AN INDIAN GRAVE was uncovered on the O. K. Higgins farm Thursday afternoon by George Millard, above. All the articles found in the grave are shown above. They include: Three arrowheads, four knives, three side-scrappers, a 16 1/4 inch awl, three pieces of bone awls, four pieces of paint, a skull, part of the jaw and teeth, finger bones, and several other bones. Millard, who has a collection of Indian relics, said he estimated the remains were those of a male about 25 years of age. The remains were found in the north draw of the Higgins place, which is located north of Dawn. He was buried flexed, lying down, facing west. All remains were contained in an area of about 36 inches square. Millard who was looking for bullfrogs at the time, first noticed two or three pieces of bone sticking out of the ground. Covered by rocks. The bones were about eight feet from the top of the bank. Brand Staff Photo.

## McFarland, Rodgers To Washington Conferences

A series of conferences, designed to stimulate industrial activity in Deaf Smith county and to formulate plans for the adoption of a standard label for all products made and grown in Deaf Smith county, will be held in Washington during the coming week between Chamber of Commerce Secretary-Manager Tom McFarland, David Rodgers of Dawn, and various government officials and business leaders.

McFarland and Rodgers left Hereford Saturday on a flying trip to the nation's capitol where they will meet with representatives of the Pure Food and Drug Administration regarding exclusive marking for locally-grown foods, showing that they were produced in Deaf Smith County, Texas.

The two men have an appointment Tuesday, June 12 with the Pure Food and Drug men and on Monday with Congressman Walter Rogers.

A conference will be held with the National Security Resources Board on matters of community interest, with an eye to eventual industrial development of the county.

The Santa Fe railroad has made it possible for the two Deaf Smith county men to meet with that firm's legislative representative in Washington in regard to the matter of nurturing industry in Hereford.

It is the intention of the Chamber of Commerce to secure such labeling privileges for products grown in the county, citing the nutritive and health-giving benefits through the standardized label. Such would be soft of a "seal of approval" so the buying public would be clearly informed what they were getting when buying a Deaf Smith county product.

McFarland made a trip earlier in the year to Denver where he met with the regional head of the Pure Food and Drug Administration on the labeling matter. They referred him to Washington for a final answer.

The Chamber secretary-manager said things are being held up on the standardized labeling matter because "there are no statistics to back up the claims made in 25 national publications on Deaf Smith county and things grown there."

While in Washington, McFarland and Rodgers will also meet with officials of the Rand-McNally map making firm regarding matters pertaining to Highway 60 Association. They plan to be gone about a week.

Referring both to the industrial development and the matter of labeling the produce of Deaf Smith county as such and protecting the benefits afforded by such claims, McFarland said, "We can't see the forest for the trees here. Other people are capitalizing on things we could be if they would let us."

He specifically mentioned a Wisconsin firm selling a flour labeled "Deaf Smith County Flour", with the label citing the mineral and vitamin benefits in products grown in Deaf Smith County.

"We don't want to stop this kind of publicity," McFarland commented, "we want to take advantage of it with everything we produce."

McFarland and Rodgers will also meet with officials of the Rand-McNally map making firm regarding matters pertaining to Highway 60 Association. They plan to be gone about a week.

### June 30 Deadline On Direct Loans For Veterans

World War II veterans planning to apply for direct home and farm loans from the veterans Administration are reminded by the VA that the Direct Loan Program ends by law on June 30, 1951.

VA states it would scarcely be possible in most instances to process applications before the June 30 deadline that are received by VA Regional Offices after June 15.

The Housing Act of 1950 authorized VA to make direct loans up to \$10,000 at four percent interest to World War II veterans with which to buy or build a home, or to build or improve a farmhouse. The Act stipulated that VA was to make these direct loans in those areas of the country where the regular GI Loans were not available from private lenders. The Law further required VA to designate the areas as eligible for direct loans.

While the direct Government loan program ends June 30, 1951, the regular GI loan program does not expire until July 25, 1957. Both programs are subject to the same minimum down payments imposed by the credit controls announced Oct. 12, 1950.

Mr. and Mrs. Will S. Kerr and sons Pat, Joe and Norman, and Miss Patsy McDonald of Canyon returned recently from Panama City, Fla., where they visited Clifford Kerr who is stationed at Tyndall AFB.

### Tax Equalization Board Appointed

Three men -- Dave Alexander, Sam Nunnally, and Glen Weir -- were named to the Board of Tax Equalization for tax valuation through an ordinance adopted by the city commission at its regular meeting Friday morning.

Purpose of the board will be to review the property renditions, submitted by property owners and to adjust the values where necessary.

The three are the same men who served on the board during 1950. Meeting on June 28, the board will remain in session until their work is finished. Where an adjustment on the rendered values seems necessary, the city clerk will mail each property owner a notice to appear before the board and show why the property valuation should not be adjusted as recommended by the board.

### Sgt. Val Young First Korean Vet in VFW Here

Young, who was decorated this spring, was one of the first 500 men to come home under the troop rotation system. He is to be given malaria treatment for a 30-day period, after which he will return to Hereford.

### Friena School Board Plans for \$150,000 Unit

Friena's school board met in special session Wednesday afternoon and prepared plans to place before the voters a bond issue calling for some \$150,000 to rebuild the high school gutted by fire in the early morning hours of Wednesday, May 16.

Meanwhile, work will begin shortly on a temporary four-room structure between the cafeteria and the band room to house students for next semester's classes. This building, along with one room in the agriculture building, one in the grade school, and space in the Methodist church annex, is expected to meet emergency needs of the students until a new building can be erected.

Under present construction proposals, the high school area would be increased by more than 7,500 square feet to house the agriculture, music, and band activities. The entire school unit would be housed under one roof.

The \$150,000 figure mentioned by the board members would include all equipment also. This bond issue would not require any increase in valuation, or in the tax rate within the district, according to the firm now holding the school bonds for Friena.

Bids are expected to be called for within two weeks on the four-room temporary structure. An election on the bond issue may be held on Saturday, June 23. The building program outlined by the board will take care of normal school growth for the next 20 years, according to Superintendent Caffey.

### British Parents of Local Woman Arriving for Visit

Nixons will remain in Hereford until September 28. They will arrive here June 18 or 19. Mr. and Mrs. Hewitt visited Mr. Hewitt's sister, Mrs. Albert J. Hunsley, Kansas City, Kans. on their way to New York.

### Anxious Moments in White Deer Twister

Wednesday night's tornado, which caused an estimated 1 1/4 million dollars in damage at White Deer, caused moments of extreme anxiety to several Deaf Smith county residents who have relatives living in that city.

Relatives here received reassuring word by the end of the week, however, as the twister left no fatalities in its path, great though the property damage was.

Among the Hereford residents who have relatives in White Deer are J. A. Roston, Mrs. Jim Higgins, Joe B. Elliston, Dennis Barnard, Gene Hooker Mr. and Mrs. Felix Urbanczyk, and Grady Rogers.

### Baker Castor Oil -- CCC in Agreement on 1951 Crop

Details of an agreement between the Commodity Credit Corporation and the Baker Castor Oil company--the firm with whom local producers have contracted 1400 acres of castor beans as an experiment -- were announced recently.

The contract calls for the Baker company to enter into contracts with farmers for the production and delivery of the 1951-crop castor beans in certain areas in Texas and other states. Those areas in Texas are at Vernon, Chillicothe, and Wellington.

### Lovely New Trial Set For July 9

July 9 has been set as the date for the new trial for Karl Lee Lovelady, Mulshoe attorney convicted of driving while intoxicated in Deaf Smith county court on April 18. Lovelady's attorneys filed motion for a new trial, supported by an affidavit of one of the jurors charging jury misconduct. Following two hearings, County Judge Leonard H. Foster granted the motion for new trial on May 26.

Deaf Smith county farmers are working in the Wellington area allotment. Under the agreement, the company will make available the seed -- enough for 1400 acres in this first test year in Deaf Smith county; and equipment for receiving, handling, and storing the crop. The company will also furnish trained personnel to inform farmers about proper cultural methods.

The Baker company will pay farmers 10 cents per pound or prevailing market price -- whichever is higher -- at the time and place of purchase.

### At each of the company's receiving points in Texas and Oklahoma, the Baker firm will purchase from the CCC 25% of each day's receipts from farmers of 1951-crop castor beans of mill stock quality. The CCC has agreed to make available for sale or lease to farmers in Baker's areas machinery for harvesting.

Deaf Smith county will lease four harvesters and one huller to handle the 1951 test crop. Castor bean production increases are being urged by the government for defense purposes.

Mr. Hooker's daughter, Mrs. Doris Freeman, and her two small children were forced to take shelter under a culvert when the tornado caught them before they could reach a storm shelter. All three were uninjured.

Mr. Hooker had a garage apartment in back of his daughter's home and the freakish wind pulled a bed out of it without harming anything else. The bed was not found.

### Farmers Urged To Increase Their Production of Grain Feeds

Farmers of Deaf Smith county are being urged to increase the production of feed grains -- not because there is a shortage now, but to prevent one later on, says Faust Collier, chairman of the county PMA committee.

Full cribs and bins in Deaf Smith county don't change the fact that for the country as a whole livestock feed reserves are being fed at a heavier rate. And that livestock production is vitally needed to back up the nation's defense effort.

Collier pointed out that at the beginning of the 1950 feedling season there were 174 million grain consuming animal units on farms in this country. At the beginning of 1951 this number had increased to 177, much of it breeding stock, which will be reflected in further increases. In Deaf Smith county, the

principal feed grain crop is grain sorghums, and farmers are urged to increase the acreage. Where winter wheat has been lost, farmers are being encouraged to seed this land to grain sorghums.

Even though farmers plant the feed grain acreage aimed at this year, grain reserves will probably be reduced by the increasing numbers of livestock, according to Collier.

"All the feed we can produce will not be too much to keep livestock production at the levels needed to support the defense effort."

# Summerfield, Magnolia in Softball Wins Thursday

The Magnolia Oilers shut out Dawn in five innings 10-0 in their first Hereford Softball league start in the first game of a doubleheader Thursday night at Veterans Memorial park.

In the nightcap, Summerfield edged C & R Cleaners and Jiggs Service station by a 9-6 count. It was Summerfield's second win in league play and C & R's second defeat in as many games.

Magnolia won their first contest in the shortened game on a neat three-hit pitching job by Logan Bars. He kept the Dawn bats in check while his mates picked up seven safeties off the offerings of H. Robinson and Johnny McBroom.

Dawn hurt her own cause

with 10 bobbles afield while the Oilers were guilty of only three miscues. A total of six wild pitches hurt the losers also with the winners combining their hits to hit pay-dirt.

The 10-run rule halted the contest after the fifth frame.

Summerfield took an early lead in their nightcap contest with the nine sponsored by C & R Cleaners and Jiggs Service station, picking up four runs in the top of the first, thanks to two hits, and five walks and three wild pitches yielded by Starter McDaniel.

C & R came back to negate the lead in their half of the stanza, using three hits (including a four-bagger with two on by J. T. Wood) and two walks to tally their markers.

Summerfield made six errors while the losers committed only two.

Monday night's schedule features Hereford Hardware and Magnolia in the twilight contest at 7:30 and Knight of Columbus and Dawn in the nightcap.

Summerfield picked up two in the third and three more in the fourth to take the lead and hold it for the victory. C & R picked up a single run in the third and the same in the fifth to add to their first inning blast for a total of six.

Summerfield made six errors while the losers committed only two.

Monday night's schedule features Hereford Hardware and Magnolia in the twilight contest at 7:30 and Knight of Columbus and Dawn in the nightcap.

kler shared the mound duties for Hereford with Hardy and Corbett behind the plate. Manager Earl Stagner said the field at Turkey is exceptionally well lighted and laid out.

### North Hereford H. D. Club Meets

Roll call was answered by members telling the number of cans of pineapple canned the past week when the North Hereford Home Demonstration club met Thursday afternoon in the home of Mrs. W. H. Russell.

Mrs. M. H. Koelzer told of "Cancer Control" listing early symptoms of the disease. Mrs. R. A. Fullwood announced nurses training classes now in progress that are being held each Tuesday and Thursday of each week, and urged the women to attend. Mrs. Ed is conducting the three weeks course. Here Is A Release From the U. S. Dept. of Agriculture:

Secretary of Agriculture Brannan emphasizes to farmers of the Great Plains the dual opportunity they have of aiding the defense effort by planting grain sorghums, to prevent soil erosion and at the same time add to the nation's feed grains. "Every effort should be made to get some kind of protective cover on the abandoned wheat land, which for the second consecutive year affords opportunity of a large sorghum acreage," he said. "Last year Oklahoma and Texas farmers planted 7 1/2 million acres of sorghum and sudan and reports show that stubble left at harvest of these crops has proved effective in protecting the land against later season blowing. In some instances sorghums planted as late as July made a feed crop with protective stubble remaining against wind erosion damage."  
This year CCC has increased the price support level from 60% to 75% of parity to encourage sorghum production.  
The secretary said, "It's not a question of what we have to do in regard to planting grain, cotton or other crops, it is also a question of what we have to do in order to insure production next year and the next of as large amount of these crops as we need and man power will permit."

therefore, More than ever before, It will PAY YOU to consider one of those

iron fire screen was flanked with fern.

Red roses and fern in basket arrangements provided decoration at the altar. The church organist played the traditional wedding marches and provided a background of soft music for the ceremony. Tall palms in the background completed the decorations. Rev. Wilton Lynn brother-in-law of the bride, pastor of the Broadway Methodist church in Lubbock, read the double-ring service.

Mrs. Cliff Estes played a medley of pre-nuptial music while the guests were arriving and Nancy Patterson sang "I Love You Truly".

Mrs. Estes also played the traditional wedding marches.

## Calliopean Club President Will Guide Group One Year

Ed. note: This is the second in a series of articles being written about the presidents of Study clubs in the city.

When the Calliopean club, after the summer vacation, begins its fall and winter activities in September, it will find the newly-elected president Mrs. W. L. Davis Jr., ready to cooperate in the leadership of cultural activities with the many other club presidents and clubwomen of the city.

Mrs. Davis has been associated with the clubs of the city since coming to Hereford as a bride in 1946. She attended Texas State College for Women, Denton, with her main interest centering in the art department. Not long ago, she was able to use some of her training in art in planning her new home on 139 Knight St., where a monochromatic color scheme has been worked out.

She is a member of the Methodist church and of its Young Adult Group. Her two-year-old daughter, Edith, takes up much of her time and right now, as is the experience of many people when school years are left behind, she wishes she had devoted some time to landscape art. During the summer months she will be busy getting the grounds about the home landscaped.

The Calliopean club was organized several years ago as The Junior Bay View club, but as time went on members decided that they didn't care to become too serious about de-

E. Harrison Sr. of Dimmitt. Rev. Don Davidson, pastor read the double-ring ceremony in the presence of scores of friends and relatives.

Clusters of daisies formed a background for the gold cross flanked by seven tall candles garlanded with ivy and fastened with clusters of daisies to the chancel rail. White satin shepherd's staffs, diminishing in size, rose from a mass of daisies enclosing the space for the white satin pillow on which the couple knelt for the prayer. White ribbon tied with ivy to the ends of the pews along the main aisle of the church for-

med a lane down which the bridal party passed to the altar.

Mrs. W. J. Stanford, organist, presented a concert of wedding music preceding the ceremony. Selections included were: Schubert's Serenade, "At Dawning" (Cadman), Rubenstein's "Romance", "To a Wild Rose", (McDowell); Schubert's "Ave Maria"; and Clair De Lune (Debussy). Byoung Kee Min of Seoul, Korea and a student at McMurry college, vocalist, sang "Because" and "O Perfect Love". Grieg's "I Love Thee" was played softly as vows were

# Lemon Snow Cake Points Up The Taste of Ice Cream

Lemon Snow Cake immediately makes you think of summer—it goes so well with ice cream and is especially good chilled in the refrigerator. It works fine in the deep freeze too.

This recipe is one of Mrs. Herbert Haseloff's favorites. It is one her grandmother, Mrs. Boyd McClendon of Vernon, passed on to her children and grandchildren. Sometimes Mrs. Haseloff dresses it up a bit with coconut topping - it makes a wonderful birthday cake. It's simple and easy to make and children go for it.

- Lemon Snow Cake**
- 1/2 cup vegetable shortening
  - 1/4 teaspoon salt
  - 1/2 teaspoon grated lemon rind
  - Juice of one lemon
  - 1 cup sugar
  - 2 cups sifted flour (cake flour preferred)
  - 2 1/2 teaspoons baking powder
  - 3/4 cup milk
  - 3 egg whites
- Combine shortening, salt and lemon rind and blend well. Add sugar gradually and cream until light and fluffy. Sift flour and baking powder three times and add small amounts of flour to shortening mixture alternately with milk, beating after each addition until smooth. Beat egg whites until stiff and fold carefully into mixture until well blended. Pour in greased layer cake pans and bake in moderate oven (350-F) 25 to 30 minutes.
- When cakes are cold stack with lemon filling.
- Lemon Jelly Filling**
- 1 cup sugar
  - 1 egg

- 1 tablespoon water
  - 1 tablespoon flour
  - 1 teaspoon butter
  - 1 lemon (grated rind and juice)
- Boil in double boiler until it thickens, cool and spread between layers of cake.

talled and lengthy study, preferring a literary program to suit individual desires. The name of the club was changed and programs outlined to give a freedom in selected topics which bring variety and enthusiasm.

Each year each member selects her own subject for discussion and presents it in her own way, or she may arrange for a speaker whom she thinks will entertain the club members on some timely subject. The rest of the club members are unaware of the nature of the program until it is presented. The plan has worked so well since first initiated, that the twenty members doubt a change would be as satisfactory.

Contributing to the Deaf County Hospital Nursery has been the club's project for the past two years and last club season the club turned over three hundred dollars to the president of the hospital board for that fund. The club also contributes annually in some welfare work. Social affairs are not overlooked and special days are observed at the direction of members.

the couple at the reception which followed the wedding ceremony. The bridesmaids assisted in the reception with Mrs. Rogers Orr and Mrs. W. E. Lynn of Lubbock also assisting.

Immediately following the reception the couple left on a honeymoon trip to points in Colorado. For traveling the bride chose a cinnamon brown shantung with white accessories. Her blouse was in white and her small hat was white with brown veil. The pink rosebuds from the wedding bouquet formed her corsage.

Mrs. Manning graduated from Hereford high school last month. Mr. Manning, also a graduate of Hereford high school, is employed by The Hereford Motor Company.

Among the out-of-town guests were: Rev. and Mrs. W. E. Lynn and family and Mr. and Mrs. Rogers Orr and son of Lubbock; Mr. and Mrs. Paul Orr of Lovington, N. M.; and Mr. and Mrs. Aubrey Daniels and family of Lubbock.

The rehearsal dinner was held at the home of Mr. and Mrs. Guy Lawrence with the bride attendants as hostesses, on Friday evening. Members of the bridal party and out-of-town guests made up the guests list.

attired in mint green. All the dresses were identically made to follow the trend of the bride's dress, of organdy over taffeta with round collars at the high neckline of the fitted bodice. Daisies were applied on the bodice which was attached to the full skirt with velvet ribbon bows matching the color of the dresses. All wore picture hats of organdy with velvet ribbon trim. They carried bouquets of daisies fastened to satin shepherd staffs matching their dresses. Thomas Harrison of Dimmitt served his brother as best man and ushers were Jack Brown of Dimmitt, Bedford Forrest, brother of the bride, Stanley Seaton of Lamesa, Bill Stephanson, Dimmitt.

Given in marriage by her father, the bride wore a lovely gown of white Swiss imported organdy over taffeta, made by her mother. The high round neckline was set off by a pointed collar and the bodice and short sleeves featured daisy applique. The long full skirt repeated the applique trim above the wide hem done in deep inverted scallops. Her three-tiered veil of illusion accented the scallop trim and was held in place by a capulet edged with seed pearls. She carried an heirloom handkerchief belonging to the bridegroom's great-grandmother. She carried a white Bible showered with falls of white satin ribbon and tulle knotted with orange blossoms, centered with a detachable orchid corsage.

The bride's mother wore brown nylon with rhinestone trim and matching accessories with a purple iris and Florida rosebud corsage. The bridegroom's mother wore navy blue sheer with white trim and matching accessories. Her flowers were pink rosebuds and iris.

Following the wedding, a reception was held in Ward hall. The bride's table was laid with white linen caught with garlands of ivy. The centerpiece was of tall tapers, baby's breath and daisies. Entwined wedding rings marked the satin streamers extending from the flowers. Assisting the bride's mother were: Mesdames R. K. Hunt, of New York City, aunt of the bride; Ed Warren; Allen Adams, of Sparenburg; and Miss Bobbye Jane Sisk at the guest register, which was hand painted by Mrs. Forrest Milton.

When the couple left on a trip to Colorado, the bride was wearing a natural linen dress with brown trim. Her accessories were in shantung and she wore the orchid from the wedding bouquet. After June 15, the couple will be at home in Dimmitt.

Mrs. Harrison is a graduate of Hereford high school and of McMurtry college, Abilene. She was a freshman class favorite at McMurtry college and selected for "Who's Who in American Colleges and Universities."

Mr. Harrison graduated from Dimmitt high school and was honor graduate of the class of "51" at McMurtry college. ## Educational Program for Veterans Closes Soon

June 30 is the deadline for taking advantage of veterans education benefits voted by a grateful nation for veterans of World War II.

Thousands upon thousands of our war veterans have taken advantage of these benefits to supplement their war-gained training and convert their experience into a useful civilian pursuit.

The "G. I. Bill," as it is popularly called, has meant the difference between education and no education for countless numbers of genuinely interested war veterans.

During its life, the program was not without its gross abuses both by students and some fake institutions. The program, in its growing period, also suffered greatly from some administrative foul-ups.

From the overall picture, however, the program did what it was designed to do—repay our young men—in a small measure

—for the years they gave fighting for their country. This educational benefit has aided many a veteran to enter a trade or profession that otherwise might have been out of reach.

While the country spends millions and even billions preparing for wars, paying for wars, and giving aid to nations—both victors and vanquished—it is gratifying to know that some of the money has gone to furnish an everlasting asset for the men who helped win our freedom.

In spite of its obvious shortcomings and isolated cases of abuse, the program has been just another one of those stepping stones to train America's future leaders.

We should support educational training for the veterans of the Korean war and see that they realize the full benefits arising out of such a program.—W. W. K.

FOR A JOB WELL DONE

## The BOOTLEG Philosopher

Editor's note: The Bootleg Philosopher on his farm near Bootleg may not get anywhere with his contention this week, but you can't blame him for trying.

Dear editor:

I was readin last night in a farm magazine, which most farmers read to get their minds off the realities of actual farmin, about an experiment bein conducted in the state of Washington, where timber operators are "scarin" their trees into producin more seeds and cones in a hurry by puttin a metal band around the trunk. This, accordin to the article, makes the tree feel it's bein choked and it makes an extra special effort to grow fast before it's too late, thus producin more seeds and cones.

This has been heralded as something new, but it ain't. I been doin practically the same thing out here on my farm for years.

A lot of people drivin by my farm take one look and conclude I'm lazy, sayin nobody but a lazy good-for-nothin farmer would have as much Johnson grass and weeds in his crops.

Them weeds and that grass is in there for a purpose. They're stimulin the crops to produce faster before they're choked to death, as my crops have learned long ago their growin season is limited, it's a lot shorter than some of these garden-claim farms.

What I've been doin over the years is workin on a hardier strain of maize and wheat, a brand that can fight its way through grass and weeds without no help from me. With me, pamperin a crop is as bad as pamperin a child. Most farmers try to keep their fields so clean their plants are almost hot-house things, they do well while conditions are exactly right but at the first hint of a disease they fall out. Why, some crops are so carefully protected from the rough and tumble of livin they're probably subject to whoopin cough and the colic, whereas my crops know if they make it they'll have to fight their own way up.

I may not get quite as good a yield, but on the other hand I don't wear out nearly as much equipment.

What A & M College experts ought to be workin on, instead of how to throw up a protective screen of complicated poisons and fertilizers to get these lily-white tender plants to live, is a plant that can make its own way in the world. We need a seed so strong you can throw it and a handful of Johnson grass seed out in a field and come back in the fall and find the Johnson grass in ruins and the lone seed a fully developed plant ready for harvestin. I'm workin on the problem.

Yours faithfully, J. A.

### SUNDAY'S CURRENT QUESTION

## Negotiated Peace Only Outcome Of Korean War, Readers Believe

Do you think the United Nations forces in Korea will win a military victory or settle for a negotiated peace? How soon?

ELEANOR HUDSPETH—I think that it will be a negotiated peace, but I don't think it can come right away. It seems that they always have to wrangle a good while before they can come to an agreement.

MRS. SANFORD SMITH—Of course we all hope for a negotiated peace, so this seemingly worthless fighting will come to an end. I don't think anyone knows when this will come about. I expect God to take a hand in the matter.

MRS. DALTON CRISWELL—From the news lately, I think it will be a negotiated peace. I'm not sure whether that would be best or not, but I believe that they are going in that direction. It looks like it will be a good while before a settlement can be reached.

S. B. McLALLEN—It all depends upon what the politicians do about it. We can't expect peace until they get through playing politics.

MRS. FRANK WITKOWSKY—A negotiated peace seems likely now. I think it's possible that it might come within a year.

MRS. ESTELLE ELLISTON—It seems to me that it will be a negotiated peace, possibly in a year. But we can never tell because we know only what they want us to know.

## Panhandle Paragraphs

### DOG vs. DUCK?

The Hockley County Herald says they're wondering about this one down in Levelland: the local fire department was called to remove a dead dog from the street. On the other side of the street a just-as-dead duck was found. The department chief had the carcasses removed, but he couldn't help wondering if there was any connection between the two deaths. If there was, which died first, the duck or the dog?

### FREAKS

Another freak in the animal world was reported by the State Line Tribune in Farwell. It seems that a local man, Bob Stover, had a sow that recently gave birth to a litter of eight pigs. This isn't unusual in itself, but the fact that one of the pigs had three front feet and legs and another had four front feet and legs is almost a believe-it-or-not item. The two lived only a short time.

### HONORED

Three Dalhart boys were honored by being placed on the dean's special distinction list for the second semester at Wentworth Military Academy in Lexington, Mo., according to the Dalhart Texan. They are Cadet Richard Williams, son of Mr. and Mrs. Lloyd Williams; Cadet Ralph Eddie Waite, son of Mr. and Mrs. Ralph H. Waite; and Cadet Donald Bishop, son of Mr. and Mrs. Ed Bishop, all of Dalhart. Only superior students may qualify for the distinction.

### DIMMITT DRIVE-INN

According to the Castro County News, the new Playground Drive-Inn in Dimmitt has a special feature for its customers. The owners plan to construct a croquet court in addition to the Drive-Inn service.

### BUILDING BOOM

"Panhandle is in the midst of its biggest residential construction in 25 years," asserts the Panhandle Herald. In addition to many new houses, some under construction and some already completed, a new service station is going up and a 50 foot warehouse has been built.

### FAMILY GRADUATION

The E. T. Crown family achieved simultaneous scholastic awards this spring, according to the Shamrock Texan. Mr. Brown received his B. S. degree from WTSC; his daughter, Edwina, received her diploma from Wheeler High school; and his son, Bennie, graduated from the eighth grade in the Bethel school. Mrs. Crown is also scholastically minded, having attended night school in Amarillo each week during the school year.

### HOG HEAVEN

A special Poland China breeding farm is being built up two miles north of Muleshoe, reports the Muleshoe Journal. Under the name of the G. V. Green & Son Poland China Farm, the new establishment will specialize in producing quality pigs and will sell them at weaning time. The gilts should begin to farrow along about July.

### WIND-BLOWN SALOON

One of the last old-time buildings to be removed from Canyon was the old T-Anchor saloon. A. E. Brown bought it and moved it to his place south of Canyon. Now, according to the Canyon News, the old bar is standing upside down as a result of a twister in the vicinity. Then again maybe the old place was just commemorating the old days of free-flowing booze.

### CHOPPED CHICK

The Moore County News reports a new way to cut up a chicken. Mrs. Charlie Black of Middlewell was driving along a country road when she noticed that feathers were flying from beneath her car. Looking back, she couldn't see anything that she had run over, but the feathers continued to fly. Finally she stopped, lifted the hood, and discovered the trouble. A chicken had lodged between the radiator and the motor, minus wings, legs, and feathers.

## 'Tater Peelin's

By Roberta Campbell

Imagine our surprise to learn that we had been quoted in the Dallas Morning News recently.

Now that we know the Hereford Brand reaches that far here is a suggestion to the manufacturers of little boys clothes at Midlothian and Cleburne—would you please move the double knee patch down a little as our young'un farms on his knees and you've missed the vital spot by about an inch.

We used to think all male garments were cut by one pattern and the legs cut to different lengths but at last somebody has become conscious that all boys aren't stuffy and need jeans or overalls that they can't jump out of flatfooted.

Mrs. Jack Bivins and her father J. T. Shannon are the new owners of the Dandee Stop and Mrs. Bivins reports that even if the icecrusher is a little out spoken the snow cones (strawberry, lime, orange, and root beer) are probably their most popular feature right now.

This may sound like the Bootleg Philosopher but after a half a day of swinging an idiot stick or a scythe we are wondern' if we could interest the Weed Control Board in a little project on our place.

Even our sheep are limited as to capacity.

## Hangman's Noose the Path To Lasting World Peace?

A hangman's noose at Landsburg, Germany last week ended the gory careers of seven of Hitler's butchers.

Justice has triumphed. The murderers are dead. They have paid for their barbaric deeds with their own lives. In the eyes of the world, they have paid the supreme price.

Only one question can remain to mar the perfect ending of our handling of this unfortunate episode in international tragedy. What have we accomplished by springing the trap on these seven murderers?

Have we convinced the German people that America is actually their friend? Have we banished forever all thoughts of Hitler and his "super race" by merely snuffing out the lives of his lieutenants? Has our action converted the German people to the democratic way of life—even after Hitler drummed his "tomorrow we rule the world" gospel into their brains?

The men and women of fighting age—those who will lead their country in the future—grew from adolescence under the hypnotic influence of their infamous leaders' doctrines. It's hard for those people to forget. It's also hard for them to forgive Americans who come into their homeland as victors ONLY.

That their will to fight for a thing called democracy is quashed is no small wonder. What have they to gain? Their home destroyed, loved ones killed, disunity in their own country because of the Western Allies'

lack of just plain diplomatic guts. That's their present plight.

The way America will reconvert Germany and show her people the folly of their ways is not by executing their top leaders. After all, what is death when you're "fired up" for a cause like the Germans of World War II?

We have a missionary job to do on the Germans before they'll follow us. If we come merely as policemen instead of equals, we can't help but end up with a nation of charges rather than a nation of friends and allies.

It's the hardest thing in the world to treat our former enemies as equals. Especially after counting our toll in the European fighting.

But the job has been done with the Japanese. The Japanese—who were not even familiar with Occidental culture—are now a democratic people. The Japanese are now lined up with America to the point where we will not have to question her intentions in a showdown with any future threat to world peace and democratic living.

Punitive measures will not take the place of diplomatic handling of our former enemies. Hanging will not bring back the fallen American youths. Hanging will not assure future world peace.

Trust in America, her leaders and her purposes, will assure us that we will not have to sacrifice more young men to the whims of would-be world conquerors.—W. W. K.

### regulations.

Let's keep the government and their false economic equations out of the picture and let the American people decide whether or not prices are in or out of line with their buying power. The less rein we give the government, the less they will be tempted to run all our affairs.—W. W. K.

The nation will be better off when its voters think even if they think only of and for themselves.

## Controlled Markets Endanger Freedoms

Are controlled markets in the best interests of the American people or are they just another step by the government towards socializing our industries?

That is one of the questions raised by economists, cattlemen, and packers in the light of government orders rolling back the price of beef on the hoof.

Is the government creating a situation whereby honest profits are unobtainable and the black market goods are thrown out to be auctioned off to the American people for the top dollar?

With the inflationary spiral hacking away at the foundations of our economy, we cannot arbitrarily impose controls on one segment of our country and expect those controls to stick.

We cannot "legalize" inflation by breaking wage ceilings time after time—regardless of the name we give the wage adjustment—and not allow a compensating rise in the finished cost of the product taxed with that raise.

Dollar and cents profits are at high levels, but what is your dollar worth? Our government admits even the cost of material used for defense has risen at an astounding rate.

We cannot judge the price-wage-profit question by dollars and cents alone, but only on a comparative basis. There is still the old standby—supply and demand—that will do more for equalizing your comparative values than volumes and volumes of

Harvey had high standards of operation and agreements with the railroad and with the people with whom he worked. Anything less than the very best were received coolly by him.

The hiring of educated and well-trained waitresses not only added to his fame but brought culture to the west in a different form, because the girls soon married the ranchers, miners and other men who had chosen the new country for their home.

Whether you wish to use this book as a reference or for historical content and factual easy reading it will meet both demands and is now in the library, according to Mrs. Boydston, librarian.

### History of Southwest Chronicled In "Steel Rails to Santa Fe"

By Corinne Jennings  
"Steel Rails to Santa Fe" chronicles a great deal of the Southwestern history along with other sections of the country including our own Panhandle. L. L. Waters the author has spent time in research to bring us this volume of railroad history which is made up of many facts.

Herein there are no Indian massacres, since the railroads figured in none; but countless exciting stories vied for inclusion. So different from many histories this book does not stop at an early date or deal merely with construction of the road but brings the story down to 1950.

Many were the barriers to be hurdled by the young Santa Fe to attain the important place it has today in American railroads. It has become an integral part of our national economy.

Pioneering as a company in

a manner not realized by most, the railroad brought the necessary element to provide the growth of a country already being pioneered by people on treeless prairies often to find the Santa Fe before them. The two together transformed the "great American Desert."

Outstandingly interesting is the part of Fred Harvey, who was independent of the company, but the two worked together to the greatest benefit of both.

Eating places and those for lodging, along the railroad were very poor and scarce before Harvey began his operations to improve both conditions. In fact, passengers were lucky to get hash and far between meals at that, in the beginning.

The first real and up to date (at that time) Harvey lunchroom opened in 1876. From that day Harvey bought and

### Motor Tours of Texas A & M are Planned for 4-H'ers at Roundup

COLLEGE STATION, Motor tours of the Texas A. & M. College campus are planned for 4-H Club members who will be on the campus Monday, June 25 to take part in the state 4-H elimination programs. Each tour is expected to take about one hour.

Individual and group tours have been encouraged in past years, but the large area that A. & M. College covers and the usual hot weather during Roundup made walking tours unsatisfactory.

In addition to the tours, recreation activities for 4-H members will be conducted all day Monday at the Grove, an outdoor recreation center at A. & M. Athletic games, musical games and other activities are planned.

Roy Grubbs, T. E. Seigler Pr., Wayne Evans, J. E. Kirby, J. W. Barnett and the hostess.

A 4-H party will be held at the Grove Monday evening for all contestants and other 4-H members who arrive on the campus Monday to participate in the State 4-H Roundup scheduled for the following two days.

### Draft Quota Not Yet Set; Director Advises Students

No July draft quota is available yet from the local board, but will be released sometime after June 15, according to present plans at the state draft headquarters.

The July quota for the state of Texas is 367 men, the smallest monthly quota received since the beginning of the conflict in Korea.

The state selective service director passed on the following advice to college students: Students who plan to request deferment to continue their studies should notify their local boards immediately after the close of their current academic year.

"To get deferment consideration from local boards," General Wakefield said, "students registrants have to re-qualify test or ranking in their classes won't assure consideration for deferment unless they ask for it in writing.

The Selective Service college qualification test is an examination to demonstrate high education aptitude. It is estimated that 400,000 college students have registered for these tests. An estimated 175,000 already have taken it.

Failure to furnish information showing intention to request deferment, in some cases, may result in a student's being inducted into the service at the end of the 30-day postponement period commencing at the end of the current academic year, the state director said.

General Wakefield said responsibility rests upon a draft registrant to supply his local board with any information affecting his draft status.

Miss Joyce Johnson of Amarillo visited here last week with her aunt, Mrs. R. J. Richardson.

The switch-over onto the new sub-station for Friona and Black area patrons of the Deaf Smith County Rural Electric Cooperative was made Wednesday, according to Leo Forrest, manager of the cooperative.

Patrons in that area had been receiving temporary service from the Oklahoma Lane sub-station and from sub-station five located four miles northwest of Hereford.

Forrest said fewer outages from lightning would result from the increased output in that area. The capacity of the sub-station in that area was raised to 6000 KVA's and the station was moved from the Hub to just west of Friona's city limits.

Previously, the Black Grain elevator was supplied only with two-phase service. Now, three-phase service will be available to them and uninterrupted power will be assured single-phase subscribers in that area.

# Hereford Music Teachers Hold Final Meet of Year

The Hereford Music Teachers Association held its final luncheon program of the season at Western Wheel Inn Saturday. New officers were elected for the 1951-52 season.

Mrs. Ellis Coombes retained her office as president as did Miss Mattie Mae Swisher as program chairman and Mrs. Olive Hinds as reporter. Mrs. Glenn Snyder was named secretary and Mrs. Cecil Parker was named to the program committee.

Roy DeWolfe of Dimmitt was the main speaker. He advocated musical education beginning with the parent directing the preparation of lessons just as they assist their children in mathematics or English. He outlined the value of Music Teachers Association in the community and pointed out methods of handling problems of the profession.

Consideration was given to the problem facing the teachers this year; that at present private music study is not in-

cluded in the elementary grades and junior high school schedules. Realizing that 90 per cent of the students are not private music pupils, and that it falls to those who have had training to lead in the music of the school as well as the more advanced forms of musical culture in the community later on; the group went on record to favor a schedule which would allow the 10 per cent of private pupils time out during school hours for one lesson per week. "The child's energies and enthusiasms are at their lowest at the close of a school day and teachers are concerned that the student is unable to receive her best instruction or give his best efforts at that hour," the president said.

Plans were discussed for a regular musical program over station KPAN soon.

After the summer vacation the group will re-assemble at a luncheon on September 8.

**Synopsis:** BACK IN RAVENNA THREE FRIENDS, TRIED AND TRUE, MAKE MERRY AT A BANQUET. FOR THE TIME OF PARTING IS AT HAND... JARL EGIL AND RUFUS REGAN ARE TO SEE THAT THE CARAVAN OF CHURCHMEN, THEIR SERVANTS, AND LUGGAGE, COME SAFELY OVER THE LONG ROAD TO THULE. PRINCE VALIANT MUST GO BY THE PERILOUS SEA ROUTE.

FOR, TO YOUNG ARF, THE LAND JOURNEY WOULD BE TOO PAINFUL AND VAL WILL NOT LET HIM GO ALONE.

EVEN THE TRIP TO THE COAST IS ONE LONG AGONY.

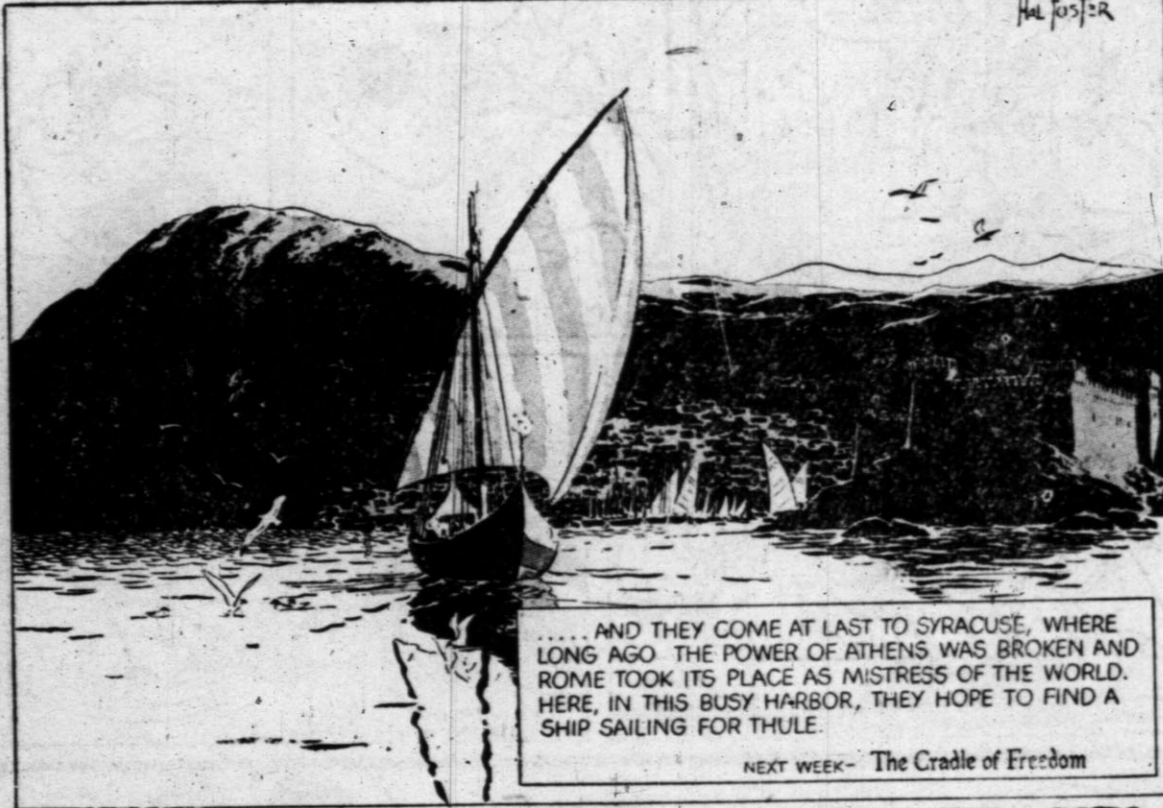

HERE A STURDY SHIP IS FOUND, A SHIP BOUND FOR SICILY WHERE MEN OF THE NORTH HAVE SETTLED IN GREAT NUMBERS AND CARRY ON TRADE WITH THEIR HOMELANDS.

AND ARF TRIES PAINFULLY TO MASTER THE ART OF WALKING AGAIN.

MOUNT ETNA, BREATHING TERRIBLY, THREATENS THEM FOR A WHILE, THEN IS LEFT BEHIND....

..... AND THEY COME AT LAST TO SYRACUSE, WHERE LONG AGO THE POWER OF ATHENS WAS BROKEN AND ROME TOOK ITS PLACE AS MISTRESS OF THE WORLD. HERE, IN THIS BUSY HARBOR, THEY HOPE TO FIND A SHIP SAILING FOR THULE.
