SIGHTS, FACES SEEN

Sheriff J. C. Reese and County Attorney G. B. Howard will attend a peace officer's meeting Monday at Amarillo. Officers from Texas, Oklahoma, Kansas, and New Mexico are expected to attend.

Members of the Hereford Lions club presented a program Thursday at Hedley.

Attending from Hereford were Rev. Cagle, Bob Lawrence, Jimmie Allred, Alex Thompson, Marlin Gilliland, D. C. Kinsey, and Jack Kirkse.

Herbert C. Lovan has been called into active duty with the Seabees and is now stationed at Treasure Island, Cal.

Plans for participating in two out-of-town parades were made Thursday night at the meeting of the Hereford Riders. The first trip will be to Portales, N. M., to attend the ENMU rodeo and parade Friday or Saturday. The club has not learned which of the two days the parade will be held. On May 4, the Hereford Riders will go to Lubbock to the Texas Tech rodeo and parade.

Monday the local radio station, KPAN, will officially join the Liberty Broadcasting system network. Preview network broadcasts are being given yesterday and today.

The baseball season perhaps helped H. H. Marshall's line of thinking on the MacArthur-Truman question. Here are his views: "Last of the ninth, one out, score 2-1 against us, bases loaded, Truman pulls Clean-up Hitter MacArthur and pinches himself, pops up to Second Baseman Stalin for a double play."

Pfc. Luther Elier of Hereford was awarded the Bronze Star medal recently for meritorious service while a member of the 24th Infantry division headquarters in Korea. Private Elier is connected with the financial section of the 24th division.

The way that these women keep griping about the whiskers that the men are trying to grow is enough to discourage a billy goat. Whose idea was it, anyway? If the men can grow them, then why should the women fuss about them? Besides, not any of them have quit their lipstick yet—they don't care whether the men like it or not, so why should we care whether they like our whiskers. Anyway, it was a woman, no other than Mrs. Wilburn Axe that bamboozled me into growing mine. She boasted that old Wilburn (Continued on Page two)

AT THE EIGHTH GRADE BANQUET Friday night in the Shirley school auditorium, eighth grade girls from the Junior High chorus, directed by Don Moore, are presenting their portion of the program. The circus theme used in decorations and entertainment helped to create a feeling of gaiety and informality for the occasion which was attended by nearly 140 persons, including 114 eighth grade students. Real Barnum and Bailey music was played while the guests were eating and in between events on the program. Sam Nunnally served as circus barker to entertain the guests before the circus officially opened. Photo by Cole Studio.

THE PARADE OF whiskers continues this week. Here are members of the Hereford Kiwanis club who have survived the early discomforts of the chin foliage and come through with the results indicated so clearly in the above picture. Hereford POW Broadcast to Home Folks is Scheduled

Sgt. Gerald E. Neighbors, Hereford soldier taken prisoner by Communists in Korea on December 2, is one of 330 American and British prisoners of war who will be granted the opportunity to broadcast a personal message to the home folks beginning Monday, April 16. According to an Associated Press release, the messages will be broadcast over short wave radio from Peiping each day at 3:30 a.m. Texas time in the 19 and 25 meter bands. A Peiping radio broadcast heard in San Francisco by the AP said applications were accepted from prisoners for the

chance to broadcast home. The Reds then gave a list of prisoners whose messages would be broadcast beginning next week. The list contained the name of Gerald E. Neighbors, SFC, RA-18316846, Box 106, Hereford. Mrs. Neighbors was contacted Saturday by The Brand at the home of her parents, Mr. and Mrs. Jasper Thompson and informed of the broadcast. Mrs. Neighbors said the last word she had of her husband was when some Navy men wrote her, telling they had heard a short wave broadcast telling that her husband was a prisoner of war. That was about two months ago.

A division three rating was also awarded the girls sextet, Shirley Sharp, Anna Lois Cummings, Marilyn Barkley, Glenys Goldston, Jerry Patterson, and Joan Knabe.

Car Stolen Here Found in Canyon Near Bellview

A 1946 Ford belonging to Leona Cargo of Hereford was found driven over the edge of a canyon at the end of a dirt road about 10 miles north of Bellview, N. M. recently, Sheriff J. C. Reese reported Saturday. The auto was reported stolen in Hereford on March 23. Reese told The Brand. When found, the car was about 180 feet from the rim of the 300-foot canyon, wedged against a cedar tree, upside down. The postmaster from Bellview wrote Sheriff Reese of the discovery of the auto. An investigation is being conducted here in the theft, but there are no definite leads either here or where the vehicle was found.

A two-way FM (frequency modulation) radio station, to be used by the Hereford city police and the Deaf Smith county sheriff's office, is expected to be ready for operation by the end of the week, according to City Commissioner Don Zimmerman, who completed the arrangements for the system. Mobile two-way units have

been installed in the city police vehicle and will be installed in the county patrol car. The 90-foot metal antenna to be used with the 60-watt transmitter will be erected Monday or Tuesday on the city hall grounds. Cost of the equipment used in the radio system will be in the approximate neighborhood of

\$2,000, Zimmerman said. Effective range of the unit is to Amarillo, he said. If it were not for the terrain, the signal from the local station could be received as far away as Clovis, Zimmerman reported. When more equipment is available, it is planned to install another two-way unit in one of the city fire trucks. To further increase the value of the local equipment, Amarillo police will also have a receiver to the Hereford frequency (3918 megacycles) to receive messages sent by local law enforcement officers.

Schroeter Renamed Trustee President

A. J. (Major) Schroeter was re-elected president of the board of trustees of the Hereford Independent School district at the meeting Thursday night when all members of the board were present. Schroeter will serve his third year as president. Robert Viegel was named vice-president, and Carl McCaslin, secretary. Other members of the board are Howard Gault, Lyle Woodford, H. H. Miller, and Robert Wagoner. Election of teachers for the 1951-53 school term was discussed at the meeting. Supt. George Graham said the complete faculty will be announced as soon as a few vacancies are filled. Graham said all principals and coaches were re-elected, including Don T. Martin, high school principal; H. V. Stanton, junior high principal; D. C. Martin, Central school, principal; Byron Durham, Shirley school principal, and Coaches Dalton

A. J. Schroeter

Schroeter announced Saturday that the board received Supt. Graham's contract for two years several weeks ago. The main transmitter will be located in the police rooms on the second floor of the city hall. A control station to allow remote operation of the transmitter will be installed in the sheriff's office at the courthouse. All members of the police department and sheriff's department will be licensed to operate the transmitting equipment. The sheriff's office will share in the operation of this radio unit. Installing a police radio in Hereford has been "in the works" for about a year, Zimmerman said, and radio equipment was purchased at that time.

Evaluation Report To Be Given Public Wednesday

A complete evaluation of the Hereford Public Schools including teachers as a whole, the administration, and the school plant will be given to the public Wednesday afternoon at 3:15 in the high school auditorium to conclude the three-day evaluation as required by the Southern Association of Secondary Schools and colleges. The evaluation committee, composed of 26 persons, includ-

ing superintendents, principals, class room teachers, college professors, the area home economics supervisor, and the Lubbock area supervisor of vocational agriculture, will visit individual classes and all school activities all day Monday and Tuesday and Wednesday morning to observe classroom work, pupil activity, guidance service, the school plant, and administration. Results of the evaluation pro-

gram will determine the standing of the local schools in the Southern Association of which Hereford has been a member for 15 years. Supt. George Graham said requirements of the association are more strict now than they have ever been. The superintendent extends an invitation to the public to hear the evaluation committee's report Wednesday afternoon.

Australian Couple Tour Area To Compare Methods of Farming

A little pamphlet published in about 1938 or 39 was instrumental in bringing Mr. and Mrs. George H. Allen of Australia to Texas this week to survey Hereford and Deaf Smith county in order to get a good view of farming and ranching conditions. The Allens report this area is similar to their home in Australia except for the extensive irrigation projects. They live in northwestern Victoria. Dunria is the name of their property, which they explained would be called a ranch in Texas. They

run 4000 sheep and raise about 1000 lambs per annum. The Allens were especially interested in looking over the fine herds of Herefords in this area as they run about 200 head of Herefords on their ranch. They visited Mayor W. E. Dameron's ranch Friday, and stayed in

Hereford an extra day in order to witness the branding of black Angus cattle on Lyle Blanton's ranch Saturday. Allen was especially interested in learning how farmers combat "land drifting," a condition which is a problem in their country. Parts of Australia, he

said, are similar to the desert areas of Arizona; however, water from "great rains" has flooded thousands of acres of land there where fine crops are now being grown. However, Allen pointed out that this is not (Continued on Page two)

MR. AND MRS. GEORGE H. Allen of Australia visited in Hereford Thursday through Saturday in order to compare farming and ranching methods here with those used in their own land, where the soil is similar to this area. As a token of western hospitality, the Chamber of Commerce yesterday presented Allen a pair of cowboy boots and planned to give Mrs. Allen an appropriate western gift before their departure last night. FRANCIS HARDWICK IS either a man with courage or a man who knows what he's talking about as is evidenced by the sign in front of his Star Theater which says, "If you don't laugh at Judy Holliday in 'Born Yesterday', you can DUCK ME." Hardwick is standing before the Jaycees ducking tank holding a piece of ice that formed over the water Thursday. The tank is, of course, for non-shavers who fail to buy a shaving permit for the Mid-Plains Pioneer Day, but Hardwick still made the offer of the ducking to advertise the funny-bone tickling movie. —Brand Staff Photo.

I got me "Irish" up. Elmer Patterson.

Richard Petersen, son of Mr. and Mrs. A. Petersen, is scheduled to leave May 1 for active duty with the Air Corps. He is to report to Lubbock where he is to be stationed at least 60 days.

Ranging in age from 9 to 17, the club girls will model the clothes they are now making. The winner, 14 years of age or above, will go to the state dress revue at Lubbock.

He plans to return Monday, April 23. Mrs. Lingenfelter and their son, Steve, will accompany him.

Allen first learned of Hereford through his wool broker who had the pamphlet telling about the country. The wool broker had obtained the information from a soldier to whom Jack Rose before the Rose and Barber partnership was formed. Allen wrote the real estate company of his desire to see the country. It was by use of a letter from Rose and Barber that the Allens obtained their visa, it being necessary to show a business reason for the trip. Allen believes information gained from comparison of methods in various areas visited will be beneficial in developing the country of Australia. "It is educational to see the same class of country here with big quantities of water under it," he remarked.

Mrs. Allen is president of the Country-Women's Association of Victoria, Australia, a part of a world-wide organization. From Hereford the Allens

"Year: Mid-Century, 1900-1950" Condensation of Half-Century

By Corinne Jennings
The large volume of "Year: Mid-Century Edition, 1900-1950" is a collection of fact and photographs covering a wide range of the time, and is published by Year Inc. of California.

Naturally we turned to the book section and now wish to give you a resume of what we found. If you are more interested in such subjects as music, art, science, war, radio, movies or others you will find them condensed and illustrated in this book for easy reading or information.

At the turn of the century the theme in writing was romance, morality, sentiment and religion, with Harold Bell Wright, Gene Stratton Porter and Winston Churchill (no relation to the British one) as the popular authors.

Charles Sheldon wrote "In His Steps" in 1897 combining all the above themes, to have 8 million copies published for which he received very little cash because of a copyright flaw.

Mark Twain, Henry James went in for writing and Upton Sinclair came forth with "The Jungle" in the same trend. Frank Norris' promising career was ended early by death and Theodore Dreiser wrote his first novel, "Sister Carrie" which was considered quite frank for the times.

Overseas, Rudyard Kipling was becoming famous and H. G. Wells was writing science fiction. In France, Emile Zola died (1902) and Antoine France a classical ironist was gaining readers. Marcel Proust wrote on the pre-war society, "Remembrance of Things Past," which was considered by Somerset Maugham as the greatest book of the half century.

After World War I authors developed a wary and rather cynical attitude, as a result of the war, and they became vigorous and unafraid to break away from tradition.

Bruce Barton is remembered for his portrayal of Christ as a business man. Freud opened new fields in psychology with new avenues of characterizations. Others—Virginia Wolfe, Huxley, D. H. Alexander, and Sherwood Anderson—were winning a place for themselves as writers.

The short story broke away from old patterns to reach a new peak of excellence with Ernest Hemmingway and Erskine Caldwell as leaders.

Poetry was making big strides in improvement under Robert Frost, Edna St. Vincent Millay

and George Santayana. The last named being a philosopher of note as well as poet. Then came the "troubled thirties" and the depression. Readers wanted to forget and found escape in the bulky books which were racy, yet plausible and with hypnotic powers in the form of novels. Hervey Allen wrote his "Anthonny Adverse" which was soon followed by Margaret Mitchell's "Gone With the Wind". The last named compares in popularity with Sheldon's earlier one with Elbert Hubbard's "Message to Garcia" running a close second in that era.

Ernest Hemmingway wrote his "To Have and to Have Not"; Sinclair Lewis brought out "Ann Vickers" which was not considered as good as his earlier one and Remarque did not stand so high with "The Road Back" as his former "All Quiet on the Western Front", but both did rate a high place.

New novelist included John Steinbeck, Thomas Wolfe and William Saroyan.

In non-fiction, Lawrence produced "Seven Keys to Wisdom"; Freeman, "Robert E. Lee" and Clarence D. Aymade his entrance with "Life With Father". Lloyd Douglas wrote "Magnificent Obsession" which is still considered one of his best and he ranked in popularity to compare with Gene Stratton Porter of the earlier date.

World War II literature gave us, Thomas Mann just finishing his "Joseph" trilogy and in the same years completing "The Beloved Returns" which he had been 28 years in writing. Steinbeck reached a new peak with "Grapes of Wrath" and continued recognition for "The Moon is Down", "Tortilla Flats" and "Of Mice and Men".

Arthur Koestler won renown with his "Darkness at Noon" and Hemmingway showed again with "For Whom the Bell Tolls". Maugham authored "The Razor's Edge" and arrived to rank with the tops.

Post war years years were lean ones for the writers, publishers, the booksellers and the readers. The high cost of printing and a third world war was threatening, before they could gather themselves together from the last one and with no time to collect material between.

Romance, sex, mystery and religious themes boomed, with Lloyd Douglas as a top favorite. In non-fiction, "Peace of Mind" by Liebman was a best seller.

Readers now wanted dreams, inward themes, new creeds and

TO JOIN HUSBAND

Mrs. Jimmy Sparkman is leaving this morning for Manchester, N. H., where she will join her husband, Pfc. Jimmy Sparkman, who has been a member of the Air Corps since January 9. She will be accompanied by her mother-in-law, Mrs. M. T. Sparkman, who will visit in Manchester a short time and will stop in Tulsa, Okla., on her return trip to visit another son and his wife.

science yarns. A fair harvest of novels have been selected as representative of the period with two from the pen of A. B. Guthrie Jr. "The Big Sky" and "The Way West" as high choice in historical novels. Tom Lea's "Brave Bulls" proved him to be a writer as well as an artist.

Thornton Wilder's "Ideas of March" was chosen and is a good substitute for the more ponderous Gibbon's "Rise and Fall of the Roman Empire". William Faulkner received recognition for "Intruder in the Dust" and John Marquand for "Point of No Return".

For the half century critics claimed that we had reached and passed a peak in literary works. "Gone With the Wind" sales were a sensation of the fifty year period. But the literary achievements of Leo Tolstol with his "Anna Karenina" and "War and Peace" of the century were still unsurpassed and even Hemmingway was not considered as a worthy contender and said himself he was not ready to challenge him.

It seems to be the opinion of most readers and critics, says Mrs. Boydston, County Librarian that though the past year may not have produced as many outstanding books, the general trend seems to be better or at least more popular with all readers.

Hereford PTA Members To Attend Spring Meeting

Several members of the Hereford Parent-Teacher Association are completing plans to attend sessions of the annual spring conference of Eighth District, Texas Congress of Parents and Teachers, at Childress on Monday, Tuesday, and Wednesday. Local members of the district board of managers will attend a school of instruction and board meeting on Monday. Delegates will register from 8:30 to 9:45 Tuesday morning, and registration will continue throughout the conference.

Mrs. Elmer Patterson, district vice-president for Deaf Smith, Farmer, Castro, and Swisher Counties, will serve on the registration committee and on Tuesday afternoon will have charge of one section of the workshop. Bob Wear, district chairman of character and spiritual life, is scheduled to give the invocation at the Tuesday luncheon and to discuss the work of his department during the workshop.

Robert Thompson, local president-elect, Mrs. Patterson, and Mrs. Wayne Edwards were named official delegates from the Hereford association. Since the association is entitled to one delegate for each ten members, Mrs. Earl Springer, president, urges all members who can do so to attend the conference as delegates.

State and district leaders of Parent-Teacher work are scheduled to appear on the program of the annual conference. Mrs. Orville K. Smith, Childress, district president, will preside at the program sessions in the Childress High School auditorium. Mrs. H. G. Stinnett, state president, whose home is in Plainview, will be an official guest, and official state representative will be Mrs. C. N. Bustin Jr. of Austin, a state vice-president. Also participating in the programs will be Mrs. F. C. McConnell, Austin, state chairman for home and family life. The program theme, "The Citizen Child, His Destiny a Free World" will be carried out in

scheduled talks, in the workshops, directed by the vice-presidents, and in a youth panel. Robert H. Birchfield, Amarillo high school principal, will direct the panel which will highlight the program on Tuesday night.

To take part in the panel discussion "What is Youth's Part in the Present World Situation" are high school students from six Panhandle cities, including Harold Dunnam, Shamrock; Jane Wilson, Pampa; Ruth Smith, Childress; Fred Saied, Wellington; Dorothy Biggers and Jeanette Gay, Tulsa; and Barney Young and Richard Thompson, Amarillo.

Social highlights of the three-day program will include the board dinner at 8 o'clock on Monday evening; a coffee from 8:30 to 9:45 Tuesday morning at the Woman's Department club; a noon luncheon on Tuesday; a twilight tea Tuesday evening at Childress Country club; and a band concert and fellowship hour at 7:30 Tuesday night. The conference will adjourn at noon on Wednesday.

Guests in the homes of Burl Elliston and Joe Elliston this week have been Mr. and Mrs. Pat D. Elliston and son, Dick, of Avenal, Calif.; Mrs. Grace Hevel of Denver, and Mr. and Mrs. H. P. Barnard Jr. of White Deer.

Henry Scott Concert Here Monday Third and Last for This Season

Henry L. Scott, who will present a concert at the Hereford High School auditorium on Monday evening at 8 o'clock, believes that through concert humor he can bring good music to the average audience in a way that will stimulate continued interest.

In the spring of 1945 when Scott proposed to give one of his humorous piano concerts in

Carnegie Hall, a prominent concert manager said to him, "Music lovers are basically humorless people. They expect their concerts to be solemn affairs and will resent anyone who has fun with music, no matter how artistically it may be done."

Mr. Scott, however, had faith in the openmindedness and sense of humor of concert audiences. Being a concert pianist himself, with a thorough appreciation of fine music, he believed that patrons and makers of music could also laugh at themselves.

He played at Carnegie Hall on October 5, 1945, before a packed house including artists, musicologists and critics. The result was an uproarious evening—and a \$50,000 guarantee from three managers for his first full year to be booked as America's First Concert Humorist.

Like most musical figures, Henry L. Scott showed his talent early. When he was four, he began to pick out melodies on the piano. His interest in humor began at the same time. During his days as a piano major at Syracuse University, he still loved music and still liked to make people laugh. So he hit on the idea of combining the two.

Eight years of auditions, orchestra work, tutoring, teaching, studying, and odd jobs went into his efforts to develop concert humor. The Scott recitals were before high school assemblies at one point.

Paradoxically, Scott is very serious about humor. "To project it artistically, one must strive to understand the whole illusive and intangible realm of humor," he contends. He practices what he preaches in his recitals, where he ranges from pantomime to the spoken word, from subtle satire to broad and riotous forms. He writes and arranges all his own material. Life Magazine, in quoting the nation's leading music critic, calls him the "Will Rogers of the Piano."

The Scott concert is presented here as the third and final presentation in concert series of the Hereford Mutual Concert Association. Admission is by membership card only.

No Slots or Gaming Devices in County

Deaf Smith county was commended this week by Price Daniel, Texas attorney general, for the part it has played in combating the use and presence of slot machines and gaming devices in the county.

In a letter this week to Gib Howard, county attorney, Daniel said, in part: "As you know, the conference of prosecuting attorneys here (Austin) on March 30-31 voted unanimously to request this office to mail each county attorney a list of the parties who paid the 1950-51 federal tax on slot machines and gaming devices in his county together with a copy to the appropriate district attorney. These lists are now being mailed, and I am pleased to advise that there will be none for your county. . . I appreciate the cooperation of county and district attorneys of our state in waging such a vigorous campaign against organized crime that present violators will close shop and outside hoodlums and racketeers will know that Texas is no place for their business."

St. Anthony's Humbles Price Thursday 34-20

St. Anthony's school softball team fulfilled an almost unhopd-for ambition Thursday afternoon when they defeated Price 8th graders from Amarillo, 34-20.

The game was a nightmare affair in which everything happened—good, bad, and comical. Catcher Chuck Diller zealously threw the ball into the unguarded face and teeth of his batterymate—hard enough to make the pitcher groggy; prickly weeds off the new field clung to the ball whenever the players tried to field the sphere.

Home runs, which pounded out like base hits, were carried incredible distances in the high wind. At the end of two dreary innings, the locals trailed by a 7-3 count, from the third inning on, St. Anthony's kept up a steady barrage. At the end of seven innings, they found themselves with a meager total of 34 runs. The visitors had 20—a few of which were handed out carelessly in the seventh inning.

The Price game will be returned in May.

Informal Double-Ring Ceremony Monday for Pitman-McWhorter

An informal ceremony on Monday morning at the home of the bride united in marriage Miss Helen Ann Pitman, daughter of Mr. and Mrs. J. A. Pitman, and John A. McWhorter, son of Mr. and Mrs. John Alvin McWhorter of Lubbock. Rev. R. H. Cagle, pastor of the First Baptist church, read the double-ring ceremony.

Vows were exchanged before an improvised altar arranged in front of the fireplace. White iron grill work interlaced with fern formed a screen for the fireplace and tall floor baskets of white stock, daisy chrysanthemums and carnations flanked by seven branched candelabra holding wedding tapers were reflected in the large mirror which backs the mantel. The traditional wedding marches were played by an aunt of the bride, Mrs. Don Taylor who came from her home in Louisiana, Mo. for the wedding.

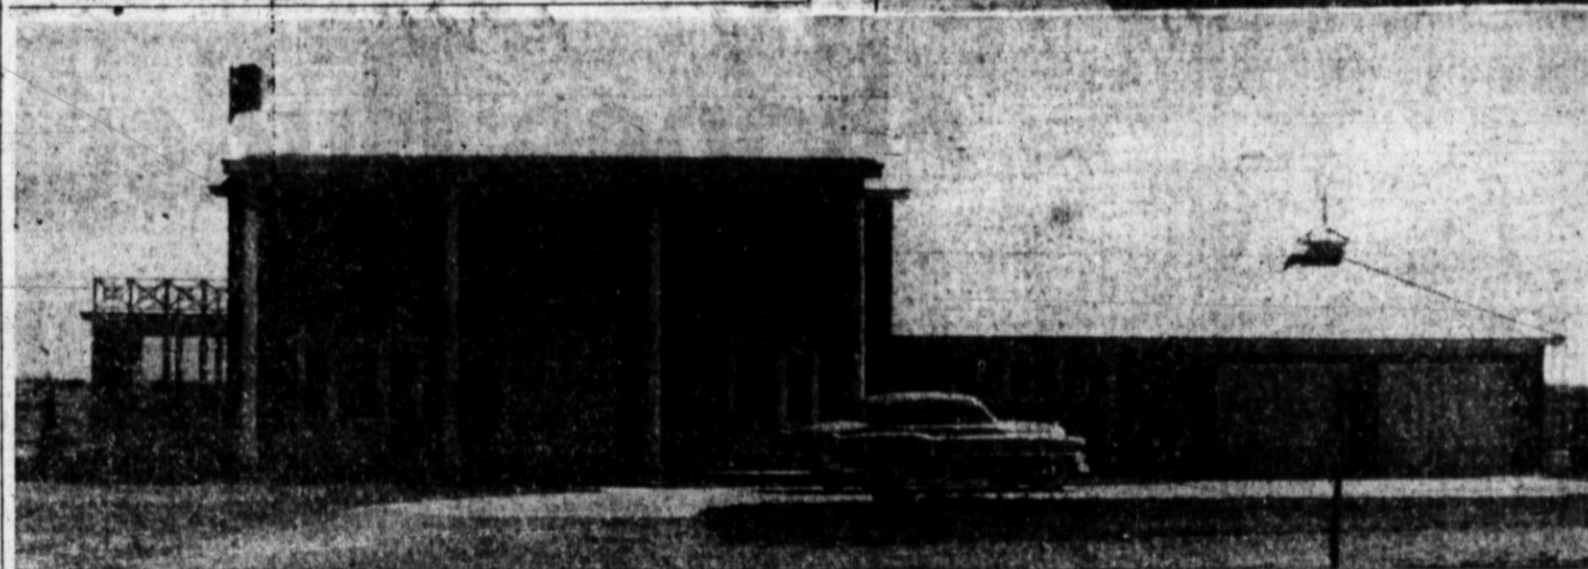

The couple entered together at the first strains of the wed-

ding march. The bride was attractive in a navy woolen suit worn with white blouse, small white veiled hat, white gloves and other accessories in navy. She wore a single white orchid

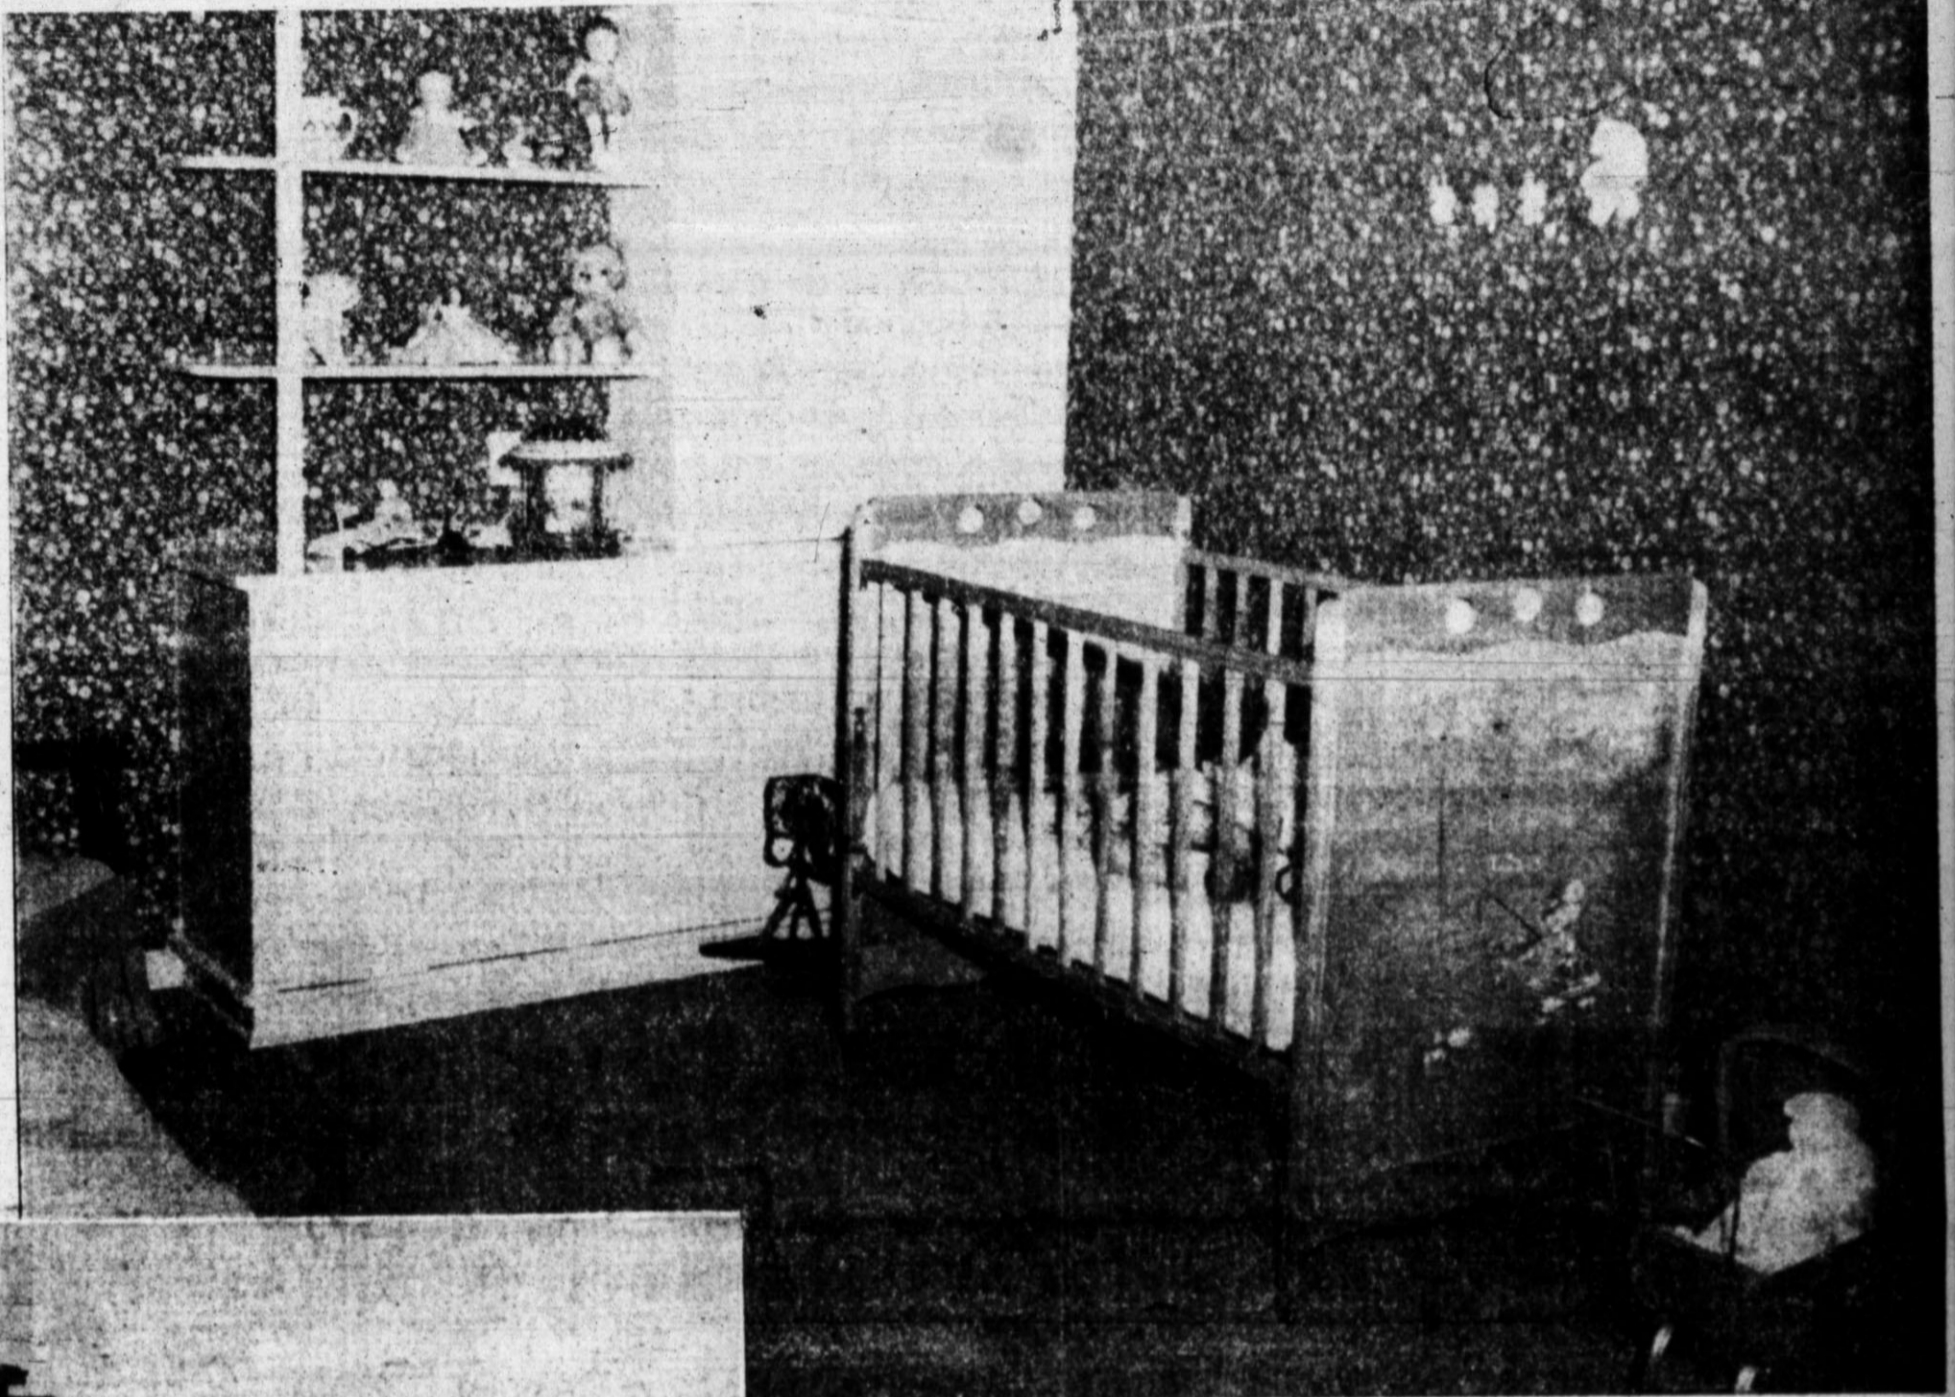

as a shoulder corsage.

Following the ceremony, coffee and bride's cake were served in the dining room where the table was laid with an embroidered cloth.

THE TOUR will begin at the Ralph McCullough home (above) on Texas Avenue where Mesdames Tom Carter, F. P. Lyons, Joe Poindexter, Lisle Woodford, and J. R. Overstreet will serve as hostesses. The McCullough home is a ranch type red brick. As guests enter the living room, they find walls in avocado green complemented with two-toned rose-beige carpet extending into the dining area. The picture window is draped with white faille draw curtains with rose-floral design. Pastel shades of rose and green are used in upholstery of the period furniture. The peaceful look lends the rooms a modern air and make the most of their dimensions.

HOSTESSES AT the W. L. Davis Jr. (above) home will be Mesdames Gerald Wilson, V. O. Hennen, S. L. Easley, and R. B. Miller. Monochromatic decoration is the theme in the W. L. Davis Jr. gray frame ranch-type home at 135 N. 9th street. The furniture is in birch and carpets are rose-beige needlepoint. Walls are papered in dark green with all-over pattern of tiny roses. Woodwork is light turquoise with the new inside shutters featured. The difficult task of combining different shades of one color has been achieved in every room. The camera caught the little daughter, Edith, sound asleep in the nursery.

THE EXTERIOR OF THE Colonial home of Dr. and Mrs. L. B. Barnett (left) furnishes the keynote for the interior with its traditional furniture and soft color harmony. The walls and woodwork are done in colonial blue with carpets and upholstery in gray-blue. Floral drapes are used in the living and dining room areas while organdy ruffled tie-backs are used for the three bedrooms on the second floor. The Barnett small fry have their own rooms, beds, chairs, chests of drawers, and little lamps. Hostesses here will be Mesdames: George Graham, E. L. Adams, E. W. Hobson, and B. E. Roberson.

Seven of Hereford's newest and most beautiful homes will be open to the public on April 20 from 2 to 6 p.m. for the annual Home Tour sponsored by the Garden Beautiful Club. Proceeds will go toward the club project, beautifying the Deaf Smith County Hospital grounds. Members of the club will serve as hostesses at each home where inspections may be made from the garret to the cellar. Visitors will see the newest in arrangements, in wood trends and all the new color harmonies in the ultra modern as well as colonial and combination furnishings. All the intangibles that go to make a house an interesting, enduringly pleasing place in which to establish a home will be in evidence as the visitors go from room to room, and each room will have at least one floral decoration done to blend with the room itself and its particular decor. The last three homes on the tour—the Richard Barnard, Francis Hardwick, and the LeRoy Aven homes—will be shown in Thursday's Brand.

THE ARRANGEMENT committee put the final touches to the table for the Farm and Ranch Club annual guest day luncheon held at Hotel Jim Hill Tuesday. Reading left to right they are: Mrs. Edd Thomas, Mrs. Charley Burk, Mrs. Buren Sowell (president) and Mrs. Henry Melton.—Brand Staff Photo. (See story inside).

JIMMIE ALLRED home is a spacious nine-room modern brick veneer at 129 Avenue D. Woodwork throughout the house is mahogany with walls varying in color to suit the decor of the room. In the living room and adjoining den, walls are in soft green with buff and rose used in drapes and carpets. Deep fireside chairs in rose add to the color scheme and the comfort of the home. The fireplace is of buff brick matching the exterior. Clever space-saving ideas have been worked out and the basement recreation room affords extra sleeping space as well as rumpus room for the children. Hostesses will be: Mesdames D. C. Kinsey, Carroll Whiteside, V. O. Hennen, and Mary Seliger. Refreshments will be served here.

Farm and Ranch Club Holds Guest Day Luncheon at Hotel Jim Hill

An attractively arranged luncheon and program held at Hotel Jim Hill marked the Farm and Ranch club annual guest-day affair Monday at 1 o'clock. The table, arranged in a square, featured the red carnation, the flower, in decorations and places for guests were marked with red carnation corsages.

Using the club's 1950-51 course of study "Home and Self Improvement" Mr. Wear built his talk around the theme "Making a House a Home". He made clear the distinction

between a house and a home and urged the women first to use all the materials they had at hand to beautify and make their homes attractive, and to establish a total of order in meeting physical requirements which are the first essentials.

"Then look after the spiritual needs- for the home is a divine institution and there must be the right relationships between husband and wife- and between parents and children" he said. "Parents need to meet their obligations and to teach their children to meet theirs", concluded and urged that children be given guidance and companionship through example rather than criticism. "Our nation can never be any stronger than its home life", he said.

Special guests included Mr. and Mrs. Bob Wear, and Mesdames Mary E. Thuet, John Van Meter, D. C. McWhorter, D. C. Banks, B. R. Jennings, B. J. Jackson, David Sowell, Margaret Lee, W. L. Jones, Joe Reininger, Glenn Burrus, Jimmy Stocks, Frank Cogdell, John McLean, Elmer Combs, and Julian Perrin.

Miniature Circus Grows Out Of Barefoot Boy's Dreams

Children who attended little Cheryl Edmondson's birthday party Sunday had the thrill of going to the circus—not a big circus with giant elephants, but a miniature circus with the details complete—the kind that will set each little mind to dreaming about real horses, animals, cages and tents.

For Cheryl's fourth birthday, her grandfather, Abe Martin, set up his miniature circus, one that represents the love and day dreams of a small bare-footed boy who used to play hooky when a circus came to town.

Martin never realized his childhood dream of working in a circus. But as he grew, so grew his love for the circus lots—for horses, elephants, and other animals.

With a pang of remorse, he realized one day that his dream was never to be fulfilled. In fact, circuses became more scarce and less elaborate. He read where some of the largest were bankrupt.

"Forget it," he kept telling himself. But somehow he always kept smelling the odor of damp sawdust. Finally, the idea of a miniature circus dawned upon him.

Martin flirted with the miniature circus idea for several months before ever mentioning it to anyone. One day he spoke of it to a friend, and needless

to say, found prompt encouragement. He immediately started working on Martin's Greater Greater Shows.

Today Martin's show is probably the only one of its kind in Texas. The circus now has a total of 7 figures, ten wagons, etc., including 40 figures of people, 12 cages and tabeau wagons, 31 horses, two tents and banners, and 12 animals. Perhaps the most remarkable thing about the miniature circus is the method in which all details have been carried out. Those who view the show are always surprised by the realism which it presents.

"When I first started out, I only intended to have a tent and two or three animals," he said, "but the thing grows on you. Now I can see that I am only beginning. I intend to make it complete before I quit."

It takes Martin a little longer than 12 hours to carve out, paint, and complete one horse. This does not include the harness, and as stated before, the show has 31 horses.

The horses, it seems, have given Martin more trouble than any other figures in the show. He first tried making molds and then casting them in builders plaster. The figures cracked and broke easily, however, so the idea was abandoned. Finally he began carving them from wood, using old orange crates.

And, by the way, the entire circus has been practically made from old orange crates. He takes the boards, glues them together then saws out the profile. From this crude start he whittles and shapes the figures. Possibly the stance, legs and curves in the horses are the outstanding thing in the show.

The elephant was another difficult animal to carve. Martin spent two hours making the head alone.

People in the circus presented a problem, and he says that it took some time to learn to shape the heads of women. He made these figures from paper mache and glue, the bodies of excelsior and wire.

More tedious work came in

the manufacture of band instruments. They are made of wire and solder, mostly, but some required more material. The drum, for instance, was made from paper cartons like you get from drug stores; the calliope was only a field coil in an automobile.

"I have stayed awake at nights thinking out something suitable for different parts of the show," Martin said. "And at other times I would be walking along and see something that would give me an idea for some part of it. My show is mostly made from junk—and materials from which it was built cost less than \$10.00."

Great for the clothing—neat costumes in gay colors—you would think should go to Mrs. Martin, but Abe did most of the needlework himself.

Another thing that makes the show all the more remarkable is the fact that his only tools were a saw, pocket knife and an old hammer.

"One I went to a circus to get some ideas for my show," he said. "I really was disappointed. The wagons aren't colored and decorated like they used to be, and even the costumes seem drab."

Martin's show, which was on display on Pioneer Day in Hereford, 1937, has become widely known.

A hobby? Yes, and a rare one, too. But Martin likes it. His circus now comes to life for his grandchild just as the real circuses were imprinted upon the mind of a barefooted boy many years ago.

MacArthur Controversy Has Two Angles

The dismissal of General Douglas MacArthur as supreme United Nations and United States commander in the Pacific area still rages as the hottest issue since the end of World War II.

Basically, there can be no denying President Truman's right in relieving a subordinate whom he feels is not discharging his duties in accordance with United States policy.

No one man is more important than the country.

There is no doubt either, that the American system calls for civil authority over military authority. That is as it should be.

The thing that has generated so much anti-Truman heat during the past week, however, is the manner in which the dismissal was accomplished and the situation surrounding the discharge.

MacArthur, as a long and faithful servant of his country, deserved a more decent exit than was accorded through the disgraceful public rebuff given him by the not-too-subtle Truman. MacArthur was a controversial figure himself, but not even his opponents can deny his ability or superior knowledge of the Oriental situation.

As supreme commander, Mac faced the frustrating problem of fighting a real enemy that used real ammunition and equipment with the token army sent over by our "allies" in the United Nations, and with inadequate equipment.

On top of the lack of equipment, MacArthur lacked proper authority to carry the war to a quick, successful ending. The administration said he was given full authority, but he had one hand tied behind his back all the time.

He was supreme commander, yet his efforts were hamstrung by little bureaucrats at every turn. His wide knowledge of the Orient was side-tracked for "political expediency." MacArthur was the target of "little men in big jobs" and they didn't relax their vigil until they had him sacked.

If there was any definite course charted for MacArthur to follow, it was hard to recognize. The woeful thing about the situation over there is that Truman's administration has never given us anything better to hope for in Korea than a holding action or, as MacArthur recently called it, a stalemate.

That might have been what the administration wanted but that wasn't keeping American boys from getting killed. If Korea isn't cause enough to fight tooth and nail for, why send American boys to slaughter.

If any other country did that, we'd call them hypocrites. That's what we are.

"Good Old Harry" has made quite a hit among British "statesmen" who are sweating over their own hides, hoping that they can play both ends against the middle and keep both the Communists and the free world happy.

How much did the British have in the firing of Mac? They are apparently more willing to tell us how to conduct the fight for freedom than they are in contributing, on a like basis as is America, to the securing of that freedom.

Now, as further proof that they'll gladly undergo another Munich, the British have dangled Formosa before the eyes of the power-hungry Communists. They couldn't buy off Germany and they won't be able to buy off Russia.

But you can't say they didn't try. Maybe MacArthur's course of action would have plunged the world into another global war. Is this move going to prevent it?

If we took our horns as champions of world freedom and hide behind the bushes at the showdown, how are we to justify our role as leader of the free world?

The administration says we're not prepared for a war with Russia. Why not? We've certainly spent enough money for defense to be better prepared than we are.

Not too long ago, Mr. Truman's "crony," Defense Secretary Louis Johnson told the world, "We can lick hell out of Russia with one hand tied behind our back."

That was before Korea. That was way before the majority of our naval vessels were pulled out of mothballs. That was before our buildup of manpower—before recalling national guard units and reservists. How well have we done in "licking hell

out of" even the Chinese and Korean Communists?

Military strategists tell us that Europe is the place to stop Communism—not Korea or Asia. Our president has told the world we will stop the spread of Communism WHEREVER it may occur on the face of the globe.

If you bar the front door, there's nothing keeping the Commies from coming in the back way, although the people who have a greater interest in what goes on around the front door may try to tell you otherwise.

Reports from Korea tell of 130,000 Koreans eligible for military duty not being utilized. Do we want to win this war or don't we? Do we want to crush the Communists and all they stand for in Korea and Asia or don't we?

It's high time the American leaders make up their minds and let the American people in on what kind of a future they're planning for us.

Maybe we won't like it.

If America intends to oppose Communism on the Korean front with a token effort, let's quit sacrificing American lives and get the boys home. Those are human lives our leaders are letting the Reds shoot at, not statistics.

If we intend to stand back of our high-sounding calling of freeing the world from the shackles of Communism, let's quit piddling around and get the job done. Let's hit the Communists WHEREVER we have to to render their war machines useless.

Maybe MacArthur had the right idea all along!

Power Revolutionizes Farm

The productive record of American farms has greatly increased, guaranteeing to the people of this country an abundant diet and sufficient feed and fiber to make possible many of our modern operations.

The manufacturers of farm machinery have recently issued a booklet explaining that the American farmer has moved from a muscle-worker, commanding 1.6 horsepower in 1870, to a director of engines and machinery, commanding 33 horsepower. Back of the production miracle is the age of mechanical power, which has made it possible for our farmers to go beyond the produce-for-yourself type of agriculture.

The use of mechanical power on the farms of this country has just begun. Mechanization is fast becoming the rule and the implement makers are vying with each other to develop new machines to ease the back-breaking labor of agriculture. Improved highways, electricity, telephones and radio service have combined to contribute some degree of comfort to those who make our farm production possible.

Ike Snubs Dewey

ONLY A FEW insiders know it, but Governor Dewey has been coldly snubbed by General Eisenhower.

Ever since Dewey announced his support for Eisenhower for the 1952 presidential nomination, the governor has tried to arrange a political chat with his prize candidate. However, Ike artfully dodged each overture, and has sent back word that he was "too busy" or "just leaving town" or "ill."

This cold-shoulder treatment has finally gotten under Dewey's skin and caused him to describe Eisenhower in colorful—but unprintable—language. Dewey still regards himself as head of the Republican party and is furious at Ike's polite rebuff. One of Ike's bosom army pals explained the Dewey snub this way:

"It's all very simple," he admitted in this column. "In the first place Ike just doesn't like Dewey. Secondly, Ike's political backers have told him that the New York delegation to the Republican convention is in the bag—regardless of where Dewey stands."

The ironical twist is that Dewey not only is committed to Eisenhower publicly, but is a leading supporter of Eisenhower's foreign-policy point of view inside the Republican party.

Note—Ike's dislike of Dewey goes back to the spring of 1948 and the bitter struggle over the GOP presidential nomination. While Ike was flirting with the idea of accepting a draft, he received word that the Dewey forces were collecting a "file" for use against Eisenhower in case he became an active competitor for the nomination.

Aiding Guerrillas

A secret decision to aid China's 1,500,000 anti-Communist guerrillas has been made by America's top policy group, the national security council. Under this decision, U.S. agents will contact guerrilla leaders on the mainland and offer limited armed aid for raids on Communist strongholds and supply lines. This plan would follow the pattern of assistance to Greek and Yugoslav guerrillas in World War II.

Authentic reports from the mainland say the Chinese guerrillas, some of them former nationalist troops, are in actual control of vast areas in the south and northwest of China. With Communist defeat

in Korea, the guerrillas have launched bold attacks throughout China. Pekin's red dictator, Mao Tse-Tung, has imported Soviet experts to run the "anti-bandit extermination campaign." Some reports claim that up to half a million Chinese have been killed or arrested in this campaign in the last year.

Meanwhile an argument still rages inside the security council on arming, for use in Korea, the 600,000 trained and partially equipped troops of Generalissimo Chiang Kai-Shek on the island of Formosa.

The chief advocate of aid to Generalissimo Chiang is General MacArthur. He called Washington that with Chiang's troops he would have a sufficient force to drive to the Manchurian border.

However, the opponents in the state department and the pentagon claim that Chiang's troops would desert, that Chiang is discredited in Asia, and has no control over the guerrillas.

Sopping the Gravy

While small firms have been left out in the cold, the giant corporations have been sopping up all the gravy in defense subsidies.

Already the big companies, such as U.S. steel, have been granted over two billion dollars in tax subsidies for defense expansion. Yet at the same time, applications from small firms and newcomers are gathering dust in government offices.

These government subsidies are in the form of accelerated amortization—or rapid tax write-offs—on new plants which the government approves for the defense effort. The certifying agency is the national production administration, which has been giving big business all the breaks.

For example, U.S. steel, through its subsidiary, Carnegie-Illinois, has obtained over \$300,000,000 in tax write-offs for one plant at Morrisville, Pa.

The truth is that small business is getting a worse deal than labor from mobilization boss Charles Wilson.

War Notes

The Chinese Communists are pouring reinforcements into a new line north of the 38th parallel. They are using the German system of replacing battalion for battalion instead of man for man. . . . Meanwhile, General MacArthur has been begging the joint chiefs of staff to double American replacements to Korea, which have been averaging about 14,200 per month. A 50 per cent increase has been agreed upon.

SUNDAY'S CURRENT QUESTION

Poll Shows Service On Jury Is Duty and Privilege of Citizen

May has been officially designated as Jury Service Month by Gov. Allan Shivers. What do you think should be the citizen's attitude toward jury duty? What advantages, if any, do you think a person gains from serving on a jury?

Mr. Leon Perry—I think people should be willing to serve on the jury if they are asked to. I believe they gain some advantage to their personality toward the public.

Mrs. W. H. Franz—I think they should be pleased to serve on it. To use their equal rights that have been granted to all citizens is the biggest advantage.

Mrs. Roy Robertson—Yes, I think it is a citizen's duty to serve on a jury if they are called upon. I think they do learn a lot of things and it helps them to be a better citizen.

Mrs. Jim Robinson—I think he should serve.

Mrs. Sam Hunter of Dimmitt—I think we should certainly be willing to serve on the jury when we are called and I think we should study the questions involved intelligently in order to render a just verdict. From serving on a jury, I think you would get a better understanding of other people's problems.

A. G. Biggers—It should be an honor to serve on a jury. We have to have someone to work for the public.

The BOOTLEG Philosopher

Editor's note: The Bootleg Philosopher on his farm near Bootleg has another wild notion this week his letter reveals. Dear Editor:

I read in a paper this mornin' which turned up out here while I was debating over whether to plow or rest, some people refer to the U. S. Senate as the greatest deliberative body on earth but year in and year out I put in about as much time deliberatin on my farm out here as anybody they've got in Washington, that the United States Senate after three months of debate has finally voted on whether or not the President can send troops to Europe.

As I understand the verdict, the President can, provided he doesn't send over four divisions.

On the other hand, if he wants to send more than four, he can also, as the Senate decision doesn't have the fore of

Louisa's Letter

Dear Louisa: My father died about six weeks ago. He had been in ill health a long time and was quite old.

My problem is this. I had been planning a tea for several brides and thought I would go on with it but my husband thinks I should wait at least three months out of respect.

What do you think?
B. L. R. Indiana

Answer: I think you would lay yourself open to criticism if you had an elaborate tea so soon after your father's death. If it were just a small party for a few intimate friends, it might be different.

I usually think that each person has to judge those things for himself, as it really boils down to how he, himself, feels about it.

Can't you wait a few months? The brides will probably enjoy it just as much later on.
LOUISA

Dear Louisa: My son told me a few days ago that he thought the present day wives managed their work so much better than we women did twenty years ago.

I agreed with him but I added that if we could have stacked dishes in a dishwasher and thrown all the soiled clothes in a washing machine, instead of heating water on a wood stove and doing all the actual work of scrubbing, lifting pails of water and keeping a fire going, we would have managed better, too.

Don't you agree with me?
Sixty—Minn.

Answer: I was one of those brides without conveniences too. And although I live in a warmer state than you do, I depended on open grate fires for heat and a kerosene stove in the kitchen for cooking.

I doubt if many of the girls to-day would feel so full of pep at the end of the day, if they had had to cope with the hardships and inconveniences we older ones looked upon as necessary evils.

No Parking Meters

The parking meter question, of course, brought out most of the votes, with 198 voting for keeping the meters while 225 voted against them. Meters were installed here less than six months ago on a trial basis.

Due to the closeness in the race in all probability another election will be called within the next 60 days.

They are Janice and Joyce Hall, 2½ year-old daughters of Mrs. Melvin Hall, now of Dallas, whose husband was killed in a Moore county explosion last May; Kenneth and Keith Mitchell, 2, sons of Mr. and Mrs. J. Wheat Outlook

By Dr. O. H. Loyd We have planted wheat continuously beginning in 1906 up to and above two thousand acres per year, and I have seen wheat look the best on April first, and yet make a very poor crop, and again have seen it look the worst on April first and still make a good crop when harvest came. This applied up to mid-summer of 1945 during which our seasons could be classed as normal Panhandle seasons and since which times the seasons cannot be classed as normal for either of these five years. I will discuss the cause of these off seasons in a later article.

The seasons of 1950 and 51 have both been mavericks of the worst type, and we are right now up to a point where we must decide, as soon as the danger of blowing soil passes, which will be in the next few days, what to do with our farms to the best interest of ourselves and all concerned, for it is evident that from 80 to 90 percent of our own wheat will be abandoned in southern Oldham and Northern part of our adjoining county of Deaf Smith.

'Tater Peelin's

By Roberta Campbell

Wonder who Harry S. Truman thinks he is—the president? Anyway, seems like he has revised the old adage, "I'm from Missouri, I'll have to be shown," to read, "I'm from Missouri and I'll SHOW 'EM."

Which brings to mind a conversation with Dr. Ima Barlow professor of history over at W. T. upon her return from Europe last summer.

Her party was in Sweden at the time the Korean war broke out and she said it was all the people could do to keep from stagin' a celebration because they had long expected Russia to start an invasion over on their side. Her prediction at that time was that they would stir up trouble first in Iraq and Iran because of much needed oil reserves and developments lately seem to bear out her prophecy.

Judy Millard, blonde and four years old, should grow up to be a very good efficiency expert for some big company because she is already tryin' to convince her mother, Mrs. Gertrude Millard, who operates the S9 cafe over at Dawn that it is utter foolishness to wash the back of your hands when you only use the front side to eat with.

She probably also won the approval of the candy salesman with her declaration that she likes EVERY BIT of the kinds of candy and bubble gum in the show case.

The heart of the nation which was warmed recently over the pictures and story Life Magazine carried about little adopted Linda Joy Young was chilled again by the newspaper release that she is to die of leukemia.

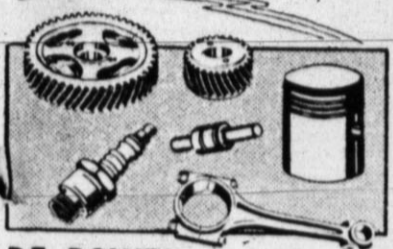

We can't keep from wonderin' if this cancer of the blood stream which has claimed the life of one of our teachers and at least two or three others from this locality lately could be the aftermath of some of our wonder drugs.

By the way, Mrs. V. O. Hennen is chairman of the Cancer Fund Drive which is now in progress.

Party Honors Cheryl Edmonson

Cheryl Edmonson celebrated her fourth birthday Sunday with a gala affair at the home of her parents, Mr. and Mrs. James Edmonson, and at the home of her grandparents, Mr. and Mrs. Abe Martin.

The children assembled at her parents home and played running games. Then each little guest and the honoree was presented four pennies with which to purchase a ticket to the circus and to buy all the goodies that go with a show. Then they went to Cheryl's grandparents' home for the exciting feature.

As the children approached the ticket box, circus music filled the air, as did the cry of the barkers. "Right this way, folks get your cracker jacks over here." Then the children excitedly inspected "MARTIN'S GREATER SHOWS", the circus which Mr. Martin has carved and built. Mr. Martin with his able assistants - Mrs. Martin, Mr. Edmonson, and Richard Clark sold and took up the tickets, sold cracker jacks, ice cream cones and toy horns and whistles. While enjoying the goodies, the children sat in front of the stage of the Marionette show which Mr. Martin also made. Shrieks of joy and laughter filled the air as the dolls danced and performed for the children.

Moving pictures were made by Robert Thompson and Mrs. V. C. Hopson and flash pictures by Jimmie Gilentine.

After the show the children returned to Cheryl's home for

MRS. NORRIS LARMER

What's Cooking? Anything From Spareribs, T-Bone, to Chicken

It may be steaks, chicken, lamb or spareribs if you like barbecued meat, but whatever the choice of meat the secret is in the sauce. Barbecued meat is good any time of the year, prepared in the kitchen in the winter and on the outdoor grill in the summer. The sauce has many uses and can be kept in the refrigerator indefinitely.

Mr. and Mrs. Norris Larmer love to barbecue and have built a stone terrace with a large barbecue within easy range of the kitchen door. There they cook whatever is in season using one sauce for all of it. Mrs. Larmer usually does the indoor cooking job but she has been cooking out of doors since she was a little girl and has collected recipes for barbecues and Mexican food for years.

The sauce they use has been polished and perfected until it is now her pride and joy recipe and it practically does away with any doubt about the appetite appeal. Here is Mrs. Larmer's recipe:

- Barbecue Sauce
- 1 pound margerine or butter
- 1 cup brown sugar
- 4 bay leaves
- 1 bottle tomato ketchup
- 1 large bottle prepared mustard
- 4 buttons garlic
- 1 bottle Worcestershire sauce
- 1 teaspoon chili powder
- 1/4 cup vinegar

Salt and pepper to taste

Blend all ingredients; heat slowly and let come to a boil. Simmer about five minutes.

The Larmers consider steaks about their best dish. They select them 1 1/2 to 2 inches thick, place them on the barbecue grill and allow to brown lightly on both sides. (That old question of whether to salt and pepper the meat before putting on the grill is largely a matter of individual state. Mrs. Larmer seasons hers first.) When the steaks are browned a little on both sides brush on the sauce and finish cooking over the charcoal. Turn often and swab frequently with the sauce.

Charcoal is the most popular fuel for the outdoor grill but the Larmers use hickory when they can get it. Flames should be allowed to die down until there's nothing but hot coals. When they cook the barbecue inside they brown the steaks a little on top stove and place them in a hot oven, brushing on the sauce frequently and turning often as with the grill.

What to eat with the steak? That depends upon the taste too. Larmer rubs margerine or butter over potatoes, wraps them up with foil paper and drops them into the bed of coals. They take about an hour to cook so that has to be done before the barbecue gets underway.

By the time the barbecue is ready everything smells so good nobody is in the mood to wait around for the potatoes to get done. Beans go good with any kind of barbecued meat and of course a good salad. Men like hot coffee whether the feast is inside the house or out.

The "Voice of Defense" Reports to Texas

In times like these, when our way of life is threatened, Texans turn to their fastest, most dependable means of communication—and ask—

Is our telephone system prepared to handle its vital role as the "Voice of Defense"...

Here's part of the answer. There are twice as many telephones serving Texas as there were before World War II. Thousands of miles of long distance circuits have been added. Over 17,000 more telephone men and women are on the job to see this new emergency through—skilled, experienced people, tested and proved in many emergencies.

But preparedness means continued growth. We're looking ahead and working ahead to keep telephone service one of Texas' greatest assets in its defense efforts.

The "OTHER GUY" and YOU

The OTHER GUY has been told that prices are higher than they ever will be again, and he believed it.

The OTHER GUY and his wife and two children live in a little apartment and pay a lot of rent. At the end of each month, he pays the money and gets a slip of paper in return . . . that's all.

He'd like to build a new home but he's heard that inferior lumber is being sold now.

He figured out that if he builds a house now and prices go down, he'll have to pay the same high payments while his wages will probably go down.

But YOU are smart! You know that every indication points toward higher prices in the future.

You realize that when you build a home, every payment made is an investment. The slip of paper you receive each month in return for your payment says that you own a larger part of your home.

You've talked to lumber experts and found that lumber is as good or better than ever before . . . and probably will be (for civilian use) in the future.

You know that prices will probably keep going up and the sooner you build, the better off you're going to be.

THE MOST BLUSHINGLY HILARIOUS HIT EVER FILMED!

You're going to fall in love with BILLIE DAWN; she's beautiful, blonde, brazen—and OH, BRU-THER! Okay, so maybe she is a little dumb! Brains aren't everything—and the other things that count—Billie's got!

Here is the rowdiest, most uproarious comedy hit of the century! You'll want to see it again and again—and AGAIN!

WARNING! COME EARLY FOR GOOD SEATS! FROM COAST TO COAST THIS SMASH HIT IS PLAYING TO STANDING ROOM ONLY!

Are you just a talker... or are you interested in a little action?

She's my broad, SEE, and you lay off! Your type should go for snooty dames...not tomatoes!

Stop calling my tomato a broad, you uncouth Millionaire! She's got a brain too...among other things!

DAGWOOD, WILL YOU REMEMBER TO PUT THE LEG OF LAMB IN THE OVEN IN A HALF HOUR?

DON'T WORRY-- I WON'T FORGET IT

OH, DEAR-- I'M WORRIED

Z-Z

RING

WHAT'S THAT?

COULD YOU SPARE A HUNGRY MAN A DIME FOR A CUP OF COFFEE?

I'LL DO BETTER THAN THAT-- COME IN

IF YOU HADN'T AWAKENED ME, I WOULD'VE FORGOTTEN THE ROAST-- HERE'S A WHOLE DOLLAR

GREAT SCOTT! THE ROAST IS GONE-- THAT TRAMP MUST'VE SWIPED IT-- THE INGRATE!

GIVE ME ANOTHER LEG OF LAMB-- JUST LIKE THE ONE MY WIFE BOUGHT THIS MORNING

THAT WAS VERY EXPENSIVE

THERE'S STILL TIME TO ROAST IT BEFORE BLONDIE GETS HOME-- SHE MUST NEVER FIND OUT ABOUT THIS

THE LAMB WILL BE PERFECT-- I'VE BASTED IT A HUNDRED TIMES

RING

THERE'S BLONDIE-- I'LL CARRY THIS TO THE DOOR AND SURPRISE HER WITH IT

I WAS AFRAID YOU'D FORGET IT, SO I TOOK IT NEXT DOOR TO MRS. WOODLEY AND HAD HER ROAST IT IN HER OVEN

Prince Valiant

IN THE DAYS OF KING ARTHUR
BY HAROLD R. FOSTER

Synopsis: TURMOIL AND STRIFE MAKE THE COAST ROAD TO ROME IMPASSABLE, SO PRINCE VALIANT AND HIS COMPANIONS MUST FIND A WAY TO CROSS THE ALPS. THE PASS CALLED PETIT ST. BERNARD IS NEAREST.

LOOKING BACK THEY CAN SEE THE VALLEY OF THE ISÈRE WINDING INTO THE DISTANCE, ABOVE THEM THE ETERNAL SNOWS.

MAN AND BEAST CLIMB, PANTING IN THE THIN AIR. A MISTY SUN BURNS IN THE SKY.

"THERE WILL BE A CHANGE IN THE WEATHER," SAYS PAUL. "I HOPE IT COMES QUICKLY, FOR ALREADY THE SUN'S HEAT HAS LOOSENED THE SNOW!"

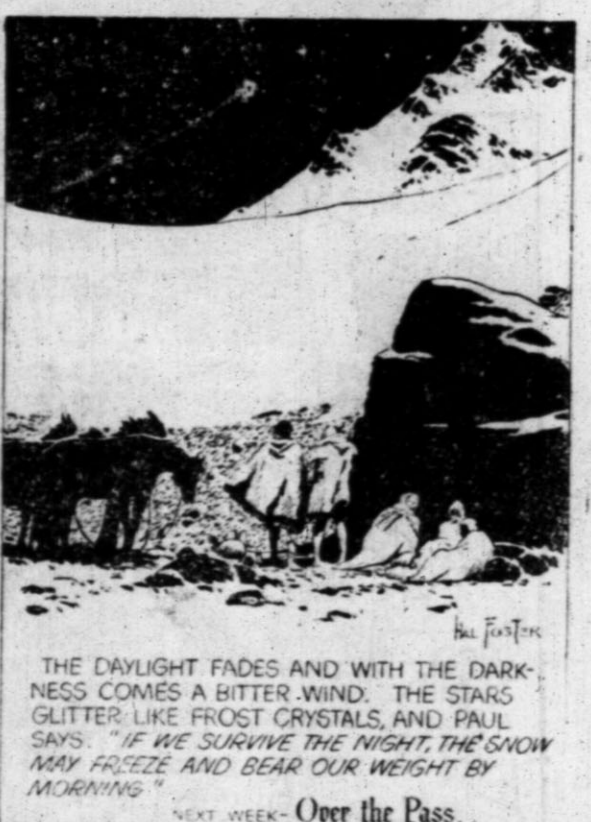

OCCASIONALLY THEY HEAR THE ROAR OF A DISTANT AVALANCHE. THEN ARF LOOKS UPWARD AND SCREAMS: "LOOK OUT!"

HIGH UP THE MOUNTAINSIDE THEY SEE THE AVALANCHE START, AND SEEK WHAT SHELTER THEY CAN FIND. THE WHITE HORROR THUNDERS DOWNWARD, VEILING EVERYTHING IN SWIRLING SNOW.

THE ROAR CEASES, THE AIR CLEARS AND THERE, RIGHT ACROSS THE PASS, IS A HUGE WALL OF SNOW THROUGH WHICH THEIR MOUNTS CANNOT FLOUNDER.

THE DAYLIGHT FADES AND WITH THE DARKNESS COMES A BITTER WIND. THE STARS GLITTER LIKE FROST CRYSTALS, AND PAUL SAYS: "IF WE SURVIVE THE NIGHT, THE SNOW MAY FREEZE AND BEAR OUR WEIGHT BY MORNING"

NEXT WEEK - Over the Pass.

THEY SPEED TO THE NEAR-BY AIRPORT...
