Sunday Brand To Carry Latest Election News

Interest in Saturday's primary election is running extremely high, especially in Deaf Smith county where there are five contests sparking the balloting.

As usual, The Brand will carry the LATEST POSS-IBLE RESULTS of Saturday's balloting and will publish TWO EDITIONS of The Sunday Brand. The earliest one will be a street edition, which will be printed Saturday afternoon for sales during the evening a he last edition, the "midnight" edi-tion, will be held up until

contests have been reported or until the flow of election news ceases. In either event, the latest edition of The Sunday Brand will carry the freshest possible election results, both regional, state and local as covered by the primary ballot.

In addition, as another election service, The Brand will maintain a scoreboard in the window for the reference of readers who might wish a periodic report on the election returns.

Briefly, here is the rundown on the county ticket, the extreme man for his precinct.

The contests in the election are: COUNTY JUDGE AND EX-OFFICIO COUNTY SUPT.—In-

Legal Notice

Notice is hereby given that the Board of Equalization of the Hereford Rural High School District will meet in the School Tax Office in the court house at 10:00 a.m. on Monday, August 4th, 1952, for the purpose of making adjustments of any inequalities in the taxable values of properties rendered for school tax purposes.
All persons believing that ad-

justment should be made in the taxable value of any of their property which is located within the Hereford school district, are invited and urged to appear before the Board on that date and present their request and reason for such adjustment.

The survey of farm improvements throughout the school district has been completed and each owner has been notified of the increase in the taxable value of his property by reason of the inclusion therein of such farm im-provements. These property owners are especially invited to meet with the Board of Equalization if, in their judgment, the taxable value of their property as indicated by the survey and as stated in the notice received by them, seems excessive.

Also many new homes and additions to existing homes and business properties have been business properties have been built during the past year. Surveys and assignment of taxable values have likewise been made for this property. If you have not al-ready rendered this new property with the tax assessor for school taxes for 1952 we invite you to meet with your Board of Equali-zation on August 4th and give them all the assistance you can in arriving at an equitable value of your property for school tax purposes.

Governor Shivers has repeatedly said that he favors a paved "The record shows that during road within sight of every farm my administration, there have and ranch house in Texas. In fact been more miles of paved rural that the State already has plans roads completed in Texas than to build 51/2 more miles of farmanytime in history," Governor to-market roads in this county Shivers said. "And this is just the alone is proof enough that there beginning-the program is just is going to be no let-up in the road building program in this county, they stated.

A breakdown of benefits received during Governor Shivers from highway use tax money further shows that the county has received \$227,642 in license this county in road bond funds.

Social Security Law Changes

John R. Sanderson, manager of the Amarillo office, states that the following are the major

1. Automatic increases will be made to retired workers already receiving payments. Proportionate increases will be made where sevaddition, the expenditure of \$60,- eral members of a family are receiving payments. These increases 800 for 51/2 more miles of paved which will average about \$5.00 rural roads has been authorized for this county and construction will begin in the immediate fuare automatic and no one receiving payments now needs to apply for the increase.

2. A change in the benefit formula, also effective in September, will effect an increase in most claims filed in the future.

3. Beginning September 1, the new law increases to \$75 a month instead of \$50 the amount of money a beneficiary may earn and still receive the monthly benefits. Self-employed people entitled to payments may receive them for each month of the year

if their net earnings during the entire year are not over \$900.

4. Social security wage credits of \$160 for each month of active military or naval service after July 24, 1947 to January 1, 1954 are authorized. This applies even though the servicemen may never though the serviceman may never have had a social security card,

VOTE FOR RALPH SMITH

COUNTY CLERK

We, a group of friends of Ralph Smith, wish to ask that you give him your fair consideration in this coming election. Ralph has rendered six years of fine service to Hereford and this County, nineteen years as a teacher in our public schools and seven years of the best service to our Veterans and their dependents. He is considered one of the best service officers in west Texas by the Regional office of Lubbock.

He is familiar with a great deal of the work in the County clerk's office as he has to locate discharges, marriage license, birth and death records, divorce decrees and many other things that pertain to the work in this office. The work of the County clerk's office would not be strange to him. He has no outside personal interests so could give full time and efforts to the office and would render the very best of service. We the friends and former students of Ralph Smith, ask that you go to the polls next Saturday and cast your vote for him as we feel he is deserving of a public office for the fine service he has rendered us the past years.

To the Voters of **Deaf Smith County**

Now that all of us seeking office have made our little speeches or appeals for your vote in other ways, comes Saturday, July 26th, you. the people will have your say at the polls. You have been very patient and considerate as you listened to us, and I want to express my thanks for the many kindnesses shown me, not only throughout this campaign but during the years I have been privileged to serve as your County Judge and Ex-Officio County Superintendent. I am seeking re-election to this office solely on my own merits. I earnestly ask your consideration and help, and if you think I am qualified, then your vote at the election on Saturday, July 26th will be appreciated.

So as not to miss any of the excitement, we'll start from the Dory Funk and the Masked Marvel.

The Marvel really had Funk on the defensive all during the first fall, giving his left arm punishment from armlocks and arm bars off the ropes. Dory seemed sluggish the first fall and didn't offer much resistance to the Marvel.

Even the famed Funk slugging was absent; in the first period, with the Masked Marvel winning in 10 minutes with a give-up arm

Fans who were waiting for Funk to come back fighting in the second fall didn't have long to wait as the Flying Mare ranch foreman did away with the Marvel in nine minutes, beating him to a frazzle and capping it with a spinning toe hold. At first the Marvel wouldn't concede and give-up hold. When the MM did give up, he found his right leg out of joint at the knee.

He stayed in the ring for more than half the rest period.

The Marvel got rugged after the falls were evened up and the match was called a "no-contest" after both Funk and the Marvel knocked Johnny James out of he had on Blackley. To add insult the ring. The Marvel had Funk on the defensive with his head tied Johnny James. John in turn up in the south ropes and butting him in the head as Funk was helplessly tied up.

So now the stage is set for a return and a heavy one at that be-tween Funk and the Marvel in Amarillo tonight.

I got Conoco's NEW 1-2-3 No Wear" Service!

I housands of other car owners are discover-ing what this smart motorist knows: the way to help your engine perform better, last longer, use less gasoline and oil is to get Conoco's great new "50,000 Miles—No Wear" Service! It's exactly the same service that kept test cars new in Conoco's spectacular "50,000 Miles

-No Wear" road test! In that famous 50,000-mile test, with 1,000mile drains and proper filter service, test car engines showed no wear of any consequence: in fact, an average of less than one one-thousandth inch on cylinders and crankshafts. Gasoline mileage for the last 5,000 miles was actually 99.77% as good as for the first 5,000.

Now you can get this same 1-2-3 "50,000 Miles—No Wear" Service, at your Conoco Mileage Merchant's, today!

Here's the Famous "50,000 Miles - No Wear" Service!

Only one change of course program is allowed, except under certain conditions determined by the Veterans Administration.

Veterans in GI Bill training will receive an education and training allowance each month from the government, to meet part of the expenses of their training and living costs. Tuition, fees, books, supplies and equipment will not be paid by the government; instead, they will have to be paid out of the monthly al-

Rates for veterans in full-time training in schools and colleges are \$110 a month, if they have no dependents; \$135 if they have one dependent, and \$160 if they have more than one dependent. Those in training less than full time will receive lower monthly rates.

On-The-Job Rates Top monthly amounts for onthe-job trainees are \$70 without dependents; \$85 with one dependent, and \$105 with more than one dependent. The maximums for institutional on-farm trainees are \$95, \$110 and \$180, respectively. The law requires that onjob and on-farm rates be reduced at four-month intervals, as the training progresses and the veteran's own earnings increase. The law also specifies that vet-

VOTE FOR A. J. "Andy" Rogers

MY OPPONENT SAYS:

(1) He rewrote the water bill introduced in the last legislature, provided for local control for underground CHARLE STATE FOR STATE STRATO

THE FACTS:

There was no "water" bill introduced in the last legislature concerning underground water. Doc Holt, of Olton authorized the original legislation giving underground water control to the land owner. Andy Rogers was a member of the Doc Holt, committee that gave underground water rights to the land owner. Andy Rogers was a member of the Doc Holt committee that killed legislation providing for state control of underground water.

MY OPPONENT SAYS:

(2) My opponent says he worked for and voted for Veterans legislation.

THE FACTS:

It was his speeches and his motions that killed the Veterans Affairs Commission in the Hause of Representatives. He was one of the leaders who fought the increase loan amount of the Veterans Land Program, voting for the bill only on the last vote. By his own words he admits "the program does not cost the tax payer a dime."

MY OPPONENT SAYS:

(3) My opponent boasts of his prowess in the Hunt murder case while District Attorney.

THE FACTS: Most lawyers consider a murder case won when someone is punished. The perpetrator of this foul crime went

scot-free. MY OPPONENT SAYS:

(4) My opponent says he supported and voted for a tax on natural gas for the building of farm-to-market roads.

THE FACTS:

He could not be found for a vote of this rural road bill until he was appointed chairman of the Conference Committee which handled it. With his leadership the bill for which the rural road bloc had fought three months, was reduced by more than two-thirds.

MY OPPONENT SAYS:

(5) My opponent says his speech was the only one printed in the House Journal.

THE FACTS:

The right to have speeches printed in the House Journal is extended to every member for every speech made. He was the only member who felt the need to exercise this right. The House Journal is printed at a cost of \$300 per page.

I noticed in the July 10 issue of The Brand, an article which is of serious moment to all of Deaf Smith County, namely the piping of water in a 36 inch pipe to Aamarillo. This should not be allowed to happen.

I don't know what the law is in your sate governing the laying of a pipe line such as proposed, but I believe an easement must first be secured, and that should be in the hands of the property owners along the line. They should refuse to permit it or there should be some other way of preventing this wholesale piping of your water to which you have first rights. If this is not stopped you all will be back in the great American desert as it was known before you found the water. While the article shows the seriousness of the problem, there appeared nothing concrete showing the way to stop it other than building a dam on the Canadian river, which by that time it will be too late to do

Democrats Favoring Eisenhower CAN Vote In Saturday's Primary

(Ed. Note-The following story appeared on page on of the Fort Worth Star-Telegram. This story will answer the big question for a lot of people on the pledge at the top of the Democratic primary ballot. For those Democrats who feel they might want to vote for Dwight D. Eisenhower, this story tells how they can do that and vote in the July 26 Democratic primary without violating their rights to party loyalty.)

Folks who want to vote for General Eisenhower for president, but would also like to have a voice in the election of their district attorney and county commissioners, have a date with a polling booth July 26.

That's the day of the first Democratic primary, and in order to vote in the primary—an election set up and financed by the Democratic Party of Texas—each voter must take this pledge:

"I am a Democrat and pledge myself to support the nominees of this primary."

The pledge says nothing about supporting all of the nominees of the Democratic party, and there will be no presidential nominees listed on the primary ballot.

NO MORAL BARRIER

Thus there is no legal or moral barrier, as far as the party pledge is concerned, to prevent a person from voting in the Democratic primaries in July and August and voting for the Republican candidate for president in the November general election.

However, there is a legal issue to be considered by persons planning to vote in the July 26 Democratic primary and attend a Republican precinct convention that same afternoon.

Texas Democrats, whose votes are being wooed by the Republicans this year, have this situation staring them in the face:

A new state law provides a penalty of from \$100 to \$500 for anyone convicted of participating in the primary or convention of more than one party on the same day.

At the same time, Texas Democrats who feel no Democratic pushing his record before the presidential candidate likely to be nominated will be satisfactory to them and thus are desirous of switching allegiance to the GOP and attending Republican precinct conventions, face the opposi- his successes in the state's execution of disenfranchising themselves on the state and county level if they choose to attend a convention July 26.

At any rate, they have been up He is a former district judge and to now. Failure to vote in a Democratic primary, therefore, means the voter loses the right to have his say, on who will represent him in the Legislature, be he governor or United States senator, sheriff or district clerk.

YAN you imagine parking a car as easily as you steer it on a straightaway?

You twirl the steering wheel with one handturn the front wheels until you get the last inch of advantage from Buick's short "turning radius"-spot the car in a tight spot at the curb -or swing out when the car parked in front of you seems impossibly close.

For this alone a lot of people - women especially - are saying that Buick's Power Steering is the biggest advance since Dynaflow Drive.*

But you're going to find out something more as you pile up the miles.

You're going to feel the same confident and thrilling sense of command you have always felt in a Buick, because Power Steering only goes into action when extra effort is needed to turn the wheels.

You're going to find that your front wheels track just as they always have-that they automatically swing back on course, after you've made a turn, when you ease your grip on the steering wheel.

You're also going to find that Power Steering takes over when your front wheels hit loose dirt or sand - road irregularities and chuckholes-and smooths down their jerk or tug on the wheel in your hands.

All this adds to the ease and pleasure of driving. But it adds to the safety, too, because, in the rare event of a blowout, Power Steering helps you keep control. There's no sudden and

violent jerk ever when this helping hand's on the job.

Add to this the level-gaited screnity of Buick's Million Dollar Ride - the "rarin' to go" exuberance of its Fireball 8 Engine - the spreadout room, the luxurious fabrics-the way this great performer can turn up its nose at gas stations-and there's only one smart thing for

For A Second Term GOVERNOR

THE TRUTH ABOUT OLD AGE ASSISTANCE

Governor Allan Shivers wrote and helped pass the first Old-Age Assistance Law in Texas.

He stands for equitable distribution of funds for the needy.

Two years ago he was one of the leaders who tried to get more money for the aged, a cause that failed because the voters disapproved a constitutional amendment.

Governor Shivers has, in the past and will in the future, advocate making available to our deserving aged citizens not merely enough for a meager existence, but sufficient funds to carry them through the evening years of life as proud, dignified citizens.

check is due next October.

THE TRUTH ABOUT COUNTY ROAD **FUNDS**

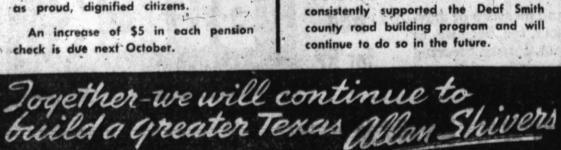

Farm-to-market road building has been the greatest in history during the Shivers administration.

During Governor Shivers' administration, Deaf Smith county has received \$1,416,701 rural road benefits from state highway user taxes as follows:

License fees \$227,642, road bond surplus \$71,759, construction of farmto-market roads \$1,056,500, authorized but not under construction \$60,800.

In this county, 99 miles of farm-tomarket roads have been built, and an additional 5 miles have been authorized for construction, for a total of 104 miles.

Governor Shivers' administration has consistently supported the Deaf Smith county road building program and will

Attend the Church of Your Choice This Week

Society has placed in the hands of its honored judges and police officers the power on which we all must lean for protection and for aid in the interest of security and peace and justice. Back of every man who represents law and order is the authority and the social idealism of the group as a whole. You and I and one hundred and forty million people speak in the voice of the Judge on the Bench; we walk with the Guardian of the Peace as he covers his beat along the city streets.

I he Strong Hand of the Law is a symbol of justice, assuring every woman and every man that he has rights before the Law and that he will be heard; he cannot be deprived of property or freedom or peace without due process of law.

The Strong Hand of the Law assures society that it will be protected from vicious and lawless men, that our homes shall be our castles and that we may walk at large without fear of being molested. Life, liberty, and the pursuit of happiness are our heritage in a free country.

The Strong Hand of the Law comes to our aid when we have failed to live up to our American privileges. When we become a menace to others, the Law saves us from doing the harm for which we should always be sorry. When we have failed to correct and discipline our children and they have gotten out of control, the Law comes to assist us in checking their wrong-doing. Our Courts are increasingly concerned to help us make improvement, rather than to punish us when we go wrong. It was because of this that the Great Apostle insisted that the Powers That Be are ordained of God. The Strong Hand of the Law is assistant to the Divine Ruler in making a good world of men. Shall we not teach our children respect and honor for the Law? Shall we help them to revere rather than to be afraid of these helpers toward the common good?

TF YOU use gasoline-powered tractors in the 45,000 GCW class, here's big news. This new GMC Series 470 will haul more pay load than any other vehicle of its rating with

than some! That's because GMC has found new ways to take dead weight out of truck design by advanced engineering.

comparable standard equipment-up to more than a half-ton.

One example is GMC's sensational new "302" valve-inhead engine that delivers 145 h.p. at 3200 r.p.m. It weighs less than other engines of equal power by as much as 500 lbs. Yet it's the highest-compression gasoline truck engine ever built-gives you extra mileage from regular fuel!

Come in. Compare them-in power, in pay load, in rugged long-life construction-against all the rest!

Then check the price and you'll agree: nowhere else will so little buy so much in a 3- to 4 1/2-ton truck!
