# Holidays Popular Time To Visit With Relatives

Thanksgiving is one of the two major holiday seasons each year when relatives seem drawn together. As hearts are given a spiritual lift when each individual recalls his own blessings, the desire to share his feeling with parents and children, brothers and sisters, exerts a strong pull.

Though we could not get the names and activities of all those who came to Hereford, or went away from Hereford, for Thanksgiving, the following items will give a good sampling of the activities.

Mr. and Mrs. C. B. Thomas were called to Jackson, Miss., last Monday following the death of Mr. Thomas' brother.

Mr. and Mrs. Guy Smith of Tulsa visited in the home of their son, Loy Smith, on Thanksgiving day.

Karen McGee, daughter of Mr. and Mrs. Lawrence McGee, spent Thanksgiving with her sister, Barbara, in Abilene.

Mr. and Mrs. Clint Formby were planning to attend the Hardin-Simmons and Texas Tech football game this weekend in Lubbock.

Mr. and Mrs. Irvin Curry spent the Thanksgiving holidays in the home of his parents Mr. and Mrs. D. E. Curry, 311 Ave. F.

Rev. and Mrs. Charles Wilson and their two daughters, Mary Lee and Linda Pat, of Salina, Kans., spent the Thanksgiving holidays in the home of Mrs. Wilson's mother, Mrs. A. M. Jones. Rev. Wilson is minister of the First Christian church of Salina.

Mrs. David Farmer and daughters, Davine and Carolyn, and Jimmy Cassels spent Thanksgiving with Mr. and Mrs. Ray Farmer and son of Seminole.

Mr. and Mrs. H. J. Roberson had all of their children home for Thanksgiving dinner. The children present were: Mr. and Mrs. Sam D. Schofield of Belle Gardens, Calif., Mr. and Mrs. W. E. Roberson and daughter Sue of Amarillo; Rev. and Mrs. Russell Pogue and children Lois and Jim of Hereford. Rev. Pogue is pastor of the East Side Baptist Chapel.

Barbara McGee was home over the weekend visiting her parents, Mr. and Mrs. Lawrence McGee. Betty Walker of Clifton, Ariz., came home with Barbara. Betty and Barbara are roommates at Abilene Christian College, where they are both sophomores.

Mr. and Mrs. Cecil Malone attended the Dude Ranchers Convention in Denver, Colo., the first part of last week. Mr. and Mrs. Malone were the only ones attending from Hereford.

The Cecil Malones were Thanksgiving guests in the home of Mr. and Mrs. O. M. Jennings of Muleshoe. Mr. and Mrs. Jennings are Mrs. Malone's parents.

Mr. and Mrs. R. K. Gentry and Bobby of Clovis visited in the home of Mrs. Gentry's mother, Mrs. Nona Jowell, during Thanksgiving.

Mr. and Mrs. Bill Knox spent the Thanksgiving holidays in Tucuman, N. M., visiting in the home of their daughter and son-in-law, Mr. and Mrs. Ronnie Durham.

Mr. and Mrs. H. E. Miller and family and Mr. and Mrs. Jerry Jacobs and Charlotte spent Thanksgiving in Lubbock in the home of Jed Miller. Jed Miller is attending school at Texas Tech. Jerry Jacobs is the superintendent of the Channing schools. The Jacobs were visitors in the Miller home after returning from Lubbock.

David Evans has been visiting in the home of his grandparents, Mr. and Mrs. Joe Evans. David is the son of Mr. and Mrs. Wayne Evans of Abilene. The Joe Evans met the Wayne Evans in Lubbock for the Hardin-Simmons and Texas Tech football game Saturday. Mrs. J. W. Vick and Harlin spent Thanksgiving day with Mr. and Mrs. Offus Vick, 620 Blevins.

## Around Town

A P-TA procedure course will be given by Mrs. Elmer Patterson for board members, chairmen and anyone else who is particularly interested at the home of Mrs. Homer Brumley Monday night. The meeting will begin at 8:30 o'clock with a covered dish supper.

Dr. A. T. Mims will give the devotional at the Interdenominational Men's Fellowship meeting at 7 o'clock Wednesday morning at the First Christian church. All men are invited to attend the breakfast.

Effective December 1, Hereford Butane Gas Company has leased the Hereford Oil Company Service Station at the corner of Park Avenue and Highway 60, according to Carlos Anderson, manager of Hereford Butane. The station will be known as the Eastside Phillips 66 Station.

Members of the Junior High class of the First Presbyterian church will hold a bake sale at Piggly Wiggly on Saturday, December 6. Women-baking cakes for the project have been especially asked not to use cake mix. Proceeds from the sale will go to buy food mixers for kitchens in the cottages at the Presbyterian Children's Home in Amarillo.

H&H Furniture will start its Fifth Anniversary Sale Monday, with hundreds of items marked down for the occasion.

### Five County Men Enter Service On December 8

### ONCE OPERATED HEREFORD HOTEL

## Mrs. Emma Clayton's Rites Scheduled This Afternoon

Funeral services for Mrs. Emma Virgie Clayton, 69, former operator of the Hereford Hotel, are scheduled to be held in the First Baptist church at 3 o'clock this afternoon with Rev. Howard Scott, pastor, officiating. She died late Friday afternoon at her home on Miles Avenue after an illness of more than a year.

Mrs. Clayton, who is the mother of Mrs. Marion T. Rutter of Hereford, operated the Hereford Hotel from 1935 until 1941. At the time of her death Mrs. Clayton was operating an apartment house.

**Born In Alabama**  
Born Jan. 22, 1884 in Eastaboga, Ala., she moved to Texas with her family while still young. She was 24 when she married J. J. Clayton at Granbury on October 11, 1908. In 1933 Mrs. Clayton moved to Deaf-Smith County from Burkburnett, and began operation of the Hereford Hotel in 1935, continuing with this work until 1941.

T. Sgt. Fluitt has been assigned to Project Human Factors Operations Research Laboratory where he will help work out an English textbook for aviation cadets in the NATO.

**Survivors**

**MORE THAN 70 Latin-Americans** packed the County Court Room Friday night to hear, at the invitation of Deputy Sheriff Fred Gonzales, why they should pay their poll tax and cast their ballots in coming elections. Among the speakers were

**TWO TRUCKLOADS**, mostly of turnips but also some lettuce and radishes, were harvested by a crew from Boys' Ranch Saturday morning and taken to the ranch in trucks furnished through the co-operation of the Hereford Lions Club. Earl Smith, former Hereford boy who graduated from Boys' Ranch and is now coach there, was throwing turnips into a truck as Dale Alley and Jim Weatherford

worked inside. Boys working with Smith are G. W. Settles, Joe Sanders, Arthur Wilkerson and Royce Newman. Plans were to "hill" most of the turnips for use later in the winter. J. W. Robinson Jr., and Woody Wilson drove the trucks out to the L. B. Holland farm, where the vegetables were given to Boys' Ranch. Use of the trucks was donated by Benefield Motors and H. M. Thomas.

## Reasons For Paying Poll Tax, Voting, Given Latin-Americans

For people with something of a language barrier, and whose education has been hampered by migratory work and some discrimination, the right and privilege of voting is usually something they do not think about too seriously.

Because they too, are citizens, and a vote is more likely to help them show that Latin-Americans living at the Labor Camp were asked to attend a meeting Friday night at the Court House to hear some of the reasons they should pay their poll tax and vote.

**Invitation From Gonzales**  
Invited by Fred Gonzales, deputy sheriff whose special problems

are those at the camp, more than 70 Latin-Americans attended the meeting.

In addition to the question of paying the poll tax, other problems which particularly affect Spanish-speaking Americans in this area were brought up.

County Judge Horace L. Schloss led off the panel of speakers when he told the assemblage that "This is a government founded on law, and it is just as much for you but you will be a better citizen if you do vote."

**Sheriff Spoke**  
Speaking next, Sheriff Lowell Sharp not only pay their poll

taxes and to cast their ballots in coming elections, since many of them are becoming permanent residents of the county, but warned drivers present that the lack of a driver's license could be very expensive.

## GRASS ROOTS

In a very few days it will be too late to seed anything. This is a good, sound recommendation since we are practically out of everything that will do to seed this time of year. We still have some Wintex Barley on hand but one good blast would clean that up. I'm eager to get out in the country again and look at some of the Balboa Rye seedlings that are in. Byron Gist told me the other day that he already had cattle on his and there are others that have good stands ready to turn in on. I feel sure that they will like Rye. Of course I mean the plant Rye, although there are some that might go for the hotter variety at that.

Wonder if I could agree with Ur-lin Streu without too many people thinking that I like him. We could look at it this way. I guess. There are too many of us that should have the Christmas spirit the year round, and don't, but nevertheless I'm of the accord that Thanksgiving is a little early to start Christmas. I can just see Monday morning. Everybody who has worked like the dickens to get decorations and all up will be tearing them down and waiting for me and Ur-lin to give them the word to put them up again.

For us this is sort of a transition period. There are a million things

that we should be doing toward getting ready for 1954, but we seem to be no different from all other businesses in that we always get caught when we are busy and think back about the breather we had between lettuce and potato planting time. Things will be rolling before we know it, and those of you who plan on potatoes again this year should be making your plans. There are many who predicted that there wouldn't be any potatoes planted this year but I can prove differently. Believe it or not, we have growers who swear that spuds have made them money every year except two years. Regardless of what many say this district still needs the potato crop and in spite of the dubious and the doubtful we will have one.

J. W. Roberson just called and wanted me to drive a truck over to Boys Ranch this afternoon with a load of turnips. Seems that Mr. Holland, who owns the West side of the old prisoner of war camp, has given the ranch his crop. Quite a fine donation to a wonderful organization I would say. Hope that bunch of Lions who are driving the trucks over for the ranch don't dump turnips, boys and all before they get there.

(Continued from Page 1)  
pensive.  
"It may be more trouble to you to learn the material needed to pass the written test, but Gonzales and others at the camp will be glad to help you on any problems about the material," the sheriff added.

He then went back to the poll tax and voting situation and told them that there are always persons at the polls who can show them how to mark the ballot. "But you must decide for yourself who you want to cast your vote for," he added. A warning about the need for liability insurance on automobiles was also put out by Sheriff Sharp.

**Mission Pastor**  
Rev. Raymond Gillis, pastor of the Catholic mission and head of the mission hospital at the camp also spoke to the group, following a translation of Sharp's speech by Gonzales.

Others who spoke on the program included Tom Gomez of Lamesa, who strongly urged the Latin-Americans to vote and to get their children better educated, for with education they will have a stronger desire for the better things of life.

"Vote for the men who will come out and talk to you, who will be able to help you the most," Gomez said. "If a man running for office is ashamed to talk to you for fear he might lose votes, he isn't likely to be willing to do anything for you after he is elected."

**Others On Program**  
Others who spoke briefly on the program were Rev. Bartholomeu Paytas, pastor of St. Anthony's Catholic Church, and Ed Dziuk, who has charge of the Labor Camp.

Most of the adults present raised their hands when, near the end of the meeting, Gonzales asked if they would pay their poll tax.

In 1953 the average hourly pay of U. S. auto workers was \$2.08.

Great Britain is slightly larger than Ohio. The Cocos Islands are halfway between Australia and Ceylon. About 42 1/2 per cent of all United States farms have telephones.

Back for the Thanksgiving holidays, and enjoying every minute of it, are Dr. and Mrs. Roy J. Grubbs and family. For the past seven months Doc has been doing post-graduate work at a Denver hospital and the whole family has enjoyed the change. "But, we are about ready to come home," said the couple. "We just weren't cut out for life in a big city. It's too much fun knowing people when you go down the street" — and about that time Doc was interrupted by a 6-year-old, who almost died from pneumonia last year.

back home permanently.

Willis Edelman was also back from Colorado for the holidays. They report around 10 inches of snow in that area. They are pretty happy about it, too, having had such a dry year in 1953.

I had quite a long visit with Worth Covington the other day. We were both a little bit worked up over the fact that so many Communists have infiltrated the higher echelons of our government. This is truly one of the worst situations which the United States of America has yet been called upon to face. Most puzzling of all is the question: "Why would anyone who has known the advantages of this country be in the least interested in becoming a Communist?" It is hard to answer. Out in this area we have comparatively few such infiltrations. Our point of view, perhaps, makes it all the more difficult to understand. Anyway, Worth and I were both of the opinion that something must be done about it. Also that the present trend is definitely on the right track.

Things keep rolling along. Understand that the cotton crop is turning out exceedingly well this year. Though not a major part of local economy, income from cotton could not have been more timely — or more welcome. Sugar beets are likewise expected to do much toward helping keep the wolf from the door in 1953.

How about those sketches on Mr. Jones, the fellow everyone is trying to keep up with? Not a single sketch as yet. Mrs. G. says my arithmetic is bad that \$15, plus \$10, plus \$5 equals \$30, not \$25. It breaks my heart to admit that she is right, besides it is costing \$5 more — and that never makes anyone very happy. Remember, not more than 1,000 words describing your own impression of the much heralded "Jones family". Deadline is Sunday, Dec. 6.

Have you paid your poll taxes yet? Don't forget this important item. It is usually these "off-election" years when most people forget — and invariably something comes along to make them sorry. Quite a bit of voting will take place this Spring and Summer.

What happened to the turkey business around here, anyway? Even Mrs. J. T. Guinn dropped out of the picture this year. She usually has around 200 to 300 birds. Maybe the turkey business is like

The Dawn Study club beautified the school grounds by planting shrubs last week.

W. H. Fogle of Boswell, Okla., moved their furniture to Dawn last weekend. Mrs. Fogle has been here since the beginning of the school term. She is a teacher of the first and second grades. Mr. Fogle remained in Oklahoma until their crops were harvested.

One of the worst chores around a newspaper office is writing editorials. I always have a deep-rooted feeling that very few people read them, but here lately we have been getting quite a few comments. Even Bill Harris got worked up about one a few weeks back. This week, Bess Moore sent word about one she liked. Looks like I am all wet again. Maybe people do read them pretty thoroughly. Bill Harris, incidentally, was one of the first students at West Texas State College. Come hail, snow or rain, I am going out to see Bill play-act in the annual Westway presentations this year. Everyone says he is absolutely 100 percent OK.

I have been checking up on the duck hunters. Most of the boys say that this is a mighty poor season. Not too many ducks and, even what few there are come in after the hunters leave the pits. Reports also have a similar situation for quail shooting. There just aren't very many quail this year. Probably too much dry weather.

Bob Phillips once edited a joke book entitled, "Clean Stories". Here are a few of them:  
Judge: "How does your wife irritate you?"  
Husband: "Why she keeps saying, 'Hit me! Go on, hit me, and I'll have you hauled up before that baldheaded old reprobate judge and see what he'll do with you.'"  
Judge: "Prisoner discharged."

Having just graduated from a new England law school, a young man wrote to several Chambers of Commerce over the Midwest inquiring as to the possibilities for an honest, young Republican lawyer. The reply from one small West Texas town read as follows: "If you are a Republican the game laws will protect you, and if you are an honest lawyer, you won't have any competition."

First lady: "Does your husband remember your wedding anniversary?"  
Second lady: "No I remind him of it in January, and again in June — and get two presents instead of one."

Si and Hank, two Texas farmers, were discussing things in general. Si was complaining about the drought, his sick hogs and a cow that had gone dry. He was moaning about his mule that had gone lame, and how his wife had run off with a lightning-rod salesman and left him with five children. Hank listened patiently to the complaints, then remarked: "Si, I ain't got no patience with you. Didn't I beg you with tears in my eyes not to vote for them darn Republicans?"

### ARTHRITIS?

I have been wonderfully blessed in being restored to active life after being crippled in nearly every joint in my body and with muscular soreness from head to foot. I had Rheumatoid Arthritis and other forms of Rheumatism, hands deformed and my ankles were set.

Limited space prohibits telling you more here but if you will write me I will reply at once and tell you how I received this wonderful relief.

### King's Daughters Class Heard Talk

The King's Daughters Sunday School class of the First Baptist church met November 24 at the home of Mrs. W. J. Dickson for Bible study. The pastor, Rev. Howard Scott, was guest speaker. By request, he spoke on "Heaven."

Following the program, Mrs. Travis Caraway, president, presided over the business session.

**Food For A Friend**  
A basket of food was brought for an elderly lady, a friend of the class.

Those answering the roll call with "What I Am Thankful For," were: Mesdames Frank Prowell, Travis Caraway, W. R. Hair, Joe Story, Clinton Jackson, Jim Wilman, Clarence Schulz, Ernest Kendall, H. R. Short, C. R. Higgins, Fred Muller, H. L. Ward, C. R. Kropf, Jimmie Ahred, Frank Watson, and co-hostess Mrs. Edgar Skypala.

**Card of Thanks**  
The kindness and sympathy of neighbors and friends in our recent sorrow will always remain with us as a precious memory. Our sincere thanks and gratitude for all those comforting acts.

**MARKET 17 HOGS PER SOW . . . PER YEAR**

THE AVERAGE farmer saves and markets only about 11 hogs per sow per year. Purina Farm averages for many years show that 17 hogs should be marketed every year from each sow for a practical operation. Note that the difference between the Purina average and the national average is 6 pigs marketed!

Of course, marketing 17 pigs every year from each sow means following a good program of management, sanitation, and feeding such as the Purina Hog Program. It means saving pigs, growing them fast and finishing them smooth and of low cost . . . and feeders throughout the country are doing this on the Purina Hog Program.

## AT HEREFORD LIONS CLUB

### Need For More Schools Is Predicted By Board Member

Predicting the need for increased grade school accommodations within the next few years, A. J. Schroeter, trustee in the Hereford Rural High School district for the past nine years, addressed the regular meeting of the Hereford Lions club Wednesday. He also reviewed school growth during his service as trustee.

In 1946 we had 1,246 students and 30 rooms," he pointed out. "Today we have 2,100 students and 60 rooms." Mr. Schroeter also recalled that in 1946 conditions were so crowded that erection of the present junior high barracks was made through an emergency bond issue. Per capita cost, including interest and sinking funds, he cited at \$132 in 1946 as compared with \$210 in 1953. However, he said that the figure has more than doubled on a national scale.

**Bonded Indebtedness**  
 Total bonded indebtedness of the district was reported as \$1,333,000.00 by Mr. Schroeter, broken into the following divisions: \$11,000 for Central School improvements; \$18,000 for junior high barracks; \$50,000 for refinishing present high school; \$45,000 for Shirley School, and \$850,000 on the new high school now under construction.

Mr. Schroeter paid high tribute to the Hereford School system as compared with other school systems over the area. He also emphasized the importance of the present day teacher who, he said, does much toward forming the character and thinking of future generations.

#### He Has The Answer

**PORTSMOUTH, N. H. (AP)** — Streeter S. Smith celebrated his 100th birthday by putting on his 76-year-old wedding-day hat and "having some good cigars."

He is a retired carriage painter and now writes poetry and song lyrics as a hobby.

When asked the inevitable question as to what he attributes his long life, he answered: "I just keep breathin'."

decided to have the annual Christmas party December 14 at the home of Mr. and Mrs. T. J. Parsons. This is the one time in the club year we have as guests our husbands. There will be an exchange of gifts.

**Traffic Goes Sexy**  
**LINCOLN, Neb. (AP)** — In a report on a survey of 1952 accidents, The Nebraska State Accident Record Bureau said men drivers were involved in 84.78 per cent of the accidents.

Then it quickly added "the surprisingly large percentage of male drivers should not be viewed with too much alarm. There are no definite figures to prove it, but it is taken for granted that most of the driving in the state is being done by male drivers."

Around the statehouse they give you one guess as to who wrote that report — a male or a female.

**Landlady Given Car**  
**NORMAN, Okla. (AP)** — The tradition of giving a flashy new auto to a successful coach has become well established in this home of the University of Oklahoma.

But Miss Hettie Loar, who runs a rooming house, also has one. Miss Hettie has helped more than 600 Oklahoma students through school in the last 21 years by the jobs she's provided.  
 During a homecoming party for her former residents, about 40 of her "old boys" gave her a corsage. Tied with ribbon to the corsage was the key to a shiny new car — sitting at the curb outside.

**What's That Name**  
**LITTLE ROCK, Ark. (AP)** — Patrolman H. E. Adcock was investigating a traffic accident when a woman approached and said she was a witness to the mishap. "What is your name?" he asked. "Mrs. H. E. Adcock," came the reply.

Adcock checked to find that a Mrs. H. E. Adcock did indeed live here. The patrolman is unmarried.

**East Meets West**  
**NORMAN, Okla. (AP)** — William R. East and Robert H. West, University of Oklahoma freshmen, are roommates. East's bed is on the east side of the room and West's opposite. They plan to be married next summer to high school sweethearts in a double-wedding.

### At The Movies

**Titanic**  
 In 1912 the British luxury liner Titanic started its first voyage to America, with more than 2,000 persons aboard.

Supposedly the most seaworthy vessel ever built, the proud ship defiantly took the shorter northern route even though it was the iceberg season. The tragic results rocked the civilized world, as the mighty Titanic hit an iceberg and sank, carrying 1,500 persons with it. Only 712 were saved.

Brought to the screen by 20th Century-Fox, the story of the Titanic moves inexorably forward, taking the audience with it. A story that can't have a happy ending, it is still a gripping drama without melodrama, history without histrionics.

Clifton Webb delivers a wonderful dramatic performance, and Barbara Stanwyck, as his estranged wife, with Aubrey Dalton as their daughter and Robert Wagner as the college boy she is having an affair with, provide a certain amount of romantic interest, but through it all the central point of interest is the mighty ship, and its inevitable fate.

Produced by Charles Brackett, who collaborated on the screenplay the movie shows his exacting eye for detail, period and atmosphere. Supporting actors in the play include Thelma Ritter, Richard Basehart and Brian Aherne.

At a Canadian conference it was estimated that one Canadian in 60 is an alcoholic.

# Pioneer Study Club Observes Health Day

"Health Day" was observed at the Pioneer Study club session held Tuesday afternoon in the home of Mrs. Mary Seigler. Roll call featured "Fears You Have Overcome".

Mrs. Ray Johnson presented the program, giving a review of the book, "You and Your Fears", by Steincorn.

Introducing the program, Mrs. Johnson said the author dealt with mental disorders with emphasis on hypochondria and its symptoms. "Contrary to the prevalent belief that the hypochondriac is always beset by melancholia, he may even be an optimist, even though he does have great anxiety respecting his state of health", she said. In conclusion, she told of causes of extreme melancholy, and various types of mental illnesses.

**Sending Contribution**  
During the business session, members voted to send a contribution to the Texas State Institution at Wichita Falls.

# Hardwick-Streu Marriage Solemnized Thanksgiving

Miss Joan Hardwick became the bride of Ensign R. Oliver Streu in a Thanksgiving morning ceremony held at the home of the bride's parents, Mr. and Mrs. Francis Hardwick, 1203 Park Avenue. Ensign Streu is the son of Mr. and Mrs. Urlin Streu.

Rev. Russell Wingert, pastor of the First Presbyterian church, read the double ring ceremony in front of the fireplace arranged with fan shaped bouquets of white chrysanthemums against a grill work background entwined with fernery, flanked by triple wedding tapers in candelabra.

Mrs. Russell Wingert was in charge of recorded music, which included a prenuptial prelude while tapers were being lighted by the bride's brother, Bill Hardwick of Clovis, N. M., the traditional wedding marches and the benediction prayer as the couple knelt for the conclusion of the ceremony.

**Bride's Attendant**  
Attending the bride as maid of honor was her sister, Miss Pat Hardwick, who wore a pastel blue wool jersey dress with angora trim at the neckline. She carried a nosegay of tiny white chrysanthemums and pink rosebuds.

Donald Shipley of Lubbock, class mate and fraternity brother of Ensign Streu's at Texas Technological College, served the bridegroom as best man.

**Orchid Corsage**  
The bride entered, with her father who gave her in marriage. She was attractively dressed in a petal pink knit suit featuring angora and simulated pearl trim and a beaded cap in white. The wedding bouquet was a single white orchid showered with stephanotis, and white satin streamers, resting on a white Bible. Her only ornament was an antique gold bracelet which the bridegroom's grandmother had worn at her wedding. The bride's mother wore a mauve jersey dress with a corsage of white chrysanthemums. Mrs. Streu wore a black faille suit with white accessories and white chrysanthemum corsage.

**Reception Is Held**

M., assisted.

# History Of Hymns Is Retold At Music Study Club Meeting

Mrs. C. W. Parker was leader of the Music Study club program Monday afternoon at a meeting of the club held in the home of Mrs. Cecil Massey.

Discussing the "Post-Reformation Sources of Hymnody" Mrs. Parker gave the background of present day hymns, telling of Martin Luther, whose desire was to write spiritual songs for the people to keep alive the word of God. She explained how he would use the words of the Psalmists to unfold the heart of the spiritual message in song.

**Told Of Hymn Writers**  
Mrs. Parker also told of Isaac Watts, who diverged from the traditional Jewish hymns to make them form a message to the Christian people; of Sebastian Bach, who made his living by playing the organ, but who kept his hymns as the center of his art; and of John and Charles Wesley, mission-

aries from the church of England, who not only wrote hymns but characterized their contributions with hymn singing.

In conclusion, she said, in part: "Whatever may be men's mental divergencies, they must inevitably when they join in the praise of God, glorify Him with one heart and with one mouth."

## County Employees Ask For Social Security Benefits

Deaf Smith County Commissioners this week faced a man-sized problem concerning Social Security benefits for county employees when they reviewed a petition from a majority of the wage earners on the county's \$119,200 annual payroll. The question was so difficult, in fact, that the Commission tabled the matter for future action.

The question is by no means a new one, having appeared before other commissioner bodies over Texas with regularity. A similar proposal last year resulted in a divided vote in Potter County, and was ultimately rejected by the court. Meanwhile, thousands of county employees all over Texas are unhappy and disgruntled because they are not allowed to accrue retirement benefits on a basis literally forced upon non-government employees all over the United States.

That this is beyond doubt a two-sided question is immediately indicated by the fact that "State and Local Government" employees are specified by federal regulations as being on a voluntary or optional Social Security basis. Chief reason for the very existence of such an option is naturally based upon the fact that many of the employees are elective and, thus, work on a temporary basis. Along this line, it is also interesting to review the petitions presented to the Deaf Smith Commissioners' Court. Signers included practically all of the appointive employees, while only a portion of the elective wage earners were included on the list. Another reason for original omission of government employees was existence of the federal civil service system.

The first question, and often the chief argument against Social Security benefits for county employees, is the cost. Deaf Smith County maintains a payroll which totals approximately \$119,200.00 per year. Under the present 1½ percent paid by the employer, this would cost the tax payers of Deaf Smith County a total of \$1,788.12 in tax money during the 12-month period, with the employee matching the payments by the same amount. Next year, with Social Security payments scheduled for raise to two percent from the employer, the total could figure \$2,384.16 in additional tax money.

The overwhelming majority of appointive employees who signed the petition unquestionably expressed general opinion of the employees who signed the petition. They want Social Security. It is also safe to presume that they desire the benefits for old age—and because they do not prefer to complete their latter years on state or federal relief rolls. This position we admire and might even add that it is a desirable trait for any employee who wishes to be at the same time a good citizen.

Looking at the problem as a taxpayer and a citizen, we are inclined to agree with the county employees on the subject. In the first place, we hardly see why an employee should be penalized over other employees simply because he works for the county. To our way of thinking, this puts the county employee automatically in a lowered status which he does not deserve. In the second place, it is not good business for the county in that some employees might elect to work for outside concerns where such benefits were available. Labor is today a most important factor and, while we do not

sanction overpayment of government employees, we do feel that the various agencies should still be in a position to bargain for good help. Continued practices of offering fewer advantages will sooner or later lead to less efficient help, thus costing the county more in the long run.

The sum of \$2,384.16, while considerable on its face value, is comparatively small when spread out over the \$236,870.78 assessed for taxes in the county. The figure is, in fact, very close to one percent. In addition, it would be safe to assume that closer supervision of the spending of county monies might even result in saving such an amount without additional cost to the tax payer.

Also involved in the petitions was the question of making the action retroactive to January 1, 1953, covering the past 12 months. This, even if it be legal, appears impractical—and will probably gain little consideration in view of the fact that budgets must be planned and established prior to governmental fiscal years.

Taking the overall viewpoint, however, the question may be briefly summarized: Social Security is either good or it is bad. If it is good, then why discriminate against federal, state and local government employees? If it is not good, then why force it upon other people as an octopus to gobble up a few more cents from the take-home pay of the average employee?

## City Zoning Plan Mark Of Progress

Announcement regarding appointment of a City Zoning Commission was received this week without undue excitement or fanfare on the part of the general public.

The Zoning Commission, we predict however, will be a topic often and generally discussed in the next few months and years to come. Zoning of a town just naturally brings about this result. Hereford, until now has grown in a haphazard, catch-as-catch-can manner—without regard to previous investment or planning of any individual or business. Consequently, several possible inequities are to be expected over the area.

Personnel of the new commission: J. R. Allison, J. C. McCracken, Neil Cooper, R. C. Ricketts and Ben Childers, is certainly without reproach. The group, individually and collectively represents qualifications necessary for a capable Zoning Commission. In addition, they will strive to be fair and reasonable. This, we feel, is highly important in that zoning invariably presents intangible arguments in the form of zone designations and division. It involves and often concerns individual rights.

As a town grows, City Zoning sooner or later becomes a necessity. In reaching that point, Hereford can be expected to react in a manner little different from other communities. The final outcome calls for a reasonable attitude on the part of every citizen and every individual involved.

## New Jail Heater

Both timely and practical is the announcement by the Commissioners Court that it has contracted for installation of automatic heating equipment to serve the county jail cells.

The modern, overhead circulating heater will replace an ancient iron heating unit which was of a vintage of around 1925 popularity. Prisoners have, in the past, used a long stick to reach through the bars and increase or decrease the heat output. A slight turn could have killed one or more persons.

Few of us worry about prisoner conditions, probably because we often figure they would not be there had they acted differently. On the other hand, our courts frequently do find defendants "Not Guilty." However, whether a prisoner is innocent or guilty, it is well to recall that he is placed in jail—not by choice. When a man is put in jail, presumably in behalf of the welfare of society, he is unquestionably entitled to reasonable safety precautions.

Since the outdated heating unit was a hazard to life and to general health, the court it appears, acted wisely in spending the few dollars (\$300) required to eliminate the hazard and to generally improve the conditions.

My Goodness! Is That Where They Are Putting My Money?

## QUESTION OF THE WEEK

### Dryland Cattlemen And Farmers Seem Entitled To Drouth Relief

With nearly one-third of our county under irrigation do you sincerely think we should be classed as a disaster area... if so, do you think those who buy freight-paid "Government cow feed" should have their names made public for all to see so the taxpayers will know there is no "favoritism" shown?

E. D. ZIMMERMAN

"I don't believe that we should be classed as a disaster area, not countywide, anyway. Of course the people living in the dry land section have as much right as anyone to ask for the relief. I should see nothing wrong with making the peoples names public who buy "government cow feed." People who can honestly say they need it should not be ashamed to have their names printed."

ODIS HALL

"No, I don't think that we should be classed as a disaster area. Not after driving around and seeing some of the land where they haven't had a good crop for 4 or 5 years. To those people this would be classed as 'Gods Country.'"

"I do believe, however, that the cattlemen do need aid. So far as having their names made public, I see no reason why their names should be withheld. Everyone knows who they are anyway."

DR. MILTON C. ADAMS

"Yes, I think we could be classed as a disaster area. The two-thirds of the county that is used for dry land farming hasn't made a crop in three or four years. Without a good price for their cattle, they have nothing to fall back on. Then, too, there has been a failure of the crops of lettuce and potatoes in the irrigated areas.

The government is supposed to benefit only those with the foundation herds, so I see no necessity for making their names public."

RUSSELL HUNTER

"I haven't thought too much about the question, but, I don't believe that the irrigated land should be classed as a disaster area. However, I do think that the dry land farmers should have aid.

"I don't think that those who are buying government feed should have their names made public because its no one's business but their own."

GUY LAWRENCE

"I think with one-third of our county under irrigation that there is enough feed to take care of our immediate problems. I don't believe that we are entitled to disaster relief."

## 'Tater Peelin's

By Roberta Campbell

Four turkey dinners in a row almost proved fatal to our column this Sunday. By Friday morning we were so pleasantly overstuffed that we didn't care whether we ever wrote another word or not.

First there was turkey with the North Hereford Home Demonstration Club on Saturday night then turkey with the people in the Jumbo Community on Tuesday night, turkey at the high school cafeteria Wednesday and all of it was much better to us than our own cookin on Thursday when our sister from Amarillo and her family took a long chance on getting a meal with us.

We had the usual pumpkin chiffon pie with whipped cream but Mrs. J. E. Dyer's pumpkin cake recipe proved so popular that there wasn't a crumb left to identify what had been on the plate.

We tried it with the Lemon Butter Frosting.

Texas Press Association

AUSTIN — Attorney General John Ben Shepperd has asked federal officials to take action against leaders of the striking Distributive, Processing, and Office Workers Union at Port Arthur.

Key people in the DPOWA "have repeatedly refused to deny under oath that they are Communists," Shepperd said after making an investigation of the strike.

His inquiries showed "that the leadership of DPOWA has a long record for supporting subversive causes."

Shepperd's report on the situation was sent to the U. S. attorney general, and to the National Labor Relations Board, as well as to Union leaders, whom he asked to withdraw their support of the strike.

To The People

House Speaker Reuben Senterfitt has taken his campaign to the people to elect him governor of Texas as next year.

Hometown backers of Senterfitt at San Saba sponsored a radio broadcast and purchased newspaper space to enlist support over the state.

As to the possibility that Governor Shivers may seek re-election, Senterfitt has said that he will cross that bridge when he gets to it.

Senterfitt is a political veteran at 36 and has served two terms as Speaker of the House.

Silent Shivers

Shivers hasn't said what he plans to do about the Governorship.

If he steps out, Senterfitt faces a rather large field of potentially powerful candidates.

Among those who are likely candidates are Lieutenant Governor Ben Ramsey, Attorney General John Ben Shepperd, Land Commissioner Bascom Giles, Representative Lloyd Bentsen, Houston Mayor Roy Hofheinz, and Austin Attorney Ralph Yarborough.

Others mentioned for the race are State Senator A. M. Alkin Jr., champion of higher teacher pay, and Agriculture Commissioner John C. White.

Uncertain Status

Meanwhile, the political status of the Texas Young Democrats remained uncertain. Both liberal and conservative factions were denied seats at the national convention held recently in St. Paul, Minnesota.

The conservative group, recognized by the Texas Democratic Executive Committee, had been inactive since 1949. In view of this, the liberal group sought to gain recognition by default.

Action taken by the convention held that neither group met prescribed standards, and so the fight continues.

Pay Compromise

A possible compromise on the teacher pay problem will come before a committee appointed by the

### COTTON PICKERS SCARCE

Scarcity of cotton pickers in the Hamlin territory continued to pose the major problem in the gathering of the best crop in four years, farmers and ginners declared this week as thousands of bales of the fleecy crop dangled in the fields.

The dangling locks of cotton ominously seemed to be waving for passersby that it was high time the stuff was ginned. The farmers were anxious to see the stuff on the way to the gins too. It was estimated that probably 10,000 to 15,000 bales of cotton was ready for pickers. THE HAMLIN HERALD

### FIGHTING MITES WITH FIRE

Lion Campbell, who raises chickens in addition to selling automobiles for Campbell Chevrolet company, had discovered mites in his chicken house. He cleaned out the chicken quarters Monday noon and decided to wash the roosts and floor with gasoline as an extra precaution. The one and one-half gallons of gasoline evaporated slowly so he decided to toss a lighted match inside the chicken house and burn off the liquid and any unfortunate mites.

The Matador Volunteer Fire Department answered the call to Campbell's home about one mile northwest of town, followed by about half of the city's unoccupied population. The young poultry raiser had most of the fire extinguished by the time the firemen arrived. The damage was slight. "I was told it would kill my mites," he explained to Fire Chief Freddie Welling, "and I think it did." MATADOR TRIBUNE

## The BOOTLEG Philosopher

Editor's note: The Bootleg Philosopher on his Johnson grass farm takes an unscientific view this week, but his views rarely ever prevail anyway.

Dear editor:

So far I haven't gotten that job I was writing about last week, the one that would put me on the government payroll as a weather investigator to find out why the weather doesn't always follow the forecasts, but I am now convinced more than ever that the weather bureau needs a man of my caution and conservatism.

I was readin last night in a newspaper which I'd been savin to put on the springs under my mattress to keep the cold air from comin through that direction where a weather expert has figured out a system of destroyin tornadoes before they destroy cities by blastin em with a guided missile or an atom bomb.

As I understand this theory, a tornado can be blown in pieces with an explosive, and all you need to do is find out where one is, send out a guided missile to attack it, or fly an airplane over it and drop an atom bomb on it.

No doubt it's true maybe that if they'd explode an atom bomb over Waco when that tornado was hittin last spring, it would have wiped out the tornado. Of course the fact it would have wiped out Waco also ain't got anything to do with the theory. A scientific fact is a scientific fact.

Not bein a scientist, I'm not in a position to argue about this, but bein alive and wantin to stay that way, I believe I'd just as soon take my chances with a tornado as a guided missile or an atom bomb.

However, there's a lot to say in favor of the weather when it double-crosses the forecasters. It keeps life more interestin. Who can say life is more interestin just because you know a norther is gonna hit tomorrow mornin at 10:30?

I know a man in a neighborin county who ain't what you'd call real bright. A few years ago he got himself a high powered radio and got interestin in the weather forecasts. Bein curious natured, he didn't just listen to one station all the time, he dialed em all in, and frequently he'd tune in a station in North Dakota and get the local weather report for up there. Not knowin it was a local report, he'd hear for example a blizzard was due that afternoon, and he'd come out of his house with an overcoat on and his ear flaps buttoned down, throw the feed to his cows, cover up his water pipes, haul in plenty of wood, and set out to warn his neighbors.

Finally he came to the conclusion the weather forecasts were extremely unreliable and he quit listenin, dependin on geese and his corns.

Personally, I'm in favor of weather forecasts, but a man ought to retain enough independence to know what clothes to wear even when his radio is out of commission.

Yours faithfully,  
J. A.

governor, at a meeting to be held later this month.

In seeking to resolve the issue of state and local sharing of school costs, a committee member recommends a \$402 teacher pay raise an 80-20 formula for state-local financing, and state aid on buildings.

Senator A. M. Aikin of Paris, opponent of a percentage formula in the past, says that helping the districts on their buildings is in line with his thinking.

But, as one committee member commented: "If there's no money available to pay a raise, it's love's labor lost."

### Junior Colleges Included

A commission on higher education by a close vote of 9 to 7 has included junior colleges in a study being undertaken for the legislature.

Junior colleges became a state problem a few years ago when the state began giving them per capita grants of aid.

Purpose of the commission is to bring about a reorganization for higher education just as the Gilmer-Aikin law did for the public school system.

Representative Reagan Huffman of Marshall, member of the House appropriations committee, said that "two thirds of our trouble comes from junior colleges, and I can't decide if they are stepchildren, orphans or legitimate children of the state."

### Battle Over Advertising

Battle lines were being drawn over a rule by the state optometry board to limit advertising for the profession.

Although the legislature this year killed a bill to empower the board to set up any code, the board proceeded to adopt the code of ethics of the American Optometric Association. One of the rules limits advertising to a professional card not larger than two by four inches in size.

### More Involved

Other groups also were involved in the licensing board's ruling. It said that use of advertising, other than the professional card, would be considered "soliciting patients", under provisions of the Penal Code which would make the newspaper or radio station accepting advertise-

ing an "accomplice." According to the board, the manager of an optometry shop whose address was given in any advertising would be held personally liable to fine.

Members of the Texas Association of Independent Optometrists, the group which generally uses advertising media, was planning to challenge the board's authority in court.

### Cattle Smuggled

Government charges that a million dollar herd of rare Charolais cattle were smuggled through Texas as were expected to come before a federal court here in January.

A quarantine has been slapped on the white, French-origin cattle on ranches in Louisiana. Cattle associations have expressed fear that the big animals may have brought the dread hoof and mouth disease from southern Mexico.

Indictments on charges of fraudulently importing the cattle were recently returned against Alphe A. Broussard, Lafayette, La., William L. Babb, El Paso, and Antonio Enrique Gilly, Atlixco, Mexico.

### Historical Foundation

A vast program to preserve Texas as historical material is making progress. A committee authorized by the legislature is incorporating a non-profit Texas Historical Foundation and will accept donations to carry on many phases of the work.

Governor Shivers, in addressing the group, said:

"It is not merely another Texas brag to claim that we are far richer in historical material than most of our sister states.

"It is certainly not a Texas brag to report that we have been sorely remiss in cataloging, conserving, and making use of this material."

Calls for help already have come for Fort Davis, the historic West Texas site which will be 100 years old in 1954, and also for Zapata County to restore the first dwellings of Europeans on the Rio Grande.

### Resignation By Request

"For the good of the hospital system" three employees of Rusk State hospital have resigned by request, the superintendent announced.

They were a psychiatrist and two attendants, said Dr. C. L. Jackson, the superintendent. He gave neither the employees' names nor

## FOIBLES

By Kent Snare

Here at the fag end of the '53 football season I am looking at some printed predictions of the paid predictors. In retrospect, it is completely easy to dissect their surmises and subsequently guffaw at them. But honestly, some of them are amazing, until you analyse them as we did in this squib, at a not unrecent date.

After all, you can boil the season down to 30 teams over the United States and catch the front runners, individually and teamwise, year in and year out. That aforesaid 30 teams wouldn't need to be deviated from much either. . . In afore-season hazards leave us leap on Mr. Francis Wallace and his pre-picks for the '54 Bowls, to wit: Rose Bowl: UCLA over Ohio State—UCLA is in there, mostly by way of a very stingy defense and an unimproved Paul Cameron. Ohio State didn't even come close, dropping the duke to Illinois, Michigan State and Michigan. The other half of the Roses falls to the Johnny - just - entered the conference, Michigan State, and picking UCLA over them, from here, seems like faulty judgment, to shade to the charitable side.

Then comes the Sugar Bowl, wherein he ensconces Georgia Tech again Oklahoma. He is 50 percent correct there, for the Wrecks are back in the Sugar, although their record is tattered, no end, with a tie and 2 losses. The Okies are definitely Miami bound, so he remains at 50 percent wrong, too, on this one. At this writing and you understand, that Tech's opponent may be picked before this blat hits the deck or at approximately the same time, West Virginia seem to have the best edge. Personal, I don't think the Sugar wants any more of the situation they had in '53 with two SEC clubs on their hands.

The winner of the Ole Miss-Mississippi State game is mentioned as a possible, along with Alabama and Auburn. The latter two will have tangled ere this gets out, too. Alabama beat Georgia Tech and Tech beat Auburn, who in turn, tied Miss State and beat Ole Miss. The Sugar Bowl won't countenance a continuation of the predicament they are in now and it will be interesting to weigh their solution of the situation. . . Next Mr. W. gets at the Cotton Bowl, thusly: Alabama over Texas. You will note that he not only selects the entrees but picks the winner, simultaneously. Which is a good trick, even if you don't do it. In this case, if Alabama makes a bowl, then the situation is indeed precarious and I would say the selectors are out of any designs. My reason being that the Tide has lost 2 games and tied 3 more, out of 10 emergencies. The oddity being that they haven't lost a conference clash while winning 3.

Texas, of course, has a very excellent chance to get into the Cotton tussle. The SWC conference will be settled, ere this sees the light of print, and Texas will have to beat Texas A&M, and Baylor will have to tie or beat Rice, for the Steers to qualify. Ironic, isn't it, for the Bayers to erase Rice, if they can, and save the Rag for their conquerors, Texas. Either Rice or Texas would make a very adequate opponent for whomever they might come up with as the other half of the Sugar scrap. In the Orange Bowl he had Florida over Maryland - Well, he is half right on the membership but away wrong on the victor, for Florida never got closer to any bowl

Needless to say it will be the game of the holiday with the two split T front-runners, Oklahoma, and Maryland having at each other. If Texas Tech should get into a major bowl and show, well, don't you know we'd see a coaching turn over to the Split T for sure. Bub, I'd like to sit in on that Orange deal and peekie at the same time, at the rattle, which will ensue atwixt loud Jim Tatum and quiet Bud Wilkinson.

Both of these able tutors have been accused of plagiarizing and purloining the Split T from Don Faurot, their erstwhile mentor at Iowa Pre-Flight, where the system was conceived. Although there is them extant, who hold that the pupils have far surpassed their old instructor, at least, in the degree of success attained. At the same time, there is them extant that aver that the available manpower at Oklahoma and Maryland, as compared to Missouri's personnel, constitutes the difference. The fact remains that Faurot did sell the idea and that it is, to date, the outstanding offensive formation to come to light in all the annals of football.

**Drivers Blamed**  
 LINCOLN, Neb. (AP) — The Nebraska State Accident Record Bureau made a survey of 1932 accidents and said it wasn't the roads nor the vehicles which caused the most accidents. It was the "drivers who caused 79.7 per cent of the accidents by violating or disregarding some traffic rule."

**Father, Or Mouse**  
 CINCINNATI (AP) — Misguided parents are blamed by Traffic Court Judge Frank M. Gussweiler for many traffic violations by teen-agers. "Rather than deny children's demands for the family car, these

weak-kneed parents permit them to tear over our highways," he said. "The old-fashioned father who told his children what they could do has been succeeded by yes men bearing a distinct resemblance to a mouse."

I HAD A HUNCH WHEN I HIRED YOU AS HANDYMAN THAT YOU'D LIVE UP TO YOUR NAME - BUT YOU'RE NOT A HANDYMAN - YOU'RE A MAGICIAN -

I'M GLAD YOU'RE SATISFIED WITH MY WORK -

SATISFIED? I'M DUMBFOUNDED - ALADDIN COULDN'T DO MORE WITH TWO LAMPS - I THOUGHT THE FACE-LIFTING JOB WOULD TAKE A MONTH - YOU DID IT IN A WEEK -

YOU'RE FORGETTING ALL THE NEIGHBORS WHO WORKED LIKE BEAVERS - AND YOURSELF AND EVEN LITTLE ANNIE - ALL DID THEIR SHARE -

ALL RIGHT. YOU WIN! NOW LET'S GO INSIDE THIS MERRY MORGUE AND START KICKING THE GHOSTS AND GOBLINS AROUND -

THIS ROOM IS NICE AN' BRIGHT, BUT THE BASEMENT UNDERNEATH IS TERRIBLE DARK AN' -

THE BASEMENT? YOU WERE NEVER IN THIS PART OF THE HOUSE UNTIL NOW - HOW DO YOU KNOW IT HAS A BASEMENT?

I DON'T KNOW HOW I KNOW - BUT IT LOOKS LIKE MRS. MEANY'S SCHOOL FOR POOR ORPHAN KIDS - AN' THAT PLACE HAD A TERRIBLE DARK BASEMENT AN' -

ARE YOU SURE THIS IS THE SAME PLACE?

I THINK IT IS - BUT I HOPE IT AIN'T - CAUSE MRS. MEANY DIDN'T LIKE ORPHANS AND SHE DIDN'T LIKE ME WORST OF ALL - I WAS JUST A LITTLE GIRL AN' I DON'T KNOW HOW I GOT INTO MRS. MEANY'S SCHOOL - BUT SHE TREATED ME SO MEAN I RAN AWAY WHERE SHE COULDN'T KETCH ME -

LATER GOLLY, MR. COBB - MAYBE YOU'RE RIGHT THAT MRS. MEANY AN' HER ANFUL SCHOOL WAS JUST A NIGHTMARE THAT SCARED ME SO BAD I JUST THOUGHT IT REALLY HAPPENED -

## THE MAGICIAN

BY LEE FALK & PHIL DAVIS

A FEW YEARS AGO, ON DR. DALE'S CENTRAL AFRICAN EXPERIMENTAL FARM---

DR. DALE, I MADE THIS TRIP TO AFRICA TO WRITE A MAGAZINE STORY ABOUT YOUR BREEDING EXPERIMENTS WITH ANIMALS.

THEY ARE UNUSUAL, MR. BRENT. MOST RANCHERS TRY TO IMPROVE BREEDS. MY WORK IS OPPOSITE. I TRY TO "BREED BACK!"

"BREED BACK"? WHAT DO YOU MEAN BY THAT?

BY PICKING CERTAIN TYPES, I GRADUALLY TRY TO BREED THE ANCESTORS OF MODERN ANIMALS. LET ME SHOW YOU---

THIS IS AN ANCIENT TYPE OF HORSE?

ALL HORSES LOOKED LIKE THIS THOUSANDS OF YEARS AGO. I'VE "BREED BACK" HORSES THIS FAR-- BUT IT IS NOT THE EARLIEST ANCIENT TYPE.

THAT IS A DRAWING OF THE ORIGINAL HORSE?

SOMETHING LIKE THAT. NO BIGGER THAN A FOX, TOES INSTEAD OF HOOFS--IT EXISTED MILLIONS OF YEARS AGO. SOMEDAY I'LL BREED A LIVING ONE LIKE THAT.

SOMEDAY, I'LL MAKE THE ORDINARY HOUSE CAT REVERT TO THE GIANT SABRE-TOOTHED TIGER THAT LIVED IN CAVE-MAN DAYS.

BUT ANIMALS TAKE TIME. EGG-LAYING CREATURES, LIKE LIZARDS OR INSECTS, CAN BE CHANGED BACK QUICKER.

FOR EXAMPLE, STARTING WITH AN ORDINARY LITTLE LIZARD LIKE THIS, I'LL SHOW YOU WHAT I'VE ALREADY DONE --IN THIS CAGE.

11-29 NEXT WEEK: THE BIG LIZARD --
