been an essential part of the basic training of all service men and over six million Army, Navy, Marine and Coast Guardsmen have already seen it and praised it to the skies. They feel it captures the true story of the causes of the present global war, and its sensational success among service men was responsible for its release to the general public.

Through means of new reel films, captured German, Italian and Japanese films, as well as carefully documented and reconstructed scenes, the picture lays bare ten years of unprovoked aggression. Lt. Colonel Frank Capra, onetime famed Hollywood producer, was in charge of production for the film and made it his duty to see that the film was both highly informative and accurate throughout.

The magic of the camera shows us two worlds — one where freedom has been fought for and won; the other where the people turned over their rights to dictators, who promptly shipped their preparations for war with the "soft" United Nations.

Hitler, Hirohito and Mussolini stand exposed. Their plans for world domination, through force, are shown in true perspective, and the reason we must fight on to "unconditional surrender" readily becomes apparent. For in these three countries, Italy, Japan and Germany, the gangsters have warped the minds of the susceptible, eradicated the doubters, and forced the shape of things to come. The film clearly shows that only one way can remain in this world—their's or ours.

Italian Prisoners Doing Fairly Well As Farm Helpers

DALLAS, June 17. (AP)—Some Italian prisoners have trouble distinguishing young corn from Johnson grass and are generally awkward on farm work, "but they pick it up and like to do it," Col. Daniel B. Byrd, chief of the prisoner of war branch of the eighth service command, said yesterday.

Referring to the Italian prisoner of war camp near Hereford, Texas, Colonel Byrd said it has "available or will have available apparently an ample supply of labor to meet local needs."

Rate of pay, the officer said, is based on the prevailing wage for free labor on the same class of work, but because prisoner labor is considered not as efficient as free labor, prisoners' wages are scaled down 75 to 50 per cent. A minimum of \$1.50 a day has been set.

A mole dies if it is kept from food for a few hours.

New Machinery For Processing Rubber Needed

WASHINGTON, June 17 (AP)—With a flood of harder-to-handle synthetic rubber expected from government plants next year, the War Production Board probably will be asked soon to authorize substantial quantities of new machinery for making tires, hot water bottles and other rubber goods.

Rubber Director William M. Jeffers' office was reported to have been impressed by the contention of rubber companies that their present machinery will be inadequate to handle the synthetic product.

They estimate that the processing of synthetic requires about one-third more machinery, power and labor than the same amount of natural rubber which their equipment was built to fabricate.

Some officials estimated that new mixers, mills, vulcanizers, tire building machinery and other equipment in a volume sufficient to process about 250,000 tons of synthetic—roughly one-third of the 800,000 tons to be turned out annually—would be required.

Heavy strains on the capacity of tire makers are expected when they are called on not only to fill the needs of military vehicles and aircraft, but to replace civilian tires which will take no more recapping.

All plant units of the synthetic rubber program are expected to be in operation by the end of this year. Jeffers has declared 5,000,000 synthetic civilian tires will be made this year and 30,000,000 in 1944.

IN DAKAR
LONDON, June 17 (AP)—The Algiers radio reported today that Vice Admiral William A. Glassford had arrived in Dakar to take up a post as President Roosevelt's personal representative in French West Africa.

Butter Taken Out Of Retail Channels As Price Slashed

CHICAGO, June 17. (AP)—Dairy trade sources today said a huge increase in cold storage stocks of butter during the past month, as revealed by department of agriculture figures, indicated large quantities of the commodity had been removed from consumer channels as a result of price rollbacks.

Heavy supplies of butter were sold to the Dairy Products Marketing association, a government financed agency, dairy men said, and therefore were taken out of retail channels. These stocks now are owned by the DPMA, or by other government agencies to which they have been transferred.

Cold storage warehouse stocks of butter on June 1 totaled \$2,666,000 pounds, almost three times as large as the 30,190,000 pounds in warehouses a month earlier and the largest for any June 1 since 1939.

While the seasonal trend is upward from May to June, dairy men said this alone could not account for the increase in view of the strong domestic demand.

The government got the butter, dairy men said, because at the time the rollback was placed in effect, no provision was made for subsidy payments to owners of butter in transit or already in warehouses. This butter had been purchased from producers on the basis of pre-roll-back retail prices.

Rather than sell the butter to consumer outlets at a loss, owners turned it over the DPMA. The roll-back price on 52 score butter was 41 cents a pound, but the DPMA was willing to pay 16 cents a pound. Consequently, butter which would have gone to consumers went to the agency, dairy men asserted.

King Visits Men Of Fleet

By REELMAN MORIN (Representing the Combined United States Press)

ALLIED HEADQUARTERS IN NORTH AFRICA, June 16 (Delayed) (AP)—Having visited the American army in training for invasion of Europe and sampled American field rations on the first two days of his North African tour, King George VI of England got around yesterday to inspecting units of the combined British and American fleet in the Mediterranean and meeting the war correspondents who covered the rout of the axis in this theater.

For more than an hour the British monarch, who flew to North Africa on Saturday, walked slowly up and down a vast space covered with detachments of sailors and marines.

Accompanying the king as he inspected the fighting men were two American officers, Vice Admiral H. K. Hewitt and Rear Admiral J. L. Hall.

The king then went aboard a large American warship and reviewed the personnel.

Next he went to a British warship, where more than 30 American and British correspondents were drawn up to meet him.

Each correspondent introduced himself, and from time to time as the king walked down the line of newsmen his face lighted up and he exclaimed: "I know your name."

very well. I have read many of your dispatches."

Leaving headquarters on Monday morning, the king spent nearly a full day with an American army where he met Lieut. Gen. Mark W. Clark, commanding general of the U. S. Fifth army; Lieut. Gen. George S. Patton, Jr., commander of American combat forces in Tunisia; Lieut. Gen. Omar N. Bradley, commander of the United States 2nd army corps; Maj. Gen. Geoffrey Keyes, commanding an armored unit; Maj. Manton S. Eddy and Maj. Gen. Hugh Gaffey.

SAYS DOUGLAS MacARTHUR

Father's Day
Sunday
JUNE 20th

MELBOURNE
Nothing has touched me more deeply than the act of the National Father's Day Committee. By profession I am a soldier and take pride in that fact, but I am prouder, infinitely prouder, to be a father.

A soldier destroys in order to build; the father only builds, never destroys. The one has the potentialities of death; the other embodies creation and life. And while the borders of death are mighty, the bastions of life are mightier still. It is my hope that my son, when I am gone, will remember me. Not from the battle but in the home repeating with him our simple daily prayer, "Our Father Who Art in Heaven."

FOOD NUTRITION and Point Rationing NEWS

The Big Spring Daily Herald

Give Your Ration Book A Rest With Menus Using Oatmeal

Oatmeal in its many forms has eased the strain of rationing for many a housewife—in fact, its tops on the pantry shelf for the duration to improve wartime meals with abundant Vitamin B1, iron and energy.

Now that potatoes are getting so scarce and are quite expensive as

a day after day "steady" on our menus, many meals are going to lack carbohydrates which we've all come to depend upon to maintain our energy. So try dumplings enriched with oatmeal on top of your stew or meat pie one of these nights and you'll discover your family can be quite content with-

out potatoes at every meal. Remember, too, to try oatmeal in your next meat pie crust. National 3-Minute Oats will add flavor and food value. These are the oats that are ovenized 12 hours at the mill for finer flavor—and this slow-curing of the choice sun-ripened grain helps break down the starches—brings out the delightful flavor, which you in turn will notice in your pastry, bread and muffins.

As to the company you've wanted and know you couldn't have over for dinner now that rationing's come—here's a meat ring that calls for only 2 pounds of ground lamb and feeds six in a very "fancy sort of way."

Meat Ring
 2 lbs. ground lamb
 2 beaten eggs
 2-3 c. National 3-Minute Oats
 1 c. milk
 1 c. chopped onion
 2 tsp. green pepper
 2 tsp. chopped parsley
 2 1/2 tsp. salt
 Combine ingredients; mix thoroughly. Press into oiled 8 in. ring mold. Bake in moderate oven (350 degrees F.) 1 hour. Fill with parsley buttered potatoes. Serves 6 the secret being, National 3-Minute Oats stretches your meat supply and bolsters the meat loaf so it doesn't shrink while baking). Now this next recipe is for the

sweet tooth—there's one in every family—and many mothers after a year's practice are still having quite a time making sugar rations stretch enough to have desserts every day. This is for a delicious apple crisp, requiring no butter and cutting the usual sugar content in half.

Apple Crisp
 3 c. chopped apples, unpared
 1-2 c. dark corn syrup
 1-4 c. hot water
 1-4 c. margarine
 1-2 c. brown sugar
 1 c. National 3-Minute Oats
 1-4 c. flour
 1 tsp. salt
 Place apples in a greased baking dish. Combine corn syrup and hot water and pour over apples. Mix margarine, brown sugar, National 3-Minute Oats, flour and salt until they are a crumbly mixture. Sprinkle evenly over tops of apples. Bake at 350 degrees F. for about 1 hr., or until delicately browned.

And don't forget when buying National 3-Minute Oats—ask for the thrifty "family" size—it's unrationed so you can serve and use it often, thus giving your family Vitamin B1, usable iron and proteins in abundance.

'Planned-Overs' Will Help In Saving Food

Left-overs have long been in bad favor with families. But "planned-overs" make some of the most delicious meals, save time and win applause. With grocery shopping what it is today, you probably buy only once or twice a week anyway, so why not plan the week's meals as much in advance as possible and cook with an eye to menus a day or so away.

Jog your own ideas of "planned-overs" with these suggestions. Boil enough potatoes for hashed-browns another day, or potato salad. Planned-over green beans, or beets or carrots or all three, make a delightful salad next day with a little onion, a sprightly French dressing.

Lima beans also can do duty in a salad later in the week, or reappear under a sauce. Boiled sweet corn lends itself well to refrigeration if wrapped in waxed paper. Days later, you can cut it off the cob, add diced onion and green pepper and simmer it in the skillet for a mighty juicy dish. If you're out of green peppers, corn and onion still fry nicely together.

When you open a can of fruit for one dinner's dessert, save some for a meat garnish later in the week, or to slip under cottage cheese as a salad. Some families prefer boiled squash after it's been transferred to a baking dish and ornamented with bread crumbs, so plan ahead for this dish.

When soft-boiling eggs for breakfast, extend the cooking time on a couple of extra ones for sandwich filling or salad later on. An extra piece of fried ham, ground, goes into a casserole of rice two days later. White sauce, kept covered in the refrigerator, is handy for several days, for creaming vegetables, salmon or chicken.

RATION CALENDAR

Pressure Cookers Obtainable By Group Method

LUBBOCK, June 17—Many West Texas housewives are asking Rationing Committees just what their chances are to obtain pressure cookers for canning fruits and vegetables. In answer to this question the District OPA Office pointed out today that organized groups, such as neighborhood pools, garden clubs, home demonstration clubs, etc., will have the better chance of obtaining cookers than single family groups.

"With an estimated demand for 500,000 pressure cookers and an authorized production up to date of only 150,000 compared to 250,000 in pre-war days annually, it means that many, many persons will have to share the same cooker," OPA officials said. About 12,000 pressure cookers have already been made and sent into the south and west where the canning season is early.

Applications should be made to the county farm rationing committee, located in the county agricultural agent's office.

After filling out the application forms, the applicant should submit it to the Farm Rationing Committee and, if approved, he will be issued a certificate. It is to be assumed that the applicant has already made inquiries and found out if cookers are available. He will then present his certificate with the purchase price to the dealer.

The Home War Patrol Lower Meat Prices To Become Effective First Of Next Week

(Official news of rationing, nutrition and other war programs affecting the home and kitchen, prepared by the Regional Office of War Information.)
Lower meat prices, effective June 21 for beef, veal and lamb, sausage and variety meats, will be welcomed by all housewives. Similar reductions will take effect on cured and processed pork July 5. Butter prices have been rolled back to the extent of five or six cents per pound for various types. Meat prices are lower by two, three, five and in a few cases as much as seven cents a pound. In the long run, it will make a lot of difference to the family pocketbook.

Canning Tip
When preparing peaches for canning, drop them, as peeled, into weak salt water, to keep them from discoloring.

Looks Bright, Tastes Right
Just like the beautiful colored pages of food in the magazines, your own meals will look more inviting if you keep color contrast in mind as a charmer. Creamed chicken, white potatoes and boiled onions are all good food, but they

make a very pale-looking plate. Strips of pimiento on the creamed chicken, or parsley on the potatoes would be a big help, but bright yellow carrots, red beets or green peas in place of those white onions would be an even happier solution.
Try using yellow squash instead of white, when you need a color accent. Cultivate the parsley and mint habit. Eatable, colorful garnishes are ray carrot sticks or curls, tomato slices, red radishes or young onions with a few inches of green top showing. Lemon slices are good with lots of dishes. Half a canned peach is a colorful taste accent that goes well with almost anything.

Once you start planning your meals for color as well as point values, nutrition and family preferences, you'll find it not too difficult and highly pleasing.

More Wool Next Winter
The wool supply picture has improved during the past few months and more has been made available for civilian use. Practically all the wool necessary for wool yarn and cloth for essential fall and winter civilian clothing is now available and it may be possible to relax further the restrictions on use of wool. Already some material, formerly restricted to military uses, has been released for the use of you and your family.

Render Your Fats
Are your waste fats going into

the garage can? This is a vital question now that every drop of fat is so urgently needed on the firing line.

Bacon drippings are far from being the only fats that can be salvaged by the housewife. A tremendous amount of fat is discarded every day in American homes in the form of solid fats trimmed from meat before it is home in the form of solid fats prepared, or left on the plates.

The simple recipe for sending fat from the nation's homes to United Nations' firing lines is this: "try it out." Melt down solid fats in the double-boiler, or with a little water in a shallow pan under a slow flame in the oven or however your grandmother did it. And take your collection to the butcher every time you get a can filled. He will see that it gets to war.

Cool and Different
A change for summer salads is frozen tomato juice, now within point-level reach of all. Add a pepper, a few slices of lemon, a little salt, a smidgen of black juice. Stir, pour in an ice tray and pop in your freezing unit.

Serve squares on lettuce, with a tart dressing or mayonnaise. It's fancy, served alone as a first course; delicious served alongside any lunch or dinner. And what a grand dish of Vitamin C!

Tomato Crop
Your own Victory Garden crop also the tomato crop from nearby farms should be coming in plentifully soon. Do use these vitamin-rich products every day. If you fear your family may tire of raw tomatoes, try them broiled, stewed, or combined with vegetables.

Scalloped tomatoes and eggplant is a good dish. Cook 1/2 inch slices of eggplant about five minutes, then make alternate layers of the eggplant and tomatoes in your casserole. Add a little onion, salt and pepper, top with breadcrumbs and bake about 30 minutes.

Tomatoes cooked with cabbage pound of tomatoes, peeled, to a cup of chopped cabbage serves four people. Add a little grated onion, salt, pepper, a tablespoon of butter or margarine and cook 15 minutes over low heat. No need to add water.

No Wasted Slices
Are you keeping your bread, well wrapped, in the refrigerator? That's the answer to the summer threat of mold and waste.

Salad Success
Let your salads be triumphs: have all ingredients as cold and crisp as possible, toss with forks rather than stir with a spoon, and add salad dressing at the last minute to keep fresh foods from wilting.

More L'stock Feed Will Be Sold

WASHINGTON, June 17. (AP)—The War Food Administration said Wednesday prices and terms for the sale of an additional 50,000-000 bushels of wheat for feeding livestock will be the same as for the 100,000,000 bushels sold about three months ago. The prices range from 96 cents in North Minnesota to \$1.11 in New England, Florida and Southern California.

Other prices for the major areas from which the wheat will be drawn are \$1.06 in the Pacific Northwest, \$1.09 in the Carolinas, Georgia, Alabama and Tennessee, and \$1.05 in Texas and Oklahoma.

(*) Simmer in water 4 or 5 minutes. Cut from cob. Fill containers 2-3 full of corn and finish filling with water.
(**) Do not use quarts.

New Method Of Canning

In canning, remember always to start with a good quality of food and work as rapidly as possible.
Our food specialists have found that we are losing and destroying much of our food value in our home canning. They have experimented and found it safe to pack our fruits, vegetables and meats raw, and precook them in the can or jar, then seal them and process in the pressure cooker all non-acid vegetables and meats and process in the water bath all fruits, tomatoes, and ripe pimientos.

For example we will take green beans. Use only the young, tender beans. Wash them thoroughly and string and snap or cut them into one-eighth inch head space in tin cans. When glass jars are used for this method, they must be placed in a warm cooker instead of boiling hot, and by the time steam accumulates the jar will be heated enough to prevent breaking. Rubbers that fit on the jar instead of in the lid may be placed on the jar before steaming for ease in handling.

Have food hot when sealed. Heating shinks the food, drives out the air, prevents discoloration, and flat sour. Seal cans and jars air-tight.
Process at 12 lbs. pressure for 35 minutes for quart jars, 30 minutes for pint jars, 25 minutes for number 2 cans 30 minutes for no. 3 cans.

Ceiling Price On Cannery

Ceiling prices on three war models of pressure canners have been established by OPA. Materials have been allotted to manufacture 275,000 of these canners, and distribution is being made through USDA county war boards on the basis of securing maximum use of each canner. Top retail prices for the three models, in Louisiana, Oklahoma and most of Texas are: National, \$13.90; Wisconsin, \$14.90, and Burpee, \$15.90. For the far western zone, which includes El Paso, Hudspeth, Culberson, Jeff Davis, Presidio, Brewster, Terrell, Pecos and Reeves counties in Texas, ceilings are a little higher because of higher transportation costs from middle west factories. These ceilings are \$14.50, \$15.50 and \$16.50.

Before Pearl Harbor, less than 300 planes were operated by American airlines.

Border Health Assn. Formed At El Paso

EL PASO, June 17. (AP)—Dr. L. H. Howard, director of the city-county health unit in Tucson, was elected president of the newly-organized U. S.-Mexico border health association yesterday at the closing session of the two-day border pan-American conference.

Dr. F. Ortiz of Mexico was elected president-elect and will head the conference next year. Other officers chosen were: J. H. Tillman of El Paso, first vice president from the United States; Dr. James Velarde Thome of Juarez, first vice president from Mexico; Dr. Emilio Dorents, assistance secretary. The secretary will be appointed by the pan-American sanitary bureau.

Resolutions to suppress prostitution and venereal disease on both sides of the border were adopted. Border health officials will ask that laws be enacted and enforced by local and state authorities, including penalties for those who facilitate prostitution as well as for the prostitutes themselves. A program was drafted for the cooperation control of tuberculosis in border communities.

How to budget RED STAMPS for well-balanced meals!
The foods you buy with red stamps belong to two different basic nutritional groups — fats, (butter, margarine, cooking fats) and proteins, (meat, cheese, fish). You need food from each group every day. So, for well-rounded, nutritious meals, keep a proper balance between the number of points you spend for each type of food. Nutrition experts recommend that you use about three-fourths of your 16 weekly points for proteins and about one-fourth for fats.

12 POINTS A WEEK FOR PROTEINS
Three-fourths of your red stamps should go for protein foods — meat, cheese or rationed fish. Proteins supply basic nutrients that build and repair body tissues. They are essential to well-balanced, nutritious meals. So don't splurge on fats and skimp on proteins — budget your points to buy both. Of course you can budget on a monthly instead of a weekly basis. Just remember the correct proportion — about three times as many points for proteins as for fats.

4 POINTS A WEEK FOR FATS
The fats you buy with your red stamps — butter, margarine, lard, shortening, salad and cooking oils — are essential energy foods. Butter and fortified margarine are also important sources of Vitamin A. So be sure your family gets the fats they need. They will, if you allow about one-fourth of the weekly (or monthly) points.

Japs Building Air Strength At Rabaul
ALLIED HEADQUARTERS IN AUSTRALIA, June 17. (AP)—Despite the destruction caused by 200 tons of Allied bombs in eight recent raids, the Japanese persistently are building up their air might at Rabaul, New Britain, and Wewak, New Guinea, as well as in the northern Solomons.
This was disclosed today in a study of photographs taken of the airbases by Allied reconnaissance planes.
Rabaul's airbase, particularly the Lakunai Field, have been pounded with 135 tons of bombs in four raids, starting a week ago. In each case, the returning bomber crews reported large fires, some apparently burning planes.
At Wewak, on the north coast of New Guinea 450 miles northwest of the Allied base of Port Moresby, 74 tons of bombs have been dropped in four recent raids.
The photographs showed other concentrations of enemy planes on Bougainville island in the northern Solomons. In that general area yesterday, a Flying Fortress on a photographic mission was attacked by 15 Japanese Zeros, suffered five casualties among its crew, but got home safely.
Today's communique told of a raid Tuesday night on Kendari, Dutch Celebes, more than 1,000 miles from Australia, in which Allied planes dropped 16 tons of bombs among parked planes. Some fires started could be seen 50 miles away.
For the second straight day, Japanese planes struck yesterday at villages with emergency landing fields 90 miles northwest of Lav, New Guinea. Six bombers and six fighters made the raid. Three other enemy planes raided weakly the Buna sector on New Guinea's Papuan Peninsula.

Aiken Serving As Texas Governor
AUSTIN, June 17. (AP)—It's Gov. A. M. Aikin, Jr. today.
Aikin, senator from Paris and president pro tempore of the state senate, is serving as chief executive in the absence from the state of both Gov. Coke R. Stevenson and Lieut. Gov. John Lee Smith.
Stevenson is en route to Newport News, Va., and Washington, D. C.
The veteran Lamar county legislator and Mrs. Aikin arrived in Austin yesterday and will reside in the governor's mansion during their stay.

TO: The American People FROM: The Secretary of the Treasury

A report on the most tremendous financing task in history - - - the Second War Loan

DURING the three weeks between April 12 and May 1, the American people tackled the biggest job of financing in the history of the world.

In these three weeks it was proposed to raise the sum of 13 billion dollars, or more than half as much as was raised by five drives in the first world war.

It was obvious that the task was hopeless unless the people of the nation were desperately in earnest about the war. And it was equally obvious that here was, so to speak, a thermometer by which the fervor of the people could be measured with reasonable accuracy.

This is why we believe you, as an American citizen, can take pride in this report. For it was written solely by you, the people.

The result, in dollars

Our goal was 13 billion dollars. Actually, the American people subscribed 18 billion, 500 million dollars.

This was 90% as much as was raised in all five drives of the first world war combined.

It was, I think, as much a victory for America and the free American democracy as any military triumph.

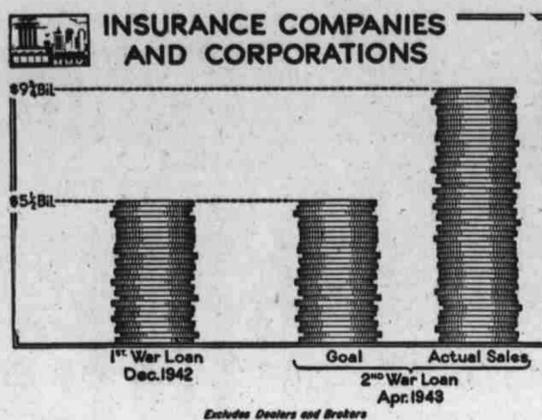

Where did the money come from?

You will be interested in where this 18½ billion dollars came from—for every dollar invested in War Bonds is more than a purchase; it is a demonstration of faith.

The chart below shows the portion of the 18½ billion that came from commercial banks. They were eager to buy more, but were limited to set amounts:

Insurance Companies and other Corporations know that there is no sounder investment than a U. S. Bond. The chart (top of the next column) shows their purchases:

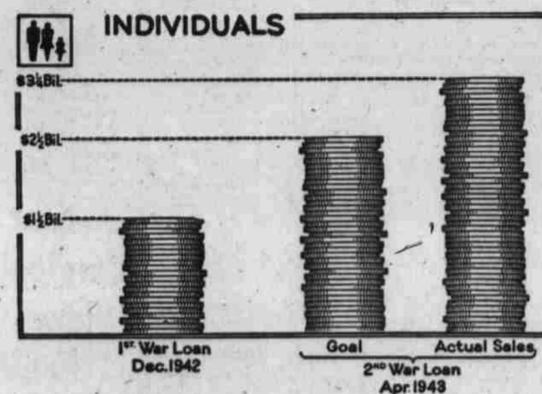

Naturally, it was your money that bought the bonds in the two groups above—for you are the people who put your money in banks and invest in insurance.

But how about what might be called your "personal" money?

That is a very important question, for it is vital that Americans, as individuals, buy War Bonds with all they can spare.

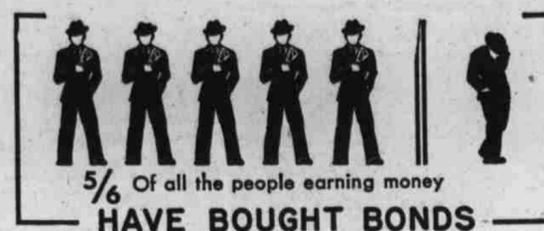

Our goal, here, was 2½ billion dollars. The chart below tells the story:

50 million bondholders

To review your record to date, almost half our entire population own at least one bond—including infants, children, the lame, the halt and the blind.

Or, to look at it in terms of those best able to buy bonds, see the chart at top of next column:

Who gets the credit?

The credit for the 2nd War Loan goes to the people.

It goes to the children who put dimes and quarters into war stamps. To everyone who bought a bond. To thousands of patriotic banking people. To advertising people who donated their creative talents. To patriotic merchants and companies who paid the bill for war bond messages. To radio stations, newspapers, movies, outdoor advertising companies, and publications.

But chiefly, perhaps, to those who turned voluntary bond salesmen—a loyal legion of patriots.

What lies ahead?

Yes, America's record is good. But we cannot become complacent—for our biggest financing job lies ahead.

In the first 4 months of this year, we raised 25 billion dollars. During the balance of this year we must raise 45 billion dollars more.

The war is costing us 100 billion dollars this year. Part of this will come from taxes, and the balance must come from War Loans.

You, as an American, can take pride in what you have done. You have shown the Axis that Americans on the home front, like Americans on the battle front, will do all that is required of them—and more.

But our need is great. Dig as deeply as you possibly can and invest it in War Bonds now—either through the Payroll Savings Plan or through special purchases. Don't wait for "drives."

We must win this war with bayonets—and with dollars. We who stay home in safety must provide the dollars—all that are needed. It is the very least we can do.

Henry Morgenthau Jr.

Castoffs And Rookies Are Stealing Show In Majors

Both Brooks And Cardinals Are Drubbed

By JUDSON BAILEY
Associated Press Sports Writer
Danny Littwiler ran right into a wall at Sportsman's Park in his debut with the world champion St. Louis Cardinals after being traded by the Philadelphia Phillies and other players have shown just as strong an urge to make an impressive beginning in a new uniform.

Connie Ryan, the day after he was traded to the Boston Braves by the New York Giants, hit the first home run of his major league career to beat his former teammate. Coaker Triplett bowed before his new followers at Philadelphia with a home run and a triple that beat the Braves.

Rube Fischer, the rugged right-handed pitcher whom the Giants had just brought up from their Jersey City farm in the International league was ordered out onto the mound at the Polo Grounds against the Giants' bitter rivals, the Brooklyn Dodgers, and proceeded to pitch a seven-hit victory, 5-3, with the help of a two-run homer by his manager, Mel Ott.

Babe Barna, a promising slugger whose batting average was insignificant with the Giants, donned a Boston Red Sox uniform and helped win a game from the Philadelphia Athletics for his new affiliates.

Barna hit a ninth-inning double and scored the deciding run to give Tank Terry a 3-2 decision over the A's.

The Dodgers' loss was their third in a row, but it did not cost them any additional ground in the National league pennant chase because the Cardinals also were beaten, 4-1 in 11 innings by the Cincinnati Reds.

Johnny Vander Meer and Howie Pollet hooked up in a left-handed hurling duel in which each allowed only four hits and one run for ten innings. Then the Reds made four hits in the top half of the 11th, including a two-run double by Eddie Miller, to sew up the victory.

The Phillies took their third straight from the Braves 2-0 with El Johnson pitching masterful three-hit ball.

The Pittsburgh Pirates opened with a three-run blast in the first inning and whipped the Chicago Cubs 5-2.

The Washington Senators turned back the New York Yankees, American league leaders under the flood-lights of Griffith Stadium, American league leaders.

The Senators were held to six hits, but Rookie Tommy Byrne had a spell of wildness in the eighth inning that helped them rally for five runs to win 8-5.

The St. Louis Browns and Chicago White Sox split doubleheader, the Sox dropping the first 5-3 and running their losing string to five games and then coming back to win the nightcap 9-0. Orval Grove was touched for ten hits in the afterpiece, but obtained the shutout with the help of five double plays by his teammates and now has won three games without a defeat.

Detroit and Cleveland were weathered out again.

C. L. West, who is stationed with the coast guard at Foley, Ala., has been visiting with his brother and wife, Mr. and Mrs. Leon West.

Slim Southpaw Likes To Worry

By HAROLD V. RATLIFF
DALLAS, June 17 (AP)—Quentin Altizer, slim left-hander of sandlot baseball is one fellow who likes to worry.

Altizer has just finished hurling naval air station of Grand Prairie to the first half championship of the Dallas Victory league, a loop in which about half the players are former professional performers.

Dist. Attorney At Colorado City Gets Commission

COLORADO CITY, June 17—The district attorney of the district composed of Mitchell, Nolan, Scurry and Borden counties, Truett Barber, has been commissioned a lieutenant (jg) in the United States naval reserve and now awaits his orders to report for active duty.

Barber entered the district attorney's office in January 1939 and has twice been reelected without opposition. Before assuming public office he was associated with his brother, Dell Barber, a former county attorney of Mitchell county, and Charles C. Thompson, former county judge, in the private practice of law.

He is the son of Mrs. Bertha Barber, now of Abilene, and the late Rev. Oscar Barber, Baptist minister, and is the grandson of the late C. P. Conway, pioneer Mitchell county rancher, and Mrs. Conway of Colorado City.

Chaplin At 54 Takes A Fourth Young Bride

SANTA BARBARA, Calif., June 17 (AP)—Charles Spencer Chaplin and his fourth youthful bride, Oona O'Neill, married yesterday in a perfunctory three-minute ceremony that was made noteworthy principally by their efforts to elude the public eye, had apparently achieved today the seclusion they desired.

THE WAR TODAY: Turkey Picks Allies As Victors

By MAX HILL
Turkey has picked her winner in the war. There no longer can be any doubt that she has climbed down off the diplomatic fence and decided the United Nations are the best bet.

Two years ago Turkey would not have dared treat the axis with such chilling scorn as Premier Sukru Saracoglu did yesterday. He expressed warm friendship for America, Britain and Russia, and their aims in the war. His remarks concerning Germany were tepid and restrained, to say the least.

Turkey hasn't even voiced a technical protest over the closing of the Syrian border, a move which was said by British embassy sources in Ankara to be necessary to shield troop movements.

It is known that both Britain and America have great quantities of war materials and large armies in India, not too far away.

This latest development is a definite threat to Hitler's vital oil supply in Rumania, and the uncertainty in Berlin should have

several of whom have been in the majors.

"I want the manager to tell me several days in advance when I'm going to pitch," he explained. "Then I can worry about it and when I get on the mound I'm on edge and ready to go. I guess in that way I just get all the worry out of my system beforehand."

Major league clubs have been making passes at Altizer for several years.

"I've always had a good job and didn't want to go into professional baseball where you don't make much money unless you're in the big show," he said. "I didn't want to sign with a major league club and be sent to a minor league farm."

Altizer, now a seaman first class who may enter combat duty at any time, says after the war, if everything is well, he may take that deferred filing. He's only 24.

The blond left-hander has a record of nine victories against one defeat this season. The loss was in a non-league game with Waco army flying school in which he opposed Sid Hudson, the ex-Washington hurler. He lost it because he probably was pressing too hard and because of his eyesight.

Altizer can see all right except for such things as the fingers of a catcher below his mitt. Thus he had to figure out some way of the receiver giving him signals other than the customary fingers.

He thinks too much night work weakened his eyes. One season he worked from 1 a. m. to 1 p. m., went home and slept a couple of hours, then got out to the ball park by 8 p. m. for a night game. "Why, I have gone for a week with no more than twelve hours sleep," he said.

Willie Pep Ready For His Greatest Fight—With Navy

HARTFORD, Conn., June 17 (AP)—Little Willie Pep, who has been defeated only once in nearly 70 professional fights, was in trim today for the biggest battle of his career—as a member of Uncle Sam's Navy.

Willie, who holds the New York boxing commission's version of the world featherweight championship, was sworn into the navy yesterday at the Hartford aviation center.

School Tax Rate Is Set At 80 Cts.

COLORADO CITY, June 17—The tax rate for the Colorado City Independent school district has been set at 80 cents on the \$100. Total valuation in the district is estimated this year at \$4,800,000 a figure approximately \$1,000,000 short of the property evaluation for 1942. Depleted stocks in warehouses here, particularly in the wholesale auto agencies account for the decrease.

On the 80 cents assessment, 80 cents will be used for maintenance costs, 30 cents for the retiring of bonds and interest.

So. Maintenance Team Shooting For The Title

Jim Franks sends a note to remind that the South Maintenance, although it got off to a shaky start Wednesday, is one of the teams to watch in the second half of the Big Spring Bombardier School softball league.

SPORTS ROUNDUP

By HUGH FULLERTON, JR.
NEW YORK, June 17 (AP)—Since that celebrated war bond auction of baseball players, the fans have acquired some new material to burn the umpires' ears... Mel Ott contributed a \$5,000 double and a \$10,000 homer against the Dodgers Tuesday before Larry Goetz chased him out of the game for a two-bit protest... And you can imagine some of the things the patriotic customers called Larry.

GLOBAL THINKING?
Question overheard in the Marine barracks at the naval operating base, Norfolk, Va., during the Beau Jack-Bob Montgomery fight broadcast: "How can the New York state commission rule who is world champion when their part of the world is limited by the boundaries of New York state?"... The answer, of course, is that officially the commission only rules whose title claim it will accept, but that carries a lot of weight with guys whose world is limited to West 49th street.

SCRAP COLLECTION
Tip: Lew Fonseca, former American league batting champion, says that one reason why the hitters improve after July 4 is that during the hot months the pitchers lose some of their stuff during the late innings while batters seldom tire.

TODAY'S GUEST STAR
Ben Epstein, Little Rock (Ark.) Gazette: "Gunder Haegg, the Swedish runner, said that after an athlete turned 24 it's time to quit and become a sports writer... When a sports writer turns 24, he ought to quit and run copy."

SERVICE DEPT.
Two members of the Fort Sheridan, Ill., WAAC contingent, Helen Barnwell and Lorraine Worth, are making a serious bid for jobs on the post softball team. They're said to be a nifty shortstop-second base fielding combination—but the question is: Can the WAACs whack?

Guard Squadron, 365th Win Free Scoring Contests

Runs were dime a dozen Wednesday as the 365th humped the Mess company, 13-7, and the 1047th Guard slashed the South Maintenance Group, 15-2, in the second round of the school half of the Big Spring Bombardier School enlisted men's softball league.

It was the first game for the 365th, first half winner, and the second defeat of the last half for the Mess company. Millard, Dunham, playing his first game with the 365th, and Elliott each had a pair of safe blows for the winners while their mate, Christiansen, smashed a homer, Sorino, McCormick and Kelley each had a pair of hits for the Mess company, which specialized in long blows.

Sorino connected for a homer with none on and McCormick got a four-ply knock with two aboard in the seventh.

The Guard jumped on the Maintenance men with best feet in the first and kept tramping the opposition throughout. For the first time twirled two hit ball and struck out seven Maintenance batters in five innings and Gill, his successor, finished without giving up a hit.

Johnson and McAnear collected two safeties for the Guard while Duval and Mesece did as well for the Maintenance, Duval homering with one aboard.

The 365th Aviation Squadron forfeited to the 202nd Ordnance.

Prison Escapees Get New Terms For Robbery

GROESBECK, June 17, (AP)—Two escapees from the Retrieve prison farm pleaded guilty to charges of robbing 13 Coolidge, Tex., business houses June 2 and were sentenced to 249 years each on 16 indictments in 7th district court yesterday.

The two men, C. M. Merhson and Walter Lamey, are still wanted in several East Texas counties on similar charges.

Bet It's A Hit—Yes sir, lay it on the line that when Cpl. John Millard, Dayton, Tenn. star for the 365th squadron, cocks his shoulder for a pitch that it's going to be a hit—and you'll win a lot more than you'll lose. Millard, who plays first base for the 365th base headquarters, led the first half hitting chase in the Big Spring Bombardier School enlisted men's softball league with an average of .652, and had a record of having hit consecutively in 27 games until recently when he slumped.

Baseball Career Shifted From Pro Diamond to AAFBS Field

But for such a thing as war, Cpl. John Millard, rangy Dayton, Tenn. product, might be hitting his way up the ladder of professional baseball fame today.

He was all set for his second season in pro ball when Uncle Sam snatched his finger. So Millard put aside his baseball bats but not his athletic ways.

Cpl. Millard, who was tagged Miraculous Millard after his uncanny showing in basketball play during the winter, has just finished leading the Big Spring Bombardier School enlisted men's softball league hitting parade in the first half. Wednesday, returning to the war, he slumped out two hits to get a good start in the race for second half honors.

Until he slumped toward the last of the season and failed to connect, he had hit consecutively in every game. Moreover, this was a habit for the young man with the easy manner and Big Smokies accent, for in softball play with the old 97th and the 484th squadrons at the Midland Army Flying School, he had hit safely for 30 straight games in addition to the consecutive string of seven others here.

His average stood at .652 for the initial half—15 hits out of 23 times up. While his connects for circuits now and then, Millard is not a notorious long-range hitter. Most of his hits are singles with a liberal sprinkling of doubles.

Cpl. Millard first won attention of soldier fans in the baseball league in January when, as a comparative unknown, he suddenly

turned on the steam to win the first half scoring title with 99 points in seven games, an average of better than 14 points per tilt. He was just getting his sights, for he stormed back in the second leg to get 178 points in eight games—an average of better than 22 per game. His full season total stood at 277 points—including 129 field goals—or an average of better than 15 points a game. His biggest feat came in the last half when he collected 87 points in two consecutive games.

Rearred at Dayton, Cpl. Millard was graduated from that high school in 1936. Apparently, the college scouts overlooked him for John didn't get to go to school. Instead, he went to work in Chattanooga and broke into the industrial baseball leagues.

John was playing all over the infield—it didn't make much difference where—but his easy motion and good eye for the ball caught the eye of a scout. Next thing he knew he had been signed with Ashland in the Mountain States league (then class "D") and put in a season at third base. He was all set for another season when he joined the army on Feb. 7, 1942 at Fort Oglethorpe, Ga., just across from Chattanooga.

Soon he was shipped to Midland and when the Big Spring school was activated, was transferred here. Currently, he is assigned to the technical inspector's office and in his off hours plays ball for the 365th—and does it very well.

Favorites Hang On In Tennis Tourney

DETROIT, June 17 (AP)—Favorites are hanging around in the national clay courts tennis championships like Stage-door Johnnie at a Broadway show, but defending champion Seymour Greenberg of Chicago may encounter some real difficulty today in the men's singles.

Greenberg, who advanced yesterday along with top-seeded Pauline Betz of Los Angeles and Billy Talbert of Cincinnati, encountered lanky Robert Odman, University of Washington's ace, who is the most impressive of the meet's unseeded players.

Sports Committee May Be Selected

WASHINGTON, June 17 (AP)—President Roosevelt was reported by a prominent sports figure today to have decided on appointing a committee of one civilian and one representative each from the Army and Navy to attempt a solution of the war-borne problems confronting organized sports.

This source, who asked to remain anonymous, said he had been told that the civilian under consideration was a man more closely identified in the past with political than sports circles.

Semi-Pro Meet Set For July

WACO, June 17 (AP)—The eighth annual Texas Semi-Pro baseball tournament will open here July 22.

Army and navy outfits are eligible to compete without winning district meets and among the teams already entered is Waco Army Flying School, boasting four major leaguers in the lineup and managed by Birdie Tebbetts, the former Detroit star catcher.

This may be the year when Texas can cash in at the national tournament in Wichita, Kansas, where this state has had six finalists but never a champion. The Waco Army Flying School team is one of the best ever to play in Texas.

The most noted player produced by the semi-pro tournament was Tex Hughson, who pitched for Edgy in 1936. He now is one of the top hurriers of the major leagues. District tournaments are scheduled at Dallas, Fort Worth, Houston and San Antonio. One already has been held at Abilene.

Mr. and Mrs. J. C. Pierce and D. C. Pierce are leaving for Baird where they will visit with Granville Pierce who is home on a furlough from the air corps visiting with his parents.

Investment In Good Will

An advertising authority speaking before the Texas Press Association convention in Galveston last week sounded a warning to mer-

chants who drop their newspaper advertising, or reduce it, on the grounds that they have more business than they can take care of anyhow, so why spend money on advertising.

He said that due to wartime conditions, especially the shortage of experienced clerks, and the impossibility of maintaining full stocks, stores are suffering an attrition in good will among their customers. These factors are beyond the control of the operators, to be sure; but doing something about it is not beyond their control.

The answer is advertising—institutional or good-will advertising, to be specific. Pretty soon the war will be over and with the return of peace most of the factors which harass merchants today will be eliminated quickly; but if in the meantime a store has dropped out of the public ken because it ceased to advertise and has accumulated a large

Hollywood— Birthday Parties For Children Mean Work

By BOBBIN COONS HOLLYWOOD—Sign of the domestic times: Kent Taylor went to his strenuous "role in "Roger Touhy" as a rest cure. Reason is that he's operating a house designed for three non-existent servants. He has learned to wash dishes, scrub floors, make beds—and survive his children's birthday parties.

His daughter Judy was six years old on April 25, his daughter Kay was eight on May 1. Quotas: "Each time, we had 14 guests. For the first party I was the pony. For the second I hired a pony. It's not that I wasn't a good pony. My knees gave out. Do you know how many dishes it takes to feed ten cream to 14 kids? It takes 14,000. I washed them, so I know. The six-year-old contingent wasn't so bad. But those eight-year-olds. . . They went through the house like 100,000 termites. Big termites. It took two days to straighten things up again."

After which, climbing around fire escapes looking for an escaped gangster was a cinch. Kent has thought up a real punishment for the real Touhy: "They ought to make him be the pony at the party for my boy Bill who will be three on July 12."

Dane Clark (the new actor in "Action in the North Atlantic") has an odd job. "It's so odd," he says, "the hitch-hikers look straight through it as I pass. You've no idea how snobbish hitch-hikers can be."

The two Jennifers—Jones and Holt—continue to get each other's mail, amid confusion as to which is which. Jones is the "Song of Bernadette" girl. Holt is the daughter of Jack and sister of Tom.

Shirley Temple, who has given thousands of autographs, collects quite a few herself—involuntarily. Tourists passing her Brentwood home frequently leave pencilled messages on the gate posts. . .

Reginald Gardiner, who can grow eloquent over his longing for turkey-and-spaghetti buffet suppers, comes up with his own idea of party food under rationing: "I'd have an old-fashioned box social. Everyone brings his own lunch-box, labeling it with his name. Then I'd serve enough drinks—if rationing still permits—to make them all feel good enough to eat anything. Come supper time, each guest would grab for a box—nice, confounding fun, and no hardship on the host. It would promote sociability while preserving the integrity of the host's ration card. Or we might skip the individual exchange, and spread the contents of all the boxes in glorious, glittering spray upon a central table. And—of course—paper plates."

Washington Daybook— Our War Problems Are Going To Get Worse

By JACK STINNETT WASHINGTON—The Shadow of Things to Come:

Mr. and Mrs. America on the home front are headed for trouble that will make their present difficulties seem like kindergarten stuff. The trouble is partially of their own making, but we won't go into that.

(1). Food. If you think this a problem now, wait until this year's crops are in. Bad weather—including late spring freezes, floods (and maybe droughts to come)—have done much to wreck the increased production program. Military and lend-lease demands have been greater than anticipated. Prospects for a corn crop don't look good and that will affect pork, poultry, and dairy products.

Conscientious grocers, who refuse to deal with the food bootleggers are going to have less and less to sell. Dishonest grocers, who deal with the black market, are going to be so high that their prices will be so high that they will be tarred with their own brushes before they garner much profit.

(2). The gasoline shortage in the east (and perhaps in the middle-west, too) is growing by such leaps and bounds that there is only the slightest possibility that it won't disrupt the whole transportation system to such extent that drastic measures will have to be taken—perhaps that long threatened even-home-to-work trolley and bus services—as well as vacation train and bus travel.

(3). Any day now, Selective Service, under demands from the military services, may launch on a drafting of fathers that will result in the greatest disruption of home life this country has known since Civil War days in the South.

On the war fronts, this global struggle is approaching a phase of such vital importance that there can be nothing but big news in the offing. (1). Invasion. It's bound to come and soon, but the chances are that the proper word is "invasions." The European continent is in a dither of anticipation—the Italians, the Nazis, the anti-Axis fifth columnists and guerrillas, and even the still neutral nations. Both Roosevelt and Churchill have promised the second front or fronts and there hasn't been a word of complaint from Russia against British-American strategy for several

Capital Comment -- Congress Might Need Cooling-Off Period

By GEORGE STIMPSON Herald Washington Correspondent

Mrs. Franklin D. Roosevelt, wife of the president, spent a day in Washington this week. The heated debate in congress on the anti-trick bill frayed the nerves of a lot of members, sort of set tempers on edge. Hatton Sumners, of Dallas, thought Congressmen as well as strikers needed a cooling-off period; suggested that Chairman Andy May of the House military committee in charge of the bill ask unanimous consent to adjourn over the week-end. "Insofar as I can judge the temper of the House and the business before the House, if there ever was a time when this House ought to adjourn over the week end it is now," he observed. "I know gentlemen say no, but I have been here a good while. If this House is in shape to legislate, I can't figure it out."

In Washington the Y.W.C.A. and a fire-station are situated cheek by jowl; firemen, sitting on their door-steps waiting for alarms, pick up quite a bit of information about the latest fashions. Sam Rayburn, who has a little red in the space between his collar and the hair-line the other day, handed the gavel to a new member, and jumped down from the speaker's rostrum into the well and gave the House a piece of his mind. Some back the House authorized the agriculture committee to investigate all aspects of food from the farm and ranch to the dining room in the Statler hotel. It seems that Sam and the chairman of the committee had talked matters over and agreed \$25,000 would be enough to start the investigation off. But when Nat Patton, acting chairman of the accounts committee, brought up the privileged resolution it asked for \$100,000.

Jesse Jones deals in figures that make one's head swim. "From organization to March 31, 1943," he tells Byrd committee, "the RFC and its subsidiaries have made commitments totaling over \$34,000,000,000, of which \$6,000,000,000 has been disbursed, and of this sum \$9,800,000 has been repaid, leaving \$24,200,000,000 outstanding; undischarged commitments total \$11,600,000,000." And Jesse adds: "It is with considerable satisfaction to those of us who have had the responsibility for the operations of the RFC since the beginning, more than eleven years ago, that we have been able to do so much and, with the exception of our war activities at no loss to the taxpayer— to the contrary, with a definite net profit in excess of \$500,000,000."

Progress is wiping out distances. "The other day," says Congressman Lyndon Johnson, "a pilot of the bomber ferry was heard complaining at the National airport in Washington. He had no clean shirt, he said, and he could not pick up his laundry until early next week. He had left that laundry in India."

Confiscated Liquor To Be Sold By State

Bids are being accepted in Austin on 89 cases and 12 bottles of liquor confiscated by agents of the liquor control board in this and other districts of the state. The district office here has been called upon by several dealers for lists so that they could submit bids for the seized whiskey. Included in the lot are 79 cases of pints, 12 cases of half pints, six cases and five bottles of quarts and two cases and seven bottles of one-fifths. The material will be sold in Austin Friday.

The raccoon is one of the few American animals without a European counterpart. Cities and towns in the United States occupy about 20,000,000 acres.

They Call It Pacific

by CLARK LEE

Chapter 16 The morning papers of December 26 announced that General MacArthur had proclaimed Manila an open city and by that time I had begun to realize that he did not have the forces to defend Manila and to suspect that the path to the capital was being thrown open to the Japanese in the hope that when they arrived in the city without having to fight, they would be well under control of their officers and would observe discipline; whereas if they came in fighting and overwhelmed our forces they would be more likely to rape and kill and loot.

Meanwhile, the communiques said "Lines holding firm on all fronts." I said to Jacoby, "Somehow these communiques don't sound right to me. Let's go see for ourselves." On the morning of December 28, Jacoby and I stopped at No. 1 Calle Victoria to see Colonel Harries and try to find out what was going on. "Where are General MacArthur's field headquarters?" I asked. "We want to go up and have a look." The colonel wanted to help us, but he was in possession of secrets which meant success or failure to our forces and he couldn't tell us too much. While we were talking Major Diller came in. We were surprised to see him, as he had left town with MacArthur and the rest of the staff.

"Look," he said, "all I can say is this. If I were in your position I would try to locate headquarters on Bataan. I am leaving Manila myself in a few minutes." "Bataan?" we said. "We thought headquarters were at the Lingayen front. And where the hell is Bataan?" "Look at Mariveles on your maps and you'll find Bataan," the major said.

We found Bataan was a peninsula, shaped like a miniature Florida, whose southern end pointed at Corregidor. On the eastern and southern shores it was bounded by Manila Bay and on the west by the China Sea. We had heard that Mariveles was a naval base. We figured that possibly General Wainwright, as field commander, was going to set up his headquarters there to direct the battle on the Pampanga plains, which by that time we felt sure would be the scene of the big United States versus Jap showdown.

Manila looked empty as we drove out to the north. There was less traffic and more stores were closed. Smoke was still surging up from Cavite and from the fires that our demolition squads had set at Nichols Field, Zablan Field, and Fort McKinley.

A few miles out of the city we started to run into traffic, all going north. It was mostly convoys of buses, with Philippine Army troops in their blue denim uniforms with a sprinkling of Khaki. Jap planes were patrolling over the road and we wondered why they didn't dive down and strafe the convoys.

Four or five times the air raid warden in small towns along the road signaled us to stop, and we dived into ditches. The towns con-

stated of only a few huts on stilts lining the road and possibly a wooden general store and a few streets extending away from the main highway. Most of the buildings were closed.

We pulled into San Fernando and parked just south of the old archway bridge and the cathedral. Where we stopped there was suddenly no more traffic, and we saw that all the trucks were turning into the left-hand road a few hundred yards behind us, the road that our maps showed led to Bataan. We went back and stood there and watched the buses and trucks go past.

We studied our map. Most of the Bataan area seemed to be mountainous and there were only a few towns, most of them on the Manila Bay shore. We debated going there and decided against it. Some American officers came up.

"If you fellows are looking for news we suggest that you drive about five miles east along the dirt road to the town of Mexico. The Twenty-sixth Cavalry is bivouacked there, and they have been fighting the Japs since they landed at Lingayen."

Mexico was another typical lowlands town, with a few dirt streets laid out in squares, nipa houses on stilts, and trees everywhere. In none of these towns were there any sidewalks.

We found headquarters. The officers were just sitting down to mess and they asked us to join them. They introduced us to their commander, Colonel Clinton Pierce. Pierce was stocky, with black hair parted in the middle and a strong, leathery face. He hadn't spoken two sentences before we guessed his home town. "Are you a Dodger rooster, Colonel?"

"Have been all my life," he said.

"We hear you fought the Japs for four days at Lingayen, Colonel. What do you think of them as scrappers?"

"My professional estimate is that they are so damn good on the ground. These fellows they sent against us were nothing but untrained kids. They are shooting popguns and they are dressed like a ragged mob. To call their doughboys fourth-rate is being charitable. They can't shoot a rifle, and my Scouts were picking them off right and left. They get confused easily and if you shoot at them they stop coming. On

Story

(Continued from Page 6)

the other hand, their tanks and planes were too much for us. "I don't know where the bloody blue hell our own tanks and planes were, but as soon as they got up here we'll chase those Japs back into the sea."

"We spent an hour or so at headquarters and as we drove back into Manila we stopped along the roadside for a conference. Comparing notes, we decided that part of the army was moving into Bataan—though we didn't know why.

"Looks like MacArthur is pulling everything out of the south and will let them take Manila," I said. "We've got to get out in the field with the Army, or we'll be captured in Manila."

Back in town, I told Carlos that the Japs were closing in from the south and that we were looking for a way out. The Army had made no provision for us to go with them and we were considering taking a boat. I asked him to go with us. "You are brave and resourceful and you know the language. We want you along. You have no one dependent on you. We will, of course, pay your expenses and pay you for your services."

Carlos' answer surprised me. "Algo," he said, "it is perfectly all right for you to go if you can no longer do your job and the end is near. I despise the thought of captivity as much as you do. But I am a Filipino and this is my country. If my country's fate is to go through hell I

"I don't like to hear you talking like an underdog," I said. He was firm. "That's the way it is," he said. "And if you still don't understand me, keep an eye on Malaya and Burma and on what happens in India if the Japs go into those places." (Copyright 1943 by Clark Lee; The Viking Press)

Get the Good... FROM EGGS

"Coddle" your eggs in simmering water. DON'T boil... it makes the protein tough.

Bake fluffy egg dishes slowly. Low heat lets air cells expand and set, so they won't collapse.

When you scramble eggs, go easy with the heat. Stop cooking as soon as thickened.

By MRS. ALEXANDER GEORGE, AF Food Editor

Eggs can do wonders on the Victory food front by keeping family health above par, so let's make the most of these nuggets of nutrition. Egg yolks particularly are rich in vitamins, calcium, iron and protein.

Eggs are a valuable food not only as a main dish substitute for meat but also in combination with bacon, ham, sausages, spinach, tomatoes or mushrooms.

Store eggs in a cold place and bring out just enough at a time for cooking. Eggs are a very convenient food as a number of them can be kept on hand for emergency preparation.

Some of the most palate-pleasing salads and desserts are made with eggs. But remember, no matter how eggs are cooked, take care not to cook them too long or at too high a temperature. This makes them tough and hard to digest. When cooking eggs in a small amount of fat in a frying pan, have the fat hot but never smoking when adding the eggs and then lower the heat when the eggs are cooking.

What a relief when ration points are low, to turn to CHANTILLY EGGS as the main dish for dinner or supper. To serve 4 or 5 beat 5 eggs for a minute, add 1-3 cup cream (or milk and part cream), 1-2 teaspoon salt, 1-4 teaspoon each of paprika, celery salt and chopped parsley and 2-3 cup cooked vegetable (fresh peas, asparagus, green beans or spinach). Pour into 2 tablespoons bacon fat heated in a frying pan. Cook slowly and stir constantly with a fork or slotted spoon until the mixture thickens. Toss at once onto a heated platter and surround with hot buttered toast, or rusks or split biscuits.

CRISPY TOPPED EGGS call for 4 hard-cooked eggs. Make up 2 cups of regular vegetable white sauce, add the eggs, sliced, and stir in 1-2 cup grated yellow cheese, 1-2 cup diced cooked celery, 2 tablespoons each of chopped green peppers, parsley and onions and 1-3 teaspoon salt. Pour into buttered, shallow baking dish and cover with 2-3 cup ready-to-serve breakfast cereal mixed with 3 tablespoons melted butter on margarine. Bake 20 minutes in moderate oven. Accompany by a vegetable salad, some hot biscuits or muffins and a baked rhubarb or cherry dessert.

ABOUT THE NEW TAX PLAN

WASHINGTON, June 17 (AP) — Here are some questions and answers on the new pay-as-you-go tax law:

Q. When may I expect the first withholding deduction from my weekly pay check?

A. If you are paid at the end of the week, probably not until July 10. Although pay-as-you-go becomes effective July 1, it provides that withholdings apply only to pay periods beginning on or after July 1. Thus, if you are paid on Saturdays, your first pay day in July would be July 3, and since that was the end of a pay period which began before July 1 (June 28) there would be no withholdings.

Q. Since withholdings become effective July 1, do I still have to pay my quarterly instalment due next Tuesday on last year's tax?

A. Yes, but the payments you made on March 15 and will make on June 15 will be credited as payments on your current 1943 tax bill.

Q. Does the so-called "forgiveness" or abatement mean that I will pay less taxes in 1943?

A. No. It means that instead of paying in 1943 the tax liabilities on 1942 income, as heretofore, you will instead pay on the income of the year, 1942 or 1943, in which you had the largest income and thereafter on the current year.

Q. How does the abatement feature of the bill work?

A. 75 per cent of your tax bill for 1942 or 1943 (whichever is smaller) is abated. If the bill for the abatement year is \$50 or less the forgiveness is 100 per cent.

Q. How do I pay the 25 per cent that is not abated?

A. You pay this half in 1944 and half in 1945. This of course is in addition to your current taxes.

Q. Will this bill put everyone on a current basis?

A. No. The treasury estimates that only 17,000,000 of the 44,000,000 taxpayers affected will become fully current this year. The other 27,000,000 will not become fully current until 1945 when they have paid off the 25 per cent portion of their abatement year tax liability that was not "forgiven."

Q. Is the 20 per cent withholding plan a new tax?

A. This levy is not an additional tax but a means of weekly, bi-weekly, semi-monthly or monthly deductions from pay envelopes and salary checks against actual taxes as now levied.

Q. Do I still have to make out returns?

A. The taxpayer will make his regular annual return next March 15, figuring out his income and Victory tax liabilities. Then he remits to the treasury the difference between what he owes, if anything, and what has already been collected from him. If he has paid in more than he owes for the year, he will be eligible for a refund.

Q. I understand I must also make out a return Sept. 15.

A. Married persons making more than \$3,800 annually and single persons making over \$2,700, must file a return by Sept. 15 estimating their total tax bill for the year.

Q. I am a professional man. Does the withholding apply to me?

A. The withholding levy applies only to wages and salaries and not to persons who derive their income otherwise. These must estimate their tax for the year and then pay it currently each quarter.

Q. Is anyone else exempt from withholding?

A. Members of the armed forces, ministers of the gospel, farm workers, domestic servants, casual workers and non-resident aliens.

Q. Do soldiers or sailors get any other benefits?

A. Members of the armed services receive a special exclusion of \$1,500 on base pay, in addition to regular exemptions allowed for civilians.

Q. Say my salary is \$1,000 a year. Am I automatically subject to withholding of \$300 a year by my employer, under the 30 per cent withholding machinery?

A. The withholding is affected by dependency deductions. Thus, if you are married and have three children, less will be deducted from your salary than from the pay of a worker who has only one child. The idea is to make the withholdings approximately equal the income tax levied at prevailing rates, plus a 3 per cent Victory tax.

Q. Does my employer have to take my family status into consideration in withholding money from my pay, for transmittal to my credit at the treasury?

A. Yes. He will determine the number of your dependents, if he has not already done so, and make the withholding deductions accordingly.

Q. Will the Victory tax continue to be deducted from my pay envelope, in addition to the withholding levy?

A. No. The 20 per cent withholding includes 17 per cent earmarked for income taxes and 3 per cent for the Victory tax. The Victory tax will be collected after July 1 only from the relatively few persons subject solely to this tax.

Q. My "abatement year" tax bill is just over \$50. Does that mean I don't get the \$50 abatement?

A. If your bill is between \$50 and \$66.67 you get a \$50 abatement and will owe your remaining obligation of \$16.67 or less in two instalments, due in 1944 and 1945.

Q. It looks as if I actually pay more taxes, instead of getting some "forgiveness."

A. The average taxpayer will not benefit from the abatement unless his income falls off, he retires or loses his job; in any of these contingencies his current tax payments naturally will fall off. And at death he will owe no income tax.

Burma Points Hit By RAF Bombers

NEW DELHI, India, June 17 (AP) — Wellington bombers of the RAF lashed back last night with another attack on Buthadaung in western Burma, the British announced today.

Coupled with that raid was the night bombing of the railway station at Myanaung, south of Proma, in central Burma.

Earlier in the day, Mohawk fighter-bombers attacked Indaung in the Myittha valley, and bombers and fighters joined to pound at Atat Manza and Binch, son of the Mayu peninsula, completing their raid with low-level machine-gunning of the target area.

Gen. Tindall Gets Ankara Assignment

ANKARA, June 16 (Delayed)—(AP) — Brigadier General Richard G. Tindall, 51, has been appointed American military attaché in Ankara, it was announced today.

Tindall, a Missourian, replaces Col. Cornelius Jadwin, of Washington, D. C., who was assigned to other duties after three years overseas as military observer in Rome, Sofia, and Ankara.

tax will be collected after July 1 only from the relatively few persons subject solely to this tax.

Q. My "abatement year" tax bill is just over \$50. Does that mean I don't get the \$50 abatement?

A. If your bill is between \$50 and \$66.67 you get a \$50 abatement and will owe your remaining obligation of \$16.67 or less in two instalments, due in 1944 and 1945.

Q. It looks as if I actually pay more taxes, instead of getting some "forgiveness."

A. The average taxpayer will not benefit from the abatement unless his income falls off, he retires or loses his job; in any of these contingencies his current tax payments naturally will fall off. And at death he will owe no income tax.

HATCHERY DAMAGED

ATLANTA, June 17 (AP) — Fifty thousand newly hatched chicks and 350,000 eggs were destroyed in a three-alarm fire early today which heavily damaged the Blue Ribbon Hatchery, one of the largest hatcheries in the southwest.

Every day a mote eats its own weight in insects.

Cotton Measuring Work Is Lagging

Measuring of cotton acreage by Howard county producers is lagging after a good start, M. Weaver, administrative assistant for AAA, said Wednesday.

To date only about 100 farmers have reported measurements to the AAA office. This is possibly 10 to 15 per cent of the total expected by July 1.

Hart Of Harvard Faculty Expires

CAMBRIDGE, Mass., June 17 (AP)—Harvard university today mourned the death of one of its foremost educators — Dr. Albert Bushnell Hart, historian, forecaster of world events and authority on George Washington.

Professor emeritus in the science of government, he died yesterday at the age of 88. He had written approximately 250 books, alone and with collaborators.

Funeral services will be held Saturday in the Harvard Memorial chapel.

Laval To Command His Own Regiment

MADRID, June 17 (AP)—The new 3,000-man "first regiment" which the Germans have authorized Pierre Laval to organize as the only legal armed force of the Vichy government will be under personal orders of Laval himself, dispatches to Spain said today.

Informed sources who cannot be identified by name said the vest pocket army's real duties would be to form a special emergency guard for Laval.

The red fox is also colored all-ver, black and yellow.
