## Around Town

A. Alexander and Mrs. Bess Moore of Hereford were among those who attended the Fall and Back to School Fashion Market of the American Fashion Association in Dallas during the week of May 25 to 30.

In the announcement for Lucille Posey as district clerk, the story represented her as working in the Farmers Home Administration offices from 1941-1947. She worked in the FHA from 1945-1947.

Dale Dickson won first place in the Yo-Yo contest sponsored Saturday morning by the Hereford Creamery. Second place went to Donald Renfro and Phyllis Goetsch was third. Twenty-five entered the event.

One of the "smaller" things that went a long way in making Pioneer Day just a little more enjoyable was the benches along Main street. They were put up by the Jaycees. Alex Thompson had the idea and rounded them up for the boys to distribute.

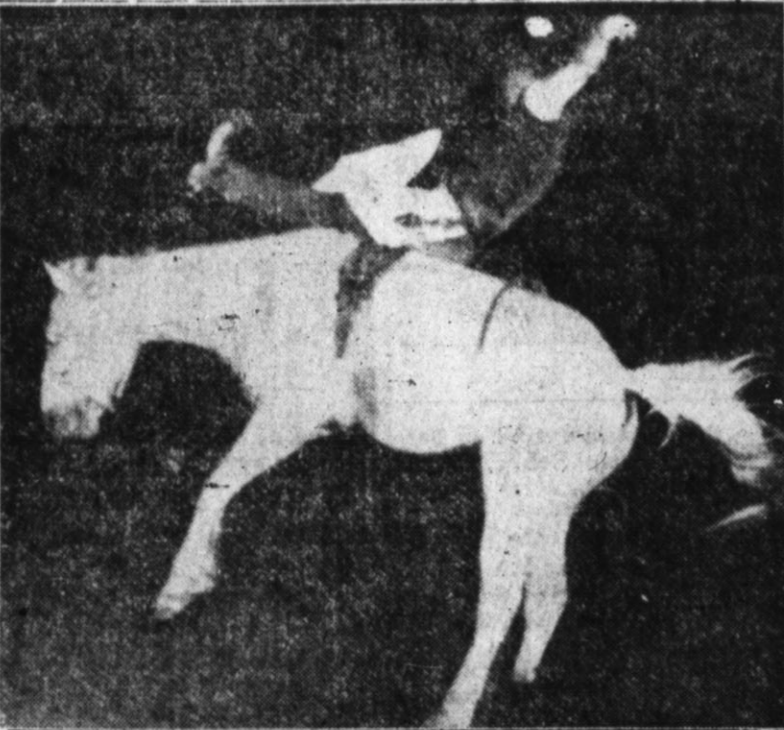

Pioneer Day was quiet—from the law enforcement end of it. Local officials reported nothing amiss and no arrests. Everything was "very quiet," they said.

After The Brand—relying on advance information—billed the Amarillo Air Force band as a "100-piece" organization, one with observing the parade figured we must have been counting the instruments and music cases, too. Talking about bands, our hometown high school band was conspicuous by its absence. Tucumcari high school made it, for which we are thankful to that New Mexico neighbor.

They may be pioneers, but they have quickly adopted modern reticence about revealing their ages, as The Brand found out when copying names off the pioneer registers. We found everything from "legal" to 21-plus listed for the \$64 question.

Mayor W. E. Dameron, who has been confined to his home for a rest under doctor's orders, saw the Pioneer Day parade from an auto at the start of the route. Mayor Dameron returned to his home on Tuesday from the Northwest Texas hospital in Amarillo. He is feeling much better, according to reports Saturday afternoon.

Art Guinn of Fort Worth won the trophy in the fiddler's contest Saturday afternoon. Second place winner was Eck Robertson of Amarillo; third, Dell Shirley, Hereford. Dirty Newton of Dimmitt was given honorable mention. (Continued on Page 2)

## Overflow Crowd Sees Friday Night's Rodeo

An overflow crowd of more than 3,500 persons witnessed the first go-rounds of the main Pioneer Day activity—the Lone Star Ranch rodeo—sponsored by the Hereford Riders club at their arena east of town.

The second evening's performance of the show is slated to begin Saturday night at 8 p.m. with the last day's performance Sunday at 2:30 p.m.

Some bright names in the rodeo orbit competed in the wild and woolly crowd-pleaser Friday night. More are slated for appearance Saturday night and Sunday afternoon.

Casey Tibbs, world champion cowboy in 1951, was unable to make an appearance due to an injury suffered in Carlsbad last week. He went on to Fort Smith rather than risk further injury by competition here.

Scheduled for competition Saturday are Bud Matson, an old-timer now in the army but on leave, and will enter the bareback and bull riding; Bill Smith, El Paso; Sunny Hancock, Rosedale, who makes all the major rodeos; and Guy Meeks, of Abilene, who will enter four events. Weeks is one of the few all-around cowboys and is a consistent high money winner. He just finished high at Carlsbad.

Some of the more rugged contenders who worked Friday night were Elliott Calhoun, who was the only one to stick to his bareback bronc. Calhoun is one of the champion cowboys in the rodeo circuit.

Junior Vaughn, who placed third in the roping Friday, is also a consistent winner. He was in a big matched roping meet in Roswell. Other well-known rodeo performers on Friday's card were Blocky Rutherford, Dude Smith and several others.

In Friday's results, the following high men emerged:  
BAREBACK BRONC—Elliott Calhoun, Las Cruces, was the only man to stay on his bronc.  
CALF ROPING—Leon Jones, Enochs, 15.7 seconds; Second-Junior Vaughn, Kenna, N. M., 16 seconds; and Third-Troy Whatley, Bushland, 16.4 seconds.

SADDLE BRONC RIDING—A. L. Smith, Wichita Falls, first; Blocky Rutherford, Camp Carson, Colo., second; and Sunny Linger, Burkburnett, third. The winner in the saddle bronc contest will be decided Saturday.

STEER WRESTLING—Dude Smith, Burkburnett, first—6.1 seconds; Don Feddersen, El Reno, second, 13.1 seconds; Bill Feddersen, El Reno, third, 15.6 seconds.

COWGIRLS BARREL RACE—Darlene Bryant, Floyd County Sheriff's Posse, first, 22.8. The same girls will compete again Saturday.

BRAHMAN BULL RIDING—Elliott Calhoun, Las Cruces, first; Blocky Rutherford, Camp Carson, Colo., second; and Dick Doyle, Claude, third.

ROY M. SCOTT was fined \$150 and costs of \$29.30 in county court on May 29 when he pled guilty to a DWI charge filed against him on Friday.

The offense occurred on May 28, according to the complaint, signed by Sheriff J. C. Reese.

**9000 Persons See Pioneer Day Parade**  
An estimated 9,000 persons lined Hereford's Main street Friday afternoon to witness one of the longest and finest Pioneer Day parades in several years. Friday's parade was colorful. Friday's parade was big. It featured more riding clubs than had ever before been assembled in Hereford or anywhere else on the High Plains.  
Entered in the parade were 18 club floats, 13 mounted patrols with 355 horses—and 12 commercial entries. There were several individual entries.  
The numbers listed above count only firm entries and club entries, not the number of units in the parade, which took a half-hour to pass.  
First prize in club or organizational floats went to the Hereford Lions club with its pioneer scene. Second place went to the Loyal Workers of America. Prizes were \$25 and \$15.  
In the commercial division, first prize went to the Hereford Implement company, \$25. Second prize of \$15 went to the Bradley Grain company for the float carrying the Old Pioneers.  
In the individual entries, first prize of \$5 went to the Henry Scheibgen entry of a small put-put pulling a miniature covered wagon. Second prize of \$3 went to Roberta Campbell and a display of Columbia sheep.  
The Hockley County Sheriff's Posse won first place for the best mounted patrol. Second place went to the Pampa Roping club. Both were awarded trophies at Friday's rodeo performance. The Lubbock County Sheriff's Posse, won third place.  
Riders club entries were: Hereford Riders, Quay County Sheriff's Posse, Floyd County Sheriff's Posse, and Loyd Level.

## More Deep Water Wells Brought In

Deep-well irrigation in the northwest part of Deaf Smith county continues to draw on unusual amount of interest as two more wells were put into production last week.

A well on the Rose and Sons place 27 miles northwest of Hereford and one on the Saeffel place adjoining it were brought in Tuesday. The Rose and Sons well is pumping about 1000 gal-

lons per hour and the Saeffel well is a little better, giving out with 1000-1100 gallons per hour.

Depth of the Rose and Sons well is 265 feet. The pump is set at 300 and the drawdown is 260. The Saeffel well is drilled to a depth of 338 feet. The pump is set at 300 feet and the drawdown is also 260 feet.

These are the second and third wells brought in within the past few weeks in that hitherto unirrigated section of the county.

Plans are being made by the Roses to put two more wells in and Fred G. Sims of Dimmitt, the driller, told The Brand he is going for Cord Hammock and two ing to drill wells in the near future for Ray Horn. Both farm in the vicinity of the Rose and Saeffel places.

Sims said four working days were needed on the wells brought in Tuesday. They are using deep setting pumps.

The Roses, who have 11 sections altogether, 3 1/2 of them to be served by the well already brought in and two subsequent wells. They are also farming two sections for the Saeffels which the Saeffels will take over next year.

With no previous irrigation, the Roses will now irrigate all vicinity. One of the sections to be their land in that northwest vicin-

ity served by an irrigation pump adjoins the Saeffel section and the first well in the area was also the Denson section where brought in some weeks ago.

Mrs. Austin Rose Jr., who brought The Brand information about the new well, said several of the people in that area hope to increase the value and productivity of their land by installing wells.

"Our neighbors practically liv-

ed at our place while they were drilling the well," Mrs. Rose commented. Mrs. Rose said the major problem of Rose and Sons—Austin Rose Sr. and Austin Jr., and Nuje Rose—is how to handle the 11 sections they now have. They've been considering selling it.

"We can't farm it ourselves, that's certain", Mrs. Rose said.

## Swimming Pool Opens Wednesday

Hereford's municipal swimming pool will open for the season on Wednesday, June 4, according to Medford Hammon, manager for the season.

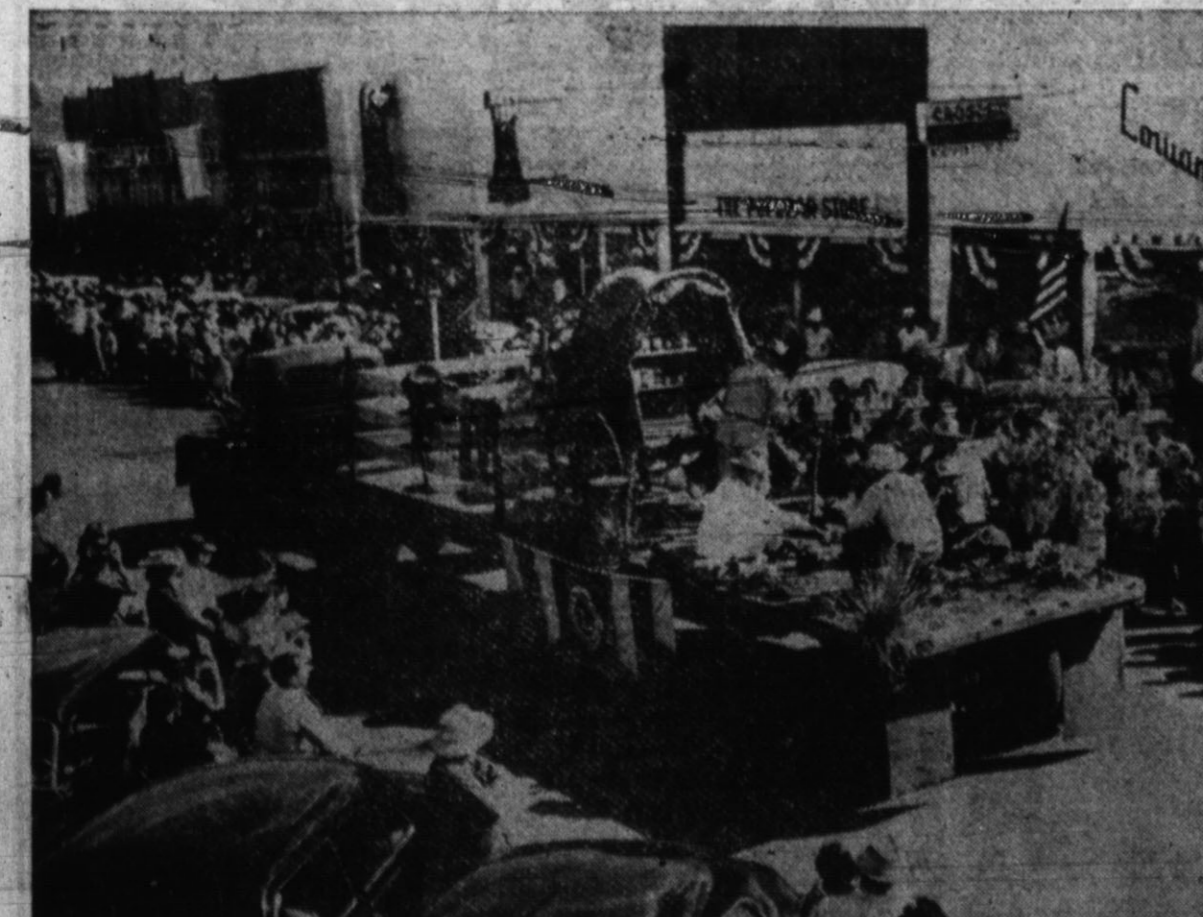

Opening of the pool was delayed a few days due to failure of the paint to dry on the pool walls and bottom. Hammon said water will be put in the pool Tuesday and will still be a little cold for the opening at 1 p.m. Wednesday.

Hours for the pool will be from 1 p.m. to 6 p.m. If a crowd warrants it, the pool-closing hour will be extended, Hammon said.

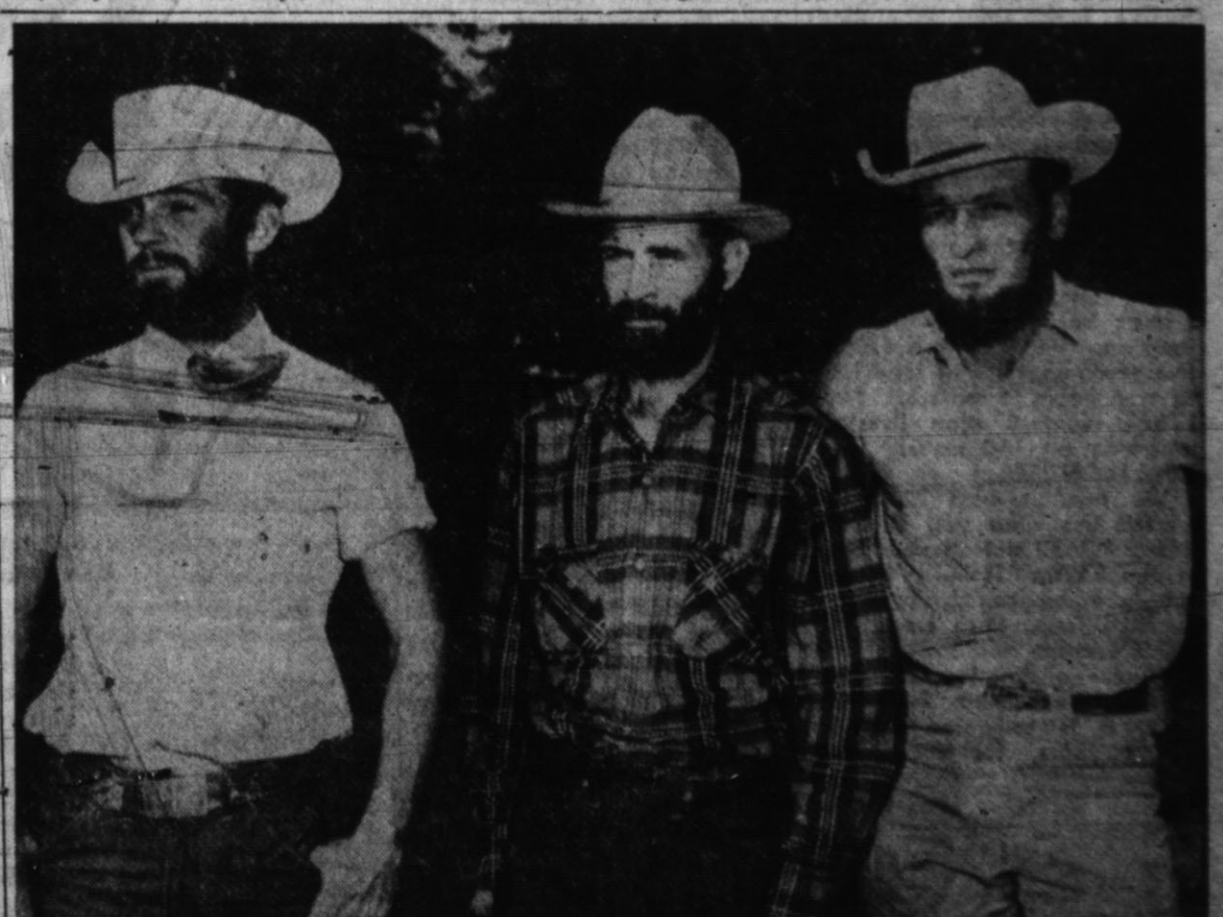

Life guard for the summer will be Forrest Bridges. Joan Southern will be cashier.

A schedule for swimming lessons will be announced later as they are to be given this summer.

Private parties can be arranged at night time by contacting Hammon.

The Glenn Nelsons have been nominated as a "Good Neighbor" family by Mr. and Mrs. L. W. Missouri. The Nelsons have lived in Hereford about three years.

bers of the Square Dance club, fiddlers' contests and rodeo events that takes place each year. I have visited in their home when both young and old were represented and all were entertained the same and enjoyed as much by one as the other. They have two boys and are very interested in them as well as other children. Although they haven't lived in Hereford and Deaf Smith county for many years but they are interested in the many things that will cause the town and county to progress and will make Hereford and county good all "me citizens in years to come."

## GRASS ROOTS

May 31, 1952  
WELCOME HOME, PIONEERS:  
I can't help but wonder about the many thoughts going through these first settlers minds as they drove through this area coming to Hereford for the Pioneer Day celebration. Most of us that have been here or near here, have seen this country change over a period of years and do not appreciate the huge face lifting job that has occurred. Fields of potatoes, onions, sugar beets and lettuce, where there used to be native grass pastures or fields of wheat or bundle feed crops. Thousands of irrigation wells pumping clear water over land heavy in crops that were never seen in this area in the grocery store shelves, much less growing here. More head of cattle on less acreage and better cattle than ever before. I have a little trouble visualizing this great change in our country because I have grown up with it, but when I think back it hasn't been so long ago that it took a four or five section spread of land here to even begin to run stock. Now I help farmers plan livestock programs on 160 acres.

NEW FRONTIERS:  
We haven't even begun to scratch this area yet. The old adage "Don't put all your eggs in one basket" is being carried out here on practically every irrigated farm. Cash crops, soil building crops and livestock are gradually eliminating the one-payday-a-year method of farming. It is estimated that in twenty years, for every four

people that set down to eat breakfast this morning, there will be a fifth plate to fill. This fifth person will not be a guest but a permanent mouth to feed. This will require more production on less acreage than ever before. There isn't any more land to break out or new areas to exploit. To feed this fifth mouth will require increased production on the land that is in use now. This is far from being impossible—in fact it is much less of a challenge than our early people took up when they first came to this area. We have the land, water, and the know-how to do this job, and if we can't do it, then we will have to step down and let someone else in that will. All of this will require a change in the method of farming we are used to here, and changes generally are a little large a pill to swallow for most people. However, if people were really as hesitant to change as all our outer appearances would have us believe them to be, very few would ever get married!!!!

"I want to keep reminding you of the VETCH deal. There is no doubt now that if this crop is in the ground early it will produce early fall grazing. This is a big thing for this area and I'm hoping all of the farms under irrigation will be sporting this fine plant this fall.

Congratulations to all responsible for the fine Pioneer Day Celebration

**Wood Association With Sam Nunnally Effective June 1**

The association of Jim Wood, former Hereford businessman, with Sam Nunnally in the Lone Star Insurance agency is announced in this issue of The Sunday Brand.

Wood, 33, was formerly associated with E. C. Eubanks before re-entering the service as a reservist in October, 1950. He was returned to inactive status as 1st Lt. on April 26, 1952.

Wood came to Texas in 1945 after serving four years in the army in the South Pacific and European Theater of Operations. While attending West Texas col-

lege he worked in the summer for the Eubanks firm. He received his BS in accounting and economics from the University of Denver after attending WT.

Mr. and Mrs. Wood have no children. Wood is a member of the Masonic lodge and of the Jaycees.

"I'm certainly glad to be back in Hereford," Wood commented.

**Given Award**

J. K. Baker, Hereford potato packer and shipper, was given the "Business Character Award" in the May 29 weekly supplement of the Packer's Red Book, industry financial publication.

The award is based on length of time in the business, financial stability and trade standing. This is the first such rating made in Hereford, Mr. Baker believes.

# June 1 'Good Neighbor' Deadline, 26 Named

ANOTHER GOOD NEIGHBOR family is the Glen Nelsons, above. Staff Photo.

MR. AND MRS. U. V. PIERCE have been nominated in the Good Neighbor contest which closes today. Staff Photo.

MR. AND MRS. BOB WILSON are another family that have been nominated as a "Good Neighbor" family. Staff Photo.

AN ESTIMATED 9000 persons lined the streets of Hereford for the big Pioneer Day parade Friday. This picture shows part of the crowd as they watch the half-hour parade move along. Staff Photo.

Nominations are still pouring in for the "Good Neighbor" family of Deaf Smith, Castro, Parmer and Oldham counties. Nomination deadline is MIDNIGHT Sunday, June 1.

Entries postmarked after that time will not be accepted.

To date, 26 individuals or families have been nominated as "Good Neighbor" families.

Winner of the contest, to be announced June 8, will be given an EXPENSE-PAID week's vacation trip for THE ENTIRE FAMILY at Drowsy Water Ranch, Granby, Colo., from June Brand.

In addition, the family will be given the loan of a 1952 Buick in which to make the trip, courtesy of Earl Hendricks Buick.

**The Robert Lemons**  
The Robert Lemon family has been nominated as a "Good Neighbor" family. They have lived about 10 miles south of Hereford for 3 1/2 years. The family was nominated by Mrs. Francis Hill.

She says of the Lemons family: "First of all they are a family, not just five people living in a house. They are good parents, with three well-behaved children.

"They are good friends. If you are ill, they are present and helping. They will help you work in any way they are needed. When cattle need to be worked you can always depend on Robert. He helps willingly. As an example of his community spirit, Robert graded the county road for two years without pay.

"They are an honest, happy, Christian family. They are fun to be around. They share your bad luck as well as the good. The measure of good neighbors is not what they are able to do but what they have willingly done. It is impossible to list all the things the Robert Lemons have done for their neighbors. The easiest way to explain them is they honestly strive to do unto others as they would have others do unto them."

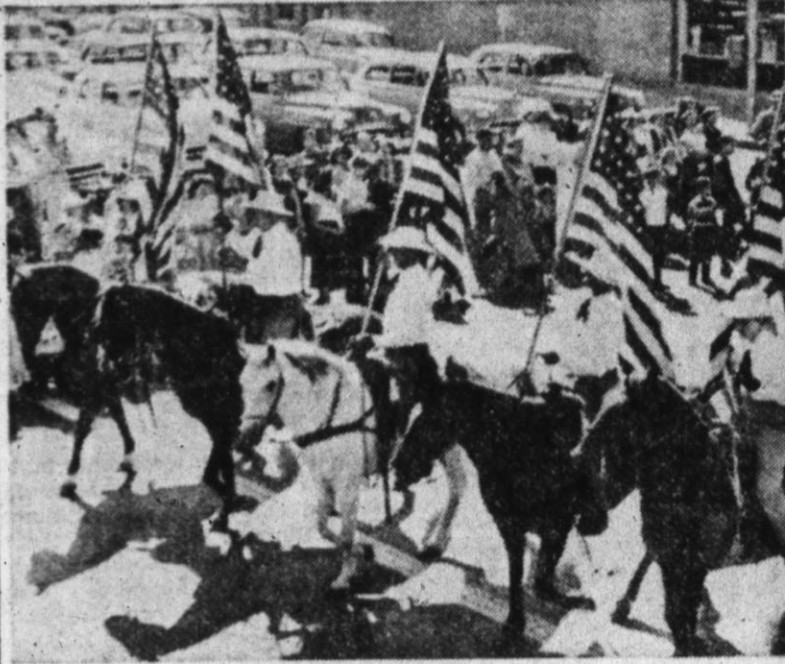

**Mr. and Mrs. Bob Wilson**

The Bob Wilsons have been nominated by two people for the "Good Neighbor" contest. The Wilsons have lived in Hereford for about 25 years. They were nominated by Mrs. Eldon Craig and Mrs. Jack Walker.

Mrs. Craig says of the Wilsons: "I wish to submit the Bob Wilson family as an outstanding "Good Neighbor" family because they are so very deserving. They have done much for our young people. They are active in church, Boy Scout and Camp Fire work. We who have had children in Mrs. Wilson's Camp Fire group know that their home and hearts were always open to the children—not only on regular meeting dates but anytime anyone needed to work on a project. At the same time she sponsored a group of Scouts. Now Marian Jo teaches crafts to young Camp Fire girls and helps with vacation Bible school. Dickie is a Scout. Bob is manager of our school bus system and is doing a good job.

"We are indebted to Mr. and Mrs. Wilson for the years they have donated their time and labor and good planning to take our Camp Fire girls to summer camp. Others have contributed time and money, too, for which we are grateful. However, we feel that the Wilson family deserves a vacation free of so much responsibility and hard work. This family works together and is one that our community might be proud of."

Mrs. Jack Walker's nomination

COLOR BEARERS

says: "They have spent years working for the young people of Hereford. They have contributed time, labor, and money to the Camp Fire project here making a place for the young folks to meet, to have good, clean amusements.

"They have spent time and patience to teach crafts and the art of being better citizens.

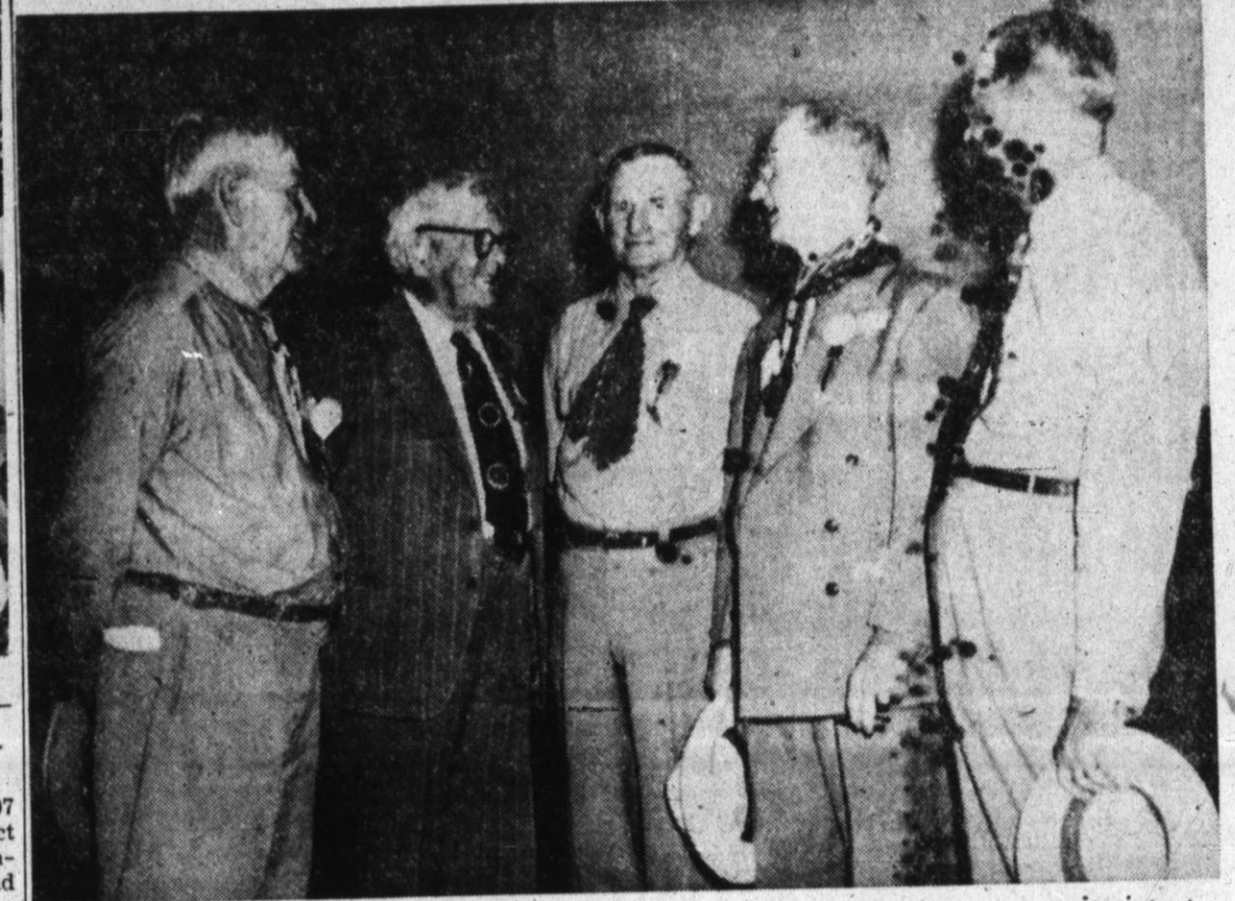

"They have proven themselves to be good neighbors in many other ways but the efforts they have made to better conditions of the young folks cannot be stressed too much.

Still another nomination for the Bob Wilsons comes from Mrs. Don Zimmerman, Mrs. Bruce

Woodell and Mrs. Urlin Streu. Their nomination reads:

"The Bob Wilson family, 307 Union Ave., Hereford, is a perfect example of a good neighbor family. Although they have had their share of establishing a home and rearing a family, they have never been too busy to lend a helping hand to those who needed it. They know how to encourage and cheer older people, yet they are especially adept at counseling and inspiring young people.

"Bob Wilson's influence has been felt in almost every phase of community life. The Lions Club has used his talents in many important tasks. Perhaps his

most ardent work has been in the field of service to youth. He has been active in the Hereford Camp Fire Council since its organization. Not only has he helped to plan for the annual camping trip to New Mexico, but he has gone along almost every year, helping with the many

tasks of truck driving and cutting wood, but never too busy to help a girl or group of girls make a willow whistle or play a game of baseball. His work with Boy Scouts and in the church have brought more chances for service to youth, as has his regular employment as director of trans-

portation for the Hereford public schools. "Mabel Wilson, too, has done more than her share in service to young people. She has served as a Camp Fire guardian almost continuously since 1945. Her work with the girls was never

limited to one weekly meeting but extended throughout the week as girls dropped in for an extra bit of help on some metal craft, leather craft, textile painting or other of the many crafts she has taught. She has been active in the training program of Camp Fire, giving many hours of time in training new leaders. She finds time for work with her church, teaching a Sunday School class, and has served as a Cub Scout den mother. She can be counted on to furnish food or services to families in times of bereavement or illness.

"In addition, the Wilsons are teaching their two children, Marian Jo and Dick, to be good neighbors. Marian Jo has attained the highest rank in Camp Fire, Social Leadership in Torch-bearer Rank. To earn this honor she gave many hours of service to other Camp Fire groups and to the community. Dick gives freely of his musical talent in programs for various groups in town.

"We know, of course, that the judges in this contest have a most difficult task, for Hereford is just full of good neighbors. We do feel, though, that there is no family more deserving than the Bob Wilsons."

#### Mr. and Mrs. Emmett Day

Mr. and Mrs. Emmett Day of Friona have been nominated in the "Good Neighbor" contest by Mrs. Clifford Williams of Phoenix, Ariz. The Days have lived in Friona for 23 years.

Mrs. Williams says this about the family:

"We left New York state with a 35 foot trailer going to Arizona for Mrs. Williams' health. She has suffered with arthritis for 16 years. Two miles east of Friona, our house trailer caught fire. We lost everything except the clothes we had on and our car. Being 2,000 miles from home and among total strangers it was a hard thing to take. The Days came to us offering a home for my family—Rod 16, Gail 13, Stan 9, my husband and myself. They and their friends provided clothes for us so we could continue our trip. Both of them worked, yet they left the house open for us to use like our own. Nothing was too good to use. We stayed with them two weeks. They seemed like our own people. They were always making ice cream for the children and making "goodies" for them. They are a family in a million. We couldn't praise them high enough."

#### The Nolie Ellistons

The Nolie Ellistons have lived in the Wyche community for over 20 years and they have been nominated by Mrs. Curtis Tra-week as a "Good Neighbor" family.

The nomination says: "Ordinarily we think of good neighbors as being generous neighbors, but the neighborliness of the Ellistons goes much further than mere generosity. Their make-up included a genuine love of people, not only to the extent of helping when asked but rather anticipating those little needs of we humans which are not necessarily vital but which do go so far to make this a much grander place in which to live. I think the Ellistons must live by a creed of generosity, kindness and thoughtfulness. Quiet, unassuming, they are steady as a rock; cheerful, civic-minded, fair and just, hating only smallness of mind, and wrong. That is my nomination for the Noland Ellistons."

#### Mr. and Mrs. U. V. Poerce

The U. V. Poerce family was nominated in the "Good Neighbor" contest by Mrs. J. H. Hinds. The Poerces have lived in Hereford for about 30 years.

Mrs. Hinds has this to say about the family: "The keen interest and loving help they give to others. Mrs. Poerce took a young mother with her new baby into her home and cared for them and the first child, two years old, until she was able to care for herself and family. The husband had to continue working—finance was insufficient to hire help, they lived in a small unsafe house across the track. Mr. and Mrs. Poerce moved her from the hospital to their home.

"Mrs. Poerce helped to care for Mrs. O. Wilder while she was ill so long. She would go for weeks each day and care for her as she would her own mother. Mr. and Mrs. Poerce took an older lady into their home for a week and the whole family helped make her comfortable while the lady's daughter attended the funeral of a loved one.

"The Poerces take food to the sick and always go out of their way to give someone a ride to church. A Pioneer neighbor said, "I lived by them when they were kids and they were truly a good neighbor then and now."

#### Mr. and Mrs. R. E. (Bud) Curtisinger

Mr. and Mrs. Bud Curtisinger, who live on the Boys Ranch farm southeast of Dimmitt, have been nominated by Mrs. Wayne Lee as a "Good Neighbor" family. They have lived in this area for 35 years.

Mrs. Lee nominated them because: "First, they were so good to us before our twins were born. I was in bed about three months and in the hospital part of this time. The Curtisingers took our 20-month old son and cared for him as they do their own. Mrs. Curtisinger did all our washing and ironing and prepared most of our meals. Last fall our baby was in the hospital several times and they were there helping in every way possible.

"Mr. Curtisinger is always ready to help his neighbors on the farm if they need help. He is willing to loan his farm equipment if a neighbor is in need of it.

"They have helped several families financially which I know of and others too, I am sure. Last summer she helped several of her neighbors with canning, leaving her own work that needed to be done.

"All these things they do besides caring for the four boys at the farm and their own two children. I think it takes a good neighbor with a Christian spirit to help others as they do. These are only a few of the good deeds they have done and I am sure that people, who know them, will tell you there is not a finer or more deserving family and good neighbor."

#### Mr. and Mrs. Bill Warren

Mr. and Mrs. Bill Warren, who have lived in this area for about nine years have been nominated by Mr. and Mrs. Oscar Altman as "Good Neighbors".

The Altmans say of the Warrens: "I nominate Mr. and Mrs. Bill Warren as not only a good neighbor but an outstanding good neighbor. In this limited space I can't begin to tell all the good things they have done for their neighbors and friends which are many. But these two things I do want to mention when our nephew's body was sent from Okinawa for reburial. Mr. Warren (Bill) brought his car for us to use, making it possible to attend the funeral. And when Mr. Altman was in bed with something wrong with his leg Mrs. Warren (Chick) came through all kinds of weather to give shots every three hours and to keep hot applications on his leg. She would not accept pay. I operated the Whiteface Sandwich shop at the time—opening at 7 and closing at 7 and Mrs. Warren brought food to Mr. Altman every day at noon. He says

that had it not been for Mrs. Warren he would now be going around on one leg. For these and many other good deeds, from the bottom of my heart, I believe Mr. and Mrs. Bill Warren are special candidates for the "Good Neighbor"

#### Mrs. Reber Howton

A nomination for "Granny Howton" as the "Good Neighbor" was sent in by Mr. and Mrs. J. B. Brown and Paula Jay.

The nomination for "Granny Howton", had this to say:

"I'd like to present the name of Mrs. Reber Anna Howton, affectionately called "Granny Howton", as a nominee for the good neighbor contest.

"I'm a newcomer to Hereford, having known Granny Howton less than two years; she has come to mean a lot to me and my family. Any time when I need help in any way, be it a baby sitting problem for my daughter; a household problem; advice or a word of cheer she is always there just at the right time.

"Granny Howton is very quiet and unassuming, is limited both physically and financially, yet she gives most generously of what she has, and many times she goes the second-mile. Her heart and interest reaches out to our neighborhood, and to neighbors across the sea. I've known of many instances where she has given liberally of her funds, and then from her clothes closet she took clothing and other articles to be sent to neighbors overseas, and to those in need on the home front.

"She is a great lover of nature and has beautiful flowers to show for it. There is seldom a time when she doesn't have some flowers to a neighbor, friend or a sick person. Hundreds of flowers have gone from her garden to brighten dark corners, to add happiness for weddings, and for the hospitals. She also gives most liberally of plants from her garden, to the stranger, who is starting a new home and garden; and to newly weds, has gone countless plants and seeds. Strangers are welcomed to the neighborhood by Granny Howton with flowers, and also flowers of KINDNESS.

"A small flock of chickens is another interest of hers, and I would not ever try to say how many of the nice fresh eggs she has shared with the neighbors, as well as fryers or roast hens for the sick or less fortunate.

"Her good teachings and example are going on and on in her daughter, Mrs. Art Manjeot, in whose home Granny Howton lives, seldom does the Manjeot car leave the home without it has in it a tasty bit of food, bouquets, a bit of needlework or a written word of cheer or love for someone.

To the neighborhood children Granny Howton is truly a good Granny. Sharing cookies, flowers, making doll clothes, playing house, helping and guiding them in many ways.

"On and on I could go, but surely you too agree that in the life of this friend and good neighbor the true traits of neighborliness are exemplified. Really I, as a neighbor could never put in words what I'm sure myself and others feel for Granny Howton.

"Now don't ever think for one minute she wouldn't enjoy such a vacation as you offer, 'cause she is a good traveler, and is a lover of horses, am told that in her girlhood, she was a fine horse-woman, and that she broke many of her father's horses for riding. She is almost as good a fisher as her son-in-law Art, which is saying a lot of fishin'.

"When other neighbors learned of my nomination of Granny Howton, they wished to add their endorsement, their names follow:

"Mr. and Mrs. A. N. McRight and Terry, Mr. and Mrs. J. E. Johnson and Penny, Mrs. Seale Stevens and Bill, Mrs. Jennie Thompson, Miss Jessie Morris and Mrs. A. O. Thompson."

By JIMMIE GILLENTRIF

When, oh when, do the politicians start paying attention to the voters? I hate to sound like an alarmist but conditions, after all, are becoming a wee bit alarming. With the Taft Republicans almost sure to represent Texas at the Chicago convention, the political picture is absolutely disgusting. Refusal to accept the Deaf Smith delegation was uncalled for machine politics. Texas Republicans would vote five to two for Eisenhower—yet, it looks as if Texas will support Taft at the Chicago convention. This is not cricket. People want to vote for the "man" and not for the party. I've said it before: If the Republicans are too stupid to nominate Eisenhower, they are too stupid to handle our government. It would be far, far worse than the present situation—and that's plenty bad.

Machine politics and minority contention. These are the very things people are fed with up to the gills and running over. All of which means that the time has come to change our out-moded electoral system. Maybe it was OK when people rode in buggies and wagons and it took a week to send a letter across the country. Today the answer seems to be a preferential primary. That's the only way the government ever can possibly return to the people.

Did you ever wear one of those real cowboy shirts? Pick Harman sold me one for Pioneer Day—and they definitely weren't designed to accommodate a bay window. It fit snug at the top but flared out around the waist like a ballet skirt. I can't understand this. All of the old cowboys I know sure do have bay windows. Bob Higgins and C. R. Smith included. Beryl Elliston could wear one in good shape.

The Democrats are also split, and it's a lot more of the same.

but he is the drug store variety cowboy and don't count.

The good neighbor contest entry date closed June 1. We are mighty proud of the entries—and I feel sorry for the judges. They have a hard job. However, I am sure they will do their very best. We are already thinking about putting on the contest again in 1953. They can't all win; of course, and folks have put in a lot of time making the nominations. It is a real honor to have even been nominated and I sure would like to go with the winner. It is going to be a wonderful trip. They tell me you even get free cokes at the Drowsy Water Ranch. Cecil and Mrs. Malone are excited, too. They are waiting with their mouths open to find out who the Good Neighbor will be. I can't think of a finer tribute than to be nominated in the contest—much less be the winner. When your neighbors think that much of you, it is a dead cinch that your life has been well spent.

The parade Friday was unquestionably the best and probably the longest ever staged here. Nothing in it to compare with the Pitman Grain float in 1951, however. How about running it back in the parade in 1953? Understand Art Manjeot is vice president in charge of parades around there, and I am sure he has it still intact.

Also conspicuous by its absence was the Hereford Band. What's the deal? Were they not invited,

or did they just plain not care to cooperate? Several people telephoned in about this, and one or two of them were pretty mad. One lady said she was a taxpayer and the Hereford Band might not be the best in the world, but it was good enough to be in our own parades. . . and she thought it was every bit as good as the Tucumcari High School band. I told her that maybe school was out and the kids were scattered around over the country and couldn't be gathered up for the parade, but she didn't like it much. Anyway I feel sure that they were invited. Besides, I am also a taxpayer and I enjoy seeing the Hereford Band march in parades, but I can't be responsible for them. Why not call Mr. Purris Williams, or Mr. Geo. Graffam, or Mr. Robt. Veigle, or someone who knows the answers? If they were not invited I am sure it was an oversight.

Something else the lady said was that the school owns a lot of the instruments. Is this correct? Things have changed a lot in recent years, but I always figured the kids had to buy their own instruments. Uniforms are also school property, she said. Anyway, I know it isn't a question of ability. We have a really outstanding band. They played at the Amarillo Fair last year and in the 4-H parade this spring—and I am sure they would have been in the parade Friday if there had not been a good reason.

Hereford needs a public water

fountain with a big sign: "Water from the 'Town Without a Toothache.'" Fountain operators were screaming Saturday morning about having to "water so many kids". They say the kids are most times unreasonable and demand paper cups and ice. The cups cost near one cent each, and the glasses have to be washed under city health ordinance regulations. They feel that the burden is pretty heavy in view of the present day labor costs. Maybe a public fountain would solve this problem and at the same time furnish a lot of advertising for the community. Anyway, it's worth considering.

The rodeo is super. It is big this year and will probably be bigger next year. Congratulations to the Riders Club as sponsors. They stuck their necks a long, long way out on their guarantee in an effort to bring in one of the best rodeos. I sincerely hope they make some money. The big performance is set for Sunday afternoon.

Pioneer Days for 1952 are over and most everyone is happy. The weather was exceptional. The crowds were overly large. Coy Phillips is the only man I know who would do it, but he counted the horses in the Pioneer Day parade and reports a total of 355. I never saw so many horses in my life. As someone aptly remarked after the parade: "It looks like Pioneer Day, it feels like Pioneer Day—and now it smells like Pioneer Day."

### Village Youth Shop Wins In Window Contest

A "living window"—displayed by the Village Youth shop—won first place in the window decoration contest judging Friday morning.

There were a total of eight windows viewed by the judges in the competition. Mrs. Harry McCauley, owner of the shop, was awarded the traveling trophy to keep until next Pioneer Day.

The winning window showed Judy Kniel and Cynthia Seed dressed in Pioneer Day dresses amid a display of old dolls from the collection of Mrs. Jimmy Witherspoon.

Other window entrants and the theme were:

Rutherford's — Abe Martin's miniature circus; Streu's—side saddle, collars, etc; Witherspoon Electric—old-time pictures; Penney's—old cloth, books and quilts; Little Fashion Shop—dresses, dolls, etc; Plains Insurance—pictures of old timers and old scenes; and Hereford Variety—small covered wagon, scarfs, hats.

Judges were Lowell Sharp and Cecil Massey.

Mutinuous Koje Reds Tangle Truce Talks

THE key issue in the Korean truce negotiations—the question of what to do about prisoners of war—has become a first rate international incident in itself.

The United Nations Command stands firmly opposed to forcible repatriation of prisoners. The Allies say that of some 169,000 military and civilian internees in U.N. camps, nearly 100,000 have said they would rather die than return to North Korea or Red China.

The top Allied truce delegate, Maj. Gen. William K. Harrison, Jr., says the POW riots on Koje Island were plotted "to divert world attention" from the fact that thousands of Red prisoners prefer death to repatriation.

Truce Talks Resumed

When armistice negotiations resumed at Panmunjom after a three-day recess, they slipped right back into their familiar pattern. North Korean Gen. Nam Il, senior Communist delegate, warned that Red troops "decidedly cannot sit by while seeing their captured fellow combatants being slaughtered by your side at will."

A U.N. Command spokesman said Nam Il's statement sounded like a threat, but Maj. Gen. Harrison said it was more "Red propaganda."

On Koje, meanwhile, Red prisoners were busy forging deadly weapons in their barbed wire enclosures but Brig. Gen. Haydon L. Boatner claimed the time had passed when they could capture the island.

The job on Koje was to split the Communist prisoners into smaller compounds in order to control them. The Reds behind barbed wire gave signs this wasn't going to be easy. Gen. Boatner was faced with the threat of Communist resistance, which would mean bloodshed on Koje and retaliation on U.N. prisoners held by the Reds.

Reds in Control

United Nations soldiers were in control outside the island's 17 POW compounds, but inside, die-hard Communists still ruled some 80,000 North Korean and Chinese captives.

American and South Korean soldiers who have been watching Koje's surly, rebellious prisoners for months, were unanimous in their prediction this week that Communist leaders were forging a crudely-equipped army to beat back any attempt by U. N. forces to impose control.

The Reds had some guns seized from stocks. Piles of rifles were stacked ready for use and knives and spears were being hammered out.

Foreign Aid

Political Battle

The Administration's foreign aid measure set off one of the bitterest battles of this election year Congress when it came up before the Senate.

The issue was: How many millions or even billions were to be chipped from the multi-billion dollar foreign aid program? Concerned were all U. S. taxpayers, most presidential candidates, and the nations allied with the United States against the spread of Communism.

The groundwork for a Republican National Convention battle over foreign policy was laid when Sen. Robert A. Taft and his backers lined up against supporters of Gen. Dwight D. Eisenhower in the fight over how much was to be trimmed from the measure.

Different Views

Taft contended European assistance must be pared down rapidly to six billion dollars.

Eisenhower has stated that any cut generally greater than a billion dollars would endanger the proposed military build-up and U. S. security.

While the two candidates were only 800 million dollars or so apart on their figures, they differ widely on their approach to the European Mutual Security project, and it was there that backers of both found it difficult to agree on over-all principles.

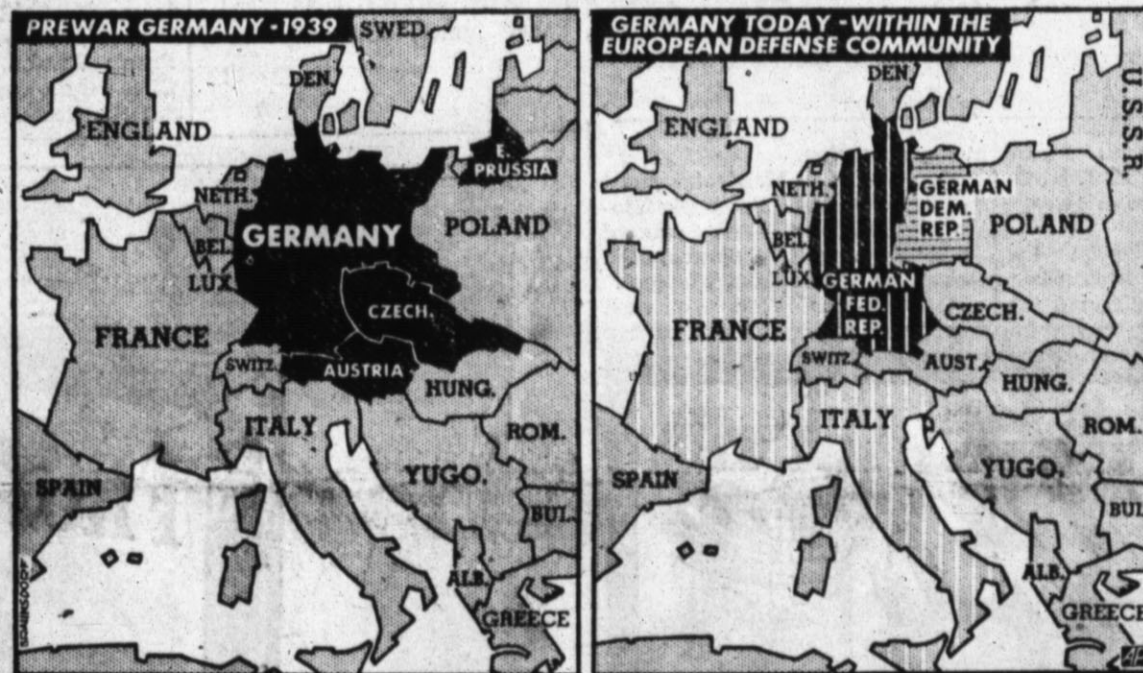

Committees in both the Senate and House slashed a billion from the President's \$7,900,000,000 request before it ever hit the lower chamber floor. A combination of House Republicans and Southern Democrats whacked out an additional \$737,400,000 before sending the bill over to the other side of the Capitol. Sen. Tom Connally (D-Tex.) led the Administration forces plumping for passage of a foreign aid bill amounting to \$6,900,000,000 declaring that "a policy of timidity is a prelude to disaster." Eleven Senate Republicans, led by Idaho's Welker, sought to chop a further billion dollars from the Senate bill. The Senate beat down the move to cut the foreign aid appropriation an additional billion dollars.

EUROPE: Thunder in the East

AMERICAN TROOPS PARADE IN FRANKFURT Moscow opened the grand assault.

THE Russian bear was up on its hind legs this week, baring its jaws in a generally westerly direction. Its master in the Kremlin didn't like what was going on in Bonn and Paris.

The ink was hardly dry on the peace contract with West Germany and the European Defense treaty when Moscow opened the grand assault.

The Soviet press sounded off first, accusing the West German government of trying to "transform the Germans into cannon fodder for American imperialists."

Next, the Russians snapped off telephone service between East and West Berlin, stopped service on eight telephone and telegraph lines between Berlin and West Germany and again stopped Allied jeep patrols from cruising the Autobahn which links the city with the West.

The Allied aim was declared to be the inclusion of West Germany "in the community of free nations as an equal partner" by ending seven years of occupation.

The European Defense Community treaty signed Tuesday in Paris fused France, West Germany, Italy, Belgium, The Netherlands and Luxembourg into a federation which some ambitious planners hope is the first step in a plan to unify all Europe, economically, militarily and politically.

Eisenhower Return Quickens GOP Race

THE final head-on clash of Sen. Robert A. Taft and Gen. Dwight D. Eisenhower in the primary race for the GOP presidential nomination comes up Tuesday in South Dakota.

It will be a winner-take-all affair and both the Senator and backers of the general are working hard for victory.

Taft lashed out at critics who say he couldn't be elected President even if he gets the Republican nomination.

Quote

Sen. Frank Carlson (R-Kan.): "I am not opposed to some horseplay in our colleges and universities, but the recent party raids carried on by students in many of the outstanding universities of the nation are not wholesome for the morale of our boys fighting in Korea. I have received many letters expressing the view that these dormitory raiders should get a chance to do some raiding in Korea."

Italy

Democracy Wins Test

Ten million Italians have chosen between Communism, neo-Fascism and Western-style democracy in 2,400 bitterly-fought municipal elections.

The new Fascist movement, newly mated with monarchists, proved the explosive surprise in returns from Italy's provinces and towns, but pro-American Christian Democrats retained control of Rome, home of Roman Catholicism and site of a violent Communist campaign.

The new Fascist movement goes under the name of the Italian Social Movement (MSI) and venerates the memory of Mussolini. Its adherents won Salerno, where American soldiers fought a vicious World War II invasion battle to wipe out Fascism in Italy, as well as Naples, the great port which is Allied headquarters for Southern Europe, and Bari, where U. S. arms aid pours into Italy.

The MSI surged into local power in many other places in poverty-stricken, over-populated Southern Italy and challenged the Communists for the position of second biggest party in the country.

Against the Communist and pro-Communist bloc, Premier Alcide de Gasperi's Christian Democratic bloc of the Center did a little better, winning a number of small communities still did well. They won in Syracuse, Enna and Trapani in Sicily and retained their strongholds of Ferrara and Aosta near the French frontier in the north.

Even though they had lost ground, the Christian Democrats and their local allies still lead the field.

The contest assumes added significance since it will be the first primary to take place with Eisenhower in this country.

Taft Claims Labor Support

The Ohian said flatly he would be a good deal stronger with both labor and farm groups than any other Republican candidate, including Gen. Eisenhower.

Taft travelled through South Dakota in an all-out bid for the 14 delegates.

On the Democratic side, Sen. Estes Kefauver campaigned this week in South Dakota for the eight Democratic delegates. His opposition comes from a slate of delegates who have promised a first ballot vote to Sen. Hubert Humphrey of Minnesota.

In Florida, meanwhile, voters decided between Kefauver and Sen. Richard B. Russell as the state's choice at the Democratic National Convention in Chicago.

In the Florida primary the 24 presidential nominating votes were split between Russell and Kefauver, but the Georgia Senator won the lion's share.

Russell came out ahead by 82,800 votes in the popularity contest between the two men on May 6 but that was unofficial. This week's primary was what counted.

In Connecticut, Eisenhower won the state's full slate of 22 delegates to the GOP convention, and in Texas, Republicans split into two conventions and nominated rival slates of 38 delegates to contest for recognition before the Chicago nominating convention.

GOP Split Predicted

Elsewhere in the Democratic camp, two Senators of widely differing views said they thought the Taft-Eisenhower presidential nomination battle may split the Republican party and help the Democrats in November.

Sen. Walter George (D-Ga.) said he sees signs of increasing bitterness between the opposing Eisenhower and Taft forces which could result in a stay-at-home movement on the part of some Republicans in November. Sen. James E. Murray (D-Mont.) said he also thinks the Republicans are heading for a party split.

Sidelights

In Beaver, Pa., two men tracked down a bloodhound lost two weeks ago while trailing an escapee from the local cooler. The dog was hungry, but otherwise in good condition.

In London, a group of British wives asked parliament to grant housewives a half share of their husbands' paychecks.

In New York, a team of British experts wound up seven weeks of studying the American jam, pickle and kindred industries with the announcement that American jam lacks the "rich flavor" of the British product.

## Wholesale Meat Distributors To File With OPS

The Office of Price Stabilization has notified wholesale meat distributors that reports which they have been required to file with OPS regional offices are to be filed with district offices after May 31, 1952.

Harry Van Horn, chief of the Food Section of the district office said, however, sellers who have already filed with the regional offices are not required to re-file with the district offices. The Lubbock district office, which serves 69 West Texas counties, is at 1620 Nineteenth Street.

The change is being made, OPS

said, because the files of sellers affected by the wholesale meat regulations have been transferred from the regional to the district office. It has been determined that the required filings may be more effectively processed by district offices which can more readily obtain information regarding the reporting seller's operations.

Sellers affected by the change are hotel supply houses, combination distributors, peddler-truck sellers, wholesalers, intermediate distributors, also slaughterers and packer branch houses which handle lamb, yearling and mutton products.

to it to make our home which stood for a good many years on the spot now occupied by Cash Way Grocery store.

About this time other stores began to grow. Charles Green had a butcher shop in a tent. He sold to the railroad employes and the local people when they needed meat.

Smith and Walker had a dry goods and grocery store with a wagon yard in the back. Stringfellow and Humes handled hardware and implements. Geo. A. Stambaugh and old J. A. Lipscomb built a wagon yard and grain store where the Pitman Elevator now stands.

Up to now we had handled dry goods and groceries but began selling windmills, hardware, buggies, wagons, and barbed wire, and about everything that we could think of that people might buy.

The First Christian church had been built and I'll never forget how the first preacher was paid. Everyone, whether they belonged or went to church or not made up a purse, with each giving a dollar. This would run from \$30.00 to \$60.00 a month—for everybody donated, even the saloon keeper.

**MORE . . . MORE . . .**  
We were still located in our first store when the "big" town fire occurred in the early 1900's.

Everything was carried from our store and we managed to save the building because of a vacant lot between us and the burning buildings and by placing wet wool blankets all along that wall and keeping it wet by the aid of the bucket brigade. All we lost was what was picked up while it was outside.

A few years later we were nearly burned out again when the Humphrey hotel across the street burned.

In those days there were no Chamber of Commerce but the business men took care of a lot of things on their own. We leased 20 sections at \$25.00 per section in order that the big ranchers could graze their cattle while waiting for cars to ship them.

For four or five years this was the biggest shipping point in the state of Texas. As the town grew the shipping point was moved to Bovina. But at the time there would often be from 15,000 to 20,000 head waiting for shipment at once.

There would be eight to ten herds with a thousand to two thousand head to a herd. We did not make a charge for the grazing land but the merchants profited from the trade the ranchers and cowboys brought in.

Sometimes too, we hauled dirt and filled in the creek to make crossings to enable the cattle to cross to the shipping pens. There was only one good crossing anywhere near the pens as the rest of the creek was too deep.

The shippers were not bothered with fences in those days either, as there was only one fence between Hereford and the New Mexico line and that belonged to the Syndicates.

We hauled caliche to surface the main street to keep from bogging down too.

Business was good when the Rock Island railroad was being built from Kansas to El Paso. Every thing for it that came in south of the Canadian river was freighted out from Hereford to Tucumcari and every thing north of the river came from Dalhart.

Hauling from here to Tucumcari paid a dollar per hundred. The people of the town got the job. And the merchants sold wagons, feed, dynamite and other supplies.

Another thing I remember about the early day railroads has to do with John R. Mosley who then worked for the Pecos

**Q. How should the razor be held and used in shaving superfluous hair off the legs?**

**A.** Use a safety razor with a clean, sharp blade, and use long, sweeping strokes, never short, choppy ones. With hand behind knee, move the razor, taking extra care over bone areas, like the shin bone and ankle.

**Q. Is there any way I can make my face appear more nearly oval?**

**A.** You can use a darker shade of foundation base than on the rest of your face to shadow the portion from ear to chin.

**Q. How can I dispel body odor?**

**A.** Salt baths are generally effective. Into a tub of hot water throw several handfuls of salt. Lie in the tub at least 15 minutes. Wash body with a rough cloth and rub dry briskly.

**Q. What is a good exercise for my middle section and thighs?**

**A.** Lie on back, arms at sides. Pull knees back to chest. Extend right leg far upward with heel leading until right hip is raised and slightly off the floor. Keep both legs in constant motion until you feel strained. Then rest and repeat.

**Q. How can I minimize the effect of a slightly receding chin?**

**A.** Try blending a spot of rouge on your chin in a crescent shape, and use a lighter shade of powder on your chin than on the rest of your face.

**Q. How can I make my hair sweeter-smelling than it is?**

**A.** One good idea is to add a few drops of cologne to your last rinse water, after the shampoo. This will keep your hair sweet longer.

**Q. What lipstick application may be made to a mouth that is too wide?**

**A.** Concentrate the lipstick toward the center of the mouth, accentuating the center with more

color, and draw outer lightly at the corners. Delineating the corners of the mouth with powder will also help make them less visible, thereby decreasing the apparent width.

**Q. What treatment can I give to my hair which is very oily?**

**A.** Wash this type of hair thoroughly and often. Have a good shampoo. In an emergency, wet a bit of silk with cologne, and wipe the hair strands by strand to remove excess oil. Or, force a pad of cotton between your brush bristles, and then brush hard.

**Q. The skin on my neck seems to be darker than that on the rest of my face. What can I do about this?**

**A.** You can brighten this skin with some buttermilk massages.

Valley and Northwestern (later bought by the Santa Fe and in the early day called "Feavine" in fun). He walked and plowed a fireguard from Hereford to Roswell in a little over thirty days, plowing down on one side and on the return trip plowed the other side. He usually did work of grading for the company using a team scraper for the job.

With all this, we had time to have fun too, and as there were no doctors nearer than Amarillo, people could not afford to be sick.

One of the sports we enjoyed was boxing. In the warehouse annex to the store we often had boxing matches with as many as twenty men as spectators.

One Christmas I remember there was a dance at Mr. Cray's restaurant with two girls to dance with 15 to 20 men. There were four chairs and they were used by the orchestra. We sat on the floor when not dancing and of course the girls were too busy to need a chair as they danced every "set."

Singing was the most popular past time and that is why we all developed such big voices—everybody sang.

Often the young men would ask the married women to go to a nearby house to help sing and leave the husband at home to care for the children. Maybe that was rather modern but no one thought anything about it. There was just a shortage of women.

I'll never forget the time when Mr. J. A. Fox and Mr. Galbraith were in Hereford prospecting and Mr. Galbraith's daughter was with him. When we closed that night I asked her to go to a dance with me which was nearby. She said that she had not been invited and I said, "Yes, you have, I am asking you now."

She was not used to that sort of thing but she went and had a big time and was glad that she did.

I can not remember her first name now but there was one later by the name of Pearl that I did. That was Pearl Hensley of Canyon whom I married in 1922 and is my wife today.

One method used by the men in the early day to get a girl for a date, was to check a list of the girl's names and then take them to a dance or some event. The first ones got the girls and the others had to go alone. Besides dances and "sings" there were box and pie suppers to attend.

It was not until 1937 that we sold the store which we had owned and operated for forty years, to end our store-keeping career. The J. C. Penney Co. is located in the building in which we were located at the time we sold.

May 30, 1952

DEAR DIARY:

Yipee! By the time this is printed, most of the Pioneer Day celebration will be over—but, with all the preparations that have been made, it appears that the affair will go over bigger and better than ever.

To the Pioneers, felicitations—and many more years of good living—and to those who have devoted so much time and thought and planning for this celebration—we at Streu's extend our heartiest thanks and appreciation.

While we have been in Hereford only twenty-eight years, we feel that we have played a small part in the development of the community and the surrounding trade territory—by keeping on hand at all times a complete stock of hardware—good quality merchandise at reasonable prices. We have always dealt honestly with every customer—selling everyone at the same price.

After reading Thursday's issue of this so-called newspaper, I had thought to institute suit against both the publisher and the guy who writes the golfing stories—until I happened to think that 28 years plus the years I lived prior to that time might just constitute enough to warrant the title "Old Streu". Nevertheless, it kinda hurts to work as hard as I do at appearing young—only to have someone guess that I'm actually getting old. Guess the only thing

for me to do now is grow older gracefully.

STREU

P. S. Gosh, almost forgot to mention that we still have some hardware to sell—just in case anyone might need some.

## Home Demonstration Leaders Are Important Spoke In HD Wheel

**COLLEGE STATION**—The voluntary local leader is an important spoke in the wheel of home demonstration work in Texas. Maurine Hearn, state home demonstration leader with the Texas Agricultural Extension Service, points out that leadership among rural women is no longer limited and the training program developed during the last five years affords a great opportunity for this leadership to function.

Miss Hearn states that 79,376 trained leaders in 1951 assisted county home demonstration agents in carrying home economics information to both rural and urban women and girls. This is an increase of 23 per cent over the number trained in 1950. These leaders held 18,969 meetings with an attendance of 456,299 which is an increase of 76 per cent over the attendance the year before. In addition, they helped 185,533 individuals.

A notable result of this program, Miss Hearn says, was the increase of club membership and interest by young homemakers in home demonstration work.

Leadership training has enabled the Extension Service to conduct special programs. Miss Hearn gives as an example the program on tailoring of women's suits and children's coats. By the end of 1951, the fourth year for this program, 81 counties had received help. Reports show that during the past year 16 agents and 155 leaders were trained. These in turn taught the principles of tailoring to 357 other women. A total of 529 suits and coats were made at a cost of \$11,046.2. These were valued at \$29,384.14, a saving of more than \$18,000.

The local leaders who taught tailoring in Deaf Smith county are: Mrs. J. B. Caraway of the Dawn club; Mrs. Ed Cox of the West Hereford club; Mrs. Frank Miller and Mrs. S. S. Williams cooperated in teaching the South Hereford club. Mrs. R. L. Wilson, Clothing Demonstrator of the Westway club taught her fellow-club members and neighbors the tailoring course at the Westway Community building. The Ford club had the opportunity of getting the clothing in-

struction from Mrs. E. E. Bishop who came into Hereford and took the instruction in a class taught by Argen Draper, County Home Demonstration Agent.

Mrs. C. P. Norton was a pupil of Mrs. J. B. Caraway and she then taught one of her neighbors how to tailor wool garments.

A total of 37 garments have been completed in Deaf Smith county.

The teaching of work simplification in homes was expanded by the leadership training program. More than 33,143 homemakers and 4-H girls used simpler and easier ways for improving such jobs as setting the table, house cleaning, making beds, washing dishes, preparing, serving and conserving food, sewing, ironing, laundering and keeping the yard.

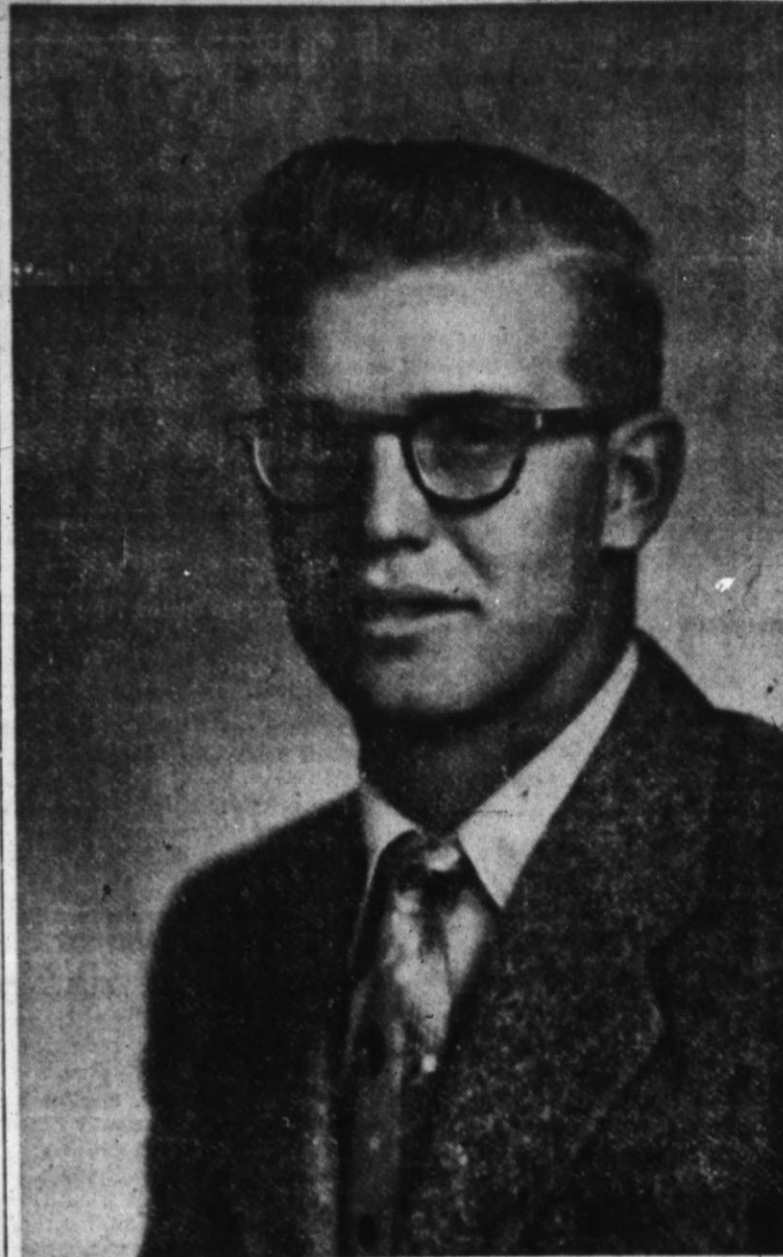

A new program for training leaders in creative arts was begun last year. Regional workshops were held at Texas State College for Women and Texas Technological College with an attendance of 57 women. The leaders were given training in creative designing of clothing, interior home improvement and gifts.

Mrs. V. E. Dodson, Rt. 1, Hereford, was chosen by the Deaf Smith County H. D. Clubs Council to attend the Workshop at Texas Tech during the week of July 25. She will be trained in Teaching the Creation of Simple Designs. She will teach leaders and they in turn will teach the club members.

Miss Hearn is very complimentary of the work done by local leaders and looks forward to greater accomplishments in 1952. She feels that the trained voluntary leader is invaluable in successful Extension teaching and expansion of home demonstration work.

This information is not news to the people of Deaf Smith county as the Leadership Training has been carried out in this county since 1947. Trained club leaders have taught club members, neighbors and 4-H girls a variety of subjects in that four and a half years time.

Work Simplification and Clothing have been very popular with the club members; nearly all

leaders trained say they learn more about the subject than anyone.

This month some of the 4H girls are giving foods demonstrations to their clubs. Martha Heard gave a Cup Cake demonstration to the Happy Home 4H

club on May 22; Betty Lou McGaughey gave a Cup Cake demonstration to the County Wide 4H club on May 24 at the REA demonstration kitchen. They plan to give a demonstration to the clubs in June on Cake Frostings.

LET'S COOK SOMETHING.

## Old-Time Favorite Recipe For Strawberry Preserves

Mrs. J. B. Hammer who came to Hereford in 1906, still uses the same recipe she used for making strawberry preserves back in Arkansas. And she still has preference for those Arkansas strawberries.

The Hammers came to Hereford in 1906, but after a couple of years they decided to file on New Mexico land. Their claim was 16 miles west of Clovis where they lived for two years. They returned to Arkansas, but in 1914 the lure of Texas brought them back to Hereford to stay.

Mrs. Hammer likes to think about those early days in Hereford and she remembers that Mrs. G. A. F. Parker and Mrs. Parker's mother, who lived with them at that time, were her first callers. She recalls too a wonderful neighbor, the late Mrs. D. R. Gass.

When they arrived they went to the old Richey hotel which was then operated by Mr. and Mrs. J. E. Gyles. They had no vacant rooms but Mr. Gyles offered to find a room for them and they stayed in the George Stambaugh home at night and got their meals at the hotel until they could find a house.

"Hereford never had a harder rain than that night, but we fin-

ally got a horse and buggy from the old Purcell Livery Stable and made it about three blocks to the Stambaugh home," she said.

"Hereford was a little place, then for sure - we all worshipped together in the little Christian church and had plenty of room. We never thought of missing a service, but people only go now when it suits their convenience.

Women just naturally cooked more in those days—they had to, for there were no such thing as prepared food.

I use some of the prepared foods of course, but I think I'll always make my own strawberry preserves," she concluded.

Here is her recipe:

**Strawberry Preserves**  
1 quart strawberries  
5 cups sugar

Wash and stem strawberries handling as little as possible. Cook fruit without sugar for three minutes stirring carefully so that berries will remain whole. Add three cups sugar and stir slowly in to berries. Cook three minutes by the clock, stirring gently. Add remaining two cups of sugar and allow to cook three minutes longer by the clock. Pour into earthen crock and stir occasionally. Let stand overnight and pack in jars and seal cold.

(Note - Be sure the preserves are actually cooking before timing commences.)

### Two Bridge Parties Are Social Activities During Past Week

## How Can I?

By Anne Ashley

**Q. How can I remove oil and grease stains from leather?**

**A.** Dab the spots with spirits of ammoniac. Allow this to remain on for a short time; then wash with clean water. If necessary, repeat the process. However, be careful not to injure the color of the leather; it would be well to experiment on an unseen portion of the leather first.

**Q. How can I patch small nail holes and cracks in white plaster walls?**

**A.** These small holes and cracks can be filled by patting in ordinary baking soda. It is a good idea to fill up all these holes and cracks in this manner before painting the walls.

**Q. How can I revive wilted celery?**

**A.** Wilted celery can be revived and made crisp by placing in cold water, to which a teaspoon of vinegar or lemon juice has been added.

**Q. How can I paint a narrow line successfully when decorating painted furniture?**

**A.** Draw two parallel lines with a pencil the proper distance apart. Then use a small brush and fill in with paint. Hold a small card close to the line to help confine the paint to its proper limits.

**Q. What can I do if the salad dressing curdles?**

**A.** Add a little unbeaten white of egg, and the dressing will become as smooth as velvet. This is excellent for curdled mayonaisse.

**Q. How can I clean a slimy, soapy sponge?**

**A.** Soak the sponge for several hours in a solution of borax and warm water, squeezing it every now and then. Hang to dry.

**Q. How can I acquire a clear, soft skin?**

**A.** Try using a little olive oil

## Surprise Birthday Party Saturday For Carl Strafuss

A surprise birthday party was given in honor of Carl Strafuss in his home Saturday night.

Hostesses were Mrs. Lawrence Strafuss and Loretta Strafuss. Games and dancing provided entertainment and refreshments were served.

Those attending were: Leona Urbanczyk, Johnny Heiselman, Toddy Pittner, Larry Paschel, Rita Vinton, Tony Urbanczyk, Joan Knabe, Eddy Rohrbach, Joany Paschel, Loretta Strafuss, Angela Heiselman, Donny Meyer, Myra Jo Sowell, William Pittner, and Carl Strafuss.

and salt. Coat the face with the oil and then rub it briskly with table salt. Wipe off the oil and salt with cleansing tissue, and the skin will have a nice, smooth texture.

**Q. How can I impart a rich, creamy taste to soup?**

**A.** Put in for each quart of soup a piece of cheese, about the size of a walnut, just before serving. Adding a little celery salt to potato soup gives a delicious flavor. Grated cheese is fine for onion soup.

**Q. How can I make secure a cork in a bottle when packing for a trip?**

**A.** Tie a strong string around the neck of the bottle, leaving the ends long enough to go over the top of the cork. Tie another string around the bottle with ends on opposite sides. Bring the ends up over the cork and tie securely.

**Q. How can I effect a delicious topping for hot cinnamon toast?**

**A.** Make the topping with strained honey mixed with soft butter. This can also be used instead of the regular syrup for pancakes.

**Q. How can I avoid snarls when sewing with a double thread?**

**A.** Tie a knot in each of the two ends of thread, instead of making one knot.

### CONG. ROGERS SAYS

## Tidelands Issue Misrepresented To People Of Nation: Rogers

THE TIDELANDS: The tidelands issue has been misrepresented. When I first came to Congress, I was surprised at some of the statements that were made to me by other members concerning the tidelands question. Many of them had a complete misconception of the real issue involved. I did my best to explain it at every opportunity and to point out the mistaken beliefs that had been created. Many of the members were grateful for the explanation and sincerely appreciated enlightenment on the subject that was completely foreign to them. I feel that we gained a number of votes by the work that was done by the members explaining the real issue to those members from the inland states.

Many of the members had been misled by just such stories and comments as are now passing around the country. After the House of Representatives passed the tidelands bill recently, the big papers up in this section of the country came out with stories that made no explanation whatever of the issue involved or how it was handled. The stories merely stated that Congress was trying to GIVE OIL-RICH COASTAL LAND AND WATERS TO A FEW STATES. All of you know that nothing could be further from the truth.

In the first place, Congress was not undertaking to give anybody anything. It was merely trying to do its duty in correcting a grievous wrong that was committed by the Federal Government and the Supreme Court when these lands were stolen from the states by legalized larceny.

In the second place, the use of the term "oil-rich" was a misleading half-truth and wild guess. There is no assurance whatever that the tidelands of Texas will produce oil. It is at most semi-wild territory.

However, there is pretty good

assurance of great oil production on the continental shelf off the coast of Texas, which is owned by the Federal Government and which does not belong to Texas and never was claimed by Texas. This continental shelf extends about 135 miles out into the ocean. The tidelands that are in dispute consist of a strip of land only 10 1/2 miles off the coast of Texas. So, you see the State of Texas only owns 10 1/2 miles, while the Federal Government owns approximately 125 miles, and if there is oil off the coast, the Federal Government would get about 12 1/2 times the potential production accruing to Texas, assuming that our 10 1/2-mile strip of tidelands is restored to us as it should be. On the other states, with the exception of part of Florida, the tidelands strip is only three miles.

But the people who want the Federal Government to take over these lands are willing to mislead and misrepresent the actual truth and thereby lead the people to believe that if the tidelands are returned to the several states, the Federal Government will be knocked entirely out insofar as income from oil and gas production of the coast of the United States is concerned. Such tactics are nothing less than the use of bare-faced propaganda. It is our duty and we should never miss the opportunity to tell the truth about the tidelands to everyone we meet. If the people in this country knew the truth about the tidelands, we would have had them back long ago.

### SQUEAKING FLOORS

If the floor squeaks, dip a thin strip of metal or a knife blade into liquid glue and then insert this carefully in the cracks at the points from which the squeaks come. Move the blade up and down slowly until all the glue is adhering to the floor. Then allow to dry, and you will find the squeaks have stopped.

### TESTING COFFEE

To test the quality of coffee stir a teaspoonful of it in a half-glass of cold water. If the quality is good, there will be very little discoloration, and very few grounds will sink to the bottom of the glass.

### SCORCHED LINENS

If linen is scorched, cut an onion in half and rub the parts well with this; then soak in cold water and usually the scorched spot will disappear.

### STAINS ON WINDOWS

Remove paint and putty stains on window glass by dipping a wet cloth into baking soda and rubbing the paste thus made thinly over the glass. Let remain

fifteen minutes, and wash in warm soft water, without soap. This will bring all the stains with it. Rub dry and polish.

### SPONGES

To purify and whiten a sponge, soak it in milk and rinse thoroughly in warm water to which a little carbolic acid has been added. This will make it look like new.

### TO RELIEVE HICCUGHS

To relieve hiccoughs, take a teaspoonful of granulated sugar and vinegar. Repeat if necessary.

### ROSE JAR

To make a "rose jar," gather petals from several kinds of roses selecting those with a heavy fragrance. Then sprinkle the petals over a flat surface in the sun and leave until they have dried very crisp. Finally, put them into a jar and put on the cover. The fragrance will last for several months.

### LAWN SPRINKLER

To make an inexpensive lawn sprinkler bend a 26-inch piece of wire in the center and nine inches from each end in the shape of the letter M. Stick the ends into the ground and rest the nozzle of the hose in the center.

### WHEN PAINTING

Always be sure when painting to have a clean cloth dampened with turpentine right next to you, to wipe up the spilled drops as soon as they are spilled.

To relieve the pinching of tight shoes lay a cloth wrung out in hot water, over the area that pinches.

## Agiculture

Released by The Texas Department of Agriculture

**Texas—Another Dust-Bowl?**  
Dust storms are a part of man's age-old struggle with nature—and Texas' greatest scourge!  
Recurring "dusters" have changed once fertile acres of the world into desert. That was the fate of one of the most productive regions which we know through the Bible as the Garden of Eden.

Our trouble in Texas is not enough cover. Old-time cattlemen think the prairies should have been kept as pastures and never plowed. There may be some truth in that. But millions of acres are already under cultivation in the so-called dust bowl, supporting millions of people. We can't go back. Our problem now is how to go on and cope with the combination of intensive prairie land tillage, lengthy droughts and strong winds which sets the stage for dust storms. Of course, the way to conserve the moisture and prevent blowing in the "wide open spaces" of Texas is to adopt measures which will replace the cover nature originally gave us.

Contouring and terracing are two ways of making that running water walk. They keep the water from draining off the land as rapidly as it falls. Still a better way to conserve moisture is to leave stubble and crop residue on top of the soil instead of plowing it under. This

"stubble mulch" practice breaks the impact of the rainfall to let it soak in more slowly and thoroughly. It also provides protection for the soil from the sun and wind.

Stubble mulch has been used in Texas for only a few years and is not yet in general practice. Planting strips of foliage in a field, or "strip-cropping", is a good way to keep the field from being a hard race track for a high wind.

A lot of us have been forcing the soil to get more production out of maximum acreage. And, of course, all of us are for full production. On the other hand, we can't afford to abandon the practices we know will hold the soil and soil moisture.

So long as we don't have much water in Texas this year, the determining factor in our production for 1952, as well as in preventing a repetition of dust-bowl conditions, may very well be how well we take care of the little moisture we do have.

All were notified of the reunion including Professor Overstreet of Fort Worth, the class professor, who was too feeble to make the trip.

It was strictly a memory affair with each one present naming incidents of those days half a century ago.

An organization was formed after members voted to make the reunion an annual affair. C. O. Norton was made president; Claude Witherspoon, vice-president and Mrs. Merlin Newell, secretary.

The get-together closed on a high note of fun and merriment as the group sang "School Days" in adjournment.

Thursday evening at 8 o'clock Mr. and Mrs. C. W. Dixon entertained their Sunday school classes with a fried chicken dinner. Games and singing provided the evenings entertainment.

Those attending were: Mr. and Mrs. W. A. Senter, Mr. and Mrs. George Baker; Mr. and Mrs. O. B. Moyer and daughter, Mr. and Mrs. T. E. Lovett, Mr. and Mrs. E. R. Day Sr., Mr. and Mrs. R. W. Parr, Mr. and Mrs. J. W. Wimberley, Mr. and Mrs. L. R. Dilger, Rev. and Mrs. Russell Pogue and family, Mr. and Mrs. Spence Hough and family, Mrs. Sally Cole, Lucy Jones and Miss Marie Robison.

Mr. and Mrs. Dan Ethridge returned home this week. Dan was called back into the service about 17 months ago. He was in the reserve.

Mr. and Mrs. Cayson Jones and Glenda returned home Wednesday from California. Returning to Friona with them was Pvt. L. A. Jones, who is in the U. S. Marines. He will be here until called back into service.
