55th Year — No. 5

Around Town

Hereford was enjoying a wind swept snow Wednesday, and by 3 p.m. the ground was beginning to take on a white look. Only a trace of moisture had been recorded, however.

Farmers who passed up the Jan. 15 deadline for filing estimates of 1955 income were reminded this week by H. B. Hamill of the Amarillo Internal Revenue office that they need to file their final 1955 returns by Feb. 15 to avoid penalty. For income tax purposes, a farmer is one who derives two-thirds or more of his gross income from farming, Hamill said.

A representative of the Social Security office in Amarillo will be in Hereford Feb. 23 at the courthouse at 9:30 a.m.

The Youth Club of St. Anthony's Catholic Church will sponsor a Valentine Dance Feb. 14 at St. Anthony's Auditorium.

Public Schools Week Will Be Observed Here

By proclamation of Governor Shivers, the week of March 5 through 10 has been set as Texas Public Schools Week for 1956. Plans are under way for the local observance, which will emphasize better understanding between the home, school and community. Tentative projects involving all Hereford schools were discussed in a meeting of the administrative staff in the superintendent's office Tuesday morning. "The Public Schools — Democracy in Action," the slogan adopted by the State Board of Education will be stressed during Public Schools Week. A highlight of the local observance will be a special meeting of the Parent-Teacher Association to be held at that time, replacing the regular meeting scheduled for the fourth Monday in March. Texas Public Schools Week has a dual purpose: To acquaint the lay public with the problems of the school and to acquaint the school with the community background. The eventual goal is to benefit the student through public support for school improvement and better teaching brought about through the teacher's evaluation of the individual pupil in the light of his family and community background.

TOO COLD TO SWING—Candy Caple, three-year-old daughter of Mr. and Mrs. Bob Caple, was beginning to believe all the bad things she had heard about Panhandle weather this week when she looked out in the back

yard of her neighbors, Mr. and Mrs. Henry Thomas, and saw the scene pictured above. It wasn't really as bad as it seemed, however. The Caples had just left their lawn hose on all night. (Staff Photo)

'It's Always Fair Weather'

Francis Hardwick, owner-manager of the Star Theatre here, doesn't let bad breaks bother him in the least. When the temperature dipped to near freezing here Wednesday the Star was featuring as its main attraction the movie "It's Always Fair Weather."

John G. Knight Dies in Hereford

Funeral services were held Wednesday morning for John G. Knight, pioneer Randall County resident, in Blackburn-Shaw Memorial Chapel in Amarillo with the Rev. John R. Sharp of the Presbyterian Church of Canyon officiating. Interment was in Dreamland Cemetery at Canyon. Mr. Knight died Monday in his daughter's home, Mrs. Pat Wederbrook of Hereford. He was born April 17, 1866 in Smith County and in 1890 he moved to Canyon, where he bought a blacksmith shop and operated it

Price Daniel Backs Grain Sorghum Association Plan

Senator Price Daniel has hurled his support back of the Grain Sorghum Producers Association plan to get 90 percent of parity for all feed grains, he announced this week. "These farmers contend, and I agree with them, that the Benson farm program has been a failure and that his new proposals are not sufficient to solve the real problems facing the farmers of the country," Daniel said. "I voted against the Benson flexible price support program in 1954 and will vote this year to restore 90 percent of parity and return to an effective soil conservation program."

The plan suggested by Panhandle farmers would establish price supports at 90 percent of parity on the present basic crops and on all feed grains, provided that 15 percent of all the tillable land on each farm is taken out of production or converted to soil-building practices. Farmers would receive no pay for the layout or "soil bank" acreage. The percentage of land devoted to this purpose would be increased or reduced each year according to the supply of feed grain. Cross-compliance as to wheat

and cotton allotments would be in effect but no marketing quotas or acreage allotments would be necessary on feed grains. In case of drought, hail, or floods the farmers would be permitted to plant feed grains on land otherwise used for the basic crops. Farms of less than 20 acres would receive 90 percent of parity without complying with the layout or soil bank requirements.

"There is no greater danger to the nation's economy than for our farm and livestock income to be going down when corporate profits and dividends continue to rise," Senator Daniel pointed out. "There must be a better balance so that our farmers will receive a fair share of the national income. Improving our farm program is the most important legislation in the Congress both to Texas and to the nation, and I have urged the Senate Agriculture Committee to give special attention to the needs of family-size farmers and to the feed grain program sponsored and presented in detail to the committee by Frank Moore and Harold LaPoint of Plainview and R. G. Feeler of Hereford. This program would do much to reduce acreage planted to price support crops now contributing to over-production, Daniel said. Another important point is that farmers would maintain their own soil-building program without direct payments for that purpose. Their compensation would come as a result of the 90 percent of parity on crops actually planted, the Senator added.

Grand Jury Indicts 11

Eleven indictments and eight no bills were returned by a hard working Deaf Smith County District Court Grand Jury here late Tuesday afternoon after a two day session.

Indictments included one each for murder with malice and rape and incest. Two indictments were returned for embezzlement, two for child desertion, two for felony hot checking, and one each for forgery, removal of mortgaged property and felony theft. Clifton D. Potter was re-indicted

for murder with malice. He is charged with fatally injuring George Thompson in a shooting scrape last March 2. Thompson died May 31 in the Deaf Smith County Hospital, allegedly from four gunshot wounds.

A previous indictment against Potter was quashed Nov. 14 by District Judge Harry Schultz after defense attorneys challenged two members of the Grand Jury who did not hold poll tax slips.

J. L. Wozencraft was indicted for rape and incest. Charges were filed against Wozencraft after a complaint by his daughter, who is a juvenile.

Indicted for forgery was Paul Hunter Carter. V. O. Vega was indicted for removal of mortgaged property, and true bills were returned against Ralph Kost for felony theft and C. C. Whitaker for felony hot checking.

Five other indictments were returned, but defendants in the cases were not in custody of officers and had not been released on bond.

Members of the Grand Jury were Troy Moore, Mrs. Carl Perrin, L. Culpepper, Mrs. N. G. Elliston, Paul Harvey, Mrs. T. W. Robertson, Cecil Lady, Mrs. S. B. McLallen, Calvin Goodin, Mrs. C. W. Parker, H. M. Benson and Mrs. C. E. Wombie.

Chief Box Will Attend Juvenile Meet In Amarillo

Hereford Chief of Police Leo Box will attend a conference on "Juvenile Crime" in Amarillo Monday.

The conference is being held under the auspices of the Texas Police Association. R. H. Rhodes, Amarillo chief of police, said. "An excellent program has been arranged and officers from cities and towns throughout West Texas will attend."

Two such conferences on the same subject held recently, at Longview and San Antonio, attracted widespread attention.

Speakers on the Amarillo program, who will discuss various phases of the "Juvenile Problem" will include W. A. Murphy, chief special agent, FBI, Dallas; Colonel Homer Garrison Jr., director of the Texas Department of Public Safety; Davis Grant, first assistant attorney general; Wesley Izard, publisher of the Amarillo Daily News, and others. The meeting will be held in the Municipal Auditorium. Officers of all jurisdictions, city and county officials, teachers and others interested in the prevention of Juvenile Delinquency are invited to

Teachers Unit Is Organized Here

A Classroom Teachers Unit was organized in Hereford following a tea in the Shirley School Cafeteria Tuesday afternoon. Mrs. Maybell McDaniel of Fort Worth, state Classroom Teachers president, was guest speaker for the occasion; which was hosted by teachers at Shirley School.

Mrs. McDaniel, a Fort Worth classroom teacher, discussed the purpose of C.T.A. She said that it is a professional organization of classroom teachers, giving them a means of having a voice in the betterment of schools in cooperation with the administration and other organizations.

Mrs. Sophie Snavely was named temporary president of the local unit in the organization meeting held following the address. Mrs. Woodie Wilson was chosen temporary secretary.

Two committees were appointed to serve during the completion of the organization. Serving on the nominating committee are: Robert Thompson, Mrs. Lucille Smith, Robert Naylor, Mrs. H. V. Crawford, and Mrs. Tandy Legg. L. L. Chisum will serve as chairman of the constitution and by-laws committee; other members are Byron Durham, Colline Brown, Mrs. Carroll Whiteside, and Mrs. Mary Carter.

The next meeting of the Classroom Teachers' Association will be held following the regular faculty meeting Feb. 13, at which time the organization will be completed

LAST POLL TAX PAYMENT — Sheriff Lowell Sharp hands Burke Inman poll tax slip number 3100 Tuesday night — the final payment recorded here. Poll Tax Payments Soar To Over 3000

A last hour rush Tuesday fell 196 short of setting a new all-time high on poll tax sales in Deaf Smith County. Final count Wednesday morning was an even 3100, with an additional 63 exemption slips, issued to 21 year olds.

More than one thousand slips were bought during the final two days, with most of the rush coming during the last few hours Tuesday. Most poll tax slips ever sold in this county, was 3296, in 1952, the last presidential election year.

Meantime the political front remained unchanged. Only five candidates have yet announced their intentions. Frank D. McCown of Dallam County and Archie S. McDaniel of Moore County are both vying for the office of District Attorney. John R. Hastings has announced for the newly created office of tax assessor - collector. Lowell Sharp seeks re-election as sheriff and Jesse M. Osborn, Bailey County is seeking reelection as state representative of the 96th District.

County offices which will be held during this year's election include the tax assessor collector, sheriff, county attorney, Precinct 1 and 3 commissioners, public weigher and justice of the peace. Three School Board members' terms will expire. They are Robert Wagoner, H. H. Miller and Earl Plank.

In addition voters will elect district attorney and district representative.

Tax Collections In County Good; Penalties Start

All tax collecting agencies in Deaf Smith County had collected at least 80 percent of taxes at the close of business Tuesday — the last day to pay taxes without a penalty.

Hereford Independent School District Tax Collector Fred Baird said that an estimated 89 percent of the \$347,585.95 in school taxes had been paid.

County and State taxes, which total \$297,599.54, were an estimated 87 percent paid and City taxes, totaling \$138,294.45, were 80 percent collected.

"During February a penalty of one percent and a half percent interest will be charged by all taxing agencies. The combined penalty and interest will increase to three percent in March, to 4 1/2 percent in April, to six percent in May, to 7 1/2 percent in June and to 11 percent in July. Thereafter the interest increases at a rate of a half percent each month.

Total amount of taxes accessed by the three agencies is \$783,479.94.

Enrollment In Insurance Plan Reported Good

Approximately 45 percent of the students of Hereford Public Schools have enrolled in the schooltime accident insurance program being offered them through Friday of this week. Supt. Fred Cunningham said Wednesday. He commented that the extremely low rate on accident insurance is made possible only by the large group being served.

The plan being offered local students is administered by the Jack Walders' Agency of Amarillo. It offers coverage for students and faculty members who participate during the remainder of the 1955-56 school year for injuries received while attending school during the hours and on the days when school is in session, including sports.

Final Rites Are Held Here For Mrs. Edna Kendall

Funeral Services are pending for Mrs. Edna Shackelford Kendall, 64, who died Tuesday at her home in Amarillo from a heart attack.

Mrs. Kendall was born June 29, 1891 at Trenton, Mo. She came to Texas as a child from Clovis and came to Deaf Smith County in 1920 from Montague County. In 1920, Mrs. Kendall married Henry Kendall at Clovis.

She was a member of the Polk Street Methodist Church in Amarillo.

Survivors are her husband, Henry Kendall; two daughters, Mrs. Pauline Lady of Hereford and

Line To Speak At Merchants Meet

County Attorney Ed Line will speak at the regular weekly meeting of the Hereford Merchants Association Friday morning at 10 a.m.

Meeting date has been switched back to Friday mornings so that more members will have a chance to attend.

THEY FINALLY ARRIVED — These five Hereford High School seniors waited 12 long years for their senior class rings to arrive, but at last the big day arrived. The rings are gold with a simulated ruby set. A bull head is engraved on one side of the ring and a picture of the high school building on the other. En-

graved around the ruby is "Hereford High School," with four stars, standing for the four years the students spent in high school. From left to right are Wayne Smith, Tony Benson, Wylajean Quattlebaum, Jon Fraser and Tommy Weemes. (Staff Photo)

Your Congressman Reports

The Department of Commerce has recently released the 1954 census of agriculture. Significant changes in the agricultural picture are obvious.

In the United States from 1950 to 1954 the number of farms decreased by 600,000. There was a decrease in every state except Florida. This was a decline of 11.1 percent in the number of farms. This census reflects that there are fewer farms in 1954 than for any census since 1890.

Largest portion of this decrease was in the family-sized farms of from 10 to 100 acres. Farmers in that category declined 449,000 or 17.8 percent between 1950 and 1954. In 1925 there were 63,328 farms of 100 acres and over in the United States. By 1954 this number had increased to 130,463. Farms consisting of 500 acres or more have increased 55 percent during the last 30 years. It might also be pointed out that there has been an increase in the number of farms of less than 10 acres resulting largely from the purchase and use of small acreage plots by city dwellers near metropolitan areas.

The total area of all farms in 1954 was almost the same as in 1950 and comprised over three-fifths of the total land area of this nation. These figures simply mean that human beings left the land and moved to the cities. Although land in farms from which crops were harvested decreased 12 million acres below the 1949 total, the irrigated acreage of farm land increased almost three and three-fourths million acres during the same period. The total acreage of irrigated land is now over 29 million acres out of approximately 333 million acres of farm land from which crops are harvested. The figures seem to indicate that many of the people leaving the farm were tenants, either cash or share.

In Texas the decrease in family-size farms between 10 acres and 200 acres was approximately 43,000. The decrease in farm tenants in Texas was about 25,000. The decrease in farmers who owned their own farms was about 15,000. The census shows among other things that there are 111,000 farms in Texas having telephones, 269,000 with electricity, 90,000 with television sets, 199,000 with running water, 93,000 with home freezers and 117,000 with artificial ponds, reservoirs and earth tanks. These figures indicate that even though life on the farm now includes many of the modern-day conveniences, the people are leaving the farm in great numbers. This leads to the conclusion that this migration must be caused by the instability of the agricultural economy and the spasmodic declines in farm income. I do not like to see people moving from the land. History records that this has always spelled tragedy for nations. Our job in this generation is to stabilize the farm economy and put it on an even keel with the other segments of our economy so that our people will have an incentive to remain close to the land.

The Bricker Amendment

Some testimony before a Congressional committee just the other day made it very clear that the Administration is still against the Bricker Amendment and, in fact, considers any attempt to limit the powers of the President to enter into agreements with other countries to be unconstitutional. The testimony was before a subcommittee of the Committee on Interstate and Foreign Commerce. A representative of the State Department testified in effect that a provision in a proposed law stipulating that certain agreements between this country and another country could only be made by a treaty, would be an infringement on the President's Constitutional powers and, therefore, unconstitutional. The alarm about these situations grows out of the fact that if the agreement can be made only by treaty, there will be no agreement unless the Senate ratifies the treaty. Without the Senate provision, the agreement could be made between the President of this country and the proper authorities of another country and would be binding upon our people in almost the same effect as one of our laws.

Another Incident in Kiev

As I pointed out in a previous newsletter, the Russians are very proud of having mastered the art of making ice cream. This pride is in full evidence from the Finnish border to the Black Sea. The manager of the hotel in Kiev was a young man about 30. He was most solicitous of our welfare and most anxious to please us. At lunch the first day in Kiev we ordered ice cream for desert, which pleased him very much. However, he undertook to explain something in a mixture of Russian and English. It sounded like he was saying "mit out gem" or "mitout gem." We finally decided that he was trying to say "jam" and was referring to some kind of sauce or topping for the ice cream. After much badgering back and forth one of our group, an affable fellow from Minnesota, said to him in a most conciliatory tone, "Bring some with jam and some without jam, we like it both ways." The manager then left the room in a hurry and came back with two interpreters. We explained the situation to the interpreter in English and the manager explained it in Russian. The interpreters laughed heartily. They explained that what the manager was trying to do was to make us understand that he didn't have any ice cream "with jam" or "any without jam." We found out the next day that the manager was very much disturbed and hurt because he thought we were laughing at him and that it might get him into serious trouble. We immediately got in touch with him and some officials and explained in detail that we were laughing at each other and not at the manager. This seemed to settle a situation that was a perfect example of "much ado about nothing."

City of about 1 1/2 million people located on the Black Sea. We arrived after dusk. It was one of the most uneasy moments I had on the trip. We could feel the plane coming closer and closer to the ground but could see no airport or landing strip. Just as it seemed that we were about to touch earth there was a flash of flood lights on a sod field. The plane came in very quickly, something like a chicken hawk picking up a chicken. As soon as the wheels touched the earth the flood lights went off and there was an inky blackness. The runway was sod and very rough. The plane went up to the gate in front of the airport building. We got off of the plane and were met by a Mr. Dremin, a small man with a black moustache, a black porkpie hat and a long black overcoat. We were literally whisked into town. There were several items of great interest in Odessa that I will try to describe in subsequent newsletters. Three very important ones were the Port itself, the collective farm that we visited there and the People's Court that we visited.

Ghost Of Deaf Man's Hollow Isn't Joking Matter Around Caviness

CAVINESS — Oldtimers in and around this little Lamar County town say the Ghost of Dead Man's Hollow returns at certain times of the year — usually on dark moonless nights.

This isn't just another ghost story, they say, like the tales to be heard in many small communities.

And they point to a jagged scar on a giant bois d'arc tree a few yards from Dead Man's Hollow, about three miles north of town. That scar in the bark marks the grave of a murdered man.

Everyone knows that the bones of a man named Pete Brown are buried at the roots of that giant tree.

Brown was killed in 1867 but nobody has forgotten.

Here's the way the story goes: Brown went to Paris with some friends and relatives to sell his cotton. There was an argument and he started to return home alone. It began to get dark and he decided to camp near a stream that is now called Dead Man's Branch. While Brown cooked supper he was attacked and shot.

Two men, John Lee and Tom Vestal, found Brown a few hours later and took him to Lee's house nearby. It was too late. Brown died.

The next morning the two buried Brown on the spot where he had been shot, as was the custom then. They marked his grave with a slash on a small bois d'arc tree. The murderers were never found.

That is the reason, oldtimers say, the Ghost of Dead Man's Hollow returns.

shop, field trips and other school-sponsored endeavors. Also included in the coverage are accidents occurring while the student is traveling directly to or from school, with a one-hour limit each way, and while participating in school-sponsored and supervised activities either away from the school premises or after school hours.

Some students have understood that payment for treatment would start only with accidental death or extreme injury. School officials point out that this is not true. Treatment of all accidents is covered, up to \$2500 for physician, surgeon, hospital, or nurse per injury. Dental expense is covered up to \$100. The only accidents not covered are the first \$25 of medical expense for injuries from interscholastic football, injuries from acts of war, service or treatment by any person retained by the school, eyeglasses or prescriptions therefor, and non-commercial air travel. Additional benefits are provided for accidental death or dismemberment within 180 days following the accident.

and officers will be elected. Accompanying Mrs. McDaniel to Hereford was Mrs. Scott of Tulla, vice president of District Nine, Texas State Teachers' Association. Approximately 90 teachers attended Tuesday's meeting.

The first appearance was a few years after the killing. A man named McNeal said a shadow "jumped from the side of the road and caught my horse's bridle. The shadow looked up at me for a moment then told me to go on because I was not the man he was looking for."

The stories of the shadow grew as the years passed.

Some said a shadow would jump out and stop their horses and the poor animals would have to be whipped before they would move on.

Mrs. Ida Cunningham, a long time Caviness resident who now lives in Paris, says one man reported that he saw the shadow near Brown's grave and it followed him for about a mile.

Several persons said they saw a man or shadow cross the road just in front or just back of them as they passed the grave.

Sid Caviness, who still lives in the Caviness community, said a group of boys once saw a bale of cotton in the middle of the road as they were crossing the hollow. One of them got out to examine the bale and it disappeared.

One of the latest stories comes from P. E. Thompson, who now lives in Blossom. Thompson was driving a wagon home from the Caviness gin. When he reached Dead Man's Hollow he saw what seemed to be a flash of light that jumped upwards higher than the treetops. He said the flash was repeated maybe half a dozen times — then, Thompson says, he saw that the flashes were coming from the roots of the big old bois d'arc tree where Brown was buried.

This happened on a dark moonless night, just like the others.

Carving Makes Dallas Man Famous; Keeps Him Young

By TIM PARKER
Associated Press Staff

A. F. Strohmeier, one of the Southwest's greatest wood carvers is in his 80s and his hair is white. Does that make him a white-haired old man?

"Me old?" he asks in a surprised tone.

"Look at me!" he exclaims with a broad sweep of his arm toward the wood carvings in his Dallas home and shop. "Here I am doing what I've always wanted to do. Why, I have five weeks of work backed up."

In other words, he's just too busy and interested to grow old. His hair, for that matter, has been white for 40 years. His quick step, sharp blue eyes and erect figure deny his age.

He worries about young people instead of himself. Young people, he says, aren't willing to take great pains. "They aren't interested. They fidget."

A small slender man with close-cropped hair, Strohmeier usually wears sport shirt and slacks while conducting his wood-carving classes in his shop behind his home at 801 S. Carroll in Dallas.

The 1 1/2-story white, frame house is the same one he and Mrs. Strohmeier moved into when they first came to Texas 35 years ago.

In those 35 years, Strohmeier has given Texas much beauty. Some of his most recent works are among his best. They include stairways in luxurious homes, lifelike statues, furniture, but most of all, church interiors.

You can see his work in Dallas' Highland Park Methodist Church, St. Matthews Episcopal Church, and Holy Trinity Catholic Church. He did all the carving for Neiman-Marcus' downtown store and frets because a woman brought in from New York by the specialty store had some of it covered by a noise wall.

Large pillars in the Caprock Hotel at Lubbock are among the works he is proud of. And life-size statues of The Lady and The Tramp — the lovable dog characters in a recent Walt Disney movie. Disney ordered the statues, liked them, and has ordered more.

Strohmeier, son of a Wheeling, W. Va., cabinet maker, became a cabinet maker himself after rejecting a teaching career for which he was educated. He taught languages in a Tennessee "female college" for 18 months and that was enough.

He taught wood-carving in a Dallas high school for 15 years.

classes in my shop here." His students include men and women of all walks of life.

One of them, Mrs. Sannie A. O'Connor, has put her skill to use at home. She has carved three garage doors, one front door and a set of outside shutters. A voice teacher, Mrs. O'Connor is known by her neighbors as "The woman who carved up her garage doors."

This Dessert Is In The Pink

By CECILY BROWNSTONE
Associated Press Food Editor

A rosy pink fluff of a dessert is appropriate for Valentine Day—and delicious all the year round. We made this airy sweet of red fruit-flavored gelatin and canned purple-red plums. Served in individual dishes or in molded shapes, it's pretty as can be.

One must about this dessert: we think it tastes best accompanied by a custard sauce. The sauce may be made from scratch, following a standard recipe, or it may be turned out in double-quick time from a packaged pudding-and-pie-filling mix.

To serve with this gelatin dessert you might bake some sugar cookies, cutting them heart-shaped and

jumbo-sized. Tint frosting for the cookies pink; put it in a pastry tube and write "Be My Valentine" across the front.

Here are the recipes for the fluffy pink dessert and the jig-time sauce:

PLUM SNOW
Ingredients: 1 package fruit-flavored gelatin (any red color), 1 cup very hot water, 1 cup canned

plum juice, 2 egg whites, 1 cup chopped drained canned purple-red plums.

Method: Dissolve the gelatin in the very hot water. Stir in plum juice. Chill until slightly thickened. Then place over bowl of ice and cold water; add egg whites; whip with rotary egg beater (electric or hand) until fluffy, thick, and volume has tripled. Fold in chopped plums. Spoon into individual molds or pile lightly in sherbet glasses. Chill until firm. Serve with custard sauce. Makes 10 servings.

QUICK CUSTARD SAUCE
Ingredients: 1 package (3/4 ounces) vanilla pudding-and-pie-filling mix, 3 cups milk.

Method: Put pudding mix in a saucepan; gradually add milk, stirring well so mixture will be smooth. Cook and stir over moderate heat until mixture comes to a full boil. Remove from heat. Cool, covered; or stir often while cooling. Chill if desired. Makes 2 1/2 cups sauce—ample for 10 servings of Plum Snow.

TIPS FROM CUPID'S KITCHEN
Here's another idea for a Valentine dessert. With a paper pattern or a special cutter, cut hearts from a sheet of white cake made from scratch or a mix. Cover each cake heart with a plain white butter frosting. At serving time, top the individual servings of cake with hearts cut out of red fruit-flavored gelatin. Pour the gelatin, made according to package directions, into a shallow pan to set so it will be easy to make hearts from it.

Bake a white cake (made from scratch or from a mix) in three round layers; tint the batter for

one layer pink before baking. Put the layers together with whipped cream. Cover the whole cake with a pink jelly frosting. Or frost the top and sides of cake with whipped cream and then cover the cream with coconut tinted pink.

Mold regular Spanish cream in individual heart-shaped molds. A red cherry sauce may be served with this. Use a can of cherries for the sauce and thicken with cornstarch; add a little almond flavoring if you like.

Texas Press Association

AUSTIN — Accusations and de-
nials fill the air as investigators
dig into details of how US Trust
and Guaranty and other now-
defunct companies operated.

Rep. Bert McDaniel of Waco,
lawyer for US Trust, told house
investigators he had no knowledge
of payment by any A. B. Shoemaker
company to influence legislation.

McDaniel said he sponsored a
bill to bring such companies un-
der securities regulation and voted
for a similar bill which passed. He
said he abstained from voting on
HB 240 which would have placed
US Trust under the state banking
laws.

Former State Sen. R. C. Lanning
of Austin also said he knew of no
payments by Shoemaker to legisla-
tors. Both McDaniel and Lanning,
an attorney who resigned from the
Board of Control to represent
Shoemaker during the legislature,
said they had done nothing illegal
or unethical.

Renne Allred Jr., former Insur-
ance Commission examiner, de-
clared that bank affidavits on in-
surance company assets cannot al-
ways be taken at face value. He
says he taken at face value. He
cited a case involving the now-
defunct Commercial Security In-
surance Co. of Houston. It show-
ed a bank deposit of \$250,000. But,
said Allred, this was \$50,000 in
cash and a note for \$200,000 with
a restriction against drawing on

the account.
Bank officials immediately de-
nied this. They declared they had
proven in court that there was no
restriction against this account.

Allred also testified that the In-
surance Commission received in-
formation in a report in Septem-
ber, 1954, that would have enabled
it to close down US Trust then.

Two executives of large legal re-
serve life companies presented in-
dustry views in an appearance be-
fore the Senate committee. Em-
phasizing Texas legal reserve life
companies' long record of no loss
to policyholders, they declared that
they felt such companies had been
unfairly damaged by recent de-
velopments.

Present insurance laws are ade-
quate, they said. The problem now
is enforcement. Along this line
they suggested the possibility of a
single commissioner with sole po-
wer. This drew quick fire from
Gov. Allan Shivers. These compan-
ies, he said, had asked his help
during the last session of the leg-
islature to set up the present three-
man board system.

US Trust operated without a li-
cense from May 31, 1955, until put
into receivership Dec. 12, an In-
surance Commission attorney told
the Senate Investigating Commit-
tee. Paul Connor said that all com-
pany licenses expire May 31, but
by "tacit understanding" they con-
tinue operating until the commis-
sion takes action to deny a new
license.

Quizzing of employees brought
out a strengthened conception of
US Trust as a "one-man business"
but shed no light on whether more
than \$50,000 in cash withdrawals
was used to buy influence. Former
staffers told the house committee
that money from checks drawn to
"cash" went to the president, and
they had no knowledge of what he
did with it.

Both House and Senate commit-
tee chairmen stated they want to
question Shoemaker as soon as he
is able to appear. He has been in
the hospital since his Jan. 7 sui-
cide attempt.

Meanwhile, the Insurance Com-
mission began work on a revised
plan to hasten the examination of
Texas companies. All will be re-
quired to prove solvency by May
31 or lose their licenses.

Also being considered is a re-
quirement that insurance compan-
ies publish financial reports such
as are demanded of banks and
other institutions handling vast
sums of money belonging to depos-
itors.

Revenue Fund in Red
Texas' general revenue fund is
\$1,100,000 in the red... and it is
expected to dip lower.

State Comptroller Robert S. Cal-
vert said the deficit likely will con-
tinue until May when income tax-
es should exceed expenses again.
Meanwhile, the shortage may hit
10 million dollars. Nobody will lose
said Calvert, since banks have
agreed to cash warrants without
discount.

A similar state deficit developed
last year and continued until the
spring payment of corporation

Spanish Flavor Is Sought By Party Goers

By Jane Eads

Washington—Party goers in this
town thought they'd had everything
in the way of lavish and unusual
entertaining, dining, and
dancing in elegant private homes
of famed wealthy hostesses, and
in beautiful embassies of foreign
envoys. They expected splendor
and got it. Now they are savoring
a new type of spectacular with an
extravagant Spanish flavor.

The Spanish ambassador and his
chic wife, the Countess of Matrop
whose recent coming-out ball for
their slender dark-eyed debutante
daughter, Mercedes, is still the talk
of the town, are really going all
out to impress people, as well as
to make friends.

The handsome and wealthy
couple, descended from two of
Spain's oldest noble families, began
preparations for their role as the
diplomatic corps' No 1 hosts soon
after their arrival a year ago
when they had the somewhat run-
down embassy on 16th street com-
pletely overhauled and redecorated.

None less than the Archduke
Franz Josef and his wife, Prin-
cess Martha, did the exquisite re-
decorating of the handsome em-
bassy, which now boasts the only
sizeable private ballroom in town.
The archduke, a descendant of the

franchise taxes replenished the
general fund.

Four Elections in 1956
There will be an extra election
in 1956 as the result of a legisla-
tive boner. The error will cost the
state and some counties \$200,000.

Nine constitutional amendments
will be voted on in November.
Eight were drawn properly. One,
however, calls for a vote on the
second Tuesday in the month. Gen-
eral election day is Nov. 6 — the
first Tuesday. Therefore the state
must call an election the following
week in order that the ninth
amendment may be legally voted
upon. That will be Nov. 13.

The troublesome amendment
would permit the state to spend up
to \$1,500,000 a year in aid to de-
pendent persons over 18 years of
age who are mentally or physical-
ly totally disabled.

Supporters Write Shepperd
Rumors that Attorney General
John Ben Shepperd planned a quiet
retirement to private life following
this term in office have sparked a
drive by his friends to keep him
in public office. Not only has Shep-
perd been besieged by calls, wires
and letters urging that he stay in
Texas government, but reports have
issued a campaign chest ample for any
contested race.

Evidence Withheld
An accusation of hampering the
investigation of a murder case
has been made against Ronnie
Dugger, editor of the Texas Ob-
server, a political tabloid published
in Austin. District Attorney Ralph
Prince leveled the charges from
Longview. He said Dugger would
be called before the grand jury
there to explain why he had failed
to turn over "important evidence"
(a bullet) which Dugger found at
the scene of a shooting. Turning
over of such evidence is required
by law, Prince pointed out. The
grand jury is investigating the
death of a Gregg Co. Negro youth.
Dugger denied a statement by
Prince that he was trying to "cre-
ate racial unrest" in the area.

SHORT SHORTS: Mrs. Margaret
Allen, who served with U. S. Sena-
tor Price Daniel when he was At-
torney General of Texas, will join
the Senator's staff in Washington,
D. C. early in February. At pre-
sent she is a receptionist for At-
torney General Shepperd, the past
five years by placing additional
money on "time" deposit, accord-
ing to State Auditor C. H. Cavness.
Women who have refrained
from paying poll taxes to avoid
jury service have sacrificed their
vote in vain, say county officials.
In all counties except Jefferson,
names of all persons paying any
sort of county tax are put in the
poll book.

CANDIDATE NUMBER FOUR? — Ralph Yarborough, two time loser for the state's highest office, told a group in Hereford Monday that, "If I run for any office in 1956 it will be for Governor of Texas." Yarborough, who made speeches in Canyon and Tulia, spoke briefly here at a luncheon held in his honor. (Alex Thompson Photo)

All Cooks Like Gay Aprons

By DOROTHY ROE
Associated Press Women's Editor

The best home sewing project is something that is fun to make and fun to wear. Scoring both ways is a happily applied new apron with soutache braid writing for the junior cook in the family. It's simple enough for her to make by herself, and attractive enough to wear right into the living room, telling everybody, "It's fun to cook."

Funny-face appliques may be cut out of a gay printed linen dish towel. A real potholder in some whimsical form, such as a smiling teapot, is conveniently buttoned onto the apron front. Any other clearly outlined designs you may fancy, on washable fabric, may be used as decorations for the apron. Choose decorative fruits, vegetables or any appropriate kitchen-inspired designs for your cutouts. And make quick and easy work of the whole apron the expert way by using your sewing machine and its handy set of attachments.

To make the apron you will need one yard of indianhead or a similar sturdy cotton fabric, in any solid color; one package of No. 5 single fold white bias binding; one package of white soutache braid; one spool of white and one spool of black thread; a half-inch pearl button; a quarter yard of outing flannel, and enough patterned fabric to cut out the desired applique designs.

Using a circular apron pattern, available at local sewing centers, cut out the apron. Next cut out the designs for the appliques, leaving a margin all around each design. Scatter the cutouts on the apron in any desired arrangement. Baste in place. Using the zigzag attachment for your machine, just stitch the cutouts to the apron, following the lines of the design. Cut away the extra margin of fabric close to the stitching.

Next cut out an appropriate design for the potholder, leaving a seam allowance around the design. Cut a matching piece from apron fabric for back of potholder. With right sides of fabric facing each other, stitch the two pieces together, leaving an opening so that it can be turned right side out. Trim seams and turn to right side. Interline with several thicknesses of outing flannel. Slipstitch folded edges of opening together. Using the buttonhole attachment, make a 1/2 inch button hole in the top or one corner of the potholder. Decide where the potholder is to be fastened and sew a button on the apron at this point.

Trace the hand-written sentence "It's fun to cook" on the wrong side of the apron if the underbraider attachment for your machine is to be used for applying the writing. Trace the words on the right side of the apron if the topbraider attachment is being used. Words should be placed in a curving line, following the curve of the bottom edge of the apron, in letters large enough for easy reading.

After applying the soutache braid writing, finish the edges of the apron with bias binding by using the multi-slotted binder attachment for the machine. To finish edges of the apron ties, use the narrow hemmer attachment for a fine, neat hem. Complete apron according to directions supplied with the pattern.

The name "panther" is often used both for the leopard and for the puma.

West Texas Congressmen Ask Why So Much Non-Military Foreign Aid

WASHINGTON, (AP)—Rep. J. T. Rutherford of West Texas and four other first-term congressmen decided over coffee cups in a House restaurant that the State Department wasn't letting them know enough about what's going on over the world.

"Especially in regard to our foreign aid," said Rutherford, "so we asked for a special briefing."

"We got it. And, it was quite interesting, but when we got down to the matter of foreign aid they just couldn't explain to our satisfaction why we should spend so much on non-military things."

It was agreed a follow-up briefing should be held after information could be assembled for them.

What made Rutherford unhappy was the plan for U. S. financial help in building the huge Aswan dam in Egypt, which will put two million acres into production of long staple cotton. Observing that long staple grows in the El Paso area, he said:

"We talked for three hours, at the conclusion of which I was still at a loss to find any logical reason why American dollars should be spent abroad to create more competition for our own people."

Participating with Rutherford in the briefing were Reps. Paul and Dan Fawcett of Florida, R. E. Lanford of Maryland and W. R. Hull of Missouri, all Democrats.

Another West Texan with similar views, Rep. O. C. Fisher of San Angelo, says a tax cut is possible this year "if non-essential spending is reduced."

Answering his own questions as to how this can be accomplished, Fisher said in remarks in the Congressional Record:

"We can, for example, take the aid out of the foreign aid and limit it in the main to necessary military assistance, with economic aid going only to those countries that are on the side of the Free World, that are strategic and cooperative, and which without our help are in danger of falling into communists' hands—thereby further endangering our own security and world peace."

AROUND THE CAPITAL

Like Robert E. Chapman, Air Force jet pilot, and his bride, the former Helen Gunter of San Angelo, were luncheon guests of Rep. Fisher (D-Tex) in the House dining room. Married in San Angelo, the couple stopped here en route to Westover Air Base near Boston, where he is stationed.

Originally from Russellville, Ark., Chapman met his wife during a visit to San Angelo with his West Point classmate from that city, James Surber, now an army lieutenant stationed at Fairchild Air Base, Spokane, Wash., with an anti-aircraft unit.

Another young service couple, Army Major G. J. Roddy and his wife, both formerly of Bullard and Longview, were also luncheon guests at the Capitol of Rep. Brady Gentry of Tyler. Roddy is now stationed at the Pentagon.

Every now and then a congressman takes the floor to announce the death of a predecessor who has been away from the Capitol so long that few remain who knew him personally.

Such was the case when Rep. Gentry (D-Tex) announced to the House the death of Morgan G. Sanders, 77, who had represented the 3rd Texas district from 1921 to 1939.

"Congressman Sanders served faithfully in the great American tradition and he enriched the lives of many devoted friends," Gentry told his colleagues.

Rep. John Bell of Chicago is pushing a bill to create the post of "assistant secretary of commerce for commercial fisheries."

Pointing to the commercial fishing out of Rockport, Port Aransas and other gulf points, Bell said establishment of such a position in

the government should stimulate research and explorations to aid the industry.

The Texas State Society, at a recent reception honoring all members of the state's congressional delegation, presented a plaque to Sen. Lyndon Johnson in recognition of his services as the immediate past president of the organization.

Mrs. Dale Miller, wife of the Washington representative of the Dallas Chamber of Commerce, is the current president and first woman to hold that position in the 55-year history of the society.

"I thank God for people such as you," said Johnson before the gathered Texans. "I only pray He permits me to live long enough to justify your faith and kindness."

One of the oldtimers in the Senate, Sen. Neely (D-W. Va.), 81, recently delivered as eloquent a tribute to Johnson as anyone ever received.

"Senator, thank you a thousand times for having led the democracy of the Senate from the lowland of minority dejection to the highland of majority elation, and for having magically and majestically established unsurpassable Democratic harmony in the Senate."

"To the surprise of the Nation, you have prevailed upon the highly diversified conservatives and liberals whom you lead to lie down together. Since the days of Hercules no greater labor than this has ever been performed."

then Texas will really get mad.

Is this enough? Am I back in the good graces of the Okies? If not, I am sure that I will hear from some of them. Honestly, I do believe half of the present population of Deaf Smith County migrated here from Oklahoma. I never saw anything like it. Even folks like Mr. and Mrs. Otis Dickey did some time in Oklahoma and, until the banquet, I never knew that Don Zimmerman was a fugitive from the Sooner State. People like Wayne Edwards, Otis Hall and Paul Harvey I have come to accept as Oklahoma escapees — but I never realized before just how generous the Sooners have been in providing population for the Texas Panhandle. In behalf of all these "Texans by choice," let me say that the grapevine has it that Josh Lee will probably be a candidate for Governor of Oklahoma in 1956. Such, at least, is the rumor which is making the rounds following his recent visit in Hereford.

Hereford was also host this week for a few hours to Ralph Yarborough, who is pretty sure to wind up in a run-off with Price Daniel in the race for Governor of our own state. Like I said before this '56 Texas race is going to pit "Liberalism vs. Conservatives" — and it is going to be a real dog fight before it is over.

I visited quite a while the other day with Jack Renfro, who is a surprising fellow in a lot of ways. He gets a big bang out of working with boys and girls, many of whom consider him their closest friend. I was also surprised to learn that he was once a school teacher. I guess you sort of classify people according to their occupation — and when you hear that they once did something else, it always comes as a shock.

Not long ago I was telling someone that Robert L. Thompson, present Hereford teacher and former county clerk, was a registered pharmacist. They found it hard to believe. Nevertheless, it is true. Bob is a first class pill roller and

still retains a license.

If you don't like pancakes you'd better leave town. Lions Club members Wednesday were issued 10 tickets each — and they have to sell the tickets to get off the hook personally. Well, you know those Lions. Besides, it was a pretty good deal last year, and is one of the few times you get all you can eat for 50 cents. They let anyone in on these terms — even J. W. Robinson, although in his case they naturally don't expect to get rich.

Tom Carroll is trying to get me killed. He says that Tom Sanders is breaking two race horses and, if I would go up and ride one of them I would really have something to write about in this column. The thing Tom forgot to take into consideration, in the second place, is that I probably wouldn't be writing the column in the first place. I am a strong booster for good hospitals — but I much prefer that other people use them whenever possible. No, Sir. I am thoroughly convinced that the automobile is here to stay; and they get my riding business 100 percent.

Meanwhile, I cannot help but wonder how much longer Ezra Taft Benson will continue in the Department of Agriculture post. Benson's recent boner on the letter to Harper's magazine is all too reminiscent of the Harry Truman letters and public escapades of similar type. Benson is the "weak link" in the Cabinet — which recalls the old saw about a chain being no stronger than its weakest link.

THE WEATHER . . . I am still looking for some moisture in February. Notice where the U. S. Weather Bureau has also switched around and is beginning to see things my way, despite earlier predictions. This is really the only discouraging sign, but maybe it will work out. After all, they are entitled to be right once in a while.

Virgil Moore, our orange-picking news editor from the Valley, is

having quite a time acclimating himself. His mother-in-law sent him two pair of long handle underwear back in October, and Virgil has been complaining because he wore them one day and nearly suffocated. Wednesday morning his chance came but, it seems, that he got off to work without realizing how cold it was. Now he says this country needs a few wind-breaks, especially between here and Vega. He goes around mumbling about things like radiant heating — and generally acting like a tenderfoot. What he needs to do is find out when to wear or not wear the long handles. It's as simple as that.

JOKES from Here and There: The little girl, upon being told that she was much better looking than her daddy, replied: "Well, I oughta be. I'm a later model."

Teacher: "Can anyone give me a sentence using the word 'Diadem'?" Pupil: "People who drive fast, diadem sight quicker than those who stop, look and listen."

First lady: "Gracious, it has been only five years since I saw you last — and you look so much older." Second lady: Yes, just five years

Damages Total \$400 In Wreck

Approximately \$400 damage resulted in a two-car collision here Monday at 3:20 p.m. at Miles Avenue and Fourth Street.

A 1940 Ford Pickup, driven by Marion Thompson Greer, and a 1954 Ford, driven by Howard LeRoy Hunter, collided, police said. Greer, going east on Fourth St., had stopped at the stop sign on the west side of Miles Avenue and then pulled out in front of Hunter's car. Hunter hit Greer's pickup in the center of the right side, turning the pickup completely around.

Approximately \$200 damage was done to Greer's pickup and \$200 damage was done to Hunter's car. Greer was charged with failure to grant right-of-way.

BRILLIANT START, FAST ENDING

WHITEFACES NIP CANYON

By BILL KNOX

Hereford's Whitefaces hauled out their one-two punch in the form of Don Weeks and LeRoy Morrison to spin past the Canyon Eagles, 66-64, before a sparse Tuesday night crowd in Whiteface gymnasium.

The Herd rocketed to 11 points before Canyon lit up the lights on the scoreboard. Then after the Eagles tightened the game up, the Whitefaces stepped back out front and registered the triumph. Canyon had twice previously handed the Herd beatings. The first was by 39-38, and the latter was a 40-29 defeat.

Weeks and Morrison personally accounted for more than half the Whitefaces' total point output. Morrison continually kept the Eagles honest with deadly accuracy from outside, while Weeks opened up the defense with his driving tactics.

But Canyon's Melvin Cunningham was high scorer of the night, dunking in 30 points. Weeks had 21 markers, and Morrison accounted for 18.

The Whitefaces' lightning-quick start and Canyon's sluggish beginning may have been the key to the ball game. Hereford racked up 11 points before the Eagles saw daylight and Canyon was behind by 14-5 at the first quarter mark.

Hereford was behind for only a brief spell in the game. Canyon took the lead with a field goal to begin the second half and gained another lead after Hereford had recaptured it.

The game started out to be a low-scoring affair but developed in its later stages. Freddy Lookingbill got the Whitefaces going with a field goal. Lookingbill broke the ice after both teams had gone scoreless for over three minutes. Don Weeks made it seven with a pair of field goals and a charity toss, then Lookingbill added two more to his total. Weeks added

another one from the field before Canyon scored.

Six minutes and 55 seconds had lapsed before the Eagles ripped the nets. Arthur Pruett got credit for Canyon's first two points, but Morrison countered for Hereford with a field goal of his own. Pruett and Charles Neblett accounted for three more Canyon points before the quarter reached its completion and the first period score was 14-5.

Jockey Still Rides At 49

AP Newsfeatures
At an age when most men would be wary of climbing on a hobby horse, Jockey Claude Hooper is booting home race horses.

He's 49 and believed to be the oldest active jockey in the country.

Hooper was born in Windsor, Ont., lived in Detroit since he was 16 and rode his first winner at the age of 31.

"I'll keep riding as long as I have the proper co-ordination of muscles and eyes," says Hooper. "As soon as I feel I'm getting afraid to go for an opening, I'll quit."

Hooper, who has performed at most of the major tracks in the United States, Mexico and Canada, never has trouble with his weight.

"I'm always at 109 pounds," he says. "Usually I only eat steak or eggs — a high protein diet. Maybe I drink only six glasses of water a year. It puts on weight."

In his spare time, Hooper bowls, hunts and plays gin rummy.

Canyon came up with a strong comeback in the second period, tightening the game to only a one-point margin for the Herd at half-time. With Canyon trailing 21-15, Melvin Cunningham brought the Eagles to within one point with a pair of gratis tosses and a field goal. Morrison sank one for Hereford to open it up to three, but Harlie Adams matched him with two. Weeks and Pruett exchanged field goals as the half ended.

George Snapp brought Canyon to the fore for the first time with a jump shot opening the second half. Fred Lookingbill gave the lead back to Hereford with a field goal. Melvin Cunningham then gave Canyon its last lead. Weeks and Norman Bookout popped the nets for two-pointers and after that the Eagles never caught up.

Hereford's largest lead after that however, was nine points. That was when the Herd led by 59-50 in the fourth quarter. Toward the finishing seconds of the game Canyon issued forth their last threat, but it failed.

Cunningham, Pruett, and Neblett racked up eight straight points without allowing Hereford any to make the score 61-60. Morrison opened it up with one from outside, but Miller made it only one point again. Then Don Weeks and Terry Higgins iced the game with a field goal and free shot with only five seconds remaining. George Snapp dropped in two more for Canyon before the final buzzer.

Other than Weeks' 21 and Morrison's 18, Bill Callaway scored nine and Fred Lookingbill and Terry Higgins had eight apiece. For Canyon Charles Neblett had 12, and Arthur Pruett nine.

Hereford controlled 14 out of 17 rebounds in the initial quarter. Canyon got only one rebound under their own basket and two at the Whitefaces' end. Canyon even-

ed things up somewhat in the remaining three quarters, but Hereford still managed to control 63 percent of the rebounds.

Buffalo Lake To Get Lift

Renovation of Buffalo Lake, popular Panhandle fishing spot, will be undertaken this spring, according to the Executive Secretary of the Game and Fish Commission.

The announcement was made following a conference with four officials of the Federal government which created the Randall County lake 15 years ago by damming Tierra Blanca Creek. It has 25 miles of shoreline; covers about one thousand acres and is 25 feet deep at the deepest part.

The lake, located about 20 miles from Hereford, will be treated with rotenone in an effort to remove rough fish so that game fish species may be restored in sufficient numbers for the heavy angling traffic.

The Executive Secretary, announcing the joint project, said more than 75,000 persons fished at Buffalo last year and that thousands more enjoyed boating and water sports.

He said the lake has been described as ideal for bass, bream and channel catfish, but that carp, buffalo and other undesirable species have overrun the area.

The Executive Secretary said Buffalo Lake is surrounded by public land, is served by three roads and is easily accessible.

The lake was created originally by the U. S. Soil Conservation Service and later was taken over by the U. S. Forest Service. Under

the joint renovation program, the Federal government will furnish the rotenone and the Game and Fish Commission will assign the manpower. Aquatic Biologist Leo Lewis of Wichita Falls has been tentatively assigned to supervise the work.

Rotenone is a chemical which, when mixed with water of a lake or stream, temporarily immobilizes fish by paralyzing their breathing apparatus. If returned to fresh water, they survive. Thus game fish usually are retrieved from the treated zone and released in fresh water while the rough fish either are salvaged for edible fish or permitted to perish and their carcasses used for fertilizer or some such.

During the fall, Buffalo Lake also has served as a key waterfowl refuge in the Panhandle. Migrating ducks and geese are attracted to that area and provide substantial sport for hunters over a wide area. The gunners get shots at the game birds as they move to and from feeding grounds. At one time last fall, it was estimated Buffalo housed 750,000 ducks and 50,000 geese.

Federal authorities participating in the planning program for Buffalo were: Lynn H. Hutchins of the U. S. Fish and Wildlife Service; Art Schilling, Assistant (US) Regional Forester; F. J. Monaghan Supervisor, Cibola National Forest and Walter J. Caserta, Assistant Supervisor, Cibola National Forest.

KNOX'S KNOTHINGS

By BILL KNOX

Something of a note in a recent Perryton paper. We read it was mentioned that the Interscholastic League prohibits a basketball team to play in more than three tournaments in one year. We had previously said that the Whitefaces would have played in five when the year reached its completion.

After a chat with Cubby Kitchens, we learned that the Dumas doubleheaders was not considered a tournament, and that the district tournament scheduled here does not count against the three tournaments allowed.

Therefore, the Whitefaces will have played in just the right number of tourneys. It could have been a quite serious violation if the actual number of tourneys would have been more than three.

The defeat recently handed the Palo Duro Dons by the Monterey Plainsmen could have been the best thing for the Dons.

The Dons were becoming quite cocky after losing only one game out of their first ten. This was to Norman, Okla., who was covered with praise and heralded the finest team in Oklahoma.

Monterey, it is apparent to us, does not have as fine a team as Palo Duro. But Palo Duro thought they had the game won before they trotted out on the court. Monterey probably knew this and gave them a licking.

Over-confidence was obviously the cause for defeat since the Dons had earlier stopped the Plainsmen by about 12 points. The district race is now knotted in a tie, but we still expect Palo Duro to take the district crown if they snap out of it.

The Phillips Blackhawks aren't big, but they make up for it in hustle. Actually their best men are two little boys, Ronnie Holder and Tommy Newman. Another little boy, Judge Perry, was high point man against Hereford.

Their two biggest boys, David Benefield and Carl Mitchell, aren't slouches, however. Benefield is a fine rebounder, and Mitchell was setting a torrid scoring pace.

No team in this district is especially tall, but next year the Hereford Whitefaces will probably be one of the tallest — and up among the top in the standings also.

Pitcher John Taylor of the St. Louis Cardinals in 1904 hurled 352 consecutive innings without relief.

Yankee coach Bill Dickey holds the record for most games played by a catcher in World Series competition — 38.

Household Scrapbook

Put a side of spareribs on a rack in a shallow pan; add a layer of bread-and-apple stuffing; top with another side of spareribs. Roast in a moderate (230 degrees) oven about an hour and a half. Serve with extra fried apple rings, if you like.

Cooled noodles, condensed cream of mushroom soup and tuna made a good substitute for lunch or supper. Dip the soup with a little milk and add a topping of grated cheddar cheese.

Gourmet fare: pump raisins in a little cooking sherry and serve as an accompaniment to chicken or shrimp curry. Other good curry accompaniments are sautéed mushrooms, fresh tomatoes and onions dressed with salt, pepper, vinegar and a little sugar; crisp crumbed bacon.

Cherry preserves, cream cheese and tuncrisp crackers make a fine ending to a meal.

Next time you prepare meat patties from ground meat, add a little ground allspice along with the salt and pepper.

Pretty vegetable for a company meal. Peel a whole small head of cauliflower, leaving on some of the small green leaves around the base of the vegetable, until tender-crisp. Put the cauliflower in the center of a round serving plate and surround with cooked carrots (sliced crosswise diagonally); pour a thick cheese sauce over the top of the cauliflower and sprinkle with minced parsley.

Save liquid left from cooking such vegetables as green peas, snap beans and celery, and use instead of water for making condensed soups.

Save the transparent plastic bags that carrots and other vegetables come in. The bags are fine to use as a covering for a rolling pin (one over each handle) and in many other ways in your kitchen.

Remember the long line of tomatoes you used to see ripening on the hills of farm - kitchen windrows? Experts say giving tomatoes sunlight to ripen them isn't good practice; they recommend, instead, that the tomatoes be spread out in a cool room (60 to 70 degrees).

If your refrigerator temperature is 38 to 40 degrees, you can keep

milk fresh from four to 10 days. Watch the baking when you are making the sponge-cake base for a jelly roll. A cake that is left in the oven too long will be hard to

take the paper lining from, will have edges that are too crisp. An unfrosted cake from the freezer may be left in its wrapper at room temperature for one or two

hours to thaw. Or it may be defrosted in a slow (300 degrees) oven for about 10 minutes. Stir in a half cup of canned crushed well-drained pineapple as

you are making an instant vanilla pudding for a flavor change. Dice avocado in small pieces and add to curried cream of chicken soup. Nice for company.

Brush away all crumbs when you are ready to frost a layer cake. Then place one cake layer upside down on your serving plate. Spread the layer with the filling or frosting and let stand until set. Place

the second cake layer right side up on top of the filling. Now frost the side and top of the cake, using a spatula. Don't flatten the frosting; small swirls in the frosting make the cake look pretty.

COUPON IN TODAY'S AMARILLO PAPER

MRS. EDGAR TELCHIK, seated at the right, is Cultural H.D. Clubs new president. Working with her is her yearbook committee who are shown filling out the books prior to the first meeting. Mrs. Pat Robinson is working at the left with Mrs. W. E. Holcomb and Mrs. Ira Scott, to her right. Cultural Club has many unusual fund-raising projects which keep them

in the money for other things they like to sponsor or contribute to. Last year the members substituted one of their meetings with a picnic trip to Girlstown and Mrs. Earl DeHart brought back one of the most complete reports possible on such a short visit.

(Staff Photo)

'Heart Care' Training Meeting Held Recently

A training meeting on "Heart Care" and the importance of annual physical examinations, with Argen H. Draper as instructor, was held in the county courtroom Jan. 25.

Purpose of the special meeting was to train home demonstration club women who will give programs on these subjects to their clubs during February.

Although a great deal more emphasis has been given heart disease recently, delegates who attended a state THDA meeting a number of years ago down at College Station were impressed by a "Heart of the Home" exhibit. From the special arrangement of a kitchen for a housewife with a heart ailment, the "Heart in the Home" idea came. The "Work Simplification Program" was carried out by the home demonstration club women.

Delegates that year were Mrs. Bill Nunn, Mrs. Frank Wilde and Mrs. R. N. Cooke. Mrs. Wilde and Mrs. Cooke no longer live here but Mrs. Nunn recalls that the exhibit was a very impressive one.

Some of the things she remembers were that for the heart patient the cabinets were all open to eliminate the strain of opening and closing doors. Delegates from West Texas could hardly recommend this as a labor saving idea because of the dust, but all the other labor-saving devices they would be happy to have behind doors in their kitchens.

Mrs. Nunn says all the cabinets were arranged so there would be no reaching to get items wanted. The U-shaped kitchen had an island with the stove in the middle and the oven was built at eye level to prevent stooping.

The baking center was complete with all the things needed for mixing close at hand. Even the spice racks pulled out from underneath the cabinet and everything was within reach so that one could sit down to do the mixing.

Only two or three steps were necessary to get from one unit to another and even the dishes could be washed while the housewife was sitting down.

Dish washers and doors that open automatically have made even these tasks lighter since this demonstration was first set up. Whether the homemaker is a heart patient or not she has learned that the rules set up for the Heart in the Home program will make her housework lighter.

These general suggestions are:

1. Avoid worry about things you can't change.
2. Allow yourself enough time to do things so that you need not rush madly at the last minute.
3. Keep your weight normal.
4. Plan your work so that you do not get over-tired or push yourself to get your work done.
5. Avoid lifting, pushing or carrying heavy things.
6. Avoid running up and down stairs.

H D Chatter

By Argen Draper

The 4-H yearbooks are ready for the clubs. Thanks to Zelma Allmon, Wanda Pitts, Mrs. T. J. Parsons, and Mrs. J. G. Fortenberry. Also, C. E. Coleman and Leroy Boyer. The 4-H Clubs have a very interesting program planned for the year and this should be about the best year the 4-H Clubs have had. The girls will carry clothing and foods preparation as long time demonstrations and then they will choose one other subject to work on. Sharon Bezner and her brother Jody will probably work on "Yard Improvement." The whole family will help as landscaping is such a big demonstration.

Several of the club members of the Bippus Club want willow trees to put in the landscape and we hope Mrs. Willa Williamson will have some more willows to sell at the H. D. Market and Gifts. These are nice trees and the rooted trees she sold last year were certainly ready to grow. The Bippus H. D. Club is probably 100 percent in paying poll taxes this year. How many of the clubs have had all the members pay poll taxes? There was a long line of people in the

tax office paying poll taxes and property taxes Monday and Tuesday.

More orders are coming to the office for the seedlings from the Texas Forest Service. The deadline for orders will probably be in about three weeks. These trees can not be used in ornamental plantings but only in windbreaks. Also, can't be re-sold.

Today some letters in the mail regarding the district meeting we will have April 5. This is quite an opportunity for club women to attend the meeting. We'd like to have 200 club women at the meeting. At nearly all the meetings there are more Deaf Smith County women than from any other county. Some of the time we have more people attend than the hostess county. Walter Jetton who served the Chamber of Commerce Banquet will serve the luncheon at the District Meeting.

Club will begin study on a new demonstration this month. This will be the first demonstration in Living Room Improvement. The program meeting will be on Heart Care.

SECTION 2 Hereford, Texas, Thursday, February 2, 1950

MRS. G. V. HALL, who has only been in home demonstration club work three years, is the new president of the Bippus Home Demonstration Club. The Bippus club members all live around 40 or more miles from Hereford, but delegates to the H.D. Council are among the most regular attendants each month and although the club has only a half dozen active members, their yearly report is outstanding. They sponsor a number of community activities held at the community house which they have redecorated recently and had wired for electricity. They also make educational tours and have special interest meetings as well as their regular demonstrations and programs in the yearbook. (Staff Photo)

Home Demonstration Clubs End Safety And Landscape Studies

Home Demonstration Clubs are completing their programs on Safety and demonstrations on a "Labor Saving Landscape" as scheduled for January.

Clubs reporting are:

Bippus

Bippus Home Demonstration Club met with Mrs. Jim Perrin Jan. 25, when Argen Draper, the

CHDA, gave the program on "A Labor Saving Landscape."

Mrs. G. V. Hall, president presided and called for committee reports. Mrs. Elmo Hall gave the council report.

Those present were Mrs. C. F. Homfeld, Mrs. G. V. Hall, Mrs. Elmo Hall, Mrs. J. G. Fortenberry, Christine Fortenberry and the hostess.

Mrs. C. F. Homfeld will be hostess for the next meeting at her home Feb. 8.

Messenger

Promoting safe driving was the program presented at the Messenger Home Demonstration Club at the meeting with Mrs. Floyd Brown Jan. 27.

Roll call was answered with a part on the program. Mrs. R. J. Coleman gave a short talk on observing stop signs. Mrs. J. E. Rouse pointed out the significance of all road signs. Mrs. E. M. Jack discussed other types of signals to be observed by motorists and Mrs. Johnny Northcutt reported on speed limits. Mrs. Floyd Brown told the women how to get a driver's license. Mrs. Ernest Brown emphasized the importance of the law which forbids driving while drinking and Mrs. N. A. Brown chose the pedestrian as her subject.

Mrs. Ernest Brown read council committee recommendations for approval and also gave the council report.

Those present also voted to contribute to the March of Dimes. Mrs. R. J. Coleman gave a report on her visit to Girlstown.

Mrs. J. E. Rouse won the floating prize and Mrs. Coleman the recreation prize.

Refreshments were served to Mesdames J. E. Rouse, R. J. Coleman, Ernest Brown, N. A. Brown, Johnny Northcutt, E. M. Jack and the hostess.

The next meeting will be an all day meeting with Mrs. N. A. Brown Feb. 10 when the women will work on a quilt for Girlstown. Everyone is requested to bring a covered dish.

THE DAY OF WORK was a day of real fun for the pre-school youngsters of two of Cultural Club's yearbook committee. The expression on the faces of Theresa and Kathleen Robinson (left and right) and Jan Scott is evidence that they had a good time playing dolls while their mothers worked on the yearbooks. Theresa and Kathleen are the daughters of Mr. and Mrs. Jim Robinson and Jan is the baby in the Ira Scott family.

Garcia News

By MRS. S. N. THWEATT

We were very proud of our young men who entered calves in the Fat Stock Show at Hereford. Gary Guseman and Wayne and Don Bormer were among those showing calves. The boys took their bed rolls and spent the night at the Bull Barn with their calves.

Mr. and Mrs. A. G. Corbin of Westway ate dinner Sunday in the home of Mr. and Mrs. James Coleman.

Donna Sue Guseman spent the night in the home of her cousins, Mr. and Mrs. Douglas Timberlake recently.

Mrs. N. A. Brown received word that she has a new sister-in-law. Her brother, Claude Potts of Rose Dale, married in Tucuman last week.

Mr. and Mrs. J. R. Coleman and sons, Tel. Rex and Joe, visited in the home of Mr. and Mrs. Jasper Bess of Friona. Mrs. Bess is an aunt of Mrs. Coleman's.

Don Guseman was in Hereford for the calf judging Saturday.

Mr. and Mrs. Floyd Brown had as guests Friday night Mrs. Brown's mother, Mrs. C. W. King of Rose Dale and a sister and brother-in-law, Mr. and Mrs. Cecil Corwell of Los Angeles, Calif.

Mr. and Mrs. J. S. McCullar of Wolforth, who lived on the Thompson place north of Bootleg up until this past May, were visitors in the home of Mr. and Mrs. S. N. Thweatt Thursday night. They enjoyed a steak supper and then played 42 with Mr. and Mrs. N.A. Brown.

Little Cinda Coleman, daughter of Mr. and Mrs. Bruce Coleman, is in Deaf Smith County Hospital. They haven't decided just what the trouble is at this time. Gary, their son, is with his grandmother, Mrs. Ruth Coleman.

Mrs. J. T. Guinn and Mrs. Ruth Coleman made a trip to Girlstown, south of Whiteface, last Thursday with some Westway women. They reported a very interesting trip.

C. L. Potts, father of Mrs. N.A. Brown, who had an operation in an Amarillo hospital, was well enough to return to his farm home in New Mexico Sunday.

We are glad to know Mrs. Roy Pruitt is home again.

Things may change Frank Ford said it had been two years since he had lost any new born calves, but his luck has changed. He lost one this week. He also said it always rained when he started losing. Well, we hope he doesn't lose any more calves, but we do hope it'll rain.

Mr. and Mrs. S. N. Thweatt made a trip to Levelland over the weekend. Their plans were to repair a rent house. Instead, Mrs. Thweatt had to see a doctor so she would be able to get home. Thweatt tended to business while there. We were visiting in my father's and sister's home, J. R. and Mattie-Lop Hagan's. There wasn't any improvement in my father, who has been in bed now for nearly five years from a stroke. Since we have been home, I have been to the doctor in Hereford, but I am home at present.

Sorry to hear of Glenn Burrus rolling his new car. Lots to be thankful for, he wasn't hurt any worse. We're glad he is able to be home.

Mrs. Elmer Northcutt was in Amarillo Friday, we hope she had a big day and found lots of pretty things to buy.

The messenger H. D. Club met in the home of Mrs. Floyd Brown Friday. Safe driving was the topic of the program.

At The Movies

"TENNESSEE'S PARTNER"

The story of a feud that became famous in the claim-jumping, fortune-grabbing, woman-stealing day of America's greatest Gold Rush is told in "Tennessee's Partner," new film version of the Bret Harte western classic, which will show Friday and Saturday at the Star.

John Payne portrays the rugged and romantic gambler, Tennessee, and Ronald Reagan enacts the role of Cowpoke, his twofisted and quick-shooting buddy, the two memorable masculine characters of the beloved Bret Harte story are in capable hands. On the duff side are the red-haired beauty of Rhonda Fleming, as the Duchess, and Coleen Gray, as Goldie, the gold-digger.

The locale of "Tennessee's Partner" is Sandy Bar, a picturesque boom town in the Mother Lode country north of San Francisco. The time is 1849 when John Sutter's discovery of gold had set the West on fire. The action alternates between the fast and furious gun battles and fights which enlivened this gold fever era and the dramatic moments at the gambling tables and in the night life establishments of those lawless days when a new land was in the making.

People never stop long enough to know how good and nice other people are. Just Friday morning, Mrs. Eldred Brown came down and took my dirty clothes home with her to wash them. Many thanks and good wishes to her.

We, the people of Garcia, wish to congratulate Donna Sue Guseman for winning FFA Sweetheart honors.

Mrs. N. A. Brown has one of the quilts for Girlstown together and will be ready for quilting at her house next club day, which is the second Friday in February. All club members are asked to bring a covered dish and meet around 10 a.m. for quilting and a covered dish luncheon. Club meeting is at 2:30 p.m.

Mr. and Mrs. Jim Monroe were in Hereford for the calf judging. Frank Ford severed his finger in a car door recently. His condition is good.

Double Feature

A double feature will be shown Saturday and Sunday at the Texas. One of the movies is a timely and violent story based on one of today's hottest headline topics that is unfolded in Filmakers' "Mad as the World," which extracts a maximum of powerful drama from the subject of teen-age criminality.

Frank Lovejoy, Keefe Brasselle, Cathy O'Donnell and Karen Sharpe are co-starred in the provocative motion picture. An almost relentless pace marks the story that opens with an unprovoked attack by teenage rat-packers on a young man, his wife and baby, and concerns the husband's attempts to take personal revenge while police make their own methodical investigation.

The other movie, "A Bullet Is Waiting," starring Jean Simmons, Rory Calhoun, Stephen McNally and Brian Aherne, rips bare the emotions of four people trapped in the remote regions of the high sierras.

Calhoun plays a fugitive from the law, now in the custody of Sheriff Stephen McNally, who is taking him back to Utah to stand trial. When their returning plane crashes, they take refuge in an isolated high Sierras ranch owned by Brian Aherne and his daughter, Jean Simmons. Torrential rains flood the territory and prevent Calhoun from bringing him in. Calhoun's victim was McNally's brother, and he claims self-defense, but the revenge-consuming Sheriff gradually reveals he plans to kill his prisoner before they reach their destination. When Miss Simmons and Calhoun fall in love, McNally lays a last ditch trap for his victim.

POULTRY PLATTERS

CORVALLIS, Ore.—For two years Martin Lobby, Corvallis poultryman, treated his flock to radio music to boost egg production. Then the music went bad and egg-laying fell off.

Lobby called Robert Brownell, power company service man. He determined that electric tools being used on plumbing repairs at a nearby school was causing interference with the radio waves. He solved the problem neatly and quickly by loaning Lobby his record player until the plumbing repairs could be completed.

And the hens began laying once again.

THE SIXTH BIRTHDAY is a big event in the life of a child when it means being old enough to go to school the next year. For Lindon Rieger it was a very special occasion because there was a party as well as six candles on his cake. Lindon's parents are Mr. and Mrs. Nelson Rieger. His mother made the cake for the party and she gave the usual birth-

day decorations an extra touch with mounds of colored coconut around the base. Children celebrating are, from left to right, Debby and Ginger Gholson, Vicky Brownlow, Lindon Rieger the honoree, Linda Pent, Danny Raspberry and Lanis Rieger. Karren Kendrick, a little cousin, also attended the party but wasn't in a picture taking mood. (Staff Photo)

LOBSTER PINK

SAN DIEGO, Calif. (AP)—If the pink and vermillion tints on San Diego zoo flamingos seem striking, it's because they have been fed ground lobster shells regularly for two years.

Dennis L. Fox, professor of marine biochemistry at the University of California's Scripps Institution of Oceanography, explained that some of the pigment of the lobster shells had been retained in the flamingos to brighten up their coloring.

AMERICANISM and CHRISTIANITY or COMMUNISM and ATHEISM... which do you want? The inescapable challenge facing the Christian world today is COMMUNISM. COMMUNISM is OFFICIALLY ATHEIST. To destroy the American principle of FREEDOM of WORSHIP is the declared intention of this ANTI-AMERICANISM.

ABOUT twenty years ago the Comintern declared: "The ultimate aim of the Communist International is to replace world capitalist economy by a world system of Communism... It will bury forever all mysticism, religion, and superstition." That anti-God declaration has never been challenged. In fact, it has strengthened its atheist principles to a point that has rarely been seen before in history. The Truth is, Communism cannot live with Christianity, because it is a religion unto itself, as much so as it is a system of politics and economics.

COMMUNISTS declare theirs is simply the "scientific" application of the teachings of history. They also say theirs is not only a "scientific" system but is the ONLY SYSTEM. Communists say Christianity is superstition. They refer to Christianity as something especially designed to capture the masses for exploitation by capitalist masters. Communists say "DOWN WITH THE CROSS WHICH IS THE SYMBOL OF FAITH FOR THE CHRISTIAN WORLD."... Therefore, Communism and Christianity become the two great rival Faiths of the Twentieth Century.

CHRISTIANITY believes one thing about the nature of man and his destiny, the nature of morality, the basis of ethics, and the nature of the Universe; COMMUNISM believes the exact opposite. CHRISTIANITY believes in the INDIVIDUAL and in the RIGHTS OF MAN. COMMUNISM believes the individual is the wholly owned SLAVE OF THE STATE.

THIS atheistic, materialistic, conspiracy threatens to engulf the whole world. Unless it is stopped our liberties, political, civil and religious rights, will go the way of the unfortunate nations which have already been crushed to earth behind the iron curtain of Moscow. If you believe in God and the Bible of the Lord God Almighty, won't you help hold high the CROSS. It is being threatened by Communist enemies. For the sake of all that is dear to you... attend your church and support her good work.

Hereford Garden Club Plans Practice School

The Hereford Garden Club session was held at a coffee given in the home of Mrs. Glenn Boardman Friday morning.

During the business session announcement was made that the school of Flower Show practice will be held in Hereford April 5-6-7. Mrs. J. A. Kendall of Amarillo will be the instructor for the horticulture and Mrs. A. L. Manjeet will be in charge of the Artistic division.

The program on "Plan for the Family in Landscape Designing" was presented by Mrs. Joan Jacobsen Jr., and Mrs. O. G. Hill. Mrs. Jacobsen discussed the service area or the utility part of the yard which includes the clothes-line, garage and driveway, children's play ground, vegetable gardens and cutting gardens. She urged that care be used in planning landscapes so that they may be beautiful as well as serviceable.

Mrs. Hill talked on the living area or private portion of the yard and the public area. She asked the question "Is your entrance area attractive throughout the year? It is necessary to soften the outlines of the house with plantings. The house should be framed with trees and an open lawn area should be maintained. The living or private area is the most interesting and if it is small it should be landscaped small. The gardener should seek to tie the public area and the living or private area together in a harmonious design," she said.

Members of the club attending were Mesdames John Jacobsen Jr., O. G. Hill, Harry Lomas, Ralph McCullough, Frank Brinkman, S. S. Williams, Roy Lee Wilson, M. T. Rutter, A. L. Manjeet and the hostess, Mrs. H. L. McCullough of Harrison, Ark., was a guest.

Mr. and Mrs. C. T. Ward and son of Levelland spent the weekend with her sister, Mr. and Mrs. M. T. Rutter and family.

o'clock and the morning worship services are held at 10:55 o'clock. Sunday evening the Training Union will be held at 6:15 o'clock with the evening worship at 7:30. The Sunday morning Baptists hour is broadcast at 8 o'clock over KPAN.

The morning worship service is broadcast every first, second, third and fifth Sunday at 10:55 o'clock over radio station KPAN.

LICKING JOB

BALTIMORE (AP)—Maryland's most widely-tasted product is not the oyster or crab from Chesapeake Bay. It's a tapioca preparation turned out by a Baltimore glue factory. It goes on the backs of

nearly 23 billion U. S. postage stamps each year.

The glue is concocted of a minute percentage of hydrochloric acid and tapioca flour, and is shipped in powder form to Washington. There, the Bureau of Engraving and Printing puts it on stamps. Motto of the Baltimore concern: "Licked by all-yet-licked by none."

Mrs. W. L. Hall has returned from Lubbock where she visited with friends, Mr. and Mrs. J. T. Pace.

Long Time Ago

45 Years Ago A machine was erected in the yards of the Palmer Lumber Company last Monday for the purpose of making wire tile. The machine is the simple invention of R. T. Robinson of Canyon who has formed a partnership with A. H. Elliston and E. J. Ball. Quite a large crowd gathered around the machine to watch it work. Mr. Elliston explained the process of laying the tile and sub-irrigation. He explained the results of a demonstration at Canyon where a long line of tile was laid. The company calls the product the Success Wire Tile for Sub-Irrigation and claims that it will solve the difficulties in the way of surface irrigation. Their principle points are: Cheapness of first cost, ease in handling and laying in ditch, quick connections, rapid distribution of water, does not require an expert to make or lay the tile, cheap cut-offs, etc.

25 Years Ago Jack Wright's prize flock of white Plymouth Rock chickens is something more than show birds. His hens are there with the roosts when it comes to laying. Last Friday morning one of the layers presented her owner with an egg that measured 10 1/2 by 7 inches. The normal egg is 7 by 5 according to poultry experts.

The W. W. Club met Tuesday with Mrs. B. J. Kibbe. The afternoon was spent in piecing a wedding ring quilt. A very lengthy and interesting business session was also had. Mrs. Higgins outlined the year's work in very interesting programs. The name of the club was changed to La Affiliatus Studio.

Former resident Killed

Word has been received here of the death of Boyd Arlie Stewart, 37, formerly of Hereford, in a recent accident in Pampa. Mr. Stewart was the son of Mr. and Mrs. Zed Stewart of Dawn.

CARD OF THANKS

We take this means to express our gratitude to all those who ministered to us at the time of our sorrow in the loss of our dear husband, father, son and brother, whose untimely death occurred on Jan. 16 in Pampa. To our fine neighbors and friends, the members of the Harrah Methodist Church, the fellow employees of Halliburton Oil Well Cementing Co. for their many acts of kindness, the flowers, food prepared and other thoughtful deeds shown in our behalf. We want to thank Dr. McDaniels and the nursing staff of Highland General Hospital who did all in their power to help our loved one. To Rev. James E. Harrell of the Harrah Methodist Church and Rev. J. E. Byers of Shamrock for their comforting services, to the pall bearers and Duenkel Carmichael Funeral Home for the beautiful final rites. May God bless you all.

Highway Accident Damages Minor

Minor damages occurred in an accident Thursday night at 1 p.m. on Farm Road near the Westway Store, according to information received from Highway Patrolmen Kenneth Maxwell and Joe O'Rear. Erlene Connally, driving a 1950 Ford, attempted to make a left turn while James Lee Lookingbill was passing her. The 1956 Plymouth he was driving had damages of \$250 and the damages to the Ford were estimated from \$75 to \$100.

Miss Connally was charged with having no driver's license and Lookingbill with passing within 100 feet of an intersection.

CARD OF THANKS

We wish to thank our many friends and neighbors, also Dr. Wills, Rev. Allison and Rev. and Mrs. Fields for the kindness shown us during the illness and death of our beloved Mother and Grandmother.
