The Blackburns visited their new nephew, Denis Carlye, and his parents, the Carlye Sargants,

at their home in the Summerfield community Sunday. The young man was a week old and doing fine.

Mr. and Mrs. J. E. Andrews, Miss Alma Andrews, Misses Veradelle and Francis Andrews and Mrs. Charles King of Amarillo were visiting a few days this week with relatives near Duncan opening exercises will begin at and Commanche, Okla. They planned to be in Loco, Okla., on

Mr. and Mrs. S. B. McLallen, Nora Jo, Sammy Lu and Dan of Hereford were supper guests of the Owen Andrews on Monday

### By J. M. Posey

Thanks to all of the ladies who helped last Sunday with the serving of lunch and refreshments to the local, and Littlefield players. You did a magnificent job, so thanks to all of you. Also want to thank the Jaycees for the use of their clubhouse, was very nice of you to offer it to us. Hereford was defeated again, wonder tion day so that workers can if we could find someone we plan their work for the week could beat, or do you think it own back yard, and try to beat

each other. Say, didn't I read somewhere that Old Streu made the remark Mr. and Mrs. Glenn Gripp and that he could take the City Champhenville. The Tait Morings came home with the Gripps and spent a few days visiting in their home last week.

Clearly, or course we want Streut in shape. I will kinda keep in touch with him, and when he thinks he is ready, we will see if he can take Mr. Martin. Nothing Monte Gripp visited a few days with his grandparents at Panhandle. They brought him home on Monte Gripp visited a few days know of, but maybe you had better check with Bud.

# Cars Collide At

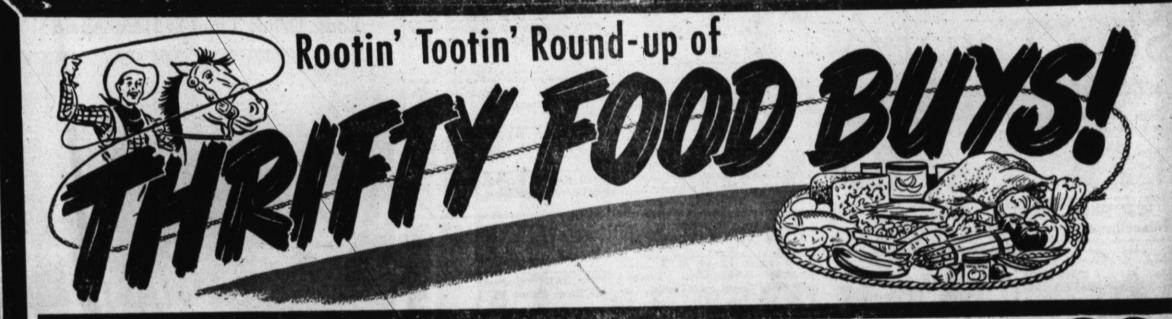

# Day On Monday

A founder's party was held by the Hereford Rainbow girls Mon-day at 8 p.m. honoring Mark Sexson's birthday.

A scavenger hunt was held fol-lowing a watermelon feast at Lake park.

Forty persons were present for

Irene Witherspoon, daughter of Mr. and Mrs. James W. Witherspoon, returned with her parents from Camp Baltimore at Kerrville. Irene has been at camp some six or eight weeks.

Phone 430 B-10-28-9p Citrus Fine Foil For Other Fruits

Nothing looks or tastes better on scorching days than a cool fruit salad or fruit dessert, and nothing's easier if you use ingenuity in your combinations. The handiest ingredients are the canned Florida grapefruit and orange sections, which lend their shimmering touch and refreshing flavor to summer's sweeter fruits. The supply and quality this year are both tops. You'll want to combine this tangy citrus fruit with melons of all varieties, with succulent green avocado meat, with fresh berries and pineapple, and use the variety of dishes possible for breakfast, lunch or dinner often. Here's the recipe for the cool salad bowl pictured:

Florids Summer Citrus Salad

2 No. 2 cans orange and Watermelon and cantaloupe

2 No. 2 cans orange and Watermelon and cantaloupe grapefruit sections Mint leaves

Chill cans of orange and grapefruit sections. Make melon balls from watermelon and cantaloupe. Drain orange and grapefruit sections; reserve syrup. Arrange melon balls around edge of serving bowl. Pile drained orange and grapefruit sections in center. Pour over 1 cup of the drained syrup. Garnish with mint leaves. YIELD: 6 to 8 servings.

### Long Drink Time Is Here Again

Summer days, long and lazy, are here. These are the days when everyone wants to be out in the open as much as possible. To have leisure time requires planning ahead of time. A little forethought in marketing will save many a last minute rush when an opportunity for a day's pleasure presents itself.

An assortment of tinned and jarred foods on your pantry shelves can afford a delightful quick meal or a picnic lunch at short notice, and save many long hours of preparation. Canned or frozen fruit juices, flavorings, fresh fruits, packaged ice cream and plenty of pale dry ginger ale and sparkling water on hand, mean that you can whip up refreshing drinks in a jiffy for any occasion.

Ginger ale, well chilled, is an excellent refresher at any time, and it mixes well with almost any fruit juice. A scoop of vanilla ice cream in a glass of ginger ale is a truly delicious drink. For an afternoon party, here is a good drink.

Five O'Clock Cooler

2 cups tea infusion ¼ cup mint jelly ¼ cup sugar

11/2 cups grapefruit juice, sweetened Green food coloring Pale dry ginger ale

Pour hot tea over jelly and sugar; stir until dissolved. Add grapefruit juice and coloring; chill. Divide among 8 tall glasses. Add ice cold ginger ale. Stir gently to mix. Top each with a spray of mint.

## Vetch Seed Testing

Lab Now Operating

COLLEGE STATION - Vetch continues to be one of the most popular winter legumes with Texas farmers. One of the early problems - that of seed supplies - has been largely overcome by the farmers themselves. Certain vetch production areas have developed a seed industry that now supplies a major portion of the planting seed used in that state. As an aid to the expanding seed production program, a vetch seed testing laboratory was established by the agronomy de-partment of the Texas Agricultural Experiment station in 1948. The laboratory will make germination and purity tests for vetch growers free of charge.

Last year about 1,000 samples of

seed were tested and the labora-

dles only vetch seed.

Dr. R. C. Potts, agronomist in charge of the laboratory, offers a few suggestions on how to make up the seed sample and submit it to the lab. First, he says, if the sample selected is not represen tative of the bulk of the vetch seed, the test results will be of no real value to the seller or buyer. Therefore, he recommends B-11-2"-19-tfc that equal portions be taken from evenly distributed parts of the quantity of seed being sampled in order to get a representative sample. A probe, he says, should be used in order to reach all portions of the bag or bulk seed be-ing sampled. Composite samples should be taken to determine the quality of a lot of seed and individual bag samples may be taken to determine if the lot seed is

Two pounds of vetch should be submitted for the germination and purity tests. The samples should be mailed, preferably in small cloth bags, to the Vetch Seed Testing Laboratory, Department of Agronomy, Texas A & M College, College Station, Texas. The name and ad-B-11-9-24-14p dress of the sender and any iden-tification marks should appear on ples.

The infant child of Mr. and Mrs. E. W. Renfro died July 15 at 2 p. m. in the Deaf Smith county hos-

tory is now receiving samples from the 1952 crop. The lab han-Funeral services were July 16 Surviving besides the parents are three sisters, Jo Ruth, Minnie Lee and Earlene.

> the tag or label outside of the package

Potts points out that the lab oratory will accept samples only from losts of vetch seed that have been cleaned or from lots that are clean enough to plant.

The results of the tests made by the lab can be used in securing officially tested seed labels. Growers should apply directly to the Seed Laboratory Division, State Department of Agriculture, Austin, Texas, for the tags. Forms provided by that division shoul be used in making the request.

The laboratory follows the rules and regulations of the State Deporting the tests on germination and purity and assumes no re-sponsibility for the accuracy in representing the seed actually for sale.

Local county agricultural a gents in the vetch producing counties can supply additional information on the program and

COLLEGE STATION, -- Past- production and management proures and meadows are a cash blems are directly or indirectly crop and should be used as such. related to organic matter. Poor E. M. Trew, associate agronomist physical condition of soils is usfor the Texas Agricultural Ex- ually caused by lack of organic tenson Service, points, out that matter. The establishment and many Texas pastures are not giv- maintenance of a plentiful suping maximum production -be ply of organic matter in the soil is important for maximum pro-He says farmers cannot expect duction. Once perennial grasses high yields of beef or milk from or legumes are established on a land that is low in organic matter piece of land, the decomposition or minerals. The first step in of the roots of these plants inbuilding a pasture is to deter- crease the organic matter which mine what factors are limiting its improves infiltration of water, production of forage. Poor for-age production can be caused by furnishes food for bacteria. The many things, but physical con-dition, mineral deficiencies and the organic matter into nitrogen organic matter content of the soil and minerals for the use of succeeding plants.

Another factor to be consider-

ed in building the pasture is the nitrogen content of the soil. A soil low in organic matter is low in nitrogen and a soil with sufficient organic matter may also be deficient in nitrogen. Trew Baptist camp for Junior Girls cites as an example a Titus County demonstration. In the fall of 1950, a bermuda grass pasture was renovated, manured and 500 Baptist church were: Gladys Lee, pounds of O-14-7 commercial fertilizer applied. The following Midland, Mildred Paul, Tina Wi-therspoon, Francis Goldston, Kar-plied at rates of 150 and 300 on Sue Minor, Patricia Kaywood, pounds per acre. The check plot Betty Sneed, Carol Sneed, Cly- received no nitrogen and prodeen Allred, Peggy Graham, Ada duced 1,440 pounds of hay per acre. The plot receiving the 150 Nelle Short, Lois Cristman, Jan- pounds per acre application produced 3,280 pounds of hay and the 300 pound application resulted in a hay yield of 4,840 pounds. The cost for fertilizer was \$6.40 and \$12.75 respectively for the two applications.

The increased yield within the month produced hay at less than \$7.00 per ton. The response from nitrogen was rapid and in addition to an increased yield, the protein content of the hay was

By using all possible soil im-proving practices, Texas farmers may increase the production from both their row crop land and pastures. Continuous row cropping wil deplete the organic matter in the soil, but by rotating row crops and pastures, organic matter may be maintained at a profitable level, Trew says.

Virginia Witherspoon of Hereford was a guest of Mary Lynn Morrison Saturday night.

Mrs. Joe Landers and Mrs. Merlin Kaul attended a bridal shower at the home of Mrs. Harold Saltzman at Hereford Tuesday afternoon honoring Mrs. Bill Wilson. Mrs. Wilson is the former Lela Faye Smith, daughter of Mr. and Mrs. Shird Smith, former residents of this community.

### Monday's Rain Brings Rise To Frio Draw Again

FRIONA -- Monday night's rain was welcomed in this area for the small row crops as they

The Frio draw was up for the first time in several years and cars had to be towed across. This recalls early days when such a practice was necessary every time it rained in the northwest part of the county.

Rainfall in the Friona area was reported to be from .02 of an inch to four inches in places. Some hail fell in town but little damage was reported.

The Frio rise was brought about by the local rains which fell in the immediate vicinity of Friona.

C. W. Dixon, Parmer county farmer living near Friona, reported that he had 31/2 inches of rain. Mrs. Merlin Kaul and Walter, He also said that lightning killed

IF YOU WOULD wander down by Central school playground on Tuesday and Friday mornings, you would see small fry like Pal Meacham, above, praying ball just like their major league idols. Pal has a hard time catching in his over-size catcher's gear, but he and his fellow-players have fun at it. It's all part of the newly-organized Hereford Junior Baseball league. Staff Photo.

FRIONA NEWS

### Baptist Boys Return From Camp, Girls Will Attend This Week

By Mrs. E. R. Day, Sr.

There were seven intermediates and 23 junior boys who attended boy's camp this year from the Baptist church. Junior girls and family of Clovis visited Mrs.

Mrs. Spencer Hoyt. Mrs. Curtis Murphy and Mrs. Roy Livett are should be a very interesting meeting, as an Indian Missionary is going to speak. She is Mrs. Aaron

Association Brotherhood meeting was at Bovina this quarter. A fine group from our church went

Mr. and Mrs. Paul Cantrell, Pauline and Francis visited this and C. D. Day and family. The Cantrells live in Whitedeer.

Mrs. Redfern and daughters, family left today for Fayettesvil-Mary Jo and Betty Jane will le, Ark., to visit the Ralph and this week for their home after a month visit with her parents, Mr. and Mrs. T. B. Armstrong, and her sister, Mrs. E. R. and family to Friona. He is the Day. They live in San Bernadino, new pastor of the Holiness church

Last week Mrs. Lee Parker had Saturday.

Mr. and Mrs. Edward Hall and Mrs. Edward Hall and her mother, Mrs. Walter Smith, and her sister and family, Mr. Eddie and Mrs. C. E. Hall visited and Mrs. Allen Sandell and their their sister and daughter, Mrs. three children visiting in her Willie Camp in Canyon Thursday. home. They started the trip with Miss Helen Taylor of Canyon four children, but one daughter had to have an emergency appendectomy in Wichita, Kans. All

are from Sterling, Ill. Mr. and Mrs. Frank Spring and family left last week for Oregon for a two-week vacation. They plan to visit many exciting places before returning home.

Mr. and Mrs. L. R. Dilger returned home Friday from a four Mrs. W. B. Norwood Sr. week vacation trip through ten states including Oregon and Washington. They came back down the West Coast and visited Grand Canyon and Yellowstone Park. They visited Mr. and Mrs. Howard Morris and Mr. and Mrs. Sam Taylor in California. Mrs. Dilger said that they had a wonderful trip and had been looking forward to it for 40 years.

Mr. and Mrs. Roy Wilson left Saturday for Melborne, Ark., where he will visit a sister, however, they plan to do a great deal of fishing.

Mrs. Alio Reeves and sons and Miss Wanda Hart were all in Amarillo shopping Monday. Mrs.

### Lubbock Office Of OPS Will Be Discontinued

The Lubbock office of the Ofof Price Stabilization, which has conducted pricing clinics and weekly meetings with local merchants, has received orders to suspend operations, H. R. Gholson, district director, announced today.

As directing office for the government's OPS program in 69 West Texas counties, the Lubbock office has been closed because of a cut in funds for the agency. Authorized strength of the Lubbock office is 80 persons. Under Civil Service, they are given a 30-day notice.

The Lubbock office was established March 5, 1951. It has been headed by H. R. Gholson since its beginning. Gholson was also director of the Lub-book office of the old OPA dur-ing World War II.

OPS asked congress for \$62 million but was authorized \$37

This area will 'be under the jurisdiction of the regional office in Dallas.

### Fire Saturday

FRIONA -- The Friona fire department was called out at about 12:30 p.m. Saturday to extinguish a fire between Black and Summerfield where a truck loaded with household goods

caught fire. The load of furniture was completely destroyed before the firemen were able to arrive on the scene. Name of the driver of the truck or owner of the furniture was not ascertained.

The annual picnic of the Cultural Home Demonstration club will be held Friday night, July

Ladies of the Cultural Home Demonstration club met in the home of Mrs. Louie Olson to crochet caps for the Workers 4-H group Wednesday. Mrs. M. G. Caywood was in charge of the meeting. The caps are part of the 4-H uniform. Mrs. Caywood wants every girl in the club to have their uniform complete including caps for the annual County Achievement Rally which is to be held July 25 and 26 at the

Veterans park. At the last regular meeting of the Workers 4-H group, uniforms were cut out for each of the girls. They were to have made for the rally day program. There are 11 girls in the Workers 4-H group. Mrs. M. G. Caywood is their sponsor.

A ONE-DAY CATCH from the Gulf of Mexico during a recent trip to California is exhibited by D. C. Burnett of Friona. The Burnetts went to Ensenada, Mexico, for their fishing. They returned to Friona last week and he plans to leave for another trip soon.

CONFUSION IN SEED LABELS buying seed guaranteed by the Judging from inquiries and department, omplaints which have reached The cream-colored Tester Seed

required on each bag of seed supply information on the tag as sold in the state.

the Texas Department of Agri- label does not guarantee that the culture in Austin, many farmers seed is of high quality. The Deare confused as to the purpose of partment of Agriculture issues the he Tester Seed Label which is tags and requires the dealer to

There are three tags which can be found on seed bags, all issued by the department -- the tested by the department -- the tested by the department -- the tested is buying. The law states that Mrs. Kreighouser Sunday. med label, the Certified seed tag, the dealer should include on the med the Registered seed tag. Unome confused and believe he is matter, weed seeds, date tested, Mel Tiejens of Dewitt, Mo.

weight of bag, and origin of con-tents. This is the responsibility of the dealer, and if he falsifies this information, he violates the Texas Seed Law.

Many farmers are mistaking this tag for the Certified seed label and the Registered seed tag. Both of these do guarantee to a certain extent, a high quality of contents. The Certified tag is pale blue in color, and the Registered tag, which is backed by even higher test standards, is light purple. They are plainly marked "Certified" and "Registered" They also carry the tered", They also carry the name of the seed grower variety or crop, weight per container, year of production, and a serial number. Field inspectors have de-termined qualities of the seed be-fore either tag is issued.

Some unscrupulous operators have been known to attach these two quality tags to inferior seeds, since it would be impossible for the Texas Department of Agriculture to employ enough men to personally tag each bag. Any such practice is a direct and ser-ions violation of the law and should be reported to the department at once.

It is a good practice for each farmer to save a generous supply. of seed from each bag he purchases, and keep the tag with the sample. If the seed fails to meet his expectations, the sample can be sent along with the tag to the Department of Agriculture for test purposes to be used as a guide in determining if the dealer is mislabeling his seed. Cooperation between purchasers and the Department of Agriculture will go a long way towards elimination of "Seed Rackets".

received a golf ball. the weekly series of "Ladies seen here. Days". You ladies who wonder what your husband sees in the game of golf, come out on Wednesday and get the "bug" yourself! Bud and Rowena will see

that you enjoy yourself.

Ladies out Wednesday were: Lucille Posey, Rowena Posey, Geneviene Guseman, Marie Cog-dell, Mrs. J. A. McWhorter, Mrs. Ray Hardy and Pat Loerwald.

Speaking of the ladies, Littlefield and Hereford golfers are still talking about the fine meal 28, after the regular season's play the women of the club served at

the inter-city team match play softballers were to have played Sunday If nothing else, that food is

Interest in wrestling at the Bull barn is increasing weekly. Might be because the customers have been treated to some very fine cards. Saturday night's matches were thrillers all the way through.

The boss man himself, Amarillo Promoter Dory Detton, went into the ring to call shots as the third man in the two hour-long events. His action was a refreshing change in the sad parade of refereeing we have been subjected to in recent weeks.

Dory did a crowd-pleasing job. Hats off, Dory! The grapplers Hereford, Texas, Thursday, July 17, 1952

horsepower

Just like the new automobiles, your telephone now has lots more horsepower than it did a few years ago - in fact, twice as much horsepower.

Today there are 2,350 telephones in Hereford-more than double the 900 in service in 1946.

Quite likely you, talk to more telephones than you used to. Certainly, they are there—available any time you want to call. That is one of the things that makes your telephone much more valuable than it was just six short years ago.

Even though increased expenses have made it necessary to ask for an increase in rates-only the second in more than 21 years -telephone service will still be one of the best buys in the average family budget. At the new rates, the average cost of two local calls will be only a nickel.

575,000 4-H'ers Get Training to Cut Farm Accident Toll

Farm safety surveys made by 4-H'ers show that matches within reach of small children with toys, jars and other articles were much in evidence as fire and accident hazards in rural homes. and stairways littered

Chicago—(Special)—More than 575,000 4-H Club boys and girls throughout the nation are receiv-ing training in farm accident and fire prevention this year. The outstanding feature of this training in the National 4-H Farm and Home Safety program is to check and remove from farms and homes any conditions likely to cause fire, accidents or injuries. These 4-H surveys are acclaimed a valuable contribution to the a valuable contribution to the nation-wide campaign to reduce the annual toll of 15,000 farm people dying and 1,300,000 being injured as a result of rural ac-

idents each year. Here is a report, made by a 4-H girl on behalf of her local club, after making a safety survey of every home in the community:

"In all homes having stairways that we visited, the stairs were full of toys, jars, tools and other articles," she stated. "In many homes people used kerosene to build fires. They also had oily cloths and papers stored close to the stove and flue. Matches and unlabeled bottles of poisonous liquids were within reach of small children.

"On several farms visited, boards with rusty nails pointing upward were much in evidence. In our local schoolhouse, the ceiling plaster in the classroom was loose.

we called a community meeting. Attention was called to the hazards we had found. Immediately following the meeting everyone present began work necessary to make our community a safe one. Every hazard we had found was

to five county winners having the best 4-H records in safety work, and a trip to the National 4-H Club Congress in Chicago is awarded to the State champion. Eight of the latter will be selected as national winners, who will each receive a \$300 college scholarship. Awards are provided by General Motors for the eighth consecutive year. The program is conducted under the direction of the Co-operative Extension Service.

Record-Keeping For Child Labor Is Outlined

DALLAS' -- Amendment of the Fair Labor Standards Act's record-keeping regulations as they apply to children employed on farms was announced today by the U. S. Department of Labor.

Issued by Michael J. Galvin as Acting Secretary of Labor, the amended regulations become ef-fective August 11. Under them, Hutchinson. the farmer will be required to record three items for children under 18 years of age who work on his farm on days when school is in session. They are: (1) the child's name (2) his date of birth; and (3) the address of his per-manent home, and where he lives while working if not at his permanent home. These items need be entered only once for each child hired by the farmer.

Galvin's action was taken under the Act's provisions which prohibit the employment of children under 16 in agriculture during school hours for the school district where the child lives while so employed. The Act as now written does not prohibit the employment of children outside school hours and does not apply to the farmer's own children who work on their parent's farm.

Galvin's action simplifies the present requirements applying to farmers.

Complete text of the amendments was scheduled for publication in the Federal Register for July 8. Copies may be obtained from the U. S. Labor Depart-ment's Wage and Hour and Public Contracts Divisions.

In Texas, such offices are loc-ated in Dallas, El Paso, Fort Worth, Harlingen, Houston, and San Antonio.

### Here's A Good Fish Story

This time of year, when fresh fish are plentiful and economical, is a good time to get acquainted with the many varieties available not only near ocean and lakes but in inland towns, thanks to modern refrigeration.

Secret of success in cooking fish is not to overcook it, and to season it properly. Fish is bland, and takes well to simple sauces, such as the Tabasco sauce below. A high quality protein food, there are some 160 varieties of fish sold in the United States. Here are pictured, reading top to bottom, three salt water varieties, sea bass, mackerel and porgie, and three fresh water species, white fish, yellow pike and brook trout.

An easy and appetizing way of preparing fish for the table is by simple broiling. To serve four, plan on 1 pound of fillets or steaks or four small fish, and 3 to 4 tablespoons of fat. Preheat broiler. Cut fillets or steaks into serving pieces. Grease the broiler rack lightly. Place fish on rack, skin side up; brush with melted fat. Place rack 2 to 3 inches from heat. Broil fish 5 to 8 minutes or until brown, and serve with this tangy sauce.

Tabasco Butter Sauce

4 tablespoons butter or margarine
14 teaspoon Tabasco
1 tablespoon minced parsley
Melt butter in saucepan. Add lime juice and Tabasco; heat. Add
parsley. YIELD: Approximately ½ cup.

### Son-In-Law Of Local People In US Air Force Procurement

Capt. Richard A. Batson, USAF, has been appointed procurement specialist in the USAF Inspec-tor General's office in Los Angeles. The office embraces seven western states.

Capt. Batson lives with his wife, the former Irene Naugle and their four-year-old son, Douglas Allen, in Los Angeles. Mrs. Bat- ed from the Air Force in Janson's parents, Rev. and Mrs. Eu- uary, 1946, he joined the Goodgene Naugle, live in Hereford year corporation and lived at where Rev. Naugle is associate Dutch Village, Albany, N. Y., unpastor of the First Methodist til he was recalled to serivce in trict.

Batson was born at Akron, Ohio, and graduated from Richfield high school in 1941. He joined the U.S. Air Force in 1943, became a pilot and flight test officer and served in China in 1945 flying C-47 and C-46 aircraft on 204 combat missions. His decorations include the Distinguished Flying Cross, Air Medal and cluster, Asiatic-Pacific ribbon with three battle stars and unit cita-

### Roach Trouble? Here's Way To Run Them Off

A dime store paint brush and a few ounces of chlordane are the only tools you need to run off those pesky cockroaches, State Health Officer Geeorge W. Cox

But he says keeping them off is

Roaches are disease carriers from way back, the health officer pointed out. They've been found infected with polio virus. And that alone, is reason enough to declare war against the filth ridden pests. Here's the way to do its

First: get a 2% chlordane spray and a two-bit paint brush from the drug store. Then take all the pots, pans and dishes from the kitchen cabinet and wash them in soapy water.

Now paint the chlordane into all the cracks where the shelves join walls and around the drain and water pipes. That's all --don't paint the whole cabinet. While the spray is drying in the cabinets, paint in the corners of base-boards, behind the stove and the hot water heater where water and gas pipes enter the house.

Take off the motor panel of the refrigerator, and treat the floor. and corners of the motors compartment. Paint the walls behind the refrigerator, because roaches will hide any place they can find protection. Be sure to paint around bathroom pipes too.

In older houses it's possible that roaches will be hiding in cracks between the wall boards and door and window frames, So don't pass up a crack because it looks too small to harbor roaches. The young insects are mighty

After the spray in the cabinets has dried thoroughly, cover the shelves where dishes and food are stored with paper.

You can get a can of caulking compound for just a few cents, which makes filling cracks permanently an inexpensive process. But run some of the spray into cracks before sealing them up. This will kill ants, too.

All this will help you get rid of roaches, Dr. Cox emphasizes. But if you leave food exposed, they'll soon be back at the same old stand.

Mr. and Mrs. George Huggins and children of Vega were guests in the C. R. Winget home on Sunday.

# Let's Keep Our Underground Water for the use of our Farmers for Irrigation

The farmers in the irrigation area are entitled to the use of the water under their land for irrigation purposes. This water skould not be drawn off for city and industrial use to the point where the draw-down ruins wells and causes farmers to have to lower their well depths.

The cities and the industrial areas are entitled to water, too—and they must have it, but they must not have it at the expense of the farmer.

The answer lies in the Canadian River Dam, where surface water that runs off down the river can be impounded in a reservoir and carried by pipeline across the Panhandle and Plains country to meet the urban and industrial needs. This will leave the underground water resources for the use of the farmers under whose land it lies.

Lindley Beckworth, candidate for the United States Senate, is the man who can, and will, turn the dream of the Canadian River Dam and its adequate water supply for the Panhandle-Plains Country into a reality. As congressman, he has voted for and supported this Dam, and if elected Senator he will

turn his efforts toward culminating this important project. When you send him to the United States Senate with your votes in the Democratic Primary, July 26, you will be voting to supply this area with adequate water for both the cities and industries and for the farmer.

Remember, a vote for Beckworth is a vote for keeping the underground water available for the use of the farmer.

BECKWORTH IS THE ONLY MAN IN THE SENATE RACE WHO HAS VOTED FOR THE CANADIAN RIVER DAM PROJECT IN CON-

Beckworth is the people's candidate—he isn't the candidate of big machine politics. Cast your vote for Beckworth, the man who is interested in the citizens of this country, not in the welfare of the big-shot political machines.

Let's get an adequate supply of water for the Panhandle-Plains by voting for the man who will do everything possible to get us the Canadian River Dam and leave the underground water for the use of the farmers for irrigation.

# Attend the Church of Your Choice This Week

I here they are! We were so busy at the task of the moment that we forgot we were leaving our footprints. Every step we take leaves its mark. Eager young minds see them so clearly even when we have not noticed them ourselves. Why not let your steps lead them to church!

Ask the average boy what he expects to do to make a living. His first impulse is to do just what his father has been doing. That is somewhat modified today, when so many new opportunities are offered, to which parents are directing the attention of the growing boy. But it is surprising how many farmers' boys return to the farm, how many preachers' sons go into the ministry, and how many bankers' sons carry on in the place of their dads. Your son will follow you to church too.

Listen to the speech of your neighbor; the words he uses, his characteristic expressions, the very inflection of his voice. Then ask his son to talk about some matters in which he is interested. He is following in Daddy's track's, even to the tone of his speech.

Now important then that we walk ahead of these growing children with our feet turned in the right direction, along the best paths! Do we want our girls and boys to be interested in community welfare? Then let them follow us to the meetings where community-minded women and men are giving their best thought to helping build a good society. Do we want them to be faithful worshippers of the Living God? Then let them sit with us in the place of worship. Whether we wish it or not our children are walking "in Daddy's Tracks," just as you and I walk where our fathers walked.

# In Daddy's Tracks This Week's Calendar at Your Hereford Churches

### St. Thomas Episcopal

Mr. Earl Hendricks will be the Lay Leader at the regular 8:00 service on Sunday morning in the absence of Mr. Henry Seaman, who is on vacation,

### Nito Infant Dies

San Juanita Nito, born January 11, 1952, in Eagle Pass, Tex., died at the labor camp after a fivemonth illness, July 5, at 7:30 a.m. Funeral services were held at the St. Joseph Catholic Mission at 4 p.m., July 15, conducted by Father Raymond Gillis.

Burial was in the Catholic cemetery, under the direction of the Gililland Funeral home.

Surviving are the parents, Mr. and Mrs. Ignacio Nito, two brothers and one sister.

Mr. and Mrs. Edward Paetzold visited in the home Mrs. Ed Sno-

JUDGE JOE S. MOSS

The Law Can Be In Simple Language

Any document signed by Deaf Smith county citizen may someday have to be interpreted by the Court of Civil Appeals at Amarillo. In over 41 years the court has existed, it has decided over six thousand civil cases. It is to the interest of the people of Deaf Smith county that qualified men of the people sit on that high court. Judge Joe S. Moss of Graza county believes that legal papers and proceedings should be in the language of the people, rather than in legal fine print. Judge Moss will help simplify and speed up the machinery of the law. Ask the people who know him. Vote for Moss. A Civil Judge for a Civil Court.

# How's Business? Gl with prices like ours

THIS is-to coin a phrase-a "shopper's market."

Folks are taking a keen look at what they get for what they pay-and they're taking a double look at price tags.

That's the kind of market where Buick really shines.

Do you know why?

Buick prices are down within easy reach of the folks who buy what's known as "the low-priced three."

Fact is - a big chunk of Buick sales comes from the folks who trade in one of this low-priced trio.

For very few extra dollars, they're getting a lot more automobile.

They're getting more power-and the thrill that goes with it.

They're getting "big-car" comfort. They're getting a ride that cost a million dollars and more to develop.

They like the room, the fabrics, the extra appointments they find in the smart-stepping beauty pictured here. And they like Dynaflow Drive.\*

They like the way it handles. They like the way it's engineered. They like the belt they get out of touching off the power of its Fireball 8 Engine-and they like the miles they get from a gallon of fuel.

So Buick sales are booming. Not just the Special-but also the Super and ROADMASTER, Folks find that each one is the buy in its field.

When we tell you that business is great,

we can back up that statement with figures. More people are buying Buicks than any other car at their price or above.

Why don't you come in and see for yourself what's behind this popularity?

If you can afford a new car, you can be the proud owner of a Buick.

Equipment, accessories, trim and models are subject to change without notice. \*Standard on Roadmaster, optional at extra cost on other Series.

Sure is true for '52 When better automobiles are built
