SIGHTS, FACES SEEN

The Brand is conducting an experiment in this issue. Readers will notice selected world news stories in addition to complete local coverage in this issue...

Coletta Diller, daughter of Mr. and Mrs. Marvin Diller of Hereford, will play the part of a peasant in the "Eternal Ballad"...

Cecil Wilkins, American Legion commander, says very little money is coming into the heart drive which closes March 10...

The regular meeting of the America Legion Tuesday evening at the Legion club house at 7 o'clock will be followed by a joint meeting of the American Legion and VFW at 8 o'clock.

Logan Coy says Berl Elliston may know his real estate but he needs to take another look at his blue jays. Coy says the numerous birds, now making their home in Hereford are not blue jays. The blue jay has a top knot and is a different shade of blue with a lighter blue breast, Coy said.

Signs of the times—"Drop Dead" and "A Fat Chance to Get Thin" are the catching titles of plays with all-boy casts to be presented Monday night at 8 o'clock at the Dimmitt high school auditorium.

The Brand mistakenly misquoted the schedule of rates for the Hereford Cemetery Association in the Thursday Brand. The following schedule represents the price of GRAVE SPACES: where the gravespace is already owned, the owner must pay a conversion fee of \$50 when converting to the perpetual-care plan...

Roberta Campbell and Buddy Bob were in Amarillo Wednesday night to attend the Amarillo college's current opera production, "Trial By Jury" and "Down The Valley". Joardis Burnett, daughter of Mr. and Mrs. Glenn Burnett of Amarillo, a niece of Miss Campbell's, sang the lead in the first-named of the two operas.

School Bonds Fail By 162

Voters turned down Hereford's proposed million dollar high school bond issue by a margin of 162 votes Saturday. A total of 1,060 ballots were cast in the election; 611 voted against the measure, while 449 voted for it. Voters were fairly well represented over the district, according to observers. The total vote was considered heavy in view of the fact that only 1,894 poll taxes were paid in the entire county...

Issue 45.75c Ceiling on Cotton Leaving Mill

WASHINGTON—The government fixed ceiling prices for raw cotton Saturday night with the lids based on 45.75c per pound in an effort to get a resumption of trade in the commodity without fresh rises in the costs of cotton goods. It is one of the highest levels for cotton in history and Price Controller Michael DiSalle says he believes the price is high enough to encourage extra production to make up for this year's short crop.

No Promises on REA Line Expansion Work After March

Rural power extension now being made by the Deaf Smith County Electric Cooperative will be the last connections that can be promised "unless the material for the work is on hand," Manager Leo Forrest said this week. Forrest said that present expansion work is expected to be completed this month and, due to the uncertainty of the supply situation in the future, no definite commitments to supply service can be made after this present phase of expansion.

Mollet Will Attempt New French Cabinet

PARIS, March 3—A third try will be made to form a new French government. Socialist Guy Mollet will attempt a task which proved to much for former Premiers Henri Queuille and Georges Bidault.

FARM ROAD SUBSTITUTE

AUSTIN, March 3—Rep. Callan Graham of Junction has announced that he will offer a substitute for his far road construction program. The Graham plan, he says, might save the state 15 million dollars a year.

Red Cross Raises \$5,000 in Five Days -- Need \$513.69

During the first five days of the annual Red Cross drive, more than \$5000 of the \$6273 quota was raised, Mrs. Dyalitha Bradley, executive secretary, said yesterday. Mrs. Bradley expressed the belief that the remaining \$513.69 can be raised in the next two or three days if each worker will complete his schedule and bring his record to the Red Cross office, the hotel headquarters having been closed last night.

U.S. Marines Pound Way Toward Red Supply Base

Walkout Caused By Indifference To Labor: CIO

Labor's withdrawal from mobilization agencies is not a "strike against the government" but rather a move ordered to "impress upon the American people that great wrongs were being perpetrated against them", an editorial in the CIO News pointed out this week. Rising prices, indifference to labor in government circles, and the tax program are some of the reasons behind the walkout, according to the editorial.

—mostly auto workers—won pay raises tied to the cost of living. The raises go as high as five cents an hour.

HILLSBORO — March 3—Defending Champion Dimmitt has drawn Aledo for Parker county as its first-round opponent in the Texas High School Girls Basketball association tournament. Play begins Wednesday in Baylor gymnasium at Waco.

Big 4 Meeting Nears; U.S. Asks World Army Census

PARIS, March 3—The stage is set for the Big 4 Conference which begins here Monday. Soviet Deputy Andrei Gromyko and his staff arrived in Paris Saturday by plane to attend the meetings. American Ambassador Phillip Jessup and his staff left the United States Friday and they will be on hand—along with their British and French counterparts—for the meeting with Gromyko.

WITH UN FORCES IN KOREA, March 3—American Marines are pounding their way northward down the middle of the 60-mile line in Central Korea on the road to Hongchow, number one supply base for the Communists in South Korea, which funnels supplies and equipment to 90,000 enemy troops fighting United Nations forces.

Furious counter-attacks by desperate Chinese and Korean communist forces have been thrown against American forces in their bid for the important base.

Border Guards Kill Two East German Police

FRANKFURT, March 3—The American Army confirmed reports that its border guards killed two East German communist police last night on the East-West frontier. The incident, which occurred near Oberauhi, was revealed first by West German customs police.

SEEK "HOLY WAR"

CARIO, March 3—Some 10,000 students and professors rallied to demand the liberation of French Morocco. Hordes of students swarmed through the streets calling for a "Holy War" to free the north African Protectorate.

COMPLETION OF the new \$40,000 addition to the Southwestern Bell Telephone company building is seen by July 1, officials here estimate. The view above gives a picture of the overall addition while the bottom view shows the shell of the new building when workmen were placing the structural steel Friday afternoon. Approximately \$30,000 worth of new equipment (switchboard) will be installed in the building when it is completed, allowing the local exchange to service about 750 more patrons from 500 new numbers. The 45'8" x 32'8" extension will add 17 more feet to the traffic room and increase the size of the plant (power board) by 15 x 12 feet. New locker rooms for operators and a new boiler room will also be a part of the new building project. The work is being done by C. S. Lambie of Amarillo.

Youths, 18, Voice Opinion of Draft

Newspapers and radio have plenty of time and space the last few weeks to the ability of drafting 18-year-olds, but The Brand decided to ask the 18-year-olds what they think about it. After careful consideration, boys gave a variety of opinions, as follows:

DALE HOULETTE OF FRIONA: I don't guess it's too young, but it might be a little young on account of school. Usually 18-year-olds are in their last year of high school or going to college.

GENE EASLEY OF DIMMITT: I don't think it's too young. I've thought about it a lot. I've told a lot of people that, if they could let me get my college education first, I'd give them two or three years. I am a senior and have an athletic scholarship.

BILL AMREY OF HEREFORD: I think eighteen and a half would be a lot better than 18. I don't think guys just 18 would have enough experience.

JIM JOWELL OF DIMMITT: I think if I have to be drafted, power to them! But I surely would like to get a college education before I go.

ELMER JACK REYNOLDS OF HEREFORD: In a way it's hard on an 18-year-old because they don't know what to do, and if they want to make any plans, they don't know how. I guess it's better for young guys than veterans, but I wish they would make up their mind, so we would know.

RALPH RAYMOND REED OF FRIONA: I guess it's all right if they need us. I guess if their physical condition is good, it's all right. If they take them out of school, I think they should give them their diplomas.

Preparations Being Made For Cap Rock Easter Pageant

The cast, choir and all the committees for the Caprock Easter pageant met at San Jon last Sunday afternoon in the school auditorium. In addition to the regular rehearsal and business session, the group viewed a movie showing the history and development of the Oberammergau, German Passion Play. It was interesting to note the similarity of the characters chosen to play the parts in this world famous Passion Play to those of the Caprock Easter pageant.

The grounds committee, headed by James Fitzner, reports that the grounds will be in good shape in plenty of time. The parking area has been cleared of brush and will be cleared of even the smaller cactus and cactaw. The ag. class of the Grady school will be on hand, as will men from all five communities and one of the Quay county road maintainers. The Curry county road maintainer helped one day last week. The road into the parking area has been widened from one lane to two. A conservative estimate places the labor already put out in readying the grounds at about 30 man-days or 240 man-hours.

The finance committee reports that some money is beginning to come in, but not enough to take care of our obligations. Offering envelopes have been prepared and any group desiring a supply of them should contact the general chairman, Mr. Gibbs Tucker, Bellview, N. M. The pageant is of course not being produced to raise money but there are certain basic expenses which must be met.

The next rehearsal will be at the Grady Methodist church on Sunday afternoon, March 4, at 2:30 p.m. And on Sunday March 11, the group will meet at the site of the pageant (at the caprock amphitheater) for its first outdoor rehearsal. This meeting will be at 1:30 MST. It is very urgent that ALL workers involved in the pageant attend this rehearsal.

REA Co-Op Here Employs Power Use Supervisor

The board of directors of the Deaf Smith Electric Cooperative approved the hiring of a power use and member education supervisor for patrons of the cooperative at a meeting held Thursday.

A. T. Ford, manager of the REA cooperative at Columbus, N. M., has been employed to fill this newly-created position here, according to Leo Forrest, manager of the cooperative.

The duties of the power use supervisor will be to work with the members on the proper use of electric appliances and to check for proper and adequate wiring and lighting. When a patron wishes to have any of the problems looked into, the power use supervisor will be the man to contact.

Ford has had experience in electrical engineering and for the past two years has served at Columbus in a managerial capacity. He will move to Hereford as soon as the family can find living quarters.

Mr. and Mrs. J. C. McCracken were among the many from Hereford who attended the Cattie convention held in Amarillo last week.

Worst Blizzard Of Season Hits Mid-West States

The worst blizzard of the winter, driven along by winds hitting 50 mph, pushed across the Dakotas, east through Minnesota and Wisconsin, and into upper Michigan and Ontario Friday night.

Snowdrifts 10 feet high stalled highway traffic, trains, and grounded planes in many places. Eighteen inches of snow buried Aberdeen, S. D. and freezing rains made travel treacherous as far south as Illinois, Indiana, and Missouri.

A load of 21 bus passengers were trapped in snow for 10 1/2 hours near Sioux Falls, S. D. and were rescued by a snow plow early Saturday morning.

Graduates of 1942 Span Years at Class Reunion

The class of 1942 of Hereford high school held a reunion-banquet at Hotel Jim Hill Saturday, Feb. 24. Planned for 1952, the reunion date was advanced a year because of war conditions. Places were laid for fifty members of the class, their wives, husbands and dates, and for an hour time was turned

backwards and they were all seniors in Hereford high school again. Decorations for the tables carried out the class colors of red and white with arrangements of red and white carnations, the gift of Mr. and Mrs. Ralph McCullough in remembrance of

Richard Peterson, president of the class, was toastmaster for the occasion, giving the invocation and the welcome to guests. Introductions brought activities of members up to date. Mr.

and Mrs. O. J. Beane of Friona were also introduced. Mrs. Beane, the former Decima Ramey, was sponsor of the 1942 graduating class. The master of ceremonies read letters from members too far away to attend and Mrs. Donald Henslee gave a round-up of remembrances re-

calling highlights of the class history.

John Estes of Pampa, dedicated a memory service to Clifford Vaughn, Donald Ray McLough and F. L. Lucas, who died in World War II service.

Guest speaker of the evening was Robert Thompson who spanned the nine intervening years in a talk on world affairs, urging the class members to hold on to their hopes and high ambitions and to strive to adjust them to world conditions today.

Following the banquet the group was entertained with canasta and dancing at the Veterans Memorial Park club house.

Question OF THE Week

Did you ever milk a cow? Virgie Sparks: No, I never did have an opportunity.

Robert Petersen: Yes, I can get the milk as long as she can keep both feet on the ground. I can keep the bucket there.

Mrs. A. J. Schroeter: No, I tried once and got a little milk I've always lived here in town. Hub Homer: I've milked hundreds. I don't think it is a bad job, but I don't think I would care to do it all the time.

J. W. Robinson Jr.: I certainly have. I'm good at it, and I like milk. I went to camp a couple of years and learned how to milk.

Mrs. Mark Link: No Mam, I'm not afraid of them. Never had any occasion to milk one.

Hereford-Dawn Rural Telephone Signers Lagging

Subscriber sign-up for rural telephone service in the Hereford, Dimmitt, and Newcastle areas is lagging behind the pace set in the other communities to be served by the West Texas Telephone Cooperative, reports from volunteer signers this week reveal.

Eighteen subscriptions were brought in from Farwell area Thursday giving that community a total of 68 signers. Bovina has 37 signed up. The two communities lack 95 subscribers of having their 200 joint minimum.

Work at Frío was given an added push with a meeting held there Friday night. The Hereford-Dawn combination still needs 132 subscribers with a goal of 225 signed up already. Doctors wives have to be good cooks. Their husbands know the health value of well-prepared

fed with anything less on their own table.

Here is a recipe that tastes as good as it sounds and its popular lemon flavor distinguishes the creamy filling used with bananas and marshmallows.

The vows were solemnized at 4 o'clock Sunday afternoon, Feb. 25, in the home of the bride's mother in Summerfield. Rev. R. H. Cagle performed the singling ceremony. Springtime decorations of pink and white gladioli and stock in bouquet arrangements about the house carried out a seasonal theme.

The bride was attired in a Chinese red gaberdine suit. Her

accessories were in white and navy and she wore an off-the-face veiled straw hat. Her shoulder corsage was of two white gardenias.

She carried out the tradition of something old with a lapel watch belonging to her Great-Grandmother Posey and she carried a borrowed white Bible with a penny in her slipper for good luck.

Bobbie Boyd Becomes Bride of Pfc. Ernest Adams on March 1

Before an improvised altar arranged with tall baskets of white stock, white satin ribbon, and candelabra holding blue tapers, Bobbie Viola Boyd, daughter of Mr. and Mrs. Robert Boyd of the Westway community, became the bride of Ernest Adams, son of Mrs. Cecil Adams of Paris, at 8 o'clock Thursday evening in the home of her uncle, Roy Boyd.

Rev. H. V. Fields, pastor of the Avenue Baptist church read the single ring ceremony. Mrs. Merlin Kaul provided wedding music, playing "Beautiful Dreamer" while the bride's brothers, Franklin and Francis Boyd, lighted the candles. She also accompanied Miss Alta Mae Wilkins who gave "How Do I Love Thee" in recitation. The traditional wedding marches were used and Mrs. Kaul played "At Dawning" softly as the vows were spoken.

The bride's sister, Mary Kathryn Boyd, was her only attendant. She wore a navy blue tulle frock with white lace trim, navy blue hat and carried a nosegay matching that carried by the bride. Marvin Callahan of Franklin, Indiana, was the best man.

The bride, who was given in marriage by her father, wore a pastel blue crepe dress styled with bands of tucks on blouse and skirt. Her small navy hat was trimmed with tiny white forget-me-nots and a veil. She carried a colonial nosegay

of white carnations tied with white satin streamers on a white Bible. Her only ornament was a strand of pearls and she wore an heirloom ring worn by her Grandmother Boyd at her wedding. She wore borrowed ring rings and a penny in her shoe for tradition's sake.

The bride's mother wore a wine crepe dress with white carnation corsage.

Reception Follows

Mr. and Mrs. Roy Boyd were hosts at the reception which followed the wedding with Miss Alta Mae Wilkins and Miss Maurita Ramey presiding at the decorated bride's table.

When the couple left on a brief wedding trip the bride was wearing a gabled hat with brown skirt and checked jacket. Her accessories were in smoke brown and tan and she wore the corsage from the wedding bouquet.

Letter To Editor

To The Brand:

In The Thursday Brand, Feb. 22, was a report of a meeting of Chamber of Commerce Officials and business men, at which was discussed "Factories and Food Research", a matter that should be of interest to those who have given any thought to the possibilities involved. This is a timely movement, and if successfully carried out, can mean more than anything else in the growth and development of this area.

We have all anxiously looked forward to the day when oil might be discovered somewhere in this territory. Hundreds of thousands of dollars have already been spent, and perhaps more will have to be spent, before we can even know whether there is oil in the country or not, but we already know of the existence of what is perhaps our

greatest natural resource, the minerals in our soils, and production can be had from every acre of our farm lands, so why not capitalize on this resource to the fullest extent.

People all over the nation are food conscious. Prior to World War II, food was food, and no questions asked; but most people are choosy now, and demand the best, and are especially interested in the foods "enriched" by nature with essential vitamins and minerals.

When our government learned that so many were being rejected for army service, an investigation was made to find out the cause.

Experts concluded that of these essential elements in most of our foods was largely responsible, and since then they have tried to remedy the deficiency by supplying them synthetically, so we now have synthetically "enriched" flour, bread, corn flakes, grape-nuts, and many other foods, but it is generally agreed that these are not comparable to Nature's own way, and there is where we come in.

Now we at last know a large variety of foods can be produced here. We also know there is a willing market for them at premium prices. People all over the land know about our foods,

thanks to the wide-spread, free advertising during the past few years, and have been clamoring for them for seven or eight years. Interest may have waned somewhat, as all have not been able to get them. However, the demand still exists. I was in Lubbock a few days ago, and in a conversation with a business man there, he asked me about the prospects for wheat this year, and remarked, "I sell a lot of high protein wheat, and have recently purchased a supply from Pittman Grain Company", and his customers are scattered all over the land. This isn't the

only instance where outsiders are capitalizing on Deaf Smith county products, and at a profit, no doubt, and the number will increase unless we do something about it, and there is hardly any limit to the possibilities, provided we forget about Deaf Smith county, and launch an "Area Program". Begin boasting what this area naturally is. The Middle-Plains Section of Texas, enlist the cooperation and support of the adjoining territory, especially Castro and Parmer counties. There can be little variation in the mineral contents of the

soils, and they are as vitally important as we are, and as they grow and progress, we will too. In order to interest any manufacturer to locate here, it will be necessary to convince him that a sufficient volume of products can and will be produced to warrant the investment he will have to make, and the question is, "Can Deaf Smith County alone do that?" I say that it cannot be done, and that the program can never amount to much if it is to be confined to Deaf Smith county products alone. We must not forget that if Deaf Smith county products are of- (Continued on Page 4)

Prince Valiant

IN THE DAYS OF KING ARTHUR
BY HAROLD R. FOSTER

Synopsis: PRINCE VALIANT GOES HUNTING FOR THE CHAMOIS WHOSE SKINS ARE SO NECESSARY TO MAKE WARM GARMENTS FOR MOUNTAIN TRAVEL. AFTER HOURS OF WAITING, THE SENTINEL APPROACHES HIS HIDING PLACE.

A BROADHEAD ARROW BRINGS IT DOWN AND INSTANTLY EVERY ANIMAL IN THE HERD IS ON THE ALERT, READY TO SCAMPER FOR THE CLIFFS!

QUICKLY VAL RAISES THE HEAD OF THE FALLEN BUCK, MOVING IT REALISTICALLY UNTIL THE FLOCK QUIETS DOWN.

THEN MORE HOURS OF WAITING WHILE THE KEEN WIND FROM THE SNOW PEAKS CHILLS TO THE BONE-- BUT THE HERD IS BROWSING EVER CLOSER.

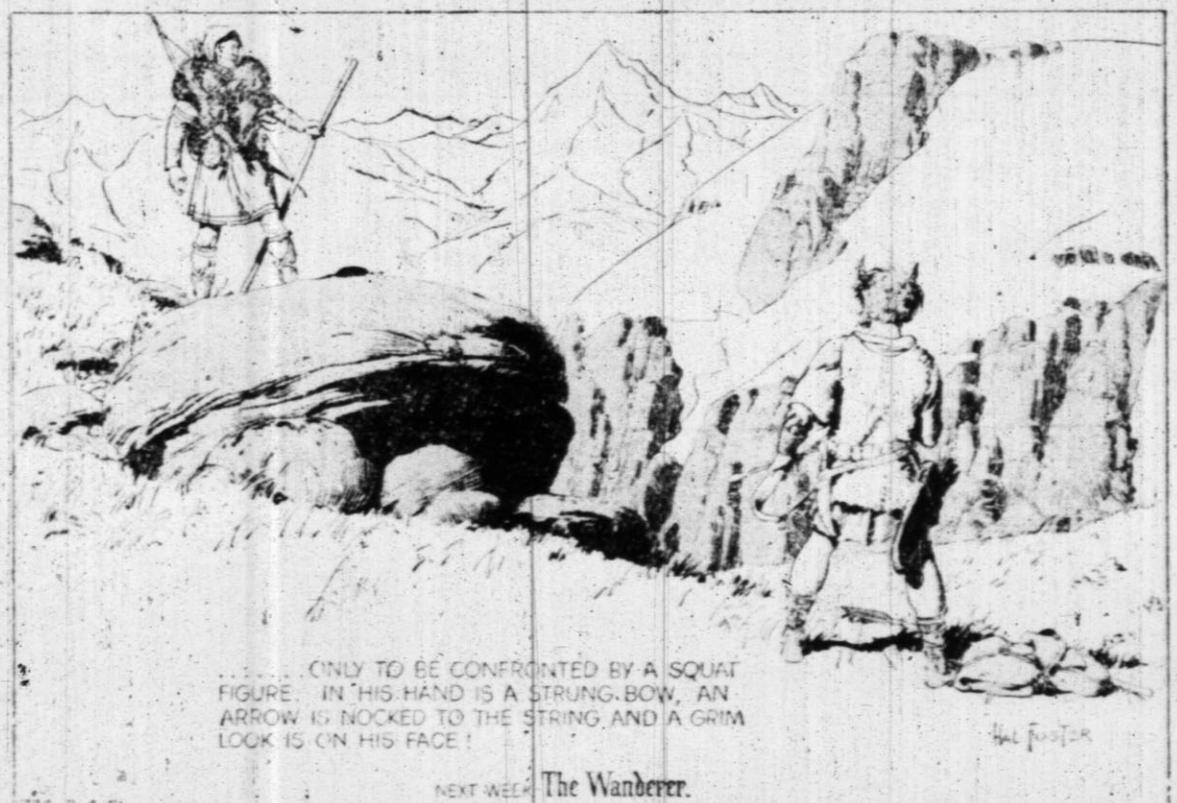

FINALLY THE MOMENT COMES. VAL RISES SLOWLY TO HIS FEET AND THEN, LIKE FLASHES OF LIGHT, THE DEADLY HUNTING ARROWS GO WHISTLING TO THEIR MARK.

VAL WORKS SWIFTELY. ALREADY THE SUN IS SINKING AND HE MUST REACH HIS CAMPING PLACE AT TIMBER LINE WHILE THERE IS STILL ENOUGH LIGHT.

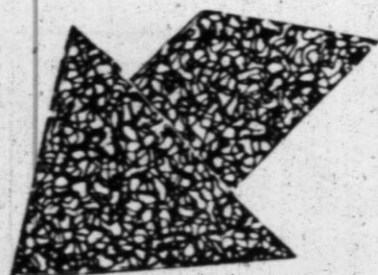

WITH THE PRECIOUS SKINS IN HIS PACK AND CARRYING TWO ANIMALS FOR THEIR MEAT, HE UNSTRINGS HIS BOW AND STARTS FORWARD.....

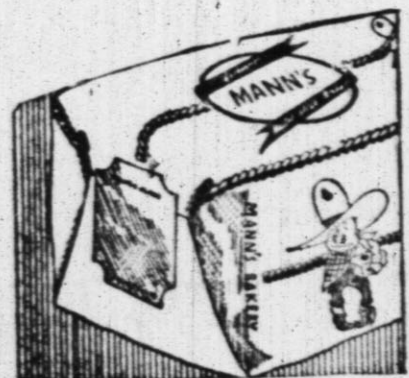

..... ONLY TO BE CONFRONTED BY A SQUAT FIGURE. IN HIS HAND IS A STRUNG BOW, AN ARROW IS NOCKED TO THE STRING, AND A GRIM LOOK IS ON HIS FACE!

NEXT WEEK: The Wanderer.

Other Pictures Of Dimmitt And Friona Inside This Section

ALL-STATE PLAYERS returning this year to the state tourney at Waco are Maurine Smithson, left, all-state guard, and Lometa Odom, all-state forward. This is the second year for Lometa to play basketball and the third for Maurine. Both girls have won many gold basketballs at tournaments throughout the area. —Brand Staff Photo.

Dimmitt Girls Leave Monday For State Tourney at Waco

State champions of 1950, the Dimmitt Bobbies, girls' basketball team of Dimmitt high school, will leave tomorrow for Waco where they will play their first game of the state basketball tournament Wednesday.

John Blaine, who coaches the girls in addition to the Dimmitt boys, district winners seven years consecutively, said the team playing this year includes many star players. Maurine Smithson, a senior, and Lometa Odom, a junior, both made the all-time stars. Lometa was picked as one of the three best forwards ever to play in the state tournament. Mary Nelson, a freshman, and Miltzi Wilson, a sophomore, have made the all-district team.

Last year the Dimmitt girls defeated the Slater, Iowa, team, gaining for themselves the honor of being the first Texas team ever to win a decision over the Iowa team. Blaine said this is the fifth time the Dimmitt Bobbies have gone to state. He has coached 10 years at Dimmitt.

Last night the Dimmitt girls played an exhibition game with Muleshoe.

Included on the squad are: Phyllis Allen and Mary Delozer, managers; Carolyn Campbell, Katy Coke, Dessie Mae Dennis,

Peggy Allen, Barbara Clark, Yvonne Eredon, Connie McRee, Dalvia Howard, Johnny Godfrey, Miltzi Wilson, Maurine Smithson, Jacqueline Cartwright, Lometa Odom, Peggy Messenger, and Mary Nelson.

Construction Will Begin Soon on Dimmitt Grade School and Gym

Construction is scheduled to be in full swing by early spring on the new Dimmitt grade school building and gymnasium for which a \$375,000 bond issue was voted on July 1.

Bids on the building exceeded available building funds; however, the school board, after careful study, decided to go ahead with the building because of the need of additional school facilities in Dimmitt.

Students at Dimmitt were overjoyed at the prospects of a new gymnasium, basketball being a big item in the town. The Dimmitt girls' team will play in the state tourney this week,

and the Dimmitt boys won the district tournament, but lost in regional.

The Gilstrap Construction co. of Lubbock has the general building contract, which was set on a fee basis. The contractor is in charge of general supervision of the entire construction project and is responsible for the location of material and labor.

The building, scheduled to be completed in 12 to 18 months, depending on materials and weather conditions, will be located on the grounds with the present school buildings.

THE JACK GREGORY HOME in Dimmitt is built of cream brick, with the upper portion of white shingles displaying a neat contrast. A matching brick fence encloses the back yard. Brand Staff Photo.

BRUCE PARR, president of the Farmer County Farm Bureau, was a leader in obtaining the required subscribers for rural telephone service at Friona. Parr and Claude Miller, also of Friona, spent several days canvassing the area. Leo Forrest, local REA manager, said the Friona area has submitted 173 applications which is more than their quota required. Floyd H. Reeves and J. Alan Romick were also volunteer workers during the soliciting. —Brand Staff Photo.

Friona Homes Are Built For Beauty and Living

MRS. SLOAN OSBORN selected an unusual divider for her living room. Copper tubes form the background for an indoor flower arrangement of ivy and other greenery. The base is of rock, similar to that used in fireplaces. Mrs. Osborn chose the divider for the living room and a fireplace for the den. —Brand Staff Photo.

The homes of Sloan Osborn and Pete Buske in Friona were built for their beauty, comfort, and just plain living—as evidenced by the fact the Osborns this week were "entertaining" in their utility room a family of 10 "brand new" cocker spaniel puppies and in their basement a sink-full of nice slick catfish.

Several Friona homes, including these two, will be featured by the Modern Study club later in the spring in the first tour of homes ever to be staged in Friona. Mrs. Ralph Miller is chairman of the committee in charge.

Both homes are built across the street from the public schools in Friona and both feature special devices for use of the youngsters in each family. The Osborns have four children and the Buskes, three.

Mrs. Osborn said her 13-year-old daughter, Sally's, cocker had the litter of 10 pups and just couldn't keep them warm, so she assisted by bringing them in the house. Three of the puppies, not finding enough room with all their brothers and sisters, were sleeping peacefully under a heating pad.

Not to be outdone, Robbie, 8-year-old son of the Osborns, filled the sink in the basement with catfish, without his mother's knowledge. While showing the house to guests, Mrs. Osborn discovered, with some amazement, the aquarium. Of special interest in both

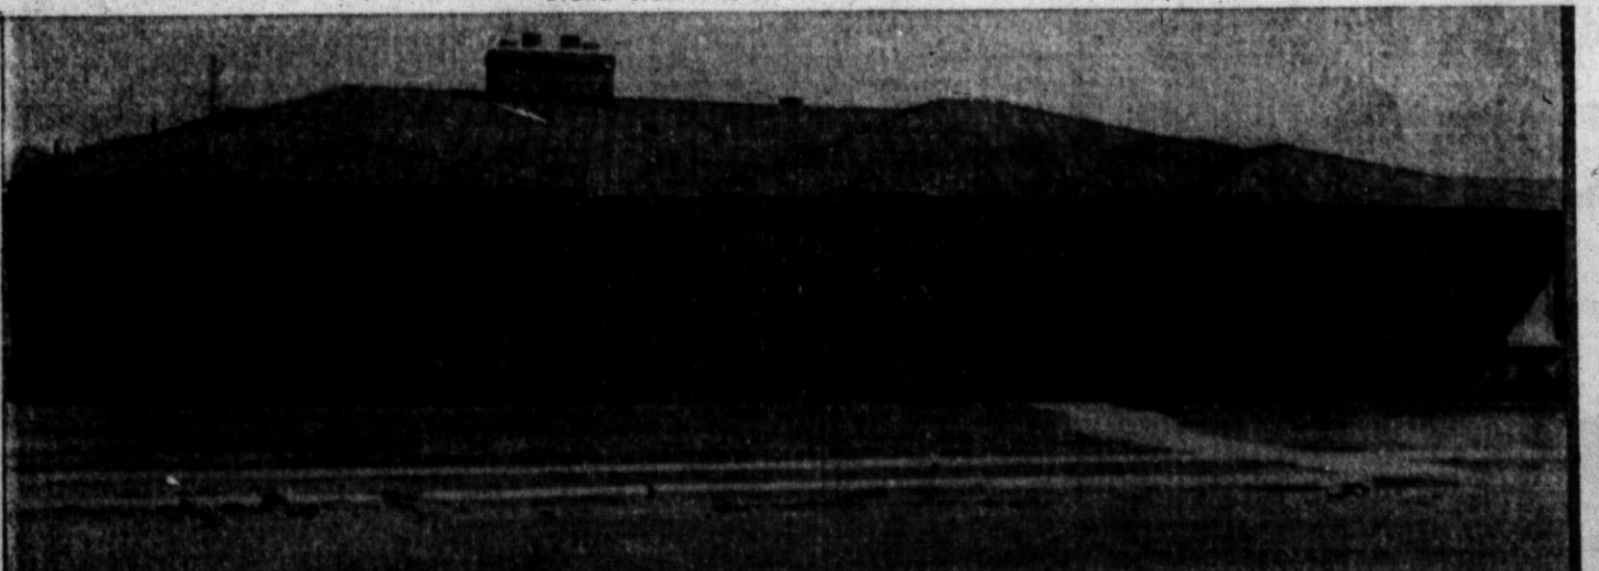

homes are the auto-controlled garage doors which raise or lower at the touch of the button inside the garage or on the family autos. Both Mrs. Osborn and Mrs. Buske are well satisfied with the control which enables them to open or close the doors as far away as a block and a half or two blocks. Both housewives advised, however, that autoists be in view of the doors when opening and closing as the door must go all the way shut or open before it can be reversed.

Fire Damage

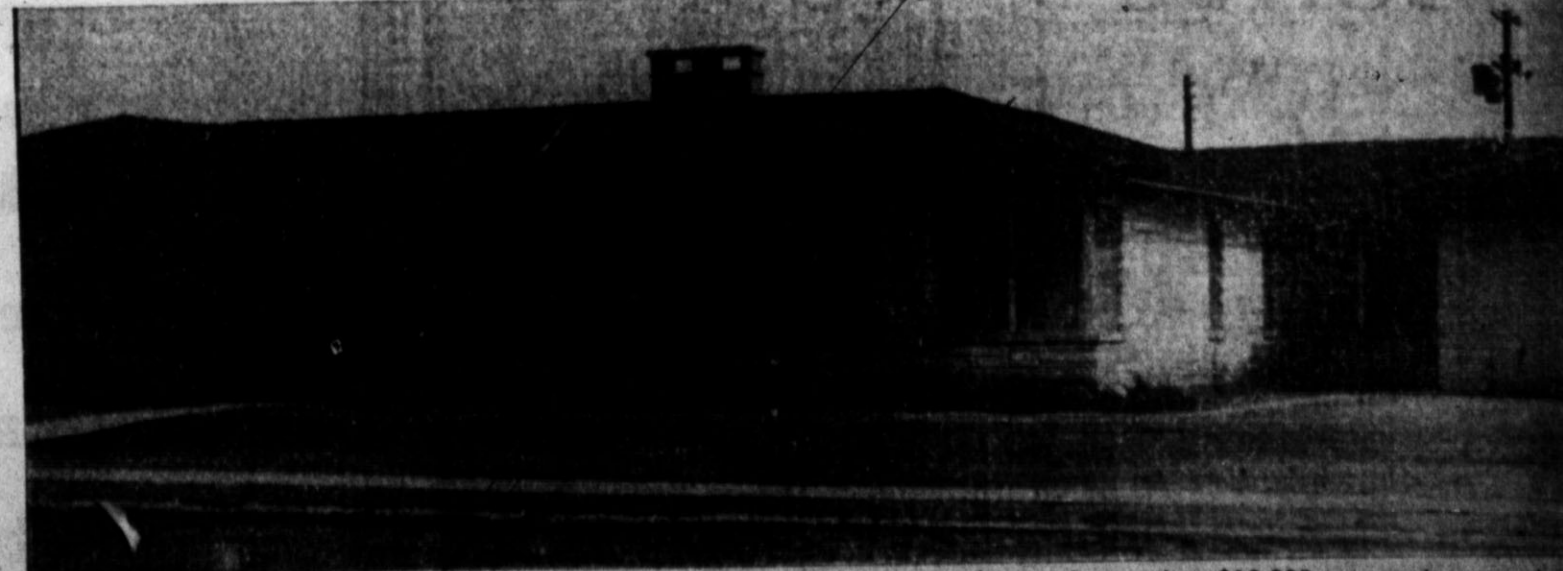

Two weeks ago, when the Buskes had been living in their home only four months, fire, originating in the fireplace in the den, caused more than \$12,000 worth of damage to the house and furnishings. Mrs. Buske said a fire was built in the fireplace early that morning, and the family had enjoyed it all day. After having been gone (Continued on page 6)

MRS. PETE BUSKE is standing by her cabinet, which features blue and white tile, complete with all modern appliances arranged in a U-shape for working convenience. —Brand Staff Photo.

THE SLOAN OSBORN HOME in Friona is located across the street from the public schools. Designed for beauty, comfort, and living, the home features modern colors and architecture. —Brand Staff Photo.

THE PETE BUSKE HOME, one of the most modern in this entire area, was damaged more than \$12,000 two weeks ago when fire broke out between the living room and den walls where it had smoldered hours before its discovery. —Brand Staff Photo.

The Argument Over Fiscal Policy

We do not pose as a financial expert, having tremendous difficulties in connection with the problem of making income meet outgo in connection with our personal establishment.

Nevertheless, we have been interested in the difference of opinion that exists between the Treasury Department and the Federal Reserve Board as to the advantage of increasing existing interest rates. Secretary of the Treasury John W. Snyder says that actual experience shows that higher interest rates will not have a retarding influence on inflation.

Mr. Snyder points out that in 1919-20, short-term money was available to the Federal Government at six per cent and "call money" went to about thirty-three per cent. Yet this high interest rate had no noticeable effects on inflation, which did not end until the crash. Mr. Snyder says it was the same again in 1929, when short-term money for the Government went up to five per cent and "call money" couldn't be had for

less than twenty per cent. These rates, he says, "had no apparent effect on the inflationary spiral" which continued until it, too, ended in the big crash.

Mr. Snyder points out that the Government of the United States is now paying \$5,800,000,000 annually for debt service. He says that a "substantial" increase in personal or corporate tax rates, or both, would be necessary to avoid deficit financing if the average interest rates are permitted to go beyond the two and one-half per cent level contemplated for the period of defense mobilization.

There is considerable pressure for higher interest rates, of course. The people with money to lend, including insurance companies, financial institutions and private capitalists, naturally want to get as much income as possible for the use of their money. Reserve Board officials have argued that higher interest rates would tend to contract economic operations and thus prevent inflation. Mr. Snyder does not agree with this theory.

Tax Loopholes Should Be Plugged

There may be differences of opinion as to the merit of recommendations made by President Harry S. Truman in connection with the effort to increase the revenues of the nation by an estimated \$10,000,000,000. There should be no argument, however, about his recommendations that certain loopholes in present tax laws should be eliminated.

The President says, "Those required to bear higher taxes for defense are entitled to the assurance that others will not be permitted to avoid them." He does not think that it is right to increase the taxes of a man, head of a family, earning \$60 a week and permit "glaring inequities in present law," which, under some circumstances, permits a man with a hundred times as much income to avoid paying any taxes at all.

The President stresses the gross under-taxation "of the oil and mining industries," the broad loopholes in estate and gift taxes and the undue "preferential treatment" granted to capital gains. He thinks that these provisions should be studied, "together with those relating to life insurance companies and to holders of securities now exempt from income taxes," and that the tax status "of organizations now exempt" should be considered.

The general declaration of the President should have the support of every American citizen. We do not attempt to pass judgment upon details of the suggestion that loopholes be eliminated because none are included in the tax message to Congress. These are matters to be worked out by the Congress. What we suggest is that everybody support the effort to work them out so that, in connection with defense costs, there will be no deferment from the financial burdens created by a fair and just system of taxation.

Nation Needs More Doctors

Dr. Howard A. Rusk, chairman of the National Advisory Committee on Mobilization, says that the nation faces a deficit of 22,000 physicians by 1954.

Dr. Rusk proposes that medical education be expanded and accelerated and calls on the medical profession and the medical schools to undertake the added work necessary to cope with the situation.

Estimating that there are 178,000 physicians in active practice today, the doctor says that in three years, the nation will need 210,600. Under present conditions, only 188,600 will be available. He proposes that medical training be accelerated by running four-nine months school years together and completing them within thirty-six months.

This process would yield approximately 6,000 additional physicians every three years and reduce the deficit from an estimated 22,000 in 1954 to 14,500. He points out that no account is taken of the increased aging of our population, or of the rehabilitation of wounded veterans coming back from combat. Moreover, these figures are based on an assumption that the nation will have 5,000,000 men under arms.

Players Get Good Money

Baseball, it seems, offers an attractive source of income to young Americans, comparable with the money that can be earned by outstanding football players.

The record shows that one promising baseball player got \$65,000 as a bonus for signing a contract. Another, according to reports, received \$50,000 to sign up with a major league outfit.

This kind of money is not chicken-feed. For one who likes the national pastime, there can be no easier way of making a living and getting paid for doing what he enjoys.

The club owners, in passing out this kind of money, are not crazy. The acquisition of a stellar performer, who can attract fans and, perhaps, fill out a pennant-winning team, means money to those who own the franchise.

Kite Flying Unsafe

It won't be long now before the youngsters of various ages will be interested in the flying of kites.

Some of them, with gray hair and many years of life behind them, will enjoy their kite-flying by proxy, but boys and girls will score them one better, putting up their kites in the spring breezes.

It is well to warn the youngsters to stay away from electric power lines and high-wires. Do not use wire for a kite string or a cord with tinsel or wire in it. Be sure the cord isn't wet. If your kite breaks loose and the cord falls across electric wires, leave it alone.

Of course, we know that very few boys and girls, who actually fly kites every spring, will read this editorial. However, the retired order of ancient kite-fliers, remembering the days of their youth, might be reminded to caution their youngsters. A few words of warning sometimes save the life of a young boy or girl.

THE Washington Merry-Go-Round

Labor Leaders Angry

FIVE of the nation's top labor spokesmen, led by Phil Murray of the CIO, have had it hot and heavy with Defense Mobilizer Charles E. Wilson over the government's manpower program.

The ill feeling which flared between them looked like a curtain-raiser for more trouble on the labor front, and raised one of the most difficult problems of any defense or war program.

Purpose of the labor leaders' call on Wilson was to keep the nation's civilian manpower program under the labor department. This has been the subject of a bitter backstage battle for some time, with Wilson and Gen. Lucius Clay wanting to take manpower away from Secretary of Labor Tobin and Assistant Secretary of Defense Anna Rosenberg, and with the latter two threatening to resign if the labor problem is taken out of their hands.

Labor leaders have good reason to fear General Clay and any manpower commission which he organized. They recall that during the recent war before he went to Germany—as military governor, Clay demanded of FDR that there be compulsory allocation of labor under a labor draft.

That was one reason why the five leaders went to see mobilization czar Charlie Wilson last week to try to keep civilian manpower under the labor department. They got nowhere. Wilson's attitude during the bitter meeting was "I'm running things—we'll do it my way," though he didn't put it quite so bluntly.

He didn't have to. On the way to the meeting the labor group had read a news story telling of Wilson's and General Clay's plan to set up their own manpower commission under civil service commissioner Arthur Flemming—with Clay, however, as the real boss. Wilson did not deny the story. Nor did he seem concerned when the labor leaders reminded him that he was setting up a board to control labor without consulting labor.

Ample Authority
When reminded that labor was consulted equally with management during World War II, and that labor had a chairman on the office of production management, Wilson made it plain that he did not plan to follow this precedent.

"I have authority from the President," he said, "and I am going to use that authority. I haven't as yet asked Arthur Flemming to head up this manpower commission, but I intend to do so. And if he doesn't accept, I may head it up myself."

"Well, we don't like a proposition like that," spoke up CIO president Phil Murray. "We represent the men and women engaged in war production work and we think we should at least have an equal voice in the government's manpower policies."

Murray added that if Wilson became manpower chief in addition to his top job as mobilization boss, it would be the same as a man "taking advice from himself."

Note—Other labor leaders attending the meeting were: Dan Tracy, president of the AFL electrical workers; Al Hayes, president of the international association of machinists; George Leighty, chairman of the railroad labor executives association; and James Carey, CIO secretary-treasurer.

Inside the Communists
There was something funny about the way Farrar, Straus & Co. suddenly junked Hede Massing's new book on life inside the Communist party. She's the ex-wife of Gerhart Eisler, and the book won't do Stalin any good. . . . The manuscript was immediately snapped up by Duell, Sloan and Pearce. . . . Communist party membership has taken a terrific beating in Europe in the wake of the Marshall plan, the tide of toys, the friendship train and other friendship projects to Europe. In the Dutch parliament, Communist seats have dropped from 56 to 27. In the Soviet zone of Austria, Communists lost 10 of their 11 parliamentary seats. In Belgium, they lost five out of 12 seats in the lower house and two out of five in the senate. . . . In Denmark they dropped from 76 elective posts to only 24. . . . The Dutch Communist newspaper is now down from 400,000 circulation to around 100,000, while the Communist press of France has taken similar losses. . . . Most amazing development, however, is in Italy, where two top Communist senators have resigned from the party.

Military Scuttlebutt
The air force is probing complaints of kickbacks and shortages at the Bolling field officers club outside Washington. Major Dan H. Rogers, officer-in-charge, has resigned. . . . Army Chief of Staff General Collins told the senate armed services committee behind closed doors that there are now 950,000 Communist troops in Korea. MacArthur's intelligence at the same time reported only 376,000 men.

'Tater Peelin's

By Roberta Campbell

Well our boys did all right in the Amarillo Fat Stock Show. Of course we all know that Dwaine Walker took the Grand Championship award but also placin' in the top 15 out of 120 calves entered we noticed the names of Charles Springer, Elson Hennington and Jimmy Conkright in the light division and Earl Crose in the heavy weight division. Reason enough to make County Agent Hugh Clearman exhibit such a smile.

The weatherman sure played into our hand with that big rain last week end. Must have been waitin' for us to get the stubble turned because the play pulled out of the field Friday afternoon with mud on the wheels.

And Sunday mornin' with the yard afloat we figured no Sunday paper but both the Sunday Brand and the Amarillo Daily News were delivered only a few minutes behind the usual schedule.

Back a few days ago newspapers were givin' quite a bit of space to the conditions surroundin' the deaths of two recruits in Amarillo and we were nauseated by the story of the officers, shootin' the starvin' dogs and the fat little puppies that had been the old man's only friends but rather than interest in their financial status and the litter in the woman's home we have wondered what could have happened in their lives to cause them to turn away from all human society.

SUNDAY'S CURRENT QUESTION Factories and Sugar Beet Refinery Top List for Area Development

What development do you think would be best for this area now?
C. A. Turner of Friona—We could do quite a bit of developin'. What Friona individually needs is some small luggage or garment factory which would employ 40 or 50 people. We have plenty of water and other facilities necessary. A small factory here would take care of unemployment and eliminate necessity of charity here.

Ray White of Friona—What it would take would be some kind of factory or industry. A factory would help everyone.

Bob Killough of Dimmitt—My granddad always said "Put back into the land what you take out." He's always been a good farmer, too. I'd like to see Hereford put in a sugar beet factory. It would help the farmers, ranchers, and everyone in the entire area. Farmers here would benefit too from production of beets and pasturing of cattle on sugar beet pulp. The pulp is good to fatten cattle or use as a fertilizer.

George Cameron of Dimmitt—I'd like to see a better irrigation system which would break down the large farms and ranches into smaller ones. That's what we live off of anyway the land.

Joe Huckert—I think some kind of manufacturing so it would keep business all year around. The way it is now it's more or less just certain months. It would help the business man and labor both.

Mrs. J. L. Ketchum—Well, how about a sugar refinery?

Louisa's Letter

Dear Louisa:
I have been going with a man for four years. About two years ago he asked me to marry him but said we would have to wait because his salary was not enough to support his mother and help his younger brother through college. His brother finished school this winter and is now in the army with a commission.

Panhandle Paragraphs

Ranch Tour

Mr and Mrs. Newton Harrell left Monday for a month's tour of the cattle and sheep ranches of Australia and New Zealand. They were in a party of twenty persons who left Dallas by a Pan-American clipper on the tour which will cover 26,000 miles.

Boys Take Over

Traffic laws will either be obeyed to the letter or their violators will suffer the consequences, Saturday. The consequences will usually be a fine which goes to the funds of Paducah's two Boy Scout troops.

Hereford Water

Fluoridation of the city's water system was given approval of the City Council in its last meeting, and Mayor Ernest Lewis instructed the city to procure the proper equipment to fluoridate the public water system.

Faithful—But Discarded

A month ago we gave you the story of how one of our most loyal old helpers was on the way out—leaving us.

Tax Raise

Parmer County residents will feel the pinch of rising prices soon following action by the Commissioner's Court on Monday when some tax values in the county were hiked for the current year.

Prohibition

A total of 506 signatures of voters in the Snyder area have been placed on copies of a petition sent Monday to the Governor and state legislature asking that a state-wide election be called to determine whether prohibition of the sale of liquor shall go into effect throughout the state.

The BOOTLEG Philosopher

Editor's note: The Bootleg Philosopher on his Johnson grass farm near Bootleg has a wrong view of a vital matter this week, his letter reveals. I picked up a copy of the Amarillo Daily News which my neighbor had half-covered up with his plow. I tell you reckless plowin' like that is wasteful, believe I'd just as soon rest under a tree as run the risk of buyin' good readin' matter of any kind of readin' matter, includin' that paper, and shook the dirt off, that is, the dirt my neighbor had put on it with his plow, not the dirt that was printed, and took it home and sat down in a protected spot south of the barn, which is a spot protected from the wind and my wife's voice, and read where there is some more agitation for puttin' stricter limits on the amount of money a candidate can spend to get elected.

Panhandle Essay Contest Plans Are Formulated

CANYON.—Plans for the annual Panhandle-Plains Historical Essay Contest, sponsored by the Panhandle-Plains Historical Society of Canyon, have been announced. Deadline for all essay material has been set for midnight, April 20 with a first prize of \$100 and a second award of \$50. Dr. L. F. Shetty, West Texas State history professor and society secretary, made the announcement.

The contest is held each year for the purpose of stimulating greater interest in collecting, research and writing of the history of the Southwestern Plains. The contest is open to everyone, but it has been announced that slight preference will be given to amateurs.

Papers may be written upon any historical subject dealing with any phase of West Texas and the Southwest. Reminiscences, diaries, biographies, letters, town and county histories, or the history of institutional development of any kind will be acceptable. Emphasis will be placed on human interest and general historical value. All remitted with bibliography attached. Papers should be double-spaced, on 8 1/2 by 11 paper. Entries should be addressed to the Panhandle-Plains Historical Society, Canyon.

Friona Residents Purchase Ranch Near Tioga, Colo.

Mr. and Mrs. Willis Edelson of Friona, have bought a 2,800-acre ranch near Tioga, Colo. from Mrs. Jeanette C. Davis. The Edelsons and their four-year-old son, Joe Don, plan to move to the ranch within a month.
