'Bulb Snatchers' Issued Warning

Don't be a "bulb snatcher" — If it's someone else's bulbs you're snatching, Police Chief Henry Aycock warned Saturday morning after a local resident reported that colored bulbs were taken from a Christmas display in his lawn.

Eleven bulbs were taken from a Christmas display at the home of F. M. Kester, 705 N. Miles Ave. Kester discovered the bulbs were missing at 10:30 p.m. Friday and removed the remaining lights from his lawn.

Aycock reminded would-be thieves that "bulb snatching" would not be considered a harmless prank by the police department. Fines or jail sentences or both can be levied on persons convicted of the offense.

City, County Set Closings

Officials have announced closing dates of the City Hall and Deaf Smith County Courthouse for the Christmas holidays.

City Manager Dudley Bayne said all offices in City Hall except the police department would be closed all day Thursday and Friday. Two trash trucks, however, will be in operation Friday, Bayne said.

IN SPITE OF CHILLY winds a good crowd gathered at the south side of the Court House Friday night between 7 and 7:30 to participate in the Community Christmas Singing. Don Moore's choir started the program off and the crowd joined in singing the traditional Christmas carols. (Staff Photo)

Five Herd Gridders Named In All-District Selections

Hereford placed five players on the mythical I-AAA All-District football team, which was announced today.

Levelland dominated the first

honorable mentions. End Steve Slagle and halfback Danny Martin were chosen for the second team.

Only underclassman named to the first team was Level-land's brilliant quarterback, senior Doug Cannon. He was also chosen as All-District quarterback last year.

Martin was Hereford's leading ground-gainer for the season, with 437 yards in 85 carries, for a 5.14 per try average. In addition, he caught 12 passes for 180 yards.

Slagle was closely watched as an offensive end, but managed to snare nine passes for 98 yards. His biggest threat was in punting. He kicked 45 times in ten games, and averaged 38.5 yards per kick. This includes the single punt he had blocked during the season.

Bobby Moore, senior end from Phillips who died during a game with Dumas, was named as honorary captain of the 1958 I-AAA All-District

team. First team selections included: Doug Cannon, Levelland, quarterback; Bud White, Dumas, and James Presley, Littlefield, halfbacks; Larry Tipton, Levelland, fullback; Jerry Gar-

Deep Water Test Well Completed; Ask Funds

After one false start, a deep water test well has been dug in Deaf Smith County and boosters of the experiment now are collecting donations to pay for research.

Drilling was completed Friday on the well at the farm of Virgil J. Owens, about six miles east and one-half mile north of Hereford. Actual drilling operations took eight days, although some small additional work still has not been completed.

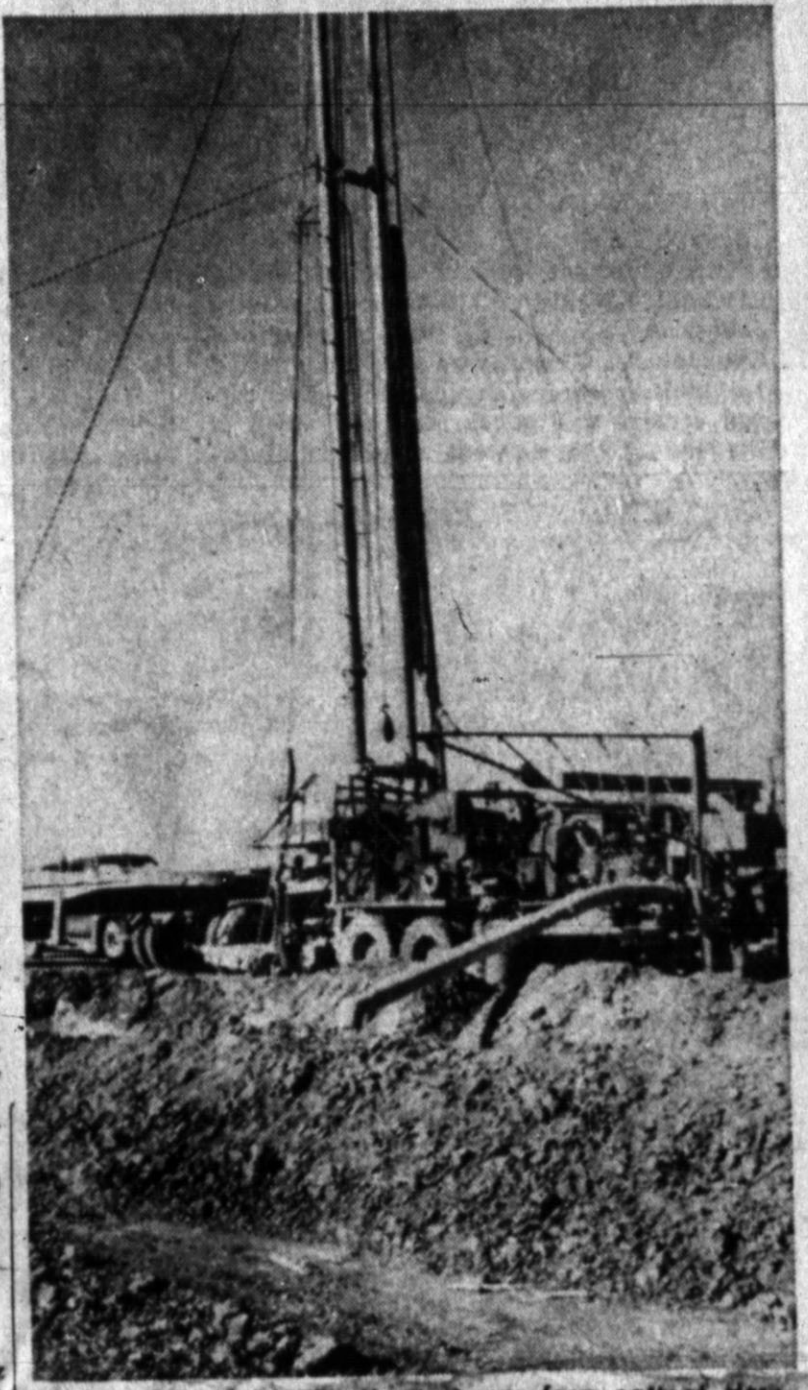

Persons who had donated, or agreed to donate, to the drilling of a deep-water test well are being contacted again to see if they would like to donate to the cost of maintaining complete records and research on the newly-completed well.

Under the original plan, interested business and farmers agreed to share the cost of drilling the experimental well. After the money was raised, the group could not get anyone to participate in the actual test. At that time Owens told the group he was planning to have a deep well dug and would be willing to have the group finance the cost of maintaining complete records and testing equipment for the well. He agreed that if the well were a failure, he would pay the entire cost of the operation.

Although Owens' farm is in a region where water has not been abundant for irrigation, he drilled a deep well about three years ago. This well has been producing an estimated 800-900 gallons per minute from a depth of 750 feet. The new well was set at 764 feet. According to Paul Coneway, whose Walco Drilling Company drilled the well, it should produce about the same. It probably will be 30 to 60 days, he said, before Owens will start to pump the well. He said the formation, which is far below the normal "red bed", looks as good or better than the first deep well.

If the plan goes through to use the well for testing purposes, equipment would include an air line with a water level gauge, a meter showing how many hours the pump motor has been in operation and a gauge showing the amount of gas used to pump a certain amount of water.

In addition, an analysis of the soil in the immediate vicinity (Continued on page 2)

Judge Sends Two To Pen, Three Get Probation

District Judge Harry Schultz sentenced two men to terms in State Penitentiary in Huntsville and placed three men on probation in an all-day court session in 69th District Court Thursday.

Hearing guilty pleas from all the men, Schultz followed District Attorney Frank McKown's recommendation on each case.

Receiving a two-year term in the penitentiary was Buster Patton, 43, Amarillo, and Celestino Lucero, 24, La Junta, Colo. Both pleaded guilty to forgery and passing forged instruments.

Santos Galvan, 28, Hereford, pleaded guilty to driving while intoxicated, second offense, and was placed on five years probation.

12,000 Bales Of Cotton Harvested

With just a sprinkling of cotton remaining to be harvested, Deaf Smith County gin operators report an excellent crop this year.

Approximately 12,000 bales have been ginned in the county this year, which constitutes an average of more than a

bale per acre. The county cotton acreage allotment this year was about 11,000 acres. Fair weather and clear skies favored cotton growers this year. The ideal conditions this year contrast sharply to that of last year, when only 9,000 bales (Continued on page 2)

Herd Plays Return Games With Tascosa And Dimmitt

Hereford High cagers will play two games in succession this week, before taking a holiday breather of one

week. Monday night, the Whitefaces will play host to the Tascosa Rebels from Ama-

rillo. The varsity contest will start at 8 p.m., preceded by a "B" team game at 6:30 p.m. Tuesday they will go to Dimmitt.

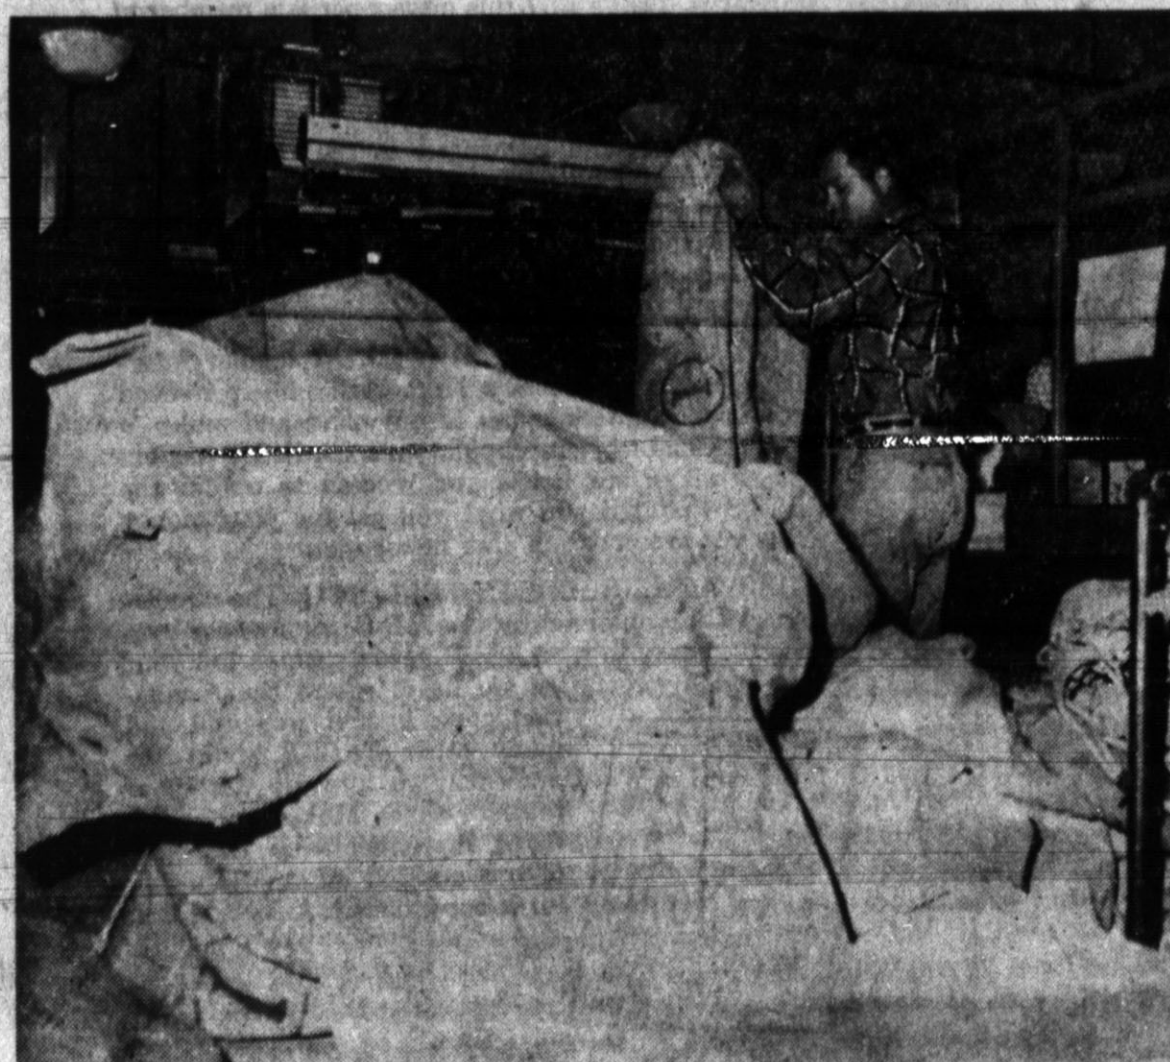

The Rebels lost their very first court outing to the Herd, 61-36, as the Whitefaces marked up their second victory. Coach Ace Parker is having to build a team from scratch, since he inherited no lettermen and has just one senior on his small squad. Parker also means the lack of height needed to offset the inexperience.

The Rebels have a 2-6 record. They lost 61-40 to Northwest Classen of Oklahoma City Friday night and were slated to play Capitol Hill of Oklahoma City Saturday night.

Tuesday night's game looks tough, according to Coach W. H. Kitchens. With the exception of Hereford's single loss to Plainview in 11 starts, Dimmitt has held the margin to less than any other opponent. The Bobcats led for three periods in their first meeting, before the Herd got hot and roared to their third victory, 58-52.

Winners of the Abernathy invitational tourney last week, the Bobcats dropped Morton Friday night 72-45.

Riding the crest of ten wins and a single defeat, the Whitefaces have scored 730 points for an average of 69.6 per game. Their opponents have tallied 524 points, for an average of 47.6, giving an average spread of 19 points. (Continued on page 2)

Andrew Zaegedin, 105 Ave. B, who entered his home and the Lutheran Church in the contest.

Paul Schroeter, Jaycee president, said the number of entries is unusually light as several homes in Hereford are decorated well enough to stand a good chance of winning a prize.

A nation-wide project of the Jaycees, all residents are eligible to enter the contest except Jaycee members. Those wishing to enter may contact the Jaycees or the Deaf Smith County Chamber of Commerce for an entry blank.

The area for the contest will be within the city limits of Hereford and hours for display are from 6:30 to 10 p.m.

Judges will consider the artistic merit of the decorations, which includes design, composition and arrangement of elements and the color scheme.

The judges also will consider the originality, which covers new lighting ideas or effects, new ways of using standard devices, and shapes formed with Christmas lamps.

Another point of consideration for the judges will be lighting techniques, including the use of regular Christmas lamps, use of spot or flood lamps and the use of other lamps, such as fluorescent, circiline, reflector color lamps, 25 and 45 watt enamelled.

Judges also will consider the ingenuity in using the structure of the house and in using surroundings to an advantage.

of the well would be made periodically. All information on the well would be available to interested persons at the Hereford office of the High Plains Underground Water Conservation District.

Virgil Dodson, chairman of the HPUWCD and chairman of the local group, said the effort to raise funds for testing the well would climax a year's work on the part of the local group, which is interested in future potential of deep wells for local irrigation.

A letter signed by Owens this week stated that any donated funds are to be deposited at the Hereford State Bank in care of the Research Well.

The letter went on to state: "It is understood these funds are to be used to help pay for the use of the well as a research project in determining the following factors, which will be useful in learning whether or not deep water wells, below the 'Red Beds,' can be efficiently operated for irrigation in Deaf Smith County:

- a. Complete log and formation samples of the well and analysis of the water producing formations.
- b. Water analysis made a periodic intervals.
- c. A continuous record of well capacity and water lift.
- d. A record of fuel consumption and the number of hours the pump is operated.

were ginned locally. The month of November last year was a month of overcast skies. Damp weather did not allow the cotton to mature fully and much of the crop was damaged.

This year, however, clear skies have allowed the cotton to mature and the first frost came at about the right time of the season for the crop. The first frost hit the county early in November.

A shortage of field workers hindered the harvest of the crop late in October, but with the coming of the first frost, the stripping or mechanical method of harvest was put into operation.

Gin operators estimated that 80 per cent of the crop this year was harvested by the stripping method. Field workers, earlier in the season, brought in about 1,000 bales and a few growers employed field workers to pull cotton throughout the season.

The first bale of cotton in the county was ginned Sept. 16. From the beginning of harvest, gin operators reported the crop was excellent, quantity and quality-wise.

### Money-Washer At Bank A Pure Rumor IT'S: HER POINT OF VIEW

By BETTY BABIONE  
Well, Cousin Winnie, I'm further behind than ever in my correspondence. For example, I got a letter from you answering this letter before I finished writing it! Goodness, at this rate how in the world can a body be expected to get ahead?

Nevertheless I was very happy to hear from you. You were awfully sweet to write, especially considering the busy, busy time of year and I know you're in a tailspin just like everybody else.

Just so I won't forget, I'll answer some of your questions before becoming absorbed in the newsy (that is debatable) items I saved from last week. First I wanna tell you that I'm very relieved that you don't mind other folks reading your mail. And second, I must assure you that there is really truly more purpose in sending my letters via The Brand, than merely to save four cents worth of postage. Besides, I think you were kidding when you accused... I think.

Now then, I want you to know that the secret you told me about Jean Ballard making the most super-wonderful fruit cakes is no secret — it's all over town! And, come Christmas Day, if there is a single crumb of fruit cake left around the Ballard house, I'll be surprised.

And dearie, you don't have to tell me that Lois Hollingsworth is a gal who can do anything she sets her mind to, and do it well. All her friends say they'll never cease to be amazed. Why, last summer she painted the whole exterior of their house. And last month she made all the curtains and draperies for a friend's new home in Lubbock and then she baked several German chocolate cakes to take down there for the house-warming. Like you say, Lois is a gal in a million.

As to what you heard about the new First National Bank building having a money-washer in its kitchen — that is pure rumor! I investigated for myself, and the appliance you heard about is just a dish-washer... a fancy dish-washer, but a dish-washer nonetheless. Well, I suppose they could wash money in it if they had a mind to.

I know you were awful worried, Cousin Winnie, about Lenore Cox and the terrible unknown malady which affected her eyes there for a while. Well, it turned out to be a peculiar case of "wearing someone else's glasses". Isn't that funny! But Lenore didn't think it was so funny that morning when she couldn't decide whether she was going blind or if she had been taking too much Vitamin A... anyway, she thought her eyes were gonna pop out of their sockets (leastwise that's what she told hubby Tim at the breakfast table). She was on the verge of going to the doctor when I walked her houseguest, Winona White. (I believe you

know her), carrying Lenore's spectacles and numbing something about thinking certain persons might be able to see better if they wore their very own glasses. So, I know you're glad to hear that the world was soon back in focus for Lenore. And after she got over her headache she thought it was funny too.

Now where did I leave off last week? Oh yes... clothes. I was going to tell you, Winnie, that leather coats and jackets are all the rage here. And I don't mean the kind that boys wear when they drive their motorcycles! The ones seen around Hereford are worn fashionably by the ladies and are feminine and pretty and becoming, too.

As I recall, Jerry Grubbs was the first to appear in a leather coat... she got hers last year... it's white. Another pretty white one is that worn by Mary Stoy, and Georgia Fisher has a full-length black one that is very striking on her.

Other exceptionally handsome leather coats I've seen about, are Margaret Decker's tan one, Margaret Sigman's beige one, and Ann Line's blue one. Eunice Woodford has a beautiful coat I'd describe as being "apricot" colored. Mary Waldrep's is "melon" and has a gorgeous fur collar — in fact, the whole coat is gorgeous. And Winnie, you should see Jean Ballard's coat (I'll just bet that Labry picked it out for her — he helps her select all her clothes you know)... it is a shimmering silver-blue "pony skin". Geneva King has the only three-quarter length coat I've seen as yet — a pretty white one.

White is the most popular color in the leather jackets. In same I have seen Opal Nofton, Wilma Hill, Luella Johnson, Lorraine Jones, Bess Moore (hers has an unusual rhinestone and pearl collar), Mrs. Irving Alexander, Lois Hollingsworth and Mrs. Gaston Bare. Next in popularity are the beige jackets, such as worn by Joy Stagner and Virginia Winget (oops, I just remembered... Virginia's is a full-length coat).

Marjory Smith has a jacket in powder-blue, which that way on purpose.

### Ed Kelsay Is Gunning For A College Degree

OKLAHOMA CITY (AP) — A 19-year-old Oklahoma City University student is literally shootin' his way through school.

Not that Ed Kelsay ever actually threatens his professors, although he rarely is seen without his 45 caliber Colt revolver strapped on his hip.

Kelsay, a sophomore majoring in advertising and public relations, earns part of his expenses as a fast-drawing "marshal" at Frontier City, an entertainment center built to resemble a town of the early West.

The OCU student says he's only been practicing his fast-draw — in fact he's only been interested in guns — for about three months. He went to work during the summer as an announcer on the Frontier City public address system.

"One day they needed an extra marshal," he explains, "and I was it."

Kelsay now claims he can draw and fire his single-action Colt in less than a fifth of a second. His fastest time, recorded by an electronic timer, is 17 seconds. That compares with the official fast-draw record of 12 second set by Dee Williams in competition last year in Las Vegas.

On his job, Kelsay is known as "Wynn Chester" — and he's done all right as a frontier "marshal." In mock battles staged for visitors, "Chester" has slain hundreds of bad men and has suffered only one personal injury. The blank cartridge in his gun went off prematurely as he was preparing to draw, giving him a powder

burn on the leg. "I was a little faster on the trigger than I was on the draw," Kelsay commented. Kelsay and his fellow "sheriffs and bad men" don't use horses in their act, he says, because today's horses are all gun shy.

### How Can I?

Q. How can I make a good chopped ham sandwich?  
A. Add to one cup of chopped ham enough vinegar to moisten, and one tablespoon of peanut butter. Add celery salt and pepper as seasoning. Mix well before spreading between slices of bread.

Q. How can I prevent leather shoes from hardening after being out in a heavy rain?  
A. By washing the leather with warm water and then rubbing thoroughly with castor oil.

Q. How can I prevent rubber boots from cracking when not used for some time?  
A. By placing rolls of cardboard in the boots to keep them standing erect when not in use. This permits a free circulation of air and the rubber will not crack.

Q. How can I remove dandruff from the scalp?  
A. Rub pure olive oil into the scalp, then follow with a good shampoo within a few hours. This also causes the hair to grow.

Q. What would be a good color for either paint or paper, to make a room on the north side of the house more cheerful?  
A. A daffodil yellow.

Q. How can I remove a grease spot from wall paper?  
A. This can often be done by dipping a flannel rag in alcohol and rubbing gently.

## Baylor Biggest Also - Ran In Southwest Conference

**By HAROLD V. RATLIFF**  
It's tougher to be a coach at Baylor than any other school in the Southwest Conference. The reason is simple: Baylor hasn't won a championship in 34 years. The alumni runs the gamut of frustration and it won't be satisfied with anything except a title.

Thus a coach at Baylor can do wonders with his material and still not have the backing of the ex-students. It was admitted that Sam Boyd did better than his material had indicated this year. He had some good men but not enough of them to win in the stretch. But the alumni was tired of excuses even if they made sense. So Boyd walked the plank.

First he let it be said that there's nothing "wrong with wanting to win. There's also nothing wrong with the alumnus desiring his school to be on top. It can get pretty provoking for ex-students of another school to lord it over you because their team was a winner and yours an also-ran. Baylor is the biggest also-ran in the Southwest Conference.

Of course, the alumni should make allowances for the fact that their school doesn't have as good material as other, although there can be a beef there, too: why doesn't the school get as good material as the others? Must be something wrong with the recruiting. A coach has to be a good salesman as well as a tutor of football.

So not just coaching is involved. However, at times it's not salesmanship that gets the athlete. Some football players want to go to a certain school and nothing can change them. There are certain ties, among these religion and family.

Also a school can't get the top boys unless it wins. A boy wants to go where there's victory. They're willing to sit on the bench just to be with a winner. It's a natural urge. But how's the losing school ever to get material? It can't win unless it does and it can't win in order to do it.

Some of the ex-students and fans blamed the administration at Baylor for Boyd having to step out. But it's the age-old situation of the administration having to bow to the alumni. A school can be perfectly satisfied with its coach and think he's doing the right kind of job both in coaching and developing character. But the alumni and the fans pay the freight. Without their support there won't be any football. So they, in the final analysis get rid of the coach.

Red Sanders, the late coach of UCLA, once said that winning wasn't everything. It was the ONLY thing. Did you ever notice that when a school gets ready to fire a coach it always specifies that the fellow is a fine gentleman and a great influence over the

young men he coaches. When the coach is winning nobody seems to worry about whether he's a fine gentleman. Presumably a winning coach can build more character than a loser. So it's assumed that he's a fine gentleman to begin with.

Speaking of coaches consider Abe Martin of Texas Christian. Check the man's record and see what he has done in six years as head man of the Horned Frogs. He has won 37 games, lost 24 and tied 1. He has won the two Southwest Conference championships and split even in two bowl games.

Yet they hung Abe in effigy last year. His comment, though, probably made the hangers feel a little put out. Said Abe: "It didn't even look like me; I'm much more handsome than that."

The colleges are again jumping on professional baseball for taking their athletes before they finish school. Perhaps those in the Southwest Conference should remember what they did last year and when they decided they would ignore the Texas Interscholastic League's amateur rule that made a schoolboy athlete ineligible when he signed a letter of intent. The conference schools decided they'd just go ahead and sign the boys if they wanted them.

Red Sanders, the late coach of UCLA, once said that winning wasn't everything. It was the ONLY thing. Did you ever notice that when a school gets ready to fire a coach it always specifies that the fellow is a fine gentleman and a great influence over the

## Cotton Fashion Show Scheduled

LUBBOCK — Cottons — from sheer gossamer-like voiles to heavy coatings — will be featured at a national premiere of women's spring fashions Jan. 27 at Texas Tech.

Fabrics for the show, which is sponsored by Tech's School of Home Economics, Vogue Patterns and other national manufacturers, are being furnished by textile mills from the east to west coasts.

"All the fabrics are representative of the finest in design, fiber, construction and color," said Dr. Gene Shelden, head of Tech's clothing and textiles department. Most of the fabrics will be available in the local market during the early spring.

A collection of colors featuring greens, reds and blues in a wide range of values and intensities will highlight the fashion show. Vivid prints and subtle color combinations will be shown.

Fabrics are being selected for round-the-clock activities. Modeled will be appropriate apparel for activities ranging from leisurely breakfasts to gardening, afternoon shopping, meetings, luncheons and teas.

Attire for evening affairs — both formal and informal — will be presented and the show will be climaxed with garments for a bridal party.

Fashion highlights of the show will include suits of cotton tweeds; matching skirt and jacket outfits which fit themselves into a basic wardrobe; and a coat with a weatherized finish to make it wearable rain or shine.

These new fabrics are being made into garments by more than 40 students in Tech's clothing and textiles department. Dr. Shelden is supervising their work.

**OUTDOOR EXHIBIT**  
HARRISONBURG, Va. — You can see the exhibit of John R. Alexander's paintings regardless of the weather. The exhibit is on his lawn. He uses automobile enamel paints, and coats them with varnish. Most popular of his paintings, says the 70-year-old Alexander, is the home of the mother of President Eisenhower at Fort Defiance, Va.

**WELL-TENDED GROUNDS**  
SAN DIEGO, Calif. — Lisle Shoemaker and Bill Teawell, advertising partners, were delighted at the way the landscaping around their new office thrived. After a month, a bookkeeper discovered why: Shoemaker had hired a gardener to work Wednesdays and Fridays, and Teawell had hired one for Mondays and Thursdays.

The Yukon territory in Alaska has several types of orchids among wild flowers, ferns and shrubs.

**Book Review At Christmas Party Heard By El Nino Study Club**

Mrs. Bill Hardwick, special guest, entertained with a book review at the El Nino Study Club Christmas party held in the home of Mrs. Ivan Block Thursday evening.

In introducing her program, Mrs. Hardwick said, "Please Don't Eat The Daisies" by Jean Kerr is a happy satire giving the delightful experiences of a woman with a wonderful eye and ear for those moments of lunacy in which every normal life abounds. The author contends that the right place for laughs is anywhere the humor is fresh, uproarious and has a clean mind behind it."

Of the author, she said, "Jean Kerr is the closest thing to a genuine humorist we have had around since Robert Benchley".

Arrangements for the party were made by the social committee consisting of Mesdames Bill Decker, Doryal Young, Jim Bookout and Bill Waldrep.

Refreshments were served from a table covered with a pink felt Christmas cloth, centered with an Italian gold candleabra ornamented with gold balls holding pink candles. Hot pink punch and holiday cakes were served. Appointments were in crystal.

Gifts were exchanged around the tall pink flocked tree trimmed in pink balls.

Those attending were Mesdames Darrell Bianton, Jim Bookout, Ben Childers, R. A. Daniels Jr., Bill Decker, Byron Durham, O. G. Hill Jr., John Jacobsen Jr., Sam Nunnally, Doryal Young, Wayne Thomas, Bill Waldrep and the hostess.

**By JIMMIE GILLETTE**  
Christmas has come to mean a lot of different things to different people. Some kids want their two front teeth, while others want fire trucks, dolls, and atom bombs. Grownups are pretty well the same. Some want automobiles, furniture, jewelry, clothes and riches, while another will settle just to be home with the folks on that particular day. One's outlook upon the occasion of Christmas seems to change somewhat with the passing of the year. I opened 10 Christmas cards Friday morning and three of the 10 had little notes about what a wonderful Christmas they were having because — of all things — they were with their grandchildren.

Folks who are fortunate enough to have their grandchildren here in town, on the other hand, sometimes complain because of their stepped up chore of baby sitting during the rush of holiday parties.

Ted Malloy of Dallas, who is also a long-time friend of J. B. Elliston, mentioned on his card that his grandson had just arrived from Hawaii, and that he already had the 19-month-old youngster decked out in a big hat, cowboy boots and a Western suit.

One of the most cheerful telephone calls of the year, came from Earline Ross, who is still in the hospital recovering from injuries sustained in the Rudosa plane crash back on June 8. Despite her troubles, Earline sounded mighty chipper. She hopes to be released in January.

Mrs. Ira Ott says her "8 and 40" ladies completed their last Christmas party of the season Thursday night with the Brand and Ink Spot crews. Mrs. Ott says that the veteran's auxiliaries have served 180 meals during the Yuletide period. Some of the ladies were getting mighty tired, too. The Piggy-wiggy crew pulled about the slickest deal I've heard. They had a "do-it-yourself" party this year. Chester Harrison in the meat department was apparently the chief cook (though not dishwasher according to the gals). The employees all pitched in and wound up with a top-notch meal in the bank hospitality room. I have talked with several of them and they declare it is the best Christmas party ever.

Probably no one is interested, but the Pentagon building in Washington, D. C., contains 3,000 clocks, 550 water fountains, 240 restrooms.

I notice where Wes Izzard has a drive to sponsor a big bowl game in the new West Texas stadium each year, and they are looking for a good name. For my money, they can't beat the "Dust Bowl".

Jack Bradley is a bundle of

energy I seldom see these days. Honest, I don't know of anyone who stays busier. While you are talking with Jack you can almost see the reflection in his eyes as his agile brain leaps from one idea to another. I was visiting with him the other morning and on the way back to the office was struck with the thought that they are not many people better versed on any phase of development in the Panhandle, from agriculture to business, than Jack Bradley.

Monk Johnson says the Chamber of Commerce has had only three or four applications for Secretary - Manager. Probably, due to the season of the year. When folks are busy with Christmas, they seldom take the time to consider switching jobs. Come to think of it, I wonder how Monk came by his nickname? Anyway, it looks like the manager job will be filled after Christmas, not before.

Bruce Miller is still talking about the miraculous heart operation they performed on his daughter, Pam, at Houston. He really is carried away with the method which, though complicated, has been unusually successful. Needless to say, this will be one of the nicest Christmases he and Mrs. Miller have known.

My old friend, F. W. Dool, burned his right hand the other morning when a tight fitting leather glove, previously dipped into a gasoline tank, accidentally became ignited. He says most of the damage occurred before he could get off the glove. It looks as if he had it bandaged with the remnants of a pair of long-handled underwear, but Dool swears they did it at the hospital. It appears not to be too serious, though plenty painful, and Dool won't be doing much bowling for a few days.

Bill Helton, the barber, sold his home and his shop, and plans to move to Amarillo. Bill also sold his herd of chinchilla. He started out with four animals four years ago, and had 67 when he sold them to a Stratford man this week. Bill never would say what he got for them, just that he came out pretty well. Back in 1954 there were seven or eight Hereford people who went into the chinchilla business, but they gradually dropped out — and Bill was the very last one. To say the least, he had a nice gain in numbers.

I don't know anyone who has any A. T. & T. stock, but a lot of people are quite excited over the telephone company's announcement that it will split its stock 3-for-1, probably around June. This is what they term "cutting a melon" on Wall Street — and it will no doubt make a lot of stockholders mighty happy. However, it doesn't sound like the same story they were telling a few years back when they applied for a rate raise in Hereford.

Hugh Bookout tells a story about an old boy who sometimes found it a bit hard to please his wife. However, Christmas rolled around and the wife put two neckties on the tree for him. The old boy, figuring she'd maybe had a change of heart, rushed back to his room and donned one of the new ties, being careful to tie a nice, neat knot. He was beaming when he returned and approached his wife. She took one look, put her hands on her hips and declared: "So you didn't like the other one."

A youngster, assigned the task of telling a story with a moral, was called on first in class, so he got up and said: "Roy Rogers was riding down the road when he met an Indian and killed 'im. He rode on a little piece and met three more Indians and killed 'em. About an hour later, he met seven more Indians and he killed 'em." "That's an exciting story," remarked the teacher, but what is the moral?" "The moral," said Little Johnny, "is that those Indians had better not mess with Roy Rogers."

### Westway Group Holds Luncheon

The Westway Home Demonstration Club met in the home of the club president, Mrs. George Turrentine, Thursday at noon for a luncheon.

The buffet table was laid with a red cloth, with a centerpiece comprised of pinecones, bangles, greenery and red tapers. Tables of four were arranged with greenery and figurine candles.

Mrs. Kenneth Rudd turned the program over to Mrs. C. A. Sauley, who gave a reading. Mrs. Ed Blakeney also gave a reading. A trio composed of Mrs. Joe Landers, Mrs. B. F. Sowell and Mrs. E. L. Wilson sang "Star of the East", accompanied by Mrs. Herbert Owens. The trio then led the group in singing Christmas carols.

Mrs. P. B. Sowell installed the officers for the coming year. They are Mrs. J. C. Morrison as president; Mrs. Harold Rudd, vice president; Mrs. Kenneth Rudd, secretary and treasurer; Mrs. George Turrentine, council delegate; Mrs. Herbert Owens, reporter; and Mrs. Paul Rudd was installed as parliamentarian by proxy.

The traditional exchange of gifts was held.

Among those attending were Mesdames J. B. Odom, R. L. Wilson, Charles Owen, T. B. Thomas, A. C. Stengel, Joe Landers, Ernest Flood, P. B. Sowell, Harold Rudd, Bess Werner, Howard Walker, Kenneth Rudd, C. A. Sauley, G. C. Merritt, Herbert Owens and J. C. Morrison. Mrs. Ed Blakeney and Mrs. Tom Draper were guests.

**GROWING PRACTICE**  
WINNIPEG — Artificial insemination has done much to improve Manitoba cattle, especially in dairying herds, says a provincial livestock report. Last year 9,736 cows were inseminated at nine centers, a 26-percent increase over the previous year. Three new units were established this year.

## CHRISTMAS HOSPITALITY

**HOSPITALITY COMMITTEE**—Members of the hospitality committee of the Bay View Study Club pause for a coffee break while arranging the table for the annual Christmas party held in the home of Mrs. T. M. Drever, 111 Bulltram. The lovely red table cloth embroidered in white, gold

magnolia leaves and red flowers and candles express the yuletide spirit of love and friendship. Mrs. Jack Gilliland stands at the extreme left, Mrs. Drever (seated) pours a cup of coffee for Mrs. Lee Benefield, standing, and Mrs. J. C. McCracken.

**CHERISHED CUSTOMS**—A lot of family tradition and custom went into the adornment of this Christmas tree at the home of Mrs. Myrtle Wright, 332 Star St., highlighting the annual Christmas party held by Pioneer Study Club. In keeping with the club's golden anniversary being observed this year, strings of pop corn and cranberries

were used to simulate a tree of fifty years ago. Adding gifts to be exchanged by members and for the State Hospital in Wichita Falls, are, left to right, Mrs. Ralph McCullough, Mrs. Wirt Phillips, Mrs. Wright and Mrs. C. N. McClure.

**HOLIDAY FUN**—These three hostesses for the Lone Star Study Club's annual Christmas party have fun getting ready for the holiday event. Decorative appointments carried out a modern theme with a shiny bright tree aglow with lights, and red Christmas candles. Mrs. John

Jacobsen Jr., seated center, was hostess at her home at 209 E. Sixth St. and Mrs. G. W. Newsom, standing left, and Mrs. Louie LeGrand, seated right, add the finishing touches to final arrangements.

**PINK FLOCKED TREE**—A tall yuletide tree, almost ceiling high, flocked in pink, represented the last word in Christmas tree decor at the Ivan Block home, 200 N. Texas St., Thursday evening, when members of El Nino Study Club were entertained at the annual yuletide party. Pink balls tied to the tree with pink ribbon repeated the colors of

the mauve drapes at the picture window. Members of the social committee are shown completing the decorations. They include Mrs. Bill Waldrep, left, Mrs. Doryal Young, Mrs. Bill Decker, standing at the other side of the tree, Mrs. Jim Bookout and Mrs. Block putting last minute decoration to the gum-drop tree.

"The holly and ivy about the walls wind  
And show that we ought to our neighbors be kind."  
These words of an old Christmas carol are being noted in many Hereford homes during the holidays for Christmas does something quite miraculous to most of us. Our hearts go out to all our fellow men, there are lights in the windows and welcoming faces behind the lights. Doors are flung wide open as friends are gathered together, not because of tradition but because the spirit of Christmas is upon us. Peace and good will, familiar words of the Christmas story, live again and become meaningful, even though there have been nearly two thousand Christmas Days.

## TEXANS IN WASHINGTON

### Sen. Johnson Becoming Important Internationally

By TEX EASLEY

WASHINGTON (AP) — Recent weeks have seen Texas Sen. Lyndon Johnson emerge as an important figure in international as well as national affairs. It may be significant when viewed in the light of the 1960 presidential race.

Long recognized for his astute leadership of the Senate Democrats, Johnson for some time has been building up quietly a foundation for knowledgeable operations in foreign affairs.

Two events brought to the fore this facet of the 50-year old legislator who is repeatedly mentioned among presidential possibilities, notwithstanding his declaration that he is not seeking and does not intend to seek his party's nomination.

First, there was Johnson's appearance before the United Nations. Second, he flew to Acapulco to confer with Mexican President-elect Mateos, who invited him down.

If any proof is needed as to the skill with which Johnson handled matters on both occasions it is found in personal notes he received from two men in good positions to know. And, to dismiss any thought of partisanship, both are appointees of the Republican Administration.

Through State Department sources, who cleared both bits of correspondence, it was learned that U. N. Ambassador Henry Cabot Lodge and U. S. Ambassador to Mexico Robert C. Hill commended Johnson's activities in the highest terms.

Lodge sent the Texas senator a large photograph of the two taken at the U. N. and penned these words underneath:

"As a souvenir of your visit and with thanks for all that your speech and your presence did to help the United States in the United Nations."

Ambassador Hill in a letter from Mexico City wrote:

"Upon your return to the United States, I want you to know of the deep appreciation and pride I have as United States Ambassador to Mexico that you took the time to come here to assist the United States in reaching a better understanding with our important neighbor, the Republic of Mexico."

"The skill with which you handled your meeting with the President-elect and other dignitaries in Mexico, will have a lasting effect in assisting us in our responsibilities here."

Although Johnson never served on the Foreign Relations Committee in the Senate, or the Foreign Affairs Committee in the House while a representative, his role as Senate Democratic leader has helped give him a good view of international goings-on.

And, in some personal relationships he has had opportunity to be kept abreast of diplomatic developments. He served as Texas' junior senator for a period when Texas Sen. Tom Connally was chairman of the Senate Foreign Relations Committee. More recently, he was close to the late Sen. Walter George of Georgia when the latter was the committee chairman.

Few know it, but when George held the committee post with such distinction he was living at the Mayflower Hotel, Johnson would drive by on the way to the Capitol to pick up his elder colleague. Some time they would go by the White House first to let George off for conferences with the President.

It's known that on more than one occasion Johnson would plant an idea with George as they rode along, and at the White House the latter would discuss it with the chief executive. If and when George later

### REMEMBER WHEN?

By CHARLIE SEEDS

Few years have held as many moments of tragedy, of awe, and of hope as this one. In May of that year, Adolf Hitler died by his own hand, on the eve of Allied victory in Europe. Then came the hysterical celebrations as we realized that peace was at last within our grasp. The

attention of Americans turned fully toward the Pacific. From there, in August, came news that overshadowed everything else. An atomic bomb fell on Hiroshima, its giant mushrooming cloud of destruction announcing a change in the destiny of the world.

Then came V-J day... the end of the war in the Far East, and peace throughout the world. In San Francisco, representatives of the world's nations met in joint session, where they struggled to give birth to an idea which would shape the course of future world peace and harmony among nations. Here, that year, the United Nations was born.

Remember the year? Americans began to look ahead to "normal times" that year... times when, for instance, they could buy a new car when they wanted to. One thing car owners had learned... the importance of auto service, during the years when the old car had to be kept going.

The year was 1945. Dependable service is always important to a car owner... and we have complete facilities to give the finest in service, with the right parts and accessories. Put your car in the hands of the skilled mechanics at CHARLIE SEEDS MOTOR CO., INC. 146 E. Second. Phone EM 4-2727.

New Water Rates Seem Practical

Announcing the first water rate increase in 28 years, Hereford City Commissioners this week pointed out that although the new rate is expected to increase city revenue by a margin of \$20,000 next year, it will not effect the small consumer. They also state that Hereford will continue to have the lowest water rate in the Panhandle.

Considering the spiral on other commodities, including natural gas and electricity, it is remarkable that the city has been able to operate this long without some increase. Add to this, the fact that the old 9-cent rate on water consumption above 31,000 gallons is below the actual cost of production and the situation is all the more remarkable.

We are inclined to agree with the commission that the average consumer will notice little difference on his water billing except, perhaps, during summer months when lawns and flowers are parched and dry.

Commercial uses definitely should meet production costs on water, and this is where most of the increase will apply, jumping 15 cents per 1,000 in excess of 10,000 gallons.

The new rates appear fair and equitable. A city, like any other business, cannot operate at a loss indefinitely.

Faced with the necessity of additional revenue, the commissioners had to either increase water rates or subsidize the plant from increased taxes, similar to our national post office operation. In this instance there seems to be little question. The people who use the water should definitely pay the bill.

You Can Lead A Horse To Water

"What we need is some more bad weather," a merchant remarked the other day. He continued by citing an upturn in sales during the snow and sleet in Amarillo, pointing out that his stocks were good, his prices "right" and his service above average.

Somehow, the situation worries us. In the first place, any business which does not attract customers on its merits is not likely to expand tremendously. Weather records in this county are not such that a business can be founded and flourish on the "bad days" alone. In the second place, it means that people are trading with you because they have to, not because they prefer your establishment.

Frankly, we feel that if all the merchants in Hereford faced such an outlook the town would be diminishing in size, rather than continuing to grow and expand. The situation would be grave indeed.

Quality, stocks, price, service and public relations play an important part in causing individuals to seek a particular place to spend their money. The right combination of these factors, invariably, means a successful business. Some specialize in one phase, while others adopt another—and still seem to prosper.

Most generally, we like to think our business comes to us from one of these factors, and not because it is forced to us by an act of God. The man may be right, but we sincerely hope that he is wrong.

Public Reaction On Plane Crash

A "hush-hush" supersonic bomber crashed in Deaf Smith County this week, killing one man and injuring two others. The tragedy made headlines all over the nation.

Time was when an episode of this magnitude would have been the topic of conversation for several weeks around town. Most people heard about it, and mentioned it perhaps, but very few were deeply impressed. It was just another one of those things.

Why the change in attitude? Is it because we are so often exposed to similar catastrophes through modern communications? Is it because official release necessary on such accidents gives it that impersonal touch? Are people becoming less interested in their fellow man?

Regardless of the cause, the incident carried much the same interest it would have been accorded had it happened in Chicago or California. Under similar circumstances, the reaction would have been probably the same in any other community in the nation.

Generally speaking, we find that people are just as interested in their fellow man as ever before; they contribute more to welfare drives, help their neighbors in time of strife and open their hearts to most worthwhile causes.

Still, the difference in public reaction remains. We cannot help but wonder why. Even more important, will the ultimate effect of this feeling be good or bad upon our nation and its people.

According to government surveys, the center of the United States will be Butte County, South Dakota, when Alaska is formally admitted as a state.

This leaves Lebanon, Kansas with a very handsome and expensive market for sale, but there are mighty few people interested in a marker inscribed with "Center of United States" on it. It had better be saved as a relic of the west, like so many towns are showing these days.—Odessa (Mo.) Odessan.

When people start waiting to get out of this country instead of waiting to get in—we can start worrying about our system.—Shelbyville (Ky.) Shelby News.

The POWER of FAITH

"And it came to pass as the angels were gone away from them into heaven, the shepherds said to one another: Let us go even unto Bethlehem, and see this which has come to pass, which the Lord hath made known unto us. And they came with haste, and found Mary and Joseph, and the babe, lying in a manger." LUKE 2:15-16

DAN CUPID AIMED ARROW AND:

It Was Love At First Sight For R. Jacksons

By MRS. R. L. CRISWELL. Mr. and Mrs. R. R. Jackson, 441 Miles Ave., were married Dec. 23, 1908, in the home of her parents, Mr. and Mrs. Edward Saylor of Erick, Okla.

"I was born in Clay County, Tex., Jan. 11, 1887," said Mr. Jackson. "I went to my first school in Springfield, Okla. I was a husky lad and there were several bullies in this school. I spent most of my time taking up for the little 'fellers' and took home many a black eye, much to my mother's dismay. "Most of my time was spent riding herd on my father's cattle along the Red River to keep them from crossing. My

father ran cattle on the free grass in that area, so you can see that was many years ago. I enjoyed the solitude of the open spaces, but would go across the state line to Lefors to play croquet with friends. "A friend of mine had heard that a certain family was to have two special visitors — young ladies, Miss Smith and Miss Saylor. I was interested, as I had heard that Miss Smith was a very pretty girl. My friend said 'No, she is the one I am going to see.' I agreed to let him take Miss Smith out and I would take Miss Saylor. "He had a faint heart and decided not to go. Little did I

know then that Dan Cupid had aimed his arrow and that it was to hit the bullseye of my heart. "I think I fell in love at first sight, as I went home and told my mother that I had found my future wife: if she would just marry me. Of course she was anxious to meet her and asked her to Sunday dinner. I was walking on air. "We drove around the countryside and I picked wild flowers for her. She likes to tease me now and say that I am still picking flowers for her, and perhaps she is right. "Our first date was at a Negro minstrel show. On our way home we came to a fork in the road and I did not notice that the horses took the wrong road. We had not gone far until I saw that we were going the wrong way. I turned the team across the prairie to hit the other road and it really frightened Dot as she thought we were lost on the lone prairie. "After we were married we boarded the train at Erick, Okla., and rode to where I had left my team and a brand new buggy with red wheels and rubber tires. The lively man did not charge me for caring for the team as we were just married. We drove the 26 miles to my father's house and the whole family was waiting to greet us. "My mother gave us a wedding dinner and invited everyone to meet her new daughter. A total of 180 people came and it took most of the day to get them all fed. They came many miles in wagons and buggies or on horseback. It was a happy day. "I was born in Birmingham, Ala.," said Mrs. Jackson, "and came to Oklahoma as a child. We traveled on the train. I do not remember traveling in a covered wagon, but have ridden many miles to church and other entertainments in both wagons and buggies. "My wedding dress was a brown suit, made in a style similar to that of today. I chose a suit as we were going to travel by train to his father's house, immediately after the ceremony. The Rev. C. E. Robertson, pastor of the First Presbyterian Church of Erick, read the ceremony. "I was very proud of my ring as Bob's father had bought it in Kansas City since Pampa was so small — only a little village. His family was anxious to meet Bob's bride and the whole family came to meet us. (See Jacksons Page Two)

QUESTION OF THE WEEK

70 M. P. H. On 4-Lane Hiway Response Varies

Do you believe that the speed limit should be raised to 70 miles per hour on divided, four-lane highways in Texas? On other roads?

MRS. ROY HILL—No, I sure don't. I think we have enough speed on the highways. I even think they could be lowered. No, I'm definitely opposed to raising any speed limits.

MRS. R. C. ANDERSON—I believe that would be all right. Usually people run that much anyway when no one is watching. I think on a clear, straight road that is not a bad speed, especially if people use the same caution and careful driving they do at other speeds. Yes, I believe that would be all right.

GASTON BAER—Yes, indeed. A person can get where they are going before they even start.

MRS. ROY OSWALD—I'd say that would be all right on a four-lane divided highway, but I think the traffic laws should be strictly enforced. I don't think the limit should be lowered on any other type of road.

JIM BLACK—No! I can hit 60 miles per hour and I can drive more than a fellow can who hits 80 miles. And you can get more mileage at that speed than you can on a faster one. They've improved everything for the highways but the nut behind the wheel.

MRS. DELMAR SIGLE—Yes, I do. I believe the Texas speed limits were set back in the Model T days and I think the highways are so much better now and the new automobiles are much safer than on good straight roads like we have on the plains it would be all right. I don't think that should be done on roads that are not in condition for that type of driving, though.

J. H. HALE—I think it's all right on four-lane highways, but I certainly don't think it should be done for two-lane highways. We have enough speed as it is. On four-lane roads it would help keep traffic going and thinned out, but on other roads I think it would only be a hazard.

MRS. G. W. NEWSOM—I think it should be raised to 70 miles per hour for this reason: most people drive over the speed limit as it is and are breaking the laws. I think 70 miles per hour would be all right for the majority of the drivers on the highway.

MULESHOE GIN FIRE

Friona's Volunteer Fire Department traveled 14 miles early Thursday morning to aid members of the Muleshoe Volunteer Fire Department in extinguishing a blaze which threatened a cotton gin south of Friona. The La Coma Gin, which is the newest gin in this county, was threatened by fire which spread from a burning burr pit when the gin's water supply was cut off. The gin's usual practice of keeping the burr pit doused by a hose was interrupted briefly Thursday and this was the time the fire picked to spread. Muleshoe firemen arrived at the scene first and had the fire under control when the local fire-fighters arrived. The only damage reported was the loss of about three bales of cotton which caught fire while stacked on a trailer.—FRIONA STAR

SORGHUM GROWERS TRY FOREIGN MARKET

What sorghum grain producers of the high plains have hopes may turn out to be the biggest thing to happen in recent years in their search for markets came about last Friday when the Grain Producers Association signed a contract with the Foreign Agriculture Service, which officially puts the organization in charge of all Feed Grain Markets in foreign countries. The program will be financed by 80 per cent from FSA funds and 20 per cent from Grain Sorghum Producers Assn. funds, raised by voluntary contribution of two pounds per thousand from grain sorghum producers.—FLOYD COUNTY HESPERIAN (Floydada)

GROOM GETS HOSPITAL FUNDS

Long hours and hard work by citizens of Groom and surrounding area paid off Monday, when their request for matching Hill-Burton hospital funds was approved by the State Board of Health in Austin. As late as Thursday of last week, the campaign was \$2,328.07 short of the \$100,000 goal, and then a whirlwind finish brought in the necessary \$2,000 plus another \$25,000 for good measure. Thus the Groom committee was able to request matching funds of \$125,000 when informed of the success of the campaign. Hill-Burton funds, from federal tax money, are used when communities seek to build a hospital that is open to the public. Federal funds are matched by local contributions. Earlier this year a group in Amarillo raised \$1,000,000 and the funds were matched by Hill-Burton monies. The new hospital will replace the privately owned Groom Osteopathic hospital. The present facility with 10 beds, is housed in a converted hotel building, which cannot be enlarged. It will be closed.—PANHANDLE HERALD

DELINTING PLANT BEING BUILT

A new cottonseed delinting plant is now in the process of being constructed on the Spade Highway, just across from the Lamb County Grain Co. It will be housed in a 30 by 80 foot building, with all-new equipment now being delivered. It will be situated on a two-acre plot of ground. Owners report that it will be in operation in about four weeks. The method of delinting will be by the acid process.—COUNTY WIDE NEWS (Littlefield)

The BOOTLEG Philosopher

Editor's note: The Bootleg Philosopher on his hindweed farm has discovered Christmas is here. If he has found it out, it must indeed be here.

Dear editor: Along about this time of the year, every year, a lot of people pull up short and declare time sure does fly, here it is Christmas again and it seems like only a month or so since the last one.

This is because people live too fast. That is, they think they're living too fast, although actually of course everybody lives at the same rate, only instead of living from one hour to the next, or at the most one day to the next, most people try to live in gulps, say twelve gulps to consume the whole year.

Now me, I take things a little easier. You try to consume a whole year too fast and you wind up with indigestion.

Also, I notice that some people get to wishing they could skip Christmas, they say it's too strenuous, it's too much trouble, it's too commercial. Generally though when people say Christmas is too commercial, they mean it's not commercial enough for them, it's the other fellow that's profiting by it. Commercialism generally is considered bad only when you're on the wrong end of commerce, when you're spending instead of selling.

This is the reason I have been proposing for years a new plan which I think the government ought to consider. Under the present system, a man never knows whether he's going to come out ahead or behind when his Christmas giving and his Christmas receiving has been totaled up. Here's where the government ought to step in. The government ought to agree to make up the difference between what you spend and what you get. A sort of Yuletide Equalization Bureau. All a man would have to do under my plan would be to keep a list of the gifts he gives in one column, a list of what he gets in another, and if the second column is shorter than the first, the government would make up the difference. Of course, if the first column was shorter, and you got more than you gave, the government should forget it. What's Christmas for? What's the government for?

I don't think this plan will work, but that's no argument for the government's not trying it. If the government tried only things that will work, Santa Claus would sure fail to see a lot of people.

Meanwhile, Christmas is here, whether it's liked or not, although me and you and a lot of other people sort of like it. Consequently, until the government gets its Gift Equalizing system working, I will hereby get rid of all my Christmas obligations by saying: Merry Christmas.

Yours faithfully, J. A.

**Pie Crust**  
When the pie is taken from the oven, place it on a high wire rack to cool, instead of on a flat surface. It will help to keep the crust flaky, so it will not be soggy. Invert the wire dish drainer for this purpose if you do not have a regular rack.

**Excessive Perspiration**  
You can relieve excessive perspiration by bathing the area with one teaspoon of powdered alum to a quart of water. Allow to dry, then rinse and dust with talcum powder.

**Cheese**  
Cheese will not mold if it is wrapped in a cloth that is constantly moistened with vinegar. Butter the cut edges of the cheese to keep it from hardening.

**Blankets**  
Use the juice of two lemons in the final rinse water when washing blankets. It will help considerably in retaining the body of the blanket and counteracting shrinkage.

**Packing Dresses**  
Dresses may be packed for traveling without serious wrinkling if they are covered on both sides with tissue or cheesecloth, then folded.

**White Kid Gloves**  
The white kid gloves can be kept clean a long time if the soil is rubbed off each time they are worn by using an artist's eraser.

**Jelly**  
A good method of testing jelly to see if it is ready to pour into the glasses is to pour a very little from a spoon. If it forms a single large drop and breaks away quickly from the spoon the jelly is done.

**Rubber Plant**  
Drop a teaspoonful of sweet oil around the roots of the rubber plant once a month and see how greatly it will increase the gloss of the plant.

**Chewing Gum**  
Chewing gum that has become stuck to clothing should be removed, as much as possible, with a dull knife. Then sponge with carbon tetrachloride.

**Waterproof Fabric**  
Ordinary fabric can be made waterproof by dissolving equal parts of isinglass, alum, and soap separately in water. Then mix the three, and brush the mixture on the wrong side of the cloth.

## Jacksons....

(Continued from page 1)  
They gave me a royal welcome into the family.

"Mr. Jackson had built us a two-room house and we moved in and began housekeeping. Our little home became the meeting place of the young folk of the community. Bob would lead the singing or the games and we would have a wonderful time. We had many more community parties then, and everyone would be there — from the smallest baby to the grandparents.

"We moved to Hereford in 1924, or rather to a farm several miles from town. We had a hard time making a living, but we were happy. We had six children, two boys and four girls.

"It took us awhile to make a crop and we had very few clothes or very much of anything. We used oil to cook and heat and would only buy one gallon of oil at a time as we did not have the money to buy more than that at one time.

"On Nov. 9, several years later, an oil company brought in the first well on his father's farm. When we got the first check from the oil company, Bob went to town and bought a whole barrel of oil. A barrel of oil? Why we were rich and we were so happy to be able to buy some furniture as we had been using old beat up iron beds and whatever we could get together.

"Now we built a house and bought furniture and had rugs on the floor, and Bob even bought a piano. Happy days indeed, but we did not forget those who were not so fortunate as we. I have known Bob to drive 75 miles to help a widow and children or others who were in need. We were happy to share what we had with others.

"Later, Bob built the brick house north of town where all the trees are about the house. He had it landscaped, with a rose garden and many other flowering shrubs. C. C. Neu cared for it and kept it looking nice. The Vasek family lives in the house at this time. People came for miles around to see and admire the landscaping.

"On our first visit to Bob's parents' home, I wore a lovely white dress of a sheer material. As we were having lunch, I spilled a whole quart of beet pickles in my lap. I was never so embarrassed in my life, but everyone was very kind, and that helped me feel better about it. But I can see that dress yet.

"When we were leaving New Mexico, we again moved by train. There had been a big rain and had washed the bridge out. A farmer was there to haul the passengers and their luggage across the river in a wagon.

"Another train had come to meet us, and we had to board it on the other side. Bob was helping to load the luggage when the train made a sud-

den start, throwing him off, and the suitcase he was holding flew open and scattered clothing all over and around him. Luckily, it was our bag or it might have been more embarrassing. He gathered the clothes and the man stopped for him to get on the wagon.

"Our children are all grown and married and we have 19 grandchildren and four great-grandchildren. It is wonderful to have them visit us and make everything happy and gay for us, as all we have for company now is a little dog, which was given us by the Methodist preacher, and that makes her something special.

"Would we live our life over with all its troubles and hardships? Well that is hard to say; if we could go back and correct all the mistakes we made in the past, it would be worthwhile. Otherwise not. But it has been a happy and full life. We love the people of Hereford and surely enjoy living here," she concluded.

## How Can I?

Q. How can I test the contents of canned goods, to determine if fresh or spoiled?

A. Place a drop of water on top of the can to be opened. Run a sharp-pointed tool through the water and the tin. If the water is sucked into the opening, the contents are all right. If gas escapes through the hole and blows the water away, the contents are spoiled.

Q. How can I remove scratches from shoes?

A. Rub petroleum jelly into the scuffed shoes before they are polished and the scratches will barely be noticeable after the shining process.

Q. How can I prevent the whites of eggs from falling after whipping?

A. Add a pinch of cream of tartar to the whites while they are being whipped, and this can be avoided.

Q. How can I determine when milk is "scalded"?

A. Many people are not quite certain what "scalded" milk means. An excellent method is to place the milk in the upper part of a double boiler, and when the water in the lower part boils, the milk is scalded.

Q. How can I make buttered bread crumbs?

A. Mix the crumbs in melted butter over a low flame. This is a much better and easier method than attempting to butter the crumbs.

Q. How can I renovate an old, shabby umbrella?

A. Try sponging it with a cold solution of strong tea.

Q. How can I vary the preparation of mayonnaise?

A. Mix with the plain mayonnaise a half cup of chili sauce, cooked tomato, or catsup. A little chopped celery or green pepper may be added if desired, or pickle if catsup is used.

Q. How can I determine whether a stain remover will take the color out of the material, before using it?

A. Try it first on a section under the hem of the garment.

Q. What are the best containers to hold slips of vines when growing them indoors?

A. Use glass vases. Then the sun can get to the roots.

Q. How can I dry a fur neck-piece or coat that has become wet, without injuring the fur?

A. Do not dry it by the heat of the fire, as this causes the

PHOENIX, Ariz. (AP) — Wilton Wahl was fed up with the thief who was stealing archery equipment from his car. He planned an ambush.

First he put some bows and arrows in the front seat. Then he put his watchdog in the back seat. He then climbed to the roof of his house to get a clear view of the scene. Several hours passed but Wahl could see no burglar. He climbed down and found: His bows and arrows gone, his dog resting comfortably.

## Santa Claus Distributes Gifts At Music Club Christmas Party

The arrival of Mr. Santa Claus who came because all the "girls" had been good, was the highlight of the Music Study Club Christmas party held in the home of the president, Mrs. W. J. Stanford Monday evening.

Mesdames Norman Moore, Wayne Thomas, C. J. Mountz, Cliff Estes and Lowell Sharp, members of the hospitality committee, made arrangements for the party.

Mrs. Cliff Estes told the story of the hymn of the month "Angels From the Realm of Glory" by James Montgomery who also wrote many sacred songs. The hymn was sung by a quartet made up of Mesdames T. W. Roberson, Cliff Estes, C. J. Mountz and A. O. Thompson with Mrs. A. J. Schroeter at the piano.

Mrs. J. C. McCracken played "Silent Night" with variations, and "Bye Low" by George Pullen, a 15th century carol, and "Sing Noel" by Franklin. Mrs. A. J. Schroeter accompanied at the piano. Mrs. Dick Godwin sang "O Holy Night" with piano accompaniment by Mrs. George McLean.

Santa Claus distributed gifts from a beautifully decorated Christmas tree highlighting sim-

ilar decorations throughout the entertaining rooms.

Following an old English custom, Wassail which means "Be in Health", was served with other Christmastime delectables by the hospitality committee. Napkins inscribed with Christmas carols automatically divided members into groups with each group singing the carol designated to conclude the program.

Members present were Mesdames J. R. Allison, W. T. Carmichael, Steve Clements, Ellis Coombes, R. P. Conaway, B. Y. Crosthwaite, W. E. Dameron, Cliff Estes, H. K. Fox, Dick Godwin, Joe Haeker, George McLean, J. C. McCracken, Norman Moore, C. J. Mountz, T. W. Roberson, A. J. Schroeter, Lowell Sharp, Bill Stanford, A. O. Thompson, C. W. Parker, J. E. A. Mud or clay masks, consisting most frequently of fuller's earth, mixed to a smooth paste with witch hazel. Use about two tablespoons of the clay. Equal parts of witch hazel and peroxide can be used if bleaching is desired.

Q. How can I make my eyelashes darker without actually coloring them?

A. Regular clipping of the ends of the lashes — carefully and slightly — every two months or so has a tendency to strengthen them, stimulate them, and thus darken them. Applications of plain petroleum jelly are also good for lashes and brows.

Q. What is a good, cleansing compound for a skin that is infested with blackheads?

A. One good one consists of a tablespoon of oatmeal, one of cornmeal, and some soap and water. Rub this over the blackhead area, then scrub with a brush, and rinse off.

On one vigorous go-round, his young lady partner apparently caught her finger in one of his belt loops.

That left Richard trying to: Disengage the offending finger; keep his pants in place; prevent his cowboy hat from bouncing off; maintain his place in the circle of dancers. He made it.

## Beauty At Home

Q. What is the best weight for a girl who is five feet three inches tall?

A. If she is small-framed, about 116 pounds is good; if medium-framed, 129 pounds; and if large-framed, about 145 pounds.

Q. How can I help to keep my light-colored hair light-looking?

A. Light hair should be shampooed more frequently. Avoid using tar soap or sage tea, which are for dark hair only. Oily lotions are also taboo. A shampoo of castile soap jelly is very good. After this, the hair should be dried quickly. An after-shampoo rinse made of camomile leaves helps to prevent darkening. Use this as a final rinse.

Q. Please suggest a good external treatment for acne or pimples on the face.

A. Bathe the face twice daily with pure soap and water, rinsing well with very warm and then cold water. Try using lanolin, instead of face creams, and as little powder as possible.

Q. What can I do about perspiration stains on one of my unwashable dresses?

A. Sometimes these yield only to dry cleaning. But first try sprinkling some cornstarch on the affected areas, then brushing it off when it has dried.

Q. What is a good treatment for whiteheads on my skin?

A. Apply a paste of almond meal and warm water to the

infected areas, and allow to dry. Then scrub with circular motions, using a clean cloth. Rinse the skin with warm water, and then splash with cold water.

Q. What is a safe and easy way to bleach the hair on my upper lip?

A. Applications of Itrone juice should help to do this. Q. How can I exercise to help flatten my abdomen?

A. Lie on back, arms at sides or overhead, legs straight out on floor. Pressing knees together, draw them all the way up to the chest, so that the upper legs press down on the stomach. Kick the legs straight out again. Repeat knee to chest, repeating the kicking of the legs out straight. Start this slowly, and increase your speed and vigor — ten to twenty times.

Q. What will help me to make a smoother job of applying my fingernail polish?

A. A good buffing of the nails before the application of your polish. This is also a fine stimulant for the nails, encouraging their health and strength.

Q. What sort of facial beauty masks are especially good for oily skins?

### 'The Outside' Brings New Beat To Nightclub Life In Houston

By EDWIN FRANK

HOUSTON, Tex. (AP) — "The Outside" — a strange name for a strange place — gives Texas Beatniks a home away from California, gives young Houston artists a place to exhibit, and gives the rest of the town a wonderful time.

The dimly lit rooms in the white frame house where you can pay 25 cents for coffee, cakes or hot chocolate are furnished with chairs and tables hauled from junk yards. Gordon Deats, one of the owners, says "every now and then a chair gives way under a guest and we have to spend 50 cents to buy another one."

But the old chairs, the paintings on the walls, the wooden boxes that serve as tables, the bottles covered with candle wax and the unusual clientele draw the curious.

Deats explained how the "Outside" grew.

"I was getting tired of being poor. I had just switched from painting to sculpturing and wasn't making any money. I talked to Bob Debow who had his own sculpturing studio and I mentioned to him that I had heard of one or two places in the country that made money as a combination coffee shop, art studio and art gallery. I had \$200 I had just won by taking first place in the Houston Post's Easter art contest. I used it and some money Bob had to open the place. We had to move

the first time because the people who lived in the house complained the customers made too much noise. Then we moved a second time because we didn't have enough room."

Deats said the "outside" has two purposes.

"The first thing we're trying to do is develop a dependable source of income for ourselves so Bob and I can continue our work. Then, we thought we might develop a place where the artists in Houston could meet. We thought we could make the people in Houston aware of the fact that there are artists in Houston."

Six artists and two writers have studios in the huge white building. One-man art shows are held whenever necessary and all of the 200 or more paintings hanging on the walls are for sale at prices ranging from \$1 to \$275.

The "Outside" is open until 3 a.m. — long after the night spots in Houston close. The late hours attract the after-show crowd, show people, newspapermen, radio announcers and people looking for excitement.

There is no formal entertainment at the "Outside" but every now and then some "Beats" will read poetry with a combo playing jazz in the background. Or someone will bring a guitar and play all evening. Most of the time people just sit in little groups and talk. The only waitress in the place now is a would-be actress who replaced a would-be dancer.

**Suggestions Offered For Safety During Holidays**

College Station — The gaiety of the Christmas season can be changed to grief and sorrow within seconds. The home, during this season, is usually loaded with fire hazards and unless safety precautions are taken, an accident could happen, warns the Texas Farm and Ranch Safety Council.

The Christmas tree, the center of most home decorations, can be a principal hazard. The Council suggests that a freshly cut tree be selected a few days before Christmas. Before it is placed in the house, the base of the tree should be cut diagonally and placed in water or wet sand. This will keep the tree fresh and help in retarding fire. The tree should be placed so that it will not block exits to a room and away from the fireplace, powerful electric lights and other sources of heat.

The Council recommends that only Underwriters Laboratories approved lights be used on the tree. Lights which have been used before should be checked for frayed wires or damaged sockets. Electrical circuits should not be over-

loaded with additional lights, toys and appliances. Only nonflammable decorations should be used on the tree and tree lights should be turned off when no one is at home or when the family retires. Trees should be discarded when the needles begin to dry and fall.

This is also a time for smokers to be doubly careful, points out the Councilmen. Extra care with cigarettes, cigars and pipes is advised especially when smoking around flammable materials. Don't let wrappings from packages clutter up the house for they can become a real fire hazard.

Observance of the basic rules of home safety can make the Holiday Season happier and life more pleasant for the family and friends, concludes the safety group.

Primitive cave women in the United States tidied up their floors by spreading fresh soil over the debris rather than using the equivalent of a broom. Archeologists today are happy about this for it preserved the tools and other articles used in those ancient days as carefully as if they had been left in a modern filing cabinet.

**Enlistee Offered Choice Of Unit**

Qualified young men may now enlist for duty in Europe with one of two elite U. S. Army pentomic units through a special U. S. Army enlistment option, SFC Carl J. Fussell, Army Recruiter, announced.

Enlistments are being accepted for the 2nd Battle Group, 4th Infantry, and the 2nd Reconnaissance Squadron, 7th Cavalry. Both are elements of the 3rd Infantry Division.

The division is organized according to the pentomic concept which stresses greater maneuverability and increased firepower through utilization of the most-up-to-date methods and weapons.

This enlistment option is open to prior service personnel and young men without military service who qualify. Enlistees will receive basic and advanced training before joining their units in Europe.

SFC Fussell pointed out that this special enlistment option is open for "buddy enlistments", whereby a young man may enter the Army with his buddies for the same unit and overseas assignment.

He also explained that young men enlisting for one of the units will become a member of the famed 3rd Infantry Division, one of the most decorated divisions in the U. S. Army. The 3rd, or "Rock of the Marne" Division, is the only American Division to have fought the Nazi on all fronts during World War II. The division has earned more than ten Distinguished Unit Citations.

Further information enlistment may be obtained from SFC Fussell at 212 E - 7th, Amarillo.

**About 400 Persons Attend Open House At Roy Peet's Residence**

In spite of a cold wintry blast out of the north on Friday Dec. 12, approximately 400 people attended Roy Peet's Christmas open house event held at his home, 114 Beach, Friday evening.

A fantasy of color marked the decorations, both outside and inside. Bright orange and bittersweet vied with black and winter white in an extravaganza of design ranging from the traditional to the ultra-modern and the oriental.

On the front-lawn the espalier tree, trained to form a perfect Christmas tree, shown with orange berries under a spotlight which also pointed up a modern starburst at the entrance giving a welcome "Merry Christmas" and the orange colored door decorated with miniature Christmas trees in black containers roped with black beads.

Once inside, the colors took on warmth and added beauty crowding out the thought of the cold outside. The refreshment table at one end of the dining area was laid with a floor-length white satin cloth garlanded with gold roping. A Japanese modern arrangement of bittersweet and white carnations interspersed with tiny Japanese lanterns.

Backing the goblet punch bowl (filled with orange punch) stood a four-branched black wrought iron candelabra holding orange tapers with bittersweet and white carnations at the base. Gold stars sprinkled all over the shimmering white cloth.

The entire west wall was done in black and featured a Japanese mural done in white. On the buffet, in front of the mural, was a modern fruit tree laden with glamorous Austrian fruit in orange bittersweet and yellow.

A dividing planter filled with greenery and white poinsettias and overhung with modern mobiles, separated the dining area from the living room. There a Christmas tree predominated the scene. The large white flocked tree was trimmed with black and gold ornaments, graduating in size that twinkled and glittered in white flickering lights.

At the desk and on the TV arrangements carried out the bittersweet and gold colors and one of Peet's most prized paintings hung on the west wall. This was a three dimension oil painting made of balsam wood in modern art design called "The House of Bittersweet" in gold, black, bittersweet and white.

The same colors and originality in designs were noted throughout the rest of the house, giving the aspect of a huge Christmas card with each room like an added page extending "Happy Holiday" greetings.

Assisting in the house party were Mesdames Otis Lee, Jack Roberson, J. L. Markham, Bill Morris, Gladys Merritt, Molly Jo Schofield, Gene Streun also assisted.

By MRS. T. L. COLLINS

Tuesday was 4-H day at Walcott. The girls held their annual "Christmas Tea" for their mothers and a gift exchange. Miss Jeanette Faulkenberry, assistant county home demonstration agent from Hereford, was also present.

The boys received 4-H calendars and yearbooks from J. W. Thomas, county agent from Hereford. Mrs. J. V. Perrin was also present.

Smoke could be seen in the sky by the pupils at recess. A number of Walcott families went later in the day to view the scene of the accident in the brakes of New Mexico.

Cliff Patton died in Deaf Smith County Hospital at Hereford early Thursday morning, Dec. 18, following a long illness.

V. Hall and sons, Mr. and Mrs. N. E. Tyler and children and Mr. and Mrs. Buel Monroe, Kathy and Jimmy.

The same committee, as well as Mr. and Mrs. Dan Guseman and Mr. and Mrs. Glenn Burrus, met at the school Wednesday afternoon to sack treats.
