Around Town

"Guess your boosters are all asleep," declares a frequent visitor to Hereford, Perry Lunsford of Dallas. "I went to this banquet in Amarillo on Sunday night — people there from several states, and guess what the featured side-dish was: Idaho potatoes. And there was a fellow there who came all the way to get in that spud-plug at the dinner, staged by the Anxiety 4th Hereford Breeders Assn." concluded cattleman Lunsford.

Two new service stations, Sanders' at Highway 51 and 60, and Bainum's at Park Ave. and Ave. F, are being opened on Saturday by the Humble Oil and Refining Co. These are the first stations to be opened in the city by the Houston company which has recently become the state's top ranking gasoline sales organization. There will be a "green-thumb houseplant" for the ladies and souvenirs of "Humble Day in Hereford" for all visitors. O. R. Sanders and Delbert Bainum are the new dealers.

The request for installation of a traffic light at the intersection of 25 Mile Ave., and Park has again been refused by the state highway department. Postal Receipts In Steady Climb To Record Mark

Postal receipts reported by the U. S. Post Office here indicate that Hereford continues to grow. The figures for the comparative months of November and for the 11-month period to date of the past two years both mark increases.

November, 1956, showed postal receipts of \$6000.07 as compared with receipts of \$5599.16 for November of 1955. This is an increase of \$400.91.

For the period from Jan. 1 to Nov. 30 of 1956, the post office here has had receipts totaling \$64,752.01. The same period for last year marked receipts of \$62,743.24. This shows an increase of \$2,008.77.

CHARLIE VASEK JR. ... Texas Corn Champion

MORE FAME FOR HEREFORD AREA

Vasek's Corn Is Tops For Texas

The Hereford area's claim to agricultural fame received new emphasis this week with the announcement that Charlie Vasek Jr., of Route 4, topped all Texas farmers in the five-acre corn production contest sponsored by the DeKalb Agricultural Assn. Vasek's contest plot, grown on his place three miles south and four miles west of Friona, averaged 122.46 bushels of corn per acre.

A relative newcomer to Hereford, Vasek first planted corn under irrigation on his place two miles north of the city in 1952. He moved here in 1951 from a 540-acre dryland farm near Stamford, now operates that place plus 800-irrigated acres in Deaf Smith and Parmer Counties.

During the past season, Vasek planted his largest corn acreage to date, a 53-acre plot, having previously farmed only small patches of the yellow grain. His total yield from the field was over 300,000 pounds of shelled corn, worth \$1.40 per bushel (56 pounds) on the local cash grain market.

"I planted eight sacks of DeKalb 1002 hybrid corn on the field on the 27th of April and sidedressed with 105 pounds of anhydrous ammonia fertilizer a month later. The field had been pre-watered and was watered four times during the growing season. No rain fell from planting to harvest on Oct. 20, but hail once beat up the plants some. We cultivated just once," Vasek said of his experience this year in corn production.

CAA Man Lauds Airport Plan

'No Frills' Field Wins Approval Of Federal Man

"You are on the right track," said R. B. Allen, CAA airport engineer, who reviewed plans for Hereford's proposed "airport without frills" here Wednesday morning.

Allen, in a meeting with city and county representatives, was reported to have expressed hearty approval of "getting enough land for future expansion, building one runway and holding off on a terminal building and other frills until such a time as traffic on the field actually justified the expense."

Plans, as outlined by city and county officials, calling for a \$52,000 county bond issue and a \$70,000 city bond issue, were given for matching federal money, tentative approval by Mr. Allen, who came here from Ft. Worth at the request of the two governing bodies. Attending the meeting were Judge Homer Henslee, Commissioner. Otto Massey, Mayor Henry Sears and Dub Reeves, chairman of the civic airport committee.

Approves Of "Frill" Cutting

The group pointed out to Mr. Allen that plans called for spending only that portion of the bond money which was needed for a basic airport, namely "sufficient land for future expansion" and a runway with taxi strips.

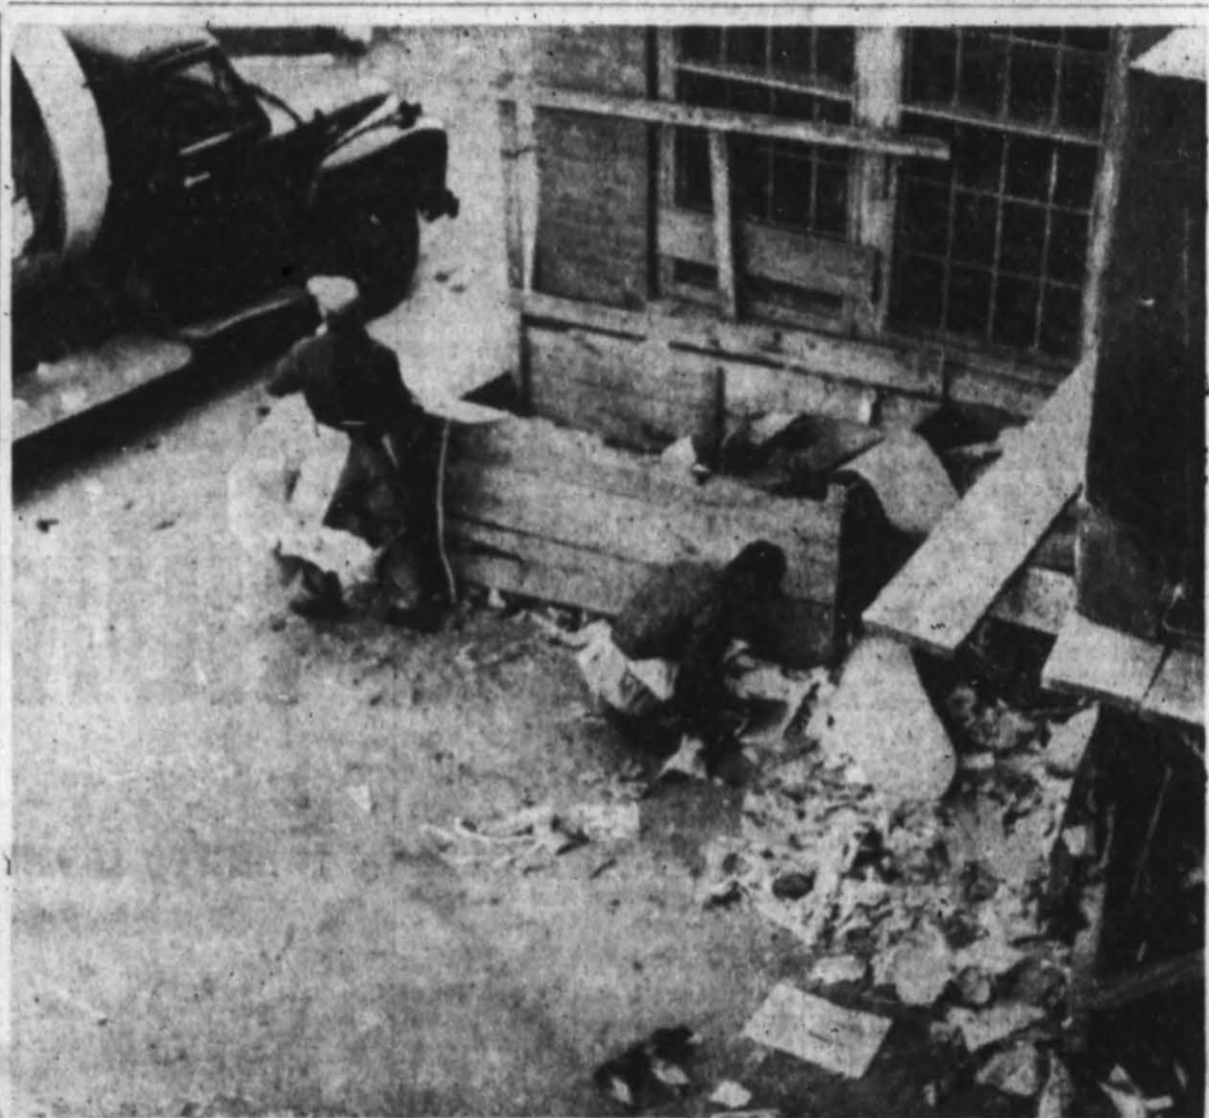

"We found Mr. Allen most agreeable," said Mayor Sears. "I am especially happy in view of the fact that CAA goes along with the idea of eliminating frills and unnecessary buildings. These things can be added when, and if, the airport traffic justifies or demands them. What we need now is a basic secondary airport, and it looks good."

Judge Henslee, like Mayor Sears, reported the CAA representative to be acceptable to the airport program on a practical basis.

Can Farm Land

"We also got the answer to several questions," said Judge Henslee. "Mr. Allen said that we definitely could farm the land after the airport goes into operation. He said that matching federal funds used to purchase any land would be available soon enough to close the deal on a 30-day basis, and that CAA felt that a secondary strip was the practical thing for Hereford and Deaf Smith County

CLEANUP IS COMING—This littered alley, photographed as City Garbage Collectors attempted to cleanup the mess behind the brand offices on a regular collection, is typical of alley scenes in the Hereford business area. Present collection methods have been judged ineffective to cope with the litter that

overflows from trash containers, and the City Commission has approved substitution of a new system which will replace the old containers with portable, metal boxes. The change-over, plus twice-a-week collection from homes, is due to start in about 90 days. (Staff-Photo)

Police Schedule Changed; Trash, Paving Work Due

In a lengthy session on Monday night, the City Commission took some steps to improve city services and made plans for the start of a paving program next summer. The commissioners also found themselves tied up in consideration of the Knotty Park Ave. zoning problems.

After hearing recommendations from City Manager Dudley Bayne for changes in the hours schedule for policemen, the board members approved the hiring of an additional patrolman and radio dispatcher and then proposed more rapid upgrading of the pay schedule for policemen as a means of attracting and keeping "good men on the force."

Cut Patrolmen's Hours

The police schedule changes were prompted by the loss recently of two patrolmen who left for other jobs with "long hours" as their principal complaint. As a result of the new changes, the work week for patrolmen will be cut from 72 to 52 hours. Base starting pay is to remain at \$250, the commission decided, with a provision for more rapid salary increases as officers indicate their ability to perform the duties of the force.

The city trash collection system, under fire from many businessmen and home owners for some months, is to get a near complete revamping. To improve services in the downtown area, the commission authorized the city manager to order "Dumpster Dumpster" management. Ninety-day-delivery has been promised on this equipment, which will cut the trash collection crews in the business section to one truck and operator. Trash will be deposited in metal containers that are to be regularly emptied and returned.

Twice Weekly Pickups

Garbage collection crews relieved of duty in the business area are to be assigned to the residential areas. "The additional crew will enable us to give twice-a-week pickup service to homes," said Bayne. No change in present home collection fees is anticipated, but business service charges are to be adjusted to reflect actual costs. "Some fees for businesses will go up, of course," Bayne said, "but some will be adjusted down and some will undoubtedly remain the same."

Acting on a proposal by Mayor Henry Sears to begin a paving program in the city early next spring, the board members approved a survey of actual paving needs.

1,453 - Acre Boost In Cotton Acreage

An increase of 1,453.5 acres for cotton production is granted in the Department of Agriculture's 1957 Deaf-Smith County cotton allotment. The individual allotments, mailed Nov. 30 to the county's growers, total 11,448.9, compared to the 9,995.4 acres allowed in 1956. The 1957 allotment includes a

basic acreage of 10,419.9 acres for old growers, plus 529 acres designated as "reserve" in the state Agricultural Stabilization and Conservation committee formula, and 500 acres for hardship (small farm) cases.

Rites On Tuesday For Mrs. Tynes; Was Civic Leader

Funeral services were conducted here at the First Christian Church on Tuesday afternoon for Mrs. Caroline Averá Tynes, pioneer Deaf Smith County club woman and civic leader. Mrs. Tynes died in the hospital here on Sunday, Dec. 2, at 12:05 a.m. after an illness of several months.

The final rites were conducted by the Rev. Roy Ford of Albuquerque, N. M., and Dr. George Cuthrell, pastor. Interment followed in West Park Cemetery under the direction of Gilliland Funeral Home.

Pallbearers for the service were Jim Kirby, Bill Phillips, Stanford Knox, Homer Brumley, Paul Conaway and George Heard.

'Christmas Card' Project Deadline Ten Days Ahead

Families of Deaf Smith County have just 10 days remaining to make their contributions to the Project Christmas Card being sponsored here to provide furnishings for the new children's wing of the County hospital. Deposits will be received at both Hereford banks until Dec. 15 with all monies to be deposited in the designated "Christmas Card" accounts.

The 4,148 families living in this county have been asked to give the money usually spent for Christmas cards and postage sent to friends in Hereford to the accounts for furnishing the hospital wing. Goal for the project has been set at \$8,000. A spokesman of the sponsoring group has stated that any amount will be acceptable, whether \$1 or \$100.

Names of all contributors to the fund will be published in the Hereford Brand, along with greetings to the community. The amounts of single deposits will not be made public.

The project has been publicized and supported by the 115 members of the following Hereford clubs: The Child Study Club, the Young Mothers Club, El Nino Club, La Madre Mia Club, Les Meres Club and the Women's Medical Auxiliary of Hereford. Other organizations have also pledged their support to the community project.

Shrine Ceremonial To Honor Patton

Downtown Parade Will Highlight Group Activities

Plans were complete today for Hereford's first Shrine ceremonial, according to Kenneth Kohler, illustrious Potentate of Khiva Temple, Amarillo, who said that a total of 33 novices are expected to take part in the event. Assisting the visiting Shriners will be more than 200 members from Hereford and adjoining counties.

Named in honor of John Patton, the Hereford ceremonial will begin at noon Saturday, Dec. 8, and will feature a special program for ladies at Hotel Jim Hill while the ceremonial is in progress at the new Deaf Smith County Bull Barn.

- 12:00 - 2:00 p.m. — Registration of novices in hotel lobby. 1:30-2:30 — K. O. B. Hereford Man Has Record As Expert Masonic Teacher

Because of his outstanding contribution to Masonry, Shriners over a six-county area have dedicated Hereford's first Shrine ceremonial to John Patton, long time Hereford resident and Masonic leader for the past 20 years.

Patton joined the Masons in 1936 and, since that time, has been active in many phases of the work. He progressed rapidly in Masonry and in 1943 was elected Chapter Commander and Shrine, Masonry's highest order. In 1948, Patton went to El Paso to add the Consistory to his list.

During his 20 years of active service, Patton has filled all of the offices in the Hereford-Masonic lodge, having served as Worshipful Master of the lodge in 1943-44. In addition, he has three times filled the office of Worthy Patron in the Order of Eastern Star: 1949-50, 1951-52 and 1955-56. He has been Chapter "Dad" of the Demolays for six years, and is currently on the advisory board for the Rainbow organization.

Work As A Teacher Patton's most outstanding contribution to Masonry in this area possibly rests in his work as a teacher of unwritten work. "There is no way in the world to tell how many candidates I have instructed," says John with a grin. "I would estimate more than 100." Members of the Hereford (Continued On Page 2)

Red Cross Seeks Funds To Relieve Hungarian People

The county Red Cross chapter this week launched a drive to raise \$326 as its share of the American Red Cross goal of five million dollars for Hungarian relief, said Kenneth Coker, chapter information chairman.

Coker said that donations may be mailed to the Red Cross office here, Box 137, Hereford, or will be picked-up at individual's homes if a telephone request is received by ARC Secretary Corinne Neely.

Chapter President Bill Decker, in citing the urgency of the emergency fund drive, said that the present plight of thousands of Hungarians is considered a vote against Russian Communist oppression. The money raised here in the drive, scheduled to end on Saturday, will be used to provide food, clothing, medicine and other emergency relief supplies in Hungary and for Hungarian refugees in Austria, said Coker. He pointed out that the Red Cross has already been active in providing such supplies there, having first flown shipments in to the oppressed people on Oct. 28, after receiving a request for help just one day earlier.

Services Pending For Mrs. Jones; A Church Leader

Mrs. Minnie B. Jones, pioneer Hereford church woman, died unexpectedly at the home of Mrs. L. H. Spang.

Funeral services were pending the arrival of her daughters who were expected to arrive by plane from Minneapolis late Wednesday afternoon.

Survivors include two daughters, Mrs. Claudia Yantis and Mrs. Martha Peterson, both of Minneapolis; and one granddaughter, Martha Lee Peterson.

ford lodge disagree, however, with most of them setting the figure at 200, and others going as high as 300. To say the least, he has continuously had from one to four students each day for a period of more than 18 years.

His accuracy and tolerance with candidates has become recognized on an area-wide basis and, Patton, who enjoys the work, has even constructed a special "Masonry Room" in his offices on Main Street. The floor has an inlaid Masonic emblem in the tile and is complete with coffee urn, cups, sugar and cream to make the sessions more comfortable.

#### Three Interests

"Dad is interested in three things: 'Fishing, golf and teaching Masonry,'" says his son Bill, who is a novice in the coming Shrine ceremonial.

While Patton has contributed untold hours to the cause of Masonry, he has also found time to devote to his community. He was born in Breckenridge, Tex., Feb. 16, 1891, and moved to the Plains with his family in 1895. The Pattons moved to Hereford in 1900, and John has since that time spent most of his life in and around Hereford.

He attended Hereford public schools and later the old Panhandle Christian College which operated here. He also attended Polytechnic College in Fort Worth.

"Mostly, I took football and baseball," John recalls with a chuckle. He has always been an active sportsman and widely interested in all sports, chiefly reflected these days through his fishing, hunting and golf activities.

#### Was A Cattleman

He operated a ranch near Hereford for several years, starting in 1915, and it was during this period that Virginia Lisle of Winchester, Ky., agreed in 1917, to become Mrs. John Patton.

"When I started out, I went to work for Rockwell Bros. lumber firm for a few months," recalls Patton. On June 1, 1926, he purchased his present insurance business, however, and this has been his chief occupation for the past 30 years.

Another of Patton's services to the community was in the volunteer fire department. He recalls that he started when he was 15 years of age and "not old enough to be listed as a member." Following the death of Dow Mercer, Patton was elected Fire Chief in 1937, and held the office until 1948, when he retired to become an associate member.

#### Record As Rotarian

He has also been active in local civic clubs, serving as president of the Hereford Lions Club in 1937-38. He was a charter member of the Hereford Rotary Club and served as its first president in 1945. Patton is proud of the fact that he maintains today a record of "11 years perfect attendance in the Rotary Club."

He recalls the first golf course in the community, when the players made their shots on "sand greens." He has also served as secretary and as president of the Hereford Golf Club several times.

"I appreciate the honor of this Shrine ceremonial," says Patton. "I doubt if I deserve it, but I made it a rule to never turn down a job in Masonry and this time, like the rest, I know it is for a wonderful cause."

A nation wide poll of 500 fire chiefs shows that parents, rather than children, are more responsible for the billion dollar damages from fires in homes in the U. S. each year.

discussing the furnishing of the new hospital wing with a group of friends, Mrs. Willis circulated a petition, outlining the plan here in the Hereford area. Several thousand residents pledged their support by signing the petition, and the plan has gained momentum since its earliest inception.

The popular television show, "Texas in Review" has been contacted concerning statewide publicity of the idea, and its producers have promised further investigation of the possibility of using "Project Christmas Card," along with other highlights of Hereford, as a topic on the show.

#### Ask Only 'Card' Money

Some merchants in Hereford also expressed a desire to mark their business' Christmas greetings by a contribution to the project instead of the usual gifts to customers here.

Sponsors of the plan emphasize that contributions to the civic project are intended only to include money usually spent for Christmas cards in Hereford and should not interfere in any way with out-of-town greetings.

initiated in the ceremony here. The parade will travel down Fifth to Main, south to Highway 60, and back to the origin at Third and Sampson. Following the parade, Shriners will depart for the new coliseum, where the initiation ceremony will be held.

A local committee, composed of Dick Ross, Dub Reeves, J. B. Nolan, Bill Hromas and J. K. Baker, reported Wednesday that the Hereford ceremony is expected to bid as one of the largest ever held outside of Amarillo.

"Shriners who attend the ceremony will present their 1956 cards to be eligible for activities," said Dick Ross. He also pointed out that all Shrine members will be expected to wear their fez.

The ceremonial will be open to Shriners only, while the barbecue and dance will be open to Shriners and their ladies.

Included in the Amarillo delegation will be numerous Khiva Shrine leaders, according to the committee, which reported acceptances from Kenneth Kohler, potentate; Charles Sherrod, chief rabban; H. C. Winburn, assistant rabban; Mel Benesch, high priest and prophet; Sam Ross, Oriental guide; Robert C. Neely, treasurer; Bill Brown, recorder; Mark Galloway, past potentate and membership chairman. Many other Shrine leaders from Khiva are also expected to be on hand for the local ceremonial.

Frost guards were also announced as follows: Tom Alderson, S. H. Slagle, Troy Moore, Lyle Blanton, J. W. Robinson and Ben Childers.

Taking part in the John Patton ceremonial will be Shrine members and novices from Deaf Smith, Castro, Parmer, Oldham, Lamb and Bailey counties.

The City of Hereford proposes, in turn, to construct the landing strip and taxi ways, not to exceed \$70,000 which would likewise be matched with federal funds. Operation of the airport, when completed, would be handled by the City of Hereford and the land, should it ever cease to be used as an airport, would revert back to Deaf Smith County and become county property.

pavement required to bring present arterial streets into satisfactory condition. Preliminary plans advanced in the meeting would provide for repaving 5,280 feet of Ave. K, from Park to 15th, with the street to be widened to 50 feet as necessary due to expansion of that area and to provide adequate road service to the new Aikman School.

Other paving proposed includes 1,043 feet in the 400 block of Ave. I, 300 feet on Grand between Ave. K and Star; 1,000 feet on 13th between Ave. K and I, 1,000 feet on 14th between K and I; 300 feet on McKinley in the 100 block, and 2,600 feet on Plains from Center St. to 8 Mile Ave.

The commissioners agreed to honor "block petitions" on a first-come - first - served basis as in the past in scheduling the pavement program. "But I doubt," said Mayor Sears, that a volunteer basis will prove adequate for the entire project."

#### Park Ave. Problem

Turning to consideration of a rezoning request from the Wesley Methodist Church, which would affect a change from C classification to D retail business classification for property owned in the 900 block of Park by the church congregation, the board tabled action on the request. An error in publication of the zoning commission hearing on the classification proposal, it later developed, had served to complicate the matter.

Bayne said Tuesday that the church members had asked for a change to D Restricted classification. The zoning commission had honored the request for reclassification, but its written recommendation specified D rather than the requested D Restricted zoning.

Attending the commission meeting were the mayor and Commissioners Raylan Evans, Neil Cooper Troy Moore and Dr. R. R. Wills, City Attorney Earnest Langley and City Manager Bayne.

did his grain sorghum, but the greater gross per acre (over \$30 more than for an equal yield of grain sorghum) is a factor he considered in deciding to plant 50 acres of corn again in 1957.

This was the second year that a Hereford man has won the state five-acre corn contest. William Pittner took the honor in 1949 with a 115.6 bushel per acre yield.

Grant Hanna, DeKalb representative in Hereford, said that Vasek will receive a large trophy for his achievement, and Mrs. Vasek will be presented an eight-place sterling silver setting. The awards will

be presented during a banquet for state-winners to be staged soon by DeKalb. Hanna will accompany Mr. and Mrs. Vasek to the special program.

Other outstanding production records reported in the area this year include Jay Boston's 8,055 pounds of hybrid grain sorghum per acre, Posey Burrell's 3.6 bales of cotton per acre, and Bill Kendall's 1,000 graded sacks of onions per acre.

### Transmission Is Missin'; Two Collision Reports

Two accidents and a "missing transmission" report were investigated by Hereford Police Saturday through Monday. One man received minor injuries in one of the two collisions, both of which occurred on Highway 60.

Only a trail of oil marked the fact that a new pickup on the Charlie Seeds Motor Co. lot had been altered. Closer investigation Monday afternoon showed that someone had stolen the truck's

transmission. "We're investigating," said Chief of Police Leo Box.

In an accident near midday on Saturday, Charlie William Martinez, 26, 608 E. 3rd, was driving a late model two-door sedan at Highway 60 and Jackson when it was struck by a car driven by Pedro V. Avila, 23, of the Labor Camp. Both drivers received tickets, Martinez for failure to grant right of way, Avila for exceeding speed and for no drivers license. Total damage was estimated at over \$500.

On Sunday afternoon at the Dalry Rd. intersection, C. B. Thomas, 72, Hereford, received cuts and bruises on the left side of his head when his pickup collided with a truck driven by Troy Ray Lance, 37, of Amherst. Damage to Thomas' vehicle was estimated at \$400. The truck damage estimate was set at \$135. No ticket was issued.

**Rev. Baldwin Is Out for Morning Church Services**

By VERADELLE ANDREWS

Mr. and Mrs. Kenneth Cox, Virginia, Lynn and Larry left Wednesday afternoon for Watonga, Okla., to spend the Thanksgiving holidays with Mr. Cox's mother, Mrs. H.H. Cox and other relatives there. On Sunday night, they returned home.

Robert Baldwin of Texas Tech and Darold Baldwin of West Texas State College were visiting over the holidays with the B. H. Baldwins. Darold went to PETERSBURG Sunday to the home of Miss Anita Seagler where he was honored with a birthday dinner. Both the boys returned to college Sunday.

Rev. and Mrs. William Shackelford of Canyon were visitors at church Sunday, as Rev. Shackelford delivered the messages both Sunday morning and evening. The Shackelfords are students at W.T. in Canyon. Rev. B. H. Baldwin was able to attend the Sunday morning service but not the night service as he is still unable to be out at night.

Mr. and Mrs. D. P. Schmidt of Clinton, Okla., came Friday to spend the weekend in the home of their children, the Herb Schmidts, Leonard Schmidts, and the Earnest Harders. On Sunday, all the relatives and the James Dobbs met at the Herb Schmidt home for dinner. Mr. and Mrs. Schmidt returned to their home on Monday.

**Illness Is Fatal To Hollis Galley, Former Resident**

Hollis Galley, brother of Lester and Walter Galley; long time resident of this area, passed away in Grinnell, Iowa, Tuesday morning, after an extended illness.

Born July 8, 1891, in Moravia, Iowa, he was the son of Mrs.

Fleeda Galley of this city and the late C. P. Galley, who resided here from 1908 until his death a number of years ago.

Mr. Galley and Isabel Rice were married in 1914, in Hereford, and they made their home here for about 10 years, after which they moved to Newton, Kan., where Mrs. Galley passed away.

**Did Missionary Work**

He was a member of the Assembly of God Church in Grinnell. He did missionary work in Peru, South America, for two years. Other than his missionary duties, he operated a linotype machine for the print shop there where the mission station printed tracts and other gospel literature.

He was employed at a print shop in Montezuma, Iowa, for two years following his return from South America, after which he was employed with the Iowa Light and Power Co., of Grinnell until the time of his death.

**Survivors**

While living in Montezuma, he was remarried, and to this union,

there were born three sons and a daughter.

Survivors include the children of his first marriage, Townsend Galley of Rochester, N. Y., Margaret Holt of Battle Creek, Mich., and Myron Galley, also of Battle Creek; children of the last marriage, Denise, Dennis, Danny and Dale Galley; six grandchildren; his mother, Mrs. Fleeda Galley; three brothers, Lester Galley of Hereford, Cyrus Galley of Moline, Ill., and Walter Galley of Center, Colo.

### By ROGER GREENE

WASHINGTON — America's  
stake in the ominous struggle for  
the Middle East is bigger and  
more vital than appears at first  
glance.

Fabulous deposits of oil and the  
Suez Canal are the obvious prizes.  
Both of them loom with enormous  
magnitude.

American investors have hun-  
dreds of millions of dollars involv-  
ed in such oil-rich Arab states as  
Saudi Arabia and Kuwait. Britain  
regards the Suez Canal as an indis-  
pensable life-line to her empire.

Other nations also have a par-  
amount interest in keeping the ca-  
nal open to shipping at all times,  
without depending upon the whims  
of Egyptian Premier Nasser.

Vital Bases  
But to American military author-  
ities, the critical problems of Ara-  
bian oil and unrestricted transit  
through the Suez are rivaled if  
not surpassed by the potential  
threat to this country's outer per-  
imeter of defenses against Soviet  
Russia.

At the moment, the threat is ve-  
ry acute in the Middle East. It  
could spread to other quarters of  
the globe.

Fed by Egypt's open defiance of  
the Western Powers, the flames of  
anti-Western Arab nationalism al-  
so have been whipped to new heights  
of fury during the Suez crisis.

The result, as viewed by Penta-  
gon officials, has been an upsurge  
of uncertainty as to the future of  
U. S. airbases in the North African  
trouble zone.

American bases in French Mo-  
rocco and Libya, built on a "crash"  
basis at a cost running into scores  
of millions of dollars, depend for  
their existence — to a large de-  
gree — on the temper of the Arab  
world whose land they occupy.

Delicate Problem  
If the United States sided with  
France, for example, in the dispute  
with Egypt over the Suez Canal,  
Moroccans embittered by French  
"colonialism" would obviously be  
hostile to the continued presence  
of U. S. airbases in that Arab land.

Therein, according to diplomatic  
authorities, lies one of the behin-  
d-the-scenes reasons for this coun-  
try's extremely delicate maneu-  
vering in the East vs. West flareup  
in the Middle East.

Major U. S. airbases in the Medi-  
terranean area include four in  
French Morocco — at Benguerir,  
Nouasseur, Sidi Slimane and Bou-  
harradj — and one in Tripoli, Libya.

In addition, we have four bases  
in Spain — at Madrid, Zaragoza,  
San Pablo and Moron — which pre-  
sumably would figure in any ma-  
jor conflict in the Mediterranean a-  
rea involving the United States.

Security Tightened  
Pentagon officials declined to  
give any estimate of U. S. air  
strength, either in planes or man-  
power, at the bases. Security on  
such data has been tightened con-  
siderably in the last few weeks.

However, an Air Force spokes-  
man emphasized that planes using  
these bases — including giant inter-  
continental bombers equipped with  
atomic weapons — aren't kept on  
the ground like sitting ducks.

Constantly shifted, the planes  
are kept ready round-the-clock

by Air Force "security police."  
They would be used chiefly as stag-

youngest soloist to play a major  
concert with the U. S. Military  
Academy Band at West Point.

She has appeared at New York  
Town Hall, and has been on rad-  
io and TV. On her "Tape of the  
Month" Linda plays works by Ma-  
zart, Bach, Chopin, Scarlatti and  
Caracas. At the New York Big  
Fidelity Show the Babits tape out-  
sold all major symphony orche-  
stras 3 to 1, according to a spoke-  
man for the tape club.

Linda, who possesses that sou-  
ful look peculiar to gifted mus-  
icians, says that anyone who think  
she has talent should stick to the  
guns. If your mother and father  
do not encourage you, keep trying  
anyway. Finally you may convince  
them. She explains:

"I was very lucky that my mo-  
ther not only discovered my talent  
but encouraged it. If parents can-  
not afford lessons there are man-  
y organizations that will help get  
you started."

Linda reminds us too that any-  
thing worthwhile is worth fight-  
ing for, and suggests that after school  
jobs may help pay for the les-  
sons. Says she:

"The important thing is to keep  
at it. Only practice can bring per-  
fection. Whatever happens do not  
let people who do not understand  
music give you wrong advice."

If a tape recorder comes your  
way, play good tapes on it — those  
that help you follow the pattern of  
your own talent. Record the best  
from your own violin, piano, or  
harp and don't be afraid to or-  
cize your own work. Someday you  
will find a tape that you won't  
erase, and thereby, perhaps, will  
hang a story.

"FARMERS AT THE CROSSROADS"

# How Well Off Is The Farmer

**EDITOR'S NOTE:** This is the sixth in a series of installments presenting the views of the Secretary of Agriculture on farm problems and needs, and their solutions. The views expressed or implied are not necessarily those of The Brand or its editors.

By EZRA TAFT BENSON  
Since I came to the Department of Agriculture some among us have put in a good bit of overtime trying to convince farmers that they are in a depression. Nevertheless, farmers continue to forge ahead, year after year. There are debt difficulties, of course, particularly for young men who started at the peak of prices and incurred the heavy debts usually assumed in starting any business. Farm debts in general have remained at a moderate level. Currently they equal 11 per cent of total assets. In 1940 they were 19 per cent of assets and in 1930 they were 21 per cent. That is, the farmer owes only about half what he owed a quarter of a century ago in relation to his total worth.

Year after year farmers improve their position. Ninety five per cent of farms now are electric compared with only 11 per cent 20 years ago. Education, health services, modern kitchen and other facilities are far better. Road improvement has reduced previous farm isolation. The drudgery of the farm has largely disappeared. Improvement has occurred in every major agricultural area. These were not gifts. They were made out of realized and anticipated farm income.

**FARM VERSUS CITY**  
Since 1910-14 farmers have improved their net income position 6 per cent more than have city dwellers. I often wish some of our political agitators, our forensic "farmers," could get better acquainted with some of these facts.

Big business should be especially eager to have a prospering agriculture. In 1955, farmers owned 4,800,000 tractors as compared with 1,500,000 in 1940; 4,500,000 automobiles; 2,800,000 trucks; 840,000 milking machines; 960,000 combines; 660,000 mechanical cotton pickers.

But each of us knows that farmers have a big stake in urban prosperity, just as city people have a big stake in farm prosperity. Had it not been for urban prosperity, the agricultural adjustment to the peacetime conditions would have been far more painful. Urban prosperity provides strong markets for our farm products and job opportunities for those rural people who want them.

The truth is that farm and non-farm segments of the economy are dependent upon each other, in much the same manner as the members of the human body. An ailment in any member may impair the functioning of the others, but always the strength of the other members helps assure its own recovery.

**MIGRATION TO CITIES**  
Some 8,300,000 persons moved from farms in the period 1940-55. As agriculture grows more efficient, it requires fewer people. As

industry expands, it creates more jobs in cities. The income of farm people would be smaller if all farm workers had stayed on the farms. Our people in agriculture need both a bigger income pie and bigger individual pieces — not merely the same pie with smaller pieces. Moreover the right to farm or not to farm belongs to the individual in our free country.

Today's ailments are lodged in various sets of problems which can not be treated with the same remedies. What does a New York dairyman have in common with a Florida citrus grower? A Montana wheat raiser with a Virginia orchardist? A 15,000 acre Wyoming rancher with a 15 acre Long Island gardener? What, indeed, does the "little farmer" with less than \$1,000 a year cash income have in common with the Mississippi plantation owner producing a million dollars' worth of cotton?

During the quarter century that manpower employed on farms sharply declined and the nation's population increased by 42,000,000 people, agriculture boosted its output at a rate of 2 percent per year — a rate exceeding the population growth of the United States by one-half percent.

It would be a serious error to believe that the steep rise in the productivity per man-hour in agriculture is anywhere near an end. On the contrary, the forces that made our agriculture so breathtakingly dynamic give assurance that they will keep it that way.

## Funeral Services For C. Runton, Former Resident

Funeral services for C. Runton, a former resident of the Hereford area and the father of Mrs. Ervin Robinson Sr., of Hereford, were conducted on Sunday, Dec. 2, at the Highway Baptist Church in Heavener, Okla.

Mr. Runton died on Wednesday, Nov. 28, after an extended illness.

Mr. Runton moved to Hereford on July 4, 1918, from Oklahoma and lived here until 1933 when he moved back to Heavener. He was engaged in farming and stock raising in this area.

He had served as an Indian Agent in Oklahoma before making the move to Texas, being a Choctaw Indian himself. He was born in the Sugarloaf Community, Indian Territory, on Dec. 24, 1865.

Survivors include his wife, Martha; three sons, Wilson of Monroe, Burton of Spokane and James of Vinita; four daughters, Mrs. Bernice McEntire of Amarillo, Mrs. Bessie Womack of Ukiah, Calif., Mrs. Flora Robinson of Hereford and Mrs. Pearl Milam of Waco; 20 grandchildren, and 20 great grandchildren.

Grandchildren living in Hereford are Ervin Robinson Jr., Mrs. Dick Gholson and Garland Robinson. Mr. and Mrs. Ervin Robinson Sr., and Garland attended the services in Heavener.

Mr. and Mrs. E. E. Fridley and Mr. and Mrs. John N. Jacobsen Jr., spent a Thanksgiving holiday in El Paso, and at Truth or Consequences and Albuquerque, N.M.

# Chocolate Fudge For Holiday

By CECILY BROWNSTONE  
Associated Press Food Editor

If creamy, dreamy chocolate fudge is one of the sweets your teen-agers like to have around the house for serving at holiday time, they may wish to try this recipe.

For gifts, turn batches of the fudge into Christmas-tree cake pans and decorate with candy. Then wrap the Christmas tree fudge in transparent film. Or put the fudge in a box and wrap it in gift paper of Christmas tree design; or wrap the box with silver paper and make a Christmas tree design on the paper using green star seals superimposed on round white seals.

**CHRISTMAS TREE FUDGE**  
Ingredients: 2 1/4 cups sugar, 3/4 cup undiluted evaporated milk, 1/3 cup light corn syrup, 2 tablespoons butter or margarine, 2 packages (6 ounces each) semisweet chocolate pieces, 1 teaspoon vanilla, 1 cup chopped nuts.

Method: Put sugar, undiluted evaporated milk, corn syrup and butter in saucepan. Bring to a boil, stirring constantly. Cook over moderate heat for 5 minutes, stirring constantly. Remove from heat. Add semi-sweet chocolate and vanilla; stir until smooth. Stir in nuts. Turn into Christmas-tree cake pan or square cake pan (8 by 8 by 2 inches). Chill until firm. Press decorations into fudge using thin strips of gum drops, candy corn, miniature and large marshmallows, jelly beans, gum drop halves. Or trim with butter frosting put through pastry tube and stud with red cinnamon candies. Makes 2 1/4 pounds.

Note: Raisins or shredded coconut may be used instead of the nuts.

**PANTRY SHELF GIFTS**  
Put pantry shelf foods together in interesting combinations and you'll have some gifts that food-loving friends will enjoy. Here are six ideas.

1. Calling all Salad Makers — A small bottle of olive oil and one of wine vinegar with a tiny jar of Dijon mustard.

2. For Small Fry — A small package of graham crackers, a small jar of peanut butter, a package of semi-sweet chocolate pieces, a tiny box of raisins, a few candied cherries wrapped in transparent film. Add directions: Spread crackers with peanut butter; make a face with chocolate and raisins for eyes and nose, pieces of cherry for mouth.

3. For Epicures — A package

CREAMY CHOCOLATE FUDGE CHRISTMAS TREES with festive candy trimmings are ideal for gifts.

of thin spaghetti, a fine brand of canned minced clams, a head of garlic, a small bottle of olive oil. Add directions: Cook spaghetti according to package directions and drain. Meanwhile heat some crushed garlic cloves with olive oil; add clams and their juice; reheat. Ladle spaghetti into soup bowls; pour clam mixture, with juice, over. Serve very hot with dessert spoons and supper forks.

4. For Dessert Devotees — A package of white or yellow cake mix, a can of sliced pineapple and a bottle of maraschino cherries plus your favorite recipe for pineapple upsidedown cake.

5. For a Neighbor — A half-pound package of cream cheese, a small can of flat anchovies, a lemon and a box of crackers. Add directions: Mash cream cheese with enough drained anchovies to suit taste; season with a little lemon juice; add grated red onion if you like.

6. For Quick Cooks — A large can of a fine brand of peach halves and a jar of mincemeat. Add directions: Drain peaches and fill cavities with mincemeat; heat in oven or under broiler. Serve with whipped cream.

coast to coast highway, I'm quite sure anyone driving this highway would not pick Hereford to locate new industries after viewing this dump pile. Think it over, Voters!

Mrs. Lillie White

### LETTERS TO THE EDITOR

Dear Sir:

Regarding an airport of Hereford! If the city of Hereford has extra money on hand to spend, why not spend it on building an incinerator to replace the unsightly fly and rat breeding present dump pile, or at least change the location of same. Pride and Progress are two words being used in promoting this new airport. The present dump grounds for the garbage of Hereford doesn't indicate much pride or progress on the part of the City of Hereford. How many other towns in the Panhandle have their garbage disposal such as Hereford has, located on the edge of town and right in sight of a

A.B.C. REPORTS - FACTS AS A BASIC MEASURE OF ADVERTISING VALUE

By Jimmie Gillentine

Did you ever stop to think that the American people are undergoing one of the greatest social, economic and political upheavals in the nation's history? No longer can you figure that a given action will result in a given manner. This is true largely because a lot of things are different.

Foremost contributor to this situation is the automobile. In revolutionizing our methods of travel and communication, it has changed a lot of other things — even the method of courtship. These days an automobile is generally accepted as a necessity in our way of life. Most people have one and, consequently, the automobile brought with it time payments, financing methods and complete new business classifications to every small village and hamlet across the nation.

When people started buying automobiles, they also started screaming for better roads. This one factor alone has done more to change American politics than possibly any other single thing in the history of our nation. It is, in fact, the determining wedge which has consistently led to stronger and stronger federal controls. We have come to the point where we beseech and plead for highways, along with crop subsidies, hospital aids, school aids, airports and other forms of federal money, which is really our own. Sometimes we even forget that WE are the government.

This point was aired out recently in the Readers' Digest. However, they had no immediate and sensible solution. It all boils down to the fact that we have no choice about paying the money and, like most other communities, we would like to get part of it back. If we are going to pay it, we would like to have some of the benefits here in Deaf Smith County instead of

spending all of it in Florida, California or New York. The only solution will be a general uprising on the part of the people — and that isn't likely. Not in the near future, at least.

At the same time, the automobile has done a lot for the country. It has its good points along with the bad ones. Like most other things, the outcome depends a lot upon how the people use it. Such will be the history of the atom bomb and atomic power: it can enrich or it can destroy. While the automobile has claimed more lives than all of the wars in history, it has also been an instrument of mercy and of convenience. Certainly, not one of us would want to get along without it.

I remember visiting my granddad when I was a little shaver. He lived in Eldorado, Okla., and they were trying to get a paved road through to Quanah. My grandfather was against it and sometimes he got pretty vexed. "If you build that paved road, they will put a hamburger stand where the First National Bank now stands," he shouted — and pointed across the street. The bond issue didn't carry then, but the last time I was through Eldorado I found out that he was wrong. The old bank building is now occupied by a help-selvy laundry — not a hamburger stand!

The way I see it, my granddad was right — but he was also wrong. You can't hold progress back forever, so why not move in and try to keep up with the growth? Out around Taos, N. M., many of the Indians still live in primitive huts on the reservation, but they are fast losing the young people to civilization. A few more generations and the primitive ways will have swallowed up most of the race. The newer generations want electric lights, refrigerators, washing machines and toasters. They'll get them, too, even if they have to move into the cities, as many of them are doing today.

All of which brings up the vast migration of people from the farms into the towns and cities. The trend is nationwide. Out in this country, the rural areas were never densely settled — and you don't notice it so much chiefly because it doesn't hurt so much to lose something you never had. However, it is really rough downstate. I was quail hunting over the past weekend in Collingsworth and in Childress Counties — and it is alarming how many vacant farm houses you see. They are rotting, falling apart and generally disintegrating.

The farm program and the tractor are usually cited as the chief cause of this migration to the city. The tractor replaced manpower and horsepower. The farm program made the property owner split with the tenant, so the owner just started farming his own land. They both came along at just the right time to be most effective.

As late as the 1950 census, Hereford counted 5,208, while Deaf Smith County totaled 9,111, or 57.2 urban population. Irrigation farming, due to its exacting requirements, indicates that this percentage will probably hold. However, the percentage is falling much lower in many other counties. Truly, it is something to think about a long time, especially in view of the fact that the national production figure is higher than ever before — and the farmer as a group is more prosperous than ever before.

What about the urban centers? A town, to hold its own, must stay on the ball. Sooner or later, it must have jobs and industry. The merchants cannot survive selling to themselves — and with the diminishing farm population, it is fast becoming obvious that their market will be in town more than in the rural areas. Even merchandising is becoming more extensive and more costly. It takes a much more money to put in a competitive food store, dry goods store, equipment company or automobile firm than many of these firms were sooner or later become incorporated with stock sales to the public. Or maybe — the whole system will change? Who knows?

Things are vastly different from what they were 50 years ago; even 25 years, for that matter. It is only natural to figure that they will also be vastly different 50 years from now. About the only thing folks can do is keep in the swim. If you don't, someone will do it for you. One thing is for sure, a town, a community or private business firm seldom stands still. They either go forward or backward.

## County Delegate To TSTA Meeting Aids In Session

The Deaf Smith County Unit of the Texas State Teachers Assn., sent Mrs. Lottie Werthenberger as its representative to the 78th annual state convention of TSTA held in Houston, from Nov. 29 until Dec. 2.

Theme of the meeting was "Education Moves Freedom Forward." The sessions were held in the Sam Houston Coliseum and Exposition Hall.

Among the noted speakers were Senator Price Daniel, governor-elect, Edna McGuire Boyd and Mrs. Billie Davis, known as "The Hobo Kid." Educators who ad-

ressed the teachers were Dr. R. J. Robinson, Dr. Andrew Holt and Dr. Arthur Corey.

In addition to her duties as delegate from the local unit to the state convention, Mrs. Werthenberger also assisted in registering delegates for the business meeting. She was accompanied to Houston by Mrs. Lucille Hughes who lives here in Hereford and is a teacher in the schools of Dumas.

## Two From Church Attend Meeting

The Methodist Churches of Hereford were represented at the Dallas-Fort Worth area convocation held at the First Methodist Church in Fort Worth, beginning Thurs-

day, Nov. 29, and ending on Sunday, Dec. 2.

Registered from Hereford were Mrs. Mildred E. Fuhrmann, church secretary, and Colline Brown, educational director, both of the First Methodist Church here.

Some 2,000 persons were in attendance for the sessions which featured training for church adult leaders.

**EASY ON THE PIGGY BANK**—She's giving inexpensive but glamorous gifts of cologne and cosmetics to Mom and Sis, in a refreshing garden scent reminiscent of April showers.

## Children Find It's Fun To Give Gifts As Well As Get

By VIVIAN BROWN  
AP Newsfeatures Writer

If you want to teach your youngster to be generous, encourage her to give.

Many children, particularly in the one-child family, grow up with the selfish viewpoint that everything revolves around them. Parents, doting relatives and friends are unwittingly responsible. Then too it is easier on the pocketbook to remember just one child in the family, and so there are likely to be many more presents than other youngsters get.

Christmas is the time for mother to play up the generosity role. Instead of stressing the "what do you want for Christmas" theme, Mom should, instead, suggest that Junior or Sis write to Santa Claus requesting gifts for others, save pennies for that purpose and observe the needs of the recipient before the gift is purchased.

"Mom could emphasize the plan this way to her youngster: 'Let's see now, Aunt Mary likes soap. She also likes cologne, dusting powder, bath oil. Take your choice of one of those, whichever you can afford.'

That should show a youngster a gift must be well thought-out, that it is not given just to get something back, and that the tiniest gift is welcome, providing it is something the person can use.

Every youngster should be encouraged for some time before Yuletide to put a bank aside labeled "Christmas." Into that should go all the odd pennies that come his way, money earned doing the household chores (and Mom should figure more of these in to swell the small loan from Mom or Dad when shopping time is at hand.

Inexpensive gifts for small-fry budgets include soap, solid cologne and nail polish, nail files, small hair ornaments, all under a dollar. Some of these scents are delightful. One cologne said to capture the garden scent after April showers is a very refreshing fragrance that costs a pittance, ideal for little girl giving.

## Lighting Contest Entry Judges To Consider 'Effect'

Entries in the annual Jaycees Home Lighting Contest are now being received by Stanley Slagle, chairman of the committee in charge of the event. Deadline for entry into the contest is Saturday, Dec. 15, Slagle stated.

Box 804, Hereford, is the address to which the entries are to be mailed. The entrant should state his name and address in the letter mailed to the Jaycees committee.

Prize money to be awarded is \$25 for first prize, \$15 for second and \$10 for third.

Judges will base their decisions on the over-all effect of each lighting entry with no individual prizes to be awarded for special doorways, lawn scenes, roof scenes or other feature decorations, Slagle said.

## Church Members Begin Work On Mission Appeal

Members of the Seventh-day Adventist Church here will cut corners on routine activities for the next three or four weeks in order to participate actively in the denomination's annual mission appeal.

With household chores cut to a minimum and evening relaxation temporarily banished, the volunteer solicitors will visit friends and neighbors in the community to invite them to share in the mission and welfare program sponsored by the church in 198 countries of the world.

Arthur C. Carlson, pastor of the Hereford Adventist congregation, reports that last year the denomination spent approximately \$60,000,000 in its medical, educational and evangelistic work.

**Personal Contributions**  
In addition to the regular mission program, the minister states that individual churches operated welfare activities that last year gave 1,201,700 persons aid valued at \$10,420,000.

"Our members are not professional solicitors," Pastor Carlson pointed out, "but they want to contribute this time and energy in addition to their financial contributions in order to bring aid to the millions on earth who suffer from physical, mental and spiritual malnutrition."

The pastor stated that each solicitor would wear a ribbon showing his identity issued for the 1956 drive.

**Work Results Here**  
Plans are now being laid for the re-opening of the Community Welfare Center. The building formerly occupied by the center has been moved so that the church is now working without an official center.

"During the past year approximately 2000 articles of clothing were given away to the needy in our own community. Persons having clothing, bedding and household articles that can be used in this work are asked to call 1063 or 521 so that the articles may be picked up," Pastor Carlson states.

## TO THE PEOPLE OF THE 18TH DISTRICT

# Legislative Program Outline Questioned

By REP. WALTER ROGERS  
On Jan. 3, 1956, the 85th Session of the Congress of the United States of America will convene. Political writers and experts in the East are predicting that, immediately after the Congress convenes, the pressure will be on for the early passage of a legislative program that can be used as a base platform for the much advertised new Republicanism.

It seems to be the opinion of the political experts that a speedy and all-out attack will be necessary to force the program through; that if the program is not passed in the first two years of the President's term, much of it will be doomed.

The interesting and somewhat amusing feature is the nature of the program predicted by these political fortunetellers. It could easily be mistaken for the Roosevelt-Truman programs that were such hot issues for so many years.

For instance, the political analysts say that the legislative "musts" program will include such items as:

1. Civil Rights legislation.
2. A federal health insurance program.
3. Amendment of the Taft-Hartley Act.
4. Federal aid to education.
5. Expansion of Fair Labor Standards Act to include many more workers under minimum wage and maximum hour provisions.
6. Expansion of the social security system.
7. Foreign Aid. Expansion of economic aid to under-developed countries.
8. Channeling of government contracts to thickly populated areas to avoid unemployment. (This means the additional expense to the taxpayer, because the determining factor is not the cost of the

goods to be purchased, but the economic situation in a particular area. This, of course, reduces the chance for industrial expansion of those sections of the country not presently industrialized).

9. Liberalization of immigration laws. (There has long been a major effort to shift unused quotas from such countries as England, Sweden, etc., to other countries that have many people wanting to migrate to this country).

10. Increased military spending.

11. Statehood for Alaska and Hawaii, and voting rights for the District of Columbia.

12. Increased aid for hospital construction.

The failure of Roosevelt and Truman to obtain passage of much of

this legislation was due to strong opposition from those who were violently opposed to the centralization of our government and a concentration of power in the hands of a few individuals in Washington. If the predictions of these political prognosticators are even partially correct, it would appear that the sessions of the 85th Congress will be most interesting.

Two items that are noticeable because of their absence in the list of political predictions, are small business legislation and legislation concerning the farmer and rancher. When these two items are mentioned, they usually appear at the bottom of the list and seem to be somewhat of a second thought. The disregard of these two items by many of the writers causes me concern for two reasons.

In the first place, these two segments of our economy are in deep trouble and must have some assistance. In the second place, Eisenhower has mentioned both of these items several times as being of concern to him. The failure of the writers to treat these two matters as serious makes me wonder if they know something that the rest of the country has not been told.

## Last Rites Held For W. L. Young

Mr. and Mrs. E. W. Young and Mary Ann returned Tuesday from Marysville, Tex., where they attended the funeral of his father, W. L. Young. The services were held on Sunday afternoon.

Born in Rockwall, Mr. Young was 73 years of age at the time of his death. He passed away in a Tyler hospital on Saturday.

He was a rural mail carrier in Cook County for many years and had moved to Tyler at the time of his retirement 11 years ago.

Survivors include his wife; four sons, E. W. of Hereford, Wayne and Paul of Tyler and Raymond; one daughter, Miss Evelyn Young of Tyler.

Mr. and Mrs. C. E. Leasure Jr., of Hereford attended the services of her grandfather at Marysville. She is the daughter of Mr. and Mrs. E. W. Young.

Wee Tah Ni Ki Camp Fire group honored their mothers with a tea held at the Southwestern Public Service Co. on Wednesday.

The program was the last in a series of cooking lessons for the girls, taught by Mrs. Dorothy Brown.

Linda Barton and Barbara Woody entertained with Thanksgiving poems. The other members gave a brief outline of the preceding lesson.

## FOR A SHIPWRECK, TAKE AN AMERICAN MAN

By EDDY GILMORE

LONDON (AP)—Emily Hahn—who regards herself as an expert on men—said today that she'd rather be shipwrecked on a desert island with an American man than an Englishman.

"The American," she said, "is more likely to be resourceful. He would go out, pick up driftwood and build me a house. The Englishman would make me pick up the driftwood and probably insist on my building the house."

Miss Hahn, who writes about the problems of marriage, said there is a lot to be said in favor of Englishmen as husbands, however.

"British men," she added, "are better looking than American men and this, perhaps, the most pleasing characteristic of the English male."

Asked what was the American male's most pleasing characteristic, she replied:

"Generosity. The American is definitely more generous."

The Englishman, she said, is essentially selfish and that is his worst characteristic.

"The main fault of the American man is that he's a born chaser—a woman chaser, I mean."

Although she writes under the name of Emily Hahn, she is really Mrs. Charles Boxer, the wife of an Englishman. She is an American who's been living in Britain since 1946.

Her new book, "Spousery," written in collaboration with Eric Hatch, has just been published. It

concerns the technique and art of staying alive and happy though married.

"There was no collusion on the book," she explained, "because I have never even met Mr. Hatch. I simply wrote the first part of the book and he wrote the second."

She advises the women. Hatch gives tips to the men.

Miss Hahn says she believes people need advice "for nothing ever really prepares one for the little shocks that married life administers in the bedroom."

She said too many men and women on both sides of the Atlantic wake up every morning "with that married feeling."

She was asked her impression of mustaches—those facial adornments that have broken up many marriages.

"I have no strong feelings on the subject," she replied, "except that I don't want to grow one for myself."

U. S. farmers own 4½ million horses and mules compared with almost 12 million 10 years ago.

Although woodpeckers are found in most places in the world, there are none in Australia or Madagascar.

## Household Tips

Frozen potato patties can be very quickly prepared as an accompaniment to fish, steak or chops.

Place packaged refrigerated ready-to-bake biscuits close together in a 9-inch pie plate. Sprinkle the tops of the biscuits with a mixture of brown sugar and soft butter. Bake in a hot oven until the tops of the biscuits are brown and bubbly. Serve at once.

Easy chicken pie: three-inch circles of baked pastry (heated) are placed over servings of creamed chicken to which cooked peas and carrots have been added.

Potato mounds are always popular. To make them beat an egg into two cups of seasoned mashed potatoes. Drop a couple of heaping tablespoons of the potato mixture onto a buttered baking sheet to form a mound, swirling top; repeat with rest of potatoes. Bake in a hot oven about 10 minutes, remove with a wide spatula and serve at once.

LANKY WHITEFACES—Cuby Kitchens' Hereford Whitefacer will be in the thick of the 1-AAA title chase this year after a dismal season last year. The Whitefaces are tall. The proof: Terry Higgins, 6-5; Jim Curtisinger, 6-4; Bill

Dufur, 6-3; Bill Callaway, 6-2; Leroy Morrison, 5-11. Morrison, the only starter under the six foot mark, averaged 30 points per game in the district tournament last year. (Staff Photo)

## Wrestlers In Brawl After Funk's Crown

Four wrestlers will vie for a chance at Dory Funk's Southwest States Junior Heavy Championship Saturday night at the Bull Barn. Dizzy Davis, Rip Rogers, John Tallas and El Diablo will all look to dethrone the champion. Funk will defend his title in a five-man Battle Royal at the new coliseum. El Diablo, a Spanish wrestler, will be making his first appearance in a Hereford ring.

The first wrestler eliminated in the Battle Royal will be finished for the night with no pay. The next two eliminated will return for a best two of three falls or 45 minute time limit match.

The last two will wrestle two out of three falls or one-hour time limit. The winner of this match will take on Funk for the Southwest States Junior Heavyweight Championship.

The championship match is set for Dec. 15 in the new Bull Barn. It will be a best two of three falls or 90 minute time limit.

Dory gained the title about 30 days ago in a much publicized brawl with Dizzy Davis in the Amarillo arena. He successfully defended it against Roger Macay in Amarillo Nov. 29.

In a statement this week Funk said he does not intend to "hog" the belt. He said, "I will meet all of the top wrestlers in the southwest if they can qualify."

In action last Saturday the Great Bolo and big Bob Geigel were victorious.

The Great Bolo won over Lou "Shoulders" Newman, taking the first and third falls. Geigel, a friend and partner of Funk's won two straight falls over the German, big Hans Schnabel.

In the preliminary event both Dizzy Davis and Rip Rogers were disqualified, the match being declared "no contest."

Arizona is nicknamed the "Babylon State."

**SPORTS GLANCES**  
by Bill Knox

We weren't disappointed a bit with the Whitefaces' showing against the Plainview Bulldogs Friday night. However, we will have to admit that we were somewhat disappointed with Plainview. They weren't as good as we expected, but maybe we were expecting too much from them.

**Victory Wasn't Easy**  
At any rate, the Bulldogs found themselves with a fight on their hands. Late in the game when the Whitefaces pulled even, the Plainview coach commented: "We knew we'd get a good game out of it, because you'll had a good 'B' team last year."

They did get a good game out of it, and if we may say so, they "lucked out."

**Hard Way to Lose**  
It surely was a hard way for the Whitefaces to lose. They had rallied brilliantly with less than a minute left to play. Then Billy Tagel resumed his role as villain and rimmed in a jump shot from the center line as the buzzer sounded.

It also appeared that Cuby Kitchens was pleased with his team's showing. After the game he complimented his players on "good hustle. That's just the way the

ball bounces," he said.

Kitchens sent his casters through rugged drills this week. After long (Continued on Page 4)

Lanky Jim Curtisinger, 6-4 Hereford guard, again paced the Whitefaces. He cooped the night's scoring honors, recording 20 points to run his three game total to 53 points. Ken Cary led the Brownfield attack with 17 points.

**Naltry Percentage**  
Both teams hit a naltry field goal percentage. The Cubs dunked 16 field goals compared to the Whitefaces' 15, but the Herd canned 24 free shots to Brownfield's 12.

Referees H. H. Bledsoe and Jack Scarbrough called a tight game.

## Buddy Pickens Wins Cotton Bowl Ducats

Buddy Pickens won the annual Hereford Brand Football Contest with 183 correct guesses.

Pickens will be awarded two tickets to the New Year's Cotton Bowl game between Texas Christian University and Syracuse, guided by much heralded Jim Brown.

James Gentry copped second place with 182 correct guesses, only one behind Pickens. Gentry will receive one Cotton Bowl ticket.

Cliff Arnold and Harold Loerwald. Both turned in 181 correct guesses. The contest lasted 10 weeks with contestants prognosticating on 25 games each week. Pickens correctly predicted at a .732 clip, while Gentry had a .728 percentage. Arnold and Loerwald hit a percentage of .724. Weekly winners in the contest were awarded weekly prizes in merchandise by merchants who sponsored the contest.

## Quail Hunters Get Limits As Season Opens In Area

By JUDY PINNELL

With the excitement created by the opening of quail season and the first showing of Elvis Presley in Amarillo this weekend, everyone was on the go.

At the Pounds home early Saturday morning 11 guests, among them, Rev. Darrell Gault, formerly of Adrian and school friends of Moran and Neil Pounds, ate an early breakfast and started off on the hunt. Everyone shot his limit!

Others quail hunting were: Jimmy and Billy Brown, Roger Grubkey, Edd Pinnell, Henry Grubkey, J. O. Johnson, Johnny Cavit, Coach Pat Chipp and many others. Some were successful others not so successful!

Those attending the theatre during the weekend were Mrs. Billy Brown, Mrs. Roger Grubkey, Mrs. Jimmy Brown, Judy Pinnell, Mary and Billie Grubkey, Pee Wee Burks, Sheldon Proctor, Mr. and Mrs. Floyd Brown, Malanie Weidner, and Linda Grubkey. Was it really good!

Mr. and Mrs. Pat Maupin of Amarillo visited Sunday with their daughter and family, Mr. and Mrs. Earl Brown and family.

Visiting in the R. D. Sisk home is Dave Sisk, father of R. D. of Hobart, Okla.

### Company for Dinner

Mrs. Mary Weaver and Mrs. Nellye Davis were dinner guests of Mrs. Lillie Reynolds Sunday.

Mr. and Mrs. R. D. Sisk and family visited with R. D.'s sister and family, Mr. and Mrs. Lloyd Jeffrey in Dueroy, N. M., over the weekend.

Mr. and Mrs. Floyd Brown were in Amarillo attending to business Wednesday. Also Mr. and Mrs. Earl Croff were in town.

### To Attend School Here

Mr. and Mrs. Chester Kidder and Jackie were here Saturday. Jackie remained for he will attend school here. Mr. and Mrs. Kidder left for Oklahoma City where they will be at home.

Mr. and Mrs. Billy Don Brown and Mrs. Lillie Horton visited with Mrs. L. L. Biddle Thursday. Mrs. Floyd Brown went after her mother, Mrs. Horton in the afternoon.

### Called to Bedside

Leland Burns was called back to his father's bedside Wednesday. He is A. P. Burns at Claremore, Okla.

Mr. and Mrs. Ralph Perry and Mrs. Earl Croff were in Amarillo Saturday.

Mr. and Mrs. Ray Fisher were in Farmington for the Thanksgiving holiday with their son and family, Mr. and Mrs. Jack Fisher, and family. Mrs. Fisher, Jerry, and Cindy returned with them for a few days' visit.

## Little Gifts Spread Spirit Of Christmas

By VIVIAN BROWN  
AP Newfeatures Writer

It's fun to give a gift to people who least expect it. The family knows their gifts are in the bag. All that's left are the usual "thank-yous," complaints about color, fit, size or style, or requests to exchange what was thought to be a well-planned purchase.

But 'taint so when the recipients are surprised. They'll give you your money's worth in true Christmas spirit every time. The tinnest Christmas gift will probably send them reeling with joy.

Take the baby sitter. She's an ideal type to make happy with a small gift — perhaps a lipstick, bottle of shampoo, hair ornament or nail kit. Put it in a special gift wrapping for added enjoyment.

Then there are the milk man, post man and garbage man. If you feel in the mood and can afford it, add them to your Christmas

list. A little gift goes a long way with the paper boy too. Ditto the cashier at the food market and the delivery boy. Anything from a box of cookies to shaving lotion will please men who serve you.

The man of the house could have a long list of "possibles" on his gift list. How about the girl employees in office — telephone operators or secretaries. They'll be pleased with the smallest gift — solid cologne or a box of toilettes. Or if there are a number of girls, inexpensive gifts may be put in the grab bag for their own choosing.

His favorite waitress at that luncheon spot is another likely gift recipient. She's made sure he gets his hamburger or soft boiled eggs just the way he likes them. So why not reward her? Spray cologne is ideal and inexpensive. One new cologne scent recommended for Christmas is said to capture the

mysterious fragrance of the desert flower. Other ideas could be a small compact or sachet.

How about the girl at the railroad or airlines ticket window who makes reservations for the traveling man? She's a good type for an unexpected reward. Consider one of the small transparent purses for carrying makeup accessories or a nail equipment case for her. Girls who work at jobs where hands are in the spotlight are always interested in articles of hand care. Anything from a bottle of hand lotion to nail enamel should be sure fire hits.

Cleaning women who help out with the family or toil in an office building at night are other likely candidates for Santa Claus largesse. Remind Dad that he can spread some cheer with these peo-

## GARCIA NEWS Club Supper To Be Held Friday Night, Dec. 7

By MRS. S. N. THWEATT

Mr. and Mrs. N. A. Brown, Mr. and Mrs. Floyd Brown and sons, Earl and Rodger, enjoyed visiting relatives over the Thanksgiving holidays. They visited a sister, Mrs. R. E. Prescott, and a brother, C. O. Brown, at Harrold and another brother, Ernest O. Brown of Electra. They had Thanksgiving dinner in Electra.

Wheat Up There  
The Browns report that that section of the state had had rain in October and that the farmers had planted their wheat which was up. They said it began at Quanah and looked pretty good but was small.

Frank Ford says he doesn't know what happened but his car plowed up three highway posts on the lake between Booleg and the Roger Brumley ranch last Tuesday afternoon. Nothing hurt except the car.

Bring Your Cookies  
Mrs. N. A. Brown and Mrs. S. N. Thweatt attended council meeting Monday. Since the council Christmas party is set for Saturday, Dec. 8, all Messenger H. D. Club members are asked to bring their candy and cookies to the club turkey supper this Friday night, Dec. 7.

Mr. and Mrs. Phillip Miller had as their guests for Thanksgiving dinner their daughter and family. Mr. and Mrs. Joe L. Hamilton and children, Mrs. Bess Givins and Mrs. O. E. Sherman, all of Hereford. Joe Ellen, the granddaughter, spent the night and her grandmother washed before returning home on Friday.

CHICAGO (AP) — A staggering load of 12½ million pounds of keys is slated around every day by all of the people in this country. Leon Kotch of Yale & Towne told the National Locksmiths' convention that this load could be cut by far

retting all locks in a house and in the family car to work with a single key.

**NEW HEN, NEW RECORD HONOLULU (AP)** — A hen named Hattie of a new Hawaiian breed has laid what her owner believes is an unofficial world's record for eggs.

Hattie, owned by Kazuo Onitsuka of Waipahu, Oahu, laid 403 eggs in the past 12 months.

Two years ago another one of his chickens laid 370 eggs in a year, a figure recognized as a local record.

Onitsuka attributes his hen's success to new breeding techniques that has led to a new registered breed called the Hawaiian Red.

# Start Hinting Early For New Appliances

By VIVIAN BROWN  
AP Newsfeatures Writer

Time was when a woman would bust into tears if her husband gave her a nouseabout appliance for a Christmas gift.

These days she primes the youngsters to whisper to Dad that this or that marvelous gadget or appliance is just what her Christmas list requires.

A brand new mobile dishwasher does dishes in a jiffy and turns them out sparkling clean along with the pots and silverware.

The electric coffee percolator that perks nine cups while mom is squeezing the orange juice in her new electric juicer is another joy. Ditto the electric meat grinder with ice crusher attachment. The grinder will mince baby food or chop nuts and fruits quicker than you can say "fruitcake. Ice comes out of the crusher mashed fine or cracked to her liking.

One new appliance is a real treat for the cook in a large family. It's a toaster with a small drawer-like oven that makes eight slices of toast at one time. It is ideal, too, for English muffins, canapes or toasted cheese sandwiches.

A time-saver in the small appliance category is a portable mixer; available in pink, yellow, white, turquoise, copper or chrome. It is handier than the large mixer because it may be used right in the pot to mash potatoes, whip the lumps out of gravy or to whip cream in any container.

An electric blanket is an ideal gift for Mom. These are made in the contour bed-hugging style now, safer than ever — tiny safety val-

ves are interspersed about an inch apart in the blanket. If Mom is the warm-blooded type, maybe you'd like to give her an electric fan instead. It will come in mighty handy next summer.

Even the iron has taken on gift glamor. New steam and dry irons are lighter and easier to use than formerly. Other kitchen time-sav-

The Cubs were guilty of 21 fouls and the Whitefaces J. Mike Hamilton of the Cubs fouled out.

With the Whitefaces holding a comfortable 15-point margin, Cuby Kitchens, coach, inserted reserves in the early part of the fourth period. The Cubs managed to narrow the lead by five points against the Hereford reserves.

**Open Strong**  
Brownfield opened in a brilliant flurry. They racked six points on the scoreboard before the Whitefaces could tally more than one. Then the Herd canned six straight points to take a 7-6 lead they would never lose from then on.

Hereford led, 11-9, at the end of the low scoring initial quarter. Hereford widened the lead by three points in the second quarter. Wesley Britton carried the second quarter load for Brownfield, scoring six of their ten points. Hereford led by 24-19 at halftime.

**Begin to Roll**  
The Whitefaces began to open up in the third stanza. The Cubs were held to seven points by the Hereford defense while the Herd was tallying 17 markers. Jim Cart-singer scored 12 points in the third quarter for the Whitefaces.

The last quarter was played mostly by Hereford reserves, the Herd scoring 13 points and Brownfield scoring 18. Brownfield's Ken Cary scored 11 points in the fourth quarter.

Hereford's next encounter is again with the Brownfield Cubs Friday night in Brownfield.

The Hereford "B" team lost to the Brownfield "B", 48-47, in a thrilling contest.

ers include electric skillets, blenders, broilers and sandwich grills.

(Continued From Page 1)

scrimmage sessions plenty of wind sprints were in order. "You can't get them in too good shape," he explained.

**And As Usual...**  
As usual, the Phillips Blackhawks are the team to beat. Right now it looks like they'll be the only team which should give the Whitefaces much trouble. They lost to the defending state champion "dandy" Palo Luro Dons" by only three points.

But the Dons don't have a crying thing.

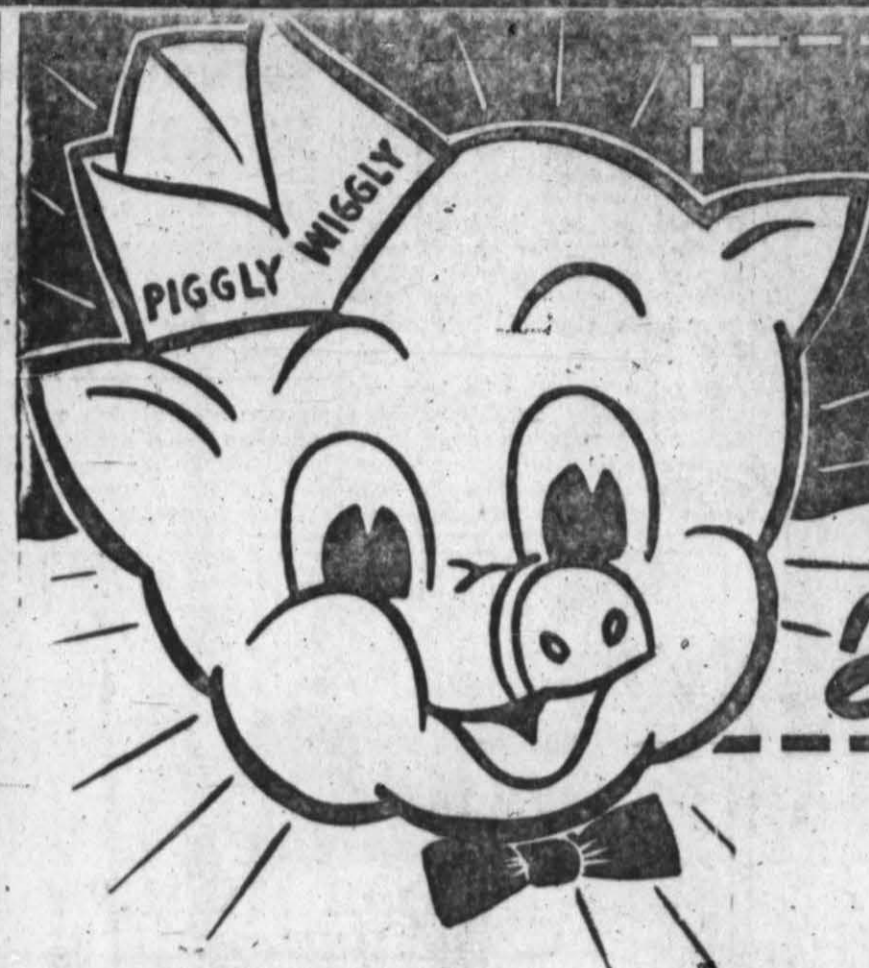

They lost four starters from last year's club, and Paul Hyatt, the fifth one, broke his arm and is just beginning to see limited service again. He played only about two quarters against the Blackhawks. That was long enough for him to score 10 points, so what would he have done if he had played the entire game?

Conference play doesn't start until January, but fans may get an idea of how the district race will turn out Dec. 13-14-15. That's when all 1-AAA teams will compete in the Hereford Invitational Tournament.

**First Round Games**  
We got a peek at the bracket this week, and here's how it looked: Dumas vs. Canyon, Hereford vs. Littlefield, Phillips vs. Levelland, and Olton vs. bye are first round games.

We can hardly wait until tournament time rolls around.

**FOR THE OPERA FAN**  
A good Christmas gift for the theater goer is a smart pair of theater glasses in a plastic case that is lightweight, attractive and sturdy.

WALCOTT NEWS

Grady Cates Family Comes Back To Walcott To Live

By MRS. T. L. COLLINS

Mr. and Mrs. V. K. Hutson and family drove to Tulsa Sunday. There they visited her parents, Mr. and Mrs. A. S. Miller, and Mr. and Mrs. Simm Vaughn. Mrs. Glenn Burrus, Mrs. Herschel Burrus and their children went to Pampa on Saturday. They found their mother and grandmother, Mrs. H. D. Kribbs, much improved from the broken leg injury received recently. Mrs. Kribbs was able to be moved to the home of a daughter, Mrs. Albert Morrison, who lives in Pampa. Mr. and Mrs. N. E. Tyler had as their guests Sunday afternoon, Mr. and Mrs. Charles Hoover and girls. Mr. and Mrs. Rex Vaughn and family came later. Came To School Paul and Elvis DeArman of the Paula School in Oklahoma visited with their cousins, Kay and Sue Minyen, at school on Monday.

Mr. and Mrs. Earl Bias, Diana and Linda went to Friona Sunday to visit with the Clyde Johnson family there. All of them went to Clovis on Sunday afternoon for a while. Mr. and Mrs. T. L. Collins and Bruce enjoyed dinner Sunday in the home of Mrs. J. F. Ward in Hereford. That afternoon all attended the dedication service for the new Ella Aikman Elementary School in Hereford. This building is surely an asset to the town. Have Returned to Walcott Mr. and Mrs. Grady Cates, Minnie, Grady, Geneva and Shirley are back in Walcott Community again after an extended visit in Boise, Idaho, and Ontario, Ore. They moved their other daughter, Mrs. Wayne Haven, and children up there. On Tuesday morning, Grady, Geneva and Shirley enrolled in Walcott School again. Walcott's coach, A. L. Shelton,

took a busload of children to Stanton Junior High School in Hereford on Tuesday afternoon. The boys' basketball team lost a game, 22-to-8, in favor of Hereford. The girls played two games of volleyball with Walcott winning. Mr. Shelton stated that all of the boys and girls of each school played like real sports — which is the main thing. Mrs. Glenn Burrus and Elizabeth went in to see the games. Two Holiday Dinners Mr. and Mrs. Chester Minyen have had his sister and family as their guests. Mr. and Mrs. Vernon DeArman and children of Wayne, Okla. They came here for the first Thanksgiving. Now the Minyens and DeArmans have gone back to Wayne to visit their parents. Mr. and Mrs. O. C. Minyen and Mrs. Chester Minyen's mother, Mrs. Cora Alexander, of Maysville, Oklahama, for the second Thanksgiving. Walcott's assembly was given on Wednesday morning by the seventh and eighth grade room. Since all rooms had been busy taking six-weeks tests, this group presented some classroom work which proved quite interesting. The eighth grade history class had made a replica of a colonial home. These children — Barbara Neinst, Merry Kay Pruitt, Ray Northcutt, Barbara Swinney, Kelly Newman, Lee Myers, Cecilia Burrus, Wayland Northcutt, and J. V. Perrin — brought in tiny pieces of furniture that they had made and placed them in the little house as they told about each one's purpose in colonial homes. Some of the girls made and dressed people in appropriate dress. A. W. Shugart made the announcements. Laughs for All A stunt "The Gathering of Nuts" was pulled by J. V. Perrin on members of the student audience. This got a good laugh. Three songs — "Swing Low, Sweet Chariot," "Holy, Holy, Holy" and "America" were sung by the group. T. L. Collins reminded the students that they are the most fortunate children on the face of this earth as they left school to enjoy the Thanksgiving holidays. Mr. and Mrs. A. L. Shelton spent the Thanksgiving weekend at their home in Amarillo. Spend Day at Littlefield Mr. and Mrs. Joe Rader and grandson, Larry Payne, of Hereford, accompanied by Mr. and Mrs. T. L. Collins and Bruce drove to Littlefield on Thanksgiving Day. They visited in the home of Mrs. Rader's sister and family, Mr. and Mrs. Ernie Goertz. Her elderly parents, Mr. and Mrs. J. M. Thomas, were present and a brother and family, Mr. and Mrs. Pick Thomas and children of Hereford. They visited in Spade on the way home. Holiday Scheduled T. L. Collins, principal of Wal-

cott School, announced that the Christmas holidays will begin at the close of school on Friday, Dec. 21. The holidays will be over on Wednesday, Jan. 2. Mrs. N. E. Tyler, president of the Walcott's P.T.A. announces the December meeting for Thursday night, Dec. 20, at 8. The entire school will present the program. There is to be a community Christmas tree with treats for all. Sees Longhorns Lose Raymond Collins did not come home for the Thanksgiving holidays. He stayed on the University campus in Austin where he is, a student for the Longhorn-AE triple football game in Memorial Stadium. History was made but the outcome saddened the hearts of University students. Each class of Walcott students is now enrolled in the Junior Red Cross 100 per cent. Marvin A. Swanson Jr., of Chicago, Ill., was a guest in the Glenn Boardman home through the Thanksgiving holidays. He is a nephew of Mrs. Glenn Boardman.

What might have been a serious loss in the total destruction of the new high school building was averted early Wednesday morning by the quick work of the janitor. He saw smoke coming from behind a window facing and upon examination found that a large beam near which the brick flue passed was afire and had burned for some time. He put out the fire quickly, but the flue was put out of commission until repairs could be made. The cause of the fire is the result of poor construction or rather unsafe construction in the flues and adjoining woodwork.

In the fastest game of the season, the Normal football team beat the Hereford bunch yesterday 5 to 0, the score coming in the last few minutes of play when Turner

got away on an end run and chased 50 yards with the entire Hereford bunch at his heels. In the first half Hereford outplayed the Normal, but in the second half the ball was in Hereford's territory practically every minute.

## County-Wide H D Party To Be Held Saturday, Dec. 8

Home demonstration club activities will be at a minimum during the month of December with all 11 groups having only a Christmas party during the weeks before the holiday. The final meeting of November was used to complete the plans for this annual festivity with its gift exchange and other "fun for all."

The annual council Christmas party will be held at the Rock Club House in Veterans Park on Saturday, December 8, beginning at 2:30 p.m. Musical selections are now being rehearsed by the H.D. Choral Club for presentation during the program.

Refreshments for the party will be supplied by each club bringing two dozen pieces of candy and two dozen cookies.

**Prío Homemakers**  
Prío-Homemakers Club met on Tuesday, Nov. 27, in the home of Mrs. Eugene Noel for a program on rug making. Mrs. B. M. Sudduth demonstrated the making of beaded rugs. She emphasized the importance of choosing colors that harmonize.

Present for the meeting were Mesdames Annie Springer, T. L. Sparkman Jr., Floyd Cole, Glenn

Gripp, George Zetsche, Owen Andrews, Woodrow Jones, James Dobbs, B. M. Sudduth, Henry Dobbs, Frank Robbins, Jeff Terrell and Miss Alma Andrews. Three visitors—Mrs. Charles Frye, Mrs. Smith and Mrs. Johnson—were welcomed.

The next meeting will be the annual Christmas party to be held on Dec. 13 in the home of Mrs. T. L. Sparkman Jr.

**West Hereford**  
The solving of personal problems was discussed when the West Hereford H. D. Club met in the home of Mrs. Vern Witherspoon on Nov. 27. The program was directed by Mrs. Argen Draper.

Members present were Mrs. John Jacobsen Sr., Mrs. R. L. Cahoun, Mrs. Edna Bowe, Mrs. Roy Boyd, Mrs. Robert Boyd, Mrs. P. H. Luck, Mrs. Ida May Vaughn, Mrs. Carlos Vaughn, Mrs. W. A. Waters, Mrs. Tom Draper, Mrs. Floyd Walton Sr., and the hostess, Mrs. Henry Hastings was a visitor.

Secret pals will be revealed in the gift exchange at the club Christmas party to be held in the home of Mrs. Floyd Walton Sr. on Dec. 12.

Hereford, Texas, Thursday, December 6, 1956 Section Three

### BASIC FUDGE RECIPE MAY BE VARIED TO SUIT ALL TASTES

Soon to become very popular items in every cook's plans are recipes for Christmas candy. And a favorite is a basic fudge recipe that can be varied to suit any and all tastes.

The following recipe has been used by the 4-H Clubs of Deaf Smith County in recent demonstration lessons and is considered good by all who have tried it:

**Chocolate Fudge**  
1-cup sugar  
½ cup fresh milk or ¾ cup evaporated milk and ¼ cup water  
½-1 square chocolate  
1 T. corn syrup  
Few grains of salt  
1 T. butter or substitute  
½ T. vanilla  
Mix sugar, milk, corn syrup, salt and chocolate. Stir frequently until sugar dissolves and chocolate melts. Cook to soft ball stage. Add butter. Remove from fire. Cool. Add vanilla. Beat until it is creamy and has lost its gloss, then pour quickly into oiled pans making a

one-inch layer. Cut into squares when nearly cold. It may be kneaded and molded if preferred.

**VARIATIONS:**  
Nut Fudge: Add ¼ cup coarsely chopped nuts to fudge just before pouring into pan.

Marshmallow Fudge: Add ½ cup marshmallows, cut into small pieces, to fudge just before turning into pan. Marshmallows will melt and lose their identity if added while fudge is warm.

Fruit Fudge: Add ¼ to 1/3 cup raisins, chopped dates or figs to fudge just before turning into the pan. Candied cherries, orange peel and citron may also be used.

Coconut Fudge: Omit or retain chocolate in fudge as desired. Add ½ cup dry, shredded coconut when ready to pour into pan.

Maple Fudge: Omit chocolate and substitute maple sugar for half the sugar in basic recipe.

Brown Sugar Fudge: Make as for Maple Fudge substituting the brown sugar for maple.

**PET PARADE**—All dressed up and no place to go is the plight of LaNell, pet Chihuahua of Mr. and Mrs. Jack Wright. LaNell was scheduled to make a flight to Stephenville, Newfoundland, recently to become the pet of S/Sgt. and Mrs. Wes Byers. When it came to board the plane in Amarillo, no NA Green

farm was available to gain admittance for the little dog into Canada. So she returned to Hereford to spend the winter. And she may need her handknit sweater here almost as much as she would have in the far North. (Staff Photo)

## Local Teachers Slated To Attend Education Meet

Nineteen local teachers and administrators are scheduled to attend the Panhandle Conference on Teacher Education in Amarillo and Canyon next Friday and Saturday. The schedule calls for visitation of schools where laboratory experiences in teacher education are in progress.

They will attend a barbecue dinner at Palo Duro High School at 6 p.m. Friday and the first general assembly of the conference will be held at the Palo Duro High School auditorium at 7:30 p.m.

Speakers on the program will be Dr. Mio Kearney of the University of Houston, and Herbert LaGrone, director of teacher education, Texas Education Agency, Austin.

Supt. Fred J. Cunningham is scheduled to be in charge of a workshop during workshop sessions to be held at the Palo Duro High School on Saturday. Dr. J.G. Flowers, president of Southwest Texas State Teachers College at San Marcos, is scheduled to speak on "Problems in the Laboratory Phase of the Teacher Education Program" preceding the workshops, which will begin at 10. The assembly will convene at nine a.m. Dr. Emmett Smith of West Texas State will preside during the evaluation of the conference at the third general assembly to be held at 11:30 Saturday.

Others from the Hereford schools who plan to attend are: Principals Buck Overall, Bill Phillips, D. C. Martin, L. C. Thomas, Robert Naylor, and Wiley Quattlebaum; Mrs. Claude McDougal, Mr. Robert Thompson, Mrs. Leta Kaul, Miss Della Stagner, Mrs. Ruth Warner, Miss Lavada Shannon, Mrs. Inez Welch, Mrs. Caudie Ola Brown, Mrs. Geraldine Whelan, Mrs. Ruby Crawford, Mrs. Lucille Smith and Mrs. Jay Shaw.

## Household Scrapbook

**Mending Knives**  
When knives become loose from their bone or ivory handles, they may be repaired at home by powdering some resin and filling the hollow of the handle with it. Then heat the iron stalk of the knife or fork until red hot and press into the handle until it is in its original place. Any superfluous resin that may ooze out will wipe right off. Let alone until firm and dry.

**Removes Moths**  
Rock ammonia, dissolved in boiling water, is excellent for removing moths from carpets. Use four ounces of ammonia to a quart of hot water. Apply with a flannel, then go over the material with a very hot iron.

**Tight Shoes**  
When a tight shoe is uncomfortable, wring out a cloth in very hot water and place it over the spot where the shoe pinches. Repeat as soon as the cloth becomes cold and until the shoe feels comfortable.

**Shoe Dressing**

## Sweater Girls Write To Santa

**AP Newsfeatures**  
Know what American girls want for Christmas? You guessed it—more sweaters.

It seems that girls of high-school and college age never have enough of these versatile garments. And since the styles change each season, sweater collections achieve near monumental proportions by the time a girl gets her diploma.

This year the bulky sweater is the big thing with the campus set. Muted colors are considered strictly in the Ivy League groove, favorites being charcoal gray, black, white and beige or camel color. The crew neck and the heavy rib-knit are standard requirements for slip-on sweaters.

Many girls buy their sweaters in the boys' department—more dashing, they claim.

Jacquard knit cardigans in the bright colors on white or black also are popular, preferably brass-buttoned. And the bulky waist-length sweater with big roll collar is definitely present in the hit parade.

For dressy occasions the girls like cashmere sweaters worn with slim skirts dyed to match exactly. And of course the white or pastel cashmere cardigan is the national uniform of the younger set to wear as an evening wrap.

**SWISS NOTE**—This sporting cardigan is knit in jacquard design of red and green on white, with border trim, brass buttons and white rib-knit collar. Designed by Catalina.

**BULKY LOOK**—Tan-weather two-button cardigan in popular bulky knit with big roll collar.

## 2 Girls, 850 Boys Make-Up Tech's Aggie Student Body

**LUBBOCK, Tex.**—Eight hundred and fifty-five Texas Tech ags are minding their manners with good reason.

For the other two members of the School of Agriculture student body are girls—and attractive ones.

They are Marilyn Floeck, daughter of Mr. and Mrs. S. S. Floeck, College Station, Tex., and Perry Thompson, daughter of Mr. and Mrs. E. I. Thompson of Houston. Marilyn, a senior horticulture major, is planning to be a landscape architect. However, she has wide variety of interests. She is member of the Canterbury Club, Discipal student's organization, the Tech Orchestra and is president in charge of scholarships of Alpha Phi, social sorority, and vice president of the horticulture club.

have been planting things," Marilyn says. "I decided when I was a junior in A&M Consolidated High School to major in floriculture, and changed to horticulture when I came to Tech."

Naturally her hobbies include flower arrangements. Marilyn considers "competition in horticulture harder because there are no girls with which to compare my work." But, she says, "I wouldn't change my major for anything."

She has worked for three years in the horticulture greenhouse and is currently working with Tech's project to determine the adaptability of mums to cool climates.

Perry Thompson, a freshman animal husbandry major, chose the Agriculture school because "I've always been interested in it. When I was little we lived in the country and then my godparents gave me

my first horse."

"I wanted to take agriculture in high school, but girls weren't allowed to at Lamar High School. A lot of my courses are new to me because of not having had agriculture in high school, but I really like Tech," Perry says.

Perry is a pledge of Zeta Tau Alpha, social sorority, and a member of the Aggie and Rodeo Clubs. Her hobby is rodeoing in any form.

"Right now I'm learning to rope. Last year I was in a contest and won second place because none of the girls knew how to rope. We drew for the prize. After winning, I had to learn to rope to live up to the prize."

"At first my parents weren't sure about my major, but now they are pleased," Perry says. "I hope I will be a county agent after graduation."

# Sweaters For The U. S. Males

By DOROTHY ROE  
Associated Press Women's Editor  
European men have it all over Americans when it comes to wearing the correct clothes, for classified occasions, says Harold Neuman, U. S. sportswear manufacturer who spends much of his time globetrotting in search of new ideas for men's sweaters and swim wear designs.

"Over there they have special clothes for motoring, golf, hunting, fishing, hiking and going to the races," says he. "Here a man is likely just to wear an old pair of pants for anything that's not business or a formal affair."

Neuman believes, however, that American men slowly are becoming more fashion conscious, particularly about clothes for sports and leisure wear. This winter the favorites in sweaters for men and boys are conservative tones of Oxford gray and dark muted colors strictly in the Ivy League tradition.

Bulky wool knit sweaters with crew necks are high in popularity this season, as are the jacquard knits with Scandinavian motifs.

Most men don't have enough sweaters, says Neuman—a tip-off to the woman who is having trouble with her gift list. Every man should have a V-neck sleeveless sweater to wear with a sports coat, a husky pullover for outdoor sports, a comfortable coat sweater for lounging around the house, a turtle-neck bulky knit sweater for really rugged winter sports and an assortment of pullovers, with

## New Wardrobe For Your Favorite Dolls

By DOROTHY ROE  
Associated Press Women's Editor  
The nicest Christmas present you could give any little girl is a new wardrobe for her favorite doll.  
Small girls, like big ones, are always interested in clothes. And

ALL SCHOOL PLAY—Randolph, spoiled son of the high school principal in "Phantom of the High School," decides to turn sleuth. In his attempts to ferret out the "Phantom," he suspects Norma Janeway, the 'girl in the pink hat' (Mary Katherine Huckert), and Marty Redmond, newspaper reporter (Gwinn Morris). and pint-size mothers, like grown-up ones, like to see their children dressed in the latest fashions. So a wardrobe of doll clothes rates top priority on any Christmas list for a small doll collector.  
Local sewing center experts suggest that you sew a doll wardrobe, using standard patterns which are available for all kinds of dolls, from the cuddly baby ones to those that walk, talk and generally perform almost like real children.

The baby doll, for instance, may have an elegant christening outfit, extravagantly trimmed in lace, for dress-up occasions. For more casual wear she should have a sun-

suit with ruffled panties, a sleeper and a short dress for visiting.

A little-girl doll looks ravishing in a garden party dress made of organdie, with long, full skirt, matching petticoat and picture hat. Her pigtailed sister gets ready for bed in a sleeveless nightgown with matching sheer negligee. Included in the same pattern envelope is a pattern for a coat with matching hood and muff, which might be made in fake fur fabric. There's also a tiny tote bag for the doll who has lots of accessories.

Doll clothes are easy to sew, since they have no fitting problems. You can achieve all kinds of fancy trimmings by making full

use of your sewing machine attachments for decorative stitching, ruffling, gathering, hemming and finishing.

Fabrics for a doll wardrobe usually may be salvaged from the scrap bag, or bought in half-yard remnants, so that doll clothes will make an economical Christmas gift as well as one that will give maximum joy to the small recipient.

PHILADELPHIA (AP)—The Presbyterian ministry is a tradition with the Jackson family of the Germantown section.

The Rev. Dr. Ellsworth E. Jackson is pastor of the Market Square Presbyterian Church here. His son, the Rev. Dr. John Calvin Knox Jackson, was recently elected pastor of Faith Presbyterian Church, Baltimore. There he succeeds a cousin, the Rev. James Renwick Jackson Jr., and his late uncle, Dr. Walter T. Jackson.

Young Dr. Jackson has an older brother who is at First Church in Pittsburgh and an uncle, Samuel, at Bedford Church in Brooklyn. In addition, there are several cousins who are pastors.

# HOMES FOR AMERICANS

A FRONT-TO-BACK split-level, this house has a ranch house facade, yet rises two stories in the rear. This arrangement provides five bedrooms, three bathrooms, a large recreation room and a built-in two-car garage on a ground area of 2,020 square feet. This is plan 7461AP by Herman H. York, architect, 90-04 161st St., Jamaica 32, N. Y.

## On The House

By DAVID G. BAREUTHER  
AP Real Estate Editor

Three houses of special interest to every family planning on building a new home are scheduled to be opened for exhibit at Munster, Ind., near Chicago on Dec. 10. They have been built to demonstrate the major requirements laid down by the famous Women's Congress on Housing in Washington last April. Sponsored by the National Retail Lumber Dealers Assn., these houses were designed with the assistance of Miss Annabelle Heath, originator of the Women's Congress idea. They have not been built for sale and will not be finally disposed of until some time next year after builders, manufacturers and the public have had time to study them.

They indicate the far reaching effect of the complete Women's Congress report, recently published by the Housing & Home Finance Agency. Of course, no one claims that they are the final word in popularity, but they include 59 of the basic features the 103 housewife delegates said they wanted in their homes.

In accordance with the majority vote of that congress, the three Munster houses have three bedrooms, one and one-half baths, a family room in addition to living room, either a separate dining room or dining area, rear kitchen, generous closet space, and utility room or basement with laundry.

Although the 103 women overwhelmingly went on record as favoring a one-story house, one of the three models is a split level, containing 1,992 square feet in order to include a maximum of the housewives' preferences. The others are one-story homes, covering 1,418 and 1,623 square feet. One is a brick veneer house with a basement, another is built with trusses and Iu-Re-Co panels reassembled in the lumber yard.

Each of these models conforms to the women's ideas by having two separate zones — an informal living area in the rear where a family can work and relax in private, and a formal or public area in front on the street side. In each, the bedrooms are isolated from the noisier part of the house so that older children in the family room will not disturb youngsters sleeping, or parents reading in the living room. Rooms are arranged so there will be a minimum of family traffic through the living room and dining room. The half-bath or lavatory, and a formal or public area in front on the street side.

## Beauty At Home.

Q. What is a recommended procedure for shampooing the hair?  
A. Shampoo should be used generously, worked vigorously into your scalp to serve both as a cleanser and an invigorating massage. Water should be changed three times, and the shampoo application repeated. Rinsing is done with warm, clear water, and be sure to rinse and rinse and rinse. Most dull-looking hair is attributable to incomplete rinsing. Thoroughly rinse and clean hair will "squeak" when a damp strand is pulled through the fingers. Towel-dry your hair at least partially before setting pin-curls.

Q. How can I mix a toilet water that is effective against blackheads and greasy skin?  
A. Mix one ounce powdered glycerine, two drams powdered borax, and 19 fluid ounces orange flower water. Shake well before using.

Q. What advice can you offer on the tweezing of the eyebrows?  
A. Above all, keep them natural-looking. Tweeze only the stray hairs that won't line up with the natural arch. The brittle, artificial look that springs from abnormally thinned eyebrows is NOT GOOD! Strive for that "natural look."

Q. Is there anything that will remove scorch stains from silk or woolen materials?  
A. None that I know of. Brushing scorched spots on woolsens very lightly with emery cloth may improve their appearance.

Q. What can I do to help reduce very thick ankles?  
A. One very good ankle reducer is walking up and down stairs. If the body is raised on the toes with each step. Less wearing and almost as good for the ankles and lower legs is stationary rising up and down on the toes, at least 20 or 25 times daily.

Q. Is any kind of night cream necessary on my very oily type of skin?  
A. I think not. If your skin feels a little taut, that is fine — at least you know it's not sagging and that it is clean. The only place a little cream should be used is on the area around your eyes — to avoid acquiring any fine lines.

Q. What is a safe and easy way to bleach the hair on my upper lip?  
A. Lemon juice should prove helpful here.

Q. Is there any good astringent-I can use to help absorb dandruff in my scalp, when the hair is excessively oily?  
A. Witch hazel is good for this, and has a drying effect, too. Apply, then follow with a scalp massage and shampoo.

Q. How can I easily remove vegetable stains from my fingers?  
A. By rubbing with a piece of cut lemon.

Q. Please suggest a treatment which will soften and bleach my skin, as well as help to refine my pores?  
A. Apply a mixture of two-thirds warm olive oil and one-third lemon juice, rubbing well into the skin. Rub this into the skin with the outer skin of the lemon, using an upward and outward movement. This brings a healthy glow to the skin, and any drying effects of the lemon will be offset by the olive oil.

Q. How can I make my own underarm deodorant at home?  
A. Bicarbonate of soda diluted with water is very good. It is also a good idea to add a little of this to the bath water.

## Hereford Defeats Dimmitt Cagers by 52-47 In Impromptu Cage Game

With only an hour's workouts under their belts, the Hereford Whites decided the Dimmitt Bobcats, 52-47, in an impromptu basketball performance Tuesday night at Dimmitt.

The Hereford "B" team made their journey a complete success, winning their game, 36-21. The Hereford crew started slow, but the Whites pulled down after the sluggish start to maintain the lead.

Just having had one workout, didn't expect to win," Coach by Kitchens stated. His Whites had gone through only a one-hour workout the previous Monday.

However, led by 6 foot 3 inch Dufur, the Herd showed their title. The Bobcats jumped to a quick lead. It looked as though they would increase the lead, but the Whites began to hit. Fred Lookingbill put the Whites back in the game with a pair of goals from the floor.

Dufur, from his tandem post spot controlled the backboards along with Terry Higgins and lanky Jim Curtsinger. Dufur also sank three field goals and a free shot in the initial quarter.

The Hereford rally pulled the Whites even at 15-15 at the first quarter's end. Finally getting the feel of things, the Herd jumped into the lead and 27-23 and the end of the half. Jim Curtsinger led the Hereford onslaught in the second period, bucketing three field goals.

Hereford maintained this lead through the contest. They led, 42-39, at the end of the third quarter. The Bobcats made a valiant effort to tie the Whites in the later stages of the game. The Hereford height advantage was too much to overcome, however.

One key to the Hereford victory may have been their control of the backboards. The Whites held a large height advantage.

## DIG DEEP

You in the CHURCH

The CHURCH in you

This is hard work! By sweat of the brow man prepares and cultivates the soil. This man is well equal to the task... plenty of physical energy. But what about the fiber of his soul? Are you counting on brute force to get the job of living done?

"It is not by might nor by power, but by my spirit," sayeth the Lord. Your brain power may be par excellent... your physical make-up the best, but what about that starved, shriveled soul of yours? Go to church Sunday and let the Master Tiller work on the barren garden of your life. Let Him dig deep - stir up the sub-soil - penetrate the very depth of your being.

## How Can I?

Q. What is a good fertilizer for a fern?

A. Use sodium chloride eight parts, potassium nitrate four parts; magnesium two parts. Mix and bottle. Dissolve a teaspoonful of this mixture in a quart of water and water the fern about once a week.

Q. What is a good application for burns?

A. Scraped potatoes are a very cooling application for burns and scalds. Change the application frequently.

Q. How can I remove mortar and paint from window glass?

A. Wash with hot, sharp vinegar.

Q. How can I drive away sparrows that are around the eaves and underneath the cornices of the

house?  
A. They can be driven away if one will make a few cheesecloth bags, fill with mothballs, and hang them near the haunts of the sparrows.  
Q. How can I clear water that has a milky appearance?  
A. By dissolving a small piece of rock alum in a pint of boiling water, and using this much to a tub of water.  
Q. How can I clean undressed kid gloves?  
A. Try rubbing them very lightly with fine sandpaper.  
Q. How can I keep vegetables hot for an hour or so after they are cooked?  
A. When cooked, drain and cover securely, then wrap well in paper and set in the oven without fire. They will keep steaming hot for a long time.  
Q. Should anything be done to a brass kettle that has not been in use for sometime, before using it again?  
A. Yes; wash it with salt and vinegar before using.  
Q. How can I prevent fat from splattering on the stove?

A. Yes; wash it with salt and vinegar before using.  
Q. How can I prevent fat from splattering on the stove?

A. It will not spatter when frying if a little salt is added to it.  
Q. How can I remove a broken cork that has fallen inside a bottle?  
A. Pour enough ammonia in the bottle to float the cork and put it away for a few days. The ammonia will eat away enough of the cork to permit its easy removal.  
Q. What can I do if an oven gets too hot while baking a cake?  
A. Place a vessel of cold water on the shelf beneath the cake. This will reduce the heat.

the newest shape  
in cars for 1957—  
will influence  
the look of cars  
for years to come!

Outdates everything  
else on the road with  
its dream-car ideas!

Here is one of those rare cars that, in a single model change-over, redirects the whole course of automobile design. For the new Mercury makes a clean break with the plump, bulging lines of the past—presents a sleek, clean-cut, dynamic look that's straight out of tomorrow.

**NEW! V-ANGLE TAIL-LIGHTS FROM DREAM-CAR DRAWING BOARDS.**—A stunning example of THE BIG M's Dream-Car Design. Mercury is now over 6½ feet wide, more than 17½ feet long!

**NEW! JET-FLO BUMPER-GRILLE GIVES A MASSIVE BUT GRACEFUL LOOK.**—The oval design acts as a double bumper—provides high and low protection.

**NEW! SLIM, BRIDGE-STRONG ROOF, MORE GLASS THAN EVER.**—It spans the most spacious passenger compartment in Mercury history. You enjoy up to 829 square inches more visibility. And Mercury is new in everything else. You can get a power seat that "remembers" your favorite driving position. And there's a Power-Booster Fan, in the Montclair series, that saves horsepower other cars waste. And much, much more. To see everything, we invite you to stop in at our showroom today.

## SMALL GRAINS GROW BETTER WITH PHILLIPS 66 AGRICULTURAL AMMONIA

Applied in the Fall

Apply Phillips 66 Agricultural Ammonia ahead of your small grains for earlier, faster growth that makes possible more fall and winter grazing with higher grain yields next year, too.

Phillips 66 Agricultural Ammonia is easy to use. It's 82% nitrogen—more nitrogen per dollar than you can get in any other type of nitrogen fertilizer.

Agricultural ammonia stores well in loamy to heavy soils. It stays in the moist root zone . . . resists leaching . . . until growing crops need it.

**Cotton Men Okay Proposed Changes In Classing Lint**

Joel A. Hodges Jr., and Marcus Latham, county directors of the Plains Cotton Growers, Inc., announced this week that the PCG is backing the eight changes recently recommended for improving of cotton classing for South Plains farmers.

The directors explained the eight recommendations were made unanimously at a meeting held in Lubbock Nov. 29 and attended by representatives of the PCG, the South Plains Farmer-Ginner committee, South Plains Ginner Assn., Farm Bureau, Farmer Union and businesses.

The eight specific recommendations the group listed as favoring the improvement of cotton classing were:

1. Establishment of uniform humidity equipment in all classing offices in this area, whether it be the Lubbock office or other newly established offices, and that cotton be allowed to condition—12 to 24 hours—before classing is done.

2. Multiple classing offices be considered for this area. W. O. Fortenberry, president of PCG appointed a committee to study this program and report later. This committee is Curtice Boyd, Lubbock, Chairman; John I. Bowling, Hale Center, and Kenneth Purcell, Brownfield, members.

3. Samples of bales taken at both gins and compresses were discussed and the group voted for more uniform samples regardless of where taken and also recommended that the ultimate goal be the taking of automatic samples from gins.

4. Recommended the return to use of the class or "pink" sheet by the classing office and that each classer be given a code number and it be placed on the pink sheet.

5. Establishment of a classing review board composed of one qualified classer each to represent the farmer, the cotton trade and the government, and the grade given by this board be a final grade.

6. The date entered on the green card be the date the sample was received at the cotton classing office instead of the date the cotton was actually classed.

7. The Commodity Credit Corporation recognize and set a value for light spotted cotton in the govern-

The intermediates had a party Friday night in the home of their teacher, Mrs. Walt Beavers. Special guests were Lucy Beth and Bobby Miller, Manuel Beavers and Mrs. Bill Gentry.

Members present were Dorotha Stewart, Jimmy Gentry, Billy Lynn Miller, Ted Wimberley, Loretta Russell, Wainie Beavers and Mrs. Beavers.

**Recent Birthday Honorees.**  
Among those who have had a birthday the past month are David McClung, Lucy Beth Miller, Wainie Beavers, Rosemary Stewart, Ted Wimberley, Recca Stewart, Pat Tucker, Dion Miller and Mrs. Ray T. Stewart. We all hope that these people had happy birthdays. Mr. and Mrs. H. T. Trimmer, former residents of this community, were through here last week and stopped for a few minutes' visit with friends.

**Corps Group Meets**  
A meeting was held Tuesday evening at the school to organize a Ready-Reserve Ground Observer Corps Observation Post. S/Sgt. Calvin Doyle of Amarillo was present to explain the program and to show a film. The name of the film was "Guardians All" which showed the elements of air defense. The air defense filter center of this area is Oklahoma City.

The post supervisor here is Gayle Neal. Anyone who is interested may still sign up and attend the next meeting to be held in January. The date will be announced later.

Gail Miller and Betty Hagar attended the football game in Phillips Friday evening. They are in the high school band.
