54th Year — No. 34

A "NEW LOOK" IN HEREFORD'S SKYLINE was noticeable this week to observers as they approached Hereford from the north. The above picture, facing south on Miles Street in front of the City Hall, shows new elevator bins, standing 29 feet above old bins on Pitman Elevator, just as workmen pulled their forms at the topmost peak. A new headhouse, however, will be erected above the new bins, adding another 40 feet to height of the structure. The old bins are 113 feet high, as compared with 142 feet for the new ones. Workmen plan to complete the structure between Oct. 1-10. (Staff Photo)

## Sunday Brand To Be Delayed For Election Returns

Publication of The Sunday Brand will be held up Saturday night in order to handle election returns, according to present plans.

In addition to Deaf Smith County returns, the Sunday papers will also carry available returns on the state-wide race for governor, along with the two races for state judge posts.

Release time on the papers will therefore, depend upon how rapidly the returns are handled. The light ballot, however, should make possible publication of editions around 10:30 or 11 o'clock, depending upon how close the races are contested.

## Little Theatre Meeting Is Set

A meeting has been scheduled for 7:30 o'clock Tuesday night, August 31, at the Chamber of Commerce office to discuss the organization of a "Little Theatre" group in Hereford, according to Mrs. Harry Caylor.

Mrs. Caylor said that quite a number of persons have called her and expressed an interest in such a movement. Tentative arrangements have been made for a director to coach the group and to help them organize, provided enough people in the community attend the opening meeting.

Members of the "Little Theatre" do not intend to ask any of the Hereford merchants for support or donations for the movement, all they ask is that the people attend their productions, Mrs. Caylor said.

Everyone interested in a "Little Theatre" movement for Hereford is urged to attend the meeting, which sponsors feel will not only be a means of entertainment, but also an asset to the community.

# County Absentee Balloting Drops

Contrary to reports from other towns in this area, absentee ballots cast in the second primary in Hereford this week were sharply below the total in the July primary. The count was 58 votes Tuesday, when voting legally terminated, as compared with 76 in the July primary.

No County Races

Whether this is an indication of the second primary vote in this area was a problematical question, but most observers still predicted that Deaf Smith County would top the approximate 2,300 votes cast in the July balloting. Still to be remembered, however, is the fact that no precinct, county or district races appear in the run-off races. This story is different from that in some cities where absentee balloting has been heaviest.

Associated Press meanwhile, was predicting a greater total in the second primary than the 1,350,000 votes tallied in the July 24 primary.

Meanwhile, Allan Shivers and Ralph Yarborough continued to slug away in the bitterest gubernatorial campaign in Texas history. Assisted by friends and supporters, they carried the campaign into the newspapers, ranging from the smallest weekly to the largest daily publication in Texas. Radio and TV were also popular mediums with both cutting off regular paid programs to afford equal time for both candidates.

Local Boosters Active

Boosters on each side of the controversy were active in Hereford as the finish drew near. Literature, car stickers and personal solicitation supplemented heavy newspaper and radio advertising campaigns in Deaf Smith County.

Bitterly contested and interspersed with mud-slinging on both sides, the campaign's final stages centered on personalities involving both candidates. Shivers concentrated his attack chiefly on accusations that Yarborough was backed by "CIO" and "Communist dominated" agencies. He also said that Yarborough appears to be "running out of promises."

Yarborough centered his attacks on branding Shivers as a traitor to the Democratic Party, denouncing the third term and even sought impeachment of the governor in connection with Mission Times printing contracts. He also declared that Shivers could and should settle the Port Arthur labor disputes.

Public Is "Fed Up"

In the Hereford area, and possibly all over the state, the public was apparently growing weary of the name-calling. On every hand, people were declaring "Two more days and it will be over," then concluding, "Boy, it sure suits me."

Most people, at this stage of the race, appeared to have firm convictions "in one direction or the other." Persons openly expressed opinions—but seldom did you encounter a man who was "on the fence." Confusion, the natural thing to expect from such a campaign, apparently did not exist.

## Around Town

Finally, we have come up with a topic which seems to overshadow even the governor's race. It's an old timer, we admit, but a lot of people wouldn't even care if we had a governor or not, provided they could get rid of their Johnson grass. However, this question, like politics, is also controversial from several angles. We have encountered a lot of dairy people, for instance, who say they think more of their Johnson grass than any other thing on the place—and wouldn't kill it for the world.

It all started when Lee Benefield called in recently to admit that he could not read the signs of the almanac to complete satisfaction, and needed help to eliminate some Johnson grass.

Anyway, here's the dope. The honest-to-goodness dark of the moon period started at 11:27 a.m., Wednesday, August 25, and will continue all day Thursday and all day Friday. The next go-round will begin at 6:06 p.m., September 21, running through September 25. The information, sought by Lee Benefield, comes through courtesy of Jack Renfro who, incidentally, is an old Oklahoma "Ag" boy. Despite his "schoolin'," however, Jack says he has a lot of yield records from actual planting that causes him to study and place much faith on this moon planting.

Knowing Jack pretty well, we (Continued on Page 2)

## Milo Estimates Jump To 6 Million Bushels

Estimates on grain sorghum yields for this area were generally averaging around 6 million bushels this week, following beneficial rains which touched practically every point in the territory. Moisture was reported from as high as three inches down to three-fourths of an inch at different points.

Yields Improve One-Third

The estimates set 1954 yields at approximately 50 percent over those of last year, and were considered to have "improved at least one-third" following the recent rains. The 6 million bushel estimate would mean from \$6 to \$7 million dollars in revenue to producers.

Helped most, of course, was the vast dry-land acreage, where many producers were reporting conditions as serious following the long drought and hot summer weather. For some, the moisture came too late. Much of the dry-land crop had to be re-planted because of Spring rains this year, however, and most of the late sorghum crops were said to be holding up fairly well.

Approximately 600,000 pounds of the acre was a general average which many dealers and producers were anticipating on dry-land sorghums this year. Acreage in this division was set from 150,000 to 175,000 acres. A few fields will, of course, far out-produce this figure, but others will not even harvest their 1954 crop.

"Best I Ever Saw"

Irrigated sorghums, most people pronounce as "the best I ever saw." Approximately 90,000 acres of irrigated land has been planted to grain sorghums this year with an anticipated yield of around 2,500 pounds to the acre, however. Included in this division are outstanding crops farmed by Pat Ranspoff, T. D. Abston, George Turrentine, Perrin Bros., Buck Parsons, Pete Caldwell, Wilbur Ake, Troyce Carmichael and Chester Wiggins, along with many others.

The rains were also welcomed by irrigation men with milo, since they found themselves unable to get around fast enough to take care of water needs on the '54 crop, which was beginning to hurt.

Storage Facilities Good

Most grain dealers expect milo harvest to start moving on a small scale around September 20, and to continue well into October, depend-

## Smiling Farmers Wait For Fields To Dry Out Following Beneficial Rains

Farmers of the area were anxiously waiting for lands to dry out so work can begin on a varied list of activities. Some will plant wheat, others will start harvesting lettuce, cultivating sugar beets and corn, and the great majority right now, is interested in grain sorghums.

The rains, frequently classified as "just what the doctor ordered," touched practically every inch in the territory, but varied in amounts from one-quarter of an inch to a full four inches. The following official SCS weather stations are reviewed to afford a general idea of the rainfall:

Carl Wimberley, Dawn—90 inches of rain last week. The slow rain fell at three different times.

N. A. Brown, 29 miles northwest—2.28 inches. Saturday and Saturday night recorded 1 1/2 inches in a "nice slow rain that didn't run off."

A. L. Howe, 12 miles west, seven north—3 inches fell last week. Nice slow rain.

Owen Andrews, seven miles south—1 1/4 inches Saturday night, 1/2 inch Monday night. Nice slow rain.

Ira Scott, 13 miles west—4 inches of rain. Most of Westway community received 3 1/2 inches with no run off. The rain fell slow and soaked into the ground.

## Riders Re-Date Cakewalk Event

Due to the rain, the Riders Club cakewalk was postponed Saturday night and has been re-scheduled for this Saturday. It will begin at 8 o'clock Saturday night on the corner of Third and Main.

All members are urged to bring their cakes and report for work by 7:30 o'clock at Rose and Barber Real Estate, according to Mrs. Homer Brumley.

General committee for the affair is Mrs. Wiley Roberson, chairman. Mrs. Joe Kendall and Mrs. Pat Lawhon.

## Court Recommends Regular Audits; Charles Skelton Named As Deputy

Audits, present and future, held the spotlight Monday at the regular meeting of Deaf Smith County Commissioners' Court. The group also heard a review of Home Demonstration Club work in Precinct 3, and changed the status of Deputy Sheriff Charles Skelton from that of temporary to a permanent post in the County Sheriff's department.

Harvey D. Todd, CPA who is currently auditing the county and hospital books, had been expected to make his report at the meeting, but delayed the appearance in view of "further investigation and checking still to be done."

Endorse Audits

The Commissioners also discussed the matter of future audits (Continued on Page 5)

## First Hereford Lettuce Goes On Sale Saturday

The first Hereford lettuce of the 1954 season went on sale in local stores last Saturday, August 21, setting an early harvest record for the area.

The lettuce was harvested only in small quantities and was dry-packed. It came from the Charles Huston field, located 14 miles north of Highway 51 and two miles west on the Farm-to-Market road 14-12. Harvest was halted this week, due to rains which prevented workmen from getting into the fields.

"It is too early to tell what the yield of this early crop will be," said Virgil Roberts, who is in charge of Huston Farms, but the quality is very good—with the exception of some which may have been harmed because it could not be harvested earlier.

With the present cuttings running around two weeks ahead of schedule, additional harvesting of lettuce was expected to begin when the ground dries out and to gain momentum as the season advances.

Lettuce harvest normally begins around September 10.

## Accident Delays Trip To Lamesa

No serious injuries were reported from a traffic accident involving a group of Hereford residents near Springlake Sunday morning at around 10 o'clock. In the accident were Don Mobley, Mr. and Mrs. Raymond Miller, La Nell Mobley and Darwin Miller, who were en route to Lamesa, where they planned to visit relatives.

The accident occurred at Springlake when the Mobley car side-swiped another car, resulting in \$50 damage to the Mobley car and around \$200 in damages to the other car.

The Hereford group, badly shaken, received only minor bruises—but decided to return to Hereford, delaying their Lamesa trip until another time.

## Picnic, Two All-Star Games To Close 'Small Fry' League

The small-fry baseball program, sponsored this summer by Hereford Jaycees, will close Friday evening with a picnic for all boys in the program, followed by two All-Star games. The picnic will begin at 6:30 o'clock and Jaycees are planning to handle around 150 boys. The games, scheduled to begin at 8 o'clock, will carry an admission charge of 25 cents for adults with proceeds going to the March of Dimes after cost of lights is deducted.

A sportsmanship award will be presented between the two All-Star games, along with trophies for winning teams this season.

The first game will feature All-Star selections from the 9-and-11 year-old boys; one team will be selected from boys on teams finishing first and third place, and the other from teams finishing second and third place. The second game will follow the same style of selection, but will include 11-and-12-year old boys.

## Sam Lesly Rites At Matador Today

Funeral services for Sam Lesly, 74, local farmer, will be held this afternoon at 2 o'clock in the First Methodist Church at Matador with Rev. McBrayer of Groom officiating.

Mr. Lesly died Tuesday afternoon about 3 o'clock of a heart attack in his home six miles north and three miles east of Hereford.

He was born January 24, 1880, in Lee County, Miss. March 1, 1903, he married Odie Lancaster in Comanche County, Okla., and they came to Texas from Oklahoma in 1905. The Leslys came to Hereford about six years ago from Post. He has been farming near Dawn since moving here.

Survivors include: his wife; one son, Luther of Hereford; five daughters, Mrs. Lewis West of Hereford, Mrs. Horace Vaughn of Hereford, Mrs. John Mason of Roaring Springs, Mrs. Glenn Walcott of Torrance, Calif., and Mrs. Jack Bridges of Compton, Calif.; two brothers, Oba and Elbert of Merced, Calif.; two sisters, Mrs. G. W. Lancaster of Santa Margarita, Calif., and Mrs. Claude McCaskey of Littlefield; 11 grandchildren and eight great-grandchildren.

Burial will be in Eastmound Cemetery at Matador.

SEES HER FIRST GOVERNOR! Mrs. Willie O. Jones, 72, of Electra, saw and shook hands with Gov. Allan Shivers this week as he swung into the final lap of his campaign. Mrs. Jones declared that Shivers was the first governor, including all states, that she had ever seen in her 72 years. (AP Photo)

## First Two-Grades Pre-Register To Miss Opening Day

Pointing out that all First and Second Grade students will be required to have birth certificates when they register, Supt. George L. Graham, again said that First and Second Grade registration will be from 8:30 to 11 o'clock, Friday, August 27.

He also said that it will not be necessary for the first two grades to attend school on the opening day, Monday, August 30. Any First and Second Graders who are unable to register Friday, as scheduled, will be allowed to register on Monday, however.

## Hereford Driver Escapes Injury

June Cates, driver of a Sharp-Edwards transport out of Hereford, was uninjured in a Highway accident at Albuquerque around 2 o'clock Wednesday morning. Unidentified occupants of a passenger car which crashed into the transport were reported to have been hospitalized, however.

The accident occurred when two Hereford transports were returning from California, according to Calvin Edwards, who said Bill Boatman, driver of the other transport, called him following the accident. Highway patrolmen investigating the accident were reported to have said that Cates was in conformance with regulations, Edwards said. The accident occurred as the transport was making a turn on the "Y", just out of Albuquerque.

The transport was reported as seriously damaged.

## Small Boy Swallows Map Pin At Church Services

"That was a crazy thing for me to do," says eight-year-old Troy Gandy, who swallowed a map-pin while sitting in church Sunday night.

Troy, son of Mr. and Mrs. C. R. Gandy, was sitting quietly during services at the First Baptist Church, when he gulped a few times, then announced that he swallowed the pin. His parents rushed him to the Hereford hospital, where X-rays were made; they showed that the pin had gone to the bronchial tube, then into his left lung. The doctor advised that they take him on to Amarillo to the hospital.

Frank Watson, accompanied by Mr. and Mrs. Gandy and E. J. Kirksey, took him to St. Anthony's Hospital, where they used the bronchoscope to remove the pin. Monday morning, after taking two more X-rays which showed him to be all right, his parents brought him home.

Mrs. Gandy said she hoped that the episode would break him from putting things in his mouth that don't belong there. Troy didn't say exactly where he acquired the pin, but it was presumed to have come from a nearby bulletin board.

 also offer this word of advice: If you start an argument with him on this subject, be prepared to defend yourself with actual facts and figures, because Jack will have his right along the line. He can get really scientific on this most "unscientific subject."  
 G. T. Williamson also came in with a date, though he doesn't get down to split-seconds. "I've always been taught by the old timers," says Mr. Williamson, "that the 'real dark of the moon' is when it starts going into the light period just after being its darkest."

Lee says that he has enough Johnson grass to try both methods. Furthermore, he promises to "dig

deep" and "stir generously" — and to keep a record on the outcome for "future posterity." He'll do it, too. Anyone who parts his hair as wide across the middle as Lee Benefield can be depended upon.

Furthermore, Roberta Campbell says that J. B. Elliston should look around a bit, or maybe have his glasses changed. She says she sees lots of humming birds here—every year, too. She says they always infest the "trumpet vines" (Virginia Creepers) outside her window. For years, continues Roberta, these humming birds have been one reason she likes this country so well.

And just for variety, we will pitch in a letter from Guida Dockery, 3631 Wilbarger St., Vernon, Tex. Her letter, dated August 20,

wants to know about buying some Deaf Smith County wheat, also some rye. She has purchased a mill to grind the wheat at her home and, at present, is getting Hereford wheat from a company in Wisconsin. "This," figures Miss Dockery, "is going out of the way to do things"—especially in view of an inclosure in her last shipment which said that the wheat came from the Sherman place, north of town. The big catch was that the photostat was dated Aug. 10, 1947.

Maybe it evens things up with the northern states, maybe not—but H. M. Thomas got back recently with nine Wall-Eyed pike which he caught at Detroit Lake, Mich. The nine fish weighed a little over 20 pounds. What's more, Mr. Thomas said he had been eating fish all week and that four

men in the party caught over 100 pounds. Others in the party were Dr. E. F. Thomas and his son, Bert, of Wichita Falls, and Buford Gordon of Pampa.

Chairman Debbs Knox and Glenn Nelson were winding up details for the big Emergency March of Dimes dance, scheduled Tuesday night, August 31, at Hotel Jim Hill. The Golden Spread Playboys will furnish music for the affair and proceeds will benefit the March of Dimes.

In spite of all the misfortune Cherry Holt, daughter of Mr. and Mrs. Earl Holt of the Frio Community, suffered at the annual Camp Fire Camp, her first words to Camp Fire leaders after returning to Hereford Monday were, "I had a wonderful time at camp." Cherry has apparently recovered

very nicely and does not regret the trip at all.

**Scouts Collect \$98 From Balloon Sale**

Boy Scouts set a goal of \$98.02 on Pollo balloon sales here Saturday in connection with the Emergency March of Dimes, according to Loyd Lovel, chairman, who said that Camp Fire Girls are scheduled to compete with the mark on the coming weekend.  
 The balloons, scheduled to sell at 15 cents each, brought well over that amount, Lovel reported. Many sold for \$1 each and the highest sale recorded was \$5 for one balloon. All proceeds go into the Pollo fund.

**STAND YOUR GROUND . . .**

DON'T be misled by Allan Shivers silly charges of C I O Control, Unionized farm labor, or loss of freedom of your children. These charges have no basis in fact, but are made to cover up the real issue in this Campaign. No one is trying to gain control of Texas except Allan Shivers and his chain of command.

BREAK UP Shivers Political Machine that has gained control from Austin down through Deaf Smith County.

**WE DON'T WANT A DUKE OF DEAF SMITH**

Two Terms are Enough A Third Term is Much too Much

The President of the United States cannot hold office for more than two successive terms. The former Governors of Texas have refused a third term because it has long been recognized that an administration too long in office builds up to much power and is not good government.

**VOTE YOUR OWN CONVICTIONS . . .**

Contrary to the belief of Allan Shivers and his chain of Command, Texas will not fold up when he is defeated on August 28th. Texas has advanced and prospered for a hundred years and will continue to advance and prosper long after BOSS SHIVERS and his chain of COMMAND are gone and long forgotten.

**DON'T BE DICTATED TO . . .**

There is a petition signed and published by Business and Professional people advising it is best for you to vote for Allan Shivers. You have heard the issues in this Campaign. # Damages \$320 In Four Accidents

Approximately \$320 damage was done in four collisions occurring in the city limits of Hereford Saturday, Sunday and Monday.

**Busby-Rudd**  
Norris Ray Busby, 126 Main, driving a 1947 Mercury and Irene L. Rudd, 126 Ross, driving a 1949

Chevrolet, were involved in a collision on Main Street about 15 feet south of Fifth Street Saturday night around 6:35 o'clock.

Busby, driving the Mercury, was going east on Fifth Street and, according to police reports, attempted a right turn onto Main Street, lost control of the car and skidded into the center of Main. The front fender of the Mercury collided with the left side of the Chevrolet, which was stopped at the signal light, facing north on Main.

About \$75 damage was done to the Mercury and \$100 damage was done to the Chevrolet.

Busby was charged with negligent collision.

**Pitman-Stacy**

No damage was done to a 1932 Chevrolet driven by Floyd W. Pitman, 511 Grand Avenue, and about

\$30 damage was done to a 1949 Ford driven by Ralph O. Stacy Sunday morning about 11:25 o'clock when they collided at the intersection of Park Avenue and Avenue B.

The Ford was stopped at a stop sign on Avenue B and Park Avenue. According to investigating officers, the Chevrolet, approaching the Ford from the back, failed to stop in time and collided with the rear of the Ford.

Pitman was charged with negligent collision.

**Rankin-Thomas**

Jowell and Highway 60 was the scene of an accident Sunday afternoon about 5:30 o'clock when a 1953 Mercury driven by Hugh K. Rankin of Ajo, Ariz., collided with a 1948 Chevrolet pickup driven by Randall Thomas.

Rankin, driving the Mercury, was going east on Highway 60 and attempted to pass the Chevrolet pickup. At that time the pickup made a left turn from the right lane and collided with the Mercury.

About \$35 damage was done to the Mercury and \$5 damage was done to the pickup.

Thomas was charged with making a left turn from the right lane.

**Parson-Finley**

Lloyd Dean Parson, driving a 1954 Dodge and Robert L. Finley, driving a 1946 Mercury, were involved in the fourth accident occurring about 4 o'clock Monday afternoon 150 feet north of Fourth Street on Main.

The Mercury was backing out from the curb into the lane of traffic. It collided with the right front fender of the Dodge causing about \$75 damage to the fender and door of the Dodge. No damage was done to the Mercury.

Finley was charged with failure to grant the right-of-way.

Mr. and Mrs. H. L. Higgins and children, 238 Star Street, went to Shamrock Sunday to attend a family reunion of Mr. Higgins' family. Around 40 persons were there. The reunion will be held at the same time next year at the Higgins' home here.

## Latin American Is Hurt Wednesday When Hit By Car

Bruises and a cut lip seem to be the only injuries received by Arnold Valverde, 6, when he was struck by a 1951 Dodge, driven by Eula Henderson of Amarillo about 7:30 o'clock Wednesday morning. Arnold, however, is still in Deaf Smith County Hospital under observation.

Mrs. Henderson was going west

on Highway 60 and was attempting to pass a semi-truck, which was parked on the left side of the highway. Just as she was about to pass the truck, the child ran out in front of her, according to police reports. The left bumper and fender struck the child knocking it down. He was taken to the hospital by Gilliland Funeral Home ambulance.

## Piggly-Wiggly Has New Walk-In Unit

Workmen were this week nearing completion of a new, modern walk-in refrigerator at the Piggly Wiggly store. The box, 15 by 27 feet, is located just at the rear of the store, and runs to the alley.

"It will be used to store produce, oleo, eggs, cheese, frozen foods, ice cream and other perishables," said Gaylord Newell. He said that the new box has automatic defrosting and other modern features, and that it will replace a smaller unit now inside the store, allowing more space for storage of other foods.

Mrs. J. E. Cockrell left Tuesday for Oklahoma City, Okla., to be with her sister, Mrs. D. L. Bomar, who is seriously ill. She will be joined there by another sister from Kentucky.

## Two Frio Girls Improving From Polio Attacks

FRIO — Martha Ann Burgin, 15-year-old daughter of Mr. and Mrs. J. N. Burgin, has been in the West Texas Polio Center since Wednesday of last week. Her parents visited her Sunday and reported that she seems to be doing all right. She has partial paralysis from her waist down.

A younger daughter of the Burgins, Alice, is also improving following an attack of polio. Only one arm seems to be affected partially with paralysis, and her condition is continuing to improve, the Burgins said.

VOTE FOR Allan SHIVERS

(Paid Pol. Adv.)

## Court....

Continued from Page 1) and, by unanimous vote, recommended that a complete audit be made of "the books, records and accounts of all departments of the County government, including the Deaf Smith County Hospital for the year 1954, beginning April 1, 1955; and, further, that this be done every two years thereafter."

Voting unanimously, the Commissioners also confirmed permanent appointment of Deputy Charles A. Skelton, effective August 19. Skelton was temporarily appointed on the staff by Sheriff Lowell Sharp on July 15, at a salary of \$75 per week, working during vacation period of Sharp and Deputy Neal Young. The permanent appointment called for a salary of \$250 per month for the deputy, to be paid monthly or semi-monthly. The appointment was subject to Skelton's qualifying for a \$1,000 bond.

# SHIVERS SAID HE DIDN'T OWN IT

Reference: Houston Press, Wednesday, Aug. 11, 1954 — Staff Writer Thomas Martin —

"But Governor Shivers quickly shot back today that he had sold all his stock in the company before he became governor, and that he has had no connection with the company since that time."

In his deposition in the land case, which Gov. Shivers swore to on July 28, 1953, he said on page 23: "I would not be positive about Joe (Cook) but he has called me about several things in the Valley because he works for me, as you probably know."

In the letter of July 12, 1954, to all members of the Texas Press Association, Joe T. Cook made the following statement: "ALLAN, WITH WHOM I AM ASSOCIATED IN THE PUBLICATION OF THE TIMES is one of our group. He is an active member of the Texas Press Association and during his service in state government he has considered the press of Texas his closest friend and greatest ally. ALLAN SHIVERS SPEAKS OUR LANGUAGE because he is in the publishing business"

For the year September 1, 1952 - August 31, 1953

Mrs. H. D. Tomlinson and Judy

## MacFarland Will Meet Detton Here Saturday Night

Scotty MacFarland, the red-head from Glasgow, Scotland, who ranks high in the junior heavyweight list of professional wrestlers, moves to the Hereford Bull Barn Saturday night for a feature tilt against Glen Detton of Salt Lake City.

MacFarland, bull-like bad-actor who never knows when to quit or hardly when he's defeated; will be making his first appearance in the Hereford ring, and the fans are in for a treat.

The treat may come with clever Glen Detton giving the hefty Scotsman a wrestling lesson, but it could be the other way around.

They meet in the top part of a double main event, two best falls of three or to a one-hour time limit.

Another internationally famous wrestler, Andre Drapp, of Paris, France, makes his first appearance here Saturday night. He will battle bull-like King Kong Cox Jr., in the first section of the twin feature, same conditions prevailing.

Drapp, in the Southwest States territory for the first time, had to pull off several pounds to become eligible for the Southwest States junior heavyweight championship tournament now raging in Amarillo. For that matter, so did five-foot-six King Kong. The latter lost his first tournament effort to efficient George Curtis of Vicksburg, Miss. Drapp has yet to make his first tournament appearance.

For many years the European wrestling champion, Drapp is one of the most popular men in France. Not only as a wrestler and a leader in other sports and later dean of sports instructors at the National College of France, but as a member of the French underground during the war; he became almost eligible for president.

One of the biggest drawing cards in all wrestling centers, big and little cities, Drapp is always booked far in advance.

Mr. and Mrs. H. B. Stanfield, 501 N. Ross, attended a family reunion of her people, Sunday at Plainview. Approximately 150 relatives were there.

Neil and Mrs. A. H. Jordan and Erma Lou were in Amarillo Saturday.

### A Farmer's Version of the Governor's Race

I think that we have two good candidates for governor. I have nothing against Mr. Shivers other than the fact that he used not only his influence, but the influence of the governor's office to the state of Texas to elect a Republican President.

Now let us see what this Republican administration has done to the farmers. They have recently passed the sliding scale price support program. Up to this date we only know how it will effect one crop and that is wheat. I was cut 18% on my wheat acres allotment, and we are told that we will not be allowed to grow a cash crop on this lay-out acres. Add the 7 1/2%, which is the sliding scale cut, plus the 18% acres cut and I have a 25% cut on wheat next year. But here comes the \$64 question. What will they do with grain sorghums which is not a basic crop? There is strong talk coming out of Washington that if it is supported at all it will not be more than 60%. Now fellow farmers if you can make a living and pay your debts on this kind of program you are a better farmer than I am.

You say what has this to do with the Governor's race. This is the biggest issue as far as agriculture is concerned. Don't you know that they are very eagerly watching this race in Washington. If their staunch supporter Mr. Shivers is re-elected it will be the green light to go ahead with this program, which will bankrupt most of the farmers in the state of Texas. On the other hand if Mr. Shivers is defeated it will serve notice on the Republicans that the farmers of Texas do not want their farm program. I think the farmers of Texas got the rarest deal they ever had in the 1952 presidential election in which Allan Shivers played a big part. In Mr. Eisenhower's campaign speeches he not only stated that he was for 90% of parity but full parity.

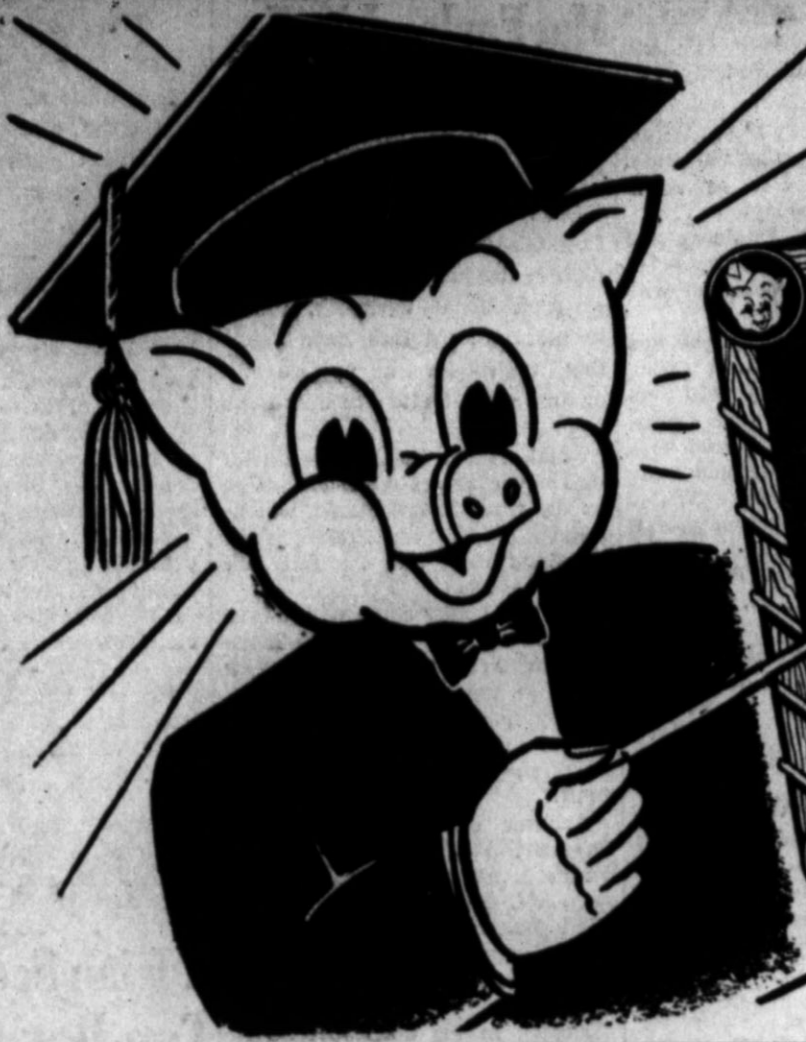

Fellow farmers I ask you to figure your own cut on your farm and what it will do to your income.

# Sheep Used For Westway Weeding Cotton News

By Roberta Campbell  
Time changes everything, they say.

The lowly sheep, a few scant years ago vehemently condemned as a menace by cattlemen of this area, is back in a new role these days to help round out a diversified agriculture program in the Hereford territory.

Sheep are this time working "neck-and-neck" with cattle—and appear to be more than welcome as they go plodding about stripping weeds and Johnson grass from cotton fields. The use of sheep for weeding cotton fields, a common practice among farmers in the Fort Sumner Valley of New Mexico, spread into this area in 1952 and, when cotton acreages permit, is expected to expand on a large scale.

Earl DeHart turned the weeding over to both sheep and cows on a twenty acre patch grown on his farm about three miles northwest of town three years ago.

According to Mr. DeHart the sheep probably did a cleaner job of eating the weeds but they refused to venture into tall vegetation, such as rank Johnson grass, while the cows would go on through to the end of the field.

Others suggest that where sheep are to be used alone it is advisable to use dry ewes if possible, as the lambs have a tendency to play over the cotton early of a morning and late in the afternoon. Since their favorite game seems to be racing each other up and down the rows, they are apt to damage the cotton.

The cotton should be allowed to get at least six inches high before the sheep are turned into the field and they need not be penned at night unless it is necessary to keep animals from hothering them or the sheep from straying.

"Arcund two sheep to the acre is usually enough to keep the weeds under control and don't be discouraged if they do not eat them clean as they go," says Mr. DeHart.

Perhaps it is instinct that keeps them from being gluttons but those who have watched sheep graze know their usual habit is to crop a part of a weed one day and return for a little more each time they feed until the plant is killed or eaten up.

Sheep are especially successful in the control of Johnson grass and bindweed and will eat most other weeds if they are hungry but there are a few they leave untouched such as thistles and cockle burrs.

Water and salt should be available as they are sometimes tempted to eat the cotton when it begins to open as the weed supply runs short. It is wise to move them to other pasture when the first bolls begin to mature.

Mr. and Mrs. Curtis Traweck, who tried geese for grazing their cotton a few years back, said that they have heard of using sheep as "weedeaters" but have not tried them. The experiment with the geese was successful—except for the fact that the geese created a greater problem than the weeds.

## Detton Trounces King Kong Cox In Bull Barn Match

Although King Kong Cox of Chicago did some mean wrestling at the Bull Barn Saturday night, Glen Detton of Salt Lake City, one of the well known Detton brothers, did some very brilliant wrestling to outsmart the newcomer and win the first event of the double main event.

Detton won the first fall in 12 minutes with a full crab. Cox, not to be out done, won the second fall in nine minutes with a top body smother. Detton then came back to win the third and deciding fall in seven minutes when Cox was disqualified for not breaking a hold.

In the second match of the double main event, Gory Guerrero of Mexico met Frankie Hill Murdock of Waxahachie in the two best out of three falls or one hour time limit match.

Guerrero won the first fall after a hard wrestling time of 22 minutes with a cross body smother.

It took Guerrero only one minute to win the second fall and the match with a top body smother after deciding that he had taken enough of Murdock's tricks and decided to show the veteran that he was not fooling.

Dr. Wayne Odom and family from Duncan, Okla., visited Mr. and Mrs. George Graham and Peggy, Friday, Saturday and Sunday. They all went to Palo Duro Canyon, Saturday.

By Pat Townsend and Sue Osburn  
There were 37 present for Sunday School Sunday. Bobby Mullins of Bovina was a visitor. Donna Gabbert of Hereford was a visitor Sunday night.

Guests over the weekend in the R. B. Long home were Mr. and Mrs. Ford Thrash and Jimmy of Altus, Okla. Mr. and Mrs. Thrash are Mrs. Long's parents.

Sue Osburn, Marvin Nussbaum, and Joe Kirby were visitors Sunday in the M. P. Nussbaum home in Amarillo.

Mr. and Mrs. Billy Wall and sons

returned Friday from a vacation trip in New Mexico.

Mr. and Mrs. Johnie Townsend, Pat, Sandra and Terrie, Bussy Kaul and Ross Joe Landers, all of this community, Mr. and Mrs. Lewis Neal and Clayton of Hereford and Mrs. Delia Ray of Bokchito, Okla., were in Las Vegas, Santa Rosa, Tucumcari and other points in New Mexico over the weekend.

Mr. and Mrs. Marlin Pierce are the parents of a baby girl born Sunday night. Her name is Donna Kay.

A mistake was made in the news last week, the parents of the Walker baby were put in as Si Walker and it should have been Gus Walker.

Mr. and Mrs. Carl Smythe of the Wyche community and Mr. and Mrs. Mayo Phipps of Friona were at Sauley's Sunday visiting.

Mr. and Mrs. Harold Rudd of Estancia, N. M., are also the parents of a new baby girl born Monday, Sheryll Marie. Sheryll was born in Albuquerque, N. M.

Ann Wagoner of this community returned from Groom where she spent a week with her grandmother.

The Methodist revival started Sunday night at Westway. Rev. Clarence Stevens and his son David are conducting the services. Rev. Clarence Stevens is pastor of the Methodist Church at Muleshoe and David is a student at MacMurry College at Abilene.

Ralph Morrison, Larry and Bussy Kaul, Nathan Wilson, G. C. Merritt, Billy Don Combs and Eugene Combs started football practice on Monday.

Mr. and Mrs. Roy Haltom were canning corn Tuesday in the R. L. Wilson home.

Mr. and Mrs. R. L. Wilson returned home Sunday from a trip to visit their parents in Snyder and Abilene.

Mrs. Paul Rudd left Tuesday for Estancia to stay with Mr. and Mrs. Harold Rudd for a week or 10 days.

Mr. and Mrs. Curt Griffin of Amarillo were visitors in the Paul Rudd home Saturday night. J. O. Little has been staying with the Griffins.

L. T. Hawks, formerly of Hereford, and Miss Jeannette Killough of Castleock, Colo., were married August 4.

Ralph Morrison broke his wrist during football practice Tuesday morning.

Melbourne and Sydney, Australia are the only cities in that country with more than a million population.

## Coach Sees 'Good Football Season'

Coach L. B. Russell, speaking before members of the Hereford Rotary Club Monday, predicted a good year for the Hereford White-face football team.

Losing only four of the more experienced players, the Hereford team was expected to make fewer mistakes this year in comparison to last year's "green" team, Russell said, adding that there is much more enthusiasm among the boys this year. He said that Phillips, contrary to statements made by the Phillips coach, and Perryton would probably be the toughest opponents in the district. Also on the list of "tough customers" was Littlefield, third on our schedule. Shamrock however, was expected

to be much weaker than last year having lost their star quarterback, York.

Practice sessions began Monday morning with 34 players present but, according to Russell, hot weather was needed to really "sweat" the boys into shape. He concluded his talk by answering questions posed by various members of the club.

### Flying Giant

OAKLAND, Calif. (AP)—Joe Sohm, an employe of the Tribune circulation department, thinks he is the biggest airplane pilot in the country. Six feet tall, he weighs 388 pounds.

If aircraft could fly continuously at 3,000 miles per hour at sea level they would heat up from friction at about 1,690 degrees (F), enough to melt many metals.

## Northwest Hereford News

By Mrs. R. C. Childers

Mrs. Pat Robinson and girls and Eddie Scott went to Panhandle Monday and spent the night in the home of Mr. and Mrs. J. V. Robinson and family. They returned home Tuesday after attending to some business in Amarillo Tuesday afternoon.

Mrs. I. W. Scott and Mrs. Ann Weaver and daughter, Vickie, of Canyon are visiting in the Ira Scott home this week.

Mr. and Mrs. Ira Scott and girls spent the weekend in the home of Mr. and Mrs. V. E. Dodson in the Progressive Community.

Chicago Visitors  
Mr. and Mrs. Thornton Richardson from Chicago will arrive at the Pat Robinson home Friday.

Pat Childers was a co-hostess at a bridal shower for Mrs. Earlie Flippo at the John Paetzold home in the Wyche Community Monday afternoon.

Raymon Childers furnished the organ music for the Craig - Forrest wedding at the First Methodist Church Monday morning. Pat Childers and Mrs. R. C. Childers assisted with the refreshments at the reception.

Mrs. Ira Scott reports four inches of rain at their farm, 13 miles west of Hereford. Most of the community received about three and one-half inches, with no run-off. It all fell slow and soaked into the ground.

Pat Jackson visited Pat Childers and Lula Mae Harris in the Childers' home Monday afternoon. Lula Mae is a house guest in the Childers' home from Tipton, Okla. Mr. and Mrs. T. B. Cox left Sunday for a vacation trip to Colorado.

The Paul S. Corbetts have been planning a vacation trip for the past few weeks but circumstances prevented their going, but they finally managed to get away Sunday. Their plans were to visit relatives in Illinois.

The Art Lewis family returned home last week from a visit to Missouri with relatives.

Mr. and Mrs. R. C. Childers made a business trip to Canyon Saturday afternoon.

Mr. and Mrs. R. N. Cooke and family will arrive today for a visit with friends in Hereford and vicinity over the weekend. They will spend Thursday and Friday nights in the R. C. Childers' home. A party is being planned for Friday night at the Childers' home for the Cooke family.

**PARR AGAINST GOV. SHIVERS**

Special Special in The News  
 SAN DIEGO, Texas.—George B. Parr, the Duval County political power, said Ralph W. Yarborough would get his vote for Governor.  
 Parr interrupted a coffee-cup conference with Roy Har- rington of Austin, secretary-treasurer of the CIO State Council, to say that he was not particularly for Yarborough.  
 "It's just that I'm against Allan Shivers," said the polit- ical boss.  
 Parr said that on Wednes- day night he went to Fair- burg to hear Yarborough make a campaign speech at the school stadium where Yar- borough spoke and did not speak personally to the candi- date. Some Parr-backed local officials sat on the platform with Yarborough.  
 "We haven't talked since be- fore he announced," said Parr.

Here is conclusive proof of the link between Parr, Yarborough and C.I.O.

This news story, appearing in the Dallas Morning News on Sunday, August 22, 1954, will convince all TRUE TEXANs that there is a conspiracy by the Parr-Yarborough-CIO Machine to TAKE OVER TEXAS.

Remember the CIO-PARR link has been repeatedly denied by Ralph Yarborough.

# Highlights and Sidelights FROM YOUR State CAPITOL

By VERN SANFORD.  
Texas Press Association  
AUSTIN, TEX.—Saturday will tell the tale.  
That thought is undoubtedly uppermost in the minds of gubernatorial candidates Allan Shivers and Ralph Yarborough, and thousands of Texas voters who have followed the fiery campaign from infancy to its high-tempo climax.

As August 28 approaches, Governor Shivers and Judge Yarborough step up their respective campaigns. Both made special appeals to the thousands of potential balloters who shunned the polls in the first primary.

In rallies and radio broadcasts over the state, the governor told listeners that good, sound state government was the only medium through which Texas could continue its prosperity.

"This is no time to start experimenting. This is no time to throw the state government into complete turmoil," Shivers said as he pictured Texas' present financial and economic picture as bright.

Shivers said that the state is free of depression, that industry and employment are booming.

"Most families are now better financially with money in the bank, and the state government has a balance of \$27 million with which to work improvements," the governor explained.

Underlined the evils of government leaders trying to buy public support with public money as riding down the road of waste, extravagance, and corruption."

Shivers also lashed out at the aim that he had broken a political pledge given at the 1952 Democratic Convention.  
"My opponent has charged that I pledged to support whomever

was nominated at the 1952 Democratic Convention," he said.

Shivers read from the convention record that the only pledge he made was to put the Democratic national nominees' names on the Texas ballot. That was done, he said.

In a skirmish over the labor-union vote, the Governor accused Yarborough of being "ashamed" that every strong CIO box went for the Austin attorney in the first primary.

Shivers, who has claimed that outside labor organizations are supporting Yarborough, said that Yarborough had now turned his back on his supporters by claiming that the union boxes had gone for Shivers.

Shivers also reported that 59 members of the State House of Representatives had announced their support of him for governor.

**Takes Dim View**  
While Shivers' picture of the present administration was a bright one, Yarborough's was the opposite.

In a theme developed in the early days of the governor's campaign and followed steadily, he lashed Shivers and the state administration with curt and critical accusations.

Yarborough pitched in a new charge as he drove and flew over the state.

Large billboards over Texas urging motorists to drive safely were paid for by an oil company. Yar-

borough stated, a direct violation of law because Shivers' name was on the billboards.

He said it was a violation for a corporation to contribute to a political campaign.

In stump speeches Yarborough also had nothing but criticism for state government.

He re-warmed charges, developed earlier in the race, that a long tenure in office had caused corruption in the capital and that Shivers was conducting an "untruthful" campaign.

Yarborough reiterated accusations that state printing contracts were let illegally.

At Gonzales he asked 150 courthouse square listeners to make sacrifices in time and effort to "preserve their freedom and liberty" by voting for him.

He also declared the need for a drought-relief program and promised if elected to draw up a "comprehensive drought relief plan."

**Could Pose Problem**  
The possible problem of having a state governor belonging to one political faction and a Texas democratic party organization of another strain is causing loss of sleep for some party leaders.

The problem is this:  
Shivers, as a conservative democrat, presently heads the state's party organization which also is conservative democrat.

In addition, his followers took control of the party convention to be held September 14.

If Yarborough, as a liberal - loyalist, wins the August 28th run-off, the situation for the next two years could see the head of the state Democratic Party at odds with his party's official organization.

**White, Porter Spar**  
State Agriculture Commissioner John C. White has charged that the Texas drought relief plan for stockmen may prove a failure if "Republican political ambitions" are not separated from the program.

White accused Jack Porter, Republican national committeeman from Texas, and other Republican leaders with blocking the effectiveness of the program.

Porter in turn stated that White was angry "because New Dealers are being replaced with people who believe in sound principles of government."

White said that in his three years of drought relief work it had never been necessary to clear anything

through national committees of either party.

He had earlier stated that the FIA, administering the program, was being made to depend on the Republican committee for its policies in drought relief.

**Don't Fix That Horn!**  
SPRINGFIELD, Mass., (AP) — Many professional musicians play horns and woodwinds that are about to fall apart and they don't want them touched, says Harvey Larose. He's a repair man for all

types of orchestra instruments except violins, and has discovered he is wiser not to make any repairs the professionals do not specify.

His is an interesting and complicated job because some wood-

winds have as many as 400 parts, including tiny screws, he says. Also a good repair man cannot do an adequate job unless he can play the instrument, he reports.

CONGRESSMAN WALTER ROGERS SAYS:

**'Outlaw The Individual Communist -- And You Eliminate The Threat'**

The question: "What is the most effective method of dealing with the communist threat?"

The answer: "By outlawing the individual communists."

The uproar that you read about during the last days of this Congress concerning the outlawing of the Communist Party, actually boiled down to nothing more than a play on words. The entire controversy centered around an amendment offered by Senator Humphrey, of Minnesota, to the bill originally introduced by Senator Butler, of Maryland. Senator Butler's bill was primarily directed at depriving communist infiltrated unions of bargaining rights before the National Labor Relations Board. Senator Humphrey offered an amendment to this Butler bill outlawing the Communist Party and imposing heavy fines for individual membership in that party or any of its affiliates, whether it was going by the name "Communist," or changed to some other name. This quickly passed the Senate, 84 yeas and no nays. This meant that the fat was in the fire. The Communist Party had been outlawed and penalties had been declared against individuals belonging to such party or its affiliates. This was something that the administration had studiously avoided on the theory that to outlaw the Communist Party would mean that its members would go underground and would be much more difficult to catch or watch. The bill then came to the House where an attempt was made by amendment to outlaw the Communist Party but striking out any penalty against individuals for being members of that party. The overall result of this would have been very little more than a slap on the wrist. The Communist Party would have been denied the right to go into court and do a few other things about which they care very little. Communists are not interested in courts unless they control them, so denying them the right to go into one they did not control would have very little ef-

fect as punishment. However, those of us who have long supported outlawing of the Communist Party had no chance to put some teeth in the penalty clauses because of the rules of parliamentary procedure. Therefore, we passed the bill as it was, sent it back to the Senate, and immediately started the machinery to have it properly amended in the Senate. This move was successful, and the Senate amended it, outlawing the individuals as members of the Communist Party and providing a penalty for being a member of that party. My only objection to the penalty in the Senate bill was that it was not strong enough. In any event, the bill came back to the House, and a move was made to have conferees appointed to iron out the differences.

At this point Congressman Martin Dies arose and moved that the House instruct its own conferees to accept the provisions put into the bill by the Senate, outlawing the Communist Party and the individuals as members thereof, and creating a penalty. In my opinion, this was the real test vote to determine whether or not you really wanted to outlaw the Communist Party and settle the issue once and for all. The vote on this was 208 for outlawing the members as such and creating a penalty to deal with them, as against 100 who voted against the Dies motion.

The anti-communist drive has been going on since the days of Attorney General A. Mitchell Palmer, who served in the 1920's. That the Communist Party is a criminal conspiracy dedicated to the destruction of the democratic form of government is so widely advertised by the Kremlin itself and so well known to anyone who has had the slightest opportunity to study it, no one denies. However, it has long been argued that to outlaw the Communist Party would be to partially destroy democracy. At first blush this argument might appear to have some merit, but even a surface study of communist intents and purposes, reveal that here is a force bent on the enslavement of mankind, wholly void of any sense of fair play, and having not even the slightest regard for any laws, rules or regulations, a force to which a constitution is a contaminated piece of paper. I can think of nothing that can be more of an outlaw under a democratic form of government than the Communist Party and those who make it up. To say that these people as individuals should have the protection of our laws and to exercise the rights of citizens under the constitution of this nation is in my opinion tant amount to saying that beasts of the jungle should be allowed to roam at large among the citizens of this country until such beast decides to devour a man, woman or child, or perhaps all three. If he does eat someone, then he is to be fined or imprisoned for not more than five years, but none of his compatriots are to be molested until they have committed an overt act. The communists in this country who are taking their orders from Moscow are not as good as these so-called beasts of the jungle. Generally, the animal would kill only for the sake of satisfying his appetite. The communist is one who is fatally bent on mischief with a wanton and total disregard for the rights of others, and to whom the end results sought is sufficient to justify any means by which he may decide may be resorted.

One of the first orders of business for the 84th Congress should be to re-insert into the anti-communist bill the teeth that were extracted by a compromise between two or three individuals when the bill passed the Congress. This bill does not represent the overwhelming sentiment of the Congress or of the people and will not represent that sentiment until the communist as an individual is outlawed and the punishment provided for violation.

**"Inferno"**  
Showing Friday and Saturday at the Star Theatre, starring Robert Ryan, Rhonda Fleming, and William Lundigan.

See Robert Ryan as a marooned millionaire, actually fight for his life by descending a breathtaking rock slide, encountering a deadly rattle snake and meeting a hungry wolf; and all alone with a broken leg. A wild fight staged in a burning cabin climaxed the action of "Inferno."

All of this happens because his wife, Rhonda Fleming, and her secret lover, William Lundigan, have left him there to die of thirst or

to be killed by one of many of the desert animals.

The trick of survival, attained with doggedness and ingenuity, changes Ryan's character to effect a better man at the end than the one who was left there to die in the beginning.

PITTSBURGH (AP) — A man carefully selected an assortment of groceries at George Parker's store. The bill came to more than \$10. Instead of handing over the money, the man asked Parker—at gunpoint—to open the cash register.

Parker refused. The fellow put his revolver in his pocket, picked up the bag of groceries and fled from the store.

# WE CHOOSE SHIVERS FOR GOVERNOR BECAUSE

Under him we have improved schools, higher teachers' salaries and a sound educational program for the future.

He agrees with the people of the High Plains Underground Water District that they are entitled to a locally controlled program, for which we have been fighting for ten years.

He has expanded the State Hospitals for the care of the insane, taken them off the floors and put them in beds, and has expanded the facilities for the blind and the afflicted.

He has a systematic Highway and Farm-to-Market road program in operation, based on need, with new roads being added continuously.

He jeopardized his political future and voted with us for the man who would return to us the Tidelands. We do not wish him politically crucified because he did what we did and we desired. (Incidentally the Tidelands brought in \$32,000,000 to the Permanent School Fund in 1953.)

He gave us a sensible veterans' program. Under the Veterans' Land Board any Texas veteran may acquire a farm home.

He appointed for us the first member of the State Highway Commission to come from the high plains of Texas, Marshall Formby of Plainview, Texas. He visits widely over every section of the state in order to know the wants and needs of the people of the state.

He threw the power of the State of Texas into Duval County in order to give a large Latin-American population a chance to learn Democracy first hand instead of being voted and domineered by corrupt political machine.

He has done all of these things without putting the State of Texas in debt, largely by a tax of natural resources.

WE CHOOSE SHIVERS because his opponent has a haphazard two billion dollar spending program without a thought as to where the money would come from. If it be a sales tax, this will mean a tax on everything purchased within the State of Texas, from a pair of overalls to a farm tractor.

WE CHOOSE SHIVERS because his opponent expressly says that a Department or Bureau should be created in Austin for the purpose of controlling all of the waters in the State of Texas.

WE CHOOSE SHIVERS because his opponent has indiscriminately promised the construction of roads in various places in the State of Texas for reasons of political expediency instead of need.

WE CHOOSE SHIVERS because he believes the Democratic Party in Texas should be independent of outside forces, and thereby have a bargaining power in national affairs, where his opponent proposes to hand it back to Truman labor bosses from whom we revolted in 1952.

In freezing vegetables the Experiment Stations still recommend blanching. Some people don't blanch vegetables before freezing and say the vegetables are good or even better than when blanched. There are a lot of "ifs" involved with not blanching. If only a small amount of food is worked with, if you work fast, if the freezer stays at proper temperature and if you cook immediately upon taking from the freezer. Any type food preservation has so much work to it that taking a chance on quality can be expensive.

There should be canning vegetables at the H. D. Market and Gifts Friday. Mrs. S. T. Loerwald brought some nice beans last week. Dressed hens have been selling well. Mrs. Jimmy Thomas and Mrs. J. T. Guinn have sold hens. This is a good opportunity to get some cheap meat for the freezer.

# WARNING!

## TEXAS FARMERS - RANCHERS WARNED OF CIO LABOR PLANS

AUSTIN, Tex., Farmers and ranchers of Texas were warned this week that the CIO plans to organize the farm workers of Texas if its candidate wins the Governor's race.

This warning came from Governor Allan Shivers who charged that the backers of his opponents "want to turn the state government over to the same bunch that is trying to wreck Port Arthur."

"One of the first things they would do is put one of their red-hot organizers from Port Arthur in as labor commissioner. Then every time a farmer or rancher wanted to hire someone he would have to go through the CIO."

Governor Shivers said there was no doubt in his mind that the aim of the CIO after the job of organizing industry in Port Arthur and along the Gulf Coast is finished is to begin organizing farm labor in all parts of Texas.

"You can imagine what will happen

when the CIO starts dictating how many laborers are needed to plow ten acres of land, refusing to allow a man to work more than thirty-five hours a week during the harvesting season and telling how much a farmer can charge for his crop," he said.

The Shivers administration, the Governor said, has worked hard to help preserve and protect the rights of the working man.

"But as long as I am Governor, the professional labor bosses who have been sent to Texas from the East — specifically those in the CIO and its Political Action Committee — are not going to run our State Government," Shivers promised.

Shivers said the average working man in Texas appreciated good government and that they were not going to let CIO bosses and professional organizers from the East do their thinking — and voting — for them.

## Long Time Ago

### 45 Years Ago

Work on the city water system under the supervision of S. W. Moore is to begin work at once. The first car load of six inch main with T's and connections arrived on the tracks Monday and were at once placed along the streets ready to be placed as soon as the ditches were opened. The work on the big reservoir is nearing completion and the city is advertising for bids to sink an eight inch well. From the way things are being pushed along it will be but a few weeks until Hereford will feel safer on the fire question.

When you are telling "how dry it is in Texas," don't forget to mention that in many sections of the Panhandle that splendid feed crops are being made. Just tell them that A. H. Kellogg, who lives 14 miles southeast from Hereford and six miles south from Summerfield has a 50 acre field of milo maize which he says is as fine as anybody ever raised. As proof of his statement, he and his good wife brought a dozen heads to the Brand office Tuesday morning. Mrs. Kellogg said that she gathered the heads herself, that when she walked through the field to pick out the "best and biggest" she found the greatest trouble in making a choice for there seemed to be so many perfect heads and so few little ones that she was at a loss in the super-abundance of plenty.

It is estimated that the field of 50 acres will make 2,000 bushels of seed.

### 25 Years Ago

Vacation is over and from every section of the city children were hurrying to school this morning to register for the coming term. Enrollment started at both the grade

and high school at nine o'clock and was reported heavy in all classes. From present indications, state school officials, enrollment in the Hereford public schools at the beginning of the fall term will exceed the registration of last year. Earl W. Wilson, county superintendent, is issuing text books this week to teachers of the county schools. A room in the court house is required to contain the thousands of text books needed to supply all the schools of the city and county, and is being cleared of books as the requisitions come in from the various districts. Text books are supplied without cost to pupils of the city and rural school by the State.

The Star Theatre during the past week has added much to the beauty of its interior by the effective placing of artistic tapestries on the walls and about the building. Since the recent installation of sound pictures and with the new decorations Manager Parker is to be congratulated on having one of the finest and most up to date theatres anywhere.

# Farm Bureau Queen To Be Selected Saturday Night

Approximately 20 entries in the Farm Bureau queen contest will be judged at 8:30 o'clock Saturday night in the Jim Hill room at the State Farm Bureau building to determine who will be Smith County's Farm Bureau Queen.

Entries for the event are Mrs. Lines of Bushland, Allen Webb of the Farm Bureau of Dimmitt and Dr. Cronnell Tolliver, of the speech department at Texas State College. Girls will be judged on poise, appearance, personality and statement on "I Am Glad My Family Is A Farm Bureau Member."

John of KGNC in Amarillo will be master of ceremonies for evening.

**To District Contest**  
Winner of the queen contest here will receive a local prize and will go on to the district queen contest to be held in Amarillo the week of September. Winner of the district contest will receive a cash prize and other prizes including a week's all-expense-paid vacation at the Crazy Horse in Mineral Wells with a maidservant.

The winner will go on to the Texas Farm Bureau Convention in Galveston in November, where the State Farm Bureau Queen will be chosen. Winner of the state contest will receive \$500 as a prize and an expense-paid trip to New York to attend the American Farm Bureau Convention in December.

Contestants from this area will be taken to Dimmitt Thursday night and Friona Friday night to view the queen contests in those two towns. They will attend a fish fry while in Dimmitt.

A review of all available contestants follows:

**Explosive Graduation**  
KALAMAZOO (AP) — The final exam of a volunteer firemen's course went off with a bang. An old shack had been filled with lumber and doused with gasoline. An electrical apparatus was ready to start the fire.

The button was pushed and—BOOM!

Atmospheric conditions condensed the gas vapor and caused an explosion. Debris scattered over a 300-foot circle. Part of the shack's roof crashed onto the fire chief's car.

No one was injured and the graduates successfully pounced on the flames.

Approximately 40 persons were present.

FANCY AND PLAIN

By KENT SNARE

While champing at the bit, lightly, on account of the china clipper, waiting for the footballers to emerge, I am wondering what measures Mr. C. Stengel, beyond boiling in oil, is considering as just punishment for the Bostons, for what they have did at him and his gullible Yanks. On this Sunday eve, the record has it that these aforesaid Yanks have just now dropped a trio to the low standing Bean-eaters, and that, at a time when they could ill afford to lose any, leave alone Slough off three. It was only last week, that the league following scribes accorded the schedule bulge remaining, to the Yanks, because of the predominance of second division clubs that the Champs were to face in the final fling for the flag. Now, the Stengels are grateful that they have only a doubleheader at New York remaining against the Bos-

tons in their final 32 endeavors. In addition they have 3 with Chicago, 5 against Detroit, cousin out 6 with Philadelphia, 6 maybe not so cozy ones with the Washingtons, 4 with Baltimore and 5 headons with Cleveland. On August 31, September One and Two they disport at Yankee Stadium and have at a double bill on September 12, at Cleveland Municipal Stadium. This bevy of bruisers could well determine the thing. All season long, the Yanks and the Blankets have clobbered the Bostons at will. Now just when the whole schmeer is tightening up, the lowly swats the averages, 'cause they have 5 tussles on tap with the Sox this lap and the "loa" may well slap them in their potential series purse. Anytime you're involved with the Bostons, and thusly, with Mr. Williams, you assume the risk of having that character cub your winning percentage askew with his bat, as one and all of the baseballers is aware. Mr. Stengel, making a frantic grab at his sixth pennant in a row, is up to his old

tricks. Today, he, thru the Yanks grab bagger, purchased a relief pitcher, one Jim Konstanty, from the feeble Phils (allegation denied by the Bums). This pickoff play from the National League is an old dodge with the Weissers, and they have profited handsomely thereby in the past, what with the aid derived from Mize, Hopp, Slaughter, Blackwell, Sain, Schmitz and now the palm baller. Actually they have reaped more benefit from these transplants in the world's serious, but Sain and Mize, in particular, have hurt them at no time. Factually the Yanks, although running second, are playing better percentage ball than in '53, when they led continually from the second week in May and sacked the gonfalon on September 14. Then they led the AL on 158 out of 167 days of the season. This lap, while futilely chasing the Indians, on August 22, they stand at 83 won and 40 lost, with a 675 percentage and on Aug. 31, '53, they were 86-43-667. The differents being that the Blankets have surpassed them all the route and are winning this war. The scribes talk about the Cleavelands yielding to pressure 'pears to me like the Yanks are the pressured ones. If they don't sweep the five they have left with the Blankets, they can hurry up their search for a new middle for their ball club. . . plus a new manager.

TWO GROUPS OF GROWNUPS and 4-H Club members are enjoying a game of "DO YOU LIKE YOUR NEIGHBOR" a get acquainted game at the Family Party held in the Central School Gym last Friday night. In the top picture those in the foreground are from the left; Mrs. Buck Green and Janie, Mrs. Carl Williams, Cecelia Wilhelm, and Nancy Green. In the lower group those in the foreground are A. J. Bezner, Peggy Browning and on the extreme right Mrs. Ed Dzuik who evidently likes her neighbor, Mrs. Tom Draper all right. Gayle Bishop is leading the game. (Staff Photo)

**No Dog's Life**  
GRAND RAPIDS, Mich. (AP)—"Buster" the Dalmation dog who tried out as mascot with the fire department sits forlornly in the humane society shelter, a victim of technological unemployment. It isn't Buster's fault. Firemen said he qualified for the job. He even hopped up onto the seat of aerial ladder truck when the fire bell rang. But then firemen looked around their. The environment wasn't right for Buster. Brick and pavement completely surrounded the downtown station. "Not even a place to bury a bone," they said as they bid Buster goodby.

# SEEK YE FIRST THE KINGDOM

## By Example

Behold these little ones — maybe three, maybe more. What contribution will they make to their day, their generation? Father, Mother, Teacher, Preacher, it depends on you. How much better it is to support our churches and their constructive program of Religious Education, than to support the alternative — a juvenile court. Parents, don't let the youngsters down. Teachers, show them the way. Preachers, tell them of God . . . give them your level best. LEAD them, don't SEND them up the steps of the HIGHEST and HOLIEST thing to man — the Sanctuary of God, the Church. Be an EXAMPLE.
