SIGHTS FACES SEEN

Around Town

February 17-23 may be National Brotherhood Week, but Lubbock isn't exactly "the City of Brotherly Love"...

A red roof that is really red is the boast of Dr. R. E. Lingenfelter when it comes to his home on Third Street...

Jerry Albracht has also repainted his Little Diner recently—and wound things up with a red stripe.

Patricia Walton and Johnnie B. Vinson, freshman at West Texas State college in Canyon were initiated in the Mary E. Hudspeth honor society.

The Dawn Study club will present a play entitled "Henry's Mail Order Bride" at the Dawn school house Saturday night, Feb. 23.

The city commission will meet Thursday morning with the Deaf Smith County Hospital board on beautifying the hospital grounds.

Professor E. T. Cornelius of TCU was guest speaker at the Hereford Lions club on Wednesday. He told about his life as a missionary in Mexico.

Roy Peet of the Western Flower and Gift shop attended a gift show in Dallas Sunday, Monday and Tuesday.

The banks will be closed on Friday, Feb. 22 in observance of Washington's birthday.

Hereford's two student-members of the Hardin Simmons university band—Alex Schroeter and Bill Forbus—were pictured in LIFE magazine's coverage of the Eisenhower rally recently in New York's Madison Square Garden.

One Army enlistee for the week was reported by Sgt. Bills, local recruiter. He was Elov Alfaro Valdez, who left Friday for a three-year enlistment...

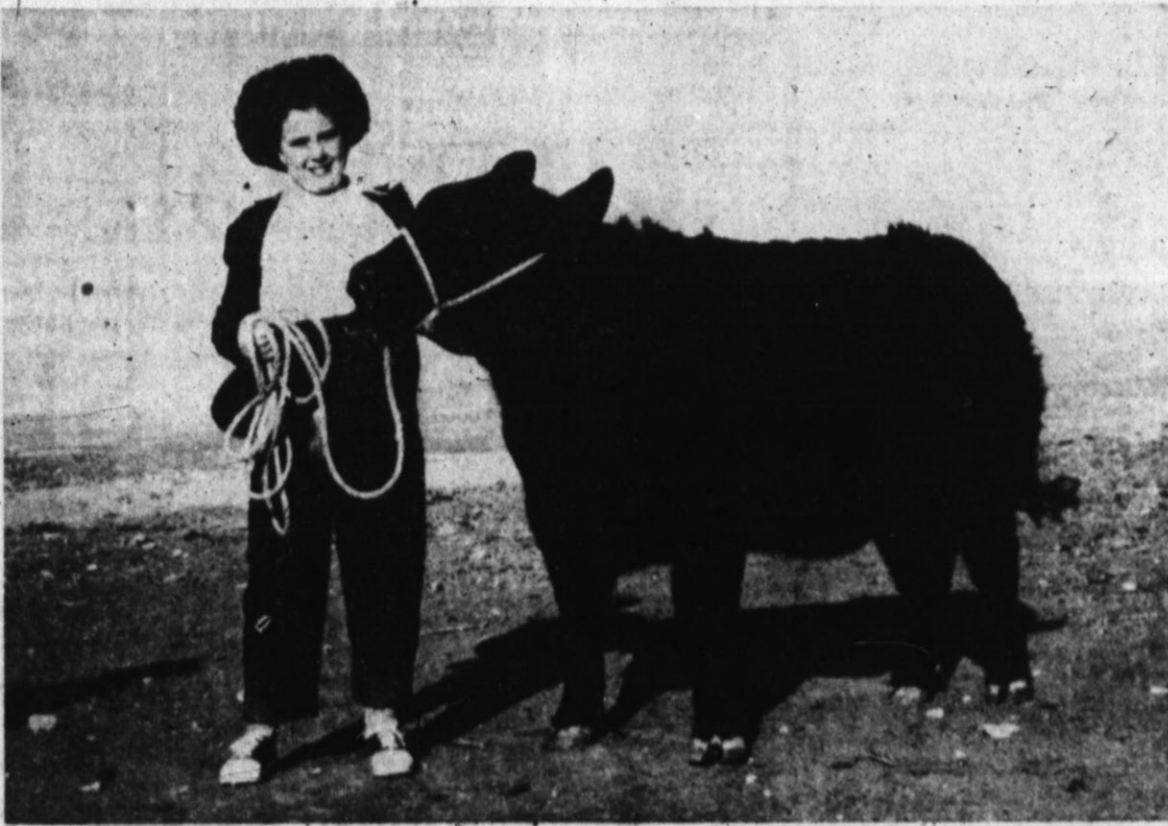

City Incumbents Filed Tuesday

Mayor W. E. Dameron and Commissioners S. O. Wilson and Don Zimmerman filed Tuesday for re-election in the coming city elections on April 1.

The three incumbents acceded to a petition urging them to enter their names on the ticket for the city election for the purpose of presenting the Home Rule form of government to the voters of Hereford.

Hereford Has 15 Percent Fire Credit

Hereford has been granted a 15% good fire record credit for the coming year by the State Fire Insurance Commission.

LINDA RUSSELL proudly displays her 15-month-old Aberdeen Angus calf she is entering in the Junior Livestock and Poultry show this week.

LANELL SHORT, the second girl to enter a calf in this year's show, hopes that her 11-month-old Whiteface will show well for her first efforts at calf-feeding.

Stock Show Center Of Attraction This Week

Hereford's Bull Barn will be the center of attraction for the next three days as the Sixth Annual Rotary Club Junior Livestock and Poultry Show takes life today.

Ben Childers, president of the Rotary club, foresees one of the best years in the history of the event if given favorable weather.

In addition to the \$1,500, in trophies and ribbons the young stockmen will be competing for the two other annual events—the free barbeque and the parade on Saturday—both promise to

be of the usual high quality. Saturday is expected to be "the big" day, Childers said. Pigs, lambs and poultry will be judged Friday and calves will be judged Saturday. The sale of livestock will follow the parade.

The big free barbeque, to be served in the Norton building, will consume more beef than last year as plans are being made for more than 2,000 persons, according to Francis Hardwick, chairman of that committee. About 1700 pounds of beef has been secured for the Saturday noon barbeque.

The parade will start at 1:30 p.m. Saturday, going south on Main street from the Sixth and Main marshalling point.

Six bands will be in the parade, which will feature about 80 floats. Out-of-town bands will be Canyon, Frona and Dimmitt. They will be augmented by the Hereford high school band, the junior high band and the elementary band.

A COMPLETE SCHEDULE OF EVENTS FOR THE THREE DAYS WILL BE FOUND ON PAGE 1, SECTION 3—THE LIVESTOCK SECTION. Wooddell said no complete list for the parade has been compiled as yet. Several firms plan to enter more than one unit.

Conde Is Found Guilty; Fined \$250, 90 Days

Manuel Conde, charged in county court with possessing liquor for sale in a dry area, was found guilty in county court following a trial before a jury and fined \$250 and costs and sentenced to 90 days in the county jail.

Conde was charged on January 28. He was picked up on January 28. Conde's attorney, Reynold M. Gardner of Amarillo, Wednesday filed an unsigned motion in Deaf Smith county court asking the court to set aside the verdict.

He also alleged that the evidence introduced by the state was not sufficient to sustain conviction.

Bond was set at \$500 for Conde. He had not made bond as of Wednesday morning, according to Sheriff J. C. Reese.

Jurors for the Conde case were Hugh Bookout, foreman; Wayne Evans, C. R. Gandy, C. W. Edwards, Robert Veigel and L. L. Womble.

World Day Of Prayer Friday, Feb. 29 At Presbyterian Church

The Council of Church Women will meet for the annual worldwide observance of the World Day of Prayer in the sanctuary of the Presbyterian church at 3 p.m. Friday, Feb. 29. All interested persons are urged to attend and participate in this worship service.

Mrs. Homer Brumley, president, has announced that the offering will go this year to work with the American Indians, share croppers and migrants in the home field. In the foreign fields, funds will provide literature for women and children in several foreign countries, work among foreign students in America and education of Christian leaders in the Orient.

World Day of Prayer will be observed in 104 countries this year. In 1951 observances were held in 17,000 communities in the United States.

Golf Association Names Directors

Four new directors—Raylan Evans, Earl Hendricks, Urlin Streu and W. W. Gilbreath—were named to the Hereford Golf Association last week.

Members of the association were mailed cards with the names of 10 director candidates and voting for the four new positions was conducted by mail.

Refiring directors were C. G. Acker, John Pitman, John Patton and W. R. Hair. A meeting of the board of directors will be called at an early date for an organizational meeting.

Mutt Webb, formerly of Dimmitt, is now caring for the golf course. No golf pro has been secured as yet.

Calf Entries From Two Young Girls

Two 10-year-old girls will be competing for a spot in the lime-light of the calf division at the Junior Livestock and Poultry Show this week-end.

They are Linda Russell and Lanell Short. Linda is the daughter of Mr. and Mrs. Clyde W. Russell and lives 12 miles northeast of Hereford. She is a fifth grade student at Shirley school.

Lanell is the daughter of Mr. and Mrs. Henry Short, who live at the Eskimo ranch. She is a fourth grader at Shirley school.

This is the first attempt at raising calves for both girls and they both agree that it's fun and hope to continue during the coming years.

Lanell's Whiteface is 11 1/2 months old and tips the scales at 875 pounds. Her father helps her with the calf by feeding it in the morning.

She is a member of the County Wide 4-H club. Linda has a 15-month-old Aberdeen Angus that represents her first adventure into calf feeding. The animal weighed in at 920 pounds Saturday.

A fifth grader at Shirley school. She doesn't belong to any 4-H club. Her father reads a lot of literature to her on calf-feeding.

Both girls will be eagerly awaiting the results of the calf judging to see how their first year's feeding pays off.

Board Declines Building Action

No proposals for enlarged school facilities for the Hereford Rural School District are being discussed by the board of trustees, Major Schroeter, president of the board, told The Brand this week.

In view of the board's warnings last spring of overcrowded conditions that it said would be plaguing the system, in the near future, The Brand questioned Schroeter in regard to any relief being planned by the board in the face of defeat for two bond issue elections.

Schroeter said that the board "doubts the wisdom of taking the initiative in presenting this matter again to the people unless a definite effort is made on the people's part to inaugurate such a building program."

"We members feel that the board has an obligation to keep the people informed as to the needs of the school system. We also feel," he added, "that if the people do not show sufficient interest to get behind such a program, the board doesn't feel inclined to press upon the people something they don't think is the thing to do."

The board tried to explain to the people, Schroeter said, the conditions within our system. Whether world conditions had affected the decision of the people

or for some other reason the board hasn't been able to decide, he commented.

Junior Music Festival Here On March 15

Several Hereford vocal and instrumental music students will enter the 1952 "Junior Music Festival" sponsored at Hereford on March 15 by the Seventh District Texas Federation of Music Clubs.

All members of junior music clubs in the district may participate in the festival, which is classified into 11 different events: piano, organ, violin, voice, accordion, horns, hymn playing, hymn memory, vocal ensemble and theory.

The festival will be held in three divisions on the same date. One will be in Quanah for that area, one in Lubbock and the Hereford festival, which is under the direction of Miss Mattie Mae Swisher.

Place for the festival events will be announced later. Primary purpose of the festival is to encourage and inspire junior federation members to greater effort toward artistic achievement and provide a basis for higher musical attainment.

"Not to earn a prize, nor defeat an opponent, but to pace each other on the road to excellence," is the slogan used to create interest in the festivals.

Series Of Meetings To Secure Acreage For Castor Beans

A series of meetings in this part of the Panhandle to secure castor bean acreage for the Baker Castor Bean Corp. will begin in Hereford on Tuesday night at 7:45 p.m., according to Virgil E. Dodson, Baker field representative.

The meeting here will be held in the ballroom of Hotel Jim Hill.

Following meetings will be held in Springlake on Wednesday and Tulla on Thursday. Plans for a warehouse and new hulling center for Hereford will be completed in the near future, Dodson said.

Latin-American Housing Area Discussions Opened

A section of town set aside as a housing project for Latin-American families who wish to build their own homes in Hereford came one step closer to becoming a reality following a meeting Tuesday between the City Commission and committees from the Farm Bureau and Deaf Smith Chamber of Commerce.

The city's engineer will arrive in Hereford shortly, Mayor W. E. Dameron said, to run off the land lying south of New York avenue across the Santa Fe tracks to see if sewer lines could serve the area in mind for the project.

That will be the first step and the main factor in the housing area, for any area that couldn't be served with sewer would not be available for building lots, Mayor Dameron explained.

If the land can be served, the city will be willing to lay water lines and sewer lines to service the lots, he told the group.

New York avenue has a sewer running down the middle of it 12 feet deep. Water would have to be brought in from the intersection of Main and New York.

Land sought for the building sites would be the city's property at the site of the old sewage disposal plant and Blocks 53, 54, 55, 56 and 57 in Whitehead addition. These five blocks lie just south of what is platted as Virginia avenue. Regular 300-foot blocks, they have 12 50x150-foot lots to the block.

The city's property, some two blocks, lies just south of the previously mentioned blocks, which belong to the veterans' organizations.

When the engineer checks on the sewer possibilities of the platted land, the city will also inquire about the 49.5 acres due east of the platted section. That could be sub-divided also for further living areas.

Mayor Dameron, in explaining the city's willingness to extend the sewer and water lines, said that move would be made if enough land were made available there to justify the extra work, which would entail a good deal of cost.

Members of the Chamber of Commerce board of directors were named to work with the city in seeking an area for encouraging building by Latin-Americans. The Deaf Smith County Farm Bureau also has thrown its support to a section to be set aside for those wishing to build their own homes.

Three Principals Re-Hired, One Asks To Be Relieved

Three of the four principals in the Hereford Rural School district were re-elected for one year terms at the board of trustees meeting held Thursday.

One of the principals—Byron Durham, head of Shirley school—has asked that he be relieved from administrative duties and return to a teaching status effective with the beginning of the school year in September, 1952.

The board acceded to Durham's wish and accepted his resignation as principal. Major Schroeter, president of the board, said it has postponed action on a Shirley school principal until next month's meeting—March 13.

Re-elected by the board are: D. C. Martin, Central; H. V. Stanton, junior high; and Don T.

Salary for each of the principals remains the same basic salary as set by the state PLUS their normal increment and any blanket raise which may be given in the future.

Other business the board discussed included summer work to be done at the high school in the chemistry and physics labs to accommodate the influx of about 60 students expected this next year.

A program to cost about \$3,000 will add new wall installations of workbenches and new desk benches so they may both be used as classrooms and laboratories simultaneously.

By the conversion, school officials feel that they will be able

to handle the larger classes for at least another year.

Besides the workbenches to be built on the south side of both rooms, seating capacity for about 30 students in each room will be made.

No bids have been called for yet on the physics and chemistry lab work.

Another project discussed by the board Thursday was planting grass at the high school, removing some of the trees, and rebuilding the sidewalks. The entire summer remodeling and outdoor beautifying program will cost less than \$5,000, Schroeter explained.

Money will have to be allotted from the budget for the work.

The Junior Red Cross has distributed friendship boxes to the school this week to be packed and sent to needy children overseas.

The boxes have been distributed to Shirley, Central, junior high and senior high school, Dawn and St. Anthony's schools.

The boxes this year are individual boxes instead of group boxes. There will be gifts for only one child packed in each box.

Mrs. Phil Barkley, chairman of the Junior Red Cross, expressed the hope that the boxes would be packed by the first part of next week.

Several letters from children who got last year's boxes have been received in Hereford.

TUCKERED OUT. After a busy day of romping together, 7-year-old Stanton Evans, son of Houston Chronicle photographer and Mrs. Larry Evans, drifts deep into dreamland while his constant companion, Chito, stays on guard with one flagging ear and a drowsy eye. The tiny chihuahua is Stanton's favorite playmate, yet finds time and energy to frolic with the other two Evans boys, Jerry, 12, and Larry, Jr., 13. (AP Photo).

CONG. ROGERS SAYS

Buffalo Lake, Tax Relief, Voice Of America Discussed By Rogers

TAXES: Taxes are still the number one worry of the low income groups. The present personal exemptions and exemptions for dependents are not much help with prices rising on all of the necessities of life. It is the low income group that suffers most and the higher the price of necessities go, the harder the struggle for existence. I have searched the tax laws continuously for an effective means of affording some relief to those hardest hit. My conclusion was that the quickest and most effective relief for the low income group would be an increase in the personal and dependent exemptions. By making this change there would be no discrimination against those in the higher income groups. In other words, the same rule would apply to all taxpayers. But the greatest relief from such in-

crease would go to those who are in greatest need. On February 11, 1952, I introduced a bill in Congress to increase the personal exemptions on individuals from \$600 to \$1000, and the exemptions for dependents from \$600 to \$750. If this bill is adopted, it will mean that a man with two children earning \$9500 a year would not have to pay income taxes. Many people have said that it is not fair for those people to be relieved of paying taxes. This is not a very good argument because the greatest amount of federal taxes that all of us pay are hidden taxes on commodities that we buy, and local and state taxes still have to be paid as they are assessed. Under 1948 figures, it would amount to a tax reduction of about 25% of your entire tax bill if you are in this low income

group. Passing this bill is not going to be an easy task, but I intend to do my best to get some relief so that these low income people can feed and clothe themselves and children. Another bill that I am preparing at the present time is a bill that would permit as an allowable deduction all medical and hospital fees incident to the birth of a child. Under the present tax laws and the low exemptions, a young couple is actually penalized for having children. SOME OBJECTIONS TO WHAT THE VOICE OF AMERICA IS DOING: I have discussed the Voice of America with many people in this country and from abroad. Many of them praise it highly. However, many have some well founded objections that I think should be cured. They tell me that too much time is devoted to telling the people about the many luxuries that we have in this country; that the people in those Iron Curtain and Russian satellite countries actually cannot conceive of any people enjoying the luxuries that we consider as necessities; that

they are therefore very suspicious of these stories and doubt the truth of them. These same people tell me that the broadcasts would be much more effective if they would talk to the people along lines that they could understand. That is, tell them more about roast beef, mashed potatoes, turnip greens and cornbread, and less about ice cream and cake. In talking to citizens who have come over from those countries, I gather the same story. What the people in those countries want is talk about plain common everyday food, and not talk about automobiles, electric ice boxes and television sets. ONE WAY TO GET RICH: Ex-communist Whitaker Chambers is now publishing his book "I Was a Witness." This book is being in serial story form. In serial story form.

The estimates here are that Chambers will get \$75,000 from the Post for these publication rights. It is also forecast that his book will be on the best-seller list and should net him several times the \$75,000. He is doing this under a system of government that he worked for many years to destroy and, by his own admissions, committed treasonable acts against. Quite a reward for a confessed traitor. It is too bad he didn't get religion earlier. Some of the information that he had, and undoubtedly will publish, might have saved this country from the mistakes at Potsdam and Yalta. THE BUFFALO LAKE MATTER: I am getting together a lot of facts on these Soil Conservation projects that are going to be mighty interesting. This situation may develop into a full fledged investigation, which I am

sure the people of the Panhandle would welcome. One interesting point is that Buffalo Lake has cost the government about \$350,000 since 1939. According to the records I have been able to get hold of to date, the government's cut out of the \$71,000 gross at Buffalo last year was approximately \$8,000. Another record I have shows an expenditure last year by the Government of \$5,806 up to October 1. The concessionaire's contract calls for the project to be kept in good repair and fully maintained. If the government spent \$5,806 by October 1 last year, the chances are that they spent by the end of the year all of what they collected; and more, on the project. This means that the government is furnishing a project that represents an investment of approximately \$350,000, and the only person making any money

Last time out I mentioned the New York-KC squabble over the site of the Olympic basketball trials. Contrary to the best diplomatic maneuvers they settled it swiftly and amicably, even intelligently. In the interest of peace and quite and in order to garner more dough they are going to split it between the two cities. The initial double-heads will be on March 29 at NY's Madison Square Garden and KC's Municipal auditorium. The semi-finals and finals will be at the Garden March 31 and April 1. On March 29 at Kansas City the NCAA champion versus the NAIB champion and the AAU runner up versus the third or fourth place AAU team and at NY the same night the AAU champion versus the third or fourth place AAU team and the National Invitational Tournament/Champion versus the NCAA runner up. On March 31, the college winners meet and the AAU winners tangle. On the following night, the collegiate and AAU winners clash with a fore-runner between the losers of the prior nite. Our Olympic team will be comprised of 14 players, seven from each of the two finalist squads. Our chief trouble in the eventual Olympic games probably will come from Brazil or Argentina although the Maple Leaf Rag may be the predominant tune. The boys down South have been bending their efforts and purses in the direction of crashing our hopes which hasn't occurred in the Olympics yet as far as basketball is concerned. Although in the Pan-American games they did drop the Bitters, even though it took means and ways, both assorted and devious. In the Western NCAA playoffs to be run off in KC, it has been decreed that the Border conference champs will meet the Missouri Valley titlers which now looks like WSTC Buffs versus St. Louis U and the Southwest conference rep against the Ramrod of the Big Seven which amounts to Texas Christian against Kansas Ags. My personal type guess would have the K. Aggies and St. Louis after

the first go and the Ags from Manhattan prevailing over the Billikens. All this bickering seems to be prevalent in sports and the hodge podge of fact and fancy in present day legislative and diplomatic circles. Reminds of bygone tale that is applicable. Among the masters of repartee in Congress was the late Senator Joseph I. France of Maryland. Firmly believing the prohibition law should be repealed, he made a speech one day in which he declared there was more drinking in Pullman car smoking rooms than in pre-prohibition days. A colleague, from Ohio rose and challenged hotly, "I deny that fact." Without change of expression, France said dryly: "That's just the trouble, the Senator from Ohio is always denying facts." The baseballers are already stretching their tendons and one wonders what the upcoming season will bring without Joe DiMaggio and Ted Williams in flannel. Color guys like that twain don't rise singly or in pairs very often and losing both in one chorus will leave a void. Some of the scribblers are writing Ted off as a big-leaguer if he does 17 months with the Gyreens. They point out he will be about as old as Joe, if and when he makes it back. However, they fail to consider the difference in their extra-curricular choices. Joe put his time in pavement pounding along the Broadway beat at all hours of the night and morning, preferably with a girl of the opposite sex, so the word passes. Whereas the lean Williams, always in condition, has no leaning toward the fleshpots, especially if there are too many humans around and about. In fact, fishing is his forte, anywhere, all the time, if possible. But far apart as these two are in temperament, their ability to draw the faithful to the ball parks was identical and no player remaining in the game can come close to them. The door shuts always, but it doesn't exclude the memories of guys that big.

Murdock, Morelli Battle To No Contest Saturday

Confusion reigned supreme at the Bull Barn on Saturday night when Frankie Hill Murdock met Tony Morelli of New York City battled to a no-contest after both roughies got out of hand. Referee Bill Sledge was not around for a few fleeting moments Saturday night as Murdock put his celebrated "sleeper" on the arbuter after the two grapplers had been given the heavens. Tempers flared to such an extent in the Murdock-Morelli go that the combatants didn't bother to leave the ring between any of the falls. Sledge couldn't keep them apart, so, after about a minute, he just signaled for the bell and let them start breaking each other's heads again. Morelli took the first fall in 10 minutes with a body jackknife. Within a minute — and without going to the dressing rooms — the two were at it again with Murdock putting the same body jackknife on Morelli. After five more minutes of high pressure mayhem, Sledge called for an end to the hour-long match. It didn't do much good, for Frankie put his "Pythion" on Bill and gave him a short nap, but Sledge wasn't completely under the influence and snapped out of it pretty quick. Morelli and Murdock had a gay time of it while Sledge was incapacitated, but it ended shortly thereafter. Matchmaker Guy Lawrence said he has asked for a re-match of Saturday's ill-fated contest, but has received no word as yet. In the first event of the evening — a one-fall, 20-minute bout — Gus Johnson of Seattle won over Tarzan Zimba, the little package of dynamite from Vancouver, B. C. through disqualification. After 15 minutes, Tarzan, trying of combat via the accepted

rules of the trade, made up his own and started getting rough. Sledge lost no time in ousting the balding terror. Dory Funk played around with Amarillo's Geoffe Overhuls in the semi-final, an hour-long, two out of three fall match. Overhuls took the initial fall with a full nelson in 16 minutes. Funk came back to take the second fall in 27 minutes with a spinning toe hold. The match went the remainder of the route for a draw. The foreman of the Flying Mare ranch put up a good show and fired back at the eager Amarillo youngster when the former Sandie opened up, but the action was restrained by Funk's superior ring knowhow over his opponent. Between the semi-final and the final bout, Freddie Jones, who bills himself as the "Rubberman" gave an unscheduled performance for five minutes.

Athletic Fund Annual Report

Total receipts for the Hereford Rural School District athletic fund up until February 1 of this year amounted to \$11,906.89, an audit of the fund shows. This figure includes the sales of tickets at the local field, half the net gate at away from home games, and the sale of football shoes. Most of the schools Hereford plays have a 1/2 net gate arrangement (after the officials have been paid). There has been no government tax on public school events since November. Previously, there was a 20c levy. The gate receipts this year suffered from two bad nights — when the Herd played Muleshoe in the rain and when they played Floydada in, sub-freezing weather. Football is the only sport which is paying its way for the athletic fund. There is not sufficient seating capacity for basketball to make that sport anywhere near self-supporting. The balance in the athletic fund as of February 1 was \$1485.17. Since that time, the letter

jackets for football players have been paid out of the fund, which reduced it to a present balance of \$671.52. A copy of the fund balance sheet follows:

Paul S. Corbett Explains Social Security Laws

By Mrs. R. C. Childers
NORTHWEST HEREFORD — Paul S. Corbett gave a talk on "Social Security" pertaining to farmers and their employees at a meeting of representatives for the various Home Demonstration clubs over the county in the Commissioners Court room Saturday afternoon at 2:30 p.m.

Corbett stated that Social Security began in 1937 and that it was for 1%; and in 1950 the Social Security Act was amended by Congress and raised to 1½%, and brought under an entirely new program which expanded the amount of the benefit for the people. The Act of 1951 designated three classes of people who had not been covered up to this time. They were the farm worker, the domestic worker — hand maids, cooks, housekeepers — and the self-employed. He also stated

that the 1954 to 1959 rate is supposed to run 2% and the 1970 3½%.

Corbett also stated that the Social Security program passed in the National Congress in 1937 was patterned after England and other foreign countries. This was a benefit program which gave the people a program where the employer and the employee could be aided.

He also stated that it was an insurance program and those that need it most are the ones who object to its being compulsory.

Mr. Corbett said that Social Security covers a wide field, and those not having a Social Security number should apply for one, and those having lost theirs should apply for another.

As stated by Mr. Corbett, a farm laborer must work at least 60 days on a calendar quarter for his employer and must receive at least \$50 during that calendar quarter before he is eligible to qualify for these benefits.

Many people never apply for their Social Security. The retirement age is 65 years, says Mr.

Corbett. Farms should be sent in by farmers who have regular hired help each quarter. You will be furnished with forms if you will write your income tax office, he explained.

Mr. Corbett was introduced by Mrs. R. C. Childers after she had informed the group that this was a leadership training meeting, preparing them for their March program which is on "Social Security for Farm Labor."

When Mean Colds Stuff You Up

It's so easy to relieve coughs and stuffiness of colds in a hurry this home-proved way... with 2 spoonfuls of Vicks VapoRub in a vaporizer or in a bowl of boiling water as directed in package.

Just breathe in the steam! Every single breath carries VapoRub's soothing medications deep into throat and large bronchial tubes. It medicates irritated membranes, helps restore normal breathing. For coughs or upper bronchial congestion there's nothing like using Vicks VapoRub in steam.

For continued relief always rub it on throat, chest and back.

Bigger, Better Livestock Show On Tap This Year

"Better in every way" is the advance word on the sixth annual Rotary club Junior Livestock and Poultry show which opens Thursday in Hereford. Three days of activity have been planned for the 1952 show and all will be filled with showings of some of the best livestock and poultry in the Panhandle. The Hereford show has gained a reputation through the past five years for exhibiting the best young animals to be found. FFA and 4-H entrants from Deaf Smith county and surrounding communities show their handiwork in the Hereford Bull Barn before crowded galleries. In quantity, the show this year will be about the same as the 1951 edition. Quality, of course, is expected to be better than last year. Preparations are being made to accommodate a greater crowd than attended last year. Plans for a free barbeque, to be served Saturday, noon, are anticipating a crowd of about 2,000 persons. The barbeque, at which members of the Hereford Kiwanis club will serve, will take place in the Norton building, northwest of the Bull Barn. The Junior Livestock and Poultry show, sponsored by the Hereford Rotary club with assistance of other service clubs in the community, started as an annual affair in 1947. In 1947 thousands of people lined the streets as the parade, led by Rotary Sweetheart Cecilia

DWAINE WALKER ended Junior Livestock and Poultry show competition last year with an unusual honor. For the second straight year, Dwaine showed both the Grand Champion and the reserve champion calf. The grand champion is at right in the above picture. The animal went on later and won top honors at the Amarillo Fat Stock show. There will be a new reigning champion this year as Dwaine will not participate in this year's exhibition. Walker's 900-pound grand champion sold at the auction for \$2 per pound and the reserve went for \$799, or \$1 per pound.—Bill Patton Photo.

Club Members Prepare For Sixth Annual Exhibition

"The biggest day of the year" for 4-H and FFA boys and girls in Deaf Smith county and surrounding communities is the annual Junior Livestock and Poultry show. To them, the show is their chance to display their pride and joy, the animals they have doted on for several months. It is their supreme moment of recognition for a job well done. Every club boy and girl, regardless of the outcome in the judging ring, is richer for the experience of showing their animals in competition such as provided by this annual affair. In recognition of the work

done by these club members, The Brand lists the entrants in the 1952 Junior Livestock and Poultry show and a brief summary of their exhibits and past experience. Questionnaires were sent to each club member and this list is the most complete one obtainable, as the members filled them out themselves and sent them to The Brand office:

- MORRIS LEE AND SIDNEY DUANE BLANKENSHIP**—These two boys will each enter two black face lambs in the show. This is their first year in 4-H club work. They are members of the Sims 4-H club and are the sons of Mr. and Mrs. M. W. Blankenship. They live in Adrian.
- GEORGE DRAGER**—Entered a sheep in the 1951 show and placed seventh in the class. He will enter two sheep and one pig this year. George has been in 4-H club work for four years. He is a member of the High Plains 4-H club. George, who is the son of Mr. and Mrs. Abraham Drager, attends Hereford high school.
- BRUCE CAUBLE**—will exhibit one calf this year. This is his first year in 4-H club work. He is the son of Mr. and Mrs. Jack Cauble of Vega.
- ROYCE CHETSINGER**—of Wildorado will enter two black Polish chickens in the Junior Livestock and Poultry show. Royce won first place with two black Polish chickens at the Tri-State Fair in Amarillo in 1951. He is the son of W. N. Chetsinger.
- WILLIAM RUSS**—This boy, who lives in Vega, will enter two Duroc barrows. The son of Mr. and Mrs. S. W. Russ, he is in his first year of FFA work.
- JIMMY JOE HILL**—Will again have some entries in the show. Jimmy Joe's junior calf won first place in the 1948 show but his two lambs didn't take any prizes. His two junior calves won 10th and 12th place in the 1949 show and he entered two lambs. In 1950, his two calves
- JANE NEWSOM**—Will enter two pens of chickens this year. There will be a cock and two hens to each pen, all White Wyandottes. Jane entered 11 White Wyandottes in the show last year. She won a first, second, third, two fourths and two fifths. Jane is the daughter of Mr. and Mrs. Guy W. Newsom and is a member of the Happy Homes 4-H club. She has been in 4-H club work for two years.
- THELMA EPTING**—Will enter one old pen of White Wyandottes and three singles. Thelma entered 22 chickens last year and won the most ribbons of the show. She had the champion particolor pullet of the show. She won 50 baby chicks and 100 pounds of feed besides the cash awards. Thelma is a member of the Jolly Girls 4-H club and is the daughter of Mr. and Mrs. George Epting of Vega. She is a senior at Vega high school.
- DORIS EPTING**—Will enter one White Rock cock, two White giant cocks and five White Rock hens. Doris, who is the daughter of Mr. and Mrs. George Epting of Vega, entered five chickens in the 1950 show and won five ribbons, three first one second and one fourth place ribbon. In the 1951 show she entered 20 chickens and won 12 ribbons. Doris is a member of the Jolly Girls 4-H club.
- BERNADETTE BEZNER**—This newcomer will enter one cockerel and two pullets in the show. Bernadette is the daughter of Mr. and Mrs. Frank Bezner and is a member of the

Guseman, opened the show on March 1. The Rotary sponsors as well as youths exhibiting in the initial event termed it a "complete success." Bill Kelly, then 4-H club president, exhibited the grand champion calf, and 820-pound

Buyers Of Show Stock Will Be Given OPS Slaughter Certificate

Slaughtering regulations imposed by the Office of Price Stabilization won't eliminate the livestock auction following judging of winners at the Rotary Junior Livestock and Poultry show on Saturday. Under an OPS ruling released in early February, livestock fairs must apply for permission to have the "club" or "show" stock sold at the fair and slaughtered. The Lubbock office of the OPS has issued certificates permitting non-slaughtering purchasers to obtain 40 calves, 28 lambs and 50 hogs to the Hereford Rotary club for the show. So, regardless of slaughtering regulations pertaining to other animals, purchasers of Rotary Junior Livestock and Poultry Show stock will be given certificates allowing the slaughter of the animal they buy. Certificates will be given at the time of sale.

Winners Of 1951 Seek To Repeat

- Featured in the 1952 Junior Livestock and Poultry show will be many new club members who will feel the taste of competition for the first time. There will also be many "veterans", among them, youths who finished in the winner's circle in last year's show. In 1951, club members vied for \$1,500 in prizes at the show. Winners in the 1951 livestock division of the show are:

Trophies instead of cash prizes will be given this year. Included in the impressive display above are statuettes, exact replicas of the division they represent, loving cups and rosettes. Looking over the awards are two of the 1952 show exhibitors and two of the men responsible for the show itself. From left: David McDuff, FFA entrant; Bill Stanford, FFA sponsor; Hugh Clearman, county agent; Don Patson, 4-H entrant.—Staff Photo.

Exhibitors Will Vie For Awards As Showman

One of the most sought-after awards presented at each annual Junior Livestock and Poultry show is the "Showmanship Award." The outstanding showman of the event will be awarded \$10 in cash and a five-year subscription to Cattleman's magazine. Second place for Showmanship is \$10 and \$5 for third place. Donors of the awards are Mal Stewart and Colby Conkright.

GRAND CHAMPION pig in last year's show, a Chester White, was exhibited by Jack Acker of Nazareth, a 4-H club boy. The grand champion sold for 40¢ a pound or \$93.60.—Staff Photo.

JACK McCracken's Duroc, shown above, was winner of the reserve champion honors at last year's Rotary Junior Livestock and Poultry show. Jack was FFA boy last year and is now at Texas Tech.—Staff Photo.

NANCY PARSONS is shown above with one of the chickens she will exhibit at the Poultry show. Nancy, who has been in 4-H work for three years, is a consistent winner. She was one of the 1951 winners.

Walker sold the grand champion for \$1335 at the auction following the show as well as having won a wrist watch, a registered Whiteface calf donated by Tel Walhauser of Clovis and a calf donated by Colby Conkwright as prizes.

Joe Percy Hart of Hart exhibited the grand champion lamb and Anthony Acker of Nazareth showed the grand champion pig. Carol Miller of Dawn showed the reserve champion calf, a 1000-pound Whiteface. Jim Hill of Vega showed the first place winner in the Junior calf division and Pat Miller of Dawn placed second.

Erna Norton, Hereford rancher, topped all gifts to Boys Ranch at the 1948 show. He announced the gift from the Hereford breeders of "at least 25 head of registered Whiteface Herefords, 16 head of beef cattle and promised, in addition, a good bull to go with the heifers." Estimated value of the gift was over \$10,000.

Boys Ranch was nearly \$2,500 richer after the 1948 show thanks to donations of \$2,423.31 in cash and several head of cattle by 4-H members and cattle buyers.

THIRD EVENT

The third event—held February 19, 1949, broke all records set previously.

Charles Ralph Springer took the grand championship honors with his 925-pound calf, which brought over \$60 in prizes to its owner. The animal brought \$740 at auction, or 60 cents per pound.

Bill Kelly exhibited the champion calf in the junior division. The 820-pound animal brought its owner \$25 in prize money plus \$410 from the sale ring, for a price of 50 cents per pound.

The 1949 show also saw girls entering competition for the first time with poultry being added to the list of entries in the four-county event.

"Winningest" Exhibitor

Dwaine Walker became the "winningest" farm youth in the history of the Hereford Rotary Junior Livestock show when he captured both the grand and reserve championships. His two calves took first in the junior and the senior division.

Walker's grand champion, from the herd of R. T. Alexander and Son, weighed in at 890 pounds. His reserve champion, from the Colby Conkwright herd, weighed 805.

Approximately 430 entries were recorded in the 1950 show.

Poultry exhibits topped the initial year's number. Ann Dyer won the most prizes and led the field with total number of entries.

Thousands of people lined Hereford's streets to watch the Hardin-Simmons, West Texas State Teachers college bands and the Friona and Hereford high school musical aggregations lead the huge parade. The parade was one of the longest in Hereford history.

In last year's exhibition, all

previous marks for a successful show were shattered. There were 37 entries in the light and heavy calf division combined, 43 pigs, 32 lambs, and 271 chickens representing 16 different breeds.

Dwaine Walker repeated his 1950 performance when he showed both the grand champion and reserve champion calves.

Calf average in the livestock auction that followed the judging event was \$55.29.

Fifty floats of different kinds entered the huge parade held on the last day of the show. More than 1,500 persons attended the free barbeque.

Grand champion pig, a Chester White, was shown by Jack Acker of Nazareth. Reserve champion honors went to Jack McCracken's entry a Duroc.

John Bridges of Castro county showed the grand champion lamb a 109-pound Southdown. Herbert

Farmers, Ranchers Will Have Part in National AC Program

All farmers and ranchers of Deaf Smith county will have an opportunity to cooperate in the national Agricultural Conservation Program in 1952, according to B. F. Vance, chairman of the Texas PMA.

Every farmer and rancher in Deaf Smith county will be contacted by mail.

The chairman suggests that the farmer or rancher who plans to cooperate in the 1952 ACP review any plan he may have for his farm, his own or one worked out with the help of his county

agent, soil conservation district supervisor, or others and base his 1952 conservation operations on that. It may be that a number of conservation practices are needed but there may be one or two that are more urgently needed than others, or a preliminary practice may have to be carried out in 1952 before a major practice can be started.

Following this review, the farmer is in position to determine how the Agricultural Conservation Program can be of most help to him and how he can best use the help of the various agencies that are available.

In this way, the chairman indicates, all help available can be

"pinpointed" on the conservation practices which will do the most good for the farmer and in total yield the greatest return on the public funds being used to stimulate need conservation practices.

In making their plans, chairman Vance urges farmers to have in mind the production needed to meet the nation's 1952 goals as well as further production needs.

Wonders of
GOD and NATURE

WHAT the lovely tree and the dashing waterfall and the cloud-flecked sky say to us depends much on the creative mood and the inner interest of our minds and hearts. "The heavens declare the glory of God" only to those who are reverent and believing. What we bring of inner beauty will determine the ministry of external beauty.

THE house builder in us will look upon a majestic Douglass Fir and see in it lumber feet for the construction of homes and barns and business structures and churches. The botanist will look upon the varied glory of the natural world to classify leaf and petal and root. The artist is carried away with symmetry and color and light and shade that ravish a sensitive soul. The child of God hears the woods and the sky and the falling streams as they shout, "God made us, and we are serving His creative purpose. Join us in praising and worshipping our Creator. Come with us to Church."

IN EACH of us is something of the practical business man and of the lover of nature and of the artist and of the worshipper. Which of them shall we make dominant as we look upon this beauty today? Which side of our nature shall we cultivate for rich and abundant living? We are hand and eye and mind and spirit, and, of them all, we were intended to be primarily spiritual children of God. Let's bow today before our God who is truth and goodness, but also Beauty. Let's be beautiful in our spirits through this day, that we may be members of the Family of our God.

YOU IN THE CHURCH - THE CHURCH IN YOU

Character is a by-product of the church. It is here that young and old alike are showered with benedictions that fortify and influence for a better citizenship and a stronger democracy. In the church the ministerial are molding religious character. Statesmen today handle the affairs of state in these perilous times. Then with our children should go to the church of our choice on Sunday. "You in the Church and the Church in you" - form a combination for good. Be a regular CHURCH-GOER and a daily BIBLE READER.

Buick even keeps the Sun in its Place

Of course, this new glass—which reduces glare and incoming sun-heat—is a Buick feature in '52

With all the new things we've had to talk about in 1952 Buicks, we're just getting around to this one.

It's called "Easy-Eye Glass"—a new kind of glass with a cool, soft, blue-green tint, which filters the sun's rays entering your car—cuts down their glare and heat.

You'll appreciate the "glare control" at any time—and when you hit your first stretch of hot-weather driving you'll find that this glass does a great job of keeping the heat out of your lap.

We know—because thousands of happy Buick owners already have this new comfort feature. The rest of the automobile industry is just

beginning to discover what Buick discovered a year ago. It's a great idea, which costs you very little extra if you order it when you're buying a new car.

But this still leaves the other folks with a lot of catching up to do.

You'll look a long way before you'll find anything that approaches a Buick's million dollar ride.

You'll look a long way before you'll find anything so completely satisfying as Dynaflo Drive.*

You'll find it hard to match the style and beauty and harmonious good taste of a 1952 Buick's interior trim and fabrics.

And when it comes to what you get for what you pay—we'll gladly match price tags with the field.

Have you had a good look at the '52 Buicks? That's something you ought to do soon.

Equipment, accessories, trim and models are subject to change without notice. *Optional at extra cost—available on most models. (Not presently available in Massachusetts.) **Standard on ROADMASTER, optional at extra cost on other Series.

Sure is true for '52 When better automobiles are built BUICK will build them

Commissioners Approve Vacating Of Subdivision

Cancelling and vacating of a subdivision for platting purposes was approved by the commissioners court on Monday, Feb. 11.

A petition was filed with the commissioners by Mr. and Mrs. W. W. Ireland, Meredith Ireland and Anna Mae Valentine to cancel and vacate the subdivision made by Vardeman and Hough of Block 35 of Evans addition.

The commissioners ruled that insofar as the same covers property owned by the petitioners and streets which have never been used, the subdivision be cancelled for plat purposes.

PATSY CAYWOOD is preparing her bird for the poultry show which is to be held Friday and Saturday. She is cleaning the feet of her prettiest White Rock hen. Their feet need a great deal of care to make them a good show bird. Patsy plans to enter about five birds. She will enter enough birds to fill the class in each entrant. This is Patsy's third year of participation in the poultry show. The first year Patsy had turkeys, and won a first on each, the tom and the hen. Last year she won first on the solid colored pen, which was a cockrel. Patsy has been quite enthusiastic about her 4-H work, especially the poultry raising project. Upon visiting in the Caywood home, she would always invite you to see her birds. She had her turkeys so gentle that she could pick them up anywhere. On one occasion at a meeting of the 4-H club in her home, she brought a turkey gobbler in the living room to exhibit it. You could tell he was not at all excited, he acted like the gentleman he was. Patsy is a member of the Workers 4-H club, and serves as drill leader for the group this year. Her mother, Mrs. M. G. Caywood, is the club's sponsor.—Mrs. R. C. Childers Photo.

Happy Homes 4-H Girls Prepare Poultry Entries For Judging

The poultry story of the Happy Homes 4-H club owes its beginning to the leader, Mrs. Ira Scott and her husband, who carry out a successful poultry demonstration each year.

Mr. and Mrs. Ott have from 200-300 hens each year and know what it means when they say you best "learn by doing." The 4-H girls of the Happy Homes club profit from Mrs. Ott's experiences with her own flocks.

Girls gain invaluable experience from Mrs. Ott in raising baby chicks and in the care and feeding of laying flocks.

Mrs. Ott organized the club in June, 1948. Other ladies have helped her periodically with the club, but she alone has remained as lead of the group since its organization nearly four years ago.

Barbara Dameron is the only girl who has carried a poultry demonstration since the first year. In 1949, the Wyche Home Demonstration club gave 50 baby chicks to a 4-H club girl. Barbara was that girl.

She raised 48 White Rock chicks and entered 11 of them in the 1950 Poultry show, winning

a grand champion, four blue ribbons and two red ribbons.

Barbara's total prize money was \$12.50 plus a sack of laying mash.

Again in 1951, Barbara entered 12 chickens in the show. Again she won a grand championship, three blue ribbons and two red ribbons.

She plans to enter about 20 chickens this year and Mrs. Ott expects her to make an excellent showing as well in the 1952 competition.

The young girl has been poultry demonstrator for the Happy Homes 4-H club since it was organized.

Another Happy Homes girl is Martha Logan, who is in her first year in club work. She will be looking forward to her first show this week-end, entering a pen of New Hampshire Reds, a Rhode Island Red and a cockrel.

Martha is secretary of the Happy Homes club.

Martha Heard has some bad luck with her chicken the past year and until recently didn't expect to have any of them ready for the show. But the cooperation

of the weather and the good care she has learned to give them will see her entering some White Rocks.

Her father is George Heard, a member of the Rotary club, who has always been active on the poultry committee.

Jane Newsom was vice-president of the Happy Homes club in 1951 when she was in her first year in poultry. She entered 11 White Wyandottes in that show and won a first, a second, a third, two fourths and two fifths.

Jane will again enter White Wyandottes this year. She has her baby chicks for her poultry demonstration this year.

Patsy Dawson is the new president of the club. She, too, was a 1951 poultry show winner. Patsy entered eight Blue Andalusians, one pen and five singles, winning first on pen and first through fifth on singles.

This year, Patsy plans to enter the same breed of chickens.

Sharon Flood is another first year club member. She will have some new Hampshire Reds and White Leghorns in the show.

Jo and Kay Scott are a sister team. They will have some White Wyandottes to show. This is Kay's first year in competition, but Jo Eddy is a veteran winner of the first poultry show held in conjunction with the livestock show.

Twyla and Sue Springer were winners in the 1951 show and had plans for this show, but all the wings of their flock have been clipped and that disqualifies them.
