## Around Town

Mrs. Cecil Williams was named chairman of the Deaf Smith County Chapter, American Red Cross, at the annual meeting held Wednesday. Alex Thompson is vice-chairman. Mrs. Lonidene Edmondson was elected treasurer. Directors named were Robert L. Thompson to replace W. J. Reeves, Fred W. Baird to succeed himself, Mrs. Lonidene Edmondson, re-elected, and Dr. L. B. Barnett re-elected.

Bessie Patterson is attending a meeting of the State Congress of Texas Parents and Teachers in Austin this week. Mrs. Patterson is the vice-president of the Eighth District Congress.

Mr. and Mrs. A. B. London of Hereford are announcing the arrival of a grandson, William Boyd London Jr., on June 9.

The baby was born at Jasper, Texas. He is the son of Lt. and Mrs. William B. London. Lt. London is on the front lines in Korea.

Mrs. Bob Bicknell received word Tuesday of the death of her sister, Mrs. Joe Snavely of Denison. Because of the illness of her (Continued on Page 3)

## Holmes Funeral Services Held In McAdoo Wed.

Funeral rites for Melvin Arron Holmes who died in the Deaf Smith county hospital on June 8, were conducted Wednesday afternoon at 2:30 in McAdoo.

Holmes was born January 1, 1906 at Alba and was married to Bessie Woods in 1932 at Crosbyton.

Holmes moved to Deaf Smith county in February 1952 from McAdoo.

Survivors include his wife: seven sons, Marvin, Lloyd, James, Alvin Lee, Oscar V., John Franklin, Robert Douglas and one daughter, Eula Pearl; one brother Jodie of LaFayette and two sisters, Margaret Hall of ElMont Calif., and Mrs. Perry Smith of Sulphur Springs.

## 'First Real Vacation' In Store For Couple

"Oh! I'm so happy!" was the first reaction of Mrs. W. A. Waters when she learned that she and her husband had been selected as the lucky winners in The Brand's "Good Neighbor" contest and the recipients of a week's free vacationing at Drowsy Water Ranch in Granby, Colo.

"Just fine and dandy" was the comment Mr. Waters made when informed of the week of rest coming up for him. Both Mr. and Mrs. Waters were still thrilled when The Brand interviewed them on their plans this week.

They first learned of their good fortune on Saturday afternoon after The Brand had been put on sale. A neighbor, Mrs. Grace Hicks, bought a paper and burst into the Waters home crying, "Mrs. Waters, you won the trip!"

The couple is looking forward very eagerly to this week's rest, their first in an entire lifetime. Mr. Waters relishes the thought of all that fishing and Mrs. Waters wants to ride horseback and "watch them square dance."

Waters, a retired construction and farm worker, had a stroke in 1950 and was ordered to take things easy. Since then he has just been doing odd jobs and gardening work for home-owners in Hereford.

They have had no rest from their work in five years. The couple lives in a neat small house at 203 Higgins with a well-kept yard, a nice garden and flowers.

The Waters were married September 22, 1907. They came to Hereford in 1934 from Littlefield and have lived on Higgins street for five years.

They have five children. A son who lives with his family in Dumas plans on driving them to Colorado in their 1952 Buick loaned for the trip by Earl Hendricks.

At first, Waters was hesitant to leave his work for a week while he went on vacation, but his clients told him to forget

about the work and have a good rest. A little persuasion by the son in Dumas clinched the deal.

Helping people is more than an avenue for appreciation and reward for the Waters family. Their philosophy can best be summed up by these two axiomatic guideposts -- "It is more blessed to give than to receive" and God loves a cheerful giver."

Mrs. Waters wants to take vacation pictures because, as she puts it; "We are so grateful to these people that we want them to see we ARE having a good time."

They plan to leave Saturday or Sunday for their long-awaited and certainly well-deserved rest. For Mr. and Mrs. Waters, aged 67 and 60 respectively, are truly "Good Neighbors".

## Six-Year-Old Enjoys Wild Ride Sunday

Sandy Nunnally, six-year-old daughter of Mr. and Mrs. Sam Nunnally proved herself quite a cowgirl Sunday morning when she took a wild ride down the main part of town on her Shetland pony.

Sandy was riding the pony around near the Nunnally residence north of Lake Park Sunday about noon when suddenly the horse took off for town.

Her dad jumped on the back of Dr. Roy Grubb's car and the chase was on with Sandy enjoying herself every gallop of the five or six block ride. The pony was finally stopped near the courthouse.

"Was Sandy scared?—No! She's begging to do it again!"

## Final Rites For I. J. Adams Held On Wednesday

Funeral services for I. J. Adams of Dimmitt were conducted Wednesday in Wichita Falls.

Adams died at the Castro county hospital on June 8 following a short illness.

He was born on August 29, 1893 in Polk county and married Hazel Dell in 1927. Adams came to Castro county in 1944 from Clay county. He was a farmer and a member of the Baptist church.

Survivors include: two sons, C. R. Adams of Dimmitt; Isom Walter Adams, US Navy; one daughter, Mrs. Bettie Horn of Wichita Falls; two brothers, C. W. Adams of Lovington and Elbert Adams of Aspermont; four sisters, Mrs. C. V. Mangrem, Wichita Falls, Mrs. Ettie Owens, Carrigan; Mrs. Ara Fox, Marlin; and Mrs. Emma Prescott, Aspermont; and five grandchildren.

# Gas Line Blast Near Dawn Early Wednesday

THIS SENSATIONAL photograph—taken by Bill Patton—shows the flames leaping high into the air from the gas line explosion early Wednesday morning eight miles south-east of Dawn. The blast tore a big hole in the line and a large crater in the Fain ranch pasture. It took about two hours to control the blaze. Patton Photo.

A 30-inch El Paso Natural Gas Co. transmission line—carrying around 700 pounds per square inch pressure—exploded eight miles southeast of Dawn Wednesday morning at 8:15 unleashing a mighty column of searing flame that observers said shot into the air as high as 400 feet at times.

No one was injured in the blast, which tore a gaping 30-foot hole in the 1/2-inch pipe and uprooted a quarter-mile of pipe.

Reports originating from Dawn said the flames could be seen for 50 miles.

The flames were quelled in about two hours as gas pressure was shut off at the block gates north and south of the break. The north gate is about 1 1/2 mile from from the scene of the break and the south gate was about three miles from the break.

Crews of the West Texas Gas Co. in Hereford were on hand to assist in fighting the blaze, which was on the H. V. Fain ranch near Buffalo lake. Three fire trucks were also standing by.

Reports that an airplane had crashed to the ground and caused the blaze were discounted in Hereford by R. C. McGilvary, manager of the West Texas Gas Co. here. He said two employees of the El Paso company had flown three miles south of the break and reported it later when they landed over radio. This plane might have been the one persons in the area thought had crashed at the scene.

Cause of the break was not determined, but McGilvary said it must have been that a break in the pressurized line caused a spark which set off the explosion.

The blaze was reported to Hereford gas company officials by David Rodgers of Dawn who said his workmen came in and told him about it.

"It burned with a loud roar," Rodgers said. He likened the noise to a "cutting torch just outside my window."

Rodgers hopped into his car, thinking that the blaze was coming from an overturned gas or butane truck about a mile (Continued on Page 3)

## Vacation Bible Schools Draw 850 Students From Community

The school for about 850 Hereford children didn't end on May 23 as many people thought.

These 850 children are the ones who have been taking part in Vacation Bible schools in the various churches in Hereford.

Of the total enrollment in the schools 241 have been in beginners and nursery classes; 210 in primary; 228 juniors; and 96 intermediates.

Churches which are having a Bible school this week or have just finished are: Assembly of God; First Presbyterian; First Christian; First Baptist; Avenue Baptist; First Methodist.

The Immanuel Lutheran church will hold a vacation Bible school July 7-18.

The theme for the Assembly of God school is "The Bible is My Guide." At the First Presbyter-

ian church the theme of the school is "Followers of Jesus."

The First Methodist church have three different topics of study in their school. The beginners have stories about Jesus and the juniors are studying the Old Testament. In the primary department the students are learning why the children of Palestine during Bible days are like the children of the United States in many ways.

The First Baptist church school is having Bible study, mission work and handicraft.

Each department had a theme at the First Christian church Bible school. The kindergarten studied "Happy Times in Our Church"; primary, "Working Together in God's World"; The junior department studied "In The (Continued on Page 3)

## County Buys Road Grader For \$15,400

The Commissioners Court Monday approved the purchase of an Allis-Chalmers diesel road grader from the Tom W. Carpenter Equipment company.

Bid by the Carpenter firm was \$15,400 for the new unit minus \$6,200 trade-in for his present equipment.

Payment for the unit will be \$2000 in cash from the road and bridge fund now and three \$2,400 bridge and road fund warrants to come due on May 15 in 1953, 1954 and 1955.

Only one bid was received.

## Select Corinne Jennings Red Cross Secretary

Corinne Jennings has been named to succeed Mrs. Dyalthis Bradly as executive secretary of the American Red Cross chapter here, according to a statement by Fred Baird, chapter chairman.

Appointment of Mrs. Jennings was announced at the annual membership meeting of the Red Cross Wednesday afternoon in the courthouse.

The new secretary will assume her duties sometime after the first of August, it is believed. Her salary is \$175 monthly.

Offices of the Red Cross after the change in secretaries will be on the third floor of the courthouse in the present Soil Conservation offices. The SCS will move to the ground floor of the building.

Mrs. Jennings, at present the assistant county librarian, was in volunteer American Red Cross work for several years. During World War II she was connected with the home service branch of the local Red Cross chapter.

During the war, the new secretary also worked in the gas rationing office. She was employed by The Hereford Brand editorial department for 15 months in recent years.

A native of Deaf Smith county, Mrs. Jennings is the daughter of Mrs. G. R. Jowell. She graduated from local schools and attended Midland college in Midland and also WSTC at Canyon. She took correspondence work with the Newspaper Institute and a writing course with the Palmer of California.

In addition, Mrs. Jennings taught school here and Indian school at the White River Indian Agency.

GETTING READY for Friday, June 13? In the top photo, Janelle Price and Matha Jane Brown are crossing their fingers "for luck" in anticipation of THE day. In the bottom photo, Pat Loerwald goes along with the superstition by sprinkling spilled salt over her shoulder. At right above, Wanda Cunsen remembers to "knock on wood."

At extreme right, Eleanor Aven eyes a leaning ladder apprehensively (for the camera, that is.) When asked what she was going to do about the ladder, she said, "Walk UNDER it." All this is just to remind you that tomorrow is Friday the Thirteenth. Staff Photos.

## Superstitious? Tomorrow Is Friday The Thirteenth

Superstitious? Then you'd better stay in bed tomorrow!

It's Friday the Thirteenth! You say that doesn't bother you? You're not superstitious? Okay, maybe not, but you will be one of the few who DOESN'T have a quirk that can be labeled superstition.

Perhaps a black cat doesn't bother you or you don't feel uneasy walking under a ladder or in putting on a hat in bed. There are still many more avenues where you can vent your superstition.

Just like the local woman angler who "can't catch a thing unless I spit on my bait," you, too, can be superstitious. It's NOT silly -- just one of those things.

Maybe you're in business. Do you feel that it's lucky to make a sale before 9 a.m. Monday morning because that's a sign of good business all week long? So you're not superstitious, eh?

Maybe you're a salesman and wrote up a whopping big order one day while wearing a red polka dot tie. If you're like most of us, you'll wear that old thing till it falls to pieces hoping for another order like that "big one."

Maybe you won't sign an important document on a certain day, date or hour of the day. You're bait for this Friday the Thirteenth business.

Just before the bride slips down the aisle for the BIG MOMENT what does she do? Check for something old, new, borrowed and blue. What about that penny in her slipper? Superstition!

We all do it in one form or another!

Through a little research, we were able to dig up the "whys" of some of the more widely-accepted superstitions. Here they are:

WALKING AROUND A LADDER -- A leaning ladder forms a

triangle, the symbol of life in ancient times. The ancients feared that stepping into that triangle would break the symbol, thus endangering their lives. So millions won't walk under ladders, but very few probably know the origin of the superstition.

BLACK CAT -- In the Middle Ages people figured a witch could take the form of a black cat, so it was believed to be a bad omen for a black cat to cross your path.

SPILLING SALT -- Spilling salt was not bad because of the value but due to the fact that salt was thought to possess magical powers because it colored the flame when sacrifices were burned.

FRIDAY IS AN UNLUCKY DAY -- It was said that the Flood had begun on Friday, the confusion of tongues at Babel took (Continued on page 6)

## Dairy Cattle Spotlighted In Fair Planning

Dairy cattle shows will take on a new importance in the 1952 State Fair of Texas livestock exposition as aristocratic Holstein, Jersey, Guernsey and Shorthorn bovines put their best hooves forward.

Ray W. Wilson, livestock manager for the fair, said the dairy show October 10 through 17 would be the best in the fair's history, with higher premiums, more interest and wider participation.

For example, as many as 20 state herds from all sections of the country are expected for the spotlighted Pan-American Holstein Show, for which premiums total \$10,750. This is based on 10 state herds. With 20 premiums could total \$15,750. Each state tries in the Holstein show will probably total a whopping 300.

The Jersey Show, offering premiums totaling \$5,000 will be an outstanding climax show for the year for that breed in Texas. The fair will pay additional premiums in all classes to Texas-owned have been exhibited in a support-Jerseys placing in the show that ing show—designated as any show held in Texas after Aug. 1 in which at least three counties are represented.

Guernsey premiums are \$3,000 and Milking Shorthorn awards total \$3,275. Additional premiums of \$3,275 are offered in the Junior Dairy Show, Oct. 11-17, to bring the grand total of dairy show premiums to \$25,275.

Judging will include Guernsey October 13, Holsteins October 14, seys and the Junior Dairy Show and 15 with the Parade of Chamberd will be awarded \$500. Enpions October 15, and Jerseys and Milking Shorthorns October 16.

The Pan-American Holstein Show, highlighted this year in line with fair's policy of featuring beef and dairy breeds in alternate years, will command international attention. The fair will carry on a strong campaign to interest breeders in Central and South America to attend the show.

The fair is increasingly emphasizing dairy cattle because of a heightened demand for dairy products, and because of the higher cash value of dairy products, Wilson said.

milk and milk products in the human diet.

Burleson says that June has been designated as Dairy Month and he encourages all dairy men to take time out for an examination of their operations in order that they may do even a better job of producing a high quality food product. He also encourages Texas dairymen to support their state ADA program.

## Texas Dairying Is Big Business

is big business in Texas. The value of all milk produced in the state last year amounted to \$200,000,000. Total milk production during the year, says R. E. Burleson, dairy husbandman for the Texas Agricultural Extension Service, reached the 3 billion pound mark. That, adds the specialist, is a lot of milk but was only enough to supply 65 percent of that needed by the state's ever-increasing population.

The greatest demand is for fluid milk but great quantities are also used by manufacturers of ice cream, butter, cheese, evaporated and condensed and powdered milk. Burleson says that from the standpoint of the total state ranks fourth in the nation number of dairy cows but 45th in the production per cow. In total pounds of milk produced the state ranks eleventh. Generally speaking, the greatest production is east of a line drawn from Wichita Falls to San Antonio to Corpus Christi. The two largest milk sheds from the standpoint of counties involved and production are the Houston and Dallas-Ft. Worth sheds.

Among the highest producing counties are Harris with 500, grade A producers; Parker, 400; Hopkins, 385; Bexar, 350; Johnson,

## Readers Appraisal Of Comics Asked

Noticed the new addition to the Thursday Brand? The comic strips, we mean.

Yes! Eight new and entertaining comic features have been carried in the Thursday Brand for your entertainment.

Seven of these can be found on page five, section two of this issue. The other strip will be found on the classified page in this section.

Now here's what we want you--our readers--to do. We want to know WHICH of these comics you prefer. Just drop a postcard to The Hereford Brand, Box 673, and let us know your preference in the order you prefer them.

These are all top-notch comics and were selected especially for our readers to supplement the comics in The Sunday Brand. But we want to know which you like the best. If our readers show an overwhelming preference for five or six features, that's what we'll run. If they want all eight continued, we'll do that too.

Our main objective in doing this is to give the readers what THEY WANT.

You can help us in this task by dropping us a card and telling us how you like our new comics. For your convenience, use the following score sheet. Fill out the order of preference (1 through 8) after each comic and paste it

away. He had in mind to help the driver. When he arrived nearer the scene, he found out what it was and returned to his office to spread the alarm.

Reports that the gas in the line was being pumped from north of Canadian to Denver City, thus eliminating the Dimmitt pumping station, necessitating the high pressure.

An El Paso Natural Gas crew from the Dimmitt station came to the scene. After the line was cut off in the 4 1/2-mile section, the fire gradually died out. Within two hours, it was under control, McGilvary said.

No property damage was believed to have been caused by the blaze. Reports said that grass was seared around the crater caused by the break for a distance of 500 feet.

## PITCH and PUTT

By J. M. Posey

It has been decided that our city tournament will be held on July 4, 5, and 6 this year, as we are planning an invitation tournament over Labor Day.

Qualifying will be from June 22 through June 29, which will give every one plenty of time to get their scores in.

Will be eight players to the flight, with prizes going to the winner, runner-up and also the winner of the consolation of each flight.

Prizes have been selected, and they are of equal value in all flights, the winner of the last flight will get just as good a prize as the winner of the championship flight.

Entry fee is to be \$4, which is as cheap as we could make it and take care of the prizes, without asking the merchants for donations. The Calcutta Pool and lunch will probably be the night of July 3rd, but will let you know later about that. We should have a very good tournament, with good matches all the way.

The old boy to beat this year will be of course the same old boy every one has a hard time beating, which is Stan Barrett, who played nine holes late Sunday afternoon, and showed Streu, Bud Posey and Dr. Channer how the game should be played.

He tied the course record for nine holes shooting a 32, which as far as I know was held jointly by two professionals--Jim Terry and Kenneth Wright. From here on the word will be -- WATCH THE MAN -- STAN.

Nearest buildings on the Fair ranch to the blast were about 3/4 miles away.

Amarillo sources stated that the mushrooming cloud following the blast and first part of the fire was visible at the Amarillo Air Terminal.

## Swim Classes Start At Pool Monday, June 16

A six-lesson Red Cross beginner's swimming class will be given at the Hereford municipal swimming pool the week of June 16-21, according to Medford Hammon, pool manager.

Classes will be held from 6:30 to 7:30 p.m. each evening during the week, Hammon said. Instructors will be Jack Ramey, official Red Cross Water Safety instructor, and Oliver Streu, sen-

ior life saver.

Cost of the course will be \$2. All graduates will be given a Red Cross beginner's badge showing their proficiency.

The number of students per class will be limited to 20, but

arrangements will be made if more than that number apply for the course.

Hammon said they will take students of all ages and those interested are asked to contact him at the pool.

#### Summer Dates Set For Congregational Church Activities

FRIONA—Several summer dates were set for the Friona Congregational church in a special called meeting of the officers and teachers of the church and Sunday school on June 8.

Sunday, June 22, is to be "Children's Day" in the church with the program to be mainly in the hands of the youngsters of the Sunday school.

The annual daily vacation Bible school will be held during the week of August 10.

It was also voted to have the Sunday school represented by six persons at the Leadership Workshop of the denomination to be held at Comp LaForet, near Colorado Springs, Colo., from July 30-August 3.

The Women's Fellowship of the Congregational church is to hold its next meeting in the church parlors on June 18, according to announcements of the president of the group, Mrs. Glen Reeves.

"Father" is to take the bow at the morning worship service of the Congregational church June 15, at 11 a.m. with a special invitation to all fathers of the congregation, friends or members and of the community as well.

The pastor's sermon subject as announced is to be "Show Us The Father".

The church was represented by the Rev. and Mrs. George E. Meyer, Mrs. Floyd Schlenker, and Misses Sue Cranfill, Phyllis Treider and Florence Dean at the meeting of a vicinage council of Congregational churches held at Binger, Okla., for the examination and installation of the Rev. Harry Lake as pastor of The Binger Congregational church on June 2. Rev. Meyer had the Scripture reading for the installation service.

hand, if there was unauthorized removal of grain, then there is the further question as to whether or not there was any intent to defraud the government.

Farmers can avoid all suspicion of fraud by getting written approval of the County PMA committee before any grain is removed from their bins that are under CCC mortgage. All farm stored CCC mortgaged grain is inspected at regular intervals by a representative of the County PMA committee. If a shortage is found at inspection that has not been authorized by the County PMA committee, a thorough investigation must be made that may be embarrassing to the farmer.

Hess Resigns As Program Director, KPAN

Bob Hess, program director for Station KPAN since September, 1951, has announced his resignation effective June 14.

Hess will go to Chicago where he will begin a six-week course in a National Broadcasting Company sponsored television and radio school.

No replacement has been secured for Hess as yet, according to Clint Formby, KPAN manager.

The six-week school is being presented by NBC in cooperation with Northwestern university and begins June 23, ending on August 1.

Hess said he would keep his Hereford residence and return to this area upon completion of his course. His future plans are indefinite, he commented.

Wyche Club Hears Talk On Newest Foundation Garments

Wyche Home Demonstration club met Thursday afternoon in the home of Mrs. R. F. Day with Mrs. Troy Carmichael serving as co-hostess.

Mrs. W. R. Scarth was leader of the program for the day and presented Mrs. Ettie Mathis who spoke on "Foundation Garments".

During the business session, Mrs. Ira Ott gave the council report; Mrs. Jack Scarth, the financial report and Mrs. Day the hostess report.

Members planned a going away party for Mrs. A. E. Jury who is moving to Missouri and Mrs. Edwin Flood was elected secretary to fill a vacancy. Plans were also discussed for next year's year-books.

ACP Assistance For Winter Legumes Under 1952 Program

The State committee of the Production and Marketing Administration at their regular monthly meeting held in College Station last week decided that any agricultural conservation program

assistance that may be offered in connection with the seeding of winter legumes or rye in the fall of 1952 must be offered under the 1952 ACP.

Heretofore assistance for seeding winter legumes and rye in the fall has been paid from program funds for the following year.

This change was made necessary because of other changes in the operation of the 1953 Agricultural conservation program wherein each farmer in the county must be visited by a PMO community committeeman in order that a determination be made that 1953 program assistance will be given as only the most needed conservation practices on each farm before any assistance is authorized for any farm.

The State committee did not believe these contracts could be made before time for seeding winter legumes and rye, therefore the only way payments could be made on winter legumes and rye this fall would be under the 1952 program.

**THREE ON A MATCH** -- Originated during war time when it was felt that enemy snipers could get too good a "lead" on the soldiers if the match was kept lit long enough for three lights. Then, too, the story could have been started by a matchmaker.

**BROKEN MIRRORS** -- The bad luck idea springs from the belief that what you see in a mirror is your soul -- break the mirror while it contains your soul and it is trapped in the shards.

**UNLUCKY 13** -- The belief that 13 were present at the Last Supper thus making that number unlucky is not borne out by the fear of the number among non-Christian peoples. The U. S. started out as 13 colonies and hasn't been unlucky. But try to find a room number "13" in Hotel Jim Hill or in other hotels across the nation. Can't be done in most cases. Travelers no like.

**"GESHUNDHEIT"** -- Primitive people considered breath, spirit, and soul more or less identical. A person who sneezed therefore was in danger of losing his soul, a danger that had to be counteracted by an appropriate word. Americans and Europeans usually counteract the danger by say-

### Brother Of Local Residents Leaves On Far Eastern Tour

Dr. A. Hope Owen of Plainview, brother of G. P. Owen, Mrs. Jack Roberson, and Mrs. J. B. Harlan of Hereford, left Sunday for an 11-week extended tour of Baptist stations in Korea, Japan, Formosa, Hawaii, and the Philippines.

Mrs. Owen accompanied Dr. Owen on the trip. A foreign student from Wayland college will act as interpreter for the trip.

They were sponsored on the trip by the First Baptist church of Plainview, where Dr. Owen serves as pastor.

ing the word. The Malays call back their souls themselves.

We know none of you readers are superstitious, but these few examples are listed just for your entertainment to show how some of the more popular superstitions came about and what is behind them.

After all, Friday the Thirteenth is JUST ANOTHER DAY. Nothing will happen.

But to be sure, let's just "knock on wood."

### C of C Members Reply On Work Program Form

Tomorrow's Hereford -- as viewed through the eyes of Chamber of Commerce members--would have things like a new high school, junior high, parallel parking, industry, dial phones and many other "big city" refinements.

Results from the Deaf Smith Chamber of Commerce program questionnaire are beginning to trickle in, according to Cecil Massey, C of C manager, and members are being urged to send in their questionnaires as soon as possible to complete the proposed work program for the group.

Several good suggestions have come in to the local office. One or two "suggestions"--hidden behind the cloak of anonymity--have also been received. They have been more of the derogatory nature than on the constructive side, however.

One applicant felt the Chamber should have a newcomer welcoming committee and a sportorium; another called for a bridge across Highway 51 at Canadian, bond issue for high school; and more farm-to-market roads. A third called for better telephone service, stating that service has not improved since the recent rate raise.

Also on the agenda of this member was a demand for parallel parking and a cessation of dumping in the park.

Another reply called for a factory or factories that would assure year-round employment.

This reply was backed up by another calling for small manufacturing firms and encouragement of small livestock feeding pens. A castor bean mill was high on the list of another member replying to the work program suggestion blank.

### Robert Wagoner Named Head Of Masonic Lodge

New officers were elected at the regular meeting of the Hereford Masonic lodge Monday night.

Robert E. Wagoner was chosen Worshipful Master; William A. Phipps, senior warden; Bernard E. Roberson, junior warden; Troy Stambaugh, treasurer; Robert L. Thompson, secretary; and Otto L. Massie, tiler.

These officers will be installed at the June 26 meeting in the Masonic hall.

Shop, a \$4.50 check at the Jim Hill Hotel, and a \$5 check at Jiggs service station in addition to the \$40 one at the Popular Store. They outfitted themselves in western garb in downtown Hereford on the bogus checks.

A "Jane Doe" warrant was issued for the two on Wednesday morning. Reese said they were driving a light green 1951 Plymouth with New Mexico license. Both were believed to have been about 25 years of age. One was blonde and the other brunette. Each weighed about 120 pounds, officers believed.

The two women -- who Reese said evidently follow rodeos around the country -- are wanted in Amarillo on forgery charges, too. The address they gave under

### Hill Brothers Show Gr. Champ Quarterhorse

The Hill Brothers of Hereford showed the Grand Champion Quarterhorse mare at the Raton Lamesa park show last weekend.

The mare, Nancy Hill, is a seven-year-old by Matador Shiek and out of a Bobby Beach mare. Hickory Ann Hill, another Hill entry, took first place in the 1951 Filly class. Rawhide Hill was first place winner in the 1951 Stud class.

Hickory Dunn was named first place winner in the 1952 Stud class of the show.

The other two Hill Brothers entries were Mayflower Daugherty, third in the 1950 Filly class and Big George, second in the gelding class.

### Hitch-Hiker In Early Morning Car Theft Here

Picking up a hitch-hiker proved to be an expensive move for A. C. Easterwood of Hereford after the stranger made off with his 1949 Mercury early Wednesday morning.

According to county officials, Easterwood was coming home from Amarillo Tuesday night when he picked up the man, who he described as about 26 years of age, short, slender and dark-complected.

Easterwood and the hiker came to Hereford where they went to sleep in the Easterwood home. The Hereford man awoke find not only his car gone, but also his trousers, billfold with \$10 and all his identification, a pair of boots and a sport coat missing also.

Easterwood told Deputy Sheriff S. B. Berry that the theft occurred between 1 a.m. and 4 a.m. Wednesday.

No license number was available Wednesday for law enforcement officers to work on in nabbing the car thief.

the signature "Ruth Beal", was 2702 Washington Ave., Amarillo a city park.

Officers said the blonde had a eight-year old boy with her.

The checks were written on the First National Bank of Amarillo.

Alex Thompson has, for a good many years, been Hereford's No. 1 Good Humor Man. He tells more and more varied jokes than any one else in town, and a lot of them are strictly original. The following deal occurred a few years back at a policy meeting regarding the Baptist camp for young people.

The camp, it seems has a nice swimming pool and everything was going along OK until one of the directors, a lady from Lubbock, got all hot and bothered about the two-piece bathing suits being worn by some of the girls. She launched into a 15-minute oration on the evils of mid-riff suits and closed her talk by saying:

"And I furthermore make a motion that we restrict the girls to one-piece bathing suits in the swimming pool."

Alex, also a director, hadn't said a single word. At this point he rose to his feet and gravely asked:

"Before we vote, lady, will you tell me one thing? Which piece are we going to let them wear?"

The meeting broke up in a riot of laughter and the question never did come to vote. Asked Alex about this and he says he still don't know which piece the lady wanted to let them wear.

Hereford's "Good Neighbors", Mr. and Mrs. W. A. Waters, are all set for the big vacation trip. Their son, who works in a funeral home at Dumas is going to drive them -- and they are planning on having the time of their lives. They are wonderful people. Earl Hendricks and I went by to see them Monday and we could not help admiring the trim shape of their small home. Also the nice, well kept lawn and garden, including a small strawberry patch. I am sure that they really are wonderful neighbors.

I have only heard one thing against them -- and that isn't too bad. They seem to be pretty good friends with Miles Robertson, who joins them on the south. No one could stay around Miles long and not think about doing a little horse trading. Maybe they will overcome this though, when they get up in cool, Colorado and do some fishing and riding on Cecil Malone's Drowsy Water Ranch. Mr. Waters says he always wanted to do a little trout fishing and Mrs. Waters, looking over the brochure, says she is definitely going to ride one of those "mustangs" shown in the folder. It will be their second trip to Colorado, but their first visit to one of those "fancy dude ranches." Mr. and Mrs. Malone are getting all set for them -- and have written that they are going to put the little pot in the big one to show the "Good Neighbors" the best time of their lives.

The judges will remain anonymous. However, we will say that they are capable, well qualified and unprejudiced. They did their very best -- and from the depths of our hearts go our sincere thanks. After meeting the Waters, I think they did a remarkably good job. Only thing is that they are calling up and saying they thought they would also get to make the trip with expenses paid. Who wouldn't? Who would?

n't. I'd even like to make it myself. They say Drowsy Water is one of the two best in Colorado. Cecil would probably say the very best -- and a lot of folks would agree with him. Earl Hendricks deserves a lot of credit, too. He Earl got that new Buick right to 2,400 miles. Broke it in just so-so. He is having it washed all spic and span. Earl has sure done his part and more to make this good neighbor trip a pleasure and success. A great big bouquet for Earl Hendricks. He's literally nuts about golf, but he is a pretty good guy -- at that.

While the Waters are basking in Colorado, I am going to be burning down in Houston Thursday for the annual Texas Press Association meeting. They have a lot of things scheduled, including a tour of the famous Dow Chemical plant. No pictures, they say, since most of the plant is under government "security". John McLean says he sure and eat at "Pier 21". He says it is a wonderful place. The convention meets at the Rice Hotel, but I think we will also have one meal at the fabulous Shamrock.

T. E. Seigler is just back from a hospital manager's meeting at the Shamrock. He says one night they threw a special party around the swimming pool at the hotel and they sold tickets for the evening at a special rate of \$3.85 each. He bought one for himself and one for Mrs. Seigler. They featured "Sham-burger", says T. E. -- "and they weren't anything in the world but plain old hamburgers. Not anything fancy, either, no special trimmings. Just ordinary hamburgers (onions optional) and a cup of coffee."

We are supposed to meet through Sunday, but this report is discouraging. Anyway, thanks to T. E. Seigler. If they bring forth any tickets featuring "rice-burgers", I will sure steer clear. I remember when Buck Richardson and Debs Knox ran a cafe where Tom Carter's real estate office now sits on Main -- and they sold hamburgers for five cents. Good one too. That was back in 1937 before my wife got smart and quit teaching school; back when I didn't have anything to worry about at all. As I recall, though, I worried then about as much as I do now. I guess it's just human nature.

IT'S BY THE FOOD EDITORS OF McCALL'S MAGAZINE  
Young Fathers, old Fathers, wonderful Fathers love rice pudding for dessert. And here is McCall's, and the world's best rice pudding!

1/2 cup seedless raisins  
2 tablespoons rum  
1 teaspoon lemon juice  
1/4 cup rice  
1/2 cup milk  
1/4 teaspoon salt  
2 tablespoons butter  
2 eggs, separated  
1/2 cup sugar  
1/4 teaspoon nutmeg

Let raisins, rum, lemon juice and lemon rind mellow together for 2 hours or better still let stand overnight. Put rice, milk and salt in top of double boiler and cook for 1 hour stirring frequently but gently with a fork.

When rice is done take off stove and stir in butter. Beat egg yolks constantly and pour a little of the hot mixture onto them, stirring slightly and pour a little of the hot mixture onto them, stirring constantly and add sugar and nutmeg. Cool before you fold in meringue and add sugar and nutmeg. Pour into greased casserole. Set casserole in pan of hot water and bake 30 minutes in slow oven, 325° F. Makes 4 people want Father's Day every day.

Change In Meeting Place For Cultural Club, Alter Program

By Mrs. R. C. Childers  
There has been a change in the meeting place of the Cultural Home Demonstration club, which meets today in the home of Mrs. Earl Dehart instead of Mrs. Grady Parsons as was stated in the last edition of The Hereford Brand.

TCU Student Is Assistant At First Christian

HEINZMAN

Mrs. Argen Draper is scheduled to give her demonstration to the club today, instead of the last meeting as is the regular time for the demonstration. This is due to dates conflicting with Mrs. Draper. Mr. and Mrs. Jack Renfro were home for one day inspecting the crops in this vicinity. He left Wednesday to continue his potato digging in the Altus, Okla., area. Patsy Childers and Sue Cooke attended the special meeting of the 4-H clubs over the county, at the county court room last Monday afternoon. Miss Redman showed slides on the keeping of 4-H record books, and Mrs. T. J. Parsons spoke to the group on the 4-H work in the county. Other girls attending were Paula Beth Corbett, Marie and Stella Hunter.

Lester Heinzman, senior student at Texas Christian university at Fort Worth, will be the student minister at the First Christian church in Hereford this summer. Heinzman will serve as assistant pastor and youth director during the summer months. His home is at Las Cruces, N. M.

Mrs. Paul S. Corbett has been visiting her parents in McLean, Texas. She returned this week. Mrs. A. C. Hershey, Marvin and Patricia spent last week-end in Abilene visiting Mrs. Hershey's mother who lives there.

Patsy Childers left Sunday afternoon at 3 for College Station where she will accompany the 4-H Round-Up. She was accompanied to Amarillo by her mother, Mrs. R. C. Childers and Raymond Jr., and Larry Kaul and Helen Diller of Westway, who will also make the trip.

Mr. and Mrs. Gerald Wilson and Diane and Mr. and Mrs. G. P. Owen and Mrs. Jack Roberson visited in the home of Dr. and Mrs. A. Hope Owen of Plainview Sunday.

Sue Cooke also left with the 4-H group to accompany them as far as Bryan where she will board another bus for Nacodoches. She is the daughter of Mr. and Mrs. R. N. Cooke, formerly of this community, and a former member of the Workers 4-H club of this vicinity. She has been visiting in the R. C. Childers home and in Hereford for the past two weeks.

Mr. and Mrs. Joe Smith and family returned Monday from a weeks trip to Dallas.

Dr. and Mrs. Will Graham were in Hereford this week. They will leave soon for Hawaii where Dr. Graham will be stationed. They made their home here until he was called back into service.

**"LITTLE FLOWER"**—The parade of colorful showmen continues at the Bull barn wrestling ring. Latest to climb the steps is Benito Gardenia, the "Little Flower" from Rome, Italy.

Now most of us—when you mention Rome, think of spaghetti or bull-fighters—but this Gardenia, for all his unpopularity, is a scrapper.

Gardenia is as dirty as a coal miner's wash once he steps into the ring, but that's what has MADE him. He's a TV star and has taken on lots of heavies in the East.

He looks more like a carefree concertina player than a wrestler, but that bay window he sports is all muscle. He bounces like a rubber ball—Dory Funk tested him many times Saturday—and always comes back on his feet, just like a cat.

We couldn't help but chuckle Saturday night at the beginning of the bout when the "Little Flower" squared away at Dory Funk. As soon as they started to make contact, Gardenia would bolt and start running. After Funk and the crowd protested, Benito shook his tousled head and protested, "This is the way I wrestle!"

For all of his notoriety, Gardenia is what the crowd lays down its money for at the front entrance.

"Little Flower"? More like poison ivy!

## HORNSBY VS. COBB

The battle of modern baseball over old-time ball in the "dead ball" era continues after the vigorous—if not indiscreet—reply to Ty Cobb by Rogers Hornsby in the June 17 LOOK magazine. The Rajah's piece, titled, "They Still Play Baseball, Cobb," was a rebuttal of Cobb's LIFE article, "They Don't Play Baseball Anymore" in which the Georgia Peach bemoaned a "softening" of the game and players as against the old days.

The SPORTING NEWS carries a great deal of Cobbism on Hornsby's latest. Cobb feels that Hornsby is taking a personal crack at him when he first agreed with what Cobb had said all along.

Shirley Povich of the Washington Post, blasted Hornsby for his

personal blast at Cobb. Rajah was piqued, Povich contends, because Cobb failed to list Hornsby on his "all-time" team.

H. S. Salsinger of the Detroit News, says Hornsby agreed with Cobb's first installment in LIFE, but vehemently disagreed when the second installment came out with a listing of the all-time baseball squad avoiding placement of Hornsby as second-base man because he (Rajah) "never learned to catch in field flies."

Povich racks Hornsby back for not selecting Cobb on Hornsby's all-time LOOK squad. Jealousy, says Povich, Salsinger concurs.

Meanwhile, Povich writes, "One hundred and thirteen years after Abner Doubleday invented baseball, the picture magazines LIFE and LOOK have discovered the game—discovered that it's good for circulation."

Good it was, for circulation, but it surely made quite a dent in the game of baseball.

## ON THE PLAINS

Tulia has a new basketball and assistant football coach. The new Hornet mentor is to be Ed Billings, Wayland college's outstanding athletic for 1952. He hails from Anton. Billings was one of the few men ever to letter in four years. He played in 121 out of 125 Pioneer games since 1948 and scored 1,547 points in that time.

## GOLFER'S TALE

Earl Hendricks told us this one: four local golfers planned to make a foursome over the weekend—John Pitman, Stan Barrett, Jay McWhorter and Frank Cogdell. Frank was on the putting clock when his mates failed to notice his absence and teed off without him.

Well around the course, they noticed no Frank, so Jay with confidence akin to a fisherman, said he'd double his score and

## Stan Barrett Ties Nine-Hole Mark With 32

Stan Barrett tied the Hereford Golf Course record for nine holes of plays with a four-under-par 32 on Sunday.

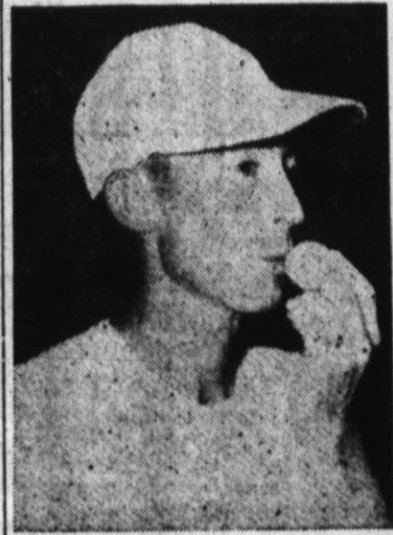

Barrett is now co-holder of the course mark with Jim Terry former Hereford pro.

Stan's score by holes on Sunday was:

PAR 1 2 3 4 5 6 7 8 9--  
STAN 4 5 4 3 4 3 4 5 4--36

With his sizzling 32, Barrett established himself as a hot contender for J. M. Posey's city championship crown in the coming Fourth of July competition.

Members of Barrett's foursome and their scores were: Urlin Streu, 37; Dr. J. H. Channer, 38; and Bud Posey, 37.

## Lipscomb Lands Tagged Catfish

Jim Lipscomb is the second fisherman from the Hereford area to land a tagged fish in the Buffalo Lake fish derby.

The Hereford postmaster landed No. 193, a 1½-pound channel cat, last Friday.

"Loot" for the catch, Jim says, was \$15 in fishing tackle, \$3 in minnows and two gallons of ice cream.

## HH Blasts S'field For League Lead

Hereford Hardware exploded into undisputed first place in the Hereford Softball league Monday night by uncorking a five-inning, 15-1 victory over second-place Summerfield to untie the knot for the loop's top spot.

The game was played under protest of Summerfield manager Don Baize from the top of the fifth inning on. Baize contended that umpires were changed twice behind home plate without his approval. The changing and subsequent action followed a ruckus between HH catcher Bill Howard and acting umpire Combes on a call by the arbiter.

League umpire Homer Logan said that the league officials and

# Annual City Golf Tourney July 4-6

The annual city golf tournament at the Hereford Golf club will be held Friday through Sunday, July 4, 5 and 6, the club board of directors decided at a meeting last week.

Prizes for the medalist and winners and runners-up in each flight plus the consolation winners in each flight will be given out, according to Bud Posey, course pro.

J. M. Posey is the defending champion in the 1952 tournament. Posey served early notice to the golfers in the city that he is going to be a hard man to defeat by firing a two-under-par 70 on Sunday.

Entry fee for the tournament will be \$4. Eighteen hole qualifying rounds must be shot between Sunday, June 22 and Sunday, June 29.

Members of the tournament

committee are John Cramer, chairman; Ray Hardy and J. M. Posey.

A Friday night putting tournament was also planned at the board meeting. This event will be held each Friday night at 8 p.m. with the first one scheduled to hit the decks on July 13.

Entrance fee for the event will be 50c per person. Golf ball prizes will be awarded low scores on a medal play basis.

There will be three divisions—men, women and children under 15 years of age.

Another tournament—a Dimmitt city tournament—for golfers from that community only, is now underway.

Qualifying rounds of 18 holes must be played by Sunday, June 15.

Pairings will be made for each flight and prizes will be awarded medalist, winners and runners-up in each flight as well as the consolation winners.

Entry fee is \$2 per person. One week will be allowed to finish each match.

The board also took definite action in caddy relations at the meeting, approving the establishment of a caddy rate. Golfers desiring a caddy will stop in at the pro shop and be given the name of the caddy as well as a rating "card" on which the golfer will judge his caddy as "good, fair or poor."

Bud Posey is giving an hour's instruction each Saturday morning at 9 a.m. Caddies will be allowed to play and have their own tournaments.

Boys wishing to caddy are asked to contact Posey at the club.

## 'Little Flower' Nipped In Bud Here Saturday

The "Little Flower" from Rome, Italy, Benito Gardenia, made his debut in the Southwest Saturday night in the Bull barn ring. All he got for his efforts was a bouquet of onions from the capacity crowd and a loss to Dory Funk in two straight falls.

Gardenia lost no time in alienating the audience in one quick move with his tactics. Gardenia comes to this area with a "bad" or "good" reputation—at least he's got a reputation as an anything-goes roughie. He's a showman.

A famous television wrestling star from the eastern section of the country, the "Little Flower" has been taking on all the ranking heavies in that section.

Gardenia proved a tough nut for Dory Funk to crack, though. The squat, 200-pounder can handle himself in top fashion, although not in complete regard with the spectator's idea of sportsmanship.

The first fall went to Funk after 20 minutes of uninterrupted roughhouse as Gardenia was given the thumb for refusing to un-

lose a choke hold on Dory. The two were in the ropes and Referee Bill Sledge tried to get the Italian off the Flying Mare foreman, but he refused to budge.

Funk was all but out after this treatment and the "Little Flower" was highly displeased with the verdict rendered by Sledge, so started taking out his anger on Funk.

Funk cut loose at the "Little Flower" and Sledge called for the whistle to begin the second fall without a rest period.

Funk got Gardenia against the ropes and started mayhemming him and Bill Sledge fell out of the ring, temporarily hurting his leg. At this Funk applied the spinning toe hold on Gardenia and had the "Little Flower" ill at ease, but there was no referee.

When Sledge came back in the ring, Funk again got the spinning toe hold and put the can on Gardenia's tail.

After the second straight fall, Gardenia, probably thinking the audience should have more for their money, began chasing Funk

and hoping for a return to battle. The bout ended with Sledge holding Gardenia's hands while Funk plastered him one.

In the semi-final event, Cowboy Carlson and George Curtis put on a fine exhibition of wrestling with no illegal tactics changing sides throughout the match.

Carlson copped the match, two falls to one. He proved himself to be a mighty fine wrestler who could take care of himself in most battles.

The Cowboy grabbed the first fall with his favorite, a top body press following a bulldog hold.

George came back to win the second fall with his favorite, an abdominal stretch, in nine minutes.

Cowboy became leery of the events leading up to the abdominal stretch in the third fall, scampering out of the hold three times in the remaining 10 minutes.

It took 10 minutes for him to finish Curtis with a victory roll

### Will Display Steel Granary Here June 14

The latest development in on-the-farm grain storage facilities, the Quonset all-purpose granary, will be displayed Saturday at an event to which the public is invited by Mac Bureson of Farm Steel Buildings here.

"Most farmers in this area, and members of their families, too, will want to examine this new building," Charlie Gallatin said in announcing the demonstration day, "so we're putting it on display at Hereford, west of the freight depot from 10 a.m. until 10 p.m. on June 14. Everybody is invited to stop by and look it over -- there'll be refreshments, and prizes for the youngsters."

The new building, he pointed out, is designed and engineered for easy grain drying, cooling and handling so that its users can dry and keep their crops safely and inexpensively until the market is right for selling. Moreover, its 16-foot width and 8 by 7 ft. door enables the use of the building for many other purposes when not holding grain.

The easily-erected structure is available in capacities ranging from 1,000 bushels upward, costs little more than ordinary one-purpose round bins of equal capacity, and is eligible for full CCC financing.

A new addition to the famous line of Quonset buildings manufactured by the Great Lakes Steel Corporation's Stran-Steel Division, the All-purpose Granary is distinguished by its Gothic rather than semi-circular arch shape. This results from its strong but economical rib construction of two standard Quonset Stran-Steel nailable rib sections, rather than the three which comprise each rib of the larger buildings. These sections are formed of N-A-X

### High Tensile Steel.

An exclusive feature of the new building is the simplicity with which it can be equipped for drying and then cooling grain during its storage by installation of a simple fan and tunnel, available as optional equipment. This is possible because of the building's double-wall construction with openings that provide for ventilation and circulation of air through stored grain.

### Other features include a removable bulkhead which keeps weight of stored grain off the door and enables its opening without grain spillage; choice of customary concrete footings, slab floor or simple steel floor that gives the building portability; and loading hatch units that may be installed in the roof where desired. Like all Quonsets, the new

All-Purpose Granary is non-combustible and wind safe.

### Jehovah's Witnesses Will Convene Here

A three-day convention of Jehovah's Witnesses will be held in the Hotel Jim Hill ballroom in Hereford this week-end, June 13-15.

Highlight of the convention will be a public lecture, "What Religion will Survive the World Crisis?" This will be delivered by D. E. Stull, special representative of the Watchtower Bible and Tract Society on Sunday at 3 p.m.

**Food Sense—Not Nonsense**

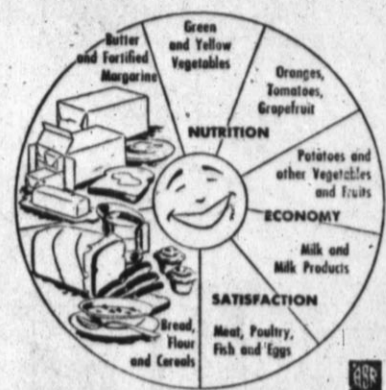

Do the claims of food supplement sellers frighten you? Are you annoyed by the scare techniques used to badger you into buying dietary supplements? Do you find it difficult to maintain an optimistic outlook about your health when nostrum peddlers would have you believe that most of the population is undernourished?

Why not try some reasoning on your own initiative? Since surveys now indicate that 80 to 90 per cent of the urban population is well fed, can you still believe it is necessary to add artificial supplements to your diet? Doesn't it seem preposterous to do so when you realize that you spend a fourth of your net income on food?

Health is important and so are food budgets. Proper selection of foods relates directly to both health and the cost of eating. There is no substitute for a well-balanced diet, but it is possible to substitute less expensive foods for more costly ones. The easiest way to check the adequacy of your diet is to compare the foods you eat with the seven basic food groups.

It doesn't take a wizard to know that a wide variety of foods in a wide range of prices is found within these food groups. "Good buys" are foods that contribute a high percentage of food nutrients in relation to their cost. With the enrichment of flour and bread over ten years ago, our staff of life became a protective food. Three of the much talked about B vitamins and the mineral iron have helped build a healthier nation. You may wonder why the B vitamins, thiamine, riboflavin and niacin, and iron have been added to your staff of life. Enrichment was recommended by nationally recognized nutrition authorities because early surveys showed a need for these nutrients among population groups. Bread and flour were selected to carry these added nutrients so that the majority of the people could benefit from the program without increasing their food costs. Many of the commonly used cereals are high in vitamin content too. The message on the label indicates the best buys among the grain foods.

Bread with a spread is a natural combination to include in any meal. If the spread is a fatty food, the satisfaction value of the combination is increased. Butter and fortified margarine are commonly used on bread. Either makes a fine contribution of the nutrient vitamin A as well as fat, and both compare well in nutritive value. Select your diet wisely, according to the seven basic food groups, and relax, you can easily be well nourished too!

**J. M. Posey Is Sweepstakes Winner Sunday**

J. M. Posey, who fired a 70 with five handicap for a net 65, won the weekly handicap sweepstakes at the Hereford Golf club on Sunday.

For taking the weekly bunting, Posey was awarded a prize of three golf balls.

Other low men in the sweepstakes, with their score handicap, net, and prizes are: Lewis Wilkinson, 86-20 net 66, two balls; Frank Latimer, 89-19, net 68, two balls; W. W. Gilbreath, 76-7 net 69, two balls; Urilin Streu, 76-6, net 70, one ball; and Earl Hendricks, 86-14 net 72, one ball.

Eight local golfers went to the pro-amateur matches at the Amarillo Country club on Friday, June 6. Attending were Bud Posey, Earl Hendricks, Frank Latimer, J. A. McWhorter, Wendell Burdine, Ray Hardy, Bob Lindsey and Stan Barrett.

 One Block South of Harrison Hiway on Texas St.

Sponsored by the Texas Lumbermen's Association in answer to a nationwide appeal for efficient, low-cost housing ... Carl McCaslin Lumber Company invites you to inspect this new home, recently constructed on the San Angelo plan. It is, we believe, the answer to a general need in the community—and affords practical type housing for people who ordinarily live in apartments.

Plan Now ... to attend the Open House Inspection Tour Next Saturday and Sunday!

**A Complete Home ---**

**600 SQUARE FEET OVERALL** - The plan, containing 600 square feet, includes a modern electrical system of fixtures, wall switches, base plugs and service panel; also, adequate gas outlets for heating and cooking. Vented panel-type wall heaters could be installed at extra cost.

For cooler summer living, the space between ceiling and roof is vented to assure a constant movement of air. Wall arrangement and cross ventilation provides the utmost in living comfort.

**DESIGNED FOR LOW MAINTENANCE** - Heavy duty linoleum floors on concrete require little maintenance, eliminate termites, rot, sagging or buckling. Masonry walls, only walls completely exposed to weather, require no upkeep. By planning living area in front, rear door has been eliminated, thereby cutting building and maintenance costs.

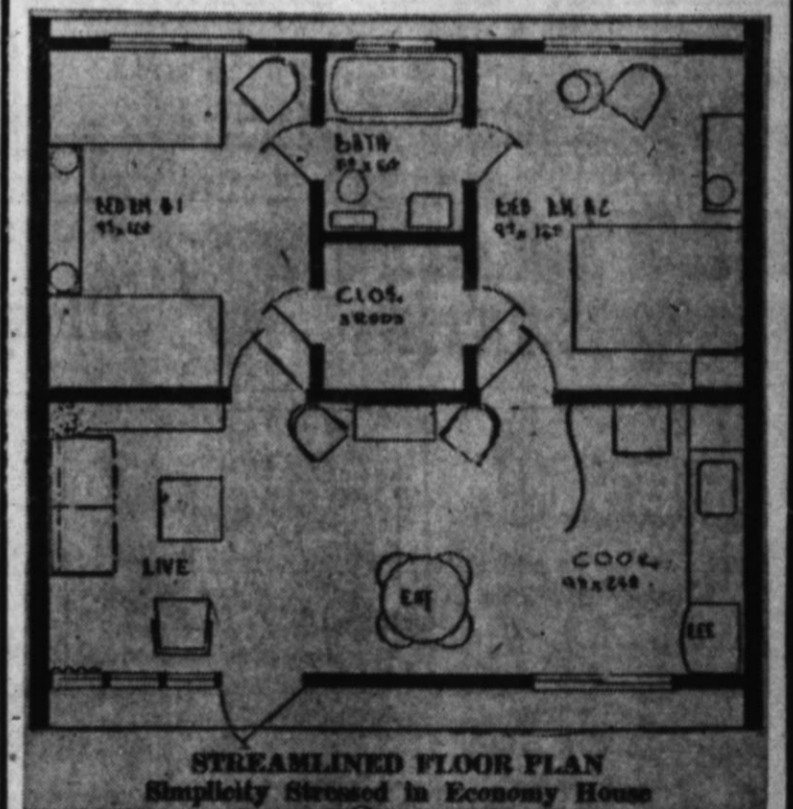

In planning the Basic Home, four main objectives were kept in mind: 1. Purpose of the rooms. 2. Traffic. 3. Permanence. 4. Beauty.

The SAN ANGELO Basic Home is beautifully styled in the contemporary manner. Where in many low-cost houses beauty has been sacrificed for economy, this home has been created to provide charming style combined with down-to-earth utility. It provides maximum comfort and livability at minimum cost.

**LIVING AREA** - The living-dining-kitchen area is engineered for today's family activities. Designed for gracious living and home entertaining, it measures 24'8" x 9'6", giving spaciousness not attained in the average small home.

**BEDROOMS** - Each of the two bedrooms, 9'4" x 12', provides ample space for two twin beds, or one double bed, together with bedroom furniture. Double bunks could accommodate as many as four children in either room. A day-bed type divan, placed in the living area, could accommodate two more persons.

**BATH** - The bath, 5' x 6'4", contains full-size tub, medicine cabinet, commode and lavatory. It is accessible from both bedrooms, thereby eliminating a hall.

**CLOSET** - The large closet, 5' x 5'5", is accessible from both bedrooms, it can be arranged as a walk-in type closet with two hanging rods and shelf space above, or three rods can be installed giving 15 lineal feet of hanging space, plus shelf storage.

**KITCHEN** - The engineered, step-saving kitchen contains ample cabinet and drawer space plus decorative shelves above sink and linoleum-topped working counter. Modern deck-type faucets and swinging spout add to the kitchen's functional beauty. Adequate space is allowed to accommodate standard size range and refrigerator.

CONG. ROGERS SAYS

Discussion Of House-Passed Korean Veterans' Legislation

KOREAN VETERANS: The House passed and set to the Senate H. R. 7656, a bill to take care of our veterans in the Korean War. This legislation is long past due, and we are all pleased that it has passed the House and is on its way to passage in the Senate. The delay in this much needed legislation was caused by the many abuses to which the veterans and American taxpayers were subjected under the original GI Bill of Rights. The process of uncovering and weeding out some of the features of the old GI bill that permitted unwarranted raids upon the public treasury consumed long and tedious hours in the Committee.

We hope that all of these avenues of abuse have been closed, although we surely realize that success in this particular field is going to depend a lot upon the veterans and the schools. The vote in the House was 361 yeas, one nay, and two answering present.

The one nay vote was cast by General Deveraux, a member from Maryland. General Deveraux is certainly not entitled to any criticism for his vote because it was not cast against the bill as such, but was a protest as to the manner in which the bill was brought up before the House. General Deveraux has perhaps as illustrious career as most any veteran of the United States. You will remember him as the Commander of the garrison on Wake Island. He is on the Veterans Affairs Committee and is an outstanding and able member who definitely has the interest of the veterans at heart.

His protest was because the bill was brought up under what is known as a "suspension of the rules." When a bill is brought up in this manner, the debate is limited to 20 minutes to the side and the bill cannot be amended. There are two amendments that I think should have gone on the bill, and General Deveraux and I are in agreement on these two particular amendments.

The bill contains a provision that would permit tax maintained institutions to charge veterans as

much at \$31 per month without being subject to the penalties provided against exacting excess charges from veterans. In many states this could result in a non-veteran going to school free while a veteran would be required to pay \$31 per month out of the money he receives with which to obtain an education. The money is paid directly to the veteran under this bill, rather than to the schools, as it was under the old GI bill.

I certainly do not feel that a veteran should be charged \$31 a month in order to go to the same school that a non-veteran can attend for a much less amount. We hope to obtain a correction of this measure in the Senate. The controversial matter that arose concerning the bill was the so-called Springer Amendment. Mr. Springer is from Illinois and is a member of the Veterans Affairs Committee. He is an excellent man and an able member of Congress. The amendment that he proposed was to pay the money to the schools rather than to the individual veteran, in somewhat the same fashion as provided in the old GI bill. Mr. Springer was most sincere in his efforts and had some very able and telling arguments in support thereof.

I opposed this amendment for the reason that I basically believe that the veteran be allowed to attend to his own business, to make his own arrangements, and to go to the school of his own choice. The bill is designed to help veterans and is not intended as a federal aid to education measure.

Some of the provisions relating to GI housing also need clarification in order for the veterans to obtain the full benefits intended. Most of us feel that the corrections can be made in the Senate without delay and that those boys will begin to receive these benefits to which they are so richly entitled and which have been withheld from them too long.

1952 COTTON PARITY STANDARD: The House has also passed H. R. 5713, to provide that

low middling seven-eighths inch cotton shall be the standard grade for the purposes of determining parity and price support for the 1952 cotton crop. The purpose of this bill is to protect cotton farmers against disastrous price declines if they produce a cotton crop of 16 million bales or more in 1952, as has been requested by the Secretary of Agriculture.

This bill would do this by making low middling seven-eighths inch cotton the standard grade for purposes of parity and price support for the 1952 crop if any time during the calendar year 1952 the Department of Agriculture officially estimates the production of cotton in 1952 as 16 million bales or more.

The cotton farmers have been requested to produce 16 million bales in 1952 as a defense measure.

This type of legislation will give the cotton farmers some of the protection and incentive enjoyed by industrialists. It will do away with the injustices to which the farmers have been subjected when, in answer to a patriotic call, they have produced and then were left to take all of the risk of financial loss if they accidentally produced more than was needed or if the Department of Agriculture had overestimated the need for their product.

VISITORS: Recent visitors from the district have been: Bill B. Chappell, form Borger; Tom McGarrity from Lefors; Fred Haiduk from Groom; and the following from Amarillo: Mr. and Mrs. Derrell Henry, Gerge Shannon, Jack Seale, Troy Jones, Mr. and Mrs. A. H. Truitt, Mr. and Mrs. W. W. Gibson and son, Mr. and Mrs. Dick Bivins and three daughters, and Grady Fox.

Mrs. P. T. Clark returned Sunday from Quitaque where she had been visiting relatives.

Visitors in the S. L. Harmon Sr. home over the week-end were: Mr. and Mrs. Hugh Harmon and daughter, of Guymon, Mr. and Mrs. Bill Butler and daughters of Richwood, W. V.; Mr. and Mrs. Bill Harmon and daughters of Sanford, Mr. and Mrs. Gene Harmon and family of Dimmitt and Mr. and Mrs. S. L. Harmon Jr.

Pfc. James D. Hutson arrived home Saturday to spend 30 days in the home of his parents, Mr. and Mrs. Bill Hutson. He has just returned from 11 months duty in Korea.

Picture of a Pair who just waked up

HERE in the driveway is a Buick. It has just arrived. It belongs to this proud young couple. They've just "arrived" too.

They've arrived at a discovery—the discovery that owning a Buick instead of a "low-priced car" isn't so much a matter of money.

It's a matter of knowing the facts of life. Buick prices are closer to the prices of smaller, less powerful, less distinguished cars than most people think.

Why don't you check into this?

You'll find you could pay \$300 to \$400 more—and still not match the horsepower of this nimble beauty.

You could pay hundreds of dollars more

—and still not get any more interior room, or richer fabrics.

But that's only part of the story.

The big thing about any car is the way it goes.

So you ought to find out how this car rides the road—the freedom from bobble and sway that cost a million real dollars to develop.

You ought to sample the way Dynaflow Drive\* feeds the power—with a steady swoop and unbroken smoothness in city traffic, on hills, or out on the open road.

And you ought to know how it feels to touch off that Fireball 8 Engine. With all its might, this high-compression valve-in-head gets a lot of miles from a gallon of gas.

We'll tell you this—because a lot of folks have told us this: No matter what car you're driving now—no matter what cars you've looked at—they'll never seem the same after you try this one.

Just give us a chance to prove it—and you'll have a lot of fun.

and three errors  
Summerfield had one run on four hits and committed six mis-plays.

The KCs downed L-V Motors with 10 runs on seven hits and they played errorless ball. The losers had four runs, also seven hits, and they were guilty of three bobbles.

In fashioning the win, the KCs picked up three in the first, five in the second and two in the sixth. L-V tied it up in the initial frame with three and added the fourth in the bottom of the fifth inning.

Kenny Walterscheid was on the mound for the KCs and Vince Walterscheid was behind the plate. For L-V Motors, it was Engman tossing with Pat Corbett behind the bat.

Fielding sensation of the evening was turned in by Sammy Albracht in left field for the KCs. Bill Engman, first man up in the fourth, powdered a L-O-N-G fly ball into deep left center that had four bases written all over it. Albracht, however, took one look at the ball, turned his back and ran. He whirled around and pulled down the long drive, robbing

Engman of a neat extra-base blow.

L-V's Pat Corbett drove in the first three runs in the top of the first with a screeching homer that outdistanced left-fielder Albracht and went back to the fence.

In the final game of the night, Hereford Hardware took advantage of a shaky start by Clark and the rest of the Summerfield crew by jumping off with nine runs before they were headed.

They added two in the second, three in the third, and one in the fourth to amass the 15.

Summerfield never recovered from the opening barrage and scored their lone run in the bottom of the fifth.

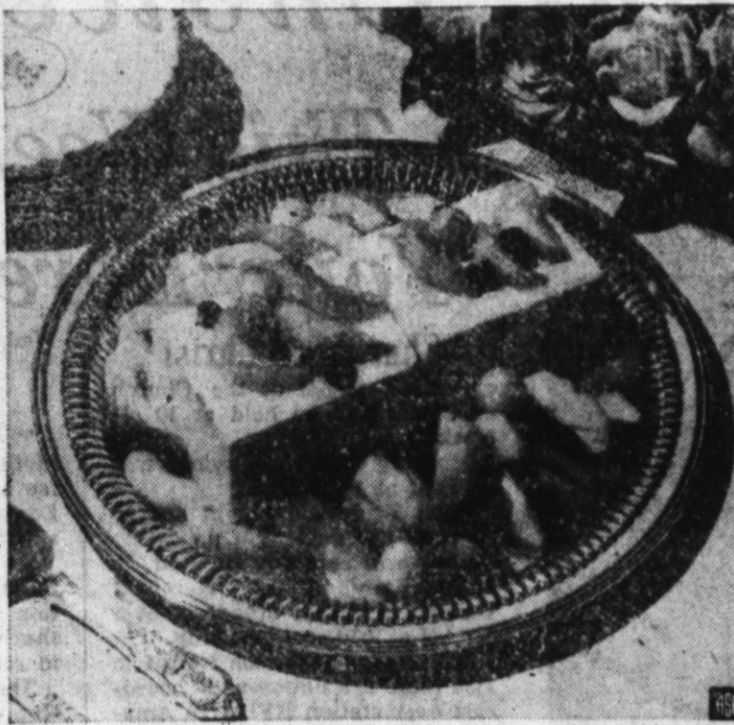

HH pitcher Russell was in no trouble at all as he kept Summerfield pounding into the ground or popping up.

Jack Clark was relieved by Jack Streun in the top of the second, but the damage was done and Streun himself gave up six more runs, on six hits.

Box scores for Monday's two games were:

### Ice Cream Plus Fruit Tops In Refreshment

This time of year, heavy desserts don't do the trick. Tangy flavor and cool foods are in order, and they're easy to achieve, too, if you use whatever fruit is most plentiful in your local markets, as the topping for pre-packaged ice cream.

An elegant dessert for eight, this appetizing buffet platter is simple to arrange and serve, and simpler still to provide, since it means only buying two pints of pre-packaged ice cream when you do your marketing, keeping them in the handy paraffined cartons in the freezing compartment of your refrigerator until you're ready to put them on the table with their timely trimmings of sliced fruit, melon balls and berries.

### 1952 Bass Spawn Production Up

AUSTIN.—The Chief Aquatic Biologist of the Texas Game & Fish Commission reported that the 1952 bass spawn production spurted in mid-May after a bad early season showing.

He blamed cold weather for loss of eggs in several hatcheries and said the experience seemed to point up the importance of the temperature control regulator being tried out at San Marcos Fish Hatchery.

But the Chief Aquatic Biologist said plans are being made to assign aquatic biologists to the hatchery staffs next season to try to determine if dietary deficiencies in brood bass are partly to blame.

He said normal early spawn production was reported by on-

ly two of the 11 state hatcheries in operation -- those at Brownsville and Jasper. The two hatcheries temporarily suspended are Cisco and Medina. Water shortages closed both this year as well as last.

The Chief Aquatic Biologist said brood bass began spawning again about mid-May at several hatcheries after the weather leveled off following seasonal fluctuations.

He cited the San Angelo hatchery which lost much early spawn apparently because of cold spells. He said the good stock of brood bass in that hatchery made possible a substantial batch of spawn which began appearing about May 13.

The Chief Aquatic Biologist said no expansion in the water temperature control is planned for the present pending further study of results as demonstrated at San Marcos.

In league play last Thursday night, Hereford Hardware beat Rocky's in the opener and the Knights of Columbus downed the Dawn nine.  
Hereford Hardware got 13 runs on 10 hits and four errors. Batteries were Russell and Howard behind the plate.  
Rocky's had three runs on five hits and they committed seven bobbles.

In the nightcap, the Knights of Columbus downed Dawn, 8-4. Johnny McBroom hurled for Dawn with Edd Lemons behind the plate. For the KCs, it was Kenneth Walterscheid and Vincent Walterscheid.

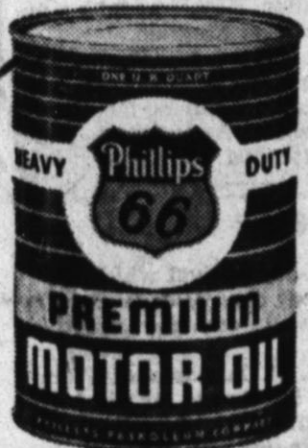

Tonight, Rocky's plays Summerfield in the opener and L-V Motors meets Dawn in the finale. Game time is 7:30 p.m. Forfeit time is 8 p.m.

## This Week's Calendar at Your Hereford Churches

One Big Day for FATHER

Gruff Old Dad! Surely, he doesn't want a day to honor him! Ask for an x-ray picture of his heart, and you will know better. He may be tanned of face and rough of hand, but his big heart is very tender. Yes, let's observe Father's Day. Let us keep it with enthusiasm! He will appreciate it all the more because we have neglected him so long.

What strange and wonderful people these Fathers are! They may look old, but on the inside they are still boys. They are ready for the pleasures of their childhood. Surprise them and you will catch them when the guards of age and dignity are down. They will be easy victims of love's attack. Give them a whole big day when they receive... instead of give.

Wise and appreciative women and men could find no better word for their Divine Creator, than this name, "Father." He is more like God than any other. Treat him that way for one day, "Father's Day," and gladden his heart for all the days to come. Yes, give him one whole big day. It is Father's Day.

**Q. How can I make a rose jar, or potpourri?**

A. Select a large-mouthed jar, and put in a layer of rose leaves one inch thick. Sprinkle with salt, and add one or two cloves. Repeat this process until the jar is full. Let stand for about 10 days then remove to permanent jar, and is desired add one ounce essence of roses. Jar should be kept tightly closed, opening for a few minutes each day, as fragrance is desired.

**Q. How can I remedy a straw hat which droops at the brim?**

A. Sponge well with the white of an egg that has been thoroughly beaten. Then place on a hat stand to dry.

**Q. How can I remove dandelion stains from the hands and garments?**

A. Use a little gasoline for removing these stains.

**Q. How can I make a moth-proof bag?**

A. Newspapers, stiched together, can be made into a very serviceable mothproof bag for storing garments out of season, due to the fact that moths are not fond of newspaper.

**Q. How can I make use of discarded umbrella ribs?**

A. These ribs make good and lasting supports for trailing flowers. If they are painted a soft green, they will hardly be noticed in the garden.

**Q. How can I prevent window screens from rusting?**

A. They will not rust and will look like new, if a coat of linseed oil is applied to them.

**Q. How can I store my furs for the summer, instead of leaving them at a fur house?**

A. See that the furs are thoroughly cleaned; sprinkle freely with powdered tobacco; place in a suit box with close-fitting lid; then wrap securely in several thicknesses of newspaper.

**Q. How can I clean reed and rattan furniture?**

A. Use a stiff brush dipped in furniture polish. This not only cleans the furniture well, but gives it an added gloss.

**Q. How can I remedy cotton goods that has become badly scorched?**

A. Dip the goods into cold water and hang in the sun to drip and dry. Repeat this process several times if necessary.

**Q. How should an oil stove be stored for summer?**

A. Before storing the stove make a mixture of equal parts of linseed oil, turpentine, and liquid stove blacking, and apply two coats with a paint brush. Cover the nickel portions with lard.

**Q. What is a good spring salad?**

A. Chopped mint leaves added to French dressing, and served over tomatoes lettuce, and cucumbers, makes an excellent spring salad.

P. Walker, Mr. and Mrs. H. H. Caraway, Mr. and Mrs. A. E. Jury, and Mr. and Mrs. H. L. Ward.

**Q. What is a good oily-skin treatment?**

A. The use of a complexion brush several times weekly while giving the face its soap and water cleansing. This is often very effective.

**Q. How can I hide a pimple that appears suddenly on my face?**

A. Make a paste of powder and foundation cream, pat on the blemish, press powder over the spot gently -- and it's hidden!

CHRYSLER SARATOGA 6-PASSENGER SEDAN

**DON'T LET YOUR WIFE DISCOVER THIS TOO LATE!**

Women by the thousands are discovering in the beautiful Chrysler Saratoga the easiest "big car" of all to handle... the most generously comfortable to ride in... and the most instantly responsive to their command.

That's why we say to you... and your wife... "Come in and see for yourselves what the Saratoga does for you." And do it now, before you decide on any car... not later, when you may regret not having all the things you can have in a Saratoga!

Yes, it is a big car with big car power... a breath-taking 180 H.P. performer (the most revolutionary V-8 engine in 25 years) that answers to the touch of your toe with delightful gusto. And it doesn't call for premium fuel, either!

Does your wife think there's too much car here to handle?... let her try its Power Steering that does 4/5 of all the steering work and gives five times greater control on the road and when parking!

Is she safety-minded? Chrysler Power Brakes give her quicker, safer stops... with up to two-thirds

less foot pressure. She'll appreciate Chrysler's Safety-Cushion dash panel. And in case of a blow-out, she'll have the assurance of Safety-Rim wheels that won't "throw" a tire.

How about comfort? Come, both of you, for a ride!... feel how those amazing Oriflow shock absorbers "liquidate" even the worst road bumps. Chair-high seats plus big, big windows let even the tiniest little lady see out properly. Doors open wide... and she can keep her hat on!

Here, in short, is the car beautifully designed for men and women. The liveliest, best handling car in America. The car you'll both be glad you saw first. Why not stop in today?

NOTE: Power Steering standard on Crown Imperial. Available, extra, on any new Chrysler.
