Government men who keep an ear attuned to railroad matters are predicting in private conversation that the Pennsylvania Railroad will start paying a fifty-cent quarterly dividend in about sixty

days.

If their forecast materializes it will be certain indication that times are getting belter. Holders of most railroad stocks haven't seen a dividend in so long they'd hardly rec-

these stores.

Nine employees have had their wages raised to meet the minimum wage while eight stores did not have to increase wages because they were already paying more than the minimum fixed. The Pennsy borrowed \$27,000,000 from the R. F. C. to electrify its road between Washington and New York. Although the work is far from complete it has paid off all

but 55,000,000 and the balance is to be forthcoming shortly.

Here again the Federal experts Magnolia's re yanking forecast from their crystals. They are betting the road is getting ready to float a bond issue to finish electrification.

That would be a significant sign of the times too. The banks wen out of the railroad banking business back in 1931. For two years the carriers have had to depend on Uncle Sam for badly needed capital. Some rumblings have come across the Washington horizon that the banks finally are nearing a mood to loosen up again.

A Pennsy bond issue would be a swell one to lead the way back to

Chesterfields are as good as Science and Money can make them

> Every pound of Domestic tobacco used in Chesterfield cigarettes is aged for thirty months-21/2 years. Science knows there is no other way to make cigarette tobaccos mild and mellow.

> Every process used in the manufacture of Chesterfield cigarettes is modern, scientific and clean-visitors are always impressed with the cleanliness of the Chesterfield factories.

> Every ingredient, including the paper, is pure-nothing that you eat or drink is tested more carefully.

And Chesterfields are made right; the right length, the right diameter, and filled right - a detail perhaps, but if a cigarette is "to satisfy" it must be made right.

Everything about Chesterfield is as good as money can buy or Science knows aboutyou have our word for this.

And Chesterfields are milder and taste better-this much you can prove for yourself.

We are gladly Doing Our Part to solve the unemployment situation and giving our support to the supreme effort of the National Government to start business on the upw ard path that leads to universal prosperity. No employee working for any of the firms listed below is working more than 40 hours per week. No employee is drawing less than \$14.00 weekly pay. In every store, where it has been possible, additional people have been placed on the payrolls. As the upward turn of business makes it possible, further additions to payrolls will be made.

Due to the economic good that will be done our city by the adherence to the Blanket Code, and due to the large number of unemployed given work by it, we feel it is only fair to request the public in general to buy only at stores displaying the N.R.A. signs.

# Let's go! AMERICA

Let's back our President to the lim-Let's help him bring back the good old days but bring them back on the right basis. Let's remember that this glorious country of ours wasn't built up on cheap prices, poor merchandise or low wages. America's prosperity was never founded on low prices, shoddy merchandise or poor quality. Confidence and courage have returned. And best of all there has been an awakening

of the American people to the fact that the American customs and American institutions founded on a bedrock of quality will withstand every assault. Today more than ever quality counts. America's prosperity of the past was founded on quality. America's prosperity of the future will be built on quality. . . . . . . . . . . LET'S GO AMERICA!
