Riders To Hold Quarterhorse Show Saturday

Dozens of the finest quarterhorses from West Texas and Eastern New Mexico are expected Saturday at the first annual approved Quarterhorse show sponsored by the Hereford Riders Club.

All horses must be at the Hereford Riders Club Rodeo Arena by 12 o'clock noon. Judging will begin promptly at 1:30 o'clock. Entry

fee will be \$3 for each horse in the show.

All horses being shown, except foals of 1953, must be registered with the American Quarterhorse Association, according to the rules committee.

Trophies are to be awarded for the grand champion stallion and mare, and there will be a reserve champion in each of these divisions.

Classes for the mares include 1953, 1952, and aged group 1951 or before. The same classes will be included for stallions.

Other classes are produce of dam, get of sire and geldings.

Top horses of West Texas and Eastern New Mexico are expected at the show. For those wishing to arrive the night before, a limited number of stalls can be provided.

Glen L. Casey of Amarillo will judge the animals, and Bob Hooper of Plainview will be master of ceremonies.

MISS LAURA V. HAMNER

Electric Co-Op Has Plans Ready For Annual Meet

The sixteenth annual meeting of the Deaf Smith County Electric Co-operative will be held Thursday morning at the Sales Pavilion, according to T. E. Seigler, president of the Board of Directors.

Registration will begin at 11 o'clock that morning. Lunch consisting of barbecued FFA Club Baby Beef and all the trimmings, will be served at 12 o'clock.

A business session and program will begin immediately following the barbecue. Progress and financial reports, discussion of the care and maintenance of irrigation motors and pumps and election of two directors for the next three years will be on the day's program, in addition to entertainment and door prize awards. Those awards are now on exhibit at the Co-op's office.

The nominating committee, which was selected by the board of directors; met March 11 and nominated the following men: Herbert H. Miller and J. Lyle Woodford of Dawn and Joe Birkenfeld and Arthur Kleman of Nazareth.

Noted Lecturer Will Speak Here Twice Tuesday

Miss Laura V. Hamner — writer, traveler and lecturer—will give two talks in Hereford next Tuesday under the sponsorship of the Hereford Chapter of Beta Sigma Phi.

Proceeds gained by Beta Sigma will be turned over to the Deaf Smith County Cancer Society. The annual Cancer Society fund drive is sponsored in Deaf Smith County by Beta Sigma.

Miss Hamner, who will discuss her recent trip to Japan, is to speak at 10 o'clock Tuesday morning at Hereford High School, and at 8 o'clock that night in the Shirley School auditorium.

Admission prices to either of the two talks will be 25 cents for children and 50 cents for adults.

Around Town

Sometimes it is the rank amateur who shoots a hole-in-one or catches the biggest fish. Take, for example, the woman who offered a Hereford realtor a chance to sell her house, and suggested the prospect. He knew the prospect had bought a lot and arranged for a loan to build, so he turned the offer down. So... the woman made the sale herself, and now she and her husband have the vacant lot, and are preparing to build a new home on it.

Hereford Federal Credit Union will be closed next week according to Dyalitha Bradley, treasurer. It will be closed while changing over to machine bookkeeping and will reopen Saturday morning, May 1.

Hereford Jaycees will back a junior softball league as a part of the summer recreation program planned by the Chamber of Commerce. The league will start after the close of the school term.

"Courtesy is Contagious" is the title of a special film which will be screened at 9:30 o'clock each morning Monday through Thursday at the Star Theatre for the benefit of merchants and employees. The film is presented through co-operation of the Deaf Smith County Chamber of Commerce and will be shown without admission charge. It is 18 minutes in length and deals with employee-customer public relations, presented in an interesting story form.

Have a spare room that could be used for three days by one or two convention delegates? We are referring to those who are coming to the Panhandle Association of

Peace Officers Plan Campaign To Build School At Boys Ranch

Peace officers, who appreciate the work that is being done at Boys Ranch to make bad boys good and good boys better, are organizing to raise money to help the ranch construct a new high school and shop building, according to Deaf Smith County Sheriff Lowell Sharp.

Some 20 peace officers met in Dorger Sunday night with Hugh Anderson, Hutchinson County sheriff, to lay general plans for the

program. Another meeting is scheduled for May 5 at Boys Ranch, at which time the peace officers will formally organize and elect officers. They hope to spread word of the program at various meetings of Texas peace officers during coming weeks, then spread the news on a nationwide basis.

Peace officers will be asked to help the cause. Donations from

other persons will also be accepted, but it will all go in under the name of the peace officers organization.

There are boys from 34 states at Boys Ranch now, and it is hoped that the addition of a school building will allow the Ranch to take more boys.

All types of law enforcement officers, including city, county and state, will be contacted during the campaign, Sheriff Sharp said.

Thirty-three Into I-A

Draft Board Reclassifies 87 Men From This Area

Eighty-six young men of this vicinity were reclassified at the meeting of selective Service Board 18 last Thursday.

Thirty-three were reclassified as I-A, six as III-A, 14 as V-A, 22 as I-C, six as I-D, one as IV-D and four as IV-F.

Those classified as I-A are: Richmond Hales, Doyle M. French, Jesus M. Casanova, Doyle E. Herrington, Charles F. Lindsey, R. B. McCarty, William E. Campbell, Phillip R. Cassidy, James R. Widner, Lonzo G. Davis, Don L. Johnston, David L. Adams, Melvin D. Witt, Maxie W. Warren, Edgar E. McLain, Joe J. Artho, Wayne D. Mc-

Cutlan, Eska L. Rogers, Dapny F. Lawson, Dick D. Matson, Larry W. Stoupe, Embree G. Sadler, Earl D. Wallace, Roger P. Horn, Gerald P. Aldredge, William H. Shapley, Sylvester E. Hartis, Gilbert E. Irebeck, Zane L. Teters, Emory C. Moore, Joe L. Rogers, Anthony J. Urbanczyk, Sylvanus F. Derrup.

III-A classifications are: William H. Langford, Melvin B. Walton, Cap E. Wall, Charles E. Godfrey, Oliver L. West and Paul A. Kleman.

The 14 V-A reclassifications are: Sam R. Lisenbe, Bobby R. Powell, George D. Russell, James S. Jesko, Bobby G. Sudderth, Guy H.

Delashaw, Karl F. Meyers, Walter E. Verner, Billy J. Harwood, Charles R. Layman, Franklin A. Flanken, Bennie D. Groves, Bunio C. Freeman, Thomas H. Thompson.

Those reclassified as I-C are: Donald J. Wright, Jerry D. Ellison, Douglas F. Hicks, William F. Prater, Lloyd A. Brannon, James P. Lindsey, Billy J. McDonald, Carl V. Jowell, Noel W. Smith, Wilton N. Ground, Joe R. Cox, Kenneth G. Acker, Jim Dowty, Billy D. Hodges, Billy R. Derrick, Robert D. Alexander, Harold L. Jordan, Minerad H. Fischbacher, Jimmie B. Hughes, Joseph E. Turpin, Jermain H. Ascosta, and Henry E. Rutherford.

I-D reclassifications are: John T. Croain, Audrey D. Raney, W. M. Thompson, Everett P. Stewart, Charles W. Morris and Gary D. Walker.

The one IV-D reclassification is Larry D. Slaughter.

Those reclassified as V-F are: Harold W. Price, John O. Fields, Fred R. Close and Orval F. Holt.

I-A registrants are available for military service; III-A are those with extreme hardship deferments or registrants with a child or children; V-A are registrants over the age of liability for military service; I-C are members of the armed forces of the United States, the Coast and Geodetic Survey or the Public Health Service, and certain registrants separated therefrom; I-D are qualified members of reserve components or students taking military training, including ROTC and accepted aviation cadet applicants; IV-D are ministers of religion or divinity students; and IV-F are those physically or mentally unfit or morally unacceptable.

HENRI MAKES A SALE is the stunt the West Hereford Home Demonstration Club will present for Family Fun Night Friday in the High School Auditorium. Shown, from left, are Mrs. E. M. Cox, Mrs. Vern Witherspoon, Mrs. Ida Mae Vaughn, Mrs. John Jacobsen Sr., Mrs. N. B. Hood and Mrs. Carlos Vaughn who, as you probably already guessed, is Henri. (Staff Photo)

Deadline Reset For May 3 On Paving Petitions

Deadline for submitting petitions for participation in a paving program this year has been set up until May 3 to allow more home owners to get paving.

Change in the deadline date, which was originally April 15, was made Monday night at the City Commission meeting, when City manager Cecil Massey reported that only three petitions for participation had been received. Commissioners Raylan Evans and Wayne Edwards both felt that other persons were interested in the program.

Under the program, the city will pay 10 percent of the cost, with the property owners paying the remainder.

The three petitions received cover parts of J Street, Avenue B and Union Avenue.

On J Street, the petitioners plan widening of the street, paving, and curb and gutter work from Park Avenue to 13th Street; on Avenue B, plans are for paving and curb and gutter work from Grand to 13th Street; while on Union Avenue, the petition stated that the residents wanted paving and curb and gutter work from K Street to I Street.

Because smaller amounts of paving are slightly more expensive, the commission is hoping that other areas will also be paved under this year's program, thereby saving money both for the property owners and for the city government.

The commission also voted to have the accounting firm of Lindsey and Kiker audit the city's books again this year and, at the same time, set up a standard municipal bookkeeping system for Hereford.

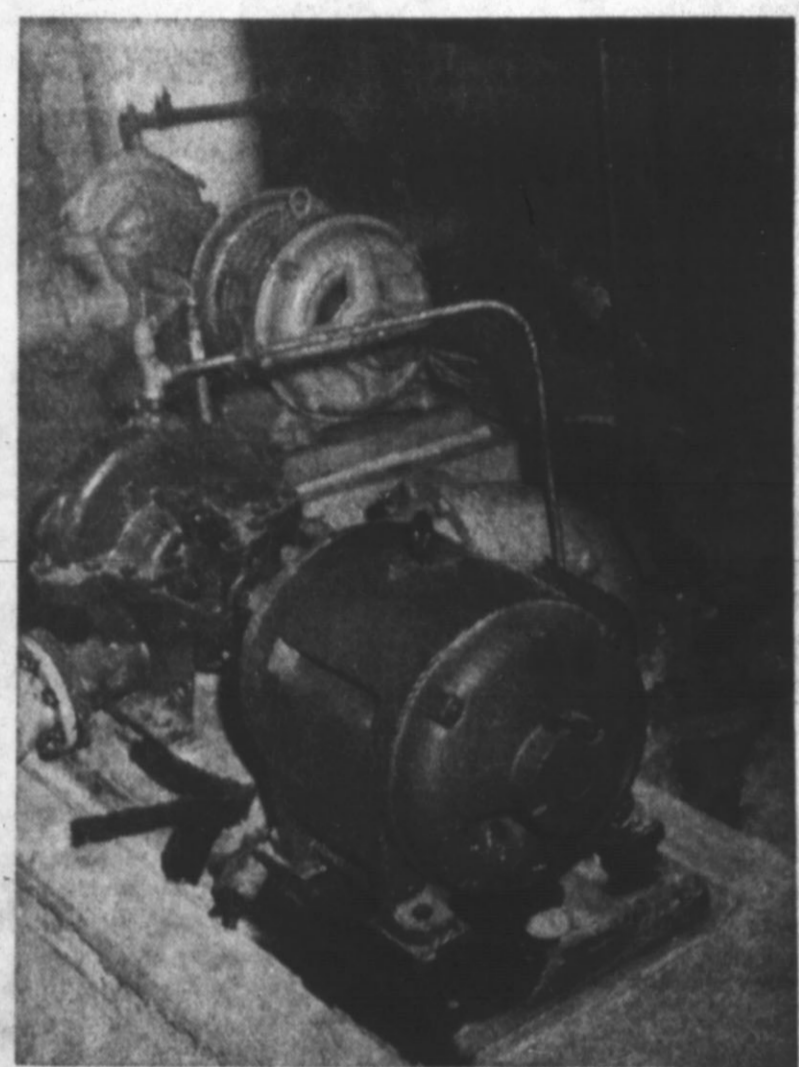

Both City Manager Cecil Massey and City Attorney Earnest L. Langley are planning to attend special meetings during the coming week. Massey will attend the three-day City Managers' spring meeting which starts Sunday in Austin, while Langley will attend a three day session for city attorneys which gets underway Monday in Waco. The two men hope to come back from the meetings with some answers about the handling of various problems of city government.

Massey also reported to the commission that the work of changing one of the pumps in the McKinley Street pump station and the laying of an 8-inch line from the new pump to Main Street is nearly completed.

The pump which was replaced was a 20 hp unit which pumped into an 8-inch line which was also fed by a 100 hp pump. The action of the larger pump had, in effect, kept the smaller pump from pushing any water at all into the system since the larger pump was put in.

With the installation of the larger pump and laying of an 8-inch line which will tie in to two 6-inch lines near Pitman Grain Company, a larger volume of water will be handled by that part of the municipal water system during periods when it is needed.

Last summer, the pumping capacity was strained to keep pace with water use in the city, even though there was sufficient underground capacity.

ADDITIONAL PUMPING CAPACITY has been added at the McKinley Street pump station with the replacement of a 20 hp motor by a 50 hp motor. At the same time, a new 8-inch water line has been laid from the pump station to connect with two smaller lines on Main Street. (Staff Photo)

YOUTH DIED WEDNESDAY

Funeral Scheduled Today For Junior High Student

Funeral services for Don Parker, 13, son of Mr. and Mrs. Muri Parker, 810 Miles Avenue, who died suddenly early Wednesday morning, will be held at 3 o'clock this afternoon in the First Baptist Church.

Don had first begun feeling bad Sunday morning and had thought that he might have the mumps be-

cause he had been exposed to them, a member of the family said.

He spent all day Monday and Tuesday in bed, and told the family that he had a violent headache, which made him sick at his stomach.

Don died suddenly about 4 o'clock Wednesday morning. Laboratory tests made by the doctor showed that meningitis was the direct cause of death. The doctor pointed out that the disease is not contagious except on direct contact.

A member of the eighth grade class at Hereford Junior High, Don had few outside activities other than a morning and afternoon paper route and work in the church.

He was a member of the Royal Ambassadors, intermediate boys group at the First Baptist Church, and took part in Baptist Training Union and Sunday School activities.

Don was born July 4, 1940 at Bartlesville, Okla., and came to Deaf Smith County with his parents in 1941.

Survivors include his parents, and three brothers, Jack, George, and Richard.

Buried will be in Rest Lawn Memorial Park under the direction of Gilliland Funeral Home.

DON PARKER

Collision Causes Heavy Damage To Pickup Truck

Approximately \$575 damage was done to a car and a pickup in a collision at the intersection of Main and Highway 60 about 11 o'clock Wednesday morning.

Mrs. Paul Rudd, Route 3, driving a 1951 Studebaker, had started to make a left turn but, according to police reports, must have changed her mind and decided to make a right turn. A 1951 Chevrolet pickup driven by Oscar Whitworth Jr., of Portales, N. M., was following Mrs. Rudd. When she pulled around to make the right turn, the pickup and the Studebaker collided, causing the pickup to overturn. About \$500 damage was done to the pickup and \$75 damage was done to the car.

Mrs. Rudd was charged with negligent collision.

Studnets Prepare For League Meet

Fourteen Hereford students qualified to compete in the Interscholastic League meet on Texas Tech campus at Lubbock this weekend.

The Junior High School golf team and the High School golf team will play Friday and Saturday.

Logan Cummings, Keith Hodges, Charles Seed and Jerry Malone make up the High School golf team, and Jeff Minton, Dale Taylor, Sammy Leslie and Dean Stevens are on the Junior High team.

Logan Cummings will play for medalist honors in the High School division and Jeff Minton and Dale Taylor will play for medalist honors in the Junior High division.

Junior High team is in class B and, High School is in class A.

One team and one medalist in each class will qualify for the state meet at Austin May 7-8.

Billie Martin and Jane Lamb qualified to go to the meet in journalism, Yvonne Axe in typing and Carroll Jones will be in number sense.

Two boys will go to the meet in track. Wayne Smith in the 100 and 220 yard dash and Joe Streun in the 880 yard dash.

The contest in journalism is at 8:30 o'clock Saturday morning, typing is at 10 o'clock and the number sense contest is at 1 o'clock Saturday afternoon. Track and field preliminaries begin at 9:30 o'clock Saturday morning. Finals start at 1:30 o'clock Saturday afternoon.

Barnett Will Present Two Scientific Papers

Dr. L. B. Barnett plans to leave Friday for Pasadena, Calif., where he will present two papers before the American Academy of Nutrition.

The first paper, to be given April 30, is entitled "New Concepts in Bone Healing," and will be presented to the Scientific Section; the second paper, given May 1, to the American Society of Applied Nutrition, is entitled "Diet and Bone Healing."

Dr. Barnett will return May 1. Doctors William D. Lawrence, A. T. Mims, and F. C. Glendenning will care for Dr. Barnett's patients during his absence from the Clinic.

Visiting in Camp Chaffee, near Ft. Smith, Ark., the past weekend were Mr. and Mrs. S. B. McAllen and daughters, Nora Jo and Sammie. They were accompanied by James Dobbs, a close friend of Don McAllen, who is stationed at Camp Chaffee.

A WOMAN SHOULDN'T always have the right to change her mind it was shown Wednesday by an intersection collision at Main and Highway 60 when about \$500 damage was done to this 1951 Chevrolet pickup driven by Oscar Whitworth Jr., of Portales

and about \$75 damage was done to the 1951 Studebaker that Mrs. Paul Rudd was driving. According to police reports, Mrs. Rudd had made a left hand signal, then had changed her mind and turned to the right. (Staff Photo)

How Can I?

By Anne Ashley

Q. How can I remove grease spots from silk materials?

A. Cover as quickly as possible with talcum powder and let stand for two days. Then brush off with a clean stiff brush. This is a very

FOR ATHLETE'S FOOT USE A KERATOLIC BECAUSE—

It SLOUGHS OFF the tainted outer skin to expose buried fungi and kills it on contact. Get this STRONG, keratolytic fungicide, T-4-L, at any drug store. If not pleased IN ONE HOUR, your 40c back. Now at Roger's Drug.

simple, yet effective treatment.

Q. How can I wash feather pillows?

A. The feather pillows should be washed on a windy day, as the wind will not only dry the feathers quickly but will give them a good stirring.

Q. How can I remove cigarette stains from the fingers?

A. Lemon juice or grapefruit juice is very helpful in removing cigarette stains from the fingers.

Q. How can I clean beads?

A. Soiled beads are anything but a decoration. Scrub them with a brush and soapsuds and most of them will turn out like new. Sometimes it is necessary to restring the knotted beads to do away with the discolored knots.

Q. How Can I keep food hot without more cooking?

A. Invert a pie pan over the gas flame and set the pan of food on top. There will not be enough heat to cook.

Q. What is a good cleanser for copper articles?

A. A splendid cleanser for articles made of copper is to rub them with rottenstone and oil.

Q. How can I remove iodine stains?

A. Spread some finely shaved soap, moistened with cold water, over an iodine stain and allow to stand for a few hours, and this will remove the stain.

Q. How can I dry stockings quickly?

A. After washing the stockings and socks, run the hand through them all the way to separate them and they will dry far more quickly.

Q. How can I easily cut parsley?

A. Parsley will be much easier to cut if it is washed in hot water instead of cold.

Q. How can I clean the steel on oven doors?

A. By rubbing it briskly while still warm with a soft cloth that has been dipped in vinegar.

Q. How can I draw threads easily when hemstitching?

A. Scrub them with a wet brush

Letter To The Editor

You have been bragging in your paper about how the tourists and people are treated in Hereford. Well, let me tell you how my sister from Oklahoma City, Okla., was treated Easter Sunday.

Sunday morning about 11 o'clock her little 16 months old daughter fell on her bottle and cut a big gash down her right cheek and one across her forehead. We grabbed her up and rushed her to the Hereford Hospital. When we got there, some nurse, I don't know her name but I wish I did, came in and cleaned her face a little and we told her we wanted her to get a doctor. She said that she would try to find one.

We waited there until 12:15 o'clock and we never did see that nurse again until we went and hunted her up and then she told us she just couldn't find a doctor.

So after we had waited there over an hour, we had to take that baby to Canyon to the hospital to get her little face sewed up.

If that is the way people are treated in Hereford, I sure feel sorry for anyone that gets sick there.

Mrs. Marion Russell

Mr. and Mrs. Carlos Vaughn, 303 Avenue H, spent the weekend in Elida, N.M., visiting his sister, Mrs. John Anthony. They attended Easter services while in Elida.

Mr. and Mrs. Carl McCaslin, 409 East Fifth Street, spent the Easter holidays with Mrs. McCaslin's sister, and family, Mr. and Mrs. Carl Simpier, in Cuervo, N. M.

which has been rubbed over a bar of soap.

Odd Fellows and Rebekahs convention which will begin Sunday and end Tuesday. Since 500 persons are expected, rooms are needed badly. If you can help, call J. B. Elliston at 179 or 768-W, or Mrs. Louie Olson at 889 or 1574-J. Delegates will begin arriving Sunday morning.

A comedian once described gasoline as something a car doesn't run as well without as with. Dick Miller discovered Monday afternoon how true that definition is. After making it all the way from Oklahoma City on one tank of gas, he ran out of gas out by the Benefield home east of town, and it took half an hour to get an emergency supply brought out from town.

Legal Notice

Hereford, Texas
April 22, 1954

If a child is to be legally transferred from one school district to another, an application requesting such transfer must be filed by the parent of the child with the County Superintendent of the County in which the child lives. No transfer shall be made after June 1, 1954, no application for transfer shall be approved by the County Superintendent after June 1, 1954.

These applications are made out in the County Superintendent's office at the request of the parent, and after being approved by the County Superintendent are either approved or cancelled by the County Board of School Trustees, after due consideration of the desires of the school districts involved in such transfers.

Stuffed Minute Steak
1 medium onion 2 tsp. garlic salt
1 stalk celery 12-oz. pkg. frozen minute steaks
4 slices bread 10 1/2-oz. can consommé
1/2 c. butter or margarine 2 tsp. flour
1/4 tsp. salt 1/4 c. water
1/4 tsp. pepper
Chop onion and celery fine. Remove crusts from bread and pull bread into small pieces. Heat butter or margarine in a large skillet, toss in onion, celery, bread crumbs, salt, pepper and garlic salt. Cook until bread is lightly browned. Transfer to a bowl.
In this same skillet put 3 unbrowned steaks. File 3 tbsps. of bread mixture on each steak and cover with another unbrowned steak. Pour in consommé, cover tightly and cook 5 minutes over a medium heat. Turn steaks with a broad spatula and cook an additional 5 minutes. Remove to hot serving plate.
To make gravy: Mix flour and water to a smooth paste, pour into liquid remaining in skillet and stir until slightly thick.
Note: This makes enough stuffing for 3 stuffed patties. These steaks are packaged in 12-ounce packages containing 6 steaks, or 9-ounce packages containing 4 steaks. So adjust the amount of stuffing according to the number of steaks needed in your family. The consommé, flour and water measurements remain the same.

MRS. PAUL RUDD'S car received relatively minor damage in the collision with a pickup at the intersection of Main and First Street Wednesday morning. The pickup, which was turned over by the collision, received an estimated \$500 damage. Police estimated the damage to Mrs. Rudd's car at \$75. (Staff Photo)

IN ADDITION to the three busloads of Moore County farmers and others who toured the area Monday, a number of other persons joined them for parts of the tour and for lunch at the Jumbo community house. Some 150 persons signed the guest book, and were fed barbecue with all the trimmings through the courtesy of the people living in the community. Those on the tour were just leaving for the busses and private cars when this picture was taken. (Staff Photo)

Group From Moore County Studies Area Irrigation

Three special buses loaded with men and women from Moore County who can envision some of the possibilities of irrigation farming, toured parts of Deaf Smith and Castro Counties Monday, and at dinner at the Jumbo community house.

Planned by Martin Gossett, Moore County agricultural agent; Charlie Hudson, Castro County agricultural agent; and Hugh Clearman, Deaf Smith County agricultural agent, the trip was laid out to cover several Castro County farms in the morning, and Deaf Smith County farms in the afternoon.

Following the barbecue lunch which was served without charge as a Jumbo community project, the visitors heard short talks, mostly welcoming them to the area, from various persons, then boarded their big buses for the remainder of the tour.

Stopping first in Hereford that morning to get fully organized for the tour, the three bus loads of people, with their escorts of peace officers in radio equipped cars, then went to the J. N. Burgin farm where they saw land which has been dedicated to vegetables, grain sorghum and wheat.

After seeing how irrigation is handled there with both underground pipe and the ditch method, the buses rolled on to the Delmon Ritchie farm.

From there the tour continued to the Fred Axe farm, where concrete-lined ditches carry water to grain, sorghum and wheat. Next main stop was the M. L. Simpson dairy farm, where irrigation is used for grain sorghum, hay and pasture land. One brief stop was made at the Delmond Newmayer farm before going to the Simpson's.

Johnson grass control methods were discussed at the George Heard place, then moved on to the John Paetzold place, which has both underground and surface pipe for carrying irrigation water to wheat, cotton, corn, castor beans and sugar beets.

Hogs on irrigated pasture were discussed at the Luther Leslie place. The use of irrigation for wheat was also talked about there.

At the T. D. Alston farm, the visitors again heard the advantages of underground tile and surface pipe, and the pre-planting irrigation of grain sorghum land also came under consideration.

Final stop on the tour was the Lyle Rickman farm where bench leveling of pasture, which is irrigated with waste water and water from underground pipe, was the main topic.

Shrinking Thread

If thread is to be used for drawn work and one desires to shrink it, place the skein of thread, or spool, in a vessel of boiling water for about an hour. It will not destroy

Beauty at Home

By Lynn Carter

Q. How can I bleach and soften my skin, and also refine the pores?

A. Rub a mixture of 2-3 warm olive oil and 1-3 lemon juice well into the skin, using the outer skin of the lemon for the rubbing—with an upward and outward movement. This treatment has a way of bringing a healthy glow to the skin.

Q. My hair always feels sticky after a shampoo. What is wrong?

A. This could be due to hard water. You can cut this with some lemon juice mixed with water if you are a blonde, or vinegar if you are dark. Use these mixtures as a second rinse, then rinse again with warm water.

Q. Please suggest a good hip-and thigh slimming exercise.

A. The standing-squatting exercise is good for this. Merely stand erect, then squat to a sitting position, keeping spine erect. Rise to standing position, and repeat rapidly at least 30 times.

Q. What is a good beauty mask for use on a dry skin?

A. An almond oil and oatmeal mask is good. Mix some finely-ground oatmeal of good quality with almond oil into a thin paste, mixing only enough for one treatment at a time.

Q. How can I make my eyelashes curl?

A. Here are eyelash curlers sold for this purpose. Or, you can keep the lashes lubricated with lash cream or oil, and brush them each

day with a tiny lash brush, procurable at any cosmetic counter. This will encourage their curling.

Q. What special treatment should curly hair be given?

A. Many curly heads tend toward dryness and need a lubricating ointment or tonic, and lots of brushing. A hot olive oil treatment the night before the shampoo helps to control this type of hair. Brushing it dry, instead of under artificial heat, is also more advisable.

Q. How can I camouflage a florid type of skin with makeup?

A. Try one of the tan tones of foundation makeup to help tone down the ruddy notes in your skin.

Q. Is there anything I can do to help tone down the freckles on my arms?

A. Try spreading over the arms a paste made of cornmeal and sour milk or buttermilk. Keep this on at least 20 minutes, and do it every day.

Q. What can I do to make my powder stay on longer?

A. After pressing your powder on with a puff and wiping off all excess either with a brush or tissues, take a little cold water in the palm of one hand and pat on your face. This should set the powder.

Q. What is a good emergency treatment for a fresh callus on the foot?

A. Nightly cold cream applications are often effective.

Good Bike Riders Play It Safe, Safety Association Head Says

"Smart bicycle riders don't take chances!"

That tip was given to Texas cyclists today by Col. E. B. Tilley of Houston, president of the Texas Safety Association as he commented on the dangers of riding a bicycle carelessly in traffic.

He spoke in co-operation with the Department of Public Safety and the National Safety Council, which are conducting a Child Pedestrian and Bicycle Safety program this month.

"According to National Safety Council figures, approximately 22,000 children were injured or killed while riding bicycles in 1952," Col. Tilley said.

"This should leave no doubt in anyone's mind that riding a bike in traffic is hazardous," he said.

"Good riders know this," he continued, "that's why they always play it safe. They realize

that care and judgment are as important as skill in riding a bike well. The experts have all three."

Col. Tilley advised youngsters who would like to become experts to follow these rules:

Keep to the far right.

Do not weave or stunt. Ride in a straight line.

When with friends, ride in single file.

Put books and packages in a carrier and never carry passengers on your bike.

In traffic, obey all signs, signals and pertinent traffic laws.

Never hitch on to a passing truck, street car, automobile or any vehicle.

Never dart into traffic from a driveway, alley or side street.

If you MUST ride at night, have a good light and rear-reflector. Keep bicycle in good condition.

Mildred Burke Retains Title As World Champion

Although a world championship match draws a crowd, the women's world championship match really filled the Bull Barn with spectators Saturday night to watch Millie Stafford of Minneapolis, Minn., try her luck at taking the championship title from Mildred Burke of Los Angeles, Calif., who has held the world title for about 16 years.

The event was a two out of three fall with one hour time limit match and although it lasted only 15 minutes, fans were not disappointed in the wrestling.

Stafford won the first fall in five minutes with a cross body smother. Burke won the second fall in six minutes with a cross body press and a reverse arm scissors, then came back to win the third and deciding fall in four minutes with a series of monkey flips followed by a body smother.

Situation Well In Hand

Stafford is one of the top women wrestlers of the country but Burke showed all the way through the match just what it takes to become a champion and stay a champion. She had the match well in command most of the time. Her years of experience might account for her winning this match. However, she has never lost a title match.

Dory Funk of Umbarger and Bill Parks of Canada wrestled in the semi-final event in a two out of three falls, 45-minute time limit match. Funk won the first fall in 27 minutes with a spinning toe hold and, due to the fact that time ran out before there was another fall, Funk was declared winner of the event.

Ace Abbot of Abilene and Billy Weidner of Amarillo wrestled in a one fall, 20-minute time limit match in the first event, which was declared a draw.

Clearman To Lead Panel Session On Weed Control

Hugh L. Clearman, Deaf Smith County Agricultural Agent, will be the panel leader and G. K. Horton of the Bippus Community will be on the panel for discussion of control of annual weeds in wheat and grain sorghums at the seventh annual Texas Weed Control Conference to be held April 28 at the Amarillo Experiment Station.

The event, which will begin at 9 o'clock that morning at the station located near Bushland, about 14 miles west of Amarillo on Highway 66, is held to discuss control of noxious plants affecting grass and crops in the Panhandle area of Texas.

Discussions of weed and brush control, a tour of weed control research plots on the station, commercial exhibits of spraying and dusting equipment and a lunch served by the Texas Weed Control Association will highlight the day's activities.

After a welcome by Kenneth Porter, station agronomist, and introduction of exhibitors by Erwin C. Ochsner of the Amarillo Chamber of Commerce, Gray County Agent Ralph R. Thomas will review seed laws of Texas as related to weeds. Dr. Allen Weise, station assistant agronomist, will discuss bindweed control research at the station, and brush control research of the Texas Agricultural Experiment Station will be discussed by C. E. Fisher, superintendent of the experiment station at Spur.

Farmers from Randall and Sherman counties will also be on the panel.

The field day is sponsored jointly by the Amarillo Chamber of Commerce, the Texas A & M College System and the U. S. Department of Agriculture.

Household Scrapbook

By Barbara Lee

To make an ink for writing on glass, ivory, or other smooth surfaces, use 3 parts nitrate of silver, 20 parts gum arabic, 30 parts distilled water. Dissolve the gum arabic in two thirds of the water, the nitrate of silver in the other third. Then mix and add desired color.

Soap
If cold soap is being made, add 1 tablespoon each of powdered borax and ammonia to the dry lye before adding the water. The soap will be better.

Dysentery
The whisked white of an egg, two or three times daily, is an excellent remedy for dysentery.

Window Screens
Try painting the window screens on the inside with a thin white paint. It does not obstruct the view of anyone inside the house, but anyone passing by cannot see within.

Mushrooms
Mushrooms can be distinguished by sprinkling a little salt on the gills. If this turns the gills black, they are fit for food; if yellow, they are poisonous.

Cherry Stains
Cherry stains on the hands can be removed by rubbing with a slice of pineapple.

The Sewing Machine
Clean the sewing machine by moistening all the metal parts and bearings with kerosene. Run the machine rapidly for a few minutes and then wipe thoroughly with a soft clean cloth.

Oak Stain
To make an oak stain mix 1 quart of boiled linseed oil, 3 gills of turpentine, 6 tablespoonfuls of raw umber, 6 tablespoonfuls of whiting.

Rusty Knives
When a knife blade becomes rusty, plunge the blade into an onion and allow it to remain for two hours. Then polish it.

Shoe Polish
If the shoe polish has become dry and hard, because of leaving the lid off, moisten it with a few drops of kerosene.

Commercial Plane Reserve Available For Military Use

In event of war or national emergency, U. S. airlines have 308 giant transports ready to turn over to the military services on 48-hour notice.

These modern aircraft are capable of transporting more than an entire division of troops or more than 5.75 million pounds of vital cargo from coast-to-coast in less than 12 hours.

Support MATS

On military stand-by under direction of the Government's Defense Air Transportation Administration, the airline planes would give wartime or emergency support to the Military Air Transport Service's more than 1,300 transport aircraft.

Availability of the airline standby fleet means a saving of millions of dollars to the military and the taxpayer. The planes alone, if it were necessary for the Services to purchase them, represent an outlay of close to \$348 million.

And to this figure can be added the millions of dollars which the military would have to spend for hangars, ground equipment, spare parts and skilled personnel if these planes of America's private industry were not available.

Jumbo Community Men Prepared Barbecue Meal

Men of the Jumbo Community burned the midnight oil Sunday night to prepare a barbecue lunch for 134 farmers and business men from Moore and Hartley counties who made the water conservation tour in Deaf Smith and Castro counties Monday.

Those watching the pots all night were: George Pope, George Heard, Bill Goodpasture, Loyd Grey, Arthur Bentley, Dean Borden and Wanda Borden.

One hundred thirty-eight persons from 15 towns were served the noon meal at the Jumbo Community center.

Kiwanis Club Members Make Trip To Tulla

Fourteen members of the Hereford Kiwanis Club went to Tulla Tuesday as a part of the inter-club relations program.

Members going were Johnny Pool, W. B. Dowell, Loyd Lovel, Bill Patton, Lowell Sharp, Lloyd Sharp, C. E. Coleman, Bill Nitzger, Pat Sullivan, Ralph Smith, O. P. Cowart, Clint Formby and Rev. E. L. Naugle. Ted Linnartz, a member of the Rotary Club accompanied the group to Tulla and presented a program.

The Farm Corner

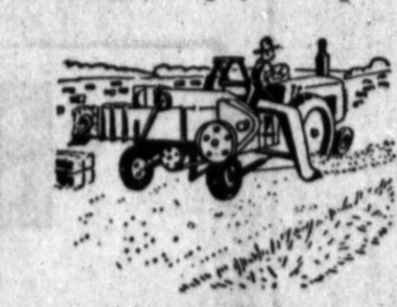

The time is coming
To cut your hay
And you'll be hoping
For a sunny day.

With the right building
For drying that hay
You won't worry
If skies turn gray.

You'll let it cure
For half a day
Then take it in
And store it away.

Chop it or bale it
It's nice and green
You lose no leaves -
Get more protein.

You flip the switch
Fan dries the hay
Your cows eat better
If it's done this way.

With self-feeding mangers
The building's complete
Just turn the cows loose
And watch 'em eat.

Excursions of Europe

ITALY famed for its pageantry, the Joust of the Sparaceni is an outstanding annual event in the ancient town of Anagni, starting from the 15th Century, the spectacular tournament takes place this year on August 7th and September 2.

In the past three years the number of Americans visiting Europe has increased by more than 77% because that is when transatlantic fares are at their lowest and choice accommodations are easier to obtain.

SWEDEN offers a rare treat to visitors attending the Stockholm Festival of Music, Ballet and Drama, June 2-9, when the magnificent House of Nobles, built in 1670 and seldom opened to the public, will be used for chamber music concerts.

Lost! Have You Seen This Baby Reo?

A baby 1906 Reo touring car, said to be the first complete working miniature model of a gasoline motor car ever built, is the object of a nation-wide search by Reo Motors, Inc., of Lansing, Mich. An exact replica of a Model A Reo built to 1/4 scale, the Baby Reo weighs 238 lbs., and is perfect in every detail from two cylinder engine to steering wheel. Used for 30 years as an exhibit at conventions and fairs, it "disappeared" in 1936. Reo officials, who would like to use it in the company's 50th Anniversary celebrations this year, believe it may be gathering dust in an obscure corner of an attic, barn, or rural museum.

Henry's First

As spring plowing gets underway on farms across the nation, none of the more than 4 million farm tractors in use will resemble this one. Henry Ford's first farm tractor, built in 1907, long since has been retired to a place of honor in the Henry Ford Museum, Dearborn, Mich. The 24-horsepower vehicle, which Mr. Ford called his "Automobile Plow," sports an engine with copper water jackets. Its rear wheels were taken from a binder. Despite its early vintage, it still runs.

Efficient protein supplement feeding, better use of grazing land through mobility of feeding bunks, and labor saving costs are advantages of feeding salted meal, as demonstrated by USDA Southern Great Plains Field Station. Some cattle (above) have their fill of salted protein and move to other grazing, leaving plenty on hand for rest of herd.

More profitable protein supplement feeding for western stockmen has been developed which calls for mixing sufficient loose salt with meal or grain supplements to govern daily consumption by beef cattle, breeding cows and sheep. The salt serves as the regulator, because an animal by instinct will eat so much salt per day, and no more.

Dr. D. A. Savage, USDA Southern Great Plains Field Station, Woodward, Oklahoma, recently reported results of the five-year experiments.

Advantages of this method include: (1) Placing supplement rations weekly, with saving in time and labor costs, particularly in reaching inaccessible areas of the range; (2) larger, more vigorous animals take their daily fill and move to other grazing. Plenty of ration is left for smaller, weaker animals; (3) animals will not over-eat protein. Excess salt passes quickly through the animal with no ill effects, and (4) varied placement of mobile feeding bunks means efficient utilization of grazing land.

To restrict daily winter supplement intake to two pounds, use No. 4 crushed rock salt as follows: One-half pound salt for 400-pound weaner calf; seven-eighths pound salt for 700-pound steer, and five-eighths pound salt for 600-pound steer. Larger animals require more salt. Summer daily supplement consumption should be restricted to one pound, with proportionate cut in salt.

Successful use of this method has been reported to Dr. Savage in California, Colorado, Utah, Montana, Wyoming, Texas, Arizona, Oklahoma, and New Mexico.

THE WORLD THIS WEEK

GOP Administration Makes an 'Agonizing Reappraisal'

Nehru's Goal Is Asian Leadership

By HAROLD K. MILKS
Associated Press Bureau Chief in New Delhi

INDIA in only four years as a republic has amassed a formidable list of problems. None is so great as that of holding together this loosely welded nation of 370 million people.

Many of the problems at home and abroad are linked to Prime Minister Jawaharlal Nehru's efforts to unify and strengthen what is still a loose federation of people, with varying customs and different languages.

The 64-year-old leader, who functions virtually as a one-man government, is dedicated to the desire that India grow into a powerful country leading all Asia in world importance.

Harold K. Milks

Its statesmen and politicians frequently cry that India has already reached that status. But strong political, religious, economic, and linguistic forces are at work battling Nehru's efforts to nationalize and stabilize the independence he helped win.

Food No Problem

This nation's most pressing problem—normally, the feeding of its steadily growing population—has been solved at least temporarily. In the last crop year India produced a record of more than 47½ million tons of cereals. This permitted a drastic slash in the import of wheat and allowed young India to take a long step toward self-sufficiency in food.

Continuous good crop years linked with better farming methods and a holdover of reserves from the American wheat loan of two million tons have brightened the food picture.

But unemployment developed. Registrations at employment exchanges rose alarmingly in recent months, resulting in parliamentary inquiries and suggestions for emergency works programs.

Within Nehru's government a dispute raged over modernization of India's textile mills and factories to compete with Britain and Japan. Opponents said it would cut employment, proponents claimed that without it whole industries might die.

Language Barrier

On the political side, continued pressure for new states created on the basis of languages—of which India has several hundred different tongues—vexed Nehru. He surrendered to pressure for an Andhra state for Telugu-speaking Indians, carved from a part of Madras. Immediately other linguistic groups appealed for a redraft of India's internal map according to languages spoken in various sections.

Nehru's ruling Congress party, shaken by defeat by a left-wing coalition in Travancore-Cochin state, found its rule threatened elsewhere. In trouble-ridden Calcutta, where overpopulation and unemployment bred dissatisfaction, and in key sections of North India, adjoining Chinese-held Tibet, Communist forces were on the increase.

Nehru's answer was to whip his party into better performance and to whip himself into tours of rural India whenever he could slip away from an 18-hour day in New Delhi.

Kashmir Dispute

Abroad, India still disputes with neighboring Pakistan over possession of Kashmir. The United States has been linked di-

rectly to this dispute by its grant of arms aid to Pakistan over Nehru's strong protests.

Their basic battle is over Kashmir, where since 1948 a United Nations cease-fire team has enforced an uneasy peace. Side issues include a fight over waters for irrigation of border areas, settlement of property claims for those who evacuated one country for the other following partition, and a division of assets and military supplies held at the time of partition.

Prime ministers of the two nations agreed a year ago to a plebiscite by April, 1954, but Nehru has cried that American arms aid to Pakistan changed the whole picture because it threatened to strengthen Pakistan against India.

International Problems

Here are a few of Nehru's international problems and their present status:

SOUTH AFRICA—India has carried on a relentless war against South Africa's racial policies within and without the United Nations. Visas for travel of South Africans are almost invariably refused.

CEYLON—More than a million Indians make up the bulk of Ceylon's labor population. India claimed certain political rights for them, but Ceylon's prime minister says they are foreigners and will be treated as such.

COMMUNIST CHINA—India has sought to maintain close and friendly relations, supporting the seating of the Chinese in the United Nations and exchanging cultural and other goodwill missions. But behind the scenes is concern over a boundary dispute between India and Chinese-held Tibet. Both claim the Himalayan range which forms a vital defense line.

FRANCE—In March India began its most determined campaign to merge French India—scattered colonial remnants with headquarters at Pondicherry on the South Indian east coast—with the Indian republic. Nehru told Parliament the "will of the people" in French India was so evident that a referendum (on which France insists) was unnecessary.

PORTUGAL—India's continuing battle with Portugal over Goa, the Portuguese "pocket" on India's west coast, flared up again. India charged that Portugal was mistreating Goans.

UNITED STATES—Nehru has had almost a continuous running battle with the United States as head of the anti-Communist Western bloc. The cold war, atomic experiments, tests of the H-bomb, the seating of Communist China in the United Nations were all subjects on which Nehru attacked American policies. A treaty of friendship and commerce between the two countries, under discussion for more than two years, has lain dormant for months.

"There is so little friendship just now it seems pointless to talk about the treaty," said one official.

But it is predicted freely here that Indo-American relations, bad as they are, will improve. One reason is that young India passes rapidly from problem to problem. What is a crisis today is forgotten tomorrow in the light of more pressing matters.

Dates

- Monday, April 19

- Wednesday, April 21
Anniversary (56th), Spanish American War.
- Thursday, April 22
President Eisenhower to address dinner of the American Newspaper Publishers Assn., New York.
- Friday, April 23
Daylight Saving Time begins. National Baby Week starts. Passover (last day). National Conservation Day.

Iran

Help for the Shah

If everything goes as planned, Iranian oil will soon start flowing again—this time into a world market so badly glutted that production is hopelessly out-running demand.

There has been an air of extreme urgency about efforts to get Iran's long dormant oil industry back on its feet. Executives of the world's eight biggest oil companies—five of them American—have been meeting behind closed doors in London with key officials of the U.S. State Department and the British Foreign Office.

International Marketing Plan

Prodded by Washington and London, the eight companies have finally agreed on a plan for marketing the oil. They have sent a negotiating team to Tehran. Expectations are that the Iranian government will go along with their plan, and that Iran's oil industry will be back in operation within a few months.

With the possible exception of the British-owned Anglo-Iranian Oil Co. Ltd., the eight companies have little to gain from a revival of Iranian oil production.

The five American companies have large Middle Eastern interests elsewhere. Standard Oil of California, Standard Oil (New Jersey), Socony-Vacuum and the Texas Co. are heavily involved in Saudi Arabia; Gulf Oil Corp. has a big stake in the fabulous Burgan field in Kuwait.

While Iran was out of the picture, oil production in other countries was greatly expanded. Saudi Arabia's crude oil output recently has been averaging more than 800,000 barrels a day; Kuwait's well over 800,000 barrels daily.

Aid for a Competitor

Now Iran (1950 output: 700,000 barrels a day) will be in direct competition with them. But the considerations prompting restoration of Iran's oil industry were not dictated by simple economics. More was at stake. Deprived of its oil revenues, the strategic little country on the Soviet Union's southern frontier was on the verge of total bankruptcy. A powerful Communist party was striving to push the Shah's government into Russia's outstretched arms. Reviving its oil industry seemed the best way of saving the country from economic collapse and communism—a job requiring the technical know-how and marketing facilities that only the big worldwide oil companies could provide.

Arctic

Reds Icy Over T-3

Unlike the Russians who pursue scientific research there, Americans are exploring the Arctic for military purposes and using floating islands discovered by Soviet fliers, charges the Russian illustrated weekly *Ogonyok*.

"Soviet fliers in 1939, 1946 and 1950 discovered various floating islands. Some of them are tens of kilometers square. They were studied and it was learned how they drift..."

"In recent years great interest in the Arctic has developed in the United States. It is known from the American press that since 1946 the drift of these ice islands is observed with the help of radar."

Reds Say T-3 Is Target
"It is characteristic that the Americans named the islands discovered by the Soviet fliers Kotov, Mazuruk and Perov with the word 'Target.'" These islands are marked on American maps with the numbers T-1, T-2, T-3. "In March, 1952, a large group of American warplanes landed on T-3. A United States military airdrome and a drifting meteorological station were set up. It is hardly necessary to argue that the American military activity is not removed from scientific."

SUSPENDED SCIENTIST—Dr. J. Robert Oppenheimer, famed physicist who directed the wartime team that built the A-bomb, has been charged with being a security risk. A special board headed by Gordon Gray, former secretary of the Army, is conducting hearings to determine his fitness. Witnesses will include Adm. Lewis L. Strauss, chairman of the Atomic Energy Commission, and David E. Lilienthal, a former chairman of the AEC.

Religion

Easter & Passover

For the first time in a quarter century, two major religious holidays—the Jewish feast of the Passover and the Christian Easter—occur the same day.

Joint Services

In some cities, special joint gatherings have been arranged to share traditions of the two occasions. More than 350 persons, representing 50 Protestant and Jewish congregations, attended such a dinner in Denver.

Under U.N. Charter

A joint U.S.-British statement issued after Dulles' departure from London assailed Communist-led aggression in Indochina and Red threats to security elsewhere.

Science

New Fields to Conquer

The National Foundation for Infantile Paralysis, which has collected more than 350 million dollars from the jubilar volunteer fund-raising campaign in American history, is looking for new scientific fields to conquer if the Salk vaccine should prove successful in combatting polio.

DULLES: A Far East NATO

Allied Unity

Well in advance of the Geneva conference which opens April 28, Secretary Dulles made a flying trip to Europe to cement plans for a new 10-nation military lineup in the Pacific, like NATO, to halt Communist aggression in southeast Asia. It was a profitable trip.

Dulles' Goal

Informed sources say Dulles will be satisfied at Geneva only with renunciation by the Red Chinese of their effort to extend communism into southeast Asia.

Science

New Fields to Conquer

The National Foundation for Infantile Paralysis, which has collected more than 350 million dollars from the jubilar volunteer fund-raising campaign in American history, is looking for new scientific fields to conquer if the Salk vaccine should prove successful in combatting polio.

Oppenheimer, FHA Up for Scrutiny

By J. M. ROBERTS JR.
Associated Press News Analyst

OPPENHEIMER's phrase made famous by John Foster Dulles, "agonizing reappraisal" week in Washington.

The administration was taking a stern look at the security qualifications of Dr. J. Robert Oppenheimer, called by some scientists the "father" of the atomic bomb.

It was taking another stern, and embarrassed, look at the Federal Housing Administration, whose director resigned by request to give others a chance to investigate scandals which had developed during both the Truman and Eisenhower administrations.

While his own investigating committee was making final arrangements for a probe into his relations with the Defense Department, Republican party leaders were looking over Senator McCarthy to see if he really is the political asset many of them had assumed him to be.

Dr. Oppenheimer was barred from further access to secret matters by President Eisenhower and an investigation, renewed some time ago by the Atomic Energy Commission, was reopened. There were certain aspects of a "forestall McCarthy" move about it.

Genius in One Field
Oppenheimer was a youth who grew into a star in one particular field without ever making contact with the general world about him, or with the practicalities of life. If he had not fallen into the rhythm of mathematics and the equations by which men evaluate nature, he might very well have fallen into the rhythm of the poet. By his own testimony, his is that kind of brilliance. He didn't read newspapers, knew nothing of politics, long after he was, by the alendard, mature. Groping for an approach to the

The Army Showdown
Committees preparing for an airing of the dispute between McCarthy and the Defense Department, with the department charging attempts to use political pressure in strictly Army matters, indicated the Oppenheimer and housing cases would hold the spotlight for a little longer. Preparations for the hearings, originally scheduled to start April 22, are moving slowly.

In the meantime, McCarthy followed the lead of other congressional authorities in walking, for him, rather softly in the Oppenheimer matter. He said he had some stuff and could take it up, but indicated he'd let the AEC investigation take its course. Observers believed he might go after other scientists, rather than be left out.

No Straws in the Wind
The nation's first primary in Illinois this week held few if any discernible straws for politicians searching for a grass roots trend for or against the Eisenhower administration.

In the lightest voting in an Illinois primary for the last 10 years, Joseph T. Meek won the Republican right to challenge Democratic Senator Paul H. Douglas for his seat in November. The race was conducted along strictly local lines with no real test of national laws.

Meek's nearest rival in the nine-man GOP field was Edward A. Hayes, a former national commander of the American Legion. Meek, president of the Illinois Federation of Retail Associations, never before had run for public office.

Douglas Unopposed
Sen Douglas was unopposed for renomination in his party's primary.

All 23 incumbent Illinois congressmen easily won renomination. They included the Republican committee chairman: Harold H. Velde of Un-American Activities, Len E. Allen of Rules, Robert B. Chipfield of Foreign Affairs, Chauncey W. Reed of Judiciary and Sid Simpson of the District of Columbia Committee.

Velde defeated Robert H. Allison, for 20 years a member of the State Legislature. Among some clergymen in the 18th District, centered around Peoria, there had been an undercurrent of resentment that the Velde committee had questioned a number of ministers.

This year's primaries will have added significance because as things stand now, the Republicans have a paper thin majority in the House and none at all in the Senate. Of the 435 House seats, all at stake in November, Republicans now have 219, Democrats 215 and one is independent.

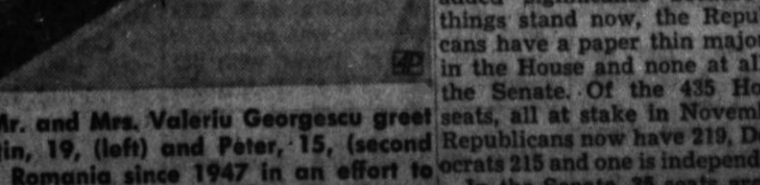

In the Senate, 35 seats are up for election—23 Democratic and 13 Republican.

RED HOSTAGES FREED—Mr. and Mrs. Valeriu Georgescu greet their two sons, Constantin, 19, (left) and Peter, 15, (second from right) held by Red Romania since 1947 in an effort to blackmail the father into spying on the United States. Georgescu, a naturalized American who was born in Romania, refused and bared the Communist plot. His sons finally were freed of incarceration of the U.S. State Department.

In Short...

Died: Sen. Dwight P. Griswold, 60, (R-Neb) three times governor of his state and former director of the American Aid Mission to Greece, of a heart attack at the Bethesda, Md., naval hospital.

Pledged: By Britain, to keep its troops on the European continent as long as there is a threat of aggression and to integrate them into the European Defense Community.

ONLY ONE PERSON appeared at the hearing concerning the proposed Hereford zoning ordinance. The hearing was held Wednesday morning in City Hall. Apparently the general plans laid out by the Zoning Commission met with approval of the average Hereford citizen. When the zoning plan is put into effect, there will be seven types of zones in Hereford, ranging from one family units in certain residential areas through a section set aside for heavy indus-

try. Zoning plans were worked out by the commission with the aid of "Red" Smith, city engineer, who is with the firm of Parkhill, Smith and Cooper. Members of the Zoning Commission are, from left: Neal Cooper, J. R. Allison, Ben Childers, J. C. McCracken and Claude Ricketts. The zoning ordinance will not affect existing homes or businesses, but will affect future building and land use within the city limits. (Staff Photo)

Herd Beats Farwell 12-4 For Season's Fourth Win

The Herd picked up their fourth win of the year by defeating the Farwell Steers 12-4 Tuesday afternoon at Farwell. They have lost only one game.

The Whitefaces had no trouble in stopping the Steers although they were behind for a brief period in the first inning.

The Herd connected for eight hits with three going for the circuit. These were by Jack Burrus, Asa Atchley, and Charles Quattlebaum. Five of these hits came off losing pitcher Glen Lee who pitched the first five innings. The other three came off Carpenter, who relieved at the start of the sixth.

Winning hurler was Terry McRight. He tolled the first four innings, giving up two runs on two hits. Homer Hershey relieved and pitched one-hit ball, giving up runs in the final three innings. Only one of the three hits gathered for Farwell went for extra bases. It was a double by Smith in the first inning.

The first inning was the only time Hereford ever trailed. They overcame this quickly and were never caught. The Herd picked up one in the first, four in the second, one in the fourth, three in the fifth and three in the sixth. Farwell tallied two in the first and two in the seventh.

Whiteface pitchers had good luck in striking out the Farwell batters. McRight struck out six in the first four innings while Hershey fanned four in his three innings of labor on the hill. The two Farwell pitchers struck out Hereford batters five times. McRight walked four and Hershey three.

The Herd picked up one run in the first inning. Bybee led off with a walk and took third on Bryant's single. Atchley then drove Bybee across the platter with a single to right for the first Whiteface run.

Farwell scored their two runs on one hit and a Whiteface error. The first batter, Hardage, walked and went all the way to third on an error and passed ball. Pool fanned but Smith hit the jackpot with a double to left, driving in Hardage. He then stole third and scored on a wild pitch.

The Herd took the lead in the second and never lost it. Quattlebaum received first on an error but McRight fanned. Bybee then hit a perfect double play ball to third base. He threw wild over second, Quattlebaum taking third and Bybee taking second. Bryant took first on an error sending Quattlebaum home and putting runners on first and third. Burrus then unleashed a mighty poke to left which emptied the sacks.

Hereford made it six in the fourth on a roundtripper by Asa Atchley. The fifth spelled out three more runs for the Herd. Quattlebaum drove in two with a circuit blast and McRight sped the basepaths on two errors and a stolen base for the third.

The Whitefaces greeted Carpenter with three more runs in the sixth. Hershey and Quattlebaum drove in two with singles and Asa Atchley scored the other on a wild pitch.

Farwell scored their last two runs in the seventh. A combination of two stolen bases, a wild pitch and a single netted them. Final score was 12-4.

Asa Atchley was the leading Hereford hitter with three hits, one going for a home run. Joe Smith, James Roberts and Robert Poggot the three Farwell hits.

THERE IS ALWAYS a period after special meetings when the speakers get into informal discussions. Following the cotton meeting Tuesday night, cotton expert Fred Elliott and entomologist Franklin M. Fuller, both of the Texas Extension Service, took time for such a session. Shown, from left, are: Ivan Block, Elliott, Fuller, Claude McClure and Paul Rudd. Approximately 20 persons attended the meeting to hear the discussions on cotton planting, irrigation and insect control. (Staff Photo)

Seven From Hereford Attend District P-TA

Seven persons from Hereford attended the 31st annual conference of the Eighth District Texas Congress of Parents and Teachers in Pampa Tuesday.

Theme of the convention was "Concerted action: richer dividends for every child."

Mrs. George Graham, vice membership chairman, and Mrs. Elmer Patterson, publicity chairman went to the meeting Monday night for a pre-conference board meeting.

There was a total of 10 workshops at the convention. They were: civil defense; health; mental hygiene and safety; P-TA procedure; program and project; high school service; character and spiritual education, hospitality and recreation, public relations and pre-school service, and audio-visual education.

George Graham was a resource person for the workshop on character and spiritual education. Cecil Massey was a resource person for the hospitality and recreation, workshop. Mrs. Elmer Patterson was chairman for the workshop on public relations, and Mrs. Merlin Kaul was a resource person on pre-school service and audio-visual education.

The local unit of P-TA presented Mrs. George Graham and Miss Della Stagner, who was unable to attend because of illness, with life memberships. The Panhandle

Hereford made one error compared to six made by Farwell. The Whitefaces meet Dalhart Friday at Dalhart in a crucial conference clash. McRight will probably start for Hereford.

P-TA gave the school custodian of Panhandle a life membership.

Mrs. T. W. Whaley of Kosse, a state vice president, and Mrs. W. D. DeGrassi of Amarillo, state parliamentarian, represented the state organization. The District P-TA conferred on Mrs. DeGrassi a national life membership.

There was a total of 365 persons registered at the conference. Hereford invited the conference to meet here in 1955. Borger also extended an invitation. The district board will make the decision.

Those attending from Hereford were: Mr. and Mrs. George Graham, Mrs. H. E. Wester, Mrs. Elmer Patterson, Cecil Massey, Mrs. Homer Brumley and Mrs. Merlin Kaul.

Personals

Mr. and Mrs. G. W. Brumley left Tuesday for Memphis, Tenn., where he will attend the National Farm and Loan Association session held there Sunday and Monday. Enroute home they plan to stop in Dallas for a visit with their daughter and son-in-law, Dr. and Mrs. J. O. Baker, and family.

Mr. and Mrs. Clifford Kester and son have returned to their home in Craig, Colo., after an Easter visit with his parents, Mr. and Mrs. F. M. Kester, and other relatives.

Mr. and Mrs. R. B. Miller, 302 N. 25 Mile Avenue, and Mrs. Robert K. Phillips and son, 510 Roosevelt, returned from Oklahoma City where they had spent the Easter

Talk About Mamie Eisenhower Given At Black Study Club

Eleanor Prewitt gave a talk on "Mamie" Eisenhower, at a meeting of the Black Social and Study Club when it met in the home of Mrs. Altha Presley Thursday afternoon.

The Presley home was newly decorated throughout and hydrangea decorated the living room.

The club voted to rent the Community house for dances and parties, the charge being \$5 for dancing and \$2.50 for parties.

A refreshment plate was served to Ethel Bengler, Buelah Mae Deaton, Jessie Douglas, Maudine Edelman, Emma Elmore, Jewell Fields, Anna Mae Hays, Eleanor Prewitt, Maxine Price, Louise Robertson, Lucille Rockey, Carrie Tatum, Janice Patton, Irene Latham, Pearl McLain, Lois Whitlinger, Dwight Whitlinger, Judy Edelman, Kathleen McLain.

holidays, late Monday afternoon. The Millers visited with friends and Mrs. Phillips visited with her parents and other relatives.

Mr. and Mrs. G. S. McLaughlin left Tuesday for their home in Mexico City after spending the Easter holidays here with her parents, Mr. and Mrs. H. M. Benefield. The McLaughlins were accompanied to Amarillo by her brothers, Lee and Mark, and their wives. They left Amarillo on a Braniff Airlines plane Tuesday night.

HEAVY HANGS THE CROWN This king business is no joke -- at least not to Billy Boltz, king of a baby show in Victoria, Tex., who is sobbing at the attention and trouble. He doesn't mind letting his feelings be known. Like many women, Donna Fox, the queen, finds that a male in distress is funny. The chorling queen appears to like the attention and fancy clothes. (AP Wirephoto).

Reseeding Range Is Costly Job

Drought-weary west Texas livestock producers are advised not to reseed their ranges if as much as 15 percent of the native, key grasses are still on the ranges. Deferred grazing and proper stocking and cheaper methods of recovery, explains A. H. Walker, extension range specialist. Walker compares reseeding with the preparations for a cash crop. Permanent grasslands should be planted with seed of high germination and purity and on a good, comparatively deep soil. Some areas, he points out, need first to be fertilized and revitalized with an annual grass and legume crop. He recommends reseeding in the west Texas area in May or June. Best results are obtained if the new grasses are seeded in rows, then followed with a cultipacker or roller.

Correct Seeding Rate
Correct seeding rate is another consideration. Cover the seed from one-quarter to one-half inch and do not graze the young plants the first season. Either let the plants grow a one-inch crown or produce a seed crop before livestock are turned in. While reseeding programs pay off if properly managed, Walker says, they take time, patience, work and cost money. For that reason he suggests that producers not reseed if some of the native forage plants are present. "Reseeding on the High Plains of Texas," bulletin L-183, is recommended by the specialist to producers who desire more information on re-establishing permanent range grasses. Copies are available through county agents or from the Agricultural Information Office, College Station, Texas.

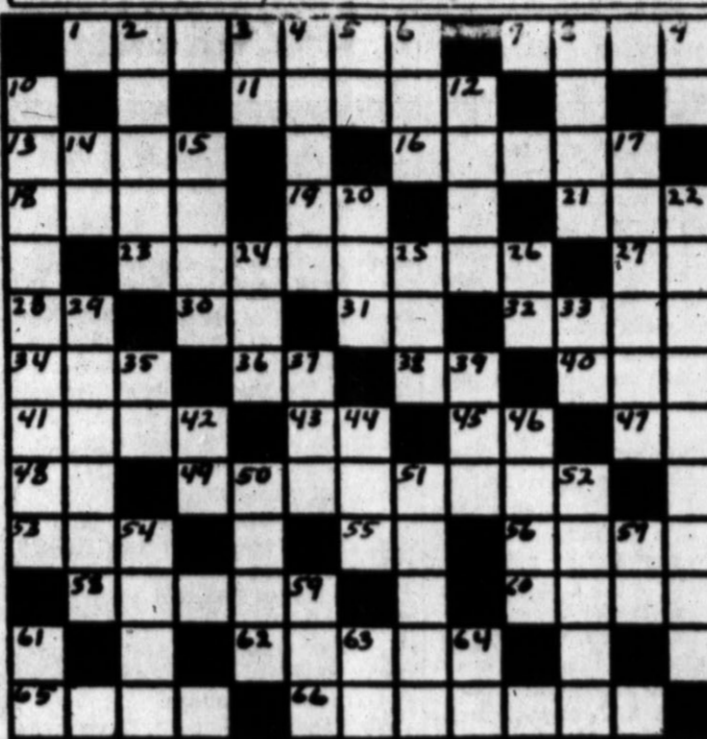

Italy produced about 33 billion kilowatts of electricity in 1953. The British aircraft industry employs about 224,000 people.

Consumer Checks Made

Consumer checks have been made during the past year to discover the consumer's opinion of milk and dairy products. The findings are contained in a 500-page book which reports the pertinent attitudes. From this source of facts the ADA is building a vast dairy sales program. A radio and television series on a national hook-up covering 30 states is another of the ADA's endeavors. Evidents of the progress made by the ADA's expanded program last year is in a report from two cities supporting the expanded program. Rochester, N. Y., and Kansas City, Mo., which show a 6.6 percent increase of total sales. In Rochester the increased sales effort returned \$1.77 for each dollar invested and in Kansas City the increase returned \$1.87 for every dollar invested. "When this same thing is done in all markets across the country, the surplus will be wiped out, and in fact, a shortage will exist," von Rosenberg said.

The efforts of the ADA expanded program to keep the dairy business profitable are concentrated mostly on merchandising, advertising, research, and public relations, reaching into many channels, he said.

Big Horn Sheep From Arizona Will Be Put In Big Bend Area

The Executive Secretary of the Game and Fish Commission said arrangements are being ahead with Arizona whereby Texas will obtain an original consignment of 25 Big Horn sheep for restocking the Big Bend - Black Gap area. Authority for the program was granted by the Commission at its meeting at Wichita Falls. The Executive Secretary said the sheep will be obtained under the arrangement between Texas and Arizona to exchange certain wildlife species. Texas crews will go to Arizona to trap the sheep, which will be taken during December and January and then transported to West Texas by truck. Big Horn sheep once existed in great numbers in far West Texas, but were almost exterminated by hunting pressure and destruction of habitat. A few head still remain in the Guadalupe Mountains in Culberson County. Big Bend Park, which will receive some of the Big Horn sheep, is a game refuge, and hunting is not yet permitted in the adjacent Black Gap game restoration area created by the Game and Fish Commission. If the Big Horn sheep do thrive, the Commission plans to permit harvest of the

scientifically-determined surplus on the same basis that the restored antelope herds are managed. Other new projects Meanwhile, other new Commission projects are being installed. The quail crisis is getting renewed study on the basis of Commission action earmarking \$200,000 to experiment on a state quail hatchery. Authorities hope for natural quail recovery since general rains are counted on to restore habitat, food, cover and water which were ravaged by the prolonged drought. Besides, game management technicians contend pen-raised quail, once released, do not survive in justifiable numbers. Other major restoration projects include one centering around a bid

Veterans Should Keep VA Posted About Address

Men, 18 to 40 years of age, more than any other age group in the population. Since almost 70 percent of the over 20 million male living veterans are under 40, a large group of veterans will be on the move again this year. For that reason, Robert W. Sisson, Manager of the VA Regional Office at Lubbock urged veterans who receive benefit checks, have claims pending, or hold GI insurance to keep the VA posted on their new addresses as soon as possible. "Under the law, checks for benefits may not be forwarded by the Post Office," Sisson said. "They must be delivered directly to the addressee." In order to keep receiving benefit checks due them veterans must inform VA of any change of address as soon as it is made. Any VA office can furnish a form for this purpose. For reporting change of address for insurance purposes, VA provides a convenient form on the flap of the premium notice envelope.

The milk of whales has a fishy odor. About two million school-age children in the United States have impaired hearing.

for legislative permission to compensate landowners providing deer for transplanting to other areas. This proposal was brought up in behalf of the huge King Ranch, which is a main Texas source of trapped deer for general distribution. The Commission is under call for a special May 16 meeting to decide on the projected increase of coastal shell from 7 to 10 cents per cubic yard. The extra funds would go toward wild life restoration.

Trouble In Oil
CHAMPA — When the Ervin R. Simons of Omaha redecoreated their basement, they converted their furnace from oil to gas. Later their oil man came along with a tank for another house on the same street and purely from force of habit stopped at the Simon home. Eighty gallons of fuel oil had poured over the Simon's new basement before Mrs. Simon ran out and put a stop to it.

No Sale
KNOXVILLE, Tenn. — When an ice cream store was broken into, the burglar remembered to ring up "no sale," before taking \$25 from the cash register.

Greater Marketing Activity Called Answer To Milk Surplus

Greater marketing and selling activity are the only solutions to the precarious position of the Texas and American dairy industry, Sam E. von Rosenberg, state manager of the American Dairy Association of Texas, stated recently. Government support prices and lowering the costs of milk production are not the answer to the dropping market prices, von Rosenberg said.

"Support prices are actually driving the market to a lower level," he said, pointing out that support prices can only be used as an emergency aid. Lowering the cost of milk production is not the answer either, he continued. "When milk-producing efficiency is increased, a larger volume of milk must compete for the same number of consumer dollars as before. The usual result is a lower price per hundred weight of milk."

Therefore the only solution to the problem is the creation of a bigger market for milk and dairy products by greater selling activities. To meet the problem squarely, dairy farmers in Texas have joined with dairy farmers of other

states in the ADA set-aside, self-help program to do the job needed most by the dairy industry — greater marketing. **Dairymen To Finance** Beginning June 1, dairymen in Texas will set-aside 2 cents per each hundred pounds of milk and 1/2 cent for each pound of butter fat for cream, an increase approved at the State convention in January. This increased rate will provide money for a continuous year-around program of activities to increase marketing and selling and to halt declining prices, von Rosenberg said. "This program is directed by the dairymen through their officers and financed by the set-aside."

Twenty-three states, including Texas, representing 63.4 percent of the nation's milk supply, have endorsed the 1954 expanded program. The efforts of the ADA expanded program to keep the dairy business profitable are concentrated mostly on merchandising, advertising, research, and public relations, reaching into many channels, he said.

MOLLIE BETTIS, daughter of Mr. and Mrs. M. A. Bettis, 222 Ave. H., is shown as she played the part of a soldier in the Easter Pageant which was presented Sunday morning by Mary Hardin-Baylor students. Others shown are Nancy Terrell of Alice, left, and Dolores Rannings of Washington, D. C. The Easter pageant is now an annual event at Mary Hardin-Baylor College in Belton.

Northwest Hereford News

By Mrs. R. C. Childers

Mr. and Mrs. J. T. Richardson returned home Tuesday from a visit with their son and family at Gary, Ind. They went with their son, Hulon Richardson, and family of San Angelo.

Kenneth DeHart went to the doctor at Canyon for a check up Tuesday afternoon. Kenneth fractured a rib over a week ago while wrestling with another boy. He did not realize he had hurt himself until a knot showed up over the fracture.

Raymond Childers Jr., came home Friday morning and spent the Easter holidays with his parents, Mr. and Mrs. R. C. Childers. He left Wednesday morning to return to Austin where he is attending the University of Texas.

Mr. and Mrs. Raymond Higginbotham entertained out-of-town guests over the Easter holidays.

Mr. and Mrs. S. J. Barclay from Tucson, Ariz., are visiting their son C. S. Barclay and family. They plan to visit in Hereford and vicinity until the first of next week.

Mrs. J. H. Babcock and children of Kermit spent the Easter holidays in the home of her sister, Mrs. R. C. Childers and family. They returned to their home in Kermit Monday afternoon.

Mr. and Mrs. Paul S. Corbett and children spent Easter Sunday visiting in the homes of Mr. and Mrs. Macky Greer and family and Mr. and Mrs. Harold Clements in Littlefield. Mr. Greer and Mrs. Clements are brother and sister of Mrs. Corbett.

Mrs. Paul S. Corbett took Ronald to Amarillo Monday for an eye check up.

Two more cases of the mumps have invaded the Pat Robinson home the past week. They are Pat Robinson and his daughter, Marcia. Several weeks ago Dianne had them. Mrs. Robinson fears the other four children will have them also.

Marvin Hershey, son of Mr. and Mrs. A. C. Hershey, submitted to major surgery Saturday night. He is reported doing fine.

Mr. and Mrs. S. J. Barclay of Tucson, Ariz., visited relatives in Amarillo Saturday.

Mrs. James Barclay, mother of S. J. Barclay returned with Mr. and Mrs. S. J. Barclay and spent three days in the home of her grandson, C. S. Barclay, and family over the Easter holidays.

Dinner guests in the C. S. Barclay home Monday were Mrs. Henderson of Hereford, Mr. and Mrs. Melvin Raney and boys of Summerfield, Mrs. James Barclay and Mr. and Mrs. C. S. Barclay.

Leroy Packard and Billie Phillips are employed on the R. C. Childers' farm this week.

Visitors from South Plains Out-of-town guests in the Raymond Higginbotham home over the weekend were Mrs. Vivian Pierce of Pampa and Bryan Higginbotham of South Plains. Mrs. Pierce and Mr. Higginbotham are aunt and uncle of Raymond Higginbotham. Also visiting in the

home on them.

The Reids are personally acquainted with Richard H. Pough, Museum president, whom they last saw at Baton Rouge, La., at a meeting of the American Ornithology Union.

The Big Thicket, around the turn of the century, was one of the nation's greatest wildlife habitats, according to the Executive Secretary. Almost every kind of native game abounded in the heavily wooded forest land. Then came commercialization of the woods products and the advent of the market hunter. In the ensuing installation of "civilization," wildlife resources were dissipated.

The Reids have been alert to keep down fires and marauders. Now, for one major conquest, they believe their area will be a forest of dogwood within three or four years.

Higginbotham home is Claud Higginbotham, father of Raymond.

Those attending dress rehearsals Monday night for Family Stunt Night, which is scheduled to be Robinson, Miss Joe Eddie Scott and Mrs. R. C. Childers.

Raymond Higginbotham and his father, Claud Higginbotham, of Spur were callers at the R. C. Childers' farm Tuesday morning.

Mrs. Raymond Higginbotham spent last Thursday afternoon visiting in the R. C. Childers' home.

Mr. and Mrs. Ira Scott and family spent Easter Sunday with Mr. Scott's sister, Mrs. H. V. Lee, and family of Amarillo.

Leaton Clark and Wanda Block of Canyon visited in the R. C. Childers' home Saturday afternoon.

Leaton, son of Mr. and Mrs. J. O. Clark, attends college at the University of Texas at Austin. Raymond Childers and Leaton are roommates at college.

Mrs. Delbert Bainum, Craig and Connie of the Summerfield community spent the day in the C. S. Barclay home Tuesday.

Easter Dinner Honors Student

A dinner honoring Raymon Childers Jr., was held in the C. S. Barclay home Easter Sunday with 22 members of the Childers and Barclay families attending.

Raymon, a student at the University of Texas at Austin, was home for the Easter holidays.

Entertainment for the day consisted of egg hunts for the children, snooker for the men, visiting and television for the women and fishing for the boys.

Those attending were: Mr. and Mrs. A. H. Inman and Mr. and Mrs. Harold Urbach of Plainview, Mr. and Mrs. John Johnson, Mary and Robert of Pampa, Mrs. J. H. Babcock, Sweetie and J. H. of Kermit, Mrs. James Barclay of Amarillo, Mr. and Mrs. S. J. Barclay of Tucson, Ariz., Mr. and Mrs. R. C. Childers and Pat, Patsy Jackson and the honoree, Raymon Childers.

Longer Engine Life

Joint efforts by a task force of USAF and an engine company's spare parts specialists have saved U. S. taxpayers at least \$15,000,000.

They produced a program for cancelling certain spare parts orders which, in light of the greatly increased durability and engine life expectancy, were in excess of usage requirements.

Improvements in assembly line techniques are not confined to airframe manufacturers. At an engine plant, a new-type automatic assembly line has increased engine building capacity by 250 percent, although the line itself occupies 42 percent less space than a former assembly area used during World War II. Some of the automatic equipment is up to 500 percent faster than the best handwork on an identical operation.

With a continuously moving line, curving down one side of a hanger, making a "U" turn, and going back up the other side, the company has increased production efficiency — and cut costs. The new line has 22 separate assembly stations.

As a result, some of the planes set speed records even before they are assembled. For example, at one plant, a new mechanical test assembly line has cut more than 3,000 man-hours per month off the production time for a jet training plane.

These planes, many of which hold world speed and altitude records, are composed of thousands of complex parts required for supersonic combat at high-altitude performance.

But despite the complexity of the production and assembly job, aircraft manufacturers constantly are searching for better and faster ways to build America's air power.

DeHarts Attended Homecoming At Fairview Sunday

Mr. and Mrs. Earl DeHart and son Kenneth attended a homecoming celebration of the ex-students, teachers and preachers of the Fairview community near Claude Easter Sunday. The oldest teacher attending was a Mr. Hunter, who taught school at Fairview in 1899.

The Fairview Community has entered the Rural Neighborhood Contest for the second year and have a good chance of winning this year, reports Mrs. DeHart. The rural road signs in the community were an inspiration, quotes Mrs. DeHart, and she plans to present the idea to members of her community in the Northwest Hereford vicinity in the near future.

Production Time Cut On Planes

It takes time to build the modern jet aircraft that defend America.

These planes, many of which hold world speed and altitude records, are composed of thousands of complex parts required for supersonic combat at high-altitude performance.

But despite the complexity of the production and assembly job, aircraft manufacturers constantly are searching for better and faster ways to build America's air power.

With a continuously moving line, curving down one side of a hanger, making a "U" turn, and going back up the other side, the company has increased production efficiency — and cut costs. The new line has 22 separate assembly stations.

As a result, some of the planes set speed records even before they are assembled. For example, at one plant, a new mechanical test assembly line has cut more than 3,000 man-hours per month off the production time for a jet training plane.

Irrigation Motor Burns Monday On Barclay Farm

An irrigation motor on the C. S. Barclay farm caught fire and burned Monday night.

The fire was reported by a passerby who stopped at the Barclay home and asked if trash was burning or was something on fire. On investigation they discovered the pump was on fire.

The motor had just been overhauled and put back just before dark Monday night. It had been run some in testing it, then shut off and covered with a tarp. It is not known how the fire started or how long it had been burning when discovered. The motor was powered by natural gas, the Barclays report.

Hereford High School in 1950 and entered college that fall. He is majoring in physical education.

Louis E. Pyka, son of Mrs. F. E. Pyka, will graduate with honor from Eastern New Mexico University at the spring graduation June 3. Pyka graduated from Hereford High School in 1943.

Manufacturing Efficiency Savings of \$34,000 and 8,000 man-hours are expected this year by a major aircraft company through a new materials salvage plan.

Manufacturing Efficiency Estimated savings of \$128,000 per year are expected from a new method of fabricating "locating blocks" for heavy bomber parts. The small blocks of solid aluminum, used to check fixtures, hold in place airplane parts such as chords and frames.

At The Movies

SINS OF JEZEBEL Showing Friday and Saturday at the Star Theatre. Starring Paulette Goddard, George Nader, John Hoyt.

There is little doubt but that the early Bible scholars would be somewhat surprised with the things that Hollywood can create from comparatively small portions of the Bible, and make them but a little less believable than an Arabian Night's story, and just as interesting.

This one is another mixture of sin, sex, spectacle and Scripture, filmed in color to bring out the best of the colorful costumes and flaming action.

Marcella Bezner left Monday for Sacred Heart Academy at Wichita, Kans., after spending the Easter holidays here with her parents, Mr. and Mrs. Frank Bezner.

Pfc. John G. Robinson, son of Mr. and Mrs. James E. Robinson, 123 Avenue I, recently completed the range platoon sergeants course at the Far East Anti-Aircraft Artillery Specialist School in Japan. Robinson, a graduate of Hereford High School in 1950, is normally stationed in Korea with the 7th AAA Battalion's Battery B.

Edward Dale Doak, son of Mr. and Mrs. E. E. Doak, 217 Avenue E, is among the 81 students at Eastern New Mexico University who are candidates for spring graduation. Doak graduated from

Man-o-man, did we get something that every truck owner should have. This is the first one we have received and I know we will have to have plenty more. I am talking about the V-8 Dodge truck we have. I serviced it and road tested it the other day and I won't say just what speed I got out of it but within two blocks I was breaking the speed limit. Come on down to Hale Motors and let me give you a demonstration ride. You will be amazed at the speed, power, comfort and ease of handling.

Part Of Big Thicket May Yet Be Preserved

AUSTIN — The hope of an East Texas couple to deed their home to preserving a segment of the once fabulous Big Thicket seems headed toward realization.

The Executive Secretary of the Game and Fish Commission has been informed that the American Museum of Natural History has expressed an interest in aiding the project.

The Museum, which has headquarters in New York, would act through an allied agency — The Nature Conservancy — which was established to conserve natural areas.

The Big Thicket estate, comprising 75 acres, is the home of Bruce and Bessie Reid, both naturalists and both particularly interested in birds.

In the January issue of the Game and Fish magazine, the Reids described their dream of leaving their wilderness home to some responsible agency that would preserve it in its natural state.

The Reids, who live near Silsbee, had been approached by several persons, but they were greatly interested in the communication from the American Museum of Natural History, which stated that the Museum's Texas representative — George Fell — would call on them.

The Reids are personally acquainted with Richard H. Pough, Museum president, whom they last saw at Baton Rouge, La., at a meeting of the American Ornithology Union.

The Big Thicket, around the turn of the century, was one of the nation's greatest wildlife habitats, according to the Executive Secretary. Almost every kind of native game abounded in the heavily wooded forest land. Then came commercialization of the woods products and the advent of the market hunter. In the ensuing installation of "civilization," wildlife resources were dissipated.

The Reids have been alert to keep down fires and marauders. Now, for one major conquest, they believe their area will be a forest of dogwood within three or four years.

We Still Have

PLENTY MERCHANDISE

The Womble-Campbell Manufacturing Company Close-Out Sale is progressing nicely but we still have a lot of merchandise yet to sell. Here's your chance to save on your kiddies' clothes this year. Come on down today and stock up while the price is low.

Also have some piece goods from our stock to be sold at reduced prices, even lower than Manufacturers cost on some items.

Will Only Be Open Until May 13th

Face Towel 16x26" 33¢
Wash Cloth 12x12 14¢

Wire Brushes Are Recommended For Removal Of Surface Scars

The medical world has long been aware that scars, unsightly pigmentation and skin deformities may well have a serious effect on the mental well-being of those so afflicted and frequently result in economic difficulties and social insecurity.

In a paper appearing in the current issue of the New York State Journal of Medicine, the technique of which was demonstrated before the recent Ninth Inter-American Congress of the Pan American Medical Association, Dr. Joseph J. Eller of New York describes an effective method for the removal of such defects by the use of rotary steel brushes.

For many years, dermatologists have removed scars by various methods such as so-called sandpaper surgery, chemicals, and by scarification.

The sandpaper abrasion technique, while the best of the previously used methods, has disadvantages such as hospitalization and the use of a general anesthetic.

In the past few years, Dr. Eller has corrected numerous types of pitted acne scars and smallpox and other scars by means of surgical abrasion with the use of rotary stainless steel wire brushes revolving at a rate of 12 thousand revolutions per minute. The process is painless throughout.

The operative procedure is relatively simple and does not require hospitalization. Prior to the planing procedure, an ice pack is placed over the area to be treated for about 20 minutes. After the skin is cleansed with alcohol and the eyelids covered and the ears and nasal orifices plugged, ethyl chloride is sprayed on the areas to be treated. Simultaneously, a current of air from a blower is directed on the surface to accelerate the evaporation of the ethyl chloride, and the freezing of the skin occurs in from 30 to 60 seconds.

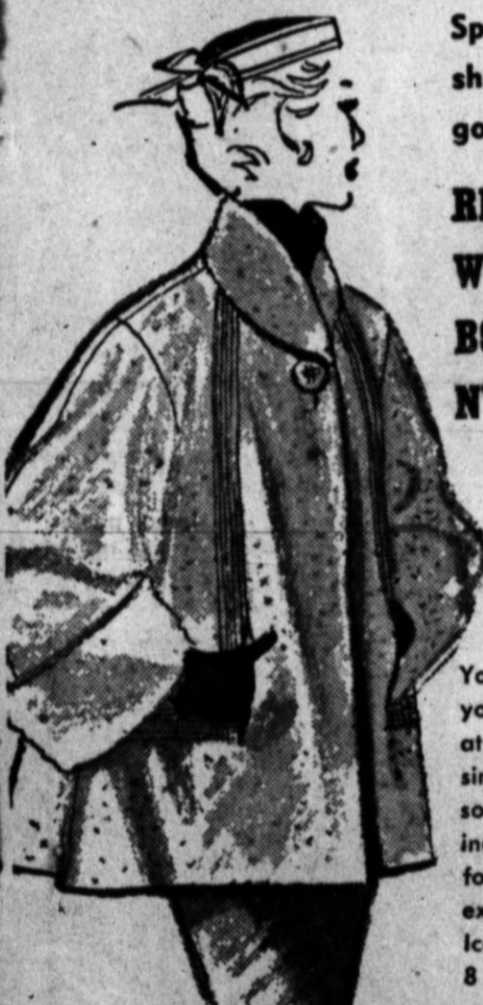

The ethyl chloride acts as a local anesthetic and also solidifies the skin, presenting a hard, workable surface.

By use of different width brushes moving slowly up and down the scarred area, the scars are planed away. While there may be moderate bleeding, this is easily controlled by the use of dry sterile gauze and a daily dressing of sterile petrolatum.

There is complete healing of the operative area in 10 days to two weeks and, generally, one abrasive planing is sufficient. If necessary, the procedure may be repeated in six weeks or at any time later.

Dr. Eller, who has used this procedure in over two hundred cases, advocates the use of rotary wire brushes as the most efficient and painless method of removing scars.

It is his opinion that as this work becomes increasingly well known, many men and women now suffering from these skin defects will have them corrected resulting in marked improvement in their mental well-being.

Spring and short coats go together...

RICH, NEW WOOL BOUCLE, NYLON FLEECE

Reduced To **\$16.00**

Your coat story is short, your fashion story is right, at Penney's. Beautifully simple in line, this handsome "Beau-Lama" sparkling boucle has soft back folds, gentle shawl collar, exquisite stitched detailing. Ice blue, pink, coral, beige. 8 to 18.

Ceramic Coating Being Tried On Jet Plane Parts

Almost everyone has seen the spray-guns that painters use.

But few people have heard about their newest counterparts in the air-craft industry — "spray-guns" that spew a flaming liquefied powder at temperatures up to 5500 degrees Fahrenheit, half as high as those on the surface of the sun!

These white-hot sprays, amazingly, are being used to put thin coatings (1,000th of an inch thick, in some cases) of a mixture of ceramics and such metals as nickel and magnesium on high temperature alloys used in jet engine parts.

The ceramic coatings, though still in the experimental stage, are designed to make the "hot" parts of the engines resistant to the withering heats generated by today's high-powered jets and rockets.

One manufacturer of high temperature-resistant ceramics has successfully tested this new method of application and has developed a coating which will withstand temperatures up to 3,500 degrees Fahrenheit — 16½ times the temperature of boiling water — for short periods of time.

I notice where plans are progressing for Pioneer Days, May 27-29, this year. It is also nice to note how much enthusiasm some of the younger people are showing in this annual event. The real, sure enough pioneers are getting to the point where they don't have to promote the affair. This is right, too. They should be honored guests. Everything should center around their having a good time and visiting with old friends. Such, after all, is the primary excuse for having Pioneer Days in the first place.

People are generally feeling much better. This is due to the exchange of sandstorms for sunshine — and a little bit of rain. It never fails. Easter shopping, according to most merchants, wound up by hitting a point generally above 1953. Easter came later, of course, and after the shower quite a few ladies jarred loose and bought a new bonnet. Even men's suits moved out in fair shape.

Frank Barber is an exception, though. Frank was complaining Tuesday about the heat. Frank says his thermometer showed 92 degrees last Sunday afternoon — and he doesn't like it. Frank is wrong, as usual. It really isn't the heat that is bothering him. It is the humidity! We just aren't used to this moisture-laden atmosphere out in this country.

I told Gaylord Newell that I was going to enter this big PAG contest and win one of those free trips to Paris. He said, "OK, but with you and Mrs. Cecil Eubanks

The S. B. McLallen family is just back from Camp Chaffee, near Ft. Smith, Ark., where they visited with Danny over the Easter weekend. Sam is all enthused about Arkansas. "Heck," says he, "they live just as good, have just as nice houses and dress maybe even better than the people around Hereford." He just can't get over the fact that Arkansas isn't composed 100 percent of hicks and yokels. Sections and states seem to get reputations. We don't think much about it, but quite a few people are surprised to find any degree of civilization in Texas. Most Easterners base their opinion of Texans on the Western movies. Furthermore, travelling delegates and conventioners goers seldom make any attempt to change the impression.

I wonder how many real cowboys there are left in Texas? Not many, for sure — and even those don't carry six-guns.

The Lions Club boys are at it again. They are running Harold Close for district governor. This is quite an honor for Hereford if they win. Politics get pretty heated on the deal. Much more thought, time, effort and money goes into the race than for any county office in the district. It is actually surprising how grown men can get so interested in such a deal — but they do, including me.

I used to think that Alex Thompson enjoyed life more fully than anyone I knew. I am sure he will never get ulcers. Mont Baker, however, can run him a pretty close second. They are different types altogether, but they both have a lot of fun — in their own individual ways.

I hear that several of our doctors plan to pool their resources and build a cabin in the mountains. Probably in the Antonita country. This should be a good deal. Bud Barnett should have the first shot. People are working that boy to death. He needs a rest. I gave him quite a lecture the other day, but didn't have the nerve to send him a bill for professional services.

We now have at least two candidates for each commissioner precinct. Some of them will be close. I hear little politics, though. Things will probably start picking up in June or July, otherwise we can expect a light vote.

Leo Forrest just dropped in. He is all hepped up about the REA annual meeting slated for Thursday, April 29. The REA bought two club calves for the big feed, which is open to all members and their families. I told him the price of electricity is too high — or they couldn't afford such expensive beef. He says this will probably be the last time they serve 4-H beef. Anyway, the general idea is for all members and their families to get out to the meeting and help organize things for another 12 months.

Leo, incidentally, deserves a lot of credit for the job he is doing with REA. He is president of the state organization and is generally considered one of the best managers in the country.

Legal Notice

THE STATE OF TEXAS TO ANY SHERIFF OR ANY CONSTABLE WITHIN THE STATE OF TEXAS GREETING: YOU ARE HEREBY COMMANDED to cite all persons interested in the Estate of Frederick Goodnow, deceased, by making publication of this citation one time not less than ten days before the Return day hereof, in a newspaper such as is required by law, published in this said County of Deaf Smith, Texas, and such publication shall cite them and each of them, and they and each of them are hereby cited, to appear in the County Court of Deaf Smith County in the Courthouse thereof, at Hereford, Texas, on the 1st Monday after such service is perfected, which is the 3rd day of May, 1954, and contest, should they desire to do so, by filing a written answer thereto, the application of Wilson Gyles, filed in said Court on the 21st day of April, 1954, for final discharge and settlement of his accounts as Administrator of said Estate.

HEREIN FAIL NOT, but have you before said Court on the 3rd day of May, 1954, this Writ, with your return thereon, showing how you have executed the same. WITNESS, RALPH SMITH, Clerk of the County Court of Deaf Smith County, Texas. GIVEN under my hand and the seal of said Court at office in the City of Hereford, this 21st day of April, 1954. Ralph Smith, Clerk of the County Court of Deaf Smith County, Texas. Issued this the 21st day of April, 1954. Ralph Smith, Clerk of the County Court of Deaf Smith County, Texas.

Hereford Legionnaires To Attend District Convention At Borger

Several persons from the American Legion Post in Hereford are planning to attend the spring convention of the 18th Congressional District Saturday and Sunday in Borger, according to Carlos Vaughn, state sergeant-at-arms.

Dr. Tom B. Clark, national Legion chaplain, who is pastor of the Christian church in Buffalo, Okla., will be principal speaker at the convention. Mike McCully of Clarendon is district commander. Dr. Clark was with the second Marines when they landed at Tarawa in World War II and has an outstanding war record. He is also a past police commissioner of Santa Barbara, Calif., and is a former director of the Crime Prevention Bureau of Los Angeles County. He moved to Oklahoma for his health several years ago and is now in fine physical condition. He has served as state chaplain and state membership chairman for the American Legion department of Oklahoma.

District Commander McCully announces the 40 and 8 will be in charge of activities Saturday. A wreck and Roy Ben Court will be held and a meeting is scheduled for 7 o'clock Saturday evening. Henry Clay of Shamrock, head of the 18th district 40 and 8 voiture, is in charge of activities. Saturday evening a dance will be held

Aerial Round-Up

The annual district Aerial Round Up will be held Sunday morning with six airplanes scheduled to arrive at the local airport at 8 o'clock bringing memberships from all parts of the 18th district. An aerial round up breakfast will be held at 8:30 o'clock the same morning. This will be followed by a rehabilitation conference at 9 o'clock with Rhea Smith of Amarillo chairman and Ernest Davis of Lubbock, department service officer assisting.

The joint session of the American Legion and Auxiliary will be held at 10:30 o'clock Sunday morning. There Dr. Clark will make the principal address and will also conduct the semi-annual memorial service.

Following luncheon, separate business meetings of the American Legion and Auxiliary will be held. New district officers for the next two years will be elected and delegates chosen for the national American Legion convention to be held in Washington, D. C. the latter part of August.

All convention sessions and activities will be at the BORGER AMERICAN LEGION HOME.

Texas Has Enough Water If It Is Properly Used

COLLEGE STATION — The average annual precipitation in Texas over a long period has been 362 million acre-feet, according to weather bureau records, Gibb Gilchrist said recently.

Speaking at the meeting of the Texas Water and Sewage Works Association, the retired chancellor of the Texas A & M College System, now engaged in research for the System, said that "the water seeping into our soils, flowing across our lands and down our streams, or passing through our underground sands to surface or sub-surface reservoirs, or the sea itself, is of ample quantity to supply our present and future needs."

What becomes of the average annual precipitation in Texas? Gilchrist broke it down as follows: Outgo, evaporation from plants, 23 1/2 percent; run-off, industry and irrigation, 2 percent; surface evaporation, 1/2 percent; return to sea, 10 percent. Surface water other than run-off, pastures, 3 percent; commercial timber 2 percent; crops, 3 percent; supply underground, 3 percent. Evaporation from soil, 17 percent; non-productive plant growth, 36 percent.

The speaker said that "there is every reason to believe that before its termination time the Tex-

as Water Resources committee will come up with something worth while and in the over-all public interest of our people."

A survey made in 1952 revealed that there were some 96 technically trained men on the staff of the A & M System, capable of working in some phase of the water project, including research and extension workers, library and other facilities available for broad scale attack.

"Many engineers like myself," Gilchrist pointed out, "who have dealt with surface water runoff, evaporation, storage, have not been brought face to face with water as needed and affected by plant life and soil storage. Here is where the agricultural folks come in in a big way — here is why the Texas A & M College System with its prime mandates devoted to agriculture and engineering has already recognized a great responsibility."

He said that the widespread extension, research and forest personnel brings together at one place "the active minds and mature thoughts of men who will be helping to seek the final solution of the water problem of Texas."

The daily work of this personnel, Gilchrist declared, brings them into direct contact with data

as to "how much we use, how much we consume, how much we let get away and primarily to point the way toward possible solutions."

BUILD

MORE STORAGE SPACE

Says Secretary of Agriculture

Ezra Taft Benson

Secretary of Agriculture Ezra Taft Benson on February 24th warned of the danger of serious storage problems this year and urged farmers to make plans now to help assure adequate storage facilities.

"Continued big production, encouraged by high price supports, has built up tremendous supplies of major commodities", the Secretary pointed out. "Storage facilities had to be stretched to the limit, and supplemented in many cases, in order to handle 1953 crops."

DON'T BE CAUGHT SHORT ON STORAGE SPACE THIS YEAR!

Loans for financing new storage construction are available to farmers through local county Agricultural Stabilization and Conservation Committee. These loans, which can run up to 80 per cent of the cost of the new storage facilities can be paid off over a four-year period. The loans, at four per cent interest, are available until June 30, 1954.

Mrs. Glenn Hetzle Re-Elected President Of Sims Study Club

New officers were elected when the Sims Study Club enjoyed an all-day luncheon in the M. W. Blankenship home Thursday.

Mrs. Glenn Hetzle was re-elected president; Mrs. C. W. Edwards, vice president; Mrs. A. J. Ashburn, secretary treasurer; Mrs. Durwood Riddle, assistant secretary treasurer; Mrs. Paul Lyons, reporter; and Mrs. Roscoe Pinnell, parliamentarian.

After an extensive business session, Mrs. Glenn Hetzle presented a discussion on rugmaking. She had illustrations of several different types. She showed her hooked rug and illustrated crocheted and rag rugs.

Twelve members and one visitor

were present. Those were: Mrs. A. J. Ashburn, Mrs. C. L. Bogle; Mrs. James Cavin, Jim and Jan; Mrs. C. W. Edwards; Mrs. E. A. Edwards and Pam; Mrs. J. O. Edwards, Mrs. H. G. Hetzle, Mrs. C. L. Hollabaugh, Mrs. S. L. Kinsey, Mrs. Paul Lyons, Mrs. R. L. Pinnell, Mrs. Blankenship, and a new member, Mrs. Durwood Riddle.

Frio News

By Mrs. Owen Andrews

One hundred and twenty-five persons were counted at Sunday School and about 12 came for church after the S. S. count was taken. Sunday afternoon, an Easter egg hunt was held for children of junior age and under. The hunt was given by the Sunday School.

Home Makers Club met in the home of Mrs. J. H. Dobbs Tuesday for a program on "Matching Stripes and Plaids." Mrs. T. L. Sparkman Jr., discussed and demonstrated with materials, patterns and a dress the matching of plaids.

She explained the proper method of laying a pattern, for matching. Mrs. H. F. Benson discussed and demonstrated the proper way to match stripes and showed illustrations about planning for the matching.

Those present for the meeting were Mesdames E. H. Little, Goodin, E. F. Vogler, Jack Jones, T. L. Sparkman Jr., Owen Andrews, Lechagel Buttrill, B. M. Sudduth, Jim Brooks, C. N. McClure, McClennin, H. F. Benson, Miss Alma Andrews and the hostess. The next meeting will be April 27th at the Community building.

Leonard Schmidt of Camp Rucker, Ala., is visiting the Herb Schmidts, the Owen Andrews and Ernest Harders last week and this. He planned to leave Thursday to visit his parents, the D. P. Schmidts, at Clinton, Okla., a day or so and return to camp by Sunday night. Clark Andrews, of Ft. Elias, El Paso, is also here with his folks, the Owen Andrews, on leave.

Dwaine Shook, who is from Ohio, and attends school at E.N.M.U., Portales, spent the Easter holidays with Glenn Andrews.

Patsy Jo Jones underwent an appendectomy at the hospital at Hereford on Wednesday. She did so well that she was able to be out to church, Sunday, with no apparent ill effects.

The local Baptist Brotherhood met Tuesday night of last week, and had the ladies as their guests. Clarence Williams of Littlefield was guest speaker. He was accompanied by Mrs. Williams. They had supper with the Herb Schmidts, The Ernest Harders, Leonard Schmidt and Frances Andrews called at the Schmidts during the evening.

Mr. and Mrs. John L. Frances and Dale, of Silverton, Mr. and Mrs. Elbert Summers and children of south of Dimmitt, visited the W. A. Springers Sunday. The George A. Springers were also there for supper. Mrs. Frances is Mrs. Springer's sister.

Mr. and Mrs. Randy Ward, Sharon and Karon, of Earth and Geo. Ward who is presently from Lubbock, visited the home of their brother, D. W. Ward and family, on Sunday.

Mr. and Mrs. H. E. Lindley have been to Wellington for the past several days at the bedside of Mr. Lindley's brother, who is critically ill.

Mrs. Frank Dobson is ill, at the Deaf Smith County Hospital, having been there, since Tuesday of last week.

Loyal Miller son of the H. C. Millers is visiting with his parents, following his recent release from the Navy.

James Dobbs accompanied the McLallens to Arkansas, where they visited Dan McLallen, at the Camp Chaffee Army Base. They spent the weekend, returning home on Monday. Dan is to leave Chaffee, on Friday for Indianapolis, Inc., to enter a clerk and typists school.

Texas Produces Almost Everything - Except Coffee

Although Texans produce a little of everything, their chances for helping solve the present coffee squeeze are remote.

According to Dr. R. G. Reeves of the Texas Agricultural Experiment Station, the coffee tree just doesn't adapt itself to the climatic conditions of Texas. Despite the fact that some 40 species and many more varieties of coffee are known, he adds, none will withstand winter weather. Moreover, coffee trees do not tolerate a very hot climate.

In Central America where Dr. Reeves carried on experimental work with the trees, the crop

thrives at altitudes of from 2,000 to 4,500 feet where there is no frost nor prolonged intense heat. The best crops are produced there on deep, volcanic soil with abundant moisture and good drainage.

Sometime in the distant future, he adds, types of coffee may be developed which might be suited to South Texas conditions but great changes in the environmental requirements of existing varieties would need be made. A long-range research program would, be required with chances for success slim. Trees are from three to four years old when they begin to bear and a normal crop is not produced until the age of seven to 10 years is reached.

Dr. Reeves can't give much encouragement to the establishment of a coffee producing industry in Texas.

Proper Use Of Social Security Card Important

"The importance of properly using one's social security card can hardly be overstressed," J. R. Sanderson, manager of the Amarillo Social Security Administration office, declared today.

"The omission of even a single wage report could conceivably lead to the loss of thousands of dollars in old-age benefits or survivors insurance benefits to the family of a worker who died," he explained.

"Social security records, which are kept by name and number, not only are used to determine how much will be paid, but whether benefits can be paid at all. Con-

sequently, part-time workers or those whose work is irregular may barely meet the minimum requirements even when all wages are properly recorded. Omission of one of two wage items could easily result in ineligibility," Sanderson said.

Every worker can guard against this happening by making sure that his social security number has been copied correctly into his employer's records. Lost cards can be replaced easily by the Amarillo office on request. Application forms to get either new or duplicate social security cards can be obtained from any social security office, any post office or State employment office. The social security office, will also provide a free post card form to be used in getting a statement of wages credited to the worker's social security account.

More Electrical Appliances Causing Overloaded Circuits

The danger of fire being caused by overloaded electrical circuits is an ever-increasing threat to millions of American homes and businesses.

In at least 20 million homes and an untold number of hotels, offices, stores and factories built before many of today's modern electrical appliances and machines came into use, the wiring is not equipped to carry the heavy loads put on it. Visible results range from blown fuses to dim lights and appliances which do not properly function.

These dangers were reported by the National Adequate Wiring Bureau.

Greatest danger, the Bureau said, comes when large fuses or

coils are substituted for safe size fuses (15 amperes in most home circuits.) The increased amounts of electricity which then pass through the currents can heat the wires to the melting point, resulting in disastrous fires.

The only safe solution to the problem: Ration the number of appliances used at one time or have installed new circuits adequate to carry the load.

Several thousand mice are milked regularly in New York City as part of a scientific project, says the National Geographic Society. U. S. farmers have about 416 million hens and pullets.

Kindness Act Started First Clean-Up Week

Living in Cleveland, Ohio, today is a retired school teacher, whose act of kindness 45 years ago unwittingly started a movement that in later years came to embrace nearly every American community at least once a year.

Her name is Bertha Chapman. The movement which she started is "Clean-Up Week" — a week that has been lengthened in many communities into a year-round campaign in order to promote health, thrift, fire prevention, and civic pride.

It started when Miss Chapman one fine spring day, in 1909, presented a bright blue pinafore to a particularly ragged pupil. Thus attracted the girl went joyfully home to her mother, so the story goes, decided then and there to do a little cleaning up around the home, an act which shamed the neighbors into doing something about their places. Soon the activity spread throughout the city and other communities — among them St. Louis and Cincinnati — also undertook clean-up drives.

These campaigns do much more than help to reduce fire losses. They develop, for instance, community spirit, with the result that streets are cleaned, homes are beautified and repaired, and accumulated waste and rubbish (one of the major causes of fire) disposed of. In addition, public buildings often are renovated and vacant grounds improved.

A further result of this activity is its effect on the economy of the community. It is advertised by flyers as a neat and orderly place in which to live and business life is stimulated as a result of the demand created for everything needed to make homes clean, attractive, and safe from fire.

Documentary Film Shows Tornado Effects

The National Board of Fire Underwriters has just produced a 20-minute documentary film (16 in-color), showing the dreadful effects that windstorms, principally tornadoes, have on life and property. Appropriately titled "The Wind and the Fury," it shows the terrible destruction done to various types of buildings and the rebuilding of them that insurance makes possible. Footage was shot during or immediately after last year's tragic tornadoes in Waco, Tex.; Columbus, Ga.; Worcester, Mass., and Flint, Mich.

An outstanding feature of the film is that the narration, for the most part, consists of the actual voices of the survivors. On-the-spot tape recordings were made by the National Board with the full cooperation of the windstorms' victims. It is their voices, edited to provide the narration, that give the film unusual true-to-life quality and drama.

"The Wind and the Fury" will be available in black and white for TV stations, in color for schools, clubs and civic organizations.

Washington Video Productions, Inc., Washington, D. C., produced it. National release is scheduled for about May 1.

Programs Given On Quick Meal

4-H Club girls were given a demonstration on how to prepare a quick macaroni meal by their leaders in recent meetings.

Clubs reporting last week were:

Workers
The Workers 4-H met with Dora Goldston April 13.

Paula Corbett, president, called the meeting to order. Phyllis Sumner led the song. Shirley Pierce called the roll and read the minutes. The girls assisted their leader, Mrs. Sumner, with a demonstration on macaroni and cheese.

Refreshments were served to the following: Paula Corbett, Shirley Pierce, Phyllis Sumner, Dora Goldston, Evelyn, Marie and Stella Hunter; Patsy Caywood, and Mrs. Sumner.

The next meeting will be with Shirlet Pierce on April 27.

Watcott

Walcott 4-H Club met April 2 in the Walcott School. The meeting was called to order by Donna Guseman, president. Janell Weaver led the group in singing "The 4-H Trail." Roll was called by Merry Kay Fruit, secretary.

A demonstration on a quick macaroni meal was given by the leader. (Continued on Page 2)

Nominees For Woman Of Year Award Chosen

Nominees for the Home Demonstration Club Woman of the Year Award, which is given annually by the Hereford Brand, have been selected by the various clubs on the merits of their service to the club of which they are a member and participation in other community activities.

Mrs. N. A. Brown who helped organize the Messenger H. D. Club in 1947 has been selected as the club nominee. Mrs. Brown has served as secretary - treasurer, reporter, council delegate and alternate, council reporter and vice chairman.

She has been clothing and tailoring demonstrator for her club. Other activities she has participated in include: Red Cross, P-T-A, church and Sunday School and Church Choir.

Dawn has chosen Mrs. Zed Stewart as their most outstanding club member. Mrs. Stewart was a member of the H. D. Club at Grady, N. M., before she moved to Dawn. She is a member of the Dawn Music Club and Study Club

and attends church regularly. Mrs. Stewart helps with school activities. She remembers dozens of people with birthday and anniversary gifts, according to her fellow club members.

Mrs. T. J. Parsons has been nominated by two clubs - her own, which is Progressive, and Westway as their nominee.

Mrs. Parsons has been a club member for 13 years and during that time has held the following offices: president, secretary, reporter and parliamentarian of her club. She has also worked on the following committees: finance, yearbook, program, recreation, and expansion - education.

In Council she has served as a member of recreation, yearbook, 4-H leaders, committees and also as vice chairman and chairman.

She has served as 4-H leader for five years and as secretary - treasurer, vice chairman and chairman of the Leaders Council.

Mrs. W. H. Goettsch will represent South Hereford Club as their nominee for the Brand's award.

Mrs. Goettsch is a charter member of the South Hereford Club since its organization in 1941. She has served in all elective offices and has been treasurer and chairman of the finance committee in council.

Mother of two daughters and has reared three children of her sister's.

Mrs. Earl DeHart was a 4-H member in Armstrong County before she began work in H. D. Clubs when she moved to Deaf Smith County in 1937.

Mrs. DeHart has also held all the elective offices in her club and has served as foods, clothing, yard, and bedroom demonstrator.

She was council chairman for two years; club president and council delegate for eight years, and THDA chairman for the county.

The 4,346,000 population of Madagascar is double what it was 50 years ago.

FB Membership Drive Begun With Breakfast

The Farm Bureau Kick-off breakfast to begin their membership drive was given at the home of Mr. and Mrs. V. E. Dodson on April 13.

Those attending were: Mr. and Mrs. C. C. Billingslea, M. G. Caywood, Grant Hanna, P. L. Carmichael, Mesdames Nadine Hulsey, who is the new secretary; Jean Marshall and I. W. Scott of Canyon. Also Maurice Howell, Horace Vaughn, Horace Hershey, A. F. Batterman, Leo Ohlig, Merlin Kaul, C. L. Bogle, Charles Crowell, Earl Plank, C. A. Betzen, and Melvin Sumner.

Hanna is membership chairman for the organization.

Chinchillas for breeding in the United States were first shipped from South America in 1923 and most were used to increase the number of animals, with pelts for furs still relatively scarce.

Messenger Club Members Entertained With Luncheon

Members from the Messenger Home Demonstration Club entertained Cultural Club with a luncheon at the Walcott School on April 16. Luncheon tables were laid with lace cloths and centered with Easter decorations.

After the luncheon the program was given by the visiting club. Mrs. W. E. Holcomb reviewed "Angel Unaware" by Dale Rogers.

Guests attending were: Mesdames W. E. Holcomb, Earl DeHart, Edgar Telchik, A. C. Hersey, J. A. Pool, Fred Wolfington, R. E. Hargis, Louie Olson, M. W. Sumner, Grady Parsons, Art Lewis, Tom Draper and Roberta Campbell.

Members were: Mesdames Ernest Brown, N. Brown, Floyd Brown, Bruce Coleman, R. J. Coleman, Bob Wily, S. N. Thweatt, John McCullar, Bob Howard, W. D. Howard, Elmer Northcutt, and Wanda.

Friendship

A group of women in the Northwest Hereford area met with Argen Draper, County Home Demonstration Agent, in the home of

Mrs. David Blanton on April 15 and organized a home demonstration club.

Officers elected were: Mrs. Jack Bollinger, president; Mrs. David Blanton, secretary; Mrs. G. W. Lutz, parliamentarian, and Mrs. W. Osborn, Council delegate.

Friendship Home Demonstration Club was selected as the name. The next meeting will be with Mrs. Jack Bollinger on May 11.

Westway

Westway H. D. Club met April 14 in the A. Drager home. Mrs. Drager gave a demonstration on making pastry and meringue. She stated, "Pie dough should be handled as little as possible as the heat from the hands interferes with the process."

Mrs. C. A. Saucy gave the council report. The club voted to have a float in the Pioneer Day Parade.

Refreshments of hot rolls, country butter, jelly and coffee were served to: Mesdames Joe Waggoner, P. B. Sowell, George Turrentine, Kenneth Rudd, Leo Ohlig, G. C. Merritt, Bess Werner, R. L. Wil-

HD Chatter

by Argen Draper

Those of you who are on a low-sodium diet should try putting lemon juice on your food instead of salt. It really does help. Food without salt never does taste as good as seasoned food but the lemon juice makes it more palatable.

The committee which is choosing the woman - of - the year is surely having a time trying to decide on just one winner. This is the Brand's award for the outstanding home demonstration club woman. The committee is in another town and promises to let me know its decision soon. I pity the judges because we have nine outstanding club women nominated.

It seems that to be nominated by your club would be such a thrill and satisfaction. For a person to have the approval of the people she works with every day is quite an award in itself.

The nine nominees are in a large area of the county. The farthest is 45 miles from town, another 29 miles, two 10 miles and one each

6 miles, 4 miles, 2 miles and one mile. One of the nominees lives in the city limits and from the recommendation presented by her club she has been the club member the longest. This is Mrs. E. M. Cox.

The nominees have a combined club membership of 139 years. Mrs. Zed Stewart has been a member in Deaf Smith County since 1948 and was a member of a club at Grady, N. M., for 18 years. Mrs. Jack Bollinger was elected president of the Friendship Home Demonstration Club last Thursday. She has been a member of a club at Portales. Look for the account of the organization of this new club.

Mrs. W. C. Osburn says she is delighted with the fine results she has gotten from Mrs. H. S. Fuller's lemon pie recipe. Mrs. David Blanton likes it, too, and commented on a lemon pie having milk in it. This makes it good and adds some food value.

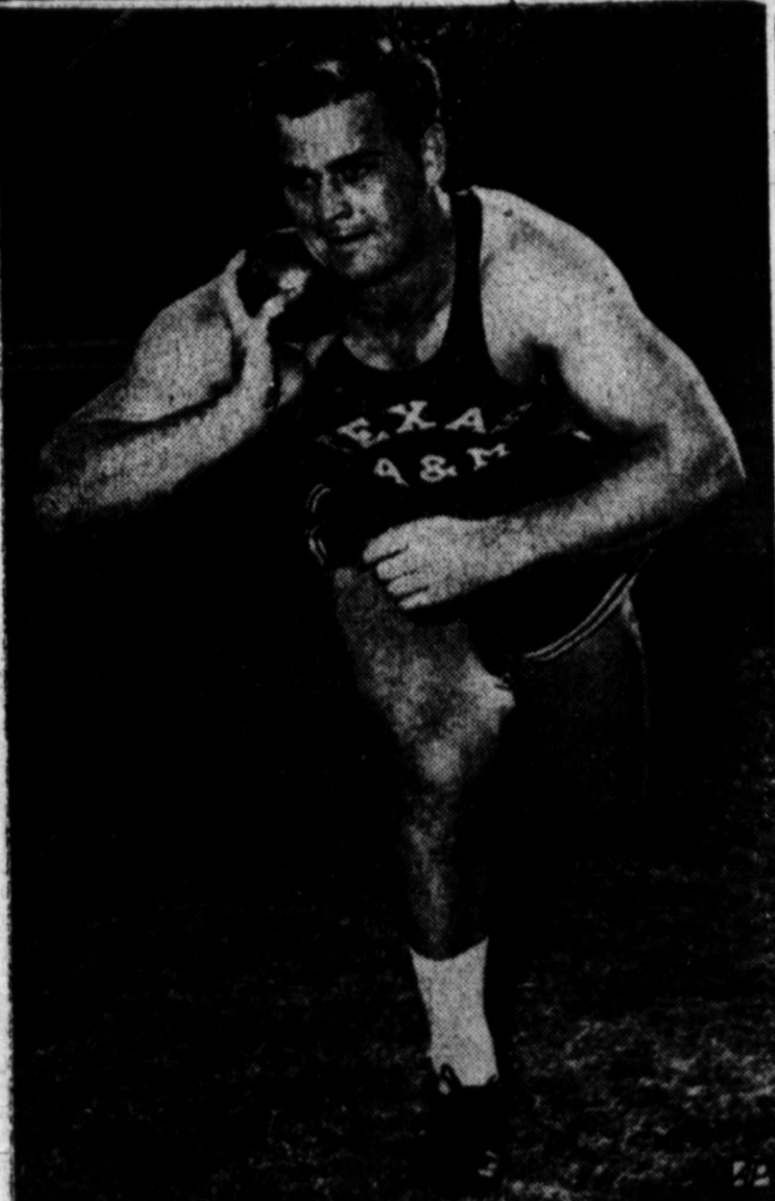

Everybody Likes CREAM-O-PLAINS MILK and it's Cheaper by the Gallon... Call 680 Today and have delivery started right to your door. HEREFORD CREAMERY

Long Time Ago

45 Years Ago
The peach and apple crop mostly went the way of the northern winds, but the plums, the cherries, strawberries, gooseberries and all the other kinds of berries are loaded with fruit that looks good to the man that has a young orchard just ready to bear.

Grapes are just beginning to put out and with the rest of the fruit late enough that they have a fine prospect of giving Mr. Jack Frost the dodge this year. Those who haven't done so should not let the season go by without planting a few grapes and berries of some kind. It's hard to stop advertising what varieties of fruit to plant here when so many different kinds do so well. The man who buys much fruit out of the stores after having owned a home here for three or four years simply does not provide for his family as he should. Let everyone plant a little patch of ground in some good fruit and you and your wife and children and your neighbors will all be proud of it some of these days when it is ripe, red and luscious.

Friona, a young but growing town on the Santa Fe 22 miles from Hereford southwest, is to have an addition in business by the establishment of a hardware firm. The style of the firm will be the Friona Hardware Company, incorporated. W. G. Harris will be manager and he expects to be ready for business about May 20. The firm will handle a general line of hardware.

AGGIES POINT GETTER Bobby Gross, above, is the fellow winning the most points on the Texas A&M track team these days but he wasn't even wanted by the coach in his prep school days. Bobby was state champion in the shot put and discus at Big Spring High School in 1951 but coach Frank Anderson of the Aggies had his eyes on another prep star. He was given special help in the shot put at Big Spring by Honk Irwin, ex-Aggie weight champion, who talked Bobby into going to A&M anyway. He tossed the shot 52 feet 8 3/4 inches at the Texas Relays to take the title. (AP Photo)

25 Years Ago
Manager Fred Oberthier Jr., of the Texas Utilities, stated Tuesday morning that the company's high line crew of thirty men arrived in Hereford Monday night and Tuesday morning early began the work of stringing the new high line to Dimmitt. The extension began from the local power plant and this bunch of experts are slugging up that line in a hurry. It is interesting to watch them. They put out a line of hole diggers a mile long and the pole crew follows swiftly. By the time the first mile of poles are set another mile of holes are ready.

At this rate Mr. Oberthier expects the line to be strung and ready for operation in a few days.

Active work on the emergency landing field of the National Air Transport Company, located on the Kibbe place north of town, is under way. Material is arriving almost daily and construction work on a tower and electrical installations is proceeding. It is rumored that an electrical plant for handling this stretch of line will be erected at Black.

Joan and Gene Moore, daughter and son of Mrs. Beas Moore, were home during the Easter holidays. Both are students at Eastern New Mexico University at Portales.

Mr. and Mrs. E. T. Hale of Dalhart spent the Easter weekend with their son and family, Mr. and Mrs. Gerald Hale.

Eight 4-H Awards Programs Accepted

Eight 1954 National 4-H awards programs, in which a total of 60 college scholarships valued at \$18,000.00 will be awarded to the highest rating winners, have been accepted by the State Extension Service.

The programs, number of \$300.00 national scholarships, and award donors are: Achievement, 12, Ford Motor Co.; Canning, 6, Kerr Glass; Farm and Home Electric, 6, Westinghouse Educational Foundation; Food Preparation, 8, Kelvinator; Girls' Record, 6, Montgomery Ward; Health, 6, Kellogg Co.; of Battle Creek, Mich.; Home Improvement, 8, Sears - Roebuck Foundation; and Safety, 8, General Motors.

County Programs Increased
County awards in the programs have been increased to four gold-filled medals of honor, with the exception of Food Preparation and Girls' Record, which offer one each.

State awards remain the same as in 1953. Each boy and girl state winner in the 4-H Achievement program will receive a set of two miniature statues, and state winners in the other seven programs will be awarded an all-expense trip to the annual Club Congress in Chicago. The number of sectional trips to the Chicago Congress offered in the Achievement activity have been increased from 18 to 24.

Each state winner in the above programs will be awarded a certificate of honor, as well as four 4-H Clubs in each county in the Safety program.

These national 4-H programs are all directed by the Co-operative Extension Service.

Personals

Mr. and Mrs. Emil Dettman, 218 Avenue B, have returned from Santa Fe, N. M., where they spent the Easter holidays with his sister, Mrs. R. Allen, and family.

Mrs. C. E. Leasure and children of Amarillo spent the Easter weekend here with her parents, Mr. and Mrs. E. W. Young, 306 West Seventh Street.

Dr. and Mrs. E. O. Nichols of Plainview were guests Easter day of Mr. and Mrs. William McGehee, 504 Miles Avenue. Dr. Nichols is Mrs. McGehee's brother.

Miss Naomi Hare, a missionary in Lima, Peru, has been hospitalized there for the past several weeks. Her parents, Mr. and Mrs. A. A. Hare, received word early this week that their daughter's condition is much improved.

Mr. and Mrs. E. T. Hale of Dalhart spent the Easter weekend with their son and family, Mr. and Mrs. Gerald Hale.

Mr. and Mrs. E. T. Hale of Dalhart spent the Easter weekend with their son and family, Mr. and Mrs. Gerald Hale.

Mr. and Mrs. E. T. Hale of Dalhart spent the Easter weekend with their son and family, Mr. and Mrs. Gerald Hale.

Mr. and Mrs. Charlie Noland and Bette of Summerfield spent Easter day with Mrs. Noland's parents, Mr. and Mrs. R. A. Fullwood, 206 McKinley. Afternoon visitors in the Fullwood home were David Sowell and daughter Dianna of Amarillo.

CHIP SHOTS

By Bud Posey

The Hereford High School golf team — composed of Logan Cummings, Keith Hodges, Charles Seed and George Parker or Jerry Malone — will compete in the Regional I-A Golf Tournament at the Lubbock Country Club in Lubbock Friday and Saturday. Competition will be 36 holes of medal play with 18 to be shot on Friday and 18 on Saturday.

The low team score and the low individual scorer will represent Region I-A at the State Tournament in Austin next weekend.

Other teams representing Region I-A will be Sam Houston Junior High School of Amarillo, Shamrock Childress, Littlefield, and Brownfield. Hereford High School has a good chance with Shamrock the team to beat. Jeff Minton and Dale Taylor will represent Hereford Junior High School in class B competition.

Six Hereford golfers beat Sam Snead last Sunday in the MacGregor Drizzler Driving Contest. Sam Snead had previously driven his ball 270 yards, one foot and three inches for golfers all over the nation to shoot at.

Stan Barrett, local city champion, drove his ball Sunday 330 yards, four inches to beat Sam by 60 yards but he also had a handicap of 30 yards to make his total 360 yards and four inches.

Other drivers with actual drive, handicap and total yards in that order are Louis Wilkinson, 285 yards and two feet — 50 yards—335 yards and two feet; Charles Seed, 282 yards and three inches—50 yards — 332 yards and three inches; Gerald Hale, 275 yards and one foot — 50 yards — 325 yards and one foot; Bill Davis Jr., 265 yards and two feet — 50 yards—315 yards and two feet; Jeff Minton, 243 yards and six inches — 55 yards — 298 yards and six inches.

Golfers have until Saturday night to drive against Sam Snead. The longest 50 drivers in the nation, selected by the judging committee,

will drive on their own respective courses on June 22 to select the nation's longest hitters. In this competition no handicaps will be allowed. The winner receives a two weeks paid vacation for two, with daily lessons by Sam Snead at the famous Greenbrier Country Club in White Sulphur Springs, West Va. The other 49 will receive awards ranging from golf equipment to television sets.

Americans spend about 25 million dollars a year on Valentines.

Personals

Mr. and Mrs. Joe Hacker, sophomores at Eastern New Mexico University at Portales, spent the Easter holidays with their parents, Mr. and Mrs. W. J. Hacker, 142 Roosevelt, and Mr. and Mrs. H. F. Benson of the Frío Community.

Alvin Hacker, son of Mr. and Mrs. W. J. Hacker, 142 Roosevelt, and Jo Waltz of Amarillo spent Easter day with his parents.

Mr. and Mrs. Floyd Harrison and Charlie spent Sunday night and Monday in the homes of Mr. and Mrs. R. W. Botsford and O. R. Neel.

"Son, when you take over, this General Electric motor will still be driving our pump!"

"You see, son, General Electric built this motor to last longer. Look at that cast-iron construction—rain, sleet, or dust can't hurt this motor! We don't have to worry about steel bands rusting away. And no extra protection like a shed is necessary because this motor is fully protected against all kinds of weather."

"Another thing I like about G-E motors is that you don't have to lubricate them for a long time. When you do, there are only two places to take care of—one at the top and one at the bottom—both easy to get at."

"Notice that G-E control—protected against the weather just like the motor. It protects our motor against overloads, undervoltage, and short circuits. And I don't have to worry about you getting hurt because you can't open the panel while the power is on."

"General Electric knows our irrigation problems, and they have the engineering experience to give us the motor and control team that will do the best job. Yes, son, when you take over, profit by my experience. Insist on G-E motors and controls!"

Send for your 8-page bulletin on G-E pump motors and controls

Here's all the information you need on "How to Select and Apply Electric Equipment for Irrigation Pumping." Send this coupon today.

MARSHAL SWORN IN U. S. District Judge William H. Alwell, left, reenacts the swearing in ceremony on Hobart K. McDowell of San Angelo, Tex., in the Judge's office in Dallas. He replaces J. R. Wright of Fort Worth. Mr. McDowell said he will continue to live in San Angelo, where he has a transfer and storage business, but that the main U. S. marshal's office will be continued in Fort Worth. (AP Photo)

Giles, Mr. and Mrs. Noble Willier, Mr. and Mrs. Tom Parker and Mr. and Mrs. Jerry Albracht and children.

Mr. and Mrs. Carl Wimberley and family were in Marlin and Denton over the weekend.

The Dawn Home Demonstration Club met Friday afternoon in the home of Miss Lula Botsford.

Mr. and Mrs. Tom Parker and children of Hereford visited Sunday in the George S. Parker home.

Family Gathering

There was a family gathering and buffet supper in the home of Mr. and Mrs. W. J. Stewart in Canyon Tuesday night in honor of Mrs. W. J. Stewart's birthday.

Those attending the celebration were: Mr. and Mrs. Clifford Stewart and children, Mr. and Mrs. Reece Stewart and daughter, Mr. and Mrs. Ray T. Stewart and children, Mr. and Mrs. Zed Stewart and Mr. and Mrs. Marion Russell.

Mr. and Mrs. O. L. Rutherford of Canadian were visitors Wednesday in the George S. Parker home.

Mrs. Lloyd Bentley spent several days last week in the home of her sister, Mrs. Rena Battenfield, in Clovis, N. M.

Audri Miller was an overnight guest in the home of her teacher, Mrs. Ray Wells, in Canyon last Tuesday.

Mrs. J. W. Combs and children and Mrs. Wesley Owings and children of Oklahoma City, Okla., spent the Easter holidays in the Zed Stewart home. Mrs. Combs and Mrs. Owings are sisters. They are the daughters of Mr. and Mrs. Zed Stewart.

Mr. and Mrs. H. V. McCabe and son Jim attended the funeral of C. M. Chandler in Lubbock last Saturday.

Mr. and Mrs. Bill Cartheil and sons of the Easter community visited Saturday with Mrs. Mary Byrd in the H. V. McCabe home then continued on to Lawton, Okla., where his brother is stationed.

They attended Easter sunrise services at Lawton.

Thirteen-month-old Debra Combs of Oklahoma City, Okla., who was spending the Easter holidays in the home of her grandparents, Mr. and Mrs. Zed Stewart, fell and cut her face on some glass Sunday and had to be rushed to Canyon where she had a number of stitches taken. She is doing nicely.

Mr. and Mrs. J. B. Caraway and children spent the Easter holidays with Mr. and Mrs. J. R. Oglesby at Mobeetie.

Mr. and Mrs. Reece Stewart and Rosemary and Mr. and Mrs. Ray T. Stewart and children were Sunday dinner guests of Mr. and Mrs. W. J. Stewart in Canyon.

Mr. and Mrs. W. J. Stewart of Canyon were guests in the Zed Stewart home Sunday night.

TWISTER TAKES ROOF OFF BOSSIE A small tornado near Houston left this cow without a roof over her head when the top of this large shelter was lifted and scattered over a large area. In addition to tearing the roof away the wind also pushed outward the walls of the structure. (AP Wirephoto).

Recipe of the Week

Baked Half Ham-Mincemeat

Apples

5 to 8 pound shank or butt half smoked ham

Mincemeat Apples

Place the half ham fat side up on rack in open roasting pan. Insert meat thermometer so the bulb reaches the center of the thickest part. Be careful that the bulb does not rest in fat or on bone. Do not add water. Do not cover. Roast in a slow oven (300 degree F.) until thermometer registers 160 degrees. Allow 18 to 20 minutes per pound. 10 to 16 servings.

Mincemeat Apples

8 medium sized baking apples
1/2 cup mincemeat

4 teaspoons butter
1 cup sugar
1 cup water

Wash and core apples. Peel skin about a third of the way down. Place in a deep baking dish. Fill the cavities with 1 tablespoon mincemeat and 1/2 teaspoon butter. Boil sugar and water together for 5 minutes, pour over apples in baking dish. Bake uncovered in oven 1 hour before ham is done, basting frequently with syrup. Serve apples with ham.

Let's Eat This For One Day

Breakfast

Orange Juice
Poached Eggs
Whole Wheat Toast
Milk

Dinner

Baked Half Ham - Mincemeat Apples

Baked Potatoes

Tossed Green Salad
Hot Biscuits

Butter or Margarin
Three-Fruit Ice Cream
Milk
Coffee

Supper

Grilled Cheese Sandwiches
Avocado Grapefruit Salad
Poppy Seed Dressing
Milk

Timely Tips

1. Ham is rich in protein which is essential in building and maintaining muscle tissue.

2. Ham trimmings, ham bone, and ham fat can be used for flavoring soups, stews, baked beans, blackeyed peas, rice, potatoes, cabbage, and many casserole dishes.

Now you pay less for long distance telephone calls

The excise tax cut voted by Congress on your long distance telephone calls is good news. It means that Long Distance calls now cost less than before April 1 — 12% less, in most cases. You get the full benefit of the tax cut. Not a penny goes to the telephone company. That makes long distance an even bigger bargain.

NOW...AN EVEN BIGGER BARGAIN

Local service also costs less. Excise tax cut reduces your cost approximately 5%.

A NEW KIND OF POWER!

PHILLIPS 66

Flite-Fuel

FOR YOUR CAR

Phillips 66 brings you the benefits of a super-powered aviation gasoline component—Di-isopropyl (pronounced di-iso-pro-pull). A Phillips exclusive, proved in high performance combat aircraft!

Today, start enjoying the exciting step-up in performance you get from new Phillips 66 FLITE-FUEL containing Di-isopropyl.

Phillips originated Di-isopropyl and HF Alkylate—so valuable to smooth motor performance that, until recently, their use was restricted by the U. S. Government to high performance aviation gasoline. Now

military authorities have released these restrictions, and Phillips can give their customers the benefits. New Phillips 66 FLITE-FUEL provides increased power, smoother acceleration, higher anti-knock performance, greater fuel economy and freedom from stalling... plus Phillips 66 Controlled Volatility, and the clean burning qualities for which Phillips 66 Gasoline is famous.

Only Phillips 66 FLITE-FUEL contains Di-isopropyl. Get it at stations where you see the Phillips 66 Shield.

CONGRESSMAN WALTER ROGERS SAYS

Investigating Of Investigators Causing Confusion In Washington

This newsletter is being written just a few hours after I returned to the Capitol city from a most pleasant visit to the district. When I first got to the Panhandle, the dust was blowing and it was about as dry as it could get. However, when I left, a drizzling, soaking rain had quenched the thirst of the wheat and grass and had changed the gray color of the earth to a rich brown that blended perfectly with the different hues of green.

from day to day. As the investigation shifts from one side to the other, the badges will do likewise. This is an economy move to keep down the cost of badges. I have been a member of the American Bar Association, as well as the Texas Bar Association, for a number of years, and I deeply respect the members of both Associations. However, I do not think that the Senate Investigating Committee should confine their search to the American Bar Association. There are many able members of that Association who could do an outstanding job, but that does not mean that there are not plenty of other good lawyers in the United States who are not leading figures in the American Bar Association, who could do a wonderful job of investigating this situation here in Washington. In fact, I have often said that a good West Texas county or district attorney, with a good West Texas grand jury, could probably get more facts in shorter time than has been the case in the past. I know a number of good justices of the peace lawyers that could really make this thing sizzle, if it's the truth they want and facts. A good justice of the peace and a couple of good county seat lawyers can get more facts and more truth in less time than many an investigating committee. Speaking of investigations, I made a little private one of my own to find out how many of the organizations listed as subversive by the Attorney General and the Un-American Activities Committee were enjoying second class mail permits. (The second class of mail is that class of mail that has never paid its own way. The taxpayers must make up the deficits out of tax money.) I found that two

CANDIDATE CAMPAIGNS

C. T. Johnson of Austin, candidate for lieutenant governor, is busy these days getting his campaign underway. Johnson is a Democrat. Here he is shown in his campaign car getting ready to take off on a tour. (AP Photo).

organizations having second class mail permits are on the Attorney General's Federal Employee Security Program list. On these is the "Daily Worker." On the "Guide to Subversive Organizations and Publications" (House Document 137, 82nd Congress, 1st Session); I find twenty-three, including the two that were on the Attorney General's list. It seems rather odd to me that while we are supposed to be fighting Communism, we are helping to pay the cost of spreading some of its propaganda. I introduced a bill to put a stop to this two years ago and hope to get it passed this session.

VISITORS

Miss Loula Grace Erdman, of Canyon, was in the office this week. She was in Washington attending a meeting of the National Pen Women's Club. R. B. Norman, principal of the Amarillo Senior High School, also came by the office.

Coffee was imported into Colonial America at least as early as 1670.

Virginia and Oregon have no sales or cigarette taxes.
