Still talking about public utilities: Harry Castle of Amarillo brought over a film Tuesday for the Optimist Club. It was concerned, naturally, with natural gas. Harry is with Pioneer Natural Gas. Before the program started, he called Optimist Bill Drummond forward and presented him with cotton ear plugs and sunglasses. "Some of this film is going to offend your ears, Bill, and some parts of it are going to hurt your eyes," Castle commented. Drummond is an employee of Southwestern Public Service Company in Hereford. His demand for rebuttal was ignored.

In contrast to the superb TV coverage given the 1960 Winter Olympics, we have been disappointed with the meager coverage given thus far to the Summer Olympic games in Rome. We can understand the difficulties of having to film the action and fly it to New York. We feel, mostly, that the coverage is shallow but may improve some when the track and field events get underway.

Foundation

(Continued from page 1)

J. H. Sears, J. C. McCracken and Earnest Langley were appointed by Norton as a committee to deal with prospective purchasers of land now under option for purchase by the Foundation.

Sears, who heads the finance committee, reported that about \$34,000 had been received in donations or pledges toward the community's good - will gift to get a home for the aged in Hereford.

A total of \$100,000 is needed by Sept. 14, he said.

Sears emphasized that pledges were as good as donations at this time, since only evidence that the \$100,000 is available will need to be presented.

The Foundation is working to get a home for the aged here under a plan advanced by a special corporation of the Northwest Texas Conference of the Methodist Church.

A million dollar golden age home is to be built in Hereford by the Conference if two stipulations are met. The community is to provide a suitable site and a \$100,000 goodwill gift as evidence of community support.

An option already has been made on a 30-acre tract west

of U. S. Highway 385 and north of Moreman Street. The Foundation proposes to donate the west 14 acres, including land for a three-acre park. The east 16 acres of the Nora Gillis property is to be sold at some time in the future. Proceeds from any sale or sales will go into the Foundation.

The special Methodist group voted earlier this year to place the first of four proposed homes in Hereford if the requirements were met. This group will meet again on Sept. 15 to formally consider Hereford's bid and to determine the location of the home.

Under provisions of the Foundation by-laws, getting a home for the aged here is only one of many activities which may be undertaken.

With its charter as a non-profit, tax-exempt organization, the Foundation will serve as a vehicle to initiate or aid in all types of projects. These may be civic, moral, economic, cultural, social, religious, charitable, agricultural or industrial.

WHAT CONTRABAND? LINCOLN, Neb. - Brigitte Bardot may be a movie star to most folks, but to convicts at the Nebraska Penitentiary, she's contraband. Explaining to the State Pardon Board a rule infraction for which he had been cited, an inmate said he had been caught with contraband in his cell - a pin-up picture of Brigitte.

CRASH SCENE - This is the path smeared by Navy jet which narrowly missed two Nike Hercules rocket missiles, two missile crews in training, and a new-built school house seen at upper right as it crashed at Fort Bliss near El Paso. Two men are bomb disposal crewmen seeking to defuse charge carried by aircraft. Black trail marks area where jet fuel flamed over ground, and white area, just above main wreckage, shows ash of aircraft, much of which was burned. (AP Photo)

GAS EXPLOSIONS AND FIRE - Flames envelope two road maintainers which ruptured a 15-inch high-pressure gas line of the El Paso Natural Gas Company in Central Martin County near Stanton. Two men were burned and an elderly farmer died of a heart attack. (AP Photo)

SALT AND PEPPER
LANCASTER, Ohio - Floyd Roshon has made sure he'll have the salt and pepper shakers when he wants them at the table.
Roshon sawed a circular hole in the center of the dining room table, put the wooden circle back in place and attached an electric motor to make it revolve. He can throw a switch, when the shakers are out of reach, to bring them closer on the revolving centerpiece.
Forty per cent of the cotton supply of the world is raised in the United States.

WINNERS of the 1960 City Junior Golf Tournament at the local links last week included six Hereford youngsters. They include, sitting from left, Jack Thomas, winner of the 10-12 age bracket; Jim Owen, first in the 13-14 age group; and John Willoughby, winner in the 15-16 age bracket. Standing from left are Wynn Buck, second in the 10-12 age group; Gary Stagner, third in the 13-14 age group; and Frank Cain, second in the 13-14 division. (Staff Photo)

By JIMMIE GILLENTE
School is underway again, which means that life will be tough for Junior for the next four or five weeks. Dad has read his annual riot act:

"No nights out, except Friday! You'll be in bed by 9 o'clock! You can't study with television going! You'll eat in the cafeteria like other kids; the food is wholesome, well prepared, tasty, and cheap! Wash behind your ears! What's that...? Sure, I know how to work algebra, but if I do all of the work, it won't do you any good!"
Come the middle of October, and Junior can expect some relief. Working on the youngster's side are World Series, college football games, golf, business pressures and, sometimes, even mom. A lot of things change, but this is one routine which continues in most American households.

Mrs. Dave Alexander says she will be most happy when cold weather arrives. Like most everybody else she lives in an air conditioned house, and rides in an air conditioned automobile.

"What gets me," complains Mrs. Alexander, "is going from the house to the car. If I take my time, I get too warm. If I run, I get out of breath." The more you think about it, you'll have to admit, it really is a tough life.

Wilburn Ake quit smoking to the tune of several added pounds and, like a lot of other people who give up the habit, Wilburn thinks it would be good for everyone else. He finally got disgusted with me the other day, and said:

"OK, Go ahead and smoke those old black cigars. It's your business, but they smell like the devil."

Grapevine reports indicate that we will have an interesting race for County Clerk in the November election. B. F. Cain was selected as Democratic nominee at an executive committee session; Mrs. Kenneth Rudd will appear on the ballot under the Republican column - and Abie Crumpe, present deputy, is planning an extensive write-in campaign. Needless to say, this is most unusual in an area where the Democratic nomination has been tantamount to election but, after all, there has been nothing routine about the office, right from the word "go."

Perhaps, if one of the candidates would endorse replanting of the courthouse trees, it would be good platform material. I never heard so much carping about anything in a long time. The commissioners say the whole courthouse lawn is roof-

bound, while a lot of other people figure they would rather have trees than grass. Regardless of your leaning on the question, that's about the answer. You just can't have Elm trees and a beautiful lawn. One of them has to go and, no matter which one, you can figure that quite a few people will be displeased.

It's a funny thing, million-dollar budgets, tax equalization and teacher shortages go fairly well unnoticed - but cut down a tree and, Brother! You've had it. Even George Washington had his troubles on this score.

Jack Brown says he knows a sheep man this side of Albuquerque who is selling all of his sheep because of the heavy loss to coyotes and to mountain lions. The rancher told him they had tried trappers, hunters and everything they knew, but the losses keep on getting bigger and bigger. Jack figures some amateur sportsmen could have a ball in the territory. They might even talk ranchers into furnishing the ammunition.

If you love your dog, you had better start worrying a bit. The supply of horses is fast dwindling, according to government figures. Only about one-fifth as many horses are being slaughtered now as a decade ago. Packers are talking about other meats such as kangaroo, whale, jackrabbit and nutria. This may be all right for cats, which eat mice and rats, but no self-respecting dog owner is likely to be happy over the deal.

I finally got a legal opinion on the subject of wives who insist on mowing their own lawns. I won't use the attorney's name, because he might send me a bill - and you can tell from the opinion that he could be fairly expensive.

TOO MUCH TALK

BALTIMORE (AP) - Things looked pretty bad for Peter Mennin, director of the Peabody Conservatory of Music.

He chatted with a visitor so long they found everyone else in the building gone and front door locked. Then the door to Mennin's office slammed, trapping them in the hall - out of reach of the key on Mennin's desk.

And when Mennin reached into his pocket to call the janitor from a hallway phone booth, he found one one nickel. Fortunately, the visitor had one, too.

Bruce Miller Gives Talk On Air Force Academy

The training offered by the Air Force Academy at Colorado Springs was topic of a talk made by Bruce Miller of Hereford at the Monday meeting of Rotary Club Monday in the ballroom of the Jim Hill Hotel.

Last December, Miller was appointed by Major General William S. Stone, superintendent of the Academy, as a Liaison Officer for the Academy in this area.

He showed color slides during his talk. He explained that 95 per cent of the instructors at the Academy have their master's degrees, and 18 per cent of that group hold a doctorate.

Cadets, he said, enter the Academy in July, and by the end of the first summer are "in top-notch condition."

Miller commented that classes are conducted on the honor system, and that the cadets handle many of their own problems.

Seventeen sports are offered at the Academy.

The mess hall can accommodate up to 2,500 cadets at one time. A game reserve also has been set up for cadets, he said.

The prospective cadet must be between 17 and 22 years old, unmarried, a male United States citizen, have good moral character and be in good physical condition.

Rains Halt 18-Hole Rounds Of Pro-Am

A team paced by Ray Hardy, Muleshoe Country Club pro, won the West Texas Chapter, Texas P. G. A. Pro-Am held at the John Pitman Municipal Golf Course Monday in Hereford.

Golfers on Hardy's team included John Shackelford, Texas Tech student of Lubbock, J. Elmo Stover of Clovis, N. M., and G. W. Mings of Friona. The foursome carded a 14-under-par low ball of 56.

Copious rains Monday afternoon kept about half the 26 teams from completing their 18-hole rounds.

Second and third place divisions ended in a four-way tie, each team with a low ball of 57.

Shackelford was low amateur with a five-under-par 65. Second low amateurs were Charles Seed of Hereford and Bob Giese of Amarillo, both with 67s.

Low professionals were George Getchell of Amarillo and Chris Brashear of Floydada, who tied for first with 66s.

How Can I?

Q. How can I create my own warning device that the water in the bottom of my double-boiler has boiled away?

A. Boil the linen in water to which two tablespoons of peroxide have been added to each quart of water.
Q. How can I prevent the interiors of metal or brass planters from rusting through?

AUSTIN HIGHLIGHTS

Not Completing High School Big Mistake

By VERN SANFORD

AUSTIN — Summer weeds are being rhoved down on the school yards over Texas this week. Classrooms are being aired, and teachers are mapping lesson plans.

Some teenagers — probably thousands — are ignoring all these tax-paid preparations being made for their benefit. Deliberately or unknowingly, they're getting ready to make one of the worst mistakes of their lives . . . not finishing high school.

Gov. Price Daniel has issued a special plea to youngsters to "go back to school and remain there until graduation." To drop out of school, the governor reminded, is to cheat yourself out of a probable \$50,000 in future income. This is the average difference between what a high school graduate and an eighth grade graduate will earn in a lifetime.

To drop out of school, the governor.

Public concern is based on statistics showing that between the 1955-56 school year and graduation of the 1958-59 class, more than one-third of Texas high school students dropped out.

In 1955 a total of 118,272 students enrolled in the ninth grade in Texas public schools. When that class graduated in 1959, only 71,855 still were there. About 39 per cent had dropped out.

Governor Daniel reminded that in an age of swift technical advancement, it is harder and harder for an unskilled worker to find a job. He called on

public and private organizations to join in encouraging young people to stay in school. Both the individual and the community enjoy a better life, he said, where more people have good educations.

SMALL WORLD PROBLEMS — In deciding what kind of materials to use in building Texas roads and bridges, the State Highway Commission found it self plunged headlong into the whirlpool of international relations.

This summer the Commission issued an order that only American-made materials should be used in Texas road and bridge building. Texas industrialists, particularly steel officials, cheered, but representatives of foreign nations lodged a storm of protest at a hearing before the Commission.

As a result, the order has been held up for further study. Decision will come probably in late September.

Representatives of the Texas steel industry called the ban on foreign materials "a forward step for Texas." They said use

Gonda Smith To Stephens College

Gonda Smith, daughter of Mr. and Mrs. Joe H. Smith Jr., 216 Ave B in Hereford, will attend Stephens College in Columbia, Mo., this fall when the college for women starts classes on Sept. 19.

More than 1,625 women students from all parts of the world will be in classes at Stephens College this fall.

of imported products brings loss of jobs for Texas workers and loss of taxes from Texas businesses. Furthermore, they argued, the imports are only slightly cheaper and frequently of inferior quality.

Attorneys representing the governments of Japan, Belgium and West Germany countered that "international trade is a two-way street." In short, they said Texas cannot expect to continue to profit from selling its products abroad unless it is willing to buy from other countries.

A spokesman for an international trade group declared the imports ban would violate the spirit of a treaty between Japan and the U. S.

MEDICAL AID URGED — Next legislature has been urged to pass a law providing for payments for the medical care of the needy aged.

Housing sub-committee of the Governor's Committee on Aging has released its report which points particularly to the discrepancy between old age pensions and nursing home costs.

Maximum old age assistance is \$67 a month, said the sub-committee, while the average charge of a licensed private nursing home is \$159 per month. Medical payments, said the committee, would be a help in closing this gap.

In 1958 a constitutional amendment was approved giving the legislature authority to set up such a program. It would cost approximately \$10,000,000 in state money, which would be

Local Congregation To Attend Meeting

The Hereford Congregation of Jehovah's Witnesses is cancelling all local meetings for their "Seek Peace and Pursue It" assembly in Altus, Oklahoma, September 24. About 14 from Hereford will attend.

The 19th congregation meet of Texas Circuit No. 9 will be held in the City Auditorium in Altus, Loyd Reddock, presiding minister of Jehovah's Witnesses in Hereford, said they are expecting 600 delegates from Texas, New Mexico and Oklahoma.

The program will consist of morning, afternoon and night sessions of Bible talks, discussions and demonstrations, designed to train the witness minister in seeking peace and pursuing it.

Chairman and supervisor of the three-day training program will be R. L. Anderson of Brooklyn, N.Y. Anderson a native of Montana who received a bachelor's degree in chemical engineering from Montana State College, began studying for the ministry in 1939, ordained as a minister of Jehovah's Witnesses in 1941 and was appointed to serve as district supervisor in 1953. Previous to this appointment Anderson served six years at Jehovah's Witnesses headquarters in Brooklyn.

The assembly highlight comes Sunday at 5 p.m., when Anderson speaks on the subject, "Finding Peace in This Troubled World."

REP. WALTER ROGERS WRITES:

Molotov Bounces Out Of Obscurity Into Headlines

To the people of the 18th District:

THE DANGER OF RED CHINA

Part I: The Deadly Argument
The man Lenin called "the best file clerk in Russia" has bounced out of obscurity and into the headlines once again. After a three-year exile as Russian Ambassador to Outer Mongolia, Vyacheslav Mikhailovich Molotov will soon re-enter the spender of full-fledged diplomatic life as delegate to the International Atomic Energy Agency. Molotov, who was Soviet Foreign Minister and Josef Stalin's closest associate, was swept from the Kremlin in 1947 for opposition to Nikita S. Khrushchev.

His withdrawal from the remote Mongolian capital of Ulan Bator touched off a chain of Western speculation. Outer Mongolia is a virtual subsidiary of Red China, and the prevailing thought seemed to be that the Russians felt Molotov has been a bit too sympathetic with the tough, unyielding policies of the Chinese. The Kremlin has been working to move Molotov to a new assign for more than a year, perhaps with the hope of finding this devoted Stalinist an atmosphere less agreeable to his own ideological tastes.

Molotov's transfer may thus be another symptom of a deep seated dispute between Soviet Russia and Red China. Although it has received scant general attention here, this dispute is of foremost importance in relation to our struggle

with the communist world. The grim argument between these two totalitarian giants may well be as vital to the survival of freedom as our own opposition to communism as a whole. For the central theme of the Russian-Chinese battle concerns nothing less than the necessity of all-out war with Eastern capitalism.

Red China not only believes in the inevitability of war, but even suggests that a nuclear holocaust might be a good thing. The Chinese leadership has stated that should half our people die in such a war the country would still have a greater

Beta Sigma Phi Holds Tea Sunday

Beta Sigma Phi held a "get acquainted" tea in the home of Mrs. Bess Moore Sunday afternoon, to signify the beginning of the club year.

Entertainment was provided by Mrs. Cecil Coker and Mrs. Sarah Miller, who played several piano selections.

The executive board, consisting of Mesdames Del Bainum, Bill Kendall, Don Bauzous, Frank Barrett, Larry Summers, Hicks Roberson, and Art McQueary, was hostess for the occasion.

Mrs. Summers gave the welcome. The house was decorated with summer flowers.

population than either Russia or America does today. This chilling attitude directly conflicts with Soviet pronouncements that war is "unthinkable" and that peaceful co-existence was a guiding principle for Lenin. None of this means, of course, that the Chinese seek war tomorrow or that the Russians have given up war forever. But the implications of the basic struggle are obvious.

Both the Soviet Union and Red China, since their very beginnings, have twisted the writings of Karl Marx to fit their own expedient purposes. Lenin's version of Communism could not be used in China, Mao Tse-tung's interpretation would have failed in Russia, and both leaders learned very quickly that the brittle dogmas of Marx were unworkable in any society. Thus Communism has developed into a highly nationalistic and authoritarian system which has radical differences in each country and which would be largely unrecognizable by Marx himself.

These traditional differences in interpretation led to open conflict between Moscow and Peking last spring, when the Red Chinese openly opposed a Summit Conference between East and West. There has been ample evidence since that time to indicate the extreme aggressiveness of China within the communist bloc. But for the immediate future, the Soviets seem to hold the winning cards. The Peiping regime is dependent upon

FIFTH OF SERIES

A. A. Paves Rocky Path

(Editor's note: This is the fifth of six articles on the growing menace of alcoholism and steps being taken to combat it in Texas. The series is issued by the Texas Commission on Alcoholism through the Deaf Smith County Council on Alcoholism, which aids the state organization on the community level.)

The truth was close to incredible — that this neatly groomed, middle-aged man on the speaker's platform and the disheveled, trembling wretch who had covered in a shadowy corner five months earlier were one and the same person.

He grinned nervously, swallowed, and finally spoke. "My name is Joe S., and I am an alcoholic."

Joe had some difficulty with his first A. A. talk, but he had a sympathetic audience. This was a weekly meeting of "his group," one of thousands composed of alcoholics who gather regularly to share their faith, hope, strength, and helpfulness so that each may lead a full

and satisfying life of sobriety. As Joe told it, the road that led him to that meeting had been a long and rocky one. It may have begun when his father abandoned a straight-laced, sharp-tongued wife, left her to raise their infant son. Perhaps it began when Joe had to quit high school, go to work as a plumber's helper, or when he got roaring drunk after his first taste of pay-day moonshine. Or it may have begun with some mysterious bio-chemical or glandular malfunction in early childhood or even before Joe was born.

However it began, Joe's drinking career sketches in classic outline the picture of a "low bottom drunk." It proceeded in deceptively unexceptional fashion during the early years. Joe learned to pace his drinking. He never took anything on the job, but usually had a few with the boys after work. He got drunk only when he set out to do so, was proud of his ability to "hold his liquor," scorned "wineo's" and "lushes."

Joe was quick, smart, work-

ed hard and became expert at his trade. A prosperous contractor took a fancy to him, backed him when he set up his own shop. He married a pretty girl, bought a neat, middle-class home, had two healthy sons. The world was Joe's oyster.

His first blackout — temporary loss of memory due to drinking — didn't worry Joe. Lots of fellows had such lapses. But as the years passed, Joe's wife and friends noticed changes in his drinking habits. He began gulping drinks, sneaking straight ones to get ahead of the crowd. Gradually, heavy drinking occasions became more frequent, blackouts almost routine. But Joe still wasn't worried. He could "take it or leave it alone — quit any time I want to."

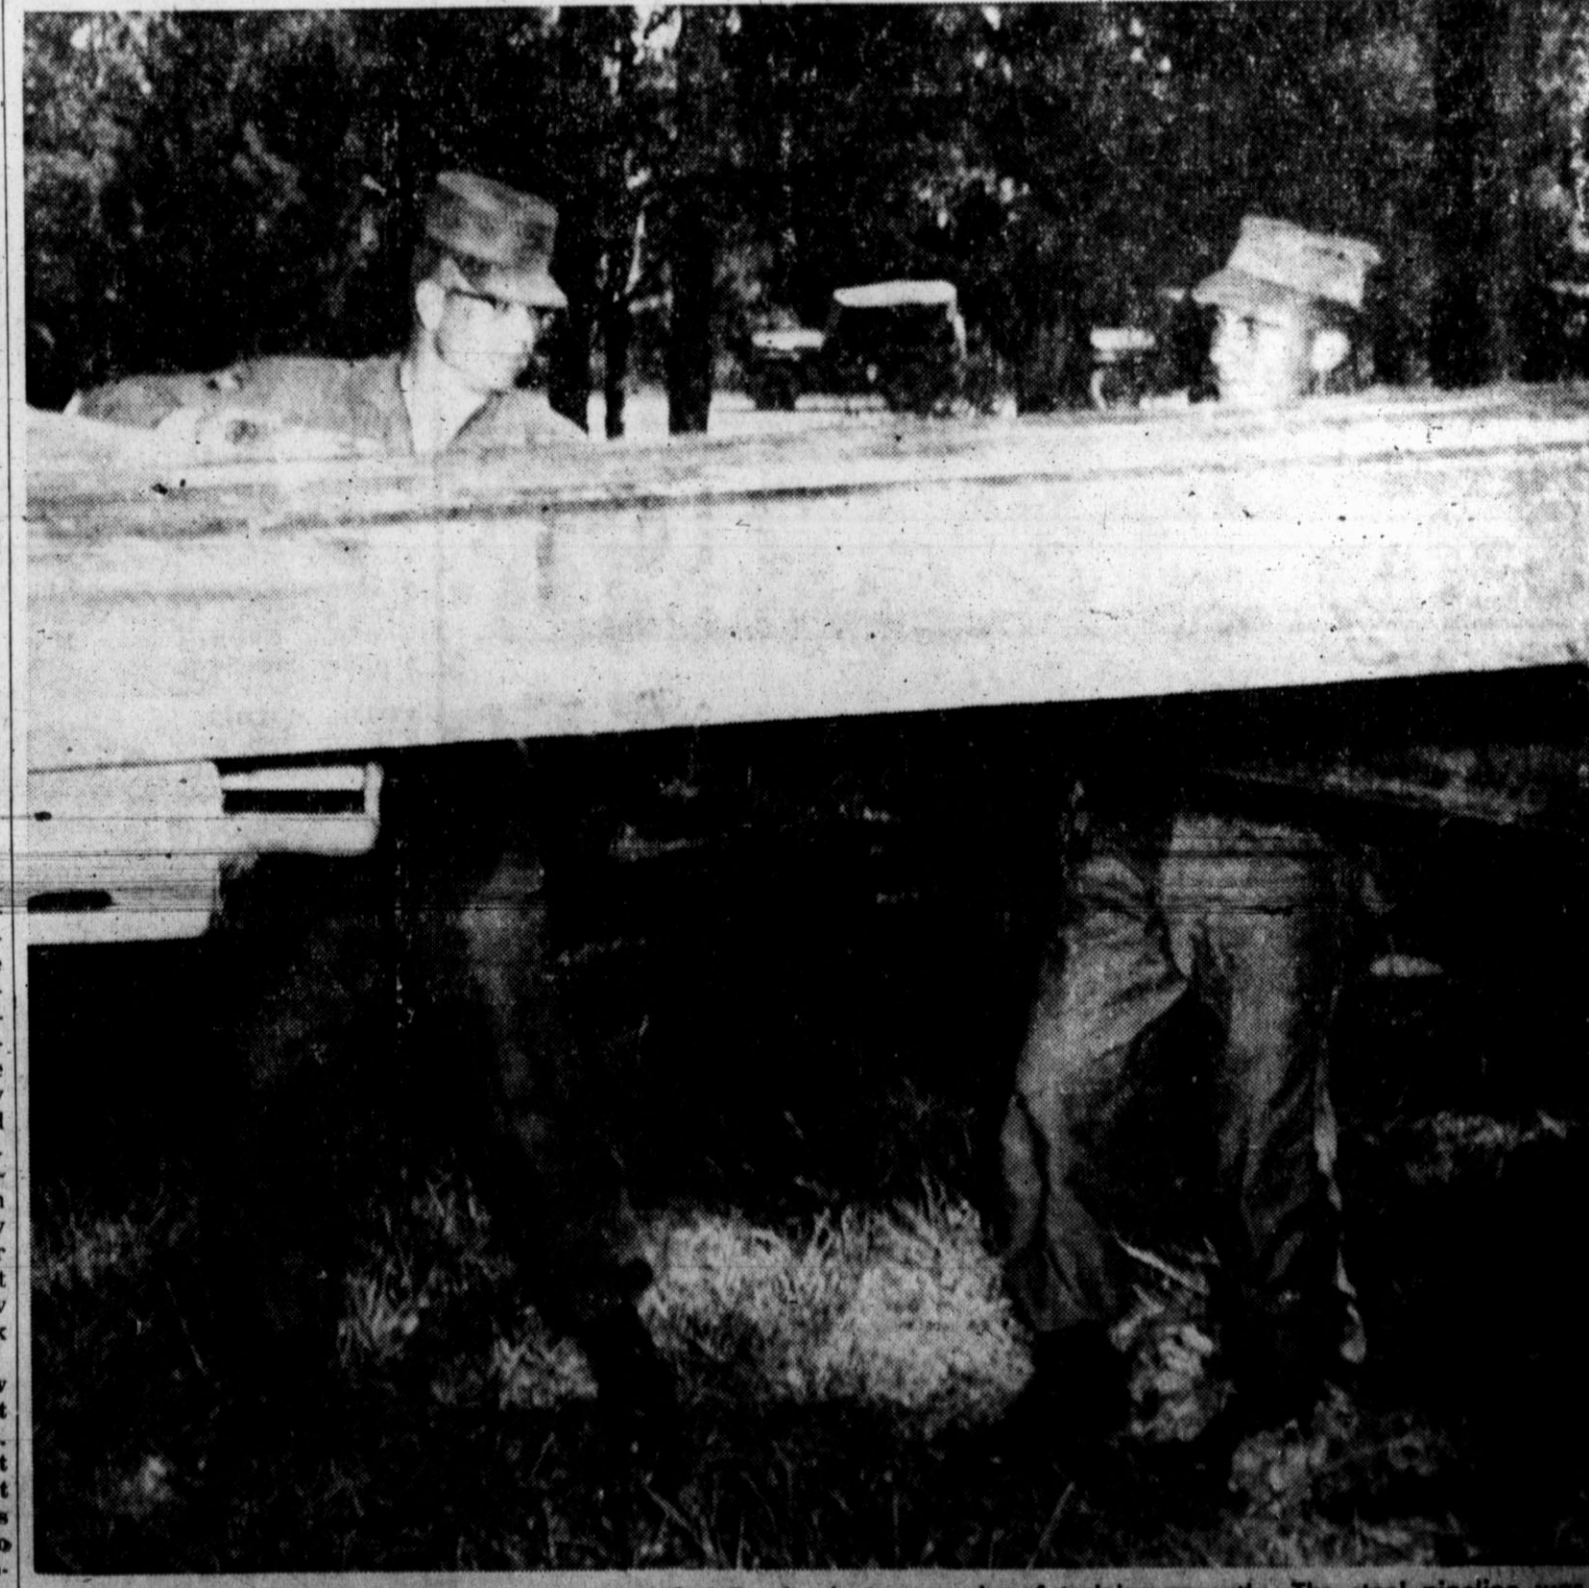

Then came the winter when Joe spent sober weeks figuring the plumbing contract for a big apartment house job. Three hours before the bidding deadline, Joe joined a cronny for a "couple of beers." He came to himself next day with the sheets of painfully compiled estimates

still in his pocket. After that, drinking became a daily — there a day — in — and — day — out — absorption. Disgusted friends dropped away. Joe abused his family, followed a abuse with ridiculously extravagant gifts of atonement. Finally, a hurt and bewildered wife packed the boys in the family car and left. Tools, shop, and home went up in alcohol fumes.

Joe took to the road, managed to eke out an existence on various construction jobs. Pay checks usually wound up in bar room tills. Robust health kept Joe out of hospitals, but he knew the inside of many jail's "drunk tank."

With all his might, Joe now wanted to stop drinking, but he never could quite make it. Every gray morning he "went on the water wagon," but haunting fears and relentless remorse drove him back to the bottle again — usually before noon. Even the bottle was losing its power to dispel his torments, and the nights were long nightmares.

West Texas State To Open Boys Ranch Rodeo Football Practice Thursday Slated Sept. 4-5

CANYON, (Special) — Freshmen will match the upper-classmen in numbers when West Texas State opens football practice Thursday.

Coach Joe Kerbel and his staff, priming for their first season in Buffalo land, are expecting from 35 to 40 freshmen in camp to go along with a roster of 38 sophomores, juniors and seniors. Freshmen are eligible for varsity play in the Border Conference.

The former builder of outstanding teams at Breckenridge and Amarillo high schools will stage twice a day drills every day except Sunday until Sept. 13, when registration begins. The Buffs open the season the following Saturday night, Sept. 17, against Texas Tech at Lubbock.

Workouts have been scheduled for 6:30 a. m. and 3:45 p. m. Sixteen lettermen will be returning from a West Texas team that won one and lost nine in 1959 and finished last in the Border Conference. The breakdown of upperclassmen includes eight seniors, 23 juniors and seven sophomores.

The obvious youthfulness of the squad will be one of the major weaknesses of a Buffalo squad that tackles a man-sized schedule. "We will lack experience, overall speed and inadequate depth at most key positions," summed up Coach Kerbel.

Gary Ward, 6-2, 205-pound senior tackle from Dumas, is the only Buff listed on the first unit after spring drills who was a full-fledged starter last fall. End Fred Hedgecock, 180-pound senior from Stimmett who was a second team All-Border Conference choice last year, will be back but is having to battle for a starting post.

A number of Buffs saw occasional starting duty last year. The list includes Jim Dawson, Borger sophomore quarterback; John Hall, 177-pound Pettit halfback who was hurt in the Arizona game; Jones Hedrick, 195-pound Panhandle senior who was the team's second leading rusher; Ned Jolly, 165-pound Phillips halfback; Billy Adams, Lubbock scabbard who was hurt against Texas West-

ern; Wayne Parker, 190-pound Crosbyton guard; Jerry Behrens, 210-pound Clarendon tackle; and Ray McCown, 190-pound Plainview halfback who performed at end last fall.

The Buffs will be light this fall with Behrens, end Ken Friemel and guard Bill Bradley the largest at 210. The starting line at close of spring drills averaged 196 and the backfield 189.

West Texas will have only 11 practice days to put the polish on a new offense before the season opener. Coach Kerbel is introducing a split-T, pro-type offense to the Buffs. "This type offense gives you the opportunity to combine a strong running game with a pro-type passing attack," said Kerbel. "It is a wide-open offense."

Spring drills indicated the Buffs will throw a lot this fall with Dawson, junior John David Bryant, and a newcomer — Bob Liles — handling the quarterback chores. Liles, a 185-pound junior, comes to West Texas fresh from the San Diego Marines. He had college experience at University of Wichita.

The Buffs' 10-game schedule is loaded with big assignments and the first is no exception. Kerbel, an assistant at Texas Tech the past two seasons, will return to meet his old boss, DeWitt Weaver, in an all-Plains skirmish. The game will be the first in Tech's enlarged 40,000-seat stadium.

As it has for the past three games with Tech, the West Texas Ex-Students Association is planning a special train to Lubbock. Complete details will be announced later.

The Buffs' first home game, the following Saturday, Sept. 21, will be a big one, too. Defending conference champion Arizona State University will move into spacious Buffalo Stadium and a special Amarillo Night promotion already is underway for that contest.

Following on successive week ends are Mississippi Southern at Hattiesburg; Texas Western, here; North Texas State, here; Hardin-Simmons at Abilene; U. of Arizona at Tucson; Trinity University, here; New Mexico State (Sun Bowl champion),

here; and U. of Wichita at Wichita.

Helping Coach Kerbel to get the Buffs ready for this challenging schedule will be a staff of four assistants. They are Joe Moss, former Texas Tech assistant with Kerbel; Jack Harris, ex-head coach at Pharr-San Juan-Alamo High School; Billy Willingham, former Sweetwater High School assistant; and John Roberts, assistant freshman coach at Tech last year.

The largest number of boys ever to participate in any rodeo are completing plans for their 16th Annual Boys Ranch Rodeo that will be held at Cal Farley's Boys Ranch over the Labor Day week end, Sept. 4 and 5.

SUNDAY VISITORS
Mr. and Mrs. Marvin Madison and family spent Sunday in Midland, where they visited Mrs. Madison's cousin, William Thompson.

VISITS AUNT
Mr. and Mrs. John Binder from Washington recently visited in the home of her aunt here, Mrs. Bob Bicknell. They were on their way to Dallas to visit her mother. Binder has just retired from 35 years of service in the Air Force.

England and the United States had a 72-hour work week in the 1840s.

Boys Ranchers, from eight to eighteen, will take part in the rodeo, either as contestants in the rodeo arena or as participants in the many behind-the-scenes activities that have made the rodeo the biggest Labor Day event in the Golden Spread.

Record-breaking attendance figures are expected to be set during the rodeo's two performances and 1000 extra seats have been installed to accommodate the crowds. All rodeo seating sections at the Ranch are shaded and two reserved sections have been set aside. Advance tickets for the reserved sections are now on sale at the Boys Ranch office in Amarillo.

Only Boys Ranchers will participate in the rodeo. Eighty-one boys have been selected to compete as rodeo contestants, riding professional rodeo stock. Compiling points under R. C. A. rules the older boys will ride bucking brones, steers and Brah-

ma bulls. The younger boys in the rodeo arena will ride calves and appear in special rodeo attractions. The only outside participation will be by members of the Amarillo Air Force Base band and representatives of various riding clubs throughout the Panhandle.

Both performances of the Boys Ranch Rodeo will be held at 2:30 Sunday and Monday afternoons. Proceeds from the rodeo will go to help the Boys Ranch expansion program.

TELEPHONE TALK

by Al Leach, Manager

WHAT WOULD YOU HAVE DONE?

Picture yourself in this situation: You're driving on a long trip with your family. You're in a hurry. A storm is brewing, black clouds move in fast. Dust and approaching night-fall obscure your vision. Suddenly, you see the red lights of a small, private plane, desperately circling, searching for a place to land. What would you do?

This was the situation facing T. O. Gravitt, a supervisor for Southwestern Bell, according to a story I heard the other day. Gravitt, a Naval Reservist with 17 years flying experience, understood the plight of the pilot.

Luckily, Gravitt was driving through the small town where he grew up and he knew there was an emergency landing field near the town.

There were no lights on the landing strip, so Gravitt rounded up other motorists who were watching and led them to the field. He had them park around the edge so their headlights would guide the pilot to the field.

Helped by the lights, the pilot set his plane down just as the storm hit.

Needless to say, there is one airplane pilot alive today who is thankful that telephone man, Gravitt saw his problem and knew what to do about it.

TELEPHONE HOUR RESUMES SEPTEMBER 30

First show of the Bell Telephone Hour's new season will be on Channel 4 at 8 P.M., September 30. The show's policy of bringing you top entertainment will be continued.

Don't miss the first program which will feature musical comedy stars Sally Ann Howes and Howard Keel, pianist Van Cliburn, clarinetist Benny Goodman and his orchestra excerpts from the "Sleeping Beauty" ballet by Tchaikovsky and Donald Voorhees and the Bell Telephone Hour Orchestra.

"BACK TO SCHOOL — DRIVE CAREFULLY"

For a time each fall, these phrases are probably the most noticed and carefully followed instructions in Hereford.

"Back to school — drive carefully" is such a sensible thought that it's a pity to limit its use to a few weeks each fall. For the small-fry, "Back to School" is a months-long activity; for the grownups, when is there a time NOT to "drive carefully"?

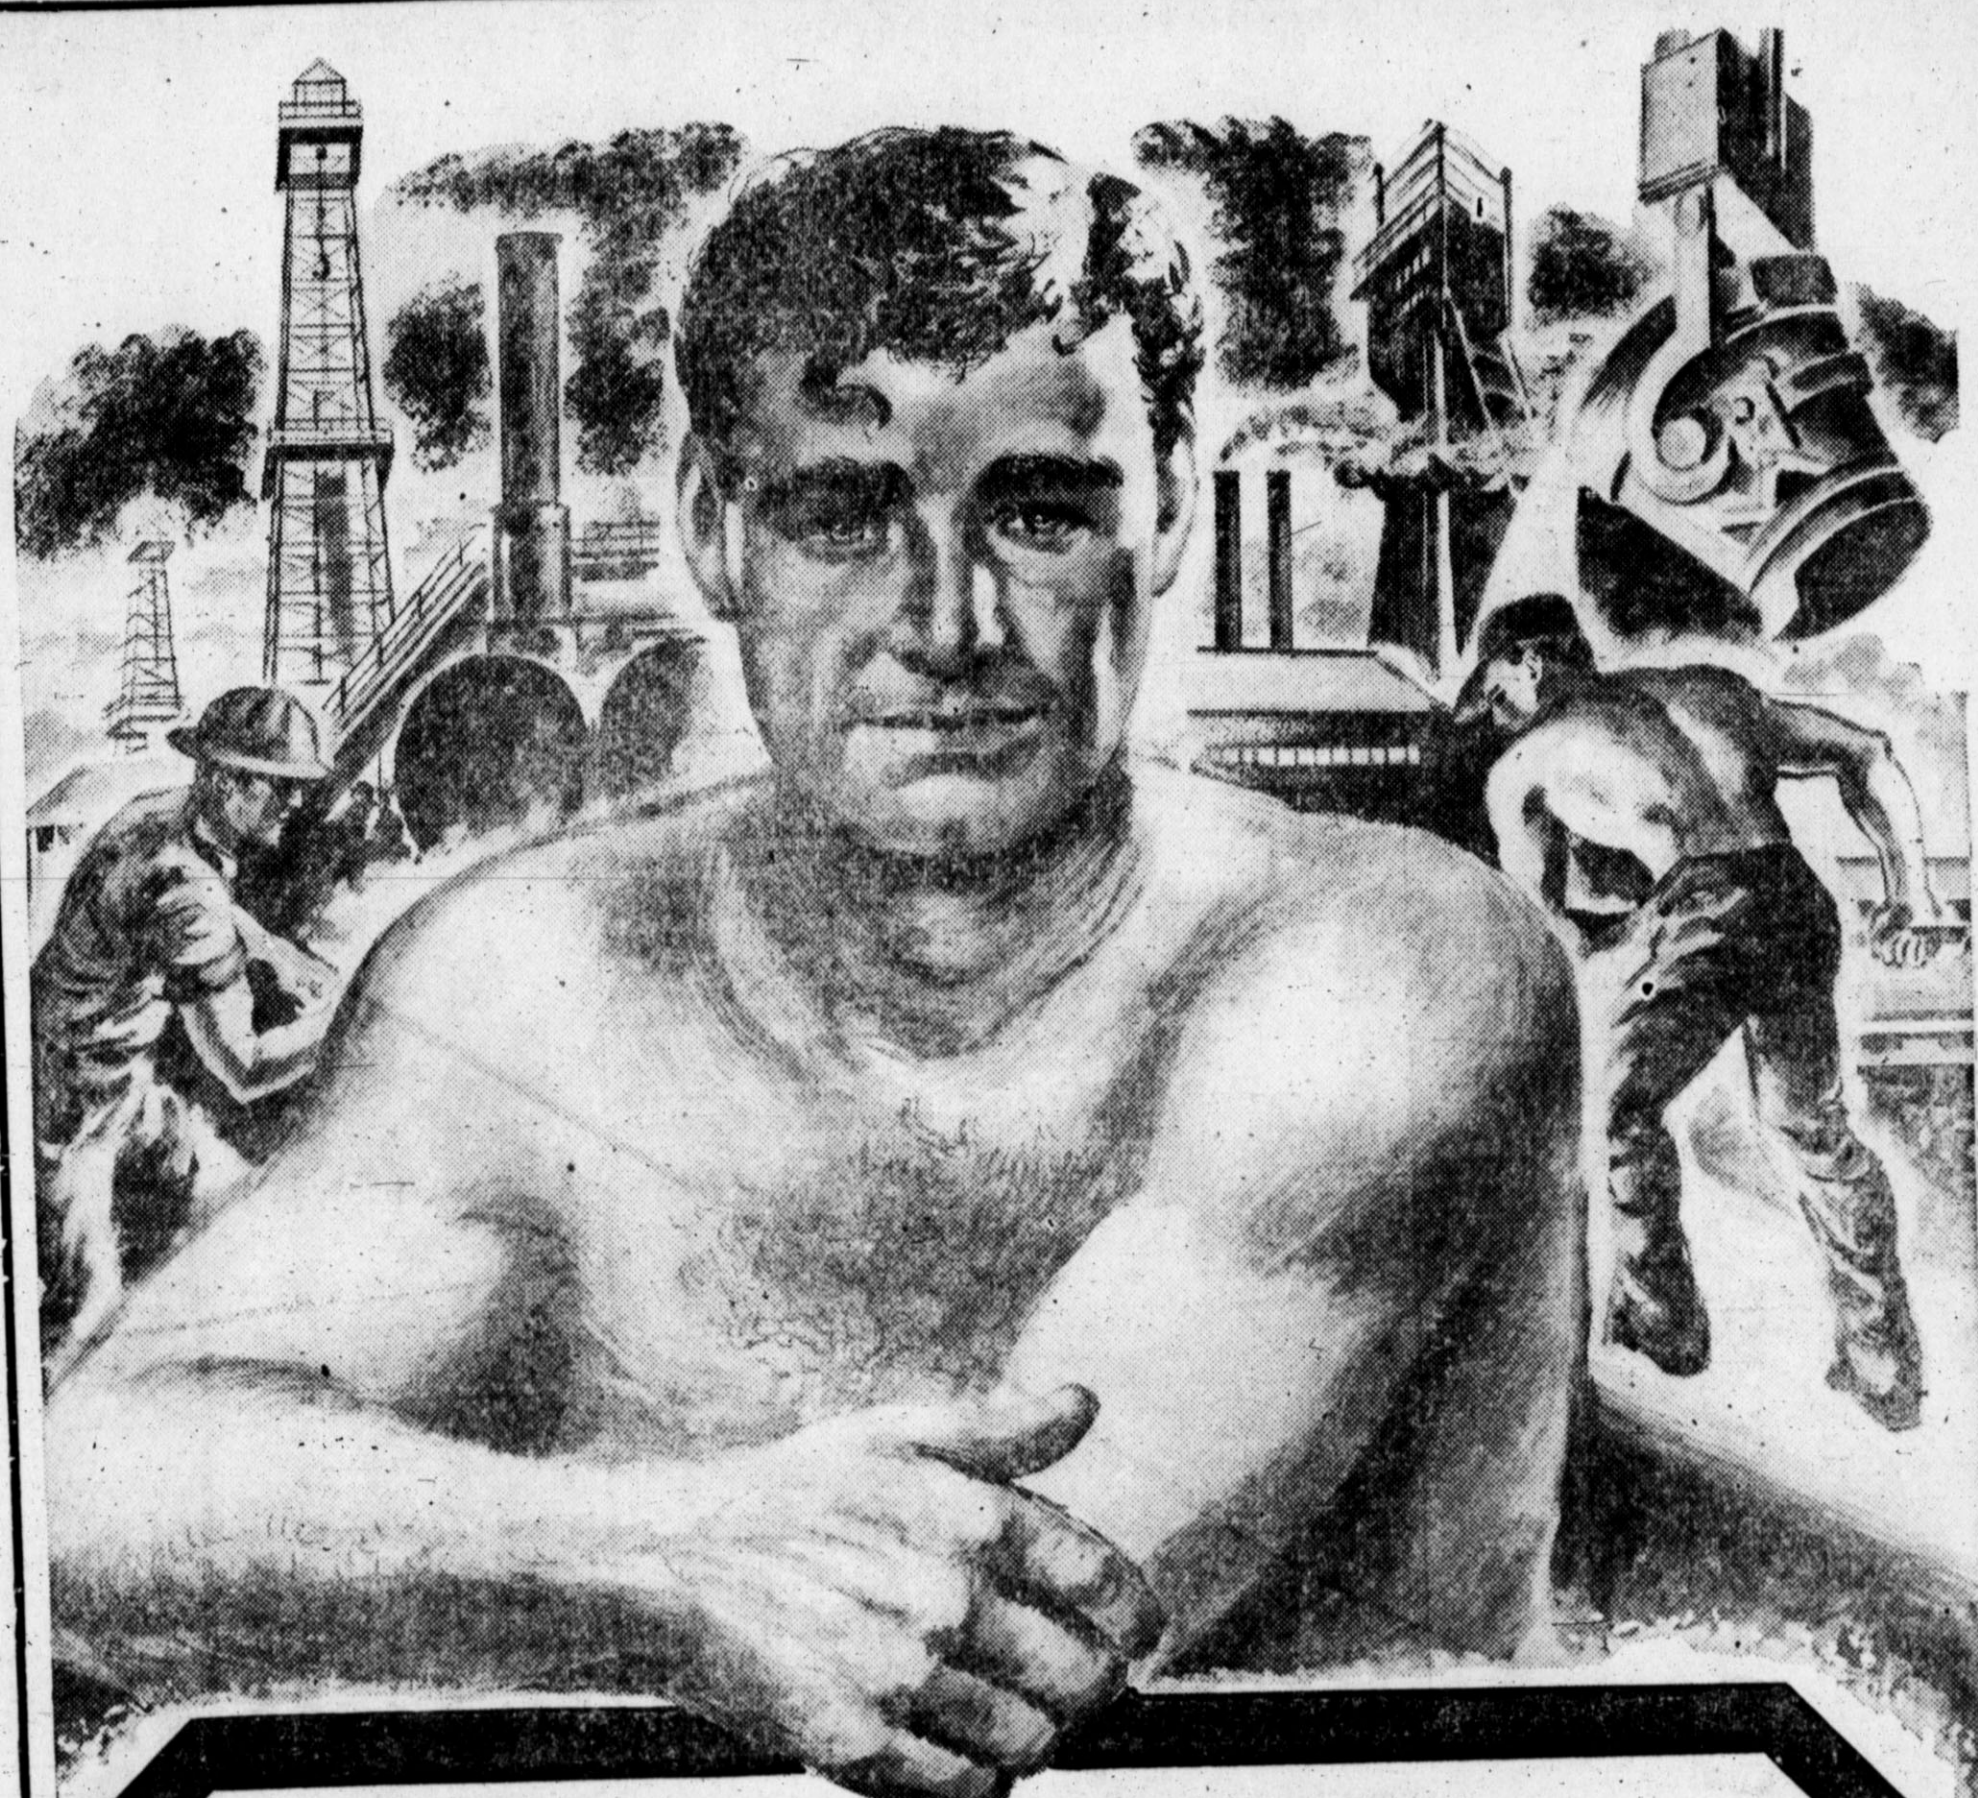

Call by number. It's twice as fast.

...and every man

shall receive his own reward, according to his own labour; for we are labourers together with God." Those lines from Corinthians, might well be the inspiration for the holiday America observes... a special day set aside to pay respect to those who labor to make our nation great and, consequently, keep it free. *This is Labor Day*... when each man and woman whose work helps keep the bulwark of Democracy strong, receives "his own reward" in the satisfaction of a job well done. It is not just another day for looking back on past accomplishment — *this Labor Day*. In a strange new scientific world which taxes comprehension, it is a time for looking ahead... for rededicating ourselves. We must need those Corinthian lines which asks us all to be "labourers together with God."
