War Developments Cutting Down On Cotton Demand

ATLANTA, June 8 (AP)—War developments carried pessimistic echoes across southern cotton fields today in a statement by the bureau of agricultural economics that the swift spread of the fighting "has

been a decidedly unfavorable development from the standpoint of world demand for cotton."

Already it appears the "important manufacturing markets of Belgium, Holland and northern France may now be shut off for an indefinite period," the cotton situation review commented. Consumption in the Dutch and Belgian mills averaged about 600,000 bales over the last few years. Should Italy enter the war "markets in the Mediterranean area might be lost"—the Italian mills having consumed about 700,000 bales of cotton in each of the last two seasons.

One immediate effect of the invasion of Holland and Belgium was the decline of exports by 20 to 30 per cent from the "unusually small exports in the corresponding week of last year and the year before," the bulletin continued.

Test Steers Are Sold For Good Prices

Seventh annual feeding tests at the U. R. Experiment Farm have been concluded with the marketing of 49 head of fat steers in Fort Worth.

Results of the test, however, are incomplete since the crux of the feeding this year was determining the effect of varying ratios of calcium, magnesium and phosphorus in the rations. Until analysis has been made on blood, meat, bone and on bladder precipitates the results of the mineral portion of the test will not be known.

At market, the animals commanded good prices, 20 bringing 10.75, 24 commanding 10.25 and four out at 10.18, said F. E. Keating, farm superintendent, who was accompanied to Fort Worth by Jot Smythe, feeder.

One calf was slaughtered here. He was one in the lot with a heavy calcium ratio which was calculated to have produced urinary calculi. However, the fact that one animal was subjected to the condition would not necessarily mean that a similar result would obtain for all the lot.

Two interesting conclusions might be drawn from other phases of the tests, Keating said. First, a lot given ample calcium appeared to have gained maximum benefit of grain and other feed by showing a 55-pound average net gain over a lot fed the identical ration except with half the amount of calcium.

Another was the fact that a lot started gradually on cottonseed meal and with the amount increased gradually showed the greatest average daily gain and topped the lot stepped to the maximum amount of meal at the start of the test by 11 pounds per calf. The advantage in building up meal in the ration would appear on the basis of this to be principally a saving in meal costs.

During the tests, the calves were fed in three lots as individuals and three as groups with the following:

Lot 1, ration of 80 per cent full fed on grain, regular amount on silage, cottonseed meal and one ounce of pulverized oyster shell (calcium); lot 2, same as the first one except twice the amount of calcium; lot 3, same as other two except raw bonemeal (phosphorus) substituted for calcium; lot 4, full fed ground into meal, silage with cottonseed meal built up gradually also cod liver oil for vitamin A.

Lot 5, group fed with same ration as lot 1, with exception of cod liver oil in ration; lot 6, same as lot 4 except that cottonseed meal stepped immediately to maximum and held.

Here are the weight results of the lots:

Lot	Initial weight	Final weight	Net Gain
1	457	791	334

MARKETS Wall Street

NEW YORK, June 8 (AP)—Wall street felt a bit better about the war today and traders lifted steels and selected issues fractions to a point or more.

Beat bidding came in the final hour. Quotations slipped a shade near the finish and, here and there, minus signs were to be seen.

Notwithstanding the late flurry, the session was one of the slowest for about a year. Transfers approximately 400,000 shares.

Richards Test Sets Casing

M. L. Richards No. 1 Thelma J. Cole, northeastern Howard county wildcat test, set 12 1/2-inch casing at 335 feet and was reported to have resumed drilling Thursday.

Seeking to close the gap in pools that rim the Permian Basin, the test is to be carried 950 feet into the lime, or to pay or sulphur worth at lesser depth. Location is 1,650 feet from the north and 2,310 feet from the west lines of section 12-26, H&TC, half a mile south and east of Vincent community.

In the Snyder area of southeastern Howard county, the Magnolia No. 1 M. H. O'Daniel extension test, half a mile south of northeast corner of the pool, was reported to have set 4 5/8-inch string at 2,650 feet and was waiting on cement to set. Location is 2,178 feet from the south and 1,782 feet from the west lines of section 40-32 is T&P.

To the south in the Chalk pool, the Pure Oil Co. moved in to deepen its shallow No. 5 Chalk well to the 3,000-foot pay. Location is in section 125-29, W&NW.

The C. T. McLaughlin No. 1 Pete Johnson, wildcat, three miles northeast of Big Spring, was reported to have spudded on location at 660 feet from the north and east lines of section 34-32 in T&P. It is to be drilled with a spudder.

While there were no definite reports, it was heard here Thursday that the Ray Although No. 2 John A. Robinson, northwest Dawson wildcat, was meeting with encouraging formations as it neared the 5,000-foot depth. It is in section 04-M, EL&RR.

RITES FOR INFANT

Funeral services for the infant son of Mr. and Mrs. S. S. Williams, 1609 Clark St., were held at 4 o'clock Thursday afternoon at Elderly chapel. The child died at birth Thursday morning. The Rev. J. A. English, pastor of Wesley Memorial Methodist church, was in charge of the service.

German Propaganda Message Of 1918 Brought To Light

Twenty-two years after he picked it up back of the allied lines in France, Raymond (Pancho) Nall has hauled out a tattered and faded piece of German propaganda.

It was tossed from a German airplane in August of 1918 over a sector where the enemy knew American doughboys were holding forth. Nall, like other soldiers, picked it up as a souvenir of the overseas days.

Employing a smooth flow of typical German propaganda, the leaflet gently hooded the idea that American soldiers were really fighting "to make the world safe for democracy," suggested that it was better to live than die, that Americans really did not owe France their lives, and that the German soldiers in "faded gray" only wanted the war to end so that they could go back to "their homes in honor" so that they could "live and let live."

American Ambulance Drivers Located

BERLIN, June 8 (AP)—Two of nine American ambulance drivers reported captured by the Germans have been located by the United States embassy here, and one is already bound for home.

Lawrence A. Jump, 26, of Nahant, Mass., a Dartmouth college graduate and native of Oakland, Calif., is in a Nazi prison camp without a passport.

Jan Glowacki, 32, of Jersey City, N. J., who was captured May 15 near Laon, on the Somme front, had his American passport, so German army officers turned him over to the police, who sent him to Frankfurt. There, Consul General Emil Sauer obtained his release and gave him money from his own pocket to buy civilian clothes and a ticket for Zurich. His friends in Paris telegraphed him money there.

Captured with Glowacki in the Laon sector were Albert Raymond, 52, Chicago; Murphy Shipley, 45, Cincinnati, Ohio; and Louis Schrie, 44, Berne or Fort Wayne, Ind. Their whereabouts was still unknown.

Wider Circle Than In 1914

BERLIN, June 8 (AP)—The south-westerly direction of the German offensive on the Somme indicates that Hitler is aiming at Paris by a wider plan of encirclement than that of 1914.

In the World War, the Frenchmen of Joffre, after a brief defense along the line now held by the Frenchmen of Weygand, fell back to defense positions on the Marne, where the decisive battle of the war was fought.

In that war the Germans never swung their circle far enough west to take in Le Havre, the great channel port at the mouth of the Seine west of Paris.

This time, however, they already have engulfed Abbeville, at the mouth of the Somme, and have indicated their right wing is aimed at Le Havre and, perhaps even Cherbourg, on the peninsula to the east of Le Havre, across the broad Baie de la Seine.

Such an operation, if successful, would hold Paris in a vast, clutching hand from north and west, isolate her from England and, perhaps, lead to the capital's capitulation.

The normal annual honey production in the United States is 160,000,000 pounds.

2,000,000 Taxpayers Would Be Added By New Income Rates

WASHINGTON, June 8 (AP)—All present income taxpayers will hand over more money and an additional 2,000,000 persons with small incomes will become taxpayers next March 15, if a tentative proposal of a house sub-committee becomes law.

The sub-committee, writing a defense tax bill, voted yesterday to reduce personal income tax exemptions from \$2,500 to \$2,000 for married men or heads of families and from \$1,000 to \$800 for single persons. The present \$400 additional exemption for each child or other dependent was left unchanged.

Taken in connection with another provision of the pending tax bill, the committee's decision means that a childless married man whose salary is \$2,500 would pay \$11 annually instead of being untaxed.

That example does not allow for such deductions as charity, but it does take into account a 10 per cent "supertax," already provided in the revenue measure, which would require all income taxpayers to add one-tenth more to their payments.

Rep. Cooper (D-Tenn.) sub-com-

mittee chairman, estimated that the treasury would obtain \$2,000,000 a year additional from lowering the exemptions, provided the supertax was retained.

HAPPY RELIEF FROM PAINFUL BACKACHE

Many of those gnawing, nagging, painful backaches people blame on colds or strains are often caused by tired kidneys—and may be relieved when treated in the right way.

The kidneys are Nature's chief way of taking some acids and poisonous waste out of the blood. They help most people pass about 2 pints a day.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with stinging and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood, Get Doan's Pills.

Aviation Unit Is Named By Governor

AUSTIN, June 6 (AP)—Texas marshaled nine of its outstanding military, business and professional men today for a conference on this state's participation in aviation phases of the national defense program.

Board members—composing the national defense aviation board for Texas—were summoned by Governor W. Lee O'Daniel to meet with him and Congressman Lyndon B. Johnson for a discussion of the group's probable functions.

The members were named by the governor following a conference with Johnson who flew here from Washington and reported President Roosevelt said creation of the board "would be a fine undertaking" and could provide the federal government with data "urgently needed."

The governor announced the board was named because of the "urgency of aviation training facilities for our war and navy defense expansion program, and the fact that Texas is ideally adapted for such aeronautic training bases."

In a telegram to the president Governor O'Daniel said the board was at the service of the president and the war and navy departments.

Members were R. W. Briggs of San Antonio, John A. Mobley of Corpus Christi, Maj. C. C. Scott of Houston, Maj. J. R. Patton of Houston, Gen. John A. Hulien of

Fort Worth, Arch Underwood of Lubbock, Col. R. C. Caldwell of Houston, T. E. Jackson of Dallas and Robert J. Smith of Dallas. Johnson expressed the opinion the board would be of great value in facilitating construction of naval and army air training bases in Texas. The personnel of the group is such, he said, that all necessary data would be quickly available to members.

He added that it was his opinion Texas, with the aid of the advisory group, could play an important role in providing facilities for training pilots necessary for the defense armada of 50,000 airplanes envisioned by the president.

He pointed out that the proposed naval training base near Corpus Christi, for which a \$25,000,000 appropriation is nearing final approval in congress, could well be the first of several naval and army bases in Texas, particularly if the advisory group can marshal, digest and present to the federal government all helpful information.

PACIFISTS PROMISE TO STOP ACTIVITIES

LONDON, June 6 (AP)—Six leading members of the Pacifist "Peace Pledge Union" accused of sponsoring a poster calculated to create disaffection in the armed forces pleaded innocent today, explaining the poster in question originally was issued in 1938.

They pledged themselves to refrain from such an offense as that charged against them, and were put under bond.

THE ODESSA HIGH SCHOOL BAND (above) following its triumph in being chosen official band for the year by the West Texas chamber of commerce—an honor won at the Big Spring convention—has been designated by President J. L. Greene as official band for the Permian Basin Association convention, which will be held in Odessa June 11 and 12. The Odessa planning committee in turn has named the colorful 75 piece band, which is directed by G. Ward Moody as host to thirty other bands, both high school and college, which will be invited to participate

in the convention programs. Three cash prizes have been set up as band awards, \$30.00 for first place, and \$20.00 for second, and a third of \$10.00 for the best drum major, in a contest to be held during the convention. The Odessa band will not be eligible for participation in the contest in any manner as host band. The colorful musical programs arranged under the direction of Moody, the local chairman, will lend a gala air to the general sessions of the convention. In addition, several concerts have been planned to entertain families of the conventioners outside of the sessions.

AN ANALYSIS OF THE WAR DEVELOPMENTS

By DEWITT MacKENZIE

The Allied forces withstood the initial German onslaught yesterday well, and French military leaders said the situation this morning was "fairly good."

The nazis renewed their assault with great fury at dawn today and their version of the position is that they have broken the French line at several points.

This battle which likely will decide the outcome of the war hasn't proceeded far enough for us to draw sweeping conclusions.

The French Poles appears to have performed his good deed of the day with splendid morale yesterday, and the cunning of Allied Generalissimo Weygand was in evidence in the sturdiness of his line of defense at the outset.

Beyond that we cannot go at this moment, for we know that Weygand will have performed wonders if he is able to hold that line anywhere near its present position. In directing perhaps the greatest defensive action of history, he is trying to match superior military strength with skill and the spirit among his willing troops to do or die.

The heaviest German attack this morning was directed at the French extreme left wing, which rests on the coast near Abbeville. The French state that they made a slight withdrawal here.

The immediate purpose of the drive in this sector is (1) to turn the Allied wing, and (2) to race down the coast and capture the great port of Le Havre. This is the

French end of the lifeline between France and England, and its possession by the Germans would render it extremely difficult for the British to carry aid by water to their allies.

There may be a further purpose, premised on the success of the turning operation. The Germans may try to extend this arm to form one side of a great pair of pincers to envelop Paris, the other arm developing from a thrust in the Ailette river region near the center of the allied front.

This coastal attack, and the other main German thrusts, have been shrewdly placed along the great railway lines leading to Paris. If you will glance at your map you will see that Abbeville (near the coast), Amiens, and the general region of Ham, where heavy fighting is proceeding, all are on important railroads, possession of which will be invaluable to the nazis if their war machine is able to roll on toward the capital.

Moderate withdrawals of the French at various points may be primarily for the purpose of occupying stronger positions. You will have noted that dispatches speak of the French line as being constructed "in depth." What that means is this:

Instead of having a solid line, big and little strategic points along the whole front are defended as best suits the situation, and there may be very considerable spaces between these defensive positions which have no troops in them at all, but are dominated by machine-gun nests and other weapons and devices.

In many a battle a single machine-gun nest containing perhaps two or three men has been able because of its dominating position to control several hundred yards of "front." These strategic points are dotted all over the front, running back for long distances in some cases, and taken together they constitute the "line." So you can see that a withdrawal at any point may be merely a readjustment.

The French report that the German loss in tanks which form one of the greatest menaces to the allies, has been very heavy because of the operation of the depth line. The Poles have merely moved out of the way and let these steel monsters run through, after which the line has again been closed. The tanks thus cut off have been blasted to pieces by the famous French 75's, which are fired at point-blank range.

In speaking of these deadly tanks it seems strange to me now to recall that only twenty-four years ago I saw the first tanks of history operated in this self-same area in the first battle of the Somme. They were ugly looking little beetles, but there wasn't much venom in their fangs. They were strewn all over the battlefield—out of action for one reason or other.

That, of course, was in 1916, and by the time we got the second battle of the Somme in 1918, tanks had come to stay among the world's fighting machines. I suggested yesterday that we could look for very heavy bombing military objectives in England in connection with this offensive, and last night we had confirmation of this idea in widespread raids. The Germans apparently were seeking airports and docks, and British reports indicate that the invaders met with small success.

As matters stand, the Germans haven't had much luck with their raids over England thus far. This would seem to indicate that the British defenses are good, as they certainly need to be, for the little island is terribly vulnerable to air attacks.

FIVE ARE KILLED AS BOMBER CRASHES IN BARRAGE CABLE

LONDON, June 6 (AP)—Five persons, including three civilians, were killed last night when a Royal Airforce bomber struck a balloon barrage cable on the northeast coast and crashed into a row of miners' houses in Northumberland, the air ministry announced today.

One house was demolished. The balloon barrage is a system of captive balloons designed to wreck invading planes with their trailing cables.

"MURDERED"

BERLIN, June 6 (AP, By Radio)—The German radio asserted today that 72 Germans, Italians, Rus-

sians, Netherlanders, Belgians, Danes and Swiss had been "cruelly murdered" behind the allied lines in connection with the German offensive in western Europe.

About one-quarter of the entire output of maple sirup in New York and Vermont goes into treatment of tobacco to give it sweetness and flavor.

Murderess Shouts Threats Against Officials

ODESSA, June 6 (AP)—Threatening to "kill every one of you," Isabelle Mesamer, convicted murderess, was back in the Ector county jail today to await transfer to the penitentiary.

She escaped April 8 after being convicted of slaying Buford Armstrong, Odessa baseball player, and sentenced to three years.

The woman was returned yesterday by plane from Tipton, Ind., where she was captured.

"I'll get out somehow," she screamed. "I got out before and I'll do it again and I'll kill you. I killed one man and I will kill you."

She was addressing Sheriff Reeder Webb and County Attorney O. E. Gerron.

IN CHARGE OF TRAFFIC!

USE THE PROGRESSIVE MERCHANTS' GUIDE TO MORE SALES VOLUME—The Daily Herald

THE PROBLEM of getting sufficient customer traffic into a store is recognized by every merchant. With few exceptions, the life and success of a business is in direct proportion to the number of possible buyers that daily pass through the doors. Similarly, every established merchant realizes that the customer who enters his place of business is in search of certain quality at a certain price. The successful business man stocks the items in the quantities and qualities desired by his customers.

But after a merchant stocks the right merchandise and recognizes the need for customer traffic, what shall he do then?

He can follow the lead of successful merchants still further! He can advertise! He can tell families living in Big Spring and its environs about his business and his merchandise. He can make them special attractive offers to increase his store traffic.

How can he reach those necessary families for the least amount of money and with the greatest amount of certainty?

He can advertise in The Daily Herald, the newspaper that is read and accepted by these families daily!

"DAY IN AND DAY OUT" ADVERTISING IN THE DAILY HERALD BRINGS CONSISTENT RESULTS!

Case histories of ads run by consistent advertisers show an even greater degree of success than those run by occasional advertisers. Regular Daily Herald advertisers build up an acceptance in the minds of readers. Their ads have an identifying continuity that potential customers look for. Day in and day out advertisers secure consistently excellent results. Why not investigate The Herald's possibilities for you?

County Agent Meets With Moore Club

MOORE, June 6.—County Agent O. P. Griffin met with the Moore 4-H club boys Monday to discuss their work with them, and to check each boy's demonstration. Plans were laid to give a community forty-two party on June 6 in the gymnasium. A small fee will be charged those who play. Refreshments will be served. The public is invited to attend. Proceeds will be used to help defray expenses of the club boys who will attend the county 4-H encampment which will be held at the Hall ranch in the near future. Boys attending the meeting were: Edd Burchett, Bob Adkins, Delbert Shultz, Norman Newton, Johnnie Ray Broughton, and Bill Ward.

Popular Marriage Age Is Eighteen In Alabama

MONTGOMERY, Ala. (UP)—Eighteen is the most popular marrying age for girls in Alabama.

Nearly one-fourth of the state's total of 30,339 brides in 1938 were 18 years old, a survey by the state health department discloses. A total of 7,097 were only 18 years old.

More than 50 per cent of the total, too, were under 21. There were 15,788 who gave ages as between 13 and 20.

Mariage Bureau Does Busy London Business

LONDON (UP)—While war has doubled and trebled the number of marriages, it has also made sweeping reductions in the marrying age. The pre-war marrying age was drifting perilously near the 30 and upward stages, but it has gone back with a bound to the early 20s.

Two young women, Miss Heather Jenny and Miss Mary Oliver, who started a marriage bureau in Oxford street six months ago, are doing such a prosperous trade that they have put up as an additional inducement a \$200 bonus to babies born of marriages arranged by them within the first year of the war, the only condition being that the father must be in the fighting forces.

with a fish fry in her home recently at Center Point. Mr. and Mrs. Carl Hammack were among the guests.

Boy Speaks First Time In 12 Years Of His Life

LONDON (UP)—When for the first time in his life 12-year-old Peter Cripps spoke, after an operation had restored his power of speech, he asked for "some hot but-

tered toast, please."

Since his windpipe was removed when he was 2, the boy has had to breathe through a rubber tube opening from the front of his neck. His efforts at speech were unintelligible. But now modern surgery has given him a real windpipe made of skin grafted from his left arm.

Custards Help Keep Summer's Health

A molasses chiffon pie is a good summer dessert, and a healthful one.

By MRS. ALEXANDER GEORGE AP Feature Service Writer

Molasses becomes lighter as summer draws near, but don't let the family's meal get too light on nutrition.

Most grown-ups, as well as the more active youngsters, need their full quota of eggs and milk to keep them hitting on high.

So plan desserts featuring assorted creamy custards, pies with frothy fillings and toasted brown meringue and fresh fruits and berries.

This custard danville, velvety in texture, uses up extra egg yolks. It's delicious, chilled and poured over peaches, bananas, pears or apricots.

Beat 4 yolks in the upper part of a double boiler, mix in 1-2 cup granulated sugar, 2 tablespoons flour, 1-8 teaspoon of salt and a speck of nutmeg.

Blend thoroughly. Pour in 4 cups of milk. Cook in the double boiler until custard thickens slightly.

Stir constantly and be careful not to overcook. When custard is a little thick, remove the upper part from the lower part of the boiler, add 1 tablespoon of butter to the custard and beat thoroughly.

Cool and pour in 1 teaspoon vanilla, 1-2 teaspoon of almond extract and 1-4 teaspoon lemon extract. Chill and the custard is ready to use.

Make half this amount if the family is small. If you are a coffee hound, try this Mocha Almond Custard. Melt 4 tablespoons of butter and mix in 4 tablespoons flour, 1-2 cup granulated sugar, 1-3 teaspoon of salt, 1-2 cup strong coffee and 1-2 cup milk.

Cook slowly and stir constantly until creamy and thick. Add 4 egg yolks, 1 teaspoon vanilla, and 1-2 cup shelled almonds. Lightly fold in the beaten whites and bake 35 minutes in a buttered baking dish in a pan of hot water in a moderate oven—350 degrees. Cool a little and serve plain or cream topped.

Fruit Chiffon Dessert fills the bill for the frothy, fruit filled pie. Mix together 1-2 cup granulated sugar, 1-4 cup flour, 1-8 teaspoon salt, 1 tablespoon lemon juice and 1-2 cup each of orange and pineapple juices and water.

Cook in a double boiler until very creamy and thick. To lots of folks, old-fashioned Custard Pie holds the list of pastries so make up this one: Blend 1-4 cup granulated sugar with 1-8 teaspoon each of cinnamon, nutmeg and salt.

Add 4 well beaten eggs, 1 teaspoon vanilla and 2 cups milk. Pour into an unbaked pie crust. Bake 10 minutes in a hot oven—350 degrees and then reduce the heat to 300 and bake about 30 minutes—or until the filling is firm (but will shake a little) in the center. Cool on a wire rack.

Put molasses, milk, sugar, chocolate, spices, and slightly beaten egg yolks in top of double boiler and cook for 15 minutes. Add gelatin, which has been soaked in 1-4 cup cold water for 5 minutes.

When gelatin is dissolved, remove from stove and chill until thick as jelly. Fold the jelled mixture into the stiffly beaten egg whites. Pour into a baked pie shell and chill. Serve with whipped cream.

Book Tells Of J. D. Sandefer's Life And Work

ABILENE, June 6.—The contribution of a Christian educator, nationally known, to the building of the empire that is West Texas, is the story told in the newly published biography of Jefferson Davis Sandefer, for 21 years president of Hardin-Simmons university, here in Abilene.

Dr. Sandefer, a namesake of Jefferson Davis, the great southern statesman, was president of Hardin-Simmons from 1909 until his death last March 22.

The biography, titled Jefferson Davis Sandefer, Christian educator, was written by Inez Woodward Sandefer, a daughter-in-law, and wife of the late prexy's younger son, Gib, and is published by the Broadman Press, in Nashville.

From Dr. Sandefer's birth in a cabin on "Peckerwood Creek, on Nubbin Ridge, near Evening Shade in Sharp county, Arkansas," through boyhood days as a rail-splitter, to become a self-made man and educator, and rise to a role as the dean among senior colleges and university presidents in the Southwest, a position that was his for several years before his death, is the story the biography tells.

"It is absolutely the finest presentation of the cause of Christian education as envisioned and expressed in the life of one man that we have ever seen," said Dr. John Hill, Nashville publisher. "It contains facts and cheer for all who believe that the building of character is the chief end of education."

Dr. R. N. Richardson, Hardin-Simmons executive vice president, and Southwest history authority, termed it a "great inspirational volume, and a fine life story of a great Christian layman and educator."

"It is more than a biography. It is an account of the educational and cultural development of West Texas," said Wendell Bedichek, managing editor of the Abilene Reporter-News, in the first review of the 376-page illustrated volume received.

Inez Woodward Sandefer, the biography's author, is a Nolan county and West Texas girl, whose mother died in early childhood, and who was reared by her grandparents, the late Mr. and Mrs. P. T. Woodward, of Roscoe. She is an alumnus of Hardin-Simmons, and was a campus favorite as an undergraduate. She holds bachelor and master's degrees from H-SU.

MURDER AND SUICIDE VERDICT IN DEATHS OF PAIR AT WACO

WACO, June 6 (AP)—Dan Walden, about 44, and Mrs. Minnie Oates, about 43, were slain early today in a double shooting at the woman's residence here.

Justice of the Peace Wayne E. Lee returned an inquest verdict of murder in the death of Mr. Oates and suicide in the death of Walden. No motive for the slayings were advanced.

Lee quoted Lois Oates, 15-year-old daughter of the dead woman, as saying: "He had been threatening her for some time. When he drove up this morning and walked up on the porch, I asked mother if I should let him in and she said that I should."

"About two minutes later I heard two shots in her room and mother screamed x x x. I ran into the front yard as I heard several more shots."

Police said a .38 caliber pistol was found at the scene.

Would Provide 'Everything' To Aid Allies

CHICAGO, June 6 (AP)—Col. Frank Knox advocated today that the United States furnish France and Great Britain with everything short of soldiers to help win the war.

"Our neutrality has been a sham," said the publisher of the Chicago Daily News, who was the republican vice presidential nominee in 1936. "We have always been for the allies, and anything we have done or can do to help them

will be a direct contribution to American security."

Three weeks ago, with the approval of President Roosevelt and the army's chief of staff, Col. Knox initiated "aviation Plattsburgs," a patriotic civilian movement to train 15,000 pilots in military flying this summer and 30,000 men during the next school year.

In today's interview he dealt with American defense problems in their broadest aspects, solemnly declaring it was "simply impossible to exaggerate the danger facing America if the allied cause is lost."

Col. Knox recommended that the United States army make its first line fighting planes available to Britain and France while there was still time to use them.

"Five hundred planes would be a Godsend to the French right now," he said. "We are not in any immediate danger, and we could quickly replace ships sent to Europe with even more up-to-date models. We might also sell the allies our over-age destroyers without impairing our naval strength. It would be much better to send them our ships and planes now than our boys later."

INVESTMENT FIRM CHIEFS CONVICTED OF MAIL FRAUD

MADISON, Wis., June 6 (AP)—A federal court jury last night convicted B. E. Buckman, president, and Louis C. George, vice president, of B. E. Buckman & company, defunct Madison investment firm, of mail fraud and securities law violations.

The jury, which deliberated about five hours, freed five associates, named with the officers in the 15-count indictment.

Those freed were Edwin J. Crofoot, of Bay City, Texas, manager of several former Buckman operating companies, and former salesman Richard E. George, of Kansas City, Mo., brother of Louis; Wilbur W. Malkoon, of Bannock, Mo.; Fielding T. Spain, of Milwaukee, and Clarence D. Winebrenner, of Madison.

No 'Mass Drive' By Govt. Agents

WASHINGTON, June 6 (AP)—Attorney General Robert H. Jackson declared today that any inference that the justice department contemplated "a mass drive or wholesale arrests" in connection with the defense program was "wholly unwarranted."

Jackson made that assertion in reference to statements in the budget bureau's letter dealing with a request for \$3,358,800 for the Federal Bureau of Investigation, chiefly to add 500 agents to the force now engaged in national defense work.

In connection with another request for \$500,000 additional for salaries and expenses of United States marshals, the bureau had said:

"It is also anticipated that there will be a great number of prisoners to be handled x x x. In addition thereto marshals and deputy marshals may be called upon to guard and protect federal or seized property and to serve a large volume of process."

"We do not anticipate any abnormal increase in the number of prisoners," Jackson told newsmen.

The statement of the budget bureau does not say that an increase is expected. The number of federal prisoners has been for years increasing steadily, and the statement points out the fact that a great number require handling."

Woman Finds It Pays To Answer Other's Phones

LONGMEADOW, Mass. (UP)—Answering other people's telephone calls can be turned into a profitable business.

Mrs. Helen S. Usher got the idea about two years ago, and with a battery of extension telephones at her home she handles after-hours calls for several Springfield fuel oil companies, acts as liaison agent for a Boston manufacturing concern and routes repair men in the middle of the night for emergency repair jobs.

The service, operated on a 24-hour basis, is growing rapidly, and Mrs. Usher plans to expand operations to incorporate the functions of waking tired business men by telephone and reminding forgetful patrons in advance of birthdays, wedding anniversaries and important business appointments.

Speeder Escapes Fine, Feared Spies In Pursuit

DETROIT (UP)—Traffic Judge George T. Murphy has given tacit approval to people who hurry in belief they're safeguarding United States secrets.

James Gordon, an engineer who said he had access to navy blueprints, was taken into court on a charge of reckless driving, as was John Chisholm. Gordon explained he speeded when Chisholm's car chased his, fearing spies were after him. Chisholm said he was only angry because Gordon tooted his horn in traffic.

Judge Murphy found Gordon innocent, but said Chisholm must pay a \$50 fine or serve 10 days in jail.

Indian Press For Right To Fish Without Permit

SPOKANE, Wash. (UP)—Whether Indians can fish in Washington without a state license will be placed before the state supreme court once again.

The question, growing out of an 1885 treaty in which the Indians claim they received the right to fish at their usual places on the Columbia river, previously was carried to the U. S. circuit court of appeals.

A federal district court ruled the Indians needed a license. When the case reached the circuit court, that body held that jurisdiction of the state courts had not been exhausted, and recommended that it be brought up once more.

Grain Trade Is Almost At Standstill

CHICAGO, June 6 (AP)—Intricately geared machinery of the domestic grain trade, thrown into confusion by blitzkrieg on the western front, faces a state of partial paralysis, market experts said today, should prices recede much further.

Instead of the booming market activity and prices that many grain men had believed would accompany war, values have collapsed and trading has been choked almost to a standstill in some instances.

As a result, many trade experts are seriously concerned because the season of heavy grain marketing is approaching. However, John G. McCarthy, board of trade president, expressed confidence that the market would be able to work out of the situation in its own way.

At this time of year, experts said, a large volume of speculative purchasing by trade interests and the general public usually is necessary to carry the risk of ownership of quantities of grain moving to market, especially wheat.

The futures market offers the machinery for doing this job because it is through sales and purchases of contracts calling for delivery of grain at some future date that the risk of ownership is delegated to those willing and able to take it. This is important, they said, in financing the crop movement.

What has thrown the monkey-wrench into this machinery and stagnated the markets? Grain experts pointed first to the severe liquidation of market holdings in mid-May following the German invasion of the low countries. Prices of all grains plunged headlong, seriously upsetting the domestic agricultural picture at a most inopportune time because producers were making farm plans on the basis of market prices.

Great Field To Bid For Texas Golf Crown

University Star Low In Early Drill Rounds

SAN ANGELO, June 6 (AP)—Tom Miller, Jr., hefty University of Texas student, was the boy they watched today as the field tried off in qualifying rounds of the Texas amateur golf tournament.

Miller rolled in with a sub-par 70 yesterday to top practice scores, establishing him as a strong contender for the title now held by Don Schumacher, the Dallas star who turned in a 72 a stroke over par.

They were calling it the "tournament of champions" what with Schumacher, Reynolds Smith, former state title, Billy Bob Coffey, the state open king, Bobbie Riegel of Houston, Texas champion two years ago, Blaine McScott of El Paso, champion of Ohio Mexico, Morris Norton of Wichita Falls, present West Texas chief, Felix Todd of Dallas western amateur king, and others with various and sundry crowns.

LOCAL PLAYERS ENTERED

Representing Big Spring at the Texas Golf association's 30th annual tournament at San Angelo this weekend will be Shirley Bobbitt, Olin Bristow and Bob Schermerhorn.

Bristow has been in San Angelo since the first of the week practicing for the meeting. Robbins left for the Concho city Wednesday.

Another entry from this vicinity is Poe Woodard of Stanton.

BARONS HAVE CHANCE TO MOVE UP

By HANK HART

Rallying behind the effective six hit pitching of Andy Mohrlock with a timely mace assault, the Big Spring Barons bounced back into the win column and the battle for fifth place in WT-NM league standings with an 8-3 triumph over the Clovis Pioneers here Wednesday evening.

In gaining his second victory in two starts, Mohrlock looked very good. He had his troubles in the early rounds but the ball work was simply routine once he got the hang of it.

Unsteady play behind him more or less led to all three Clovis runs, which were bunched in the second round. Wyman Hunicutt quered a possible double play when he dropped a throw to second by Eddie Laurel and the Pioneers used that break to start their rally and take an early lead.

The Barons retaliated with a two run outburst in their part of the heat when Eldon Muratore slapped out a terrific double with two mates aboard.

The steady elbowing of Ray Horgan enabled the New Mexicans to hold a lead through five rounds.

A series of "Premium Nights" will be inaugurated at baseball games played in Big Spring beginning tonight. Local merchants are cooperating in offering prizes to lucky fans.

Among business houses that are giving merchandise prizes are Troy Gifford's Tire company, Robinson and Son Grocery, Miller Brothers' Tailor, Crawford Beauty Shop, Elliott Drug Store and Montgomery Ward.

To each winning Big Spring pitcher during the home stay will go a chicken dinner offered by the Crawford cafeteria.

To the Big Spring player driving in the most runs in tonight's game, the Crawford Barber Shop will offer a free meal at the Crawford cafeteria.

The final player driving in the most runs in Friday night's game will go a box of cigars offered by the Hestand-Kimball Wholesale grocers.

In the sixth Carl Cox finally started a rally that turned the tide tipping out against the left fielder in the leadoff man. Coxey waited until Lamberg had bounced helplessly to Chuck Harrison, then dashed home on Bill Garbe's infield bopper that Hoscoe Hunt took and threw wildly to Walt Schmidt at the plate.

Keeping scoring
That tied the score but the Barons were not through. Garbe had scored for second on the throw in and came home a moment later on Muratore's second double and third hit of the evening.

In the seventh a double by Laurel and singles by Hunicutt and Garbe gave the Big Springers two additional runs.

A big eighth round saw the Barons all but settle the outcome when Mohrlock and Laurel succeeded in scoring on a misplay by Johnny Stone in right field.

Outside of the second when Hack Harrison and Smitty Smith hit safely, the Pioneers could garner no more than one hit an inning.

The Barons committed seven errors in all, five of them in the first four rounds. Three double plays helped out tremendously, however.

Only a small crowd was on hand to greet the Barons' return home. The Big Springers need a victory over the Pioneers this evening to gain a deadlock with the New Mexicans for fifth place in WT-NM standings. A loss, however, could possibly move the locals into the cellar.

Pellegrini will do hill work for the Pioneers this evening. The two teams close out their series Friday evening.

Ladies Night will be observed Saturday night instead of the customary Monday evening at Baron park, according to an announcement made by Manager Tony Rego.

The Monday evening game is in charge of the Kiwanis club, which has been staging a huge ticket drive for the Crippled Children's fund.

Lubbock's Hubbers open a three game series beginning Saturday night.

STUMP THE UMPS
Complex Play Throws Game Into Turmoil

THOMASVILLE, Ga. (UP)—George Florida Game umpires are still shaking their heads about the puzzle play that occurred during a game game between Thomasville and Cordele.

Cordele had the bases full, with Purvey on first and Heller at bat. Heller fled out to right field and the runners all tagged up and started to advance. But the catcher let the throw from the outfield get away from him and the runners started home.

Three runs crossed the plate and were duly marked up on the scoreboard to note that Purvey, who had been on first, was now on third. Umpire Patay Varble checked the batting order and ruled one of the runs, was out for passing a runner. That made two out and the game was resumed.

But then a Thomasville player protested that Heller was already

Snead, Hogan Are Open Favorites

Wind May Play Havoc With Pros' Games

CLEVELAND, June 6 (AP)—Golf's greatest show the national open championship, sent an all-star cast of pro smashers into battle against wind and distance at Canterbury golf club today.

The defending champion is slender Byron Nelson of Toledo, Ohio. Lined up against him are some 100 other top flight professionals and amateurs. And up against all of them are the 6,921 yards of Canterbury's tricky terrain.

The players known to be consistently long and straight are given the best chance of licking the winds and Canterbury's par of 36 22 over the three-day, 72-hole guild.

"Slamming Sam" Snead and little Ben Hogan are rated co-favorites at 6-1.

But there are a dozen or more others rated excellent chances. Ralph Guldahl, holder of the open title in 1937 and 1938, made no secret of the confidence he has in himself to become a three-time winner. He and Nelson are bracketed in the second choice wagering with Jimmy Demaret of Houston, Texas; Craig Wood, recent winner of the Metropolitan open with a record 5 and 24; and Lawson Little, twice winner of the British and United States amateur titles and low qualifier for the nation in the sectional tests.

Ben Daniels' Anderson Devils thumped the Carnett's Sportsmen, 6-4, as both teams opened bids for second half Major-City softball league title at the city park Wednesday evening.

The Devils confined their scoring to two innings, chasing across three runs in the fourth, then duplicating that feat two innings later.

Maxie Carroll, on the hill for the Sportsmen, gave up a total of seven base blows including three by Frank Barton.

In a practice game, Speedy Moffatt's Fire Boys of Stanton won an exhibition decision from the Phillips Tiresmen, 7-4.

Moffatt's crew took advantage of Toby Cunningham's streak of wildness in the first round, chasing across six runs without a base hit and was never headed.

CROSS TO HONOR MARQUETTE LUDINGTON, Mich. (UP)

Within a few months a large, stainless steel cross will point skyward from a lonely spot on the Michigan dunes south of Ludington. It will perpetuate the memory of Pere Jacques Marquette, Jesuit explorer and missionary who died while returning to Northern Michigan from a journey to Illinois.

out, since he had fled to right field and, consequently, there were three out and the side was retired.

This called for a conference among umpires, players and fans, and finally somebody pointed out that after flying out, Heller had simply continued around the bases and been counted as one of the scoring runners.

One run was taken down from the scoreboard, Purvey resumed his post on third base with two out, and everybody was satisfied.

Local Women Ousted At Abilene

ABILENE, June 6 (AP)—Big Spring's representatives in the Texas Women's Golf association tournament were eliminated in quarterfinals here Wednesday afternoon, Mrs. Alice Phillips losing to Mrs. J. H. Hall of Wichita Falls, 6 and 4, while Mrs. Harry Stokup was being ousted by Mrs. W. K. Powell, San Angelo, 4 and 3.

Mrs. Hall and Mrs. Powell will battle in the lower bracket of play while two Odessa women, Mrs. Sam O'Neal and Mrs. Elmer Shows, will square off in the other semi-final match.

Mrs. O'Neal, medalist, kayoed Mrs. J. W. Ross' game, 6 and 5, while Mrs. Shows disposed of Mrs. Ted Hurst's, Abilene, 4 and 3.

In the first flight, Mrs. Oble Helstrom, Big Spring, was sprung by Mrs. Vera Minter, Abilene, one up. Mrs. W. A. Daly, Big Spring, was bested in a third flight match by Mrs. Bob Reed, San Angelo, 5 and 4, while Mrs. Serena Tate, Big Lake, lost a fourth flight duel to Mrs. Laura Stitch, Abilene, 3 and 2.

CHICAGO, June 6 (AP)—Johnny Paychek is through with the ring. He decided today to hang up his boxing gloves following his tenth round knockout in the coliseum last night at the hands of Althus Allen, a 19-year-old Chicago negro heavyweight.

Paychek said he has lost all desire for boxing, that since Joe Louis knocked him out in four punches nine weeks ago his coordination had been impaired.

Blood Pressure Worries Eastern BOSTON (UP)—If your blood pressure is high when tested by a doctor, don't work too much, Dr. David Aymon of Boston advises. He told the Massachusetts Medical Society that patients taking their own blood pressure at home record considerable lower readings than if the test were made in a doctor's office.

Pension Client Cautious And So Loses Everything DENVER (UP)—A Fremont county old-age pension client, who refused a \$1,000 offer for a \$60 piece of property because he feared the money would deprive him of the Colorado benefits, is without both the money and the payments, whereas he could have had both.

Wm. M. Keane, director of the state welfare board, revealed that the unidentified client could have evaded a state regulation prohibiting ownership of property valued at more than \$500 by selling it for the \$1,000. Thus his payments would have continued. His refusal resulted in his dismissal from state rolls and meantime the \$1,000 offer was dropped.

LARGENTS UNCOVER A FINE PROSPECT ON OWN DOORSTEP

By HAROLD V. RATLIFF

MCKINNEY, June 6 (AP)—Mr. and Mrs. Roy Largent travel 30,000 to 35,000 miles a year looking for baseball talent to send to the Chicago White Sox but they found Howard Wafer practically sitting in their front doorstep.

The McKinney high school sensation, over a period of three years, has averaged a dozen strikeouts and held the opposition to four hits per game. Mrs. Largent calls him a major league prospect of the first order.

Wafer still runs the risk of being mobbed by baseball scouts because he hasn't signed anything with the White Sox. However, Mrs. Largent intimates a "sort of understanding" with Howard.

Wafer is not going into professional ball just yet. Only 17, he thinks he's too young and plans to attend college a couple of years.

Mrs. Largent predicts "unless something happens to his arm he'll be ready for the big leagues in a year or two."

Wafer, 6 feet 1 1/2 inches tall and weighing 174 pounds has pitched 170 1/3 innings, won 18 games, lost 4 and struck out 271 batters in his three seasons in high school.

Twice the past season he struck out 21 batters in a game and only twice did he fail to fan as many as ten.

He pitched two no-batters, and only two teams during the year were able to get more than two hits off him.

They call him "Nubby" because the little finger of his right hand is missing.

If he fails as a pitcher he still is considered one of the best infielders in these parts.

Also, he's quite a hitter. Whether playing shortstop or pitching he bats in the cleanup spot.

The second half schedule of the Major-City softball league will run through July 18. The schedule was drawn up by M. F. Malone, city recreation director, following the Monday evening meeting of the team managers.

Seven teams, including the Coahoma Bulldogs, will compete for the second half flag. The Bulldogs formally entered the race Wednesday. They will play their first round game Friday evening against the Carnett Sportsmen.

The schedule:
Tuesday, June 4: 8 p. m.—Vaughn's Sweet Shop vs. Standard Oil.

Disturbing reports Jack Zeller, general manager of the Detroit Tigers, is the depressing effect the European war is having on American baseball.

Zeller, interviewed by Sports Editor Lorin McMullen of the Fort Worth Star Telegram, said a recent tour of the minors had revealed that baseball fans are thinking and talking war—especially if the home club is losing. Only stabilization of the conflict, quieting it down to a long struggle without the daily sensational developments, will get baseball fans back to thinking baseball.

The Sports Parade

An excerpt from the Odessa News-Times: "If you're a baseball fan, here's a chance to prove it. A team in the WT-NM League would like to come to this town permanently.

"If enough interest is shown by baseball fans, the team will move here—with bus, baseball equipment and everything necessary. Lights will be re-installed at the ball park and everything put in readiness for opening night.

"All that the team owner asked was 'Get me a capacity crowd on opening night—and I'll take a chance the rest of the year.'"

"The team will have 40 home games and tickets for opening night will sell for \$1—if and when the team moves here.

Curt Schmidt returned to Big Spring from Sacramento, Calif., last night and will get into Tony Rego's lineup tonight, according to the little skipper, replacing Buck Schulze, hurler who has been filling in at center field.

Tony Wednesday made a move to sign Stanley Bolton-ex-Amarillo gardener who is out of professional ball at the moment.

Stan hit .317 for the Gold Sox in 1939, accumulating 135 hits and scoring 86 runs, had 32 doubles, six triples, ten home runs and drove in a total of 85 tallies.

Rego also is making a bid for the contract of one of this league's better gardeners, is talking terms with the manager of the player's club at the present.

Pat Stacey, ex-Big Spring, is still managing to get his base hits for the Moline outfit of the Three-I league. At the latest averages he was coasting along with a .371 mark. His outfit isn't doing so well, however, riding in seventh place and there only because Waterloo, the cellar club, has won but five of 27 games.

Harvey Clutter, outfielder who has been with Saint Joseph has been optioned to Pampa's Oilers. He was hitting .355 at the time of the change.

IN THE HUDDLE WITH McKNIGHT—Cooper May Be Man To Watch In Open

By FELIX R. McKNIGHT

DALLAS, June 6 (AP)—One of four home-grown Texans Byron Nelson, Ben Hogan, Jim Demaret and Ralph Guldahl—products of caddy pens, stand "draw straws" chances of winning the national open golf tourney at Cleveland this weekend.

The four stand at even odds, in Texas books, but bunch players gave Guldahl slightly more play than the other three.

Strangely quiet the past several weeks, Guldahl, slo-shouldered Norwegian who won the 1937 and '38 opens, has been on the site of the tournament. Agents report he hasn't missed a daily round.

But one Texan almost totally forgotten is the super special long shot—Lighthouse Harry Cooper. The dapper little Dallas boy wrote his father a few days ago that he had quietly prepared for the open and could be "very ready." He has recovered from his famed "shumba" injury but has been busy with duties at his large Chicago club.

ETexas Loop Starts Anew

By The Associated Press

The East Texas league backed up today for a fresh start with two of its eight clubs out of the running because of financial troubles.

Paletina, a first-division team, and Jacksonville, cellar outfit, dropped out yesterday.

President C. F. Mosley of Jacksonville said the season would be started next tomorrow night and that all games played thus far would not be counted.

Texarkana plays at Tyler, Longview at Marshall and Henderson at Kilgore in opening games of the revised schedule.

Conn Vacates Lighthweight Fight Ranks

DETROIT, June 6 (AP) — Gus Lesnevich, a plodding pugilist from Cliffside Park, N. J., lost his chance to win the light-heavyweight boxing championship last night but he woke up today with the knowledge that the title will probably be his within a few days.

Billy Conn, the champion, rebuilt the blasted hopes of Lesnevich a few minutes after receiving the decision in a 15-round defense of his crown. Lesnevich was in a shower cooling his tired body when Conn walked in. "It was a nice fight, Billy," said Gus. "I have no alibi." "Don't feel bad," answered Conn, "because the championship will be yours in a few days. This fight convinced me I can't take off weight any more and from now on I'm a heavyweight. You can beat the other light-heavyweight."

"But I don't want the title that way," remonstrated Lesnevich. "I want to win it in the ring." "If you want to fight me again become a heavyweight," said Conn, thereby signaling his vacating of the title. He says he hopes to get a shot at heavyweight champion Joe Louis.

Buckled and torn steel from the Exeter, British warship in the River Plate battle, was the first relic of World War II to be entered in London's Imperial War Museum.

U. S. Playing 'I Spy' With Farmers

AP Feature Service
WASHINGTON—Peeping Toms are getting up in the world—the Department of Agriculture is equipping them with planes for a game of aerial "I spy" on U. S. farmers.
Contracts totaling \$200,000 have been let for aerial photography of 102,800 square miles in 16 states. They didn't order the pictures just because they wanted a nice portrait of a county for the family album. They wanted to see if Farmer Brown was fudging on his AAA soil conservation contracts.
Some of the farmers took the conservation benefit payments, and then didn't reduce acreage as contracted. But the too-candid aerial camera puts the stopper on that stunt.
Farmer Brown's acres show up in the aerial pictures, and a gadget called a planimeter quickly tells how much land Farmer Brown has planted, how much is lying fallow, and all the other facts.
Aerial photographs of California, Connecticut, Massachusetts, New York, Illinois, Indiana, Iowa, Nebraska, New Jersey, Pennsylvania, Ohio, South Dakota and Wisconsin are scheduled.
Lay down a smoke screen, Hi ram, here come the government men.

The "planimeter," in operation here, checks aerial photographs as to the area planted to certain crops.

BROKE A TRUST Besides, Man Had Uncut Diamonds Valued At More Than \$75,000

LONDON (UP) — "You broke a great trust—the trust reposed in you as the only white man in a camp and in charge of a mine," said the judge at the Old Bailey, sentencing Donald Harold Hutter, 24, to 15 months' imprisonment for being in possession of 1,224 uncut diamonds valued at approximately \$75,000.
Hutter was in charge of a diamond mine and camp at Sierra Leone and was the only white man in that vicinity. He returned home on leave with the diamonds hidden in his clothing and attempted to sell them at Hatton Garden.

Brine Comes Up In Oil Wells; Then Sent Right Down Again

AP Feature Service
OKLAHOMA CITY — From many of the practices of inland Oklahoma it's less than a mile to salt water. That's because salt water lies directly below the rich oil fields. As an unwelcome by-product of 4,400,000,000 barrels of petroleum, there were 13,200,000,000 barrels of brine. That's enough salt water, experts say, to cover 400,000 acres six inches deep with dry salt.
Formerly, this brine was allowed to drain down natural water courses. Devastation followed. Towns dependent upon rivers for their water supply got a brackish and unhealthful fluid. Trees and crops along the streams withered and died. Livestock perished.
Then the state stepped in three years ago to halt further losses. The big companies, plagued by damage suits for millions of dollars, were glad to cooperate.
Engineers began putting the water back under ground. Today 30 disposal systems are pumping 150,000 barrels of brine daily into the earth. In terms of dry salt, that's six million pounds a day.
The oil companies paid the entire \$1,500,000 cost of the systems, aided in technical phases of the installations by the Pollution Department of the State Division of Water Resources.
The disposal systems are relatively simple. A separator at or near the well cuts the brine away from the petroleum. Gravity lines carry the brine to a treating plant at the downhill end of the fields. There chemicals are added to coagulate the solids and the brine is run through a series of filters to take out impurities which might clog the permeable sands 300 to 7,000 feet below the surface, into which it is pumped.
Oil men's luck gave a fillip to construction of a disposal system by one petroleum company in Pontotoc County. At the lower end of the field, in territory believed to be "dry," drillers struck a 2,600-barrel-per-day gusher and had to move over a quarter mile before completing a successful dry hole.

Television Grows, But Equipment Gets Smaller

AP Feature Service
NEW YORK — Television is showing tendencies to expand—that is in all respects except the amount of apparatus required, particularly for outdoor pickups.
For instance, when New York's tele-transmitter, operated by the National Broadcasting Company with the RCA system, went into operation in the spring of last year, two healthy-sized vans were required to carry the equipment to televise football and other outdoor events. One had the apparatus to make the camera function, the other carried the transmitter to relay the signal to the main station on the Empire State Building.
Now this all has been reduced to such an extent that only about one-tenth as much material, in weight, is needed. In fact instead of two motor vans, a station wagon or even a limousine can haul the equipment around. What's more, the cost is one-sixth of the other unit.
PIONEERS' RELICS FOUND
DEFIANCE, Ohio. (UP)—Leroy Kretzer, working on a farm near here, unearthed a large number of handsome tools and utensils, relics of Ohio pioneers. Included among the pieces which numbered more than 30 were a hoe, spade, mattock, chisels, stirrups, knives, gunlocks, handspikes, awl, door latches and hinges, fireplace hook, locks, a hamp and part of a saw.

PATRIOTIC PATCHES— Cotton Shortage May Make Patch On British Pants Patriotic

LONDON. (UP)—A patch on the pants may become a badge of patriotism in Britain before peace comes to Europe again.
The order of the board of trade restricting sales of cotton, rayon and linen goods to 75 per cent of pre-war quantities may not produce an immediate shortage, but the public has been warned to wear out their old clothes to avert a shortage.
Every new war effort brings a new slogan. The board of trade edict promises to make "Darn for Victory" as well-known as "Dig for Victory."
The restriction will hit hard the luxury shops of Bond street. Almost everything that women wear—blouses, dresses and lingerie—is affected. It will also apply to men's shirts to a lesser degree.
Housewives who pride themselves on their display for the occasional guest are urged now not to be ashamed of a homely patch here and there on the table cloth, the bed sheets and pillow cases.
Manufacturers expect as a first result a shortage in summer cottons such as gingham and English cottons and some are preparing linen dresses for summer wear in standard ranges instead of the usual 10 or 12 different types.
The government still is debating the introduction of pool or standard suits, which were worn in the last war. To a question in parliament recently the ministry of supply said that a "decision has not yet been reached."

Britain has a three-fold purpose in these restrictions. First it wants to release plants and labor for more war aims. Finally the government wants to increase export abroad to build up foreign exchange.
By the restrictions, it was estimated Britain would be able to increase exports by \$45,000,000 to \$90,000,000 annually and at the same time save 500,000,000 square yards of material.

Chapter 14 THE NEW ROOMER

After dinner Norma and Lance and Frank, Derek and Jan, formed a warm, contented circle around the big stone fireplace in the living room, watching red-yellow flames lick over the driftwood.

Jan, sitting cross-legged on the floor, squirmed self-consciously in the flowered silk dress she'd worn home from school two years before.

MURDER CONVICTION BEFORE HIGH COURT

AUSTIN, June 6 (AP)—The court of criminal appeals today studied contents of attorneys for W. A. Hergesheimer, Jr., convicted of murder and sentenced to 30 years by a Smith county jury, that the defendant had not received a fair trial.

Hergesheimer pleaded not guilty to charges of mingling strychnine in the food of Leroy Higgins, his wife's son, with intent to kill the boy and collect insurance. Higgins died May 14, 1939.

Attorneys for Hergesheimer contended in arguments before the court yesterday that a purported confession introduced in the trial was "not admissible as evidence because, they claimed, it had been obtained by force and threats. They asserted the defendant was deprived of his rights without due process of law."

PARISIANS ARRESTED

PARIS, June 6 (AP)—The arrest of five persons prominent in Paris society was announced today as Premier Reynaud reformed his cabinet and vigorously accelerated a campaign against defeatism in the finish fight with the Germans.

Authorities said those arrested on a charge of "having menaced the security of the state" were: Robert Fabre-Luce, Sergeles de Gobeaux, Alain Lavreaux, Paul Monton and Charles Leac.

MAKES TRIP ALONE TO MEXICO CITY

An automobile trip alone to Mexico City, concerning which she will write accounts for a Santa Fe, N. M., newspaper, is in prospect for Mrs. Mary J. Lumpkin of Santa Fe. She stopped briefly in Big Spring Thursday morning, to visit relatives, and to do some advertising for New Mexico's Coronado four-centennial celebrations.

Mrs. Lumpkin bears letters from Santa Fe and New Mexico officials, to support her advertising trip to Mexico.

MEXICO TO CHECK UP ON ALL FOREIGNERS

MEXICO CITY, June 6 (AP)—A nationwide check-up on the whereabouts and activities of all foreigners in Mexico will be instituted shortly by the department of the interior, it was announced today.

The department, which has charge of all immigration matters, said the primary purpose of the inspection would be to learn whether there are any aliens in the country illegally.

At the same time it was reported unofficially that the government, disturbed by increasing reports of Nazi-communist fifth column activity, had decided to compel all foreigners traveling in Mexico to sign registers and state their business in each city or locality they visit.

When moving from place to place they would be asked to notify the authorities.

25 GERMAN TANKS SAID DESTROYED

PARIS, June 6 (AP)—The semi-official Telefrance News Agency reported today that 25 German tanks had been destroyed at Chalons, nine miles southwest of Peronne, in the German drive on Paris.

The agency also reported that the Abbeville region, at the mouth of the Somme, was the scene of some of the heaviest German attacks.

Farm And Ranch Talk ROUND THE COFFEE POT

By Newton Robinson

The Big Spring Cattle Auction company furnished more buyers than stock at their sale Wednesday. Prices were on par with those prevailing in cattle markets of this area, but offerings were light. Fat cattle sold up to \$5; cutters \$4, canners \$3 and bulls up to \$5 per hundredweight. The bull market top equaled that of Fort Worth for the day. Stocker calves went fast at \$5.50 to \$7.75 and butcher cattle brought from \$6 to \$5.50.

"Hide 'em cowboy" may still be heard in the Big Spring rodeo arena this season but more definite news will come after a committee rounds-up businessmen and individuals who are willing to underwrite the venture in case of a loss. The rodeo association was tapped for a loss of around \$500 last year at the windup of the show, but businessmen who met with rodeo directors Tuesday night feel that the show can be pulled this year with success.

L. J. and Peeler Davidson brought back a nice haul of fish out of Buchanan Dam last week.

An organization committee named by the Howard county Land Planning commission will begin work soon on organizing, planning and promoting a quick freezing locker vault for this county. The venture will be a co-operative plant for the use of members and for commercial use. The committee named at the second quarterly meeting of the group is composed of R. N. Adams, H. T. Hale, Mrs. H. S. Hanson and Mrs. Glenn Cantrell.

Produce buyers were paying 10c for eggs; 7 to 9c for hens and 18c for fryers, Wednesday.

According to A. L. Cooper, owner and manager of D and C Packing company, the present fluctuation in cattle prices for the last few weeks can be attributed to uncertainty caused by the European war. Cattle owners in this area have been loath to sell their stock lately but continued dry weather may force them to begin selling soon, he said.

Hoyle Nix sold five head of cattle at the auction sale Wednesday. Hoyle is in the same boat with a lot of other farmers these days. He is having to feed the stock that he has on his place now.

Ted Harbour had a load of Brahmas calves on hand at the Wednesday sale. The calves were brought out of Houston and were sold to the Big Spring Rodeo association and to Charley Tobey of New Mexico. The Brahmas were just right for roping calves. Harbour passed the calves out of the ring at \$21 and sold them on the lot later.

Andy Brown reported that a light shower fell just this side of Arkerly Tuesday night. Some farmers in that area are dry planting their cotton and hoping for enough moisture to get it up.

The United States army will be a strong factor in keeping the price of wool up this year. Officials have announced that the army expects to buy enough woolen material to
