

New Demands Said Made On Rumania Gov't

Carol's Regime Acting Swiftly To Line Up With Germany, Italy

BUCHAREST, July 5 (AP)—Rumors that new Soviet demands on Rumania may be forthcoming circulated in the capital today as the new government of Premier Ion Gligu went into action to straighten out troubled internal conditions against which the Kremlin is said to be protesting.

Although without confirmation, reports persisted that Rumania was asking for full control of the bridgeheads over the Prut river and at Beut on the Danube.

The Rumanian people meanwhile appeared to be accepting the change in government to Gligu's pro-axis cabinet calmly, although full reports were lacking.

It was assumed the new government was planning stern measures, but it was believed such measures would be put into effect gradually to avoid too much violence and bloodshed, especially in anti-Semitic moves.

Rumania, once a close friend of France, became today the first country in southeastern Europe to switch completely to the side of Germany and Italy.

The new government of pro-Nazi Premier Ion Gligu, named by King Carol yesterday in an apparent effort to save his country from being carved up by his neighbors, immediately pledged itself to follow the axis powers.

Rumania thus strode much further along the axis path than Hungary, long sympathetic to Germany, or Yugoslavia, which has been making gestures of friendship.

A cabinet communique issued after its first meeting last night indicated the government's social ideology would include anti-Semitism. This was expected, since most of the cabinet members either are connected with the long outlawed pro-Nazi Iron Guard or are known to be anti-Semitic.

The program:

1. Honest adaptation to the systems created by the Rome-Berlin axis.
2. Maintenance of good relations with Rumania's neighbors, with the aim of keeping peace in southeastern Europe.
3. Strengthening of national defenses.
4. Recognition of labor as the basis of government and assurance that "adequate compensation will be given for work and production."
5. Support of minorities in expression of their nationalistic aims.

TROOPS ON MOVE?
BUDAPEST, July 5 (AP)—Reports that new Soviet troops and mechanical equipment have arrived in Bessarabia, the province ceded to Russia by Rumania, sharpened tension in the Balkans today and led to the belief that Moscow is planning new demands on Rumania.

In Sofia, Bulgaria, circles close to the soviet said Russia was taking an increasingly stern stand toward political developments and internal disorders in Rumania, where pro-axis Premier Ion Gligu formed a new government yesterday.

Moscow was said to be particularly disturbed over reports that 300 workmen were killed in a recent action against demonstrations in Galati in Rumania.

Lord Lothian, British Ambassador to the United States, telephoned from Washington that "his Britannic majesty's ambassador deprecates this shocking incident and asks an expression of his most sincere sympathy may be conveyed to the relatives of the killed and injured."

Johnny Garrison Reported Better
Condition of Johnny Garrison, who was seriously injured when he came in contact with a high voltage line while working on a pole near Lamesa Wednesday evening, was reported somewhat improved at a Lamesa hospital Friday morning.

Garrison, line foreman for the Texas Electric Service, suffered from a terrific electrical shock and serious burns when he came in contact with the current while descending from a pole.

Few Accidents Over Holiday
Big Spring and area experienced comparatively safe, sane and sensible Fourth, a survey showed here Friday.

Mrs. H. E. Goodwin, Colorado City, appeared to have been most seriously injured, suffering a broken leg when the car in which she and her husband were riding straddled a culvert on the highway east of Cosahoma Thursday night. Highway patrolmen, investigating the crash, gave lack of light as the cause. Mrs. Goodwin was brought to the Big Spring hospital for treatment.

In a pre-holiday mishap, Frank Ward suffered a severe scalp laceration when he walked into a low slung ceiling fan at a local laundry. He was given emergency treatment at the Cowper-Clinic hospital.

Police jailed Corone Greene and Corone Young, negroes, after the former had been stabbed with an ice pick in an altercation Thursday evening.

Buddy Tunn, son of Mr. and Mrs. R. C. Tunn, Lamesa, was treated at the Cowper-Clinic hospital for lacerations of his right hand when a cage monkey at the park got hold of the member.

Cameron Lumber Co. was burglarized, but no loss was reported immediately.

Police answered several complaints concerning shooting of fireworks. Sheriff's officers reported an orderly day.

Demos Hasten Preparations For Conclave

Indications Grow That FDR Will Run Again

WASHINGTON, July 5 (AP)—With the presidential election exactly four months off, democratic leaders were hastening preparations today for their party's July 15 convention amid increasing indications that President Roosevelt would break tradition and accept a third term "draft."

Republicans, too, were thinking of casting an old custom aside as their 1940 standard bearer, Wendell L. Willkie, considered plans in New York for a three-man strategy board in lieu of a single campaign director.

Willkie will come here Monday to discuss campaign plans with his running mate, Senator Charles L. McNary of Oregon.

Talk of a democratic ticket headed by President Roosevelt and Secretary of State Cordell Hull continued to overshadow speculation by a few party members that the chief executive might turn down the nomination at the last minute.

High officials based their prediction of a Roosevelt acceptance partly on the assumption that an eleventh-hour declination might turn the convention into confusion.

Others Mentioned
Others mentioned besides Hull as a Roosevelt running mate include Senator Byrnes of South Carolina, Supreme Court Justice Douglas of Connecticut and Washington State, Vice President Garner, Senator Lucas of Illinois, Paul V. McNutt of Indiana, federal security administrator, Speaker Bankhead of Alabama, and House Leader Rayburn of Texas.

Should the president decide not to seek a third term, leaders are fairly well agreed he will endorse Hull.

With the vanguard from democratic headquarters ready to depart for Chicago Sunday to complete arrangements, congress plans to recess Thursday for the duration of the convention.

Senator Barkley of Kentucky, democratic floor leader, predicted the convention would last five days "no matter what happened."

Party bigwigs look for a striking contrast between the republican convention and that of the democrats insofar as candidates' headquarters are concerned. At Philadelphia, 16 candidates had hotel suites with banners flying.

They expect a much smaller number at Chicago, with most ready to blare forth only "Ic" Mr. Roosevelt retires.

Democratic leaders already are on record to make the new deal program, both domestic and foreign, the main issue of the campaign. Leaders say that Mr. Roosevelt will edit, if not write, the bulk of the party platform.

NO HOLIDAY FOR GRIM REAPER ON JULY FOURTH

By The Associated Press
Although it was a "safe and sane" Fourth as far as fireworks went, at least 128 persons met violent deaths throughout the country.

There were only two fireworks fatalities reported in an Associated Press survey, one in Colorado and one in Maine. At a Fort Worth, Texas, fireworks display a section of boardwalk collapsed, plummeting 200 persons 15 feet, but none was killed; 40 were injured.

Automobile accidents accounted for at least 63 deaths and drowning for 35.

YOUTH KILLED
GAINESVILLE, July 5 (AP)—Robert Stark, 18, of Muenster was killed and two companions were injured today when a car in which they were riding overturned near here.

Robert Herr, 18, and Herman Bindel, 20, both of Muenster, were brought to a hospital here for treatment of injuries.

French Failed Miserably In Plane Production, Technicians Claim

BILBAO, Spain, July 5 (AP)—American technical consultants who came to Spain from France said today France's supreme defense effort after the start of war was in airplane manufacture—and this failed miserably.

Six consultants and engineering experts here awaiting transportation back to the United States attributed that failure to "official indecision and government inefficiency due to politics."

They described French factories as "some of the world's best equipped," and commented that under German supervision they might be geared up to turn out as many as 1,500 airplane engines a month.

The Americans said one large factory in southern France was ready in January to start turning out 250 engines a month but never produced one because of constantly changing specifications.

Another modern plant near Paris, the engineers reported, was ready to start production of a French-type engine in January, but American tools installed for the manufacture, and then failed to produce because the government decided to make English-type motors which required other tools.

In another instance cited, the Americans said that after long study an American engine was approved for production but "insignificant alterations" were demanded which required such extensive changes in tool machinery that none was manufactured.

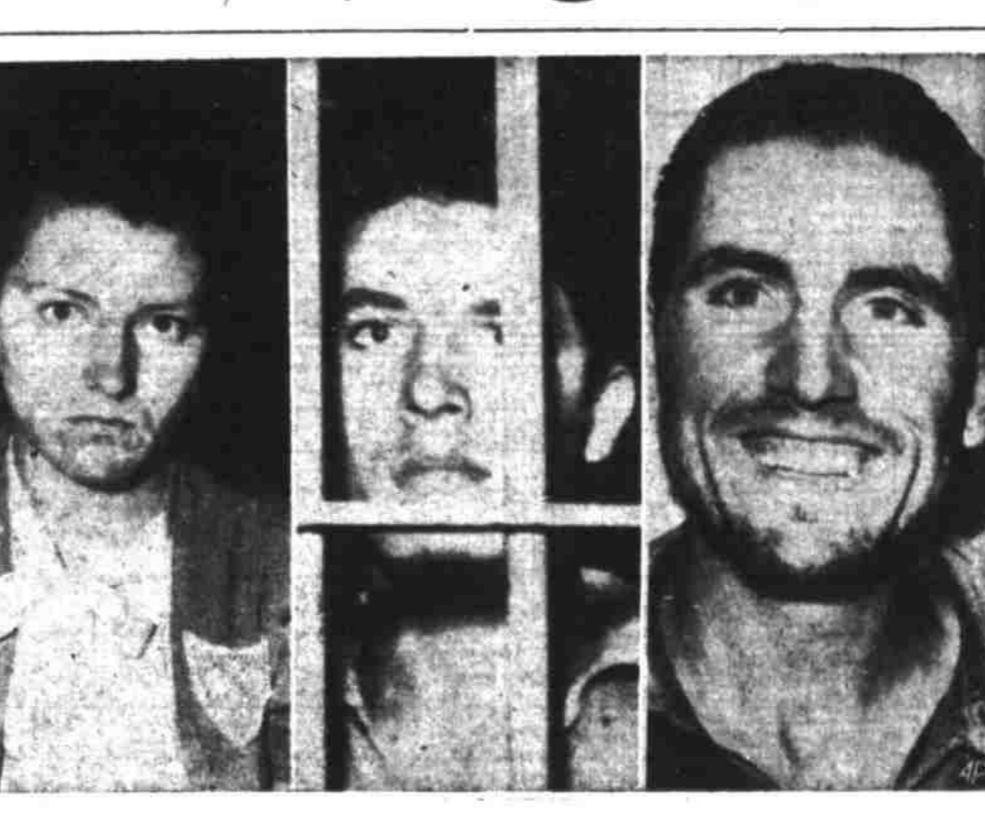

Widespread strikes were described as a factor in retarding the production of vital war materials.

Mobilization of foremen and key workmen for the army also was blamed for interfering with production.

Young men brought in as replacements, the Americans said, learned quickly—but then were called to arms themselves.

The Americans estimated the best production record the French factories set during the fighting was 750 airplanes engine a month, and 509 of these came from old, French-type engine in January, but American tools installed for the manufacture, and then failed to produce because the government decided to make English-type motors which required other tools.

British-French Relations Claimed Severed; English Hail Sea Victory

CHARGED WITH EXPOSURE SLAYING OF FATHER—Mrs. Florence Phillips (left), 18, and her brothers, George Sanders (center), 16, and Joseph Sanders (right), 22, were formally accused at Sheehone, Idaho with the slaying of their father, Charles Sanders, 48, by leaving him bound in the desert. Sheriff G. M. Brown quoted the three as saying their father had mistreated them.

Record Crowds Throng Park For Amphitheatre Program

Event Universally Acclaimed By Populace

Crowds estimated variously between 5,000 and 7,500 thronged the city park, virtually packed the amphitheatre, and joined enthusiastically Thursday evening in what was undoubtedly the most successful celebration ever staged in Big Spring.

Although there were some seats not taken in the amphitheatre, it was the consensus from a large number of observers that there were more than enough sitting on retaining walls and standing on the outside to have filled the structure which has a seating capacity above 6,000.

Many more—there was no way of telling—listened from their cars and watched a fireworks display from a distance. Cars were parked in almost every available space in the park and almost to the entrance. Even on the old highway automobiles pulled up to watch the climaxing display.

The mass of people received a program of entertainment with liberal applause, gave a roar of approval to an announcement by J. H. Greene, who served as master of ceremonies, that such entertainment would be offered each Thursday evening for an unlimited time, and went off lauding the affair following the fireworks display.

Dorsey Hardeman, San Angelo, delivered an appropriate address in which he challenged his listeners to hearken back to the fundamental principles upon which the greatest, and now one of the few remaining democracies, was founded.

Introduced for remarks and greetings were Mayor Grover C. Dunham, Ted O. Groeb, chamber of commerce president, and Don Legge and J. M. West, San Angelo district WPA officials. E. V. Spence, city manager, introduced the WPA authorities and Hardeeman. Bob Schermerhorn, past chamber president, was recognized for starting the movement for the amphitheatre and the city commission and officials for making possible realization of the project—possibly the largest of its kind in the southland.

On the program were the Big See PROGRAM, Page 6, Column 2

CHICAGO, July 5 (AP)—Sonja Henie now is wearing a wedding ring alongside the big sparkler she got from Dan Topping a week ago.

The Norwegian-born figure skater and screen star received the love token from the millionaire New York sportsman yesterday at a ceremony attended only by a few friends and the bride's relatives.

Isles Girding For Invasion, Raids Costly

Nation Gains Vital Strength In Attack On French Vessels

By The Associated Press
LONDON, July 5—Besieged Britain and vanquished France came to the parting of diplomatic ways today, according to indirect word from the Petain government, while the British navy combed world seas for French warships to consolidate control over the bulk of the French fleet.

The Petain regime was reported to have broken off relations because of the British move against the French navy, but the British still were not officially notified.

At home, on this island base facing a Hitler-dominated Europe the British fought against new German air attacks, now daily routine, while in Africa the Royal Air Force, naval units and border garrisons in the desert wastelands continued the as yet indefinite struggle against Italy.

It was announced that 11 civilians were killed in yesterday's raid against England's Portland naval base when more than a score of bombers destroyed a naval auxiliary vessel and two harbor craft.

Dominating all aspects of the war was the impending threat of German invasion of the British Isles—a probability which has turned them into a virtual fortress garrisoned by the greatest army in the history of the isles.

Britain gained great strength for resistance to siege by turning her own navy in battle or threat at battle on the fleet of her erstwhile ally.

Ready To Fight
One or more battleships, four cruisers and a number of smaller ships were being held at Alexandria with powerful British units ready to fight should the French contradict indications of surrender by attempting to steam home in compliance with orders from the Petain government under the German-French armistice.

While there was no official information on the situation at Alexandria it was generally assumed in London that the French forces at that strategic eastern Mediterranean base had acceded to the British.

Although the ultimatum was delivered as long ago as Wednesday, everything was "outwardly calm" in the harbor of Alexandria yet today, dispatches said.

More French warships—in addition to those taken over by the British in a spectacular coup Wednesday—were reported to have reached anchorage in Scottish waters, increasing the size of the fleet.

Prime Minister Churchill told parliament yesterday that the "greater part" of the French fleet had been put under British control. The Daily Herald said nearly 200 French warships had fallen into British hands.

First Lord of the Admiralty A. V. Alexander in a broadcast last night said that the actions announced by Churchill yesterday represented only "the first step" to make sure that the enemy did not get possession of French warships.

HELD IN TEMPLE
Glen E. Smith, wanted here on a forgery warrant, was reported held in Temple Friday. Local officers planned to seek custody of him.

Americans Replace Europeans In New Defense Programs

WASHINGTON, July 5 (AP)—Gradual replacement of European army and navy advisors in Latin America with United States officers was forecast by informed quarters today as a likely move to give military backing to the hemisphere cooperation policy.

An army air mission of four men was added to the general military mission in Brazil this week, and three air corps officers recently have begun work in Chile.

Appointment of a United States naval air mission to Peru, replacing an Italian mission which was called home a month ago, is expected soon.

Although the army maintains missions in seven Latin American countries, giving advice, instruction and assistance in military plans and operations. The navy has four.

British Action Against French Is Condemned

ROME, July 5 (AP)—Authoritative Italian sources today called the British action against France's fleet a "brutal and cynical act."

Reports abroad that Italian ships had helped the French were discredited in these quarters. (Although British Prime Minister Churchill declared the Italian navy had "kept prudently out of the way" advised to Geneva yesterday said that Italian warships were en route to the coast of the British-French battle off Cape Africa.)

Orders, Tooling, Manpower Keys To Plane Production Capacity

By DEVON FRANCIS
AP Aviation Editor
SEATTLE, July 5—In South Seattle a gleaming new aircraft plant, to be used in part for the production of planes in America's multi-million dollar air rearmament program, is under construction.

It is an addition to only one of almost a score of American plane factories which, in one degree or another, have expanded their facilities in the last few months.

The Seattle factory of the Boeing Aircraft company probably will be expanded even further in the next few months.

The question of how many aircraft American factories can turn out is rhetorical. How many do we want? The president has suggested to congress that 50,000 warplanes a year should be the rated capacity of American plants. For the next two years the armed services probably will have to be satisfied with less than that.

Orders, tooling and manpower are keys to an expanded productivity.

The new Boeing addition is being thrown up in 90 days, to increase the company's floor space by 75 per cent. The company delivered one of its big, long-range 4-motor bombers every four working days on its last order of 31 planes.

American foreign policy plays a big role in air rearmament.

Tooling and manpower probably are the biggest variables, aside from prospective orders, in the air rearmament drive. Tool makers—who produce the big drop hammer which shapes aluminum sheets, stamping and punching machines and lathes—are being driven 24 hours a day to supply the demands.

Factory man-power is a close problem in itself. Pacific coast plants, have been tapping all the skilled and semi-skilled workers. The 470,000 duranium rivets which go into a Boeing 4-motor bomber cannot be put in by amateurs.

MISS LANEIOUS NOTES

By Mary Whaley

Oh Happy July 5th. The day of wishful thinking.

It is the day that holiday athletes drag themselves stiffly from one spot to another and wish they hadn't. They rub overworked muscles and wish they had stayed home and read a book.

The last set of tennis and the last round of golf that seemed like such a good idea yesterday.

Today the blistered skins that once were white protest of an overdose of old man soil and sales in sunburn lotion and oils will take a large boom, too late to do a whole lot of good.

The late celebrating that yesterday was the thing to do, today seems like a sorry plot against mankind and heavy heads will be supported on equally lifeless chassis with great difficulty.

The only bright spot in view is the fact that Sunday isn't far off and weary bones can anticipate the day of rest.

Picnic food and picnic drinks that were consumed with such abandon on the day celebrating Independence have their own holiday and today Mr. and Mrs. America eye food with distaste and blame that funny feeling on the last sandwich or the last bottle of pop.

It is a happy day, July 5th, and the most that can be said for it is that it can't last more than 24 hours.

Standard Oilers Lose Twin Bill To Hamlin

ALMAZAN SAID LINKED WITH FASCISTS

MEXICO CITY, July 5 (AP)—A national charge by the labor newspaper Popular that Italian fascists in Mexico had received orders to "be ready" on election day July 7 brought an assertion by the Mexican government today of its absolute disapproval of all propaganda contrary to the doctrine that support democratic, inter-American ideals.

Ignacio Garcia Tellez, minister of the interior, shortly after the edition of the morning newspaper appeared last night, received a sheet of photostatic documents concerning the charges.

Popular, which is supporting the administration candidate Manuel El Camacho for president, tried in a headline that Juan Andreu Almazan, independent candidate for president, was "linked to the fascists."

The purported documents printed, however, made no mention of Almazan, who throughout his campaign has sharply assailed totalitarian doctrines. A supporter of Almazan said he "considers the charges so silly" he wouldn't even comment on them.

Buffs Add To League Lead

DALLAS, July 5 (AP)—Independence day double-headers left the oil league ready for a shakeup featuring all clubs but first placeuston and cellar-dwelling Fort Worth.

Houston pushed its margin over second-place San Antonio to ten runs, downing the runner-ups 5-2 and 5-2.

Fort Worth won a double-header from Dallas but still is seven and a half games back of Oklahoma City in seventh.

It was a banner day for Houston with third place Beaumont and fourth place Dallas obligingly losing two games each.

Shreveport led all the way to the opener from Beaumont then won the afterpiece 5-2.

Don Kolloway and Jim Hagan led Oklahoma City to a twin sweep over Tulsa, 7-6 and 4-3.

Fort Worth won the first game on Max Thomas' five-hit thing. In the 2-0 nightcap, Fred Berry held Dallas to three runs.

FOR CONGRESS

George Mahon

personal word to the people of the 19th District:

During this grave emergency I am remained on the job in Washington, seeking to serve you and our Nation at this time of great crisis. As you know, it has been necessary for Congress to remain in session and the adjournment date still uncertain.

I am not unmindful that this election year. Under normal conditions I would now be visiting among you, thanking you for past favors and seeking your continued good will and support. Not being able to be in your District, I take this means of thanking you for the cooperation you are now giving me and have always given me during my service as your Representative in Congress. May I earnestly solicit your continued confidence and support in the July Primary.

ABILENE ACES TO BE HERE SUNDAY

A six-run outburst in the final round gave the Hamlin General Crude Oilers an 8-5 victory over Big Spring's Standard aggregation after the invaders had wrapped up honors in the extra inning opener, 7-4, in Thursday afternoon's twin bill attraction at Baron park.

The locals looked to advantage in their first home test of the campaign, had many a chance to walk away with the chips in the first struggle but failed to take advantage of their breaks.

The tilt was booked for seven innings but went eight, the Hamlin outfit breaking it up in that round by counting three times.

Oscar Peoples, on the hill for the Big Springers, gave up 11 hits over the route, two more than did his mound opponent, Lefty Courtney.

The Hamlins gained the lead in the initial round by counting twice, lost it in the third and counted twice again in the fourth but Peoples clamped down and stopped them.

V. G. Doyle and Rat Ramsey divided hitting honors for the locals, each collecting a brace of blows.

An error by Alton Bostick on Hellums' ground ball, successive hits by Weaver, Rowland and Bradford and a misplay in left field by Doyle gave the invaders their three runs in the eighth.

The Standard nine loaded the sacks in their part of the same heat but a double killing started by Weaver at second base snuffed out the threat.

In the aftermath the locals grabbed the advantage in the fourth when doubles by Snooks Carroll and Howard Hart accounted for three tallies but Max Carroll, Big Spring righthander, could not waste through the final round without telling damage.

Six hits coupled with a free pass gave the Hamlins all the runs they needed.

The Big Springers will be seen in action again here Sunday afternoon in a 3 o'clock assignment with the Abilene Aces.

Workers 84 And 81 Happy Razing Houses

CONNEAUT, O. (UP)—C. E. Lincoln, 84, and C. I. Pease, who is 81, are perhaps the oldest house-wreckers in the country.

The two men, eager to do some manual labor, finally convinced Mr. and Mrs. Howard Pease that they were the logical ones to tear down a house belonging to the couple.

"We can't take it quite as well as we used to, but we still can put in a good full day's work," Lincoln said. "Our muscles sort of complain in the morning, but we're good once we get into action!"

Tony Rego, Odessa (Big Spring) Oiler skipper, has given up on Abel Zubillaga, his Mexican southpaw first sacker, has been playing Irv Pellegrini recently at the initial sack.

Wyman Hunnicutt has also been replaced in the Odessa lineup.

Louis "Lefty" Janicek, former Big Springer now with Vancouver in the Western International league, was injured by a batted ball last week and will be out of the lineup for some time.

Another ex-Baron, Curdele Loyd, has caught on with Twin Falls of the Pioneer league. He was with Fargo-Moorehead of the Northern league at the beginning of the season. He's property of the Yakima Pipers.

Rex Dilbeck, the very potent Pampa wrongender who is scheduled to get a chance in higher company next season, struck out Malcolm Stevens, Lamesa's cleanup hitter, five times in as many tries in a recent game at Lamesa but absorbed a defeat in extra innings.

Some of the fans who attended Thursday's twin bill between the Standard Oilers and the Hamlin Oilers at Baron park were disappointed to learn that Bill Brown was not available to pitch the aftermath for the locals. Big Bill had gone to Lubbock to ink a contract with the Lamesa Lobos.

Reason the citizens of Clovis are putting up such a scrap to keep their WT-NM league franchise is because they feel if they once lose it, it can never be regained.

Eventually the league is going to become a family composed entirely of Texas teams and officials are planning to locate franchises at Wichita Falls, San Angelo and possibly Abilene within the next few years.

Harold Akey, Munny golf course pro, reports that that course experienced a record business day Thursday. More than 165 golfers registered for play.

Forty Injured

FORT WORTH, July 5 (AP)—Forty persons were injured, two seriously, when a section of the board walk at Lake Worth casino crashed through late last night.

The walk was jammed with spectators for a fireworks display.

Two hundred persons were dropped a distance of 15 feet when a section of the walk 30 by 30 feet caved in.

Tribe, Dodgers Look Like Champs In Independence Day Victories

By JUDSON BAILEY Associated Press Sports Writer

It was a safe and sane Fourth of July in the major leagues.

All the prospective fireworks fazed out, leaving the Brooklyn Dodgers and Cleveland Indians unscathed at the top of the National and American leagues.

The two games that involved the leaders yesterday brought out 111,939 fans.

The largest baseball turnout in Detroit's history, 57,633, filled Briggs stadium to whoop and groan as the Indians and Tigers divided a doubleheader.

Tommy Bridges pitched the Tigers temporarily into first place in the first game with a 5-3 triumph on five hits. But in the second game the Indians squeezed out a

thrilling 2-1 victory in eleven innings to regain the lead.

The Brooklyn Dodgers romped like champions over the New York Giants 5-1 and 6-1 in a double feature for 54,306 fans at the Polo Grounds.

The champion Cincinnati Reds refused to yield any ground. Bucky Walters in the first game against the Pittsburgh Pirates, ripped off his 11th victory 9-1. He gave only seven hits and made two himself, scoring two runs. Then Gene Thompson submerged the Pirates 3-1.

The other National league doubleheaders were divided. The Chicago Cubs stopped the Cardinals 4-3 in the first game. But Clyde Shoun evened the score for St. Louis with a five-hit 5-1 success.

Joe Marty's pinch single with the bases loaded and the score tied in the ninth inning gave the Phillies a 4-3 verdict over Boston but the Beas battled back in the second game to win 5-4.

The New York Yankees paraded back into the American league pennant picture again by blasting out a double victory over the Boston Red Sox, 12-4 and 7-5.

The Washington Senators worked their way out of the American league cellar by beating the Philadelphia Athletics twice, 5-1 and 9-5.

The total attendance in the majors for the day was 214,743.

Jones Duels Johnson At Abilene

ABILENE, July 5 (AP)—Medalist Earl Stewart, Jr., of Dallas, squared off against J. L. Helm of Brownwood today in the opening round in the annual Abilene country club invitation golf tournament.

Stewart's one under par 70 won the medal yesterday.

Defending Champion Iverson Martin of Fort Worth shot a 72.

J. T. Hammett, Breckenridge, 74, vs. Jack Gourley, Eastland, 78.

Phillip Herley, 77, vs. Bill Maxwell, Dallas, 80.

They sued Signor Galento for his share of the Baer fight, but Tony out-smarted 'em. He sold \$13,000 worth of pasteboards at his Orange pub and is holding out the dough—just about his share, less managers' cuts. Those Browns are getting so tough they're even pitching Master Feller against them. Bobby Jones will play four exhibitions for the Red Cross opening at the Lido club, Long Island, July 13 vs. Horton Smith.

Fifth Column, Not Hitler, America's Threat, Says Dies

HOUSTON, July 5 (AP)—Congressman Martin Dies (D-Tex.), chairman of the committee investigating un-American activities, says the fifth column and not Adolf Hitler's army, should be credited with the collapse of Poland, Czechoslovakia, Denmark, Norway, Belgium, Holland and France.

The United States is not in danger of armed invasion but the fifth column danger is the greatest crisis now facing the country. Dies said in an address at the allied relief ball here last night.

He declared "agents of Hitler, Mussolini and Stalin—paid and unpaid—have been given free rein in this country, where to cover their subversive activities, they invoke the very freedom they seek to destroy."

Seven screen players came here by plane from Hollywood to attend the program. They were Tyrone Power, Richard Greene, Olivia De Havilland, Henry Fonda, Nancy Kelly, James Stewart and Mischa Auer.

TEN WIN PRIZES IN MUNY MEET

Ten of 50 entries in the blind bogie tournament at the Munny golf course Thursday afternoon won merchandise prizes.

Gaining premiums were J. E. Gardner, J. D. Jones, Seamon Smith, S. L. Robinson, Dan Yarbrough, H. A. Smith, Arch Hrimberry, R. E. Rose, E. E. Freeman and R. E. Newsom.

DIVE BOMBERS

LAUREL, Neb., July 5 (AP)—A family of owls developed into "dive bombers" here.

As the young owls grew the parents gave them nightly lessons in swooping from telephone wires to attack passers-by.

An irate citizen armed with a shotgun liquidated them.

DALLAS GOLFERS DOMINATE PLAY AT CORPUS

CORPUS CHRISTI, July 5 (AP)—Dallas golfers dominated match play in the Corpus Christi golf and country club's annual invitation tournament today.

Heading the list was Don Schumacher whose 70 yesterday for medalist honors with Chick McCarthy of Corpus Christi.

San Antonio had Joe Moore, Jr., the state junior champion in the running and James Moore, Refugio and Joe Worthington, Jr. of Kingsville, were contenders.

Kiefer Stars In Swim Meet

SANTA BARBARA, Calif., July 5 (AP)—The old, old story of two friendly rivals of the springboard, Al Peck and Earl Clark, was ready for its final chapter today as the National A. A. U. men's outdoor swimming and diving championship tournament swung into the second of its four day run at this Pacific coast resort town.

Beaten only once in his four-year reign, Patnik seemed doomed to bow out in defeat before his best friend and roommate at Ohio State university, Earl Clark.

Olto Jarets of the Towers club, Chicago, yesterday cracked the 220-yard free style record set in 1927 by Johnny Weismuller when he traveled the distance in 2 minutes, 13 1-10 seconds. Weismuller's record was 2 minutes, 13 1-10 seconds.

Adolph Kiefer, national backstroke king from Texas amazed onlookers with a brilliant first lap in the 330-yard medley relay. He was timed officially for the 110 yards in one minute, 5 4-10 seconds, which bettered his American 100-meter record of one minute, 5 6-10 seconds.

DETROIT LEARNS FUEHRER HASN'T ITS PHONE BOOK

DETROIT (UPI)—The Michigan Bell Telephone company, after long and patient research, has tracked down and killed a rumor that intrigued Detroiters for several days.

Reputedly said that Adolf Hitler had requested and been sent a copy of the Detroit telephone directory, which alarmists firmly believed would provide him with vital information.

Several people were envisioning the arrival of spies and attendant sabotage when the telephone company cleared the mystery. Careful check, an official said, showed that the Deutsche Reichpost always receives a copy of the directory, as do similar companies in 72 other nations.

Deutsche Reichpost altered its address, however, and the last volume was sent to 40 Adolf Hitler Strasse in Dusseldorf, Germany. That's how the rumor started, the company said, and now couldn't it just quietly die?

CONDUCT INQUEST IN DEATH OF BORDER CUSTOMS INSPECTOR

EAGLE PASS, July 5 (AP)—An inquest was conducted today in the fatal shooting of C. T. Boulware and Horace Ryman, United States border customs inspectors.

The bodies of the two officers, Boulware with five bullet wounds and Ryman with one, were found in an automobile near here.

Sheriff Hermann Lehmann said several persons told him Boulware and Ryman had engaged in an argument at an inn during the day.

Pat Comiskey Amazes Ring Wise Again

NEW YORK, July 5 (AP)—Pat Comiskey, the tall, blond puncher from Paterson, N. J., still looks like the only heavyweight in the country who might, in time, give Joe Louis a real fight for his title.

Comiskey has improved tremendously in the last eight months, since his rise was slowed temporarily by the cagey veteran, Steve Dundas, and he looks now as though he will go on to challenge for the crown.

There is a strong possibility that he will be signed today to fight Buddy Baer in the fall. If Pat gets past the younger of the Baers, then it is a fairly safe bet that we will see him have his try at the big negro about a year from now.

It might take a little longer for Comiskey to get thoroughly ready, but some smart boxing men around this town don't think so. Al Weill, who manages Leo Ambers, Arturo Godoy and about 40 others, is one of the latest to climb on the Comiskey bandwagon.

"When I see him the other night I couldn't hardly believe my eyes," Al volunteered. "The kid's got a nifty left now to go with that right of his."

Pat always could knock them bowlegged with his right. He packs a real knockout in that fist. He looked almost finished fighter the other night against Bob Sikes of Arkansas, on the Galento-Baer card. It took him only a little over two minutes to knock Sikes down three times and render him helpless.

Sikes brought a brilliant record here and was regarded as a real test for the Jersey hope, but he was completely outclassed.

Blanton Produces For Philadelphia

Editorial

Singularly important is the announcement by the city that it will convert areas for detention dams into beauty spots.

This clears the way for realizing a long felt need, and particularly as respects the section known as Birdwell Tank.

To be sure the area is not large, but the city has 12 acres of ground in the plot it will acquire to assume control of the tank.

The very nature of the detention dam project—part of a master flood control program—lends itself to adaptation in the development of a park.

Washington Daybook

By Jack Stinnett

WASHINGTON—Of all the "possible contingencies" that your government and mine is considering as a result of this war, none is more strange than that Canada may become the seat of the British empire.

No matter how remote you may consider it, the state department has been investigating it as a possibility for weeks.

What more, in the foggy realm of possibilities, this isn't considered so terribly remote. The question is, of course, can Germany deal a blitzkrieg to the British Isles similar to those with which she has swept aside a half a dozen smaller nations and crushed France as though that supposedly great military power were no more than a papier mache Graustark?

Winston Churchill has said that England will there are other straws in the wind. Princess Juliana of Holland and her family have been sent to Canada.

In the state department here it already is considered a certainty that if the capital of the British empire is established in the New World, it will be at Toronto.

Now, of the record, here are a few of the things that your state department is discovering:

1. Canada cannot support a very large population. It has 11,000,000 or so is strung out in a narrow band along the northern border of the United States, curving slightly upward at the ends.

2. What's worrying them now, so that it might not worry you in the face of "any contingency," is what can the United States do if it should come to pass.

Your guess and mine is as good as theirs at the moment.

Our neck of the suburban woods, where we hang our hat at night, is quite a center of activities for the Scouts.

But there was an innovation to this procedure recently. The young negro youths of the town have a fine scout troop, boasting attendance for the year of .00 per cent.

Hollywood Sights And Sounds

By Robbin Coons

HOLLYWOOD—TOTBAL' Savy? Oh, well, I had a hard time myself. Just at first, I mean. Let's begin at the end. That means There Ought to Be a Law.

Once upon a time there was a peculiar thing called the English language. In its clumsy fashion it used whole words, and sometimes it even used whole sentences, and people spelled out every word of every sentence.

It was a gent who made the longest picture, longest in long green results. The picture was GWUW, or GWU-TWUW. So along came Warner Bros. with their ATAH, meaning something like the whole present with the prospect of paradise also.

Maybe at the U. The U could do it. The U could turn out some tongue-twisters (with the titles they've been having) to send GWU-TWUW and ATAH scurrying back where they belong.

Well, that's all for now. I'll be back with more news from the U. The U could do it. The U could turn out some tongue-twisters.

A Golden Opportunity

seems to be the most plausible site for a centrally located park, years of washing have brought in foot upon foot of silt until the basin of the tank is among the most fertile spots in the city.

When it rains, the old tank basin likely will be caught full, and park improvements inundated. But this will be foreseen in the type of construction erected in the area.

Because it is public property and because it is handy to almost every point in the city a park at Birdwell Tank would become highly popular. It would serve well those who find it impossible or difficult to use the city park as often as they would like.

So the city has an opportunity in creating these beauty spots, and a golden opportunity to do a real service by developing the Birdwell property into more than that into a handy park.

WASHINGTON—Of all the "possible contingencies" that your government and mine is considering as a result of this war, none is more strange than that Canada may become the seat of the British empire.

No matter how remote you may consider it, the state department has been investigating it as a possibility for weeks.

What more, in the foggy realm of possibilities, this isn't considered so terribly remote. The question is, of course, can Germany deal a blitzkrieg to the British Isles similar to those with which she has swept aside a half a dozen smaller nations and crushed France as though that supposedly great military power were no more than a papier mache Graustark?

Winston Churchill has said that England will there are other straws in the wind. Princess Juliana of Holland and her family have been sent to Canada.

In the state department here it already is considered a certainty that if the capital of the British empire is established in the New World, it will be at Toronto.

Now, of the record, here are a few of the things that your state department is discovering:

1. Canada cannot support a very large population. It has 11,000,000 or so is strung out in a narrow band along the northern border of the United States, curving slightly upward at the ends.

2. What's worrying them now, so that it might not worry you in the face of "any contingency," is what can the United States do if it should come to pass.

Your guess and mine is as good as theirs at the moment.

Man About Manhattan

NEW YORK—George K. Arthur, who used to be half of the once famous Dane and Arthur comedy team (remember "Hookies") is a familiar figure along the Broadway shops.

Our neck of the suburban woods, where we hang our hat at night, is quite a center of activities for the Scouts.

But there was an innovation to this procedure recently. The young negro youths of the town have a fine scout troop, boasting attendance for the year of .00 per cent.

Hollywood Sights And Sounds

HOLLYWOOD—TOTBAL' Savy? Oh, well, I had a hard time myself. Just at first, I mean. Let's begin at the end. That means There Ought to Be a Law.

Once upon a time there was a peculiar thing called the English language. In its clumsy fashion it used whole words, and sometimes it even used whole sentences, and people spelled out every word of every sentence.

It was a gent who made the longest picture, longest in long green results. The picture was GWUW, or GWU-TWUW. So along came Warner Bros. with their ATAH, meaning something like the whole present with the prospect of paradise also.

Maybe at the U. The U could do it. The U could turn out some tongue-twisters (with the titles they've been having) to send GWU-TWUW and ATAH scurrying back where they belong.

Well, that's all for now. I'll be back with more news from the U. The U could do it. The U could turn out some tongue-twisters.

Vitamin K Gives New Chance To Doomed Babies; May Save 30,000 Each Year

By MORGAN M. BEATTY AP Feature Service Writer

BALTIMORE, Md.—The mysterious food element and blood booster, Vitamin K, is emerging from a rigorous year-long test in Johns Hopkins University as a potential life saver for 30,000 to 80,000 American babies annually.

Up to now, these infants were stillborn, or died in the first precarious week of life before their little systems began to absorb the anti-bleeding vitamin from food.

Only 1 in 10,000 of an ounce of Vitamin K is required to save a life—a mere speck given to a prospective mother a few hours before her child is born.

So impressed is Dr. Nicholson J. Eastman, Johns Hopkins obstetrician in chief, by tentative results with Vitamin K that he plans a longer series of cases than the 776 now on record.

Dr. L. M. Hellman, young instructor in obstetrics, even though he demonstrated a year ago that Vitamin K was a cure for rare hemorrhagic disease of the newborn.

The Cement Vitamin

Vitamin K is a blood congealer associated with the precious egg white-like material in the blood known as prothrombin perhaps a sort of natural cement.

Without Vitamin K there is no prothrombin, and without prothrombin mammals bleed spontaneously, eventually die.

More than 127,000 babies die annually in the United States before the first week of life has run its course. Most of these deaths accompanied by hemorrhage.

Dr. Eastman has just reported the Vitamin K findings to the American Gynecological society at its annual meeting at the Seignior Club, near Lucerne, Que.

He says the work began in January, 1939. Some 150 scientists, including those at Johns Hopkins, had probed.

1. Small amounts of Vitamin K are harmless to humans, only small amounts are required.

2. The blood of the average infant at birth is about 75 per cent deficient in prothrombin, but most babies begin absorbing and utilizing K within a few days.

3. But if an infant does not pick up K normally, the deficiency can be remedied by administering K.

At the start Dr. Hellman set out to find whether Vitamin K administered to a mother BEFORE the birth of her child, would prevent the tendency to hemorrhage in the offspring. This he proved in a limited series of cases.

Week after week, the supervisor stood at the entrance of the Hopkins maternity ward, arbitrarily giving every other mother 1.15-100 of an ounce of a synthetic K con-

STEVE, THE VITAMIN K BABY: Two days after birth Steve had less than a 50-50 chance to live, but 1-15,000th of an ounce of Vitamin K changed all that. Steve's six weeks old in this picture, cute and healthy.

centrate in globules of corn oil about as big as a pea. Two made a dose.

The Doctor's Report

Up to May 1, 1940, two big groups, 384 with Vitamin K, 392 without, had been studied, the deaths autopsied and the results tabulated.

The ratio of deaths at that time was almost three to one, three non-K babies to every one K baby.

Reporting to the gynecological society, Dr. Eastman says: "The stillbirth and neonatal (first week of life) mortality figures are as follows: Control series (non-K group) 16 deaths, or 4.1 per cent mortality. Vitamin K series, 6 deaths, or 1.5 per cent mortality."

"Hemorrhage was demonstrable in autopsy in but one of the six fatal cases in the Vitamin K group, in the control group (non-K), hemorrhage into one or another organ was demonstrable in nine of the 16 autopsies, or in 56 per cent."

Dr. Hellan cautions against expecting results in severe hemorrhages.

"I don't think the tentative results ought to be overestimated," he says. "When applied to the census bureau figures the results in these 776 cases would indicate that five-eighths of the 127,000 neonatal deaths annually—about 80,000—

working independently of each other. But it was costly to make. Later, last year, Dr. Stefan Ansbacher experimented with the little known but cheap chemical discovered and shelved as useless in 1921—2-methyl-1, 4-naphthoquinone.

That's the material being released by the pure food and drug administration for the general use of physicians.

Nationally known scientists remind you K is not a cure-all for bleeding and won't stop massive hemorrhages. It does not cure hemophilia. Neither will it prevent hemorrhages of a mother in child birth, for such hemorrhages are NOT due to a deficiency of K.

Only One Address On Mailed Packages, Department Urges

WASHINGTON, July 5 (AP)—It's only 172 days until Christmas, but the postoffice department came out today with a plea to the people to be a little more careful—not careful—in mailing packages.

Wrapped up in the millions of packages which Americans mail every year is a parcel of unintentional grief for the clerks and postmen.

It comes from writing on more than one side of the package.

"We don't seem to be able to do anything about it," said a postoffice spokesman. "The people think they help us when they write the address in a couple of places, but they hurt us."

LIBERIAN TRIBE TELLS EX-CHIEF TO GET MONEY

LINCOLN, Neb. (UP)—Charles Bloach, onetime chief of a Liberian native tribe, can't return to his native land until he has raised money to establish a modern university.

Bloach, 38, surrendered his right to rule as Chief Tse Dji Do beo Kae Wele Dijkwamo Guda of the Djabos tribe when he ran away as a youth to a Liberian mission school. His brother is chief now.

He spent six months at the school, then came to the United States, where he studied at several universities. After 20 years, he returned to Liberia on a Rockefeller Foundation fellowship.

Two years later, he came back to America, taught at two colleges and finally enrolled at the University of Nebraska, where he is studying for a Ph.D. degree in anthropology.

Bloach organized a corporation here for his university financial drive and enlisted university faculty members and Lincoln civic leaders in the movement.

He must raise the money before returning to Liberia because when he visited the country his people told him not to return until he had sufficient funds for the school.
