THIS NEW BIKE—a "get well" present from a group of adult friends, has Dennis Rickman, age 11, smiling despite the fact that he lost two fingers in an accident while he was riding a potato digger in the Westway Community last Thursday. (Staff Photo)

Around Town

Even a good rain would not have put smiles on some of the faces which appeared Wednesday morning before the School District Board of Equalization in the courthouse. Most of the citizens a 1.0 left with their original frowns. Judging from the crowd most of the raises appear to have been on city property.

Cecil Parker is getting ready for a full week's expense-paid vacation in Chicago, where he will be a guest of the Hotpoint people. Cecil won the trip as a result of division sales volume in his district, which covers most of the Texas Panhandle.

Ladies of the Wesley Methodist Church have a new wrinkle in fund raising. They have announced a picnic in a mode supper for Friday evening, beginning at 7:30 o'clock. Adults will pay 50 cents and children 30 cents; all homemade pies and homemade ice cream, plus a drink. Proceeds will go into the church building fund.

Otto Massey, acting judge while Homer Henslee is on vacation in Colorado, says he refused to be sworn in for the job—just in case a marriage or a court trial showed up on the docket.

Rotarians enjoyed a report on the Boy's Ranch trip to California when three delegates gave brief talks Monday. The guest speakers were Ken Greenwald, Amarillo C. C. president, Sheriff Slim Johnson of Canyon, and Sherman G. Harrison, Jr., a member of the ranch staff.

Jack Renfro is still attracting considerable attention with his imported mongoose. Among the viewers who have seen the animal are Tom Robinson, Roy Phillips and Bill Lenderman, all of whom report the incident in glowing terms.

First Polio Case Reported Tuesday

Hereford's first 1955 polio case was reported this week after Wanda Gale Holt, 9-year-old daughter of Mr. and Mrs. D. R. Holt, was transferred Tuesday to Northwest Texas Hospital in Amarillo for observation. The Holts reside just west of Hereford on Harrison Highway.

Wanda Gale was hospitalized Sunday and was placed under observation for possible polio or meningitis developments. She was transferred to Amarillo Tuesday and reports Wednesday confirmed the diagnosis as polio. Both of her legs were said to be affected with paralysis in the left leg and a weakness in her right leg.

Westway Youth Severs Two Fingers In Digger Chain

Dennis Richman, 11-year-old son of Mr. and Mrs. Floyd Richman, Jr., of the Westway community, found the true meaning of friendship this week. What's more, he was a happy young man despite the loss of two fingers on his right hand.

It all started last Thursday afternoon when young Dennis was riding a potato digger at the B. F. Cain farm. He reached down to push away some weeds from the chain and the third and fourth fingers on his right hand became entangled in one of the links. The fourth finger was severed at the second joint and the third finger was so badly cut that it is yet uncertain as to whether it can be saved.

Five adult friends heard of the incident and, knowing that the youngster wanted a bicycle, chipped in to make the purchase. They were B. F. Cain, H. M. Thomas, Howard Gault, O. M. Dickey and Newt Harding.

Dennis says it hurts . . . sometimes. But with such a "get well" present as a new bike, it isn't half as bad. Besides, he thinks he has a swell bunch of friends—"for just a youngster".

Merit Badge Counselors Are Named To Assist Boy Scout Advancements

A system of specialized Boy Scout merit badge counselors was instituted here Tuesday morning at a special two-hour training meeting held in Hotel Jim Hill. Wayne Thomas, district advancement chairman, was in charge of the meeting, assisted by W. M. Teague, district Scout executive.

Under the new plan, counselors were appointed to assist boys on specialized subjects and were selected for their special skills in each of the merit badge requirements. Boys interested in a specific merit badge will contact the particular counselor for assistance and training.

Eight Arrests Follow One Day Grand Jury Session

A whirlwind session of the Grand Jury on Monday resulted in the jailing of six men and two women Tuesday, and two other men were still being sought on indictments returned by the panel.

J. G. Abbott, charged with theft of an automobile from Warren Motor Company on July 10, was being held in the Hereford jail.

G. L. Thornton, who gained much notoriety under the alias of Pete Knight when he attempted embezzlement in Shamrock and Amarillo two weeks ago, was also being held in Wheeler, Texas, for custody of the Deaf Smith sheriff's department. Thornton was indicted by the grand jury on charges of passing a \$795 worthless check to Hereford Motor Company at about the same time his other escapades came into public light. Officers said that he recently escaped jail in Arizona and is wanted in several other West Texas towns.

Citizens Petition County To Call Airport Bond Election

More than 200 signatures were reported Wednesday at noon on petitions requesting a county-wide bond election in the amount of \$150,000 to finance a secondary airport in connection with CAA, which has earmarked an equal sum for Deaf Smith County. The petitions will be presented to the Commissioner's Court at their regular scheduled meeting Monday, Aug. 8, according to present plans.

The airport question also held the spotlight at the monthly C-C breakfast Wednesday morning, when details were reviewed by Bill Lenderman, C-C manager, who reported in behalf of Lyle Blanton, chairman of the local airport committee.

The petition, directed to the Commissioner's Court of Deaf Smith County, reads as follows: "We, the undersigned property tax-paying voters and citizens of Deaf Smith County, Texas, believing that the future growth of our county and community will be greatly influenced by available transportation facilities that are modern and up-to-date in every way, and believing that an airport is necessary for the continued growth and prosperity, do hereby petition this honorable body to call a county-wide bond election in the near future, for the purpose of voting a bond issue in the sum of approximately \$150,000.00, contingent upon the availability of matched funds from the Federal government, for the purpose of building such airport."

Information reviewed at the Wednesday morning breakfast disclosed that eight prospective sites have been approved by CAA, which already has its \$150,000 waiting for delivery when the county raises its matching sum. It was also pointed out that CAA representatives said immediate action must be taken or the federal money will be used on other projects.

The secondary field, according to Lenderman's report, will have one 4,000-foot runway and one 3,000-foot runway; the field will also be lighted for night flying, and will be constructed with the idea of future expansion to handle liners and other large planes when the occasion demands.

The airport committee also recommended that the county lease the field to a reliable operator when it is completed, and that any additional unused land be used for growing alfalfa or other practical crops. This procedure has been adopted at Plainview and has been highly successful according to information reported through the committee.

Building permits for the month of July took a sharp cut under June, according to City of Hereford records. The July permits totaled \$94,300 as compared with \$179,000 for June. The current figure was also under July of 1954, when one mercantile permit at \$150,000 and six residences at \$58,000 resulted in a total of \$208,000.

Of the 13 permits for the month, there were five residences, two duplexes, two garages and one each of warehouse, one residence moved, one business moved and remodeled.

Permits issued in July were: G. H. LaPlant, residence, \$9,000, July 2; N. D. Bartlett, Jr., alteration of H. & H. Furniture, \$3,500, July 5; Robert E. Thompson, residence, \$20,000, July 7; E. E. With Hereford Schools scheduled to get underway on Tuesday, Sept. 6, Supt. George L. Graham today announced complete enrollment schedules for all grades.

Crowded conditions were predicted for the local schools again this year by Mr. Graham, who anticipated an enrollment of around 2,200 or more students by 10 days following the opening of school. The figure is 110 above the 2,090 enrolled on Sept. 9, 1954, and could run up to as much as 200 above the 1954 figure, according to school officials. Junior High will probably be one of the most crowded points in the school system with a probable enrollment of 550 students, he said.

Enrollment Schedule High School—Junior High 9:00 a. m. to 4:00 p. m. Tuesday, August 30—Seniors. Wednesday, August 31—Juniors. Thursday, September 1—Sophomores. Friday, September 2—Freshmen. Wednesday, August 31—Sixth grade. Thursday, September 1—Seventh grade. Friday, September 2—Eighth grade.

First-Second Grades First and second grade children will enroll from 9:00 to 12:00 Friday, September 2 at Central and Shirley. Dawn children will enroll September 6. Third, fourth and fifth grade children will enroll September 6. The division line between Central and Shirley will be announced at a later date.

Former Resident Is Polio Patient

Mrs. Bob Kerschen, former Hereford resident who now lives near Albuquerque, is a polio patient in St. Joseph's Hospital in Albuquerque. Her father, Ed J. J. Kerschen, Jimmy, returned from Albuquerque Sunday night and reports that Mrs. Kerschen is holding her own although paralyzed from the waist down.

She will be removed to a polio center for special treatment as soon as her condition permits. Mrs. J. Kerschen remained with her daughter in Albuquerque.

Commission Adopts Plan To Assess All City Vehicles

Acting on recommendations of the Board of Equalization, members of the Hereford City Commission Monday night passed an ordinance authorizing the assessment of all automobiles owned within the city limits. Assessments will be made during the coming weeks and the taxes will be payable on Jan. 1, 1956, subject to pre-payment discounts allowed in October, November and December.

Estimates indicate that approximately 2,000 additional automobiles will be assessed under the new system, adding around \$400,000 to the total city valuations. The assessment plan was adopted following a report from the Equalization Board which pointed out that a huge majority of all automobiles assessed in the past have been owned by property owning tax payers, while persons who own no real estate have been escaping the tax and, in many instances, paying no tax at all. It was also pointed out that state laws provide for assessing and collecting personal car taxes, and that numerous other Texas towns and cities have started assessing all automobiles on city tax rolls.

IT IS CONFUSING' ADMITS SHERIFF 'Odd Methods' Land Immigrant In Tailspin — Also In The 'Pokey'

A recently immigrated Latin American is a little bit confused concerning American methods, but he certainly has nothing on Sheriff Lowell Sharp and Deputy Charles Skelton who are still pondering over some of the fellow's own Latin American tactics. The man, age 33, routed out the sheriff and deputy here Sunday night with a story that two "big men" who drove a pick-up, had "strong-armed him" and stole \$170 of his hard earned cash. He gave them the pick-up license number to make things easier and the two officers went to work. They sent out a Panhandle-wide radio report, alerting all peace officers over the entire area. This was still humming in the two hours when the pick-up and the "big men" were spotted as brought to Hereford.

"Yes," said the two men, "were with him in a crap game and he did lose \$170." They said that they had, in turn, lost money in the same game. Confused with such evidences, the new arrival admitted that it was true. What's more, he never did understand why he—the loser—landed the "pokey", along with his former friends. Tired and sleepy, Sheriff Sharp and Deputy Skelton went equally at a loss in trying to figure out why the fellow showed up with such a story, especially at the sheriff's office.

Lt. Daniel Russell arrived Hereford yesterday to spend a few days with his mother, Mrs. H. Russell, before flying to Fresno where he will be stationed for the years with the United States Force. Lt. Russell has been stationed Hamilton Field Air Base in California for the past three years. Mrs. Russell and their 11 daughter, Dancy, will remain Coronado, California, until arrangements can be made for her to her husband in France.

### Credit Firm To Add Collections

Special recognition and a chance to expand its operations came today to the Hereford Credit Association. Woodrow B. Wilson, manager of the office, was just notified that the Hereford Credit Association has been admitted to membership in the Associated Credit Bureaus of America's Collection Service Division.

Collection offices must meet a rigid set of qualifications before they are accepted as members of the Collection Service Division. Their methods of doing business, their capital, the manager's qual-

ifications—all these points come under close scrutiny from this international organization of top collection people.

Mr. Wilson says that one of the benefits of belonging to the Collection Service Division is that his office can give better service to local credit granters—those who turn accounts over to him for collection. The organization has over 1100 members all over the U. S. and Canada—and each member must maintain a high standard of efficiency. Should a debtor leave town owing bills to local merchants, Mr. Wilson says the accounts can be collected, in most cases, through affiliated Collection Service Division in the debtor's new home.

This improvement and expansion of collection service means surer profits for the credit granters of Hereford, says Mr. Wilson.

### Jackson Reunion Is Held Friday

The children, grandchildren and great-grandchildren of Mrs. M. C. Jackson met Friday, July 29, in the Muleshoe City Park for a family reunion to celebrate the 75th birthday of Mrs. Jackson.

A luncheon was served to the 32 members of the family present and to several guests, Rev. and Mrs. R. V. Luna and children and Mrs. W. M. Luna, all of Muleshoe.

Members of the family present were J. H. Jackson and daughter of Phoenix, Ariz.; Mr. and Mrs. F. Jackson of Amarillo, Mr. and Mrs. O. W. Hendrix and family of Amarillo, Mr. and Mrs. Lewis Maloney and family, Amarillo; Bobbie Ruth Maloney of Amarillo, Mr. and Mrs. W. P. Jackson and children of Lubbock, Mr. and Mrs. Dan Hughes and family of Portales, Mrs. Roy McCollum and children of Portales, Mrs. Clara Young of Fort Worth, Mrs. James Lambert and children of Fort Worth, Mr. and Mrs. R. E. Jackson and family of Muleshoe, Mr. and Mrs. Henry Seabrough and family of Muleshoe, Mr. and Mrs. Billy Williams and family of Muleshoe, and Mr. and Mrs. Bill Evans of Hereford.

No plans have been made for the next reunion but the family intends to continue the event each year.

## Beauty at Home

By Lynn Carter

Q. What type of hats are most flattering to the very short woman?  
A. Soft but snug turbans. Cloches with rounded crowns. Sailors with misty veils. Draped berets tilted forward over the brow so as to widen the face. Bonnets with rounded peaks or trimming over each ear to carry the eye sideways. Flower or feather touques. Half veils in fine mesh to soften sharp face angles and give width.  
Q. When one's face is wide across the forehead—that is, heart-shaped, how should the rouge be applied?  
A. Spread rouge across the cheeks, where the face begins to narrow; a broad, shallow triangle is best for this.  
Q. What kind of shampoo is recommended for fading or ailing hair?  
A. Good for this condition are the beaten yolks of eggs. Apply to scalp and hair, massage for a few minutes, then rinse off with warm water (not hot), and finish off with a cold-water rinse.  
Q. What causes corns and foot calluses?

A. Usually, too-tight shoes. Wear well-fitted shoes. A bad corn will stay with you for life, reappearing periodically at the least provocation, so don't take them lightly now. Put pads on them while they are young, and go to a chiropodist if they don't depart.  
Q. How can I cleanse knuckles that have dark lines in them?  
A. Rub some cornmeal with soapuds, and the gritty kernels will dig in and root out the dirt. The starch in the meal also heels, soothes and whitens.  
Q. What is a tip for adding loveliness to the eyelashes?  
A. Try using a little colorless petroleum jelly on them, on top of which use a little mascara. Remove any excess that might gather.  
Q. What is the approved manner of massaging the scalp?  
A. Not by rubbing the fingers over the scalp, but instead, by holding the fingers firmly on the scalp and moving the scalp about on the head. You can increase the benefit by holding your head down below the waist as you massage, which increases the flow of blood in your scalp.  
Q. How can I minimize the appearance of a too-long nose?  
A. You can shorten its appearance by darkening its tip with a slightly darker shade of makeup foundation than you use elsewhere. Be sure to blend it perfectly at the edges.  
Q. What is a good, simple exercise for improving bust contour?  
A. Merely extend your arms side ways and swing them up describing complete circles with the arms—elbows rigid.  
Q. What is the best astringent you can recommend for the skin?  
A. To my knowledge, the best, and most inexpensive, is witch hazel, sprayed on with an atomizer.

### This Dog Thinks He Is A Human

WOOD RIVER, Ill.—Buster is all mixed up—he goes around acting like a human instead of the dog that he is.

His owners, Mr. and Mrs. Andrew Jones, say he actually appears uncomfortable lounging around the house without his robe and slippers.

Mrs. Jones attributes Buster's confusion to the fact that he "never has associated with other dogs."

The Jones say that if one of them turns up his nose at food on their table Buster "makes a gagging noise and refuses to eat it."

"Buster, a toy collie, eats exactly what his owners eat, including carrots, sauerkraut and beans. He dotes on warm baths. He has his own bath mat, own towels, his

own robe and an assortment of dog scents. He sleeps just like a human on a mattress and between sheets and with covers.

Buster has grown tolerant of cats.  
"People don't chase cats," says Jones. "So how can Buster bring himself to do it?"

A camel can lose 30 percent of its body weight and survive in enduring severe heat, although most other animals die if they lose 12 percent of their weight.

### Collision Damages Estimated at \$475

Estimated damages of \$475 were done to a 1951 Buick and 1955 Mercury when they collided Tuesday morning at the corner of Park Avenue and B Street.

The accident occurred when the Buick, driven by Eula King Brown, north on Avenue B, failed to stop at the stop sign. The Mercury, which was driven by Jean Shepherd Davis, struck the left front wheel of the Buick causing \$400 damages. \$75 damages were done to the Mercury.

Eula King Brown was charged with failure to grant right-of-way by means of a stop sign.

**AUSTIN**—First conviction in the 319 indictments shrouding the veteran's land program came last week.

A three-year penitentiary sentence was fixed by a 98th district court jury for the program's founder, all his legal rights to fight the conviction.

Surprised, Giles promised to use motion picture for new trial was quickly overruled, clearing the way for appeal to the Court of Criminal Appeals.

Conviction was on a charge the former land commissioner aided and abetted Brady land dealer B. R. Sheffield in the theft of \$6,800. Sheffield was jointly indicted with Giles and still awaits trial.

Involved was the state's purchase last fall of the 10,114-acre Kinney County Rosenow Ranch, subdivided into 54 tracts for resale to 54 veterans. One tract sold for \$6,800 to a veteran who testified he thought he was signing up for a \$100 loan.

Giles stoutly denied state charges that he over-appraised the land as part of a scheme to defraud the state. He said he knew nothing of \$100-per-acre purchases of veterans' signatures to put through the transaction.

Many a courtroom spectator had predicted an acquittal prior to the closing argument of young Dist. Atty. Los Procter. He waved in the faces of the jury a \$25,060 check from Sheffield to Giles and called it "corroboration" of state testimony as to a payoff. Giles had testified it was in payment for a real estate sale in which he acted as agent.

Free on a \$2000 appeal bond, Giles awaits trial again Aug. 15 in San Antonio. He is charged there with accepting a bribe in another land program deal. Other indictments are still pending in Travis and Zavala Counties.

**State Recovers Land Money**  
In the second of many civil suits resulting from the veterans land scandals the state last week recovered \$89,868.

Byrd Cattle Co. of Dallas was ordered by 53rd district court to repay that amount plus three per cent interest.

Action was initiated by the cattle company. It offered to buy back at the purchase price the 700 acres of Dimmitt County land sold to 15 veterans. Court judgment was necessary, however, to rescind the transaction.

No allegation of fraud was made by the attorney general's department against the company. It did, however, secure J. Paul Little, Crystal City attorney who promoted the transaction, with making false representation to the Veterans Land Board.

who for several months had urged the committeeman to resign. Shivers, Morrow charged, wanted to replace him with "someone acceptable to Speaker Sam, Rayburn . . . and somebody who supported the Democratic ticket in 1952." He challenged any member of the committee to say he could so qualify.

Shivers denied intention to appease Rayburn. He declared Texas conservative Democrats need full representation on the national committee to help get their delegation seated at the 1956 presidential election.

A successor to Morrow is to be named at a September meeting. Liberal Democrats quickly tried to wedge the conservative breach.

Ralph W. Yarborough of Austin, twice defeated by Shivers for the governorship, extended his sympathy to Morrow. Though the two have long disagreed politically, Yarborough said he regretted to see any man "double-crossed".

James Sewell of Corsicana, chairman of the Democratic Advisory Committee, spoke up for Morrow as a "victim of political connivers".

**Integration Committee Formed**  
A statewide advisory committee on public school integration problems is meeting here this week.

Governor Shivers invited 23 men and women, both white and colored, to serve on the committee. Additional legislative members were named by Lieut. Gov. Ben Ramsey and Speaker Jim Lindsey.

Shivers said that the committee was needed to study critical desegregation problems and prevent "hasty, ill-advised action".

He urged school districts to appoint similar committees. They would study local level problems and serve as liaison with the state group.

**Anti-Crime Group Formed**  
A non-profit corporation pledged to fight crime on a statewide basis will set up headquarters in Austin.

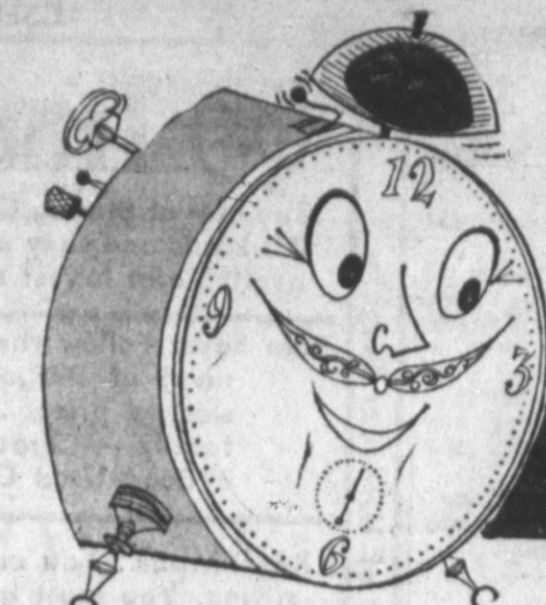

Called the Texas Law Enforcement Foundation, it grew out of recommendations of the attorney general's Citizens Advisory Committee on Law Enforcement. Its aim is to provide a broad program of education in scientific crime-fighting techniques.

It will provide libraries on criminology, make awards to outstanding officers, publish bulletins on new crime-combatting tactics, assist training schools, sponsor additional schools.

Summer squash takes to tomato sauce, but cut it into slices first and cook it in a small amount of boiling water. If you like you may add a little lightly browned onion to the cooked drained squash; but don't do so if the tomato sauce has a noticeable amount of onion in it. Final treatment: Turn the squash and tomato sauce into a shallow baking dish, sprinkle heavily with grated cheese and heat in the oven or broiler.

Want those stuffed eggs you're taking along to the picnic to taste extra good? Mash the yolks with deviled ham, mayonnaise and a bit of grated onion. Of course the eggs must be hard-cooked and cut in half before you start this deviling process.

## Household Scrapbook

By Roberta Lee

### Berries

As soon as berries are delivered remove them from their boxes, place them unwashed in glass jars with tightly fitting tops, and keep on ice until ready for use. This will preserve them for several days. Of course they should be washed immediately before using.

### Sash Cord

Before installing the new sash cords, soak them in boiled linseed oil, then allow them to dry thoroughly, and they will last indefinitely.

### Flies

To keep flies out of the pantry, sponge the windows once or twice a week with a weak solution of carbolic acid and water.

### Placing Rugs

Many accidents have occurred through a poorly placed scatter rug. Do not place a small rug at the top of a flight of stairs. Even though it is tacked down a person may catch his foot on its edge and cause a fall.

### The Cat

If the pet cat looks out of spir-

its during the summer make a salad of crisp lettuce shredded with the meat or the salmon you feed it. This is relished by most cats.

### Sunburn

When blistered from the sun, scrape raw potatoes, make a plaster on soft sterilized linen and apply as a poultice, renewing as it dries.

### Hot Summer Nights

If no air seems to be stirring in the bedroom on hot nights, try wringing a sheet out of cold water and hanging it before the window of the bedroom. The atmosphere will be wonderfully freshened.

### Perspiration Stains

Perspiration stains on garments can usually be removed by mixing one part of oxalic acid to twenty parts of water and applying with a small brush.

### Boiling Milk

If milk boils over on the range, or in the oven, sprinkle a thick layer of salt over the burning milk, allow it to remain for a few

## How Can I?

By Anne Ashley

Q. How can I remedy excessive perspiration under the arm pits?  
A. Bathe the parts, daily and then apply a lotion consisting of two teaspoonfuls of powdered alum and one pint of water. Follow by dusting with a powder made of one ounce boric acid and 10 grains of salicylic acid.

Q. How can I renovate hat bands?

A. By brushing with a sponge, or small brush, with a solution made by dissolving 1½ oz. each of sulphuric ether and water of ammonia. Rinse in clear rain water.

A. Instead of tacking, use ordinary flour paste. It will last much longer. If the table is square, use brass ends for the corners. They are attractive, inexpensive and will last for an indefinite period.

Q. How can I test eggs?

A. Hold an egg up to the light, and if it appears clear it is good. A stale egg will present a thick appearance. If it shows a black spot, take it carefully out in the yard and bury it.

Q. How can I clean brick tiles?  
A. If brick tiles are washed with a cloth dipped in vinegar it will restore their finish wonderfully.

Q. How can I make a stainless link?

A. When children wish to write with ink, try using bluing mixed with a little water. If spilled, it will cause no damage to clothing, as it can be washed out with one washing.

Q. How can I make a starch substitute?

A. Forax water is an excellent substitute for starch when stiffening sheer collars or voiles. Use a solution of weak gum arabic for silks and crepes.

Q. How can I get rid of ant hills in my lawn?

A. These are usually black ants. If you can reach the ant hill directly, saturate it with kerosene or boiling water.

Q. How can I be certain that chicken is tender?

A. After cleaning the fowl, rub the inside and outside thoroughly with a lemon before putting in the dressing. This makes the meat white, juicy, and tender. Adding a teaspoonful of lemon juice, or a tablespoonful of vinegar, to the water when boiling also helps to make it tender.

Americans spend about three billion dollars a year for research, but only about 5 percent of that is basic research as compared to applied research, says Dr. Glenn T. Seaborg, chemist.

minutes, then wipe off.

**Lemon Scraps**  
When there are leftover pieces of lemon after making lemonade or iced tea, rub the breadboard or kitchen table (if wood) with these pieces, allow the wood to dry, then scour with soap and water. The acid makes the wood beautifully white.

**Black Ants**  
The black ant can be killed by sprinkling the powdered root of black flag around the backs of shelves and along the baseboards of the floors.

## Even Young Folks Don't Mind This Night Curfew

CUMMING, Ga.—Mayor Roy Otwell is proud of the results of the curfew he clamped on this North Georgia town of 2,500 population four months ago.

Otwell banned everyone from the streets after 11 p. m. during the week and after midnight on Saturdays. The ban was imposed, he said, "to stop young fellows from cutting didoes around town late at night".

Otwell has been mayor since 1928. "The curfew has curbed more than 80 per cent of the foolishness inside the city limits. And I'd say it has had a great influence in the county as a whole, putting a stop to probably 50 per cent of the 'chicken' games and such."

"Chicken" as described by Otwell is "a form of possible suicide when a couple of young fellows drive head on at each other with their motors wide open. The first one who turns aside to avoid a crash is called 'chicken'."

The mayor said there have been some breakers of the curfew. Most, he added, were caught right after

it went into effect. The sentences he has meted out so far, Otwell says, have been for the curfew-breakers to go to Sunday school and church for four consecutive Sundays.

Otwell said he didn't believe the curfew has "hurt anybody, young or old." He said anyone with a definite destination is not stopped by the police. "Our curfew is aimed at calling a halt to cutting up around town. And we want to stop kids from loitering in the streets until all hours of the night."

The mayor added, "Our curfew is getting good results. And as long as it keeps on doing that, we're

keeping our curfew."

Young people, asked for an opinion on the ban apparently didn't mind it a bit. There were a few objections raised, but the majority agreed with one high school boy who said, "It's okay with me. I usually get my date home by 11 o'clock anyway. And if the curfew catches me, the police don't stop me as long as I go 'n home and don't hang around town."

A pretty high school age girl said the curfew had brought about one change in the younger set's dating to be downtown after 11 o'clock," she said, "we've just had to start going on dates earlier in the eve-

ning." Mayor Otwell says he has received more than 100 letters from some 30 states about the curfew. Most have been complimentary, he says, and some were from officials in other towns wanting to know how the plan was working out.

Harral Dunnam is attending a revival in Amarillo this week at the Trinity Methodist Church.

Mr. and Mrs. Joe Pitts and family were recent guests in the home of Mrs. Pitts' parents, Mr. and Mrs. J. A. Vernon, of Portales.

### 'Batter Rolls' Are Club Topic

"Batter rolls are easier and quicker than dough because they take no kneading or second rising as does the regular method," Argen Draper, CHDA said, when she gave a batter roll demonstration for members of the North Hereford Home Demonstration Club who met with Roberta Campbell on July 28.

The morning meeting was held to complete the spring program as outlined in the yearbook and included white casserole bread as well as Hot Cross buns.

Refreshments were served to Mesames Otto Olson, E. E. Bishop, Mary Bodkin, red Barrett, R. E. Barrett, W. H. Russell and the hostess.

The next meeting will be a picnic some time in August.

Mr. and Mrs. G. E. Tannahill and Johnny were guests Sunday in the home of Maurice Tannahill.

The Burke Inman family and guests from Amarillo enjoyed an afternoon of swimming and picnicking Sunday at Palo Duro Canyon.

By Argen Draper

A lot of people are canning and freezing and call the office for various information. Potatoes are still in the spotlight.

Potatoes can be canned or frozen and don't forget the way we used to store root vegetables, cabbage and so forth, in a pit in the ground. Some of you without pressure cookers and with limited freezer space should store potatoes in a pit. A space in the flower bed will do. Be sure the space is well drained. Dig the pit 2 to 2½ inches deep, line with feed bundles or straw of some kind, make a ventilator, and cover the vegetables with bundles of straw and then dirt. Of course, potatoes will keep a long time in a cool place in the cellar or wash-house. Potatoes to be stored should not be washed beforehand as Nature has put a protective covering on the potato.

Cider vinegar is used for fruit pickles and distilled vinegar for vegetable pickles. Vinegar of 5 per cent acidity gives best results with

pickles unless the recipe specifies a milder vinegar.

Very tender summer squash can be blanched 30 or 40 seconds. Most directions call for blanching 3 or 4 minutes. Most homemakers get better results with the shorter blanching time.

Vegetables packed raw without blanching are giving good results. Corn, green beans, and snap peas are some that have a better flavor when packed in the jar and processed.

Remember to adjust canning directions for altitude. Raise pressure 2 degrees; instead of canning at 10 pounds, can at 12 pounds.

A note from Mrs. Lea Teague, of Tucuman, who visited the "H. D. Market & Gifts", says the club women are making plans for their homemakers' market. The "H. D. Market & Gifts" has received good publicity and a lot of people in other sections are interested in the things that the sellers are doing.

Miss Frances Reasonover, Extension Foods and Nutrition Specialist, has written for stories about the Market. She is also interested in the reducing clubs which have been worked in the County. The homemakers market and the clubs on weight control seem to be taking care of immediate problems related to the life of rural and urban people.

The Educational Tour which the 4-H girls took was quite a success from the reports that we receive. There were 71 people who made the trip. This included six leaders. Deaf Smith County has the best adult leaders of any county and there seems to be a lot of general interest in 4-H work. The 4-H Dress Revue will be August 11 in the afternoon. You should make your plans to come to this and encourage these 4-H girls and leaders who have done such an excellent job.

Mr. and Mrs. W. D. Bartlett and Maurice Tannahill vacationed in Red River, N. M., recently.

Mr. and Mrs. Francis Carthel and Mrs. Herschel Carthel of Lockney spent the day Tuesday with Maurice Tannahill.

Mr. and Mrs. Tommy Glen Pingleton and Vickie Lynn of Dallas visited in the Lee Renfro home Saturday night.

Mr. and Mrs. Marvin G. Learns and Linda vacationed for a week in St. Paul, Minn., recently.

COVER PICTURE—The picture below was featured on the cover of The Feed Bag, national farm magazine, in their July issue. It shows Earl Holt of Hereford watching his irrigation well. The picture was taken last fall by Bob Taylor of Cordell, Okla., who specializes in agricultural photography and was made on the Holt farm one-half mile south, three miles east of here. The 10-inch well has an 11-inch discharge and pumps around 1,700 gallons per minute.

Mr. and Mrs. Reuben Knox and children of Lubbock are now making their home in Hereford. Knox is the office manager for Gifford-Hill Western.

### Home Hazards Are Black Club Topic

The Black Home Demonstration Club met on July 27 in the club house, with Mrs. K. E. Deaton as hostess. Mrs. Leonard Latham, president, was in charge of the meeting.

Roll call was answered with "Home Hazards". A report was given of the last council meeting.

Misses Billie Gene Barnett, Doris Barnett, Delores Elmore and Nelda Barnett, 4-H girls, gave a program on "Safety In The Home".

A game to discover the most hazards in the home was led by Delores and the prize package of "Life Savers" went to Helen Fangman's group for the greatest number. The girls also listed the necessary contents for a First Aid Kit.

Refreshments were served to Mesdames Genevieve Ivie, Lillian Lookingbill, Helen Fangman, Emma Elmore, Maxine Price, Anna Mae Hays, Altha Presley, Mildred Barnett, Dorothy Noland, Lois Latham, Carrie Tatum, Marjorie Mc-

### MERRY MAIDENS

The Merry Maidens 4-H Club met on July 22 in the home of Emily Pavlicek. Roll was called by De Lourdes Buck. Polly Monroe led the song and the club ritual was led by the hostess.

The meeting was called to order by Nancy Parsons, president. At the business meeting money was taken for the 4-H trip to Amarillo on July 30 and plans for a picnic and the dress revue were discussed.

Loyce Sullivan, Assistant CHDA, gave a demonstration on "Hems" as a part on the summer program on sewing.

Refreshments were served to: Donna Lovel, Polly Monroe, De Lourdes Buck, Ann Rose Dzuik, Sue Minor, Deann Kreighouse, Nancy Parsons, Kay Albracht and Emily Pavlicek.

The next meeting will be on August 12 with Mildred Wester.

### 4-H Educational Tour Centers On Industry Points

Education with no home work involved was a new and interesting experience for about 50 4-H club girls and some twenty leaders and parents who made a tour of business establishments in Amarillo on July 29.

Most of those making the trip left from Hereford by charter bus, but members of the Walcott Jolly Girls and Caprock 4-H clubs who are residents of the northwest part of the County met the group in Amarillo at the Globe-News building where the tour began.

The next stop was at the KGMV TV studios where they watched the televising of the Double Trouble program. Sandra Wester of the Merry Maidens 4-H Club was interviewed by Johnny Linn when the party enjoyed an hour of recreation before going to the Thompson Park and following the meal the party enjoyed an hour of recreation before going to the Southwestern Bell Telephone Company. Cokes were served by the company to the visitors following the tour. The final stop was made at the Taystee Bread plant. The time the group was treated to some of Taystee's cinnamon rolls by the hosts.

The places visited on the educational tour had been selected earlier by the adult leaders of the various clubs after getting an impression from the girls as to the places in which they were most interested.

Leaders making the trip with the girls were: Mrs. J. E. Dyer, Jol Girls; Mrs. C. F. Homfeld, Caprock; Mrs. Glenn Burrus, Walcott; Mrs. T. J. Parsons, Merry Maidens; Mrs. Jack Higgins, Daniel; Mrs. T. B. Thomas, Sadie Lee Over. Every club was also represented among the girls making the tour.

**43 Years Ago**  
August 18, 19 and 20 is the date set for the celebration of the 10,000-acre pumping irrigation project, located at Portales, N. Mex. A demonstration will be given of capacity of the electric power plant and pumping of some 40 or more wells which are delivering from 1,200 to 1,500 gallons of water per minute on the farms. The Portales Land and Development Co. will sell at auction to the highest bidder 1,010 acres of land which they purchased in order to complete the 10,000 acres of the project.

At a meeting of the Board of Trustees of Hereford College Wednesday afternoon, Prof. D. A. Shirley, for the past two years professor of history in the college, was elected as president of the school and a tentative agreement was made with him. This was occasioned by the resignation of Prof. E. M. Halle, and while the Board and patrons regret to lose Mr. Halle, they feel fortunate in securing Mr. Shirley as a head for the institution.

**25 Years Ago**  
Hereford has just cause these days to be proud of its abundant

supply of fresh, pure water. From June 20 to July 20, patrons of the city water department used 18,475,000 gallons of water, 15,475,000 of which were paid for and the other 3,000,000 were given free to the various parks, churches, and the cemetery.

The planting of wheat with the ordinary drill is not the only way to make a wheat crop, according to G. E. Keller, who lives 35 miles south of Hereford. Last year he put his wheat into the ground with a lister and made an estimated average of from 30 to 40 bushels to the acre, while his neighbors were harvesting 25 bushels to the acre. The neighbors had an almost total failure this year, making from two and one-half to six bushels to the acre. He sustained two heavy hail damages, one that shattered the heads and another that beat down many of the stalks. Keller's average yield was 11.34 bushels to the acre.

Linda Smith was badly burned recently when a motorboat she was in exploded. She is the daughter of Mr. and Mrs. Clarence Smith, who moved from Hereford to Azle two years ago.

# Three Accidents Cause Damages Totalling \$1125

An estimated \$1125 worth of damages were done in three different automobile accidents over the past weekend, according to local police.

The first accident, causing \$75 damages, occurred Saturday at 2:30 a. m. on the corner of Main and Third Streets. The accident occurred when a Pontiac driven by Mae Odum backed from the curb, hitting a 1950 Oldsmobile driven by Earl Clayton. Mrs. Odum was charged with failure to grant right-of-way.

The second accident took place on Highway 60, 200 feet north of Highway 51, at 3:30 a. m. Saturday.

Damages of \$200 occurred to a 1955 Chevrolet driven by John Hargues when he failed to stop soon enough, running into the back of a 1952 Chevrolet truck driven by Margarita Salis. Hargues was charged with negligent collision.

An accident at the corner of 25

Mile Avenue and Lake Street occurred Sunday morning causing damages of \$850.

The mishap came about when a 1949 Dodge driven by Sylvanus Drerup ran into the left side of a 1950 pickup driven by W. P. Caraway.

Charges of no drivers license were made against Caraway while failure to grant right-of-way and speeding charges were filed against Drerup.

# At The Movies

Warner Bros. CinemaScope adaptation of "Battle Cry", a best-selling novel by Leon Uris, shows five days starting Sunday at the Star Theatre. The film version of the sensational novel was prepared for motion picture presentation by the author himself, Leon Uris. All the passion of the book is said to be preserved in the film as well as the memorable moments of history in which the Marines helped pave the road to victory in the war. Starring in this superior movie are Aldo Ray, Tab Hunter, Van Heflin, Mona Freeman, Nancy Olson, James Whitmore, Raymond Massey, Dorothy Malone, and Anne Francis.

**Wednesday-Thursday**  
"New York Confidential", which stars Broderick Crawford, Richard Conte, Marilyn Maxwell, J. Carroll Naish, and Anne Bancroft tells the inside story of the top echelon of the international crime cartel and how the organization operates. Broderick Crawford is seen in the role of Lupo, the boss of the organization's operations, with Marilyn Maxwell as his girl. This film story which bares the secrets of the international crime cartel shows Wednesday and Thursday at the Star Theatre.

**Tower Theatre**  
One of the most exciting chapters in American history is re-created in "Battle of Rogue River", which shows Saturday at the Tower Drive In, starring George Montgomery, featuring Richard Denning and Martha Hyer and introducing the six winners of the National Indian Beauty Contest. It is a terror-taut drama of the days when the savage Indian wars prevented the rich territory of Oregon from achieving statehood.

**This week Buick soars past the 600,000 mark!**

**Biggest-selling Buick of all time permits us to make the biggest trade-in deals ever possible!**

**H**ERE it is, just past July, and what do you think has happened? Buick popularity has broken every past full-year record! That's the gospel truth. And Buick, of course, has had many great years before.

At the beginning of this week, Buick production passed 600,000 cars for the 1955 model year. That is over 155,000 more automobiles than the full model year of 1954—when we captured third place in total national sales.

It is more than 11,000 higher than the full model year of 1950—when the automobile industry had its greatest year, and Buick established an all-time record that stood unchallenged until now.

It is almost a quarter of a million more automobiles than the full model year of 1941—which was the greatest pre-war record Buick ever reached.

In other words, there has never been anything before like 1955 in Buick history—when today Buick is building over three cars every minute to meet the public demand.

Doesn't this tell you something important? Doesn't this soaring Buick success mean that you owe it to yourself to see and sample the car that's breaking every record in the Buick book?

Doesn't it mean that you ought to try Buick's mighty V8 power—Buick's great room and comfort—Buick's cruiser-steady ride and roadability—Buick's superb visibility and precision handling ease?

And doesn't it mean you certainly ought to try Buick's Variable Pitch Dynaflo®—the world's only transmission with the switch-pitch principle of the modern plane's propeller—and the most spectacular performance advance of the year?

Come in and see us—this week, at the latest—and learn for yourself why today's Buick is the biggest-selling Buick of all time—and how big a trade-in deal we can offer you with this tremendous volume to back us up.

\*Variable Pitch Dynaflo is the only Dynaflo Buick built today. It is standard on ROADMASTER, optional at modest extra cost on other Series.

## Letter To The Editor

Mr. Jimmie Gillentine, Editor,  
The Hereford Brand,  
Hereford, Texas

Dear Jimmie:  
No criticism whatever is meant of the manner your Thursday's issue reported the fact that the Commissioners' Court had voted to allow as much as \$50 per month toward covering part time secretarial help for the Supervisor of Child Welfare Services of the 6th Judicial District and some of the traveling expenses of this worker or Supervisor. But I thought there are some points about this arrangement that the public might find interesting.

The salary of this District Child Welfare Worker or Supervisor is paid entirely by the State of Texas. This shows that the State is favorably enough impressed with the good being done by the child welfare program of this district to invest in it the amount of this worker's salary. Why doesn't the State also pay the office and travel expenses for such workers? The State supplies the salary and such services only to counties that regard such services of enough value to them to participate in the total expenses for such services.

The salary alone of the worker being paid by the State amounts to quite a bit more than the total amount of contributions of all of the counties participating in the part time secretarial help and the travel expenses. The time and services of the worker are, of course, divided equally among the counties participating in the program.

More than a year ago four counties of this district voted to contribute proportionate parts of part time secretarial help and travel expenses. This arrangement was set up on an experimental basis of a year. Before that year expired this service had proven to be so worthwhile that there was no hesitancy on the part of any county participating in the expense to continue the plan.

Why would the services of the District Welfare Worker be necessary in counties which have a County Welfare Worker? The primary duties of the County Welfare workers are in the field of charity and health and they carry very heavy loads of that kind of work. They have also contributed a tremendous amount of assistance to the District Court in connection with child welfare problems but their time available for this work is limited by the load of other work they carry.

What kind of services does the district Child Welfare worker render to the District Court and to the counties? There are so many types of problems involving the welfare of children that come before the District Court that to attempt to relate them all would make an endless story.

The district Child Welfare worker investigates problems involving the welfare of children and presents the cases to the county Child Welfare Boards for solution and the Boards, after solving the problems, make recommendations to the people concerned and to the District Court. In the two counties having county welfare workers he works with the county welfare workers on these problems. In those two counties the population of the counties is large enough and there are enough problems to take all the time the county worker and the district worker can give to them.

The good work that has been done, and is being done, by the county Child Welfare Boards cannot be too highly praised. They are composed of seven good citizens of each county who are keenly interested in working for the best welfare of children who need things done for them to improve their circumstances. The members have contributed many and long hours to this work and have accomplished a tremendous amount of good for the children that have become their concern—all without any pay whatever.

Why are there so many problems involving the welfare of children? For one thing, the law places a continuing responsibility on the District Court for the welfare of children in cases that come before the court which involve the rights and welfare of children. In most cases this responsibility continues for many years. For instance, in divorce cases of parents of children the court is responsible for the welfare of the children until they reach the age of eighteen years.

During that time the situation of the children frequently changes and creates new problems. In other words, the District Courts are frequently called on to deal with new problems involving the welfare of children in divorce cases in which the divorces were granted many

months ago and perhaps several years ago.

Another type of problems involving the welfare of children grows out of the use of the Adult Probation Law for first offenders in criminal cases. The Adult Probation Law was passed five or six years ago and has since then been used instead of the suspended sentence law. Under this law the District Court may, after a person is convicted for his first penitentiary offense, sentence him to the penitentiary but put him under probation during his good behavior. In putting first offenders on probation the Court sets out in some detail just what behavior is required. One of the standard requirements in the way of behavior is that the man properly support his children. In most cases the man has small children. It would be an idle thing and making a mockery to fail to keep in touch with the man and the children to see that he lives up to this requirement. The man and the children often live in two different places and outside of the county and state where the trial takes place.

As of January 1, 1955, there were currently 105 people (mostly men) under probation by this District Court, and 21 of them from Deaf Smith County. A number of such cases have been added since then. You understand, of course, that the crimes involved in these cases are the usual run of crimes that come before the courts and probation is allowed to be given in most cases of first offenders.

I thought it would be of interest to you, and perhaps the public, to learn more about the various ways in which the Courts can look after the welfare of children.

Very truly yours,  
Harry Schultz,  
District Judge.

# Timberlake Pitches Jim Hill To Victory

By BILL KNOX

Doug Timberlake, novice hurler, twigged a three-hit shutout Monday night as Hotel Jim Hill shellacked Rutherford's 13-0. Timberlake, making his first start of the year, never was in serious trouble until the final inning, and then sharp fielding by his

teammates got him out of the predicament. He was wild only in spells, walking only three and striking out one batsman.

Jim Hill was playing with the services of only eight men but still displayed some of the early season form which merited respect. They were able to bang out only five bingles in racking up the thirteen runs but connected when it counted the most.

Three of Jim Hill's five hits were credited to Jimmy Bounds. Bounds personally accounted for five of the thirteen runs batted in. The other two hits were garnered by Bill Howard and Onias Carroll. Only once did Jim Hill collect at least two hits in one inning.

Timberlake handcuiled Rutherford's very effectively until the last of the fifth when a base on balls handed to the lead-off man backfired. However, a quick doubleplay got him out of the jam without damage.

In all of the previous four innings only one man per inning had received life. Only one did a runner advance to third, that being on a triple by Roy Boyer. Jim Hill made two errors, well below average.

Errors committed by the Rutherford's team was a key factor in Hotel's scoring thirteen runs on only five hits. Rutherford's was guilty of committing nine miscues in the field, probably above their usual average.

Jim Russell started for Rutherford's. After a quick first inning he was no problem to Jim Hill. They scored consistently in each of the last four frames, taking advantage of seven walks issued by Russell. He failed to strike out a batsman.

Hotel got off to a bad start, going down in routine order in the top half of the first inning, but they quickly got to work thereafter. The one run in the first came when Howard was safe on Summers' error to lead off. Timberlake was safe at first when he forced Howard at second; then Suttie grounded out before Carroll walked and Jimmy Bounds singled to drive in the run.

Then in the third they began to open up, denting home plate with three big tallies. Burdine walked to lead off, and Ross sacrificed him to second. Howard grounded out to third base, but Timberlake was safe on Boyer's error. Burdine scoring. Suttie and Carroll walked. Bounds' single drove in the final two runs of the inning.

Five more runs in the fourth broke Rutherford's back. Jim Hill turned the trick with the aid of only one hit, taking advantage of three walks and four errors.

The fifth was the inning in which Jim Hill banged out two base hits. They also chased four runs across the plate to put the five-inning rule into effect and make the count 13-0. With one out, Howard was safe on Boyer's error. Then on the next play Callaway erred on Doug Timberlake's grounder. Suttie drew a base on balls, and Onias Carroll drove in two with a line single to left field. Jim Bounds followed suit to drive in the final runs of the inning and complete the game.

# Local Riders Grab Important Win From Dimmitt

## Hereford Brand... SPORTS

The Hereford Brand, Thursday, August 4, 1955 Section 2

### KNOX'S KNOTHINGS

BY BILL KNOX

The weeds that once stood in left centerfield of Veteran's Park have finally been mowed.

And everybody who has anything to do with baseball or softball knows who mowed them. Onias Carroll, Satchel Paige of Hereford, usually gets around to doing everything that those who should don't get around to.

One of the things which needs to be done is coming through with a base hit which he does upon occasion.

Seems as if there is a certain amount of confusion as to the actual standings of the Central Plains Baseball League, of which Hereford is a member.

The league president in Dimmitt stated last week that Hereford's wins over Bovina and Lazbuddie would clinch a playoff

berth. Then he issues a statement to the effect that only under certain conditions would the Sox gain a playoff berth.

And to top it all off, his standings tabulate to fifty-four wins and fifty losses. This is highly irregular, and we're sure that it is not just an arithmetical mistake.

Quite often you hear criticism concerning the sports lingo used by some writers. One of the more humorous ones recently appeared in SPORTS ILLUSTRATED. It went this way:

I trust that no one was hurt when our lads came through to win. It says here they trailed their foes. Till the ninth when the roof fell in.

## Lube Continues To Top League Batters

Three newcomers dotted the batting leaders this week as most averages, with the exception of Ray Lueb, dipped. Lueb, Piggly Wiggly sparkplug, continued his red-hot batting pace by raising his average eighteen-points, to .563.

Raymond Dement, Dick Ross and Danny Eliston all added their names to the top-five list in averages. Dement is third behind Bill Callaway's .457 with a fine average of .450. Ross is close on his heels, pasting the ball at a .447 clip. Eliston is next with .438.

Kenneth Brock, also of Piggly Wiggly, took over the home run supremacy from Raymond Dement, his teammate. Brock clouted two home runs last week to raise his total to eight, one ahead of De-

ment. Bill Callaway of Rutherford's has five, one ahead of Hill Davis of Summerfield and Bud Stengel of the KC's.

Lueb also continues to lead in every other department. His runs batted in total was boosted to forty-four, far ahead of any other contender. Raymond Dement is next with thirty-eight, and Ken Brock trails him with thirty.

Lueb possesses duplicate totals in the hits and runs scored department. His thirty-six is only one ahead of Ken Brock, however, in runs scored. He is nine ahead of Raymond Dement in the hits category.

Pace setter in the pitching division is Don Morgan, Piggly Wiggly ace. Morgan has compiled an excellent record of seventeen wins compared to only two losses. He has pitched one no-hitter, two two-hitters, and four three-hitters. He is the most feared pitcher in the league.

Next behind Morgan is Ken Walterscheid, effective rise-baller who staffs the Knights of Columbus' pitching delegation. Walterscheid boasts a 2-4 record, several of his wins being impressive victories over top-rated teams. Two of his losses are to Piggly Wiggly, and the other two belong to Jim Hill.

## KC's Will Try To Strengthen Hold On Second Place

Thursday and Friday night softball offers no crucial clashes but may turn out a few close games.

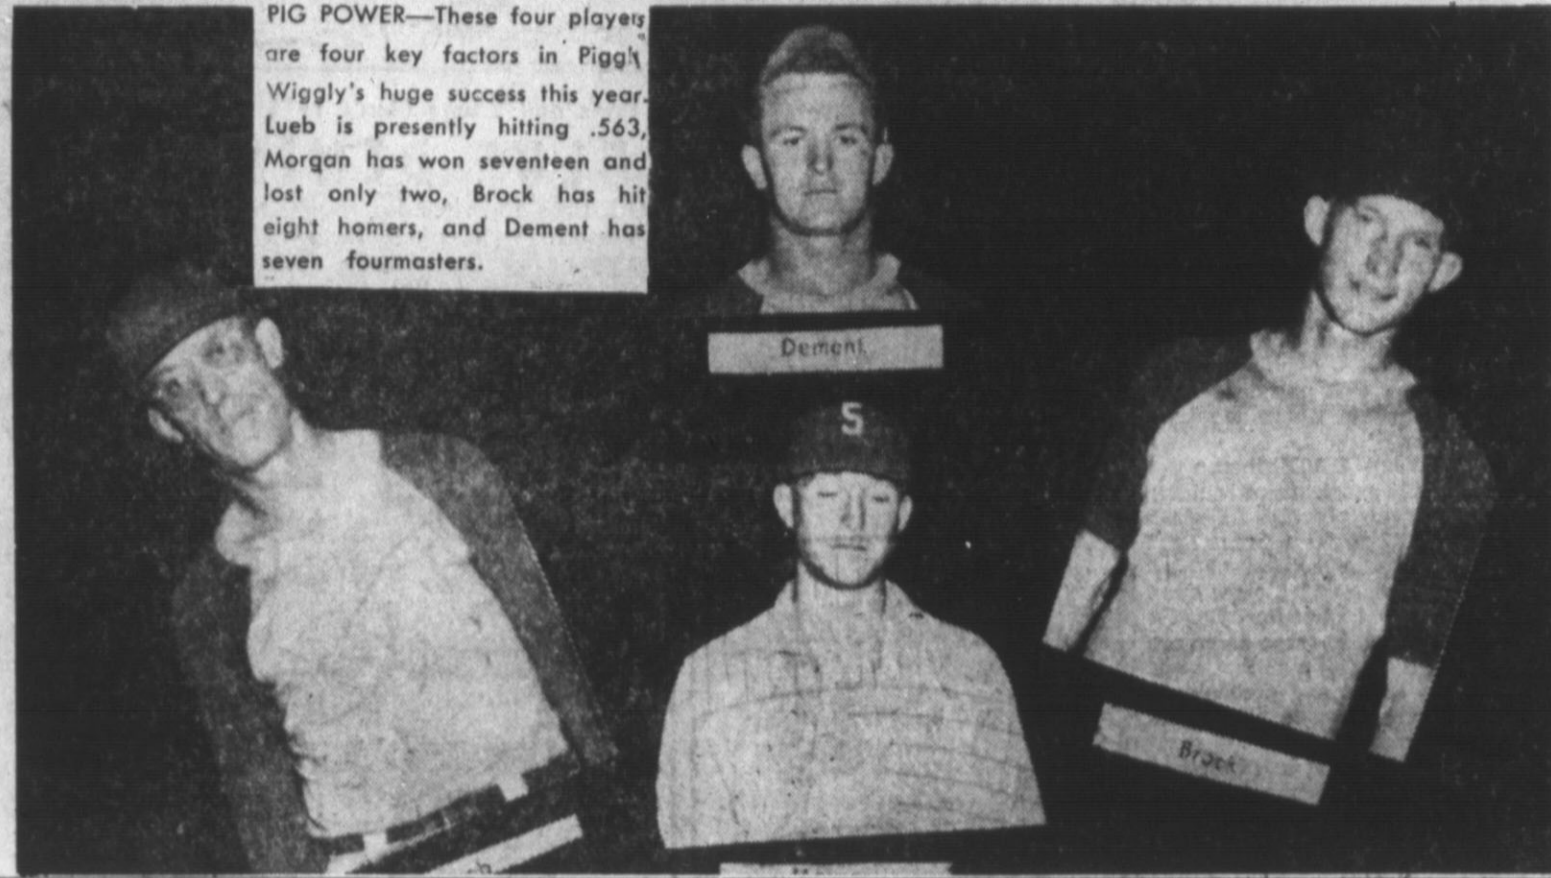

The Knights of Columbus will be favored over Rutherford's when they meet in the first game Thursday. The KC's have only recently taken over the second spot from Hotel Jim Hill, and a loss would throw them back into second. Jim Hill runs into a very easy opponent. Coopers, owners of only one win this year, Jim Hill's power has not been at its peak, but they still should not find it hard to win over Coopers.

Then the KC's have another chance to lengthen their lead Friday night. They will be heavy favorites over next-to-last Popular Store, upstart team which has risen from the depths of the cellar, their home at the first of the season. Piggly Wiggly, possessors of 17 wins and only two losses this year, will also be strongly favored in their tangle with Summerfield. Summerfield presently holds on to fourth place, but their hold is precarious. Rutherford's is right behind, but their chances for taking over are slim. They tangle with the KC's Thursday night.

## District Crown Rests On Saturday Polo Game

The Hereford Palmetto Polo Team hinges the district crown on the Dalhart clash scheduled for Sunday afternoon at Dalhart. The two teams are presently tied for first place. Hereford's only defeat is to Dalhart, while Dalhart's lone loss is to Dimmitt. Dalhart will be favored to win the game, but Hereford has a definite advantage in the overall race since Dalhart has another game with Dimmitt yet to play.

Faust Collier, Hereford captain, is confident of victory in the Dalhart game, however. Dalhart's previous victory over the Hereford Riders was not a close one; still Dalhart is given only a very small advantage. The district winner will enter the regional championship.

PIG POWER—These four players are four key factors in Piggly Wiggly's huge success this year. Lueb is presently hitting .563, Morgan has won seventeen and lost only two, Brock has hit eight homers, and Dement has seven fourmasters.

The Hereford palmetto polo team pulled a last-ditch rally to stop Dimmitt in an important clash here Saturday night. Harold Beauchamp scored a goal in the final minutes of play to give the Hereford Riders the 9-8 triumph.

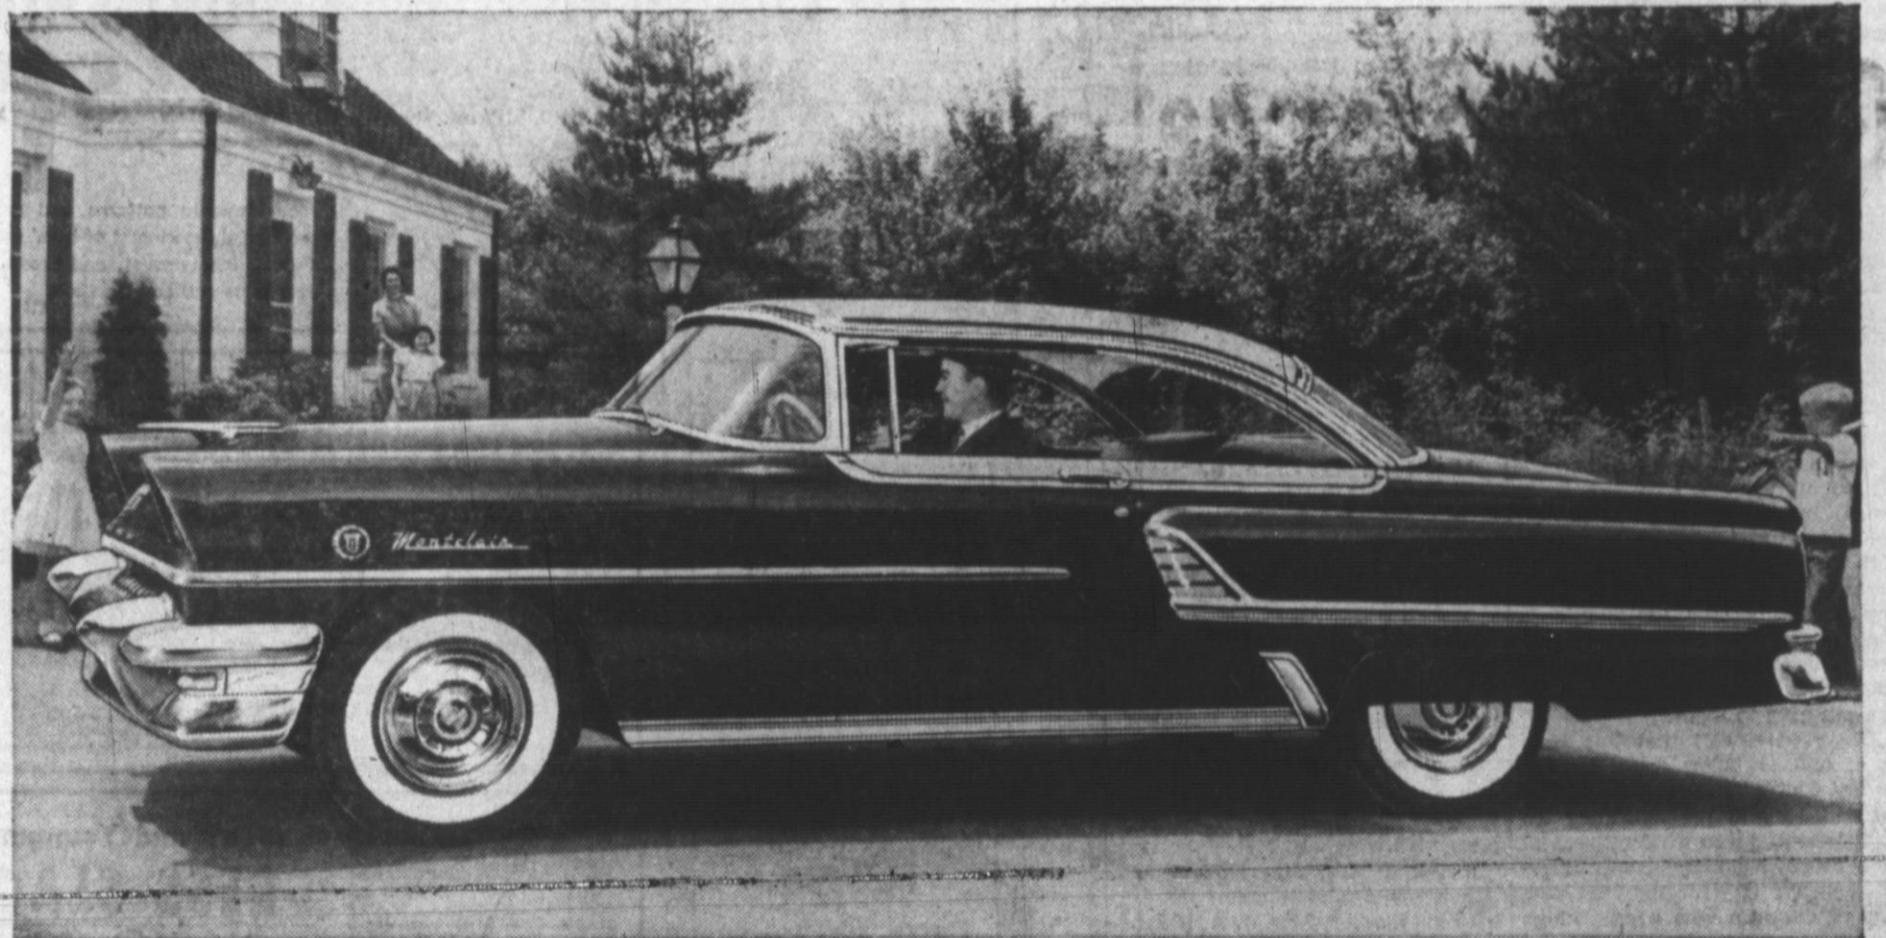

Hereford started out dismally. Dimmitt took an early lead of 6-3 in the first two chucks but failed to protect it. However, they showed definite improvement from their earlier clash with Hereford.

The Hereford win throws the conference chase into a two-way tie between Dalhart and the locals. The two teams will clash next week in what may prove to be the roughest game of the year for Hereford. However, Dalhart still must get by the rugged Dimmitt riders.

Hereford's fine all-around player, Harold Beauchamp, paced them once again. He scored all the points except one, T. D. Davenport accounting for it.

A key factor in the win was the excellent defensive play of Davenport and Floyd Walton. Davenport and Walton blocked many shots which were headed between the two uprights besides doing their share of the offensive work.

## Mercury beauty, power and resale value boost sales to record high...

### And record sales mean record deals. Cut your cash outlay by acting now—get a far bigger allowance for your present car.

It's worth a trip to our showroom just to hear the figures! For it's never been easier than right now to own a Mercury.

**HIGH-VOLUME DEAL**—Mercury's record-breaking popularity now permits us to operate on a much higher-volume basis. We can offer the best deals in our history. And, remember, a Mercury deal means far more than just a low price. Look at what you get:

**EXCLUSIVE STYLING**—No "look-alike" styling for Mercury. You get fresh, distinctive beauty—styling shared by no other car.

**SUPER-TORQUE POWER**—You get more than just high horsepower (188 and 198 hp)—you get far more usable power. More power is put to work in pickup and passing speed ranges—where you can

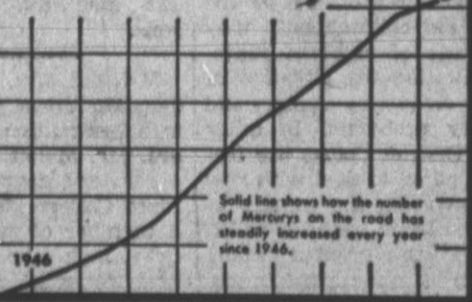

use it for everyday driving, not just for high speeds.

**EXTRA-VALUE FEATURES**—Only Mercury in its field offers you so many important extras at no extra cost. For example, a 4-barrel carburetor on all models. Special 18mm anti-fouling spark plugs. Ball-joint front suspension. And dual exhausts on all Montclairs and Montereys, and Custom Station Wagons.

**CONSISTENTLY HIGHEST RESALE VALUE**—Mercury protects your investment better than any other car in its field. Independent reports show that Mercury consistently returns more of the original purchase price at trade-in time. In short, no other car offers you bigger reasons for buying it. And you couldn't pick a better time to get a deal on a new Mercury. So why wait? See us today.

#### THE BIG MOVE IS TO MERCURY

Mercury is setting new sales-records every month. More than 2,000,000 Mercurys have been bought since 1946.

## Reserve Football Seats On Sale

Reserve seat football tickets for the coming season are now available at Dub's Men Shop. Those who had reserved seats last year will have until August 15 to get tickets. After August 15 all remaining seats will be sold. If possible, bring your last year's tickets with you.

# Sox Wipe Out Rally To Stop Lazbuddie

The Pink Sox of Hereford squelched a last-inning Lazbuddie rally to take a 13-12 victory and virtually clinch a playoff berth in the Central Plains League.

The Sox were on the top end of the score for the complete game. But Lazbuddie fought back from a 10-2 deficit to almost get a taste of victory. They scored 10 runs in the last four innings, but still fell short.

Had it not been for the addition of three insurance runs by Hereford in the top of the ninth, the tri-

umph would have been Lazbuddie's. They consistently kept Hereford twirlers in trouble. They capitalized on every walk handed to them, springing in their share of base hits, also.

Terry McRight started for the Sox. He was ahead when Raymond Lueb took over at the end of the fourth inning, but Lueb got credit for the win. However, Lueb was not successful in his attempt to harness Lazbuddie, either. John Winkler

pitched the last inning, giving up four runs.

Of the 13 hits banged out by Hereford, Terry McRight collected four to lead the Sox delegation. Jerry Wanson and Hilev McGill led Lazbuddie forces with a trio of base hits each. The whole team banged out eleven.

Hereford pitchers struck out seven and walked eight. Lueb was the most successful with strikeouts but also had more walks. Hereford batters struck out four times and also drew eight bases on balls.

"COME UNTO ME..."

thus spoke our true leader. What a boon that is! Some of us never expected an invitation to share such high company. His fellowship lifts the uncommon and the ordinary into the precious... the heavenly. To every one of us, He is repeating the greatest invitation of the centuries...

"Come Unto Me." Not one of us is able to meet the world in our own strength. He is the Christ of every road where God's children must walk. His patience, sympathy and understanding love has made every highway of the world a King's Highway. He invites you to attend church, to come to God.

YOU IN THE CHURCH  
THE CHURCH IN YOU

Character is a by-product of the church. It is here that young and old alike are showered with benedictions that fortify and induce for a better citizenship and a stronger democracy. In the church the ministerial are molding religious character. Statesmen today declare that the church alone can furnish leadership to handle the affairs of state in these perilous times. Then we with our children should go to the church of our choice on Sunday. "You in the Church and the Church in you" form a combination for good. Be a regular CHURCH GOER and a daily BIBLE READER.

### Your Congressman Reports

The age old expression, "hotter than a depot stove" is a perfect description of both Washington weather and the closing days of the Congress. The sweltering heat is supposed to be unusual. It must be, because if it lasted very long, everything would be fried to a crisp. Even the rain is lukewarm.

The hectic days of the closing Congress are not unusual. It happens every time Congress starts to adjourn. It is somewhat like Christmas; no one seems to be fully prepared for it. We have gone along at a moderate pace for 5 1/2 months and are now trying to cram about three months' work into three days. The controversial legislation is being handled with dis-

patch, which is not too good. The trouble is that when you move too fast on these complex bills, you do not have time to properly clean them up. This results many times in the defeat of measures that could have been passed if properly and thoroughly considered. Many feel that the fate of the highway bill was a good example. The gas bill skinned through on about as close a margin as possible. The closeness of the vote was not due to the time the bill was considered.

The history of this legislation is studied with close votes. Similar legislation barely passed the Congress in 1950 and was vetoed by President Truman. The legislation in this session was subject to nine

weeks' hearings before the committee. As a member of that committee, I was in attendance at practically every session and could see from the very beginning that the vote would be very close. It was. On the first vote, it was 14 for and 14 against. This meant that the bill was tied. However, one of those who voted against the bill was gracious enough to move its reconsideration. The bill was reconsidered by another close vote, and was finally passed out of the committee by a vote of 16 to 15. The bill then went to the Rules Committee, where it received a rule by the very narrow vote of 6 to 5. The first test vote was 209 for and 203 against. One member who had previously voted for the bill voted against it. Many of the members are referring to the bill as the "close shave" rather than the gas bill. We hope it does better in the Senate.

The fight on the gas bill, as all of you know, was long and hard, and those of us who have vigorously opposed federal control of our economy are highly pleased with the results of the vote in the House. There are several provisions in the bill that are distasteful to me and will probably be distasteful to many independent producers, but the main feature of the bill which I have long and ardently supported, freeing the independent producer and gathering from bureaucratic federal control, is intact. Thank goodness.

#### THE HOUSING BILL

The housing bill finally cleared the Rules Committee after remaining there under a 6 to 6 deadlock for quite a while. The controversy hinged around public housing, and this will be the center of the fight on the floor of the House. Had the public housing feature been in a separate bill, there would have been very little hold-up. The reason that the housing bill as such is a "must" in the President's views, is because it contains authority concerning the entire housing program. If this bill is not passed before Congress adjourns, it could very easily be the cause of disrupting a large segment of our economy and cause great hardships in many sections. The public housing features have been opposed vigorously and have been cut down in

prior years. Attempts will be made to cut them out of the bill this year but it is my prediction that by the time you get this letter, the housing bill will have passed, with Eisenhower's recommendation on public housing included.

#### A NEW FAD

Washington seems to have gone "oz-wild" about the Hawaiian theme. This must be history repeating itself. I remember when I was a child, every vaudeville had to have a Hawaiian act and Hawaiian music. The Chautauqua (remember them?) was never without one. In fact, it got so bad that ukulele sales skyrocketed and everyone around saying "Aloha", not knowing whether it was a good or bad word.

The new fad involves digging pits in the ground and lining them with lava stones and getting Hawaiian chefs to cook whole pigs in them. They also make up quite a few other Hawaiian dishes that all have reputations of good taste. Also involved in the ceremonies is a huge punch bowl full of Hawaiian punch. Everyone is given a large tray and instructed to drink or "the punch bowl. This part of the ceremony reminds me of the old "me horse trough that used to sit at the northeast corner of the court house. It is not my intention to insinuate that the drinking from one bear any resemblance to the drinkers from the other. What I had in mind was that in both in-
